

Colorado Register

48 CR 21

Volume 48 , No. 21

November 10, 2025

Introduction

The *Colorado Register* is published pursuant to C.R.S. 24-4-103(11) and is the sole official publication for state agency notices of rule-making, proposed rules, attorney general's opinions relating to such rules, and adopted rules. The register may also include other public notices including annual departmental regulatory agendas submitted by principal departments to the secretary of state.

"Rule" means the whole or any part of every agency statement of general applicability and future effect implementing, interpreting, or declaring law or policy or setting forth the procedure or practice requirements of any agency. "Rule" includes "regulation". C.R.S. 24-4-102(15). Adopted rules are effective twenty days after the publication date of this issue unless otherwise specified.

The *Colorado Register* is published by the office of the Colorado Secretary of State twice monthly on the tenth and the twenty-fifth. Notices of rule-making and adopted rules that are filed from the first through the fifteenth are published on the twenty-fifth of the same month, and those that are filed from the sixteenth through the last day of the month are published on the tenth of the following month. All filings are submitted through the secretary of state's electronic filing system.

For questions regarding the content and application of a particular rule, please contact the state agency responsible for promulgating the rule. For questions about this publication, please contact the Administrative Rules Program at rules@coloradosos.gov.

RULE 1 RULES FOR APPLICATION FOR A COLORADO ROAD AND COMMUNITY SAFETY ACT IDENTIFICATION DOCUMENTS § 42-2-501, C.R.S.

Purpose

The purpose of this rule is to set forth regulations for the application and issuance of driver's licenses, minor driver's licenses, instruction permits and Identification Cards for individuals who cannot demonstrate lawful presence in the United States and for individuals who can demonstrate Temporary Lawful Presence in the United States. These regulations establish the source documents that are acceptable to establish Identity, date of birth, Colorado residency, and, as applicable, Temporary Lawful Presence.

Statutory Authority

The statutory bases for this regulation are sections 24-4-103, 24-72.1-103, 42-1-204, C.R.S. and Title 42, Article 2, Parts 1, 2, 3, and 5.

Incorporation By Reference of Federal Law

The Department incorporates by reference as part of Rule 1 of the Department of Revenue Regulations, the Illegal Immigration Reform and Immigrant Responsibility Act of 1996, Pub. L. 104-208, section 384, 110 Stat. 3009 (Sept. 30, 1996), referred to in this Rule 1. Such Act is published by the Department of Homeland Security in full in the United States Statutes at Large, Volume 110, page 3009. Rule 1 does not include any later amendments or editions of such Act.

A copy of such Act is available for a reasonable charge from the Colorado Department of Revenue, Division of Motor Vehicles, Westgate Regional Service Center; the address can be found on the Department's website. A copy of such Act is maintained by the Colorado Department of Revenue and may be inspected by contacting the Westgate Regional Service Center Office Manager at the Colorado Department of Revenue during normal business hours. The incorporated material may also be examined at any state publications depository library. A copy, including a certified copy, of such Act is also available from the United States Citizenship and Immigration Services ("USCIS") Historical Reference Library at 111 Massachusetts Avenue NW, First Floor (MS2180), Washington, DC 20529-2180.

(100) Definitions

- a) Applicant – Any natural person applying to the Department for a Colorado Identification Document who can demonstrate Temporary Lawful Presence in the U.S., or who cannot demonstrate lawful presence in the U.S.
- b) CO-RCSA – The Colorado Road and Community Safety Act, part 5 of Title 42 C.R.S.
- c) Department – The Colorado Department of Revenue.

- d) Document – An original document certified by the issuing agency, an amended original document certified by the issuing agency, or a true copy certified by the issuing agency, excluding miniature, wallet sized, or photocopies of documents.
- e) Exceptions Processing – The procedure the Department has established for persons who are unable, for reasons beyond their control, to present all necessary Documents and must rely on alternative Documents to establish Identity or date of birth.
- f) Full Legal Name – The Applicant’s first name, middle name(s), and last name or surname, without use of initials or nicknames.
- g) Hearing – Hearing before a Department Administrative Hearing Officer.
- h) Identification Card – A Document issued by a Department of Motor Vehicles or its equivalent that contains the Applicant’s Full Legal Name, full facial digital photograph, date of birth, and sex, but does not confer upon the bearer the right to operate a motor vehicle.
- i) Identification Document – Has the same meaning as defined in C.R.S. 42-2-503(1).
- j) Identity –The verifiable characteristics that when taken together make a person unique and identifiable. Evidence of Identity includes proof of Full Legal Name, date of birth, and physical characteristics, including a verifiable photograph.
- k) Incomplete Application – An application for a CO-RCSA Identification Document that does not satisfy state requirements for the issuance of a CO-RCSA Identification Document.
- l) Individual Taxpayer Identification Number (ITIN) – A tax processing number issued by the Internal Revenue Service (IRS) as shown on an ITIN card issued by the IRS, on a letter from the IRS, or on a certified state tax return.
- m) Temporary Lawful Presence – The status of a person whose authority to lawfully remain in the United States is temporary and who qualifies for a CO-RCSA Identification Document.
- n) SSA – The U.S. Social Security Administration.
- o) SSN – The Social Security Number issued by SSA.
- p) SSOLV – The Social Security Online Verification system managed by SSA.

(200) Qualifications for CO-RCSA Identification Documents

- a) Pursuant to section 42-2-506, C.R.S., individuals claiming Temporary Lawful Presence in the United States who apply for an Identification Document, must:
 - 1. Provide Documents that demonstrate the Applicant’s Identity:
 - i. A foreign passport bearing a photograph of the Applicant, valid or expired less than 10 years;
 - ii. An Employment Authorization Document (EAD, Form I-766), valid or expired less than 10 years;
 - iii. A Colorado Identification Document, valid or expired less than 10 years;
 - iv. A driver license, instruction permit, or identification card issued by a state or territory of the United States, valid or expired less than 10 years; or

- v. A consular identification card, valid or expired less than 10 years.
2. Provide valid documentary evidence of Temporary Lawful Presence:
- i. Unexpired foreign passport with unexpired I-94 showing class of admission;
 - ii. Unexpired Employment Authorization Document (EAD, Form I-766);
 - A. Expired Employment Authorization Document (EAD, Form I-766) automatically extended due to a Temporary Protected Stay;
 - iii. Expired Employment Authorization Document (EAD, Form I-766) with I-797C Notice of Action demonstrating receipt of an Application for Employment Authorization, evidencing an applicable unexpired automatic extension issued within 5 years of the date of application;
 - iv. I-797C Notice of Action demonstrating receipt of an Application to Register Permanent Residence or Adjust Status issued within 5 years of the date of application;
 - v. I-797C Notice of Action demonstrating receipt of an Application for Asylum issued within 5 years of the date of application;
 - vi. I-797C Notice of Action demonstrating receipt of an Application for or Grant of Temporary Protected Status issued within 5 years of the date of application;
 - vii. I-797C Notice of Action demonstrating receipt of an application for change or extension of status issued within 2 years of the date of application; or
 - viii. An I-797C listed above, dated outside of the specified timeframe, with written evidence from the U.S. Citizenship and Immigration Services that the application is still pending.
3. Present proof of current residential address in Colorado.
- i. To document the address of principal residence in Colorado, an Applicant must present at least one article of documentation that includes the Applicant's name and address of principal residence. Examples include, but are not limited to: utility bill, credit card statements, pay stub or earnings statement, rent receipt, telephone bill, or bank statement.
- b) Pursuant to section 42-2-505, C.R.S., Applicants who apply for an Identification Document, who cannot demonstrate lawful presence in the United States, must:
- 1. Present proof of current residential address in Colorado.

- e) A Colorado street address must be displayed on the Identification Document except as provided below:
 - 1. An alternative address may be displayed for individuals for whom a State law, regulation, or DMV procedure permits display of an alternative address.
 - 2. An alternative address may be displayed for individuals who satisfy any of the following:
 - i. If the individual is enrolled in the Colorado Address Confidentiality Program, which allows victims of domestic violence, dating violence, sexual assault, stalking, or a severe form of trafficking, to keep, obtain and use alternative addresses, and provides that the address of such person must be kept confidential; or
 - ii. If the individual is entitled to have their address suppressed under state or federal law or suppressed by a court order including an administrative order issued by a State or Federal court; or
 - iii. If the individual is protected from disclosure of information pursuant to section 384 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996.
 - 3. In areas where a number and street name has not been assigned for U.S. mail delivery, an address convention used by the U.S. Postal Service is acceptable.

(300) Process for Translation

- a) All Documents provided to the Department by the Applicant shall be in English or have been translated into English.
- b) The original and corresponding translated Documents shall be presented together at the time of application.
- c) All translated Documents must have the following included at the end (must be typed or electronically printed on the same page as the translation, not on separate pieces of paper or the translation will not be accepted by the Department):
 - 1. An attestation that states: "I, [insert translator's full name], affirm that the foregoing is a complete and accurate translation from [insert foreign language] to the English language to the best of my ability. I further affirm that I am fully competent to translate from [insert foreign language] to the English language and that I am proficient in both languages;" and
 - 2. The number and state of issuance of the translator's unexpired driver's license, instruction permit, or Identification Card.
- d) All translated Documents and information required by Section 300(c) shall be included in the Applicant's permanent motor vehicle record.
- e) Applicants are responsible for all costs of translation.

(400) Fee Structure

- a) The cost for a CO-RCSA driver's license or a minor driver's license is \$34.00, which includes an additional fee to cover direct and indirect costs. The cost for a CO-RCSA instruction permit is \$21.50, which includes an additional fee to cover direct and indirect costs. The cost for a CO-RCSA Identification Card is \$13.30, which includes an additional fee to cover direct and indirect costs.

(500) Qualifications for Renewal

- a) CO-RCSA Identification Documents will expire three years after the date of issuance except as provided below:
 - 1. A driver's license issued to an Applicant under 21 will expire three years after the date of issuance or 20 days after the 21st birthday of the Applicant (whichever comes first).
 - 2. An Identification Card or instruction permit issued to an Applicant under 21 will expire three years after the date of issuance or on the 21st birthday of the Applicant (whichever comes first).
- b) Applicants may apply in person, by mail, or electronically in accordance with C.R.S. 42-2-118 or 42-2-304 to renew a CO-RCSA Identification Documents.
 - 1. Applicants over the age of 21 can renew Identification Documents electronically.
 - 2. Renewals by mail and electronic renewals will not be processed with an out of state mailing address.
- c) An Applicant seeking to renew an Identification Document is required to present the same documentation as required under Section 200 of this rule, except that an applicant who cannot demonstrate lawful presence may present a Colorado Identification Document expired less than one year instead of the Identity documentation required by Section 200(b)(5).

(600) Qualifications for Issuance of a Duplicate Credential

- a) Applicants may apply for a duplicate of an existing CO-RCSA Instruction Permit or Driver's License as provided below:
 - 1. Applicants must appear in person and certify, under penalty of perjury, that the previous credential was lost, stolen, or destroyed by completing the "Request for Duplicate Instruction Permit/Driver License" (DR2989) form provided by the Department.
 - 2. Eligible Applicants may submit an electronic application, on which the Applicant must certify, under penalty of perjury, that the previous credential was lost, stolen, or destroyed.

3. Applicants must present proof Documents as required in Section 200.
4. A duplicate will not be issued to an Applicant with a lawful presence status that has changed since issuance of the previous credential. A change of lawful presence status requires renewal.

(700) Electronic Applications

- a) The Department may accept electronic applications for services provided electronically.
- b) The Department may accept an application electronically if the Applicant's fingerprint was captured as part of a previous application.
- c) The Department may accept an application electronically if a signature was captured as part of a previous application and if the Applicant verifies the information on the application.

(800) Process for Complete Application

- a) When an Applicant has completed the required application and established the standards set forth in this rule, the Applicant will be required to review and verify the information on the application by signing a "signature capture device," a fingerprint will be captured, and a photograph of the Applicant will be taken. A temporary CO-RCSA Identification Document will be issued. The permanent CO-RCSA Identification Document will be mailed to the Applicant at the address provided on the Applicant's application.

(900) Process for Incomplete Application

- a) If an application is incomplete or the Applicant has failed to provide Documents verifiable by the Department for Identity, date of birth, residency, and, as applicable, Temporary Lawful Presence, the Department shall provide a Notice of Incomplete Application unless the Department provides a Notice of Denial per Section 1000 below.
- b) The Notice of Incomplete Application shall include a notation of the information that is incomplete, or of the documentation that is unverifiable. If the authenticity of a Document cannot be verified, then an application may be considered incomplete and additional documentation may be required, or the Applicant may be referred to Exceptions Processing. An Applicant may return to the Department with the required additional documentation prior to being denied an Identification Document.

(1000) Denial of Application

- a) If an application is incomplete or the Applicant has failed to provide Documents verifiable by the Department for Identity, date of birth, residency, and, as applicable, Temporary Lawful Presence, the Department shall provide a Notice of Denial.

- b) Nothing in this regulation shall be construed to prevent the Department from denying an application on the basis that an Applicant has presented Documents that are fraudulent or that are not verifiable.
- c) Nothing in this regulation restricts or prohibits the Department from verifying any Document presented by an Applicant.
- d) An application shall be denied if the Applicant presents fraudulent or altered Documents or commits any other fraud in the application process.

(1100) Hearing and Final Agency Action

- a) An Applicant who has received a Notice of Denial may, within 60 days of the date of the Notice of Denial, request a hearing on the denial by filing a written request for hearing with the Hearings Section of the Department at 1881 Pierce St. Entrance B, #112, Lakewood, CO 80214.
- b) Hearings shall be held in accordance with the provisions of the State Administrative Procedure Act, and the provisions of Title 42 of the Colorado Revised Statutes.
- c) The only issue at a hearing shall be whether the Applicant has satisfied federal and state requirements for the issuance of an Identification Document.
- d) The hearing officer shall issue a written decision. If the hearing officer finds that the Applicant has not satisfied federal and state requirements for the issuance of an Identification Document, then the denial shall be sustained. If the hearing officer finds that the Applicant has satisfied requirements for the issuance of an Identification Document, then the denial shall be rescinded and the Department shall issue an Identification Document.
- e) The decision by the hearing officer shall constitute final agency action, and is subject to judicial review as provided by section 24-4-106, C.R.S.

RULE 1 RULES FOR APPLICATION FOR A COLORADO ROAD AND COMMUNITY SAFETY ACT IDENTIFICATION DOCUMENTS § 42-2-501, C.R.S.

Purpose

The purpose of this rule is to set forth regulations for the application and issuance of driver's licenses, minor driver's licenses, instruction permits and Identification Cards for individuals who cannot demonstrate lawful presence in the United States and for individuals who can demonstrate Temporary Lawful Presence in the United States. These regulations establish the source documents that are acceptable to establish Identity, date of birth, Colorado residency, and, as applicable, Temporary Lawful Presence.

Statutory Authority

The statutory bases for this regulation are sections 24-4-103, 24-72.1-103, 42-1-204, C.R.S. and Title 42, Article 2, Parts 1, 2, 3, and 5.

Incorporation By Reference of Federal Law

The Department incorporates by reference as part of Rule 1 of the Department of Revenue Regulations, the Illegal Immigration Reform and Immigrant Responsibility Act of 1996, Pub. L. 104-208, section 384, 110 Stat. 3009 (Sept. 30, 1996), referred to in this Rule 1. Such Act is published by the Department of Homeland Security in full in the United States Statutes at Large, Volume 110, page 3009. Rule 1 does not include any later amendments or editions of such Act.

A copy of such Act is available for a reasonable charge from the Colorado Department of Revenue, Division of Motor Vehicles, Westgate Regional Service Center; the address can be found on the Department's website. A copy of such Act is maintained by the Colorado Department of Revenue and may be inspected by contacting the Westgate Regional Service Center Office Manager at the Colorado Department of Revenue during normal business hours. The incorporated material may also be examined at any state publications depository library. A copy, including a certified copy, of such Act is also available from the United States Citizenship and Immigration Services ("USCIS") Historical Reference Library at 111 Massachusetts Avenue NW, First Floor (MS2180), Washington, DC 20529-2180.

(100) Definitions

- a) Applicant – Any natural person applying to the Department for a Colorado Identification Document who can demonstrate Temporary Lawful Presence in the U.S., or who cannot demonstrate lawful presence in the U.S.
- b) CO-RCSA – The Colorado Road and Community Safety Act, part 5 of Title 42 C.R.S.
- c) Department – The Colorado Department of Revenue.

- d) Document – An original document certified by the issuing agency, an amended original document certified by the issuing agency, or a true copy certified by the issuing agency, excluding miniature, wallet sized, or photocopies of documents.
- e) Exceptions Processing – The procedure the Department has established for persons who are unable, for reasons beyond their control, to present all necessary Documents and must rely on alternative Documents to establish Identity or date of birth.
- f) Full Legal Name – The Applicant’s first name, middle name(s), and last name or surname, without use of initials or nicknames.
- g) Hearing – Hearing before a Department Administrative Hearing Officer.
- h) Identification Card – A Document issued by a Department of Motor Vehicles or its equivalent that contains the Applicant’s Full Legal Name, full facial digital photograph, date of birth, and sex, but does not confer upon the bearer the right to operate a motor vehicle.
- i) Identification Document – Has the same meaning as defined in C.R.S. 42-2-503(1).
- j) Identity –The verifiable characteristics that when taken together make a person unique and identifiable. Evidence of Identity includes proof of Full Legal Name, date of birth, and physical characteristics, including a verifiable photograph.
- k) Incomplete Application – An application for a CO-RCSA Identification Document that does not satisfy state requirements for the issuance of a CO-RCSA Identification Document.
- l) Individual Taxpayer Identification Number (ITIN) – A tax processing number issued by the Internal Revenue Service (IRS) as shown on an ITIN card issued by the IRS, on a letter from the IRS, or on a certified state tax return.
- m) Temporary Lawful Presence – The status of a person whose authority to lawfully remain in the United States is temporary and who qualifies for a CO-RCSA Identification Document.
- n) SSA – The U.S. Social Security Administration.
- o) SSN – The Social Security Number issued by SSA.
- p) SSOLV – The Social Security Online Verification system managed by SSA.

(200) Qualifications for CO-RCSA Identification Documents

- a) Pursuant to section 42-2-506, C.R.S., individuals claiming Temporary Lawful Presence in the United States who apply for an Identification Document, must:
 - 1. Provide Documents that demonstrate the Applicant’s Identity:
 - i. A foreign passport bearing a photograph of the Applicant, valid or expired less than 10 years;
 - ii. An Employment Authorization Document (EAD, Form I-766), valid or expired less than 10 years;
 - iii. A Colorado Identification Document, valid or expired less than 10 years;
 - iv. A driver license, instruction permit, or identification card issued by a state or territory of the United States, valid or expired less than 10 years; or

- v. A consular identification card, valid or expired less than 10 years.
2. Provide valid documentary evidence of Temporary Lawful Presence:
- i. Unexpired foreign passport with unexpired I-94 showing class of admission;
 - ii. Unexpired Employment Authorization Document (EAD, Form I-766);
 - A. Expired Employment Authorization Document (EAD, Form I-766) automatically extended due to a Temporary Protected Stay;
 - iii. Expired Employment Authorization Document (EAD, Form I-766) with I-797C Notice of Action demonstrating receipt of an Application for Employment Authorization, evidencing an applicable unexpired automatic extension issued within 5 years of the date of application;
 - iv. I-797C Notice of Action demonstrating receipt of an Application to Register Permanent Residence or Adjust Status issued within 5 years of the date of application;
 - v. I-797C Notice of Action demonstrating receipt of an Application for Asylum issued within 5 years of the date of application;
 - vi. I-797C Notice of Action demonstrating receipt of an Application for or Grant of Temporary Protected Status issued within 5 years of the date of application;
 - vii. I-797C Notice of Action demonstrating receipt of an application for change or extension of status issued within 2 years of the date of application; or
 - viii. An I-797C listed above, dated outside of the specified timeframe, with written evidence from the U.S. Citizenship and Immigration Services that the application is still pending.
3. Present proof of current residential address in Colorado.
- i. To document the address of principal residence in Colorado, an Applicant must present at least one article of documentation that includes the Applicant's name and address of principal residence. Examples include, but are not limited to: utility bill, credit card statements, pay stub or earnings statement, rent receipt, telephone bill, or bank statement.
- b) Pursuant to section 42-2-505, C.R.S., Applicants who apply for an Identification Document, who cannot demonstrate lawful presence in the United States, must:
- 1. Present proof of current residential address in Colorado.

- e) A Colorado street address must be displayed on the Identification Document except as provided below:
 - 1. An alternative address may be displayed for individuals for whom a State law, regulation, or DMV procedure permits display of an alternative address.
 - 2. An alternative address may be displayed for individuals who satisfy any of the following:
 - i. If the individual is enrolled in the Colorado Address Confidentiality Program, which allows victims of domestic violence, dating violence, sexual assault, stalking, or a severe form of trafficking, to keep, obtain and use alternative addresses, and provides that the address of such person must be kept confidential; or
 - ii. If the individual is entitled to have their address suppressed under state or federal law or suppressed by a court order including an administrative order issued by a State or Federal court; or
 - iii. If the individual is protected from disclosure of information pursuant to section 384 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996.
 - 3. In areas where a number and street name has not been assigned for U.S. mail delivery, an address convention used by the U.S. Postal Service is acceptable.

(300) Process for Translation

- a) All Documents provided to the Department by the Applicant shall be in English or have been translated into English.
- b) The original and corresponding translated Documents shall be presented together at the time of application.
- c) All translated Documents must have the following included at the end (must be typed or electronically printed on the same page as the translation, not on separate pieces of paper or the translation will not be accepted by the Department):
 - 1. An attestation that states: "I, [insert translator's full name], affirm that the foregoing is a complete and accurate translation from [insert foreign language] to the English language to the best of my ability. I further affirm that I am fully competent to translate from [insert foreign language] to the English language and that I am proficient in both languages;" and
 - 2. The number and state of issuance of the translator's unexpired driver's license, instruction permit, or Identification Card.
- d) All translated Documents and information required by Section 300(c) shall be included in the Applicant's permanent motor vehicle record.
- e) Applicants are responsible for all costs of translation.

(400) Fee Structure

- a) ~~For those who cannot demonstrate lawful presence, the~~ The fee cost for a CO-RCSA driver's license or a minor driver's license is \$34.00, which includes an additional fee to cover direct and indirect costs. The cost for a CO-RCSA instruction permit is \$21.50, which includes an additional fee to cover direct and indirect costs. The cost for a CO-RCSA Identification Card is \$13.30, which includes an additional fee to cover direct and indirect costs.
- b) ~~For those who can demonstrate Temporary Lawful Presence, the cost for a CO-RCSA driver's license or minor driver's license under section 42-2-506, C.R.S. is \$32.00. The cost for a CO-RCSA instruction permit is \$19.00. The cost for a CO-RCSA Identification Card is \$13.00.~~

(500) Qualifications for Renewal

- a) CO-RCSA Identification Documents will expire three years after the date of issuance except as provided below:
 - 1. A driver's license issued to an Applicant under 21 will expire three years after the date of issuance or 20 days after the 21st birthday of the Applicant (whichever comes first).
 - 2. An Identification Card or instruction permit issued to an Applicant under 21 will expire three years after the date of issuance or on the 21st birthday of the Applicant (whichever comes first).
- b) Applicants may apply in person, by mail, or electronically in accordance with C.R.S. 42-2-118 or 42-2-304 to renew a CO-RCSA Identification Documents.
 - 1. Applicants over the age of 21 can renew Identification Documents electronically.
 - 2. Renewals by mail and electronic renewals will not be processed with an out of state mailing address.
- c) An Applicant seeking to renew an Identification Document is required to present the same documentation as required under Section 200 of this rule, except that an applicant who cannot demonstrate lawful presence may present a Colorado Identification Document expired less than one year instead of the Identity documentation required by Section 200(b)(5).

(600) Qualifications for Issuance of a Duplicate Credential

- a) Applicants may apply for a duplicate of an existing CO-RCSA Instruction Permit or Driver's License as provided below:

1. Applicants must appear in person and certify, under penalty of perjury, that the previous credential was lost, stolen, or destroyed by completing the "Request for Duplicate Instruction Permit/Driver License" (DR2989) form provided by the Department.
2. Eligible Applicants may submit an electronic application, on which the Applicant must certify, under penalty of perjury, that the previous credential was lost, stolen, or destroyed.
3. Applicants must present proof Documents as required in Section 200.
4. A duplicate will not be issued to an Applicant with a lawful presence status that has changed since issuance of the previous credential. A change of lawful presence status requires renewal.

(700) Electronic Applications

- a) The Department may accept electronic applications for services provided electronically.
- b) The Department may accept an application electronically if the Applicant's fingerprint was captured as part of a previous application.
- c) The Department may accept an application electronically if a signature was captured as part of a previous application and if the Applicant verifies the information on the application.

(800) Process for Complete Application

- a) When an Applicant has completed the required application and established the standards set forth in this rule, the Applicant will be required to review and verify the information on the application by signing a "signature capture device," a fingerprint will be captured, and a photograph of the Applicant will be taken. A temporary CO-RCSA Identification Document will be issued. The permanent CO-RCSA Identification Document will be mailed to the Applicant at the address provided on the Applicant's application.

(900) Process for Incomplete Application

- a) If an application is incomplete or the Applicant has failed to provide Documents verifiable by the Department for Identity, date of birth, residency, and, as applicable, Temporary Lawful Presence, the Department shall provide a Notice of Incomplete Application unless the Department provides a Notice of Denial per Section 1000 below.
- b) The Notice of Incomplete Application shall include a notation of the information that is incomplete, or of the documentation that is unverifiable. If the authenticity of a Document cannot be verified, then an application may be considered incomplete and additional documentation may be required, or the Applicant may be referred to Exceptions Processing. An Applicant may return to the Department with the required additional documentation prior to being denied an Identification Document.

(1000) Denial of Application

- a) If an application is incomplete or the Applicant has failed to provide Documents verifiable by the Department for Identity, date of birth, residency, and, as applicable, Temporary Lawful Presence, the Department shall provide a Notice of Denial.
- b) Nothing in this regulation shall be construed to prevent the Department from denying an application on the basis that an Applicant has presented Documents that are fraudulent or that are not verifiable.
- c) Nothing in this regulation restricts or prohibits the Department from verifying any Document presented by an Applicant.
- d) An application shall be denied if the Applicant presents fraudulent or altered Documents or commits any other fraud in the application process.

(1100) Hearing and Final Agency Action

- a) An Applicant who has received a Notice of Denial may, within 60 days of the date of the Notice of Denial, request a hearing on the denial by filing a written request for hearing with the Hearings Section of the Department at 1881 Pierce St. Entrance B, #112, Lakewood, CO 80214.
- b) Hearings shall be held in accordance with the provisions of the State Administrative Procedure Act, and the provisions of Title 42 of the Colorado Revised Statutes.
- c) The only issue at a hearing shall be whether the Applicant has satisfied federal and state requirements for the issuance of an Identification Document.
- d) The hearing officer shall issue a written decision. If the hearing officer finds that the Applicant has not satisfied federal and state requirements for the issuance of an Identification Document, then the denial shall be sustained. If the hearing officer finds that the Applicant has satisfied requirements for the issuance of an Identification Document, then the denial shall be rescinded and the Department shall issue an Identification Document.
- e) The decision by the hearing officer shall constitute final agency action, and is subject to judicial review as provided by section 24-4-106, C.R.S.

Rule title

HARD ROCK, METAL, AND DESIGNATED MINING OPERATIONS

Rulemaking Hearing**Date**

02/18/2026

Time

09:00 AM

Location

1313 Sherman St., Room 318 Denver, CO 80203

Subjects and issues involved

The primary reason for adopting the proposed Rules is to implement the new areas of authority and regulation set forth in SB 25-054, including the creation of the 110 Reclamation-Only permit type, to modernize the Act and clarify and/or codify current Division procedures and regulatory practices, and to clarify or eliminate types of Financial Warranties. Senate Bill 25-054, through implementation by these amended Rules, will streamline administration of forfeited funds by placing all revoked reclamation funds with the program that has the responsibility for oversight of reclamation, and to align with current financial practices for distribution of those funds. These amended Rules also seek to remove outdated financial warranty options, by eliminating the use of real property and salvage value as forms of financial warranty that no operator has used

BEFORE THE MINED LAND RECLAMATION BOARD
STATE OF COLORADO

NOTICE OF PUBLIC RULEMAKING HEARING – HARD ROCK

IN THE MATTER OF Amendments to the Mineral Rules and Regulations of the Colorado Mined Land Reclamation Board for Hard Rock, Metal, and Designated Mining Operations, 2 CCR 407-1, regarding 110 Reclamation Only Permit, Modernization and to address other requirements of Senate Bill 25-054

TO ALL INTERESTED PARTIES AND TO WHOM IT MAY CONCERN:

The Colorado Mined Land Reclamation Board (“Board”) will consider promulgation of new rules and amendments proposed by the Division of Reclamation, Mining and Safety (“Division”) to the Mineral Rules and Regulations of the Colorado Mined Land Reclamation Board for Hard Rock, Metal and Designated Mining Operations, 2 CCR 407-1. The Division’s draft proposed new and amended rules and draft proposed Statement of Basis and Purpose is attached to this Notice.

The Board will promulgate the new rules and amendments to the Colorado Mined Land Reclamation Act, C.R.S. 34-32-101, et.seq., to implement Senate Bill 25-054 related to the creation of 110 Reclamation-Only permits, changes to financial warranty types and forfeiture procedures, eliminating administrative fees and general modernization. The Board will also consider proposed changes that will make the Hard Rock Rules more consistent with the Construction Material Rules, where appropriate. Finally, the Board will consider amending areas of the existing rules that need clarification, correction or to reflect current practice or procedure. Please note that the Board may accept, reject or modify any or all of the Division’s proposed new rules and amendments, or may propose its own new rules and amendments.

The Division’s Proposed New Rules and Amendments are set forth in their entirety at the Division’s website rulemaking page: <https://drms.colorado.gov/>

Throughout the formal rulemaking process, the Division’s website rulemaking page will provide formal notice to interested persons and Parties regarding important dates, filing deadlines, and other information concerning the rulemaking hearing and process.

**STATUTORY AUTHORITY FOR PROPOSED
NEW RULES AND AMENDMENTS**

The General Assembly delegated broad rulemaking authority to the Board respecting the administration of the Act at Section 34-32-106(1)(c), C.R.S. (Board has the duty to develop and promulgate standards for land reclamation plans), and Section 34-32-108(1), C.R.S. (Board has the authority to adopt and promulgate reasonable rules and regulations respecting the administration of the Mined Land Reclamation Act and the Construction Materials Act). In addition, the General Assembly passed Senate Bill 25-054, which

modified or set forth new statutory requirements and increased the regulatory authority of the Board and the Division (codified at Sections 34-32-110, 117, 118 and 122, C.R.S).

NOTICE IS HEREBY GIVEN that the Board has scheduled this matter for a rulemaking hearing as follows:

Date: Wednesday February 18, 2026.

Time: Wednesday 9:00 a.m.

Place: Department of Natural Resources
1313 Sherman Street, Room 318
Denver, CO 80203

The Rulemaking Hearing will take place both in-person and virtually via Zoom. In order to receive an authorization code to attend the hearing, please contact Camie Mojar by the email: Dnr_drms_mlr-submittals@state.co.us

Those who wish to observe the proceedings may join via YouTube: <https://www.youtube.com/@dnrmlrb-dnr5160/streams>

PUBLIC PARTICIPATION

The Board encourages all interested persons to participate in the rulemaking hearing by providing their comments, opinions, or recommendations regarding the matters to be addressed in this rulemaking, either orally at the hearing or in writing prior to the hearing. Although oral testimony or comments from those with Party status and other interested persons will be received at the hearing, the time available for such oral testimony or statements will be limited. Oral testimony or statements at the hearing should primarily summarize written material previously submitted.

Party Status: To participate in this rulemaking as a Party, a person or organization must file a written request for Party Status with the Board that shall include the following information: (1) name of the applicant Party and their representative (if different); (2) the street address, e-mail address, and telephone numbers of the applicant Party or their representative; and (3) a brief summary of any policy, factual, or legal issues the applicant Party has with the proposed regulations.

Deadline for Request for Party Status: Any request for Party Status must be filed electronically with the Board and Division no later than 5:00 p.m. on Thursday, November 20, 2025 at: Dnr_drms_mlr-submittals@state.co.us.

Please indicate that you are seeking Party Status in the HARD ROCK rulemaking.

Non-Party Participation: Persons who do not desire Party Status, but would like to participate in the rulemaking process, will be able to make their views known to the

Board either by submitting written comments, or by speaking during the public comment period allotted during the rulemaking hearing. The Board will consider all submissions.

Deadline for filing non-party written public comments is February 6, 2026.

Written comments must be submitted electronically at:

Dnr_drms_mlrp-submittals@state.co.us

Non-Parties who would like to address the Board during public comment of the Rulemaking Hearing must notify the Board Administrator at

Dnr_drms_mlrp-submittals@state.co.us **by February 6, 2026.**

PREHEARING STATEMENTS, ALTERNATIVE PROPOSED RULES, REPLY

Prehearing Statements: Each Party is strongly encouraged to file a written Prehearing Statement. Prehearing Statements must include comments, legal and factual issues, and evidence and argument that the Party wants the Board to consider regarding the proposed new rules and amendments. Prehearing Statements are limited to 15 double-spaced pages, 12-point font. This 15-page limit does not include exhibits to be used during the formal rulemaking hearing.

Alternative Proposed Rules: In addition to filing a Prehearing Statement, Parties may file Alternate Proposed Rules to be adopted by the Board in lieu of or in addition to all or a portion of the Division's proposed new rules and amendments.

Deadline for filing Prehearing Statement and Alternate Proposed Rules is December 10, 2025.

Alternate proposed rules may only be considered by the Board if the subject matter of the alternate proposed rules is consistent with and fits within the subject matter and scope of the rulemaking hearing. Any alternate proposed rule must include the following information: (1) a clear statement of the alternate proposed rule; (2) a statement of the Board's authority to promulgate the alternate proposed rule; (3) a statement describing how the alternate proposed rule is consistent with and fits within the subject matter and scope of the proposed rulemaking and (4) a clear and concise statement of the basis and purpose for the alternate proposed rule.

Reply: Any Party and Division staff may file a Reply to Prehearing Statements. Additionally, any comment or response to Alternate Proposed Rules shall be included in that Party's Reply. Replies shall be limited to 5 double-spaced pages, 12-point font.

Deadline for filing a Reply is February 6, 2026.

FILING AND SERVICE REQUIREMENTS

All filings for this rulemaking shall be submitted electronically to:

Dnr_drms_mlrp-submittals@state.co.us. All filed comments, Party Statements and Alternative Rules will be placed on the DRMS website rulemaking page for public review by

close of business the day following any deadline. The Division will email all filed documents to the Stakeholder and Party/Interested Party email list.

The Board or Division may take action to modify any date or filing deadline in this Notice of Rulemaking, notice of changes will be provided to Parties of record and posted to the DRMS website rulemaking page. The Board may take actions, including without limitation, modifying or amending the existing rules described or proposed herein and making conforming modifications to other rules, which it determines are reasonably necessary.

In accordance with the Americans with Disabilities Act, if any party requires special accommodations as a result of a disability for this hearing, please contact Camille Mojar at Dnr_drms_mlr-submittals@state.co.us, prior to the hearing and arrangements will be made.

MINED LAND RECLAMATION BOARD
OF THE STATE OF COLORADO

RULE 1: GENERAL PROVISIONS AND REQUIREMENTS – PERMIT PROCESS

1.1 DEFINITIONS

- ~~(1) “Acid and Toxic Producing Materials” means natural or reworked earth materials having acid or toxic chemical and physical characteristics that, under mining or post-mining conditions of drainage, exposure, or other processes, produce materials which contain detrimental amounts of chemical constituents such as acids, bases, or metallic compounds.~~
- ~~(1) “the Act” refers to the Colorado Mined Land Reclamation Act, Section 34-32-101, et seq., C.R.S. 1984, as amended.~~
- (2) “Acid Mine Drainage” means contamination of water by low pH or heavy metals that occurs from mined or disturbed materials as a result of the chemical and biological oxidation of reactive sulfide minerals when exposed to air and water. The possibility of generating “Acid Mine Drainage” exists where the pH of any exposed or potentially exposed overburden, waste rock, mill tailings, waste water treatment sludge, or other mined, placed, disposed or stockpiled material has the potential to develop a pH of 5.8 or less. Such determination may be based upon acceptable accelerated weathering and leaching tests of a representative sample of the overburden, waste rock, mill tailings, or other mined, placed, disposed, or stockpiled material. In determining whether a potential for acid mine drainage generation exists, the Office will consider natural pre-mining acidity and metals occurrence in bedrock, soil, groundwater and surface water where such information is available to the Office. Mined and stockpiled material does not include ore or other mined product that is or will be processed within one hundred and eighty (180) days of being stockpiled and removed from the permit area. However, the area affected by such stockpiled material may require the appropriate measures pursuant to Rules 3, 6 and 7, to prevent off-site impacts due to drainage or leaching, and for reclamation of the affected stockpile area.
- (3) “Activity” for the purpose of protecting groundwater quality, means any mining, milling, storing, disposing, or processing operations, or any reclamation operation or process that may discharge or cause discharge of pollutants to groundwater.
- (4) “Affected Land” means the surface of an area within the state where a mining operation or Extractive Metallurgical Processing is being or will be conducted, which surface is disturbed as a result of such operation. Affected lands include but shall not be limited to private ways, roads, except those roads excluded pursuant to Rule 1.1(4), and railroad lines appurtenant to any such area; land excavations; prospecting sites; drill sites or workings; refuse banks or spoil piles; evaporation or settling ponds; leaching dumps; placer areas; tailings ponds or dumps; work, parking, storage or waste discharge areas; and areas in which structures, facilities, equipment, machines, tools or other materials or property which result from or are used in such operations are situated. All lands shall be excluded that would be otherwise included as land affected but which have been reclaimed in accordance with an approved plan or otherwise, as may be approved by the Board. Affected land shall not include off-site roads which existed prior to the date on which notice was given or permit application was made to the Office and which were constructed for purposes unrelated to the proposed mining operation and which will not be substantially upgraded to support the mining operation.

- (5) "Aggrieved" means suffering actual loss or injury, or being exposed to potential loss or injury, to legitimate interests. Such interests include, but are not limited to, business, economic, governmental, recreational, or conservational interests.
- (56) "Affected Surface Water and Groundwater" means for purposes of the baseline site characterization and monitoring plan required for applications for in situ leach mining operations that surface water or groundwater affected or potentially affected by such mining operation.
- (67) "Ambient Groundwater Quality" for mining operations permitted prior to January 31, 1994, ambient groundwater quality shall mean the quality of the groundwater at the mine site as of January 31, 1994. For mining operations permitted on or after January 31, 1994, ambient groundwater shall mean the quality of groundwater at the time of submittal of the permit application. In establishing ambient groundwater quality, an Operator or Applicant shall use available or collected groundwater data sufficient to characterize the site's ambient groundwater quality and submit such information in a form suitable to the Office.
- (78) "Amendment" means a change in the permit or an application which increases the acreage of the affected land, or which has a significant effect upon the approved or proposed Mining Plan, Reclamation Plan, or Environmental Protection Plan.
- (89) "Analogous law, rule or permit" means for purposes of violations and patterns of violation required to be disclosed in applications for in situ leach mining operations any federal or state law, rule or permit issued by this or another state or the United States which covers any of the environmental protections set forth in Sections 34-32-116 and 116.5, C.R.S.
- ~~(9) "Anniversary date of the Notice of Intent to Prospect" means the date the Office or Board issues the Notice of Intent to Prospect approval and is the date the annual fee shall be deposited with the Office on an annual basis until the Office terminates the Notice of Intent to Prospect.~~
- (10) "Anniversary date of the permit" means the date the Office or Board issues the permit or the Notice of Intent to Prospect approval and is the date the annual fee shall be deposited with the Office on an annual basis until the Office or Board terminates the permit or Notice of Intent to Prospect.
- (11) "Applicant" means any person who applies to the Office for a mining permit.
- (12) "Aquifer" means a geologic formation, group of geologic formations, or part of a geologic formation containing sufficient saturated permeable material that could yield a sufficient quantity of water that may be extracted and applied to a beneficial use.
- (13) "Authorized Agent" means any corporate officer, corporate attorney, individual person, or persons so designated in the permit application.
- (14) "Baseline site characterization and monitoring plan" means that baseline site characterization and monitoring plan required by Section 34-32-112.5, C.R.S. for all permit applications for in situ leach and designated mining operations. This term does not include

other baseline characterizations, monitoring plans, studies or the like required under the act or these regulations.

- (15) “Best available technology” means, for the purposes of establishing, designing and implementing groundwater reclamation plans for in situ mining operations, the best technologies, treatment techniques, reclamation techniques or other means that result in effective reclamation of groundwater, taking into consideration all relevant factors including, but not limited to, technical feasibility, cost effectiveness, and the protection of public health, safety, welfare and the environment. In considering cost effectiveness, the financial condition of an operator shall not be a factor.
- ~~(16)~~ “CERCLA” means the Federal “Comprehensive Environmental Response, Compensation, and Liability Act of 1980” 42 U.S.C. Sec.9601 ET SEQ.
- ~~(1617)~~ “Complex Application” is an application which may require the Office to respond to additional factors such as the public comment process, involve additional professional staff or outside professional or agency expertise, and or address other issues beyond what the Office considers to be a typical application review process for the majority of applications received.
- ~~(18)~~ “Days” as used throughout these regulations, “Working Days” means Monday through Friday and shall not include Saturdays, Sundays, State holidays, or other non-work days as declared by the Governor or Legislature. “Calendar Days” or “Days” means consecutive days, including weekends and holidays. In calculating any period of time prescribed or allowed by these rules, the day of the act, event, or default from which the designated period of time begins to run shall not be included. Thereafter, every day shall be counted, including holidays, Saturdays or Sundays. If the last day of the period, deadline or due date falls on a Saturday, Sunday, or legal holiday, the deadline is extended to the next Working Day.
- ~~(1719)~~ “Description of ISL Mines” means that description required to be in applications for all in situ leach mining operations of at least five (5) in situ leach mining operations that demonstrates the ability of the applicant to conduct such a proposed mining operation without any leakage, vertical or lateral migration, or excursion of any leaching solutions or groundwater-containing minerals, radionuclides, or other constituents mobilized, liberated or introduced by the in situ leach mining process into any groundwater outside of the permitted in situ leach mining area.
- ~~(1820)~~ “Designated Chemicals” are toxic or acidic chemicals identified by the applicant / operator, and accepted or determined by the Office, for use within the permit area, in extractive metallurgical processing, the use of which, has been determined, at certain concentrations, to represent a potential threat to human health, property or the environment.
- ~~(1921)~~ “Designated Mining Operation” means a mining operation at which:
- (a) designated chemicals used in metallurgical processing are present on-site; or
 - (b) toxic or acid-forming materials may be exposed or disturbed as a result of mining operations; or

- (c) acid mine drainage occurs or has the potential to occur due to mining or reclamation activities; or
- (d) uranium is developed or extracted, either by in situ leach mining methods or by conventional underground or open mining techniques.
- (e) The various types of Designated Mining Operations are identified in Section 34-32-112.5, C.R.S. 1984, as amended. Except as to uranium mining operations, designated mining operations exclude operations that do not use toxic or acidic chemicals in processing for purposes of extractive metallurgy and will not cause acid mine drainage. Any designated mining operation, including uranium designated mining operations, may seek exemptions from this status pursuant to Rule 7.
- (f)
 - (1) Metal mining operations, permitted under Section 34-32-110, C.R.S. 1984, as amended, which do not use or store designated chemicals, or are Reclamation-Only, shall be excepted from the requirements applicable to Designated Mining Operations, unless they have a potential to produce acid or toxic mine drainage in quantities sufficient to adversely affect any person, property or the environment. It shall be the burden of the Operator or Applicant to demonstrate to the satisfaction of the Office that such potential does not exist.
 - (2) The exception set forth in Rule 1.1(~~1921~~)(f)(1) does not apply to Section 110 uranium mining operations. However, such operations may apply for an exemption from Designated Mining Operation status pursuant to the requirements and procedures set forth in Rule 7.
- (g) Designated Mining Operations shall be identified with a "d" suffix, (i.e., 110d or 112d). An in situ leach mining operation under Section 110 or 112 shall be treated as a section 112d-3 operation unless such operation is granted an exemption from designated mining operation status under Rule 7, in which case such operation shall be referred to as an "110 ISL" or "112 ISL" operation, as appropriate.

(~~2022~~) "Development" means the work performed in relation to a deposit, following the prospecting required to prove minerals are in existence in commercial quantities but prior to production activities, aimed at, but not limited to, preparing the site for mining, defining further the ore deposit by drilling or other means, conducting pilot plant operations, constructing roads or ancillary facilities, and other related activities.

(~~2423~~) "Environmental Protection Facility" means a structure which is identified in the "Environmental Protection Plan" as designed, constructed and operated for control or containment of designated chemicals, uranium, uranium by-products or other radionuclides, acid mine drainage, or toxic or acid-forming materials that will be exposed or disturbed as a result of mining or reclamation operations.

(~~2224~~) "Environmental Protection Plan" means a plan submitted by a Designated Mining Operation for approval as part of the Operator's or Applicant's permit for such operation for

the protection of human health, property or the environment in conformance with the duties of Operators as prescribed by the Act and these Rules.

- (~~23~~25) “Extraction” means the removal of minerals and/or overburden from places of natural occurrence to surface locations.
- (~~24~~26) “Extractive Metallurgical Processing” means the production-scale process of extracting metals of value from mineral ore, or waste water treatment for metals removal. Metallurgical processing may include but is not limited to crushing, concentrating, chemical leaching, evaporation, grinding, flotation, milling, or any other process of ore beneficiation on affected lands. It does not include laboratory analyses, metallurgical testing, potable water treatment, prospecting activities, or other activities which involve only incidental, or minimal, use of designated chemicals and which do not pose a threat to human health, property or the environment. All activities outlined constitute Mining Operations as defined herein.
- (~~25~~27) “Facility” means the combined "activities" occurring on the affected land.
- (~~26~~28) “Failure or Imminent Failure” means, for the purpose of emergency notification response:
- (a) Any actual or imminent release of any material or liquid from any impoundment, embankment, or slope that poses a reasonable potential for danger to ~~any persons~~ or human health, property or to the environment;
 - (b) Any actual or imminent malfunction or nonperformance of any structure for in situ leach mining operations designed to detect, prevent, minimize, or mitigate adverse impacts on groundwater, human health, wildlife, or the environment; or
 - (c) The actual or imminent malfunction or nonperformance of any environmental protection facility designed to contain or control chemicals or waste that are ~~acid~~ or toxic-forming toxic or acid-forming.
- (~~27~~29) “Filed” means an application submitted to the Office and determined to contain the permit application information required for all permits by Rules 1.4.1, 1.6.2(1)(a)(i) and (b), 1.6.2(1)(g), and Rules:
- 1.4.2(2) for a non in situ leach mining 110 or 110d for a Limited Impact operation application or 110r Reclamation-Only Permit;
 - 1.4.5(2) for a 112 or 112d Reclamation Permit Operation application; or
 - 1.4.4 and 1.4.5 for all in situ leach mining operation applications. Note: all 110 and 112 in situ leach mining operations under section must comply with filing requirements for both 112d designated mining operation applications and in situ leach mining applications unless the applicant is granted an exemption from designated mining operation status. In such a case, the applicant need only comply with in situ leach mining application requirements.

A determination by the Office that an application submitted to the Office contains the referenced application materials shall trigger the decision making periods provided under Sections 34-32-110(6), or 34-32-115(1) and 115(2), C.R.S., as appropriate. A determination that an application is filed does not constitute a determination that the application adequately meets statutory and regulatory requirements.

- (~~28~~30) "Financial Warrantor(s)" means a person who provides a Financial Warranty to the Board.
- (~~29~~31) "Financial Warranty" means a written promise to the Board to be responsible for reclamation costs up to the amount specified by the Board or Office or required by the Act, together with proof of financial responsibility.
- (~~30~~32) "Independent Reviewer" is a person who is utilized by the Office to review Quality Assurance/Quality Control certification documents designated by the Office, Baseline site Characterization and Monitoring Plans, ~~e~~Environmental ~~p~~Protection ~~p~~Plans, applications, Amendments and Technical Revisions and to monitor field operations. An Independent Reviewer is not an agent of the Office, Operator, Applicant, or any other person involved in the application or other hearing before the Board.
- (~~31~~33) "Inert Material" means non-water soluble and non-putrescible solids together with such minor amounts and types of other materials, unless such materials are ~~acid or toxic producing toxic or acid-forming~~, as will not significantly affect the inert nature of such solids. The term includes, but is not limited to, earth, sand, gravel, rock, concrete which has been in a hardened state for at least sixty (60) days, masonry, asphalt paving fragments, and other inert solids. Protruding rebar or other metals within Inert Materials must be removed to a practicable extent by torching, cutting, or gridding. Any material that contains coal or plastic shall not be classified as Inert Material.
- (~~32~~34) "In Situ Leach Mining" means in situ mining for uranium through the in-place dissolution of mineral components of an ore deposit by causing a chemical leaching solution, usually aqueous, to penetrate or to be pumped down wells through the ore body and then removing the mineral-containing solution for development or extraction of the mineral values.
- (a) It is not intended that this definition of in situ leach mining include extraction or disturbance of trace amounts or de minimus amounts of uranium that have no potential to affect human health or the environment when such extraction or disturbance of uranium occurs while mining another mineral. If uranium is disturbed or extracted during the mining of another mineral, the operator shall immediately inform the Office of the disturbance or extraction, and include all information concerning the circumstances of the disturbance or extraction of the uranium in a written report submitted to the Office. After notification to the Office, the Office will determine whether the Operator must comply with the in situ leach mining and designated mining operation requirements.
- (~~33~~35) "In Situ Mining" means the in-place development or extraction of a mineral by means other than open mining or underground mining.
- (~~34~~36) "Landowner" means any individual person or persons, firm, partnership, association, corporation, or any department, division, or agency of federal, state, county, or municipal

government which owns or controls the surface rights to any land area under consideration for mining or prospecting. These surface rights are separate from mineral rights which may or may not be owned and controlled by the same entity.

(37) “Legacy Mine” means a mine where pre-law mining operations have occurred or the mining operations have been abandoned, and no bond or other financial assurance or reclamation responsibility covering the reclamation of the land affected by the mining operation exists.

(3538) “Life of the Mine” means and includes, but is not limited to, those periods of time from when a permit is initially issued, that an Operator engages in or plans to continue extraction of minerals, complies with the Act and these Rules, and as long as mineral reserves remain in the mining operation. It can include limited periods of non-production or Temporary Cessation. “Life of the mine” also includes that period of time after cessation of production necessary to complete reclamation of disturbed lands as required by the Board and this article, until the Board releases, in writing, the Operator from further reclamation obligations regarding the affected land, declares the operation terminated, and releases all applicable Performance and Financial Warranties.

(3639) “110 Limited Impact Operation” means any mining operation which requires a 110(1) or 110(2) permit:

- (a) A 110(1) permit affects five (5) acres or less and requires a permit issued under Section 34-32-110(1)(a)(III), C.R.S. for the life of the mine; and is not an in situ leach mining operation or a designated mining operation; or
- (b) A 110(2) permit affects less than ten (10) acres and requires a permit issued under Section 34-32-110(2), C.R.S. for the life of the mine; extracts less than seventy thousand (70,000) tons of mineral, overburden, or combination thereof per calendar year; and is not an in situ leach mining operation or a designated mining operation.

(3740) “110 Limited Impact Permit” shall mean a permit issued to a 110 Limited Impact Operation pursuant to Section 34-32-110(1)(a)(III) or (2), C.R.S.

(3841) “110d Limited Impact Permit” shall mean a permit issued to an operator for a Designated Mining Operation pursuant to Section 34-32-112.5(3)(a), C.R.S.

(3942) “Meeting” as the term is used in these Rules, means the regular monthly session held by the Board in accordance with Section 34-32-106, C.R.S. 1984, as amended. The topics to be considered include, but are not necessarily limited to:

- (a) approval or denial of permit applications;
- (b) approval or denial of applications for permit revisions, amendments, and permit transfers;
- (c) cause to hold a formal hearing with respect to a particular application or operation pursuant to Section 34-32-114, C.R.S. 1984, as amended;

- (d) determinations with respect to temporary cessation; and
- (e) other permit related considerations which do not require a "formal hearing."
- (f) These meetings may also include, but are not necessarily limited to hearings, rule making proceedings in accordance with the Administrative Procedures Act, Section 24-4-103, C.R.S. 1984, as amended, and executive sessions.

(4043) "Mineral" means an inanimate constituent of the earth in a solid, liquid, or gaseous state which, when extracted from the earth, is useable in its natural form or is capable of conversion into a useable form as a metal, a metallic compound, a chemical, an energy source, rare earth elements, or a raw material for manufacturing or construction material. For the purposes of this article, this definition does not include coal, surface or subsurface water, geothermal resources, or natural oil and gas together with other chemicals recovered therewith, but does include oil shale.

(4144) "Mining Operation" means the activities associated with development, production and/or extraction of a mineral from its natural occurrences or within refuse, or extractive metallurgical processing on affected land. The term includes, but is not limited to, open mining, in situ mining, in situ leach mining, surface operations and the disposal of refuse from underground mining, in situ mining, and in situ leach mining. The term also includes the following operations on affected lands: transportation; concentrating; milling; evaporation; removal of waste piles and refuse; other processing; construction of facilities to support the mining operations, stripping, and removal and stockpiling of overburden, waste rock and low grade ore. The term does not include: the exploration and extraction of natural petroleum in a liquid or gaseous state by means of wells or pipe; the development or extraction of coal; the extraction of geothermal resources; smelting, refining, cleaning, preparation, transportation, and other off-site operations not conducted on affected land; or extraction of construction material as that term is defined in Section 34-32.5-103(3), C.R.S.

(4245) "Modification" means any amendment or revision of any previously granted permit, including permit transfers, increases or decreases of the amount of financial warranty required by the Board, and declarations regarding temporary cessation, which is either:

- (a) initiated by the Board pursuant to Rule 3.3.2 as necessary to bring the operation into compliance with the provisions of these Rules or the Act, or
- (b) the subject of a petition for a formal hearing granted by the Board pursuant to Section 34-32-114 of the Act.

(4346) "Office" means the Office of Mined Land Reclamation within the Division of Reclamation, Mining and Safety (DRMS).

(4447) "Off-site" means the area outside of the permitted affected area.

(4548) "110 ISL operation" or "112 ISL operation" shall mean those in situ leach mining operations which have been granted an exemption from designated mining operation requirements.

Otherwise, 110 and 112 in situ leach mining operations shall be considered and referred to as 112d operations.

- (4649) “Open Mining” means the mining of minerals by removing the overburden lying above such deposits and mining directly from the deposits thereby exposed. The term includes mining directly from such deposits where there is no overburden. The term includes, but is not limited to, such practices as open cut mining, open pit mining, strip mining, quarrying, and dredging.
- (4750) “Operator” means any person, firm, partnership, association, corporation, or any department, division, or agency of federal, state, county, or municipal government engaged in or controlling a mining operation.
- (4851) “Overburden” means all of the earth and other materials which lie above natural minerals and also means such earth and other materials disturbed from their natural state in the process of mining.
- (4952) “Owner of Record” means the owner or owners of a surface property or mineral interest shown on the records of the County Assessor as of the date of filing.
- (5053) “Party” means a person who demonstrates that they are directly and adversely affected or aggrieved by the conduct of a mining operation, proposed mining operation, or an order of the Board and whose interest is entitled to legal protection under the Act.
- (5154) “Pattern of Willful Violations” means that information required to be disclosed in the application for an in situ leach mining operation that the applicant, or an affiliate, officer or director of the applicant, has or has not demonstrated a pattern of willful violations of environmental protection requirements of the Act or these regulations or a permit issued under the Act or an analogous law, rule or permit issued by another state or the United States.
- (5255) “Performance Warranty” shall mean a written promise to the Board, by the operator, to comply with all requirements of the Act.
- (5356) “Permittee” means any person holding a mining Permit.
- (5457) “Person” means any individual, firm, partnership, joint venture, association, limited liability company, or corporation or other entity, or any department, division, or agency of federal, state, county, or municipal government.
- (5558) “Point of Compliance” means locations down gradient of the facility or activity at which water sampling may be conducted to demonstrate compliance with applicable groundwater standards established by the Water Quality Control Commission, or permit conditions required by the Office or Board to measure compliance with the MLRB permit.
- (5659) “Production” means active, orderly mining operations performed in relation to the extraction of a mineral from its natural occurrences, the processing or sale of an extracted mineral, or movement of extracted mineral material off site for further processing or sale. Minimal

excavation and/or activity may not constitute production and is evaluated with respect to the scale of the mining operation.

- (5760) "Prospecting" means the act of searching for or investigating a mineral deposit. "Prospecting" includes, but is not limited to, sinking shafts, tunneling, any drilling core and bore holes, including the construction of monitoring wells, and digging pits or cuts and other works for the purpose of extracting samples or conducting baseline hydrological investigations prior to commencement of development or extraction operations, and the building of roads, access ways, and other facilities related to such work. The term does not include those activities which cause no or very little surface disturbance, such as airborne surveys and photographs, use of instruments or devices which are hand carried or otherwise transported over the surface to make magnetic, radioactive, or other tests and measurements, boundary or claim surveying, location work, or other work which causes no greater land disturbance than is caused by ordinary lawful use of the land by persons not prospecting. The term also does not include any single activity which results in the disturbance of a single block of land totaling one thousand six hundred (1,600) square feet or less of the land's surface, not to exceed two (2) such disturbances per acre; except that the cumulative total of such disturbances will not exceed five (5) acres statewide in any prospecting operation extending over twenty-four (24) consecutive months. There is not a de minimis exclusion for core, bore hole, or monitoring well drilling programs.
- (5861) "Prospecting Notice" shall mean that notice required by the Act to engage in Prospecting.
- (5962) "Reclamation" means the employment during and after a mining operation of procedures reasonably designed to minimize as much as practicable the disruption from the mining operation and to provide for the establishment of plant cover, stabilization of soil, the protection of water resources, or other measures appropriate to the subsequent beneficial use of such affected lands. Reclamation shall be conducted in accordance with the performance standards of the Act.
- (63) "110r Reclamation-Only Permit" shall mean a permit issued to an Operator for the removal of only Legacy Mine waste piles which affects five (5) acres or less and is valid for three (3) years from excavation to reclamation pursuant to Section 34-32-110(9), C.R.S. Reclamation-Only does not allow for the disturbance or use of adits, ventholes, or other historic features, nor activities that are subject to CERCLA or the Clean Water Act. Reclamation-Only shall not be permitted for sites with draining adits and any other groundwater expressions.
- (6064) "Refuse" means all waste material directly connected with the cleaning and preparation of substances mined by a mining operation. Refuse includes Waste Piles eligible for Reclamation-Only activities.
- (6465) "Regular Operation" applies to all mining operations not included within the definitions of Limited Impact or Prospecting Operations, specifically, any mining operation affecting ten (10) acres or more, or extracting seventy thousand (70,000) tons or more of mineral, overburden, or combination thereof per calendar year.
- ~~(62) — "Rolling Stock" means any portable or mobile equipment.~~

- ~~(63)~~ ~~“Salvage Value” of Project related fixtures or equipment means the market value of the particular fixture or equipment less any necessary costs of demolition and/or removal, as determined by the Office or Board in accordance with the requirements in Rule 4.12.2.~~
- ~~(6466)~~ “Structure; Significant, Valuable and Permanent Man-made” means a non-portable improvement to real property which has defined, current and recognizable value of an economic nature; generally including but not limited to: buildings, houses, barns, fences, above or below ground utilities, irrigation ditches, maintained or public roads, bridges, railroad tracks, cemeteries, communication antennas, pipelines, water wells, water storage structures, discharge and conveyance structures, etc.
- ~~(6567)~~ “Technical Revision” means a change in the permit ~~or an application,~~ which does not have more than a minor effect upon the approved ~~or proposed Mining or~~ Reclamation Plans or Environmental Protection Plan.
- ~~(6668)~~ “Temporary Cessation” means those limited periods of non-production as specified according to Rule 1.13.
- ~~(6769)~~ “Topsoil or Growth Medium” means the material at the surface of the earth which has been so modified and acted upon by physical, chemical, and biological agents that it will support rooted plants necessary to achieve reclamation goals.
- ~~(70)~~ “Toxic or Acid-forming Materials” means natural or reworked earth materials having acid or toxic chemical and physical characteristics that, under mining or post-mining conditions of drainage, exposure, or other processes, produce materials which contain detrimental amounts of metals, or chemical constituents such as acids, bases, or metallic compounds.
- ~~(6871)~~ “Two Acre Limited Impact Operation” means any currently permitted mining operation issued under Section 34-32-110(1)(a)(I), C.R.S. which:
- (a) the permit application for such operation was filed prior to July 1, 1993;
 - (b) affects less than two (2) acres for the life of the mine; and
 - (c) extracts less than seventy thousand (70,000) tons of mineral, overburden, or combination thereof per calendar year;
- By July 1, 2015 an Operator issued a two acre limited impact permit pursuant to Section 34-32-110(1)(a)(I), C.R.S. shall file with the Office:
- a) evidence of the source of the person’s legal right to enter and initiate a mining operation on affected land; and
 - b) a financial warranty that complies with Sections 34-32-110(3) and 34-32-117(4), C.R.S.
- ~~(6972)~~ “Vegetation Cover” means an ocular estimate of the percentage of ground covered by the above-ground living plant parts.

~~(7073)~~ "Vegetation Type" means a designation for a natural grouping of plant species named according to one or more visually dominant species.

~~(74)~~ "Waste Pile" means a legacy deposit of previously mined materials placed upon the land in conjunction with a Legacy Mine.

~~(71)~~ "Working Day" means Monday through Friday, except for those days that are recognized or designated as State holidays or other non-work days as declared by the governor or legislature.

~~(72)~~ "1976 Act or the Act" refers to the Colorado Mined Land Reclamation Act of 1976, Section 34-32-101, et seq., C.R.S. 1984, as amended.

1.2 SCOPE OF RULES AND ACTIVITIES THAT DO NOT REQUIRE A RECLAMATION PERMIT

1.2.1 Specified by Rule

The Board has determined that certain types of activities do not need reclamation permits either because the excavated substance is not a mineral as defined in Section 34-32-103(7), Colorado Revised Statutes 1984, as amended or because the activity is not a mining operation as defined by Section 34-32-103(8), C.R.S. 1984, as amended. Such activities include the following:

- (a) the exploration and extraction of natural petroleum in a liquid or gaseous state by means of wells or pipe;
- (b) the development or extraction of coal (refer to the Colorado Surface Coal Mining Reclamation Act Section 34-33-101, et seq., C.R.S. 1984, as amended);
- (c) smelting, refining, cleaning, preparation, transportation, and other off-site operations not conducted on ~~affected~~ permitted land; and
- (d) the extraction of geothermal or groundwater resources.

1.2.2 Reserved

1.2.3 Effect of Regulations

Nothing in these Rules shall supplant, alter, impair or negate the regulatory authority of the Colorado Department of Public Health and Environment in relation to mining operations, nor shall these Rules supplant, alter, impair, or negate the authority of other state and federal agencies in relations to mining operations.

1.2.4 Extraction or Prospecting on Federal Lands

Any person who intends to extract or prospect for minerals on federal lands shall apply for a Mined Land Reclamation Board permit or submit a Notice of Intent to conduct prospecting operations unless specifically exempted by the Board according to the provisions of Rule 1.2.

1.3 PUBLIC INSPECTION OF DOCUMENTS

- (1) Except as provided in this Rule 1.3 or as otherwise provided by law, all applications, notices of intent to conduct prospecting, public notices, inspection reports, documents, maps, exhibits, correspondence, tests, analyses, records of actions or findings of the Board or Office and other information required under the Act or these Rules shall be promptly made available for inspection as required by law upon the written request of any member of the public at the offices of the Office, during its normal business hours.
- (2) Upon request, copies shall be provided at cost or other suitable arrangements made for copying at the requester's expense, as allowed by copyright law.
- (3) As to mining operations, an Operator may mark "CONFIDENTIAL" information supplied in a permit application disclosing the location, size, or nature of the deposit or depth and thickness of the ore body or deposit and thickness and type of overburden to be removed. Information concerning a mining operation marked as confidential and determined by the Office to be confidential shall not be made available to the public unless the Operator gives a written consent on company letterhead and signed by an authorized agent of the company to release all or any part of the information.
- (4) As to notices of intent to conduct prospecting:
 - (a) All information in a Notice of Intent to Conduct Prospecting submitted and approved prior to June 2, 2008, shall be treated as confidential except as set forth in Rule 1.3(4)(a). Such confidential information shall not be made available to the public unless the Board finds that reclamation has been satisfactorily completed, or unless the Operator gives a written consent to the release of all or any part of the information. However, if a prospector uses the Notice of Intent to conduct the baseline site characterization and monitoring plan required for an in situ leach mining operation application, the design and operation of the baseline site characterization and monitoring plan, together with all information collected in accordance with the plan, shall be a matter of public record.
 - (b) For Notices of Intent to Conduct Prospecting or modifications thereof submitted or approved on or after June 2, 2008, all information in a notice of intent or modification of such notice is a matter of public record including, in the case of a modification, the original notice of intent; except that, information relating to the mineral deposit location, size or nature, and other information designated by the prospector and determined by the Board as proprietary, trade secret or that would cause substantial harm to the competitive position of the prospector, shall be protected as confidential and shall not be a matter of public record in the absence of a written release from the prospector, until the Board finds that reclamation has been satisfactorily completed, or until the Board releases the information pursuant to Rules 1.3(4)(f) and (h). However, if a prospector uses the Notice of Intent to

conduct the baseline site characterization and monitoring plan required for an in situ leach mining operation application, the design and operation of the baseline site characterization and monitoring plan, together with all information collected in accordance with the plan, shall be a matter of public record.

- (c) An applicant or prospector may designate its identity as confidential if the applicant or prospector believes disclosure of its identity would cause substantial harm to its competitive position. If so designated, the Office shall keep the identity confidential until: (1) the applicant or prospector files a written release; (2) the applicant or prospector files the notice described in Rule 1.3(4)(c)(i); (3) the Board finds that reclamation has been satisfactorily completed; or (4) until the Board releases the identity pursuant to Rules 1.3(4)(f) and (h).
 - (i) If identity is designated as confidential and the Office approves the notice of intent to prospect, the prospector shall file with the Office quarterly reports in which the prospector justifies continuance of its confidential designation of its identity. In addition, once the prospector believes its identity no longer needs to be confidential, it shall forthwith file a written notice to the Office. Upon receipt, the Office shall treat the prospector's identity as public record and post the identity of the prospector on the Office's website within ten (10) ~~d~~Days of receipt of the prospector's notice.
 - (ii) The confidentiality designation of an applicant's or prospector's identity shall be subject to the dispute resolution procedures set forth in Rule 1.3(4)(f) and (h).
- (d) Upon submittal of a notice of intent or modification thereof, every applicant shall designate any information the applicant considers to be exempt from public disclosure. The Office shall post on its website within five (5) ~~d~~Days of receipt of such notice or modification all information in a notice of intent or modification except information that the applicant has designated as exempt from disclosure.
- (e) If the Office approves a notice of intent, the prospector shall continue to designate any information the prospector believes is exempt from public disclosure in any written submittals filed with the Office after the filing of the notice of intent including in annual and final reports. Such designations shall be subject to the same grounds for designation and procedures for resolution of designation disputes as apply to information in a notice of intent.
- (f) Any person may submit a written request to the Office asking that information in a notice of intent that a prospector has designated as confidential be disclosed. Such request must be filed with the Office within ten (10) ~~W~~working ~~D~~Days of the Office's posting of the notice of intent on its website. The Office shall treat such request as a deficiency issue that must be resolved prior to approval of the notice of intent. Such request shall set forth the specific information requested to be disclosed and the factual and legal basis for the person's assertion that such information is public. Upon receipt of such a request, the Office shall forward the request to the prospector within three (3) ~~W~~working ~~D~~Days of receipt of the request. If the prospector does not consent to disclosure of the information within seven (7)

4Days from receipt of the request, the Office shall keep the information confidential and inform the requesting person in writing within three (3) ~~w~~Working 4Days of the prospector's decision. Within seven (7) 4Days from the receipt of the prospector's decision, the requesting person may ask the Board to hold a hearing on whether the information should remain confidential. If the person requests a hearing, such hearing shall not be held any earlier than twenty (20) 4Days after the Office has given notice of the hearing to the prospector and the requesting person. Any response by the Office or the prospector to the request for disclosure shall be kept confidential and shall only be sent to the Board, Office and prospector, as applicable.

(g) If the Office believes that a prospector has not properly designated information as confidential, the Office shall inform the prospector of the Office's decision. The Office's decision shall be kept confidential. If the prospector does not consent to disclosure of the information within seven (7) 4Days from notice of the Office's decision, the Office shall keep the information confidential and may set the matter for hearing before the Board. The Board hearing shall not be held any earlier than twenty (20) 4Days after the Office has given notice of the hearing to the prospector.

(h) The Board shall hold any hearing set under Rule 1.3(4)(f) in executive session. No entity other than the Board shall be present in the executive session. The Board shall electronically record such executive sessions and maintain such recordings in accordance with the Open Meetings Law, Section 24-6-204, C.R.S.

(i) Prior to holding an executive session, the Board in its discretion may hear oral argument in open meeting from the applicant or prospector, the Office and the requesting person, if applicable. The Board may decide the matter on the written request alone or on the Office's written decision alone, whichever is applicable, or it may require the applicant or prospector, the requesting person (if applicable) and the Office to submit written briefs on whether the information should be kept confidential or should be publicly disclosed. Such written briefs shall only be submitted to the Board, which shall keep them confidential. Within thirty (30) 4Days of holding a hearing in executive session, the Board shall issue an order that grants or denies, in whole or in part, the request or that upholds or reverses in whole or in part the Office decision. The order shall keep confidential the information the Board has determined should remain confidential.

(ii) If the Board determines that certain information is public rather than confidential, the Board shall delay disclosure of such information until thirty (30) 4Days from the date of its written order. The Board's decision shall constitute final agency action for purposes of judicial review.

(5) Any dispute as to whether information is properly designated as exempt from public disclosure shall be considered a deficiency issue concerning the notice of intent to conduct prospecting. Accordingly, the Office shall not approve a notice of intent, and prospecting activities shall not be authorized to commence, until the designation issue has been resolved and the applicant has satisfied all other requirements applicable to a notice of intent.

- (6) Anyone who willfully and knowingly violates the provisions of confidentiality shall be punished as provided by law.

1.4 APPLICATION REVIEW AND CONSIDERATION PROCESS

1.4.1 Applications – General Provisions

- (1) Application forms, attachments, maps, and fees shall be submitted in accordance with the specific requirements for each permit type, except that Designated Mining Operations shall also submit an Environmental Protection Plan as outlined in Rule 6.4.21, and in addition, all In Situ Leach Mining Operations shall also submit Exhibits set forth in Rules 6.4.21 (unless exempt), 6.4.22, 6.4.23, 6.4.24, and 6.4.25.
- (2) All tests, analyses, surveys and maps shall be prepared by qualified persons.
- (3) All information submitted in an application must be accurate and complete, and acknowledged as such by the signature, or other certification as designated and approved by the Office, of an authorized agent on an application form provided by the Board.
- (4) Prior to Office consideration of the application, submit proof of all required notices either by submitting return receipts of a Certified Mailing, electronic proof of service, or by proof of personal service.
- (5) All application forms shall contain the following information:
- (a) the ~~physical~~ address, e-mail, and telephone number of the ~~general~~ business office and the local address or addresses, e-mail, and telephone number of the Operator/Applicant;
 - (b) the name, address, e-mail, and telephone number of the Owner of the surface of the affected land and the source of the Operator's/Applicant's legal right to enter and initiate a mining operation on the affected land;
 - (c) the name, address, e-mail, and telephone number of the Owner of the subsurface rights of the affected land and the source of the Operator's/Applicant's legal right to enter and initiate a mining operation on the affected land;
 - (d) a statement that the Operator/Applicant has applied for or will seek all necessary approvals from local government;
 - (e) a statement that the operations will be conducted in accordance with the terms and conditions listed in the application, as well as with the provisions of the Act and these Rules, as amended, in effect at the time the Permit is approved or amended; and

- (f) the Operator's/Applicant's signature or other certification as designated and approved by the Office.
- (6) In addition to submitting an appropriately completed Permit application form, the Operator/Applicant shall submit all applicable Exhibits specified in Rule 6 for the appropriate type of operation.
- (7) In the case of any complex Permit applications, technical revisions, serious unforeseen circumstances, or significant snow cover on the affected land that prevents a necessary on-site inspection, the decision date established by the Office may be extended up to sixty (60) ~~d~~Days beyond the usual maximum limit for an operation of that particular type and size. The Office shall notify the Applicant and any persons commenting on the application, of such findings and of the new decision date as soon as possible. Rule 1.4.1 (7) shall not apply to in situ leach mining applications.
- (8) The Office shall notify the Applicant of any deficiencies that prevent the application from being considered filed by the Office within ten (10) ~~W~~working ~~D~~days of receiving the application. An Applicant has sixty (60) ~~d~~Days from such notice to submit all the necessary documents that the Office needs for an application to be considered filed. If this date does not fall on a Working Day, then the date will be automatically set to the next Working Day. If, at the end of the sixty (60) ~~d~~Day period, the application has not been determined to be filed with the Office, the Office may deny the application and terminate the application file. If the Office denies and terminates the application file, the Office shall determine if the Applicant desires a return of the applications and shall provide the applications to the Applicant at no cost to the Office. Otherwise, the Office may dispose of all copies as appropriate. An Applicant may appeal such denial to the Board according to the provisions of Rule 1.4.11.
- (9) To allow the Applicant an opportunity to provide information necessary to meet the adequacy requirements of the Office, the Applicant may request that the Office's review time be extended and the Office's decision date reset, not to exceed three hundred and sixty-five (365) ~~365~~ days from the date the application was filed. If, at the end of the three hundred and sixty-five (365) ~~d~~Day period, the application has outstanding adequacy issues and there have been timely filed objections to the application, the Office may issue a rationale recommending approval or denial of the application and shall set the matter for a Board hearing. If there remain adequacy issues after three hundred and sixty-five (365) ~~d~~Days but no objections to the application have been timely submitted, the Office may issue the decision on the application or set the matter for a Board hearing. At the hearing the Board may at the request of the Applicant extend the review time and decision date, deny the application, or approve the application with or without conditions.
- (10) The Applicant has the burden of demonstrating that the application meets the minimum requirements of the Act, Rules, and Regulations.
- (11) The Applicant shall follow the appropriate Notice Procedures, according to permit type, as outlined in Rule 1.6.
- (12) A condition or limitation to approval of the application, unless acknowledged and consented by the Applicant in writing, shall be treated as a denial.

- (13) Failure of an Applicant to publish the notice pursuant to Rule 1.6.2(1)(d) shall add a sufficient number of days for the required public notice to be accomplished. An additional time period, as determined by the Office, may be added for the Office or Board to make a decision. Such time period shall not exceed thirty (30) ~~d~~Days for any non in situ leach mining 110 or 110d Limited Impact application, ninety (90) ~~d~~Days for any 112/112d/112 ISL or 110 ISL Reclamation Permit application without objections, or one hundred and twenty (120) ~~d~~Days for any 112/112d/112 ISL or 110 ISL Reclamation Permit application with objections.

1.4.2 Specific Application Requirements – 110(1), 110(2), 110 ISL and Non-In Situ Leach 110d Limited Impact Permit Applications, 110r Reclamation Only Permit Applications

- (1) All general application requirements outlined in Rule 1.4.1, shall be required for 110(1), 110(2), and 110d Limited Impact Operations; except that any application for a 110 in situ leach mining operation must be filed and shall be considered as a 112d-3 permit application pursuant to Section 34-32-112.5(3)(d), C.R.S. and Rule 1.4.4; however, if such in situ leach mining applicant is granted an exemption from designated mining operation status, the application shall be labeled a “110 ISL” operation, and the applicant need not comply with the designated mining operation requirements but must still comply with all in situ leach mining application requirements in Rule 1.4.4. The process for Office and Board consideration of 110 ISL shall follow those set forth in Rule 1.4.8, and the two hundred and forty (240) ~~d~~Day deadline for a decision shall apply.
- (2) An application will be considered filed for the purpose of calculating the thirty-~~day~~ (30) Day decision-making time period under Section 34-32-110(6), C.R.S., as amended, when the application file includes all of the following submittals:
- (a) the application fee; as determined under Section 34-32-127(2) C.R.S., as amended;
 - (b) one (1) original and one (1) copy, or an electronic submittal as designated and approved by the Office, of:
 - (i) the application form;
 - (ii) all information, attachments, maps, and exhibits, as listed and described in Rules 1.4.1 and 6.3;
 - (iii) an affidavit that notice signs were posted on-site pursuant to Rule 1.6.2(1)(b);
 - (iv) the appropriate information under Rules 6.5 and 7.3, if required by the Office for a non-designated operation pursuant to Rule 6.1.2;
 - (v) an environmental protection plan as described in Rule 6.4.21 if the operation is a designated mining operation; and

- (vi) proof of notice according to the provisions of Rule 1.6.2(1)(a).
- (3) Proof of the notices required pursuant to Rules 1.6.2(1)(d), (e), and (f) is not required in order for an application to be considered filed, but such proof must be submitted to the Office prior to the Office's decision to approve an application, pursuant to Rule 1.6.2(1)(g).
- (4) All general application requirements outlined in Rule 1.4.1 and Rule 1.4.2, shall be required for 110r Reclamation Only Permit applications.
 - (a) The following additional information shall be included for an application to be considered filed:
 - (i) Information sufficient to describe or identify the type of reclamation operation proposed, how the operator intends to conduct the reclamation operation, and the name and location of the mill or facility accepting the materials being excavated;
 - (ii) A statement that the operator has applied for or will seek all necessary local, state and federal governmental approvals;
 - (iii) A statement acknowledging the Operator's duty to comply with all applicable surface, groundwater quality, and/or radiation control requirements; and
 - (iv) A description of measures to be taken to reclaim any affected land consistent with the requirements of Section 34-32-116, C.R.S. and Rule 3.1.
 - (b) A 110r Reclamation-Only Permit shall not be issued for the following:
 - (i) The Office shall not issue a reclamation-only permit to an already existing permit nor shall a reclamation-only permit be converted into or from any other type of permit;
 - (ii) To an operation which anticipates exceeding three (3) years from the commencement of excavation to the completion of all reclamation work;
 - (iii) A reclamation permit shall not be issued for sites subject to Response Actions or required by CERCLA or under the control of CERCLA, or other agencies remedial actions; or
 - (iv) A reclamation permit shall not be issued for sites with draining adits and any other groundwater expressions.

1.4.3 Pre-Application Requirements – All In Situ Leach Mining Operations Regardless of Designated Mining Operation Status – Reclamation Permit Operations – Retention of Third Party Expert – Baseline Site Characterization and Plan for On-Going Monitoring

- (1) (a) All prospective applicants for any in situ leach mining operation, regardless of size or designated mining operation status, shall confer with the Office prior to conducting any baseline site characterization activities. At such conference, the prospective applicant shall submit for the Office's approval a plan for conducting the baseline site characterization and for on-going monitoring of the affected land and surface and groundwater and reclamation and financial warranty requirements. The plan shall include all of the activities the prospective applicant proposes to conduct for the baseline site characterization, the methods of conducting such activities, including the operating procedures and standards, the proposal for on-going monitoring of affected land and water, and applicable reclamation requirements pursuant to Rule 3. The prospective applicant shall not conduct any baseline site characterization activities until the Office approves of the plan for conducting such activities and a financial warranty is posted pursuant to Rule 4.
 - (b) Within five (5) ~~e~~Days of submittal of the baseline site characterization plan, the Office shall post notice of receipt of the plan on the Office website. Any public comment regarding the baseline site characterization and monitoring plan must be received by the Office no later than ten (10) ~~W~~working ~~D~~Days after the notice was posted on the Office website. Copies of the plan will be available at the Office for review.
 - (c) If a prospective applicant has conducted baseline site characterization activities prior to the effective date of this Rule and prior to obtaining the Office's approval of the plan for such activities, the Office may in its discretion allow the prospective applicant to use data from those activities as long as, at a minimum, the prospective applicant submits and the Office approves the method the prospective applicant used in conducting the activities and the prospective applicant submits and the Office approves the plan required in Rule 1.4.3(1)(a) above for future activities.
- (2) The Office may retain, and the prospective applicant shall pay the costs of, an independent third-party professional expert to oversee baseline site characterization, monitor field operations or review any portion of the information collected, developed, or submitted for the Baseline Site Characterization and Monitoring Plan to be included in a permit application as follows:
 - (a) The Office shall define the scope of work to be conducted by the expert;
 - (b) The expert shall submit and the Office shall review all invoices for payment;
 - (c) The Office shall approve invoices that are documented with, but not limited to, time sheets and receipts, and that reflect the reasonable costs of the expert. The Office may reject invoices that the Office believes are inaccurate, unreasonable or are not supported by sufficient and proper documentation. The Office shall summarize in writing its own costs for its review and oversight associated with the Baseline Site Characterization and Monitoring Plan;

- (d) The prospective applicant shall pay the reasonable costs incurred by the Office and the expert;
- (e) The prospective applicant may object to the selection of a specific expert only on the grounds that:
 - (i) The expert lacks the professional qualifications to accomplish the scope of work;
 - (ii) The expert has a conflict of interest with the prospective applicant or proposed project; or
 - (iii) The expert has a bias that could influence the objectivity of the work to be accomplished;
 - (iv) If the Board or Office concurs with the prospective applicant's objection to the expert, the Board or Office shall select a different expert.
- (f) If the prospective applicant fails to pay any costs the expert submits and the Office approves, or any costs the Office submits to the prospective applicant for its own costs, within 30 ~~d~~Days of notice that such costs are due, any application the prospective applicant submits shall not be considered filed and the deadlines for Office review shall not be triggered. If the prospective applicant pays the costs due, any application submitted may be considered filed if payment occurs within three (3) months of when the costs were due and if other requirements for an application being considered filed are met. If the prospective applicant pays the costs later than three (3) months of when they were due, the Office may determine that the application is filed, that the applicant must update the application or that the application is not filed for reasons other than failure to pay the costs of the Office and expert.

1.4.4 Specific Application Requirements – All In Situ Leach Mining Operations Regardless of Designated Mining Operation Status – Reclamation Permit Operations

- (1) All in situ leach mining operations are by law designated mining operations. For all applications for in situ leach mining operations including those filed under Section 34-32-110, C.R.S., the application requirements outlined in Rules 1.4.1 and 1.4.5 shall be required in addition to the requirements of this Rule 1.4.4; except that if such applicant is granted an exemption from designated mining operation status, the applicant need not comply with designated mining operation application requirements.
- (2) An application for an in situ leach mining operation will be considered filed for the purpose of calculating the decision-making time periods in Sections 34-32-115(1) and 115(2), C.R.S., as amended, when the application file includes all the required items specified in Rules 1.4.1, 1.4.5(1) and (2) and includes all of the following submittals:
 - (a) a description of In Situ Leach Mines as described in Rule 6.4.22;

- (b) a Baseline Site Characterization for the proposed permit area as described in Rule 6.4.23;
 - (c) a Monitoring Plan as described in Rule 6.4.24;
 - (d) a certification by the applicant regarding violations as required in Rule 6.4.25.
 - (e) proof of notice according to the provisions of Rule 1.6.2(1).
- (3) Proof of the notices required pursuant to Rules 1.6.2(1)(d), (e) and (f) is not required in order for an application to be considered filed, but such proof must be submitted to the Office prior to the Office's decision to approve an application pursuant to Rule 1.6.2(1)(g).

1.4.5 Specific Application Requirements – 112, 112d Reclamation Permit and 112 ISL Reclamation Permit Operations

- (1) All general application requirements outlined in Rule 1.4.1 shall be required for a 112 and 112d Reclamation Permit Application. For all 110 and 112 applications for in situ leach mining operations, the requirements of Rules 1.4.1, 1.4.4 and this Rule 1.4.5 shall be required; however, if an applicant for an in situ leach mining permit is granted an exemption from designated mining operation status, such applicant need only comply with in situ leach mining requirements and not designated mining operation requirements such as the environmental protection plan.
- (2) An application will be considered filed for the purpose of calculating the decision-making time periods under Sections 34-32-115(1) and 115(2), C.R.S., as amended, when the application file includes all of the following submittals:
- (a) the application fee, as determined under Section 34-32-127(2) C.R.S., as amended;
 - (b) one (1) original and one (1) copy, or an electronic submittal as designated and approved by the Office, of:
 - (i) the application form;
 - (ii) all information, attachments, maps, and exhibits, as listed and described in Rule 1.4.1 and Rule 6.4;
 - (iii) an affidavit that notice signs were posted on-site pursuant to Rule 1.6.2(1)(b);
 - (iv) the appropriate information under Rule 6.5 and Rule 7.3, if required by the Office for a non-designated operation pursuant to Rule 6.1.2;
 - (v) an environmental protection plan as described in Rule 6.4.21 if the operation is a designated mining operation; and

(vi) proof of notice according to the provisions of Rule 1.6.2(1)(a).

- (3) Proof of the notices required pursuant to Rules 1.6.2(1)(d), (e), and (f) is not required in order for an application to be considered filed, but such proof must be submitted to the Office prior to the Office's decision to approve an application, pursuant to Rule 1.6.2(1)(g).

1.4.6 Office Consideration – 110(1), 110(2), 110 ISL and 110d Limited Impact Operation Permit Applications, 110r Reclamation-Only Permit Applications

- (1) Except as to 110 ISL applications, the Office shall approve or deny a 110(1), 110(2), or 110d Limited Impact application within thirty (30) ~~e~~Days of the date the application is considered filed. Applications for 110 ISL mining operations shall be approved or denied within two hundred and forty (240) ~~e~~Days from the date the application is considered filed. For any 110 application, if this date does not fall on a Working Day, then the date for consideration by the Office will be automatically set to the next Working Day. The date set for consideration by the Office for any 110 application may be extended pursuant to provisions of Rule 1.8 (unless the submitted materials satisfy Rule 1.8.1(4)) or of Rules 1.4.1(7), (9), or (13). Except as to 110 ISL applications, the time for consideration shall not be extended beyond thirty (30) ~~e~~Days after the last such change submitted under Rule 1.8 unless requested by the Applicant. For 110 ISL applications, the time for consideration shall not be extended beyond one hundred and twenty (120) ~~e~~Days unless requested by the Applicant.
- (2) In the event that an objection to a 110(1), 110(2), or 110d Limited Impact permit application, submitted in the form of a protest or petition for a hearing, is received by the Office pursuant to the provisions of Rule 1.7, the Office shall proceed to issue its decision by the date set for consideration in Rules 1.4.6(1), 1.4.1(9), 1.4.1(13) or 1.8. However, the Office may set the matter for a hearing before the Board, pursuant to the provisions of Rule 1.4.11. As to 110 ISL applications, if an objection is filed, the Office shall set the matter for hearing before the Board, in which case the Office shall make a recommended decision on the application.
- (3) Unless exempted from designated mining operation status, an application for an in situ leach mining operation must be filed under Rule 1.4.8. If an exemption has been granted, the 110 ISL application shall comply with 112 permit application and procedures and comply with in situ leach mining requirements including filing the exhibits required under Rules 6.22, 6.23, 6.24 and 6.25. In addition, the two hundred and forty (240) ~~e~~Days for a decision on an in situ leach mining application shall apply.

1.4.7 Reserved

1.4.8 Office Consideration – 112, 112 ISL or 112d Reclamation Permit Application with No Objections

- (1) When a 112, 112 ISL or 112d Reclamation Permit application has been filed, and there are no protests or petitions for a hearing on the application submitted by a party pursuant to Rule 1.7, the Office shall issue the decision to approve or deny the application, as provided for in Section 34-32-115 C.R.S., no more than ninety (90) ~~e~~Days after a 112 or a non in situ leach 112d application is filed with the Office or two hundred and forty (240) ~~e~~Days after

an in situ leach 112d or a 112 ISL application is filed. If this date does not fall on a Working Day, then the date for consideration by the Office will be automatically set to the next Working Day. The Office shall not set a new date unless the date for consideration has been extended pursuant to Rules 1.4.1(7), (9), or (13).

- (2) The date set for a decision on the application may be extended, pursuant to Rule 1.8 (unless the submitted materials satisfy Rule 1.8.1(4)). Such date shall not be extended beyond ninety (90) ~~e~~D~~a~~y~~s~~ after the last revision to the application.

1.4.9 Office Consideration – 112, 112 ISL or 112d Reclamation Permit Application to which an Objection Has Been Received

- (1)
 - (a) If a timely and sufficient objection or petition for a hearing on a 112 or a non in situ leach 112d Reclamation Permit Application is received by the Office from a party pursuant to Rule 1.7, the Office shall set a date for consideration of the application in conformity with the provisions of this Rule. Such date shall be no more than ninety (90) ~~e~~D~~a~~y~~s~~ after the application is filed with the Office. If this date does not fall on a Working Day, then the date for consideration by the Office will be automatically set to the next Working Day. The date for consideration may be extended pursuant to Rules 1.4.1(7), (9), or (13), or 1.8 (unless any submitted materials satisfy Rule 1.8.1(4)). Instead of a decision, the Office will issue a recommendation to the Board by the date set for Office consideration.
 - (b) If a timely and sufficient objection or petition for a hearing on a 112 ISL or a 112d in situ leach mining operation application is received by the Office from a party pursuant to Rule 1.7, the Office shall set a date for consideration of the application in conformity with this Rule. Such date shall be no more than one hundred and eighty (180) ~~e~~D~~a~~y~~s~~ after the application is filed with the Office. However, if the Office determines an extension is necessary for its consideration, the Office may extend such date by thirty (30) ~~e~~D~~a~~y~~s~~ for a maximum time for consideration of two hundred and ten (210) ~~e~~D~~a~~y~~s~~. If this date does not fall on a Working Day, then the date for consideration by the Office will be automatically set to the next Working Day. In addition, the date for consideration may be extended pursuant to Rules 1.4.1(9) or (13), or Rule 1.8. Instead of a decision, the Office may issue a recommendation to the Board by the date set for Office consideration.
- (2) In addition, the Office shall:
 - (a) schedule the permit application for a hearing before the Board;
 - (b) provide all parties notice of the Pre-hearing Conference and of the Board hearing related to consideration of the application. Unless notice is waived in writing by all Parties, the Office shall provide all ~~p~~Parties at least thirty (30) ~~e~~D~~a~~y~~s~~ written notice of the Formal Board Hearing date; and;
 - (c) on or before the date set for Office consideration of the application, issue a recommendation to the Board for approval, approval with conditions, or denial of the application. Such recommendation shall identify the issues raised by the Office

or by the petitions for a hearing filed with the Office. The Office's recommendation and rationale for approval or denial shall be sent to the Applicant and to all objectors of record at least three (3) Working Days prior to the ~~p~~Pre-hearing ~~e~~Conference. Upon request, the Office will also send by electronic mail its recommendation and rationale to a party, or a party may pick up a copy at the Office. Copies of the Office's recommendation and rationale will be available at the ~~p~~Pre-hearing ~~e~~Conference.

- (3) Where a non in situ leach mining 112 or non in situ leach mining 112d Reclamation Permit Application is set for a hearing, the Board shall make a final decision on the application within one hundred and twenty (120) ~~e~~Days after the date the application was filed, unless the date set for consideration has been extended pursuant to Rules 1.4.1(7), (9), (13), or 1.8, or Section 34-32-115(2), C.R.S. Where any in situ leach mining Reclamation Permit Application (110,110 ISL, 112, or 112 ISL) is set for hearing, the Board shall make a final decision on the application within two hundred and forty (240) ~~e~~Days after the date the application was filed, unless the date set for consideration has been extended pursuant to Rules 1.4.1 (9) or (13), 1.8, or Section 34-32-115(2), C.R.S.
- (4) The decision rendered by the Board shall be considered final agency action for the purposes of the judicial review provisions of Section 24-4-106, C.R.S.

1.4.10 Office and Board Consideration of Applications for Reclamation Permits for any In Situ Leach Mining Operations Regardless of Designated Mining Operation Status

- (1) The Board or Office may deny a permit application for any in situ leach mining operation (112d which includes 110d, 112 ISL or 110 ISL) regardless of the proposed operation's status as a designated mining operation:
 - (a) based on scientific or technical uncertainty about the feasibility of reclamation;
 - (b) if the existing or reasonably foreseeable potential future uses for potentially affected groundwater, whether classified or unclassified pursuant to Section 25-8-203, C.R.S., includes domestic or agricultural uses, and the Board or Office determines the in situ leach mining will adversely affect the suitability of the groundwater for such uses;
 - (c) if the applicant or an affiliate, officer or director of the applicant, the operator or the claim holder has demonstrated a pattern of willful violations of environmental protection requirements of this article, rules promulgated pursuant to this article, a permit issued pursuant to the article, or an analogous law, rule, or permit issued by another state or the United States as disclosed in the application; or
 - (d) if the applicant or any affiliate, officer or director of the applicant has in the ten (10) years prior to the submission of the application violated the environmental protection requirements of this article, rules promulgated pursuant to this article, a permit issued pursuant to the article, or an analogous law, rule, or permit issued by another state or the United States as disclosed in the application; however,

- (i) the Board or Office may issue the permit if the applicant submits proof any said violation has been corrected; or
 - (ii) the Board or Office may conditionally issue the permit if the violation is in the process of being corrected to the satisfaction of the Board or Office or if the applicant has filed or is presently pursuing a direct administrative or judicial appeal to contest the validity of the alleged violation. An appeal of an applicant's relationship to an affiliate shall not qualify as an appeal to contest the alleged violation. Further, if the violation is not successfully abated or if the violation is upheld on appeal, the Board or Office shall revoke the conditionally issued permit.
- (2) The Board or Office shall deny a permit application for an in situ leach mining operation:
- (a) if the applicant fails to demonstrate that reclamation can and will be accomplished in compliance with article 32 of title 34, C.R.S., including the protection of groundwater and other environmental resources and human health; or
 - (b) if the applicant fails to demonstrate by substantial evidence that it will reclaim all affected groundwater for all water quality parameters that are specifically identified in the baseline site characterization required in Rule 1.4.4, or in the statewide radioactive materials standards or tables 1 through 4 of the Basic Standards for Groundwater as established by the Colorado Water Quality Control Commission, to either of the following:
 - (i) pre-mining baseline water quality or better, as established by the baseline site characterization required by Rule 1.4.4; or
 - (ii) that quality which meets the statewide radioactive materials standards and the most stringent criteria set forth in tables 1 through 4 of the basic standards for groundwater as established by the Colorado Water Quality Control Commission.

1.4.11 Administrative Appeal – of an Office Decision

- (1) Any person who demonstrates that they are directly and adversely affected or aggrieved by an action of the Office, including a decision to grant or deny a permit application, other than an application considered under the provisions of Rule 1.4.9 or a cost estimate determination for oil shale or in situ leach mining applications under the provisions of Rule 1.4.11(3), and whose interest is entitled to legal protection under the Act may petition for a hearing before the Board on such action within:
- (a) sixty (60) ~~d~~Days of the date of the Office decision if the Office decision was a denial, without a hearing, of an application for a permit or a Notice of Intent; or 24-4-104(9)
 - (b) thirty (30) ~~d~~Days for an appeal of any other Office decision.

- (c) Such hearings before the Board shall comply with this Rule and Section 24-4-105, C.R.S.
 - (d) Such petitions for a hearing shall state how the petitioner is directly and adversely affected or aggrieved by the Office's decision, and how the petitioner's interests are entitled to protection under the Act. The petitioner shall list and explain any issue the petitioner believes should be considered by the Board at the hearing on the matter. The petition for a hearing shall specify the application or file number assigned by the Office.
- (2) If no petition decision is made by the Board within sixty (60) eDays of the date the petition is submitted, the petition will be deemed denied. Such denial shall be considered final agency action for the purposes of the judicial review provisions of Section 24-4-106, C.R.S.
 - (3) A permit applicant for an oil shale or any in situ leach mining operation may appeal to the Board the Office's cost estimate to review such an application done pursuant to Rule 1.5.2(1) by filing a petition for a hearing before the Board within ten (10) eDays from the date the Office mailed the cost estimate to the applicant. The petition for hearing shall set forth the list of issues the applicant believes should be considered by the Board and the specific factual and legal basis for the appeal. The petition for a hearing shall specify the application or file number assigned by the Office. The hearing shall not be held any sooner than twenty (20) eDays after notice is given to the permit applicant. The Office and applicant may consult on the cost estimate issue between the time the Office mails the notice to the applicant and the time in which the applicant must file an appeal with the Board.
 - (4) The Office shall give notice of any Formal Board Hearing to consider an appeal according to the provisions of Rule 1.6.1(4).
 - (5) The Office may determine whether to hold a pre-hearing conference dependent upon the number of parties to the Formal Board Hearing and/or complexity of the issues, or the Board may so direct the Office as the Board sees fit.

1.4.12 Appeal of 112 and 112d (including in situ leach mining reclamation permits,) 112 ISL or 110 ISL Reclamation Permit Application Denial

If the Office issues a decision to deny an application for a 112, 112d (including in situ leach mining), 112 ISL or 110 ISL Reclamation Permit, it shall schedule the application for a hearing before the Board unless the Applicant decides to withdraw the application. Such hearing shall be scheduled prior to the deadline for a final decision on the application pursuant to Section 34-32-115(2), C.R.S., and Rules 1.4.8(2), 1.4.9(1), or 1.4.9 (3) above, and shall be conducted in conformance with the provisions of Section 24-4-105, C.R.S.

- (a) Within ten (10) eDays of receipt of the letter of denial, the Applicant shall file a statement of issues to be considered by the Board at the hearing. The statement shall include an explanation of the grounds for seeking a reversal of the Office's decision.

- (b) If there are no other parties to the proceedings on the application the Applicant may waive the statutory deadline for a final decision. In that event, the Applicant shall file the statement of issues to be considered by the Board at the hearing within sixty (60) ~~e~~Days of the receipt of the letter of denial.

1.4.13 Automatic Application Approval

- (1) If the Office or the Board fail to make a decision on a permit application by the deadlines set forth in Rules 1.4.6, 1.4.8, and 1.4.9, or as extended by Rule 1.8, the application shall be deemed approved and the permit shall be granted upon submittal by the Applicant and approval by the Office of the appropriate performance and financial warranties.
- (2) Where an Applicant has waived its right, in writing, to a decision by the deadlines set forth in statute or by these Rules, the automatic approval provisions of Rule 1.4.13(1) shall not apply.

1.5 FEES

1.5.1 General Provisions – Application Fees for Designated Mining Operations

On and after July 1, 1994, a fee shall be paid by the Applicant of a permit for a designated mining operation at the time an Environmental Protection Plan is submitted for review and approval to the Office.

The fee shall be applied to both existing and new Designated Mining Operations and shall reimburse the Office for the estimated cost to the Office for processing certification and administrative review of such permit applications. The fees shall be as follows, based upon the level of effort: for Environmental Protection Plans filed before July 1, 2007, not less than eight hundred and seventy-five dollars (\$875) and not more than nine thousand dollars (\$9,000) pursuant to Section 34-32-127(2)(a)(I)(M), C.R.S. For Environmental Protection Plans filed on or after July 1, 2007, the fee shall not be less than one thousand dollars (\$1,000) and not more than ten thousand three hundred and fifty dollars (\$10,350).

1.5.2 Fees for In Situ Leach Mining Operations and Oil Shale Mining Operations

- (1) For applications for in situ leach mining operations or oil shale mining operations the fees shall be as follows except as provided in Rule 1.5.2 (2):
 - (a) for applications for new permit operations – the fee shall be that listed in Rule 1.5.5(8);
 - (b) for applications for an amendment to a permit shall be that listed in Rule 1.5.6(4);
 - (c) for applications for revisions to permits other than amendments, the fee shall be that listed in Rule 1.5.7(4).
- (2) (a) If the costs to review applications for new permit operations, amendments

to permits or revisions for permits exceed twice the fee for such application, the applicant shall pay the additional costs. The costs shall include those of the Office, another division of the department involved in the review, and any consultant or other nongovernmental agents that have specific expertise on the issue in question. The Office shall inform the applicant that the cost of review may exceed twice the amount of the listed fee and shall provide the applicant with an estimate of the actual costs within ten (10) eDdays after the Office's receipt of the application. The applicant may appeal the estimate to the Board pursuant to Rule 1.4.11(3). In addition, the Office and applicant may consult on the cost estimate issue between the time the Office mails the notice to the applicant and the time in which the applicant must file an appeal with the Board.

- (b) Any consultant or other non-governmental agent the Office uses pursuant to Rule 1.5.2(2)(a) shall not have any financial or business interest in the permit application, any current or previous direct involvement in the proposed mining operation, or have worked for the applicant or any objecting party as an employee or independent contractor on any major project for at least one (1) year prior to the filing of the application. In addition, the consultant or agent must avoid future conflicts with the Office including not working for any party to the permit application proceedings for at least one (1) year after the consultant or agent completes the work for the Office. Notwithstanding the above, the Office may use a consultant or agent if all parties to a permit application waive any conflict of interest.

1.5.3 Fees for Existing Designated Mining Operations – Technical Revisions

- (1) Designated Mining Operations which qualify for permits under Section 34-32-110, C.R.S. 1984, as amended, which shall be referred to as "110d" permits - \$1,006;
- (2) Designated Mining Operations which qualify for permits under Section 34-32-112, C.R.S. 1984, as amended, but which affect less than fifty (50) acres and extract less than one (1) million tons per year, which shall be referred to as "112d-1" permits - \$1,006;
- (3) Designated Mining Operations which qualify for permits under Section 34-32-112, C.R.S. 1984, as amended, which do not qualify as 112d-1 permits, but which affect less than one hundred (100) acres and extract less than five (5) million tons per year, which shall be referred to as "112d-2" permits - \$1,006; and
- (4) any other Designated Mining Operation which shall be referred to as "112d-3" permits - \$1,006.

1.5.4 Fees for Existing Designated Mining Operations – Permit Amendments

- (1) Designated Mining Operations which qualify for permits under Section 34-32-110, C.R.S. 1984, as amended, which shall be referred to as "110d" permits - \$1,750;
- (2) Designated Mining Operations which qualify for permits under Section 34-32-112, C.R.S. 1984, as amended, but which affect less than fifty (50) acres and extract less than one (1) million tons per year, which shall be referred to as "112d-1" permits - \$2,300;

- (3) Designated Mining Operations which qualify for permits under Section 34-32-112, C.R.S. 1984, as amended, which do not qualify as 112d-1 permits, but which affect less than one hundred (100) acres and extract less than five (5) million tons per year, which shall be referred to as "112d-2" permits - \$4,025; and
- (4) any other Designated Mining Operation which shall be referred to as "112d-3" permits - \$7,475.

