Request that your Homeland Security member provide to the members which jurisdictions, either domestically or internationally that have systems that are deemed exceptional, take that wording in law, to provide a basis for a starting point for this working group.

Suggest a change to the process to original filing, yearly updates and any and all changes to;

[File a business document](#)

[Periodic report filing](#)

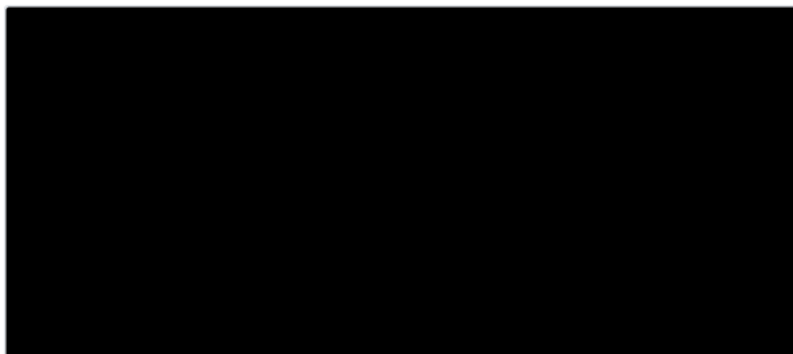

[Trade name renewal](#)

I suggest a secondary level of verification such as extra protection on logins and sensitive updates, sending a temporary code to verify the party updating information.

Send the code by text message