1.5.5 Fees for New Designated Mining Operations

For purposes of these Rules, "new operations" are defined as operations that submit(ted) applications for permits after July 1, 1994.

- (1) Designated Mining Operations which qualify for permits under Section 34-32-110, C.R.S. 1984, as amended, which shall be referred to as "110d" permits - \$2,875;
- (2) Designated Mining Operations which qualify for permits under Section 34-32-112, C.R.S. 1984, as amended, but which affect less than fifty (50) acres and extract less than one (1) million tons per year, which shall be referred to as "112d-1" permits - \$4,025;
- (3) Designated Mining Operations which qualify for permits under Section 34-32-112, C.R.S. 1984 as amended, which do not qualify as 112d-1 permits, but which affect less than one hundred (100) acres and extract less than five (5) million tons per year, which shall be referred to as "112d-2" permits - \$6,900; and
- (4) any other Designated Mining Operation which shall be referred to as "112d-3" permits - \$9,200.

1.5.6 Fees for New Designated Mining Operations – Technical Revisions

- (1) Designated Mining Operations which qualify for permits under Section 34-32-110, C.R.S. 1984, as amended, which shall be referred to as "110d" permits - \$1,006;
- (2) Designated Mining Operations which qualify for permits under Section 34-32-112, C.R.S. 1984, as amended, but which affect less than fifty (50) acres and extract less than one (1) million tons per year, which shall be referred to as "112d-1" permits - \$1,006;
- (3) Designated Mining Operations which qualify for permits under Section 34-32-112, C.R.S. 1984, as amended, which do not qualify as 112d-1 permits, but which affect less than one hundred (100) acres and extract less than five (5) million tons per year, which shall be referred to as "112d-2" permits - \$1,006; and
- (4) any other Designated Mining Operation which shall be referred to as "112d-3" permits - \$1,006.

1.5.7 Fees for New Designated Mining Operations – Permit Amendments

- (1) Designated Mining Operations which qualify for permits under Section 34-32-110, C.R.S. 1984, as amended, which shall be referred to as "110d" permits - \$2,300;
- (2) Designated Mining Operations which qualify for permits under Section 34-32-112, C.R.S. 1984, as amended, but which affect less than fifty (50) acres and extract less than one (1) million tons per year, which shall be referred to as "112d-1" permits - \$2,875;
- (3) Designated Mining Operations which qualify for permits under Section 34-32-112, C.R.S. 1984, as amended, which do not qualify as 112d-1 permits, but which affect less than one hundred (100) acres and extract less than five (5) million tons per year, which shall be referred to as "112d-2" permits - \$4,600; and
- (4) any other Designated Mining Operation which shall be referred to as "112d-3" permits - \$8,050.
- (5) Fees for all other applications for new Permits or Modifications to existing Permits are as specified in Section 34-32-127, C.R.S. 1984, as amended.

1.5.8 Annual Fees

Each year, on the anniversary date of the permit, the Permittee shall submit the appropriate annual fee specified in Section 34-32-127(2)(a)(IV), C.R.S.

1.6 PUBLIC NOTICE PROCEDURES

1.6.1 Office/Board Procedures – Permit Application Decision Dates

- (1) The Office shall give such notice of the decision date for applications for all types of mining operations, including applications for:
 - (a) 110 and Non-in situ leach mining 110d Limited Impact Operations and 110r Reclamation-Only Operations;
 - (b) 112 and 112d Reclamation Operations;
 - (c) 110 ISL and 112 ISL Mining Operations.
- (2) The Office shall give notice, as required by Rule 1.6 and the following specific provisions, of the decision date of the application to:
 - (a) the Applicant;
 - (b) the county(s) in which the proposed mining operation is to be located;
 - (c) any municipality within two (2) miles of the proposed mining operation; ~~and~~
 - (d) the Colorado State Board of Land Commissioners (State Land Board); and

- (de) the public, by newspaper release, ~~and~~ by electronic submittal on the Office website as designated and approved by the office, and posting as prescribed in Rule 2.2.1(a)(iii).
- (3) The Office shall send written and/or electronic notice of the date, time and place of any Pre-hearing Conference to:
 - (a) the Applicant;
 - (b) all persons ~~that who~~ submitted timely statements in support of or objections to the application and a basis for party status; and
 - (c) the Board of County Commissioners and the applicable Conservation District.
- (4) The Office shall provide notice of the date, time, and place of any application hearing by the Board, by:
 - (a) sending written and/or electronic notice to the Applicant, any person previously filing a protest or petition for a hearing or statement in support of the application, and the local Board of County Commissioners;
 - (b) publishing notice in a newspaper of general circulation in the locality of the proposed mining operation once a week for two (2) consecutive weeks immediately prior to the hearing; and
 - (c) mailing list, newspaper release, the Office website, and posting as prescribed in Rule 2.2.1(a)(iii).

1.6.2 General Applicant Procedures

- (1) The Applicant shall:
 - (a) Prior to submitting the application to the Office, send a notice, on a form approved by the Board, to the local Board of County Commissioners and, if the mining operation is within the boundaries of a Conservation District, to the Board of Supervisors of the Conservation District.
 - (i) The Applicant shall include proof of such notice with the application at the time the application is submitted to the Office.
 - (ii) Proof of notice shall be in the form of a return receipt of a ~~e~~Certified ~~m~~Mailing, e-receipt, or a date-stamped copy of the notice acknowledging receipt by the appropriate local Board.
 - (b) Prior to submitting the application to the Office ~~for a 110, 112, 112d, 110 ISL or 112 ISL Reclamation Permit~~, post notices (signs) at the location of the proposed mine site, as required by the Office, of sufficient number along publicly accessible areas and a minimum size of eleven (11) inches wide by seventeen (17) inches

high, with appropriate font size, to clearly identify the site as the location of a proposed mining operation. ~~giving name, address, and phone number of the Applicant, and stating that (name of Applicant) has applied for a mining permit with the Colorado Mined Land Reclamation Board. Anyone wishing to comment on the application may view the application at the County Clerk's or Recorder's office or on the Office Website and should submit comments prior to the end of the public comment period to the Colorado Mined Land Reclamation Office, at the address given on the cover of these Rules and Regulations or by electronic submittal as designated and approved by the Office. For any class of 110 or 110d Limited Impact operation other than a 110 ISL operation the Applicant need only post notice (sign) at the location of the proposed access to the site. After having posted such notices (sign), failure by an Applicant to maintain such notices shall not constitute just cause to deny approval of the application. At the time the application is filed with the Office, the Applicant shall provide a signed affidavit that such notices (signs) were posted according to the provisions of this Rule.~~ Notices shall contain:

- ~~(i) name, address, e-mail, and phone number of Applicant;~~
 - ~~(ii) a statement that the Applicant has applied for a mining permit with the Colorado Mined Land Reclamation Board;~~
 - ~~(iii) location where additional information on the operation may be obtained, including the Office Website; and~~
 - ~~(iv) location, including the Office Website link, for submitting statements of support or objections with the Office.~~
- (c) Prior to submitting the application to the Office and/or prior to submitting amendments to the application, place for public review a copy of the application and amendments, without confidential items, with the Clerk or Recorder of the county or counties in which the affected land is located, and provide proof as required by Rule 6.3.9 for 110 and non-in situ leach mining 110d Limited Impact Operations and Rule 6.4.18 for 112, 112d, 110 ISL or 112 ISL Reclamation Operations.
- (d) Within ten (10) ~~e~~Days after the Office notifies the Applicant that the application is considered filed, publish a public notice in a newspaper of general circulation in the locality of the proposed mining operation containing:
- (i) name, ~~and~~ address, e-mail, and phone number of Applicant;
 - (ii) location of the proposed mining operation by section, township and range and street address where applicable;
 - (iii) proposed dates of commencement and completion of the operation;
 - (iv) proposed future use of affected land;
 - (v) location where additional information on the operation may be obtained, including the Office Website; and

- (vi) location, including the Office Website link, and final date for submitting statements, ~~including the Office Website link~~, of support or objections with the Office.
- (e) The Applicant shall mail or personally serve a copy of the notice provided for in Rule 1.6.2(1)(d) immediately after the first publication to:
 - (i) all Owners of Record of the surface and mineral rights of the affected land;
 - (ii) the Owners of Record of all land surface within 200 feet of the boundary of the affected lands, and;
 - (iii) if the proposed operation is any in situ leach mining operation, the Owners of Record of all land surface within three (3) miles of the boundary of the affected land.
- (f) As soon as designated by the Office, mail a copy of the notice provided for in Rule 1.6.2(1)(d) to any other Owners of ~~R~~Record who might be affected by the proposed mining operation. The Office shall designate such owners, if any, during its adequacy review process.
- (g) Proof of Notice may be by submitting return receipts of a ~~e~~Certified ~~m~~Mailing or by proof of personal service. An application will be considered filed by the Office when the Applicant supplies the proper application fee, a signed affidavit that all notices as provided for in Rule 1.6.2(1)(b) have been posted, and the application meets the applicable requirements of Rules 1.4.1, 1.4.2, or 1.4.5. Prior to Office consideration of the application, proof of notice provided for in ~~Rules~~ 1.6.2(1)(d), (e), and (f) must be received by the Office.
- (2) The copy of the permit application, adequacy responses of the applicant, ~~application revisions~~, and any permit amendment applications placed at the office of the County Clerk or Recorder shall not be recorded, but shall be retained until final agency action, as defined at C.R.S. 24-4-105(14), on said application has occurred and be available for inspection during such period. At the end of such period, such application may be reclaimed by the Applicant or destroyed. Applicants should contact the Office prior to removal of the copy of the application materials placed with the office of the County Clerk or Recorder in order to ensure compliance with C.R.S. 24-4-105(14). The copy of the permit application, adequacy responses of the applicant, application revisions, and any permit amendment applications on file with the Office Website constitute the official public file and shall remain accessible to the public.

1.6.3 Specific Provisions – 110 and Non-In Situ Leach Mining 110d Limited Impact Permit Applications and Conversions of Two Acre Limited Impact Permits

- (1) The following Notice Rules and the notice requirements of Rule 1.6.2 also apply to applications for:

- (a) new 110 and Non-In Situ Leach Mining 110d Limited Impact Permit Applications;
or
 - (b) conversions of Two Acre Limited Impact Permits to 110 and Non-In Situ Leach Mining 110d Limited Impact Permits.
- (2) The Office shall give written notice, by mailing or e-notify, of the decision date for the application.
 - (3) The Public Notice, as required in Rule 1.6.2(1)(d), shall be published once.
 - (4) This Rule is not applicable to permit applications under Section 34-32-110 that are for in situ leach mining operations. Applications for in situ leach mining operations shall follow the notice requirements for 112d-3 permit applications in Rule 1.6.5. If such application is granted an exemption from designated mining operation status, the applicant must still comply with all in situ leach mining application requirements and shall follow the procedures for 112 permits.

1.6.4 Reserved

1.6.5 Specific Provisions – 112, 112d, 110 ISL and 112 ISL Reclamation Permit Applications

- (1) The Public Notice, as required in Rule 1.6.2(1)(d) shall be published four (4) times, once a week for four (4) consecutive weeks.
- (2) Within ten (10) ~~w~~Working ~~d~~Days after the last publication or as soon thereafter as proof has been obtained, the Applicant shall mail proof of the publication required by Rule 1.6.2(1)(d), to the Office. Proof of publication may consist of either a copy of the last newspaper publication, to include the date published, or a certified or notarized statement from the paper. An application may not be approved until such proof has been obtained.

1.6.6 Conditions that Require New Notice to the Public

If a notice is in error or a change to the application is so substantial, as determined by the Office, that it affects any of the terms contained in the notice that was published in the newspaper or mailed to the owners of the affected and adjacent lands, or the change is an amendment to the application, the Applicant shall be required to publish and mail a new notice of the application. In the event that the Applicant is required to issue a new notice, all applicable deadlines shall begin to run anew.

1.7 SUBMISSION OF COMMENTS AND PETITIONS FOR A HEARING

1.7.1 General Provisions

- (1) Any person has the right to submit written statements supporting or objecting to any application for a permit, or for an amendment or revision of a previously granted permit. For a person to become a party, the person must meet the definition of a party as provided

in these regulations. Any party may petition for a hearing on any application for a permit, or for an amendment or technical revision to a previously granted permit.

- (2) In order for statements supporting or objecting to an application, petitions for a hearing, and/or submissions to become a party to be considered timely, the following deadlines shall apply:
 - (a) In the case of a 112, 112d, 110 ISL or 112 ISL Reclamation Permit Application, such written comments, protests, and petitions for a hearing must be received by the Office not more than twenty (20) eCalendar eDays after the last date for the newspaper publication of notice of the application provided for in Rules 1.6.2(1)(d) and 1.6.5(1). Written comments, protests and/or petitions must contain the name, mailing address, e-mail, and telephone number of the interested parties. The Office shall set the matter for a hearing before the Board upon timely receipt of a written objection, protest, or petition for a hearing under this Rule.
 - (b) Except for 110 in situ leach mining permit applications, which must follow the application process for 112d permit applications or if exempt from designated mining operation status, 112 permit applications, written comments, protests or petitions for a hearing as to a 110 or non-in situ leach mining 110d Limited Impact Permit application must be received by the Office not more than ten (10) eDays after the last date for newspaper publication of notice of the application provided for in Rules 1.6.2(1)(d) and 1.6.3(3). The written comment, protest and/or petition must contain the name, mailing address, e-mail, and telephone number of the interested parties. The Office may set the matter for a hearing before the Board upon timely receipt of a written petition for a hearing under this Rule, but in any case shall approve or deny the permit application within thirty (30) eDays of the date the Office considers the application filed according to the provisions of Rules 1.4.1 or 1.8. If the Office does not set the matter for a hearing, any person who demonstrates that they are directly and adversely affected or aggrieved by the Office's decision to grant or deny the 110 or non-in situ leach mining 110d Limited Impact Permit application and whose interests are entitled to legal protection under the Act may appeal the Office's decision pursuant to Rule 1.4.11.
- (3) If the Office receives any written objections to an application pursuant to the Rule 1.7.1(2), the Office shall provide a copy of the objection to the Applicant within ten (10) eDays of receipt.

1.7.2 Specific Provisions – 110 Limited Impact and Non In Situ Leach Mining 110d Limited Impact Designated Mining Operations Applications

- (1) Except for 110 in situ leach mining operation permit applications, which shall follow the procedures for 112d permit applications or if exempt from designated mining operation status, the procedures for 112 permit applications, comments shall be submitted in accordance with Rule 1.7.1.
- (2) To be considered, such statements must be received by the Office within ten (10) eDays after the last date of the Applicant's newspaper publication.

1.7.3 Reserved

1.7.4 Specific Provisions – 112, 112d, 110 ISL and 112 ISL Reclamation Permit Applications

- (1) Comments shall be submitted in accordance with Rules 1.7.1 and 1.7.4.
- (2) In the event the Office receives an objection within twenty (20) ~~e~~Calendar ~~d~~Days of the last day of publication and in accordance with this Rule 1.7, it shall set the permit application for a hearing before the Board, according to the provisions of Rule 2.

1.8 AMENDMENTS ~~AND TECHNICAL REVISIONS~~ TO A PERMIT APPLICATION

1.8.1 General Provisions – 110 and 110d Limited Impact or 112 and 112d or 110 ISL and 112 ISL Reclamation Permit Applications

- (1) An Applicant may amend, ~~or make technical revisions to,~~ an application for a permit under consideration by the Office by filing a copy of such amendment ~~or technical revision~~ with the Office and placing a copy with the County Clerk and Recorder.
- (2) Within five (5) ~~w~~Working ~~d~~Days of placement with the County Clerk or Recorder, the Applicant shall provide the Office with an affidavit or receipt demonstrating that the amendment ~~or technical revision~~ was placed with the County Clerk and Recorder not later than the close of business on the day the amendment ~~or technical revision~~ was filed with the Office.
- (3) Any amendment ~~or technical revision~~ to an application shall constitute a new filing for the sole purposes of determining the date for the consideration of the application by the Office, and for the deadline for a final decision on the application. The provisions of Rules 1.6.6 and 1.10 shall apply to submitted amendments and as determined by the Office, be accompanied by a basic fee as specified in Section 34-32-127, C.R.S. 1984, as amended. ~~The provisions of Rules 1.8.2 shall apply to technical revisions for 110 and non in situ leach mining 110d Limited Impact, and the provisions of Rule 1.8.4 shall apply to technical revisions for all in situ leach mining applications (regardless of designated mining operation status), 112 and 112d Reclamation Permit applications.~~
- (4) If the Office determines that additional information is submitted by the Applicant for the purpose of detailing, clarifying or explaining any part of the application, whether at the request of the Office or otherwise, then such additional information shall not constitute a change or an addition resulting in an amendment ~~or technical revision to the application.~~
- (5) If the Applicant notifies the Office of a proposed change in post-mining land use or a change in the proposed mining plan or reclamation plan, the Office shall decide whether such change ~~is significant enough to require the submittal of an amendment. in post-mining land use requires a change in the Reclamation Plan and whether such change shall require a Technical Revision or Permit Amendment. A significant change to the proposed mining or reclamation plan as determined by the Office, a change to the proposed post-mining land~~

use, and/or an increase in the proposed permit acreage requires the submittal of an amendment to the application.

- (6) Within five (5) ~~w~~Working ~~d~~Days of the filing of an amendment ~~or technical revision~~ to an application, the Office shall set a new date for the consideration of the application. The new date shall be set pursuant to Rule 1.6.6, ~~1.8.2 or 1.8.4, as applicable.~~

~~1.8.2 Technical Revisions to 110 or Non In Situ Leach Mining 110d Limited Impact Permit Applications~~

~~The Office shall set a new date for the consideration of a technical revision to an application for a 110 or non in situ leach mining 110d Limited Impact permit only as necessary to afford an adequate opportunity for a review of the technical revision by the Office and by any interested members of the public. This Rule 1.8.2 does not apply to technical revisions for in situ leach mining permit applications. Technical revisions to in situ leach mining permit applications must follow the procedural requirements for 112d permit applications or if exempt from designated mining operation status, 112 permit applications.~~

~~1.8.3 Reserved~~

~~1.8.4 Technical Revisions to 112, 112d, 110 ISL or 112 ISL Reclamation Permit Applications~~

- ~~(1) Written objections to the application:~~

~~The Office shall not set a new date for consideration of an application for a 112, 112d, 110 ISL or 112 ISL Reclamation Permit for which it has received written objections, any earlier than twenty (20) days after the date of filing of a technical revision to the application, unless the Applicant, the Office and all parties agree on an earlier date.~~

- ~~(2) No written objection to the application:~~

~~The Office shall set a new date for the consideration of an application to which no objection has been submitted only as necessary to afford the Office an adequate opportunity to review the technical revision.~~

1.9 TECHNICAL REVISION TO A PERMIT

1.9.1 Filing and Review Process

An application for Technical Revision shall be filed by electronic submittal as designated and approved by the Office. The Office shall act on a Technical Revision application within thirty (30) ~~d~~Days after the Technical Revision has been filed with the Office. If this date does not fall on a Working Day, then the date will be automatically set to the next Working Day. A Technical Revision is considered filed when the submittal includes the appropriate fee. A Technical Revision shall be considered automatically approved within thirty (30) ~~d~~Days after filing unless the application is denied. Notice of Technical Revisions shall be acknowledged in the monthly activity report attached to the monthly Board agenda.

1.9.2 Denial and Appeal Process

In the event that the Office decides to deny an application for Technical Revision, the Office will notify the Operator in writing within ten (10) ~~4~~Days after the decision deadline. The Operator may appeal the decision to the Board for a final determination by submitting a petition for a hearing pursuant to the provisions of Rule 1.4.11.

1.10 AMENDMENT TO A PERMIT

- (1) Where applicable, there shall be filed with any application for a 112, 112d, 110 ISL or 112 ISL Reclamation Permit amendment, attachment(s), map(s), and one (1) original and one (1) copy, or by electronic submittal as designated and approved by the Office, of the application with the same content as required for an original application, except that the Applicant will not be required to submit any information which duplicates applicable previous submittals. However, the Applicant shall clearly describe where in the original application and supporting documents the information not included in the amendment application, but necessary to render the amendment technically adequate, may be found.
- (2) A 110 or non-in situ leach mining operation 110d Limited Impact permit amendment submittal shall include attachment(s), map(s), and one (1) original and one (1) copy, or by electronic submittal as designated and approved by the Office, of the application with the same content as required for an original application, except the Applicant will not be required to submit any information which duplicates applicable previous submittals. However, the applicant shall clearly describe where, in the original application and supporting documents, the information not included in the amendment application, but necessary to render the amendment technically adequate, may be found.
- (3) The amendment application shall be accompanied by a basic fee as specified in Section 34-32-127, C.R.S. 1984, as amended. Amendment applications for any in situ leach mining operations shall be accompanied by the basic fee for a 112d amendment application or a 112 amendment application if the operation has been exempted from designated mining operation status.
- (4) ~~An A~~applications for amendment shall be reviewed by the Board or Office in the same manner as ~~an~~ applications for ~~a~~ new Permits.
- (5) All aspects of the mining operation and Reclamation Plan that are subject to the amendment will be subject to these Rules, as amended, in effect at the time the Permit is amended.

1.11 CONVERSIONS

1.11.1 Purposes and Types

- (1) A conversion is an application to change an existing permit to another type of permit based on an increase in acreage of the mining operation. Operators requesting conversion of a

permit, regardless of designated mining operation or in situ leach status, must file a new permit application pursuant to either Section 34-32-110 C.R.S. and Rule 1.4.2 or Section 34-32-112 C.R.S. and Rules 1.4.4 and 1.4.5.

~~(2) Unless such mining is incidental to the permitted activity, any Operator who intends to mine any commodity other than a "construction material" commodity, as defined in Section 34-32-5-103(3), C.R.S., shall apply for a conversion to a new permit under the provisions of Section 34-32-101, et seq, C.R.S. 1984. Upon issuance of the new permit, the existing permit under Section 34-32-5-101, et seq, C.R.S., shall be terminated. Such determinations may be made through a declaratory order by the Board.~~

~~(2) Pursuant to 34-32-110(9)(d), 110r Reclamation-Only permit shall not be converted into or from any other type of permit.~~

1.11.2 Application Process

(1) ~~Except for permit conversions under Rule 1.11.1(2),~~ The original Permittee cannot convert a Permit unless the permit has been in existence for two (2) consecutive years.

(2) All fee, warranty and permit processing requirements shall apply as though the Conversion application were a new permit application. A fee, as specified in Section 34-32-127(2)(a) C.R.S. shall be submitted at the time of the application submittal. Pursuant to Section 34-32-110(7)(a) C.R.S. and Rule 1.11.1, all conversion requests must include the filing of a new Section 110 or Section 112 permit application. In the case of converting from a 110 ISL operation to a 112 ISL operation, the Applicant/Operator must file a new baseline and site characterization and monitoring plan pursuant to the process set forth in Section 34-32-112.5 C.R.S. and Rule 1.4.3. If the Applicant/Operator believes that baseline site characterization information obtained for the original 110 ISL application is relevant to the permit conversion application, that information may, in the discretion of the Office, be incorporated into the conversion application pursuant to Rule 1.11.2(3).

(3) Contents of application:

(a) except as otherwise indicated in this Rule 1.11.2, the Operator shall provide all the information required by the Act and these Rules for the size of operation. However, the Operator need not supply any information required by the provisions of the Act which has been previously supplied unless such information is different from that in the original application. However, the Operator shall clearly describe where in the original application and supporting documents the information not included in the conversion application, but necessary to render the conversion application technically adequate, may be found.

(b) In addition, the application shall show:

(i) the area mined or disturbed; and

(ii) the area reclaimed since the original permit application.

- (34) When an Operator is requesting a change in the status of a permit from a Designated Mining Operation to a Non-designated Mining Operation conversion provisions do not apply; the operator must comply with the exemption from designation requirements and procedures set forth in Rule 7.2.6.

1.11.3 Repealed

1.12 PERMIT TRANSFERS AND SUCCESSION OF OPERATORS

1.12.1 Approval Process

- (1) Where one Operator succeeds another at any uncompleted operation, the first Operator shall be released from all liability as to that particular reclamation operation and all applicable Performance and Financial Warranties as to such operation shall be released if the successor Operator assumes, as part of the obligation under the Act and these Rules, all liability for the reclamation of the affected land, and the obligation is covered by replacement Performance and Financial Warranties as to such affected land.
- (2) Requests for permit transfers and succession of Operators must be submitted on "Request for Transfer of Mineral Permit and Succession of Operators" forms provided by the Board. To be considered filed, each request must include an executed Performance Warranty, State approved W-9, and applicable replacement Financial Warranty, as well as proof of notice to all Owners of Record of the surface of the affected land and the mineral rights of the substance to be mined, any updated legal right of entry agreements if necessary, and updated damage waiver agreements, or a geotechnical report demonstrating approved safety factors to protect off-site structures within 200 feet of the affected lands. In addition, each request for transfer of mineral permit and succession of operators for any in situ leach mining operation must include exhibit Y as required by Rule 6.4.25.
 - (a) The Office shall act on a Succession of Operator application within thirty (30) ~~4~~Days.
 - (b) Succession of Operator requests will be considered automatically approved after thirty (30) ~~4~~Days of the date the Succession of Operator request is filed with the Office unless the Operator is notified by the Office that the request is deficient or denied. Succession of ~~o~~Operator requests must be submitted on forms provided by and approved by the Board, and include the fee specified, in Section 34-32-127(2), C.R.S., and the properly executed financial and performance warranties, and damage waiver agreements or geotechnical stability reports, ~~where~~when required.
- (3) Approval of a permit transfer and succession of Operator request shall be given by the Office if it finds that the successor Operator is capable of assuming all responsibility for the conditions included under the original permit; except that for any in situ leach mining operation, the Office or the Board may deny a permit transfer if:

- (a) the successor operator or any affiliate, officer or director of the successor operator has demonstrated a pattern of willful violations of the environmental protection requirements of C.R.S. title 34 article 32, rules promulgated pursuant to this article, a permit issued pursuant to the article, or an analogous law, rule, or permit issued by another state or the United States;
- (b) the successor operator or any affiliate, officer or director of the successor operator has in the ten (10) years prior to the submission of the request violated the environmental protection requirements of this article, rules promulgated pursuant to this article, a permit issued pursuant to the article, or an analogous law, rule, or permit issued by another state or the United States as disclosed in the application; however,
 - (i) the Board or Office may approve of the request if the successor operator submits proof any said violation has been corrected; or
 - (ii) the Board or Office may conditionally grant the request if the violation is in the process of being corrected to the satisfaction of the Board or Office or if the successor operator has filed or is presently pursuing a direct administrative or judicial appeal to contest the validity of the alleged violation. An appeal of a successor operator's relationship to an affiliate shall not qualify as an appeal to contest the alleged violation. Further, if the violation is not successfully abated or if the violation is upheld on appeal, the Board or Office shall revoke the conditionally issued transferred permit.

Notice of Permit Transfer will be acknowledged in the monthly activity report attached to the monthly Board agenda.

(4) 110r Reclamation-Only permits are not eligible for permit transfers and succession of Operators

1.12.2 Denial and Appeal Process

- (1) Non-ISL appeal: In the event that the Office decides to deny a succession of Operator application in a non-in situ leach mining operation, the Office will notify the Applicant in writing within ten (10) ~~d~~Days of the decision deadline. The applicant may appeal the Office's decision to the Board for a final determination according to the provisions of Rule 1.4.11.
- (2) ISL appeal: As to an in situ leach mining operation the applicant/operator or any person who demonstrates that they are directly and adversely affected or aggrieved and whose interest is entitled to legal protection under the Act may appeal to the Board the Office's decision regarding a transfer of operations according to the provisions of Rule 1.4.11.

1.13 CESSATION OF OPERATIONS – TEMPORARY FOR ALL MINING OPERATIONS OR PERMANENT FOR IN SITU LEACH MINING OPERATIONS

1.13.1 General Provisions

- (1) A permit granted pursuant to these Rules shall continue in effect as long as:
 - (a) an Operator continues to engage in the extraction of minerals and/or the mining operation and complies with the provisions of the Act; ~~and~~
 - (b) mineral reserves are shown by the Operator to remain in the mining operation and the Operator shows a reasonable plan to resume the mining operation or commence final reclamation; ~~and~~
 - (c) ~~T~~he mining operation is maintained in compliance with the requirements set forth in Rule 1.13.5(2)(d).
- (2) The Board will consider all relevant testimony and facts related to a mining operation in its determination as to whether or not temporary cessation has occurred. The Board recognizes that no one factor is necessarily determinative, but that each determination will be based on site specific conditions and activity. In considering whether or not an operation is in production, the Board may take into consideration, among other factors, orderly mining operations or activities that further advance the mining operation commensurate with the scale of the operation, or other relevant facts. Factors to be included in the determination if a mine will be considered for temporary cessation, include, but are not limited to the following:

1.13.2 Indications of Temporary Cessation

- (1) there are no personnel working at the site for one hundred and eighty (180) consecutive days as may be determined through annual reports, inspections and/or operator submissions;
- (2) ~~A~~activity at the site is limited to general maintenance, housekeeping or similar related activity;
- (3) ~~A~~activities at the site are not significantly advancing the site towards completion of the mining operation or final reclamation. The Board will consider activities at the site in relation to the scale ~~e~~ of the operation; ~~and~~ other relevant facts;
- (4) there is no sale or processing of material or movement of stockpiled material off site;
- (5) there is only minimal activity given the scale of the mining operation, including limited excavation of mineral or other material, and such activity is not orderly or does not advance the mining operation or final reclamation, as determined by the Office or Board;
- (6) mine development has ceased and mining has not recommenced; or

- (7) the permit has not exhausted ten (10) consecutive years of non-production.

1.13.3 Indications Against Temporary Cessation

- (1) Extraction of minerals has been completed, production has ceased, and only final reclamation and related activities remain at the site; ~~or~~
- (2) production has ceased for more than ten (10) consecutive years; ~~or~~
- (3) a permit has been issued, but the mining operation has not commenced on the affected lands; or
- (4) a 110r Reclamation-Only permit has been issued.

1.13.4 Reserved

1.13.5 Notice by Operator for Consideration of Temporary Cessation

- (1) If the Operator plans to, or does, temporarily cease production for one hundred and eighty (180) days or more, the Operator must file a Notice of Temporary Cessation electronically on a form approved by the Office. An Operator conducting any in situ leach mining operation, regardless of designated mining operation status, shall file the Notice of Temporary Cessation at least thirty (30) days prior to ceasing operations; such Notice shall set forth the reasons for the temporary cessation and the expected duration of the temporary cessation.
- (a) Initial period shall be the first five (5) years of Temporary Cessation beginning with the one hundred and eighty (180) day period of production cessation; except that in the case of any in situ leach mining operation:
- (i) If, in the judgment of the Board, the expected duration of any temporary cessation will be of such length that the Board believes that groundwater reclamation should commence, the Board shall so order.
- (b) The second five (5) year period of Temporary Cessation shall begin at the end of the initial period of Temporary Cessation; except that in the case of any in situ leach mining operation:
- (i) If, in the judgment of the Board, the expected duration of any temporary cessation will be of such length that the Board believes that groundwater reclamation should commence, the Board shall so order.
- (2) The Notice of Temporary Cessation for the initial period shall include the following to be considered filed for review by the Office and Board and must include:
- (a) the date of cessation of production;
- (b) the reasons for non-production or cessation of the mining operation;

- (c) a plan for resumption of mining;
 - (d) the measures to be taken to comply with reclamation requirements and/or other activities related to the performance standards of Rule 3.1 while the mine is in Temporary Cessation including, but not limited to, any permit requirements or environmental monitoring and water treatment if required, and a schedule for reporting monitoring data;
 - (e) demonstration that the existing Financial Warranty is adequate to cover the reclamation liability; ~~and~~
 - (f) for an in situ leach mining operation, a description of the groundwater monitoring and pumping regime that will be maintained during the period of cessation of operations and a schedule for reporting monitoring data; ~~and~~
 - (g) an Acknowledgement of the five (5) year limit date of the initial period of Temporary Cessation.
- (3) The Notice for the second period shall include the following to be considered filed for Board consideration:
- (a) demonstration that the existing Financial Warranty is adequate to cover the reclamation liability;
 - (b) explanation as to why the Operator has not recommenced operations or begun reclamation;
 - (c) demonstration of continued commitment to conduct mining operations at the site by the end of the second five (5) year period including a plan for resumption of mining operations and production;
 - (d) the measures to be taken to comply with reclamation requirements and/or other activities related to the performance standards of Rule 3.1 while the mine is in Temporary Cessation including, but not limited to, any permit requirements for environmental monitoring and water quality treatment if required, and a schedule for reporting monitoring data;
 - (e) for an in situ leach mining operation, a description of the groundwater monitoring and pumping regime that will be maintained during the period of cessation of operations and a schedule for reporting monitoring data; and
 - (f) an acknowledgement of the ten (10) consecutive year limit for non-production and temporary cessation of mining activities.
- (4) Prior to the Board Hearing to consider the request of a second five (5) year period of Temporary Cessation, the Office shall:

- (a) conduct an inspection of the site to verify compliance with the Act and Mineral Rules and Regulations, and any required permit conditions;
 - (b) review the permit file for complaints against the operation and the status of resolution of those complaints;
 - (c) review environmental protection requirements for compliance as necessary;
 - (d) report to the Board at the Hearing comments by any owner of affected land or local government comments.
- (5) The Notice of ~~T~~Temporary ~~e~~Cessation shall be separate from any other correspondence or reports and submitted to the Office electronically on the approved form.
- (6) Except as to in situ leach mining operations, the requirement of a Notice of Temporary Cessation shall not apply to Operators who resume the mining operation within one (1) year and have included in the permit applications a statement that the affected lands are to be used for less than one hundred and eighty (180) days per year.

1.13.6 Notice of Resumption of Mining Operations

If the Operator plans to resume mining operations and/or production, the Operator must file a Notice of Resumption of Mining operations electronically on a form approved by the Office at least thirty (30) days prior to reactivation. Such Notice shall set forth the following:

- (a) date of resumption of mining operations;
- (b) a detailed description of the mining operations that are to resume;
- (c) anticipated date of the resumption of production;
- (d) the measures to be taken to comply with reclamation requirements and/or other activities related to the performance standards of Rule 3.1 including, but not limited to, any permit requirements for environmental monitoring and water treatment if required;
- (e) demonstration that the existing Financial Warranty is adequate to cover the reclamation liability; and
- (f) any resumption of mining activities must be legitimate in nature considering the scale of the mining operation and is orderly or advances the mining operation or final reclamation. The Office and/or Board may reject any notice of resumption of mining operations if such activity is reasonably characterized as inconsistent with Rule 1.13.2(~~65~~).

1.13.7 Board/Office Procedure

- (1) Upon receipt of the above submission as outlined in Rule 1.13.5 or 1.13.6, the Office will place the Notice of Temporary Cessation or Notice of Resumption of Mining on the tentative agenda of the next regular Board meeting and give notice to the Operator, the county planning commission, any federal jurisdiction, and any municipalities within two (2) miles of the proposed operation, by mail or electronic notification.

- (2) The Board, at said meeting and in consultation with the Operator and any other person who demonstrates that they are directly and adversely affected or aggrieved and whose interest is entitled to legal protection under the Act, may take whatever action(s) it deems necessary and are authorized by law, including but not necessarily limited to:
- (a) acceptance of the Notice of Temporary Cessation ~~as submitted~~ or Notice of Resumption of Mining as submitted;
 - (b) acceptance of the Notice of Temporary Cessation or Notice of Resumption of Mining as submitted with modifications and other necessary activities as established by the Board;
 - (c) a determination that the mining operation is not in a state of temporary cessation or has not resumed mining operations;
 - (d) continuance of the matter for another month or more to allow the Operator to revise the Notice of Temporary Cessation or Notice of Resumption of Mining and/or to allow the Office staff to conduct a site inspection or otherwise review the matter as necessary; or
 - (e) order the Operator of an in situ leach mining operation to begin groundwater reclamation as set forth in Rule 1.13.5.
- (3)
- (a) Except as to any in situ leach mining operation, when no reclamation or performance standard issues or problems are indicated in the Notice of Temporary Cessation or Notice of Resumption of Mining or by field or file inspection, and no concerns are expressed by interested persons, the Notice for an initial period of Temporary Cessation or any Notice of Resumption of Mining may be moved from the tentative agenda to the consent agenda of the final agenda for Board consideration.
 - (b) any objections to a Notice of initial period of Temporary Cessation or Resumption of Mining must be received no later than three (3) ~~w~~W~~e~~e~~l~~e~~l~~e ~~Days~~ prior to the scheduled Board meeting;
 - (c) all Notices for a second consecutive period of Temporary Cessation or where timely objections have been received shall be noticed and scheduled for Board consideration at the next regularly scheduled Board meeting following receipt of the Notice and timely objection.
 - (d) In the case of any in situ leach mining operation seeking temporary cessation, or a second five (5) year period of temporary cessation, the matter will be set for the next regularly scheduled Board meeting that is at least twenty (20) ~~d~~e~~e~~e ~~Days~~ after the Office receives the notice. At the hearing the Board will determine whether groundwater reclamation should commence pursuant to C.R.S. 34-32-112.5 (5)(d)(ii). The Office will participate at the hearing as staff to the Board and may provide a recommendation regarding groundwater reclamation. Any person who demonstrates that they are directly and adversely affected or aggrieved by the

Board's determination regarding groundwater reclamation and whose interest is entitled to legal protection under the Act may be a party to the formal hearing.

1.13.8 Application Requirements – Substitute for Notice of Temporary Cessation

Where certain mining operations have periods of inactivity exceeding one hundred and eighty (180) days, a permit applicant may include in the permit application, ~~or~~ amendment ~~or technical revision~~, the information otherwise required when filing a Notice of Temporary Cessation. (Please see Rules 6.3.3(a) or 6.4.4(e)). If approved by the Board or Office, such Notice in the permit shall serve as a substitute for the Notice of Temporary Cessation with the following conditions:

- (a) The Operator must report to the Board through the Annual Report:
 - (i) the condition of the operation at the time of cessation;
 - (ii) what specific measures have been and will be implemented to comply with reclamation, performance standards and Environmental Protection Plan requirements;
 - (iii) plans for resumption of mining; and
 - (iv) any two consecutive annual reports that indicate no mining operations and/or production shall require the mining operation to be placed into Temporary Cessation regardless of the Substitute Notice.
- (b) This Rule shall not apply to in situ leach mining operations.

1.13.9 Five Year Term of Temporary Cessation

- (1) A permit granted pursuant to these Rules shall continue in effect as long as:
 - (a) the mining operation and production are resumed within five (5) years of the beginning of Temporary Cessation; ~~or~~
 - (b) the Operator files a request for an extension of the period of Temporary Cessation with the Board meeting the requirements of Rule 1.13.5(3) and secures Board approval of that request; ~~or~~
 - (c) the ~~e~~Operator is conducting reclamation pursuant to an approved reclamation plan or Board order.
- (2) The Board shall, when necessary, establish the commencement of Temporary Cessation to determine the start of the five (5) year period described in Rule 1.13.9. Regardless of a request by the ~~e~~Operator or the Office, a five (5) year period of Temporary Cessation is a factual determination.
- (3) Once the maximum limit of ten (10) consecutive years of Temporary Cessation has been reached, final reclamation of the affected lands shall be initiated with all reasonable

diligence, as soon as practicable and as conditions allow. Final reclamation shall be completed within five years, unless extended by the Board or Office.

1.13.10 Ten Year Limitation for Temporary Cessation

In no case shall Temporary Cessation be continued for more than ten (10) consecutive years without terminating the mining operation and fully complying with the Reclamation and Environmental Protection Plan requirements of the Act and these Rules.

1.13.11 Permanent Cessation of Mining Operations – In Situ Leach Mining Operations

- (1) An Operator conducting any in situ leach mining operation, regardless of designated mining operation status, shall file a notice of permanent cessation at least thirty (30) days prior to ceasing production operations; such Notice shall set forth the reasons for the permanent cessation of production operations.
- (2) In the case of an in situ leach mining operation, if it is determined by the Office or the Board, regardless of whether notice has been provided by the Operator, that production operations have permanently ceased the Operator must immediately commence groundwater reclamation in accordance with the approved reclamation plan.

1.14 TERMINATION

1.14.1 Permit Termination

- (1) A permit granted pursuant to these Rules shall continue in effect as long as:
 - (a) the Board does not take action to declare termination of the life of the mine, which action shall require a sixty (60) day notice to the Operator alleging a violation of the permit, the Act or Rules; or
 - (b) there is a discontinuance of the mining operation with a Temporary Cessation filing as provided in Rule 1.13.5 or 1.13.8 for ten (10) or less consecutive years; or
 - (c) there is no failure to submit the reports required under Rules 1.13.5 and 1.13.8; or
 - (d) there is no failure to comply with the requirements of Rule 1.13.9.
- (2) In the event the Operator is not in compliance with the provisions of Rule 1.14.1(1), the Board shall provide a reasonable opportunity for the Operator to meet with the Board to present the full case and further provide reasonable time for the Operator to bring violations into compliance. Such hearings and procedures shall be in compliance with the requirements of Rule 3.3.2; or at such hearings the Board may:
 - (a) declare termination of the life of the mine according to the provisions of this Rule and after finding a violation in accordance with Rule 3.3.2, set forth reclamation timetables and other provisions leading to termination of the permit; or

- (b) declare that a mining operation is in a state of Temporary Cessation, establishing a commencement date and any additional permit conditions, as necessary, according to a review of the facts.

1.15 ANNUAL RECLAMATION REPORT INCLUSIONS

- (1) The Annual Reclamation Report shall include all information specified on the Annual Reclamation Report Form, in the format required by the Office, and specifically:
 - (a) the Operator shall submit, together with the Annual Reclamation Report, an updated statement regarding the sufficiency of the value of the Financial Warranty. Additional reasonable data to substantiate the value of the existing Financial Warranty shall be provided if requested by the Office or Board; and
 - (b) for any Financial Warranty which is submitted in the form of a Deed of Trust or a Security Agreement, the Operator ~~shall~~ may be required to submit, together with the Annual Reclamation Report, an update by a qualified appraiser indicating any changes in property value, and a statement summarizing any circumstances which may affect the adequacy of the Deed of Trust or Security Agreement, or the value of the property subject thereto.
 - (c) The Operator shall provide all monitoring information required as part of the approved Reclamation Plan, and if required, Environmental Protection Plan.
 - (d) A map showing the permit boundary, the affected land boundary if different than the permit boundary, the location of stockpiled topsoil, the extent of current disturbances to affected lands including areas that were newly affected during the reporting period, areas reclaimed during the reporting period, the estimated extent of new areas to be affected in the next reporting period, areas to be reclaimed in the next reporting period, and any other information requested by the Office for the requirements of Section 34-24-102, C.R.S. ~~a map showing the extent of current disturbances to affected lands;~~
 - (e) changes over the preceding year regarding any disturbances to the prevailing hydrologic balance;
 - (f) changes over the preceding year regarding any disturbances to the quality and quantity of water in surface and groundwater systems;
 - (g) reclamation accomplished to date and during preceding year;
 - (h) new disturbances that are anticipated to occur during the upcoming year; and
 - (i) anticipated reclamation that will be performed during the upcoming year.
- (2) An Operator may request a one-time change to a date other than the anniversary date of the permit for the purpose of submitting Annual Reclamation Reports.

- (3) The Annual Production Report, as required by Section 34-24-102, C.R.S., shall be submitted on or before January 31 of each year and shall include all information specified on the Annual Production Report Form, in the format required by the Office.~~Reserved~~

~~**1.16 ADDRESS CHANGE, SALE OF PROPERTY BY AN OPERATOR, CHANGE IN PROPERTY LEASE, OR BUSINESS NAME OR OWNERSHIP CHANGE, AND NOTICE OF FILING OF A PETITION IN BANKRUPTCY**~~

- (1) ~~It shall be the duty of the Operator to keep the Office notified of any mailing address change by promptly sending written notice or filing an electronic notice of such change to the Office. The Office is entitled to assume, in the absence of such Notice, that it may proceed with the last previous address provided by the Operator, and the Operator will be bound by such Notice as if actually received.~~
- (2) ~~Where an Operator is the owner of the lands to be mined and the Operator sells such lands, the Operator shall promptly notify the Office of such sale. Where an Operator leases the lands, the Operator shall promptly notify the Office of any substantial changes that affect right of legal entry upon the lands to be mined.~~
- (3) ~~Where an Operator's official business name changes or there is a change in business ownership or business form, the Operator shall contact the Office within thirty (30) days of such change in order to revise performance and financial warranty documents and complete the Succession of Operator forms.~~
- (4) ~~Where an Operator files a petition in bankruptcy, the Operator shall immediately notify the Office via certified mail of such filing.~~

1.16 MISCELLANEOUS PERMIT ADMINISTRATION CHANGES

1.16.1 Operator Address Change

- (1) It shall be the duty of the Operator to keep the Office notified of any mailing or e-mail address change by sending written notice or filing an electronic notice of such change to the Office within thirty (30) Days. The Office is entitled to assume, in the absence of such Notice, that it may proceed with the last previous address provided by the Operator, and the Operator will be bound by such Notice as if actually received.

1.16.2 Sale of Property by an Operator

- (1) Where an Operator is the owner of the affected lands and the Operator sells such lands, the Operator shall notify the Office of such sale within thirty (30) Days.

1.16.3 Change in Property Lease

- (1) Where an Operator leases the affected lands, the Operator shall notify the Office of any changes that affect their right of legal entry to the affected lands within thirty (30) Days.

1.16.4 Business Name or Ownership Change

- (1) Where an Operator's official business name changes or there is a change in business ownership or business form, the Operator shall contact the Office within thirty (30) Days of such change in order to revise performance and financial warranty documents and complete the Succession of Operator forms, if applicable.

1.16.5 Notice of Bankruptcy Filing

- (1) Where an Operator files a bankruptcy petition, the Operator shall notify the Office via certified mail of such filing within five (5) working Days.

1.16.6 Operation Name Change

- (1) Where an Operator wishes to change the operation name of a permit, the change shall be submitted as a Technical Revision unless the change is proposed during a Succession of Operator application.

1.16.7 Death of an Operator

- (1) Upon death of an Operator, the executor of the Operator's estate or other legally appointed representative shall establish legal right to act on the Operator's behalf within sixty (60) Days or as soon as practical. A copy of the death certificate and legal documentation of assignment as executor, etc. shall be sufficient.

RULE 2: BOARD MEETINGS – PERMIT APPLICATION HEARINGS, DECISIONS AND APPEALS

2.1 BOARD MEETINGS

2.1.1 General Provisions

Except for Executive Sessions of the Board, all meetings shall be open to the public and any member of the public may, at the discretion of the Board, address the Board on any subject within the Board's jurisdiction. In the event the item is not on the agenda, no formal action may be taken by the Board until the full notice provisions in these Rules are met.

2.2 NOTICE PROCEDURES FOR MEETINGS OF THE BOARD

2.2.1 Regular Board Meetings

Except as otherwise provided by law or these Rules, Public Notice of regular meetings shall be provided by the Board as follows:

- (a) A minimum of ten (10) ~~e~~Days prior to the meeting, Notice of its date, time, place, format, and agenda by:
 - (i) mailing or e-mailing to all persons having requested Notice of Board meetings and prepaid costs of the service, unless costs are waived for good cause, and to Operators whose Permit(s) or operation(s) may be the specific subject of consideration at the meeting;
 - (ii) publishing at least once in a newspaper of general circulation in the state, listing each Applicant's name, local address and the location of the affected land by section, township and range and by street address, if applicable;
 - (iii) posting in a conspicuous, publicly accessible location at the offices of the Office of Mined Land Reclamation, the ~~Office~~Office Website, and in all Press Rooms of the State Legislature; and
 - (iv) mailing a copy of the agenda to the local newspaper in the locality of the proposed mining operation.
- (b) All parties entitled to notice of the hearing, including the Applicant or Operator shall be given notice of the time, place, format, and nature thereof, the legal authority and jurisdiction under which it is to be held, and the matters of fact and law asserted. Such hearing shall be conducted pursuant to these Rules and the provisions of Section 24-4-105, C.R.S.

2.2.2 Other Meetings

Public Notice of all other meetings shall be provided by the Board as prescribed in Rule(s) 2.2.1 and/or 1.12.2 except upon a Board finding that an emergency condition exists, whereupon notice shall be provided as much in advance of the meeting as possible.

2.2.3 Agenda Changes or Additions

Additions or changes to the agenda after the 10-day notification may be made regarding emergency situations, and informational items. In this event, the Board will endeavor to give notification, if possible, as outlined above, and will be required to notify any Operator or individual scheduled to be heard.

2.3 BOARD QUORUM

- (1) Four (4) Board members shall constitute a quorum.
- (2) The Board shall act by majority vote of members present, except that four (4) affirmative votes are required for any amendment of these Rules.

2.4 RESERVED

2.5 DECLARATORY ORDERS (Section 24-4-105, C.R.S.)

2.5.1 Cause for Seeking a Declaratory Order

Any person who is or may be directly and adversely affected or aggrieved and whose interests are entitled to legal protection under the Act may petition the Board for declaratory order to terminate controversies or to remove uncertainties as to the applicability to the Petitioner of any statutory provision of or any rule or order of the Board made pursuant to the Mined Land Reclamation Act (Section 34-32-101, C.R.S. et seq.).

2.5.2 Petition Submission

- (1) The petition must be submitted electronically to the Board, and is served on the Office, at a minimum, ten (10) eD~~ays~~ays prior to the Board meeting at which it is to be considered. At a hearing the Board may grant, deny, or continue consideration of the petition. Unless requested by the Board, all hearings for considerations of petitions shall be non-evidentiary. The Petitioner shall have the burden of proving all of the facts stated in the petition, all of the facts necessary to show the nature of the controversy or uncertainty and the manner in which the statute, rule or order in question applies or potentially applies to the Petitioner and any other facts the Petitioner desires the Board to consider.
 - (a) At the regularly scheduled Board meeting, the Board will determine in its discretion and without notice to Petitioner, whether to rule upon any such petition.
 - (b) If the Board determines that it will not rule upon such a petition, the Board shall promptly notify the Petitioner of its action and state the reasons for such action.

- (2) Any petition filed pursuant to this rule shall set forth the following:
- (a) the name, e-mail address and physical address of the Petitioner and whether the Petitioner is a Permittee pursuant to the Colorado Mined Land Reclamation Act;
 - (b) the statute, rule or order to which the petition relates;
 - (c) a concise statement of all of the facts necessary to show the nature of the controversy or uncertainty and the manner in which the statute, rule or order in question applies or potentially applies to the Petitioner.

2.5.3 Consideration of Petition

In determining whether to grant or deny a petition filed pursuant to this Rule, the Board will consider the following matters, among others:

- (a) whether a ruling on the petition will terminate a controversy or remove uncertainties as to the applicability to Petitioner of any statutory provision or rule or order of the Board.
- (b) whether the petition involves any subject, question or issue which is the subject of a formal or informal matter or investigation currently pending before the Board or a court involving one or more of the Petitioners.
- (c) whether the petition involves any subject, question or issue which is the subject of a formal or informal matter or investigation currently pending before the Board or a court, but not involving any Petitioner.
- (d) whether the petition seeks a ruling on a moot or hypothetical question or will result in an advisory ruling or opinion.
- (e) whether the Petitioner has some adequate legal remedy, other than an action for declaratory relief pursuant to Rule 57, Colorado Rules of Civil Procedure, which will terminate the controversy or remove any uncertainty as to the applicability to the Petitioner of the statute, rule or other in question.

2.5.4 Procedure for Consideration

If the Board determines that it will rule on the petition the following procedures shall apply:

- (a) Notice of hearing shall be provided to the Petitioner and all parties granted intervention pursuant to Rule 2.5.5. The Board may, without further notice, rule upon the petition based solely upon the facts presented in the petition. In such a case, any ruling of the Board will apply only to the extent of the facts presented in the petition and any amendment to the petition.
- (b) The Board may order the petitioner to file a written brief, memorandum or statement of position.

- (c) The Board may set the petition, upon due notice to Petitioner, for a non evidentiary hearing.
- (d) The Board may request the petitioner to submit additional facts, in writing. In such event, such additional facts will be considered as an amendment to the petition.
- (e) The Board may take administrative notice of facts pursuant to the administrative procedure act (Section 24-4-105(8), C.R.S.) and may utilize its experience, technical competence and specialized knowledge in the disposition of the petition.
- (f) If the Board rules upon the petition without a hearing, it shall within ten (10) ~~w~~Working ~~d~~Days notify the petitioner of its decision by electronic notice and deposit in the mail.
- (g) The Board may, in its discretion, set the petition for hearing upon due notice to Petitioner, for the purpose of obtaining additional facts or information or to determine the truth of any facts set forth in the petition or to hear oral argument on the petition. The notice to the Petitioner setting such hearing shall set forth, to the extent known, the factual or other matters into which the Board intends to inquire. For the purpose of such a hearing, to the extent necessary, the Petitioner shall have the burden of proving all of the facts stated in the petition, all of the facts necessary to show the nature of the controversy or uncertainty and the manner in which the statute, rule or order in question applies or potentially applies to the Petitioner and any other facts the Petitioner desires the Board to consider.

2.5.5 Party Status and Petition to Intervene

- (1) The Office shall be granted party status upon request.
- (2) Any other person may seek leave of the Board to intervene in such a proceeding, and leave to intervene will be granted at the sole discretion of the Board based upon the interest of the person and whether that interest is entitled to legal protection under the Act and how that person is affected or aggrieved by the petition for Declaratory Order.
- (3) A petition to intervene shall set forth a concise statement of the facts necessary to demonstrate the nature of its position, and the manner in which the statute, rule or order in question does or does not apply to the Petitioner.

2.5.6 Effect of a Declaratory Order

Any declaratory order or other order disposing of a petition pursuant to this Rule shall constitute final agency action subject to judicial review pursuant to Section 24-4-106, C.R.S.

2.6 PRE-HEARING PROCEDURES – MOTIONS, WITNESS AND EXHIBIT LISTS

The provisions of this Rule 2.6 shall apply to the Applicant and any entity that has party status for any 112, 112d, 110 ISL or 112 ISL application.

- (1) All motions, except those made during a hearing, or when the Board deems an oral motion to be appropriate, shall be in writing and shall state the grounds for the motion. Motions shall be received electronically by the Board no later than two (2) Working Days following the ~~p~~Pre-hearing ~~e~~Conference. Any written response to a motion must be received electronically by the Board no later than three (3) Working Days prior to the date of the Formal Board Hearing.
- (2) A party to a Formal Board Hearing may use witnesses or exhibits at the Formal Board Hearing. Parties shall provide a written list of all potential witnesses and exhibits at the Pre-hearing Conference in accordance with the following:
 - (a) The list of potential witnesses must include each witness' name, current address, e-mail, and phone number, area of expertise (if expert witness), and the subject matter of the testimony. Parties are not obligated to use any witness even if listed, but parties may not, without express permission from the Board at the Formal Board Hearing, introduce testimony from a witness that was not listed in accordance with this Rule.
 - (b) Information on exhibits shall be exchanged as follows:
 - (i) For any materials not already in the Office public files, each party to the Hearing shall provide all other parties to the Hearing and the Office with copies of any materials to be used as exhibits at the Formal Board Hearing ~~before,~~ at or by the close of business the day of the ~~p~~Pre-hearing ~~e~~Conference via electronic means, unless otherwise ordered by the Pre-hearing Conference officer. Where an item cannot ~~practically-practicably~~ be reproduced, the exhibit must be made available to the parties and the Office for inspection upon request.
 - (ii) For any materials that are already in the Office public files, and for any materials not provided to the other parties pursuant to the exception set out in Rule 2.6(2)(b)(i), each party shall provide all other parties and the Office with a list of the materials to be used with sufficient specificity to describe the exhibit, including but not limited to the specific title or description of each exhibit, such as maps, reports, adequacy responses, correspondence, agreements, data printouts, photographs, and drawings. The list must also specify where the other parties to the Formal Board Hearing and the Office may review and obtain a copy of, or inspect, each exhibit.
- (3) All motions, responses, replies, witness lists, and exhibit lists shall identify the names, e-mails, ~~physical~~mailing address, and phone number of the submitting party, and the file number assigned to the case by the Office. If a party is represented by an attorney or other representative, the name, address and phone number of the attorney or other representative shall be provided on all documents submitted to the Board. All motions and lists shall be served on all parties and the Office at the same time and manner they are filed with the Board. Filing with the Board shall be done electronically through its secretary. Service on the Office shall not constitute filing with the Board

2.7 PRE-HEARING CONFERENCES

2.7.1 General Provisions

Prior to the Formal Board Hearing on any application, the Board may hold a Pre-hearing Conference in accordance with the following procedures:

- (1) The Pre-hearing Conference will be held to describe the Office's review process, to explain the rights and responsibilities of parties, to discuss and resolve issues to the extent possible, to describe the Board Hearing processes, to propose a list of issues under the Board's jurisdiction, to simplify that list, and to identify parties.
- (2) The Pre-hearing Conference shall be conducted by a Pre-hearing Conference Officer appointed by the Board.
- (3) The Pre-hearing Conference Officer shall prepare a proposed Pre-hearing ~~e~~Order. The proposed Pre-hearing Order shall be made available to all parties prior to the Formal Board Hearing. In no instance shall the Pre-hearing Conference Officer's recommendations to the Board be considered final agency ~~Office~~ action for the purposes of judicial review under Section 24-4-106, C.R.S.
- (4) The proposed Pre-hearing Order shall include:
 - (a) a recommended list of the parties and their names, e-mails, mailing addresses and phone numbers;
 - (b) a recommended list of issues to be considered by the Board at the Formal Board Hearing; and
 - (c) a recommended schedule for the hearing with time allotments set for presentation by each party and the Office.
- (5) In the case of a Pre-hearing Conference held on the matter of a 112 or 112d Reclamation Permit application, the Pre-hearing Conference shall be held after the Office has issued its written recommendation and at least ten (10) ~~e~~Calendar ~~d~~Days prior to the Formal Board Hearing.

2.7.2 Board Consideration of the Proposed Pre-hearing Order

At the Formal Board Hearing on a matter for which a Pre-hearing Conference was held, the Pre-hearing Conference Officer or a representative of the Pre-hearing Conference Officer shall present the proposed Pre-hearing Order to the Board for its consideration. The Board shall consider any objection to the proposed Pre-hearing Order submitted by a party, as well as any changed circumstances related to the Formal Board Hearing arising subsequent to the Pre-hearing Conference, and shall subsequently adopt, amend and adopt, or reject the proposed Pre-hearing Order. If the proposed Pre-hearing Order is rejected by the Board, the Chair of the Board shall direct the Formal Board Hearing on the matter.

2.7.3 Parties Rights and Responsibilities

- (1) All parties have the right to present evidence, call witnesses, and cross-examine all other parties' witnesses. All parties are entitled to be represented by an attorney, or may designate a proxy, by way of a written proxy authorization, to attend the Pre-hearing Conference on behalf of the party. The proxy authorization must be on a form approved by the Board and presented to the Pre-hearing Conference Officer on or before the date of the Pre-hearing Conference.
- (2) In order for a person to seek judicial review of the Board's decision, that person must have been a party to the Formal Board Hearing that considered the issue. However, all parties to the Formal Board Hearing on a matter, that do not file for judicial review are required by Section 24-4-106, C.R.S., to be named as defendants in any judicial review action.
- (3) Any person who is a party to a matter before the Board and who wishes to withdraw as a party must do so in writing prior to the commencement of or on the record during the Formal Board Hearing on the matter.
- (4) Any party who does not attend the Pre-hearing Conference forfeits its party status and all associated rights and privileges, unless such party provides a fully executed proxy authorization form to the Pre-hearing Conference Officer and the party's authorized representative is present. A party may attend the Pre-hearing Conference via telephone, or if applicable via video conference, if such a request is made to the Pre-hearing Conference Officer, or a representative, at least five (5) ~~w~~Working ~~d~~Days, or less for good cause shown, prior to the scheduled Pre-hearing Conference date, and facilities at the site of the Pre-hearing Conference allow for a conference call.
- (5) If all parties to a 112 or 112d Reclamation Permit application that is to be considered at a Formal Board Hearing withdraw, the Board directs the Office to act on behalf of the Board and to timely approve or deny the application, unless the Office determines that a Formal Board Hearing should be held.

2.8 HEARINGS

2.8.1 General Provisions – Board Hearings

- (1) Except as otherwise provided by statute, the proponent of an order shall have the burden of proof and every party to the proceeding shall have the right to present its case or defense by oral and documentary evidence, to submit rebuttal evidence, and to conduct such cross-examination as may be required for a full and true disclosure of the facts. Subject to these rights and requirements, where a hearing will be expedited and the interests of the parties will not be substantially prejudiced thereby, a person conducting a hearing may receive all or part of the evidence in written form.

- (2) Any party, other than an Operator/Applicant, who does not attend the Board Hearing forfeits its party status and all associated rights and privileges. A party may not appear at a Formal Board Hearing by proxy.
- (3) A party may file a motion to attend the hearing via telephone or video conference pursuant to the following requirements:
- (a) A party may file an e-mail request for telephonic or video appearance with the Board Chair no later than fourteen (14) eCalendar dDays prior to the Hearing. The motion shall state the reason(s) for requesting to participate at the hearing by phone or video. The motion shall be served by mail or electronic attachment on all parties.
 - (b) Any party may file with the Board Chair a response to the request for telephonic or video appearance. The response must be filed by e-mail no later than ten (10) eCalendar dDays prior to the hearing.
 - (c) The Board Chair will rule on the request for telephonic or video appearance at least seven (7) eCalendar dDays prior to the hearing. In the event the Board Chair does not issue a ruling on the request no later than seven (7) eCalendar dDays prior to the hearing, the request for telephonic or video appearance shall be deemed denied.
- (24) The rules of evidence and requirements of proof shall conform to the extent practicable, with those in civil non-injury cases in district courts. However, when necessary to do so in order to ascertain facts affecting the substantial rights of the parties to the proceeding, the Board may receive and consider evidence not admissible under such rules, if such evidence possesses probative value commonly accepted by reasonable and prudent people in the conduct of their affairs.
- (a) Objections to evidentiary offers may be made and shall be noted in the record.
 - (b) The Board shall give effect to the rules of privilege recognized by law.
 - (c) The Board may exclude incompetent and unduly repetitious evidence.
 - (d) Documentary evidence may be received in the form of a copy or excerpt if the original is not readily available; but, upon request, the party shall be given the opportunity to compare the copy with the original.
- (35) The Board may utilize its experience, technical competence, and specialized knowledge in the evaluation of the evidence presented to it.
- (46) The Board may take notice of general, technical, or scientific fact, but only if the fact so noticed is specified in the record or is brought to the attention of the parties before final decision and every party is afforded an opportunity to controvert the fact so noticed.
- (57) The Board and Office shall proceed with reasonable dispatch to conclude any matter presented to it with due regard for the convenience of the parties or their representatives.

2.8.2 Board Decision

- (1) In any case on which the Board has conducted a hearing, the Board shall prepare, file and serve upon each party, its decision in the form of a written order.
- (2) Every such decision rendered by the Board at a hearing shall thereupon become the final decision on such matter.
- (3) Each written order shall include a statement of findings and conclusions upon all the material issue of fact, law or discretion presented by the record and the appropriate order, sanction, relief, or denial thereof.
- (5) Unless otherwise provided by law, the Final Board Order shall be served on each party and the Office by personal service or by mailing by ~~First Class-Certified~~ mail to the last address furnished to the Office by such party and shall be effective on the date mailed or such later date as may be stated in the Final Board Order.

2.9 RECONSIDERATION OF BOARD DECISIONS

2.9.1 Cause for Seeking Reconsideration

- (1) Any party to a hearing may petition the Board to reconsider its decision.
- (2) Such petitions must set forth a clear and thorough explanation of the grounds justifying reconsideration, and must include new and relevant facts that were not known at the time of the hearing and the explanation why such facts were not known at the time of the hearing.

2.9.2 Petition Submission

Petitions for reconsideration must be received by the Office within twenty (20) ~~e~~Calendar ~~d~~Days of the effective date of the Board's written decision. The effective date of the Board's Order is the date of mailing as set forth in the Order's Certification of Service.

2.9.3 Consideration of Petition

The Board may grant or deny the petition based solely on the written submittal in support of the petition or written opposition thereto, or the Board may, in its discretion, grant the parties, as defined in Rules 1.1(~~5053~~) and 1.7.1, an opportunity to present oral arguments. The Office staff shall act as staff to the Board, except on matters related to enforcement.

2.9.4 Automatic Denial of Petition

The petition shall be deemed denied unless it is granted, or the Board takes other action on the petition, within sixty (60) ~~e~~Days of receipt of the petition.

2.9.5 Time Limitations

The timely filing of a petition for reconsideration shall not toll the time in which the Parties to the hearing may seek judicial review of the Board's decision.

RULE 3: RECLAMATION PERFORMANCE STANDARDS, INSPECTION, MONITORING, AND ENFORCEMENT

3.1 RECLAMATION PERFORMANCE STANDARDS

These performance standards shall be applicable to all mining operations. Prospecting operations are subject to the relevant performance standards of this Rule as determined by the Office.

3.1.1 Establishing Post-Mining Use

- (1) In consultation with the Landowner, where possible, and subject to the approval of the Board or Office, the Operator shall choose how the affected lands shall be reclaimed. These decisions can be for forest, rangeland, pastureland, cropland, general agriculture, residential, recreational, industrial/commercial, developed water resources, wildlife habitat, or other uses.
- (2) The results of these decisions shall be formulated into a Reclamation Plan, as specified in Rule 6.3.4 or 6.4.5, as required for the size and type of operation.

3.1.2 Reclaiming Substituted Land

Reclamation shall be required on all the affected land except that the Operator may substitute land previously mined and owned by the Operator but not otherwise subject to the Mined Land Reclamation Act, or the Operator may reclaim an equal number of acres of any land previously mined, but not owned by the Operator, if the Operator has not previously abandoned unreclaimed mining lands. Such exchanges can be done only with the approval of the Board and the Owner of the land to be reclaimed. The Board and Office shall not approve such an exchange for lands affected by any 110r Reclamation-Only, 110 or 112 uranium or in situ leach mining operation.

3.1.3 Time Limit and Phased Reclamation

- (1) For any in situ leach mining operations, reclamation of groundwater in accordance with the approved reclamation plan shall begin immediately upon:
 - (a) The detection pursuant to the baseline site characterization and monitoring plan of any subsurface excursion of groundwater outside of the affected area containing chemicals used in or mobilized by such operation or the groundwater outside the affected land otherwise fails to meet groundwater standards applicable to in situ leach mining operations; or
 - (b) The cessation of production operations, unless the operator has filed a Notice of Temporary Cessation as required by Rule 1.13.5(1) and the Board has not ordered reclamation of groundwater to commence under Rule 1.13.
- (2) Except for 110r Reclamation-Only permits where reclamation shall be completed in three (3) years, all reclamation shall be carried to completion by the Operator with all reasonable diligence, and each phase of reclamation shall be completed within five (5) years from the date the Operator informs the Board or Office that such phase has

commenced, or from the date the Office has evidence that mining or prospecting has ceased or the end of life of mine has been declared, unless extended by the Board or Office. The 5-year period may be applied separately to each phase as it is commenced throughout the life of the mine.

- (3) Upon determination and notice by the Office that all reclamation is completed, the operator should request a release of the permit within sixty (60) ~~days~~ days, or demonstrate to the Office or Board plans for future mining and that mineral reserves still exist.

3.1.4 Public Use

On lands owned by the Operator, the Operator may permit the public to use the same for recreational purposes, in accordance with the Limited Landowner Liability Law contained in Article 41 of Title 33, C.R.S. 1984, as amended, except in areas where such use is found by the Operator to be hazardous or objectionable.

3.1.5 Reclamation Measures – Materials Handling

The Operator shall set forth the measures that will be taken to meet all the following requirements:

- (1) Grading shall be carried on so as to create a final topography appropriate to the final land use selected in the Reclamation Plan.
- (2) When backfilling is a part of the plan, the Operator shall replace overburden and waste materials in the mined area and shall ensure adequate compaction for stability and to prevent leaching of toxic or acid-forming materials.
- (3) All grading shall be done in a manner to control erosion and siltation of the affected lands, to protect areas outside the affected land from slides and other damage. If not eliminated, all highwalls shall be stabilized, safeguarded, and where feasible, blended into the natural topography as approved by the Office.
- (4) All backfilling and grading shall be completed as soon as feasible after the mining process. The Operator shall establish reasonable timetables consistent with good mining and reclamation procedures.
- (5) All refuse and ~~acid-forming or toxic-producing~~ toxic or acid-forming materials that have been mined shall be handled and disposed of in a manner that will control unsightliness and protect the drainage system from pollution.
- (6) Any drill or auger holes that are part of the mining operation shall be plugged with non-combustible material, which shall prevent harmful or polluting drainage. Adits and shafts should be closed, and where practicable, backfilled and graded in a manner consistent with the post mine land use and shall comply with the provisions of the Act, Mineral Rules and Regulations.
- (7) Maximum slopes and slope combinations shall be compatible with the configuration of surrounding conditions and selected land use. In all cases where a lake or pond is

produced as a portion of the Reclamation Plan, all slopes, unless otherwise approved by the Board or Office, shall be no steeper than a ratio of 2:1 (horizontal to vertical ratio), except from 5 feet above to 10 feet below the expected water line where slopes shall be not steeper than 3:1. If a swimming area is proposed as a portion of the Reclamation Plan, the slope, unless otherwise approved by the Board or Office, shall be no steeper than 5:1 throughout the area proposed for swimming, and a slope no steeper than 2:1 elsewhere in the pond.

- (8) If the Operator's choice of reclamation is for agricultural or horticultural crops which normally require the use of farm equipment, the Operator shall grade so that the area can be traversed with farm machinery.
- (9) An Operator may backfill ~~structural inert~~ fill material generated within the MLRB permitted area into an excavated pit within the permit area as provided for in the MLRB Permit. If an Operator intends to backfill inert ~~structural~~ fill generated outside of the approved permit area, it is the Operator's responsibility to provide the Office notice, submitted as a technical revision, of any proposed backfill activity not identified in the approved Reclamation Plan. Unless otherwise approved by the Office, an Operator of a 110r Reclamation-Only permit is prohibited from importing inert fill. If the Office does not respond to the Operator's notice within thirty (30) ~~d~~Days after receipt of such ~~Notice~~revision submitted to by the Office, the Operator may proceed in accordance with the provisions of this Rule. The Operator shall maintain a Financial Warranty at all times adequate to cover the cost to stabilize and cover any exposed backfilled material. The Notice to the Office shall include but is not limited to:
- (a) a narrative that describes the approximate location of the proposed activity;
 - (b) the approximate volume of inert material to be backfilled;
 - (c) a signed affidavit certifying that the material is clean and inert, as defined in Rule 1.1(~~3433~~);
 - (d) the approximate dates the proposed activity will commence and end, however, such dates shall not be an enforceable condition;
 - (e) an explanation of how the backfilled site will result in a post-mining configuration that is compatible with the approved post-mining land use; ~~and~~
 - (f) a general engineering plan stating how the material will be placed and stabilized in a manner to avoid unacceptable settling and voids; ~~and~~.
 - (g) a commitment to provide an annual report to summarize the type, amount, and location of all imported and backfilled material within the reporting period and an updated certification that all material was clean, inert, and placed in accordance with the approved plan.
- (10) All mined material to be disposed of within the affected area must be handled in such a manner so as to prevent any unauthorized release of pollutants to the surface drainage system.

- (11) No unauthorized release of pollutants to groundwater shall occur from any materials mined, handled or disposed of within the permit area.

3.1.6 Water – General Requirements

- (1) Hydrology and Water Quality: Disturbances to the prevailing hydrologic balance of the affected land and of the surrounding area and to the quantity or quality of water in surface and groundwater systems both during and after the mining operation and during reclamation shall be minimized by measures, including, but not limited to:
- (a) compliance with applicable Colorado water laws and regulations governing injury to existing water rights;
 - (b) compliance with applicable federal and Colorado water quality laws and regulations, including statewide water quality standards and site-specific classifications and standards adopted by the Water Quality Control Commission;
 - (c) compliance with applicable federal and Colorado dredge and fill requirements; and
 - (d) removing temporary or large siltation structures from drainage ways after disturbed areas are revegetated and stabilized, if required by the Reclamation Plan.
 - (e) Where a proposed amendment to a reclamation plan or permit is not anticipated to impact water quality or hydrologic balance, the Applicant/Operator shall submit a statement and demonstration by substantial evidence for review and approval by the Office and/or Board. This is not intended as an exemption to 3.1.6(1) (f) or (i).
 - (f) Except as specified in subsections (g) through (h) of this subsection, a reclamation plan for a new or amended permit must demonstrate, by substantial evidence, a reasonably foreseeable end date for any water quality treatment necessary to ensure compliance with applicable water quality standards.
 - (g) The board may approve a reclamation plan that lacks substantial evidence of a reasonably foreseeable end date for any necessary water treatment if the new or amended permit includes an environmental protection plan and reclamation plan adequate to ensure compliance with applicable water quality standards and upon making a written determination:
 - (i) for an amended reclamation plan, except as provided in Rule 3.1.6(1)(f)(ii), that the water quality impacts that have occurred or are occurring for which no reasonably foreseeable end date for water quality treatment can be established were either unforeseen at the time of approval of the reclamation plan or existing at the mine site permitted on or before January 1, 2019; or
 - (ii) for a new or amended reclamation plan for a permit involving a site that was previously mined but not permitted as of January 1, 2019, that existing water quality conditions do not meet applicable water quality standards

and no reasonably foreseeable end date for water quality treatment can be established.

- (h) the board may approve a new reclamation plan that lacks substantial evidence of a reasonably foreseeable end date for any necessary water quality treatment if a permit application is submitted and the reclamation plan is limited to reclamation of already-mined ore or other waste materials, including mine drainage runoff, as part of a clean up.
 - (i) No permit shall be approved where perpetual water treatment is proposed as final reclamation unless otherwise exempt by these rules.
- (2) Earth dams, if necessary to impound water, may be constructed if the formation of such impoundments will not damage adjoining property or conflict with water pollution laws, rules or regulations of the federal government, the state of Colorado or with any local government pollution ordinances.
 - (3) All surface areas of the affected land, including spoil piles, shall be stabilized and protected so as to effectively control erosion.
 - (4) The Office may require the submission of baseline site characterization data, sufficient to ensure that impacts ~~from prospecting~~ will be detected, prior to the initiation of prospecting or mining, including but not limited to, ambient groundwater and surface water quality data sufficient to characterize potentially impacted waters.
 - (5) Drilling pits used during prospecting or mining shall be constructed and operated to minimize impacts to public health, safety, welfare and the environment, including soil, waters of the State, including groundwater, and wildlife. In its discretion, the Office may require the use of pit liners, fencing, netting or other measures to minimize impacts to the public health, safety, welfare and the environment.

3.1.7 Groundwater – Specific Requirements

- (1) Standards and conditions applicable to classified and unclassified groundwater.
 - (a) State-wide groundwater quality standards: Operations that may affect groundwater quality shall comply with all state-wide groundwater quality standards established by the Water Quality Control Commission (hereafter, the WQCC).
 - (b) Classified areas: Operations that may affect the quality of groundwater in a specified area that has been classified by the WQCC shall comply with the standards applicable to such specified area.
 - (c) Unclassified areas: Operations that may affect the quality of groundwater which has not been classified by the WQCC shall protect the existing and reasonably potential future uses of such groundwater.
 - (d) Water quality standards applicable to groundwater that has been classified, state-wide standards for certain pollutants, and interim narrative standards set by the

WQCC shall supersede any numeric protection levels established for the subject pollutants pursuant to this Rule 3.1.7.

- (e) For any in situ leach mining operations: Operators of all uranium extraction operations using in situ leach mining or recovery methods shall reclaim all affected groundwater for all water quality parameters that are specifically identified in the baseline site characterization and monitoring plan required by Rule 1.4.4, or in the statewide radioactive materials standards or tables 1 through 4 of the Basic Standards for Groundwater as established by the Colorado Water Quality Control Commission, to either of the following:
 - (i) pre-mining baseline water quality or better, as established by the baseline site characterization and monitoring plan required by Rule 1.4.4; or
 - (ii) that quality which meets the statewide radioactive materials standards and the most stringent criteria set forth in tables 1 through 4 of the basic standards for groundwater as established by the Colorado Water Quality Control Commission.
 - (f) Also, in establishing, designing and implementing a groundwater reclamation plan, in situ leach mining operators shall use best available technology.
 - (g) In addition, in situ leach mining operators shall take all necessary steps to prevent and remediate any degradation of preexisting groundwater uses during the prospecting, development, extraction and reclamation phases of the in situ leach mining operation.
- (2) Establishing permit, or notice of intent to conduct prospecting (NOI), conditions, including numeric protection levels, protective of unclassified groundwater uses.
- (a) Pursuant to the procedures specified in Rule 3.1.7(3), permit or NOI conditions shall be established for each operation that may have a reasonable potential to adversely affect the quality of a specified area that has not been classified by the WQCC. Such permit or NOI conditions may be in the form of numeric protection levels, practice-based permit or NOI conditions, or both.
 - (b) Points of compliance for numeric protection levels shall be set pursuant to Rule 3.1.7(6).
 - (c) Permit or NOI conditions, whether practice-based or numeric protection levels, shall be established as follows:
 - (i) The permit or NOI conditions shall be protective of the existing and reasonably potential future uses of the groundwater that may be affected. The WQCC's groundwater quality table values (The Basic Standards For Ground Water CCR 1002-41), shall be used as a guide in establishing the permit or NOI conditions.

- (ii) Where ambient groundwater quality exceeds values for protection of existing and reasonably potential future uses of groundwater, such as groundwater table values or other numeric criteria, permit or NOI conditions shall be established to protect those uses against further lowering of groundwater quality.
- (3) Procedures for establishing permit or NOI conditions to protect the quality of unclassified groundwater.
 - (a) New operations and modifications of existing permits or NOIs: Any application or NOI for a new operation, or an application for a modification of an existing permit or NOI which modification has reasonable potential to adversely affect the quality of unclassified groundwater, that is approved by the Office or the Board on or after Rule 3.1.7(2).
 - (b) Existing operations: For operations subject to a permit or NOI issued before September 1, 1993, which permit or NOI is not the subject of an application or a modification as described in Rule 3.1.7(3)(a), permit or NOI conditions shall be established as follows:
 - (i) Upon a determination that a violation of a permit or NOI provision affecting groundwater quality has occurred, the Board may order the Operator to submit an application or NOI to modify the permit or NOI to comply with Rule 3.1.7(2), and may set reasonable schedule for submittal of such application or NOI. Nothing in this Rule shall be construed to limit the Board's authority under Section 34-32-124, C.R.S. 1984, as amended.
 - (ii) The Office shall follow the pre-enforcement procedure set out below before requiring an Operator who is in compliance with all permit or NOI provisions and regulation requirements related to groundwater quality to modify the permit or NOI. The Office may bring an enforcement action under Section 34-32-116(7), C.R.S. 1984, as amended, or earlier version thereof. Such enforcement action may result in a finding of a violation of that statutory provision upon finding that there is or may be a reasonable potential for degradation of groundwater quality that adversely affects existing or reasonable potential future uses of such groundwater. The Office shall follow the pre-enforcement procedure outlined below before bringing such an enforcement action:
 - (A) When the Office has reason to believe, based on evidence, that there is or may be a reasonable potential for degradation of groundwater quality that adversely affects uses, the Office shall notify the Operator of the evidence and of the possible need to modify the permit or NOI to include permit or NOI conditions that comply with Rule 3.1.7(2), necessary information, and shall allow a minimum of ninety (90) ~~e~~D days for the Operator to respond. Following a response from an Operator provided with notice under this Rule 3.1, the Office shall allow a reasonable period to

negotiate appropriate permit or NOI conditions with the Operator pursuant to Rule 3.1.7(2).

- (B) The Office may bring an enforcement action if the Operator fails to respond within the time specified, or the Office and the Operator do not negotiate appropriate permit or NOI conditions within a reasonable period of time, pursuant to Rule 3.1.7(3)(b)(ii)(A). Upon finding a violation of the Act, or Rules promulgated thereunder, the Board may modify the permit or NOI to include groundwater protection provisions in compliance with Rule 3.1.7(2).
 - (C) The pre-enforcement procedures described in this Rule 3.1.7(3)(b)(ii) shall not apply if there is an imminent danger to the health, safety, and general welfare of the people of this state. In such a case, the Office may immediately initiate an enforcement action and may seek a cease and desist order. This provision shall not be construed to prevent the Water Quality Control Division from pursuing its remedies under Section 25-8-307, C.R.S. (1989).
- (4) Procedures for establishing compliance with standards promulgated by the WQCC.
- (a) Existing permits or NOIs affecting groundwater, subject to existing groundwater quality standards. The Office shall provide notice to operations subject to a permit or NOI issued prior to January 31, 1994 if such operation has a reasonable potential to exceed groundwater quality standards promulgated by the WQCC. Such existing groundwater quality standards may include standards applicable to groundwater that has been classified by the WQCC, interim narrative standards and state-wide standards for certain pollutants. The notice shall provide the Operator with a reasonable opportunity to respond and modify the permit or NOI if necessary, to establish permit or NOI conditions adequate to implement such groundwater standards.
 - (b) WQCC standards promulgated after a permit or NOI is issued: If there is a reasonable potential to exceed groundwater quality standards promulgated after the permit or NOI is issued the Office shall provide the Operator with notice of the applicable groundwater quality standards. The Operator shall be afforded a reasonable opportunity to submit an application to modify the permit or NOI as necessary to implement such groundwater quality standards.
 - (c) Permit or NOI conditions established pursuant to Rules 3.1.7(4)(a) and (b) shall include a reasonable schedule of compliance. Such permit or NOI conditions may be in the form of numeric protection levels, practice-based permit or NOI conditions, or both.
 - (d) If an Operator has a reasonable potential to exceed groundwater quality standards promulgated by the WQCC, the Operator shall modify the permit or NOI as necessary to implement such standards in compliance with this Rule 3.1.7, within

a reasonable period of time after receiving a Notice issued pursuant to Rules 3.1.7(4)(a) and (b). If the Operator fails to do so the Office may initiate an enforcement action to enforce compliance with this Rule and establish any necessary permit or NOI conditions.

- (e) Permits, NOIs or applications to modify a permit or a NOI shall not be approved unless such permit, NOI, or modification includes conditions adequate to implement all groundwater quality standards promulgated by the WQCC applicable to such permit, NOI, or modification.
- (5) Any Operator, on a voluntary basis, may submit information concerning the protection of the quality of groundwater affected by the operation to the Office. The Operator may submit such information and a plan for monitoring, where appropriate, including monitoring at points of compliance, for the Office's consideration. The information submitted must satisfy the requirements of Rules 3.1.7(6) and (7). Such voluntary submission by an Operator shall be considered a Technical Revision provided the submittal satisfies Rule 1.8, or NOI modification.
- (6) Points of Compliance:
 - (a) In order to evaluate protection afforded groundwater quality, comply with groundwater standards, or to demonstrate compliance with permit or NOI conditions established by the Office to protect groundwater quality, one or more points of compliance shall be established. Through incorporation into a permit or NOI and on a schedule approved by the Office, an Operator shall comply with groundwater quality standards established by the Water Quality Control Commission at points of compliance.
 - (i) Where the Water Quality Control Commission has not established standards, then any permit or NOI condition established by the Board or Office to protect groundwater quality shall be demonstrated to be met at points of compliance or as specified in the issued NOI or approved permit.
 - (b) Where groundwater quality standards have been established, the point of compliance shall be established according to the following criteria:
 - (i) for existing facilities at which an adverse impact to groundwater quality could occur, the point of compliance will be set as follows:
 - (A) at some distance hydrologically down-gradient from the facility or activity that is causing, or which has the potential to cause, the contamination, and selecting that distance closest to the facility or activity, considering the technological feasibility of meeting the requirements for protecting water quality:
 - (I) a specified distance, as determined by Rule 3.1.7(6)(b)(i)(B) below;

- (II) the hydrologically down-gradient limit of the area in which contamination has been identified; or
 - (III) the facility permit boundary.
- (B) In determining a specified distance the Office shall take into consideration the following factors;
- (I) the classified use, established by the Water Quality Control Commission, for any groundwater or surface water which could be impacted by contamination from the facility;
 - (II) the geologic and hydrologic characteristics of the site, such as depth to groundwater, groundwater flow direction and velocity, soil types, surface water impacts, and climate;
 - (III) the toxicity, mobility, and persistence in the environment of the contaminants used or stored at the facility and which could reasonably be expected to be discharged from the facility;
 - (IV) the potential of the site as an aquifer recharge area; and
 - (V) recommendations submitted by the facility owner or Operator, including technical and economic feasibility.
- (ii) For any new facility or new activity which may cause an adverse impact on groundwater quality, the point of compliance will be set as follows:
- (A) unless modified by the Office as specified in Rule 3.1.7(6)(b)(ii)(B) below, the point of compliance will be set at the hydrologically down-gradient limit of the area below the facility or activity potentially impacting groundwater quality.
 - (B) The point of compliance determined in Rule 3.1.7(6)(b)(ii)(A) above may be modified by the Office on a case-by-case basis with consideration of the following factors:
 - (I) the classified use, established by the Water Quality Control Commission, for any groundwater or surface water which could be impacted by contamination from the facility;
 - (II) the geologic and hydrologic characteristics of the site, such as depth to groundwater, groundwater flow direction and velocity, soil types, surface water impacts, and climate;

- (III) the toxicity, mobility, and persistence in the environment of contaminants used or stored at the facility which could reasonably be expected to be discharged from the facility;
- (IV) the potential of the site as an aquifer recharge area; and
- (V) recommendations submitted by the facility owner or Operators including technical and economic feasibility.

(7) Groundwater Monitoring:

- (a) For existing operations through permit or NOI modifications, and for new permit applications or NOIs, a groundwater monitoring program shall be required on a case-by-case basis where an adverse impact on groundwater quality may reasonably be expected.
- (b) If groundwater monitoring is required, the Operator shall include the following information as part of a permit application, NOI, or permit or NOI modification:
 - (i) a map that accurately locates all proposed groundwater sample points and any locations that are proposed as a point of compliance;
 - (ii) the method of monitoring well completion where monitoring wells are required;
 - (iii) method of sampling, frequency of sampling and reporting to the Office;
 - (iv) parameters analyzed, water quality analysis methods, and quality control and quality assurance methods;
 - (v) formations, aquifers or strata to be sampled;
 - (vi) identify the potential sources of groundwater contamination that will be monitored by each point of compliance monitoring point;
 - (vii) a time-schedule for implementation; and
 - (viii) ambient groundwater quality data sufficient to characterize potentially impacted groundwater quality.

(8) Release of Reclamation Liability: An Operator shall demonstrate, to the satisfaction of the Office, that reclamation has been achieved so that existing and reasonably potential future uses of groundwater are protected. In addition, Operators of any in situ leach mining operations shall reclaim groundwater as required in Rule 3.1.7(1)(e).

(9) An Operator must provide the Office a written report within five (5) ~~w~~Working ~~d~~Days when there is evidence of groundwater discharges exceeding applicable groundwater standards

or permit or NOI conditions imposed to protect groundwater quality ~~when-whether~~ these or other conditions are explicitly identified in the permit or NOI as requiring such notice.

For additional performance standards related to water, see Rules 3.1.5 and 3.1.6.

3.1.8 Wildlife

- (1) All aspects of the mining and reclamation plan shall take into account the safety and protection of wildlife on the mine site, at processing sites, and along all access roads to the mine site with special attention given to critical periods in the life cycle of those species which require special consideration (e.g., elk calving, migration routes, peregrine falcon nesting, grouse strutting grounds).
- (2) Habitat management and creation, if part of the Reclamation Plan, shall be directed toward encouraging the diversity of both game and non-game species, and shall provide protection, rehabilitation or improvement of wildlife habitat. Operators are encouraged to contact Colorado Parks and Wildlife and/or federal agencies with wildlife responsibilities to see if any unique opportunities are available to enhance habitat and/or benefit wildlife which could be accomplished within the framework of the Reclamation Plan and costs.

3.1.9 Topsoiling

- (1) ~~Where it is necessary to remove overburden in order to mine the mineral, T~~opsoil shall be removed and segregated from overburden and other spoil. If such topsoil is not replaced on a backfill area within ~~a time short enough to avoid deterioration of the topsoil the same growing season, not to exceed 180 days,~~ vegetative cover or other means shall be employed so that the topsoil is preserved-protected from wind and water erosion, remains free of any contamination by toxic or acid-forming material, and is in a usable condition for reclamation.
- (2) Where practicable, woody vegetation present at the site shall be removed from or appropriately incorporated into the existing topsoil prior to excavation within the affected areas. The Operator should make a reasonable effort to ensure that existing vegetation is put to a beneficial use such as firewood, mulching, lumber, etc.
- (3) Topsoil stockpiles shall be stored in places and configurations to minimize erosion and located in areas where disturbance by ongoing mining operations will be minimized. Such stockpile areas must be included in the affected areas and subject to all reclamation requirements. The Board may require immediate planting of an annual and/or perennial on topsoil stockpiles for the purpose of stabilization.
- (4) Once stockpiled, the topsoil shall be rehandled as little as possible until replacement on the regraded, disturbed area. Relocations of topsoil stockpiles on the affected land require Board or Office approval. Approval in most cases would be granted by way of technical revision.

- (5) The Operator shall take measures necessary to assure the stability of replaced topsoil on graded slopes such as roughing in final grading to eliminate slippage zones that may develop between the deposited topsoil and heavy textured spoil surfaces.
- (6) If, in the discretion of the Board or Office, such existent topsoil is of insufficient quantity or of poor quality for sustaining vegetation, and if other materials can be shown to be more suitable for vegetation requirements, then the Operator shall remove, segregate, and preserve in a like manner such other materials which are best able to support vegetation.
- (7) When growing media is replaced, it shall be done in as even a manner as possible. Fertilizer or other soil amendments shall be added, if required in the Reclamation Plan or as the soil tests indicate.
- (8) Vegetative piles shall be removed from the area or utilized in accordance with the Reclamation Plan.

3.1.10 Revegetation

- (1) In those areas where revegetation is part of the Reclamation Plan, land shall be revegetated in such a way as to establish a diverse, effective, and long lasting vegetative cover that is capable of self-regeneration without continued dependence on irrigation, soil amendments or fertilizer, and is at least equal in extent of cover to the natural vegetation of the surrounding area. Except for certain post mining land uses approved by the Board or Office, the use of species native to the region shall be emphasized. Native plant species that encourage pollinators should receive first consideration, but introduced species may be used in the revegetation process when found desirable and approved by the Board or Office. Greater emphasis on non-native species may be proposed for intensively managed forestry and range uses.
- (2) If the Operator's choice of reclamation is forest planting, they may, with the approval of the department, select the type of trees to be planted. If the Operator is unable to acquire sufficient planting stock of desired tree species from the state or elsewhere at a reasonable cost, they may defer planting until planting stock is available to plant such land as originally planned, or they may select an alternate method of reclamation.
- (3) If the Operator's choice of reclamation is for rangeland, the land shall be restored to slopes commensurate with the proposed land use and shall not be too steep to be traversed by livestock. The area may be seeded either by hand, or power, or by the aerial method.
- (4) The revegetation plan shall provide for the greatest probability of success in plant establishment and vegetation development by considering environmental factors such as seasonal patterns of precipitation, temperature and wind; soil texture and fertility; slope stability; and direction of slope faces. Similar attention shall be given to biological factors such as proper inoculation of legume seed, appropriate seeding and transplanting practices, care of forest planting stock, and restriction of grazing during initial establishment. The Board or Office, in consultation with the Landowner and the local Conservation District, if any, shall determine when grazing may start.

- (5) To ensure the establishment of a diverse and long lasting vegetative cover, the Operator shall employ appropriate techniques of site preparation and protection such as mechanical soil conditioning by discing and ripping; mulching; soil amendments and fertilizers; and irrigation.
- (6) Methods of weed control shall be employed for all prohibited noxious weed species, and whenever invasion of a reclaimed area by other weed species seriously threatens the continued development of the desired vegetation. Weed control methods shall also be used whenever the inhabitation of the reclaimed area by weeds threaten further spread of serious weed pests to nearby areas.
- (7) When necessary, fire lanes or access roads shall be constructed through the area to be planted. These lanes or roads shall provide access for planting crews, supervision and inspection.
- (8) Planting required for reclamation may be delayed, through the period of use related to places of refuse disposal, haulage roads and road cuts. Normal stabilization of surfaces is required. No planting is required:
 - (a) on any affected land being used or proposed to be used by the Operator for the deposit or disposal of refuse until after the cessation of operations productive of such refuse;
 - (b) on lands proposed for future mining;
 - (c) within depressed haulage roads or final cuts while such roads or final cuts are being used or made;
 - (d) where permanent pools or lakes have been formed; and
 - (e) on any affected land so long as the chemical and physical characteristics of the surface and immediately underlying material of such affected land are toxic, deficient in plant nutrients, or composed of sand, gravel, shale, or stone to such an extent as to seriously inhibit plant growth and such condition cannot feasibly be remedied by chemical treatment, fertilization, replacement of overburden, or like measures.
- (9) Where adverse characteristics of the surface, not feasibly remedied by artificial measures, would seriously inhibit plant growth, planting may be delayed or provided on substitute acres, depending upon natural corrective processes over a ten (10) year period.

3.1.11 Buildings and Structures

If the affected land is owned by a legal entity other than any local, state, or federal entity, any buildings or structures including those constructed or placed on the affected lands in conjunction with the mining operations or which are historic structures as determined by the State Historic Preservation Office may, at the option of the Operator and Landowner and with the approval of the Board, remain on the affected land after reclamation if such buildings or structures will not conflict with the post-mining land use and the structures conform to local building and zoning codes.

3.1.12 Signs and Markers

- (1) At the entrance of the mine site the Operator shall post a sign, which shall be clearly visible from the access road, with a minimum size equaling one hundred and eighty-seven (187) square inches, such as eleven (11) inches in height and seventeen (17) inches in width, with appropriate font size, with the following:
 - (a) the name of the Operator and the operation name;
 - (b) a statement that a reclamation permit for the operation has been issued by the Colorado Mined Land Reclamation Board and, as determined by the Office, the location where information can be obtained; and
 - (c) the permit number.
- (2) The boundaries of the affected area will be marked by monuments or other markers that are clearly visible and adequate to delineate such boundaries.
 - (a) for 110 Limited Impact Operations and Limited Impact 110 Designated Mining Operations the permit boundary for the purposes of this Rule shall be considered the affected area;
 - (b) for 112 Regular Operations and 112 Designated Mining Operations the area proposed to be disturbed by mining operations for which a Financial Warranty and Performance Warranty have been posted shall be the affected area.
- (3) The Office may approve an alternative plan for identifying the boundaries of the affected land if the Operator includes such a plan in the permit application or through a technical revision.

3.1.13 Spill Reporting

The Operator shall notify the Office of a spill of any toxic or hazardous substance, including spills of petroleum products, that occurs within the mined land permit area or area encompassed by a Notice of Intent and which would be required to be reported to any Division of the Colorado Department of Public Health and the Environment, the National Response Center, the Colorado Emergency Planning Commission, any local Emergency Planning Commission, local Emergency Planning Committee, or the State Oil Inspector. The Operator shall:

- (1) within twenty-four (24) hours of the time the spill is reported to any other agency(ies) with jurisdiction over the spill, notify the Division of Reclamation, Mining and Safety, via phone or email;
- (2) include in the notice any relevant information known at the time contact is made with the Office that would assist the Office in assessing spill seriousness, such as:
 - (a) operation name, DRMS permit number and name of person reporting the spill,

- (b) telephone number of a responsible company official for the Office staff to use as a contact,
 - (c) date and time of spill,
 - (d) type of material spilled (CAS number if applicable, from the material safety data sheet (MSDS) form),
 - (e) estimate of the amount spilled, whether any material has left the permit area, and where the spilled material went, and
 - (f) initial measures taken to contain and clean up the spill.
- (3) copy the Office on any correspondence and/or written reports provided to other agencies. Supplement those reports if necessary to include the information outlined in Rule 3.1.13(2).
 - (4) For permits approved prior to the effective date of these Rules, the requirements of Rule 3.13 shall supersede stipulations to permits regarding spill reporting.

3.2 INSPECTION AND MONITORING

- (1) Entry upon lands for inspection: the Board or Office may enter upon the lands of the Operator at all reasonable times for the purpose of inspection to determine whether the provisions of the Act and these Rules have been complied with.
- (2) Persons authorized under the Act and these Rules to conduct inspections shall, prior to entry onto any lands, notify the Operator of their intent to enter and inspectors shall comply with all federal, state, local and company safety rules.
- (3) Any state official or employee of the Office shall promptly report to the Board any possible violation of a permit, law or these Rules of which they have knowledge, whether obtained from personal inspection or from written reports on mining operations.
- (4) Upon an Office determination of a possible violation, the Office shall issue a Notice of Possible Violation(s), and shall mail such notice by certified mail, return receipt to the last known address of the Permittee. The Office shall schedule the matter of possible violation(s) for a Board Hearing according to the provisions of Rules 3.3.1 or 3.3.2.
- (5) All inspections shall include a written report which:
 - (a) describes every possible violation of the permit, law, or these Rules;
 - (b) is personally signed by the Inspector; and
 - (c) is mailed within a reasonable time to the mine office, or other suitable location designated by the Operator.

- (6) A report of how and when a violation is resolved and a report of any subsequent inspection to verify compliance shall be filed.
- (7) All operations applying for a regular permit, conversion, or amendment thereto shall be inspected after the application is filed and prior to Board consideration. Other Applicants shall be so inspected as time and staff resources permit.
- (8) Mining operations shall be inspected a sufficient number of times each year to ensure compliance with the permit, law, and these Rules. The frequency of inspection shall be determined by the extent of the operation, rate of mining, degree of actual or potential environmental impact, the Operator's past record of compliance, and by Board Policy.
- (9) The Board or Office is authorized to inspect any ongoing Prospecting Operation or any Prospecting Operation prior to the request for release of Performance and Financial Warranties, in order to determine compliance with these Rules.

3.3 ENFORCEMENT AND PROCEDURES

3.3.1 Operating Without a Permit or Prospecting Without a Notice of Intent Penalty

- (1) Whenever the Office issues an immediate Cease and Desist Order to an Operator or Prospector for failing to obtain a valid Mined Land Reclamation Board permit or filing a Notice of Intent, the Operator or Prospector shall be afforded an opportunity for a hearing before the Board. The Office shall schedule the matter for a hearing before the Board no sooner than thirty (30) ~~d~~Days after issuance of such Cease and Desist Order; except that an earlier date for a hearing may be requested by the alleged violator and the hearing must be set no later than the next succeeding Board meeting if requested by the alleged violator.
- (2) Operators who mine substantial acreage beyond their approved permit boundary may be found to be operating without a permit and shall be afforded an opportunity for a hearing before any Cease and Desist Order may issue.
- (3) Except as provided in Rule 3.3.1(4) below, any Operator who operates without a permit shall be subject to a Civil Penalty of not less than one thousand dollars (\$1,000.00) per day, nor more than five thousand dollars (\$5,000.00) per day, for each day the land has been affected. Such penalties shall be assessed for a period not to exceed sixty (60) days.
- (4) Any Operator eligible for, but operating without a permit under Section 34-32-110, C.R.S et seq., 1984, as amended, and any Prospector who operates without filing a Notice of Intent, shall be subject to a Civil Penalty of not less than fifty dollars (\$50.00), nor more than two hundred dollars (\$200.00) per day for each day the land has been affected. Such penalties shall be assessed for not less than one (1) day and not more than sixty (60) days.

3.3.2 Operating With a Permit or Prospecting With a Notice of Intent – Failure to Comply

- (1) Whenever the Board or Office has a reason to believe that there has occurred a violation of an Order, Permit, Notice of Intent, or regulation issued under the authority of the Act or

these Rules, written Notice shall be given to the Operator or Prospector of the possible violation at least thirty (30) ~~e~~D days prior to the scheduled Board hearing date, unless such Notice is waived, in writing, by the Operator. Such Notice shall be served personally or by Certified Mail, Return Receipt Requested, upon the possible violator or the possible violator's agent, for service of process. The Notice shall state the provision alleged to be violated and the facts alleged to constitute the violation, and may include the nature of any corrective action proposed to be required. The Notice shall state the date, time and place of the Formal Hearing where the Board will consider the possible violation.

- (2) Following a determination, by the Office, of reason to believe a violation exists, the Board shall hold a hearing on whether or not there is a violation.
 - (a) At the hearing, if the Board determines that a violation of the provisions of a Permit, a Notice of Intent, the Act, or these Rules has occurred, the Board may order the modification, suspension or revocation of the Permit. If the Board suspends or revokes the Permit of an Operator, the Operator may continue mining operations only for the purpose of bringing the mining operations into satisfactory compliance with the provisions of the Operator's Permit and all applicable safety regulations. Once such operations are complete to the satisfaction of the Board, the Board shall reinstate the Permit of the Operator.
 - (b) At the hearing, if the Board determines that a violation of the provisions of a permit, the Act, or these Rules has occurred, the Board shall assess a Civil Penalty of not less than one hundred dollars (\$100.00) per day nor more than one thousand dollars (\$1,000.00) per day for each day during which such violation occurs; except that any Operator who operates under a permit issued under Section 34-32-110, C.R.S., as amended shall be subject to a Civil Penalty of not less than fifty dollars (\$50.00) nor more than two hundred dollars (\$200.00) per day. Operators who affect substantial acreage beyond their approved permit boundary may be found to be operating without a permit and, in such case, the Civil Penalty shall be assessed according to the schedule in Rules 3.3.1(3) or (4).
 - (c) At the hearing, if the Board determines that a violation of the provisions of a permit, a Notice of Intent, the Act, or these Rules has occurred, the Board may issue a Cease and Desist Order. The order shall:
 - (i) specify the provisions(s) violated;
 - (ii) specify the facts which constitute the violation(s);
 - (iii) set forth the time by which the violations(s), act(s), or practices(s) must be terminated;
 - (iv) include, at the Board's discretion, any corrective action; and
 - (v) be served personally or by Certified Mail, return receipt requested, upon the Operator or their agent for service of process.

- (3) After a finding by the Board of a failure to comply, pursuant to Rule 3.2, any expenses incurred by the Board or Office in carrying out corrective actions, including administrative costs, may be assessed against the violator.

3.3.3 Injunctive Relief

- (1) In the event any Operator fails to comply with a Cease and Desist Order, the Board may request the Attorney General to bring suit for a temporary restraining order, a preliminary injunction, or a permanent injunction to prevent any further or continued violation of such order.
- (2) If the Board determines that the situation is an emergency, the emergency shall be given precedence over all other matters pending in such court.

3.3.4 Violation of a Cease and Desist Order – Surety Forfeiture

The Board shall institute proceedings to have the surety of the Operator forfeited for violation by the Operator of a Cease and Desist Order entered pursuant to Rule 3.3. Such proceedings shall be conducted in accordance with Rule 4.20.

RULE 4: **PERFORMANCE WARRANTIES AND FINANCIAL WARRANTIES**

4.1 **GENERAL PROVISIONS**

- (1) No governmental office of the state, other than the Board, nor any political subdivision of the state shall have the authority to require a Performance or Financial Warranty of any kind for any mining operation.
- (2) No permit may be issued pursuant to the Act until the Board or Office receives and approves the Performance and Financial Warranties required herein. If these Warranties are not received within one (1) calendar year of approval of an application for any new permit, amendment or conversion, the Board shall hold a hearing, in accordance with the notification and comment provisions of Rule 1.6, to reconsider the previous approval. If the Board affirms the original application approval, the Board shall establish a new deadline for submittal of the Financial and Performance Warranties. If the required Warranties are not posted by the date set by the Board, the application shall be denied.
- (3) Whenever two or more persons or entities are named as Operators in a single permit, the Operators may limit the scope of their individual Performance Warranties so long as the warranties, in the aggregate, warrant performance of all requirements of the Act.
- (4) Whenever two or more persons or entities act as Financial Warrantors, they may limit the scope of their individual warranties so long as all Financial Warranties, in the aggregate, equal the amount required by the Board.
- (5) Financial Warranties may be provided by the Operator, by any Third-party, or by any combination of persons or entities.
- (6) Financial Warrantors who provide proof of financial responsibility of any type or types described in Rules 4.3.2 ~~, or 4.3.8, or 4.3.9~~ shall not be required to secure the same by the posting of Third party sureties or otherwise pledging or encumbering property for the benefit of the state.
- (7) Financial Warranties shall be maintained in good standing for the entire life of any permit issued under the Act and these Rules. Financial Warrantors shall immediately notify the Board of any event which may impair their warranties.
- (8) Where one Operator succeeds another at any uncompleted operation, the Office shall release the first Operator from all liability as to that particular reclamation operation and shall release all applicable Performance and Financial Warranties as to such operation if the successor Operator assumes, as part of the obligation under the Act, all liability for the Reclamation of the affected land, and the obligation is covered by replacement Performance and Financial Warranties as to such affected land.
- (9) ~~95%~~100% of the proceeds of all Financial Warranties forfeited under the provisions of Section 34-32-118, C.R.S., shall be deposited in a special account established by the Board for the purposes of reclaiming lands which were obligated to be reclaimed under the permits upon which such Financial Warranties have been forfeited.

- (10) Proof of financial responsibility may be of any type and in such amount authorized herein, subject to approval by the Board or Office.

4.1.1 General Requirements – Performance Warranties

Each application for any Permit or amendments thereto shall be accompanied by a Performance Warranty.

- (a) The Performance Warranty shall be in a form approved and prescribed by the Board.
- (b) A Performance Warranty shall be signed by the Operator and/or by a person or persons authorized to bind the Operator.

4.1.2 General Requirements – Financial Warranties

- (1) A Financial Warranty shall be signed by a person or persons authorized to sign a Financial Warranty.
- (2) No Financial Warranty shall be required where the Operator is a unit of municipal or county government or the State Department of Transportation and the Operator submits a written guarantee, in lieu of a financial warranty, stating that the affected lands will be reclaimed in accordance with the terms of the permit, these Rules, and Section 34-32-116, C.R.S.
- (3) Any proof of financial responsibility submitted or revised on or after July 1, 1993, shall be in compliance with Rules 4.2.1(1) through (7), and 4.1.2(6) and (7).
- (4) If the Board or Office has reason to believe that any proposed Financial Warranty does not fully and accurately reflect the current financial condition of the Financial Warrantor, the Board or Office may decline to accept the Financial Warranty as submitted.
- (5) Each Financial Warrantor providing proof of financial responsibility in a form described in Rules ~~4.3.6, 4.3.8, 4.3.9, or 4.3.10~~ shall annually cause to be filed with the Board or Office a certification by an independent auditor that, as of the close of the Financial Warrantor's most recent fiscal year, the Financial Warrantor continued to meet all applicable requirements of Rule 4. Financial Warrantors who no longer meet said requirements shall comply with Rule 4.15.
- (6) The Board or Office may by permit condition require proof of value on a periodic basis of any Warranty held by the Board.
- (7) The Board or Office may by permit condition limit certain types of Warranties to specific purposes only or require a designated percentage of the total Warranty be held in easily valued and convertible instruments.
- (8) The Board or Office may refuse to accept any type of Financial Warranty if:

- (a) the value of the Financial Warranty offered is dependent upon the success, profitability, or continued operation, of the mine;
 - (b) for Deeds of Trust, ~~First Priority Liens or Salvage Credit~~, the Operator has not complied with Rule 4.9; or
 - (c) the Board determines that the Financial Warranty offered cannot reasonably be converted to cash within one hundred and eighty (180) ~~d~~Days of forfeiture.
- (9) Any Operator/Applicant that desires to utilize a Financial Warranty described in Rules 4.3.6 ~~, or 4.3.8, 4.3.9, or 4.3.10~~ shall pay to the Office an Annual Fee for the reasonable and necessary cost of establishing and reviewing the Financial Warranty.
- (a) No costs may be charged hereunder unless and until the Operator/Applicant signs written fee agreements with the Office. Said agreements shall be in such form as the Board may prescribe. Invoices pursuant to said agreements shall include a statement for services and expenses included in the total amount;
 - (b) rates charged by the Office hereunder may not exceed prevailing rates for similar services, and shall reflect the actual cost of establishing and reviewing the Financial Warranty;
 - (c) the Operator/Applicant shall be responsible for all costs properly charged hereunder, even if no permit issues from the Board; and
 - (d) funds paid to the Office are to be made available for the use of outside legal and financial advice for the purpose of reviewing the Financial Warranty of Operators/Applicants desiring to use the Self-Insurance provision.
- (10) The original bond documents shall be submitted to the Office and held in safekeeping by the State Treasurer's Office.

4.1.3 Provisions for Recovery of Costs

Any instruments offered as a Financial Warranty pursuant to this Rule 4, shall provide that the Board or Office may recover the necessary costs, including attorney's fees or fees incurred in foreclosing on or realizing the collateral used to secure such Financial Warranty in the event such Financial Warranty is forfeited, in the following manner:

- (a) for any Corporate Surety Bond issued by a corporate surety company authorized to do business in this state, the face amount of the bond shall be increased by five hundred dollars (\$500);
- (b) for any irrevocable Letter of Credit issued by a bank authorized to do business in the United States, the face amount of the Letter of Credit shall be increased by five hundred dollars (\$500);
- (c) for any Certificate of Deposit, the face amount of the Certificate of Deposit shall not be increased;

- (d) for any Individual Reclamation Fund, the amount of the trust fund required to be maintained shall be increased by five hundred dollars (\$500);
- (e) for any Cash Escrow Account, the amount of the Cash Escrow Account required to be maintained shall not be increased; and
- (f) for any Deed of Trust or Security Agreement encumbering real or personal property creating a first priority lien in favor of the state, the value of the real or personal property available to secure the amount of the Financial Warranty attributable to costs of reclamation shall be reduced by an amount to be determined by the Board or Office, but in any case, a minimum of five thousand dollars (\$5,000) and up to a maximum amount of two percent (2%) of reclamation costs;
- (g) any monies collected and not used to fulfill the requirements of this Rule 4.1.3, shall be returned to the Financial Warrantor upon completion of reclamation and liability release by the Board or Office.

4.2 FINANCIAL WARRANTY LIABILITY AMOUNT

4.2.1 Adequacy of Financial Warranties

- (1) All Financial Warranties shall be set and maintained at a level which reflects the actual current cost of fulfilling the requirements of the Reclamation Plan; and for Designated Mining Operations, fulfilling the applicable requirements of the reclamation and Environmental Protection Plans during site closure and reclamation.
- (2) Financial Warranty Review - the Office or Board may, in its discretion, review any Financial Warranty for adequacy at any time. In the event the Office or Board determine that the Financial Warranty is insufficient to perform reclamation, the Permittee shall have up to sixty (60) ~~e~~Days to post additional Financial Warranty from the date of written notice from the Office or Board of such insufficiency. If the Permittee disagrees with the Office Notice to Increase the Financial Warranty, the Office shall schedule the matter for a hearing before the Board. The Permittee may be scheduled for a Formal Board Hearing for possible revocation of the permit after sixty (60) ~~e~~Days, from the date of notice of any such adjustment, if the amount of any increased Financial Warranty has not been provided.
- (3) The Board or Office shall prescribe the amount and duration of Financial Warranties, taking into account the nature, extent, and duration of the proposed mining operation, the magnitude, type and estimated cost of planned reclamation, and the requirements of the Act.
- (4) In any single year during the life of the permit, the amount of required Financial Warranties shall not exceed the estimated cost of fully reclaiming all lands to be affected in said year, plus all lands affected in previous permit years and not yet fully reclaimed. For the purpose of this Rule, reclamation costs shall be computed with reference to current reclamation costs. The amount of the Financial Warranty shall be sufficient to assure the completion of

reclamation of affected lands if the Office has to complete such reclamation due to forfeiture. Reclamation includes all measures taken to assure the protection of water resources, including costs to cover necessary water quality protection, treatment and monitoring as may be required by Permit, these Rules or the Act.

- (5) The Financial Warranty amount shall include an amount equal to five percent (5%) of the amount of the cost of reclamation to defray the administrative costs incurred by the Office in conducting the reclamation.
- (6) When mining on federal land and the federal land management agency requires that a Financial Warranty be posted with their agency, the amount of Financial Warranty posted with the state shall be the difference between the amount required to be posted by the federal land management agency, and the amount required by the Mined Land Reclamation Board. In no event shall the amount of Financial Warranty posted with the state be less than one hundred dollars (\$100). In addition, the application shall contain a provision that in the event the federal land management agency reduces the Financial Warranty, the Permittee must post an acceptable replacement Warranty with the state prior to any release by the federal land management agency. The replacement Warranty shall be sufficient to cover the cost of reclamation liability unless the state conducts an inspection and concurs with the federal land management agency finding.

4.2.2 Specific Provisions – 110(1), 110(2) and Non-In Situ Leach Mining 110d Limited Impact Operations

- (1) Except for in situ leach mining permits, the Financial Warranty for any 110 Limited Impact Permit which is filed pursuant to Section 34-32-110(1)(a)(III) or (2), C.R.S., including those which are automatically issued as a result of Office inaction within thirty (30) ~~e~~Days pursuant to Section 34-32-110(6), C.R.S., shall be in an amount determined by the Office pursuant to Section 34-32-117(4), C.R.S. to be equal to the estimated cost of reclamation. By July 1, 2015, any Operator issued a two acre limited impact permit must comply with the financial warranty requirements set forth in Section 34-32-117(4), C.R.S. and Rule 4.
- (2) Divisions of state government and units of municipal and county government are exempt from submitting Financial Warranties and are not required to provide reclamation costs. Quasi-governmental agencies are not entitled to the financial warranty exemption unless otherwise approved by the Board.

4.2.3 Permit Conversion

The conversion of any 110 Permit into any 112 Permit shall require a Financial Warranty in an amount equal to the estimated cost of reclamation.

4.2.4 Reserved

4.2.5 Specific Provisions – 112, 112d, 110 ISL and 112 ISL Reclamation Permit Operations

- (1) The Financial Warranty for any 112, 112d, 110 ISL and 112 ISL Reclamation Permit shall be in an amount to be determined by the Board in accordance with the guidelines set forth herein.
- (2) The Financial Warranty for any 112, 112d, 110 ISL and 112 ISL Reclamation Permit which is automatically issued as a result of Board inaction within two hundred and forty (240) ~~e~~Days for any in situ leach mining application and within the one hundred and twenty (120) ~~e~~D~~a~~y period for non in situ leach mining 112 and 112d permit applications pursuant to the Act shall be in an amount equal to two thousand dollars (\$2,000.00) for each acre of Affected Land, or other such amount as the Board may determine at a subsequent hearing.
- (3) If, at a hearing, the Board determines that the Financial Warranty is not adequate, the Operator shall have sixty (60) ~~e~~D~~a~~y to post the additional Financial Warranty in a form and amount acceptable to the Board.

4.2.6 Specific Provisions – Prospecting Notice

- (1) Upon filing the Notice of Intent to Conduct Prospecting, the person shall provide Financial Warranty in the amount of two thousand dollars (\$2,000.00) per acre of the land to be disturbed, or such other amount as determined by the Office, based on the projected costs of reclamation.
- (2) Statewide Warranties may be submitted for prospecting, provided such warranties are in an amount equal to the estimated cost of reclamation per acre of affected land.

4.3 TYPES OF FINANCIAL WARRANTIES

Proof of financial responsibility may consist of any one or more of the following, subject to approval by the Board:

4.3.1 Cash Bond

Cash or Certified funds assigned to the Board.

4.3.2 Cash Escrow Account

A fund of cash or cash invested in

- (i) securities issued or directly and fully guaranteed or insured by the United States or any agency or instrumentality thereof, including treasury bills, discount notes of the Federal Home Loan Bank, Federal National Mortgage Association, and Federal Farm Credit System (provided that the full faith and credit of the United States is pledged in support thereof) having maturities of not more than one hundred and eighty (180) ~~e~~D~~a~~y from the date of acquisition;
- (ii) time deposits, certificates of deposit and banker's acceptances with maturities of not more than one hundred and eighty (180) ~~e~~D~~a~~y from the date of acquisition by such person of a

commercial bank having, or which is the principal banking subsidiary of a bank holding company having, a long-term unsecured debt rating of at least "AAA" or the equivalent thereof from Standard & Poor's;

- (iii) repurchase obligations with a term of not more than seven (7) ~~4~~Days for underlying securities of the types described in clause (i) above entered into with any bank meeting the qualifications specified in clause (ii) above;
- (iv) investments in money market funds substantially all assets of which are comprised of securities of the types described in clauses (i) through (iii) above; or
- (v) other instruments as approved by the Board established in the form of an escrow account.

4.3.3 Corporate Surety Bonds

A Surety Bond issued by a corporate surety authorized to do business in this state.

4.3.4 Irrevocable Letters of Credit

An Irrevocable Letter of Credit issued by a bank authorized to do business in the United States; the Operator/Applicant must provide evidence that the bank issuing the Letter of Credit is in good financial standing and condition, as may be evidenced by its rating by an appropriate rating system.

4.3.5 Certificates of Deposit

A Certificate of Deposit assigned to the Board.

4.3.6 Deeds of Trust and Security Agreements

A Deed of Trust or security agreement encumbering real or personal property and creating a first lien in favor of the State.

4.3.7 Reserved

4.3.8 Individual Reclamation Fund

A trust fund which shall be funded by periodic cash payments representing a fraction of total receipts, providing assurance that the funds required for reclamation will be available.

~~4.3.9 Salvage Credit~~

~~Credit for the Salvage Value of project-related fixtures and equipment (excluding rolling stock) owned or to be owned by the Financial Warrantor within the permit area, represented by a security agreement creating an equipment lien, less the value of any encumbrances of higher priority, which encumbrances shall be limited to government encumbrances.~~

~~4.3.10 First Priority Lien on Project-related Fixtures and Equipment~~

~~A Deed of Trust or security agreement encumbering specific project-related fixtures and equipment that must remain on-site upon completion of mining operations, or that must be demolished or removed in order for the Reclamation Plan to be performed, creating a first priority lien in favor of the State.~~

~~4.3.11 Negotiable Bonds of the United States Government~~

~~A Treasury note backed by the full faith and credit of the United States Government.~~

4.4 SPECIFIC REQUIREMENTS FOR CASH BONDS

Cash or Certified funds shall be held in trust by the State Treasurer's Office. All interest shall accrue to the benefit of the Financial Warrantor except where a permit is revoked and the Financial Warranty is forfeited, the interest shall accrue to the Division of Reclamation, Mining and Safety. The accrued interest shall be used for reclamation of the site.

4.5 SPECIFIC REQUIREMENTS FOR CASH ESCROW ACCOUNTS

- (1) Cash Escrow Accounts shall be administered by an independent ~~e~~Escrow ~~a~~Agent other than the Office and shall consist of cash and/or cash invested in financial instruments as described in Rule 4.3.2. If the Escrow Agent is a bank, the bank shall be rated as well-capitalized as defined in the Uniform Bank Performance Report.
- (2) The Escrow Agent shall be a United States bank or other financial institution, company, corporation, business or firm.
- (3) Investment of the Cash Escrow Account(s) shall be proportioned as follows:
 - (i) not less than fifty percent (50%) of the Cash Escrow Account(s) shall be convertible into cash or other immediately available funds within twenty-four (24) hours; and
 - (ii) the balances of the Cash Escrow Account(s) shall be convertible into cash or other immediately available funds within one hundred and eighty (180) ~~d~~Days.
- (4) All interest shall accrue for the benefit of the Operator.
- (5) All maintenance fees for the Cash Escrow Account(s) shall be paid for by the Operator.
- (6) The Escrow Agent shall provide to both the Operator and the Board monthly account statement detailing the activities and interests earned on the Cash Escrow Account(s), the cost and market value of the Cash Escrow Account(s), and the balances of the various types of instruments into which the Cash Escrow Account(s) are invested.
- (7) On the anniversary of the Cash Escrow Account(s), the Operator shall report to the Board the status of its activities under the Permit, including, but not limited to, the estimated reclamation costs for the area disturbed to date and the estimated amount of reclamation

costs for the additional area to be disturbed during the following twelve (12) months. Based upon this annual report, the Board may require the balance of the Cash Escrow Account(s) be increased to an amount that is not less than the total amount of estimated reclamation costs. The Board shall notify the Operator in writing of any required increase in the amount of Cash Escrow Account(s) and, within sixty (60) ~~e~~Days of the receipt of such notice, the Operator shall deposit the amount of the increase with the Escrow Agent. The Operator shall submit to the Board the corporation's annual report, which lists the Cash Escrow Account(s) in the report footnotes. The Operator shall also submit an annual report of the Escrow Agent.

- (8) In addition to the above requirements, any agreement establishing the Cash Escrow Account(s) shall provide the following:
- (a) Upon order of forfeiture of the Cash Escrow Account(s) by the Board, the Escrow Agent shall release the principal of the Cash Escrow Account(s) to the Board within five (5) ~~e~~Days after presentment of the Board forfeiture order to the Escrow Agent. The Operator agrees not to contest or otherwise challenge the Escrow Agent's disbursement of the Cash Escrow Account(s) in accordance with this Rule.
 - (b) The Operator may not use the Cash Escrow Account(s) as collateral for any loan, mortgage or other obligation or as a guarantee or security interest for any obligation of the Operator, including any security interest which may be filed under Article 9 of the Uniform Commercial Code as in effect in Colorado.
 - (c) The Board may file a security interest and lien upon the Cash Escrow Account(s) in accordance with Article 9 of the Uniform Commercial Code in effect in Colorado.
 - (d) The Board is not responsible for and is not indemnifying, insuring, or otherwise holding harmless the Escrow Agent or the Operator with respect to the agreement for any loss, liability, cost damage or expense including attorney's fees, the Escrow Agent may suffer or incur by reason of any action, claim or proceeding brought by or against the Escrow Agent arising out of or relating in any way to the agreement or the Cash Escrow Account(s).

4.6 SPECIFIC REQUIREMENTS FOR CORPORATE SURETY BONDS

- (1) The Operator/Applicant shall submit a fully executed Corporate Surety on a form provided by the Office.
- (2) A Power of Attorney authorizing the party signing on behalf of the insurance company shall be submitted with the Corporate Surety.

4.7 SPECIFIC REQUIREMENTS FOR IRREVOCABLE LETTERS OF CREDIT

- (1) The Irrevocable Letter of Credit shall be executed on the issuing bank's letterhead using the language provided by the Office.

- (2) The Irrevocable Letter of Credit shall be automatically renewable. The Letter of Credit shall provide that, in case of non-renewal, the bank must notify the Office and the Operator, by Certified Mail, at least ninety (90) ~~d~~Days prior to the expiration date of the Letter of Credit.
- (3) The bank shall provide documentation in the form of a balance sheet certified by a Certified Public Accountant demonstrating that the Letter of Credit does not exceed ten percent (10%) of the bank's capital surplus accounts. This documentation shall be provided by the Operator, annually, as part of the Operator's Annual Report.

4.8 SPECIFIC REQUIREMENTS FOR CERTIFICATES OF DEPOSIT

- (1) The Certificate of Deposit shall be assigned to the State of Colorado/Mined Land Reclamation Board.
- (2) The Certificate of Deposit shall be automatically renewed.
- (3) The account shall be a public funds account.
- (4) The Certificate of Deposit shall be issued by an eligible public depository under the Public Deposit Protection Act (PDPA), as required by Section 11-10.5-101, C.R.S.

4.9 SPECIFIC REQUIREMENTS FOR DEEDS OF TRUST AND OTHER SECURITY INTERESTS IN REAL OR PERSONAL PROPERTY

4.9.1 General Provisions

- (1) The Board or Office may accept interests in real and personal property as Financial Warranties of not more than ~~eighty-five percent (85%)~~ seventy-five percent (75%) of the ~~estimated appraised~~ value of ~~any such the~~ property. To qualify for the use of Deeds of Trust, an Operator must have reclamation liabilities in excess of thirty (30) million dollars. The total amount of interests in real and personal property shall not exceed twenty-five percent (25%) of the total required financial warranty unless specifically approved by the Board.
- (2) Any person offering such Financial Warranty shall:
 - (a) submit current information necessary to show clear title to the property and the current appraised value ~~of such the~~ property. This information shall contain a completed appraisal in a form approved by the Board.
 - (b) Submit together with the Annual Report as required by Rule 1.15, the following:
 - (i) an update by a qualified independent appraiser indicating any changes in property value;

- (ii) a statement summarizing any circumstances which may affect the adequacy of the Deed if it is a Trust or security agreement; and
 - (iii) proof that there are no past-due property taxes.
- (3) The Board or Office may refuse to accept any Deed of Trust or security agreement if the property or equipment offered is necessary in the functioning of any Environmental Protection Facility at the site of the mining operation, or the completion of the approved Reclamation Plan.

4.9.2 Deed of Trust – Real Estate

- (1) Rules 4.1.2(8)(a) and (c), shall be applicable for new Non-designated Mining Operations on July 1, 1993, and existing Non-designated Mining Operations on January 1, 1996, to Deeds of Trust existing as of July 1, 1993 and subsequent updates of these same Deeds of Trust used as collateral for Financial Warranties; and to any Financial Warranty completed before July 1, 1993 if the value of any such Financial Warranty includes any mineral value or if mineral value is used to update any such Financial Warranty. The value of any Financial Warranty described in this Rule shall include mineral value for the life of the Warranty. Updates shall mean only those changes that adjust the mineral or property value of an existing Deed of Trust, and does not include submissions of new properties.
- (2) Failure to provide the documents required by Rule 4.9.1(2) shall indicate a reason to believe the Financial Warranty is not being maintained in good standing as required by Rule 4.1(7).
- (3) A request for an increase in the bond by the Office shall require a reappraisal of any real property used as security for the bond. Such reappraisal shall be timely, provided by the Operator and shall be completed by an independent appraiser, acceptable to the Office.

~~4.9.3 First Priority Lien – Fixtures and Equipment~~

~~With respect to first priority liens on project-related fixtures and equipment described in Rule 4.3.10, above:~~

- ~~(a) the Board or Office may, in its discretion, accept a first priority lien, in the amount of the Financial Warranty prescribed pursuant to Rule 4.2.1, on any project-related fixtures and equipment that must remain on-site in order for the Reclamation Plan to be performed, in lieu of including the cost of acquiring and installing such fixtures and equipment;~~
- ~~(b) the Board or Office may accept a first priority lien on any project-related fixtures and equipment that must be demolished or removed from the site under the Reclamation Plan. The Board or Office may, in its discretion, accept such a lien as a portion of the proof of financial responsibility if the amount credited for such lien does not exceed the cost of demolishing or removing the subject fixtures and equipment or the market value of such fixtures and equipment, whichever is less; and~~

~~(c) any fixtures and equipment accepted pursuant to this Rule shall be insured, with the MLRB named as the additional insured, and maintained in good operating condition and shall not be removed from the permit area without the prior consent of the Board or Office. Each Operator/Permittee or Applicant providing a lien on such equipment and fixtures shall file an Annual Report with the Office in sufficient detail to fully describe the condition, value and location of all pledged fixtures and equipment. Such Financial Warrantor shall not pledge such equipment and fixtures to secure any other obligation and shall immediately notify the Office of any other interest that arises in the pledged property, and shall comply with the requirements of Rule 4.15.~~

4.10 RESERVED

4.11 SPECIFIC REQUIREMENTS FOR INDIVIDUAL RECLAMATION FUND

4.11.1 Establishment of Fund

- (1) Upon commencement of production or when site conditions change that make it necessary, the Operator may establish an individual reclamation fund, to be held by an independent trustee for the Board, upon such terms and conditions as the Board may prescribe, which trust fund shall be funded by periodic cash payments representing such fraction of receipts as will, in the opinion of the Board, provide assurance that funds will be available for reclamation.
- (2) Prior to issuance of a permit, the Operator will provide another form of Financial Warranty as described herein. As the reclamation fund increases in value, this form of Financial Warranty may be decreased in value so long as the sum of Financial Warranties is that amount specified by the Board or required by the Act.
- (3) In approving the Individual Reclamation Fund as a Financial Warranty, the Board or Office shall:
 - (a) approve the form of the initial Financial Warranty;
 - (b) fix the fraction of receipts to be held in trust;
 - (c) identify the trustee to hold said funds for the Board;
 - (d) prescribe the terms and conditions applicable to the Operator or Warrantor's payment of funds into said trust; and
 - (e) prescribe the terms and conditions governing the trustee's handling of said funds.

4.12 ~~SPECIFIC REQUIREMENTS FOR SALVAGE CREDIT~~RESERVED

~~4.12.1 Requirements for Salvage Credit~~

~~A Financial Warranty based on Salvage Credit must meet the following requirements:~~

- ~~(a) Project related fixtures and equipment (excluding Rolling Stock) owned or to be owned by the Operator/Permittee or Applicant within the permit area will have a Salvage Value at least equal to the amount of the Financial Warranty, or the appropriate portion thereof;~~
- ~~(b) Existing liens and encumbrances applicable to said fixtures and equipment, other than liens in favor of the United States or the State of Colorado, any other state, and any political subdivisions, will be subordinated to the lien described in Section 34-32-118(4)(b) and (c), C.R.S. and Rule 4.20(6).~~
- ~~(c) Said fixtures and equipment will be maintained in good operating condition, be properly insured against theft, loss, fire and vandalism, and will not be removed from the permit area without the prior consent of the Board. In addition, the Warrantor shall ensure that insurance premiums are always paid two (2) years in advance on said fixtures and equipment.~~

~~4.12.2 Determination of Salvage Credit~~

- ~~(1) The Operator/Permittee or Financial Warrantor shall provide the Office with appraisals, information regarding invoice price, current value, cost of demolition and/or removal, and any other information as is necessary to establish the Salvage Value of the particular Project related fixtures and/or equipment for which Salvage Credit is sought as all or part of the Financial Warranty for a Permit.~~
- ~~(2) The Operator/Permittee or Financial Warrantor shall provide the Office with a list of all encumbrances, and shall affirm that no other encumbrances exist to the best of the Operator's or Financial Warrantor's knowledge and belief.~~
- ~~(3) The Office may request the Operator/Permittee or Financial Warrantor to provide additional reasonable information to support the claimed Salvage Value and/or costs associated with any Project related fixture or equipment for which Salvage Credit is sought.~~
- ~~(4) Ten (10) days prior to any Board hearing regarding a Permit application for which Salvage Credit is offered as all or part of the Financial Warranty, the Office shall inform the Operator/Permittee or Financial Warrantor of its opinion as to the amount or estimate of the amount of the Salvage Value attributable to the Project related fixtures and equipment for which Salvage Credit is sought.~~
- ~~(5) At the hearing before the Board, the Office shall recommend an amount for Salvage Credit value.~~
- ~~(6) The Board shall, after considering the Office's recommendation, testimony offered by the Operator, Warrantor, or any other person, and facts adduced at the hearing, fix the amount of the Salvage Credit for the Project related fixtures and equipment, and attach conditions, as may be appropriate, to annually verify the value of the Salvage Credit.~~

4.13 ~~SPECIFIC REQUIREMENTS FOR NEGOTIABLE BONDS OF THE UNITED STATES GOVERNMENT RESERVED~~

- ~~(1) The Treasury note shall be purchased from a U.S. bank or broker.~~
- ~~(2) The Treasury note shall be for a period of five (5) years.~~
- ~~(3) The Treasury note shall be registered to the custody agent (bank or broker) and pledged to the Board and held in a joint account with the bank or broker.~~
- ~~(4) All interest shall be paid to the operator.~~
- ~~(5) The Board shall accept the value of the Treasury note at ninety percent (90%) of face value.~~
- ~~(6) The only authorized signatory on the account is that of the Board.~~
- ~~(7) The operator shall provide to the Board:
 - ~~(a) Book Entry receipt.~~
 - ~~(b) An Assignment of U.S. Treasury Note to the Board.~~~~
- ~~(8) Fees associated with the purchase and maintenance of Treasury Notes are the responsibility of the Permittee.~~
- ~~(9) The custody agent shall provide monthly statements of the account to the Board.~~
- ~~(10) If the market value of the U.S. Treasury Note drops below the required ninety percent (90%) of face value, the Permittee will supply the Board with additional funds or post an additional or replacement bond up to the required bond amount.~~

4.14 REDUCTION OF WARRANTY AMOUNT

4.14.1 Operator's Request for Reduction

- (1) An Operator may request that the Office reduce the amount of the Financial Warranty required.
- (2) Such a request must:
 - (a) be made in writing or via electronic submission, per the Office designation, separate from other correspondence;
 - (b) include an estimate of the actual cost to reclaim the site based on what it would cost an independent contractor to complete reclamation, including unit costs for

reclamation activities as appropriate to the operation to comply with the provisions of Rule 3.1 and the Permit's Reclamation Plan.

- (3) Such request shall be processed as described in Rule 4.16, for Prospecting operations, or Rule 4.17, for all other operations.

4.15 IMPAIRMENT OF FINANCIAL WARRANTIES

- (1) Each Financial Warrantor providing proof of financial responsibility in a form described in Rules ~~4.3.6, 4.3.8, 4.3.9, and 4.3.10~~ shall notify the Board within sixty (60) ~~e~~Days of any net loss incurred in any quarterly period.
- (2) Whenever the Board receives a notice under Rule 4.15(1) or fails to receive a certification or a substitute Warranty as required by Rule 4.1.2(5), or otherwise has reason to believe that a Financial Warranty has been materially impaired, it may convene a hearing for the purpose of determining whether impairment has in fact occurred.
- (3) Whenever the Board elects to convene a hearing pursuant to Rule 4.15(2), it may hire an independent consultant to provide expert advice at the hearing. The fees for any such consultant shall be paid by the Financial Warrantor, and no consultant shall be hired until the Financial Warrantor signs a written fee agreement in such form as the Board may prescribe. In the event that a Financial Warrantor refuses to sign such an agreement, the Board may, without hearing, order the Financial Warrantor to provide an alternate form of Financial Warranty.
- (4) At any such hearing, if the Board finds that a Financial Warranty has been materially impaired, it may order the Financial Warrantor to provide an alternate form of Financial Warranty.
- (5) A Financial Warrantor shall have ninety (90) ~~e~~Days to provide an alternate warranty required under Rule 4.15(4).

4.16 RELEASE OF WARRANTIES – PROSPECTING OPERATIONS

4.16.1 Prospector Application for Release of Warranties

- (1) Upon the completion of reclamation, any person that filed with the Board or Office a Prospecting Notice of Intent and Financial Warranties shall submit to the Office via electronic form and separate from other types of communication to the Board or Office a Reclamation Report and request for reclamation responsibility release stating that reclamation is finished.
- (2) Such report shall contain, at a minimum:
 - (a) the name of the operation, the name of the person or organization responsible for the prospecting (the "Prospector"), file number of the Prospecting Notice of Intent

- and the name, mailing address, e-mail address, and phone number of the contact person;
 - (b) a signed statement, or other certification as designated and approved by the Office, by the Prospector that all reclamation requirements of the prospecting notice have been satisfied;
 - (c) a narrative describing site grading, topsoil replacement, successful revegetation and other stabilization activities, as appropriate;
 - (d) suitable photographs of the reclaimed area; and
 - (e) a map of sufficient detail to determine the location of the prospecting activity.
- (3) The Office shall, within thirty (30) ~~e~~Days after receiving said report, or as soon thereafter as weather conditions permit, inspect the lands and reclamation described in the notice to determine if the Prospector has complied with all applicable requirements.
- (4) If the Office finds the reclamation to be in compliance with the requirements of the Notice of Intent, Rules and Regulations, and the StatuteAct, the Office shall release all applicable performance and financial warranties. The financial warranty shall not be held for more than thirty (30) ~~e~~Calendar ~~e~~Days after the Office finds that the Prospector has successfully completed reclamation. However, an appeal to the release of the Financial Warranties shall stay the release on the thirtieth (30th) ~~e~~Day pending a Formal Board Hearing.

4.17 RELEASE OF PERFORMANCE AND FINANCIAL WARRANTIES FOR MINING OPERATIONS

4.17.1 Operator Requirements

- (1) The Operator of any mining operation may file a written notice of completion of reclamation and request for release of reclamation responsibility with the Office whenever an Operator believes any or all requirements of the Act, the Rules and Regulations, and the approved reclamation plan have been completed with respect to any or all of the Affected Lands.
- (2) The Operator shall include in the notice to the Office the names and addresses and phone numbers of all owners of record to the affected land.
- (3) The written notice requesting release shall be sent by Certified Mail or e-permitting and be separate from other types of communication to the Office.
- (4) Such notice shall contain a signed statement, or other certification as designated and approved by the Office, by the Operator or their agent that all applicable portions of the Reclamation Plan requirements have been satisfied in accordance with these Rules and all applicable requirements under the Act.

4.17.2 Office Requirements

- (1) The Office, upon receipt of said notice of completion of reclamation, shall immediately provide notice to all owners of record to the affected land, ~~and to the county(s) the local Board of County Commissioners, and the County planning commission.~~
- (2) The Office shall, within sixty (60) calendar ~~d~~Days after receiving said notice, or as soon thereafter as weather conditions permit, inspect the lands and reclamation described in the notice to determine if the Permittee has complied with all applicable requirements.
- (3) If the Office fails to conduct an inspection within the time specified in Rule 4.17.2(2), or fails to advise the Permittee of deficiencies within the time specified in Rule 4.17.2(4), then all Financial Warranties applicable to reclamation described in the notice shall be deemed released as a matter of law.
- (4) Where the Office finds that a Permittee has not complied with the applicable requirements of the Act, Rules and Regulations, or the approved reclamation plan, it shall advise the Permittee of such non-compliance not more than sixty (60) ~~e~~Calendar ~~d~~Days after the date of the inspection.
- (5) Where the Office finds that a Permittee has successfully complied with the requirements of the Act, Rules and Regulations, and the approved reclamation plan, the Office shall release all applicable performance and financial warranties. Release (pending an appeal) shall be in writing and mailed within thirty (30) ~~e~~Calendar ~~d~~Days to the Permittee after the date of such findings. However, an appeal to the release of the financial and performance warranties shall stay the release on the thirtieth (30th) ~~d~~Day pending a Formal Board Hearing.

4.17.3 Reserved

4.17.4 Specific Provisions – Designated Mining Operations

- (1) Public Notice Requirements – Request for Release of Financial Warranty
 - (a) Upon filing an electronic Notice of Completion and a Request to Release Financial Warranty for a Designated Mining Operation, the Operator shall publish a Public Notice according to the following guidelines.
 - (b) At the time of filing a written Notice of Completion or Request for Release of Financial Warranty, the Operator shall publish once in a newspaper of general circulation in the area of the mining operation for which a reduction or release of Performance and Financial Warranties is sought. The Notice shall specify the following:
 - (i) the name of the mining operation;
 - (ii) the location of the mining operation in relation to the nearest municipality, giving direction and miles;

- (iii) a brief statement of what is being requested and that public comments concerning the appropriateness of the requested release should be sent within thirty (30) ~~e~~Days of the date of publication to the Office to the address for the Division of Reclamation, Mining and Safety, listed on the cover of these Rules.
- (iv) the Operator shall submit proof of publication as provided for in Rule 1.6.2(1)(a)(ii).

(2) Partial and Final Release of Financial Warranty

- (a) The Operator shall request release of any remaining reclamation bond funds at or after such time as is prescribed by the Board or Office which shall be no more than five (5) years after submitting the initial Request for Release of Financial Warranty, and subsequent Office inspection, as per the following:
 - (i) upon completion of the performance requirements of the Permit and Reclamation Plan, the Operator may file a written Notice of Completion with the Office;
 - (ii) the Office shall inspect the affected land within sixty (60) ~~e~~Days after receiving such notice, or as soon thereafter as weather permits to determine if the affected land has been reclaimed for a beneficial use and is in compliance with all applicable Performance Standards;
 - (iii) upon a finding by the Board or Office that the Operator has complied with all the Permit performance requirements, the Office shall deliver a written release of all, or portion of, the Financial Warranty, as appropriate, for the applicable Permit area. This release shall be according to a schedule prescribed by the Board;
 - (iv) if the Office or Board finds that the performance requirements have not been met, the Office shall advise the Operator, in writing, of such finding and noted deficiencies within sixty (60) ~~e~~Days of the inspection conducted pursuant to Paragraph Rule 4.17.4(2)(a)(ii);
 - (v) if the Operator is not entitled to release, or a portion thereof, of the Financial Warranty, the Board or Office may specify a reclamation schedule and adjust the amount of the bond and Financial Warranty, accordingly;
 - (vi) if the Office fails to conduct an inspection, pursuant to Rule 4.17.4(2)(a)(ii), or fails to notify the Operator of any deficiencies within sixty (60) ~~e~~Days of the inspection conducted pursuant to Rule 4.17.4(2)(a)(iv); then that portion of the Financial Warranty applicable to the reclamation described in the Notice of Completion or Request for Release shall be deemed released as a matter of law;

- (vii) within five (5) years after the release of a portion of the Financial Warranty, pursuant to Rule 4.17.4(2)(a)(iii) the Operator may file, in writing, a Request for Financial Warranty Release for release of the balance of the Financial Warranty according to the provisions of Rule 4.17.4(2). The Office shall inspect the affected land within sixty (60) ~~e~~Days of such request, or as soon thereafter as weather permits, to determine if the affected land has been reclaimed for a beneficial use and is in compliance with all applicable Performance Standards.

4.18 PUBLIC NOTICE AND FILING OF WRITTEN OBJECTIONS REGARDING A REQUEST FOR RELEASE OF FINANCIAL WARRANTY

- (1) Any person who demonstrates that they are directly and adversely affected or aggrieved and whose interest is entitled to legal protection under the Act may submit written objections on the request for reclamation responsibility release so long as such comments are received by the Office no more than fifteen (15) ~~e~~Days after notice by the Office to the county(s) and all owners of record to the affected land.
- (2) Notice of the Office's decision to release the Permittee from further reclamation responsibility shall be published in the next monthly agenda of the Board.

4.19 GENERAL PROVISIONS – APPEALS TO DECISION – RELEASE OF FINANCIAL WARRANTY

- (1) Any person directly and adversely affected or aggrieved by an Office decision to approve or deny the request for reclamation responsibility release and whose interest is entitled to protection under the Act may appeal the decision to the Board by submitting a request for Administrative Appeal to the Office according to the provisions of Rule 1.4.11. The request for Administrative Appeal must specify the basis for being directly and adversely affected or aggrieved, a statement of why the person's interest is protected by the Act, the permit number assigned by the Office and include a statement of the factual and legal issues presented by the appeal.
- (2) If the Office decision to release a Permittee from reclamation liability is reversed by the Board on appeal, all outstanding obligations under the permit the financial warranty, and the performance warranty shall remain in effect.

4.20 FORFEITURE OF FINANCIAL WARRANTY

- (1) A Financial Warranty shall be subject to forfeiture whenever the Board shall determine at a hearing that any one or more of the following circumstances exist:
 - (a) the Operator has violated a Cease and Desist order entered pursuant to Section 34-32-124, C.R.S. 1984, as amended, and, if corrective action was proposed in

- such order, has failed to complete such corrective action although ample time to have done so has elapsed; or
- (b) the Operator is in default under the Performance Warranty and has failed to cure such default although they have been given written notice thereof and has had ample time to cure such default;
 - (c) the Financial Warrantor has failed to maintain the Financial Warranty in good standing as required by Section 34-32-117, C.R.S. 1984, as amended; or
 - (d) the Financial Warrantor no longer has the financial ability to carry out the obligations under the Act.
- (2) Whenever the Board, based on information and belief, has reason to believe that a Financial Warranty is subject to forfeiture, the Board shall so notify the Operator and all Financial Warrantors. The Board shall afford the Operator and all Financial Warrantors the right to appear before the Board at a hearing to be held not less than thirty (30) ~~4~~ days after the parties' receipt of said Notice.
- (3) At any such hearing, the Board shall be empowered to:
- (a) withdraw or modify any determination that the Financial Warranty is subject to forfeiture;
 - (b) settle or compromise the determination; or
 - (c) confirm its determination that the Financial Warranty should be forfeited.
- (4) Upon finding that a Financial Warranty should be forfeited, the Board shall issue written findings of fact and conclusions of law to support its decision and shall issue an order directing affected Financial Warrantors to immediately deliver to the Board all amounts warranted by applicable Financial Warranties.
- (5) The Board, upon issuing any order pursuant to Rule 4.20(3), may request the Attorney General to institute proceedings to secure or recover amounts warranted by forfeited Financial Warranties. The Attorney General shall have the power, inter alia, to:
- (a) foreclose upon any real and personal property encumbered for the benefit of the state;
 - (b) collect, present for payment, take possession of, and otherwise reduce to cash any property held as security by the Board;
 - (c) dispose of pledged property.
- (6) The amount of any forfeited Financial Warranty shall be a lien in favor of this state upon any project related fixtures or equipment offered as proof of financial responsibility pursuant to Section 34-32-117(3)(f)(V)(C)-(E), C.R.S. 1984, as amended.

- (7) Said lien shall have priority over all other liens and encumbrances irrespective of the date of recordation, except liens of record on the effective date of this Act and liens of the United States, the state, and political subdivisions thereof for unpaid taxes, and shall attach and be deemed perfected as of the date the Board approves issuance of the Permit.
- (8) Funds recovered by the Attorney General in proceedings brought pursuant to Rule 4.20 shall be held in the account described in Section 34-32-122, C.R.S 1984, as amended, and shall be used to reclaim lands covered by the forfeited warranties. ~~_, except that, five percent (5%) of the amount of the Financial Warranty forfeited and recovered shall be deposited in the Mined Land Reclamation Fund, created in Section 34-32-127, C.R.S. 1984, as amended, to cover the administrative costs incurred by the Office in performing reclamation.~~
- (9) The Board shall have a right of entry to reclaim said lands. Upon completion of such reclamation, the Board shall present to the Financial Warrantor a full accounting and shall refund all unspent moneys.
- (10) Defaulting Operators/Permittees shall remain liable for the actual cost of reclaiming Affected Lands, ~~less any amounts expended by the Board pursuant to Rule 4.20(8), notwithstanding any discharge of applicable Financial Warranties.~~
- (11) Notwithstanding any provision of this Rule 4.20 to the contrary, a corporate surety may elect to reclaim Affected Lands in accordance with an approved plan in lieu of forfeiting a bond penalty, or in accordance with the approved Plan acceptable to the Board or Office, otherwise the Board may forfeit the fund and perform reclamation.

RULE 5: PROSPECTING OPERATIONS

5.1 NOTICE OF INTENT TO CONDUCT PROSPECTING OPERATIONS

5.1.1 General Provisions

- (1) Any person or organization desiring to conduct prospecting, or construct monitoring wells for establishment of baseline groundwater characterization for a future mine reclamation permit as defined in Rule 1.1(~~5760~~), shall, prior to entry upon the prospecting lands, file with the Office a Notice of Intent to Conduct Prospecting (NOI) on a form provided by the Board. A separate prospecting notice shall be filed with the Office for each non-contiguous Land Survey Quarter Section in which a proposed prospecting activity is to occur. The requirement for separate notices may be waived by the Office for good cause.
- (2) If the Office determines that the prospecting proposed in the NOI is instead “mining,” the Office shall notify the person or organization in writing. Any appeal of this determination shall follow the procedures set forth in Rule 1.4.11.
- (3) Modifications to an existing NOI must be submitted in writing and approved in advance of such activity. Modifications shall be reviewed by the Board or Office in the same manner as new NOIs. use the same NOI form, submit the same application fee, and include confidentiality designations. Prospectors must fill out sections of the NOI form that will change and indicate the sections that will not change. Prospectors must designate each portion of the modified NOI they believe are to remain confidential. Please note that under Section 34-32-113, C.R.S., all information provided to the Board in an NOI or a modification of an NOI is a matter of public record including, in the case of a modification, the original notice of intent, unless that information relates to the mineral deposit location, size, or nature or is designated by the Prospector as proprietary or trade secrets or that would cause substantial harm to the competitive position of the Prospector. Accordingly, the Prospector must also designate the information in the original NOI that it believes is confidential if it has not already done so.

5.1.2 Application Requirements

The NOI form (Rule 5.1.1(1)) shall, at a minimum, contain the following:

- (a) date of filing of the ~~Notice of Intent~~NOI;
- (b) the name, mailing address, e-mail address, and telephone number of person or organization responsible for the prospecting (the “Prospector”);
- (c) the name, mailing address, e-mail address, and telephone number of a person to contact concerning the information in the NOI and reclamation of lands affected by prospecting;
- (d) a description of lands, including:
 - (i) the site name, if applicable;

- (ii) the location, by each quarter section, section, township and range;
- (iii) where Public Land is involved, specify the land management agency, mailing address and telephone number;
- (iv) the estimated acreage of land surface to be affected by the prospecting activities to include areas affected by access along routes for which reclamation is the responsibility of the Prospector; and
- (v) a U.S.G.S. 7.5-minute quadrangle, or similar map of adequate scale, that
 - (A) identifies the proposed prospecting site(s) or activity areas involving surface disturbance. Activity areas may include all drill holes, mud pits, excavations, trenches, adits, shafts, tunnels, rock dumps and prospecting roads; and
 - (B) includes sufficient detail to identify and locate all known prospecting features and facilities that may be affected and those that are not anticipated to be affected. This includes the location of all drill holes, mud pits, excavations, trenches, adits, shafts, tunnels, rock dumps and prospecting roads;
- (vi) provide documentation of the legal right to enter to conduct prospecting and reclamation for all Owners of Record of the surface and mineral rights of the affected land, for Owners of Record described in Rule 1.6.2(1)(e)(i). This may include a copy of a lease, deed, abstract of title, a current tax receipt, or a signed statement by the Landowner(s) and acknowledged by a Notary Public stating that the Prospector has legal right to enter to conduct prospecting and reclamation.
- (e) the approximate date of anticipated commencement and the date of completion of the above-described prospecting activity. Such activity must be completed within five (5) years of the NOI approval unless otherwise approved by the Office or Board;
- (f) a narrative description of the methods to be used to conduct the prospecting operation, including, but not limited to, the types and uses of equipment, drilling, surface blasting, road or other access route construction, excavations, and other site disturbance activities;
- (g) the measures to be taken to reclaim any affected land consistent with the applicable requirements of Rule 3.1. Such reclamation must be completed within five (5) years of the completion of prospecting activities notice provided for in Rule 5-75.3.4; and
- (h) (i) Designation of information believed by the applicant to be confidential including information relating to the mineral deposit location, size or nature, and information believed by the applicant to be proprietary or trade secret or that would cause substantial harm to the competitive position of the applicant. The applicant may designate its identity as confidential if the applicant believes that disclosing its identity would cause substantial harm to its competitive position. The requirements and provisions of Rule 1.3(4)(c) shall apply to any designation as to identity. The applicant shall distinguish in the submittal between those portions of the NOI that

are confidential because they relate to mineral deposit location, size or nature and those portions of the NOI the applicant believes are proprietary, trade secret or harmful to its competitive position. Those portions of the NOI that are not designated as confidential will be available as public record.

- (ii) The applicant must submit two (2) separate forms. One form will contain all information, including both public and confidential information (with confidential information designated as such). This complete form will be used by the Office for review and will be held confidential. The second form will contain only the information the applicant believes is public with the applicant redacting all information to be held as confidential.
- (i) The applicant must submit the NOI ~~in both paper and electronic form~~ through e-permitting or by electronic form as designated by the Office. The Office shall post on its website the NOI within five (5) ~~d~~Days of submittal except those portions of the submittal designated by the applicant as confidential.
- ~~(j) Modifications to an existing NOI must be submitted in writing and approved in advance of such activity. Modifications shall be reviewed by the Board or Office in the same manner as new NOIs, use the same NOI form, and include confidentiality designations. Prospectors must fill out sections of the NOI form that will change and indicate the sections that will not change. Prospectors must designate each portion of the modified NOI they believe are to remain confidential. Please note that under Section 34-32-113, C.R.S., all information provided to the Board in an NOI or a modification of an NOI is a matter of public record including, in the case of a modification, the original notice of intent, unless that information relates to the mineral deposit location, size, or nature or is designated by the Prospector as proprietary or trade secrets or that would cause substantial harm to the competitive position of the Prospector. Accordingly, the Prospector must also designate the information in the original NOI that it believes is confidential if it has not already done so.~~
- ~~(k)~~ Any dispute concerning whether information in a NOI is confidential or public shall be resolved by following the procedures set forth in Rule 1.3.
- ~~(l)~~ a statement that prospecting will be conducted pursuant to the terms and conditions listed on the approved NOI form.
- ~~(m)~~ Concurrent with submitting the NOI to the Office, the prospector shall send a notice to the local Boards of County Commissioners in the counties where the proposed prospecting activities occur.
 - (i) The Prospector shall ~~provide proof~~ certify that such notice was ~~submitted~~ provided. Proof of notice shall be in the form of a return receipt of a Certified Mailing, e-receipt, or a date-stamped copy of the notice acknowledging receipt by the local Board(s).
 - (ii) Such notice shall state that non-confidential information regarding the proposed prospecting activities will be available for review at the Office's website.
- ~~(m)~~ An application fee as specified in Section 34-32-127(2)(a)(I)(K).

5.1.3 Office Review

Upon receipt by the Office of a NOI to Conduct Prospecting, the Office shall timely notify the prospector, in writing or via electronic means, of receipt of the NOI. The Office shall post on its website the NOI within five (5) ~~e~~Days of submittal except those portions of the submittal designated by the applicant as confidential. Any public comment or request for disclosure of information designated as confidential filed pursuant to Rule 1.3(4)(f) regarding the NOI must be received by the Office no later than ten (10) ~~w~~Working ~~e~~Days after the notice is posted on the Office website.

- (a) Review of a NOI and associated Financial Warranty information is required by the Office within twenty (20) ~~w~~Working ~~e~~Days of receipt by the Office. If the Prospector has not been notified of any deficiencies of the NOI form, including notice of a dispute regarding confidentiality pursuant to Rule 1.3 which will be treated as a deficiency of the NOI, or Financial Warranty by the Office within twenty (20) ~~w~~Working ~~e~~Days of receipt by the Office of the NOI, prospecting operations may commence. For activities on BLM or USFS lands, the twenty (20) ~~w~~Working ~~e~~Day period begins when the Office has received notification from the appropriate federal land management agency that they have received the notice of proposed activities, or the Office has otherwise determined that the appropriate federal land management agency has received the notice.
- (b) If a challenge to confidentiality has occurred pursuant to the process set forth in Rule 1.3, and the Board has determined that certain information is public rather than confidential, upon the expiration of the thirty (30) ~~e~~Day delay period under Rule 1.3 (4)(a)(v)(b)(ii), the Office shall post the newly released information on the Office website within five (5) working days. Any public comment regarding the newly released information must be received by the Office no later than ten (10) ~~w~~Working ~~e~~Days after the new information is posted on the Office website.
- (c) If the Office has notified a Prospector within twenty (20) ~~w~~Working ~~e~~Days of receipt of a NOI that it has not been filed in accordance with Rule 5.3, has been deemed complex, or of deficiencies in the Financial Warranty, the Prospector shall address all identified deficiencies or complexities within sixty (60) ~~e~~Days of the Office notification. If the NOI deficiencies or complexities are not addressed within sixty (60) ~~e~~Days, the Office may terminate the NOI file. The Office shall notify the ~~person who submitted the NOI~~ Prospector of such termination.
- (d)
 - (I) The Office shall send notice of its decision on a NOI to the prospector and any person who filed a timely comment.
 - (II) Any prospective prospector or person who filed a timely comment and who meets the definition of party may appeal an Office determination within five (5) ~~business~~ Working ~~e~~Days from the date the Office sends notice of its decision.
 - (III) The Board shall hear any such appeal at its next regularly scheduled meeting that is at least ten (10) ~~e~~Calendar ~~e~~Days from the date of such appeal.
 - (IV) The Office's determination shall not take effect until the expiration of the five (5) ~~business-Working~~ eDays allowed for an appeal, or, in the case of an appeal, until the Board issues its decision.

5.2 CONFIDENTIALITY

5.2.1 NOI Information

- (1) For NOIs submitted or approved on or before June 2, 2008, all information provided to the Office in a NOI shall be protected as confidential information by the Board and not be a matter of public record in the absence of written release from the Prospector or upon a finding by the Board that reclamation is satisfactory, or the site has been abandoned as set forth in Rule 5.6(2). If the site is abandoned, the information in the NOI not subject to the provisions of Rule 5.2.2 may be used by the Office to ensure that the reclamation requirements of the NOI have been met. Notice of a Board determination that a prospect site under a NOI has been abandoned will be sent by certified mail to the prospector at the last known address.
- (2) For Notices of Intent to Conduct Prospecting or modifications thereof submitted or approved on or after June 2, 2008, all information in a notice of intent or modification of such notice is a matter of public record including, in the case of a modification, the original notice of intent; except that, information relating to the mineral deposit location, size or nature, and other information designated by the applicant or prospector and determined by the Board as proprietary or trade secrets or that would cause substantial harm to the competitive position of the applicant or prospector shall be protected as confidential and shall not be a matter of public record in the absence of a written release from the applicant or prospector, until a finding by the Board that reclamation is satisfactory, or until the Board releases the information pursuant to the provisions of Rule 1.3.

5.2.2 Portions of NOI File to Remain Permanently Confidential

- (1) For NOIs filed before June 2, 2008, the following drillhole information remains permanently confidential:
 - (a) all drillhole information contained within the temporary abandonment reports, required in accordance with Rule 5.4.3;
 - (b) all drillhole information contained in the final reports in accordance with Rule 5.7(1);
 - (c) all drillhole information contained in the annual reports in accordance with Rule 5.6; and
 - (d) all drillhole information contained in inspection reports.
- (2) For NOIs or modifications thereof filed on or after June 2, 2008, the information described in this Rule 5.2.2, including in the case of a modification, the information in the original NOI, shall be publicly available unless designated by the prospector as confidential. The provisions of Rule 1.3 shall apply for a requested Board determination as to whether information designated by the prospector as confidential should remain confidential.

5.3 TERMS AND CONDITIONS FOR PROSPECTING

5.3.1 Protection of Surface Areas

Prospecting will be conducted in such a manner as to minimize surface disturbances and protect public health, safety, and the environment. The Prospector shall:

- (a) address the standards required in Rule 5;
- (b) address all relevant reclamation performance standards of Rule 3.1;
- (c) confine prospecting to areas near existing roads or trails where practicable. Any new road used for prospecting, or any existing road which is significantly upgraded must be included as part of the affected acreage. A road is significantly upgraded if it is significantly widened, or the route or gradient are significantly altered;
- (d) conduct drilling in such a way as to prevent cuttings and fluids from entering any drainage way;
- (e) timely abandon drill holes upon completion as required by Rule 5.4;
- (f) safeguard mine entries, mud pits, trenches, and excavations from unauthorized entry at all times as necessary to provide for public safety;
- (g) timely reclaim affected lands upon completion of prospecting operations or phases of the prospecting operation. Prospecting activities must be completed within five (5) years of the NOI approval unless otherwise approved by the Office or Board, and reclamation must be completed within five (5) years of the completion of prospecting activities; and
- (h) backfill and revegetate trenches and other excavations upon completion of the prospecting activities.

5.3.2 Protection of Wildlife

Prospecting shall be conducted to minimize adverse effects on wildlife, including, where appropriate but not limited to, escape ways, fencing, or other acceptable wildlife barriers.

5.3.3 Financial Warranty

- (1) Upon filing the NOI, the Prospector shall provide Financial Warranty in the amount of two thousand dollars (\$2,000.00) per acre of the land to be disturbed, or such other amount as determined by the Office, based on the projected costs of reclamation, taking into account the nature, extent, and duration of the prospecting operation and the magnitude, type and estimated cost of the planned reclamation.
- (2) A Prospector may submit statewide Financial Warranties for prospecting if Financial Warranties are in an amount fixed by the Office, based on the projected costs of reclamation, and such Prospector otherwise complies with the provisions of this Rule for

every area to be prospected. (Further information on Performance and Financial Warranty procedures may be found in Rule 4.)

- (3) The Board or Office shall take reasonable measures to ensure the continued adequacy of any Financial Warranty.

5.3.4 Notice of Completion of Prospecting Prior to Initiating Reclamation

(1) Upon completion of the prospecting or the establishment of monitoring wells, the Prospector shall submit to the Office a Notice of Completion of Prospecting Operations ("Notice of Completion"). Such notice shall be sent via electronic submission or certified mail separate from all other correspondence.

(2) Within ninety (90) Days after the submittal of the Notice of Completion the Office shall notify the Prospector of the steps necessary to reclaim the land. (In most cases, this will simply involve a conference to discuss the Reclamation Plans outlined in the NOI that was previously submitted by that Prospector.)

5.3.5 Post-Reclamation – Inspection and Release of Warranties

(1) The Office shall inspect the lands prospected within thirty (30) ~~e~~Days, or as soon thereafter as weather conditions permit, after the ~~person prospecting the lands~~ Prospector submits a Reclamation Report and requests a reclamation responsibility release that meets the requirements of Rule 4.16.1(2), including permanent abandonment of all prospecting drill holes as required by Rule 5.4.2 or 5.4.5. If the Office finds the reclamation satisfactory, the Office shall release the applicable Financial Warranty.

(2) The Financial Warranty shall not be held for more than thirty (30) ~~e~~Days after the date the Office determines that reclamation has been completed satisfactorily (including permanent abandonment of all prospecting drill holes).

5.3.6 Compliance with State and Federal Laws

All Prospecting shall be conducted in such a manner as to comply with all applicable local, state and federal laws, including but not limited to air and water quality laws and regulations, the Act, and these Rules and Regulations.

5.4 ABANDONMENT OF PROSPECTING DRILL HOLES

5.4.1 General Provisions

(1) ~~Without regard to the one thousand six hundred (1,600) square foot limitation in Section 34-32-103(12), all~~All prospecting drill holes shall be permanently plugged, sealed or capped pursuant to the requirements of these Rules immediately following the drilling of the hole and the collection of drill hole information; unless provision is made to temporarily abandon the hole, pursuant to Rule 5.4.3, to maintain the hole for purposes of monitoring pursuant to Rule 5.4.4, or to convert the hole to a water well pursuant to Rule 5.4.5.

- (2) This Rule shall not apply to holes drilled within the affected area in conjunction with a mining operation for which the Board or Office has issued a permit, nor to wells or holes drilled for the purposes of coal exploration, exploration or removal of oil and gas, nor to geothermal wells or water wells, nor to holes drilled from within underground mine workings. For purposes of this Rule, "permanent abandonment" of a prospecting drill hole shall be defined as abandonment in conformance with the requirements of Rules 5.4.2 or 5.4.5, or inclusion within the permit boundary of a mining operation for which the Board or Office has issued a Permit.
- (3) Permanent abandonment shall be attested by the submission of a final report, as described in Rule 5.7.

5.4.2 Permanent Abandonment of Prospecting Drill Holes

- (1) Any drill hole which evidences artesian flow of groundwater to the surface shall be plugged with neat cement grout, or a similar material sufficient to prevent such artesian flow, as approved by the Office. The Prospector shall exercise care in evaluating the existence of artesian flow in fluid, cuttings, rock flour, or mud drilled holes, in which artesian flow may be temporarily inhibited by the presence of the drilling fluid or mud.
- (2) Any drill hole which encounters an aquifer in consolidated rock formations, shall be sealed, utilizing a high quality sodium bentonite type gel, specifically developed for use as an abandonment fluid, or an equivalent material or technique as approved by the Office.
- (3) Any drill hole limited to unconsolidated material and penetrating less than ten (10) feet into bedrock, shall be backfilled with materials removed from the drill hole, or an equivalent material or technique as approved by the Office. If the materials removed from the hole during drilling are inadequate to backfill the drill hole, materials representative of the undisturbed unconsolidated materials shall be backfilled into the drill hole.
- (4) Any drill hole that penetrates saturated unconsolidated materials and continues more than ten (10) feet into bedrock shall be abandoned in a manner sufficient to prevent inter mixture of aquifers.
- (5) Any drill hole that penetrates unsaturated unconsolidated materials and continues deeper than ten (10) feet into bedrock, but does not encounter an aquifer, shall be securely capped, as approved by the Office.
- (6) The Prospector shall submit to the Office a copy of the final report required under Rule 5.7.

5.4.3 Temporary Abandonment of Prospecting Drill Holes

A prospecting drill hole may be temporarily abandoned without being permanently plugged or sealed. However, no drill hole which is to be temporarily abandoned without being plugged or sealed shall be left in such a condition as to allow fluid communication between aquifers, consistent with the Rules and Regulations for Water Well Construction, Pump Installation, and Monitoring and Observation Hole/Well Construction ("Water Well Construction Rules"), 2 CCR 402-2, and

specifically Rules 10.1 and 10.4.5 of the Water Well Construction Rules, and their applicable ~~subparagraphs-subsection~~ therein. Such temporarily abandoned drilled holes shall be securely capped in a manner ~~that-which~~ prevents unauthorized entry and injury to persons and animals. (Copies of the above-referenced Rules may be reviewed at the Division of Water Resources.)

5.4.4 Establishment of or Conversions to a Monitoring Well

A prospecting drill hole may be established as or converted to a monitoring well for the purpose of groundwater or geophysical monitoring, if the Prospector ~~conducting the prospecting~~:

- (a) has obtained the necessary permit from the State Engineer (Division of Water Resources);
- (b) cases and seals the drill hole in accordance with the requirements of the Water Well Construction;
- (c) caps the drill hole to prevent unauthorized entry and injury to persons and animals; and
- (d) submits to the Office a copy of the "Well Construction and Test Report" submitted to the Division of Water Resources describing the method and materials used in casing and sealing the drill hole to prevent commingling of aquifer waters.

(e) If the monitoring well was constructed for the purpose of hydrological investigations to acquire baseline monitoring data for a future mine reclamation permit and will remain as a part of the permit's monitoring program, the monitoring well and associated reclamation liability shall be included in the affected lands and reclamation plan of such permit. When a permit is not issued within the timeframes of the prospecting activities of Rule 5.3.1(g), the Prospector shall proceed with abandonment in conformance with the requirements of Rules 5.4.2 unless the monitoring well is converted to a water well under Rule 5.4.5.

5.4.5 Use as, or Conversion to, a Water Well

- (1) If any prospecting drill hole or monitoring well will ultimately be used as, or converted to, a water well:
 - (a) the user of the water well must have obtained an approved well permit from the Colorado Division of Water Resources, in accordance with Articles 90, 91 and 92 of Title 37, C.R.S., prior to drilling and construction of the well; and
 - (b) the Prospector shall submit to the Office the permanent abandonment report required by Rule 5.7 with an attached copy of the completely executed "Well Construction and Test Report," submitted to the Colorado Division of Water Resources as required by the Board of Examiners of the Water Well Construction and Pump Installation Contractors.
 - (i) The Prospector need not complete those portions of the permanent abandonment report ~~duplicating which duplicate~~ information contained on the "Well Construction and Test Report."

- (2) The user of the water well may assume the Prospector's responsibility for maintenance of the temporary abandonment and completion of the permanent abandonment of a prospecting drill hole or monitoring well proposed to be converted to a water well, if the following requirements are satisfied:
- (a) the user of the water well submits a copy of the completely executed well permit to the Mined Land Reclamation Office; and
 - (b) the user of the water well and the Prospector submit a completely executed "Request for Transfer of Responsibility for Abandonment of a Exploration Drill Hole Converted to a Water Well" to the Office.

5.5 SURFACE RECLAMATION

5.5.1 General Requirements

All lands affected by drilling must be reclaimed to a condition appropriate for the land use existing prior to prospecting, or other beneficial use, upon completion of prospecting.

5.5.2 Specific Requirements

Reclamation shall be completed consistent with all applicable requirements of Rule 3.1 and the following:

- (a) trash must be removed from the site;
- (b) vegetation cleared from the site must be properly disposed of or dispersed;
- (c) drill cuttings must be spread to a depth no greater than one half (1/2) inch or buried in an approved disposal pit;
- (d) mud pits, excavations, trenches, or other disturbance shall be backfilled and graded to blend with the surrounding land surface;
- (e) if vegetative cover was destroyed, an appropriate seed mix shall be used in the first normal period favorable for planting;
- (f) if necessary to assure successful revegetation, the drill site area shall be scarified, mulched and the seed covered;
- (g) noxious weeds shall be controlled within the area affected by the ~~p~~Prospector; and
- (h) existing roads which are to remain as permanent roads after prospecting activities are completed, shall be left in a condition equal to or better than the pre-prospecting condition.

5.6 ANNUAL REPORT

- (1) An annual report must be submitted by the anniversary date of the ~~Notice of Intent (NOI)~~ approval for each year until a reclamation responsibility release is granted. The Annual Report shall include all information specified on the Annual Report Form, in the format required by the Office, and specifically:
 - (a) the ~~p~~P prospector and contact person's name, address, e-mail, and telephone number, as set forth in Rules 5.1.2(b) and (c);
 - (b) the name, address and telephone number of the surface landowner where prospecting has occurred;
 - (c) a description of the prospecting activity that has occurred during the preceding year, to include the location of new surface drill holes, mud pits, excavations, rock dumps, adits, shafts, trenches, pits, roads and structures;
 - (i) if applicable, a description of the manner in which shafts, adits and other mine openings are safeguarded from unauthorized entry both during and after prospecting;
 - (d) a description of reclamation that has occurred during the year and during the preceding years;
 - (e) the date that the prospecting activity has ended or will end;
 - (f) an updated map showing the location of all holes drilled, mine openings, any roads constructed, areas disturbed and areas reclaimed to date, including identification of disturbance and reclamation activities which have occurred in the preceding year. Prospecting disturbance and reclamation must be identified on a site map of adequate scale to field locate these areas, which may include;
 - (i) coordinates reported in latitude and longitude in degrees, minutes and seconds or in decimal degrees to an accuracy of at least five (5) decimal places (e.g., latitude 37.12345 N, longitude 104.45678 W); or
 - (ii) coordinates based on the Universal Transverse Mercator (UTM) North American Datum (NAD). For UTM, the Prospector will need to specify NAD 1927, NAD 1983 or WGS 84, and the applicable zone, measured in meters.
 - (g) documentation, in a manner acceptable to the Office, showing that the Financial Warranty remains in place and is adequate to fully reclaim the approved prospecting site disturbance.
 - (h) signature(s) and signature date(s), or other certification as designated and approved by the Office, of the ~~person or organization responsible for prospecting~~ Prospector, as set forth in Rule 5.1.2(b), attesting to the accuracy of the information contained therein.

- (2) Failure to submit an annual report for two (2) consecutive years shall constitute evidence of abandonment of the prospecting activities. The Office may issue a letter stating its reason(s) to believe a site has been abandoned where the annual report has not been received within sixty (60) ~~d~~Days following the due date of the second annual report. Any appeal of this determination shall follow the procedures set forth in Rule 1.4.11.
- (3) Annual reports filed before June 2, 2008, shall be confidential. Annual reports filed on or after June 2, 2008, shall be a matter of public record unless designated by the prospector as confidential pursuant to the provisions of Rule 1.3. The provisions of Rule 1.3 shall apply to a request for a Board determination as to whether information designated by the prospector as confidential should remain confidential.
- (4) On the anniversary date of the Notice of Intent approval, the Prospector shall submit to the Office an annual fee as specified in Section 34-32-127(2)(a)(IV)(G), C.R.S.

5.7 FINAL DRILL HOLE ABANDONMENT REPORT

- (1) No later than sixty (60) ~~d~~Days after the completion of the abandonment of any drill hole which has artesian flow at the surface, or no later than twelve (12) months after the completion of the abandonment of any other drill holes, the Prospector shall submit to the Office a final drill hole abandonment report containing:
 - (a) the date of completion of ~~prospecting activity~~abandonment of any drill hole;
 - (b) the location of prospecting disturbance and reclamation at a scale adequate to accurately field locate these areas, as provided for in Rule 5.6(f);
 - (c) for holes having artesian flow at the surface, the estimated rate of flow (if such is known); and
 - (d) a description of the plugging, sealing, and capping techniques used, including the following information when applicable:
 - (i) When mud is used for abandonment, the description shall include the viscosity (marsh funnel viscosity) of the mud when the drill hole reached bottom, the trade name of the abandonment mud utilized, and the final viscosity (marsh funnel viscosity) of the abandonment mixture; or
 - (ii) When cement is used to abandon the drill hole, the description shall include a description of the cement grout mixture utilized to seal and plug the hole.
- (2) In the case of closely spaced drill holes having similar geologic and hydrologic characteristics, the Prospector may, with the approval of the Office, submit a single consolidated final report including the locations of all drill holes, and the abandonment technique.

- (3) As to final reports filed before June 2, 2008, the final report and all information contained therein shall be confidential in nature and shall not be matter of public record. As to final reports filed on or after June 2, 2008, the final report and all information contained therein shall be a matter of public record unless designated by the prospector as confidential pursuant to the provisions of Rule 1.3. The provisions of Rule 1.3 shall apply to a request for a Board determination as to whether information designated by the prospector as confidential should remain confidential.
- (4) The final report shall be signed, or other certification as designated and approved by the Office, by the Prospector or the ~~p~~PProspector's authorized contact, as set forth in Rule 5.1.2(c), attesting to the accuracy of the information contained therein.

5.8 NO WAIVER OF ADMINISTRATIVE REQUIREMENTS

The Director of the Office may not waive any of the administrative reporting provisions of this Rule 5.

RULE 6: PERMIT APPLICATION EXHIBIT REQUIREMENTS

6.1 REQUIREMENTS FOR SPECIFIC OPERATIONS

6.1.1 General Provisions

This Rule provides for the specification of Exhibits required to be submitted along with each type of Permit application.

6.1.2 110 or Non-In Situ Leach Mining 110d Limited Impact and 112, 112d, 110 ISL or 112 ISL Reclamation Operations and 110r Reclamation-Only Operations

These operations shall provide all the Exhibits, as described in Rules 6.3, ~~and~~ 6.4, and 6.6, as applicable to the operation type. However, such operations may also be required to comply with Rules 6.5 (Geotechnical Stability Exhibit) and 7.3 (Environmental Protection Facilities - Design and Construction Requirements) on a case-by-case basis. Where such compliance may be required, such operations shall not be Designated Mining Operations nor be required to submit an Environmental Protection Plan, however, the provisions of Rules 6.5 and 7.3, required to be submitted, shall be incorporated into the operation's Permit as enforceable Permit conditions.

6.1.3 Reserved

6.1.4 Requirements for All Designated Mining Operations and Requirements for All In Situ Leach Mining Operations

In addition to all other required Exhibits, as described in Rules 6.3 and 6.4, all Designated Mining Operations shall also provide an Exhibit U - Environmental Protection Plan pursuant to Rule 6.4.21. Exhibit U may be modified as provided in Rule 7.2.5. Also, in addition to the Exhibits described in Rules 6.3, 6.4 and 6.4.21, all In Situ Leach Mining Operations shall also provide the Exhibits in Rules 6.4.22, 6.4.23, 6.4.24 and 6.4.25.

6.2 GENERAL REQUIREMENTS OF EXHIBITS

6.2.1 General Requirements

- (1) This Rule provides for the guidelines for, and information requirements of, each Exhibit required to be submitted with the permit application, as specified according to Rule 6.1.
- (2) Maps and Exhibits
Maps, except the index map, must conform to the following criteria:
 - (a) show name of Applicant and the operation name;
 - (b) must be prepared and signed by a registered land surveyor, professional engineer, or other qualified person;

- (c) give date prepared;
- (d) identify and outline the area ~~that~~ which corresponds with the application;
- (e) with the exception of the map of the affected lands required in Section 34-32-112(3)(e), C.R.S. 1984, as amended, shall be prepared at a scale that is appropriate to clearly show all elements that are required to be delineated by the Act and these Rules. The acceptable range of map scales shall not be larger than 1 inch = 50 feet nor smaller than 1 inch = 660 feet.; and
- (f) ~~Also, that~~ include a map scale, appropriate legend, map title, ~~date~~ and a north arrow ~~shall be included~~.

6.3 SPECIFIC PERMIT APPLICATION EXHIBIT REQUIREMENTS – 110(1), 110(2), AND NON IN SITU LEACH MINING OPERATIONS 110d LIMITED IMPACT OPERATIONS

- (a) The following exhibits may be required for 110(1) Limited Impact Permits based on consideration of site-specific conditions.
- (b) The following exhibits shall be required for 110(2) and Non In Situ Leach Mining 110d Limited Impact Operations; 110 in situ leach mining permit applications shall comply with 112d permit applications including complying with the requirements of Rule 6.4. If an in situ leach mining operation has been exempted from designated mining operation status, it still must comply with all exhibits required for in situ leach mining operations.

6.3.1 EXHIBIT A – Legal Description and Location Map

- (1) The legal description must identify the affected land, specify affected areas and be adequate to field locate the property. Description shall be by (A) township, range, and section, to at least the nearest quarter ~~–~~ quarter section, and (B), location of the main entrance to the mine site reported as latitude and longitude, or the Universal Transverse Mercator (UTM) Grid as determined from a USGS topographic map. A metes and bounds survey description is acceptable in lieu of Township, Range, and Section. Where available, the street address or lot number(s) shall be given. This information may be available from the County Assessor's office or U.S. Geological Survey (USGS) maps.
- (2) The main entrance to the mine site shall be located based on a USGS topographic map showing latitude and longitude or Universal Transverse Mercator (UTM). The operator will need to specify coordinates of latitude and longitude in degrees, minutes and seconds or in decimal degrees to an accuracy of at least five (5) decimal places (e.g., latitude 37.12345 N, longitude 104.45678 W). For UTM, the operator will need to specify North American Datum (NAD) 1927, NAD 1983, or WGS 84, and the applicable zone, measured in meters.
- (3) A map showing information sufficient to determine the location of the affected land on the ground and existing and proposed roads or access routes to be used in connection with the mining operation. Names of all immediately adjacent surface owners of record shall also be shown. A standard U.S. Geological Survey topographic quadrangle or equivalent

is acceptable. The location of the proposed operation shall be shown and labeled with the mine site name.

6.3.2 EXHIBIT B – Site Description

Items (a)-(c) below must be addressed to the extent necessary to demonstrate compliance with the applicable performance standard requirements of Rule 3. At a minimum, the Operator/Applicant shall include the following information:

- (a) a description of the vegetation and soil characteristics in the area of the proposed operation. The local office of the Natural Resources Conservation Service (NRCS) may provide ~~you with~~ this information as well as recommendations for Exhibit D - Reclamation Plan;
- (b) identify any permanent man-made structures within two hundred (200) feet of the affected area and the owner of each structure. Each structure should be located on Exhibit E - Map;
- (c) a description of the water resources in the area of the proposed operation. Identify any streams, springs, lakes, stock water ponds, ditches, reservoirs, and aquifers that would receive drainage directly from the affected area. Provide any information available from publications or monitoring data on flow rates, water table elevations and water quality conditions; and
- (d) a wildlife statement prepared by Colorado Parks and Wildlife (CPW) is not required for 110 Limited Impact Operations. However, such a statement is required for 110d Limited Impact Operations. The Operator/Applicant may contact the local CPW representative to verify that no critical or important wildlife habitats or wildlife species will be impacted by the proposed operation.

6.3.3 EXHIBIT C – Mining Plan

- (1) The purpose of the mining plan is to describe how mining will affect the permit area for the duration of the operation. This plan must be correlated to Exhibit E - Map. The description of the mining plan must be adequate to satisfy the requirements of Rule 3.1 and demonstrate compliance with Rule 3. At a minimum, the Operator/Applicant must include the following information:
 - (a) specify the estimated dates that mining will commence and end. If the operation is intended to be an intermittent operation as defined in C.R.S. 34-32-103(6)(a)(II), the Applicant should include in this exhibit a statement that conforms to the provisions of Section 34-32-103(6)(a)(II), C.R.S.;
 - (b) the estimated depth to which soil, suitable as a plant growth medium, will be salvaged for use in the reclamation process. This description must be consistent with information provided in Exhibit B. Sufficient soil must be salvaged to meet the vegetation establishment criteria of Rule 3.1.10. If plant growth medium is not reapplied on a graded area within the same growing season, not to exceed 180 days, immediately after salvage, then the Operator/Applicant must specify how the topsoil will be stockpiled and stabilized with a vegetative cover or other means until used in reclamation. Plant growth medium stockpiles must be located separate from other stockpiles, out of the way of mine traffic and out of

stream channels or drainage ways. The location of plant growth medium stockpiles must be shown on Exhibit E - Map;

- (c) specify the thickness of overburden or quantity of waste rock, if any, to be removed to reach the deposit. The location of any overburden stockpiles or waste rock fills must be shown on Exhibit E- Map;
- (d) specify the thickness of the deposit to be mined;
- (e) describe the major components of the mining operation such as: roads and access routes, pit, office, shop/maintenance buildings, plant, processing facilities, and any underground workings and openings such as adits or ventilation facilities. These components must be located on Exhibit E- Map;
- (f) specify the dimensions of any significant disturbances to the land surface such as pit excavations, mine benches, impoundments, stockpiles, waste rock disposal areas, etc. In addition, provide the maximum anticipated highwall height, length, and slope;
- (g) specify the dimensions of any existing or proposed roads that will be used for the mining operation. Describe any improvements necessary on existing roads and the specifications to be used in the construction of new roads. New or improved roads must be included as part of the affected lands and permitted acreage. Affected land shall not include off-site roads which existed prior to the date on which notice was given or permit application was made to the office and which were constructed for purposes unrelated to the proposed mining operation and which will not be substantially upgraded to support the mining operation. Describe any associated drainage and runoff conveyance structures ~~to~~ and include sufficient information to evaluate structure sizing;
- (h) specify how much water will be used in conjunction with the operation, and the source of this water;
- (i) if groundwater will be encountered and/or surface water intercepted or disturbed, describe how mining will affect the quantity and quality of the surface or groundwater and the methods to be used to minimize disturbance to the surface and groundwater systems including proposed dewatering, sediment-containment or chemical treatment systems, storm water runoff controls, and groundwater points of compliance;
- (j) specify how ~~you~~ the Operator/Applicant will comply with applicable Colorado water laws and regulations governing injury to existing water rights;
- (k) regardless of DMO status, if refuse ~~and acid or toxic producing or toxic or acid-forming~~ materials are exposed during mining, describe how they shall be handled and disposed of in a manner that will control unsightliness and protect the drainage system from pollution;
- (l) describe what measures will be taken to minimize disturbance to the hydrologic balance, prevent off-site damage, and provide for a stable configuration of the reclaimed area consistent with the proposed future land use; ~~and~~
- (m) specify whether the deposit/ore will be processed on ~~the~~ site. Processing includes but not limited to crushing, screening, washing, concrete or asphalt mixing, leaching or milling. If the deposit/ore will be processed, then describe the nature of the process, facilities and chemicals utilized. The process area and any

structures must be described on Exhibit E - Map~~;~~

- (n) identify the primary, and if applicable, secondary and incidental commodities to be mined/extracted by the proposed operation; ~~and if not to be used as construction material; and~~ describe the intended use~~;~~
- (o) ~~s~~Specify if explosives will be used in conjunction with the mining or reclamation operation. In consultation with the Office the Applicant must demonstrate, pursuant to Rule 6.5(4), ~~under the~~ Geotechnical Stability Exhibit, that off-site areas will not be adversely affected by blasting during mining or reclamation operations~~;~~ ~~and~~
- ~~(p) state whether petroleum products will be stored on-site, provide the maximum quantities stored on-site at any one time, and specify the size and material of the storage container(s) and associated secondary containment structure(s) if applicable; if the operation has created a Spill Prevention Control and Countermeasure Plan (SPCC Plan) under the federal Clean Water Act and Colorado Water Quality Act, that plan shall be referenced with a brief description of how it minimizes disturbance to the hydrologic balance from the presence of petroleum products stored on-site; if the operation does not have a SPCC Plan, state what measures will be taken to minimize disturbance to the hydrologic balance from the storage of petroleum products.~~

- (2) If tailing ponds are part of the milling process, the mine plan description should address the following:
 - (a) Plant Facilities: Describe the chemical types and quantities to be utilized, chemical storage and spill containment and emergency response plans for on-site spills. Plant operation details should include tank capacities and operating solution volumes.
 - (b) Tailings: Describe the geochemical constituents of the tailing or leached ore, the chemistry of any leachate, anticipated impacts to ground or surface waters and design details such as liners, ponds and embankments, diversions or chemical treatment facilities to be used to control these impacts, and ground and surface water monitoring systems, to include proposed groundwater points of compliance.
 - (c) Drainage Control: Describe the measures used to divert upland drainage away from the site both during and after operation. This must include design details demonstrating the capacity of ditches and impoundment structures to contain operating solutions and the volume of water generated by a one hundred (100) year 24-hour rainfall event.
 - (d) Maps and Plans: Design drawings must be prepared by a professional engineer or other qualified person, and at a minimum meet the requirements of Rule 7.3. In addition, maps and plans should describe specific design details for tailing ponds and embankments, ponds and ditches, ore and tail transport systems, and ground and surface water monitoring systems.

6.3.4 EXHIBIT D – Reclamation Plan

- (1) The purpose of the Reclamation Plan is to describe the timing, procedures, criteria and materials that will be used to reclaim the affected land to the proposed future land use. This plan must be correlated to Exhibit E - Map. The description of the Reclamation Plan must

be adequate to satisfy the requirements of Rule 3.1 and demonstrate compliance with Rule 3. At a minimum, the Application shall include the following information:

- (a) specify at what point in the mining plan and to what depth(s) overburden will be replaced in relation to ongoing extraction.
- (b) specify the maximum gradient of reclaimed slopes (horizontal: vertical). If the Application proposes slopes steeper than 3:1, the Operator/Applicant must include a justification that supports steeper slopes for the proposed post mining land use, and demonstrates compliance with the applicable performance standards of Rule 3.1.
- (c) specify the measures that will be taken to revegetate the site, if applicable, including:
 - (i) state the thickness of plant growth medium to be replaced. Sample and analyze available soils sufficiently to establish quantity and quality;
 - (ii) state at what point in the mining plan the site will be seeded. Explain how the seedbed will be prepared to eliminate compacted conditions (e.g., plowed, chiseled, disced). State the type, application rate, and soil incorporation methods of fertilizer application, if any. NOTE: Soil amendments shall only be applied where soil tests indicate nutrient deficiencies for the plant species to be established;
 - (iii) state the grass, forb, shrub and tree species to be planted and the applicable quantities. Specify the quantity of each grass and forb species as pounds of pure live seed per acre;
 - (iv) specify the application method for grass and forb seeding. If the seed is to be broadcast, either provide the broadcast application rate or the application rate shall be twice the rate required for seed drilling. If the seedbed has not been adequately roughened prior to seeding, the seed shall ~~be raked or harrowed after broadcast application~~ incorporated into the seedbed by raking, harrowing or by other means of stabilization such as hydromulching;
 - (v) state what type of mulch to be used, the application rate per acre, and the crimping method if applicable, or provide a technical justification for when mulch will not be used (i.e., the use of other soil stabilizing practices, planting a sterile cover crop, site-specific limitations, etc.)if a mulch is needed, specify the kind to be used, the crimping method, and rate of application; and
 - (vi) explain the establishment methods for each species of shrub and/or tree, and state the number of each to be established per acre.
- (d) Specify which ponds, streams, roads and buildings, if any, will remain after reclamation. These features must be shown on the Exhibit E - Map. If ponds are

part of the Reclamation Plan, slopes from five (5) vertical feet above to ten (10) vertical feet below the expected average water level cannot be steeper than 3H:1V; remaining slope lengths may not be steeper than 2H:1V. Where wildlife habitat is the proposed future land use, shorelines should be irregularly shaped to promote a diverse wildlife habitat. Colorado Parks and Wildlife (CPW) must be consulted where wildlife ~~use-habitat~~ is the proposed future land use.

- (e) Specify the reclamation treatment of any waste rock dumps, tailing impoundments, underground mine openings, ditches, sediment control facilities, buildings and other features specified in ~~your-the~~ mine plan but not previously addressed in the Reclamation Plan narrative. These features must be shown on Exhibit E - Map. This should describe the measures taken to minimize disturbance to the hydrologic balance, prevent off-site damage, and provide for a stable configuration consistent with the proposed future land use.
 - (f) Demonstrate a reasonably foreseeable end date respecting water quality treatment as required in Rule 3.1.6(1)(f)-(h).
- (2) All 110 or Non In Situ Leach Mining 110d Limited Impact applications must provide an estimate of the actual costs to reclaim the site based on what it would cost the State of Colorado using an independent contractor to complete reclamation. ~~(Such estimates are not required for activities contemplated by the operator and approved by the Office to be outside the scope of the proposed reclamation plan.)~~ The unit costs should include estimates for the following activities as appropriate to the operation: backfilling, grading, topsoil application, seeding, mulching, fertilization, and labor to complete reclamation. Determine and specify the point during the operation when the site has reached a point of maximum disturbance. The cost to reclaim the site to the specifications of the Reclamation Plan at this point must be estimated. Unit costs (cost per cubic yard), volumes, haul or push distances, and grades must be included when backfilling and grading are part of the Reclamation Plan. Volume and unit costs for finish grading, subsoil and topsoil application must be provided in terms of cost per cubic yard. The estimated cost for fertilizer, seed and mulch acquisition and application must be provided as cost per acre.
- (a) Equipment costs must include such factors as equipment operator wages and benefits, fuel and lubricant consumption and depreciation. The cost to mobilize and demobilize the equipment from the nearest population center known to have the required equipment availability should be estimated.
 - (b) All items referenced in the Reclamation Plan must be included in the cost calculation. These items in addition to earthwork, such as building demolition, fencing, monitoring well sealing or stream channel reconstruction must also be included in the reclamation cost estimate.
 - (c) After the direct costs noted above have been estimated, the Office may add up to an additional maximum ~~eighteen-twenty~~ and one-half percent (~~18.520.5%~~) of that total, which includes private contract, typical overhead costs, and a standard contingency. This additional cost is required to cover indirect costs that an independent contractor would incur when performing reclamation of the site. Based on site-specific conditions and for good cause shown by the Office, the

percentage of indirect costs may be adjusted above the rate identified above. Five percent (5%) additional cost shall also be added to cover Office administration cost in the event of bond forfeiture and permit revocation.

6.3.5 EXHIBIT E – Maps

- (1) ~~In addition to the requirements of Rule 6.2.1(2), the~~ The Operator/Applicant must provide ~~a maps which meet the requirements of Rule 6.2.1(2)~~ that clearly describes the features associated with the mining plan and the components of the Reclamation Plan. Include at least one (1) map for the mine plan and one (1) map for the Reclamation Plan. ~~The map(s) must be drawn to a scale no smaller than appropriate to clearly show all elements that are required to be delineated by the Act and these Rules; show a north arrow, note any section corners adjacent to the proposed operation, and indicate the date illustrated.~~ At a minimum, maps must include the following information:
 - (2) Mining Plan Map
 - (a) outline and label the permit boundaries, described in Exhibit A - Legal Description, and provide latitude and longitude for each boundary corner as labels on the map or as a separate table; if available, the Operator/Applicant may also provide a digital file type, as determined by the Office, of the permit boundaries; for all 110 and Non In Situ Leach Mining 110d Limited Impact Operations, the Office considers the area bounded by the permit boundary to be analogous to the affected area;
 - (b) label the names of owner(s) of record of the surface of the affected area and of the land within two hundred (200) feet of the affected area, identify the owner of the substance to be mined, ~~and the type of structure and owners of record of any permanent or man-made structures within two hundred (200) feet of the affected area;~~
 - (c) outline and label all major surface features to be used in connection with the proposed operation such as: existing and proposed roads, pit boundary, topsoil stockpiles, overburden stockpiles, product stockpiles, waste rock fills, stream channels, buildings, processing plant, underground workings and openings such as adits or ventilation facilities, ponds, impoundments, dewatering pumps, diversions, tail tailings or waste disposal areas;
 - (d) indicate the direction that mineral extraction will proceed;
 - (e) Show the owner's name, type of structures, and location of all significant, valuable, and permanent man-made structures contained on the area of affected land and within two hundred (200) feet of the affected land. ~~note the location of any significant, valuable, and permanent man-made structures within two hundred (200) feet of the affected area.~~ A narrative description must also be provided in Exhibit-B - Site Description; and
 - (f) outline and label existing disturbance within and/or adjacent to the permit boundary (e.g., previously mined areas, roads or excavations resulting from utility

construction). Re-disturbance of previously disturbed areas, by the proposed mining operation, must be included in the permit area and addressed in Exhibit–D - Reclamation Plan.

(3) Reclamation Plan Map

- (a) show the gradient of all reclaimed slopes (horizontal: vertical) sufficient to describe the post mine topography;
- (b) indicate where vegetation will and will not be established and the general area(s) for shrub or tree planting; and
- (c) if ponds are a part of the Reclamation Plan, outline the final shore configuration of the ponds and identify shallow areas if the future land use is for wildlife;
- ~~(d) state the average thickness of replaced overburden by reclamation area or phase; and~~
- ~~(e) state the average thickness of replaced topsoil by reclamation area or phase.~~

6.3.6 EXHIBIT F – List of Other Permits and Licenses Required

Provide a statement identifying which of the following permits, licenses and approvals the Operator/Applicant holds which are held or will be sought in order to conduct the proposed mining and reclamation operations: effluent discharge permits, air quality emissions permits, radioactive source materials licenses, ~~disposal of~~ dredge and fill ~~material (404)~~ permits, permit to construct a dam, well permits, explosives permits, State Historic Preservation Office clearance, highway access permits, U.S. Forest Service permits, Bureau of Land Management permits, county zoning and land use permits, and city zoning and land use permits.

6.3.7 EXHIBIT G – Source of Legal Right to Enter

Provide documentation of the legal right to enter to conduct mining and reclamation for all Owners of Record of the surface of the affected land and the mineral rights of the substance to be mined ~~Owners of Record described in Rule 1.6.2(1)(e)(i)~~. This may include a copy of a lease, deed, abstract of title, a current tax receipt, or a signed statement by the Landowner(s) and acknowledged by a Notary Public stating that the Operator/Applicant has legal right to enter to conduct mining and reclamation.

6.3.8 EXHIBIT H – Municipalities within a Two-m-Mile Radius

List the mailing address and telephone number of the governing body for all municipalities within a two (2) mile radius of the proposed mining operation.

6.3.9 EXHIBIT I – Proof of Filing with County Clerk

An affidavit or e-receipt indicating the date on which the application was placed with the local County Clerk and Recorder for public review, pursuant to Rule 1.6.2(1)(c).

6.3.10 EXHIBIT J – Proof of Mailing of Notices to Board of County Commissioners and Conservation District

Proof that notice of the permit application was sent to the Board of County Commissioners and, if the mining operation is within the boundaries of a Conservation District, to the Board of Supervisors of the local Conservation District, pursuant to Rule 1.6.2(1)(a)(ii).

6.3.11 EXHIBIT K – Reserved

6.3.12 EXHIBIT L – Permanent Man-Made Structures

(1) Provide a list of the owner's name and type of structure for of all significant, valuable, and permanent man-made structures contained on the area of affected land and within two hundred (200) feet of the affected land.

(2) Where the affected lands are within two hundred (200) feet of any significant, valuable and permanent man-made structure, the applicant shall:

- (a) provide a notarized or other legally accepted agreement between the aApplicant and the person(s) having an interest in the structure, that the aApplicant is to provide compensation for any damage to the structure; or
- (b) where such an agreement cannot be reached, the aApplicant shall provide an appropriate engineering evaluation that demonstrates that such structure shall not be damaged by activities occurring at the mining operation; or
- (c) where such structure is a utility, the aApplicant may supply a notarized letter, on utility letterhead, from the owner(s) of the utility that the mining and reclamation activities, as proposed, will have "no negative effect" on their utility.

6.4 SPECIFIC EXHIBIT REQUIREMENTS – 112, 112 ISL or 110 ISL RECLAMATION OPERATION AND 112d DESIGNATED MINING OPERATIONS

The following exhibits are required for all applications for any in situ leach mining operation, 112 mining operation and non in situ leach mining 112d designated mining operation. If any in situ leach mining operation is exempted from designated mining operation status, the application must still comply with this Rule:

6.4.1 EXHIBIT A – Legal Description

- (1) The legal description must identify the affected land, specify affected areas and be adequate to field locate the property. Description shall be by (a), township, range, and section, to at least the nearest quarter-quarter section and (b), location of the main entrance to the site reported as latitude and longitude, or the Universal Transverse Mercator (UTM) Grid as determined from a USGS topographic map. A metes and bounds survey description is acceptable in lieu of township, range, and section. Where available,

the street address or lot number(s) shall be given. This information may be available from the County Assessor's office or U.S. Geological Survey (USGS) maps.

- (2) The main entrance to the mine site shall be located based on a USGS topographic map showing latitude and longitude or Universal Transverse Mercator (UTM). The operator will need to specify coordinates of latitude and longitude in degrees, minutes and seconds or in decimal degrees to an accuracy of at least five (5) decimal places (e.g., latitude 37.12345 N, longitude 104.45678 W). For UTM, the operator will need to specify North American Datum (NAD) 1927, NAD 1983, or WGS 84, and the applicable zone, measured in meters.

6.4.2 EXHIBIT B – Index Map

An index map showing the regional location of the affected land and all roads and other access to the area. A standard U.S. Geological Survey topographic quadrangle or equivalent is acceptable. Scale criteria need not be followed for this map. The location of the proposed operation shall be shown and labeled with the mine site name.

6.4.3 EXHIBIT C – Pre-mining and Mining Plan Map(s) of Affected Lands

One or more maps may be necessary to legibly portray each of the following information:

(1) Pre-mining Map(s)

- (a) all ~~immediately adjoining surface owners of record;~~ Owners of Record described in Rule 1.6.2(1)(e);
- (b) the name and location of all creeks, roads, buildings, oil and gas wells and lines, and power and communication lines on the area of affected land and within two hundred (200) feet of all boundaries of such area;
- (c) the existing topography of the area with contour lines of sufficient detail to portray the direction and rate of slope of the affected land;
- (d) the total area to be involved in the operation, including the area to be mined and the area of affected lands (see definition of "Affected Land"), and provide latitude and longitude for each boundary corner as labels on the map or as a separate table; if available, the Operator/Applicant may also provide a digital file type, as determined by the Office, of the permit boundaries;
- (e) the type of present vegetation covering the affected lands; and
- (f) in conjunction with Exhibit G - Water Information, Rule 6.4.7, if required by the Office, further water resources information will be presented on a map in this section.
- (g) Show the owner's name, type of structures, and location of all significant, valuable, and permanent man-made structures contained on the area of affected land and within two hundred (200) feet of the affected land.

- (h) In conjunction with Exhibit I - Soils Information, Rule 6.4.9, soils information may be presented on a map in this section;
- (i) Aerial photos, if available, may be included in this section.

(2) Mining Plan Map(s)

- (a) outline and label all major surface features to be used in connection with the proposed operation such as: existing and proposed roads, pit boundary, topsoil stockpiles, overburden stockpiles, product stockpiles, waste rock fills, stream channels, buildings, processing plant, underground workings and openings such as adits or ventilation facilities, ponds, impoundments, dewatering pumps, diversions, tailings or waste disposal areas;
- (b) indicate the direction that mineral extraction will proceed;
- (c) outline and label existing disturbance within and/or adjacent to the permit boundary (e.g., previously mined areas, roads or excavations resulting from utility construction). Re-disturbance of previously disturbed areas, by the proposed mining operation, must be included in the permit area and addressed in Exhibit E - Reclamation Plan.

6.4.4 EXHIBIT D – Mining Plan

The mining plan shall supply the following information, correlated with the affected lands, map(s) and timetables:

- (a) description of the method(s) of mining to be employed in each stage of the operation as related to any surface disturbance on affected lands and describe the major components of the mining operation such as: roads and access routes, pit, office, shop/maintenance buildings, plant, processing facilities, and any underground workings and openings such as adits or ventilation facilities. These components must be located on Exhibit C – Mine Plan Map;
- (b) the estimated depth to which soil, suitable as a plant growth medium, will be salvaged for use in the reclamation process. This description must be consistent with information provided in Exhibit I. Sufficient soil must be salvaged to meet the vegetation establishment criteria of Rule 3.1.10. If plant growth medium is not reapplied on a graded area within the same growing season, not to exceed 180 days, then the Operator/Applicant must specify how the topsoil will be stockpiled and stabilized with a vegetative cover or other means until used in reclamation. Plant growth medium stockpiles must be located separate from other stockpiles, out of the way of mine traffic and out of stream channels or drainage ways. The location of plant growth medium stockpiles must be shown on Exhibit C – Mine Plan Map.
- (c) all water diversions and impoundments; and

- (d) the size of area(s) to be worked at any one time and specify the dimensions of any significant disturbances to the land surface such as pit excavations, mine benches, impoundments, stockpiles, waste rock disposal areas, etc. In addition, provide the maximum anticipated highwall height, length, and slope.
- (e) An approximate timetable to describe the mining operation. The timetable is for the purpose of establishing the relationship between mining and reclamation during the different phases of a mining operation. An Operator/Applicant shall not be required to meet specific dates for initiation, or completion of mining in a phase as may be identified in the timetable. This does not exempt an Operator/Applicant from complying with the performance standards of Rule 3.1. If the operation is intended to be an intermittent operation as defined in Section 34-32-103(6)(a)(II), C.R.S., the ~~a~~Applicant should include in this exhibit a statement that conforms to the provisions of Section 34-32-103(6)(a)(II), C.R.S. Such timetable should include:
- (i) an estimate of the periods of time which will be required for the various stages or phases of the operation;
 - (ii) a description of the size and location of each area to be worked during each phase; and
 - (iii) outlining the sequence in which each stage or phase of the operation will be carried out.
- (Timetables need not be separate and distinct from the mining plan, but may be incorporated therein.)
- (f) A map (in Exhibit C - Pre-Mining and Mining Plan Maps(s) of Affected Lands, Rule 6.4.3) may be used along with a narrative to present the following information:
- (i) thickness of overburden or quantity of waste rock, if any, to be removed to reach the deposit. The location of any overburden stockpiles or waste rock fills must be shown on Exhibit C – Mine Plan Map;
 - ~~(ii) nature, depth and thickness of the ore body or deposit to be mined and the thickness and type of overburden to be removed~~ (may be marked "CONFIDENTIAL," pursuant to Rule 1.3(3)); and
 - (iii) nature of the stratum immediately beneath the material to be mined in sedimentary deposits.
- (g) Identify the primary, and if applicable, the secondary and incidental commodities to be mined/extracted and describe the intended use; and
- (h) specify whether the deposit will be processed on-site. Processing includes but not limited to crushing, screening, washing, or concrete or asphalt mixing. If the deposit will be processed, then describe the nature of the process, facilities and chemicals utilized. The process area and any structures must be depicted on Exhibit C – Mine Plan Map;~~name~~

~~and describe the intended use of all expected incidental products to be mined/extracted by the proposed operation.~~

- (i) Specify if explosives will be used in conjunction with the mining (or reclamation). In consultation with the Office, the Applicant must demonstrate, pursuant to Rule 6.5(4), Geotechnical Stability Exhibit, that off-site areas will not be adversely affected by blasting.
- (j) Specify the dimensions of any existing or proposed roads that will be used for the mining operation. Describe any improvements necessary on existing roads and the specifications to be used in the construction of new roads. New or improved roads must be included as part of the affected lands and permitted acreage. Affected land shall not include off-site roads which existed prior to the date on which notice was given or permit application was made to the office and which were constructed for purposes unrelated to the proposed mining operation and which will not be substantially upgraded to support the mining operation. Describe any associated drainage and runoff conveyance structures ~~to~~ and include sufficient information to evaluate structure sizing.
- ~~(k) If refuse or toxic or acid-forming materials are exposed during mining, describe how they shall be handled and disposed of in a manner that will control unsightliness and protect the drainage system from pollution.~~
- ~~(l) State whether petroleum products will be stored on-site, provide the maximum quantities stored on-site at any one time, and specify the size and material of the storage container(s) and associated secondary containment structure(s) if applicable; if the operation has created a Spill Prevention Control and Countermeasure Plan (SPCC Plan) under the federal Clean Water Act and Colorado Water Quality Act, that plan shall be referenced with a brief description of how it minimizes disturbance to the hydrologic balance from the presence of petroleum products stored on-site; if the operation does not have a SPCC Plan, state what measures will be taken to minimize disturbance to the hydrologic balance from the storage of petroleum products.~~

6.4.5 EXHIBIT E – Reclamation Plan

- (1) In preparing the Reclamation Plan, the Operator/Applicant should be specific in terms of addressing such items as final grading (including drainage), seeding, fertilizing, revegetation (trees, shrubs, etc.), and topsoiling. Operators/Applicants are encouraged to allow flexibility in their plans by committing themselves to ranges of numbers (e.g., 6"-12" of topsoil) rather than specific figures.
- (2) The Reclamation Plan shall include provisions for, or satisfactory explanation of, all general requirements for the type of reclamation proposed to be implemented by the Operator/Applicant. Reclamation shall be required on all the affected land. The Reclamation Plans shall include:
 - (a) A description of the type(s) of reclamation the Operator/Applicant proposes to achieve in the reclamation of the affected land, why each was chosen, the amount of acreage accorded to each, and a general discussion of methods of reclamation as related to the mechanics of earthmoving;

- (b) A comparison of the proposed post mining land use to other land uses in the vicinity and to adopted state and local land use plans and programs. In those instances where the post mining land use is for industrial, residential, or commercial purposes and such use is not reasonably assured, a plan for revegetation shall be submitted. Appropriate evidence supporting such reasonable assurance shall be submitted;
- (c) A description of how the Reclamation Plan will be implemented to meet each applicable requirement of Rule 3.1;
- (d) Where applicable, plans for topsoil segregation, preservation, and replacement; for stabilization, compaction, and grading of spoil; and for revegetation. The revegetation plan shall contain a list of the preferred species of grass, legumes, forbs, shrubs or trees to be planted, the method and rates of seeding and planting, the estimated availability of viable seeds in sufficient quantities of the species proposed to be used, and the proposed time of seeding and planting;
- (e) A plan or schedule indicating how and when reclamation will be implemented. Such plan or schedule shall not be tied to any specific date but shall be tied to implementation or completion of different stages of the mining operation as described in Rule 6.4.4 (e). The plan or schedule shall include:
 - (i) An estimate of the periods of time which will be required for the various stages or phases of reclamation;
 - (ii) A description of the size and location of each area to be reclaimed during each phase; and
 - (iii) An outline of the sequence in which each stage or phase of reclamation will be carried out.
 - (iv) Demonstrate a reasonably foreseeable end date respecting water quality treatment as required in Rule 3.1.6(1)(g)-(h).

(The schedule need not be separate and distinct from the Reclamation Plan, but may be incorporated therein.)

- (f) A description of each of the following:
 - (i) Final grading - ~~specify maximum anticipated slope gradient or expected ranges thereof; specify the maximum gradient of reclaimed slopes (horizontal:vertical). If the Application proposes slopes steeper than 3:1, the Operator/Applicant must include a justification that supports steeper slopes for the proposed post-mining land use, and demonstrates compliance with the applicable performance standards of Rule 3.1;~~
 - (ii) Topsoiling - specify anticipated minimum depth or range of depths for those areas where topsoil will be replaced

- ~~(iii) Seeding - specify types, mixtures, quantities, and expected time(s) of seeding and planting. Specify the quantity of each grass and forb species as pounds of pure live seed per acre;~~
- ~~(iii) Fertilization - if applicable, specify types, mixtures, quantities and time of application;~~
- (iv) **Revegetation - specify types of trees, shrubs, etc., quantities, size and location; and specify the application method for grass and forb seeding. If the seed is to be broadcast, either provide the broadcast application rate or the application rate shall be twice the rate required for seed drilling. If the seedbed has not been adequately roughened prior to seeding, the seed shall be incorporated into the seedbed by raking, harrowing, or by other means of stabilization such as hydromulching;**
- (v) **Fertilization - if applicable, specify types, mixtures, quantities and time of application (NOTE: Soil amendments shall only be applied where soil tests indicate nutrient deficiencies for the plant species to be established); and Topsoiling - specify anticipated minimum depth or range of depths for those areas where topsoil will be replaced.**
- ~~(vi) Mulch - state what type of mulch to be used, the application rate per acre, and the crimping method if applicable, or provide a technical justification for when mulch will not be used (i.e., the use of other soil stabilizing practices, planting a sterile cover crop, site-specific limitations, etc.); and~~
- ~~(vii) Plantings - explain the establishment methods for each species of shrub and/or tree, and state the number of each to be established per acre.~~
- (g) **Specify which ponds, streams, roads and buildings, if any, will remain after reclamation. These features must be shown on the Exhibit F – Reclamation Plan Map. If ponds are part of the Reclamation Plan, slopes from five (5) vertical feet above to ten (10) vertical feet below the expected average water level cannot be steeper than 3H:1V; remaining slope lengths may not be steeper than 2H:1V. Where wildlife habitat is the proposed future land use, shorelines should be irregularly shaped to promote a diverse wildlife habitat. Colorado Parks and Wildlife (CPW) must be consulted where wildlife habitat is the proposed future land use.**
- (h) **Specify the reclamation treatment of any waste rock dumps, underground mine openings, ditches, sediment control facilities, buildings and other features specified in the mine plan but not previously addressed in the Reclamation Plan narrative. These features must be shown on Exhibit F – Reclamation Plan Map. This should describe the measures taken to minimize disturbance to the hydrologic balance, prevent off-site damage, and provide for a stable configuration consistent with the proposed future land use.**

6.4.6 EXHIBIT F – Reclamation Plan Map

The map(s) of the proposed affected land, by all phases of the total scope of the mining operation, shall indicate the following:

- (a) The expected physical appearance of the area of the affected land, correlated to the proposed mining and reclamation timetables. The map must show proposed topography of the area with contour lines of sufficient detail to portray the direction and rate of slope of all reclaimed lands; ~~and~~
- (b) Portrayal of the proposed final land use for each portion of the affected lands; ~~;~~ and
- (c) If ponds are a part of the Reclamation Plan, outline the final shore configuration of the ponds and identify shallow areas if the future land use is for wildlife.

6.4.7 EXHIBIT G – Water Information

- (1) If the operation is not expected to directly affect surface or groundwater systems, a statement and sufficient demonstration of that expectation shall be submitted.
- (2) If the operation is expected to directly affect surface or groundwater systems, the Operator/Applicant shall:
 - (a) Locate on the map (in Exhibit C) tributary water courses, wells, springs, stock water ponds, reservoirs, and ditches on the affected land and on adjacent lands where such structures may be affected by the proposed mining operations;
 - (b) Demonstrate a reasonably foreseeable end date respecting water quality treatment as required in Rule 3.1.6(1)(g)-(h).
 - (c) Identify all known aquifers; ~~and~~
 - (d) Submit a plan showing how water from dewatering operations or from runoff from disturbed areas, piled material and operating surfaces will be managed to protect against pollution of either surface or groundwater (and, where applicable, control pollution in a manner that is consistent with water quality discharge permits), both during and after the operation; ~~;~~ and
 - (e) Specify how the Operator/Applicant will comply with applicable Colorado water laws and regulations governing injury to existing water rights.
- (3) The Operator/Applicant shall provide an estimate of the project water requirements including flow rates and annual volumes for the development, mining and reclamation phases of the project.
- (4) The Operator/Applicant shall indicate the projected amount from each of the sources of water to supply the project water requirements for the mining operation and reclamation.

- (5) The Operator/Applicant shall affirmatively state that the Operator/Applicant has acquired (or has applied for) a National Pollutant Discharge Elimination System (NPDES) permit from the Water Quality Control Division at the Colorado Department of Health and Environment, if necessary.

6.4.8 EXHIBIT H – Wildlife Information

- (1) In developing the wildlife information, the Operator/Applicant may wish to contact the local wildlife conservation officer. The Operator/Applicant shall include in this Exhibit, a description of the game and non-game resources on and in the vicinity of the application area, including:
 - (a) a description of the significant wildlife resources on the affected land;
 - (b) seasonal use of the area;
 - (c) the presence and estimated population of threatened or endangered species from either federal or state lists; and
 - (d) a description of the general effect during and after the proposed operation on the existing wildlife of the area, including but not limited to temporary and permanent loss of food and habitat, interference with migratory routes, and the general effect on the wildlife from increased human activity, including noise.
- (2) All new Applicants for designated mining operations shall contact Colorado Parks and Wildlife (CPW) for their recommendations. CPW's recommendations shall be included into the application submitted to the Office for review. If the protection of wildlife is determined to be necessary by the Board for 112d Reclamation Permit Operations, or by the Office for 110d Limited Impact Permit operations, the Board or Office may incorporate such wildlife protection recommendations into the new permit as a condition for such permit.

6.4.9 EXHIBIT I – Soils Information

- (1) In consultation with the Natural Resources Conservation Service (NRCS) or other qualified person, the Operator/Applicant shall indicate on a map (in Exhibit C) or by a statement, the general type, thickness and distribution of soil over the affected land. Such description will address suitability of topsoil (or other material) for establishment and maintenance of plant growth. If necessary, at its discretion, the Board may require additional information on soils or other growth media to be stockpiled and used in revegetation.

6.4.10 EXHIBIT J – Vegetation Information

- (1) The Operator/Applicant shall include in this Exhibit a narrative of the following items:
 - (a) descriptions of present vegetation types, which include quantitative estimates of cover and height for the principal species in each life-form represented (i.e., trees, tall shrubs, low shrubs, grasses, forbs);

- (b) the relationship of present vegetation types to soil types, or alternatively, the information may be presented on a map; and
 - (c) estimates of average annual production for hay meadows and croplands, and carrying capacity for range lands on or in the vicinity of the affected land, if the choice of reclamation is for range or agriculture.
- (2) The Operator/Applicant shall show the relation of the types of vegetation to existing topography on a map in Exhibit C. In providing such information, the Operator/Applicant may want to contact the local Conservation District.

6.4.11 EXHIBIT K – Climate

Provide a description of the significant climatological factors for the locality, and ~~where-if~~ determined appropriate by the Office on a case-by-case basis, provide the required information of Rule 6.4.21(13).

6.4.12 EXHIBIT L – Reclamation Costs

- (1) ~~All information necessary to calculate the costs of reclamation must be submitted and broken down into the various major phases of reclamation. The information provided by the Operator/Applicant must be sufficient to calculate the cost of reclamation that would be incurred by the state. All 112 Regular Operation applications must provide an estimate of the actual costs to reclaim the site based on what it would cost the State of Colorado using an independent contractor to complete reclamation. The unit costs should include estimates for the following activities as appropriate to the operation: backfilling, grading, topsoil application, seeding, mulching, fertilization, and labor to complete reclamation. Determine and specify the point during the operation when the site has reached a point of maximum disturbance. The cost to reclaim the site to the specifications of the Reclamation Plan at this point must be estimated. Unit costs (cost per cubic yard), volumes, haul or push distances, and grades must be included when backfilling and grading are part of the Reclamation Plan. Volume and unit costs for finish grading, subsoil and topsoil application must be provided in terms of cost per cubic yard. The estimated cost for fertilizer, seed and mulch acquisition and application must be provided as cost per acre.~~
- ~~(a) Equipment costs must include such factors as equipment operator wages and benefits, fuel and lubricant consumption and depreciation. The cost to mobilize and demobilize the equipment from the nearest population center known to have the required equipment availability should be estimated.~~
 - ~~(b) All items referenced in the Reclamation Plan must be included in the cost calculation. These items in addition to earthwork, such as building demolition, fencing, monitoring well sealing or stream channel reconstruction must also be included in the reclamation cost estimate.~~
 - ~~(c) After the direct costs noted above have been estimated, the Office may add up to an additional maximum twenty and one-half percent (20.5%) of that total, which includes private contract, typical overhead costs, and a standard contingency. This additional cost is required to cover indirect costs that an independent contractor~~

would incur when performing reclamation of the site. Based on site-specific conditions and for good cause shown by the Office, the percentage of indirect costs may be adjusted above the rate identified above. Five percent (5%) additional cost shall also be added to cover Office administration cost in the event of bond forfeiture and permit revocation.

- (2) The Office may request the Operator/Applicant to provide additional, reasonable data to substantiate said Operator/Applicant's estimate of the cost of reclamation for all Affected Lands.

6.4.13 EXHIBIT M – Other Permits and Licenses

AProvide a statement identifying which of the following permits, licenses and approvals the Operator/Applicant holds or will be ~~seeking-sought~~ in order to conduct the proposed mining and reclamation operations: effluent discharge permits, air quality emissions permits, radioactive source material licenses, ~~the State Historic Preservation Office clearance, disposal of dredge and fill material (404)~~ permits, permit to construct a dam, well permits, explosives permits, State Historic Preservation Office clearance, highway access permits, U.S. Forest Service permits, Bureau of Land Management permits, county zoning and land use permits, and city zoning and land use permits.

6.4.14 EXHIBIT N – Source of Legal Right to Enter

Provide documentation of the legal right to enter to conduct mining and reclamation for all Owners of Record of the surface of the affected land and the mineral rights of the substance to be mined, for Owners of Record described in Rule 1.6.2(1)(e)(i). This may include a copy of a lease, deed, abstract of title, a current tax receipt, or a signed statement by the Landowner(s) and acknowledged by a Notary Public stating that the Operator/Applicant has legal right to enter to conduct mining and reclamation.

6.4.15 EXHIBIT O – Owners(s) of Record ~~of Affected Land (Surface Area) and Owners of Substance to be Mined~~

~~The complete list of all owners can be submitted as a list or on a map in Exhibit C.~~

- (1) Provide a list of all Owners of Record of the surface of the affected land.
- (2) Provide a list of all Owners of Record of the mineral rights of the substance to be mined.
- (3) Provide a list of all Owners of Record of all land surface within 200 feet of the boundary of the affected lands.

6.4.16 EXHIBIT P – Municipalities within Two Miles

~~A list of any municipality(s) within two (2) miles of the proposed mining operation and address of the general office of each municipality. List the mailing address and telephone number of the governing body for all municipalities within a two (2) mile radius of the proposed mining operation.~~

6.4.17 EXHIBIT Q – Proof of Mailing of Notices to Board of County Commissioners and Conservation District

Proof that notice of the permit application was sent to the Board of County Commissioners and, if the mining operation is within the boundaries of a Conservation District, to the Board of Supervisors of the local Conservation District, pursuant to Rule 1.6.2(1)(a)(ii).

6.4.18 EXHIBIT R – Proof of Filing with County Clerk and Recorder

An affidavit or e-receipt indicating the date on which the application was placed with the local County Clerk and Recorder for public review, pursuant to Rule 1.6.2(1)(c).

6.4.19 EXHIBIT S – Permanent Man-made Structures

(1) Provide a list of the owner's name and type of structure for all significant, valuable, and permanent man-made structures contained on the area of affected land and within two hundred (200) feet of the affected land.

(2) Where the affected lands are within two hundred (200) feet of any significant, valuable and permanent man-made structure, the applicant shall:

- (a) provide a notarized or other legally accepted agreement between the aApplicant and the person(s) having an interest in the structure, that the aApplicant is to provide compensation for any damage to the structure; or
- (b) where such an agreement cannot be reached, the aApplicant shall provide an appropriate engineering evaluation that demonstrates that such structure shall not be damaged by activities occurring at the mining operation; or
- (c) where such structure is a utility, the Applicant may supply a notarized letter, on utility letterhead, from the owner(s) of the utility that the mining and reclamation activities, as proposed, will have "no negative effect" on their utility.

6.4.21 EXHIBIT U – Designated Mining Operation Environmental Protection Plan

- (1) The Environmental Protection Plan shall describe how the Operator/Applicant will assure compliance with the provisions of the Act and Rules in order to protect all areas that have the potential to be affected by designated chemicals, toxic or acid-forming materials or acid mine drainage, or that will be or have the potential to be affected by uranium mining. In addition, the plan shall include an Emergency Response Plan that complies with Sections 34-32-103(4.9) and 34-32-116.5(5), C.R.S. 1984, as amended, and Rule 8.3, for designated chemicals used on site, and appropriate measures recommended by Colorado Parks and Wildlife (CPW) for the protection of wildlife from damage from designated chemicals, toxic or acid-forming materials and acid mine drainage.
 - (a) An Environmental Protection Plan is not required to address proposed or permitted activities that do not involve, affect, or influence the storage, handling, or disposal of the designated chemicals and that do not disturb toxic or acid-forming materials,

and that do not cause, or have the potential to cause, generation of acid mine drainage unless such proposed or permitted activities involve uranium mining in which case an Environmental Protection Plan shall be required.

- (b) In order to protect the public and the environment from the adverse effects of uranium mining, designated chemicals, ~~acid or toxic producing toxic or acid-forming~~ materials or acid mine drainage, the Board may consider whether there is a potential for adverse impacts.
 - (c) Such a determination will evaluate, specifically, the potential for adverse impacts from any:
 - (i) leach facilities, or heap leach pad;
 - (ii) tailings storage or disposal areas;
 - (iii) impoundments;
 - (iv) waste rock piles;
 - (v) stock piles, temporary or permanent;
 - (vi) land application sites;
 - (vii) milling or metallurgical processing; or
 - (viii) in situ leach operations or conventional uranium operations.
 - (d) The Board shall consider economic reasonableness and technical feasibility when determining whether the proposed location adequately assures compliance with performance standards of the Act, or may require that an alternate location be evaluated.
 - (e) The Board shall also consider current or pre-existing conditions and the degree to which the proposed plan would provide for net improvements in the protection of human health, property or the environment.
- (2) Maps - An Environmental Protection Plan shall identify on map(s), sketch(es), plan(s) or other equivalent representations, the locations where designated chemicals, toxic or acid-forming materials, which will be used, stored, handled, exposed, disturbed or disposed of within the permit area, and existing or potential sources of acid mine drainage. The Environmental Protection Plan shall also identify on maps, sketches, plans or other equivalent representations, the location of affected lands, surface water, and groundwater which will be or has the reasonable potential to be affected by uranium mining operations. The locations shall be shown in accurate relationship to topography and other project facilities within the permit areas. The Operator/Applicant may submit this information as a map accompanying this Exhibit or include the information on the maps required as Exhibit C in this Rule, 6.4.3.

- (3) Identification of other agencies' environmental protection measures and monitoring - identify which environmental protection measures and monitoring are required by statute, regulation or permit by other agencies or jurisdictions.
- (4) Other Permits and Licenses - The Environmental Protection Plan shall:
 - (a) list any air, water quality, solid and hazardous waste, and other federal, state permits or local licenses, or other formal authorizations which the Operator/Applicant holds or will be seeking applicable to the use, handling, storage, or disposal of designated chemicals and acid mine drainage-forming materials within the permit area.
 - (b) Where such permits have been obtained, the Environmental Protection Plan shall identify where copies of such authorization(s) may be obtained, and shall provide any information contained in, or a portion of, or a complete copy of the permit(s), if required by the Office or Board.
 - (c) When such permits, for uranium mining, or for the use, handling, storage or disposal of designated chemicals or acid mine drainage-forming materials within the permit area, are obtained after the submission of the Environmental Protection Plan, the Operator/Applicant will provide the Office the same information within thirty (30) ~~4~~Days of receipt.
 - (d) The Board reserves the right to deny an application for a Permit or Modification to an existing Permit where there is substantial evidence that the operation is or may be contrary to the laws or regulations of this state, or the United States, including but not limited to all federal, state, and local permits, licenses and approvals. The Board may continue the consideration of the application, or condition approval, pending final resolution of the matter. In addition, as to any in situ leach mining applications, the Board may or shall, whichever is applicable, deny any such permit application in accordance with the provisions of Rule 1.4.10.
- (5) Designated Chemical(s) Evaluation - an Environmental Protection Plan shall contain a presentation and discussion of the types, quantities, and concentrations of designated chemicals within the permit area, and to the degree such chemicals are present or used within the permit area, shall characterize the designated chemicals as to:
 - (a) their known potential to affect human health, property or the environment; and
 - (b) based on the best information available at the time of submittal of the Environmental Protection Plan, specify the expected concentrations, process solution volumes and fate of designated chemicals to be used in existing and proposed extractive metallurgical processes at the mine, and/or mill site, if applicable.
 - (c) Provide, to the extent reasonably available, material safety data sheets for designated chemicals.
- (6) Designated Chemical(s) and Material(s) Handling –

- (a) Fully describe the procedures for the disposal, decommissioning, detoxification or stabilization for all designated chemicals and toxic or acid-forming materials. Specifically describe measures to be taken to prevent any unauthorized release of pollutants to the environment. Include adequate reclamation and closure practices for such designated chemicals, toxic or acid-forming materials and how unauthorized discharge of acid mine drainage will be prevented.
 - (b) Submit a narrative description or plan that:
 - (i) describes how all designated chemicals used in the extractive metallurgical process will be handled during active mining operations, during periods of Temporary Cessation, and disposed or detoxified at the conclusion of operations so as to comply with all applicable environmental protection and reclamation standards and regulations;
 - (ii) describes how materials that have the potential to produce acid mine drainage or are toxic or acid-forming will be handled to ensure that the affected lands will be reclaimed and returned to the approved post-mining land use; and
 - (iii) describes how the Operator/Applicant will prevent adverse off-site impacts during periods of active mine site operations and periods of Temporary Cessation.
 - (c) Based upon acceptable site-specific analyses of site construction materials, waste rock, ore, product stockpiles, and mill tailings, if applicable, provide an assessment of the nature, concentrations and expected fate of potential acid mine drainage-forming materials.
- (7) Facilities Evaluation—Provide an evaluation of the expected effectiveness of each proposed and existing Environmental Protection Plan facility, taking into consideration:
- (a) site-specific conditions;
 - (b) designated chemicals, uranium, uranium by products and other radionuclides, acid mine drainage and toxic or acid-forming materials and associated by-products and sludges that will be retained, either temporarily or permanently, on site by each facility;
 - (c) naturally occurring geological and geochemical conditions, and alterations of these conditions by the mining and metallurgical process.
 - (d) Describe, with maps and narrative, the monitoring systems, monitoring site locations, sample designator, parameters sampled, frequency of sampling, report dates, media sampled, method of sampling and analysis employed or to be employed during mining and reclamation operations to evaluate the effectiveness of each Environmental Protection Plan facility and activity.

- (e) Taking into consideration the nature of the chemicals and the risk to human health, property and the environment, describe any release response procedures, redundancies, and "backup" measures necessary, appropriate, and economically reasonable, to control, prevent and mitigate releases of the designated chemicals and toxic or acid-forming materials from the containment facility outside the permit area during mining and reclamation operations.
 - (f) Demonstrate that containment facilities shall be of adequate size to provide sufficient reserve capacity to prevent a release of designated chemicals or toxic or acid-forming materials from design storm events plus operational water volumes during worst case conditions as specified by the Office.
- (8) Groundwater Information –
- (a) locate on a map, in Exhibit C, all tributary water courses, wells, springs, stock water ponds, reservoirs and ditches, on the affected land and on adjacent lands where such structures or waters are within two (2) miles, of the existing or proposed affected lands. The required information may further be limited to that area which can also be demonstrated by the Operator to lie within the local ground and surface water regimes that include the affected lands. On a site-specific basis, the Office or Board may extend the distance beyond two (2) miles;
 - (b) identify all known aquifers and related subsurface water-bearing fracture systems within two (2) miles of the affected lands. The required information may further be limited to that area which can also be demonstrated by the Operator to lie within the local ground and surface water regimes that include the affected lands. In addition, using available data or information, when acceptable to the Office, provide the general direction and rate of flow of groundwater in these aquifers and fracture systems. On a case-by-case basis, the Office may require hydrologic testing and analysis, where available information is inadequate to describe or address potential impacts to groundwater resources;
 - (c) describe all geologic media down to and including the upper most aquifer under proposed sites of material storage, stockpiles, waste piles, disposal sites, solution containment facilities and other sites within the existing or proposed affected area where such subsurface materials and any associated waters have the potential to be contaminated by designated chemicals used in the extractive metallurgical process or by materials that are toxic or acid-forming, or that produce acid mine drainage;
 - (d) identify and locate on a map, in Exhibit C, known major fracture systems that affect rock formations under proposed sites of material storage, stockpiles, waste piles, disposal sites, solution containment facilities and other sites within the existing or proposed affected (land) area where such fractures and any associated waters have the potential to be contaminated by toxic or acid-forming materials or designated chemicals used in extractive metallurgical process or that produce acid mine drainage; and

- (e) describe and illustrate the hydrogeology of the area where surface or groundwater may be impacted by the Designated Mining Operation activities. Include in the description and illustration, those geologic strata and fracture systems that have the potential to transmit groundwater.
- (9) Groundwater Quality Data –
- (a) Indicate the existing and reasonably potential future groundwater uses on and within two (2) miles down-gradient of the affected lands. The required information may further be limited to that area which can also be demonstrated by the Operator to lie within the local ground and surface water regimes that include the affected lands. On a site-specific basis the Office or Board may extend the distance beyond two (2) miles.
 - (b) Submit, at a minimum, groundwater quality data collected during five (5) successive calendar quarters, or as specified by the Office, as may be necessary to adequately characterize baseline conditions. This baseline data shall be sufficient to provide for the proper design of facilities, to serve as a basis for the evaluation of reclamation performance standards, and to ensure the adequacy of Environmental Protection Facility design, maintenance and operation. In the case of an in situ leach mining operation, a permit applicant must design and conduct a scientifically defensible groundwater, surface water and environmental baseline site characterization and monitoring plan for the proposed mining operation which, at a minimum, includes five (5) successive calendar quarters, or the period specified by the Office as necessary to adequately characterize the baseline conditions, of water quality data, prior to submitting the permit application.
 - (c) Analytical detection limits and groundwater quality parameters must be acceptable to the Office.
- (10) Surface Water Control and Containment Facilities Information
- (a) Provide design specifications certified by a licensed professional engineer for all Environmental Protection Facilities intended to:
 - (i) hold, convey, contain, or transport designated chemicals used in the extractive metallurgical process;
 - (ii) convey, transport or divert surface water around or away from acid mine drainage or toxic or acid-forming material; or
 - (iii) capture and/or retain surface water run-off from areas affected by the Designated Mining Operation prior to its release from the mine-site into the natural water drainage system.
 - (b) Submit a Storm Water Management Plan, if required by the Water Quality Control Division, including a copy of such plan and a maintenance and inspection program to ensure all drainage control and containment facilities will be properly operated and maintained.

- (11) Surface Water Quality Data –
- (a) Indicate the existing surface water receiving stream standards, existing or reasonably potential future uses of surface water and, where receiving stream standards have not been determined, within two (2) miles, down-gradient of the affected lands. On a site-specific basis, the Board or Office may extend the distance beyond two (2) miles downstream.
 - (b) Submit surface water quality and flow data collected during a minimum of five (5) successive calendar quarters and such other additional data, or a period specified by the Office, as may be necessary to adequately characterize baseline conditions. This baseline data shall be sufficient to provide for the proper design of facilities, to serve as a basis for the evaluation of reclamation performance standards success, and to ensure the adequacy of environmental protection facility design, maintenance and operation. Where surface water samples are not available during the specified time period due to climatic condition, the Office must be contacted so that other alternatives may be agreed upon, except that in the case of an in situ leach mining operation, a permit applicant must design and conduct a scientifically defensible groundwater, surface water and environmental baseline site characterization and monitoring plan for the proposed mining operation which, at a minimum, includes five (5) successive calendar quarters, or the period specified by the Office as necessary to adequately characterize the baseline conditions, of water quality data, prior to submitting the permit application.
 - (c) Analytical detection limits for surface water must be acceptable to the Office for surface water quality parameters in consultation with the Water Quality Control Division.
- (12) Water Quality Monitoring Plan - where necessary to demonstrate that the Environmental Protection Plan requirements are being met a water quality monitoring plan shall be proposed for both surface and groundwater. The intent of the proposed water quality monitoring plan shall be to demonstrate that all environmental protection facilities designed to protect water quality are functioning as designed and whether the operation is in compliance with all applicable surface water and groundwater standards and Permit conditions. Where a Colorado Discharge Permit System (CDPS) discharge permit exists or has been applied for, such permit may be adequate to satisfy the requirements of Rule 6.4.21. In addition, for an in situ leach mining operation, the required groundwater, surface water and environmental baseline site characterization and monitoring plan must be designed to thoroughly characterize pre-mining conditions; detect any subsurface excursions of groundwater containing chemicals used in or mobilized by such operation; and evaluate the effectiveness of post-mining reclamation and groundwater reclamation.
- (13) Climate - on a case-by-case basis, the Environmental Protection Plan shall:
- (a) Provide adequate climatic data representative of the site to perform an acceptable "water balance" for all liquid containment systems open to the environment and intended to contain designated chemicals or acid mine drainage, and demonstrate that the amount of evaporation required to maintain reserve facility capacity will

occur, or that there is sufficient reserve capacity to compensate for the uncertainty associated with the data.

- (b) Provide the following information regarding climatic factors, above six thousand five hundred (6,500) feet of elevation, (with the approval of the Office, data may be provided from existing stations within the vicinity of the Permit area):
 - (i) the mean annual precipitation for a minimum of five (5) years and, where available, one (1) set of data for the wettest year on record for the area;
 - (ii) the average direction and velocity of the prevailing winds;
 - (iii) the mean monthly temperature and temperature ranges for a minimum of five (5) years;
 - (iv) on a case-by-case, site-specific evaporation and sublimation rates for the proposed site.
 - (c) For operations below elevations of six thousand five hundred (6,500) feet, provide the above data covering a period of one (1) year.
- (14) Geochemical Data and Analysis - include appropriate geochemical evaluations of any material that will be exposed by mining, placed in on-site solution containment systems or facilities, stockpiled, or disposed of on the affected land, and that involves uranium mining or has the potential to cause acid mine drainage or to release designated chemicals, or toxic or acid-forming materials.
- (a) Such evaluations shall be site specific and appropriate for the types of materials exposed or to be exposed by the mining and reclamation operations.
 - (b) Such evaluations shall be conducted on materials that are representative of the composition of the mineral, rocks or materials that are exposed or to be exposed during the proposed life of the mining operations.
 - (c) Such evaluations shall be appropriate for the intended use or fate of the material exposed or to be exposed during the proposed life of the mining operations, and on a case-by-case basis shall include evaluation of weathering effects, shall simulate, to the extent reasonable, the conditions under which the material will be used, stockpiled or disposed and which shall reasonably be expected to prevail after mining and reclamation operations have ceased.
 - (d) Such evaluations shall be performed on both ore and overburden, and shall identify the most reasonable sources, probable fate, and transport mechanisms of metal and acid-producing minerals that may be mobilized by ordinary weathering reactions that are likely to prevail after mining and reclamation operations have ceased. Such analyses may include only those tests that are necessary to satisfy the conditions of Rule 6.4.21(14)(c), and such evaluations may be prioritized, in descending order of importance, as follows:

- (i) mineralogical analyses;
 - (ii) trace element analyses;
 - (iii) major element analyses;
 - (iv) microprobe or other comparable analyses.
- (e) Where a net neutralizing, metal adsorption or metal ion exchange potential over the long-term cannot be demonstrated, the Operator/Applicant shall fully describe measures to prevent unpermitted discharges, and how reclamation, sufficient to achieve the post-mine land use will be assured.
- (15) Construction Schedule Information - provide a detailed construction schedule for the following:
- (a) all facilities designed to contain or transport uranium, uranium by-products or other radionuclides, toxic or acid-forming materials or designated chemicals used in the extractive metallurgical process; and
 - (b) all facilities proposed to contain, hold, or for disposal of material that has the potential to cause acid mine drainage.
- (16) Describe the Quality Assurance and Quality Control program and measures to be employed during construction of those Environmental Protection Facilities that typically warrant Quality Assurance and Quality Control.
- (17) Plant Growth Medium (Soils) - where revegetation is part of the Reclamation Plan, and in order to assure that acceptable plant growth medium is preserved, and to determine what soil amendments may be necessary to promote reclamation, the Operator/Applicant shall:
- (a) provide a soil survey map of the proposed affected area that delineates soil units, soil texture, estimated cubic yards of soil and subsoils available for reclamation and if saved, where such material will be stockpiled for reclamation;
 - (b) Such map shall be based on site specific soils investigations and shall be on such a scale as to provide a basis for soil management recommendations and be the same scale as the reclamation map; and
 - (c) provide, for each soil map unit, in tabular form, all data from analyses of representative samples of surface and subsurface soil units as to:
 - (i) soil pH, texture, electrical conductivity, sodium adsorption ratio and any other parameters that the Operator/Applicant or Office deems necessary for proper soils characterization;
 - (ii) indicate on a map, or in the soils narrative the location of each soil unit on the affected area where the above soil characteristics may be problematic as to suitability for a plant growth medium; and

- (iii) type, form and amounts of any soil amendments that may be necessary or recommended by the local Soil Conservation Service, Conservation District, or other qualified special district, and standard soil laboratory analyses and fertilizer recommendations (if available) for the types of plant species proposed to be established; or
 - (iv) provide, as an alternative to Rule 6.4.21(17)(c), a plan of experiments to determine the type, form and amount of any soil amendments that may be necessary to fulfill the requirements of the Reclamation Plan.
- (18) Wildlife protection - In addition to the performance requirements of Rule 3.1, the Office or Board shall require the Operator to describe measures to minimize or prevent harm or damage to wildlife species and habitat, including:
 - (a) adequately describe mitigation measures to ensure that there is no overall net loss of critical or important wildlife habitat consistent with Colorado Parks and Wildlife (CPW) and United States Fish and Wildlife Service (USFWS) recommendations, if any; and
 - (b) describe measures to prevent wildlife from coming into contact with uranium, uranium by-products or other radionuclides, designated chemicals, toxic or acid-forming chemicals or areas with acid mine drainage.
- (19) Disposal of tailings and sludges in mine workings - In order to ensure the proper disposal of tailings and sludges in mine workings, an Applicant shall comply with the provisions of Rule 3.1.7.

6.4.22 EXHIBIT V – Description of ISL Mines – Required for all In Situ Leach Mining Applications Regardless of Designated Mining Operation Status

In addition to all other required exhibits, all in situ leach mining applications shall include this Exhibit V:

- (1) The Description of ISL Mines shall describe at least five (5) in situ leach mining operations that demonstrate the applicant's ability to conduct the proposed mining operation without leakage, vertical or lateral migration, or excursion of any leaching solutions or groundwater containing minerals, radionuclides, or other constituents mobilized, liberated or introduced by the mining operation into any groundwater outside of the permitted in situ leach mining area. The applicant need not be involved with any of the five (5) operations. The Comparison of ISL Mines shall describe:
 - (a) the methods of mining employed in each stage of each of the five (5) referenced in situ leach mining operations specifically including the methods related to any potential effect on groundwater, and compare these methods to those proposed in the application;

- (b) the groundwater monitoring and protection measures used at each of the five (5) referenced mining operations and compare those measures to the measures in the application;
 - (c) known accidents, failures, leaks, releases or spills that affected groundwater at each of the five (5) referenced mining operations.
- (2) The information provided in the Description of ISL Mines may be obtained from publicly available or non-confidential sources. The applicant shall use reasonable efforts to obtain as much information as is possible including research and review of publicly available documents and contact with the operators of the five (5) referenced operations to request information.

6.4.23 EXHIBIT W – Baseline Site Characterization – All In Situ Leach Mining Operations, Regardless of Designated Mining Operation Status.

In addition to all other required exhibits, applications for in situ leach mining operations shall include this Exhibit W.

- (1) An applicant for an in situ leach mining operation permit shall design and conduct a scientifically defensible Baseline Site Characterization for affected surface water and groundwater and the environment prior to filing a permit application for an in situ leach mining operation. Prior to conducting any activity under the Baseline Site Characterization, the prospective applicant shall confer with the Office and obtain the Office's approval of the applicant's proposed Baseline Site Characterization. The Baseline Site Characterization must, at a minimum, include five (5) successive calendar quarters, or the period specified by the Office as necessary to adequately characterize the baseline conditions, of monitoring data and must be included in the permit application in order for the application to be considered filed. At a minimum, the Baseline Site Characterization shall thoroughly characterize the pre-mining site conditions including:
- (a) A description of the following aspects of the proposed mining operation:
 - (i) physiographic conditions;
 - (ii) geologic and hydrogeologic conditions;
 - (iii) surface water conditions; and
 - (iv) groundwater conditions.
 - (b) A site inspection report that includes:
 - (i) a narrative description of site observations;
 - (ii) interviews with regulatory agencies having jurisdiction over the site including the regulatory history of the site;

- (iii) a narrative description of the results of a document review concerning the site; and
 - (iv) a synopsis of any previous environmental or enforcement investigations.
- (c) Analysis of the results of the Baseline Site Characterization, including a description of factors or conditions that require further investigation in order to design appropriate reclamation measures.

6.4.24 EXHIBIT X – Monitoring Plan – All In Situ Leach Mining Operations Regardless of Designated Mining Operation Status

In addition to all other required exhibits, any applications for in situ leach mining applications shall include this Exhibit X.

- (1) An Applicant for a permit for any in situ leach mining operation shall design and conduct a Monitoring Plan for affected lands and affected surface water and groundwater prior to submitting an application for such operation. Prior to conducting any activities in the Monitoring Plan, the prospective applicant shall confer with and obtain the approval of the Office of the proposed Monitoring Plan. The Monitoring Plan must be in the permit application in order for the application to be considered filed. The Monitoring Plan shall be sufficient to detect any subsurface excursions of groundwater containing chemicals used in or mobilized by the mining operation. In addition, the Monitoring Plan shall be sufficient to evaluate the effectiveness of the post-mining reclamation and groundwater reclamation plans.

6.4.25 EXHIBIT Y – Certification of Prior and Current Violations – All In Situ Leach Mining Operations Regardless of Designated Mining Operation Status

In addition to all other required exhibits, any permit application for an in situ leach mining operation or any request for transfer of minerals permit and succession of operations of operators for any in situ leach mining operation shall include this Exhibit Y.

- (1) Applicants for a permit for any in situ leach mining operations shall include in their application a Certification of Prior and Current Violations that includes:
- (a) A certified statement by the Applicant that the applicant or an affiliate, officer, or director of the Applicant has not violated environmental protection requirements of the Act and these regulations, a permit issued under the Act, or any analogous law, rule or permit issued by another state or the United States within a period of ten (10) years prior to the date of the submission of the application;
 - (b) A certified statement by the Applicant that the Applicant or an affiliate, officer, or director of the applicant, the operator, or the claim holder has not committed a pattern of willful violations of the environmental protection requirements of the Act, regulations, a permit issued under the Act and regulations, or an analogous law, rule, or permit issued by another state or the United States.

- (2) If the Applicant is not able to certify as required by Rule 6.4.25(1), the Applicant shall certify the circumstances of the violations or pattern of violations including:
- (a) A description of the nature of the violation including the governmental agency that found the violation, where and when it took place, the type of mine involved, any corrective actions and fines imposed for such violation, the status of the violation and any corrective actions and fines imposed for such violation, and any pending administrative or judicial action related to the violation;
 - (b) A description of the pattern of violations including as to each violation in the pattern of violations, the governmental agency that found the violation, the type of mining operation involved, where and when the violation took place, the corrective actions and fines imposed for such violation, the status of the violation and any corrective actions and fines imposed for such violation, and any pending administrative or judicial action related to the violation;
 - (c) Contact information from each federal or state agency involved in each violation or each pattern of violations including the name of the agency, the name of a person in that agency that can confirm the violation or pattern of violation information the Applicant has submitted and the contact person's telephone number and address.
 - (d) Any other information requested by the Office or Board about the violations or pattern of violations.
 - (e) Any explanation of the circumstances of any violations, the relationship between the Applicant and the violator, and any other information the Applicant believes to be relevant.
 - (f) The Applicant has a continuing obligations to update the information required in this exhibit throughout the permit application process and, if the permit is granted, throughout the life of the permit if any changes to the information occurs.
- (3) To constitute a certified statement the applicant must attest to the truthfulness of the statement in a form approved by the Board.

6.5 GEOTECHNICAL STABILITY EXHIBIT

- (1) On a site-specific basis, an Applicant shall be required to provide a geotechnical evaluation of all geologic hazards that have the potential to affect any proposed impoundment, slope, embankment, highwall, or waste pile within the affected area. A geologic hazard is one of several types of adverse geologic conditions capable of causing damage or loss of property and life. The Applicant may also be required to provide a geotechnical evaluation of all geologic hazards, within or in the vicinity of the affected lands, which may be de-stabilized or exacerbated by mining or reclamation activities.
- (2) On a site-specific basis, an Applicant shall be required to provide engineering stability analyses for proposed final reclaimed slopes, highwalls, waste piles, embankments, and ore leach facilities. An Applicant may also be required to provide engineering stability

analyses for certain slope configurations as they will occur during operations, including, but not limited to, embankments and ore leach facilities. Information for slope stability analyses may include, but would not be limited to, slope angles and configurations, compaction and density, physical characteristics of earthen materials, pore pressure information, slope height, post-placement use of site, and information on structures or facilities that could be adversely affected by slope failure.

- (3) Where there is the potential for off-site impacts due to failure of any geologic structure or constructed earthen facility, which may be caused by mining or reclamation activities, the Applicant shall demonstrate through appropriate geotechnical and stability analyses that off-site areas will be protected with appropriate factors of safety incorporated into the analysis. The minimum acceptable safety factors will be subject to approval by the Office, on a case-by-case basis, depending upon the degree of certainty of soil or rock strength determinations utilized in the stability analysis, depending upon the consequences associated with a potential failure, and depending upon the potential for seismic activity at each site.
- (4) At sites where blasting is part of the proposed mining or reclamation plan, the Applicant shall demonstrate through appropriate blasting, vibration, geotechnical, and structural engineering analyses, that off-site areas will not be adversely affected by blasting.

6.6 SPECIFIC PERMIT APPLICATION EXHIBIT REQUIREMENTS – 110r RECLAMATION-ONLY OPERATIONS

The following exhibits are required for all applications for any 110r Reclamation-Only operations.

6.6.1 EXHIBIT A – Legal Description and Location Map

- (1) A legal description must identify the affected land, specify affected areas and be adequate to field locate the property. This description shall include:
 - (a) township, range, and section, to at least the nearest quarter-quarter section;
 - (b) location of the main entrance to the mine site reported as latitude and longitude, or the Universal Transverse Mercator (UTM). Coordinates of latitude and longitude will be provided in degrees, minutes and seconds or in decimal degrees to an accuracy of at least five (5) decimal places (e.g., latitude 40.12345 N, longitude 105.12345 W). For UTM, the datum and applicable zone needs to be provided.
 - (c) the nearest town, the distance and direction from the town to the mine, and elevation of the mine; and
 - (d) where available, the street address or lot number(s) shall be given.
- (2) A Location Map showing sufficient information to determine the location of the affected land. This map shall include existing and proposed roads, and access routes, to be used in connection with the mining operation. A standard U.S. Geological Survey topographic

map or equivalent Google Earth Map is acceptable. The location of the proposed operation shall be shown and labeled with the mine site name.

6.6.2 EXHIBIT B – Site Description

Items (a)-(c) below must be addressed to the extent necessary to demonstrate compliance with the applicable performance standard requirements of Rule 3. At a minimum, the Operator/Applicant shall include the following information:

- (a) a description of the vegetation and soil characteristics of the immediately adjacent undisturbed lands around the proposed operation. The local office of the Natural Resources Conservation Service (NRCS) may provide this information as well as recommendations for Exhibit D - Reclamation Plan;
- (b) identify any permanent man-made and legacy structures within two hundred (200) feet of the affected area and the owner of each structure. Each structure should be located on Exhibit E - Map;
- (c) a description of the water resources in the area of the proposed operation. Identify any streams, springs, lakes, stock water ponds, ditches, and reservoirs within the immediate vicinity that would stormwater drainage or sedimentation directly from the affected area. Provide any information, if readily available, from publications or monitoring data on flow rates, water table elevations and water quality conditions; and
- (d) a wildlife statement prepared by Colorado Parks and Wildlife (CPW) is required for 110r Reclamation-Only Operations. The Operator/Applicant must contact the local CPW representative to verify that no critical or important wildlife habitats or wildlife species will be impacted by the proposed operation.

6.6.3 EXHIBIT C – Mining Plan

The purpose of the mining plan is to describe how reclamation excavations will affect the permit area for the duration of the operation. This plan must be correlated to Exhibit E - Map. The description of the mining plan must be adequate to satisfy the requirements of Rule 3.1 and demonstrate compliance with Rule 3. At a minimum, the Operator/Applicant must include the following information:

- (a) specify the estimated dates that mining will commence and end. All excavation and reclamation activities must be completed within 3 years from the proposed commencement date;
- (b) the estimated depth to which soil, if any, suitable as a plant growth medium, will be salvaged for use in the reclamation process. If plant growth medium is not reapplied on a graded area within the same growing season, not to exceed 180 days, then the Operator/Applicant must specify how the topsoil will be stockpiled and stabilized with a vegetative cover or other means until used in reclamation. Plant growth medium stockpiles must be located separate from other stockpiles, out of the way of mine traffic and out of drainage ways. The location of plant growth medium stockpiles must be shown on Exhibit E - Map;

- (c) specify the thickness and quantity of legacy waste rock pile to be removed. The location of any overburden stockpiles or waste rock fills not to be disturbed must be shown on Exhibit E- Map; Note: no excavation beyond placed legacy materials is permitted;
- (d) describe the major components of the mining operation and identify the location of these on Exhibit E – Maps. Note: no pits, processing facilities, or disturbance of any legacy underground openings such as adits or ventilation facilities is permitted;
- (e) specify the dimensions of any significant disturbances to the land surface such as legacy excavations, mine benches, impoundments, stockpiles, etc.;
- (f) specify the dimensions of any existing or proposed roads that will be used for the operation. Describe any improvements necessary on existing roads. New or improved roads must be included as part of the affected lands and permitted acreage. Describe any associated drainage and runoff conveyance structures and include sufficient information to evaluate structure sizing;
- (g) specify how much water will be used in conjunction with the operation and the source of this water. Note: water usage shall be limited to dust suppression only;
- (h) describe how mining will affect the quantity and quality of the surface or groundwater and the methods to be used to minimize disturbance to the surface and groundwater systems including sediment-containment and storm water runoff controls and other best management practices;
- (i) describe how toxic or acid-forming materials shall be handled and what measures will be implemented to prevent off-site damage and to prevent any unauthorized release of pollutants to the environment;
- (j) a statement that no processing will occur on site. Note: processing includes crushing, washing, leaching, or milling;
- (k) a statement that no explosives will be used in conjunction with the mining or reclamation operation; and
- (l) a statement that no petroleum products will be stored on-site.

6.6.4 EXHIBIT D – Reclamation Plan

- (1) The purpose of the Reclamation Plan is to describe the timing, procedures, criteria and materials that will be used to reclaim the affected land to the proposed future land use. This plan must be correlated to Exhibit E - Map. The description of the Reclamation Plan must be adequate to satisfy the requirements of Rule 3.1 and demonstrate compliance with Rule 3. At a minimum, the Application shall include the following information:
 - (a) Specify the proposed future land use. Where wildlife habitat is the proposed future land use, Colorado Parks and Wildlife (CPW) must be consulted.

- (b) Specify the maximum gradient of reclaimed slopes (horizontal: vertical). All efforts should be made to blend in the area with natural topography. If the Application proposes slopes steeper than 3H:1V, the Operator/Applicant must include a justification that supports steeper slopes for the proposed post mining land use and demonstrates compliance with the applicable performance standards of Rule 3.1.
- (c) Specify the measures that will be taken to revegetate the site, if applicable, including:
- (i) state the thickness and nature of plant growth medium to be replaced. Sufficient soil must be replaced to meet the vegetation establishment criteria of Rule 3.1.10. For sites that lack an adequate volume of plant growth medium to be replaced on the disturbance area, provide details on the source, location, and nature of plant growth material that needs to be imported to the site for reclamation;
 - (ii) state the range of dates when the site will be seeded. Explain how the seedbed will be prepared to eliminate compacted conditions (e.g., plowed, chiseled, disced). State the type, application rate, and soil incorporation methods of fertilizer application, if any. NOTE: Soil amendments shall only be applied where soil tests indicate nutrient deficiencies for the plant species to be established;
 - (iii) state the grass, forb, shrub, and tree species to be planted and the applicable quantities. Native plant species that encourage pollinators should receive first consideration, but introduced species may be used in the revegetation process when found desirable and approved by the Office. Specify the quantity of each grass and forb species as pounds of pure live seed per acre. Specify the planting size and quantity of each shrub and tree species to be established per acre;
 - (iv) specify the application method for grass and forb seeding. If the seed is to be broadcast, either provide the broadcast application rate or the application rate shall be twice the rate required for seed drilling. If the seedbed has not been adequately roughened prior to seeding, the seed shall be incorporated into the seedbed by raking, harrowing or by other means of stabilization such as hydromulching; and
 - (v) state what type of mulch to be used, the application rate per acre, and the crimping method if applicable, or provide a technical justification for when mulch will not be used (i.e., the use of other soil stabilizing practices, planting a sterile cover crop, site-specific limitations, etc.).
- (d) Specify which roads, if any, will remain after reclamation. Describe the intended use of these roads after reclamation and provide a discussion with how these are compatible with the proposed future land use. These features must be shown on the Exhibit E - Map.

- (e) Describe what reclamation measures will be taken to prevent off-site sedimentation (i.e. sediment-containment controls and best management practices) and provide for a stable configuration consistent with the proposed future land use.
- (2) Provide an estimate of the actual costs to reclaim the site based on what it would cost the State of Colorado using an independent contractor to complete reclamation. The unit costs should include estimates for the following activities as appropriate to the operation: backfilling, grading, topsoil application, seeding, mulching, fertilization, and labor to complete reclamation.

 - (a) After the direct costs noted above have been estimated, the Office may add up to an additional maximum twenty and one-half percent (20.5%) of that total, which includes private contract, typical overhead costs, and a standard contingency. This additional cost is required to cover indirect costs that an independent contractor would incur when performing reclamation of the site. Based on site-specific conditions and for good cause shown by the Office, the percentage of indirect costs may be adjusted above the rate identified above. Five percent (5%) additional cost shall also be added to cover Office administration cost in the event of bond forfeiture and permit revocation.

6.6.5 EXHIBIT E – Maps

- (1) The Operator/Applicant must provide maps which meet the requirements of Rule 6.2.1(2) that clearly describes the features associated with the mining plan and the components of the Reclamation Plan. Include at least one (1) map for the mine plan and one (1) map for the Reclamation Plan. At a minimum, maps must include the following information:
- (2) Mining Plan Map

 - (a) outline and label the proposed permit boundaries, and provide latitude and longitude for each boundary corner as labels on the map or as a separate table; if available, the Operator/Applicant may also provide a digital file type, as determined by the Office, of the permit boundaries; for 110r Reclamation-Only Operations, the Office considers the area bounded by the permit boundary to be analogous to the affected area;
 - (b) label the names of owner(s) of record of the surface of the affected area and of the land within two hundred (200) feet of the affected area, identify the owner of the substance to be mined;
 - (c) outline and label all major surface features to be used in connection with the proposed operation such as: existing and proposed roads, topsoil stockpiles, and storm water runoff controls;
 - (d) indicate the direction that waste pile extraction will proceed;
 - (e) Show the owner's name, type of structures, and location of all significant, valuable, and permanent man-made structures contained on the area of affected land and

within two hundred (200) feet of the affected land. A narrative description must be provided in Exhibit B - Site Description; and

- (f) outline and label existing disturbance within and/or adjacent to the permit boundary (e.g., previously mined areas, roads or excavations resulting from utility construction). Re-disturbance of previously disturbed areas, by the proposed mining operation, must be included in the permit area and addressed in Exhibit D - Reclamation Plan.

(3) Reclamation Plan Map

- (a) show the gradient of all reclaimed slopes (horizontal: vertical) sufficient to describe the post mine topography and adjacent natural topography. Note: blending into the natural topography should be given high priority;
- (b) indicate where vegetation will be established and the general area(s) for shrub or tree planting;

6.6.6 EXHIBIT F – List of Other Permits and Licenses Required

Provide a statement identifying which of the following permits, licenses and approvals the Applicant holds or will be sought in order to conduct the proposed mining and reclamation operations: effluent discharge permits, air quality emissions permits, radioactive source materials licenses, dredge and fill permits, permit to construct a dam, well permits, explosives permits, State Historic Preservation Office clearance, highway access permits, U.S. Forest Service permits, Bureau of Land Management permits, county zoning and land use permits, and city zoning and land use permits.

6.6.7 EXHIBIT G – Source of Legal Right to Enter

Provide documentation of the legal right to enter to conduct mining and reclamation for all Owners of Record of the surface of the affected land and the mineral rights of the substance to be mined. This may include a copy of a lease, deed, abstract of title, a current tax receipt, or a signed statement by the Landowner(s) and acknowledged by a Notary Public stating that the Operator/Applicant has legal right to enter to conduct mining and reclamation.

6.6.8 EXHIBIT H – Municipalities within a Two-mile Radius

List the mailing address and telephone number of the governing body for all municipalities within a two (2) mile radius of the proposed mining operation.

6.6.9 EXHIBIT I – Proof of Filing with County Clerk

An affidavit or e-receipt indicating the date on which the application was placed with the local County Clerk and Recorder for public review, pursuant to Rule 1.6.2(1)(c).

6.6.10 EXHIBIT J – Proof of Mailing of Notices to Board of County Commissioners and Conservation District

Proof that notices of the permit application were sent to the Board of County Commissioners and, if the mining operation is within the boundaries of a Conservation District, to the Board of Supervisors of the local Conservation District, pursuant to Rule 1.6.2(1)(a)(ii).

6.6.11 EXHIBIT K – Identification of Receiving Facility

Provide the name, physical address, telephone number, and if applicable, Division issued permit number for the mill or facility receiving the legacy waste. Note: A 110r Reclamation-Only permit will not be issued for the removal and stockpiling of legacy waste to any location not licensed and permitted to receive the material for processing and milling.

6.6.12 EXHIBIT L – Permanent Man-Made Structures

- (1) Provide a list of the owner's name and type of structure for all significant, valuable, and permanent man-made structures contained on the area of affected land and within two hundred (200) feet of the affected land.
- (2) Where the affected lands are within two hundred (200) feet of any significant, valuable and permanent man-made structure, the applicant shall:
 - (a) provide a notarized or other legally acceptable agreement between the applicant and the person(s) having an interest in the structure, that the applicant is to provide compensation for any damage to the structure; or
 - (b) where such an agreement cannot be reached, the applicant shall provide an appropriate engineering evaluation that demonstrates that such structure shall not be damaged by activities occurring at the mining operation; or
 - (c) where such structure is a utility, the Applicant may supply a notarized letter, on utility letterhead, from the owner(s) of the utility that the mining and reclamation activities, as proposed, will have "no negative effect" on their utility.
 - (d) Legacy structures (such as adits, vent holes, stope subsidence, loadouts, etc.) shall be identified. Any removal of legacy waste must avoid disturbances to these types of features. The applicant must provide details on how these types of structures will be protected from harm.

RULE 7: DESIGNATED MINING OPERATIONS

7.1 GENERAL PROVISIONS

7.1.1 Exemption from Rule

Mining operations that are 110R Reclamation-Only operations or are not Designated Mining Operations are exempt from this Rule 7, except as provided for in Rule 6.1, of these Rules.

7.1.2 Effective Date and Applicability of Rule

Except for uranium mining operations, the effective date of this Rule 7.1 and all of its Subsections is July 1, 1994 (Section 34-32-116.5(3)(B), C.R.S. 1984, as amended). Any Operator/Applicant may voluntarily choose to comply with any part, or all, of this Rule at any time prior to July 1, 1994. As to uranium mining operations, all existing and future uranium mining operations are by law designated mining operations. Therefore, the procedure to determine whether a mining operation constitutes a designated mining operation is not applicable to uranium mining operations and such operations are subject to all designated mining operation requirements and regulations. However, such operations may request an exemption from designated mining operation status as provided in Rule 7.2.6. If such exemption is granted, an in situ leach mining operator shall only be exempt from designated mining operation requirements; all in situ leach mining operation requirements shall continue to apply.

7.1.3 Compliance Requirements

- (1) The submission of an Environmental Protection Plan in conformance with Rule 6 and this Rule 7, does not relieve an Operator/Applicant of compliance with any other applicable Rule of the Board.
- (2) In addition to submitting the Reclamation Plan required by Section 34-32-116, C.R.S. 1984, as amended, in compliance with Rule 6, all Designated Mining Operations, as determined pursuant to this Rule 7 or if an operation is a uranium mining operation, shall submit to the Office an Environmental Protection Plan, the content of which is specified by Rule 6, for Office review and approval. As to uranium mining operations, a permit applicant must include an Environmental Protection Plan in the application unless such applicant requests and obtains an exemption pursuant to Rule 7.2.6 at the time of submitting the application.

7.1.4 Environmental Protection Plan Requirements

- (1) The Environmental Protection Plan shall be submitted as an additional Exhibit to the application.
- (2) All information supplied to comply with this Rule 7 shall be of a scale or nature that is compatible with all other Exhibits required in Rule 6.4.

7.2 DETERMINATION OF DESIGNATED MINING OPERATIONS

7.2.1 General Provisions

- (1) The Office's determination of a Designated Mining Operation is based on the criteria described in the definition for Designated Mining Operation in Rule ~~1.1(4921)~~.
- (2) For administrative purposes, such as Annual Fees and inspection schedules, the occurrence at a mine site of any activity that is a Designated Mining Operation activity will have the effect of making the entire mining operation a Designated Mining Operation, unless exempted under Rule 7.2.6.
- (3) Such operations, so designated, must submit an Environmental Protection Plan as specified in Rule 6.4.21.

7.2.2 Notification of Designation or Pending Designation by Office

- (1) Any time after the effective date of this Rule 7.2.2, the Office may notify an Operator of the Office's determination that an existing or proposed mining operation is, or has a reasonable potential to be, a Designated Mining Operation. The monthly Agenda shall Notice those operations for which the Office may have any pending Designated Mining Operation considerations, and upon a determination that an operation so considered, is or is not a Designated Mining Operation, the Office shall provide Notice in the next regular monthly agenda.
- (2) The Office's notice to an Operator/Applicant of such a determination shall be accompanied by factual statements including a review of the permit application, approved permit application, proposed or existing metallurgical process, known site geology or geochemistry, and the most recent site inspection.

7.2.3 Operator/Applicant Concurs with Designation

- (1) If an Operator, so notified, agrees with the Office that the existing operation is a Designated Mining Operation, the Operator shall notify the Office within thirty (30) ~~4~~Days of the date of the notice by mail, of the Operator's concurrence.
- (2) Upon receipt of the Office notice, the Operator of an existing mining operation shall:
 - (a) within sixty (60) ~~4~~Days file a demonstration that the existing permit application for the operation contains the necessary elements of an Environmental Protection Plan, Rule 6.4.21. This showing by the Operator shall satisfy the applicable portions of Sections 34-32-116 and 116.5, C.R.S. 1984, as amended, and the applicable portions of Rules 3, 6 and 7. Upon notice that the existing permit application does not contain the elements of an Environmental Protection Plan, the Operator shall either:
 - (b) within one hundred and eighty (180) ~~4~~Days submit an Environmental Protection Plan to the Office; or

- (c) within thirty (30) ~~4~~Days request a period longer than one hundred and eighty (180) ~~4~~Days, not to exceed one (1) year, to file such plan based on a demonstration satisfactory to the Office that additional time is needed to prepare an Environmental Protection Plan.
- (3) If an Operator/Applicant so notified agrees, the Operator/Applicant shall amend the application in accordance with Rule 7.2.

7.2.4 Designation Disputes

- (1) If an Operator/Applicant so notified does not agree with the Office that the existing or proposed mining operation is a Designated Mining Operation, the Operator/Applicant shall appeal, in writing, to the Office within thirty (30) ~~4~~Days of the Office notice, setting forth the specific reasons for the Operator/Applicant's disagreement. The Operator/Applicant's appeal shall include all factual evidence to support its arguments.
- (a) The Office shall meet with the Operator/Applicant as soon after the notification described in Rule 7.2.4(1) as possible to discuss the pending designation. If the Operator/Applicant does not satisfactorily demonstrate to the Office that the operation is not a Designated Mining Operation, the Office shall make a final determination that the operation is a Designated Mining Operation. The monthly Agenda shall Notice the final decision of the Office.
 - (b) The Operator/Applicant may appeal the Office's determination to the Board within thirty (30) ~~4~~Days of the notification to the Operator/Applicant of such determination, and request a hearing before the Board on the designation by the Office pursuant to Rule 1.4.11. Burden of proof to reverse the Office's determination shall be on the Operator/Applicant. Any person who demonstrates that they are directly and adversely affected or aggrieved by the Board's determination and whose interest is entitled to legal protection under the Act may participate as a party in the appeal of the Office's determination brought by the Operator/Applicant.
- (2) If the Operator/Applicant appeals under Rule (1), above, the Office, after notice to the Operator/Applicant, shall schedule the matter for a Board Hearing.
- (3) Any person who has relevant facts that were not known at the time of the initial Office determination that an operation is not a Designated Mining Operation, or where no such Office designation has occurred, may file a written complaint with the Office requesting a review of the operation to determine if it should be a designated mining operation. Based on the written request the Office may inspect the mining operation to determine Designated Mining Operation status. If the Office determines that the mining operation should be a designated Mining Operation, than the processes set forth in Rules 7.2.2., 7.2.3 and 7.2.4 shall apply.

7.2.5 Existing Permit – Adequate for an Environmental Protection Plan

- (1) If an existing permit contains the necessary elements of an Environmental Protection Plan, the Office or the Board will deem the existing permit to be adequate to comply with the

Environmental Protection Plan requirement, (Section 34-32-116.5(4)(a), C.R.S. 1984, as amended).

- (2) The Office may require that the Operator provide an Environmental Protection Plan, as an Exhibit separate from the existing Reclamation Plan and clearly marked as the Environmental Protection Plan. New information may not be required, provided the Plan complies with Rule 6.4.21 and Rule 7. The Environmental Protection Plan submission shall reference appropriate portions of the existing permit application, but shall be clear and concise and shall adequately address those issues that the Environmental Protection Plan is to address.
- (3) If there are no substantive changes to approved on-site activities, the Office review shall be considered a Technical Revision to the Permit for the purpose of processing the Operator's request.

7.2.6 Exemption from Designation

- (1) If an Operator or Applicant demonstrates to the satisfaction of the Office or the Board, at the time of applying for a permit, or at a subsequent hearing, or after notification given pursuant to Rule 7.2.2 of this Rule, that designated chemicals will not be stored or used on-site for extractive metallurgical processing, toxic or acid-forming materials will not be exposed or disturbed in quantities sufficient to adversely affect human health, property or the environment; and that acid mine drainage, as defined in Rule 1, will not occur as a result of mining operations, the Board shall exempt such existing operations from the requirements of this Rule 7, which Rule implements Section 34-32-116.5, C.R.S. 1984, as amended.
 - (a) The operator of an existing designated mining operation may seek exemption from Designated Mining Operation status by filing an amendment application pursuant to Rule 1.10. The amendment application must include the legal and factual basis for requesting the exemption.
- (2) Nothing in the Board Exemption shall exempt an Operator where site conditions or circumstances change, or are not as presented by the Operator in an application or at a Board Hearing on the proposed or existing activities. In addition, an exemption under this Rule from designated mining operation requirements does not exempt the operation from any other applicable requirements. For example, an exemption shall not exempt an in situ leach mining operation from the requirements pertaining to in situ leach mining operations including but not limited to those contained in Rules 3.1.3, 3.1.7 and 6.4. If an in situ leach mining operation is granted an exemption, it shall be referred to as a "110 ISL" operation or "112 ISL" operation (as applicable) rather than as a 112d operation.

7.2.7 Appeal of Determination

Any person who demonstrates that they are directly and adversely affected or aggrieved by the Office determination of designation or non-designation and where such person's interest is entitled to legal protection under the Act may appeal the Office's determination to the Board pursuant to Rule 1.4.11. The operator/applicant may be a party to the appeal.

7.2.8 Plan Inadequacy

If the Office subsequently finds that the approved Environmental Protection Plan is not adequate to comply with the Act and these Rules for protection of human health or property or the environment in conformance with the duties of Operators as prescribed by the Act, the Office may direct the Operator/Applicant to propose a revision to the previously approved Plan within a reasonable time. Provided the Operator is operating in compliance with the approved permit, this Office directive to propose a change shall be considered a "possible problem" and not a "possible violation", unless the time period for submission of the revision is not met by the Operator.

7.2.9 Time Extension for Filing the Environmental Protection Plan

Any Operator not granted relief, upon appeal of a designation as a Designated Mining Operation, shall submit an Environmental Protection Plan to the Office within ninety (90) ~~4~~Days of issuance of the Board Order denying the appeal, unless granted additional time by the Board based on all the following:

- (a) the good faith efforts of the Operator to achieve compliance;
- (b) the complexity of the mining operation; and
- (c) a demonstration that harm would not occur to the human health, property or the environment if the additional time were granted.

7.3 ENVIRONMENTAL PROTECTION FACILITIES – DESIGN AND CONSTRUCTION REQUIREMENTS

7.3.1 Construction

- (1) Unless otherwise specified by the Office or Board, construction work shall be done in phases. No construction work shall begin on any subsequent phase of the facility without first obtaining Office acceptance.
- (2) No liner of any kind shall be installed where climatic conditions are not within design or manufacture recommendations, and accepted by the Office.
- (3) Such facilities shall be appropriately designed for their intended purpose and shall consider site specific conditions and on or off-site impacts to human health, property and the environment. Design capacities shall be sufficient to handle the design storm event for the area. The design storm event may be the two (2) year, 24-hour storm event up to the Probable Maximum Precipitation (PMP) event plus the ten (10) year, 24-hour storm event.
- (4) It will be the responsibility of the Operator or Applicant to provide adequate Quality Assurance/Quality Control (QA/QC) or certification for any construction activities that are identified in the approved Environmental Protection Plan as specifically requiring QA/QC.

- (5) No chemicals used in the extractive metallurgical process or toxic or acid-forming materials, uranium, uranium by-products or radionuclides shall be placed in constructed facilities until the Board or Office accepts the certification of the facility, or phase thereof, that precedes placement.

7.3.2 Construction – Acceptance of Certification

- (1) Written acceptance of certification for facilities under this Rule, shall be a separate acceptance from the approval granted a permit application or permit modification.
- (2) Unless otherwise required by the Office, the Operator or Applicant must provide a certified verification by a professional engineer or other appropriately qualified professional that will confirm that the facility was constructed in accordance with the approved design plan.
- (3) The Office shall review and accept or reject all such certifications.

7.3.3 Cessation of Construction

- (1) Barring an action by the Board, Cessation will only apply to the activities that are directly affected by the site-specific engineering step(s) that do not yet have certification.
- (2) For any phase of certifiable inspection established pursuant to Rule 7.3.1 for which certification is not provided, as required in the permit, the Operator shall cease the construction of the environmental protection facility and will postpone the execution of subsequent phases of construction or operation until any required inspections have been performed and the requisite certification has been provided to and accepted by the Office.
- (3) Cessation of construction shall not be deemed to apply to corrective construction actions nor shall it apply to construction of facilities that are designed, and that will serve, to correct the lack of certification.
- (4) The Office has discretion to allow construction to proceed upon determination by the Office that proceeding is the best remedy.

7.4 FACILITY REVIEW, CERTIFICATION AND INSPECTION

7.4.1 General Provisions – Inspections and Certifications

- (1) All construction work required to prepare a mine site facility to receive designated chemicals, toxic-forming or acid-forming materials that produce acid mine drainage as defined in these Rules, shall be subject to the following:
 - (a) the frequency and scheduling of Office inspections shall be determined by the Office based on a review of the permit application and in consultation with the Operator/Applicant; and
 - (b) the Office shall include a list of the required inspections in the approved permit.

- (2) The Office may require the Operator to take corrective actions necessary to obtain and verify certification of a construction phase identified in the approved permit. The corrective actions so specified shall be those normally specified by a qualified professional.

7.4.2 Phased Construction Inspections

- (1) The Office shall give inspections of phased facility construction priority over other inspections and shall conduct such inspections as soon as possible to:
 - (a) meet the agreed upon construction schedule;
 - (b) to protect, as necessary, structures or facilities; and
 - (c) to facilitate orderly and efficient construction and operation.
- (2) At a minimum, general inspection phases shall include the following, as applicable:
 - (a) foundation preparation inspection shall occur when the vegetation, topsoil and subsoil have been salvaged and the foundation has been configured, compacted to design specifications, and dressed to receive underdrain systems where required;
 - (b) earthen construction inspection shall occur at appropriate phases in the completion of any excavated slopes or embankment construction for facilities designed to hold or contain toxic or acid-forming materials or designated chemicals used in the extractive metallurgical process or acid mine drainage-forming materials;
 - (c) identification of all wet or seep areas;
 - (d) any areas of structural instability;
 - (e) under-drains or groundwater interceptor systems, after drain materials (including any piping and required filters) have been installed, but prior to covering of drains with soil;
 - (f) all phases of primary and secondary liner installation, including material processing, placement, and compaction of earthen materials, and placement and testing of any fabric seams and repairs;
 - (g) all leak detection systems, including bedding materials, piping, fluid collection and removal systems, and monitoring systems prior to covering with any material in such a manner to deny inspection access; and
 - (h) the protective armor and drainage layers (including placement and compaction of armor and drainage material), prior to loading with ore, mining waste, or tailings.

7.4.3 Independent Reviews of Facility Design, Certification, and Inspections

- (1) The Operator/Applicant may request, or the Board or Office may direct, that an Independent Reviewer conduct a review of facility design, certifications, and phased inspections of Environmental Protection Facilities or other technical designs as deemed necessary.
- (2) Where such a request is made, the Operator/Applicant is responsible for all costs associated with the review, inspections and reports to the Office. The Operator or Applicant shall provide such reports to any person who was part of the formal hearing process.
- (3) Where an Independent Reviewer is requested, the Operator or Applicant shall provide the Office a list of competent, private, Independent Reviewer candidates.
 - (a) The Office may choose or reject any or all Independent Reviewers based on their qualifications.
 - (b) The Office shall not be provided bid documents that specify the cost for requested services.
 - (c) The Independent Reviewer shall be a contractor to the Operator or Applicant, but shall be solely directed by the State of Colorado - Division of Reclamation, Mining and Safety - Office of Mined Land Reclamation.
 - (d) The Office shall have the responsibility of preparing that portion of the request for bid document that specifies the scope of work. The inspections and reviews shall be those identified in the Environmental Protection Plan.
 - (e) The Operator or Applicant shall have the responsibility of preparing the remaining sections of the request for bid document.
 - (f) The administration of the contract by the Office shall be through a Memorandum of Understanding between the Office and the Operator or Applicant.
- (4) The Independent Reviewer shall be empowered to review and accept or reject quality assurance information generated by the QA/QC (Quality Assurance/Quality Control) entity, i.e., to perform Q/A on the QA/QC and certification (if generated) performed by the Operator's QA/QC representative.
- (5) The Office or Board reserves the right to accept or reject the opinions of Independent Reviewers.
- (6) The rejection of QA/QC based certifications by the Independent Reviewer shall be cause for requiring the Operator to undertake corrective action prior to continuing any additional construction activity on the facility being monitored that would jeopardize either the corrective action so specified or the planned purpose of the Environmental Protection Facility.

RULE 8: EMERGENCY NOTIFICATION BY ALL OPERATORS, EMERGENCY RESPONSE PLAN FOR DESIGNATED MINING OPERATIONS AND EMERGENCY RESPONSE AUTHORITY OF THE OFFICE

8.1 SITUATIONS THAT REQUIRE EMERGENCY NOTIFICATION BY THE OPERATOR

Operators shall notify the Office, as soon as reasonably practicable, but no later than twenty-four (24) hours, after the Operator has knowledge of a failure or imminent failure of any of the following:

- (a) any impoundment, embankment, stockpile or slope that poses a reasonable potential for danger to human health, property or the environment;
- (b) for a designated mining operation, any Environmental Protection Facility designed to contain or control designated chemicals or process solutions as identified in the permit;
- (c) for in situ leach mining operations, any structure designed to prevent, minimize, or mitigate the adverse impacts to human health, wildlife, ground or surface water or the environment; and
- (d) for in situ leach mining operations, any structure designed to detect, prevent, minimize, or mitigate adverse impacts on groundwater.

8.2 OPERATOR'S GENERAL NOTIFICATION RESPONSIBILITIES FOR REPORTING EMERGENCY CONDITIONS

8.2.1 Emergency Reporting Procedure

(1) Telephone notice shall be given to the Office staff as follows:

- (a) during regular business hours (8:00 am to 5:00 pm, on ~~w~~Working ~~d~~Days), the notice shall be given to the Office via the Office's main phone line at 303-866-3567.
- (b) outside regular business hours, or if the Office cannot be contacted, notice shall be given to the Colorado Department of Public Health and Environment 24 hour Colorado Emergency and Incident Reporting Line. Specify to this agency, that the emergency authority is coordinated through the Division of Reclamation, Mining and Safety, and to activate that Division's response network.

(2) After the telephone notice as required by Rule 8.2.1(1) is made, a follow-up electronic notice shall be submitted to the Office at drms_info@state.co.us.

8.2.2 Emergency Notification Information Required

Notice required pursuant to this Rule 8 shall contain the following information (to the extent known at the time of the notice, and so long as no delay occurs in reporting results):

- (a) that this is notification of an emergency condition as required by Rule 8;

- (b) the nature of the condition including any chemicals and toxic or acid-~~producing-forming~~ materials involved;
- (c) an estimate of the quantity of any chemical, toxic or acid-forming material that has been or could be released;
- (d) the time and duration of the occurrence and if it is on-going, or urgency of the pending situation;
- (e) any known or anticipated impacts to human health, property or the environment;
- (f) precautions and corrective actions taken by the Operator; and
- (g) the Operator's name(s) and contact number(s) for persons to be contacted for further information and response by the Office.

8.2.3 Follow-up Notice Requirements

As soon as practicable after an emergency situation or condition is reported and addressed, but no later than five (5) ~~w~~Working ~~d~~Days, the Operator shall provide a written report of the event to the Office. The report shall provide a description of:

- (a) actions taken to respond to and correct the emergency situation or condition;
- (b) any known or anticipated adverse impacts to human health, property or the environment;
- (c) name(s), address(s), telephone numbers and e-mail address of the Operator's contact person for additional information and follow-up by the Office;
- (d) monitoring and analyses that are necessary to evaluate the situation and corrective actions, copies of all pertinent data; and
- (e) results of the Operator's investigation to assess the conditions or circumstances that created the emergency situation, and what corrective or protective measures will be taken to prevent a similar event from occurring in the future.

8.3 EMERGENCY RESPONSE PLAN FOR DESIGNATED CHEMICALS AND URANIUM OR URANIUM BY-PRODUCTS

In compliance with Rule 6.4.21, describing the purpose of an Environmental Protection Plan, Operators/Applicants of Designated Mining Operations shall be required to have on file with the Office an up-to-date Emergency Response Plan for designated chemicals. It shall be the Operator's/Applicant's sole responsibility to provide timely updates of responsible personnel and their phone numbers to the Office.

8.3.1 Non-Designated Mining Operations Exempted

Operations that do not involve uranium mining or that do not have or will not use designated chemicals, as defined in Rule 1.1(~~4820~~), are specifically exempted from the requirements of this Rule 8.3.

8.3.2 Minimum Requirements – Submitting Other Agency Plans

Operators/Applicants that are required to submit an Emergency Response Plan, may submit all or portions of a plan required by another state, local or federal agency that has been required of the Operator if it substantially conforms to the following minimum requirements:

- (a) designation of personnel, such as mine manager, shift foreman or safety officer, who will be on site and in charge in case of an emergency. Also, a minimum of two (2) key response individuals, with up-to-date phone numbers, who can be contacted by the Office on a 24-hour basis;
- (b) an outline of response procedures to be followed by mine or plant personnel in the event of an emergency involving designated chemicals, ~~acidic or toxic~~ toxic or acid-forming materials, or uranium or uranium by-products;
- (c) a list of designated chemicals and maximum quantities to be stored or used on site at any one time;
- (d) a list and location map of materials, supplies and equipment stored on the property and readily available for containing, controlling and cleaning up excursions or releases of designated chemicals.

8.3.3 Post-Emergency Event Monitoring Plan

The Office may require the Operator to provide a post-emergency event monitoring and analysis plan, specific to an emergency, in addition to Board Ordered Corrective Action requirements.

8.4 EMERGENCY RESPONSE AUTHORITY OF THE OFFICE

8.4.1 Responsibilities of the Office

The Office may:

- (a) establish an Emergency Response Team, which may include other Offices and Agencies;
- (b) enter properties to take necessary emergency, safeguarding and corrective measures;
- (c) after consultation with, and authorization from the Office, issue a written cease and desist order for the activity(ies) suspected of causing the emergency situation;

- (d) apply to a district court for a temporary restraining order, temporary injunction, or permanent injunction to require cessation of the activity(ies) determined to be causing the emergency situation.
- (e) as to Designated Mining Operations, operate the Environmental Protection Facility utilizing any or all portions of the Financial Warranty established for such purpose. Such funds shall be available for the state to operate any portion of the Environmental Protection Facilities, or other facilities as may be necessary, to terminate an emergency as defined by these Rules. In responding to an emergency, the Board or Office will first use funds available as appropriate from the Emergency Response Cash Fund prior to utilizing any or all portions of the Permittee's Financial Warranty.

8.4.2 Office's Determination that an Emergency Exists

The Office may exercise its emergency authority to respond to situations at mining or mineral processing facilities. The determination may be based upon the following:

- (a) the Operator, or another person fails or refuses to stop engaging in any activity not permitted by, or which constitutes a possible violation of the Act, the Rules or permit conditions, and which is presenting an unwarranted risk of serious harm to human health, property or the environment;
- (b) the Operator or another person, fails or refuses to take corrective actions necessary to contain, control, safeguard, or manage an emergency situation;
- (c) an Operator fails or refuses to respond to a Board Order requiring corrective actions for:
 - (i) any failure or imminent failure of any impoundment, embankment, stockpile, or slope identified in the permit;
 - (ii) any Environmental Protection Facility or measure, identified in the Permit, designed for the control or containment of ~~acid or toxic producing~~ toxic or acid-forming materials or designated chemicals;
 - (iii) any specific Permit condition which is intended to protect human health, property or the environment;
 - (iv) any structure for an in situ leach mining operation designed to detect, prevent, minimize or mitigate adverse impacts on groundwater;
 - (v) any structure used in connection with an in situ leach mining operation designed to detect, prevent, minimize, or mitigate adverse impacts on human health, wildlife, or the environment.

8.5 SPECIFIC RESPONSE AUTHORITY RELATED TO EMERGENCY SITUATIONS INVOLVING PHYSICAL MINE HAZARDS

After notification to the Operator, owner or other responsible person, or if a responsible person cannot readily be identified or located, the Board or Office may direct or authorize the Office of Active and Inactive Mines to respond to emergency situations in which physical mine hazards are involved. Physical mine hazards may include, but are not limited to:

- (a) failure or refusal to safeguard or maintain safeguarding of shafts, adits, portals, escapements, stopes opened to surface and subsidence areas;
- (b) failure or refusal to safeguard or maintain safeguarding in a manner specified by the Office of Active and Inactive Mines in:
 - (i) the published bid specifications; or
 - (ii) according to another design specified or approved by the Board or Office.

8.6 FOLLOW-UP MONITORING AND REPORTING REQUIREMENTS

The Board or Office may require that a post-emergency situation inspection or monitoring program be performed to evaluate any possible adverse impacts, and to ensure that the corrective actions taken are sufficient to address the circumstances creating the initial emergency situation.

8.7 EMERGENCY RESPONSE FUNDING

8.7.1 Cash Fund and Purpose

- (1) The Board may transmit grants, donations, and other contributions to the State Treasurer for placement in the Executive Director's Emergency Response Cash Fund.
- (2) This fund shall be accessible to the Executive Director for the following purposes:
 - (a) to conduct emergency response activities at permitted or illegal mining or illegal mineral processing operations; and
 - (b) to conduct emergency prevention, containment, control, safeguarding or reclamation activities at permitted or illegal mining or mineral processing facilities.

8.7.2 Public Contributions, Donations and Grants

The Board, Office or other interested persons may pursue and accept grants and contributions for inclusion in the Executive Director's Emergency Response Cash Fund.

8.8 EMERGENCY RESPONSE COST RECOVERY

The Executive Director may seek recovery of costs expended in carrying out the provisions of this Rule 8. The State shall bear the burden of proof for any violations or cost recovery actions brought against a party(ies) identified in this Rule 8.8. Recovery may be sought for funds expended from the cash fund from any and all of the following:

- (a) the Permittee;
- (b) the Operator, if different from the Permittee, conducting activities or allowing activities that caused the emergency situation; or
- (c) the person controlling or owning the operation.

RULE 9: CHANGE OF NAME – LEGAL EFFECT

Any statute enacted prior to or on August 9, 2006 changing the name of the Division of ~~Reclamation, Mining and Safety~~ Minerals and Geology to the Division of Reclamation, Mining and Safety, shall not impair the legal status or effect of any and all permits, permit obligations, financial warranties, performance warranties, contracts, property rights and/or any other obligations or legal relationships that were entered into between any entity or individual and the Division of ~~Reclamation, Mining and Safety~~ Minerals and Geology prior to the name change. All such obligations will remain legally binding and shall not be impaired by any such name change. Any statute enacted after August 9, 2006 changing the name of the Division of Reclamation, Mining and Safety to any other name, shall not impair the legal status or effect of any and all permits, permit obligations, financial warranties, performance warranties, contracts, property rights and/or any other obligations or legal relationships that were entered into between an entity or individual and the Division of Reclamation, Mining and Safety prior to such name change. All such obligations will remain legally binding and shall not be impaired by any such name change.

**Statement of Basis, Specific Statutory Authority, and Purpose for
New Rules and Amendments to the Mineral Rules and Regulations of
the Colorado Mined Land Reclamation Board for Hard Rock, Metal, and
Designated Mining Operations, 2 CCR 407-1**

**Implementation of Senate Bill
25-054 and the creation of a 110
Reclamation Only permit,
Modernization, Financial
Warranty and various rule
updates and edits**

Consistent with Section 24-4-103(4), C.R.S., of the Administrative Procedure Act, this statement sets forth the basis, specific statutory authority, and purpose for new rules and amendments to the Mineral Rules and Regulations of the Colorado Mined Land Reclamation Board for Hard Rock, Metal, and Designated Mining Operations, 2 CCR 407-1 (“Rules”). They also are intended to foster and encourage the development of the State’s natural resources and the development of a sound and stable mining and minerals industry and require mining operators to reclaim land affected by such operations so that the affected land can be put to a use beneficial to the people of this State. *See* § 34-32-102, C.R.S.

Stakeholder Participation

The Colorado Division of Reclamation, Mining and Safety (“Division”), as staff to the Board, held informal stakeholder outreach regarding the proposed Rules. Informal stakeholder meetings were held on July 23, August 27 and September 24, 2025. The Division invited and accepted written and verbal comments from stakeholders regarding the proposed Rules during the stakeholder process and amended the draft proposed Rules based on comments received during the informal stakeholder process to gain consensus, where possible, or to better clarify the intent and purpose of a proposed amendment. During the course of the informal stakeholder meetings the Division maintained a publicly accessible website link that included all drafts and redline versions of the proposed Rules as well as recorded videos of the stakeholder meetings.

The Board filed with the Secretary of State the Notice of Rulemaking Hearing and draft proposed Rules on October 29, 2025, and the Notice and draft Rules were published in the Colorado Register on November 10, 2025. This Notice initiated the formal rulemaking process. Pursuant to the Notice of Rulemaking, any person or organization was invited to participate in the rulemaking and submit prehearing statements, written comments, or alternate proposed language and rules within the specific scope of this rulemaking.

Statutory Authority

The Board is authorized to promulgate the Rules under the following sections of the Colorado Mined Land Reclamation Act:

- Section 34-32-106(1)(c), C.R.S. (Board has the duty to develop and promulgate standards for land reclamation plans).
- Section 34-32-108(1), C.R.S (Board has the authority to adopt and promulgate reasonable rules and regulations regarding administration of the Act).
- Sections 34-32-110, 116, 117, 118 and 122, C.R.S (Senate Bill 25-054 set forth new statutory requirements and increased the regulatory authority of the Board and the Division. Additionally, the Bill modified or eliminated certain types of Financial Warranty options and amended to Act to modernize processes).

Overview of Purpose and Intent

The Division estimates there are over 23,000 abandoned mines across the state and 1,800 miles of streams impaired due to acid mine drainage related pollutants. Approximately 5,000 of these sites could be reclaimed to reduce the impacts to surface waters and watersheds. Among other things, Senate Bill 25-054 sought to modernize and improve the regulation of mining in Colorado by 1) creating a new 110 reclamation-only permit to encourage clean-up of old and abandoned mining waste piles; 2) cleaning up statutory provisions regarding forfeitures and types of financial warranties that can be accepted by the Division and Board.

Many mine features contribute heavy metals and acid mine drainage (AMD) to Colorado watersheds. AMD can degrade the water quality of streams and water supplies, often to the point of causing harmful effects to the aquatic life of the stream. Current law makes clean-up of these legacy sites difficult due to stringent regulations that are geared to address mining operations, not reclamation only. Creating a new 110-R permit type facilitates the removal of waste piles, while providing regulatory oversight and ensuring lands are returned to a beneficial use. This new permit is intended to incentivize the clean-up of these waste piles by allowing companies, NGOs and private entities to recover valuable minerals without facing undue regulatory burdens geared towards mining operations. By removing barriers to reclaiming these mine features, there is an opportunity to establish ecosystem-appropriate vegetation, including pollinator-friendly and drought-tolerant plants, where no vegetation exists today, and to minimize the impact that historic mining conditions have on our State's watershed health.

All active and permitted mines are required to post a financial warranty which reflects the actual, current cost of completing a Reclamation Plan. The financial warranties are returned to the warrantor upon successful completion of reclamation.

In the event the Operator is unable to complete reclamation, the financial warranty is forfeited and used by the Division to complete reclamation. Senate Bill 25-054, through implementation by these amended Rules, will streamline administration of forfeited funds by placing all revoked reclamation funds with the program that has the responsibility for oversight of reclamation, and to align with current financial practices for distribution of those funds. These amended Rules also seek to remove outdated financial warranty options, by eliminating the use of real property and salvage value as forms of financial warranty that no operator has used in over 30 years. Finally, as now authorized by SB 25-054, the amended Rules limit use of real and personal property as Financial Warranty to only the largest operators that can utilize such a bond.

As outlined above, the primary reason for adopting the proposed Rules is to implement the new areas of authority and regulation set forth in SB 25-054, including the creation of the 110 Reclamation-Only permit type, to modernize the Act and clarify and/or codify current Division procedures and regulatory practices, and to clarify or eliminate types of Financial Warranties.

Amendments and Modification to Rules:

The following Rules were added or amended to implement the legislative changes or regulatory authority created in Senate Bill 25-054. Rule 6.6 are new Rules for 110r Reclamation Only permits.

- 1.1(16), 1.1(21)(f)(1), 1.1(29), 1.1(37), 1.1(44), 1.1(63), 1.1(64), 1.1(74), 1.4.2, 1.4.2(4), 1.4.6, 1.6.1(1)(a), 1.11.1(2), 1.12.1(4), 1.13.3(4)
- 3.1.2, 3.1.3(2), 3.1.5(9), 3.1.10(1)
- 4.1(6), 4.1(9), 4.1.2(5), 4.1.2(8)(b), 4.1.2(9), 4.3.9, 4.3.10, 4.9.1(1), 4.9.3, 4.12, 4.13, 4.15(1), 4.20(8), 4.20(10)
- 6.1.2, 6.6
- 7.1.1

The following Rules were amended to clarify existing regulatory requirements or standards or to codify in regulation current and long-standing Division and/or Board processes and procedures.

- 1.1(9), 1.1(10), 1.1(18), 1.1(33), 1.1(52), 1.1(67), 1.1(69), 1.4.1(5)(c), 1.4.1(5)(d), 1.5.1, 1.5.3, 1.5.4, 1.5.5, 1.5.6, 1.5.7, 1.6.1(2)(d), 1.6.2(1)(b), 1.6.2(2), 1.8, 1.8.1(1), 1.8.1(2), 1.8.1(3), 1.8.1(4), 1.8.1(5), 1.8.1(6), 1.8.2, 1.8.3, 1.8.4, 1.11.1(2), 1.11.2(1), 1.13.7(2)(d), 1.13.8, 1.15(1), 1.15(1)(a), 1.15(1)(b), 1.15(1)(d), 1.15(3)
- 2.5.6, 2.8.1(2), 2.8.1(3), 2.8.2(5)
- 3.1.5(9), 3.1.5(9)(g), 3.1.6(4), 3.1.9(1)
- 4.2.2(2), 4.3.11, 4.11.1(1), 4.16.1(1), 4.16.1(2)(a), 4.17.2(1)
- 5.1.1(3), 5.1.2(d)(vi), 5.1.2(j), 5.1.2(l)(i), 5.3.1(f), 5.3.2, 5.3.4(2), 5.4.1(1), 5.7, 5.7(1), 5.7(1)(a)

- 6.3.3(1)(b), 6.3.3(1)(e), 6.3.3(1)(f), 6.3.3(1)(p), 6.3.4(1)(c)(iv), 6.3.4(1)(c)(v), 6.3.4(2), 6.3.4(2)(c), 6.3.5, 6.3.5(2)(c), 6.3.5(3)(b), 6.3.4(3)(c), 6.3.6, 6.3.7, 6.4.3(1)(a), 6.4.4(f)(ii), 6.4.4(l), 6.4.13, 6.4.14
- 8.2.1(1)

The following Rules were amended to modernize and improve current regulatory standards and requirements, and to modernize and incorporate electronic submittals and other forms of communications.

- 1.1(43), 1.1(60), 1.1(71), 1.4.1(3), 1.4.1(4), 1.4.1(5)(c), 1.4.1(5)(f), 1.4.1(7), 1.4.1(8), 1.4.6(1), 1.4.8(1), 1.4.9(1)(a), 1.4.9(1)(b), 1.6.2(1)(b), 1.6.2(1)(d)(i), 1.6.3(2), 1.9.1, 1.12.1(2), 1.16
- 3.1.5(3), 3.1.5(9), 3.1.12(1)(b)
- 4.16.1(2)(b), 4.17.1(3), 4.17.1(4)
- 5.1.1(1), 5.1.2(b), 5.1.2(c), 5.1.2(i), 5.3.4(1), 5.4.4, 5.4.4(e), 5.6(1)(a), 5.6(1)(h), 5.7(4)
- 6.2.1(2)(a), 6.2.1(2)(f), 6.3.3(1)(p), 6.3.4(2)(c), 6.3.5(2)(a), 6.3.5(2)(b), 6.3.5(3)(d), 6.3.5(3)(e), 6.3.9, 6.3.12(1), 6.3.12(2)(a), 6.4.3, 6.4.3(1)(d), 6.4.4(l), 6.4.15, 6.4.18, 6.4.19(1), 6.4.19(2)(a)
- 8.2.1(2)

The following Rules were amended in order to ensure references within the rules are consistent with other modifications. Changes made to Rule 6 also incorporate existing language from 110 permit exhibit sections (Rule 6.3) that are being added to applicable 112 permit exhibit sections (Rule 6.4).

- 1.1(1), 1.1(32), 1.1(33), 1.1(70)
- 2.6(2)(b)(i)
- 3.1.5(5)
- 5.1.3(c), 5.3.5(1), 5.5.2(g), 5.6(1)
- 6.3.3(1)(j), 6.3.3(1)(k), 6.3.4(1)(e), 6.3.5(2)(e), 6.4.2, 6.4.3(2), 6.4.4(a), 6.4.4(b), 6.4.4(d), 6.4.4(f)(i), 6.4.4(g), 6.4.4(h), 6.4.4(k), 6.4.5(2)(f), 6.4.5(2)(g), 6.4.5(2)(h), 6.4.6(c), 6.4.7(2)(e), 6.4.12(1), 6.4.21(1)(b)
- 7.4.1(1)
- 8.2.2(b), 8.3.2(b), 8.4.2(c)(ii)

The following Rules were amended to make the Hard Rock Rules consistent with the Construction Materials Rules, where appropriate. The Division and Board have found that consistency between the two rule sets leads to more appropriate and fairer implementation and enforcement.

- 1.1(1), 1.1(5), 1.1(17), 1.1(28)(a), 1.1(28)(c), 1.1(72), 1.2.1(c), 1.3(1), 1.4.1(5)(a), 1.4.1(9), 1.4.13, 1.6.1(3)(b), 1.6.2(1)(a)(ii), 1.8.1(3), 1.10.1(4), 1.11.2(2), 1.12.1(2)(b), 1.12.2(1), 1.15,
- 2.6(2)(b)(i), 2.6(3), 2.7.1(3)
- 3.1.1(1), 3.1.7(1)(a), 3.1.7(9)
- 4.5(1), 4.16.1(4)

- 5.1.2(d)(v)(B), 5.1.2(m), 5.3.3(1), 5.3.4(2), 5.4.3, 5.4.5(1)(b)(i)
- 6.2.1(2)(d), 6.3.3(1)(m), 6.3.3(1)(n), 6.3.3(1)(o), 6.3.4(1)(d), 6.4.16, 6.4.17
- 9

The following Rules were amended to correct typographical errors, clerical errors, formatting or capitalization of defined terms.

- 1.4.1(5)(a), 1.4.2(2), 1.4.12, 1.5.2(1), 1.5.8, 1.6.1(2)(e), 1.6.1(4)(c), 1.6.2(1)(d)(vi), 1.13.1(1)(a), 1.13.1(1)(b), 1.13.1(1)(c), 1.13.2(2), 1.13.2(3), 1.13.3(1), 1.13.3(2), 1.13.3(3), 1.13.5(2)(e), 1.13.5(2)(f), 1.13.5(2)(g), 1.13.5(3)(f), 1.13.6, 1.13.6(f), 1.13.7(2)(a), 1.13.9(1)(a), 1.13.9(1)(b)
- 2.2.1(a)(iii)
- 3.1.5(6), 3.1.5(9)(e), 3.1.5(9)(f), 3.1.7(6)(b)(i)(A)(I) , 3.1.7(6)(b)(ii)(A), 3.1.7(6)(b)(ii)(B)
- 4.15(3)
- 5.1.2(a), 5.1.2(e), 5.1.2(g)
- 6.3.2(a), 6.3.3(1)(l), 6.4.11, 6.4.21(10)(a)(iii)

**Effective
Date**

The Board anticipates adoption of the Rules, which amend and clarify the Board's Rules, on February 18, 2025 and are effective twenty days after publication of the adopted Rules in the Colorado Register.

Subjects and issues involved

SB25-054, through implementation by these amended Rules, will streamline administration of forfeited funds by placing all revoked reclamation funds with the program that has the responsibility for oversight of reclamation and to align with current financial practices for distribution of those funds. These amended Rules also seek to remove outdated financial warranty options by, among other things, eliminating the use of real property and salvage value as forms of financial warranty. Finally, as now authorized by SB 25-054, the amended Rules limit use of real and personal property as Financial Warranty to only the largest operators that can utilize such a bond. As outlined above, the primary reason for adopting the proposed Rules is to implement the new areas of authority and regulation set forth in SB 25-054. Additionally, the amended Rules seek to modernize the regulatory authority of the Division and Board

BEFORE THE MINED LAND RECLAMATION BOARD
STATE OF COLORADO

NOTICE OF PUBLIC RULEMAKING HEARING – CONSTRUCTION MATERIALS

IN THE MATTER OF Amendments to the Mineral Rules and Regulations of the Colorado Mined Land Reclamation Board for the Extraction of Construction Materials, 2 CCR 407-4, regarding Modernization and to address other requirements of Senate Bill 25-054

TO ALL INTERESTED PARTIES AND TO WHOM IT MAY CONCERN:

The Colorado Mined Land Reclamation Board (“Board”) will consider promulgation of new rules and amendments proposed by the Division of Reclamation, Mining and Safety (“Division or DRMS”) to the Colorado Land Reclamation Act for the Extraction of Construction Materials, 2 CCR 407-4. The Division’s draft proposed new and amended rules and draft proposed Statement of Basis and Purpose is attached to this Notice.

The Board will promulgate the new rules and amendments to the Colorado Land Reclamation Act for the Extraction of Construction Materials, C.R.S. 34-32.5-101, et. seq., to implement Senate Bill 25-054 related modification and elimination of financial warranty types and forfeiture procedures, eliminating administrative fees and general modernization. The Board will also consider proposed changes that will make the Construction Materials Rules more consistent with the Hard Rock Rules, where appropriate. Finally, the Board will consider amending areas of the existing Rules that need clarification, correction or to reflect current practice or procedure. Please note that the Board may accept, reject or modify any or all of the Division’s proposed new rules and amendments, or may propose its own new rules and amendments.

The Division’s Proposed New Rules and Amendments are set forth in their entirety at the Division’s website rulemaking page: <https://drms.colorado.gov/>

Throughout the formal rulemaking process, the Division’s website rulemaking page will provide formal notice to interested persons and Parties regarding important dates, filing deadlines, and other information concerning the rulemaking hearing and process.

**STATUTORY AUTHORITY FOR PROPOSED
NEW RULES AND AMENDMENTS**

The General Assembly delegated broad rulemaking authority to the Board respecting the administration of the Act at Section 34-32-106(1)(c), C.R.S. (Board has the duty to develop and promulgate standards for land reclamation plans), and Section 34-32.5-108, C.R.S. (Board has the authority to adopt and promulgate reasonable rules and regulations respecting the administration of the Mined Land Reclamation Act and the Construction Materials Act). In addition, the General Assembly passed Senate Bill 25-054, which modified or set forth new

statutory requirements and increased the regulatory authority of the Board and the Division (codified at Sections 34-32.5-117, 118 and 122, C.R.S).

NOTICE IS HEREBY GIVEN that the Board has scheduled this matter for a rulemaking hearing as follows:

Date: Wednesday, January 21, 2026.
Time: Wednesday 9:00 a.m.
Place: ZOOM Hearing and Department of Natural Resources
1313 Sherman Street, Room 318
Denver, CO 80203

The Rulemaking Hearing will take place both in-person and virtually via Zoom. In order to receive an authorization code to attend the hearing, please contact Camie Mojar by the email: Dnr_drms_mlr-submittals@state.co.us

Those who wish to observe the proceedings may join via YouTube: <https://www.youtube.com/@dnrmlrb-dnr5160/streams>

PUBLIC PARTICIPATION

The Board encourages all interested persons to participate in the rulemaking hearing by providing their comments, opinions, or recommendations regarding the matters to be addressed in this rulemaking, either orally at the hearing or in writing prior to the hearing. Although oral testimony or comments from those with Party status and other interested persons will be received at the hearing, the time available for such oral testimony or statements will be limited. Oral testimony or statements at the hearing should primarily summarize written material previously submitted.

Party Status: To participate in this rulemaking as a Party, a person or organization must file a written request for Party Status with the Board that shall include the following information: (1) name of the applicant Party and their representative (if different); (2) the street address, e-mail address, and telephone numbers of the applicant Party or their representative; and (3) a brief summary of any policy, factual, or legal issues the applicant Party has with the proposed regulations.

Deadline for Request for Party Status: Any request for Party Status must be filed electronically with the Board and Division no later than 5:00 p.m. on Thursday, November 20, 2025 at: Dnr_drms_mlr-submittals@state.co.us.

Please indicate that you are seeking Party Status in the CONSTRUCTION MATERIALS rulemaking.

Non-Party Participation: Persons who do not desire Party Status, but would like to participate in the rulemaking process, will be able to make their views known to the

Board either by submitting written comments in advance of the rulemaking hearing, or by speaking during the public comment period allotted during the rulemaking hearing. The Board will consider all submissions.

Deadline for filing non-party written public comments is January 9, 2026. Written comments must be submitted electronically at: Dnr_drms_mlrp-submittals@state.co.us

Non-Parties who would like to address the Board during public comment of the Rulemaking Hearing must notify the Board Administrator via e-mail at Dnr_drms_mlrp-submittals@state.co.us by January 9, 2026.

PREHEARING STATEMENTS, ALTERNATIVE PROPOSED RULES, REPLY

Prehearing Statements: Each Party is strongly encouraged to file a written Prehearing Statement. Prehearing Statements must include comments, legal and factual issues, and evidence and argument that the Party wants the Board to consider regarding the proposed new rules and amendments. Prehearing Statements are limited to 15 double-spaced pages, 12-point font. This 15-page limit does not include exhibits to be used during the formal rulemaking hearing.

Alternative Proposed Rules: In addition to filing a Prehearing Statement, Parties may file Alternate Proposed Rules to be adopted by the Board in lieu of or in addition to all or a portion of the Division's proposed new rules and amendments.

Deadline for filing Prehearing Statement and Alternate Proposed Rules is December 3, 2025.

Alternate proposed rules may only be considered by the Board if the subject matter of the alternate proposed rules is consistent with and fits within the subject matter and scope of the rulemaking hearing. Any alternate proposed rule must include the following information: (1) a clear statement of the alternate proposed rule; (2) a statement of the Board's authority to promulgate the alternate proposed rule; (3) a statement describing how the alternate proposed rule is consistent with and fits within the subject matter and scope of the proposed rulemaking and (4) a clear and concise statement of the basis and purpose for the alternate proposed rule.

Reply: Any Party and Division staff may file a Reply to Prehearing Statements. Additionally, any comment or response to Alternate Proposed Rules shall be included in that Party's Reply. Replies shall be limited to 5 double-spaced pages, 12-point font.

Deadline for filing a Reply is January 9, 2026.

FILING AND SERVICE REQUIREMENTS

All filings for this rulemaking shall be submitted electronically to: Dnr_drms_mlrp-submittals@state.co.us. All filed comments, Party statements and Alternative Rules will be placed on the DRMS website rulemaking page for public review by close of business the day

following any deadline. The Division will email all filed documents to the Stakeholder and Party/Interested Party email list.

The Board or Division may take action to modify any date or filing deadline in this Notice of Rulemaking, notice of changes will be provided to Parties of record and posted to the DRMS website rulemaking page. The Board may take actions, including without limitation, modifying or amending the existing rules described or proposed herein and making conforming modifications to other rules, which it determines are reasonably necessary.

In accordance with the Americans with Disabilities Act, if any party requires special accommodations as a result of a disability for this hearing, please contact Camille Mojar at Dnr_drms_mlr-submittals@state.co.us, prior to the hearing and arrangements will be made.

MINED LAND RECLAMATION BOARD
OF THE STATE OF COLORADO

RULE 1: GENERAL PROVISIONS AND REQUIREMENTS - PERMIT PROCESS

1.1 DEFINITIONS

- (1) "the Act" refers to the Colorado Land Reclamation Act for the Extraction of Construction Materials, Section 34-32.5-101, et seq., C.R.S. 1984, as amended.
- (2) "Activity" for the purpose of protecting groundwater quality, means any mining, storing, disposing, or processing operations, or any reclamation operation or process that may discharge or cause discharge of pollutants to groundwater.
- (3) "Affected Land" means the surface of an area within the state where a mining operation is being or will be conducted, which surface is disturbed as a result of such operation. Affected lands include but shall not be limited to private ways, roads, except those roads excluded pursuant to Rule 1.1(3), and railroad lines appurtenant to any such area; land excavations; exploration sites; drill sites or workings; refuse banks or spoil piles; evaporation or settling ponds; work, parking, storage or waste discharge areas; and areas in which structures, facilities, equipment, machines, tools or other materials or property which result from or are used in such operations are situated. All lands shall be excluded that would be otherwise included as land affected but which have been reclaimed in accordance with an approved plan or otherwise, as may be approved by the Board. Affected land shall not include off-site roads which existed prior to the date on which notice was given or permit application was made to the Office and which were constructed for purposes unrelated to the proposed mining operation and which will not be substantially upgraded to support the mining operation.
- (4) "Aggrieved" means suffering actual loss or injury, or being exposed to potential loss or injury, to legitimate interests. Such interests include, but are not limited to, business, economic, aesthetic, governmental, recreational, or conservational interests.
- (5) "Ambient Groundwater Quality" for mining operations permitted prior to January 31, 1994, ambient groundwater quality shall mean the quality of the groundwater at the mine site as of January 31, 1994. For mining operations permitted on or after January 31, 1994, ambient groundwater shall mean the quality of groundwater at the time of submittal of the permit application. In establishing ambient groundwater quality, an Operator or Applicant shall use available or collected groundwater data sufficient to characterize the site's ambient groundwater quality and submit such information in a form suitable to the Office.
- (6) "Amendment" means a change in the permit or an application which increases the acreage of the affected land, or which has a significant effect upon the approved or proposed Mining Plan or Reclamation Plan.
- (7) "Anniversary date-of the permit" means the date the Office or Board issues the permit or the Notice of Intent to Conduct Exploration approval and is the date the annual fee shall be deposited with the Office on an annual basis until the Office or Board terminates the permit or Notice of Intent to Conduct Exploration.
- (8) "Applicant" means any person who applies to the Office for a mining permit.
- (9) "Aquifer" means a geologic formation, group of geologic formations, or part of a geologic formation containing sufficient saturated permeable material that could yield a sufficient quantity of water that may be extracted and applied to a beneficial use.
- (10) "Authorized Agent" means any corporate officer, corporate attorney, individual person, or persons so designated in the permit application.

- ~~(11) "Certification by an Independent Auditor" means a letter or report from a Certified Public Accountant rendering an opinion as to the financial condition of a Financial Warrantor with regard to the financial tests required for self insurance. The opinion must demonstrate clearly and fully, without significant disclaimers, that the financial tests have been met by the Financial Warrantor.~~
- ~~(1211) "Complex Application" is an application which may require the Office to respond to additional factors such as the public comment process, involve additional professional staff or outside professional or agency expertise, and is or address other issues beyond what the Office considers to be a typical application review process for the majority of applications received.~~
- ~~(1312) "Construction Material" means rock, clay, silt, sand, gravel, limestone, dimension stone, marble or shale extracted for use in the production of non-metallic construction products.~~
- ~~(14) "County Composite Applications" means the operator is a unit of county government and has the discretion to submit one (1) composite application for all similarly situated sand, gravel, or quarry operations which qualify as limited impact as described in these definitions. However, each operation shall be issued a separate permit and shall require separate, appropriate annual fees. As a guideline, "Similarly situated sand, gravel or quarry operations" means those operations within a county which, due to their location, hydrology, geology, or topography, have similar requirements for mining and reclamation. As a guideline to the counties, the Board suggests that the following situations are distinct from each other, and reasonable classifications of "similarly situated" operations:~~
- ~~(a) dry alluvial operation: Operation in alluvial material where no groundwater is encountered;~~
- ~~(b) wet alluvial operation: Operation in alluvial material where groundwater is encountered;~~
- ~~(c) dry non-alluvial operation: Operation in non-alluvial material where no groundwater is encountered;~~
- ~~(d) wet non-alluvial operation: Operation in non-alluvial material where groundwater is encountered; and~~
- ~~(e) in addition, other physical factors such as substantial differences in elevation, aspect, or vegetation may distinguish operations which would otherwise fall within a single one of the four classifications set forth above.~~
- ~~(13) "Days" as used throughout these regulations, "Working Days" means Monday through Friday and shall not include Saturdays, Sundays, State holidays, or other non-work days as declared by the Governor or Legislature. "Calendar Days" or "Days" means consecutive days, including weekends and holidays. In calculating any period of time prescribed or allowed by these rules, the day of the act, event, or default from which the designated period of time begins to run shall not be included. Thereafter, every day shall be counted, including holidays, Saturdays or Sundays. If the last day of the period, deadline or due date falls on a Saturday, Sunday, or legal holiday, the deadline is extended to the next Working Day.~~
- ~~(14) "Development" means the work performed in relation to a construction materials deposit, following the exploration required to prove construction materials are in existence in commercial quantities but prior to production activities, aimed at, but not limited to, preparing the site for mining, defining further the deposit by drilling or other means,~~

conducting pilot plant operations, constructing roads or ancillary facilities, and other related activities

- (15) "Exploration" means the act of searching for or investigating a construction material deposit. "Exploration" includes, but is not limited to, sinking shafts, tunneling, drilling core and bore holes, including the construction of monitoring wells, and digging pits or cuts and other works for the purpose of extracting samples or conducting baseline hydrological investigations prior to commencement of development or extraction operations, and the building of roads, access ways, and other facilities related to such work. The term does not include those activities which cause no or very little surface disturbance, such as airborne surveys and photographs, use of instruments or devices which are hand carried or otherwise transported over the surface to make magnetic, radioactive, or other tests and measurements, boundary or claim surveying, location work, or other work which causes no greater land disturbance than is caused by ordinary lawful use of the land by persons not exploring.
- (16) "Exploration Notice" shall mean that notice required by the Act to engage in the exploration for construction materials.
- (17) "Extraction" means the removal of construction materials and/or overburden from places of natural occurrence to surface locations.
- (18) "Facility" means the combined "activities" occurring on the affected land.
- (19) "Failure or Imminent Failure" means, for the purpose of emergency notification response, the actual or pending-imminent release of an- unauthorized-or-unpermitted-any material or liquid from any impoundment, embankment, slope, or from any other containment facility or system where such release poses a reasonable potential for danger to human health, property or the environment.
- (20) "Filed" means an application submitted to the Office and determined to contain the permit application information required by Rules 1.4.1, 1.6.2(1)(a)(i) and (b), 1.6.2(1)(g), and Rules:
- 1.4.2(2) for a 110 Limited Impact operation application; or
 - 1.4.3(1) for a 110(6) Limited Impact Composite operation application; or
 - 1.4.4(2) for a 111 Special Operation application; or
 - 1.4.5(2) for a 112 Reclamation Permit Operation application.
- A determination by the Office that an application submitted to the Office contains the referenced application materials shall trigger the decision making periods provided under Sections 34-32.5-110(4), 111(5), or 34-32.5-115(1) and 115(2), C.R.S., as appropriate. A determination that an application is filed does not constitute a determination that the application adequately meets statutory and regulatory requirements.
- (2021) "Financial Warrantor(s)" means a person who provides a Financial Warranty to the Board.
- (2422) "Financial Warranty" ~~shall~~ means a written promise to the Board to be responsible for reclamation costs up to the amount specified by the Board or Office or required by the Act, together with proof of financial responsibility.
- (2223) "Inert Material" means non-water-soluble and non-putrescible solids together with such minor amounts and types of other materials, unless such materials are ~~acid or toxic producing toxic or acid-forming~~, as will not significantly affect the inert nature of such solids. The term includes, but is not limited to, earth, sand, gravel, rock, concrete which has been in a hardened state for at least sixty (60) days, masonry, asphalt paving fragments, and other inert solids. Protruding rebar or other metals within Inert Materials must be removed

to a practicable extent by torching, cutting, or gridding. Any material that contains coal or plastic shall not be classified as Inert Material.

~~(23) "Filed" means an application submitted to the Office and determined to contain the permit application information required by Rules 1.4.1, 1.6.2(1)(a)(i) and (b), 1.6.2(1)(g), and Rules:~~

- ~~• 1.4.2(2) for a 110 Limited Impact operation application; or~~
- ~~• 1.4.3(1) for a 110(6) Limited Impact Composite operation application; or~~
- ~~• 1.4.4(2) for a 111 Special Operation application; or~~
- ~~• 1.4.5(2) for a 112 Reclamation Permit Operation application.~~

~~A determination by the Office that an application submitted to the Office contains the referenced application materials shall trigger the decision making periods provided under Sections 34-32.5-110(4), 111(5), or 34-32.5-115(1) and 115(2), C.R.S., as appropriate. A determination that an application is filed does not constitute a determination that the application adequately meets statutory and regulatory requirements.~~

(24) "Landowner" means any individual person or persons, firm, partnership, association, corporation, or any department, division, or agency of federal, state, county, or municipal government which owns or controls the surface rights to any land area under consideration for the extraction or exploration for construction materials. These surface rights are separate from mineral rights which may or may not be owned and controlled by the same entity.

(25) "Life of the Mine" means and includes, but is not limited to, those periods of time from when a permit is initially issued, that an Operator engages in or plans to continue extraction of construction materials, complies with the Act and these Rules, and as long as construction material reserves remain in the mining operation. It can include limited periods of non-production or Temporary Cessation. "Life of the mine" also includes that period of time after cessation of production necessary to complete reclamation of disturbed lands as required by the Board and this article, until the Board releases, in writing, the Operator from further reclamation obligations regarding the affected land, declares the operation terminated, and releases all applicable Performance and Financial Warranties.

(26) "Limited Impact Operation" applies to any mining operation which affects less than ten (10) acres for the life of the mine.

(27) "Limited Impact Permit" shall mean a permit issued to a Limited Impact Operation.

(28) "Meeting" as the term is used in these Rules, means the regular monthly session held by the Board in accordance with Section 34-32.5-106, C.R.S. 1984, as amended. The topics to be considered include, but are not necessarily limited to:

- (a) approval or denial of permit applications;
- (b) approval or denial of applications for permit revisions, amendments, and permit transfers;
- (c) cause to hold a formal hearing with respect to a particular application or operation pursuant to Section 34-32.5-114, C.R.S. 1984, as amended;
- (d) determinations with respect to temporary cessation; and
- (e) other permit-related considerations which do not require a "formal hearing."

- (f) These meetings may also include, but are not necessarily limited to hearings, rule-making proceedings in accordance with the Administrative Procedures Act, Section 24-4-103, C.R.S. 1984, as amended, and executive sessions.
- (29) "Mining" means the extraction of construction materials.
- (30) "Mining Operation" means the activities associated with development, production -and/or extraction of a construction material from its natural occurrences or within refuse on affected land. The term includes, but is not limited to, open mining and surface operations. ~~and~~. The term also includes the following operations on affected lands: transportation, ~~or~~ processing, construction of facilities to support the mining operations, stripping, and removal and stockpiling of overburden -on affected lands. The term does not include: the exploration and extraction of natural petroleum in a liquid or gaseous state by means of wells or pipe; the development or extraction of coal; the extraction of geothermal resources; smelting, refining, cleaning, preparation, transportation, and other off-site operations not conducted on affected land.
- (31) "Modification" means any amendment or revision of any previously granted permit, including permit transfers, increases or decreases of the amount of financial warranty required by the Board, and declarations regarding temporary cessation, which is either:
- (a) initiated by the Board pursuant to Rule 3.3.2 as necessary to bring the operation into compliance with the provisions of these Rules or the Act, or
- (b) the subject of a petition for a formal hearing granted by the Board pursuant to Section 34-32.5-114 of the Act.
- (32) "Office" means the Office of Mined Land Reclamation within the Division of Reclamation, Mining and Safety (DRMS).
- (33) "Off-site" means the area outside of the permitted affected area.
- (34) "Open Mining" means the extraction of construction materials by removing the overburden lying above such deposits and mining directly from the deposits thereby exposed. The term includes mining directly from such deposits where there is no overburden. The term includes, but is not limited to, such practices as open cut mining, open pit mining, strip mining, quarrying, and dredging.
- (35) "Operator" means any person, firm, partnership, association, corporation, or any department, division, or agency of federal, state, county, or municipal government engaged in or controlling a mining operation.
- (36) "Overburden" means all of the earth and other materials which lie above natural construction materials and also means such earth and other materials disturbed from their natural state in the process of mining.
- (37) "Owner of Record" means the owner or owners of a surface property or mineral interest shown on the records of the County Assessor as of the date of filing.
- (38) "Party" means a person who demonstrates that they are directly and adversely affected or aggrieved by the conduct of a mining operation, proposed mining operation, or an order of the Board and whose interest is entitled to legal protection under the Act.
- (39) "Performance Warranty" shall mean a written promise to the Board, by the operator, to comply with all requirements of the Act.

- (40) "Permittee" means any person holding a mining Permit.
- (41) "Person" means any individual, firm, partnership, joint venture, association, limited liability company, or corporation or other entity, or any department, division, or agency of federal, state, county, or municipal government.
- (42) "Point of Compliance" means locations down-gradient of the facility or activity at which water sampling may be conducted to demonstrate compliance with applicable groundwater standards established by the Water Quality Control Commission, or permit conditions required by the Office or Board to measure compliance with the MLRB permit.
- (43) "Processing" means any activities associated with the preparation of construction materials for use. These activities include, but are not limited to: on-site transport, waste products from air emissions control and water treatment, crushing, screening, washing, slabbing, polishing, grinding, concrete or asphalt mixing or other such action exclusive of extraction.
- ~~(44) "Production" means active, orderly mining operations performed in relation to the extraction of a construction material from its natural occurrences, the processing or sale of an extracted mineral, or movement of extracted mineral material off site for further processing or sale. Minimal excavation and/or activity may not constitute production and is evaluated with respect to the scale of the mining operation.~~
- ~~(44) "Rating of 'A' or Better" means, with regard to financial warranties, that the rating organization has determined that the obligations are at least of an upper medium grade, meaning that factors giving security to the principal and interest are considered adequate but that elements may be present which suggest the possibility of adverse effects if economic and trade conditions change.~~
- (45) "Reclamation" means the employment during and after a mining operation of procedures reasonably designed to minimize as much as practicable the disruption from the mining operation and to provide for the establishment of plant cover, stabilization of soil, the protection of water resources, or other measures appropriate to the subsequent beneficial use of such affected lands. Reclamation shall be conducted in accordance with the performance standards of the Act.
- (46) "Refuse" means all waste material directly connected with the cleaning and preparation of substances mined by a mining operation.
- (47) "Regular Operation" applies to all mining operations not included within the definitions of Limited Impact, Special, or Exploration Operations, specifically, any mining operation affecting ten (10) acres or more.
- ~~(48) "Rolling Stock" means any portable or mobile equipment.~~
- ~~(49) "Salvage Value" of Project-related fixtures or equipment means the market value of the particular fixture or equipment less any necessary costs of demolition and/or removal, as determined by the Office or Board in accordance with the requirements in Rule 4.12.2.~~
- (5048) "Special 111(1)(a) Operation Permit" applies to any sand, gravel or quarry aggregate operation, or combination thereof:
- (a) which is operated for the sole purpose of obtaining materials for highway, road, utility, or similar construction;
 - (b) under a federal, state, county, city, town, or special district contract;

- (c) where the contract calls for work to be commenced and completed within a specifically short time; and
 - (d) which will affect thirty (30) acres or less.
- (~~50-149~~) "Special One-time Excavation 111(1)(b) Operation Permit" applies to any operation of a one-time excavation project which:
- (a) is not performed pursuant to a federal, state, county, city, town, or special district contract;
 - (b) generates small quantities of excess construction materials, twenty thousand (20,000) tons or less, that are incidental to the intent of the one-time project and introduces those materials into the construction materials market;
 - (c) is clearly defined, of short duration of less than one (1) year and scope;
 - (d) does not employ material processing activities typically associated with mining operations, such as crushing, washing, or asphalt and concrete production, unless approved by the Office;
 - (e) all extraction and export of materials are completed within twelve (12) months of permit issuance. Any Operator with a Special One-Time Excavation 111(1)(b) Operation Permit for which extraction and export activities are not completed within twelve (12) months after issuance of the permit, shall replace the Special One-Time Excavation 111(1)(b) Operation Permit with the applicable regular construction materials permit. All fee, warranty and processing requirements shall apply as a new permit application. A fee, as specified in Section 34-32.5-125(1)(a), C.R.S., shall be submitted at the time of the applicable regular construction materials permit application;
 - (f) reclaims all affected lands within twelve (12) months after issuance of the permit; and
 - (g) will affect thirty (30) acres or less.
- (~~5450~~) "Special Permit" shall mean a permit issued in accordance with the provision of Section 34-32.5-111, C.R.S. 1984, as amended.
- (~~5251~~) "Structure, Significant, Valuable and Permanent Man-made" means a non-portable improvement to real property which has defined, current and recognizable value of an economic nature; generally including but not limited to: buildings, houses, barns, fences, above or below ground utilities, irrigation ditches, maintained or public roads, bridges, railroad tracks, cemeteries, communication antennas, pipelines, water wells, water storage structures, discharge and conveyance structures, etc.
- (~~5352~~) "Technical Revision" means a change in the permit ~~or an application~~, which does not have more than a minor effect upon the approved ~~or proposed Mining or~~ Reclamation Plans.
- (~~5453~~) "Temporary Cessation" means those limited periods of non-production as specified according to Rule 1.13.
- (~~5554~~) "Toxic and/or Acid-forming-Producing Materials" means natural or reworked earth materials having acid or toxic chemical and physical characteristics that, under mining or post-mining conditions of drainage, exposure, or other processes, produce materials which contain

detrimental amounts of chemical constituents such as acids, bases, or metallic compounds.

(5655) "Topsoil or Growth Medium" means the material at the surface of the earth which has been so modified and acted upon by physical, chemical, and biological agents that it will support rooted plants necessary to achieve reclamation goals.

(5756) "Vegetation Cover" means an ocular estimate of the percentage of ground covered by the above-ground living plant parts.

(5857) "Vegetation Type" means a designation for a natural grouping of plant species named according to one or more visually-dominant species.

~~(59) "Working Day" means Monday through Friday, except for those days that are State holidays.~~

~~(60) "1976 Act" refers to the Colorado Mined Land Reclamation Act of 1976, Section 34-32-101, et seq., C.R.S. 1984, as amended.~~

1.2 ACTIVITIES THAT DO NOT REQUIRE A RECLAMATION PERMIT

1.2.1 Specified by Rule

The Board has determined that certain types of activities do not need reclamation permits either because the excavated substance is not a construction material as defined in Section 34-32.5-103(3), Colorado Revised Statutes 1984, as amended or because the activity is not a mining operation as defined by Section 34-32.5-103(13), C.R.S. 1984, as amended. Such activities include the following:

- (a) the exploration and extraction of natural petroleum in a liquid or gaseous state by means of wells or pipe;
- (b) the development or extraction of coal (refer to the Colorado Surface Coal Mining Reclamation Act Section 34-33-101, et seq., C.R.S. 1984, as amended);
- (c) cleaning, preparation, transportation, and other off-site operations not conducted on permitted land; and
- (d) the extraction of geothermal or groundwater resources.

1.2.2 Reserved

1.2.3 Reserved

1.2.4 Extraction or Exploration on Federal Lands

Any person who intends to extract or explore for construction materials on federal lands shall apply for a Mined Land Reclamation Board permit or submit a Notice of Intent to ~~e~~Conduct ~~e~~Exploration operations unless specifically exempted by the Board according to the provisions of Rule 1.2.

1.3 PUBLIC INSPECTION OF DOCUMENTS

- (1) Except as provided in Rule 1.3(3) all applications, public notices, inspection reports, documents, maps, exhibits, correspondence, tests, analyses, records of actions or findings of the Board or Office and other information required under this law or these Rules shall be promptly made available for inspection to any member of the public at the offices of the Office, during its normal business hours.
- (2) Upon request, copies shall be provided at cost or other suitable arrangements made for copying at the requester's expense, as allowed by copyright law.
- (3) An Operator may mark "CONFIDENTIAL" information supplied in a permit application disclosing the location, size, or nature of the deposit or depth and thickness of the deposit and thickness and type of overburden to be removed.
 - (a) Confidential information so marked shall not be available to the public until the mining operation is terminated, unless the Operator gives a written consent on company letterhead and signed by an authorized agent of the company to release all or any part of the information.
 - (b) All information in a Notice of Intent to Conduct Exploration shall be treated as confidential. Such information shall not be available to the public until a finding by the Board that reclamation is satisfactory, unless the Operator gives a written consent to the release of all or any part of the information.
 - (c) Anyone who willfully and knowingly violates the provisions of confidentiality shall be punished as provided by law.

1.4 APPLICATION REVIEW AND CONSIDERATION PROCESS

1.4.1 Applications - General Provisions

- (1) Application forms, attachments, maps and fees shall be submitted in accordance with the specific requirements for each permit type.
- (2) All tests, analyses, surveys and maps shall be prepared by qualified persons.
- (3) All information submitted in an application must be accurate and complete, and acknowledged as such by the signature, or other certification as designated and approved by the Office, of an authorized agent on an application form provided by the Board.
- (4) Prior to Office consideration of the application, submit proof of all required notices either by submitting return receipts of a Certified Mailing, electronic proof of service, or by proof of personal service.
- (5) All application forms shall contain the following information:
 - (a) the address, e-mail, and telephone number of the general-business office and the local address or addresses, e-mail, and telephone number of the Operator/Applicant;
 - (b) the name, address, e-mail, and telephone number of the Owner of the surface of the affected land and the source of the Operator's/Applicant's legal right to enter and initiate a mining operation on the affected land;

- (c) the name, address, e-mail, and telephone number of the Owner of the subsurface rights of the affected land and the source of the Operator's/Applicant's legal right to enter and initiate a mining operation on the affected land;
 - (d) a statement that the Operator/Applicant has applied for or will seek all necessary approvals from local government;
 - (e) a statement that the operations will be conducted in accordance with the terms and conditions listed in the application, as well as with the provisions of the Act and these Rules, as amended, in effect at the time the Permit is approved or amended; and
 - (f) the Operator's/Applicant's signature or other certification as designated and approved by the Office.
- (6) In addition to submitting an appropriately completed Permit application form, the Operator/Applicant shall submit all applicable Exhibits specified in Rule 6 for the appropriate type of operation.
- (7) In the case of any complex Permit applications, technical revisions, serious unforeseen circumstances or significant snow cover on the affected land that prevents a necessary on-site inspection, the decision date established by the Office may be extended up to sixty (60) Days beyond the usual maximum limit for an operation of that particular type and size. The Office shall notify the Applicant and any persons commenting on the application, of such findings and of the new decision date as soon as possible.
- (8) The Office shall notify the Applicant of any deficiencies that prevent the application from being considered filed by the Office within ten (10) Working Days of receiving the application. In the case of 111 Special Operation applications, the Office shall notify the Applicant within five (5) Working Days. An Applicant has sixty (60) Days from such notice to submit all the necessary documents that the Office needs for an application to be considered filed. If this date does not fall on a Working Day, then the date will be automatically set to the next Working Day. If, at the end of the sixty (60) day period, the application has not been determined to be filed with the Office, the Office may deny the application and terminate the application file. If the Office denies and terminates the application file, the Office shall determine if the Applicant desires a return of the applications and shall provide the applications to the Applicant at no cost to the Office. Otherwise, the Office may dispose of all copies as appropriate. An Applicant may appeal such denial to the Board according to the provisions of Rule 1.4.11.
- (9) At the request of the Applicant, the review time may be extended and the decision date reset, not to exceed three hundred and sixty-five (365) days from the date the application was filed. The additional time may be requested to allow the Applicant an opportunity to provide information necessary to meet the adequacy requirements of the Office. If, at the end of the three hundred and sixty-five (365) day period, the application has outstanding adequacy issues, the Office may set the matter for a Board hearing. At the hearing the Board may deny, or approve the application with or without conditions. To allow the Applicant an opportunity to provide information necessary to meet the adequacy requirements of the Office, the Applicant may request that the Office's review time be extended and the Office's decision date reset, not to exceed three hundred and sixty-five (365) Days from the date the application was filed. If, at the end of the three hundred and sixty-five (365) day period, the application has outstanding adequacy issues and there have been timely filed objections to the application, the Office may issue a rationale recommending approval or denial of the application and shall set the matter for a Board hearing. If there remain adequacy issues after three hundred and sixty-five (365) Days but

no objections to the application have been timely submitted, the Office may issue the decision on the application or set the matter for a Board hearing. At the hearing the Board may at the request of the Applicant extend the review time and decision date, deny the application, or approve the application with or without conditions.

- (10) The Applicant has the burden of demonstrating that the application meets the minimum requirements of the Act, Rules, and Regulations.
- (11) The Applicant shall follow the appropriate Notice Procedures, according to permit type, as outlined in Rule 1.6.
- (12) A condition or limitation to approval of the application, unless acknowledged and consented by the Applicant in writing, shall be treated as a denial.
- (13) Failure of an Applicant to publish the notice pursuant to Rule 1.6.2(1)(d) shall add a sufficient number of days for the required public notice to be accomplished. An additional time period, as determined by the Office, may be added for the Office or Board to make a decision. Such time period shall not exceed thirty (30) ~~d~~Days for any 110 ~~or 110(6)~~Limited Impact application, ninety (90) ~~d~~Days for any 112 Reclamation Permit application without objections, or one hundred and twenty (120) ~~d~~Days for any 112 Reclamation Permit application with objections.

1.4.2 Specific Application Requirements for 110 Limited Impact Permit Applications

- (1) All general application requirements outlined in Rule 1.4.1 shall be required for 110 Limited Impact Operations.
- (2) An application will be considered filed for the purpose of calculating the thirty (30) ~~d~~Day decision-making time period under Section 34-32.5-110(4), C.R.S., as amended, when the application file includes all of the following submittals:
 - (a) the application fee, as determined under Section 34-32.5-125, C.R.S., as amended;
 - (b) one (1) original and one (1) copy, or an electronic submittal as designated and approved by the Office, of:
 - (i) the application form;
 - (ii) all information, attachments, maps, and exhibits, as listed and described in Rules 1.4.1 and 6.3;
 - (iii) an affidavit that notice signs were posted on-site pursuant to Rule 1.6.2(1)(b);
 - (iv) the appropriate information under Rule 6.5 if required by the Office; and
 - (v) proof of notice according to the provisions of Rule 1.6.2(1)(a).
- (3) Proof of the notices required pursuant to Rules 1.6.2(1)(d), (e), and (f) is not required in order for an application to be considered filed, but such proof must be submitted to the Office prior to the Office's decision to approve an application, pursuant to Rule 1.6.2(1)(g).

~~1.4.3 Reserved Specific Application Requirements — 110(6) County Composite Limited Impact Permit~~

~~(1) All general application requirements outlined in Rules 1.4.1, 1.4.2(2), and (3) shall also be required for and apply to a County Composite 110(6) Operation.~~

~~(2) Applications shall comply with Sections 34-32.5-110(1) through (7), C.R.S. 1984, as amended. Financial Warranty requirements under Section 34-32.5-110(2), C.R.S. 1984, as amended, shall not be required if:~~

~~(a) the Operator is a unit of county government or the State Department of Transportation; and~~

~~(b) the Operator submits a Performance Warranty, in lieu of financial warranty, stating that the affected lands will be reclaimed in accordance with the terms of the permit and Section 34-32.5-116, C.R.S. 1984, as amended.~~

1.4.4 Specific Application Requirements - 111 Special Operations Applications

- (1) Prior to submission of an application for a 111 Special Operations Permit, any County Applicant shall apply for and receive a Declaratory Order by the MLRB that it qualifies for a 111 Special Operation Permit.
- (2) All general application requirements outlined in Rules 1.4.1 and 1.4.2(2) shall be required for and apply to a 111 Special Operation.
- (3) The Office shall approve or deny the application within fifteen (15) calendar days after the date the application is filed.
- (4) In the event of an objection regarding the approval or denial of a 111 Special Operation Permit, the provisions of Rule 1.4.11 shall apply.
- (5) A governmental subdivision shall be exempt from an application fee and a Financial Warranty when such subdivision, acting as an Operator, requires a permit solely to extract construction material for the construction of public roads under a contract with the Department of Transportation or otherwise.

1.4.5 Specific Application Requirements - 112 Reclamation Permit Operations

- (1) All general application requirements outlined in Rule 1.4.1, shall be required for a 112 Reclamation Permit Application.
- (2) An application will be considered filed for the purpose of calculating the decision-making time periods under Section 34-32.5-115(1), C.R.S., as amended, when the application file includes all of the following submittals:
 - (a) The application fee, as determined under Section 34-32.5-125 C.R.S., as amended;
 - (b) one (1) original and one (1) copy, or an electronic submittal as designated and approved by the Office, of:
 - (i) the application form;
 - (ii) all information, attachments, maps, and exhibits, as listed and described in Rules 1.4.1 and 6.4;

- (iii) an affidavit that notice signs were posted on-site pursuant to Rule 1.6.2(1)(b);
 - (iv) the appropriate information under Rule 6.5 if required by the Office; and
 - (v) proof of notice according to the provisions of Rule 1.6.2(1)(a).
- (3) Proof of the notices required pursuant to Rules 1.6.2(1)(d), (e), and (f) is not required in order for an application to be considered filed, but such proof must be submitted to the Office prior to the Office's decision to approve an application, pursuant to Rule 1.6.2(1)(g).

1.4.6 Office Consideration - 110 ~~or 110(6)~~ Limited Impact Operation Permit Applications

- (1) The Office shall approve or deny a 110 Limited Impact ~~or 110(6) Limited Impact~~ application within thirty (30) ~~d~~Days of the date the application is considered filed. If this date does not fall on a Working Day, then the date for consideration by the Office will be automatically set to the next Working Day. -However, the date set for consideration by the Office may be extended pursuant to the provisions of Rule 1.8 (unless the submitted materials satisfy Rule 1.8.1(4)) or of Rules 1.4.1 (9) or (13). The time for consideration shall not be extended beyond thirty (30) ~~d~~Days after the last such change submitted under Rule 1.8., unless requested by the Applicant.
- (2) In the event that an objection to a 110 ~~or 110(6)~~ Limited Impact permit application, submitted in the form of a protest or petition for a hearing, is received by the Office pursuant to the provisions of Rule 1.7, the Office shall proceed to issue its decision by the date set for consideration in Rules 1.4.6(1), 1.4.1(9), 1.4.1(13) or 1.8. However, the Office may set the matter for a hearing before the Board, pursuant to the provisions of Rule 1.4.11.

1.4.7 Office Consideration - 111 Special Operations Permit Applications

- (1) The Office shall approve or deny the application within fifteen (15) calendar days after the date the application is filed. If this date does not fall on a Working Day, then the date for consideration by the Office will be automatically set to the next Working Day.
- (2) In the event of an objection regarding the approval or denial of a 111 Special Operation Permit, the provisions of Rule 1.7.1(2)(b) shall apply.

1.4.8 Office Consideration - 112 Reclamation Permit Application with No Objections

- (1) When a 112 Reclamation Permit application has been filed, and there are no protests or petitions for a hearing on the application submitted by a party pursuant to Rule 1.7, the Office shall issue the decision to approve or deny the application, as provided for in Section 34-32.5-115 C.R.S., no more than ninety (90) ~~d~~Days after the application ~~was-is~~ filed with the Office. If this date does not fall on a Working Day, then the date for consideration by the Office will be automatically set to the next Working Day. The Office shall not set a new date unless the date for consideration has been extended pursuant to Rules 1.4.1(7), (9), or (13).
- (2) The date set for a decision on the application may be extended, pursuant to Rule 1.8 (unless the submitted materials satisfy Rule 1.8.1(4)). Such date shall not be extended beyond ninety (90) ~~d~~Days after the last revision to the application.

1.4.9 Office Consideration - 112 Reclamation Permit Application to which an Objection Has Been Received

- (1) If a timely and sufficient objection or petition for a hearing on a 112 Reclamation Permit Application is received by the Office from a party pursuant to Rule 1.7, the Office shall set a date for consideration of the application in conformity with the provisions of this Rule. Such date shall be no more than ninety (90) ~~d~~Days after the application is filed with the Office. If this date does not fall on a Working Day, then the date for consideration by the Office will be automatically set to the next Working Day. The date for consideration may be extended pursuant to Rules 1.4.1(7), (9), or (13), or 1.8 (unless any submitted materials satisfy Rule 1.8.1(4)). Instead of a decision, the Office will issue a recommendation to the Board by the date set for Office consideration.
- (2) In addition, the Office shall:
 - (a) schedule the permit application for a hearing before the Board;
 - (b) provide all parties notice of ~~any the~~ Pre-hearing Conference and of the Board hearing related to consideration of the application. Unless notice is waived in writing by all ~~p~~Parties, the ~~e~~Office shall provide all ~~p~~Parties at least thirty (30) ~~d~~Days written notice of the ~~f~~ormal Board ~~h~~earing date; and;
 - (c) on or before the date set for Office consideration of the application, issue a recommendation to the Board for approval, approval with conditions, or denial of the application. Such recommendation shall identify the issues raised by the Office or by the petitions for a hearing filed with the Office. The Office's recommendation and rationale for approval or denial shall be sent to the Applicant and to all objectors of record at least three (3) Working Days prior to the Pre-hearing Conference. Upon request, the Office will also send by electronic mail its recommendation and rationale to a party, or a party may pick up a copy at the Office. Copies of the Office's recommendation and rationale will be available at the Pre-hearing Conference.
- (3) Where a 112 Reclamation Permit Application is set for a hearing, the Board shall make a final decision on the application within one hundred and twenty (120) ~~d~~Days after the date the application was filed, unless the date set for consideration has been extended pursuant to Rules 1.4.1(7), (9), or (13), 1.8, or Section 34-32.5-115(2), C.R.S.
- (4) The decision rendered by the Board shall be considered final agency action for the purposes of the judicial review provisions of Section 24-4-106, C.R.S.

1.4.10 Reserved

1.4.11 Administrative Appeal of an Office Decision

- (1) Any person who ~~can~~demonstrates that they are directly and adversely affected or aggrieved by an action of the Office, including a decision to grant or deny a permit application, other than an application considered under the provisions of Rule 1.4.9, and whose interests ~~are~~is entitled to legal protection under the Act may petition for a hearing before the Board on such action within:
 - (a) sixty (60) ~~d~~Days of the date of the Office decision if the Office decision was a denial, without a hearing, of an application for a permit or a Notice of Intent; or
 - (b) thirty (30) ~~d~~Days for an appeal of any other Office decision.
 - (c) Such hearings before the Board shall comply with this Rule and Section 24-4-105, C.R.S.

- (d) Such petitions for a hearing shall state how the petitioner is directly and adversely affected or aggrieved by the Office's decision, and how the petitioner's interests are entitled to protection under the Act. The petitioner shall list and explain any issue the petitioner believes should be considered by the Board at the hearing on the matter. The petition for a hearing shall specify the application or file number assigned by the Office.
- (2) If no petition decision is made by the Board within sixty (60) eDays of the date the petition is submitted, the petition will be deemed denied. Such denial shall be considered final agency action for the purposes of the judicial review provisions of Section 24-4-106, C.R.S.
- (3) The Office shall give notice of any Formal Board Hearing to consider an appeal according to the provisions of Rule 1.6.1(4).
- (4) The Office may determine whether to hold a pre-hearing conference dependent upon the number of parties to the Formal Board Hearing and/or complexity of the issues, or the Board may so direct the Office as the Board sees fit.

1.4.12 Appeal of a 112 Reclamation Permit Application Denial

If the Office issues a decision to deny an application for a 112 Reclamation Permit, it shall schedule the application for a hearing before the Board unless the Applicant decides to withdraw the application. Such hearing shall be scheduled prior to the deadline for a final decision on the application pursuant to Section 34-32.5-115(2), C.R.S., and Rule 1.4.9(3) or 1.4.8(2) above, and shall be conducted in conformance with the provisions of Section 24-4-105, C.R.S.

- (a) Within ten (10) eDays of receipt of the letter of denial, the Applicant shall file a statement of issues to be considered by the Board at the hearing. The statement shall include an explanation of the grounds for seeking a reversal of the Office's decision.
- (b) If there are no other parties to the proceedings on the application the Applicant may waive the statutory deadline for a final decision. In that event, the Applicant shall file the statement of issues to be considered by the Board at the hearing within sixty (60) eDays of the receipt of the letter of denial.

1.4.13 Automatic Application Approval

- (1) If the Office or the Board fail to make a decision on a permit application by the deadlines set forth in Rules 1.4.6, 1.4.7, 1.4.8, and 1.4.9, or as extended by Rule 1.8, the application shall be deemed approved and the permit shall be granted upon submittal by the Applicant and approval by the Office of the appropriate performance and financial warranties.
- (2) Where an Applicant has waived its right, in writing, to a decision by the deadlines set forth in statute or by these Rules, the automatic approval provisions of Rule 1.4.13(1) shall not apply.

1.5 ANNUAL FEE

Each year, on the anniversary date of the permit, the Permittee shall submit the appropriate annual fee specified in Section 34-32.5-125(1)(b), C.R.S.

1.6 PUBLIC NOTICE PROCEDURES

1.6.1 Office/Board Procedures - Permit Application Decision Dates

- (1) The Office shall give such notice of the decision date for applications for all types of mining operations, including applications for:
 - (a) 110 Limited Impact Operations;
 - (b) 111 Special Operations; and
 - (c) 112 Reclamation Operations.

- (2) The Office shall give notice, as required by ~~this~~ Rule 1.6 and the following specific provisions, of the decision date of the application to:
 - (a) the Applicant;
 - (b) the county(s) in which the proposed mining operation is to be located;
 - (c) any municipality within two (2) miles of the proposed mining operation; ~~and~~
 - (d) the Colorado State Board of Land Commissioners (State Land Board); and
 - ~~(e)~~ the public, by newspaper release, by electronic submittal on the Office website as designated and approved by the office, and posting as prescribed in Rule 2.2.1(a)(iii).

- (3) The Office shall send written and/or electronic notice of the date, time and place of any Pre-hearing Conference to:
 - (a) the Applicant;
 - (b) all persons who submitted timely statements in support of or objections to the application and a basis for party status; and
 - (c) the Board of County Commissioners and the applicable Conservation District.

- (4) The Office shall provide notice of the date, time, and place of any application hearing by the Board, by:
 - (a) sending written and/or electronic notice to the Applicant, any person previously filing a protest or petition for a hearing or statement in support of the application, and the local Board of County Commissioners;
 - (b) publishing notice in a newspaper of general circulation in the locality of the proposed mining operation once a week for two (2) consecutive weeks immediately prior to the hearing; and
 - (c) mailing list, newspaper release, the Office website, and posting as prescribed in Rule 2.2.1(a)(iii).

1.6.2 General Applicant Procedures

- (1) The Applicant shall:

- (a) Prior to submitting the application to the Office, send a notice, on a form approved by the Board, to the local Board of County Commissioners and, if the mining operation is within the boundaries of a Conservation District, to the Board of Supervisors of the Conservation District.
- (i) The Applicant shall include proof of such notice with the application at the time the application is submitted to the Office.
 - (ii) Proof of notice shall be in the form of a return receipt of a Certified ~~m~~Mailing, e-receipt, or a date-stamped copy of the notice acknowledging receipt by the appropriate local Board.
- (b) Prior to submitting the application to the Office ~~for a 112 Reclamation Permit~~, post notices (signs) at the location of the proposed mine site, as required by the Office, of sufficient number along publicly accessible areas and a minimum size of eleven (11) inches wide by seventeen (17) inches high, with appropriate font size, to clearly identify the site as the location of a proposed mining operation. ~~giving name, address, and phone number of the Applicant, and stating that (name of Applicant) has applied for a mining permit with the Colorado Mined Land Reclamation Board. Anyone wishing to comment on the application may view the application at the County Clerk's or Recorder's office and should send comments prior to the end of the public comment period to the Colorado Mined Land Reclamation Office, and state the Office's address, as given on the cover of these Rules. For any class of 110 Limited Impact or 111 Special Operation, the Applicant need only post notice at the location of the proposed access to the site.~~ After having posted such notices, failure by an Applicant to maintain such notices ~~(sign)~~ shall not constitute just cause to deny approval of the application. At the time the application is filed with the Office, the Applicant shall provide a signed affidavit that such notices ~~(signs)~~ were posted according to the provisions of this Rule. Notices shall contain:
- (i) name, address, e-mail, and phone number of Applicant;
 - (ii) a statement that the Applicant has applied for a mining permit with the Colorado Mined Land Reclamation Board;
 - (iii) location where additional information on the operation may be obtained, including the Office Website; and
 - (iv) location, including the Office Website link, for submitting statements of support or objections with the Office.
- (c) Prior to submitting the application to the Office and/or prior to submitting amendments to the application, place for public review a copy of the application and amendments, without confidential items, with the Clerk or Recorder of the county or counties in which the affected land is located and provide proof as required by Rule 6.3.9 for 110 Limited Impact and 111 Special Operations and Rule 6.4.18 for 112 Reclamation Operations.
- (d) Except for 111 Special Operation Permit applications, within ten (10) ~~e~~Days after the Office notifies the Applicant that the application is considered filed, publish a public notice in a newspaper of general circulation in the locality of the proposed mining operation containing:
- (i) name, ~~and~~ address, e-mail, and phone number of Applicant;

- (ii) location of the proposed mining operation by section, township and range and street address where applicable;
 - (iii) proposed dates of commencement and completion of the operation;
 - (iv) proposed future use of affected land;
 - (v) location where additional information on the operation may be obtained, including the Office Website; and
 - (vi) location, including the Office Website link, and final date for submitting statements of support or objections with the Office.
- (e) Except for 111 Special Operation Permit applications, the applicant shall mail or personally serve a copy of the notice provided for in Rule 1.6.2(1)(d) immediately after the first publication to
- (i) all Owners of Record of the surface and mineral rights of the affected land; and
 - (ii) the Owners of Record of all land surface within 200 feet of the boundary of the affected lands.
- (f) As soon as designated by the Office, mail a copy of the ~~Notice~~ notice provided for in Rule 1.6.2(1)(d) to any other Owners of Record who might be affected by the proposed mining operation. The Office shall designate such owners, if any, during its adequacy review process. (Not applicable to 111 Special Operation Permit applications.)
- (g) ~~Prior to Office consideration of the application, submit proof of publication and proof of all required notices.~~ Proof of Notice may be by submitting return receipts of a Certified ~~mail~~ Mailing or by proof of personal service. An application will be considered filed by the Office when the Applicant supplies the proper application fee, a signed affidavit that all notices as provided for in Rule 1.6.2(1)(b) have been posted, and the application meets the applicable requirements of Rules 1.4.1, 1.4.2, ~~1.4.3,~~ 1.4.4, or 1.4.5. Prior to Office consideration of the application, proof of notice provided for in Rules 1.6.2(1)(d), (e), and (f) must be received by the Office.
- (2) The copy of the permit application, adequacy responses of the applicant, application revisions, and any permit amendment applications placed at the office of the County Clerk or Recorder shall not be recorded, but shall be retained until final agency action, as defined at C.R.S. 24-4-105(14), on said application has occurred, and be available for inspection during such period. At the end of such period, such application may be reclaimed by the Applicant or destroyed. Applicants should contact the Office prior to removal of the copy of the application materials placed with the office of the County Clerk or Recorder in order to ensure compliance with C.R.S. 24-4-105(14). The copy of the permit application, adequacy responses of the applicant, application revisions, and any permit amendment applications on file with the Office Website constitute the official public file and shall remain accessible to the public.

1.6.3 Specific Provisions - 110 Limited Impact Permit Applications

- (1) The following Notice Rules and the notice requirements of Rule 1.6.2 also apply to applications for new 110 Limited Impact Permits.

- (2) The Office shall give written notice, by mailing or e-notify, of the decision date for the application.
- (3) The Public Notice, as required in Rule 1.6.2(1)(d), shall be published once.

1.6.4 Specific Provisions - 111 Special Operations Permit Application

The Office shall, upon filing, give notice by an expeditious method, of the decision date of the application.

1.6.5 Specific Provisions - 112 Reclamation Permit Application

- (1) The Public Notice, as required in Rule 1.6.2(1)(d) shall be published four (4) times, once a week for four (4) consecutive weeks.
- (2) Within ten (10) working days after the last publication or as soon thereafter as proof has been obtained, the Applicant shall mail proof of the publication required by Rule 1.6.2(1)(d) to the Office. Proof of publication may consist of either a copy of the last newspaper publication, to include the date published, or a certified or notarized statement from the paper. An application may not be approved until such proof has been obtained.

1.6.6 Conditions that Require New Notice to the Public

If a notice is in error or a change to the application is so substantial, as determined by the Office, that it affects any of the terms contained in the notice that was published in the newspaper or mailed to the owners of the affected and adjacent lands, or the change is an amendment to the application, the Applicant shall be required to publish and mail a new notice of the application. In the event that the Applicant is required to issue a new notice, all applicable deadlines shall begin to run anew.

1.7 SUBMISSION OF COMMENTS AND PETITIONS FOR A HEARING

1.7.1 General Provisions

- (1) Any person has the right to submit written statements supporting or objecting to any application for a permit or for an amendment, or revision of a previously granted permit. For a person to become a party, the person must meet the definition of a party as provided in these regulations. Any party may petition for a hearing on any application for a permit, or for an amendment or technical revision to a previously granted permit.
- (2) In order for statements supporting or objecting to an application, petitions for a hearing, and/or submissions to become a party to be considered timely, the following deadlines shall apply:
 - (a) In the case of a 112 Reclamation Permit Application, such written comments, protests, and petitions for a hearing must be received by the Office not more than twenty (20) calendar days after the last date for the newspaper publication of notice of the application provided for in Rules 1.6.2(1)(d) and 1.6.5(1). Written comments, protests and/or petitions must contain the name, mailing address, e-mail, and telephone number of the interested parties. The Office shall set the matter for a hearing before the Board upon timely receipt of a written objection, protest, or petition for a hearing under this Rule.
 - (b) In the case of a 111 Special Operations Permit application, any person directly or adversely affected or aggrieved by the Office's decision to grant or deny the 111

Special Operations Permit application and whose interests are entitled to legal protection under the Act may appeal the Office's decision pursuant to Rule 1.4.11. The written appeal must contain the name, mailing address and telephone number of the person directly or adversely affected or aggrieved by the Office's decision.

- (c) In the case of a 110 Limited Impact Permit application, such written comments, protests or petitions for a hearing must be received by the Office not more than ten (10) eDays after the last date for newspaper publication of notice of the application provided for in Rules 1.6.2(1)(d) and 1.6.3(3). The written comment, protest and/or petition must contain the name, mailing address, e-mail, and telephone number of the interested parties. The Office may set the matter for a hearing before the Board upon timely receipt of a written petition for a hearing under this Rule, but in any case shall approve or deny the permit application within thirty (30) eDays of the date the Office considers the application filed according to the provisions of Rules 1.4.1(9), (13) or 1.8. If the Office does not set the matter for a hearing, any person who demonstrates that they are directly and adversely affected or aggrieved by the Office's decision to grant or deny the 110 Limited Impact Permit application and whose interests are entitled to legal protection under the Act may appeal the Office's decision pursuant to Rule 1.4.11.

- (3) If the Office receives any written objections to an application pursuant to the Rule 1.7.1(2), the Office shall provide a copy of the objection to the Applicant within ten (10) eDays of receipt.

1.7.2 Specific Provisions - 110 Limited Impact Operations ~~and 110(6) County Composite Operations~~

- (1) Comments shall be submitted in accordance with Rule 1.7.1.
- (2) To be considered, such statements must be received by the Office within ten (10) eDays after the last date of the Applicant's newspaper publication.

1.7.3 Specific Provisions -111 Special Operations Permit Applications

- (1) Comments, to be considered, must be received by the Office within five (5) ~~w~~Working eDays after the application has been filed.
- (2) Upon consideration, the Office shall approve or deny the application within the fifteen (15) eCalendar eDays after the application has been filed.
- (3) Objections to final decisions by the Office shall be handled according to the procedures outlined for 110 Limited Impact Permits, specifically Rule 1.4.11.

1.7.4 Specific Provisions - 112 Reclamation Permit Applications

- (1) Comments shall be submitted in accordance with Rules 1.7.1 and 1.7.4.
- (2) In the event the Office receives an objection within twenty (20) eCalendar eDays of the last day of publication and in accordance with this Rule 1.7, it shall set the permit application for a hearing before the Board, according to the provisions of Rule 2.

1.8 AMENDMENTS ~~AND TECHNICAL REVISIONS~~ TO A PERMIT APPLICATION

1.8.1 General Provisions - 110 Limited Impact or 112 Reclamation Permit Applications

- (1) An Applicant may amend ~~or make technical revisions to~~ an application for a permit under consideration by the Office by filing a copy of such amendment ~~or technical revision~~ with the Office and placing a copy with the County Clerk and Recorder.
- (2) Within five (5) ~~w~~Working ~~d~~Days of placement with the County Clerk or Recorder, the Applicant shall provide the Office with an affidavit or receipt demonstrating that the amendment ~~or technical revision~~ was placed with the County Clerk and Recorder not later than the close of business on the day the amendment ~~or technical revision~~ was filed with the Office.
- (3) Any amendment ~~or technical revision~~ to an application shall constitute a new filing for the sole purposes of determining the date for the consideration of the application by the Office, and for the deadline for a final decision on the application. The provisions of Rules 1.6.6 and 1.10 shall apply to submitted amendments and as determined by the Office, be accompanied by a basic fee as specified in Section 34-32.5-125, C.R.S. 1984, as amended. ~~the provisions of Rules 1.8.2 or 1.8.4 shall apply to technical revisions for 110 Limited Impact or 112 Reclamation Permit applications, respectively.~~
- (4) If the Office determines that additional information is submitted by the Applicant for the purpose of detailing, clarifying or explaining any part of the application, whether at the request of the Office or otherwise, then such additional information shall not constitute a change or an addition resulting in an amendment ~~or technical revision to the application.~~
- (5) If the ~~Operator Applicant~~ notifies the Office of a proposed change in post-mining land use ~~or a change in the proposed mining plan or reclamation plan~~, the Office shall decide whether such change ~~is significant enough to require the submittal of an amendment.~~ ~~in post-mining land use requires a change in the Reclamation Plan and whether such change shall require a Technical Revision or Permit Amendment.~~ A significant change to the proposed mining or reclamation plan as determined by the Office, a change to the proposed post-mining land use, and/or an increase in the proposed permit acreage requires the submittal of an amendment to the application.
- (6) Within five (5) ~~w~~Working ~~d~~Days of the filing of an amendment ~~or technical revision~~ to an application, the Office shall set a new date for the consideration of the application. The new date shall be set pursuant to Rule 1.6.6, ~~1.8.2 or 1.8.4, as applicable.~~

~~1.8.2—Technical Revisions to 110 Limited Impact Permit Applications~~

~~The Office shall set a new date for the consideration of a technical revision to an application a 110 or 110(6) Limited Impact Permit only as necessary to afford an adequate opportunity for a review of the technical revision by the Office and by any interested members of the public.~~

~~1.8.32~~ 111 Special Operation Permit Applications

- (1) An Applicant may amend ~~or technically revise~~ an application for a 111 Special Operations by filing a copy of the amendment ~~or technical revision~~ with the Office and by providing the Office with proof of submittal of notice of the amendment ~~or technical revision~~ to an application to the local Board of County Commissioners. Proof of notice shall be submitted with the amendment ~~or technical revision~~ to the application. An amendment to an application must be submitted on a form approved by the Board.
- (2) Within three (3) ~~w~~Working ~~d~~Days of the filing of an amendment ~~or a technical revision~~ to an application with the Office, the Office shall set a new date for the consideration of the application. A new date shall be set only as necessary to afford an adequate opportunity

for a review of the amendment ~~or technical revision~~ to the application by the Office and by any interested members of the public.

~~1.8.4~~ **Technical Revisions to 112 Reclamation Permit Applications**

- ~~(1) Written objections to the application:
The Office shall not set a new date for consideration of an application for a 112 Reclamation Permit for which it has received written objections, any earlier than twenty (20) days after the date of filing a technical revision to the application, unless the Applicant and all parties agree on an earlier date.~~
- ~~(2) No written objection to the application:
The Office shall set a new date for the consideration of an application to which no objection has been submitted only as necessary to afford the Office an adequate opportunity to review the technical revision.~~

1.9 TECHNICAL REVISION TO A PERMIT

1.9.1 Filing and Review Process

An application for Technical Revision shall be filed ~~in writing with the Office by electronic submittal as designated and approved by the Office~~. The Office shall act on a Technical Revision application within thirty (30) ~~d~~Days after the Technical Revision has been filed with the Office. ~~If this date does not fall on a Working Day, then the date will be automatically set to the next Working Day.~~ A Technical Revision is considered filed when the submittal includes the appropriate fee. A Technical Revision shall be considered automatically approved within thirty (30) ~~d~~Days after filing unless the application is denied. Notice of Technical Revisions shall be acknowledged in the monthly activity report attached to the monthly Board agenda.

1.9.2 Denial and Appeal Process

In the event that the Office decides to deny an application for Technical Revision, the Office will notify the ~~Applicant-Operator~~ in writing within ten (10) ~~d~~Days after the decision deadline. The ~~Applicant-Operator~~ may appeal the decision to the Board for a final determination by submitting a petition for a hearing pursuant to the provisions of Rule 1.4.11.

1.10 AMENDMENT TO A PERMIT

1.10.1 112 Reclamation Permit and 110 Limited Impact Permit Amendments

- (1) Where applicable, there shall be filed with any application for a 112 Reclamation Permit amendment, attachment(s) map(s) and one (1) original and one (1) copy, or by electronic submittal as designated and approved by the Office, of the application with the same content as required for an original application, except that the Applicant will not be required to submit any information which duplicates applicable previous submittals. However, the Applicant shall clearly describe where in the original application and supporting documents the information not included in the amendment application, but necessary to render the amendment technically adequate, may be found.
- (2) A 110 Limited Impact permit amendment submittal shall include attachment(s), map(s), and one (1) original and one (1) copy, or by electronic submittal as designated and approved by the Office, of the application with the same content as required for an original application, except the Applicant will not be required to submit any information which

duplicates applicable previous submittals. However, the applicant shall clearly describe where, in the original application and supporting documents, the information not included in the amendment application, but necessary to render the amendment technically adequate, may be found.

- (3) The amendment application shall be accompanied by a basic fee as specified in Section 34-32.5-125, C.R.S.
- (4) ~~An Application~~ for amendments shall be reviewed by the Board or Office in the same manner as an applications for a new Permits.
- (5) All aspects of the mining operation and Reclamation Plan that are subject to the amendment will be subject to these Rules, as amended, in effect at the time the Permit is amended.

1.10.2 111 Special Operation Permit Amendments

111 Special Operation permit amendments are not allowed by statute. An Operator may only make changes defined under Rule 1.1(~~5352~~).

1.11 CONVERSIONS

1.11.1 Purposes and Types

- (1) A conversion is an application to change an existing permit to another type of permit based on an increase in acreage of the mining operation such as changing a 110 Limited Impact Permit or a 111 Special Operation to a 112 Reclamation Permit.
- (2) Unless such mining is incidental to the permitted activity, any Operator who intends to mine any commodity other than a "construction material" commodity, as defined in Section 34-32.5-103(3), C.R.S., shall apply for a conversion to a new permit under the provisions of Section 34-32-101, et seq, C.R.S. Upon issuance of the new permit, the existing permit under Section 34-32.5-101, et seq, C.R.S., shall be terminated. Such determinations may be made through a declaratory order by the Board.
- (3) Any Operator with a Special One-Time Excavation 111(1)(b) Operation Permit for which extraction and export activities are not completed within twelve (12) months after issuance of the permit, shall ~~replace-convert~~ the Special One-Time Excavation 111(1)(b) Operation Permit with the applicable regular construction materials permit. All fee, warranty and processing requirements shall apply as a new permit application. A fee, as specified in Section 34-32.5-125(1)(a), C.R.S., shall be submitted at the time of the applicable regular construction materials permit application.

1.11.2 Application Process

- (1) Except for permit conversions under Rules 1.11.1(2) and 1.11.1(3), the original Permittee cannot convert a Permit unless the permit has been in existence for two (2) consecutive years.
- (2) All fee, warranty and permit processing requirements shall apply as though the Conversion application were a new permit application. A fee, as specified in Section 34-32.5-125(1)(a), C.R.S., shall be submitted at the time of the application submittal.
- (3) Contents of application:

- (a) except as otherwise indicated in this Rule 1.11.2, the Operator shall provide all the information required by the Act and these Rules for the size of operation. However, the Operator need not supply any information required by the provisions of the Act which has been previously supplied unless such information is different from that in the original application. However, the Applicant-Operator shall clearly describe where in the original application and supporting documents the information not included in the conversion application, but necessary to render the conversion application technically adequate, may be found.
- (b) In addition, the application shall show:
 - (i) the area mined or disturbed; and
 - (ii) the area reclaimed since the original permit application.

1.12 PERMIT TRANSFERS AND SUCCESSION OF OPERATORS

1.12.1 Approval Process

- (1) Where one Operator succeeds another at any uncompleted operation, the first Operator shall be released from all liability as to that particular reclamation operation and all applicable Performance and Financial Warranties as to such operation shall be released if the successor Operator assumes, as part of the obligation under the Act and these Rules, all liability for the reclamation of the affected land, and the obligation is covered by replacement Performance and Financial Warranties as to such affected land.
- (2) Requests for permit transfers and succession of Operators must be submitted on "Request for Transfer of Construction Material Permit and Succession of Operators" forms provided by the Board. To be considered filed, Each request must include an executed Performance Warranty, State approved W-9, and applicable replacement Financial Warranty, as well as proof of notice to all Owners of Record of the surface of the affected land and the mineral rights of the substance to be mined, any updated legal right of entry agreements if necessary, and updated damage waiver agreements or a geotechnical report demonstrating approved safety factors to protect off-site structures within 200 feet of the affected lands.
 - (a) The Office shall act on a Succession of Operator application within thirty (30) ~~d~~Days.
 - (b) Succession of Operator requests will be considered automatically approved after thirty (30) ~~d~~Days of the date the Succession of Operator request is filed with the Office unless the Operator is notified by the Office that the request is deficient or denied. Succession of Operator requests must be submitted on forms provided by and approved by the Board, and include the fee specified in Section 34-32.5-125(1) C.R.S., and the properly executed financial and performance warranties, and damage waiver agreements or geotechnical stability reports, when required.
- (3) Approval of a permit transfer and succession of Operator request shall be given by the Office if it finds that the successor Operator is capable of assuming all responsibility for the conditions included under the original permit. Notice of Permit Transfer will be acknowledged in the monthly activity report attached to the monthly Board agenda.

1.12.2 Denial and Appeal Process

- (1) In the event that the Office decides to deny a succession of Operator application, the Office will notify the Applicant in writing within ten (10) ~~d~~Days of the decision deadline.
- (2) The Applicant may appeal the Office's decision to the Board for a final determination according to the provisions of Rule 1.4.11.

1.13 TEMPORARY CESSATION

1.13.1 General Provisions

- (1) A permit granted pursuant to these Rules shall continue in effect as long as:
 - (a) an Operator continues to engage in the extraction of construction material and/or the mining operation and complies with the provisions of the Act; ~~and~~
 - (b) construction material reserves are shown by the Operator to remain in the mining operation; ~~and the Operator shows a reasonable plan to resume the mining operation or commence final reclamation; and~~
 - (c) the mining operation is maintained in compliance with the requirements set forth in Rule 1.13.5(2)(d).
- (2) The Board will consider all relevant testimony and facts related to a mining operation in its determination as to whether or not temporary cessation has occurred. The Board recognizes that no one factor is necessarily determinative, but that each determination will be based on site-specific conditions; ~~and activity. In considering whether or not an operation is in production, the Board may take into consideration, among other factors, orderly mining operations or activities that further advance the mining operation commensurate with the scale of the operation, or other relevant facts.~~ Factors to be included in the determination if a mine will be considered for temporary cessation, include, but are not limited to the following:

1.13.2 Indications of Temporary Cessation

- (1) there are no personnel working at the site for one hundred and eighty (180) consecutive days as may be determined through annual reports, inspections and/or operator submissions;
- (2) ~~there are only security personnel at the site~~ activity at the site is limited to general maintenance, housekeeping or similar related activity;
- (3) ~~there are personnel other than security people at the site, but they are engaged in activities which can be described as maintenance or housekeeping, or related activity~~ activities at the site are not significantly advancing the site towards completion of the mining operation or final reclamation. The Board will consider activities at the site in relation to the scale of the operation and other relevant facts;
- ~~(4) there are personnel at the site, but they are engaged in activities which are not significantly moving the site towards completion of the mining operation. The Board will judge these activities in relation to the size of the operation, the nature of the deposit and other facts;~~
- ~~(5)~~ (4) there is no sale or processing of material or movement of stockpiled material off site;
- ~~(6)~~ (5) there is only minimal ~~or token excavation of construction material or other material;~~ activity given the scale of the mining operation, including limited excavation of mineral or

other material, and such activity is not orderly or does not advance the mining operation or final reclamation, as determined by the Office or Board;

~~(76)~~ mine development has ceased and mining has not recommenced; or

~~(7)~~ the permit has not exhausted ten (10) consecutive years of non-production.

1.13.3 Indications Against Temporary Cessation

(1) Extraction of construction materials has been completed, production has ceased, and only final reclamation and related activities remain at the site; occurring at the site are part of the "life of the mine" (see Definition or see Section 34-32.5-103(11), C.R.S.); or

~~(2)~~ production has ceased for more than ten (10) consecutive years;

~~(23)~~ a permit has been issued, but the mining operation has not commenced on the affected lands; or

~~(4)~~ a 111 Special Operation permit has been issued.

1.13.4 ~~Temporary Cessation for a Portion of a Mining Operation Reserved~~

~~There may be Temporary Cessation for part of the mining operation when one or more operations of several separable types within a permit has been discontinued. Movement of portable equipment between permitted sites shall not be construed to be Temporary Cessation.~~

1.13.5 Notice by Operator

(1) If the Operator plans to, or does, temporarily cease production ~~of the mining operation~~ for one hundred and eighty (180) days or more, the Operator must file a Notice of Temporary Cessation ~~in writing, to the Office, electronically on a form approved by the Office; such Notice shall set forth the reasons for the temporary cessation and the expected duration of the temporary cessation.~~

(a) Initial period shall be the first five (5) years of Temporary Cessation beginning with the one hundred and eighty (180) day period of production cessation.

(b) The second five (5) year period of Temporary Cessation shall begin at the end of the initial period of Temporary Cessation.

(2) The Notice of Temporary Cessation for the initial period shall include the following to be considered filed for review by the Office and Board and must include:

(a) the date of cessation of production;

(b) the reasons for non-production or cessation of the mining operation;

(c) a plan for resumption of mining;

(d) the measures to be taken to comply with reclamation requirements and/or other activities related to the performance standards of Rule 3.1 while the mine is in Temporary Cessation; and including, but not limited to, any permit requirements or environmental monitoring and water treatment if required, and a schedule for reporting monitoring data;

- (e) demonstration that the existing Financial Warranty is adequate to cover the reclamation liability; and
 - (f) an acknowledgement of the five (5) year limit date of the initial period of Temporary Cessation.
- (3) The Notice for the second period shall include the following to be considered filed for Board consideration:
- (a) demonstration that the existing Financial Warranty is adequate to cover the reclamation liability;
 - (b) explanation as to why the Operator has not recommenced operations or begun reclamation;
 - (c) demonstration of continued commitment to conduct mining operations at the site by the end of the second five (5) year period including a plan for resumption of mining operations and production-;
 - (d) the measures to be taken to comply with reclamation requirements and/or other activities related to the performance standards of Rule 3.1 while the mine is in Temporary Cessation including, but not limited to, any permit requirements for environmental monitoring and water quality treatment if required, and a schedule for reporting monitoring data; and
 - (c) an acknowledgement of the ten (10) consecutive year limit for non-production and temporary cessation of mining activities.
- (4) Prior to the Board Hearing to consider the request ~~for the~~of a second five (5) year period of Temporary Cessation, the Office shall:
- (a) conduct an inspection of the site to verify compliance with the Act and Construction Material Rules and Regulations, and any required permit conditions;
 - (b) review the permit file for complaints against the operation and the status of resolution of those complaints;
 - (c) report to the Board at the Hearing comments by any owner of affected land or local government comments.
- (5) The Notice of Temporary Cessation shall be separate from any other correspondence or reports and submitted to the Office electronically on the approved form.
- (6) The requirement of a Notice of Temporary Cessation shall not apply to Operators who resume the mining operation within one (1) year and have included in the permit applications a statement that the affected lands are to be used for less than one hundred and eighty (180) days per year.

1.13.6 Notice of Resumption of Mining Operations

If the Operator plans to resume mining operations and/or production, the Operator must file a Notice of Resumption of Mining operations electronically on a form approved by the Office at least thirty (30) days prior to reactivation. Such Notice shall set forth the following:

- (a) date of resumption of mining operations;

- (b) a detailed description of the mining operations that are to resume;
- (c) anticipated date of the resumption of production;
- (d) the measures to be taken to comply with reclamation requirements and/or other activities related to the performance standards of Rule 3.1 including, but not limited to, any permit requirements for environmental monitoring and water treatment if required;
- (e) demonstration that the existing Financial Warranty is adequate to cover the reclamation liability; and
- (f) any resumption of mining activities must be legitimate in nature considering the scale of the mining operation and is orderly or advances the mining operation or final reclamation. The Office and/or Board may reject any notice of resumption of mining operations if such activity is reasonably characterized as inconsistent with Rule 1.13.2(5).

1.13.67 Board/Office Procedure

- (1) Upon receipt of the above submission as outlined in Rule 1.13.5~~(2)~~ or 1.13.6, the Office will place the Notice of Temporary Cessation or Notice of Resumption of Mining on the tentative agenda of the next regular Board meeting and give notice to the Operator, the county planning commission, any federal jurisdiction, and any municipalities within two (2) miles of the proposed operation, by mail or electronic notification.
- (2) The Board, at said meeting and in consultation with the Operator and ~~other interested parties, any other person who demonstrates that they are directly and adversely affected or aggrieved and whose interest is entitled to legal protection under the Act,~~ may take whatever action(s) it deems necessary and are authorized by law, including but not necessarily limited to:
 - (a) acceptance of the Notice of Temporary Cessation or Notice of Resumption of Mining as submitted;
 - (b) acceptance of the Notice of Temporary Cessation or Notice of Resumption of Mining as submitted with modifications and other necessary activities as established by the Board;
 - (c) a determination that the mining operation is not in a state of temporary cessation or has not resumed mining operations; or
 - (d) continuance of the matter for another month or more to allow the Operator to revise the Notice of Temporary Cessation or Notice of Resumption of Mining and/or to allow the Office staff to conduct a site inspection or otherwise review the matter as necessary.
- (3) When no reclamation or performance standard issues or problems are indicated in the Notice of Temporary Cessation or Notice of Resumption of Mining or by field or file inspection, and no concerns are expressed by interested persons, the Notice ~~shall not be placed on the agenda or heard by the Board. In such cases, the county and appropriate municipality will be notified and the fact of the receipt of the Notice by the Office will be acknowledged in the monthly activity report attached to the monthly agenda~~ for an initial period of Temporary Cessation or any Notice of Resumption of Mining may be moved from the tentative agenda to the consent agenda of the final agenda for Board consideration.

(4) Any objections to a Notice of initial period of Temporary Cessation or Resumption of Mining must be received no later than three (3) Working Days prior to the scheduled Board meeting.

(5) All Notices for a second consecutive period of Temporary Cessation or where timely objections have been received shall be noticed and scheduled for Board consideration at the next regularly scheduled Board meeting following receipt of the Notice and timely objection.

1.13.78 Application Requirements - Substitute for Notice of Temporary Cessation

Where certain mining operations have periods of inactivity exceeding one hundred and eighty (180) days, ~~the Operator a permit applicant~~ may include in the permit application, ~~or amendment of technical revision,~~ the information otherwise required when filing a Notice of Temporary Cessation (Please see Rules 6.3.3(1)(a) or 6.4.4(e)). If approved by the Board or Office, such Notice in the permit shall serve as a substitute for the Notice of Temporary Cessation with the following conditions:

- (a) The Operator must report to the Board through the Annual Report:
 - (i) the condition of the operation at the time of cessation;
 - (ii) what specific measures have been and will be implemented to comply with reclamation and performance standards; ~~and~~
 - (iii) plans for resumption of mining; ~~and~~
 - (iv) any two consecutive annual reports that indicate no mining operations and/or production shall require the mining operation to be placed into Temporary Cessation regardless of the Substitute Notice.

1.13.89 Five Year Term of Temporary Cessation

- (1) A permit granted pursuant to these Rules shall continue in effect as long as:
 - (a) the mining operation and production are ~~is~~ resumed within five (5) years of the beginning of Temporary Cessation; ~~or~~
 - (b) the Operator files a request for an extension of the period of Temporary Cessation with the Board meeting the requirements of Rule 1.13.5(3) and secures Board approval of that request.
 - (c) the Operator is conducting reclamation pursuant to an approved reclamation plan or Board order.
- (2) The Board shall, when necessary, establish the commencement of ~~Temporary Cessation~~ to determine the start of the five (5) year period described in Rule 1.13.89. Regardless of a request by the Operator or the Office, a five (5) year period of Temporary Cessation is a factual determination.
- (3) Once the maximum limit of ten (10) consecutive years of Temporary Cessation has been reached, final reclamation of the affected lands shall be initiated with all reasonable diligence, as soon as practicable and as conditions allow. Final reclamation shall be completed within five years, unless extended by the Board or Office.

1.13.910 Ten Year Limitation for Temporary Cessation

In no case shall Temporary Cessation be continued for more than ten (10) consecutive years without terminating the mining operation and fully complying with the Reclamation Plan requirements of the Act and these Rules.

1.14 TERMINATION

1.14.1 Permit Termination

- (1) A permit granted pursuant to these Rules shall continue in effect as long as:
 - (a) the Board does not take action to declare termination of the life of the mine, which action shall require a sixty (60) ~~e~~Day notice to the Operator alleging a violation of the permit, the Act or Rules; or
 - (b) there is a discontinuance of the mining operation with a Temporary Cessation filing as provided in Rule 1.13.5 or 1.13.~~78~~ for ten (10) or less consecutive years; or
 - (c) there is no failure to submit the reports required under Rules 1.13.5 and 1.13.~~78~~; or
 - (d) there is no failure to comply with the requirements of Rule 1.13.~~89~~.
- (2) In the event the Operator is not in compliance with the provisions of Rule 1.14.1(1), the Board shall provide a reasonable opportunity for the Operator to meet with the Board to present the full case and further provide reasonable time for the Operator to bring violations into compliance. Such hearings and procedures shall be in compliance with the requirements of Rule 3.3.2; or at such hearings the Board may:
 - (a) declare termination of the life of the mine according to the provisions of this Rule and after finding a violation in accordance with Rule 3.3.2, set forth reclamation timetables and other provisions leading to termination of the permit; or
 - (b) declare that a mining operation is in a state of Temporary Cessation, establishing a commencement date and any additional permit conditions, as necessary, according to a review of the facts.

1.15 ANNUAL REPORT INCLUSIONS

- (1) The Annual Reclamation Report shall include all information specified on the Annual Reclamation Report Form, in the format required by the Office, and specifically:
 - (a) the Operator shall submit, together with the Annual Reclamation Report, an updated statement regarding the sufficiency of the value of the Financial Warranty. Additional reasonable data to substantiate the value of the existing Financial Warranty shall be provided if requested by the Office or Board; and
 - (b) for any Financial Warranty which is submitted in the form of a Deed of Trust or a Security Agreement, the Operator ~~shall~~ may be required to submit, together with the Annual Reclamation Report, an update by a qualified appraiser indicating any changes in property value, and a statement summarizing any circumstances which may affect the adequacy of the Deed of Trust or Security Agreement, or the value of the property subject thereto.

- (c) The Operator shall provide all monitoring information required as part of the approved Reclamation Plan.
 - ~~(d) A map showing the permit boundary, the affected land boundary if different than the permit boundary, the location of stockpiled topsoil, the extent of current disturbances to affected lands including areas that were newly affected during the reporting period, areas reclaimed during the reporting period, the estimated extent of new areas to be affected in the next reporting period, areas to be reclaimed in the next reporting period, and any other information requested by the Office for the requirements of Section 34-24-102, C.R.S.~~
 - ~~(e) changes over the preceding year regarding any disturbances to the prevailing hydrologic balance;~~
 - ~~(f) changes over the preceding year regarding any disturbances to the quality and quantity of water in surface and groundwater systems;~~
 - ~~(g) reclamation accomplished to date and during preceding year;~~
 - ~~(h) new disturbances that are anticipated to occur during the upcoming year; and~~
 - ~~(i) anticipated reclamation that will be performed during the upcoming year.~~
- (2) An Operator may request a one-time change to a date other than the anniversary date of the permit for the purpose of submitting Annual Reclamation Reports.
 - (3) The Annual Report for Special 111(1)(a) Operations shall include a statement as to the date the public road construction project has or will terminate.

~~**1.16 ADDRESS CHANGE, SALE OF PROPERTY BY AN OPERATOR, CHANGE IN PROPERTY LEASE, OR BUSINESS NAME OR OWNERSHIP CHANGE, AND NOTICE OF FILING OF A PETITION IN BANKRUPTCY**~~

- ~~(1) It shall be the duty of the Operator to keep the Office notified of any mailing address change by promptly sending written notice of such change to the Office. The Office is entitled to assume, in the absence of such Notice, that it may proceed with the last previous address provided by the Operator, and the Operator will be bound by such Notice as if actually received.~~
- ~~(2) Where an Operator is the owner of the lands to be mined and the Operator sells such lands, the Operator shall promptly notify the Office of such sale. Where an Operator leases the lands, the Operator shall promptly notify the Office of any substantial changes that affect right of legal entry upon the lands to be mined.~~
- ~~(3) Where an Operator's official business name changes or there is a change in business ownership or business form, the Operator shall contact the Office within thirty (30) days of such change in order to revise performance and financial warranty documents and complete the Succession of Operator forms.~~
- ~~(4) Where an Operator files a petition in bankruptcy, the Operator shall immediately notify the Office via certified mail of such filing.~~

1.16 MISCELLANEOUS PERMIT ADMINISTRATION CHANGES

1.16.1 Operator Address Change

- (1) It shall be the duty of the Operator to keep the Office notified of any mailing or e-mail address change by sending written notice or filing an electronic notice of such change to the Office within thirty (30) Days. The Office is entitled to assume, in the absence of such Notice, that it may proceed with the last previous address provided by the Operator, and the Operator will be bound by such Notice as if actually received.

1.16.2 Sale of Property by an Operator

- (1) Where an Operator is the owner of the affected lands and the Operator sells such lands, the Operator shall notify the Office of such sale within thirty (30) Days.

1.16.3 Change in Property Lease

- (1) Where an Operator leases the affected lands, the Operator shall notify the Office of any changes that affect their right of legal entry to the affected lands within thirty (30) Days.

1.16.4 Business Name or Ownership Change

- (1) Where an Operator's official business name changes or there is a change in business ownership or business form, the Operator shall contact the Office within thirty (30) Days of such change in order to revise performance and financial warranty documents and complete the Succession of Operator forms, if applicable.

1.16.5 Notice of Bankruptcy Filing

- (1) Where an Operator files a bankruptcy petition, the Operator shall notify the Office via certified mail of such filing within five (5) Working Days.

1.16.6 Operation Name Change

- (1) Where an Operator wishes to change the operation name of a permit, the change shall be submitted as a Technical Revision unless the change is proposed during a Succession of Operator application.

1.16.7 Death of an Operator

- (1) Upon death of an Operator, the executor of the Operator's estate or other legally appointed representative shall establish legal right to act on the Operator's behalf within sixty (60) Days or as soon as practical. A copy of the death certificate and legal documentation of assignment as executor, etc. shall be sufficient.

RULE 2: BOARD MEETINGS - PERMIT APPLICATION HEARINGS, DECISIONS AND APPEALS

2.1 BOARD MEETINGS

2.1.1 General Provisions

Except for Executive Sessions of the Board, all meetings shall be open to the public and any member of the public may, at the discretion of the Board, address the Board on any subject within the Board's jurisdiction. In the event the item is not on the agenda, no formal action may be taken by the Board until the full notice provisions in these Rules are met.

2.2 NOTICE PROCEDURES FOR MEETINGS OF THE BOARD

2.2.1 Regular Board Meetings

Except as otherwise provided by law or these Rules, Public Notice of regular meetings shall be provided by the Board as follows:

- (a) A minimum of ten (10) days prior to the meeting, Notice of its date, time, place, format, and agenda by:
 - (i) mailing or e-mailing to all persons having requested Notice of Board meetings and prepaid costs of the service, unless costs are waived for good cause, and to Operators whose Permit(s) or operation(s) may be the specific subject of consideration at the meeting;
 - (ii) publishing at least once in a newspaper of general circulation in the state, listing each Applicant's name, local address and the location of the affected land by section, township and range and by street address, if applicable;
 - (iii) posting in a conspicuous, publicly accessible location at the offices of the Office of Mined Land Reclamation, the Office Website, and in all Press Rooms of the State Legislature; and
 - (iv) mailing a copy of the agenda to the local newspaper in the locality of the proposed mining operation.
- (b) All parties entitled to notice of the hearing, including the Applicant or Operator shall be given notice of the time, place, format, and nature thereof, the legal authority and jurisdiction under which it is to be held, and the matters of fact and law asserted. Such hearing shall be conducted pursuant to these Rules and the provisions of Section 24-4-105, C.R.S.

2.2.2 Other Meetings

Public Notice of all other meetings shall be provided by the Board as prescribed in Rule(s) 2.2.1 and/or 1.12.2 except upon a Board finding that an emergency condition exists, whereupon notice shall be provided as much in advance of the meeting as possible.

2.2.3 Agenda Changes or Additions

Additions or changes to the agenda after the 10-day notification may be made regarding emergency situations, informational items, and Special Permits as outlined in Rules 1.4.4 and 1.7.3. In this event, the Board will endeavor to give notification, if possible, as outlined above, and will be required to notify any Operator or individual scheduled to be heard.

2.3 BOARD QUORUM

- (1) Four (4) Board members shall constitute a quorum.
- (2) The Board shall act by majority vote of members present, except that four (4) affirmative votes are required for any amendment of these Rules.

2.4 RESERVED

2.5 DECLARATORY ORDERS (Section 24-4-105, C.R.S.)

2.5.1 Cause for Seeking a Declaratory Order

Any person who is or may be directly and adversely affected or aggrieved and whose interests are entitled to legal protection under the Act may petition the Board for declaratory order to terminate controversies or to remove uncertainties as to the applicability to the Petitioner of any statutory provision of or any rule or order of the Board made pursuant to the Colorado Land Reclamation Act For The Extraction Of Construction Materials (Section 34-32.5-101, C.R.S. et seq.).

2.5.2 Petition Submission

- (1) The petition must be submitted electronically to the Board, and is served on the Office, at a minimum, seven-ten (7-10) days prior to the Board meeting at which it is to be considered. At a hearing the Board may grant, deny, or continue consideration of the petition. Unless requested by the Board, all hearings for considerations of petitions shall be non-evidentiary. The Petitioner shall have the burden of proving all of the facts stated in the petition, all of the facts necessary to show the nature of the controversy or uncertainty and the manner in which the statute, rule or order in question applies or potentially applies to the Petitioner and any other facts the Petitioner desires the Board to consider.
 - (a) At the regularly scheduled Board meeting, the Board will determine in its discretion and without notice to Petitioner, whether to rule upon any such petition.
 - (b) If the Board determines that it will not rule upon such a petition, the Board shall promptly notify the Petitioner of its action and state the reasons for such action.
- (2) Any petition filed pursuant to this rule shall set forth the following:
 - (a) the name, e-mail address and physical address of the Petitioner and whether the Petitioner is a Permittee pursuant to the Colorado Mined Land Reclamation Act;
 - (b) the statute, rule or order to which the petition relates;
 - (c) a concise statement of all of the facts necessary to show the nature of the controversy or uncertainty and the manner in which the statute, rule or order in question applies or potentially applies to the Petitioner.

2.5.3 Consideration of Petition

In determining whether to rule upon grant or deny a petition filed pursuant to this Rule, the Board will consider the following matters, among others:

- (a) whether a ruling on the petition will terminate a controversy or remove uncertainties as to the applicability to Petitioner of any statutory provision or rule or order of the Board.
- (b) whether the petition involves any subject, question or issue which is the subject of a formal or informal matter or investigation currently pending before the Board or a court involving one or more of the Petitioners.
- (c) whether the petition involves any subject, question or issue which is the subject of a formal or informal matter or investigation currently pending before the Board or a court, but not involving any Petitioner.
- (d) whether the petition seeks a ruling on a moot or hypothetical question or will result in an advisory ruling or opinion.
- (e) whether the Petitioner has some adequate legal remedy, other than an action for declaratory relief pursuant to Rule 57, Colorado Rules of Civil Procedure, which will terminate the controversy or remove any uncertainty as to the applicability to the Petitioner of the statute, rule or other in question.

2.5.4 Procedure for Consideration

If the Board determines that it will rule on the petition the following procedures shall apply:

- (a) Notice of hearing shall be provided to the Petitioner and all parties granted intervention pursuant to Rule 2.5.5. The Board may, without further notice, rule upon the petition based solely upon the facts presented in the petition. In such a case, any ruling of the Board will apply only to the extent of the facts presented in the petition and any amendment to the petition.
- (b) The Board may order the petitioner to file a written brief, memorandum or statement of position.
- (c) The Board may set the petition, upon due notice to Petitioner, for a non-evidentiary hearing.
- (d) The Board may request the petitioner to submit additional facts, in writing. In such event, such additional facts will be considered as an amendment to the petition.
- (e) The Board may take administrative notice of facts pursuant to the administrative procedure act (Section 24-4-105(8), C.R.S.) and may utilize its experience, technical competence and specialized knowledge in the disposition of the petition.
- (f) If the Board rules upon the petition without a hearing, it shall within ten (10) ~~w~~Working ~~d~~ays notify the petitioner of its decision by electronic notice and deposit in the mail.
- (g) The Board may, in its discretion, set the petition for hearing upon due notice to Petitioner, for the purpose of obtaining additional facts or information or to determine the truth of any facts set forth in the petition or to hear oral argument on the petition. The notice to the Petitioner setting such hearing shall set forth, to the extent known, the factual or other matters into which the Board intends to inquire. For the purpose of such a hearing, to the extent necessary, the Petitioner shall have the burden of proving all of the facts stated in the petition, all of the facts necessary to show the nature of the controversy or uncertainty and the manner in which the statute, rule or order in question applies or potentially applies to the Petitioner and any other facts the Petitioner desires the Board to consider.

2.5.5 Party Status and Petition to Intervene

- (1) The Office shall be granted party status upon request.
- (2) Any other person may seek leave of the Board to intervene in such a proceeding, and leave to intervene will be granted at the sole discretion of the Board based upon the interest of the person and whether that interest is entitled to legal protection under the Act and how that person is affected or aggrieved by the petition for Declaratory Order.
- (3) A petition to intervene shall set forth a concise statement of the facts necessary to demonstrate the nature of its position, and the manner in which the statute, rule or order in question does or does not apply to the Petitioner.

2.5.6 Effect of a Declaratory Order

Any declaratory order or other order disposing of a petition pursuant to this Rule shall constitute final agency action subject to judicial review pursuant to Section 24-4-106, C.R.S.

2.6 PRE-HEARING PROCEDURES - MOTIONS, WITNESS AND EXHIBIT LISTS

The provisions of this Rule 2.6 shall apply to the Applicant and any entity that has party status.

- (1) All motions, except those made during a hearing, or when the Board deems an oral motion to be appropriate, shall be in writing and shall state the grounds for the motion. Motions shall be received electronically by the Board no later than two (2) Working Days following the Pre-hearing Conference. Any written response to a motion must be received electronically by the Board no later than three (3) Working Days prior to the date of the Formal Board Hearing.
- (2) A party to a Formal Board Hearing may use witnesses or exhibits at the Formal Board Hearing. Parties shall provide a written list of all potential witnesses and exhibits at the Pre-hearing Conference in accordance with the following:
 - (a) The list of potential witnesses must include each witness' name, current address, e-mail, and phone number, area of expertise (if expert witness), and the subject matter of the testimony. Parties are not obligated to use any witness even if listed, but parties may not, without express permission from the Board at the Formal Board Hearing, introduce testimony from a witness that was not listed in accordance with this Rule.
 - (b) Information on exhibits shall be exchanged as follows:
 - (i) For any materials not already in the Office public files, each party to the Hearing shall provide all other parties to the Hearing and the Office with copies of any materials to be used as exhibits at the Formal Board Hearing at or before by the close of business the day of the Pre-hearing Conference via electronic means, unless otherwise ordered by the Pre-hearing Conference officer. Where an item cannot practicably be reproduced, the exhibit must be made available to the parties and the Office for inspection upon request.
 - (ii) For any materials that are already in the Office public files, and for any materials not provided to the other parties pursuant to the exception set out in Rule 2.6(2)(b)(i), each party shall provide all other parties and the Office with a list of the materials to be used with sufficient specificity to describe the exhibit, including but not limited to the specific title or

description of each exhibit, such as maps, reports, adequacy responses, correspondence, agreements, data printouts, photographs, and drawings. The list must also specify where the other parties to the Formal Board Hearing and the Office may review and obtain a copy of, or inspect, each exhibit.

- (3) All motions, responses, replies, witness lists, and exhibit lists shall identify the names, e-mail, mailing address, and phone number of the submitting party, and the file number assigned to the case by the Office. If a party is represented by an attorney or other representative, the name, address and phone number of the attorney or other representative shall be provided on all documents submitted to the Board. All motions and lists shall be served on all parties and the Office at the same time and manner they are served on filed with the Board. ~~The Filing with the Board shall be served done electronically through the Office of Mined Land Reclamation its secretary. Service on the Office shall not constitute filing with the Board.~~

2.7 PRE-HEARING CONFERENCES

2.7.1 General Provisions

Prior to the Formal Board Hearing on any matter application, the Board may hold a Pre-hearing Conference in accordance with the following procedures:

- (1) The Pre-hearing Conference will be held to describe the Office's review process, to explain the rights and responsibilities of parties, to discuss and resolve issues to the extent possible, to describe the Board Hearing processes, to propose a list of issues under the Board's jurisdiction, to simplify that list, and to identify parties.
- (2) The Pre-hearing Conference shall be conducted by a Pre-hearing Conference Officer appointed by the Board.
- (3) The Pre-hearing Conference Officer shall prepare a proposed Pre-hearing Order. The proposed Pre-hearing Order shall be made available to all parties prior to the Formal Board Hearing. In no instance shall the Pre-hearing Conference Officer's recommendations to the Board be considered final agency action for the purposes of judicial review under Section 24-4-106, C.R.S.
- (4) The proposed Pre-hearing Order shall include:
 - (a) a recommended list of the parties and their names, e-mails, mailing addresses, and phone numbers;
 - (b) a recommended list of issues to be considered by the Board at the Formal Board Hearing; and
 - (c) a recommended schedule for the hearing with time allotments set for presentation by each party and the Office.
- (5) In the case of a Pre-hearing Conference held on the matter of a 112 Reclamation Permit application, the Pre-hearing Conference shall be held after the Office has issued its written recommendation and at least ten (10) eCalendar dDays prior to the Formal Board Hearing.

2.7.2 Board Consideration of the Proposed Pre-hearing Order

At the Formal Board Hearing on a matter for which a Pre-hearing Conference was held, the Pre-hearing Conference Officer or a representative of the Pre-hearing Conference Officer shall present the proposed Pre-hearing Order to the Board for its consideration. The Board shall consider any objection to the proposed Pre-hearing Order submitted by a party, as well as any changed circumstances related to the Formal Board Hearing arising subsequent to the Pre-hearing Conference, and shall subsequently adopt, amend and adopt, or reject the proposed Pre-hearing Order. If the proposed Pre-hearing Order is rejected by the Board, the Chair of the Board shall direct the Formal Board Hearing on the matter.

2.7.3 Parties Rights and Responsibilities

- (1) All parties have the right to present evidence, call witnesses, and cross-examine all other parties' witnesses. All parties are entitled to be represented by an attorney, or may designate a proxy, by way of a written proxy authorization, to attend the Pre-hearing Conference on behalf of the party. The proxy authorization must be on a form approved by the Board and presented to the Pre-hearing Conference Officer on or before the date of the Pre-hearing Conference.
- (2) In order for a person to seek judicial review of the Board's decision, that person must have been a party to the Formal Board Hearing that considered the issue. However, all parties to the Formal Board Hearing on a matter that do not file for judicial review are required by Section 24-4-106, C.R.S., to be named as defendants in any judicial review action.
- (3) Any person who is a party to a matter before the Board and who wishes to withdraw as a party must do so in writing prior to the commencement of or on the record during the Formal Board Hearing on the matter.
- (4) Any party who does not attend the Pre-hearing Conference forfeits its party status and all associated rights and privileges, unless such party provides a fully executed proxy authorization form to the Pre-hearing Conference Officer and the party's authorized representative is present. A party may attend the Pre-hearing Conference via telephone, or if applicable via video conference, if such a request is made to the Pre-hearing Conference Officer, or a representative, at least five (5) ~~w~~Working ~~d~~Days, or less for good cause shown, prior to the scheduled Pre-hearing Conference date, and facilities at the site of the Pre-hearing Conference allow for a conference call.
- (5) If all parties to a 112 Reclamation Permit application that is to be considered at a Formal Board Hearing withdraw, the Board directs the Office to act on behalf of the Board and to timely approve or deny the application, unless the Office determines that a Formal Board Hearing should be held.

2.8 HEARINGS

2.8.1 General Provisions - Board Hearings

- (1) Except as otherwise provided by statute, the proponent of an order shall have the burden of proof, and every party to the proceeding shall have the right to present its case or defense by oral and documentary evidence, to submit rebuttal evidence, and to conduct such cross-examination as may be required for a full and true disclosure of the facts. Subject to these rights and requirements, where a hearing will be expedited and the interests of the parties will not be substantially prejudiced thereby, a person conducting a hearing may receive all or part of the evidence in written form.

- (2) Any party, other than an Operator/Applicant, who does not attend the Board Hearing forfeits its party status and all associated rights and privileges. A party may not appear at a Formal Board Hearing by proxy.
- (3) A party may file a motion to attend the hearing via telephone or video conference pursuant to the following requirements:
- (a) A party may file an e-mail request for telephonic or video appearance with the Board Chair no later than fourteen (14) eCalendar dDays prior to the Hearing. The motion shall state the reason(s) for requesting to participate at the hearing by phone or video. The motion shall be served by mail or electronic attachment on all parties.
 - (b) Any party may file with the Board Chair a response to the request for telephonic or video appearance. The response must be filed by e-mail no later than ten (10) eCalendar dDays prior to the hearing.
 - (c) The Board Chair will rule on the request for telephonic or video appearance at least seven (7) eCalendar dDays prior to the hearing. In the event the Board Chair does not issue a ruling on the request no later than seven (7) eCalendar dDays prior to the hearing, the request for telephonic or video appearance shall be deemed denied.
- (24) The rules of evidence and requirements of proof shall conform to the extent practicable, with those in civil non-injury cases in district courts. However, when necessary to do so in order to ascertain facts affecting the substantial rights of the parties to the proceeding, the Board may receive and consider evidence not admissible under such rules, if such evidence possesses probative value commonly accepted by reasonable and prudent people in the conduct of their affairs.
- (a) Objections to evidentiary offers may be made and shall be noted in the record.
 - (b) The Board shall give effect to the rules of privilege recognized by law.
 - (c) The Board may exclude incompetent and unduly repetitious evidence.
 - (d) Documentary evidence may be received in the form of a copy or excerpt if the original is not readily available; but, upon request, the party shall be given the opportunity to compare the copy with the original.
- (35) The Board may utilize its experience, technical competence, and specialized knowledge in the evaluation of the evidence presented to it.
- (46) The Board may take notice of general, technical, or scientific fact, but only if the fact so noticed is specified in the record or is brought to the attention of the parties before final decision and every party is afforded an opportunity to controvert the fact so noticed.
- (57) The Board and Office shall proceed with reasonable dispatch to conclude any matter presented to it with due regard for the convenience of the parties or their representatives.

2.8.2 Board Decision

- (1) In any case on which the Board has conducted a hearing, the Board shall prepare, file and serve upon each party, its decision in the form of a written order.

- (2) Every such decision rendered by the Board at a hearing shall thereupon become the final decision of the Board and Office on such matter.
- (3) Each written order shall include a statement of findings and conclusions upon all the material issue of fact, law or discretion presented by the record and the appropriate order, sanction, relief, or denial thereof.
- (5) Unless otherwise provided by law, the Final Board Order shall be served on each party and the Office by personal service or by mailing by First Class Certified mail to the last address furnished to the Office by such party and shall be effective on the date mailed or such later date as may be stated in the Final Board Order.

2.9 RECONSIDERATION OF BOARD DECISIONS

2.9.1 Cause for Seeking Reconsideration

- (1) Any party to a hearing may petition the Board to reconsider its decision.
- (2) Such petitions must set forth a clear and thorough explanation of the grounds justifying reconsideration, including but not limited to and must include new and relevant facts that were not known at the time of the hearing and the explanation why such facts were not known at the time of the hearing.

2.9.2 Petition Submission

Petitions for reconsideration must be received by the Office within twenty (20) eCalendar eDays of the effective date of the Board's written decision. The effective date of the Board's ~~decision is the date the Board Order is signed, or such other date as may be stated in the Final Board Order~~ Order is the date of mailing as set forth in the Order's Certification of Service.

2.9.3 Consideration of Petition

The Board may grant or deny the petition based solely on the written submittal in support of the petition or written opposition thereto, or the Board may, in its discretion, grant the parties, as defined in Rules 1.1(38) and 1.7.1, an opportunity to present oral arguments. The Office staff shall act as staff to the Board, except on matters related to enforcement.

2.9.4 Automatic Denial of Petition

The petition shall be deemed denied unless it is granted, or the Board takes other action on the petition, within sixty (60) eDays of receipt of the petition.

2.9.5 Time Limitations

The timely filing of a petition for reconsideration shall not toll the time in which the Parties to the hearing may seek judicial review of the Board's decision.

RULE 3: RECLAMATION PERFORMANCE STANDARDS, INSPECTION, MONITORING, AND ENFORCEMENT

3.1 RECLAMATION PERFORMANCE STANDARDS

These performance standards shall be applicable to all mining operations. Exploration operations are subject to the relevant performance standards of this Rule as determined by the Office.

3.1.1 Establishing Post-Mining Use

- (1) In consultation with the Landowner, where possible, and subject to the approval of the Board or Office, the Operator shall choose how the affected lands shall be reclaimed. These decisions can be for forest, rangeland, pastureland, cropland, general agriculture, residential, recreational, industrial/commercial, developed water resource, wildlife habitat, or other uses.
- (2) The results of these decisions shall be formulated into a Reclamation Plan, as specified in Rule 6.3.4 or 6.4.5, as required for the size and type of operation.

3.1.2 Reclaiming Substituted Land

Reclamation shall be required on all the affected land except that the Operator may substitute land previously mined and owned by the Operator but not otherwise subject to the Mined Land Reclamation Act, or the Operator may reclaim an equal number of acres of any land previously mined, but not owned by the Operator, if the Operator has not previously abandoned unreclaimed mining lands. Such exchanges can be done only with the approval of the Board and the Owner of the land to be reclaimed.

3.1.3 Time Limit and Phased Reclamation

All reclamation shall be carried to completion by the Operator with all reasonable diligence, and each phase of reclamation shall be completed within five (5) years from the date the Operator informs the Board or Office that such phase has commenced, or from the date the Office has evidence that mining or exploration has ceased or the end of life of mine has been declared, unless extended by the Board or Office. The 5-year period may be applied separately to each phase as it is commenced throughout the life of the mine.

3.1.4 Public Use

On lands owned by the Operator, the Operator may permit the public to use the same for recreational purposes, in accordance with the Limited Landowner Liability Law contained in Article 41 of Title 33, C.R.S. 1984, as amended, except in areas where such use is found by the Operator to be hazardous or objectionable.

3.1.5 Reclamation Measures - Materials Handling

The Operator shall set forth the measures that will be taken to meet all the following requirements:

- (1) Grading shall be carried on so as to create a final topography appropriate to the final land use selected in the Reclamation Plan.

- (2) When backfilling is a part of the plan, the Operator shall replace overburden and waste materials in the mined area and shall ensure adequate compaction for stability and to prevent leaching of toxic or acid-forming materials.
- (3) All grading shall be done in a manner to control erosion and siltation of the affected lands, to protect areas outside the affected land from slides and other damage. If not eliminated, all highwalls shall be stabilized, safeguarded, and where feasible, blended into the natural topography as approved by the Office.
- (4) All backfilling and grading shall be completed as soon as feasible after the mining process. The Operator shall establish reasonable timetables consistent with good mining and reclamation procedures.
- (5) All refuse and ~~acid-forming or toxic-producing~~ toxic or acid-forming materials that have been mined shall be handled and disposed of in a manner that will control unsightliness and protect the drainage system from pollution.
- (6) Any drill or auger holes that are part of the mining operation shall be plugged with non-combustible material, which shall prevent harmful or polluting drainage. Adits and shafts should be closed, and where practicable, backfilled and graded in a manner consistent with the post mine land use and shall comply with the provisions of the Act, Construction Material Rules and Regulations.
- (7) Maximum slopes and slope combinations shall be compatible with the configuration of surrounding conditions and selected land use. In all cases where a lake or pond is produced as a portion of the Reclamation Plan, all slopes, unless otherwise approved by the Board or Office, shall be no steeper than a ratio of 2:1 (horizontal to vertical ratio), except from 5 feet above to 10 feet below the expected water line where slopes shall be not steeper than 3:1. If a swimming area is proposed as a portion of the Reclamation Plan, the slope, unless otherwise approved by the Board or Office, shall be no steeper than 5:1 throughout the area proposed for swimming, and a slope no steeper than 2:1 elsewhere in the pond.
- (8) If the Operator's choice of reclamation is for agricultural or horticultural crops which normally require the use of farm equipment, the Operator shall grade so that the area can be traversed with farm machinery.
- (9) An Operator may backfill ~~structural inert~~ fill material generated within the MLRB permitted area into an excavated pit within the permit area as provided for in the MLRB Permit. If an Operator intends to backfill inert ~~structural~~ fill generated outside of the approved permit area, it is the Operator's responsibility to provide the Office notice, submitted as a technical revision, of any proposed backfill activity not identified in the approved Reclamation Plan. If the Office does not respond to the Operator's notice within thirty (30) ~~d~~Days after receipt of such Notice-revision submitted to by the Office, the Operator may proceed in accordance with the provisions of this Rule. The Operator shall maintain a Financial Warranty at all times adequate to cover the cost to stabilize and cover any exposed backfilled material. The Notice to the Office shall include but is not limited to:
 - (a) a narrative that describes the approximate location of the proposed activity;
 - (b) the approximate volume of inert material to be backfilled;

- (c) a signed affidavit certifying that the material is clean and inert, as defined in Rule 1.1(~~2223~~);
 - (d) the approximate dates the proposed activity will commence and end, however, such dates shall not be an enforceable condition;
 - (e) an explanation of how the backfilled site will result in a post-mining configuration that is compatible with the approved post-mining land use; ~~and~~
 - (f) a general engineering plan stating how the material will be placed and stabilized in a manner to avoid unacceptable settling and voids; ~~and~~
 - (g) a commitment to provide an annual report to summarize the type, amount, and location of all imported and backfilled material within the reporting period and an updated certification that all material was clean, inert, and placed in accordance with the approved plan.-
- (10) All mined material to be disposed of within the affected area must be handled in such a manner so as to prevent any unauthorized release of pollutants to the surface drainage system.
- (11) No unauthorized release of pollutants to groundwater shall occur from any materials mined, handled or disposed of within the permit area.

3.1.6 Water - General Requirements

- (1) Hydrology and Water Quality: Disturbances to the prevailing hydrologic balance of the affected land and of the surrounding area and to the quantity or quality of water in surface and groundwater systems both during and after the mining operation and during reclamation shall be minimized by measures, including, but not limited to:
- (a) compliance with applicable Colorado water laws and regulations governing injury to existing water rights;
 - (b) compliance with applicable federal and Colorado water quality laws and regulations, including statewide water quality standards and site-specific classifications and standards adopted by the Water Quality Control Commission;
 - (c) compliance with applicable federal and Colorado dredge and fill requirements; and
 - (d) removing temporary or large siltation structures from drainage ways after disturbed areas are revegetated and stabilized, if required by the Reclamation Plan.
- (2) Earth dams, if necessary to impound water, may be constructed if the formation of such impoundments will not damage adjoining property or conflict with water pollution laws, rules or regulations of the federal government, the state of Colorado or with any local government pollution ordinances.
- (3) All surface areas of the affected land, including spoil piles, shall be stabilized and protected so as to effectively control erosion.

- (4) The Office may require the submission of baseline site characterization data, sufficient to ensure that impacts will be detected, prior to the initiation of mining, including but not limited to, ambient groundwater and surface water quality data sufficient to characterize potentially impacted waters.
- (5) Drilling pits used during exploration or mining shall be constructed and operated to minimize impacts to public health, safety, welfare and the environment, including soil, waters of the State, including groundwater, and wildlife. In its discretion, the Office may require the use of pit liners, fencing, netting or other measures to minimize impacts to the public health, safety, welfare and the environment.

3.1.7 Groundwater - Specific Requirements

- (1) Standards and conditions applicable to classified and unclassified groundwater.
 - (a) State-wide groundwater quality standards: Operations that may affect groundwater quality shall comply with all state-wide groundwater quality standards established by the Water Quality Control Commission (hereafter, the WQCC).
 - (b) Classified areas: Operations that may affect the quality of groundwater in a specified area that has been classified by the WQCC shall comply with the standards applicable to such specified area.
 - (c) Unclassified areas: Operations that may affect the quality of groundwater which has not been classified by the WQCC shall protect the existing and reasonably potential future uses of such groundwater.
 - (d) Water quality standards applicable to groundwater that has been classified, state-wide standards for certain pollutants, and interim narrative standards set by the WQCC shall supersede any numeric protection levels established for the subject pollutants pursuant to this Rule 3.1.7.
- (2) Establishing permit conditions, including numeric protection levels, protective of unclassified groundwater uses.
 - (a) Pursuant to the procedures specified in Rule 3.1.7(3), permit conditions shall be established for each operation that may have a reasonable potential to adversely affect the quality of a specified area that has not been classified by the WQCC. Such permit conditions may be in the form of numeric protection levels, practice-based permit conditions, or both.
 - (b) Points of compliance for numeric protection levels shall be set pursuant to Rule 3.1.7(5).
 - (c) Permit conditions, whether practice-based or numeric protection levels, shall be established as follows:
 - (i) The permit conditions shall be protective of the existing and reasonably potential future uses of the groundwater that may be affected. The WQCC's groundwater quality table values (The Basic Standards For

Ground Water 5 CCR 1002-41), shall be used as a guide in establishing the permit conditions.

- (ii) Where ambient groundwater quality exceeds values for protection of existing and reasonably potential future uses of groundwater, such as groundwater table values or other numeric criteria, permit conditions shall be established to protect those uses against further lowering of groundwater quality.
- (3) Procedures for establishing permit conditions to protect the quality of unclassified groundwater.
- (a) New operations and modifications of existing permits: Any application for a new operation, or an application for a modification of an existing permit which modification has a reasonable potential to adversely affect the quality of unclassified groundwater, that is approved by the Office or the Board on or after September 1, 1993, shall include permit conditions pursuant to Rule 3.1.7(2).
 - (b) Existing operations: For operations subject to a permit issued before September 1, 1993, which permit is not the subject of an application or a modification as described in Rule 3.1.7(3)(a), permit conditions shall be established as follows:
 - (i) Upon a determination that a violation of a permit provision affecting groundwater quality has occurred, the Board may order the Operator to submit an application to modify the permit to comply with Rule 3.1.7(2), and may set a reasonable schedule for submittal of such application. Nothing in this Rule shall be construed to limit the Board's authority under Section 34-32.5-124, C.R.S. 1984, as amended.
 - (ii) The Office shall follow the pre-enforcement procedure set out below before requiring an Operator who is in compliance with all permit provisions and regulation requirements related to groundwater quality to modify the permit. The Office may bring an enforcement action under Section 34-32.5-116(4), C.R.S. 1984, as amended, or earlier version thereof. Such enforcement action may result in a finding of a violation of that statutory provision upon finding that there is or may be a reasonable potential for degradation of groundwater quality that adversely affects existing or reasonable potential future uses of such groundwater. The Office shall follow the pre-enforcement procedure outlined below before bringing such an enforcement action:
 - (A) When the Office has reason to believe, based on evidence, that there is or may be a reasonable potential for degradation of groundwater quality that adversely affects uses, the Office shall notify the Operator of the evidence and of the possible need to modify the permit to include permit conditions that comply with Rule 3.1.7(2). The notification may require the Operator to submit necessary information, and shall allow a minimum of ninety (90) ~~days~~ days for the Operator to respond. Following a response from an Operator provided with notice under this Rule 3.1, the Office shall allow a reasonable period to negotiate appropriate permit conditions with the Operator pursuant to Rule 3.1.7(2).

- (B) The Office may bring an enforcement action if the Operator fails to respond within the time specified, or the Office and the Operator do not negotiate appropriate permit conditions within a reasonable period of time, pursuant to Rule 3.1.7(3)(b)(ii)(A). Upon finding a violation of the Act, or Rules promulgated thereunder, the Board may modify the permit to include groundwater protection provisions in compliance with Rule 3.1.7(2).
 - (C) The pre-enforcement procedures described in this Rule 3.1.7(3)(b)(ii) shall not apply if there is an imminent danger to the health, safety, and general welfare of the people of this state. In such a case, the Office may immediately initiate an enforcement action and may seek a cease and desist order. This provision shall not be construed to prevent the Water Quality Control Division from pursuing its remedies under Section 25-8-307, C.R.S. (1989).
- (4) Procedures for establishing compliance with standards promulgated by the WQCC.
- (a) Existing permits affecting groundwater, subject to existing groundwater quality standards: The Office shall provide notice to operations subject to a permit issued prior to January 31, 1994 if such operation has a reasonable potential to exceed groundwater quality standards promulgated by the WQCC. Such existing groundwater quality standards may include standards applicable to groundwater that has been classified by the WQCC, interim narrative standards and state-wide standards for certain pollutants. The notice shall provide the Operator with a reasonable opportunity to respond and modify the permit if necessary, to establish permit conditions adequate to implement such groundwater standards.
 - (b) WQCC standards promulgated after a permit is issued: If there is a reasonable potential to exceed groundwater quality standards promulgated after the permit is issued the Office shall provide the Operator with notice of the applicable groundwater quality standards. The Operator shall be afforded a reasonable opportunity to submit an application to modify the permit as necessary to implement such groundwater quality standards.
 - (c) Permit conditions established pursuant to Rules 3.1.7(4)(a) and (b) shall include a reasonable schedule of compliance. Such permit conditions may be in the form of numeric protection levels, practice-based permit conditions, or both.
 - (d) If an Operator has a reasonable potential to exceed groundwater quality standards promulgated by the WQCC, the Operator shall modify the permit as necessary to implement such standards in compliance with Rule 3.1.7, within a reasonable period of time after receiving a Notice issued pursuant to Rules 3.1.7(4)(a) and (b). If the Operator fails to do so the Office may initiate an enforcement action to enforce compliance with this Rule and establish any necessary permit conditions.
 - (e) Permits, or applications to modify a permit, shall not be approved unless such permit or modification includes conditions adequate to implement all groundwater

quality standards promulgated by the WQCC applicable to such permit or modification.

- (5) Any Operator, on a voluntary basis, may submit information concerning the protection of the quality of groundwater affected by the operation to the Office. The Operator may submit such information and a plan for monitoring, where appropriate, including monitoring at points of compliance, for the Office's consideration. The information submitted must satisfy the requirements of Rules 3.1.7(6) and (7). Such voluntary submission by an Operator shall be considered a Technical Revision provided the submittal satisfies Rule 1.8.
- (6) Points of Compliance:
 - (a) In order to evaluate protection afforded groundwater quality, comply with groundwater standards, or to demonstrate compliance with permit conditions established by the Office to protect groundwater quality, one or more points of compliance shall be established. Through incorporation into a permit and on a schedule approved by the Office, an Operator shall comply with groundwater quality standards established by the Water Quality Control Commission at points of compliance.
 - (i) Where the Water Quality Control Commission has not established standards, then any permit condition established by the Board or Office to protect groundwater quality shall be demonstrated to be met at points of compliance or as specified in the approved permit.
 - (b) Where groundwater quality standards have been established, the point of compliance shall be established according to the following criteria:
 - (i) for existing facilities at which an adverse impact to groundwater quality could occur, the point of compliance will be set as follows:
 - (A) at some distance hydrologically down-gradient from the facility or activity that is causing, or which has the potential to cause, the contamination, and selecting that distance closest to the facility or activity, considering the technological feasibility of meeting the requirements for protecting water quality:
 - (I) a specified distance, as determined by Rule 3.1.7(6)(b)(i)(B) below;
 - (II) the hydrologically down-gradient limit of the area in which contamination has been identified; or
 - (III) the facility permit boundary.
 - (B) In determining a specified distance the Office shall take into consideration the following factors;
 - (I) the classified use, established by the Water Quality Control Commission, for any groundwater or surface water which could be impacted by contamination from the facility;

- (II) the geologic and hydrologic characteristics of the site, such as depth to groundwater, groundwater flow direction and velocity, soil types, surface water impacts, and climate;
 - (III) the toxicity, mobility, and persistence in the environment of the contaminants used or stored at the facility and which could reasonably be expected to be discharged from the facility;
 - (IV) the potential of the site as an aquifer recharge area; and
 - (V) recommendations submitted by the facility owner or Operator, including technical and economic feasibility.
- (ii) For any new facility or new activity which may cause an adverse impact on groundwater quality, the point of compliance will be set as follows:
- (A) unless modified by the Office as specified in Rule 3.1.7(6)(b)(ii)(B) below, the point of compliance will be set at the hydrologically down-gradient limit of the area below the facility or activity potentially impacting groundwater quality.
 - (B) The point of compliance determined in Rule 3.1.7(6)(b)(ii)(A) above may be modified by the Office on a case-by-case basis with consideration of the following factors:
 - (I) the classified use, established by the Water Quality Control Commission, for any groundwater or surface water which could be impacted by contamination from the facility;
 - (II) the geologic and hydrologic characteristics of the site, such as depth to groundwater, groundwater flow direction and velocity, soil types, surface water impacts, and climate;
 - (III) the toxicity, mobility, and persistence in the environment of contaminants used or stored at the facility which could reasonably be expected to be discharged from the facility;
 - (IV) the potential of the site as an aquifer recharge area; and
 - (V) recommendations submitted by the facility owner or Operators including technical and economic feasibility.
- (7) Groundwater Monitoring:
- (a) For existing operations through permit modifications, and for new permit applications, a groundwater monitoring program shall be required on a case-by-

case basis where an adverse impact on groundwater quality may reasonably be expected.

- (b) If groundwater monitoring is required, the Operator shall include the following information as part of a permit application or permit modification to an existing permit:
 - (i) a map that accurately locates all proposed groundwater sample points and any locations that are proposed as a point of compliance;
 - (ii) the method of monitoring well completion where monitoring wells are required;
 - (iii) method of sampling, frequency of sampling and reporting to the Office;
 - (iv) parameters analyzed, water quality analysis methods, and quality control and quality assurance methods;
 - (v) formations, aquifers or strata to be sampled;
 - (vi) identify the potential sources of groundwater contamination that will be monitored by each point of compliance monitoring point;
 - (vii) a time-schedule for implementation; and
 - (viii) ambient groundwater quality data sufficient to characterize potentially impacted groundwater quality.
- (8) Release of Reclamation Liability: An Operator shall demonstrate, to the satisfaction of the Office, that reclamation has been achieved so that existing and reasonably potential future uses of groundwater are protected.
- (9) An Operator must provide the Office a written report within five (5) ~~ww~~Working ~~d~~Ways when there is evidence of groundwater discharges exceeding applicable groundwater standards or permit conditions imposed to protect groundwater quality ~~when-whether~~ these or other conditions are explicitly identified in the permit as requiring such notice.

For additional performance standards related to water, see Rules 3.1.5 and 3.1.6.

3.1.8 Wildlife

- (1) All aspects of the mining and reclamation plan shall take into account the safety and protection of wildlife on the mine site, at processing sites, and along all access roads to the mine site with special attention given to critical periods in the life cycle of those species which require special consideration (e.g., elk calving, migration routes, peregrine falcon nesting, grouse strutting grounds).
- (2) Habitat management and creation, if part of the Reclamation Plan, shall be directed toward encouraging the diversity of both game and non-game species, and shall provide protection, rehabilitation or improvement of wildlife habitat. Operators are encouraged to contact Colorado Parks and Wildlife and/or federal agencies with wildlife responsibilities to

see if any unique opportunities are available to enhance habitat and/or benefit wildlife which could be accomplished within the framework of the Reclamation Plan and costs.

3.1.9 Topsoiling

- (1) ~~Where it is necessary to remove overburden in order to mine the construction material,~~ Topsoil shall be removed and segregated from overburden and other spoil. If such topsoil is not replaced on a backfill area within ~~a time short enough to avoid deterioration of the topsoil~~the same growing season, not to exceed 180 days, vegetative cover or other means shall be employed so that the topsoil is protected from wind and water erosion, remains free of any contamination by toxic or acid-forming material, and is in a usable condition for reclamation.
- (2) Where practicable, woody vegetation present at the site shall be removed from or appropriately incorporated into the existing topsoil prior to excavation within the affected areas. The Operator should make a reasonable effort to ensure that existing vegetation is put to a beneficial use such as firewood, mulching, lumber, etc.
- (3) Topsoil stockpiles shall be stored in places and configurations to minimize erosion and located in areas where disturbance by ongoing mining operations will be minimized. Such stockpile areas must be included in the affected areas and subject to all reclamation requirements. The Board may require immediate planting of an annual and/or perennial on topsoil stockpiles for the purpose of stabilization.
- (4) Once stockpiled, the topsoil shall be rehandled as little as possible until replacement on the regraded, disturbed area. Relocations of topsoil stockpiles on the affected land require Board or Office approval. Approval in most cases would be granted by way of technical revision.
- (5) The Operator shall take measures necessary to assure the stability of replaced topsoil on graded slopes such as roughing in final grading to eliminate slippage zones that may develop between the deposited topsoil and heavy textured spoil surfaces.
- (6) If, in the discretion of the Board or Office, such existent topsoil is of insufficient quantity or of poor quality for sustaining vegetation, and if other materials can be shown to be more suitable for vegetation requirements, then the Operator shall remove, segregate, and preserve in a like manner such other materials which are best able to support vegetation.
- (7) When growing media is replaced, it shall be done in as even a manner as possible. Fertilizer or other soil amendments shall be added, if required in the Reclamation Plan or as the soil tests indicate.
- (8) Vegetative piles shall be removed from the area or utilized in accordance with the Reclamation Plan.

3.1.10 Revegetation

- (1) In those areas where revegetation is part of the Reclamation Plan, land shall be revegetated in such a way as to establish a diverse, effective, and long-lasting vegetative cover that is capable of self-regeneration without continued dependence on irrigation, soil amendments or fertilizer, and is at least equal in extent of cover to the natural vegetation

of the surrounding area. Except for certain post mining land uses approved by the Board or Office, the use of species native to the region shall be emphasized. Native plant species that encourage pollinators should receive first consideration, but introduced species may be used in the revegetation process when found desirable and approved by the Board or Office. Greater emphasis on non-native species may be proposed for intensively managed forestry and range uses.

- (2) If the Operator's choice of reclamation is forest planting, they may, with the approval of the department, select the type of trees to be planted. If the Operator is unable to acquire sufficient planting stock of desired tree species from the state or elsewhere at a reasonable cost, they may defer planting until planting stock is available to plant such land as originally planned, or they may select an alternate method of reclamation.
- (3) If the Operator's choice of reclamation is for rangeland, the land shall be restored to slopes commensurate with the proposed land use and shall not be too steep to be traversed by livestock. The area may be seeded either by hand, or power, or by the aerial method.
- (4) The revegetation plan shall provide for the greatest probability of success in plant establishment and vegetation development by considering environmental factors such as seasonal patterns of precipitation, temperature and wind; soil texture and fertility; slope stability; and direction of slope faces. Similar attention shall be given to biological factors such as proper inoculation of legume seed, appropriate seeding and transplanting practices, care of forest planting stock, and restriction of grazing during initial establishment. The Board or Office, in consultation with the Landowner and the local Conservation District, if any, shall determine when grazing may start.
- (5) To ~~insure~~ensure the establishment of a diverse and long-lasting vegetative cover, the Operator shall employ appropriate techniques of site preparation and protection such as mechanical soil conditioning by discing and ripping; mulching; soil amendments and fertilizers; and irrigation.
- (6) Methods of weed control shall be employed for all prohibited noxious weed species, and whenever invasion of a reclaimed area by other weed species seriously threatens the continued development of the desired vegetation. Weed control methods shall also be used whenever the inhabitation of the reclaimed area by weeds threaten further spread of serious weed pests to nearby areas.
- (7) When necessary, fire lanes or access roads shall be constructed through the area to be planted. These lanes or roads shall provide access for planting crews, supervision and inspection.
- (8) Planting required for reclamation may be delayed, through the period of use related to places of refuse disposal, haulage roads and road cuts. Normal stabilization of surfaces is required. No planting is required:
 - (a) on any affected land being used or proposed to be used by the Operator for the deposit or disposal of refuse until after the cessation of operations productive of such refuse;
 - (b) on lands proposed for future mining;

- (c) within depressed haulage roads or final cuts while such roads or final cuts are being used or made;
 - (d) where permanent pools or lakes have been formed; and
 - (e) on any affected land so long as the chemical and physical characteristics of the surface and immediately underlying material of such affected land are toxic, deficient in plant nutrients, or composed of sand, gravel, shale, or stone to such an extent as to seriously inhibit plant growth and such condition cannot feasibly be remedied by chemical treatment, fertilization, replacement of overburden, or like measures.
- (9) Where adverse characteristics of the surface, not feasibly remedied by artificial measures, would seriously inhibit plant growth, planting may be delayed or provided on substitute acres, depending upon natural corrective processes over a ten (10) year period.

3.1.11 Buildings and Structures

If the affected land is owned by a legal entity other than any local, state, or federal entity, any buildings or structures including those constructed or placed on the affected lands in conjunction with the mining operations or which are historic structures as determined by the State Historic Preservation Office may, at the option of the Operator and Landowner and with the approval of the Board, remain on the affected land after reclamation if such buildings or structures will not conflict with the post-mining land use and the structures conform to local building and zoning codes.

3.1.12 Signs and Markers

- (1) At the entrance of the mine site the Operator shall post a sign, which shall be clearly visible from the access road, with a minimum size equaling one hundred and eighty-seven (187) square inches, such as eleven (11) inches in height and seventeen (17) inches in width, with appropriate font size, with the following:
- (a) the name of the Operator and the operation name;
 - (b) a statement that a reclamation permit for the operation has been issued by the Colorado Mined Land Reclamation Board and, as determined by the Office, the location where information can be obtained; and
 - (c) the permit number.
- (2) The boundaries of the affected area will be marked by monuments or other markers that are clearly visible and adequate to delineate such boundaries.
- (a) for Limited Impact 110 Operations and Special 111 Operations the permit boundary for the purposes of this Rule shall be considered the affected area;
 - (b) for Regular 112 Reclamation Operations the area proposed to be disturbed by mining operations for which a Financial Warranty and Performance Warranty have been posted shall be the affected area.

- (3) The Office may approve an alternative plan for identifying the boundaries of the affected land if the Operator includes such a plan in the permit application or through a technical revision.

3.1.13 Spill Reporting

The Operator shall notify the Office of a spill of any toxic or hazardous substance, including spills of petroleum products, that occurs within the mined land permit area or area encompassed by a Notice of Intent and which would be required to be reported to any Division of the Colorado Department of Public Health and the Environment, the National Response Center, the Colorado Emergency Planning Commission, any local Emergency Planning Commission, local Emergency Planning Committee, or the State Oil Inspector. The Operator shall:

- (1) within twenty-four (24) hours of the time the spill is reported to any other agency(ies) with jurisdiction over the spill, notify the Division of Reclamation, Mining and Safety, via phone or email;
- (2) include in the notice any relevant information known at the time contact is made with the Office that would assist the Office in assessing spill seriousness, such as:
 - (a) operation name, DRMS permit number and name of person reporting the spill,
 - (b) telephone number of a responsible company official for the Office staff to use as a contact,
 - (c) date and time of spill,
 - (d) type of material spilled (CAS number if applicable, from the material safety data sheet (MSDS) form),
 - (e) estimate of the amount spilled, whether any material has left the permit area, and where the spilled material went, and
 - (f) initial measures taken to contain and clean up the spill.
- (3) copy the Office on any correspondence and/or written reports provided to other agencies. Supplement those reports if necessary to include the information outlined in Rule 3.1.13(2).
- (4) For permits approved prior to the effective date of these Rules, the requirements of Rule 3.13 shall supersede stipulations to permits regarding spill reporting.

3.2 INSPECTION AND MONITORING

- (1) Entry upon lands for inspection: the Board or Office may enter upon the lands of the Operator at all reasonable times for the purpose of inspection to determine whether the provisions of the Act and these Rules have been complied with.
- (2) Persons authorized under the Act and these Rules to conduct inspections shall, prior to entry onto any lands, notify the Operator of their intent to enter and inspectors shall comply with all federal, state, local and company safety rules.

- (3) Any state official or employee of the Office shall promptly report to the Board any possible violation of a permit, law or these Rules of which they have knowledge, whether obtained from personal inspection or from written reports on mining operations.
- (4) Upon an Office determination of a possible violation, the Office shall issue a Notice of Possible Violation(s), and shall mail such notice by certified mail, return receipt to the last known address of the Permittee. The Office shall schedule the matter of possible violation(s) for a Board Hearing according to the provisions of Rules 3.3.1 or 3.3.2.
- (5) All inspections shall include a written report which:
 - (a) describes every possible violation of the permit, law, or these Rules;
 - (b) is personally signed by the Inspector; and
 - (c) is mailed within a reasonable time to the mine office, or other suitable location designated by the Operator.
- (6) A report of how and when a violation is resolved and a report of any subsequent inspection to verify compliance shall be filed.
- (7) All operations applying for a regular permit, conversion, or amendment thereto shall be inspected after the application is filed and prior to Board consideration. Other Applicants shall be so inspected as time and staff resources permit.
- (8) Mining operations shall be inspected a sufficient number of times each year to ensure compliance with the permit, law, and these Rules. The frequency of inspection shall be determined by the extent of the operation, rate of mining, degree of actual or potential environmental impact, ~~and~~ the Operator's past record of compliance, and by Board Policy.
- (9) The Board or Office is authorized to inspect any ongoing Exploration Operation or any Exploration Operation prior to the request for release of Performance and Financial Warranties, in order to determine compliance with these Rules.

3.3 ENFORCEMENT AND PROCEDURES

3.3.1 Operating Without a Permit or Conducting Exploration Without a Notice of Intent – Penalty

- (1) Whenever an Operator or Person conducting extraction or exploration fails to obtain a valid Permit or file a Notice of Intent under the provisions of the Act, the Board or the Office may issue an immediate Cease and Desist Order. Concurrently with the issuance of such an Order, the Board or the Office may seek a restraining order or injunction pursuant to Rule 3.3.3. The Operator or Person conducting extraction or exploration shall be afforded an opportunity for a hearing before the Board. The Office shall schedule the matter for a hearing before the Board no sooner than thirty (30) ~~d~~Days after issuance of such Cease and Desist Order; except that an earlier date for a hearing may be requested by the alleged violator and the hearing must be set no later than the next succeeding Board meeting if requested by the alleged violator.

- (2) Operators who mine substantial acreage beyond their approved permit boundary may be found to be operating without a permit. Any Operator who operates without a permit shall be subject to a civil penalty of not less than one thousand dollars (\$1,000) per day nor more than five thousand dollars (\$5,000) per day for each day the land has been affected. Such penalties shall be assessed for a period not to exceed three hundred and sixty-five (365) days.
- (3) Any Person conducting exploration without filing a Notice of Intent as required under the Act shall be subject to a civil penalty of not less than fifty dollars (\$50) nor more than two hundred dollars (\$200) per day for each day the land has been affected. Such penalties shall be assessed for not less than one (1) day and not more than sixty (60) days.
- (4) In addition to the civil penalties imposed in Rules 3.3.1(2) and (3), the Board shall also assess a civil penalty in an amount not less than the amount necessary to cover the Office's costs expended in investigating the alleged violation.

3.3.2 Operating With a Permit or Conducting Exploration With a Notice of Intent - Failure to Comply

- (1) Whenever the Board or Office has a reason to believe that there has occurred a violation of an Order, Permit, Notice of Intent, or regulation issued under the authority of the Act or these Rules, written Notice shall be given to the Operator of the possible violation at least thirty (30) ~~4~~Days prior to the scheduled Board hearing date, unless such Notice is waived, in writing, by the Operator. Such Notice shall be served personally or by Certified Mail, Return Receipt Requested, upon the possible violator or the possible violator's agent, for service of process. The Notice shall state the provision alleged to be violated and the facts alleged to constitute the violation, and may include the nature of any corrective action proposed to be required. The Notice shall state the date, time and place of the Formal Hearing where the Board will consider the possible violation.
- (2) Following a determination, by the Office, of reason to believe a violation exists, the Board shall hold a hearing on whether or not there is a violation.
 - (a) At the hearing, if the Board determines that a violation of the provisions of a Permit, a Notice of Intent, the Act, or these Rules has occurred, the Board may order the modification, suspension or revocation of the Permit. If the Board suspends or revokes the Permit of an Operator, the Operator may continue mining operations only for the purpose of bringing the mining operations into satisfactory compliance with the provisions of the Operator's Permit and all applicable safety regulations. Once such operations are complete to the satisfaction of the Board, the Board shall reinstate the Permit of the Operator.
 - (b) At the hearing, if the Board determines that a violation of the provisions of a permit, the Act, or these Rules has occurred, the Board shall assess a Civil Penalty of not less than one hundred dollars (\$100.00) per day nor more than one thousand dollars (\$1,000.00) per day for each day during which such violation occurs. Operators who affect substantial acreage beyond their approved permit boundary may be found to be operating without a permit and, in such case, the Civil Penalty shall be assessed according to the schedule in Rules 3.3.1(2) or (3).

- (c) At the hearing, if the Board determines that a violation of the provisions of a permit, a Notice of Intent, the Act, or these Rules has occurred, the Board may issue a Cease and Desist Order. The order shall:
- (i) specify the provisions(s) violated;
 - (ii) specify the facts which constitute the violation(s);
 - (iii) set forth the time by which the violations(s), act(s), or practices(s) must be terminated;
 - (iv) include, at the Board's discretion, any corrective action; and
 - (v) be served personally or by Certified Mail, return receipt requested, upon the Operator or their agent for service of process.
- (3) After a finding by the Board of a failure to comply, pursuant to Rule 3.2, any expenses incurred by the Board or Office in carrying out corrective actions, including administrative costs, may be assessed against the violator.

3.3.3 Injunctive Relief

- (1) In the event any Operator fails to comply with a Cease and Desist Order, the Board may request the Attorney General to bring suit for a temporary restraining order, a preliminary injunction, or a permanent injunction to prevent any further or continued violation of such order.
- (2) If the Board determines that the situation is an emergency, the emergency shall be given precedence over all other matters pending in such court.

3.3.4 Violation of a Cease and Desist Order - Surety Forfeiture

The Board shall institute proceedings to have the surety of the Operator forfeited for violation by the Operator of a Cease and Desist Order entered pursuant to Rule 3.3. Such proceedings shall be conducted in accordance with Rule 4.20.

3.3.5 Non-Payment of Annual Fees

Where an Operator is late in payment of the Annual Fee by longer than sixty (60) ~~e~~Calendar ~~d~~Days, the Office shall set the matter for a hearing before the Board for permit revocation and forfeiture of the financial warranty.

RULE 4: PERFORMANCE WARRANTIES AND FINANCIAL WARRANTIES

4.1 GENERAL PROVISIONS

- (1) No governmental office of the state, other than the Board, nor any political subdivision of the state shall have the authority to require a Performance or Financial Warranty of any kind for any mining operation.
- (2) No permit may be issued pursuant to the Act until the Board or Office receives and approves the Performance and Financial Warranties required herein. If these Warranties are not received within one (1) calendar year of approval of an application for any new permit, amendment or conversion, the Board shall hold a hearing, in accordance with the notification and comment provisions of Rule 1.6, to reconsider the previous approval. If the Board affirms the original application approval, the Board shall establish a new deadline for submittal of the Financial and Performance ~~w~~Warranties. If the required ~~w~~Warranties are not posted by the date set by the Board, the application shall be denied.
- (3) Whenever two or more persons or entities are named as Operators in a single permit, the Operators may limit the scope of their individual Performance Warranties so long as the warranties, in the aggregate, warrant performance of all requirements of the Act.
- (4) Whenever two or more persons or entities act as Financial Warrantors, they may limit the scope of their individual warranties so long as all Financial Warranties, in the aggregate, equal the amount required by the Board.
- (5) Financial Warranties may be provided by the Operator, by any Third-party, or by any combination of persons or entities.
- (6) Financial Warrantors who provide proof of financial responsibility of any type or types described in Rules 4.3.2, ~~4.3.7, or~~ 4.3.8, ~~or 4.3.9~~ shall not be required to secure the same by the posting of Third-party sureties or otherwise pledging or encumbering property for the benefit of the state.
- (7) Financial Warranties shall be maintained in good standing for the entire life of any permit issued under the Act and these Rules. Financial Warrantors shall immediately notify the Board of any event which may impair their warranties.
- (8) Where one Operator succeeds another at any uncompleted operation, the Office shall release the first Operator from all liability as to that particular reclamation operation and shall release all applicable Performance and Financial Warranties as to such operation if the successor Operator assumes, as part of the obligation under the Act, all liability for the Reclamation of the affected land, and the obligation is covered by replacement Performance and Financial Warranties as to such affected land.
- (9) ~~95%~~**100%** of the proceeds of all Financial Warranties forfeited under the provisions of Section 34-32.5-118, C.R.S., shall be deposited in a special account established by the Board for the purposes of reclaiming lands which were obligated to be reclaimed under the permits upon which such Financial Warranties have been forfeited.
- (10) Proof of financial responsibility may be of any type and in such amount authorized herein, subject to approval by the Board or Office.

4.1.1 General Requirements - Performance Warranties

Each application for any Permit or amendments thereto shall be accompanied by a Performance Warranty.

- (a) The Performance Warranty shall be in a form approved and prescribed by the Board.
- (b) A Performance Warranty shall be signed by the Operator and/or by a person or persons authorized to bind the Operator.

4.1.2 General Requirements - Financial Warranties

- (1) A Financial Warranty shall be signed by a person or persons authorized to sign a Financial Warranty.
- (2) No Financial Warranty shall be required where the Operator is a unit of municipal or county government or the State Department of Transportation and the Operator submits a written guarantee, in lieu of a financial warranty, stating that the affected lands will be reclaimed in accordance with the terms of the permit, these Rules, and Section 34-32.5-116, C.R.S.
- (3) Any proof of financial responsibility submitted or revised on or after July 1, 1993, shall be in compliance with Rules 4.2.1(1) through (7), and 4.1.2(6) and (7).
- (4) If the Board or Office has reason to believe that any proposed Financial Warranty does not fully and accurately reflect the current financial condition of the Financial Warrantor, the Board or Office may decline to accept the Financial Warranty as submitted.
- (5) Each Financial Warrantor providing proof of financial responsibility in a form described in Rules ~~4.3.6, 4.3.7, 4.3.8, 4.3.9, or 4.3.10~~ shall annually cause to be filed with the Board or Office a certification by an independent auditor that, as of the close of the Financial Warrantor's most recent fiscal year, the Financial Warrantor continued to meet all applicable requirements of Rule 4. Financial Warrantors who no longer meet said requirements shall comply with Rule 4.15.
- (6) The Board or Office may by permit condition require proof of value on a periodic basis of any Warranty held by the Board.
- (7) The Board or Office may by permit condition limit certain types of Warranties to specific purposes only or require a designated percentage of the total Warranty be held in easily valued and convertible instruments.
- (8) The Board or Office may refuse to accept any type of Financial Warranty if:
 - (a) the value of the Financial Warranty offered is dependent upon the success, profitability, or continued operation, of the mine;
 - (b) for Deeds of Trust, ~~First Priority Liens or Salvage Credit~~, the Operator has not complied with Rule 4.9; or
 - (c) the Board determines that the Financial Warranty offered cannot reasonably be converted to cash within one hundred and eighty (180) ~~d~~Days of forfeiture.

- (9) Any Operator/Applicant that desires to utilize a Financial Warranty described in Rule 4.3.6; ~~4.3.7, or 4.3.8, 4.3.9, or 4.3.10~~ shall pay to the Office an Annual Fee for the reasonable and necessary cost of establishing and reviewing the Financial Warranty.
- (a) No costs may be charged hereunder unless and until the Operator/Applicant signs written fee agreements with the Office. Said agreements shall be in such form as the Board may prescribe. Invoices pursuant to said agreements shall include a statement for services and expenses included in the total amount;
 - (b) rates charged by the Office hereunder may not exceed prevailing rates for similar services, and shall reflect the actual cost of establishing and reviewing the Financial Warranty;
 - (c) the Operator/Applicant shall be responsible for all costs properly charged hereunder, even if no permit issues from the Board; and
 - (d) funds paid to the Office are to be made available for the use of outside legal and financial advice for the purpose of reviewing the Financial Warranty of Operators/Applicants desiring to use the Self-Insurance provision.
- (10) The original bond documents shall be submitted to the Office and held in safekeeping by the State Treasurer's Office.

4.1.3 Provisions for Recovery of Costs

Any instruments offered as a Financial Warranty pursuant to this Rule 4, shall provide that the Board or Office may recover the necessary costs, including attorney's fees or fees incurred in foreclosing on or realizing the collateral used to secure such Financial Warranty in the event such Financial Warranty is forfeited, in the following manner:

- (a) for any Corporate Surety Bond issued by a corporate surety company authorized to do business in this state, the face amount of the bond shall be increased by five hundred dollars (\$500);
- (b) for any irrevocable Letter of Credit issued by a bank authorized to do business in the United States, the face amount of the Letter of Credit shall be increased by five hundred dollars (\$500);
- (c) for any Certificate of Deposit, the face amount of the Certificate of Deposit shall not be increased;
- (d) for any Individual Reclamation Fund, the amount of the trust fund required to be maintained shall be increased by five hundred dollars (\$500);
- (e) for any Cash Escrow Account, the amount of the Cash Escrow Account required to be maintained shall not be increased; and
- (f) for any Deed of Trust or Security Agreement encumbering real or personal property creating a first priority lien in favor of the state, the value of the real or personal property available to secure the amount of the Financial Warranty attributable to costs of reclamation shall be reduced by an amount to be determined by the Board or Office, but in any case, a

minimum of five thousand dollars (\$5,000) and up to a maximum amount of two percent (2%) of reclamation costs;

- (g) any monies collected and not used to fulfill the requirements of this Rule 4.1.3, shall be returned to the Financial Warrantor upon completion of reclamation and liability release by the Board or Office.

4.2 FINANCIAL WARRANTY LIABILITY AMOUNT

4.2.1 Adequacy of Financial Warranties

- (1) All Financial Warranties shall be set and maintained at a level which reflects the actual current cost of fulfilling the requirements of the Reclamation Plan.
- (2) Financial Warranty Review - the Office or Board may, in its discretion, review any Financial Warranty for adequacy at any time. In the event the Office or Board determine that the Financial Warranty is insufficient to perform reclamation, the Permittee shall have up to sixty (60) ~~e~~Days to post additional Financial Warranty from the date of written notice from the Office or Board of such insufficiency. If the Permittee disagrees with the Office Notice to Increase the Financial Warranty, the Office shall schedule the matter for a hearing before the Board. The Permittee may be scheduled for a Formal Board Hearing for possible revocation of the permit after sixty (60) ~~e~~Days, from the date of notice of any such adjustment, if the amount of any increased Financial Warranty has not been provided.
- (3) The Board or Office shall prescribe the amount and duration of Financial Warranties, taking into account the nature, extent, and duration of the proposed mining operation, the magnitude, type and estimated cost of planned reclamation, and the requirements of the Act.
- (4) In any single year during the life of the permit, the amount of required Financial Warranties shall not exceed the estimated cost of fully reclaiming all lands to be affected in said year, plus all lands affected in previous permit years and not yet fully reclaimed. For the purpose of this Rule, reclamation costs shall be computed with reference to current reclamation costs. The amount of the Financial Warranty shall be sufficient to assure the completion of reclamation of affected lands if the Office has to complete such reclamation due to forfeiture. Reclamation includes all measures taken to assure the protection of water resources, including costs to cover necessary water quality protection, treatment and monitoring as may be required by Permit, these Rules or the Act.
- (5) The Financial Warranty amount shall include an amount equal to five percent (5%) of the amount of the cost of reclamation to defray the administrative costs incurred by the Office in conducting the reclamation.
- (6) When mining on federal land and the federal land management agency requires that a Financial Warranty be posted with their agency, the amount of Financial Warranty posted with the state shall be the difference between the amount required to be posted by the federal land management agency, and the amount required by the Mined Land Reclamation Board. In no event shall the amount of Financial Warranty posted with the state be less than one hundred dollars (\$100). In addition, the application shall contain a provision that in the event the federal land management agency reduces the Financial

Warranty, the Permittee must post an acceptable replacement Warranty with the state prior to any release by the federal land management agency. The replacement Warranty shall be sufficient to cover the cost of reclamation liability unless the state conducts an inspection and concurs with the federal land management agency finding.

4.2.2 Specific Provisions - 110 ~~and 110(6)~~-Limited Impact Operations

- (1) This Rule shall be applicable to Financial Warranties provided for Permits applied for pursuant to Section 34-32.5-110(1), C.R.S., as of July 1, 1993. The Financial Warranty for a Limited Impact Permit shall be in an amount to be determined by the Office.
- (2) The Financial Warranty for any Limited Impact Permit which is filed pursuant to Section 34-32.5-110(1), C.R.S., including those which are automatically issued as a result of Office inaction within thirty (30) ~~eD~~Days pursuant to the Act (Section 34-32.5-110(4), C.R.S.) shall be in an amount equal to the estimated cost of reclamation.
- (3) Divisions of state government and units of municipal and county government are exempt from submitting Financial Warranties and are not required to provide reclamation costs. Quasi-governmental agencies are not entitled to the financial warranty exemption unless otherwise approved by the Board.

4.2.3 Permit Conversion

The conversion of any 110 Limited Impact Permit to a 112 Reclamation Permit shall require a Financial Warranty in an amount equal to the estimated cost of reclamation.

4.2.4 Specific Provisions - 111 Special Operations

- (1) The Financial Warranty for a 111 Special Operation Permit which is automatically issued as a result of Office inaction within fifteen (15) ~~eC~~alendar ~~eD~~Days, pursuant to the Act (Section 34-32.5-111(5), C.R.S.), shall be in an amount of not less than ~~two-three~~ thousand five hundred dollars (\$~~23~~,500) per acre of affected land. However, the Office or Board may require such other greater amount necessary to ensure that estimated costs of reclamation are assured.
- (2) Divisions of state government and units of municipal and county government are exempt from submitting Financial Warranties and are not required to provide reclamation costs. Quasi-governmental agencies are not entitled to the financial warranty exemption unless otherwise approved by the Board.

4.2.5 Specific Provisions - 112 Reclamation Permit Operations

- (1) The Financial Warranty for any 112 Reclamation Permit shall be in an amount to be determined by the Board in accordance with the guidelines set forth herein.
- (2) The Financial Warranty for any 112 Reclamation Permit which is automatically issued as a result of Board inaction within the one hundred and twenty (120) ~~eD~~ay period pursuant to the Act shall be in an amount equal to two thousand dollars (\$2,000.00) for each acre of Affected Land, or other such amount as the Board may determine at a subsequent hearing.

- (3) If, at a hearing, the Board determines that the Financial Warranty is not adequate, the Operator shall have sixty (60) ~~4~~Days to post the additional Financial Warranty in a form and amount acceptable to the Board.
- (4) Divisions of state government and units of municipal and county government are exempt from submitting Financial Warranties and are not required to provide reclamation costs. Quasi-governmental agencies are not entitled to the financial warranty exemption unless otherwise approved by the Board.

4.2.6 Specific Provisions - Exploration Notice

- (1) Upon filing the Notice of Intent to Conduct Exploration, the person shall provide Financial Warranty in the amount of two thousand dollars (\$2,000.00) per acre of the land to be disturbed, or such other amount as determined by the Office, based on the projected costs of reclamation.
- (2) Statewide Warranties may be submitted for exploration, provided such warranties are in an amount equal to the estimated cost of reclamation per acre of affected land.

4.3 TYPES OF FINANCIAL WARRANTIES

Proof of financial responsibility may consist of any one or more of the following, subject to approval by the Board:

4.3.1 Cash Bond

Cash or Certified funds assigned to the Board.

4.3.2 Cash Escrow Account

A fund of cash or cash invested in

- (i) securities issued or directly and fully guaranteed or insured by the United States or any agency or instrumentality thereof, including treasury bills, discount notes of the Federal Home Loan Bank, Federal National Mortgage Association, and Federal Farm Credit System (provided that the full faith and credit of the United States is pledged in support thereof) having maturities of not more than one hundred and eighty (180) ~~4~~Days from the date of acquisition;
- (ii) time deposits, certificates of deposit and banker's acceptances with maturities of not more than one hundred and eighty (180) ~~4~~Days from the date of acquisition by such person of a commercial bank having, or which is the principal banking subsidiary of a bank holding company having, a long-term unsecured debt rating of at least "AAA" or the equivalent thereof from Standard & Poor's;
- (iii) repurchase obligations with a term of not more than seven (7) ~~4~~Days for underlying securities of the types described in clause (i) above entered into with any bank meeting the qualifications specified in clause (ii) above;

- (iv) investments in money market funds substantially all assets of which are comprised of securities of the types described in clauses (i) through (iii) above; or
- (v) other instruments as approved by the Board established in the form of an escrow account.

4.3.3 Corporate Surety Bonds

A Surety Bond issued by a corporate surety authorized to do business in this state.

4.3.4 Irrevocable Letters of Credit

An Irrevocable Letter of Credit issued by a bank authorized to do business in the United States; the Operator/Applicant must provide evidence that the bank issuing the Letter of Credit is in good financial standing and condition, as may be evidenced by its rating by an appropriate rating system.

4.3.5 Certificates of Deposit

A Certificate of Deposit assigned to the Board.

4.3.6 Deeds of Trust and Security Agreements

A Deed of Trust or security agreement encumbering real or personal property and creating a first lien in favor of the State.

4.3.7 ~~Self-Insurance~~Reserved

~~Self insurance through credit rating or net worth, as further described in Rules 4.10.1 and 4.10.2, respectively.~~

4.3.8 Individual Reclamation Fund

A trust fund which shall be funded by periodic cash payments representing a fraction of total receipts, providing assurance that the funds required for reclamation will be available.

~~**4.3.9 Salvage Credit**~~

~~Credit for the Salvage Value of project related fixtures and equipment (excluding rolling stock) owned or to be owned by the Financial Warrantor within the permit area, represented by a security agreement creating an equipment lien, less the value of any encumbrances of higher priority, which encumbrances shall be limited to government encumbrances.~~

~~**4.3.10 First Priority Lien on Project-related Fixtures and Equipment**~~

~~A Deed of Trust or security agreement encumbering specific project related fixtures and equipment that must remain on site upon completion of mining operations, or that must be demolished or removed in order for the Reclamation Plan to be performed, creating a first priority lien in favor of the State.~~

~~**4.3.11 Negotiable Bonds of the United States Government**~~

~~A Treasury note backed by the full faith and credit of the United States Government.~~

4.4 SPECIFIC REQUIREMENTS FOR CASH BONDS

Cash or Certified funds shall be held in trust by the State Treasurer's Office. All interest shall accrue to the benefit of the Financial Warrantor except where a permit is revoked and the Financial Warranty is forfeited, the interest shall accrue to the Division of Reclamation, Mining and Safety. The accrued interest shall be used for reclamation of the site.

4.5 SPECIFIC REQUIREMENTS FOR CASH ESCROW ACCOUNTS

- (1) Cash Escrow Accounts shall be administered by an independent Escrow Agent other than the Office and shall consist of cash and/or cash invested in financial instruments as described in Rule 4.3.2. If the Escrow Agent is a bank, the bank shall be rated as well-capitalized as defined in the Uniform Bank Performance Report.
- (2) The Escrow Agent shall be a United States bank or other financial institution, company, corporation, business or firm.
- (3) Investment of the Cash Escrow Account(s) shall be proportioned as follows:
 - (i) not less than fifty percent (50%) of the Cash Escrow Account(s) shall be convertible into cash or other immediately available funds within twenty-four (24) hours; and
 - (ii) the balances of the Cash Escrow Account(s) shall be convertible into cash or other immediately available funds within one hundred and eighty (180) ~~d~~Days.
- (4) All interest shall accrue for the benefit of the Operator.
- (5) All maintenance fees for the Cash Escrow Account(s) shall be paid for by the Operator.
- (6) The Escrow Agent shall provide to both the Operator and the Board monthly account statement detailing the activities and interests earned on the Cash Escrow Account(s), the cost and market value of the Cash Escrow Account(s), and the balances of the various types of instruments into which the Cash Escrow Account(s) are invested.
- (7) On the anniversary of the Cash Escrow Account(s), the Operator shall report to the Board the status of its activities under the Permit, including, but not limited to, the estimated reclamation costs for the area disturbed to date and the estimated amount of reclamation costs for the additional area to be disturbed during the following twelve (12) months. Based upon this annual report, the Board may require the balance of the Cash Escrow Account(s) be increased to an amount that is not less than the total amount of estimated reclamation costs. The Board shall notify the Operator in writing of any required increase in the amount of Cash Escrow Account(s) and, within sixty (60) ~~d~~Days of the receipt of such notice, the Operator shall deposit the amount of the increase with the Escrow Agent. The Operator shall submit to the Board the corporation's annual report, which lists the Cash Escrow Account(s) in the report footnotes. The Operator shall also submit an annual report of the Escrow Agent.
- (8) In addition to the above requirements, any agreement establishing the Cash Escrow Account(s) shall provide the following:

- (a) Upon order of forfeiture of the Cash Escrow Account(s) by the Board, the Escrow Agent shall release the principal of the Cash Escrow Account(s) to the Board within five (5) ~~4~~Days after presentment of the Board forfeiture order to the Escrow Agent. The Operator agrees not to contest or otherwise challenge the Escrow Agent's disbursement of the Cash Escrow Account(s) in accordance with this Rule.
- (b) The Operator may not use the Cash Escrow Account(s) as collateral for any loan, mortgage or other obligation or as a guarantee or security interest for any obligation of the Operator, including any security interest which may be filed under Article 9 of the Uniform Commercial Code as in effect in Colorado.
- (c) The Board may file a security interest and lien upon the Cash Escrow Account(s) in accordance with Article 9 of the Uniform Commercial Code in effect in Colorado.
- (d) The Board is not responsible for and is not indemnifying, insuring, or otherwise holding harmless the Escrow Agent or the Operator with respect to the agreement for any loss, liability, cost damage or expense including attorney's fees, the Escrow Agent may suffer or incur by reason of any action, claim or proceeding brought by or against the Escrow Agent arising out of or relating in any way to the agreement or the Cash Escrow Account(s).

4.6 SPECIFIC REQUIREMENTS FOR CORPORATE SURETY BONDS

- (1) The Operator/Applicant shall submit a fully executed Corporate Surety on a form provided by the Office.
- (2) A Power of Attorney authorizing the party signing on behalf of the insurance company shall be submitted with the Corporate Surety.

4.7 SPECIFIC REQUIREMENTS FOR IRREVOCABLE LETTERS OF CREDIT

- (1) The Irrevocable Letter of Credit shall be executed on the issuing bank's letterhead using the language provided by the Office.
- (2) The Irrevocable Letter of Credit shall be automatically renewable. The Letter of Credit shall provide that, in case of non-renewal, the bank must notify the Office and the Operator, by Certified Mail, at least ninety (90) ~~4~~Days prior to the expiration date of the Letter of Credit.
- (3) The bank shall provide documentation in the form of a balance sheet certified by a Certified Public Accountant demonstrating that the Letter of Credit does not exceed ten percent (10%) of the bank's capital surplus accounts. This documentation shall be provided by the Operator, annually, as part of the Operator's Annual Report.

4.8 SPECIFIC REQUIREMENTS FOR CERTIFICATES OF DEPOSIT

- (1) The Certificate of Deposit shall be assigned to the State of Colorado/Mined Land Reclamation Board.

- (2) The Certificate of Deposit shall be automatically renewed.
- (3) The account shall be a public funds account.
- (4) The Certificate of Deposit shall be issued by an eligible public depository under the Public Deposit Protection Act (PDPA), as required by Section 11-10.5-101, C.R.S.

4.9 SPECIFIC REQUIREMENTS FOR DEEDS OF TRUST AND OTHER SECURITY INTERESTS IN REAL OR PERSONAL PROPERTY

4.9.1 General Provisions

- (1) The Board or Office may accept interests in real and personal property as Financial Warranties of not more than ~~eighty-five percent (85%)~~ seventy-five percent (75%) of the ~~estimated appraised~~ value of ~~any such the~~ property. To qualify for the use of Deeds of Trust, an Operator must have reclamation liabilities in excess of thirty (30) million dollars. The total amount of interests in real and personal property shall not exceed twenty-five percent (25%) of the total required financial warranty unless specifically approved by the Board.
- (2) Any person offering such Financial Warranty shall:
 - (a) submit current information necessary to show clear title to the property and the current appraised value ~~of such the~~ property. This information shall contain a completed appraisal in a form approved by the Board.
 - (b) Submit together with the Annual Report as required by Rule 1.15, the following:
 - (i) an update by a qualified independent appraiser indicating any changes in property value;
 - (ii) a statement summarizing any circumstances which may affect the adequacy of the Deed if it is a Trust or security agreement; and
 - (iii) proof that there are no past-due property taxes.
- (3) The Board or Office may refuse to accept any Deed of Trust or security agreement if the property or equipment offered is necessary in the functioning or completion of the approved Reclamation Plan.

4.9.2 Deed of Trust - Real Estate

- (1) Rules 4.1.2(8)(a) and (c) shall be applicable for new Construction Materials Operations on July 1, 1993, and existing Construction Materials Operations on January 1, 1996, to Deeds of Trust existing as of July 1, 1993 and subsequent updates of these same Deeds of Trust used as collateral for Financial Warranties; and to any Financial Warranty completed before July 1, 1993 if the value of any such Financial Warranty includes any construction material value or if construction material value is used to update any such Financial Warranty. The value of any Financial Warranty described in this Rule shall include construction material value for the life of the Warranty. Updates shall mean only those changes that adjust the

construction material or property value of an existing Deed of Trust, and does not include submissions of new properties.

- (2) Failure to provide the documents required by Rule 4.9.1(2) shall indicate a reason to believe the Financial Warranty is not being maintained in good standing as required by Rule 4.1(7).
- (3) A request for an increase in the bond by the Office shall require a reappraisal of any real property used as security for the bond. Such reappraisal shall be timely, provided by the Operator and shall be completed by an independent appraiser, acceptable to the Office.

~~4.9.3 First Priority Lien – Fixtures and Equipment~~

~~With respect to first priority liens on project-related fixtures and equipment described in Rule 4.3.10, above:~~

- ~~(a) the Board or Office may, in its discretion, accept a first priority lien, in the amount of the Financial Warranty prescribed pursuant to Rule 4.2.1, on any project-related fixtures and equipment that must remain on-site in order for the Reclamation Plan to be performed, in lieu of including the cost of acquiring and installing such fixtures and equipment;~~
- ~~(b) the Board or Office may accept a first priority lien on any project-related fixtures and equipment that must be demolished or removed from the site under the Reclamation Plan. The Board or Office may, in its discretion, accept such a lien as a portion of the proof of financial responsibility if the amount credited for such lien does not exceed the cost of demolishing or removing the subject fixtures and equipment or the market value of such fixtures and equipment, whichever is less; and~~
- ~~(c) any fixtures and equipment accepted pursuant to this Rule shall be insured, with the MLRB named as the additional insured, and maintained in good operating condition and shall not be removed from the permit area without the prior consent of the Board or Office. Each Operator/Permittee or Applicant providing a lien on such equipment and fixtures shall file an Annual Report with the Office in sufficient detail to fully describe the condition, value and location of all pledged fixtures and equipment. Such Financial Warrantor shall not pledge such equipment and fixtures to secure any other obligation and shall immediately notify the Office of any other interest that arises in the pledged property, and shall comply with the requirements of Rule 4.15.~~

~~4.10 RESERVE SPECIFIC REQUIREMENTS FOR SELF-INSURANCE~~

~~4.10.1 Self-Insurance – Credit Rating~~

~~The Operator/Permittee or Applicant shall submit to the Office a certified financial statement for the most recent fiscal year and a certification by an independent auditor, which shows:~~

- ~~(a) the Financial Warrantor is the issuer of one or more currently outstanding senior credit obligations that have been rated by a nationally recognized rating organization;~~
- ~~(b) said obligations enjoy a rating of "A" or better; and~~

- ~~(c) at the close of the Financial Warrantor's most recent fiscal year, its net worth was equal to or greater than two (2) times the amount of all Financial Warranties.~~

~~4.10.2 Self-Insurance – Net Worth~~

~~The Operator/Permittee or Applicant shall submit to the Office a certified financial statement for the most recent fiscal year and a certification by an independent auditor, which shows that as of the close of said year:~~

- ~~(a) the Financial Warrantor's net worth was at least ten million dollars (\$10,000,000.00) and was equal to or greater than two (2) times the amount of all Financial Warranties;~~
- ~~(b) the Financial Warrantor's tangible fixed assets in the United States were worth at least twenty million dollars (\$20,000,000.00);~~
- ~~(c) The Financial Warrantor's total liabilities to net worth ratio was not more than two to one; and~~
- ~~(d) the Financial Warrantor's net income, excluding non-recurring items, was positive. Non-recurring items which affect net income shall be stated in order to determine if they materially affect self-bonding capacity.~~

~~4.10.3 Board or Office Right to Deny Self-Insurance~~

~~The Board or Office may deny self insurance if the Operator/Permittee or Applicant has non-recurring items that affect self-bonding capacity.~~

4.11 SPECIFIC REQUIREMENTS FOR INDIVIDUAL RECLAMATION FUND

4.11.1 Establishment of Fund

- (1) Upon commencement of production or when site conditions change that make it necessary, the Operator may establish an individual reclamation fund, to be held by an independent trustee for the Board, upon such terms and conditions as the Board may prescribe, which trust fund shall be funded by periodic cash payments representing such fraction of receipts as will, in the opinion of the Board, provide assurance that funds will be available for reclamation.
- (2) Prior to issuance of a permit, the Operator will provide another form of Financial Warranty as described herein. As the reclamation fund increases in value, this form of Financial Warranty may be decreased in value so long as the sum of Financial Warranties is that amount specified by the Board or required by the Act.
- (3) In approving the Individual Reclamation Fund as a Financial Warranty, the Board or Office shall:
- (a) approve the form of the initial Financial Warranty;
 - (b) fix the fraction of receipts to be held in trust;

- (c) identify the trustee to hold said funds for the Board;
- (d) prescribe the terms and conditions applicable to the Operator or Warrantor's payment of funds into said trust; and
- (e) prescribe the terms and conditions governing the trustee's handling of said funds.

4.12 SPECIFIC REQUIREMENTS FOR SALVAGE CREDIT RESERVED

4.12.1 Requirements for Salvage Credit

~~A Financial Warranty based on Salvage Credit must meet the following requirements:~~

- ~~(a) Project related fixtures and equipment (excluding Rolling Stock) owned or to be owned by the Operator/Permittee or Applicant within the permit area will have a Salvage Value at least equal to the amount of the Financial Warranty, or the appropriate portion thereof;~~
- ~~(b) Existing liens and encumbrances applicable to said fixtures and equipment, other than liens in favor of the United States or the State of Colorado, any other state, and any political subdivisions, will be subordinated to the lien described in Section 34-32.5-118(4)(b) and (c), C.R.S. and Rule 4.20(6).~~
- ~~(c) Said fixtures and equipment will be maintained in good operating condition, be properly insured against theft, loss, fire and vandalism, and will not be removed from the permit area without the prior consent of the Board. In addition, the Warrantor shall ensure that insurance premiums are always paid two (2) years in advance on said fixtures and equipment.~~

4.12.2 Determination of Salvage Credit

- ~~(1) The Operator/Permittee or Financial Warrantor shall provide the Office with appraisals, information regarding invoice price, current value, cost of demolition and/or removal, and any other information as is necessary to establish the Salvage Value of the particular Project related fixtures and/or equipment for which Salvage Credit is sought as all or part of the Financial Warranty for a Permit.~~
- ~~(2) The Operator/Permittee or Financial Warrantor shall provide the Office with a list of all encumbrances, and shall affirm that no other encumbrances exist to the best of the Operator's or Financial Warrantor's knowledge and belief.~~
- ~~(3) The Office may request the Operator/Permittee or Financial Warrantor to provide additional reasonable information to support the claimed Salvage Value and/or costs associated with any Project related fixture or equipment for which Salvage Credit is sought.~~
- ~~(4) Ten (10) days prior to any Board hearing regarding a Permit application for which Salvage Credit is offered as all or part of the Financial Warranty, the Office shall inform the Operator/Permittee or Financial Warrantor of its opinion as to the amount or estimate of the amount of the Salvage Value attributable to the Project related fixtures and equipment for which Salvage Credit is sought.~~

- ~~(5) At the hearing before the Board, the Office shall recommend an amount for Salvage Credit value.~~
- ~~(6) The Board shall, after considering the Office's recommendation, testimony offered by the Operator, Warrantor, or any other person, and facts adduced at the hearing, fix the amount of the Salvage Credit for the Project related fixtures and equipment, and attach conditions, as may be appropriate, to annually verify the value of the Salvage Credit.~~

4.13 ~~SPECIFIC REQUIREMENTS FOR NEGOTIABLE BONDS OF THE UNITED STATES GOVERNMENT~~RESERVED

- ~~(1) The Treasury note shall be purchased from a U.S. bank or broker.~~
- ~~(2) The Treasury note shall be for a period of five (5) years.~~
- ~~(3) The Treasury note shall be registered to the custody agent (bank or broker) and pledged to the Board and held in a joint account with the bank or broker.~~
- ~~(4) All interest shall be paid to the operator.~~
- ~~(5) The Board shall accept the value of the Treasury note at ninety percent (90%) of face value.~~
- ~~(6) The only authorized signatory on the account is that of the Board.~~
- ~~(7) The operator shall provide to the Board:
 - ~~(a) Book Entry receipt.~~
 - ~~(b) An Assignment of U.S. Treasury Note to the Board.~~~~
- ~~(8) Fees associated with the purchase and maintenance of Treasury Notes are the responsibility of the Permittee.~~
- ~~(9) The custody agent shall provide monthly statements of the account to the Board.~~
- ~~(10) If the market value of the U.S. Treasury Note drops below the required ninety percent (90%) of face value, the Permittee will supply the Board with additional funds or post an additional or replacement bond up to the required bond amount.~~

4.14 REDUCTION OF WARRANTY AMOUNT

4.14.1 Operator's Request for Reduction

- (1) An Operator may request that the Office reduce the amount of the Financial Warranty required.
- (2) Such a request must:

- (a) be made in writing or via electronic submission, per the Office designation, separate from other correspondence;
 - (b) include an estimate of the actual cost to reclaim the site based on what it would cost an independent contractor to complete reclamation, including unit costs for reclamation activities as appropriate to the operation to comply with the provisions of Rule 3.1 and the Permit's Reclamation Plan.
- (3) Such request shall be processed as described in Rule 4.16, for Exploration operations, or Rule 4.17, for all other operations.

4.15 IMPAIRMENT OF FINANCIAL WARRANTIES

- (1) Each Financial Warrantor providing proof of financial responsibility in a form described in Rules ~~4.3.6, 4.3.7, 4.3.8, 4.3.9, and 4.3.10~~ shall notify the Board within sixty (60) ~~e~~Days of any net loss incurred in any quarterly period.
- (2) Whenever the Board receives a notice under Rule 4.15(1) or fails to receive a certification or a substitute Warranty as required by Rule 4.1.2(5), or otherwise has reason to believe that a Financial Warranty has been materially impaired, it may convene a hearing for the purpose of determining whether impairment has in fact occurred.
- (3) Whenever the Board elects to convene a hearing pursuant to Rule 4.15(2), it may hire an independent consultant to provide expert advice at the hearing. The fees for any such consultant shall be paid by the Financial Warrantor, and no consultant shall be hired until the Financial Warrantor signs a written fee agreement in such form as the Board may prescribe. In the event that a Financial Warrantor refuses to sign such an agreement, the Board may, without hearing, order the Financial Warrantor to provide an alternate form of Financial Warranty.
- (4) At any such hearing, if the Board finds that a Financial Warranty has been materially impaired, it may order the Financial Warrantor to provide an alternate form of Financial Warranty.
- (5) A Financial Warrantor shall have ninety (90) ~~e~~Days to provide an alternate warranty required under Rule 4.15(4).

4.16 RELEASE OF WARRANTIES - EXPLORATION OPERATIONS

4.16.1 Operator Application for Release of Warranties

- (1) Upon the completion of reclamation, any person that filed with the Board or Office a ~~n~~ Exploration Notice of Intent to Conduct Exploration and Financial Warranties shall submit to the Office ~~by Certified Mail~~ via electronic form and separate from other types of communication to the Board or Office a Reclamation Report and request for reclamation responsibility release stating that reclamation is finished.
- (2) Such report shall contain, at a minimum:

- (a) the name of the operation, the name of the Person conducting exploration (the "Explorer"), file number of the ~~Exploration~~ Notice of Intent to Conduct Exploration and the name, mailing address, e-mail address, and phone number of the contact person;
 - (b) a signed statement , or other certification as designated and approved by the Office, by the ~~Person conducting exploration Explorer~~ that all reclamation requirements of the Exploration Notice have been satisfied;
 - (c) a narrative describing site grading, topsoil replacement, successful revegetation and other stabilization activities, as appropriate;
 - (d) suitable photographs of the reclaimed area; and
 - (e) a map of sufficient detail to determine the location of the exploration activity.
- (3) The Office shall, within ninety (90) calendar ~~d~~Days after receiving said report, or as soon thereafter as weather conditions permit, inspect the lands and reclamation described in the notice to determine if the ~~Person conducting exploration Explorer~~ has complied with all applicable requirements.
 - (4) If the Office finds the reclamation to be in compliance with the requirements of the Notice of Intent, Rules and Regulations, and the Act, the Office shall release all applicable performance and financial warranties. The financial warranty shall not be held for more than sixty (60) ~~e~~Calendar ~~d~~Days after the Office finds that the ~~Notice of Intent Operator Explorer~~ has successfully completed reclamation. However, an appeal to the release of the ~~f~~Financial ~~w~~Warranties shall stay the release on the sixtieth (60th) ~~d~~Day pending a Formal Board Hearing.

4.17 RELEASE OF PERFORMANCE AND FINANCIAL WARRANTIES FOR MINING OPERATIONS

4.17.1 Operator Requirements

- (1) The Operator of any mining operation ~~possessing a 110 Limited Impact Permit, or a 111 Special Operations Permit, or a 112 Reclamation Permit~~ may file a written notice of completion of reclamation and request for release of reclamation responsibility with the Office whenever an Operator believes any or all requirements of the Act, the Rules and Regulations, and the approved reclamation plan have been completed with respect to any or all of the Affected Lands.
- (2) The Operator shall include in the notice to the Office the names and addresses and phone numbers of all owners of record to the affected land.
- (3) The written notice requesting release shall be sent by Certified Mail or e-permitting and be separate from other types of communication to the Office.
- (4) Such notice shall contain a signed statement , or other certification as designated and approved by the Office, by the Operator or their agent that all applicable portions of the

Reclamation Plan requirements have been satisfied in accordance with these Rules and all applicable requirements under the Act.

4.17.2 Office Requirements

- (1) The Office, upon receipt of said notice of completion of reclamation, shall immediately provide notice to all owners of record to the affected land ~~and to the county(s), the local Board of County Commissioners, and the County planning commission.~~
- (2) The Office shall, within sixty (60) ~~e~~Calendar ~~d~~Days after receiving said notice, or as soon thereafter as weather conditions permit, inspect the lands and reclamation described in the notice to determine if the Permittee has complied with all applicable requirements.
- (3) If the Office fails to conduct an inspection within the time specified in Rule 4.17.2(2), or fails to advise the Permittee of deficiencies within the time specified in Rule 4.17.2(4), then all Financial Warranties applicable to reclamation described in the notice shall be deemed released as a matter of law.
- (4) Where the Office finds that a Permittee has not complied with the applicable requirements of the Act, Rules and Regulations, or the approved reclamation plan, it shall advise the Permittee of such non-compliance not more than sixty (60) ~~e~~Calendar ~~d~~Days after the date of the inspection.
- (5) Where the Office finds that a Permittee has successfully complied with the requirements of the Act, Rules and Regulations, and the approved reclamation plan, the Office shall release all applicable performance and financial warranties. Release (pending an appeal) shall be in writing and mailed within thirty (30) ~~e~~Calendar ~~d~~Days to the Permittee after the date of such findings. However, an appeal to the release of the financial and performance warranties shall stay the release on the thirtieth (30th) ~~d~~Day pending a Formal Board Hearing.

4.18 PUBLIC NOTICE AND FILING OF WRITTEN OBJECTIONS REGARDING A REQUEST FOR RELEASE OF FINANCIAL WARRANTY

- (1) Any person ~~who demonstrates that they are~~ directly and adversely affected or aggrieved ~~and whose interest is entitled to legal protection under the Act~~ may submit written objections on the request for reclamation responsibility release so long as such comments are received by the Office ~~within no more than~~ fifteen (15) ~~d~~Days ~~of after~~ notice by the Office to the county(s) and all owners of record to the affected land.
- (2) Notice of the Office's decision to release the Permittee from further reclamation responsibility shall be published in the next monthly agenda of the Board.

4.19 GENERAL PROVISIONS - APPEALS TO DECISION - RELEASE OF FINANCIAL WARRANTY

- (1) Any person directly and adversely affected or aggrieved by an Office decision to approve or deny the request for reclamation responsibility release and whose interest is entitled to protection under the Act may appeal the decision to the Board by submitting a request for Administrative Appeal to the Office according to the provisions of Rule 1.4.11. The request

for Administrative Appeal must specify the basis for being directly and adversely affected or aggrieved, a statement of why the person's interest is protected by the Act, the permit number assigned by the Office and include a statement of the factual and legal issues presented by the appeal.

- (2) If the Office decision to release a Permittee from reclamation liability is reversed by the Board on appeal, all outstanding obligations under the permit, the financial warranty, and the performance warranty shall remain in effect.

4.20 FORFEITURE OF FINANCIAL WARRANTY

- (1) A Financial Warranty shall be subject to forfeiture whenever the Board shall determine at a hearing that any one or more of the following circumstances exist:
 - (a) the Operator has violated a Cease and Desist order entered pursuant to Section 34-32.5-124, C.R.S. 1984, as amended, and, if corrective action was proposed in such order, has failed to complete such corrective action although ample time to have done so has elapsed; or
 - (b) the Operator is in default under the Performance Warranty and has failed to cure such default although they have been given written notice thereof and has had ample time to cure such default;
 - (c) the Financial Warrantor has failed to maintain the Financial Warranty in good standing as required by Section 34-32.5-117, C.R.S. 1984, as amended; or
 - (d) the Financial Warrantor no longer has the financial ability to carry out the obligations under the Act.
- (2) Whenever the Board, based on information and belief, has reason to believe that a Financial Warranty is subject to forfeiture, the Board shall so notify the Operator and all Financial Warrantors. The Board shall afford the Operator and all Financial Warrantors the right to appear before the Board at a hearing to be held not less than thirty (30) ~~d~~Days after the parties' receipt of said Notice.
- (3) At any such hearing, the Board shall be empowered to:
 - (a) withdraw or modify any determination that the Financial Warranty is subject to forfeiture;
 - (b) settle or compromise the determination; or
 - (c) confirm its determination that the Financial Warranty should be forfeited.
- (4) Upon finding that a Financial Warranty should be forfeited, the Board shall issue written findings of fact and conclusions of law to support its decision and shall issue an order directing affected Financial Warrantors to immediately deliver to the Board all amounts warranted by applicable Financial Warranties.

- (5) The Board, upon issuing any order pursuant to Rule 4.20(3), may request the Attorney General to institute proceedings to secure or recover amounts warranted by forfeited Financial Warranties. The Attorney General shall have the power, inter alia, to:
 - (a) foreclose upon any real and personal property encumbered for the benefit of the state;
 - (b) collect, present for payment, take possession of, and otherwise reduce to cash any property held as security by the Board;
 - (c) dispose of pledged property.
- (6) The amount of any forfeited Financial Warranty shall be a lien in favor of this state upon any project-related fixtures or equipment offered as proof of financial responsibility pursuant to Section 34-32.5-117(3)(f)(V)(C)-(E), C.R.S. 1984, as amended.
- (7) Said lien shall have priority over all other liens and encumbrances irrespective of the date of recordation, except liens of record on the effective date of this Act and liens of the United States, the state, and political subdivisions thereof for unpaid taxes, and shall attach and be deemed perfected as of the date the Board approves issuance of the Permit.
- (8) Funds recovered by the Attorney General in proceedings brought pursuant to Rule 4.20 shall be held in the account described in Section 34-32.5-122, C.R.S. 1984, as amended, and shall be used to reclaim lands covered by the forfeited warranties, ~~except that, five percent (5%) of the amount of the Financial Warranty forfeited and recovered shall be deposited in the Mined Land Reclamation Fund, created in Section 34-32-127, C.R.S. 1984, as amended, to cover the administrative costs incurred by the Office in performing reclamation.~~
- (9) The Board shall have a right of entry to reclaim said lands. Upon completion of such reclamation, the Board shall present to the Financial Warrantor a full accounting and shall refund all unspent moneys.
- (10) Defaulting Operators/Permittees shall remain liable for the actual cost of reclaiming Affected Lands, ~~less any amounts expended by the Board pursuant to Rule 4.20(8), notwithstanding any discharge of applicable Financial Warranties.~~
- (11) Notwithstanding any provision of this Rule 4.20 to the contrary, a corporate surety may elect to reclaim Affected Lands in accordance with an approved plan in lieu of forfeiting a bond penalty, or in accordance with the approved Plan acceptable to the Board or Office, otherwise the Board may forfeit the fund and perform reclamation.

RULE 5: EXPLORATION OPERATIONS

5.1 NOTICE OF INTENT TO CONDUCT EXPLORATION OPERATIONS

5.1.1 General Provisions

(1) Any person or organization desiring to conduct exploration or construct monitoring wells for establishment of baseline groundwater characterization for a future mine reclamation permit as defined in Rule 1.1(15), shall, prior to entry upon the land, file with the Office a Notice of Intent to Conduct Exploration (NOI) on a form provided by the Board. A separate NOI shall be filed with the Office for each non-contiguous Land Survey Quarter Section in which a proposed exploration activity is to occur. The requirement for separate notices may be waived by the Office for good cause.

(2) If the Office determines that the exploration proposed in the NOI is instead “mining,” the Office shall notify the person or organization in writing. Any appeal of this determination shall follow the procedures set forth in Rule 1.4.11.

(3) Modifications to an existing NOI must be submitted in writing and approved in advance of such activity. Modifications shall be reviewed by the Board or Office in the same manner as new NOIs, use the same NOI form, and submit the same application fee. Explorers must fill out sections of the NOI form that will change and indicate the sections that will not change.

5.1.2 Application Requirements

~~Such notice~~The NOI form (Rule 5.1.1(1)) shall, at a minimum, contain the following:

- (a) date of filing of the ~~Notice of Intent~~NOI;
- (b) the name, mailing address, e-mail address, and telephone number of the Person or organization responsible for the conducting exploration (the “Explorer”);
- (c) the name, mailing address, e-mail address, and telephone number of ~~the~~ a person to contact concerning the information in the NOI and reclamation of lands affected by exploration;
- (d) a description of lands, including:
 - (i) the site name, if applicable;
 - (ii) the location, by each quarter section, section, township and range;
 - (iii) where Public Land is involved, specify the land management agency, mailing address and telephone number;
 - (iv) the estimated acreage of land surface to be affected by the exploration activities to include areas affected by access along routes for which reclamation is the responsibility of the ~~Person conducting exploration~~Explorer; and
 - (v) a U.S.G.S. 7.5 minute quadrangle, or similar map of adequate scale, that:

- (A) identifies the proposed exploration site(s) or activity areas involving surface disturbance. Activity areas may include all drill holes, mud pits, excavations, trenches, and explorations roads; and
 - (B) includes sufficient detail to identify and locate all known exploration features and facilities that may be affected and those that are not anticipated to be affected. This includes the location of all drill holes, mud pits, excavations, trenches, and exploration roads.
- (vi) provide documentation of the legal right to enter to conduct exploration and reclamation ~~for all Owners of Record of the surface and mineral rights of the affected land, for Owners of Record described in Rule 1.6.2(1)(e)(i).~~ This may include a copy of a lease, deed, abstract of title, a current tax receipt, or a signed statement by the Landowner(s) and acknowledged by a Notary Public stating that the ~~Person conducting exploration~~ Explorer has legal right to enter to conduct exploration and reclamation.
- (e) the approximate date of anticipated commencement and the date of completion of the above-described exploration activity. ~~Completion of activities and commencement of reclamation shall not exceed~~ Such activity must be completed within five (5) years of the NOI approval unless otherwise approved by the Office or Board;
 - (f) a narrative description of the methods to be used to conduct the exploration operation, including, but not limited to, the types and uses of equipment, drilling, road or other access route construction, excavations, and other site disturbance activities;
 - (g) the measures to be taken to reclaim any affected land consistent with the applicable requirements of Rule 3.1. Such reclamation must be completed within five (5) years of the completion of exploration activities notice provided for in Rule ~~5.65.3.4~~;
 - (h) a statement that exploration will be conducted pursuant to the terms and conditions listed on the approved NOI form; and
 - (i) an application fee as specified in Section 34-32.5-125(a)(IX), C.R.S.

5.1.3 Office Review

Upon receipt by the Office of a NOI to Conduct Exploration, the Office shall timely notify the ~~Person conducting exploration~~ Explorer, in writing ~~or via electronic means~~, of receipt of the NOI.

- (a) Review of a NOI and associated Financial Warranty information is required by the Office within twenty (20) ~~Working~~ ~~Days~~ of receipt by the Office. If the ~~Person conducting exploration~~ Explorer has not been notified of any deficiencies of the NOI form or Financial Warranty by the Office within twenty (20) ~~Working~~ ~~Days~~ of receipt by the Office of the NOI, exploration operations may commence. For activities on BLM or USFS lands, the twenty (20) ~~Working~~ ~~Day~~ period begins when the Office has received notification from the appropriate federal land management agency that they have received the notice of proposed activities, or the Office has otherwise determined that the appropriate federal land management agency has received the notice.

- (b) If the Office has notified the ~~Person conducting exploration Explorer~~ within twenty (20) ~~w~~Working ~~d~~Days of receipt of a NOI that it has not been filed in accordance with Rule 5.3, has been deemed complex, or of deficiencies in the Financial Warranty, the ~~Person conducting exploration Explorer~~ shall address all identified deficiencies or complexities within sixty (60) ~~d~~Days of the Office notification. If the NOI deficiencies or ~~Construction Materials Rule 5~~ complexities are not addressed within sixty (60) ~~d~~Days, the Office may terminate the NOI file. The Office shall notify the ~~Person conducting exploration Explorer~~ of such termination.
- (c) (i) The Office shall send notice of its decision on a NOI to the ~~Person conducting exploration Explorer~~;
- (ii) A prospective ~~Person conducting exploration Explorer~~ may appeal an Office determination within five (5) ~~business~~Working ~~d~~Days from the date the Office sends notice of its decision;
- (iii) The Board shall hear any such appeal at its next regularly scheduled meeting that is at least ten (10) ~~e~~Calendar ~~d~~Days from the date of such appeal; ~~and~~;
- (iv) The Office's determination shall not take effect until the expiration of the five (5) ~~business~~Working ~~d~~Days allowed for an appeal, or, in the case of an appeal, until the Board issues its decision.

5.2 CONFIDENTIALITY

5.2.1 Notice, Not a Matter of Public Record

All information provided the Office in a ~~Notice of Intent to Conduct Exploration NOI~~ shall be protected as confidential information by the Board and not be a matter of public record in the absence of written release from the Operator or upon a finding by the Board that reclamation is satisfactory, whichever may first occur.

5.2.2 Permanently Confidential

Pursuant to Sections 34-32.5-113(3) and 34-32.5-113(7)(c) and (d), C.R.S. 1984, as amended, all information contained within the temporary and final reports, required in accordance with Rules 5.4.3 and ~~5-6-15.7~~ shall remain permanently confidential.

5.3 TERMS AND CONDITIONS FOR EXPLORATION OPERATIONS

5.3.1 Protection of Surface Areas

~~The Exploration Operations described in this notice will be conducted in such a manner as to minimize surface disturbances. In addition to the measures required in Rules 5 and 3.1, precautions to be taken include~~ will be conducted in such a manner as to minimize surface disturbances and protect public health, safety, and the environment. The Explorer shall:

- (a) address the standards required in Rule 5;

- (b) address all relevant reclamation performance standards of Rule 3.1;
- (c) confinement of operations exploration to areas near existing roads or trails where practicable. Any new road used for exploration, or any existing road which is significantly upgraded must be included as part of the affected acreage. A road is significantly upgraded if it is significantly widened, or the route or gradient are significantly altered;
- (bd) drilling shall be conducted conduct drilling in such a way as to prevent cuttings and fluids from directly entering any dry or flowing stream channels drainage way;
- (ee) timely abandonment of drill holes upon completion as required by Rule 5.4;
- (f) safeguard mud pits, trenches, and excavations from unauthorized entry at all times as necessary to provide for public safety;
- (dg) reclamation of affected lands upon completion of operations or phases of an operation; and timely reclaim affected lands upon completion of exploration operations or phases of the exploration operation. Exploration activities must be completed within five (5) years of the NOI approval unless otherwise approved by the Office or Board, and reclamation must be completed within five (5) years of the completion of exploration activities; and
- (eh) backfilling and revegetating any pits backfill and revegetate trenches and other excavations upon completion of the exploration activities.

5.3.2 Protection of Wildlife

The Exploration Operation shall be conducted as to minimize adverse effects upon on wildlife, including where appropriate but not limited to, escape ways, fencing, or other acceptable wildlife barriers.

5.3.3 Financial Warranty

- (1) Upon filing the Notice of Intent to Conduct Exploration, the person NOI, the Explorer shall provide Financial Warranty in the amount of two thousand dollars (\$2,000.00) per acre of the land to be disturbed, or such other amount as determined by the Office, based on the projected costs of reclamation, taking into account the nature, extent, and duration of the exploration operation and the magnitude, type and estimated cost of the planned reclamation.
- (2) An Explorer-person may submit statewide Financial Warranties for exploration if Financial Warranties are in an amount fixed by the Office, based on the projected costs of reclamation, and such person-Explorer otherwise complies with the provisions of this Rule for every area to be explored. (Further information on Performance and Financial Warranty procedures may be found in Rule 4.)
- (3) The Board or Office shall take reasonable measures to ensure the continued adequacy of any Financial Warranty.

5.3.4 Notice of Completion of Exploration Prior to Initiating Reclamation

- (1) Upon completion of the exploration or the establishment of monitoring wells, there the Explorer shall be submitted to the Office a Notice of Completion of Exploration Operations.

Such notice shall be sent via electronic submission or certified mail separate from all other correspondence.

- (2) Within ninety (90) ~~d~~Days after the submittal of the Notice of Completion the Office shall notify the ~~person-Explorer~~ who had conducted the Exploration Operations of the steps necessary to reclaim the land. (In most cases, this will simply involve a conference to discuss the Reclamation Plans outlined in the ~~Notice of Intent~~NOI that was previously submitted by that ~~person~~Explorer.)

5.3.5 Post-Reclamation - Inspection and Release of Warranties

- (1) The Office shall inspect the lands explored within ninety (90) ~~d~~Days, or as soon thereafter as weather conditions permit, after the ~~Person conducting exploration on the lands~~Explorer submits a Reclamation Report and requests a ~~for~~ reclamation responsibility release, meeting that meets the requirements of Rule 4.16.1(2), including permanent abandonment of all exploration drill holes as required by Rule 5.4.2 or 5.4.5. If the Office finds the reclamation satisfactory, the Office shall release the applicable ~~Performance and~~Financial Warranties.
- (2) The Financial Warranty shall not be held for more than sixty (60) ~~d~~Days after the date the Office determines that reclamation has been completed satisfactorily (including permanent abandonment of all exploration drill holes).

5.3.6 Compliance with State and Federal Laws

All Exploration Operations shall be conducted in such a manner as to comply with all applicable local, state and federal laws, including but not limited to air and water quality laws and regulations, the Act, and these Rules and Regulations.

5.4 ABANDONMENT OF EXPLORATION DRILL HOLES

5.4.1 General Provisions

- (1) ~~Without regard to any exemptions from reclamation responsibility described in or authorized under Rule 1.(13) or any other provision of the Act or these Rules, all~~All drill exploration holes ~~sunk (drilled) for the purpose of exploration for locatable or leasable minerals~~ shall be permanently plugged, sealed or capped pursuant to the requirements of ~~this Rule~~these Rules immediately following the drilling of the hole and the collection of drill hole information; unless provision is made to temporarily abandon the hole pursuant to Rule 5.4.3 ~~to temporarily abandon the hole, to maintain the hole for purposes of monitoring~~ pursuant to Rule 5.4.4 ~~to maintain the hole for purposes of monitoring, or to convert the hole to a water well~~ pursuant to Rule 5.4.5 ~~to convert the hole to a water well~~.
- (2) This Rule shall not apply to holes drilled within the affected area in conjunction with a mining operation for which the Board or Office has issued a permit, nor to wells or holes drilled for the purposes of coal exploration, exploration or removal of oil and gas, nor to geothermal wells or water wells, nor to holes drilled from within underground mine workings. For purposes of this Rule, "permanent abandonment" of a exploration drill hole shall be defined as abandonment in conformance with the requirements of Rules 5.4.2 or

5.4.5, or inclusion within the permit boundary of a mining operation for which the Board or Office has issued a Permit.

- (3) Permanent abandonment shall be attested by the submission of a final report, as described in Rule 5.67.

5.4.2 Permanent Abandonment of Exploration Drill Holes

- (1) Any drill hole which evidences artesian flow of groundwater to the surface shall be plugged with neat cement grout, or a similar material sufficient to prevent such artesian flow, as approved by the Office. The ~~Operator should~~ Explorer shall exercise care in evaluating the existence of artesian flow in fluid, cuttings, rock flour, or mud-drilled holes, in which artesian flow may be temporarily inhibited by the presence of the drilling fluid or mud.
- (2) Any drill hole which encounters an aquifer in consolidated rock formations, shall be sealed, utilizing a high-quality sodium bentonite-type gel, specifically developed for use as an abandonment fluid, or an equivalent material or technique as approved by the Office.
- (3) Any drill hole limited to unconsolidated material and penetrating less than ten (10) feet ~~of penetration~~ into bedrock, shall be backfilled with materials removed from the drill hole, or an equivalent material or technique as approved by the Office. If the materials removed from the hole during drilling are inadequate to backfill the drill hole, materials representative of the undisturbed unconsolidated materials shall be backfilled into the drill hole.
- (4) Any drill hole that penetrates saturated unconsolidated materials and continues more than ten (10) feet into bedrock shall be abandoned in a manner sufficient to prevent inter-mixture of aquifers.
- (5) Any drill hole that penetrates unsaturated unconsolidated materials and continues deeper than ten (10) feet into bedrock, but does not encounter an aquifer, shall be securely capped, as approved by the Office.
- (6) The ~~Operator conducting the exploration~~ Explorer shall submit to the ~~Director of the~~ Office a copy of the final report required under Rule 5.67.

5.4.3 Temporary Abandonment of Exploration Drill Holes

An exploration drill hole may be temporarily abandoned without being permanently plugged or sealed. However, no drill hole which is to be temporarily abandoned without being plugged or sealed shall be left in such a condition as to allow fluid communication between aquifers, consistent with the Rules and Regulations for Water Well Construction, Pump Installation, and Monitoring and Observation Hole/Well Construction ("Water Well Construction Rules"), 2 CCR 402-2, and specifically Rules 10.1 and 10.4.5 of the Water Well Construction Rules, and their applicable subsection therein. Such temporarily abandoned drilled holes shall be securely capped in a manner which prevents unauthorized entry and injury to persons and animals. (Copies of the above-referenced Rules may be reviewed at the Division of Water Resources) ~~Office during normal business hours (8:00 a.m. to 5:00 p.m.) on working days. Contact the Minerals Program Supervisor at the Office address. The Water Well Construction Rules are also available from the Board of Examiners of Water Well Construction and Pump Installation Contractors ("Board of Examiners") at the Division of Water Resources or can be viewed and obtained at the Board of Examiners' web site at www.boe.state.co.us)~~

5.4.4 Establishment or Conversions to a Monitoring Well

An exploration drill hole may be established as or converted to a monitoring well for the purpose of groundwater or geophysical monitoring, if the ~~Operator conducting the exploration~~ Explorer:

- (a) has obtained the necessary permit from the State Engineer (Division of Water Resources);
- (b) cases and seals the drill hole in accordance with the requirements of the Water Well Construction;
- (c) caps the drill hole to prevent unauthorized entry and injury to persons and animals; and
- (d) submits to the Office a copy of the "Well Construction and Test Report" submitted to the Division of Water Resources describing the method and materials used in casing and sealing the drill hole to prevent commingling of aquifer waters.

(e) If the monitoring well was constructed for the purpose of hydrological investigations to acquire baseline monitoring data for a future mine reclamation permit and will remain as a part of the permit's monitoring program, the monitoring well and associated reclamation liability shall be included in the affected lands and reclamation plan of such permit. When a permit is not issued within the timeframes of the prospecting activities of Rule 5.3.1(g), the Prospector shall proceed with abandonment in conformance with the requirements of Rules 5.4.2 unless the monitoring well is converted to a water well under Rule 5.4.5.

5.4.5 Use as, or Conversion to, a Water Well

(1) If any exploration drill hole or monitoring well will ultimately be used as, or converted to, a water well:

- (a) the user of the water well must have obtained an approved well permit from the Colorado Division of Water Resources, in accordance with Articles 90, 91 and 92 of Title 37, C.R.S., prior to drilling and construction of the well; and
- (b) the ~~Operator conducting the exploration~~ Explorer shall submit to the Office the permanent abandonment report required by Rule 5.67 with an attached copy of the completely executed "Well Construction and Test Report," submitted to the Colorado Division of Water Resources as required by the Board of Examiners of the Water Well Construction and Pump Installation Contractors.
 - (i) The ~~Operator~~ Explorer need not complete those portions of the permanent abandonment report which duplicate information contained on the "Well Construction and Test Report."

(2) The user of the water well may assume the ~~Operator's~~ Explorer's responsibility for maintenance of the temporary abandonment and completion of the permanent abandonment of a exploration drill hole or monitoring well proposed to be converted to a water well, if the following requirements are satisfied:

- (a) the user of the water well ~~must~~ submits a copy of the completely executed well permit to the Mined Land Reclamation Office; and

- (b) the user of the water well and the ~~Operator conducting the exploration~~ Explorer ~~must~~ submit a completely executed "Request for Transfer of Responsibility for Abandonment of a Exploration Drill Hole Converted to a Water Well" to the Office.

5.5 SURFACE RECLAMATION

5.5.1 General Requirements

All lands affected by drilling must be reclaimed to a condition appropriate for the land use existing prior to exploration, or other beneficial use, upon completion of exploration.

5.5.2 Specific Requirements

~~This reclamation shall include, but not be limited to,~~ Reclamation shall be completed consistent with all applicable requirements of Rule 3.1 and the following:

- (a) trash must be removed from the site;
- (b) vegetation cleared from the site must be properly disposed of or dispersed;
- (c) drill cuttings must be spread to a depth no greater than one-half (1/2) inch or buried in an approved disposal pit;
- (d) mud pits, excavations, trenches, or other disturbance shall be backfilled and graded to blend with the surrounding land surface;
- (e) if vegetative cover was destroyed, an appropriate seed mix shall be used in the first normal period favorable for planting;
- (f) if necessary to assure successful revegetation, the drill site area shall be scarified, mulched and the seed covered; ~~and~~
- (g) ~~reclamation shall be completed in accordance with all applicable requirements of Rule 3.1. noxious weeds shall be controlled within the area affected by the Explorer; and~~
- (h) existing roads which are to remain as permanent roads after exploration activities are completed, shall be left in a condition equal to or better than the pre-exploration condition.

5.6 ANNUAL REPORT

- (1) An annual report must be submitted by the anniversary date of the NOI approval for each year until a reclamation responsibility release is granted. The Annual Report shall include all information specified on the Annual Report Form, in the format required by the Office, and specifically:
 - (a) the Explorer and contact person's name, address, e-mail, and telephone number, as set forth in Rules 5.1.2(b) and (c);
 - (b) the name, address and telephone number of the surface landowner where Exploration has occurred;

- (c) a description of the exploration activity that has occurred during the preceding year, to include the location of new surface drill holes, mud pits, excavations, trenches, and explorations roads;
 - (d) a description of reclamation that has occurred during the year and during the preceding years;
 - (e) the date that the exploration activity has ended or will end;
 - (f) an updated map showing the location of all holes drilled, any roads constructed, areas disturbed and areas reclaimed to date, including identification of disturbance and reclamation activities which have occurred in the preceding year. Exploration disturbance and reclamation must be identified on a site map of adequate scale to field locate these areas, which may include:
 - (i) coordinates reported in latitude and longitude in degrees, minutes and seconds or in decimal degrees to an accuracy of at least five (5) decimal places (e.g., latitude 37.12345 N, longitude 104.45678 W); or
 - (ii) coordinates based on the Universal Transverse Mercator (UTM) North American Datum (NAD). For UTM, the Explorer will need to specify NAD 1927, NAD 1983 or WGS 84, and the applicable zone, measured in meters.
 - (g) documentation, in a manner acceptable to the Office, showing that the Financial Warranty remains in place and is adequate to fully reclaim the approved exploration site disturbance.
 - (h) signature(s) and signature date(s) , or other certification as designated and approved by the Office, of the Explorer, as set forth in Rule 5.1.2(b), attesting to the accuracy of the information contained therein.
- (2) Failure to submit an annual report for two (2) consecutive years shall constitute evidence of abandonment of the exploration activities. The Office may issue a letter stating its reason(s) to believe a site has been abandoned where the annual report has not been received within sixty (60) Days following the due date of the second annual report. Any appeal of this determination shall follow the procedures set forth in Rule 1.4.11.
- (3) Annual reports and all information contained therein shall be confidential in nature and shall not be matter of public record.
- (4) On the anniversary date of the NOI approval, the Explorer shall submit to the Office an annual fee as specified in Section 34-32.5-125(b)(iv), C.R.S.

5.67 FINAL DRILL HOLE ABANDONMENT REPORT

5.6.1 General Requirements

- (1) No later than sixty (60) days after the completion of the abandonment of any drill hole which has artesian flow at the surface, or no later than twelve (12) months after the completion of the abandonment of any other drill holes, the ~~Operator conducting the exploration~~ Explorer shall submit to the ~~Director of the~~ Office a final drill hole abandonment report containing:
 - (a) the date of completion of abandonment;
 - (b) ~~the location of such hole;~~ the location of exploration disturbance and reclamation at a scale adequate to accurately field locate these areas, as provided for in Rule 5.6(f)
 - ~~(i) for holes having artesian flow at the surface, within two hundred (200) feet of its actual location; or~~
 - ~~(ii) for all other holes, to the nearest forty (40) acre subdivision.~~
 - (c) ~~F~~or holes having artesian flow at the surface, the estimated rate of flow (if such is known); and
 - (d) a description of the plugging, sealing, and capping techniques used, including the following information when applicable:
 - (i) When mud is used for abandonment, the description shall include the viscosity (marsh funnel viscosity) of the mud when the drill hole reached bottom, the trade name of the abandonment mud utilized, and the final viscosity (marsh funnel viscosity) of the abandonment mixture; or-
 - (ii) When cement is used to abandon the drill hole, the description shall include a description of the cement grout mixture utilized to seal and plug the hole.
- (2) In the case of closely spaced drill holes having similar geologic and hydrologic characteristics, the ~~Operator-Explorer~~ may, with the approval of the Office, submit a single consolidated final report including the locations of all drill holes, and the abandonment technique.
- (3) The final report and all information contained therein shall be confidential in nature and shall not be matter of public record.
- (4) The report shall be signed, or other certification as designated and approved by the Office, by the ~~Operator conducting the exploration operation~~ Explorer or the Explorer's authorized contact, as set forth in Rule 5.1.2(c), attesting to the accuracy of the information contained therein.

5.78 WAIVER OF SPECIFIC REPORTING REQUIREMENTS REGARDING AQUIFERS

The Director of the Office may waive the administrative provisions of Rules 5.4.2(6) and 5.4.4(c) which pertain to aquifers (report requirements) upon approval of a written application submitted to the Director.

~~5.8 ANNUAL REPORT AND FEE~~

~~(1) An annual report must be submitted by the anniversary date of the Notice of Intent (NOI) approval for each year until a reclamation responsibility release is granted. The Annual Report shall include all information specified on the Annual Report Form, in the format required by the Office. The annual report shall contain:~~

~~(a) an updated map showing the location of all holes drilled, any roads constructed, areas disturbed and areas reclaimed to date, including identification of disturbance and reclamation activities which have occurred in the preceding year. Exploration disturbance and reclamation must be identified on a site map of adequate scale to field locate these areas, which may include;~~

~~(i) coordinates reported in latitude and longitude in degrees, minutes and seconds or in decimal degrees to an accuracy of at least five (5) decimal places (e.g., latitude 37.12345 N, longitude 104.45678 W); or~~

~~(ii) coordinates based on the Universal Transverse Mercator (UTM) North American Datum (NAD). For UTM, the Prospector will need to specify NAD 1927, NAD 1983 or WGS 84, and the applicable zone, measured in meters.~~

~~(2) On the anniversary date of the Notice of Intent (NOI) approval, the Person conducting exploration shall submit to the Office an annual fee as specified in Section 34-32.5-125(b)(iv), C.R.S.~~

RULE 6: PERMIT APPLICATION EXHIBIT REQUIREMENTS

6.1 REQUIREMENTS FOR SPECIFIC OPERATIONS

6.1.1 General Provisions

This Rule provides for the specification of Exhibits required to be submitted along with each type of Permit application.

6.1.2 110, ~~110(6)~~ Limited Impact, and 111 Special Operations

These operations shall provide all the Exhibits, as described in Rule 6.3. Rule 6.5 (Geotechnical Stability Exhibit) may also be required on a case-by-case basis.

6.1.3 112 Reclamation Permit Operations

These operations shall provide all the Exhibits, as described in Rule 6.4. Rule 6.5 (Geotechnical Stability Exhibit) may also be required on a case-by-case basis.

6.2 GENERAL REQUIREMENTS OF EXHIBITS

6.2.1 General Requirements

(1) This Rule provides for the guidelines for, and information requirements of, each Exhibit required to be submitted with the permit application, as specified according to Rule 6.1.

(2) Maps and Exhibits

Maps, except the index map, must conform to the following criteria:

(a) show name of Applicant and the operation name;

(b) must be prepared and signed by a registered land surveyor, professional engineer, or other qualified person;

(c) give date prepared;

(d) identify and outline the area which corresponds with the application;

(e) with the exception of the map of the affected lands required in Section 34-32.5-112(2)(d), C.R.S. 1984, as amended, shall be prepared at a scale that is appropriate to clearly show all elements that are required to be delineated by the Act and these Rules. The acceptable range of map scales shall not be larger than 1 inch = 50 feet nor smaller than 1 inch = 660 feet; and

(f) ~~Also, that include~~ a map scale, appropriate legend, map title, ~~date~~ and a north arrow ~~shall be included~~.

6.3 SPECIFIC PERMIT APPLICATION EXHIBIT REQUIREMENTS - 110 ~~OR 110(6)~~ LIMITED IMPACT and 111 SPECIAL OPERATIONS

6.3.1 EXHIBIT A - Legal Description and Location Map

(1) The legal description must identify the affected land, specify affected areas and be adequate to field locate the property. Description shall be by (a) township, range, and

section, to at least the nearest quarter-quarter section, and (b) location of the main entrance to the mine site reported as latitude and longitude, or the Universal Transverse Mercator (UTM) Grid as determined from a USGS topographic map. A metes and bounds survey description is acceptable in lieu of Township, Range, and Section. Where available, the street address or lot number(s) shall be given. This information may be available from the County Assessor's office or U.S. Geological Survey (USGS) maps.

- (2) The main entrance to the mine site shall be located based on a USGS ~~T~~topographic map showing latitude and longitude or Universal Transverse Mercator (UTM). The operator will need to specify coordinates of latitude and longitude in degrees, minutes and seconds or in decimal degrees to an accuracy of at least five (5) decimal places (e.g., latitude 37.12345 N, longitude 104.45678 W). For UTM, the operator will need to specify North American Datum (NAD) 1927, NAD 1983, or WGS 84, and the applicable zone, measured in meters.
- (3) A map showing information sufficient to determine the location of the affected land on the ground and existing and proposed roads or access routes to be used in connection with the mining operation. Names of all immediately adjacent surface owners of record shall also be shown. A standard U.S. Geological Survey topographic quadrangle or equivalent is acceptable. The location of the proposed operation shall be shown and labeled with the mine site name.

6.3.2 EXHIBIT B - Site Description

Items (a)-(c) below must be addressed to the extent necessary to demonstrate compliance with the applicable performance standard requirements of Rule 3. At a minimum, the Operator/Applicant shall include the following information:

- (a) a description of the vegetation and soil characteristics in the area of the proposed operation. The local office of the Natural Resources Conservation Service (NRCS) may provide ~~you with~~ this information as well as recommendations for Exhibit D - Reclamation Plan;
- (b) identify any permanent man-made structures within two hundred (200) feet of the affected area and the owner of each structure. Each structure should be located on Exhibit E - Map;
- (c) a description of the water resources in the area of the proposed operation. Identify any streams, springs, lakes, stock water ponds, ditches, reservoirs, and aquifers that would receive drainage directly from the affected area. Provide any information available from publications or monitoring data on flow rates, water table elevations and water quality conditions; and
- (d) A wildlife statement prepared by ~~the~~ Colorado Parks and Wildlife (CPW) is not required for 111 Special Operations ~~, or 110, or 110(6)~~ Limited Impact Operations. The Operator/Applicant may contact the local CPW representative to verify that no critical or important wildlife habitats or wildlife species will be impacted by the proposed operation.

6.3.3 EXHIBIT C - Mining Plan

The purpose of the mining plan is to describe how mining will affect the permit area for the duration of the operation. This plan must be correlated to Exhibit E - Map. The description of the mining plan must be adequate to satisfy the requirements of Rule 3.1 and demonstrate compliance with Rule 3. At a minimum, the Operator/Applicant must include the following information:

- (a) specify the estimated dates that mining will commence and end. If the operation is intended to be an intermittent operation as defined in C.R.S 34-32.5-103(11)(b), the Applicant should

include in this exhibit a statement that conforms to the provisions of Section 34-32.5-103(11)(b), C.R.S.;

- (b) the estimated depth to which soil, suitable as a plant growth medium, will be salvaged for use in the reclamation process. This description must be consistent with information provided in Exhibit B. Sufficient soil must be salvaged to meet the vegetation establishment criteria of Rule 3.1.10. If plant growth medium is not reapplied on a graded area ~~immediately after salvage~~, within the same growing season, not to exceed 180 days, then the Operator/Applicant must specify how the topsoil will be stockpiled and stabilized with a vegetative cover or other means until used in reclamation. Plant growth medium stockpiles must be located separate from other stockpiles, out of the way of mine traffic and out of stream channels or drainage ways. The location of plant growth medium stockpiles must be shown on Exhibit E - Map;
- (c) specify the thickness of overburden or quantity of waste rock, if any, to be removed to reach the deposit. The location of any overburden stockpiles or waste rock fills must be shown on Exhibit E - Map;
- (d) specify the thickness of the deposit to be mined;
- (e) describe the major components of the mining operation such as: roads and access routes, pit, office, shop/maintenance buildings, plant, processing facilities, and any underground workings and openings such as adits or ventilation facilities. These components must be located on Exhibit E - Map;
- (f) specify the dimensions of any significant disturbances to the land surface such as pit excavations, mine benches, impoundments, stockpiles, waste rock disposal areas, etc. In addition, provide the maximum anticipated highwall height, length, and slope;
- (g) specify the dimensions of any existing or proposed roads that will be used for the mining operation. Describe any improvements necessary on existing roads and the specifications to be used in the construction of new roads. New or improved roads must be included as part of the affected lands and permitted acreage. Affected land shall not include off-site roads which existed prior to the date on which notice was given or permit application was made to the office and which were constructed for purposes unrelated to the proposed mining operation and which will not be substantially upgraded to support the mining operation. Describe any associated drainage and runoff conveyance structures to include sufficient information to evaluate structure sizing;
- (h) specify how much water will be used in conjunction with the operation, and the source of this water;
- (i) if groundwater will be encountered and/or surface water intercepted or disturbed, describe how mining will affect the quantity and quality of the surface or groundwater and the methods to be used to minimize disturbance to the surface and groundwater systems including proposed dewatering, sediment-containment or chemical treatment systems, storm water run-off controls, and groundwater points of compliance;
- (j) specify how ~~you~~ the Operator/Applicant will comply with applicable Colorado water laws and regulations governing injury to existing water rights;
- (k) if refuse ~~and acid or toxic producing or toxic or acid-forming~~ materials are exposed during mining, describe how they shall be handled and disposed of in a manner that will control unsightliness and protect the drainage system from pollution;

- (l) describe what measures will be taken to minimize disturbance to the hydrologic balance, prevent off-site damage, and provide for a stable configuration of the reclaimed area consistent with the proposed future land use;
- (m) specify whether the deposit will be processed on-site. Processing includes but not limited to crushing, screening, washing, or concrete or asphalt mixing. If the deposit will be processed, then describe the nature of the process, facilities and chemicals utilized. The process area and any structures must be described on Exhibit E - Map;
- (n) identify the primary, and if applicable, secondary and incidental commodities to be mined/extracted by the proposed operation and describe the intended use; ~~and~~
- ~~(o) name and describe the intended use of all expected incidental products to be mined/extracted by the proposed operation.~~
- ~~(op)~~ Specify if explosives will be used in conjunction with the mining or reclamation operation. In consultation with the Office, the Applicant must demonstrate, pursuant to Rule 6.5(4), Geotechnical Stability Exhibit, that off-site areas will not be adversely affected by blasting during mining or reclamation operations; and
- ~~(p)~~ state whether petroleum products will be stored on-site, provide the maximum quantities stored on-site at any one time, and specify the size and material of the storage container(s) and associated secondary containment structure(s) if applicable; if the operation has created a Spill Prevention Control and Countermeasure Plan (SPCC Plan) under the federal Clean Water Act and Colorado Water Quality Act, that plan shall be referenced with a brief description of how it minimizes disturbance to the hydrologic balance from the presence of petroleum products stored on-site; if the operation does not have a SPCC Plan, state what measures will be taken to minimize disturbance to the hydrologic balance from the storage of petroleum products.

6.3.4 EXHIBIT D - Reclamation Plan

- (1) The purpose of the Reclamation Plan is to describe the timing, procedures, criteria and materials that will be used to reclaim the affected land to the proposed future land use. This plan must be correlated to Exhibit E - Map. The description of the Reclamation Plan must be adequate to satisfy the requirements of Rule 3.1 and demonstrate compliance with Rule 3. At a minimum, the Application shall include the following information:
 - (a) specify at what point in the mining plan and to what depth(s) overburden will be replaced in relation to ongoing extraction.
 - (b) specify the maximum gradient of reclaimed slopes (horizontal:vertical). If the Application proposes slopes steeper than 3:1, the Operator/Applicant must include a justification that supports steeper slopes for the proposed post-mining land use, and demonstrates compliance with the applicable performance standards of Rule 3.1.
 - (c) specify the measures that will be taken to revegetate the site, if applicable, including
 - (i) state the thickness of plant growth medium to be replaced. Sample and analyze available soils sufficiently to establish quantity and quality;
 - (ii) state at what point in the mining plan the site will be seeded. Explain how the seedbed will be prepared to eliminate compacted conditions (e.g., plowed, chiseled, disced). State the type, application rate, and soil

incorporation methods of fertilizer application, if any. NOTE: Soil amendments shall only be applied where soil tests indicate nutrient deficiencies for the plant species to be established;

- (iii) state the grass, forb, shrub and tree species to be planted and the applicable quantities. Specify the quantity of each grass and forb species as pounds of pure live seed per acre;
 - (iv) specify the application method for grass and forb seeding. If the seed is to be broadcast, either provide the broadcast application rate or the application rate shall be twice the rate required for seed drilling. If the seedbed has not been adequately roughened prior to seeding, the seed shall be ~~raked or harrowed after broadcast application~~ incorporated into the seedbed by raking, harrowing or by other means of stabilization such as hydromulching;
 - (v) if a mulch is needed, specify the kind to be used, the crimping method, and rate of application, state what type of mulch to be used, the application rate per acre, and the crimping method if applicable, or provide a technical justification for when mulch will not be used (i.e., the use of other soil stabilizing practices, planting a sterile cover crop, site-specific limitations, etc.); and
 - (vi) explain the establishment methods for each species of shrub and/or tree, and state the number of each to be established per acre.
- (d) Specify which ponds, streams, roads and buildings, if any, will remain after reclamation. These features must be shown on the Exhibit E - Map. If ponds are part of the Reclamation Plan, slopes from five (5) vertical feet above to ten (10) vertical feet below the expected average water level cannot be steeper than 3H:1V; remaining slope lengths may not be steeper than 2H:1V. Where wildlife habitat is the proposed future land use, shorelines should be irregularly shaped to promote a diverse wildlife habitat. Colorado Parks and Wildlife (CPW) must be consulted where wildlife use-habitat is the proposed future land use.
- (e) Specify the reclamation treatment of any waste rock dumps, underground mine openings, ditches, sediment control facilities, buildings and other features specified in your-the mine plan but not previously addressed in the Reclamation Plan narrative. These features must be shown on Exhibit E - Map. This should describe the measures taken to minimize disturbance to the hydrologic balance, prevent off-site damage, and provide for a stable configuration consistent with the proposed future land use.
- (2) All 110 Limited Impact and 111 Special Operation applications must provide an estimate of the actual costs to reclaim the site based on what it would cost the State of Colorado using an independent contractor to complete reclamation. ~~(Such estimates are not required for activities contemplated by the operator and approved by the Office to be outside the scope of the proposed reclamation plan.)~~ The unit costs should include estimates for the following activities as appropriate to the operation: backfilling, grading, topsoil application, seeding, mulching, fertilization, and labor to complete reclamation. Determine and specify the point during the operation when the site has reached a point of maximum disturbance. The cost to reclaim the site to the specifications of the Reclamation Plan at this point must be estimated. Unit costs (cost per cubic yard), volumes, haul or push distances, and grades must be included when backfilling and grading are part of the Reclamation Plan. Volume and unit costs for finish grading, subsoil and topsoil application must be provided in terms

of cost per cubic yard. The estimated cost for fertilizer, seed and mulch acquisition and application must be provided as cost per acre.

- (a) Equipment costs must include such factors as equipment operator wages and benefits, fuel and lubricant consumption and depreciation. The cost to mobilize and demobilize the equipment from the nearest population center known to have the required equipment availability should be estimated.
- (b) All items referenced in the Reclamation Plan must be included in the cost calculation. These items in addition to earthwork, such as building demolition, fencing, monitoring well sealing or stream channel reconstruction must also be included in the reclamation cost estimate.
- (c) After the direct costs noted above have been estimated, the Office may add up to an additional maximum ~~eighteen~~ twenty and one-half percent (~~18.5%~~ 20.5%) of that total, which includes private contract, typical overhead costs, and a standard contingency. This additional cost is required to cover indirect costs that an independent contractor would incur when performing reclamation of the site. Based on site-specific conditions and for good cause shown by the Office, the percentage of indirect costs may be adjusted above the rate identified above. Five percent (5%) additional cost shall also be added to cover Office administration cost in the event of bond forfeiture and permit revocation.

6.3.5 EXHIBIT E - Maps

- (1) ~~In addition to the requirements of Rule 6.2.1(2), the~~ The Operator/Applicant must provide ~~a~~ maps ~~which meet the requirements of Rule 6.2.1(2)~~ that clearly describes the features associated with the mining plan and the components of the Reclamation Plan. Include at least one (1) map for the mine plan and one (1) map for the Reclamation Plan. ~~The map(s) must be drawn to a scale no smaller than appropriate to clearly show all elements that are required to be delineated by the Act and these Rules; show a north arrow, note any section corners adjacent to the proposed operation, and indicate the date illustrated.~~ At a minimum, maps must include the following information:
 - (2) Mining Plan Map
 - (a) outline and label the permit boundaries, described in Exhibit A - Legal Description, and provide latitude and longitude for each boundary corner as labels on the map or as a separate table; if available, the Operator/Applicant may also provide a digital file type, as determined by the Office, of the permit boundaries; for all 110 Limited Impact and 111 Special Operations, the Office considers the area bounded by the permit boundary to be analogous to the affected area;
 - (b) label the names of owner(s) of record of the surface of the affected area and of the land within two hundred (200) feet of the affected area, identify the owner of the substance to be mined, ~~and the type of structure and owners of record of any permanent or man-made structures within two hundred (200) feet of the affected area;~~
 - (c) outline and label all major surface features to be used in connection with the proposed operation such as: existing and proposed roads, pit boundary, topsoil stockpiles, overburden stockpiles, product stockpiles, waste rock fills, stream channels, buildings, processing plant, underground workings and openings such as adits or ventilation facilities, ponds, impoundments, dewatering pumps, diversions or waste disposal areas;
 - (d) indicate the direction that construction material extraction will proceed;

- (e) Show the owner's name, type of structures, and location of all significant, valuable, and permanent man-made structures contained on the area of affected land and within two hundred (200) feet of the affected land.~~note the location of any significant, valuable, and permanent man-made structures within two hundred (200) feet of the affected area.~~ A narrative description must also be provided in Exhibit B - Site Description; and
 - (f) outline and label existing disturbance within and/or adjacent to the permit boundary (e.g., previously mined areas, roads or excavations resulting from utility construction). Re-disturbance of previously disturbed areas, by the proposed mining operation, must be included in the permit area and addressed in Exhibit D - Reclamation Plan.
- (3) Reclamation Plan Map
- (a) show the gradient of all reclaimed slopes (horizontal:vertical) sufficient to describe the post mine topography;
 - (b) indicate where vegetation will and will not be established and the general area(s) for shrub or tree planting; and
 - (c) if ponds are a part of the Reclamation Plan, outline the final shore configuration of the ponds and identify shallow areas if the future land use is for wildlife;
 - ~~(d) state the average thickness of replaced overburden by reclamation area or phase; and~~
 - ~~(e) state the average thickness of replaced topsoil by reclamation area or phase.~~

6.3.6 EXHIBIT F - List of Other Permits and Licenses Required

Provide a statement identifying which of the following permits, licenses and approvals the Operator/Applicant holds which are held or will be sought in order to conduct the proposed mining and reclamation operations: effluent discharge permits, air quality emissions permits, radioactive source materials licenses, ~~disposal of~~ dredge and fill ~~material (404)~~ permits, permit to construct a dam, well permits, explosives permits, State Historic Preservation Office clearance, highway access permits, U.S. Forest Service permits, Bureau of Land Management permits, county zoning and land use permits, and city zoning and land use permits.

6.3.7 EXHIBIT G - Source of Legal Right-to-Enter

Provide documentation of the legal right to enter to conduct mining and reclamation for all Owners of Record of the surface of the affected land and the mineral rights of the substance to be mined; ~~for Owners of Record described in Rule 1.6.2(1)(e)(i).~~ This may include a copy of a lease, deed, abstract of title, a current tax receipt, or a signed statement by the Landowner(s) and acknowledged by a Notary Public stating that the Operator/Applicant has legal right to enter to conducting mining and reclamation.

6.3.8 EXHIBIT H - Municipalities wWithin a Two-mile Radius

List the mailing address and telephone number of the governing body for all municipalities within a two (2) mile radius of the proposed mining operation.

6.3.9 EXHIBIT I - Proof of Filing with County Clerk

An affidavit or e-receipt indicating the date on which the application was placed with the local County Clerk and Recorder for public review, pursuant to Rule 1.6.2(1)(c).

6.3.10 EXHIBIT J - Proof of Mailing of Notices to Board of County Commissioners and Conservation District

Proof that notice of the permit application was sent to the Board of County Commissioners and, if the mining operation is within the boundaries of a Conservation District, to the Board of Supervisors of the local Conservation District, pursuant to Rule 1.6.2(1)(a)(ii).

6.3.11 EXHIBIT K - Terms of Governmental Contract

For Special 111(1)(a) Operation applicants only, provide a copy of the signed government contract or other documentation verifying the necessity of a Special 111(1)(a) Operation permit. Provide any required evidence of Performance and Financial Warranties provided under the governmental contract.

6.3.12 EXHIBIT L - Permanent Man-Made Structures

(1) Provide a list of the owner's name and type of structure for all significant, valuable, and permanent man-made structures contained on the area of affected land and within two hundred (200) feet of the affected land.

(2) Where the affected lands are within two hundred (200) feet of any significant, valuable and permanent man-made structure, the applicant shall:

- (a) provide a notarized or other legally accepted agreement between the Applicant and the Person(s) having an interest in the structure, that the Applicant is to provide compensation for any damage to the structure; or
- (b) where such an agreement cannot be reached, the Applicant shall provide an appropriate engineering evaluation that demonstrates that such structure shall not be damaged by activities occurring at the mining operation; or
- (c) where such structure is a utility, the applicant may supply a notarized letter, on utility letterhead, from the owner(s) of the utility that the mining and reclamation activities, as proposed, will have "no negative effect" on their utility.

6.4 SPECIFIC EXHIBIT REQUIREMENTS - 112 RECLAMATION OPERATION

6.4.1 EXHIBIT A - Legal Description

(1) The legal description must identify the affected land, specify affected areas and be adequate to field locate the property. Description shall be by (a), township, range, and section, to at least the nearest quarter-quarter section and (b), location of the main entrance to the site reported as latitude and longitude, or the Universal Transverse Mercator (UTM) Grid as determined from a USGS topographic map. A metes and bounds survey description is acceptable in lieu of township, range, and section. Where available, the street address or lot number(s) shall be given. This information may be available from the County Assessor's office or U.S. Geological Survey (USGS) maps.

(2) The main entrance to the mine site shall be located based on a USGS topographic map showing latitude and longitude or Universal Transverse Mercator (UTM). The operator will need to specify coordinates of latitude and longitude in degrees, minutes and seconds or in decimal degrees to an accuracy of at least five (5) decimal places (e.g., latitude 37.12345

N, longitude 104.45678 W). For UTM, the operator will need to specify North American Datum (NAD) 1927, NAD 1983, or WGS 84, and the applicable zone, measured in meters.

6.4.2 EXHIBIT B - Index Map

An index map showing the regional location of the affected land and all roads and other access to the area. A standard U.S. Geological Survey topographic quadrangle or equivalent is acceptable. Scale criteria need not be followed for this map. The location of the proposed operation shall be shown and labeled with the mine site name.

6.4.3 EXHIBIT C - Pre-mining and Mining Plan Map(s) of Affected Lands

One or more maps may be necessary to legibly portray each of the following information:

(1) Pre-mining Map(s)

- (a) all ~~adjoining surface owners of record~~Owners of Record described in Rule 1.6.2(1)(e);
- (b) the name and location of all creeks, roads, buildings, oil and gas wells and lines, and power and communication lines on the area of affected land and within two hundred (200) feet of all boundaries of such area;
- (c) the existing topography of the area with contour lines of sufficient detail to portray the direction and rate of slope of the affected land;
- (d) the total area to be involved in the operation, including the area to be mined and the area of affected lands (see definition of "Affected Land"), and provide latitude and longitude for each boundary corner as labels on the map or as a separate table; if available, the Operator/Applicant may also provide a digital file type, as determined by the Office, of the permit boundaries;
- (e) the type of present vegetation covering the affected lands; and
- (f) in conjunction with Exhibit G - Water Information, Rule 6.4.7, if required by the Office, further water resources information will be presented on a map in this section.
- (g) Show the owner's name, type of structures, and location of all significant, valuable, and permanent man-made structures contained on the area of affected land and within two hundred (200) feet of the affected land.
- (h) In conjunction with Exhibit I - Soils Information, Rule 6.4.9, soils information may be presented on a map in this section.
- (i) Aerial photos, if available, may be included in this section.

(2) Mining Plan Map(s)

- (a) outline and label all major surface features to be used in connection with the proposed operation such as: existing and proposed roads, pit boundary, topsoil stockpiles, overburden stockpiles, product stockpiles, waste rock fills, stream channels, buildings, processing plant, underground workings and openings such as adits or ventilation facilities, ponds, impoundments, dewatering pumps, diversions or waste disposal areas;

- (b) indicate the direction that construction material extraction will proceed;
- (c) outline and label existing disturbance within and/or adjacent to the permit boundary (e.g., previously mined areas, roads or excavations resulting from utility construction). Re-disturbance of previously disturbed areas, by the proposed mining operation, must be included in the permit area and addressed in Exhibit E - Reclamation Plan.

6.4.4 EXHIBIT D - Mining Plan

The mining plan shall supply the following information, correlated with the affected lands, map(s) and timetables:

- (a) description of the method(s) of mining to be employed in each stage of the operation as related to any surface disturbance on affected lands and describe the major components of the mining operation such as: roads and access routes, pit, office, shop/maintenance buildings, plant, processing facilities, and any underground workings and openings such as adits or ventilation facilities. These components must be located on Exhibit C – Mine Plan Map;
- (b) the estimated depth to which soil, suitable as a plant growth medium, will be salvaged for use in the reclamation process. This description must be consistent with information provided in Exhibit I. Sufficient soil must be salvaged to meet the vegetation establishment criteria of Rule 3.1.10. If plant growth medium is not reapplied on a graded area within the same growing season, not to exceed 180 days, then the Operator/Applicant must specify how the topsoil will be stockpiled and stabilized with a vegetative cover or other means until used in reclamation. Plant growth medium stockpiles must be located separate from other stockpiles, out of the way of mine traffic and out of stream channels or drainage ways. The location of plant growth medium stockpiles must be shown on Exhibit C – Mine Plan Map.
- (c) all water diversions and impoundments; and
- (d) the size of area(s) to be worked at any one time and specify the dimensions of any significant disturbances to the land surface such as pit excavations, mine benches, impoundments, stockpiles, waste rock disposal areas, etc. In addition, provide the maximum anticipated highwall height, length, and slope.
- (e) An approximate timetable to describe the mining operation. The timetable is for the purpose of establishing the relationship between mining and reclamation during the different phases of a mining operation. An Operator/Applicant shall not be required to meet specific dates for initiation, or completion of mining in a phase as may be identified in the timetable. This does not exempt an Operator/Applicant from complying with the performance standards of Rule 3.1. If the operation is intended to be an intermittent operation as defined in Section 34-32.5-103(11)(b), C.R.S., the Applicant should include in this exhibit a statement that conforms to the provisions of Section 34-32.5-103(11)(b), C.R.S. Such timetable should include:
 - (i) an estimate of the periods of time which will be required for the various stages or phases of the operation;
 - (ii) a description of the size and location of each area to be worked during each phase; and
 - (iii) outlining the sequence in which each stage or phase of the operation will be carried out.

(Timetables need not be separate and distinct from the mining plan, but may be incorporated therein.)

- (f) A map (in Exhibit C - Pre-Mining and Mining Plan Maps(s) of Affected Lands, Rule 6.4.3) may be used along with a narrative to present the following information:
- (i) thickness of overburden or quantity of waste rock, if any, to be removed to reach the deposit. The location of any overburden stockpiles or waste rock fills must be shown on Exhibit C – Mine Plan Map;
 - (ii) ~~nature, depth and thickness of the deposit to be mined and the thickness and type of overburden to be removed~~ (may be marked "CONFIDENTIAL," pursuant to Rule 1.3(3)); and
 - (iii) nature of the stratum immediately beneath the material to be mined in sedimentary deposits.
- (g) Identify the primary, and if applicable, the secondary and incidental commodities to be mined/extracted and describe the intended use; and
- (h) ~~name and describe the intended use of all expected incidental products to be mined/extracted by the proposed operations~~ specify whether the deposit will be processed on-site. Processing includes but not limited to crushing, screening, washing, or concrete or asphalt mixing. If the deposit will be processed, then describe the nature of the process, facilities and chemicals utilized. The process area and any structures must be depicted on Exhibit C – Mine Plan Map;-
- (i) Specify if explosives will be used in conjunction with the mining (or reclamation). In consultation with the Office, the Applicant must demonstrate pursuant to Rule 6.5(4), Geotechnical Stability Exhibit, that off-site areas will not be adversely affected by blasting.
- (j) Specify the dimensions of any existing or proposed roads that will be used for the mining operation. Describe any improvements necessary on existing roads and the specifications to be used in the construction of new roads. New or improved roads must be included as part of the affected lands and permitted acreage. Affected land shall not include off-site roads which existed prior to the date on which notice was given or permit application was made to the office and which were constructed for purposes unrelated to the proposed mining operation and which will not be substantially upgraded to support the mining operation. Describe any associated drainage and runoff conveyance structures to include sufficient information to evaluate structure sizing.
- (k) If refuse or toxic or acid-forming materials are exposed during mining, describe how they shall be handled and disposed of in a manner that will control unsightliness and protect the drainage system from pollution.
- (l) State whether petroleum products will be stored on-site, provide the maximum quantities stored on-site at any one time, and specify the size and material of the storage container(s) and associated secondary containment structure(s) if applicable; if the operation has created a Spill Prevention Control and Countermeasure Plan (SPCC Plan) under the federal Clean Water Act and Colorado Water Quality Act, that plan shall be referenced with a brief description of how it minimizes disturbance to the hydrologic balance from the presence of petroleum products stored on-site; if the operation does not have a SPCC Plan, state what measures will be taken to minimize disturbance to the hydrologic balance from the storage of petroleum products.

6.4.5 EXHIBIT E - Reclamation Plan

- (1) In preparing the Reclamation Plan, the Operator/Applicant should be specific in terms of addressing such items as final grading (including drainage), seeding, fertilizing, revegetation (trees, shrubs, etc.), and topsoiling. Operators/Applicants are encouraged to allow flexibility in their plans by committing themselves to ranges of numbers (e.g., 6"-12" of topsoil) rather than specific figures.
- (2) The Reclamation Plan shall include provisions for, or satisfactory explanation of, all general requirements for the type of reclamation proposed to be implemented by the Operator/Applicant. Reclamation shall be required on all the affected land. The Reclamation Plans shall include:
 - (a) A description of the type(s) of reclamation the Operator/Applicant proposes to achieve in the reclamation of the affected land, why each was chosen, the amount of acreage accorded to each, and a general discussion of methods of reclamation as related to the mechanics of earthmoving;
 - (b) A comparison of the proposed post-mining land use to other land uses in the vicinity and to adopted state and local land use plans and programs. In those instances where the post-mining land use is for industrial, residential, or commercial purposes and such use is not reasonably assured, a plan for revegetation shall be submitted. Appropriate evidence supporting such reasonable assurance shall be submitted;
 - (c) A description of how the Reclamation Plan will be implemented to meet each applicable requirement of Rule 3.1;
 - (d) Where applicable, plans for topsoil segregation, preservation, and replacement; for stabilization, compaction, and grading of spoil; and for revegetation. The revegetation plan shall contain a list of the preferred species of grass, legumes, forbs, shrubs or trees to be planted, the method and rates of seeding and planting, the estimated availability of viable seeds in sufficient quantities of the species proposed to be used, and the proposed time of seeding and planting;
 - (e) A plan or schedule indicating how and when reclamation will be implemented. Such plan or schedule shall not be tied to any specific date but shall be tied to implementation or completion of different stages of the mining operation as described in Rule 6.4.4(e). The plan or schedule shall include:
 - (i) An estimate of the periods of time which will be required for the various stages or phases of reclamation;
 - (ii) A description of the size and location of each area to be reclaimed during each phase; and
 - (iii) An outline of the sequence in which each stage or phase of reclamation will be carried out.

(The schedule need not be separate and distinct from the Reclamation Plan, but may be incorporated therein.)
 - (f) A description of each of the following:

- (i) ~~Final grading - specify maximum anticipated slope gradient or expected ranges thereof; specify the maximum gradient of reclaimed slopes (horizontal:vertical). If the Application proposes slopes steeper than 3:1, the Operator/Applicant must include a justification that supports steeper slopes for the proposed post-mining land use, and demonstrates compliance with the applicable performance standards of Rule 3.1;~~
- (ii) ~~Topsoiling - specify anticipated minimum depth or range of depths for those areas where topsoil will be replaced~~
- ~~(iii) Seeding - specify types, mixtures, quantities, and expected time(s) of seeding and planting; Specify the quantity of each grass and forb species as pounds of pure live seed per acre;~~
- ~~(iii) Fertilization - if applicable, specify types, mixtures, quantities and time of application;~~
- (iv) ~~Revegetation - specify types of trees, shrubs, etc., quantities, size and location; and specify the application method for grass and forb seeding. If the seed is to be broadcast, either provide the broadcast application rate or the application rate shall be twice the rate required for seed drilling. If the seedbed has not been adequately roughened prior to seeding, the seed shall be incorporated into the seedbed by raking, harrowing, or by other means of stabilization such as hydromulching;~~
- (v) ~~Fertilization - if applicable, specify types, mixtures, quantities and time of application (NOTE: Soil amendments shall only be applied where soil tests indicate nutrient deficiencies for the plant species to be established); Topsoiling - specify anticipated minimum depth or range of depths for those areas where topsoil will be replaced.;~~
- ~~(vi) Mulch - state what type of mulch to be used, the application rate per acre, and the crimping method if applicable, or provide a technical justification for when mulch will not be used (i.e., the use of other soil stabilizing practices, planting a sterile cover crop, site-specific limitations, etc.); and~~
- ~~(vii) Plantings - explain the establishment methods for each species of shrub and/or tree, and state the number of each to be established per acre.~~
- (g) Specify which ponds, streams, roads and buildings, if any, will remain after reclamation. These features must be shown on the Exhibit F – Reclamation Plan Map. If ponds are part of the Reclamation Plan, slopes from five (5) vertical feet above to ten (10) vertical feet below the expected average water level cannot be steeper than 3H:1V; remaining slope lengths may not be steeper than 2H:1V. Where wildlife habitat is the proposed future land use, shorelines should be irregularly shaped to promote a diverse wildlife habitat. Colorado Parks and Wildlife (CPW) must be consulted where wildlife habitat is the proposed future land use.
- (h) Specify the reclamation treatment of any waste rock dumps, underground mine openings, ditches, sediment control facilities, buildings and other features specified in the mine plan but not previously addressed in the Reclamation Plan narrative. These features must be shown on Exhibit F – Reclamation Plan Map. This should describe the measures taken to minimize disturbance to the hydrologic balance, prevent off-site damage, and provide for a stable configuration consistent with the proposed future land use.

6.4.6 EXHIBIT F - Reclamation Plan Map

The map(s) of the proposed affected land, by all phases of the total scope of the mining operation, shall indicate the following:

- (a) The expected physical appearance of the area of the affected land, correlated to the proposed mining and reclamation timetables. The map must show proposed topography of the area with contour lines of sufficient detail to portray the direction and rate of slope of all reclaimed lands;~~and~~
- (b) Portrayal of the proposed final land use for each portion of the affected lands;~~and~~
- (c) If ponds are a part of the Reclamation Plan, outline the final shore configuration of the ponds and identify shallow areas if the future land use is for wildlife.

6.4.7 EXHIBIT G - Water Information

- (1) If the operation is not expected to directly affect surface or groundwater systems, a statement and sufficient demonstration of that expectation shall be submitted.
- (2) If the operation is expected to directly affect surface or groundwater systems, the Operator/Applicant shall:
 - (a) Locate on the map (in Exhibit C) tributary water courses, wells, springs, stock water ponds, reservoirs, and ditches on the affected land and on adjacent lands where such structures may be affected by the proposed mining operations;
 - (b) Identify all known aquifers;~~and~~
 - (c) Submit a ~~brief statement or~~ plan showing how water from de-watering operations or from runoff from disturbed areas, piled material and operating surfaces will be managed to protect against pollution of either surface or groundwater (and, where applicable, control pollution in a manner that is consistent with water quality discharge permits), both during and after the operation;~~and~~
 - (d) Specify how the Operator/Applicant will comply with applicable Colorado water laws and regulations governing injury to existing water rights.
- (3) The Operator/Applicant shall provide an estimate of the project water requirements including flow rates and annual volumes for the development, mining and reclamation phases of the project.
- (4) The Operator/Applicant shall indicate the projected amount from each of the sources of water to supply the project water requirements for the mining operation and reclamation.
- (5) The Operator/Applicant shall affirmatively state that the Operator/Applicant has acquired (or has applied for) a National Pollutant Discharge Elimination System (NPDES) permit from the Water Quality Control Division at the Colorado Department of Health and Environment, if necessary.

6.4.8 EXHIBIT H - Wildlife Information

- (1) In developing the wildlife information, the Operator/Applicant may wish to contact the local wildlife conservation officer. The Operator/Applicant shall include in this Exhibit, a

description of the game and non-game resources on and in the vicinity of the application area, including:

- (a) a description of the significant wildlife resources on the affected land;
 - (b) seasonal use of the area;
 - (c) the presence and estimated population of threatened or endangered species from either federal or state lists; and
 - (d) a description of the general effect during and after the proposed operation on the existing wildlife of the area, including but not limited to temporary and permanent loss of food and habitat, interference with migratory routes, and the general effect on the wildlife from increased human activity, including noise.
- (2) The application may be reviewed and commented upon by Colorado Parks and Wildlife (CPW). If CPW has comments, they must be provided prior to the end of the public comment period specified in Rule 1.7.1(2)(a) to be considered by the Board and Office.

6.4.9 EXHIBIT I - Soils Information

- (1) In consultation with the Natural Resources Conservation Service (NRCS) or other qualified person, the Operator/Applicant shall indicate on a map (in Exhibit C) or by a statement, the general type, thickness and distribution of soil over the affected land. Such description will address suitability of topsoil (or other material) for establishment and maintenance of plant growth. If necessary, at its discretion, the Board may require additional information on soils or other growth media to be stockpiled and used in revegetation.

6.4.10 EXHIBIT J - Vegetation Information

- (1) The Operator/Applicant shall include in this Exhibit a narrative of the following items:
- (a) descriptions of present vegetation types, which include quantitative estimates of cover and height for the principal species in each life-form represented (i.e., trees, tall shrubs, low shrubs, grasses, forbs);
 - (b) the relationship of present vegetation types to soil types, or alternatively, the information may be presented on a map; and
 - (c) estimates of average annual production for hay meadows and croplands, and carrying capacity for range lands on or in the vicinity of the affected land, if the choice of reclamation is for range or agriculture.
- (2) The Operator/Applicant shall show the relation of the types of vegetation to existing topography on a map in Exhibit C. In providing such information, the Operator/Applicant may want to contact the local Conservation District.

6.4.11 EXHIBIT K - Climate

Provide a description of the significant climatological factors for the locality.

6.4.12 EXHIBIT L - Reclamation Costs

- (1) ~~All information necessary to calculate the costs of reclamation must be submitted and broken down into the various major phases of reclamation. The information provided by the Operator/Applicant must be sufficient to calculate the cost of reclamation that would be~~

~~incurred by the state. All 112 Regular Operation applications must provide an estimate of the actual costs to reclaim the site based on what it would cost the State of Colorado using an independent contractor to complete reclamation. The unit costs should include estimates for the following activities as appropriate to the operation: backfilling, grading, topsoil application, seeding, mulching, fertilization, and labor to complete reclamation. Determine and specify the point during the operation when the site has reached a point of maximum disturbance. The cost to reclaim the site to the specifications of the Reclamation Plan at this point must be estimated. Unit costs (cost per cubic yard), volumes, haul or push distances, and grades must be included when backfilling and grading are part of the Reclamation Plan. Volume and unit costs for finish grading, subsoil and topsoil application must be provided in terms of cost per cubic yard. The estimated cost for fertilizer, seed and mulch acquisition and application must be provided as cost per acre.~~

- ~~(a) Equipment costs must include such factors as equipment operator wages and benefits, fuel and lubricant consumption and depreciation. The cost to mobilize and demobilize the equipment from the nearest population center known to have the required equipment availability should be estimated.~~
- ~~(b) All items referenced in the Reclamation Plan must be included in the cost calculation. These items in addition to earthwork, such as building demolition, fencing, monitoring well sealing or stream channel reconstruction must also be included in the reclamation cost estimate.~~
- ~~(c) After the direct costs noted above have been estimated, the Office may add up to an additional maximum twenty and one-half percent (20.5%) of that total, which includes private contract, typical overhead costs, and a standard contingency. This additional cost is required to cover indirect costs that an independent contractor would incur when performing reclamation of the site. Based on site-specific conditions and for good cause shown by the Office, the percentage of indirect costs may be adjusted above the rate identified above. Five percent (5%) additional cost shall also be added to cover Office administration cost in the event of bond forfeiture and permit revocation.~~

- (2) The Office may request the Operator/Applicant to provide additional, reasonable data to substantiate said Operator/Applicant's estimate of the cost of reclamation for all Affected Lands.

6.4.13 EXHIBIT M - Other Permits and Licenses

~~Provide a~~ statement identifying which of the following permits, licenses and approvals the Operator/Applicant holds or will be ~~seeking sought~~ in order to conduct the proposed mining and reclamation operations: effluent discharge permits, air quality emissions permits, radioactive source material licenses, ~~the State Historic Preservation Office clearance, disposal of dredge and fill material (404)~~ permits, permit to construct a dam, well permits, explosives permits, ~~State Historic Preservation Office clearance~~, highway access permits, U.S. Forest Service permits, Bureau of Land Management permits, county zoning and land use permits, and city zoning and land use permits.

6.4.14 EXHIBIT N - Source of Legal Right to Enter

Provide documentation of the legal right to enter to conduct mining and reclamation ~~for all Owners of Record of the surface of the affected land and the mineral rights of the substance to be mined, for Owners of Record described in Rule 1.6.2(1)(e)(i).~~ This may include a copy of a lease, deed, abstract of title, a current tax receipt, or a signed statement by the Landowner(s) and acknowledged by a Notary Public stating that the Operator/Applicant has legal right to enter to conduct mining and reclamation.

6.4.15 EXHIBIT O - Owner~~s(s)~~ of Record ~~of Affected Land (Surface Area) and Owners of Substance to be Mined~~

~~The complete list of all owners can be submitted as a list or on a map in Exhibit C.~~

- ~~(1) Provide a list of all Owners of Record of the surface of the affected land.~~
- ~~(2) Provide a list of all Owners of Record of the mineral rights of the substance to be mined.~~
- ~~(3) Provide a list of all Owners of Record of all land surface within 200 feet of the boundary of the affected lands.~~

6.4.16 EXHIBIT P - Municipalities Within Two Miles

~~A list of any municipality(s) within two (2) miles of the proposed mining operation and address of the general office of each municipality. List the mailing address and telephone number of the governing body for all municipalities within a two (2) mile radius of the proposed mining operation.~~

6.4.17 EXHIBIT Q - Proof of Mailing of Notices to Board of County Commissioners and Conservation District

Proof that notice, of the permit application was sent to the Board of County Commissioners and, if the mining operation is within the boundaries of a Conservation District, to the Board of Supervisors of the local Conservation District, pursuant to Rule 1.6.2(1)(a)(ii).

6.4.18 EXHIBIT R - Proof of Filing with County Clerk and Recorder

An affidavit or ~~e-~~receipt indicating the date on which the application was placed with the local County Clerk and Recorder for public review, pursuant to Rule 1.6.2(1)(c).

6.4.19 EXHIBIT S - Permanent Man-made Structures

- ~~(1) Provide a list of the owner's name and type of structure for all significant, valuable, and permanent man-made structures contained on the area of affected land and within two hundred (200) feet of the affected land.~~
- ~~(2) Where the affected lands are within two hundred (200) feet of any significant, valuable and permanent man-made structure, the applicant shall:
 - (a) provide a notarized or other legally accepted agreement between the ~~a~~Applicant and the person(s) having an interest in the structure, that the ~~a~~Applicant is to provide compensation for any damage to the structure; or
 - (b) where such an agreement cannot be reached, the ~~a~~Applicant shall provide an appropriate engineering evaluation that demonstrates that such structure shall not be damaged by activities occurring at the mining operation; or
 - (c) where such structure is a utility, the Applicant may supply a notarized letter, on utility letterhead, from the owner(s) of the utility that the mining and reclamation activities, as proposed, will have "no negative effect" on their utility.~~

6.5 GEOTECHNICAL STABILITY EXHIBIT

- (1) On a site-specific basis, an Applicant shall be required to provide a geotechnical evaluation of all geologic hazards that have the potential to affect any proposed impoundment, slope, embankment, highwall, or waste pile within the affected area. A geologic hazard is one of several types of adverse geologic conditions capable of causing damage or loss of property and life. The Applicant may also be required to provide a geotechnical evaluation of all geologic hazards, within or in the vicinity of the affected lands, which may be de-stabilized or exacerbated by mining or reclamation activities.
- (2) On a site-specific basis, an Applicant shall be required to provide engineering stability analyses for proposed final reclaimed slopes, highwalls, waste piles and embankments. An Applicant may also be required to provide engineering stability analyses for certain slopes configurations as they will occur during operations, including, but not limited to embankments. Information for slope stability analyses may include, but would not be limited to, slope angles and configurations, compaction and density, physical characteristics of earthen materials, pore pressure information, slope height, post-placement use of site, and information on structures or facilities that could be adversely affected by slope failure.
- (3) Where there is the potential for off-site impacts due to failure of any geologic structure or constructed earthen facility, which may be caused by mining or reclamation activities, the Applicant shall demonstrate through appropriate geotechnical and stability analyses that off-site areas will be protected with appropriate factors of safety incorporated into the analysis. The minimum acceptable safety factors will be subject to approval by the Office, on a case-by-case basis, depending upon the degree of certainty of soil or rock strength determinations utilized in the stability analysis, depending upon the consequences associated with a potential failure, and depending upon the potential for seismic activity at each site.
- (4) At sites where blasting is part of the proposed mining or reclamation plan, the Applicant shall demonstrate through appropriate blasting, vibration, geotechnical, and structural engineering analyses, that off-site areas will not be adversely affected by blasting.

RULE 7: **FOR THE PURPOSES OF THIS ACT, THIS RULE HAS BEEN DELETED IN ITS ENTIRETY**

RULE 8: EMERGENCY NOTIFICATION BY OPERATORS, AND EMERGENCY RESPONSE AUTHORITY OF THE OFFICE

8.1 SITUATIONS THAT REQUIRE EMERGENCY NOTIFICATION BY THE OPERATOR

Operators shall notify the Office, as soon as reasonably practicable, but no later than twenty-four (24) hours, after the Operator has knowledge of a failure or imminent failure of any impoundment, embankment, stockpile or slope that poses a reasonable potential for danger to persons or property

8.2 OPERATOR'S GENERAL NOTIFICATION RESPONSIBILITIES FOR REPORTING EMERGENCY CONDITIONS

8.2.1 Emergency Reporting Procedure

(1) Telephone notice shall be given to the Office staff as follows:

- (a) during regular business hours (8:00 am to 5:00 pm, on ~~w~~Working ~~d~~Days), the notice shall be given to the Office via the Office's main phone line at 303-866-3567.
- (b) outside regular business hours, or if the Office cannot be contacted, notice shall be given to the Colorado Department of Public Health and Environment 24 hour Colorado Emergency and Incident Reporting Line. Specify to this agency, that the emergency authority is coordinated through the Division of Reclamation, Mining and Safety, and to activate that Division's response network.

(2) After the telephone notice as required by Rule 8.2.1(1) is made, a follow-up electronic notice shall be submitted to the Office at drms_info@state.co.us.

8.2.2 Emergency Notification Information Required

Notice required pursuant to this Rule 8 shall contain the following information (to the extent known at the time of the notice, and so long as no delay occurs in reporting results):

- (a) that this is notification of an emergency condition as required by Rule 8;
- (b) the nature of the condition;
- (c) the time and duration of the occurrence and if it is on-going, or urgency of the pending situation;
- (d) any known or anticipated impacts to ~~persons or property~~ human health, property or the environment;
- (e) precautions and corrective actions taken by the Operator; and
- (f) the Operator's name(s) and contact number(s) for persons to be contacted for further information and response by the Office.

8.2.3 Follow-up Notice Requirements

As soon as practicable after an emergency situation or condition is reported and addressed, but no later than five (5) Working Days, the Operator shall provide a written report of the event to the Office. The report shall provide a description of:

- (a) actions taken to respond to and correct the emergency situation or condition;

- (b) any known or anticipated adverse impacts to ~~persons or property~~ human health, property or the environment ;
- (c) name(s), address(s), telephone numbers and e-mail address of the Operator's contact person for additional information and follow-up by the Office;
- (d) monitoring and analyses that are necessary to evaluate the situation and corrective actions, copies of all pertinent data; and
- (e) results of the Operator's investigation to assess the conditions or circumstances that created the emergency situation, and what corrective or protective measures will be taken to prevent a similar event from occurring in the future.

8.3 THIS RULE DELETED, RESERVED FOR FUTURE USE

8.4 EMERGENCY RESPONSE AUTHORITY OF THE OFFICE

8.4.1 Responsibilities of the Office

The Office may:

- (a) establish an Emergency Response Team, which may include other Offices and Agencies;
- (b) enter properties to take necessary emergency, safeguarding and corrective measures;
- (c) after consultation with, and authorization from the Office, issue a written cease and desist order for the activity(ies) suspected of causing the emergency situation;
- (d) apply to a district court for a temporary restraining order, temporary injunction, or permanent injunction to require cessation of the activity(ies) determined to be causing the emergency situation.
- (e) The Financial Warranty funds shall be available for the state to operate any facilities as may be necessary to terminate an emergency as defined by these Rules.

8.4.2 Office's Determination that an Emergency Exists

The Office may exercise its emergency authority to respond to situations at construction material extraction operations. The determination may be based upon the following:

- (a) the Operator, or another person fails or refuses to stop engaging in any activity not permitted by, or which constitutes a possible violation of the Act, the Rules or permit conditions, and which is presenting an unwarranted risk of serious harm to ~~person or property~~ human health, property or the environment ;
- (b) the Operator or another person, fails or refuses to take corrective actions necessary to contain, control, safeguard, or manage an emergency situation;
- (c) an Operator fails or refuses to respond to a Board Order requiring corrective actions for:
 - (i) any failure or imminent failure of any impoundment, embankment, stockpile, or slope identified in the permit;

- (ii) any specific Permit condition which is intended to protect ~~persons or property~~ human health, property or the environment.

8.5 THIS RULE DELETED, RESERVED FOR FUTURE USE

8.6 FOLLOW-UP MONITORING AND REPORTING REQUIREMENTS

The Board or Office may require that a post-emergency situation inspection or monitoring program be performed to evaluate any possible adverse impacts, and to ~~ie~~ensure that the corrective actions taken are sufficient to address the circumstances creating the initial emergency situation.

RULE 9: CHANGE OF NAME – LEGAL EFFECT

Any statute enacted prior to or on August 9, 2006 changing the name of the Division of Minerals and Geology to the Division of Reclamation, Mining and Safety, shall not impair the legal status or effect of any and all permits, permit obligations, financial warranties, performance warranties, contracts, property rights and/or any other obligations or legal relationships that were entered into between any entity or individual and the Division of Minerals and Geology prior to the name change. All such obligations will remain legally binding and shall not be impaired by any such name change. Any statute enacted after August 9, 2006 changing the name of the Division of Reclamation, Mining and Safety to any other name, shall not impair the legal status or effect of any and all permits, permit obligations, financial warranties, performance warranties, contracts, property rights and/or any other obligations or legal relationships that were entered into between an entity or individual and the Division of Reclamation, Mining and Safety prior to such name change. All such obligations will remain legally binding and shall not be impaired by any such name change.

**Statement of Basis, Specific Statutory Authority, and Purpose for
New Rules and Amendments to the Mineral Rules and Regulations of
the Colorado Mined Land Reclamation Board for the Extraction of
Construction Materials, 2 CCR 407-4**

**Implementation of Senate Bill
25-054, Modernization, Financial
Warranty and various rule
updates and edits**

Consistent with Section 24-4-103(4), C.R.S., of the Administrative Procedure Act, this statement sets forth the basis, specific statutory authority, and purpose for new rules and amendments to the Mineral Rules and Regulations of the Colorado Mined Land Reclamation Board for the Extraction of Construction Materials, 2 CCR 407-4 (“Rules”). They also are intended to foster and encourage the development of the State’s natural resources and the development of a sound and stable mining and minerals industry and require mining operators to reclaim land affected by such operations so that the affected land can be put to a use beneficial to the people of this State. *See* § 34-32.5-102, C.R.S.

Stakeholder Participation

The Colorado Division of Reclamation, Mining and Safety (“Division”), as staff to the Board, held informal stakeholder outreach regarding the proposed Rules. Informal stakeholder meetings were held on July 23, August 27 and September 24, 2025. The Division invited and accepted written and verbal comments from stakeholders regarding the proposed Rules during the stakeholder process and amended the draft proposed Rules based on comments received during the informal stakeholder process to gain consensus, where possible, or to better clarify the intent and purpose of a proposed amendment. During the course of the informal stakeholder meetings the Division maintained a publicly accessible website link that included all drafts and redline versions of the proposed Rules as well as recorded videos of the stakeholder meetings.

The Board filed with the Secretary of State the Notice of Rulemaking Hearing and draft proposed Rules on October 29, 2025, and the Notice and draft Rules were published in the Colorado Register on November 10, 2025. This Notice initiated the formal rulemaking process. Pursuant to the Notice of Rulemaking, any person or organization was invited to participate in the rulemaking and submit prehearing statements, written comments, or alternate proposed language and rules within the specific scope of this rulemaking.

Statutory Authority

The Board is authorized to promulgate the Rules under the following sections of the Colorado Mined Land Reclamation Act:

- Section 34-32-106(1)(c), C.R.S. (Board has the duty to develop and promulgate standards for land reclamation plans);
- Section 34-32.5-108, C.R.S (Board has the authority to adopt and promulgate reasonable rules and regulations regarding administration of the Act).
- Sections 34-32.5-117, 118 and 122, C.R.S (Senate Bill 25-054 set forth new statutory requirements and increased the regulatory authority of the Board and the Division. Additionally, the Bill modified or eliminated certain types of Financial Warranty options and amended to Act to modernize processes).

Overview of Purpose and Intent

All active and permitted mines are required to post a financial warranty which reflects the actual, current cost of completing a Reclamation Plan. The financial warranties are returned to the warrantor upon successful completion of reclamation. In the event the Operator is unable to complete reclamation, the financial warranty is forfeited and used by the Division to complete reclamation. SB25-054, through implementation by these amended Rules, will streamline administration of forfeited funds by placing all revoked reclamation funds with the program that has the responsibility for oversight of reclamation and to align with current financial practices for distribution of those funds. These amended Rules also seek to remove outdated financial warranty options by, among other things, eliminating the use of real property and salvage value as forms of financial warranty. Finally, as now authorized by SB 25-054, the amended Rules limit use of real and personal property as Financial Warranty to only the largest operators that can utilize such a bond.

As outlined above, the primary reason for adopting the proposed Rules is to implement the new areas of authority and regulation set forth in SB 25-054. Additionally, the amended Rules seek to modernize the regulatory authority of the Division and Board and clarify and/or codify current Division procedures and regulatory practices. Finally, the amended Rules seek to create consistency with the Hard Rock Regulations, where appropriate.

Amendments and Additions to Rules:

The following Rules were added or amended to implement the legislative changes or regulatory authority created in Senate Bill 25-054.

- 1.1(11), 1.1(44), 1.1(48), 1.1(49)
- 3.1.10(1)
- 4.1(6), 4.1(9), 4.1.2(5), 4.1.2(8)(b), 4.1.2(9), 4.3.7, 4.3.9, 4.3.10, 4.3.11, 4.9.1(1), 4.9.3, 4.1, 4.12, 4.13, 4.15, 4.20(8), 4.20(10)

The following Rules were amended to clarify existing regulatory requirements or standards or to codify in regulation current and long-standing Division and/or Board process and procedures.

- 1.1(14), 1.1(13), 1.1(20), 1.1(23), 1.1(23), 1.1(37), 1.1(52), 1.1(55), 1.1(59), 1.1(60), 1.4.1(5)(d), 1.4.1(8), 1.4.1(13), 1.4.3, 1.4.6(1), 1.4.6(2), 1.4.7(1), 1.4.8(1), 1.4.9(1), 1.6.1(2)(d), 1.6.2(1)(b), 1.6.2(1)(g), 1.6.2(2), 1.7.2, 1.8, 1.8.1(1), 1.8.1(2), 1.8.1(3), 1.8.1(4), 1.8.1(5), 1.8.1(6), 1.8.2, 1.8.2(1), 1.8.2(2), 1.8.4, 1.11.1(1), 1.11.1(3), 1.11.2(1), 1.12.1(2), 1.15(1)(d), 1.15(1)(e), 1.15(1)(f), 1.15(1)(g), 1.15(1)(h), 1.15(1)(i), 1.15(2),
- 2.5.6, 2.8.1(2), 2.9.2, 2.9.5
- 3.1.5(9), 3.1.5(9)(g), 3.1.9(1)
- 4.2.2, 4.2.2(3), 4.2.4(2), 4.2.5(4), 4.17.2(1)
- 5.1.2(d)(vi), 5.1.2(h), 5.3.1(f), 5.4.1(1), 5.6, 5.6(1)(h), 5.7, 5.7(1), 5.8
- 6.3.3(1)(b), 6.3.3(1)(e), 6.3.3(1)(f), 6.3.3(1)(p), 6.3.4(1)(c)(iv), 6.3.4(1)(c)(v), 6.3.4(2), 6.3.4(2)(c), 6.3.5, 6.3.5(2)(c), 6.3.5(3)(b), 6.3.6, 6.3.7, 6.4.3(1)(a), 6.4.4(f)(ii), 6.4.4(l), 6.4.13, 6.4.14
- 8.2.1(1), 8.2.3

The following Rules were amended to modernize and improve current regulatory standards and requirements, and to modernize and incorporate electronic submittals and other forms of communications.

- 1.1(15), 1.4.1(3), 1.4.1(4), 1.4.1(5)(a), 1.4.1(5)(b), 1.4.1(5)(c), 1.4.1(5)(f), 1.4.1(7), 1.6.1(2)(e), 1.6.1(3), 1.6.1(4)(a), 1.6.1(4)(c), 1.6.2(1)(a)(ii), 1.6.2(1)(b), 1.6.2(1)(d)(i), 1.6.2(1)(d)(v), 1.6.2(1)(d)(vi), 1.6.3(2), 1.7.1(2)(a), 1.7.1(2)(c), 1.9.1, 1.12.1(2), 1.16
- 2.2.1(a)(i), 2.2.1(a)(iii), 2.5.2(1), 2.5.2(2)(a), 2.5.4(f), 2.6(1), 2.6(2)(a), 2.6(2)(b)(i), 2.6(3), 2.7.1(4)(a), 2.7.3(4), 2.8.1(2), 2.8.1(3)(a), 2.8.1(3)(b), 2.8.1(3)(c)
- 3.1.5(3), 3.1.12(1)
- 4.2.4(1), 4.11.1(1), 4.14.1(2)(a), 4.16.1(1), 4.16.1(2)(a), 4.16.1(2)(b), 4.17.1(3), 4.17.1(4)
- 5.1.1(1), 5.1.2(b), 5.1.2(c), 5.1.3, 5.4.4, 5.4.4(e), 5.6(1)(a), 5.7(4)
- 6.1.2, 6.2.1(2)(a), 6.2.1(2)(f), 6.3.3(1)(p), 6.3.4(2)(c), 6.3.5(2)(a), 6.3.5(2)(b), 6.3.5(3)(d), 6.3.5(3)(e), 6.3.9, 6.3.12(1), 6.3.12(2)(a), 6.4.3, 6.4.3(1)(d), 6.4.4(l), 6.4.15, 6.4.18, 6.4.19(1), 6.4.19(2)(a)

- 8.2.1(2)

The following Rules were amended in order to ensure references within the rules are consistent with other modifications. Changes made to Rule 6 also incorporate existing language from 110 permit exhibit sections (Rule 6.3) that are being added to applicable 112 permit exhibit sections (Rule 6.4).

- 1.1(23), 1.11.2(3)(a)
- 3.1.5(5)
- 4.16.1(3), 4.16.1(4)
- 5.1.2(a), 5.1.2(d)(iv), 5.1.3(a), 5.1.3(b), 5.1.3(c)(i), 5.2.1, 5.3.3(2), 5.3.4(2), 5.4.2(6), 5.4.5(1)(b), 5.4.5(1)(b)(i), 5.4.5(2), 5.4.5(2)(b), 5.7(2)
- 6.3.3(1)(j), 6.3.3(1)(k), 6.3.5(2)(e), 6.4.2, 6.4.3(2), 6.4.4(a), 6.4.4(b), 6.4.4(d), 6.4.4(f)(i), 6.4.4(g), 6.4.4(h), 6.4.4(k), 6.4.5(2)(f), 6.4.5(2)(g), 6.4.5(2)(h), 6.4.6(c), 6.4.12(1)

The following Rules were amended to make the Construction Materials Rules consistent with the Hard Rock Rules, where appropriate. The Division and Board have found that consistency between the two rule sets leads to more appropriate and fairer implementation and enforcement.

- 1.1(7), 1.1(11), 1.1(14), 1.1(19), 1.1(22), 1.1(30), 1.1(44), 1.1(54), 1.4.1(5)(e), 1.4.1(9), 1.4.9(2)(b), 1.4.11(1), 1.6.1(1), 1.6.1(2), 1.6.2(1)(e), 1.6.2(2), 1.6.5(2), 1.7.1(2)(c), 1.9.2, 1.10.1(4), 1.11.1(1), 1.11.1(2), 1.11.2(2), 1.12.1(2), 1.12.1(2)(b), 1.13, 1.14, 1.15(1), 1.15(1)(a), 1.15(1)(b)
- 2.2.1(a), 2.2.1(b), 2.2.2, 2.5.2(1), 2.5.3, 2.5.4(a), 2.6(3), 2.7.1, 2.7.1(5), 2.8.1(4)(d), 2.8.2(2), 2.9.1(2)
- 3.1, 3.1.3, 3.1.6(4), 3.1.6(5), 3.1.7(9), 3.1.10(5), 3.1.12(3), 3.1.13(2)(f), 3.2(8)
- 4.17.1(1), 4.17.2(5), 4.18(1), 4.20(11)
- 5.1.1(1), 5.1.1(2), 5.1.1(3), 5.1.2, 5.1.2(e), 5.3.1, 5.3.1(a), 5.3.1(b), 5.3.1(c), 5.3.1(d), 5.3.1(e), 5.3.1(g), 5.3.1(h), 5.3.2, 5.3.3(1), 5.3.3(3), 5.3.4(1), 5.3.5(1), 5.3.6, 5.4.2(1), 5.4.2(3), 5.4.3, 5.4.5(1)(a), 5.4.5(2)(a), 5.5.2, 5.5.2(g), 5.5.2(h), 5.7(1)(b), 5.7(1)(b)(i), 5.7(1)(b)(ii), 5.7(1)(d)
- 6.3.3(1)(m), 6.3.3(1)(n), 6.3.3(1)(o), 6.3.4(1)(d), 6.4.7(2)(c), 6.4.7(2)(d), 6.4.16
- 8.2.2(d), 8.2.3(b), 8.4.2(a), 8.4.2(c)(ii)

The following Rules were amended to correct typographical errors, clerical errors, formatting or capitalization of defined terms.

- 1.4.11(1)(b), 1.5, 1.7.4(2)
- 4.1.2(1), 4.5(1)
- 5.1.2(g), 5.2.2, 5.4.1(3)
- 6.3.2(a), 6.4.11, 6.5(2)
- 8.6

Effective Date

The Board anticipates adoption of the Rules, which amend and clarify the Board's Rules, on January 21, 2025 and are effective twenty days after publication of the adopted Rules in the Colorado Register.

DRAFT Proposed Amended Regulation 2-4-1

CONCERNING SURPLUS LINES INSURANCE ISSUED BY NONADMITTED INSURERS

Section 1	Authority
Section 2	Scope and Purpose
Section 3	Applicability
Section 4	Definitions
Section 5	Disclosure
Section 6	Premium Rates
Section 7	Procurement
Section 8	Taxes on Premium
Section 9	Eligible List
Section 10	Filings
Section 11	Standards for Approval
Section 12	Severability
Section 13	Incorporated Materials
Section 14	Enforcement
Section 15	Effective Date
Section 16	History

Section 1 Authority

This regulation is promulgated under the authority of §§ 10-1-109, and 10-5-117, C.R.S.

Section 2 Scope and Purpose

The purpose of this regulation is to establish standards regarding the placement of insurance by producers and the qualification of insurers pursuant to the Colorado Nonadmitted Insurance Act, § 10-5-101, et seq., C.R.S. and the “Nonadmitted and Reinsurance Reform Act of 2010”, 15 U.S.C. § 8201 et seq., as amended. This regulation also serves to protect Colorado insurance consumers by setting forth necessary disclosure requirements for surplus lines insurance contracts.

Section 3 Applicability

This regulation shall apply to any company eligible, or seeking to become eligible, to effect a contract of insurance pursuant to Colorado’s Nonadmitted Insurance Act, to any producer or broker, procuring or assisting in the procurement of surplus lines insurance for an insured whose home state is Colorado, and any person that enters into an independent procurement for nonadmitted insurance.

Section 4 Definitions

A. B. “Broker” shall have the same meaning as found at § 10-5-101.2(3), C.R.S.

- B. “Export” shall have the same meaning as found at § 10-5-101.2(5), C.R.S.
- C. “Home state” shall have the same meaning as found at § 10-5-101.2(7), C.R.S.
- D. “Insurance producer” shall have the same meaning as found at § 10-2-103(6), C.R.S.
- E. “Nonadmitted Insurance” shall have the same meaning as found at § 10-5-101.2(10), C.R.S.
- F. “Nonadmitted insurers” shall have the same meaning as found at § 10-5-101.2(11), C.R.S.
- G. “Person” shall have the same meaning as found at § 10-5-101.2(12), C.R.S.
- H. “Surplus lines insurance” shall have the same meaning as found at § 10-5-101.2(13), C.R.S.

Section 5 Disclosure

- A. Every insurance contract procured and delivered as a surplus line coverage to an insured whose home state is Colorado must include on the policy declaration page in bold font, the disclosure stated in § 10-5-104, C.R.S.

“This contract is delivered as a surplus line coverage under the ‘Nonadmitted Insurance Act’. The insurer issuing this contract is not licensed in Colorado but is an eligible nonadmitted insurer. There is no protection under the provisions of the ‘Colorado Insurance Guaranty Association Act’.”

The policy declaration page must also include the name of the individual broker who wrote and placed the policy directly with the eligible nonadmitted insurer.

- B. In accordance with § 10-5-119, C.R.S., if the policy is written on a claims-made basis, the following shall also appear on the policy declaration page in bold font:

“This policy is a claims-made policy which provides liability coverage only if a claim is made during the policy period or any applicable extended reporting period.”

- C. If an automobile policy does not provide the basic complying policy coverages in § 10-4-620, C.R.S., the following must appear on the policy declaration page in bold font:

“This policy does not meet the statutory requirements of this State's financial responsibility laws. It does not provide liability coverage for bodily injury and property damage.”

- D. The provisions of § 10-5-101.5 (1)(b), C.R.S. shall apply to policies of property and casualty insurance issued or delivered in this state by a nonadmitted insurer affording coverage only on property located temporarily or permanently, or operations conducted temporarily or permanently outside the boundaries of the United States of America, its territories or possessions when the policy is placed by licensed property and casualty producers or brokers of this state, who shall remain responsible for verifying that the insuring company is licensed or authorized by the appropriate regulatory bodies to transact the business of insurance in that jurisdiction, and contains the following disclaimer in bold font:

“This policy is issued by an insurance company that is not regulated by the Colorado Division of Insurance. The insurance company may not provide claims service and may not be subject to service of process in Colorado. If the insurance company becomes insolvent, insureds or claimants will not be eligible for protection under Colorado insurance law.”

- E. These required disclosures in Subsections A-D shall be affixed to the declaration page of the contract given to the insured. A copy, bearing the disclosures, shall also be maintained by the broker, in the case of the issuance of a binder prior to the formal policy, such disclosure shall also appear on the binder.

Section 6 Premium Rates

The provisions of § 10-5-103, C.R.S., allow for the use of an eligible nonadmitted insurer if coverage is not available or affordable. In determining affordability, the rate quoted by each admitted insurer must exceed the rate quoted by the eligible nonadmitted insurer by 10% for comparable benefits and provisions.

Section 7 Procurement

Section 10-5-103, C.R.S. requires that a diligent effort be made to procure coverage with an admitted insurer before placing coverage with an eligible nonadmitted insurer.

- A. ~~Due diligence-Diligent effort~~ shall be satisfied by documentation attested to by the broker. The documentation must demonstrate that the coverage required was not procurable after a comprehensive search was made from ~~a minimum of three~~~~more than one~~ admitted insurers-authorized to and currently transacting that line of business in this state. If there ~~are~~ ~~fewer than~~ ~~three~~ ~~not more than one~~ admitted insurers in this state which ~~are~~ ~~is~~ authorized and currently transacting the line of business needed, such diligent effort shall be met by searching this lesser market. If the broker can attest in writing that they are familiar with the insurance market and that a particular risk cannot be placed in the admitted market, or the broker has accepted an affidavit by the producer attesting to such, then the requirement to satisfy ~~due diligence-diligent effort~~ by documentation that the coverage required was not procurable after a comprehensive search was made from ~~a minimum of three~~ ~~more than one~~ admitted insurers shall be waived.
- B. A written record documenting diligent search efforts shall be maintained by the broker for a period of not less than three years from the effective date of the coverage. The broker may rely upon representations made by a producer with regard to search efforts made by the producer.
- C. Given that availability and affordability of coverages is continually changing, the determination of placement and evidence of diligent search efforts, or attestation from a producer or broker as outlined in Section 7(A), must be made each policy period prior to placement of coverage with an eligible nonadmitted insurer.
- D. If the insurance transaction is primarily for automobile liability to meet the financial responsibility requirements in Colorado, any eligible surplus lines insurer must comply with the provisions of § 10-4-601 et. seq, C.R.S., including § 10-4-633 C.R.S., and with the reporting requirements contained in § 10-4-615, C.R.S.

Section 8 Taxes on Premium

- A. Each broker shall treat all premium tax revenues received for surplus lines insurance written in Colorado in a fiduciary capacity.
- B. Each broker shall submit a quarterly report to the Division of Insurance in the Florida Surplus Lines Information Portal ("SLIP") system for each policy written and remit the surplus lines premium taxes for all nonadmitted insurance transacted during the quarter in SLIP. The report shall be submitted by the individual broker who wrote and placed the policy directly with the eligible nonadmitted insurer; the broker must include policies that the broker exported at the request of any other licensed producer or broker in the quarter. The report shall include the name of the insured, line of business, name of nonadmitted insurer, surplus lines premium, and policy

fees charged. If there are no policies sold during the quarter, then the quarterly report shall not be required.

C. Each broker shall submit an annual statement to the Division of insurance in the Florida Surplus Lines Information Portal ("SLIP") system presenting in aggregate the information required in the four quarterly reports described in Section 8 B. for the prior calendar year annual period in SLIP. The report annual statement shall be submitted by the individual broker who wrote and placed the policy directly with the eligible insurer; there are no policies sold during the prior calendar year. The annual statement must be submitted by March 1.

D. 2. In accordance with § 10-5-112, C.R.S., failure to submit the four required quarterly reports, premium taxes, the annual report and any and all surplus lines premium taxes for the prior calendar year before April 1 will result in fines to the producer not to exceed of twenty-five dollars (\$25) per day until the report is submitted.

~~E.~~ In accordance with § 10-5-109, C.R.S., a broker reporting a policy written with a nonadmitted insurer that is not listed on the Division of Insurance's eligible list is required to retain documentation verifying that the nonadmitted insurer meets the requirements of Section 524 of the Nonadmitted and Reinsurance Reform Act of 2010, 15 U.S.C. § 8201 et seq., or the type of insurance is listed in § 10-5-101.5, C.R.S.

Section 9 Eligible List

- A. The Commissioner will prepare, at least annually, a listing of those nonadmitted insurers whose filings have been reviewed by the Division of Insurance and found to meet the qualification requirements of Section 524 of the Nonadmitted and Reinsurance Reform Act of 2010. Such list will be effective from July 1 of each year through June 30 of the following year unless otherwise amended.
- B. The Commissioner, within his/her discretion, may consider a filing received during the current approval period. If such filing is approved, such approval will expire on June 30 following acceptance.

Section 10 Filings

- A. A foreign or alien nonadmitted insurer that wants to be included on the Division of Insurance's eligible list shall, on or before March 1st of every year, submit to the Division a completed form approved by the Commissioner and the fees as prescribed by §§ 10-3-207 and 24-31-104.5, C.R.S.
- B. An Insurance Exchange; a Lloyds plan, or other similar unincorporated group of individual insurers or a combination of both unincorporated and incorporated insurers; or a group of incorporated insurers under common administration, shall annually file such other information necessary to determine compliance with the conditions contained in § 10-5-108, C.R.S.

Section 11 Standards for Approval

- A. An alien insurer seeking inclusion on the eligible list of nonadmitted insurers must be listed on the Quarterly Listing of Alien Insurers maintained by the International Insurers Department ("IID") of the NAIC.
- B. A foreign insurer seeking inclusion on the eligible list of nonadmitted insurers must meet the qualification requirements and criteria contained in section 5A(2) and 5C(2)(a)(i) of the National Association of Insurance Commissioners' Non-Admitted Insurance Model Act; the foreign insurer

must be authorized to write the type of insurance in its domiciliary state and have capital & surplus of at least \$15,000,000.

- C. A foreign insurer with less than the minimum required capital and surplus may make formal request of the Commissioner that they be given consideration for approval as an eligible nonadmitted insurer. Companies applying for special consideration must demonstrate at a minimum: 1) that they primarily write risks for which they maintain a specialty; 2) exceptional expertise in these specialty risks; and 3) sufficient surplus for the potential volatility of the risks written. Applications should be accompanied by an actuarial opinion and a supporting report specifically addressing the sufficiency of reserves and surplus for the risks written and anticipated to be written. Additionally, the applicant shall provide a copy of the audited financial report of the parent and the ultimate controlling company (person), if any, and any other additional information requested by the Commissioner.

Section 12 Severability

If any provision of this regulation or the application of it to any person or circumstance is for any reason held to be invalid, the remainder of this regulation shall not be affected.

Section 13 Incorporated Materials

~~The Nonadmitted and Reinsurance Reform Act of 2010, published by the Government Printing Office shall mean 15 U.S.C § 8201 et seq. as published on the effective date of this regulation and does not include later amendments to or editions of 15 U.S.C § 8201 et seq. A certified copy of 15 U.S.C § 8201 et seq may be examined during regular business hours at the Colorado Division of Insurance, 1560 Broadway, Suite 850, Denver, Colorado 80202. A certified copy of the entire Nonadmitted and Reinsurance Reform Act of 2010 codified at 15 U.S.C. § 8201 et seq may be also be requested from the Colorado Division of Insurance, 1560 Broadway, Suite 850, Denver, CO 80202. A charge for certification or copies may apply. A copy may also be obtained online at www.ecfr.gov.~~

~~Section 521 of the Nonadmitted and Reinsurance Reform Act of 2010, published by the Government Printing Office shall mean 15 U.S.C § 8201(b) as published on the effective date of this regulation and does not include later amendments to or editions of 15 U.S.C § 8201(b). This section may be examined during regular business hours at the Colorado Division of Insurance, 1560 Broadway, Suite 850, Denver, Colorado 80202. A charge for certification or copies may apply. A copy may also be obtained online at www.ecfr.gov.~~

~~Section 524 of the Nonadmitted and Reinsurance Reform Act of 2010, published by the Government Printing Office shall mean 15 U.S. Code § 8201 et seq. as published on the effective date of this regulation and does not include later amendments to or editions of 4 15 U.S. Code § 8201 et seq. 15 U.S. Code § 8201 et seq may be examined during regular business hours at the Colorado Division of Insurance, 1560 Broadway, Suite 850, Denver, Colorado 80202. DRAFT Proposed Amended Regulation 4-2-103

CONCERNING TRANSPARENCY IN COVERAGE REPORTING REQUIREMENTS

Section 1	Authority
Section 2	Scope and Purpose
Section 3	Applicability
Section 4	Definitions
Section 5	Format and Submission
Section 6	Transparency in Coverage File Submission Requirements
Section 7	Prescription Drug Data Collection (RxDC) Report
Section 8	Confidentiality and Open Records Requests
Section 9	Severability
Section 10	Incorporation by Reference
Section 11	Enforcement
Section 12	Effective Date
Section 13	History

Section 1 Authority

This regulation is promulgated and adopted by the Commissioner of Insurance under the authority of §§ 10-1-109, 10-16-109, 10-16-168(3)(b), 10-16-168(4)(d) and 10-16-169, C.R.S.

Section 2 Scope and Purpose

The purpose of this regulation is to outline the form and manner of the price transparency files required by Section 10-16-168(4), C.R.S. and the prescription drug data collection files required under Section 10-16-169, C.R.S.

Section 3 Applicability

This regulation applies to all carriers and plans subject to the Transparency in Coverage federal rule found at 45 CFR 147.212 ~~and Section 204 of the Consolidated Appropriations Act, 2021 (CAA) Public Law 116-260 (2020)~~. This regulation applies to all carriers subject to the reporting requirements related to prescription drug and health care spending found at 45 CFR [§ 149.10 through 45 CFR § 149.740](#).

Section 4 Definitions

- A. "Carrier" shall have the same meaning as found at § 10-16-102(8), C.R.S.
- B. "HIOS identifier" or "HIOS Plan ID" means (i) the plan's 14-digit health insurance oversight system identifier; or (ii) if the 14-digit identifiers are not available, the employer identification number (EIN) associated with the plan.
- C. "JSON" means JavaScript Object Notation.
- D. "NPI" or "national provider identifier" shall have the same meaning as found at §25.5-4-420(1)(b), C.R.S.
- E. "Pharmacy benefit management firm", "pharmacy benefit manager", or "PBM" shall have the same meaning as found at § 10-16-102(49), C.R.S. and includes all PBMs doing business in the state.
- F. "Provider" shall have the same meaning as found at § 10-16-102(56), C.R.S.

Section 5 Format and Submission

- A. Beginning July 1, 2025, and January 1, 2026, and each July and January thereafter each carrier shall make publicly available and submit to the Division via secure file transfer three JSON files with information regarding:
 - 1. Table of contents file in accordance with Section 6.B.;
 - 2. Negotiated rates for all covered items and services between the carrier and in-network providers in accordance with the requirements of Section 6 of this regulation; and
 - 3. Unique out-of-network allowed amounts and billed charges for covered items and services furnished by out-of-network providers in accordance with 45 CFR 147.212(b)(I) (ii) and filtered to only include data for Colorado.

If a carrier can demonstrate a material challenge with creating a JSON file, the carrier may request a different format for submission from the Division.

- B. Beginning July 1, 2025, and on or before each July 1 thereafter, each carrier and/or PBM shall submit to the Division via secure file transfer a plan list (P1, P2, and/or P3), eight data files (D1-D8), and a narrative response regarding prescription drugs and health care spending ~~in accordance with Section 204 of the Consolidated Appropriation Act, 2021~~, also known as the RxDC report, and accompanying templates from Centers for Medicaid and Medicare Services in accordance with the requirements in Section 7. Files D1 and D2 do not apply to PBMs.
- C. Carriers shall include with each submission where they are located on the carrier's website (if applicable) and contact email for questions regarding the data. RxDC files are not required to be posted on a carrier's website.

Section 6 Transparency in Coverage File Submission Requirements

- A. The files specified in Section 5(A) shall contain information on individual and group market coverage. Carriers may provide data on plans in which they operate as a third-party administrator, provided that carriers identify clearly to the Division when they are submitting data as a third-party administrator.

- B. The files specified in Section 5(A)(2) regarding in-network rates shall contain a Colorado specific Table of Contents file that includes the following standardized labels:
 - 1. Carrier name;
 - 2. Plan name;
 - 3. Market segment using the following categories:
 - a. Individual;
 - c. Small Group;
 - d. Large Group; or
 - e. Third Party Administrator or TPA, if applicable.
 - 4. Group EIN or HIOS Plan ID;
 - 5. File size including the number of rows and file size;
 - 6. Date files were generated; and
 - 7. URL Link to plan specific file on the carrier's website.

- C. The files shall be filtered to include:
 - 1. Only plans issued or delivered in Colorado;
 - 2. Only group or billing NPIs with a corresponding Colorado zip code; and
 - 3. Only negotiated rate and procedure code combinations for providers with 20 or more services performed in the last year, at the procedure code level not accounting for modifiers. Modifiers must be included but do not change the count of claims a billing provider has for each procedure code.

Section 7 Prescription Drug Data Collection (RxDC) Report

The file shall contain information on individual and group market coverage.

The data contained in the files shall be filtered to only contain data specific to plans in Colorado.

If the Centers for Medicaid and Medicare Services makes changes to the RxDC reporting template, the Division will accept files in the new format.

Section 8 Confidentiality and Open Records Requests

Information submitted by carriers and/or PBMs to the Division in accordance with this regulation are subject to public inspection only to the extent allowed under the "Colorado Open Records Act" §§ 24-72-201, et seq., C.R.S.

- A. For the files listed in Section 5(A), no files shall be labeled as confidential.
- B. For the files listed in Section 5(B), a carrier and/or PBM shall submit a "Confidentiality Index" if the carrier and/or PBM desires confidential treatment of files submitted under Section 5(B), identifying which files and columns within the files are confidential and the justification for confidentiality. Any information not marked as confidential or information provided to the Division as required by Sections 5, 6, and 7 of this regulation is presumed to be a public record and open for inspection, subject to restrictions specifically provided by law, including, but not limited to the requirements of the Colorado Open Records Act.

Section 9 Severability

If any provision of this regulation or the application of it to any person or circumstance is for any reason held to be invalid, the remainder of this regulation shall not be affected.

Section 10 Incorporation by Reference

45 CFR § 147.212 published by the Government Printing Office shall mean 45 CFR § 147.212 as published on the effective date of this regulation and does not include later amendments to or editions of 45 CFR § 147.212. A copy of 45 CFR § 147.212 may be examined during regular business hours at the Colorado Division of Insurance, 1560 Broadway, Suite 850, Denver, Colorado, 80202. A certified copy of 45 CFR § 147.212 may be requested from the Colorado Division of Insurance, 1560 Broadway, Suite 850, Denver, CO 80202. A charge for certification or copies may apply. A copy may also be obtained online at www.ecfr.gov.

~~Public Law 116-260 (2020) published by the Government Printing Office shall mean Public Law 116-260 (2020) as published on the effective date of this regulation and does not include later amendments to or editions of Public Law 116-260 (2020). A copy of Public Law 116-260 (2020) may be examined during regular business hours at the Colorado Division of Insurance, 1560 Broadway, Suite 850, Denver, Colorado, 80202. A certified copy of Public Law 116-260 (2020) may be requested from the Colorado Division of Insurance, 1560 Broadway, Suite 850, Denver, CO 80202. A charge for certification or copies may apply. A copy may also be obtained online at www.ecfr.gov.~~

45 CFR § 149.10 through 45 CFR § 149.740 published by the Government Printing Office shall mean 45 CFR § 149.10 through 45 CFR § 149.740 as published on the effective date of this regulation and does not include later amendments to or editions of [45 CFR § 149.10 through 45 CFR § 149.740](#)~~45 CFR § 149.~~

A copy of [45 CFR § 149.10 through 45 CFR §149.740](#) ~~45 CFR § 149~~ may be examined during regular business hours at the Colorado Division of Insurance, 1560 Broadway, Suite 850, Denver, Colorado, 80202. A certified copy of [45 CFR § 149.10 through 45 CFR §149.740](#) ~~45 CFR § 149~~ may be requested from the Colorado Division of Insurance, 1560 Broadway, Suite 850, Denver, CO 80202. A charge for certification or copies may apply. A copy may also be obtained online at www.ecfr.gov.

Section 11 Enforcement

Noncompliance with this Regulation may result in the imposition of any of the sanctions made available in the Colorado statutes pertaining to the business of insurance, or other laws, which include the imposition of civil penalties, issuance of cease and desist orders, and/or suspensions or revocation of license, subject to the requirements of due process.

Section 12 Effective Date

This ~~new~~ regulation shall be effective on ~~April 14, 2025~~[January 30, 2026](#).

Section 13 History

New regulation effective April 14, 2025.

DRAFT Proposed Amended Regulation 4-2-97

CONCERNING THE REQUIREMENTS FOR PHARMACY BENEFIT MANAGERS TO REGISTER IN COLORADO

Section 1	Authority
Section 2	Scope and Purpose
Section 3	Applicability
Section 4	Definitions
Section 5	Initial Registration Application
Section 6	Renewal Application
Section 7	Application Review
Section 8	Discipline
Section 9	Confidentiality
Section 10	Severability
Section 11	Enforcement
Section 12	Effective Date
Section 13	History
Appendix A	Pharmacy Benefit Manager Attestation

Section 1 Authority

This regulation is being promulgated and adopted by the Commissioner of Insurance under the authority of § 10-16-122.1(2.5)(b)(I) and (4.7), C.R.S.

Section 2 Scope and Purpose

The purpose of this regulation is to provide the form and manner for a pharmacy benefit manager (PBM) to register annually with the Division pursuant to § 10-16-122.1(2.5)(b)(I), C.R.S.

Section 3 Applicability

This regulation applies to all PBMs doing business in the state of Colorado.

Section 4 Definitions

- A. "Carrier" shall have the same meaning as found at § 10-16-102(8), C.R.S.
- B. "PBM-affiliated pharmacy" shall have the same meaning as found at § 10-16-122.1(5)(c), C.R.S.
- C. "PBM network" shall have the same meaning as found at § 10-16-122.1(5)(d), C.R.S.
- D. "PBM services" means, for the purpose of this regulation, claims processing services and other prescription drug or device services, as defined in § 10-16-122.1(5)(a), (b), C.R.S.

- E. "Pharmacy benefit management firm", "pharmacy benefit manager", or "PBM" shall have the same meaning as found at § 10-16-102(49), C.R.S. and includes all PBMs doing business in the state, including a PBM that is not directly connected with a carrier.
- F. "Prescription drug" has the same meaning as set forth in § 12-280-103(42) C.R.S; except that the term includes only prescription drugs that are intended for human use.

Section 5 Initial Registration Application

- A. By July 1, 2024, and each year thereafter, prior to doing business in Colorado, each PBM shall complete a pharmacy benefit manager registration application consistent with Section 5 of this regulation and submit it to the Division.
- B. The PBM shall provide as part of the registration application the following:
 - 1. PBM Officer and Business Contact Information
 - a. The name and address of the PBM;
 - b. The names, business addresses, and job titles of the principal officers of the PBM;
 - c. The name, business address, business telephone number, business email address, and job title of the officer or employee who should be contacted regarding any PBM regulatory compliance concerns; and
 - d. The business telephone number and business e-mail address where the PBMs personnel directly responsible for the processing of appeals from patients, providers and pharmacies may be contacted.
 - 2. PBM Organization Documents
 - a. A copy of the PBMs organizational documents, including Articles of Incorporation, Articles of Association, and partnership agreements of the PBM;
 - b. A copy of all by-laws or similar document(s), if any, regulating the conduct or the internal affairs of the PBM; and
 - c. The relevant documentation, such as policies and procedures, and a detailed explanation that demonstrates the PBM has adopted processes to ensure compliance with the requirements in sections 10-16-122.1, 10-16-122.3, 10-16-122.4, 10-16-122.5, 10-16-122.6, 10-16-122.7, and 10-16-122.9, C.R.S, including any written policies or procedures describing the appeals or dispute resolution processes between the PBM and a PBM-affiliated pharmacy, as applicable.
 - 3. Financial and Other Documents
 - a. The most recent year-end financial statement for the PBM;
 - b. A listing of all carriers the PBM contracts with to provide pharmacy benefit services for, in Colorado, including any non-ERISA self-funded or governmental plans;
 - c. The number of projected enrollees or beneficiaries in Colorado to be serviced by the applicant during the upcoming year for all contracted insurers; and

- d. A listing of any delegated or contracted companies that perform part of the PBMs services.

4. Required Responses

A certified statement indicating whether the PBM:

- a. Has been refused or denied a registration, license, or certification to act as or provide the services of a PBM in any state or federal entity, providing specific details separately for each such refusal or denial, if any, including the date, nature and disposition of the action;
- b. Has had any registration, license, or certification to act as or provide the services of a PBM suspended, revoked, or nonrenewed for any reason by any state or federal entity, providing specific details separately for each such suspension, revocation or nonrenewal, if any, including the date, nature, and disposition of the action; and
- c. Has had a business relationship with a carrier terminated for any finding by a court of law of fraudulent or illegal activities in connection with the administration of a pharmacy benefits plan, providing specific details regarding the termination.

C. Application Fee

The PBM shall provide as part of the registration application a nonrefundable filing fee of \$2,500.

D. Attestation Form

- 1. By July 1, 2024, and each year thereafter, each PBM operating in Colorado shall annually complete the "Pharmacy Benefit Manager Attestation" in Appendix A and submit to the Division.
- 2. A PBM shall make the following attestations:
 - a. All the information submitted in the application including attachments are true and complete;
 - b. The PBM understands that submitting any false information may result in sanctions by the Commissioner pursuant to section 10-16.122.1(2.5)(b)(II), (4.5), C.R.S.;
 - c. The PBM will provide any additional information required by this regulation requested by the Division to complete the registration; and
 - d. The PBM is in compliance with sections 10-16-122.1, 10-16-122.3, 10-16-122.4, 10-16-122.5, 10-16-122.6, 10-16-122.7, and 10-16-122.9, C.R.S., as applicable.

- E. A PBM providing services to less than 100 covered individuals in Colorado and unable to provide a required document in section 5 may submit to the Division an exception request. The request must list the required document and provide a brief explanation.

Section 6 Renewal Application

- A. Each PBM operating in Colorado shall complete a renewal application and attestation form on an annual basis. Renewal applications shall be due one year following the initial application approval date.
- B. The PBM shall provide as part of the renewal application the information in section 5.B. and the attestation in section 5.D.
- C. The PBM shall submit a non-refundable renewal application fee of \$2,500.

Section 7 Application Review

Upon receipt of a completed application for registration or renewal as required by sections 5 and 6, the Division shall review the application and may take the following actions:

- A. Approve the application;
- B. Notify the applicant, in writing, that the application is incomplete and request additional information to complete the review; or
- C. Deny a registration pursuant to section 10-16-122.1(2.5)(b)(II), C.R.S.

If a PBM registration is denied pursuant to Section 5 of this regulation, the Division shall:

1. Provide written notice to the applicant PBM that the application has been denied and the grounds therefore; and
 2. Advise the applicant PBM that it may request a hearing in accordance with sections 24-4-104 and 24-4-105, C.R.S.
- D. Suspend, revoke, or refuse to issue, continue, or renew a registration pursuant to section 10-16-122.1(2.5)(b)(II), C.R.S.

If a PBM registration is suspended, revoked, or otherwise refused to be issued, continued, or renewed pursuant to Section 5.D of this regulation, the Division shall:

1. Provide the PBM notice in writing of objective facts or conduct supporting the Division's decision;
 2. Allow the PBM an opportunity to submit written data, views, and arguments with respect to these facts or conduct asserted by the Division.
- E. The commissioner may utilize a third-party vendor to process PBM registration applications and renewals in accordance with section 10-16-122.1(4.7), C.R.S.

Section 8 Discipline

- A. The Division may impose sanctions on a PBM for any violation of applicable laws in Title 10 during its registration, consistent with sections 24-4-104 and 24-4-105, C.R.S., including, but not limited to, suspension of registration, revocation of registration, and imposition of civil penalties.
- B. The Division may enforce applicable laws in Title 10 against an unregistered PBM, including, but not limited to, issuing a cease and desist order.

Section 9 Confidentiality

Information submitted by the PBM to the Division in accordance with this regulation is subject to public inspection only to the extent allowed under the Colorado Open Records Act, and in no case shall trade secret, confidential, or proprietary information be disclosed to any person who is not otherwise authorized to access such information.

A PBM shall submit a “Confidentiality Index” if the PBM desires confidential treatment of a document submitted under this regulation, identifying which documents are confidential and the justification for confidentiality. Any information not marked as confidential or otherwise confidential under state law may be disclosed pursuant to the Colorado Open Records Act.

Section 10 Severability

If any provision of this regulation or the application of it to any person or circumstance is for any reason held to be invalid, the remainder of this regulation shall not be affected.

Section 11 Enforcement

Noncompliance with this regulation may result in the imposition of any of the sanctions made available in the Colorado statutes pertaining to the business of insurance, or other laws, which include the imposition of civil penalties, issuance of cease and desist orders, and/or suspensions or revocation of license, subject to the requirements of due process.

Section 12 Effective Date

This amended regulation shall become effective on ~~November 15, 2025~~[January 30, 2026](#).

Section 13 History

New regulation effective January 30, 2024.

Amended regulation effective ~~November 15, 2025~~[January 30, 2026](#).

Appendix A Pharmacy Benefit Manager Attestation

I hereby certify, under penalty of perjury, that all the information submitted in this application including attachments are true and complete. I am aware that submitting false information may result in sanctions by the Commissioner. I hereby certify that I will furnish any additional information required by this regulation upon request to complete the registration.

If applicable, I hereby certify, under penalty of perjury, that the entity applying for registration as a PBM is in compliance with 10-16-122.1, 10-16-122.3, 10-16-122.4, 10-16-122.5, 10-16-122.6, 10-16-122.7, 10-16-122.9, C.R.S.

Section 1 Authority

This regulation is promulgated and adopted by the Commissioner of Insurance under the authority of §§ 10-1-109, 10-16-107, 10-16-109, 10-16-1304, 10-16-1305, 10-16-1306, and 10-16-1312, C.R.S.

Section 2 Scope and Purpose

The purpose of this regulation is to establish the procedures for noticing and conducting public hearings on proposed Colorado Option Standardized Plans that fail to meet the Premium Rate Reduction Requirements or network adequacy requirements, as required by § 10-16-1306, C.R.S.

Section 3 Applicability

This regulation applies to public hearings that will occur on or after January 1, ~~2025-2026~~ and to carriers offering individual and small group Colorado Option Standardized Plans on or after January 1, ~~2026~~~~2027~~. This regulation further applies to hospitals and health-care providers subject to the requirements in § 10-16-1306, C.R.S.

Section 4 Definitions

- A. “Aggregate Medicare Reimbursement Rate” shall have the same meaning as found in Section 4.C. of Colorado Insurance Regulation 4-2-91.
- B. “Aggregate Negotiated Rate” shall have the same meaning as found at Section 4.D. of Colorado Insurance Regulation 4-2-91.
- C. “Aggrieved” shall have the same meaning as found at § 24-4-102(3.5), C.R.S.
- D. “All-Payer Health Claims Database” shall have the same meaning as described in § 25.5-1-204, C.R.S.
- E. “Applicable plan year” shall mean, for the purposes of this regulation, the plan year for which the carrier is filing a notification on March 1 regarding compliance with Premium Rate Reduction Requirements or network adequacy requirements.
- F. “Carrier” shall have the same meaning as found at § 10-16-102(8), C.R.S.
- G. “Cause” shall mean, for the purposes of this regulation, that establishing a reimbursement rate pursuant to § 10-16-1306(4)(a), (b), (5), or (7), C.R.S., would reduce a carrier’s Colorado Option Standardized Plan premiums, or in the case of network adequacy, assist the carrier in achieving network adequacy requirements.
- H. “Colorado Option Standardized Plan” or “Standardized Plan” shall have the same meaning as found at § 10-16-1303(14), C.R.S.
- I. “Colorado Open Records Act” means the Colorado Open Records Act, §§ 24-72-201, et seq., C.R.S.
- J. “Commissioner” shall have the same meaning as found at § 10-16-102(13), C.R.S.
- K. “Covered person” shall have the same meaning as found at § 10-16-102(15), C.R.S.
- L. “CMS Certification Number (CCN)” shall mean, for the purposes of this regulation, the six-digit alpha-numeric code assigned to hospitals by the Centers for Medicare & Medicaid Services (CMS), outlined in the CMS Manual System, where all Colorado facilities start with a 06.
- M. “Day” shall mean calendar day.
- N. “Division” shall have the same meaning as found at § 10-1-102(7), C.R.S.
- O. “Hospital” shall have the same meaning as found at § 10-16-1303(6), C.R.S.

- P. "Health-care provider" shall have the same meaning as found at § 10-16-1303(8), C.R.S.
- Q. "Health-care Provider Reimbursement Floor" shall have the same meaning as found at Section 4.M. in Colorado Insurance Regulation 4-2-91.
- R. "Health System" shall have the same meaning as found at § 10-16-1303(9), C.R.S.
- RS. "Hospital Reimbursement Floor" shall have the same meaning as found at Section 4.T. in Colorado Insurance Regulation 4-2-91.
- ST. "Insurance Ombudsperson" means the Office of the Insurance Ombudsman established in § 25.5-1-131, C.R.S.
- TU. "Material Provider" shall mean, for the purposes of this regulation, an in-network hospital or health-care provider identified by the carrier, the Division, another provider, or another party that has a greater than or equal to 0.15% contribution to a carrier's premium rate in a particular Rating Area. Any hospital or health-care provider that has less than 0.15% contribution to a carrier's premium rate in a particular Rating Area shall not be considered a Material Provider and shall not be required to participate in the public hearing regarding a carrier's failure to achieve the Premium Rate Reduction Requirements.
- V. "Maximum Allowable Reduction" shall mean, for purposes of this regulation, the reduction needed to reach the reimbursement rate as a percentage of Medicare for services that meets the applicable requirements for the particular hospital pursuant to §§ 10-16-1306(4), (5), or (7), C.R.S., for the applicable plan year.

The contribution to a carrier's premium shall be calculated, for the purposes of this regulation, as total medical claim paid amounts divided by total premiums for each Colorado Option plan by network and by Rating Area.

- UV. "Medicare Reimbursement Rate" shall have the same meaning as found at Section 4.X. of Colorado Insurance Regulation 4-2-91.
- VX. "National Provider Identifier" or "NPI" shall have the same meaning as found at § 25.5-4-420(1)(b), C.R.S.
- WY. "Negotiated Rate" shall mean, for the purposes of this regulation, the reimbursement rate, as a percent of Medicare, agreed upon between the carrier and hospital or health-care provider for a given plan year.
- XZ. "Network" shall have the same meaning as found at § 10-16-102(45), C.R.S.
- YAA. "Non-Standardized plan" means, for purposes of this regulation, a health benefit plan that does not meet the definition of Standardized Plan found at § 10-16-1303(14), C.R.S.
- AB. "Officer" means, for the purposes of this regulation, any individual with delegated contracting authority, including but not limited to the president, vice-president, assistant vice president, corporate secretary, chief executive officer (CEO), chief financial officer (CFO), chief operating officer (COO), assistant corporate secretary, general counsel or actuary who is a corporate officer, or any Colorado-based business leader.
- ZAC. "Party" or "Parties" shall have the same meaning as found at § 24-4-102(11), C.R.S., and specifically includes the entities admitted by the Commissioner under Section 7.A.1-6.
- AAAD. "Person" shall have the same meaning as found at § 10-16-102(48), C.R.S.

ABAE. “Premium Rate Reduction Requirements” shall mean the rates set forth in § 10-16-1305, C.R.S., and calculated pursuant to Colorado Insurance Regulation 4-2-85.

AGAF. “Rating Area” means, for the purposes of this regulation, a geographic area comprised of Colorado counties established pursuant to the fair health insurance premium requirements under 45 C.F.R. § 147.102. A list of the Rating Areas can be found in Colorado Insurance Regulation 4-2-39 Section 6.A.15.g.

ADAG. “Service” as used in Sections 9 and 12 of this regulation, shall have the same meaning as found at 42 C.F.R. § 400.202.

AEAH. “SERFF” means the System for Electronic Rates and Forms Filing.

AFAI. “SFTP” shall mean, for the purposes of this regulation, a Secure File Transfer Protocol that enables the transfer of secure files.

AGAJ. “Statewide Hospital Median Reimbursement Rate” shall mean, for the purposes of this regulation, the median reimbursement rate of Colorado hospitals, measured as a percentage of the Medicare Reimbursement Rate for the 2021 plan year using data from the All-Payer Health Claims Database.

Section 5 Setting of Public Hearings and Notification of Parties

- A. The Commissioner shall provide notice no later than January 31 of the year in which the hearings will be held of the proposed dates for public hearings pursuant to § 10-16-1306, C.R.S. The notice shall be posted on the Division’s website and emailed to all individuals on the Division’s email list.
- B. After the filing of a Complaint, the Commissioner shall give final notice of the date, time, location, and estimated duration for the public hearing to the Parties at least fifteen (15) days prior to the date of the hearing.
- C. In the absence of a Complaint, or after a Complaint has been resolved, the Commissioner may set a hearing for public comment, which shall include allowing the Parties and any person or entity the opportunity to comment on a Colorado Option Standardized Plan offered by a carrier, pursuant to § 10-16-1306(3)(c)(II)(B), C.R.S. The Commissioner shall give final notice of the date, time, location, and scope of the hearing for public comment at least fifteen (15) days prior to the date of the hearing.

Section 6 Applicable Federal and State Laws

For purposes of the March 1st notification and the public hearing only, federal and state laws in effect on March 1st of the year preceding the applicable plan year will be considered to determine whether a carrier has met the Premium Rate Reduction Requirements and network adequacy requirements required by §§ 10-16-1304 and 10-16-1305, C.R.S. The Commissioner, in their discretion, will determine what weight to give any changes in federal or state law between March 1 and the issuance of a final agency order pursuant to Section 23.

Section 7 Public Hearing Parties

- A. The Parties to the public hearing before the Commissioner shall include the following entities:
 - 1. A carrier that fails to meet the Premium Rate Reduction Requirements or network adequacy requirements or is alleged to have failed to meet the Premium Rate Reduction Requirements or network adequacy requirements.

2. Any Material Provider named in any complaint.
 3. Any hospital or health-care provider that is named in a network adequacy complaint or cross-complaint.
 4. The Insurance Ombudsperson to represent the interests of consumers.
 5. The Division of Insurance.
 6. A person who demonstrates to the Commissioner that they will be aggrieved by agency action and who demonstrates that their interests are not adequately represented by the Parties listed above.
 - a. Such a person must request admission as a Party to the public hearing that they seek to participate in within seven (7) days from the date the Commissioner posts the complaint on the Division's website.
 - b. An application for Party status must identify the person making the request, including an address, email address, and telephone number. The application must also contain a statement of the reasons for seeking Party status, the manner in which the person is aggrieved, an explanation as to why the existing Parties do not adequately represent the person's interests, a description of the legal and/or factual issues which the prospective party intends to raise, any responsive pleadings the person intends to file, and any potential witnesses the prospective Party intends to call at the hearing. In addition, the application must describe the evidence the applicant intends to present at the hearing.
- B. Consistent with Section 21.B., interested persons, who are not Parties, including consumer advocacy organizations, shall be given the opportunity to comment during the public hearing.

Section 8 Service of Documents

- A. A Party must make all filings to the Commissioner in the manner directed on the Division's website. A Party filing any pleading or other document shall serve a copy, including all supporting attachments or exhibits, on every other Party in the proceeding. ~~Such service shall include service upon the Commissioner and their assigned staff and attorneys.~~
- B. Service may be by hand, first class mail, or by email. Service by email may be accomplished on a Party if the Party has consented to service by email. After the initial filing of the Complaint and Answer, all Parties shall consent to service by email and shall provide an email address for each subsequent service.
- C. Proof of service of a filing shall be demonstrated through a certificate of service identifying the document served, the method of service, and the date of service. For each public hearing proceeding, the Commissioner shall maintain an updated certificate of service template to be used for service by the Parties and shall update it with any changes.

Section 9 Carrier Notification Requirements

- A. Pursuant to § 10-16-1306(2), C.R.S., a carrier shall notify the Commissioner of the reasons why the carrier is unable to meet the Premium Rate Reduction Requirements, as provided in §§ 10-16-1304 and 10-16-1305, C.R.S., and submit the notification, and related documents identified in Section 9.B, via SERFF or SFTP to the Commissioner no later than March 1 of the year preceding the applicable plan year. The Notification shall be completed by the carrier using Division provided templates and shall include the following information:

1. A completed Premium Rate Reduction Notification template as required in Colorado Insurance Regulation 4-2-85.
2. A table showing the list of Material Providers with their relative contribution to the plan's premium in a Rating Area. The carrier must include the following information for each Material Provider:
 - a. The name, National Provider Identifier (NPI), CMS Certification Number (CCN), if applicable, and contact information of each Material Provider. Contact information shall include email address, physical and mailing address, and current contact information for the compliance or legal department for Colorado.
 - b. Whether the Material Provider is in-network for the applicable plan year and, if the Material Provider is in-network for only a subset of services, for which services they are in-network.
3. A completed Negotiated Rate Template, confidentially submitted via SFTP, for the two years preceding the applicable plan year and for the applicable plan year for each Material Provider containing:
 - a. The Aggregated Negotiated Rate for each Material Provider expressed as both a dollar and as a percentage of Medicare;
 - b. The Negotiated Rate by service expressed as both a dollar amount and as a percentage of Medicare;
 - c. The payment methodology (i.e. Diagnosis Related Group (DRG), Ambulatory Payment Classifications (APC), Per Diem, etc.) as outlined in rate sheets submitted in Section 9.A.2.d of this regulation;
 - d. The analytic methodologies and tools used to aggregate the Negotiated Rates by service at the Material Provider level and to determine Negotiated Rates as a percentage of Medicare, including a service mix estimate including, but not limited to, claims count and total expenditures; and
 - ~~e. If a carrier contracts and negotiates at the hospital system level, the Negotiated Rates, analyses, and agreements at the system level must also be submitted.~~
 - f. For each Material Provider, the carrier must also identify in the Negotiated Rate Template whether the Aggregated Negotiated Rate for the applicable plan year is:
 - (1) Above, consistent with, or below the reimbursement rates set forth in § 10-16-1306(5)(a) and (b) or § 10-16-1306(4)(b), C.R.S.
 - (2) Above, consistent with, or below the reimbursement rate set forth in § 10-16-1306(4)(a), C.R.S., if the Material Provider is a hospital that qualifies for a reimbursement rate as set forth in § 10-16-1306(4)(a), C.R.S.
 - f. Carriers shall provide the item in subsections (a) for Plan Year 2023 through the applicable plan year.
4. To demonstrate Negotiated Rates with Material Providers, the carrier shall submit confidentially via SFTP an unredacted copy of all of the carrier's Colorado Option

Standardized Plan rate sheets, including addendums, for the year preceding the applicable plan year and for the applicable plan year. The rate sheets shall include the agreed upon rates by code or payment methodology and any additional payment agreements (add-on, outlier, stop-loss, etc.) and shall clearly outline whether the agreements are hospital or health-care provider- specific or if they apply to a health-care provider organization or hospital system. If non-Standardized Plan information is included in the same rate sheet as a Colorado Option Standardized Plan rate sheet, the carrier may redact the sections specific to non-Standardized Plans. The carrier must also disclose whether any contracts with Material Providers are set to expire, lapse, terminate, or otherwise end before or during the applicable plan year.

5. If a carrier has negotiated a reimbursement rate with a Material Provider that is a hHospital for the applicable plan year that is consistent with the Maximum Allowable Reduction under § 10-16-1306, C.R.S., then the carrier shall submit a joint attestation on a Joint Attestation Template with the applicable hospital as co-signor as part of the March 1 filing. The joint attestation shall include the reimbursement rates for the year preceding the applicable plan year, the reimbursement rates for the applicable plan year, and the percentage reduction agreed upon between the carrier and the applicable hospital. Multiple hospitals can be included in the same joint attestation if they are part of the same system. Carriers shall not submit a joint attestation until an agreement establishing a reimbursement rate for the applicable plan year has been negotiated between the carrier and the applicable hospital(s).
 6. A statement clarifying whether the carrier and the hospital or health-care provider engaged in nonbinding arbitration as allowed under § 10-16-1306(1)(b), C.R.S., or consent to participate in the opportunity for settlement afforded by Section 12.
 7. An actuarial analysis, including trends and assumptions that includes the following information:
 - a. For Material Providers with reimbursement rates that are above the reimbursement rates set forth in § 10-16-1306(4)(a) and (b), C.R.S., or § 10-16-1306(5)(a) and (b), C.R.S., the reimbursement rates for the year preceding the applicable plan year and the reimbursement rates for the applicable plan year.
 - b. The impact on further reducing premiums on Colorado Option Standardized Plans, by plan, network, and Rating Area, if the carrier set the reimbursement rates for all of the Material Provider's referenced in subsection (a) reimbursement rates were set at to the reimbursement rates in § 10-16-1306(4)(a) or (b), C.R.S. or § 10-16-1306(5)(a) or (b), C.R.S.
- B. Notwithstanding the carriers' notice in Section 9.A., every carrier shall submit the following documents to the Commissioner no later than March 1 of the year preceding the applicable plan year:
1. A completed Premium Rate Reduction Notification template as required in Colorado Insurance Regulation 4-2-85.
 2. A statement outlining the good faith efforts the carrier made with in-network hospitals and/or health-care providers to negotiate reimbursement rates that would support the carrier in lowering premiums on Colorado Option Standardized Plans.
 3. Pursuant to § 10-16-1306(3), C.R.S., if a carrier is unable to meet the network adequacy requirements, a carrier shall notify the Commissioner of the reasons why the carrier is unable to meet the network adequacy requirements. If the carrier is able to meet the

network adequacy requirements, the carrier shall provide an attestation regarding the carrier's ability to meet network adequacy requirements for the applicable plan year and that the network for the Colorado Option Standardized Plan is no more narrow than the most restrictive network the carrier is offering for non-Standardized plans in the individual or small group market for the metal tier for that Rating Area. Nothing in this subsection shall preclude the Division from requesting additional information regarding a carrier's compliance with network adequacy requirements.

- C. Upon request from the Division, the carrier shall submit a completed Cost of Care Data Template, confidentially submitted via SFTP, that summarizes the claims experience and cost of providing care by hospital or healthcare provider. If a hospital or healthcare provider constitutes a Material Provider, the carrier must also provide the summarized claims experience and cost of providing care by service.
- D. If after submitting its March 1 filings a carrier negotiates an agreement with a Material Provider establishing a reimbursement rate reduction for the applicable plan year, and upon request from the Division, the carrier shall submit a completed Joint Attestation Template signed by an Officer of both the carrier and Material Provider through SERFF. Each Joint Attestation Template shall include a confidentially submitted exhibit via SFTP containing the following information:
1. The reimbursement rate for the year preceding the applicable plan year;
 2. The agreed upon reimbursement rate reduction for the applicable plan year; and
 3. The percentage reduction agreed upon between the carrier and the applicable Material Provider.
- E. Multiple Material Providers can be included in the same Joint Attestation Template if they have the same Officer. Carriers shall not file a Joint Attestation Template until an agreement establishing a reimbursement rate reduction has been negotiated between the carrier and the applicable Material Provider(s).
- F. Carriers shall not file a Joint Attestation Template for any other purpose other than to confirm an agreed upon reimbursement rate reduction. Carriers shall not utilize the Joint Attestation Template to update the Division on the status of pending negotiations.
- G. Upon request from the Division, carriers shall file with the Commissioner and the Office of the Insurance Ombudsperson a final summary of all Material Providers that have accepted a reimbursement rate reduction for the applicable plan year. The final summary of all Material Providers that have accepted a reimbursement rate reduction for the applicable plan year shall be completed on a Final Summary Template. Carriers shall confer with the Division prior to filing the Final Summary Template regarding the Material Providers that have accepted a reimbursement rate reduction.
- DH. The carrier shall respond to any follow up inquiries by the Division requesting additional information regarding the notifications required by Sections 9.A. and 9.B.
- EI. Documents provided pursuant to Sections 9.A., 9.B. and 9.C. must be bates numbered and clearly identify the Party submitting the documentary evidence.
- FJ. The Commissioner shall post on the Division's website the information provided by the carrier pursuant to Section 9, including the Negotiated Rates except as provided in Section 14 relating to Confidential Information. If the carrier's submission is incomplete, the Division shall notify the carrier and allow the carrier up to seven (7) days to submit complete information. The

Commissioner shall post the information within three (3) days of the Division determining the information to be complete.

- GK.** Upon the filing and service of a complaint, the carrier shall produce the notifications required by Sections 9.A., 9.B., and any additional information produced under 9.C. to all Parties. However, the Division shall produce the notifications submitted by the carriers pursuant to Sections 9.A., 9.B., and any additional information produced under 9.C. to the Insurance Ombudsperson.
- HL.** The carrier has an affirmative duty to notify the Division of any changes, discrepancies, errors, or omissions regarding the notifications required under this Section 9.

Section 10 Complaint

- A.** Simultaneous with the filing of the carrier's notification detailed in Section 9, the carrier may file a Complaint identifying the Material Provider(s) that were a cause of the carrier's failure to meet the Premium Rate Reduction Requirements alleging:
 1. The inability of the carrier to meet the Premium Rate Reduction Requirements;
 2. The reasons the carrier failed to meet the Premium Rate Reduction Requirements including any reasons not tied to Material Providers;
 3. The Material Provider(s) that were a cause of the carrier's failure to meet the Premium Rate Reduction Requirements.
 4. Sections of the template(s) summarizing each Material Provider's contributions to premiums provided pursuant to Section 9 to support the carrier's identification of Material Providers as a reason the carrier claims it failed to meet the Premium Rate Reduction Requirements;
 5. A reimbursement rate pursuant to §§ 10-16-1306(4), (5) and (7), C.R.S., applicable to such Material Provider(s) that would allow the carrier to further reduce premiums on its Colorado Option Standardized Plans; and
 6. Any legal authority supporting the complaint.
- B.** If a carrier has notified the Division that it failed, or the Division alleges that the carrier has failed, to meet the Premium Rate Reduction Requirements, the Division may also initiate a Complaint or Cross-Complaint against any Material Provider and carrier after reviewing the carrier's March 1 Notice and filings. The Division's complaint may include the information set forth in Section 10.A.
- C.** A carrier may file a network adequacy Complaint, or Cross Complaint, which may name or include hospitals or health-care providers. The Division may also file a network adequacy Complaint, or Cross Complaint, which may name or include a carrier and hospitals or health-care providers. A network adequacy Complaint may be filed in conjunction with a Complaint specified in subsections A and B; however, a carrier or the Division is not required to bring both Complaints at the same time or in the same proceeding.

The Division's network adequacy complaint may contain allegations that a carrier failed to comply with § 10-16-1304(1)(f), C.R.S., and network adequacy requirements, including, but not limited to, Colorado Insurance Regulations 4-2-53, 4-2-54, 4-2-55, and 4-2-56 and may identify the hospital(s) or health-care provider(s) that were a cause of the Carrier failing to meet network adequacy requirements.

A carrier's network adequacy complaint may include the reasons why the carrier is unable to comply with § 10-16-1304(1)(f), C.R.S., and network adequacy requirements, including, but not limited to, Colorado Insurance Regulations 4-2-53, 4-2-54, 4-2-55, and 4-2-56, and shall identify the hospital(s) or health-care provider(s) that were a cause of the Carrier failing to meet network adequacy requirements.

If a Carrier is unable to comply with the network adequacy requirements under § 10-16-1304(1)(g), C.R.S., the carrier shall follow the action plan procedures set forth in Colorado Insurance Regulation 4-2-80. The Commissioner may issue a procedural order modifying any of the deadlines or requirements in this regulation as needed upon the filing of a network adequacy Complaint to ensure adequate notice and an opportunity to be heard to the Parties.

- D. The Complaint shall be served on all Parties consistent with the requirements set forth in Section 8.
- E. The Division will submit a status update to the Commissioner within four (4) weeks of the March 1 Notice and filings, which will provide a procedural update on the timeline for filing any complaints. The Division shall serve the status update on the carrier and the Insurance Ombudsperson. The Commissioner shall post the status update on the Division's website. Upon request of the Commissioner, the Division shall file other status updates.
- F. Nothing in this regulation shall be interpreted to prohibit the Division from investigating and initiating an enforcement action at any time during the year if the Division has determined that the carrier is no longer in compliance with its network adequacy requirements.

Section 11 Answer to Complaint of Failure to Meet the Premium Rate Reduction or Network Adequacy Requirements

- A. A carrier alleged by the Division to have failed to meet the Premium Rate Reduction Requirements or network adequacy requirements pursuant to Sections 10.B and 10.C shall file an Answer within twenty-one (21) days from the date of service of the Complaint. Simultaneously with the Answer, the carrier may also file a Cross-Complaint alternately or hypothetically that identifies the hospital(s) or health-care provider(s) that the carrier alleges were a cause of the carrier's failure to meet the requirements. The Cross-Complaint shall contain all of the information required of a Complaint in Sections 10.A and 10.B.
- B. Any hospital or health-care provider named in a Complaint or Cross-Complaint shall file an Answer within twenty-one (21) days from the date of service of the Complaint or Cross-Complaint, as applicable. The Answer shall:
 - 1. Respond to all allegations in the Complaint or Cross-Complaint;
 - 2. Identify whether the carrier could have met the Premium Rate Reduction Requirements or network adequacy requirements, and if so, attach any analysis supporting this allegation;
 - 3. Provide a substantive response as to why the hospital or health-care provider contends the reimbursement rates offered by the carrier are insufficient, if applicable, including any potential effects of the requested reimbursement rates on the hospital's or health-care provider's operations; and
 - 4. To the extent known, provide a statement as to whether the carrier and the hospital or health-care provider engaged in nonbinding arbitration as allowed under § 10-16-1306(1)(b), C.R.S., or consent to participate in the opportunity for settlement afforded by Section 12.

- C. Documents provided as exhibits to the Answer must be bates numbered and clearly identify the Party submitting the documentary evidence.
- D. The Insurance Ombudsperson and the Division may, but are not required to, file a response to a Complaint or Cross-Complaint within twenty-one (21) days of receipt of the Complaint or Cross-Complaint. The Division may file a Cross-Complaint naming additional hospitals or health-care providers.

Section 12 Settlement

- A. The carrier, hospital(s) and/or health-care provider(s), and the Division may negotiate a settlement. The Commissioner shall enter a final agency order approving or disapproving the settlement or recommend a modification as a condition for approval.

If the Commissioner does not approve the negotiated settlement or a settlement is not reached, the Parties shall proceed with the public hearing. All negotiations during the settlement period are considered confidential and shall not be introduced into the hearing.

- B. If a settlement is achieved that concludes the adjudicatory session of the public hearing and is approved by the Commissioner, the Commissioner may still hold a hearing for public comment prior to the approval of the carrier's final rates. The Commissioner shall issue notice of the date, time, location, and scope of any public hearing held pursuant to this subsection B.
- C. The Division may conduct settlement negotiations with the carrier and hospitals or health-care providers to determine whether a settlement may be reached prior to the Division filing a complaint.
- D. Prior to a settlement being reached or upon request of the Division, the carrier shall provide the following documentation to the Division to verify the reimbursement rates and premium impact of the proposed reduction in those reimbursement rates:
 - 1. [If a carrier and a hospital or health-care provider agree on a reduction to the applicable plan year's Negotiated Rate, including a reduction to the Hospital Reimbursement Floor or Health-care Provider Reimbursement Floor, the two years preceding the applicable plan year's and the applicable plan year's:](#)
 - a. Negotiated Rates for most common services, which account for 85% of spend between the carrier and named hospital or health-care provider.
 - b. Payment methodology and tools outlining how the carrier reimburses the hospital or health-care provider for different services (i.e., Diagnosis Related Groups, Per Diem, etc.).
 - c. The Aggregate Negotiated Rate, as a percent of Medicare, and documentation of the methodology and tools used to calculate the Aggregate Negotiated Rate as a dollar value and the rate as a percent of Medicare. The Medicare rates effective when March 1 filings are submitted must be used to determine the percent of Medicare.
 - d. Premium impact statement demonstrating the overall impact of the hospital or health-care provider reimbursement Rate reduction by plan, metal tier, network, and Rating Area, including negotiated reimbursement rate reduction agreements entered into before and after the March 1 filing.

2. If a carrier and a hospital or health-care provider agree on a twenty percent (20%) reduction to the applicable plan year's Negotiated Rate compared to the ~~current year's~~ Negotiated Rate for the year preceding the applicable plan year, then the carrier must submit, for the year preceding the applicable plan year and the applicable plan year:
 - a. Negotiated Rates for most common services, which account for 85% of spend between the carrier and named hospital or health-care provider.
 - b. Payment methodology outlining how the carrier reimburses the hospital or health-care provider for different services (i.e., Diagnosis Related Groups, Per Diem, etc.).
 - c. The Aggregate Negotiated Rate, as a percent of Medicare and documentation of the methodology used to calculate the Aggregate Negotiated Rate and the rate as a percent of Medicare
 - d. The methodology, adjustments, and assumptions used to assess the twenty percent (20%) reduction on a service level, in aggregate, and as a percent of Medicare.
 - e. Premium impact statement demonstrating the overall impact of the hospital or health-care provider's reimbursement rate reduction by plan, metal tier, and Rating Area, including reimbursement rate reduction agreements entered into before and after the March 1 filing.
 3. An attestation, and supporting documentation that the Division requests, to verify that the hospital or health-care provider will be in-network for the entire applicable plan year.
 4. If the settlement is with a Material Provider that is a hospital within a health system and with whom the carrier negotiates rates at a system level, the Division will only assess compliance with the Hospital Reimbursement Floor for that hospital consistent with the requirements under § 10-16-1306, C.R.S.
- E. At all times, the carrier has an affirmative duty to notify the Division of any changes, discrepancies, errors, or omissions regarding the information provided pursuant to this Section 12, including, but not limited to, in-network status, reimbursement rates, Negotiated Rates, and premium impact.

Section 13 Public Availability of Documents

- A. In accordance with the Colorado Open Records Act and § 10-16-1306(3)(b), C.R.S., information submitted to the Commissioner as part of the public hearing process is presumed to be a public record and open for inspection, subject to restrictions specifically provided by law.
- B. The Commissioner shall post all pleadings, documents submitted by the Parties, and orders of the Commissioner on the Division's website except as provided in Section 14 relating to Confidential Information.

Section 14 Confidential Information

- A. Documents Submitted Pursuant to Section 9
 1. In accordance with § 10-16-1306(3)(b), C.R.S., and subject to the requirements of the Colorado Open Records Act, the following information submitted for purposes of Section

9 and the public hearing may be filed under a claim of confidentiality as set forth in the procedures of this Section 14:

- a. The premium data, Cost Sharing Reduction loads, and carrier assumptions and projections by service area included in the Premium Rate Reduction Notification template, as specified in Section 9.A.1 of this regulation;
- b. The Material Providers' relative contribution to the plan's premium in a Rating Area as included in the table specified in Section 9.A.2 of this regulation;
- c. The Negotiated Rate Template as specified in Section 9.A.3 of this regulation;
- d. The actuarial analysis as specified in Section 9.A.5-7 of this regulation;
- e. The Cost of Care Template as specified in Section 9.B-2C of this regulation;
- f. Joint attestations between carriers and Material Providers pursuant to Sections 9.A.5 and 9.D of this regulation; and
- g. The Final Summary Template as specified in Section 9.G of this regulation.

2. Information submitted pursuant to this Section 14.A.1.a, b, and d may be subject to the requirements set forth in § 10-16-107(1)(g)(I), C.R.S., and, subject to the provisions of the "Colorado Open Records Act," part 2 of article 72 of title 24, may be made public after carriers file premium rates with the Division in June.

3. Nothing in this Section 14.A. shall be interpreted to limit a Party's ability to submit other documentation or information under a claim of confidentiality.

B. Procedures for requesting confidentiality.

1. Any Party may make a claim of confidentiality as to information or documents submitted to the Parties and the Commissioner.

2. A claim of confidentiality constitutes a representation to the Commissioner that the Party has a reasonable and good faith belief that the subject document or information is, in fact, confidential under applicable state and federal law, including the Colorado Open Records Act. If a claim of confidentiality is made in violation of this subparagraph, the Commissioner may impose an appropriate sanction upon the claiming Party, including an order to pay the amount of reasonable expenses incurred because of the claim of confidentiality, and reasonable attorney's fees.

3. Any Party submitting documents or information under a claim of confidentiality shall file, as part of the public record (i.e., not confidential), a notice of confidentiality specifying each document, the nature of the document on which confidential information is found, and the basis(es) for the claim of confidentiality as to the information and the bates numbers of the confidential documents. The notice of confidentiality shall be served upon the Parties. Failure to file a notice of confidentiality will result in administrative rejection of the filing of the confidential information.

4. Each page of each document on which confidential information is contained shall clearly be marked as "CONFIDENTIAL." Confidential documents will be maintained in the record by the Commissioner separately from other public documents.

5. The Commissioner's acceptance of information or documents under a claim of confidentiality is not, and shall not be construed to be, an agreement or determination by the Commissioner that the subject information or document is, in fact, confidential.
6. The Commissioner may, at any time, sua sponte or after considering a motion from any Party, issue a decision as to whether the subject information or documents submitted under a claim of confidentiality is confidential.
7. In the event the Commissioner rules that information submitted under a claim of confidentiality is not confidential, any person with access to the information shall not disclose the information or use it in the public record for seven (7) days. During this time period, the Party making a claim of confidentiality may seek a stay or other relief permitted by law.

B. Protection of Confidential Information

1. Information or documents ruled by the Commissioner as confidential, or information or documents submitted under a claim of confidentiality for which no ruling has been made by the Commissioner, shall be treated as confidential ("Confidential Information").
2. Confidential Information will only be made available to the Commissioner, the Commissioner's staff, and Parties. Confidential Information will not be made available to the public.
3. The Office of the Insurance Ombudsperson as a Party to the public hearing will be provided access to Confidential Information, but shall not provide Confidential Information to consumers, advocacy organizations, or the public.

The Office of the Insurance Ombudsperson shall immediately notify the Commissioner and the Parties of any requests under the Colorado Open Records Act for Confidential Information.
4. Confidential Information may only be used for purposes of public hearings, and may not be shared with other persons or entities.
5. Confidential Information may be disclosed to experts or advisors for the Parties only for the purposes of public hearings.
6. Confidential Information shall not be used or disclosed for purposes of business or competition.
7. The Parties shall take all reasonable precautions to keep Confidential Information secure.
8. When reference is made to Confidential Information in exhibits, testimony, or pleadings, it shall be by citation to the title or nature of the document, or by some other description that will not disclose the Confidential Information.
9. Failure by any person to comply with the requirements of this Section regarding Confidential Information, or disclosure of Confidential Information to any person or entity who is not a Party to the public hearing, may result in sanctions as set forth in the Colorado Rules of Civil Procedure (C.R.C.P.) 37(b)(2) and may result in monetary penalties up to \$750,000 pursuant to §§ 10-3-1107 and 10-3-1108(1)(a), C.R.S., for violating a rule or order of the Commissioner.

10. Within thirty (30) days of the conclusion of the proceedings, including any appeal of the final agency order, the Confidential information retained by the Parties shall be destroyed.

C. Public Hearing

1. Upon a showing that it is necessary for a Party to refer to Confidential Information during testimony at the public hearing, the Commissioner may convene the public hearing with only the Parties present to hear such testimony. A recording of this portion of the public hearing will be maintained by the Commissioner and will be treated as Confidential Information. Other Parties may cross-examine the witness as to the Confidential Information during this confidential portion of the public hearing.
2. Time devoted to the closed portion of the public hearing shall count against the time allotted to the Party requesting the closed hearing. Where multiple Parties request a closed hearing, the time allotted to the closed portion of the hearing shall be equally divided amongst the Parties that made such request.

D. Division and Commissioner Maintaining Confidential Information

Notwithstanding the provisions of this Section 14, and subject to the requirements of the Colorado Open Records Act, the Division and the Commissioner shall retain all Confidential Information. The Division and Commissioner may use Confidential Information for any lawful regulatory purpose, including, but not limited to, rate review, investigations, and enforcement actions.

E. Appeal

In the event the Commissioner's final agency order from the public hearing is appealed or otherwise subject to judicial review, the Commissioner will file all Confidential Information under seal with the Colorado Court of Appeals in accordance with applicable rules and regulations.

Section 15 Conflicts of Interest Screen

- A. Where the carrier and hospitals and/or health-care providers elect to participate in the Opportunity for Settlement afforded under Section 12, any Division representatives that participate in the negotiations shall be screened from the Commissioner for the entirety of the applicable public hearing process. Additionally, the Division representatives that participate in the negotiations shall not disclose any information from the negotiations to the Commissioner.

The Division's representatives and staff supporting those representatives shall be screened from the Commissioner, and their representatives and staff, for the entirety of the applicable public hearing.

- B. "Screened" as used in this Section includes, specific to the matter that is the subject of the screen, remaining as separate entities for the public hearing and being restricted from ex parte communications. Except for filings submitted in SERFF or SFTP and documents submitted to the Parties and the Commissioner for a determination of confidentiality pursuant to Section 14, "screened" shall include prohibiting the Commissioner and their representatives' access to non-public filings and documents in the possession of Division staff and representatives on the opposite side of the screen from the Commissioner. It does not include restrictions on communications when all Parties and the Commissioner are included in the communication or communications. "Screened" does not include any procedural status updates filed by the Division prior to the filing of a complaint if the status update is publicly posted on the Division's website.

Section 16 Party Disclosures

- A. Unless otherwise set in a procedural order issued by the Commissioner, no later than fourteen (14) days after the Parties submit Answers, each Party shall serve upon the Commissioner and all Parties the following information:
1. A witness list including the name, address, and telephone number of any witness whom the Party may call to provide testimony at the public hearing, together with a detailed statement of the content of that person's testimony. The Party shall indicate for each witness whether the witness's testimony will be written or oral.
 2. Any of the following additional documentary evidence a Party may wish to include in the record at the public hearing related to a carrier's failure to meet the Premium Rate Reduction Requirements or network adequacy requirements in the Rating Area at issue may be submitted for the Commissioner's review including but not limited to:
 - a. An actuarial analysis demonstrating why the Premium Rate Reduction Requirements were not met.
 - b. Negotiated rates with other hospitals or health-care providers in the same Rating Area.
 - c. Enrollee and utilization data for the Rating Area.
 - d. Hospital or health-care provider financial data, including but not limited to, profit and loss statements and balance sheets. Hospitals or health-care providers may also submit other data to demonstrate unique circumstances that may not be represented in the public hearing.
 - e. Hospital or health-care provider rates with other carriers.
 - f. Carrier initiatives and assumptions to reduce health care costs for the Rating Area.
 - g. Demographics and acuity of covered persons within the Rating Area.
 3. All documents submitted to the Commissioner and the Parties pursuant to this Section will be included in the record for the public hearing, subject to Sections 14 and 21.

Section 17 Additional Discovery

- A. The Colorado Rules of Civil Procedure (C.R.C.P.) 26 through 37 do not apply to the public hearing proceedings.
- B. The Parties shall confer on any additional discovery beyond the disclosures identified in Section 16 and the written testimony in Section 21. The Parties are encouraged to keep discovery requests limited, targeted, and narrowly tailored to information that is related to the reason the carrier failed to meet network adequacy requirements or the Premium Rate Reduction Requirements. If the Parties cannot reach an agreement, the Party seeking discovery shall file a motion with the Commissioner before serving discovery on another Party. Additional discovery shall be at the discretion of the Commissioner. The Party seeking discovery shall set forth in the motion the following:
1. The specific data or information that the Party is requesting;

2. The rationale for the requested data or information;
 3. The relevance to the carrier's failure to meet the Premium Rate Reduction Requirements or network adequacy requirements;
 4. Whether the data or information is available from another source.
- C. If the Commissioner grants the additional discovery, the Commissioner will issue an order setting the deadline for the Party to produce the discovery.

Section 18 Motions

Parties shall have five (5) days to respond to any motion submitted by an opposing Party, unless otherwise ordered by the Commissioner. No reply briefs are permitted. Time shall be calculated as provided in Section 25.

Section 19 Consolidation of Proceedings

The Commissioner has the discretion to consolidate proceedings involving the same carrier.

Section 20 Burden of Proof

- A. The burden of proof shall be on the Party that is the proponent of a decision.
- B. Nothing in this Section 20 shall preclude a hospital or health-care provider from presenting evidence that the carrier's proposed reimbursement rate is insufficient.

Section 21 Public Hearing Proceedings

- A. No later than fifteen (15) days before the hearing, the Commissioner shall issue an order setting forth the allotted time for the Parties to present evidence and testimony at the hearing.
- B. Public Comment by Interested Persons

In addition to the Parties identified in Section 7, consumer advocacy organizations, trade organizations, and other entities or individuals shall be given the opportunity to present evidence regarding the carrier's failure to meet the Premium Rate Reduction Requirements or network adequacy requirements during the public hearing. Members of the public, consumer advocacy organizations, small businesses, trade organizations, and other entities or interested persons who seek to comment at the hearing shall sign up at least two (2) days in advance of the hearing on the Division's website. The Commissioner may set time limits on public comment.

Members of the public may submit written comments up to two (2) days after the hearing, in lieu of public comments at the hearing, which will be posted on the Division's website.

- C. Presentation of Evidence
 1. The Commissioner shall limit evidence presented at the hearing to information that is related to the reason the carrier failed to meet the network adequacy requirements or the Premium Rate Reduction Requirements for the Standardized Plans at issue in the hearing. Evidence shall be limited to information that is relevant to the Commissioner's determination pursuant to §§ 10-16-1306(3) to (11), C.R.S.
 2. The Colorado Rules of Evidence and requirements of proof shall conform, to the extent practicable, with those in civil nonjury cases in the district courts. However, when

necessary to ascertain facts affecting substantial rights of the Parties to the proceeding, the Commissioner may receive and consider evidence not admissible under the Colorado Rules of Evidence, if the evidence possesses probative value commonly accepted by reasonable and prudent persons in the conduct of their affairs. Informality in any proceeding or in the manner of taking testimony shall not invalidate any order, decision, rule, or regulation. The Commissioner may exclude incompetent and unduly repetitious evidence.

3. Exhibits
 - a. Documentary evidence shall be admitted into the record, except as follows:
 - (1) Any Party may object under the Colorado Rules of Evidence to inclusion of documentary evidence in the record at the public hearing, provided the objection is made in writing to the Commissioner at least five (5) days prior to the public hearing. The Commissioner may rule on these objections in writing or on the record during the public hearing.
 - (2) At the Commissioner's discretion, the Commissioner may require the Party presenting a document in the record to present testimony or evidence as to the authenticity of that document.
 - b. The Commissioner encourages Parties to offer written stipulations resolving any evidentiary dispute, fact, or matter of substance or procedure at issue. Oral stipulations may be made on the record at the public hearing, but the Commissioner may require that the stipulation be reduced to writing, signed by the Parties or their counsel, and filed with the Commissioner. Any stipulation must be approved by the Commissioner, and the Commissioner may modify a stipulation as a condition of approval.
4. Witness Testimony
 - a. A Party may present the testimony of its witnesses through written testimony provided the Party has identified that the witness's testimony will be presented in writing in their witness list submitted pursuant to Section 16. Written testimony must be submitted to the Commissioner and the Parties no later than seven (7) days before the hearing.
 - b. All Parties may make objections to witness testimony, and all witnesses are subject to cross-examination by or on behalf of Parties to the hearing. Any witness who's oral and/or written testimony a Party wishes to have as part of the record shall be available for cross-examination at the hearing.
5. Where lengthy cross-examination would use undue time, the Commissioner may require each Party to estimate the amount of time necessary for cross-examination. To promote an efficient hearing, the Commissioner may limit each Party's time for cross-examination. Time devoted to cross-examination shall count against the time allotted to the Party conducting the cross-examination.

Section 22 Recording of Hearing

The public hearing shall be recorded and posted on the Division's website.

Section 23 Establishment of Reimbursement Rates, if Necessary, and Issuance of Final Agency Order

- A. Based on the evidence presented at the hearing, the Commissioner may establish and require hospitals and/or health-care providers to accept carrier reimbursement rates for hospitals and/or health-care providers, if necessary, to meet the network adequacy requirements or the Premium Rate Reduction Requirements. "If necessary" means essential to the achievement of network adequacy or reduced premiums, but not in all instances sufficient for a carrier to meet network adequacy requirements or the Premium Rate Reduction Requirements.
- B. In determining the hospital's reimbursement rate, the Commissioner may:
1. Consult with employee membership organizations representing health-care providers' employees in Colorado and with hospital-based health-care providers in Colorado.
 2. Take into account the cost of adequate wages, benefits, staffing, and training for health-care employees to provide continuous quality care.
 3. Take into account the most current Medicare prospective or cost-based payment rates available, or any rate modifications published by the Centers for Medicare and Medicaid Services that may be relevant to the applicable plan year, including how the most current Medicare prospective or cost-based payment rates available may impact the applicable Premium Rate Reduction Requirements.
 4. Utilize any publicly available hospital and provider data and cost tools.
- C. The Commissioner may not set a reimbursement rate for a hospital or health-care provider that is lower than the Hospital Reimbursement Floor or Health-Care Provider Reimbursement Floor specific to that hospital or health-care provider.
- D. The Commissioner cannot set the reimbursement rate for any hospital for any plan year at an amount that is more than twenty percent lower than the Negotiated Rate between the carrier and the hospital for the plan year preceding the applicable plan year. To determine the Aggregate Negotiated Rate between the carrier and hospital for the applicable plan year and the year preceding the applicable plan year, the carrier must submit the information required in Section 9.
- E. For a hospital with an Aggregate Negotiated Rate that is at least ten percent less than the Statewide Hospital Median Reimbursement Rate measured as a percentage of the Medicare Reimbursement Rate for the 2021 plan year using data from the All-Payer Health Claims Database:
1. The Commissioner will set the hospital reimbursement rate for that hospital at no less than the greater of:
 - a. The hospital's Aggregate Negotiated Rate minus one-third of the difference between the hospital's Aggregate Medicare Reimbursement Rate and the Hospital Reimbursement Floor established by Section 5 of Colorado Insurance Regulation 4-2-91.
 - b. One hundred sixty-five percent of the hospital's Medicare Reimbursement Rate.
 - c. The Hospital Reimbursement Floor established by Section 5 of Colorado Insurance Regulation 4-2-91.
 2. If a hospital believes that their Aggregate Negotiated Rate is at least ten percent less than the Statewide Hospital Median Reimbursement Rate, then a hospital may work with the carrier to submit to the Division a joint attestation by March 1 of the year preceding the applicable plan year. The joint attestation must contain the applicable plan year's

Aggregate Negotiated Rate, and documentation of the methodology to derive this estimate.

If a joint attestation is not submitted for a hospital and carrier by March 1 of the year preceding the applicable plan year and the hospital does not provide the Division with any information regarding their Aggregate Negotiated Rate, the Division will calculate the Hospital Reimbursement Floor as the greater of:

- a. One hundred sixty-five percent of the hospital's Aggregate Medicare Reimbursement Rate.
 - b. The reimbursement rate established by Section 5 of Colorado Insurance Regulation 4-2-91.
- F. The Commissioner shall issue a final agency order which shall include the Commissioner's determination of the reimbursement rate, by hospital and/or health-care provider, that must be used by the carrier in its rate filings.
- G. The decision of the Commissioner is a final agency order subject to judicial review pursuant to § 24-4-106(11) C.R.S.

Section 24 Modifications to Public Hearing Process

The Commissioner may issue appropriate orders to control the scope, course, and outcome of the public hearing including, but not limited to, dismissal.

Section 25 Computation and Modification of Time

- A. In computing any time period pursuant to this regulation, the day of the event from which the time period begins shall not be included. If the due date falls on a weekend or state holiday, the due date will be the next business day.
- B. At the Commissioner's discretion, a due date may be extended.

Section 26 Enforcement and Carrier Audit

- A. Nothing in this regulation shall be interpreted to prohibit the Division from investigating and initiating an enforcement action at any time if the Division has determined that a carrier is not reimbursing a Material Provider at the final agreed upon amount represented to the Division, or if a carrier is no longer complying with this regulation, a Final Agency Order or other Order of the Commissioner, Title 10, or any other applicable Colorado law for the applicable plan year. This includes, but is not limited to, enforcement pursuant to §§ 10-1-304, 10-3-1107, 10-3-1108, 10-16-107.2, and 10-16-107.1, C.R.S.
- B. In addition to the Division's enforcement authority set forth in Section 26.A., pursuant to § 10-16-1306, C.R.S., upon request of the Division, carriers shall conduct a self-audit to determine that the reimbursement rates reported to the Division in accordance with this regulation, including, but not limited to, Section 9 and Section 12, remain in effect and are, in fact, the actual reimbursement rates the carrier will reimburse Material Providers for the applicable plan year.

Section 2627 Severability

If any provision of this regulation or the application of it to any person or circumstance is for any reason held to be invalid, the remainder of this regulation shall not be affected.

Section 2728 Incorporation by Reference

42 C.F.R. § 400.202 published by the Government Printing Office shall mean 42 C.F.R. § 400.202 as published on the effective date of this regulation and does not include later amendments to or editions of 42 C.F.R. § 400.202. A copy of 42 C.F.R. § 400.202 may be examined during regular business hours at the Colorado Division of Insurance, 1560 Broadway, Suite 850, Denver, Colorado, 80202. A certified copy of 42 C.F.R. § 400.202 may be requested from the Colorado Division of Insurance, 1560 Broadway, Suite 850, Denver, CO 80202. A charge for certification or copies may apply. A copy may also be obtained online at www.ecfr.gov.

45 C.F.R. § 147.102 published by the Government Printing Office shall mean 45 C.F.R. § 147.102 as published on the effective date of this regulation and does not include later amendments to or editions of 45 C.F.R. § 147.102. A copy of 45 C.F.R. § 147.102 may be examined during regular business hours at the Colorado Division of Insurance, 1560 Broadway, Suite 850, Denver, Colorado, 80202. A certified copy of 45 C.F.R. § 147.102 may be requested from the Colorado Division of Insurance, 1560 Broadway, Suite 850, Denver, CO 80202. A charge for certification or copies may apply. A copy may also be obtained online at www.ecfr.gov.

Section 2829 Enforcement

Noncompliance with this Regulation may result in the imposition of any of the sanctions made available in the Colorado statutes pertaining to the business of insurance, or other laws, which include the imposition of civil penalties, issuance of cease and desist orders, and/or suspensions or revocation of license, subject to the requirements of due process.

Section 2930 Effective Date

This regulation shall be effective on ~~February 1, 2025~~[January 30, 2026](#).

Section 3031 History

New regulation effective February 14, 2023.
Amended regulation effective February 1, 2024.
Amended regulation effective February 1, 2025.

LIFE, ACCIDENT AND HEALTH

DRAFT Proposed Amended Regulation 4-2-75

CONCERNING REQUIREMENTS FOR REPORTING MEDICATION-ASSISTED TREATMENT COVERAGE

Section 1	Authority
Section 2	Scope and Purpose
Section 3	Applicability
Section 4	Definitions
Section 5	Reporting Requirements
<u>Section 6</u>	<u>Incorporation by Reference</u>
Section 76	Severability
Section 87	Enforcement
Section 98	Effective Date
Section 109	History
<u>Attachment A</u>	<u>Medication-Assisted Treatment (MAT) Reporting Requirements</u>
Section 1	Authority

This regulation is promulgated and adopted by the Commissioner of Insurance under the authority of §§ 10-1-109, 10-16-109, ~~and 10-16-710~~, and 10-16-148, C.R.S.

Section 2 **Scope and Purpose**

The purpose of this regulation is to establish the data reporting requirements for carriers concerning the coverage of medication-assisted treatment as required by § 10-16-710, C.R.S.

Section 3 **Applicability**

This regulation applies to all carriers marketing and issuing or renewing health benefit plans in the individual, small group and large group markets in Colorado, including non-grandfathered plans, short-term limited duration health insurance policies, and student health insurance coverage, on or after the effective date of this regulation. This regulation does not apply to limited benefit plans, as defined in § 10-16-102(32)(b), C.R.S., ~~and~~ exclusions for coverage of specific mandated benefits as found at § 10-16-104~~(1.4)~~, C.R.S.

Section 4 **Definitions**

A. “Carrier” shall have the same meaning as found at § 10-16-102(8), C.R.S.

- B. "Health benefit plan" shall have the same meaning as found at § 10-16-102(32), C.R.S.
- C. "Medication-assisted treatment" or "MAT" means, for the purposes of this regulation, the use of an FDA-approved medication alone or in combination with evidence-based behavioral therapies to treat a substance use disorder or withdrawal or treat or prevent the relapse of a substance use disorder shall have the same meaning as found at § 23-21-803(4), C.R.S.
- ~~D. "Medication to treat opioid use disorder" shall mean medications to treat opioid use disorder as defined in this regulation.~~
- DE. "Opioid use disorder" or "OUD" shall mean a substance use disorder relating to the use of an opioid.
- EF. "Opioid Treatment Program" or "OTP" shall mean a program with current, valid certification from the Substance Abuse and Mental Health Services Administration and qualified by the Secretary of Health and Human Services under section 303(g)(1) of the Controlled Substances Act (21 U.S.C. § 823(g)(1)) to dispense opioid drugs in the treatment of opioid use disorder. It must be qualified under section 303(g)(1) of the Controlled Substances Act, and must be determined to be qualified by the U.S. Attorney General under section 303(g)(1), to be registered by the U.S. Attorney General to dispense opioid agonist treatment medications to individuals for treatment of opioid use disorder.
- F. "Prior authorization" shall have the same meaning as found at § 10-16-112.5(7)(d), C.R.S.
- G. "SERFF" means, for the purposes of this regulation, the NAIC System for Electronic Rate and Form Filing.
- HG. "Short-term limited duration health insurance policy" and "short-term policy" shall have the same meaning as found at § 10-16-102(60), C.R.S.
- I. "Step therapy" shall have the same meaning as found at § 10-16-145(1)(g), C.R.S.
- HJ. "Student health insurance coverage" and "student health policy" shall have the same meaning as found at § 10-16-102(65), C.R.S.
- HK. "Substance use disorder" or "SUD" means, for the purposes of this regulation, all disorders that fall under any of the diagnostic categories listed as a mental or behavioral disorder due to psychoactive substance use, or an equivalent category, in the mental, behavioral, and neurodevelopmental disorders chapter, or an equivalent chapter, or disorders listed as a substance-related and addictive disorder in the manuals referenced in § 10-16-104(5.5)(d)(II)(A), C.R.S. the recurring use of alcohol and/or drugs that causes clinically significant impairment, including health problems, disability, and failure to meet major responsibilities.
- JL. "Substance use disorder benefits" means, for the purposes of this regulation, the benefits supplied for items or services for substance use disorders for health benefit plans shall have the same meaning as found at 45 C.F.R. § 146.136(a)(2), except for generally recognized independent standards of current medical practice shall also include the Diagnostic Classification of Mental Health and Developmental Disorders of Infancy and Early Childhood as referenced in § 10-16-104(5.5)(d)(II)(A), C.R.S.

Section 5 Reporting Requirements

A. Carriers shall annually report the data in Sections 5.~~BC~~ through 5.~~GF~~ to the Commissioner of Insurance using ~~the templates in Attachment A~~ and instructions provided by the Division.

B. Timing and Format of Filings

~~1. No later than September 1, 2021, carriers shall report all required data for medication-assisted treatment (MAT) and medication to treat opioid use disorder (MOUD) coverage provided in the 2020 calendar year.~~

~~1.2. On February 1, 2022, and annually thereafter, c~~Carriers shall report all required data for MAT coverage in the previous calendar year by February 1 of each year.

~~32.~~ Annual reports shall include data pertaining to the carrier's coverage of MAT, as well as coverage administered by third-party administrators (TPAs).

~~3.~~ Carriers shall submit the completed templates and documents in SERFF as an "Annual Medication-Assisted Treatment (MAT) Reporting (4-2-75)" filing. This filing shall be submitted separately from any rate, form, annual certification, binder or network adequacy filing.

~~4.~~ Carriers shall use "On Approval" for the "Implementation Date" in SERFF.

~~5.~~ Carriers shall use "File and Use" for the "Requested Filing Mode" in SERFF.

BC. Carriers shall provide the following information for each network regarding in-network providers that meet federal and state requirements~~are federally licensed~~ to prescribe MAT for substance use disorders (SUD), and including opioid use disorder (OUD), including buprenorphine.

1. The number of SUD providers by provider type at the beginning of the calendar year;

2. The number of SUD providers by provider type at the end of the calendar year;

3. The number of SUD treatment programs~~and opioid treatment programs (OTPs)~~and the types of MAT medications provided a;

4. The number of Opioid Treatment Programs (OTPs), the MAT medications provided, and the number of providers who are authorized to dispense or administer~~prescribe~~ methadone for the treatment of OUD; and

5. The number of SUD providers in each county; ~~and~~

~~6. The number of providers with a federal waiver to prescribe buprenorphine for the treatment of OUD.~~

GD. Carriers shall provide the Division with the total number of unique plan enrollees that used SUD services throughout the previous calendar year, at the beginning of the previous calendar year, and at the end of the previous calendar plan year.

DE. Carriers shall report data relating to medications prescribed for the treatment of SUD in the previous calendar year. Such data shall include:

1. Carriers shall provide to the Division ~~The total number of prescriptions filled by unique enrollees for MAT medications for SUD and the average number of prescriptions filled per unique enrollee for MAT medications for SUD and OUD in the prior calendar year.~~
2. The total number of prescriptions filled by unique enrollees for SUD that applied prior authorization, step therapy, quantity limits, or other utilization management protocols, and:
 - a. The name and dosage of the prescription medications and the applicable SUD;
 - b. Whether prior authorization or step therapy were required for each medication; and
 - c. The total number of claims that were approved or denied for each medication, and the top three reasons that the carrier or pharmacy benefit manager denied claims for the medication.
3. The total number of requests for a prescription medication for SUDs that is not otherwise included in the formulary, including the number of claims approved, denied, and in progress, as well as the top three reasons that the carrier or pharmacy benefit management firm denied the claims.

EF. Carriers shall provide to the Division a detailed description of its efforts to ensure sufficient capacity for and access to MAT for SUD, including the following:

1. Policies and procedures to ensure enrollee access to OTPs, including any policies and procedures to assist with transportation, telehealth services, take-home dosing, and complementary behavioral health services;
2. The methodology or other formal processes used by the carrier and TPA, if applicable, to determine network sufficiency to ensure access to MAT for SUD ~~and OUD~~, and process(es) undertaken if the carrier or TPA has found insufficiencies;
3. ~~Policies and procedures regarding prior authorization requirements for MAT for SUD and OUD, including requirements for pregnant and parenting people as well as minors;~~
4. ~~Coverage and utilization management for MAT prescriptions, including differences in coverage and utilization management provisions for different FDA-approved medications for the treatment of OUD;~~

35. Processes to recruit and retain providers to prescribe MAT for SUD ~~and OUD~~, including care received in an OTP ~~and office-based buprenorphine~~, to enrollees; and
64. The evidentiary or other standards and practices used to determine eligibility of providers who prescribe MAT for SUD ~~and OUD~~ to join the network.

G. Carriers shall provide to the Division all documentation and supporting data regarding coverage of MAT for SUD in compliance with Colorado law, including the following information:

1. The carrier's public-facing Colorado prescription drug formularies (e.g., "standard formulary") for each applicable market, which must show if the formulary contains FDA-approved medications for all SUDs;
2. A description and list of the tier placements for each FDA-approved prescription medication used in the treatment of SUDs to determine compliance with the requirements to place at least one FDA-approved medication for SUDs on the lowest-cost tier of the formulary;
3. For carriers that apply prior authorization requirements, the written policies and procedures regarding prior authorization requirements for MAT for SUD, including requirements for pregnant and parenting people as well as minors. If prior authorization is required for MAT for SUD, carriers must provide an overview of the carrier's or TPA's policies and procedures regarding requiring prior authorization, including the appeals process when a medication is denied, and an explanation for how the applied prior authorization meets the requirements laid out in § 10-16-148, C.R.S., and this regulation. This should include, at a minimum, the education and professional qualifications of the reviewer who is responsible for making the determinations at each level of the appeals process. If a carrier does not apply prior authorization requirements, a carrier must attest in a template provided by the Division that it does not apply such requirements; and
4. For carriers that apply utilization management requirements, a list of all utilization management requirements that a carrier applies for prescription drugs used for SUDs, including differences in coverage and utilization management provisions for different FDA-approved medications for the treatment of SUDs, supported by the carrier's written policies and procedures for these requirements. If a carrier does not apply any utilization management requirements, a carrier must attest in a template provided by the Division that it does not apply such requirements.

Section 6 **Incorporation by Reference**

45 C.F.R. § 146.136(a)(2) shall mean 45 C.F.R. § 146.136(a)(2) as published by the Government Printing Office on the effective date of this regulation and does not include later amendments to or editions of 45 C.F.R. § 146.136(a)(2). A copy of 45 C.F.R. § 146.136(a)(2) may be examined during regular business hours at the Colorado Division of Insurance, 1560 Broadway, Suite 850, Denver, Colorado, 80202. A certified copy of 45 C.F.R. § 146.136(a)(2) may be requested from the Colorado Division of Insurance, 1560 Broadway, Suite 850, Denver, CO 80202. A charge for certification or copies may apply. A copy may also be obtained online at www.ecfr.gov.

Section 76 **Severability**

If any provision of this regulation or the application of it to any person or circumstance is for any reason held to be invalid, the remainder of this regulation shall not be affected.

Section 87 Enforcement

Noncompliance with this regulation may result, after proper notice and hearing, in the imposition of any of the sanctions made available in the Colorado statutes pertaining to the business of insurance or other laws which include the imposition of fines, issuance of cease and desist orders, and/or suspensions or revocation of license. Among others, the penalties provided for in §10-3-1108, C.R.S., may be applied.

Section 98 Effective Date

This regulation shall be effective on ~~January 30, 2026~~ ~~June 15, 2021~~.

Section 109 History

New regulation effective June 15, 2021.
[Amended regulation effective January 30, 2026.](#)

DRAFT

Attachment A: Medication-Assisted Treatment (MAT) Reporting Requirements

Carriers shall use this template to submit annual reporting requirements to the Division pursuant to Colorado Insurance Regulation 4-2-75 and § 10-16-710 CRS as it applies to the carrier and third-party administrator (TPA), if applicable. When providing information regarding medication-assisted treatment (MAT) for substance use disorder (SUD) and opioid use disorder (OUD), please differentiate data between the two treatment types. Do not include OUD-specific data in SUD-specific data.

Carrier	-
TPA (if applicable)	-
Network	-
Contact Name	-
Contact Email	-
Date of Submission	-

1. _____ Indicate the number of in-network providers that are federally licensed to provide MAT for SUD and OUD at the beginning of the calendar year and at the end of the calendar year, including the type of medications available to treat opioid use disorder (MOUD).

Beginning of Calendar Year

Provider Type	SUD	OUD	MOUD
Physician, MD or DO			
Nurse Practitioner			

Physician Assistant			
Clinical Nurse Specialist			
Certified Registered Nurse Anesthetist			
Certified Nurse Midwife			
Other			

End of Calendar Year

Provider Type	SUD	OUD	MOUD
----------------------	------------	------------	-------------

Physician, MD or DO			
Nurse Practitioner			
Physician Assistant			
Clinical Nurse Specialist			
Certified Registered Nurse Anesthetist			
Certified Nurse Midwife			

Other			
-------	--	--	--

2. Provide the number of SUD and opioid treatment programs in the network, as well as the type of MOUD.

Type of Program	Number	Type(s) of MOUD
SUD treatment program		
Opioid treatment program		

3. Provide the number of providers treating SUD & OUD in each county at the end of the calendar year.

County	SUD	OUD	County	SUD	OUD
Adams	-	-	Kit Carson	-	-
Alamosa	-	-	La Plata	-	-

4. Provide the number of providers who are authorized to prescribe methadone for the treatment of OUD at the beginning and end of the calendar year in the network.

Time Period	Providers
-------------	-----------

Beginning of Calendar Year	
End of Calendar Year	

5. Describe the policies in place and strategies utilized to ensure enrollee access to OTPs, including any policies and procedures to assist with transportation, telehealth services, take-home dosing, and complementary behavioral health services.

6. Provide the number of unique enrollees at the beginning of the calendar year and end of the calendar year using SUD and OUD services.

Time Period	Enrollees
Beginning of Calendar Year	
End of Calendar Year	

7. Provide the number of unique patients being seen for MAT for SUD, OUD, and MOUD.

Provider Type	Number of Patients- SUD	Number of Patients- OUD	Number of Patients Receiving MOUD
Physician, MD or DO			
Nurse Practitioner			
Physician Assistant			
Clinical Nurse- Specialist			
Certified Registered- Nurse Anesthetist			
Certified Nurse- Midwife			
Other			

8. Provide the total number of prescriptions that were filled by unique enrollees for MAT for SUD and OUD in the calendar year.

Condition Type	Total Prescriptions filled by Unique Enrollees

SUD	
OUD	

9. Provide a 'yes' or 'no' response following questions regarding MAT for SUD.

<input type="radio"/> Yes <input type="radio"/> No	Is prior authorization, step therapy, or other utilization management policies required for any FDA-approved medications used as part of the treatment of SUD? —
<input type="radio"/> Yes <input type="radio"/> No	Is prior authorization, step therapy, or other utilization management policies required for any FDA-approved medications used as part of MAT for OUD? —
<input type="radio"/> Yes <input type="radio"/> No	Does the formulary use place any of the medications used for OUD, SUD, alcohol use disorder, or nicotine dependence on the lowest cost tier of the formulary?
<input type="radio"/> Yes <input type="radio"/> No	Does the formulary contain all FDA-approved medications for the treatment of OUD, SUD, alcohol use disorder, and nicotine dependence?
<input type="radio"/> Yes <input type="radio"/> No	Is Naloxone covered? Please list all formulations that are covered below.
<input type="radio"/> Yes <input type="radio"/> No	Is Buprenorphine covered? Please list all formulations that are covered below.
<input type="radio"/> Yes <input type="radio"/> No	Is Methadone covered?
<input type="radio"/> Yes <input type="radio"/> No	Is Naltrexone covered?
<input type="radio"/> Yes <input type="radio"/> No	Is Disulfiram covered?
<input type="radio"/> Yes <input type="radio"/> No	Is Acamprosate covered?

<input type="radio"/> Yes <input type="radio"/> No	Is Clonidine covered?
--	-----------------------

Naloxone formulations:-

Buprenorphine formulations:

10. — If prior authorization is required for MAT for SUD or OUD, provide an overview of the carrier's or TPA's policies and procedures regarding requiring prior authorization, including the appeals process when a medication is denied. This should include, at a minimum, the education and professional qualifications of the reviewer who is responsible for making the determinations at each level of the appeals process. —

11. — Provide an overview of any other utilization management protocols in place for each covered medication, including differences in utilization management provisions for different FDA-approved medications for the treatment of OUD. —

12. — Provide a detailed description of the carrier's and TPA's, if applicable, processes to recruit and retain providers that prescribe MAT for SUD and OUD, including both care received in an OTP and office-based buprenorphine and methadone, to enrollees.

13. — Provide a detailed description of the methodology or other formal processes used by the carrier and TPA, if applicable, to determine network sufficiency to ensure access to MAT for SUD and OUD and process(es) undertaken if the carrier or TPA has found insufficiencies;

14. — Provide a detailed description of the evidentiary or other standards and practices used to determine eligibility of providers that are federally licensed to prescribe MAT for SUD and OUD to join the network.

Subjects and issues involved

The Colorado State Plumbing Board will hold a Rulemaking Hearing on Wednesday, December 17, 2025 at 9:00 A.M. (MDT), to receive feedback on proposed revisions to Rule 1.2 - STANDARDS, Rule 1.3 - APPRENTICES REGISTRATION AND RECORDKEEPING and Rule 1.4 - APPLICATIONS AND LICENSING. The purpose of the proposed revisions is to correct and clarify the rules, and to implement Colorado House Bill 25-1077 (CONCERNING REQUIREMENTS FOR INDIVIDUALS WHO WORK ON BACKFLOW PREVENTION DEVICES, AND, IN CONNECTION THEREWITH, REMOVING THE LICENSURE REQUIREMENT FOR INDIVIDUALS WHO INSPECT, TEST, OR REPAIR THE DEVICES).

Statutory authority

12-20-204(1), 12-155-103(3), 12-155-105(1)(l), 12-155-123(2)(a), 12-155-105(1)(e) and 24-4-103, C.R.S.

PLUMBING RULES AND REGULATIONS

3 CCR 720-1

[Editor's Notes follow the text of the rules at the end of this CCR Document.]

...

1.2 STANDARDS

A. Colorado Plumbing Code

The Board hereby adopts and incorporates by reference, with certain additions, revisions, and deletions, the following chapters, sections, and appendices of the International Plumbing Code (“IPC”) and International Residential Code (“IRC”).

These Rules, together with the following incorporated provisions, shall be known as the Colorado Plumbing Code. The Colorado Plumbing Code sets forth the minimum standards governing the inspection, installation, alteration, and repair of the plumbing fixtures, appliances, and systems throughout Colorado. The Colorado Plumbing Code does not include any later amendments to or editions of the IPC or IRC provisions listed below.

1. Chapter 1, Sections 101.2, 102, 105, 106.1, 106.3, 106.4, 106.5, 106.5.5, 106.6.1, 107, 108.1, 110.3 Chapters 2-13, 15; and Appendices B, C, D, and E of the IPC, 2021 edition promulgated by the International Code Council 1st printing (March 2020).
2. Chapter 1, Section R101, R102; Chapter 2; Chapter 3, Section R305.1 exceptions 1 and 2, Section R306; Chapters 25-32, of the IRC, 2021 edition, promulgated by the International Code Council, 1st printing (January 2021).

B. Colorado Fuel Gas Code

The Board hereby adopts and incorporates by reference, with certain additions, revisions, and deletions, the following chapters, sections, and appendices of the International Fuel Gas Code (“IFGC”) and the IRC. These Rules, together with the following incorporated provisions, shall be known as the Colorado Fuel Gas Code. The Colorado Fuel Gas Code sets forth the minimum standards governing the inspection, installation, alteration, and repair of fuel gas piping and systems throughout Colorado. The Colorado Fuel Gas Code does not include any later amendments to or editions of the IFGC and IRC provisions listed below.

1. Chapter 1 Section 101, 102, 105, 107, Chapters 2-8 save and except Sections 412 and 413, Appendices A-C of the IFGC, 2021 edition, promulgated by the International Code Council, 1st printing (August 2020).

State Plumbing Board

2. Chapter 1, Section R101, R102; Chapter 2; Chapter 24, Sections G2411-G2422, and G2401.1-Table G2428.3(4) and G2448 of the IRC, 2021 edition, promulgated by the International Code Council, 1st printing (January 2021).

C. Public Copies

Copies of the provisions of the IPC, IFGC, and IRC, adopted and incorporated into the Colorado Plumbing Code and the Colorado Fuel Gas Code, are available for public inspection during regular business hours at the Board office at the Department of Regulatory Agencies Welcome Center, 1560 Broadway, Civic Center Plaza, Denver, Colorado, 80202, and at any state publications depository library. For further information regarding how this material can be obtained or examined, contact the Program Director for the Board ("Program Director") at 1560 Broadway, Suite 1350, Denver, Colorado, 80202, (303) 894-2309. Copies of the IPC, IFGD, and IRC may be obtained from the International Code Council, 500 New Jersey Avenue, NW, 6th Floor, Washington, DC 20001. A list of ICC regional offices is available at <http://www.iccsafe.org/AboutICC/Pages/ContactICC.aspx>.

D. General Interpretations

The following shall apply to the Colorado Plumbing Code and Colorado Fuel Gas Code.

1. **Code Official.** Whenever the Colorado Plumbing Code and the Colorado Fuel Gas Code refer to "the code official," it shall mean the Board or its designee, if any.
2. **Reasonable Time.** As used in the Rules, the term "reasonable time" shall mean thirty calendar days.
3. **Amendments to the Colorado Codes.** Any city, town, county or city and county which adopts more stringent standards than the Colorado Codes shall furnish a copy thereof to the Board.
4. Abbreviations

ANSI – American National Standards Institute

ASME – American Society of Mechanical Engineers

ASSE – American Society of Sanitary Engineers

ASTM – American Society for Testing and Materials

C.F.R. – Code of Federal Requirements

C.R.S. – Colorado Revised Statutes

ICC – International Code Council

NFPA – National Fire Protection Association

State Plumbing Board

USC FCCC&HR – University of Southern California, Foundation for Cross-Connection Control and Hydraulic Research

5. Alternate Materials and Methods Review
 - a. **Criteria.** The Board shall consider requests for approval of alternate materials or methods under the procedures and limitations of Section 105 of the Colorado Plumbing Code and Colorado Fuel Gas Code.
 - b. Procedures
 - (1) **Petitions for Approval.** Any interested person may petition the Board to amend the Colorado Plumbing or Fuel Gas Code so as to approve the use of an alternate material or method, pursuant to Section 105 of the IPC. Such petition shall conform to the requirements in subsection (2)(b). Incomplete petitions will not be processed.
 - (2) **Petition Contents.** Each petition filed under this Rule shall comply with the following requirements:
 - (a) **Where to Submit.** Petitions shall be submitted in duplicate to the Program Director.
 - (b) **Petition Document.** Petitions shall begin with a short concise document labeled as the “petition,” and which includes the following information:
 - (i) Identification of the petitioner and the petitioner's interest in the alternate materials or methods approval. This identification shall designate one person as the Board's contact for the petition, and list telephone, fax, e-mail, and mailing addresses for that person.
 - (ii) A full description of the types of uses for which the petitioner would like approval. This list should be sufficiently detailed to allow the Board to consider specific types of applications or uses for the alternate material and/or method.
 - (iii) A complete identification of the applicable standards from the Referenced Standards identified in the Colorado Plumbing Code or Colorado Fuel Gas Code that the petitioner proposes to be the acceptance criteria for the alternate material or method.

State Plumbing Board

- (iv) If the petition is for approval of an alternate material, one sample of the material. The sample will be returned to the petitioner after completion of the review process.
 - (v) Copy of approval language of each code the petitioner cites.
- (c) **Submission of National Standards.** Each petition shall be accompanied by a set of the applicable standards from the Referenced Standards identified in the Colorado Plumbing Code, Colorado Fuel Gas Code or other standards listed by the petitioner in Rule 1.2(D)(5)(b)(2)(iii). If the listed standard incorporates other standards into its criteria, copies of the incorporated standards shall be submitted as well.
- (d) **Results of Independent Third Party Compliance Testing.** Each petition shall be supported with complete copies of test reports with protocols issued within the previous eighteen months prior to the date of submission by a laboratory or other testing facility that is recognized as a nationally recognized testing laboratory, pursuant to 29 C.F.R. section 1910.7, or by an ANSI accredited third-party certifier.
- (e) **Compliance with Section 105.** Each petition shall be supported by detailed written discussion as to why the proposed alternate material or method meets the following requirements from Section 105 of the IPC:
- (i) That the proposed design of the proposed alternate material is satisfactory and complies with the intent of the Colorado Plumbing Code or Colorado Fuel Gas Code.
 - (ii) That the proposed material is appropriate for the proposed intended use at least the equivalent of that prescribed in the Colorado Plumbing Code or Colorado Fuel Gas Code with respect to quality, strength, effectiveness, durability and safety. This description requires that the petitioner directly compare the quality, strength, effectiveness, durability and safety data on the applicable conventional systems with the tested and documented performance characteristics of the proposed alternate material and/or method.
 - (iii) When an alternate installation method is proposed, the petitioner shall describe how the proposed method of installation conforms to the most recently adopted edition of the Colorado Plumbing Code or Colorado Fuel Gas Code.

State Plumbing Board

c. Reconsideration of Board Action

Any petitioner whose petition has not been fully granted by the Board may apply for reconsideration of the Board's decision within thirty days of the mailing of the Board's notice of denial, publication of notice of termination, or publication of the Board Rule that partially granted the petition. A request for reconsideration shall be in writing and shall explain why reconsideration is warranted. Action on any request for reconsideration is within the sole discretion of the Board.

6. **Fee Establishment.** Licensing, permit, and reinspection fees shall be established pursuant to section 12-20-105, C.R.S., and shall be categorized appropriately, such as original license, registration, endorsement, renewal, reinstatement fees, permit fees, and reinspection fees.
7. **Information Only Sections.** Installations detailed in the Colorado Plumbing Code that are typically not installed by plumbers (i.e., shower wall composition from Sections 421.4.1, IPC and P2710.1, IRC; Shower floors from Sections 421.5, IPC and P2709.2, P2709.3, IRC) are not subject to licensing, permitting or inspection but are informational only.
8. Definitions
 - a. **Certified Cross-Connection Control Technician** means a person who possesses a valid Backflow Prevention Assembly Tester certification from one of the following approved organizations: American Society of Sanitary Engineering (ASSE), the American Backflow Prevention Association (ABPA), or other agency recognized by the Board.
9. Clarification of "Domestic appliances" referenced in section 12-155-118(6)(a)(I), C.R.S. and "faucets" as shown in section 12-155-118(6)(a)(II), C.R.S.

Water heaters used to supply domestic hot water to a residential or commercial potable water system are not equipped with backflow preventers. Therefore, they do not fall under the exemption in section 12-155-118(6)(a)(I), C.R.S.

Shower valves and tub and shower valves referenced in 2021 IPC sections 412.3 to 412.8 and 2021 IRC section P2708.4 shall not be considered "faucets". Therefore, they do not fall under the exemption in section 12-155-118(6)(a)(II) CRS.

10. ~~Clarification of back flow prevention device installation requirements.~~

~~A plumbing license is not required for persons engaged in the business of inspecting, testing, and repairing backflow prevention devices. 12-155-118. Exemptions (4) CRS requires persons engaged in the installation and removal of such devices to be a registered and licensed plumbing contractor.~~

E. Revisions and Exceptions to the Incorporated Codes

1. Revisions and Exceptions to the Colorado Plumbing Code

State Plumbing Board

- a. IPC Section 102.8 Referenced codes and standards

Delete in its entirety and replace with:

[A] 102.8 Referenced codes and standards. The codes and standards referenced in this code shall be those that are listed in Chapter 15 and such codes and standards adopted or recognized by the Plumbing Board shall be considered as part of the requirements of this code to the prescribed extent of each such reference.

- b. IPC Section 106.5 Permit issuance

Add exception reading:

Exception: Where emergency plumbing is performed, the required permit may be obtained the following business day after the work has been started (i.e., broken water lines, broken drain lines, water heater replacements).

- c. IPC Section 202 Definitions

Add new definitions to read:

Direct Supervision. Direct supervision means that the supervising licensed master plumber, journeyworker plumber, or residential plumber is physically present at the same physical addresses listed on the permits and where the apprentice is working or no more than five minutes distance from the apprentice within the same construction or job site.

- d. IPC Section 202 Definitions

Add new definitions to read:

Trap drain. That portion of horizontal piping between the weir of a trap and the point where it intersects with the vent serving that same trap (trap arm).

- e. IPC Section 202 Definitions

Delete the definition and replace with:

Fixture Drain. That portion of a plumbing drainage system that connects the trap drain to any other drain pipe receiving the discharge from one or more plumbing fixtures.

- f. IPC Section 202 Definitions

Delete the definition and replace with:

Graywater. Wastewater that, before being treated or combined with other wastewater, is collected from fixtures within residential, commercial, or industrial buildings or institutional facilities for the purpose of being put to beneficial uses.

State Plumbing Board

Sources of graywater are limited to discharges from bathroom and laundry room sinks, bathtubs, showers, and laundry machines. Graywater does not include the wastewater from toilets, urinals, kitchen sinks, dishwashers, or non-laundry utility sinks.

- g. IPC Section 202 Definitions

Delete the definition and replace with:

Reclaimed Water. Domestic wastewater that has received secondary treatment by a domestic wastewater treatment works (centralized system or a localized system) and such additional treatment as to enable the wastewater to meet the standards for approved uses.

- h. IPC Section 305.1 Protection against contact.

Delete section in it's entirety and replace with:

IPC Section 305.1 Protection against contact. Piping except for, for cast iron, ductile iron, and galvanized steel shall not be placed in direct contact with steel framing members. Piping shall not be placed in direct contact with concrete or cinder walls and floors, other masonry, and corrosive soil. Where sheathing is used to prevent direct contact, the sheathing shall have a thickness of not less than .025 inch (.64 mm). Where sheathing protects piping that penetrates concrete or masonry walls or floors, the sheathing shall be installed in a manner that allows movement of the piping within the sheathing.

- i. IPC Section 308 Interval of support

308.5 Interval of support

Add new sentence at the end of the section to read:

Hanger support rods shall be sized in accordance with table 308.5.1

- j. Add new Table 308.5.1 Hanger Rod Size

Table 308.5.1 Hanger Rod Size	
Pipe and Tube Size	Rod Size
½" – 4"	3/8"
5" – 8"	½"
10" – 12"	5/8"

- k. IPC Section 308.7.1 Location

State Plumbing Board

Delete in its entirety and replace with:

308.7.1 Location. For pipe sizes greater than four inches (102 mm), restraints shall be provided for drain pipes utilizing mechanical joints at all changes in direction and at all changes in diameter greater than two pipe sizes. Braces, blocks, rodding and other suitable methods as specified by the coupling manufacturer shall be utilized.

l. IPC Section 312.1 Required tests

Delete the words “for piping systems other than plastic” and “After the plumbing fixtures have been set and their traps filled with water, the entire drainage system shall be submitted to final tests. The code official shall require the removal of any cleanouts if necessary to ascertain whether the pressure has reached all parts of the system.”

m. IPC Section 312.3 Drainage and vent air test

Delete the words “Plastic piping shall not be tested using air.”

n. IPC Section 312.4 Drainage and vent final test

Delete in its entirety.

o. IPC Section 312.5 Water supply system test

Delete the words “for piping systems other than plastic.”

p. IPC Section 312.9 Shower liner test

Delete in its entirety.

q. IPC Section 312.10.2 Testing

Delete the verbiage entirely and replace it with:

312.10.2 Testing. Reduced pressure principle, double check, pressure vacuum breaker, reduced pressure detector fire protection, double check detector fire protection, and spill-resistant vacuum breaker backflow preventer assemblies and hose connection backflow preventers shall be tested at the time of installation, immediately after repairs or relocation and at least annually by a certified cross connection control technician, in accordance with the applicable testing procedures associated with each specific certifying agency. When applicable the testing procedure shall be performed for the identified backflow prevention assembly in its entirety in accordance with one of the following applicable standards: ASSE 5013, ASSE 5015, ASSE 5020, ASSE 5047, ASSE 5048, ASSE 5052, ASSE 5056, CSA B64.10, CSA B64.10.1 or the testing procedures provided in the 10th Edition Manual of Cross-Connection Control

State Plumbing Board

from the University of Southern California's Foundation for Cross-Connection Control and Hydraulic Research.

The testing procedures from the 10th Edition Manual of Cross-Connection Control from the University of Southern California's Foundation for Cross-Connection Control and Hydraulic Research is incorporated by reference, and may be examined at the Colorado Plumbing Board's office at 1560 Broadway, Suite 1350, Denver, Colorado 80202, during normal business hours, Monday through Friday, except days designated as state holidays. Certified copies of the 10th Edition Manual of Cross-Connection Control shall be provided at cost, upon request. The Board or the Board's staff will provide information regarding how the 10th Edition Manual of Cross-Connection Control may be examined for free at the state public depository library. The 10th Edition Manual of Cross-Connection Control is also available from the agency, organization or association originally issuing the code, standard, guideline, or rule at: USC Foundation Office, Research Annex 219, Los Angeles, CA 90089-7700 or (<https://fccchr.usc.edu/>). This rule does not include any later amendments or editions of the code, standard, guideline, or rule.

- r. IPC Section 403.1 Minimum number of fixtures

Add a new sentence to the end of the section to read as follows:

Lavatory to water closet or urinal ratios in accordance with Table 403.1 shall be maintained in all restrooms.

- s. IPC Section 403.3 Employee and public toilet facilities, effective January 1, 2024

Add a new paragraph to the end of the section to read as follows:

All state departments (excluding K-12 schools), state agencies, state institutions of higher education, counties, cities, or municipality buildings that are newly constructed or are being remodeled shall provide an ADA-compliant single-user or an ADA-compliant multi-user non-gendered restrooms as required by section 9-5.7-103, C.R.S.

- t. IPC Section 405.3.2 Public Lavatories

Add a new exception reading:

Exception: Lavatories located outside a toilet room located within a classroom serving students from that classroom only. These toilet rooms and lavatories shall not count toward the total fixture count required by Table 403.1.

- u. IPC Section 410.4 Substitution.

Change first sentence to read:

State Plumbing Board

Where restaurants (or spaces classified as an A2 occupancy) provide drinking water in a container free of charge, drinking fountains shall not be required in (these restaurants and A2 occupancies).

- v. IPC Section 421.7 Shower head location

Add new section to read:

421.7 Shower head location. Showerheads shall be located on the sidewall of shower compartments or be arranged so the shower head does not discharge directly at the entrance to the compartment and the bather can adjust the valve prior to stepping into the shower spray.

Exception: Showers of the roll in type installed in accordance with 2017 ANSI A117.1 or ICC A117.1.

- w. IPC Section 421.8 Shower valve location

Add new section to read:

421.8 Shower valve location. A shower or tub/shower control valve shall be installed only where the spout and/or shower head discharges into an approved tub or shower compartment.

Exception: Emergency Showers.

- x. IPC Section 425.3 Water closet seats

Add new exception to read:

Exception: Water closets installed in public restrooms for the purpose of complying with accessible fixtures as required by Section 404 fitted with the "AXS-Wingman Universal Design Water Closet Seat" having a closed front are allowed.

- y. IPC Section 504.6.1 Collection of Relief Valve Discharge

Add new section 504.6.1 to read:

504.6.1. Collection of Relief Valve Discharge. A means shall be provided to capture the discharge from a relief valve and convey it to the sanitary drainage system or exterior of the structure either by gravity or a pumped discharge.

Exceptions:

- (1) Replacements for existing water heaters.

State Plumbing Board

(2) Where a water sensing device wired to a normally closed solenoid valve installed in the water supply piping to the heater is placed within the water heater drain pan.

z. IPC Section 504.6.1.1 Pumped discharge of relief valve collection

Add new Section 504.6.1 to read as follows:

504.6.1.1 Pumped discharge of relief valve collection. Pumps used to discharge the clear water collection of relief valves shall have an operating temperature equal to or exceeding that of the relief valve discharge temperature and shall have a gpm rating equal to or greater than the discharge of the relief valve.

aa. IPC Section 504.7 Required pan.

Add new exception to read:

Replacements for water heaters that did not have a pan previously installed to code in effect at the time of the original installation.

bb. IPC Section 504.7 Required pan.

Add new sentence at end of the section to read:

Unless the pan is constructed of material having a flame spread index of 25 or less and a smoke-developed index of 450 or less when tested in accordance with ASTM E84 or UL 723.

cc. IPC Section 605.15.2 Solvent cementing

Delete the exception in its entirety.

dd. IPC Section 608.3.1 Special equipment, water supply protection

Add additional wording to read:

The water supply for hospital fixtures and dental chairs shall be protected against backflow with a reduced pressure principle backflow prevention assembly, an atmospheric or spill resistant vacuum breaker assembly, or an air gap. Vacuum breakers for bedpan washer hoses shall not be located less than 5 feet (1524 mm) above the floor. Vacuum breakers for hose connections in health care or laboratory areas shall be not less than 6 feet (1829 mm) above the floor.

ee. IPC Section 608.9.1 Signage required

Delete the section in its entirety and replace with:

State Plumbing Board

- (1) Plumbing fixtures flushed with nonpotable water shall be identified with signage that reads as follows:

“Nonpotable water is used to flush this fixture. CAUTION: NONPOTABLE WATER – DO NOT DRINK.”

In addition to the required wordage, the pictograph shown in figure 608.8.1 shall appear on the required signage.

- (2) A permanent warning sign must also be visible at all fixtures from which graywater is collected. The sign must state that:

“WATER FROM THIS FIXTURE IS REUSED. CHEMICALS, EXCRETA, PETROLEUM OILS AND HAZARDOUS MATERIALS MUST NOT BE DISPOSED DOWN THIS DRAIN.”

- (3) For both types of fixtures indicated in subsections 1.2(E)(1)(ee)(1) and (2) above, the words shall be legibly and indelibly printed on a tag or sign constructed of corrosion-resistant waterproof material or shall be indelibly printed on the fixture. The letters of the words shall be not less than 0.5 inch (12.7 mm) in height and in colors in contrast to the background on which they are applied.

- ff. IPC Section 608.9.2 Distribution pipe labeling and marking

Delete the section verbiage and replace with:

Nonpotable distribution piping shall be purple in color or the piping shall be installed with a purple identification tape or wrap the entire length of the piping and shall be embossed, or integrally stamped or marked, with the words: “CAUTION: NONPOTABLE WATER – DO NOT DRINK”.

- gg. IPC Section 608-17 Connections to the Potable Water Systems

Add new subsection 608.17.2.1 to read:

Section 608.17.2.1 essentially nontoxic fluid conditioning chemical.

When the conditioning chemical introduced is an essentially nontoxic transfer fluid the potable supplier to the boiler shall, at a minimum, be equipped with a backflow preventer with an intermediate atmospheric vent complying with ASSE 1012 or CSA B64.3.

- hh. IPC Section 608 Protection of potable water system

Add new subsection 608.17.11 to read:

Section 608.17.11 Connection to graywater system or reclaimed water system

State Plumbing Board

The potable water system connection to a graywater system must be protected against backflow by an air gap or reduced pressure principle backflow prevention assembly.

- ii. IPC Section 701.2 Connection to sewer required

Add exception 2:

Exception 2: Floor drains or trench drains installed in utility buildings and residential garages may be daylighted or discharged to an approved alternative disposal system when written approval has been provided from the jurisdiction having authority through CDPHE or sewer purveyor.

- jj. IPC Section 705.10.2 Solvent cementing

Delete the exception in its entirety.

- kk. IPC Section 706.3. Installation of fittings

Add sentence to end of IPC Section 706.3:

fixture crosses will not be required to meet the exception of IPC Section 706.3

- ll. IPC Table 706.3 Fittings for change of direction

Delete footnotes a and b from the table.

- mm. IPC Section 708.1.3 Building drain and building sewer junction.

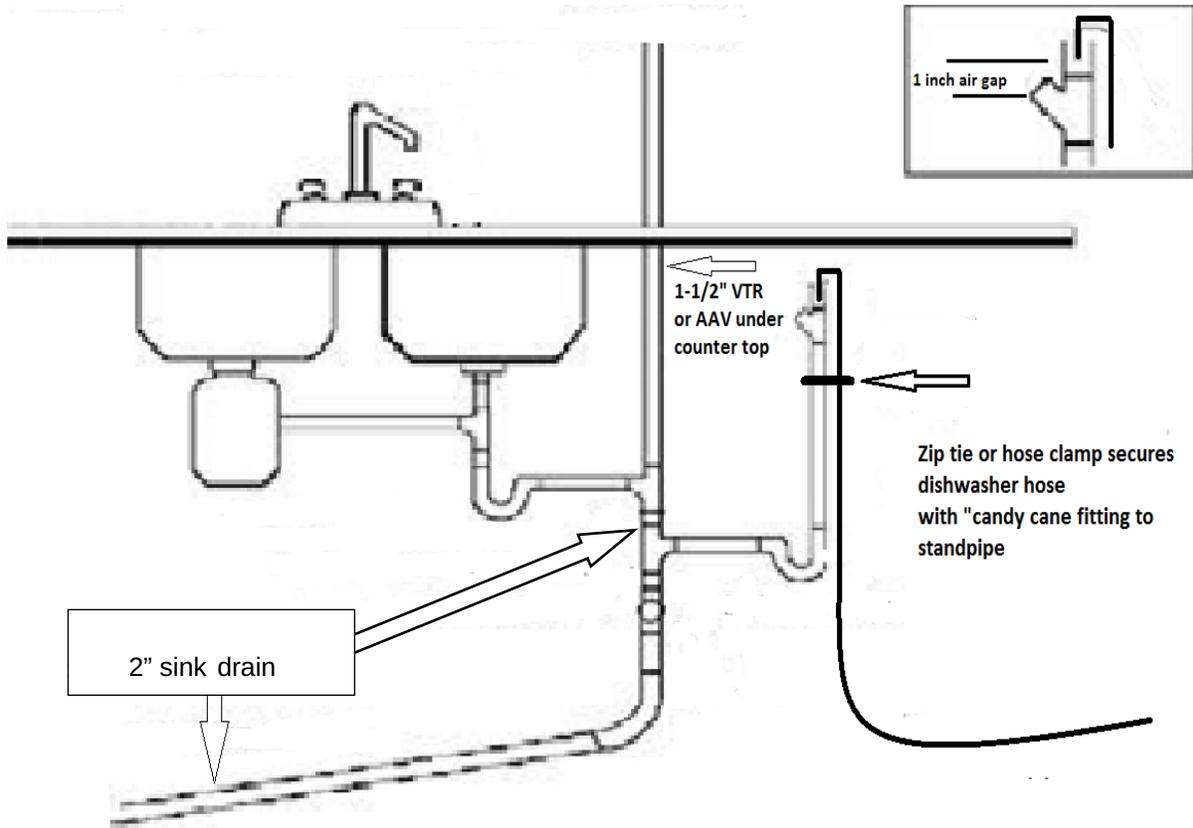

Add new sentence at the end of the section to read:

When the cleanout is installed at the junction of the building drain and building sewer, it shall be an approved two way fitting with a single riser not to exceed 4 feet in depth or a two riser cleanout using back to back combination fittings or equal of schedule 40 material. Cleanouts shall be installed and tested at underground or rough-in in accordance with Section 312.2.

- nn. IPC Section 802.1.8 Domestic dishwashing machines

Add a new section to read:

Domestic dishwashing machines may be connected to a separately trapped stand pipe provided with an air break (with drain hose secured to the underside of the counter top) or air gap as shown in the illustration below. Refer to 2021 IPC 409.4 for additional waste connections.

oo. IPC Section 802.3 Installation

Delete the last sentence

pp. IPC Section 802.4 Waste receptors.

Add new exception to read:

Exception: Where equipment is installed in a crawl space, a waste receptor shall be allowed with an approved backwater valve installed.

qq. IPC Section 903.1.1 Roof extension unprotected

Insert 6 inches into the section so that it reads: "All open vent pipes that extend through a roof shall be terminated at least 6 inches above the roof.

rr. IPC Section 903.1.3 Protected vent terminal

Change wording to read 4 inches instead of 2 inches.

Section 903.1.3 Where an open vent pipe terminates above a sloped roof and is covered by either a roof-mounted panel (such as a solar collector or photovoltaic panel mounted over the vent opening) or a roof element (such as an architectural

State Plumbing Board

feature or a decorative shroud), the vent pipe shall terminate not less than 4 inches (102 mm) above the roof surface.

- ss. IPC Section 903.2 Frost Closure

Delete in its entirety.

- tt. IPC Section 912.1 Horizontal wet vent permitted

Add a new exception to read:

Exception: Fixtures other than those considered to be bathroom group fixtures, of equivalent drainage fixture units, may be included in the wet vented section provided the total number of drainage fixture units does not exceed the total number included in two bathroom groups and the fixtures not considered bathroom fixtures are valued at one drainage fixture unit or less.

- uu. IPC Section 1002.1 Fixture traps

Add new exception 5 to read:

Exception: 5. Trench and floor drains connected to a sand oil interceptor need not be individually trapped provided the drain piping from the trench or floor drains is turned down after entering the interceptor so the discharge point is a minimum of 4 inches below the standing water level of the interceptor.

- vv. IPC Section 1003.1 Where required

Add the following Exception:

Exception: Where special regulations exist by the local waste water and/or sanitation district into which the grease trap or interceptor effluent is transported and/or treated. These regulations may supersede this requirement.

- ww. IPC.1003.2.3 Food waste disposers restriction.

Add exception to read:

When using a gravity interceptor equal to or greater than 500 gallon capacity.

- xx. IPC Section 1101.3 Prohibited drainage

Add a new sentence to the end of the section reading:

Storm water from roof drains shall not discharge over public walkways except when an approved grated trough or trench drain sized to accept the calculated discharge is installed in the walkway. The discharge shall be diverted vertically from a height not greater than 12 inches to the grate.

Exception: Secondary drains.

State Plumbing Board

- yy. IPC Section 1301.2.2 Filtration Required Exception

Modify section 1301.2.2 Exemption reading:

Nonpotable water utilized for water closet and urinal flushing application shall be filtered by a 100-micron or fine filter.

Exception: Reclaimed water sources shall not be required to comply with these requirements. Graywater treatment systems installed in accordance with Section 1302.6.1 do not need to meet additional filtration requirements.

- zz. IPC Section 1301 General

Add new section 1301.3.1 reading:

1301.3.1. Distribution pipe labeling and marking

Nonpotable distribution piping shall comply with Section 608.8.2 as amended in Rule 1.2(E)(1)(u).

- aaa. IPC Section 1301.3.2 Signage required graywater treatment works.

Add section new section 1301.3.2 reading:

For each room that contains graywater treatment works components, a sign that says "CAUTION GRAYWATER TREATMENT WORKS, DO NOT DRINK, DO NOT CONNECT TO THE POTABLE DRINKING WATER SYSTEM. NOTICE: CONTACT BUILDING MANAGEMENT BEFORE PERFORMING

ANY WORK ON THIS WATER SYSTEM" must be posted on any door providing entrance to the room.

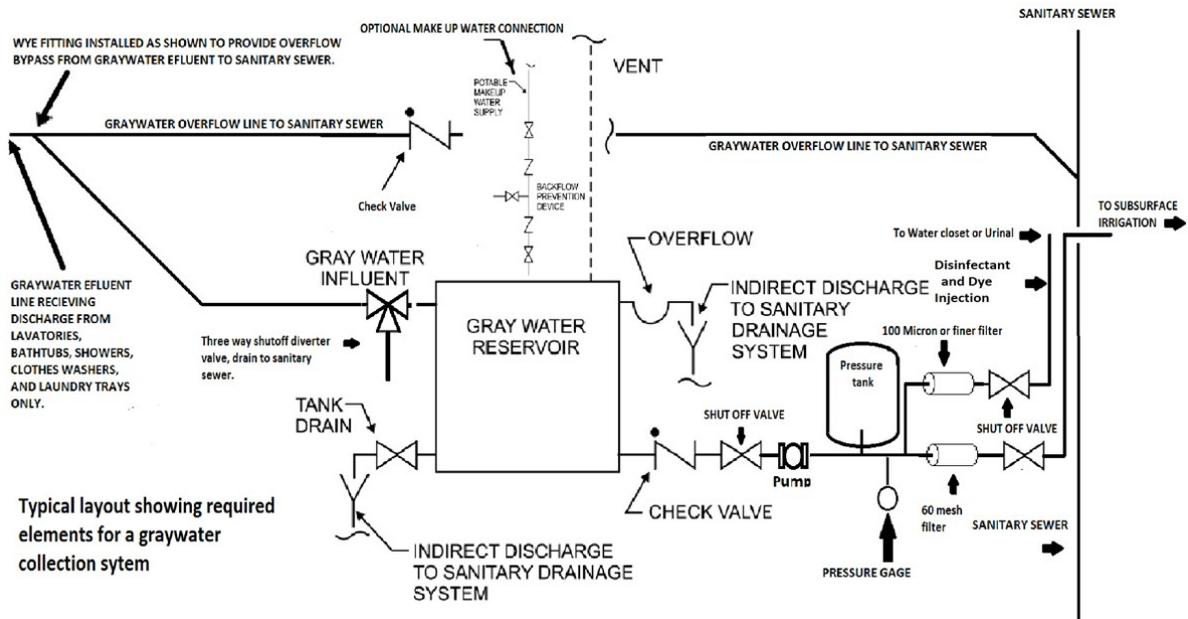

- bbb. IPC Section 1301 General

Add new figure 1301.4

1301.4 Typical Graywater Collection System

(This figure is typical only, not a schematic)

State Plumbing Board

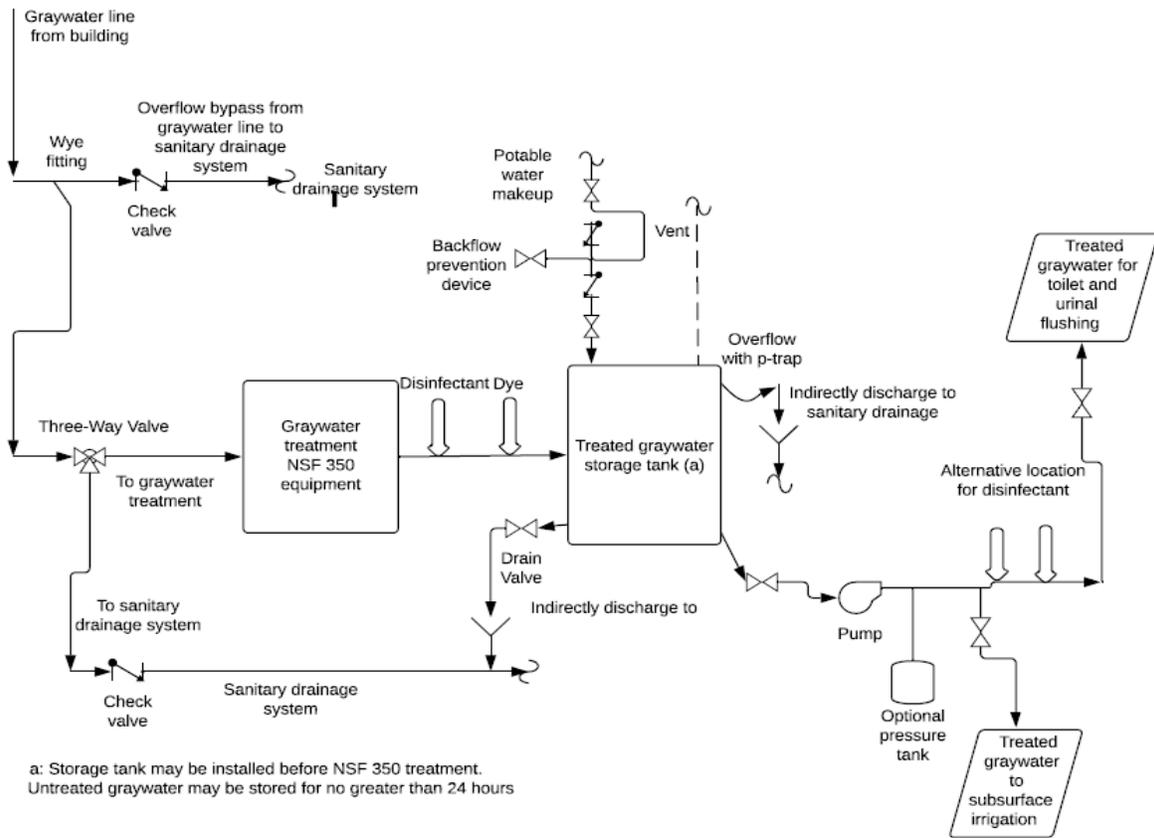

Typical layout showing required elements for a graywater collection system

ccc. IPC Section 1301 General

Add new figure 1301.5

1301.5 Typical graywater system for toilet and urinal flushing

State Plumbing Board

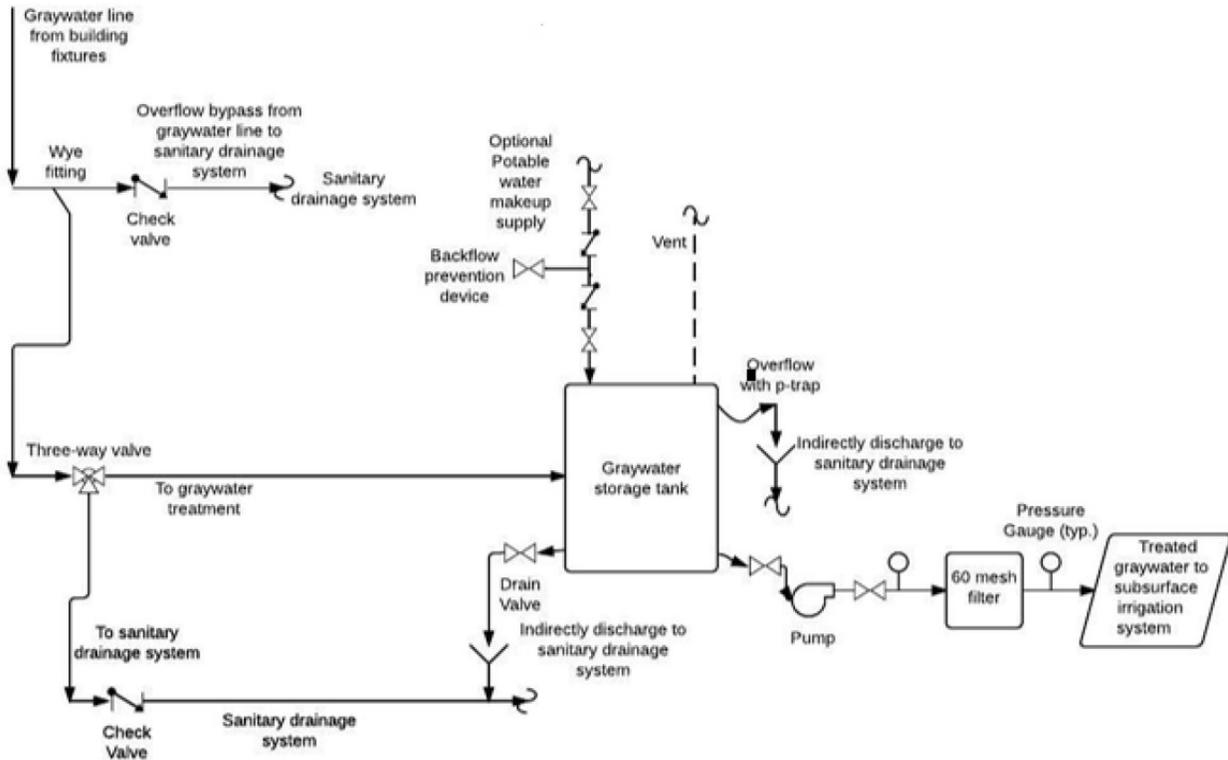

State Plumbing Board

ddd. IPC Section 1301 General

Add new figure 1301.6

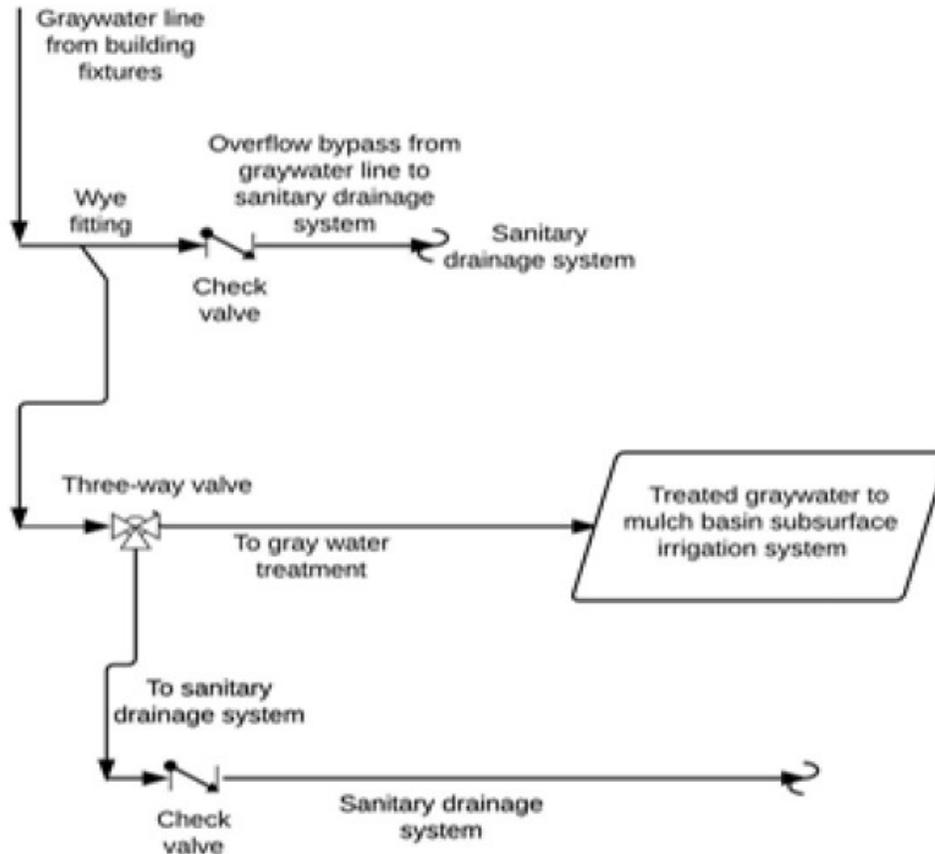

1301.6 Typical graywater system for disbursed subsurface irrigation system

eee. IPC Section 1301 General

Add new figure 1301.7

1301.7 Typical graywater system for mulch basin subsurface irrigation

fff. IPC Section 1301.9.2 Materials Exception Add section

1301.9.2 Exemption reading:

Exemption. Tanks are not required if the graywater use is comprised of only subsurface irrigation and flows into a mulch basin system, where the mulch basin volume is three times the anticipated average daily flow.

ggg. IPC Section 1301.9.5 Overflow

Delete the section verbiage and replace with:

The storage tank shall be equipped with an overflow pipe having a diameter not less than that shown in Table 606.5.4. The overflow pipe shall be protected from insects or vermin. The overflow drain shall not be equipped with a shutoff valve

State Plumbing Board

and shall discharge into the sanitary sewer either directly, or indirectly with a trap in the drain line to keep odors from escaping the tank. A cleanout shall be provided on each overflow pipe in accordance with Section 708.

hhh. IPC Section 1301.9.8 Draining of tanks

Delete the text "shall discharge as required for overflow pipes and". Replace it with: shall discharge into the sanitary sewer either directly, or indirectly with a trap in the drain line to keep odors from escaping the tank

iii. IPC Section 1301.11 Trenching Requirements

Delete in its entirety.

jjj. IPC Section 1301.12 Outdoor Outlet Access

Delete in its entirety.

kkk. IPC Section 1302.1 General

Add a sentence to the end of the section saying:

All plumbing systems utilizing nonpotable water reuse systems shall have a reduced pressure backflow preventer device installed at the water service entrance immediately downstream of the building water service shut off valve.

III. IPC Section 1302.5 Filtration

Add a new sentence to the end of the section saying:

1302.5 Filtration: Graywater used for dispersed subsurface irrigation system requires a cartridge filter. The cartridge filter must be a minimum of sixty mesh located between the storage tank and the irrigation system.

Exemption. Filtration is not required for mulch basin subsurface irrigation systems.

mmm. IPC Section 1302.6.1 Graywater used for fixture flushing

Add a new sentence to the end of the section reading:

Graywater used for toilet and urinal flushing shall be dyed with blue or green food grade vegetable dye and be visibly distinct from potable water.

nnn. IPC Section 1302.7.3 Overflow

Add a new Section 1302.7.3 that reads:

1302.7.3 Overflow. Storage tank for on-site nonpotable systems must include an overflow line without a shut off valve. The overflow line shall be connected to the

State Plumbing Board

sanitary sewer indirectly. The overflow line must be the same or larger diameter line than the tank influent line. The overflow line connected indirectly must be trapped to prevent the escape of gas vapors from the tank

ooo. IPC Section 1302.7.4 Venting

Add a new Section 1302.7.4 that reads:

1302.7.4 Venting. Storage tank for on-site nonpotable systems must be vented. Indoor tanks must be vented to the atmosphere outside the building or connected to the plumbing vent system.

ppp. IPC Section 1302.7.5 Tank Drains

Add a new Section 1302.7.5 that reads:

1302.7.5 Tank Drains. Storage tank for on-site nonpotable systems must include a valved drain. The drain shall be indirectly connected to the sanitary sewer. The tank drainline must be the same or larger diameter line than the tank influent line.

qqq. IPC Section 1302.8.1 Bypass Valve

Change the section heading and section verbiage to read:

Section 1302.8.1 System Bypass

Delete the section verbiage and replace with:

One three-way diverter valve listed and labeled to NSF 50 or other approved device shall be installed on collection piping upstream of any graywater treatment equipment, as applicable, to divert untreated on-site reuse sources to the sanitary sewer to allow servicing and inspection of the system. Bypass valves shall be installed downstream of fixture traps and vent connections. Bypass valves shall be marked to indicate the direction of flow, connection graywater treatment works, storage tank and graywater subsurface irrigation systems. Bypass valves shall be installed in accessible locations. Two shutoff valves shall not be installed to serve as a bypass valve. In addition to the bypass valve a series of drainage fittings shall be installed in the collection piping upstream of the bypass valve in a configuration that will allow the graywater from the plumbing fixtures to automatically flow directly into the sanitary sewer system in the event the filter or other parts of the collection system become clogged to the point of not allowing the effluent free flow through the system. The overflow line connected to the sanitary sewer shall be equipped with a backwater valve.

rrr. IPC Section 1303 Nonpotable rainwater collection and distribution systems

Delete in its entirety.

sss. IPC Chapter 14 Subsurface landscape irrigation systems

State Plumbing Board

Delete in its entirety.

2. Revisions and Exceptions to the International Residential Code Part VII incorporated as the Colorado Plumbing Code

- a. IRC Section 105.1 Required

Add exception reading:

Exception: Where emergency plumbing is performed, the required permit may be obtained the following business day after the work has been started (i.e., broken water lines, broken drain lines, water heater replacements).

- b. IRC Section R202 Definitions

Add new definition to read as follows:

Multipurpose Residential Fire Sprinkler System. A Multipurpose Residential Fire Sprinkler System includes the domestic water distribution piping and the fire sprinkler piping which shall be a part of and connect to the cold water distribution piping at any point.

- c. IRC Section R202 Definitions

Add new definitions to read:

Direct Supervision. Direct supervision means that the supervising licensed master plumber, journeyworker plumber, or residential plumber is physically present at the same physical addresses listed on the permits and where the apprentice is working or no more than five minutes distance from the apprentice within the same construction or job sites.

- d. IRC Section R202 Definitions

Add new definition to read as follows:

Trap drain. That portion of horizontal piping between the weir of a trap and the point where it intersects with its vent.

- e. IRC Section R202 Definitions

Delete the definition and replace with:

Fixture drain. That portion of a plumbing drainage system that connects the trap drain to any other drain pipe receiving the discharge from one or more plumbing fixtures.

- f. IRC Section R202 Definitions

Add new definition to read as follows:

State Plumbing Board

Manufactured Housing Hookup-Sewer. That portion of drainage piping and fittings connecting a single point of drainage pipe discharge from the factory installed plumbing of a manufactured home to the sanitary sewer riser under the set home. (More than a single connection to the home drainage piping shall be considered “plumbing” as defined in section 12-155-103, C.R.S., and subject to all provisions of Article 155 of Title 12).

- g. IRC Section R202 Definitions

Add new definition to read as follows:

Manufactured Housing Hookup-Water. That portion of piping and fittings connecting a single point of water supply from the factory installed water supply pipe of a manufactured home to the potable water riser under the set home.

- h. IRC Section 202 Definitions

Delete the definition and replace with:

Reclaimed Water. Domestic wastewater that has received secondary treatment by a domestic wastewater treatment works (centralized system or a localized system) and such additional treatment as to enable the wastewater to meet the standards for approved uses.

- i. IRC Section P2503.5.1 Rough Plumbing

Delete the words “for piping systems other than plastic”.

- j. IRC Section P2503.6 Shower liner test

Delete in its entirety.

- k. IRC Section P2503.7 Water supply system testing

Delete the words “for piping systems other than plastic”

- l. IRC Section P2503.5.2 Finished plumbing.

Delete 2, 2.1, and 2.2

- m. IRC Section P2601.2 Connection to drainage system

- n. IRC Section P2605.2 Thermal expansion tanks.

Add new section P2605.2 to read:

P2605.2 Thermal expansion tanks. A thermal expansion tank shall be supported in accordance with the manufacturer’s instructions. Thermal expansion tanks shall not be supported by the piping that connects to such tanks.

State Plumbing Board

- o. IRC Section P2603.3 Protection against corrosion.

Delete section in its entirety and replace with:

IRC P2603.3 Protection against corrosion. Piping except for, for cast iron, ductile iron, and galvanized steel shall not be placed in direct contact with steel framing members. Piping shall not be placed in direct contact with concrete or cinder walls and floors, other masonry, and corrosive soil. Where sheathing is used to prevent direct contact, the sheathing shall have a thickness of not less than .025 inch (.64 mm). Where sheathing protects piping that penetrates concrete or masonry walls or floors, the sheathing shall be installed in a manner that allows movement of the piping within the sheathing.

- p. IRC Section P2705.1 General

Add new exception to read:

Exception for remodels only: Lavatory clearance from its center to any sidewall or partition may be reduced to a minimum of twelve inches.

- q. **IRC P2706.1** General (waste receptors)

Add new exception to read:

Exception: Where equipment is installed in a crawl space, a waste receptor shall be allowed with an approved backwater valve installed.

- r. IRC Section P2708.5 Shower head location

Add new section P2708.5 to read:

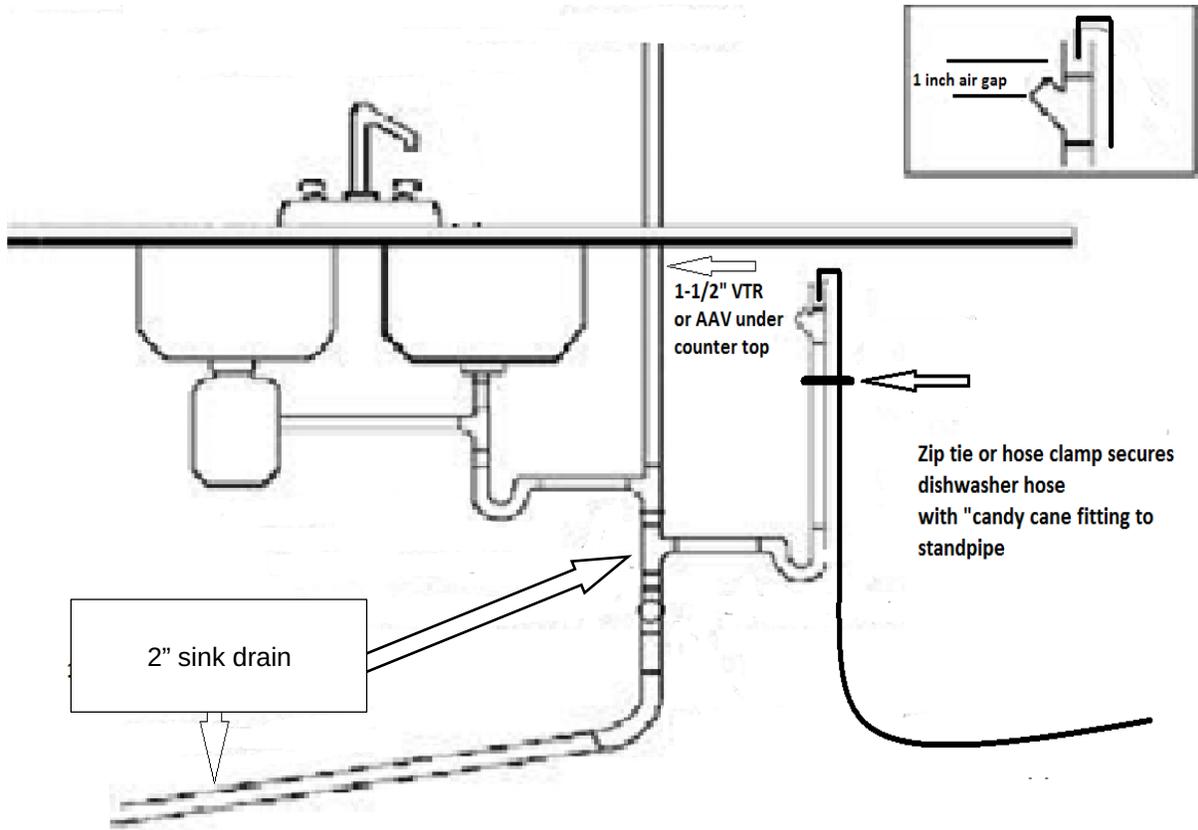

P2708.5 Shower head location. Shower heads shall be so located on the sidewall of shower compartments or be arranged so the shower head does not discharge directly at the entrance to the compartment and the bather can adjust the valve prior to stepping into the shower spray.

- s. IRC Section P2717.3 Dishwasher drain

Add new section to read:

IRC Section P2717.3 Dishwasher drain. Dishwashers may drain into a standpipe complying with Section P2706.2 as shown in the following illustration. The standpipe shall be provided with an air break (with drain hose secured to the underside of the counter top) or air gap as shown in the illustration below.

State Plumbing Board

- t. IRC Section P2801.6 Required pan.

Add new exception to read:

Exception: Replacements for water heaters that did not have a pan previously installed due to code in force at the time of installation.

- u. IRC Section P2803.6.2 Collection of Relief Valve Discharge

Add new section P2803.6.2 to read:

P2803.6.2 Collection of Relief Valve Discharge. A means shall be provided to capture the discharge from a relief valve and convey it to the sanitary drainage system or exterior of the structure either by gravity or a pumped discharge.

Exceptions:

- (1) Replacements for existing water heaters.

State Plumbing Board

(2) Where a water sensing device wired to a normally closed solenoid valve installed in the water supply piping to the heater, is placed within the water heater drain pan.

- v. IRC Section P2803.6.2.1 Pumped discharge of relief valve collection

Add new Section P2803.6.2.1 to read:

P2803.6.2.1 Pumped discharge of relief valve collection. Pumps used to discharge the clear water collection of relief valves shall have an operating temperature equal to or exceeding that of the relief valve discharge temperature and shall have a gpm rating equal to or greater than the discharge of the relief valve.

- w. IRC Section P2901.1 Potable water required

Delete the last sentence of the section.

- x. IRC Section P2901.1.2.1 Signage required

Delete the section in its entirety and replace with:

Plumbing fixtures flushed with nonpotable water shall be identified with signage that reads as follows:

“Nonpotable water is used to flush this fixture. CAUTION: NONPOTABLE WATER – DO NOT DRINK.”

In addition to the required wordage, the pictograph shown in figure P2901.2.1 shall appear on the required signage.

- y. IRC New Section P2901.1.2.4

Add new Section P2901.1.2.4 to read:

Graywater used for toilet and urinal flushing shall be dyed with blue or green food grade vegetable dye and be visibly distinct from potable water.

- z. IRC Section P2901.2.2 Distribution pipe labeling and marking

Delete the section verbiage and replace with:

Nonpotable distribution piping shall be purple in color or the piping shall be installed with a purple identification tape or wrap the entire length of the piping and shall be embossed, or integrally stamped or marked, with the words: “CAUTION: NONPOTABLE WATER – DO NOT DRINK”.

- aa. IRC Section P2902.5 Protection of potable water connections

Add new subsection P2902.5.1.1 to read:

State Plumbing Board

Section P2902.5.1.1 Essentially nontoxic fluid conditioning chemical.

When the conditioning chemical introduced is an essentially nontoxic transfer fluid the potable supplier to the boiler shall, at a minimum, be equipped with a backflow preventer with an intermediate atmospheric vent complying with ASSE 1012 or CSA B64.3.

- bb. IRC New Section P2902.5.6 Protection of potable water system

Add new subsection P2902.5.6 to read:

Section P2902.5.6 Connection to graywater system or reclaimed water system

The potable water system connection to a graywater system or reclaimed water system must be protected against backflow by an air gap or reduced pressure principle backflow prevention assembly.

- cc. IRC Section P2903.9.1 Service valve.

Delete the words "with provision for drainage such as a bleed orifice or installation of a separate drain valve"

- dd. IRC Section P2904 General

Delete in its entirety and replace with:

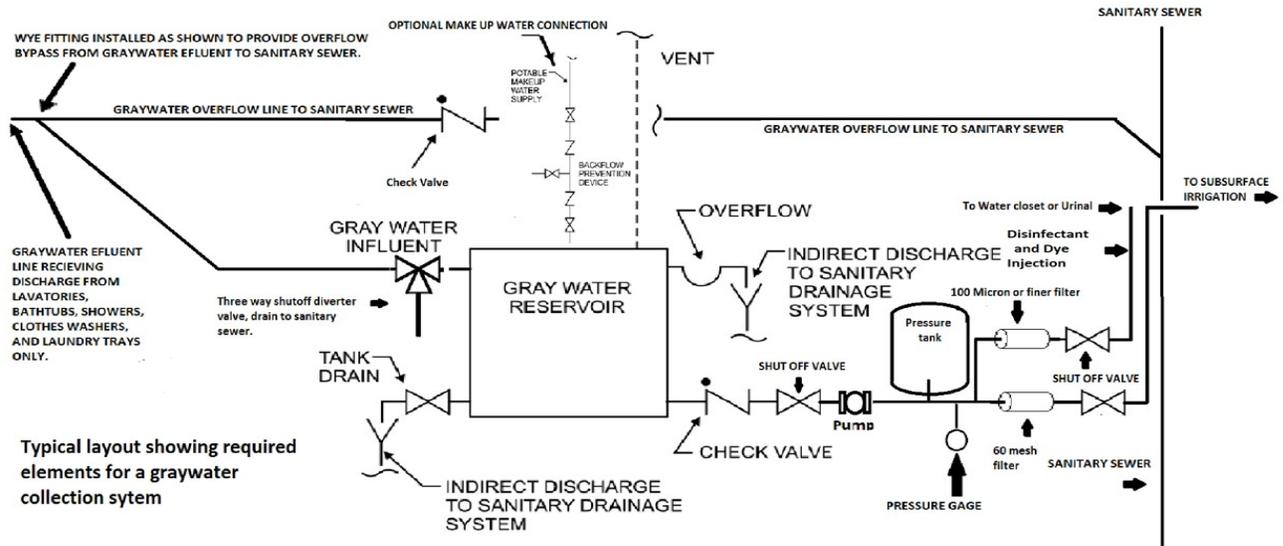

P2904.1 General. Where installed, residential fire sprinkler systems, or portions thereof, shall be in accordance with NFPA 13D or Section P2904, which shall be considered equivalent to NFPA 13D. Section P2904 shall apply to multipurpose wet-pipe sprinkler systems that do not include the use of antifreeze. A multipurpose fire sprinkler system shall supply domestic water to both fire sprinklers and plumbing fixtures. A backflow preventer shall not be required to separate the sprinkler system from the water distribution system.

- ee. IRC Section P2910 Graywater Recycling Systems

Add new Figure P2910.4 Typical Graywater Collection system.

(This figure is typical only, not a schematic)

State Plumbing Board

Typical layout showing required elements for a graywater collection system

- ff. IPC Section 2910.1 Scope

Add a sentence to the end of the section saying:

All plumbing systems utilizing nonpotable water reuse systems shall have a reduced pressure backflow preventer device installed at the water service entrance immediately downstream of the building water service shut off valve.

- gg. IRC Section P2910.2.2 Filtration Required Exception

Modify section Exemption to read:

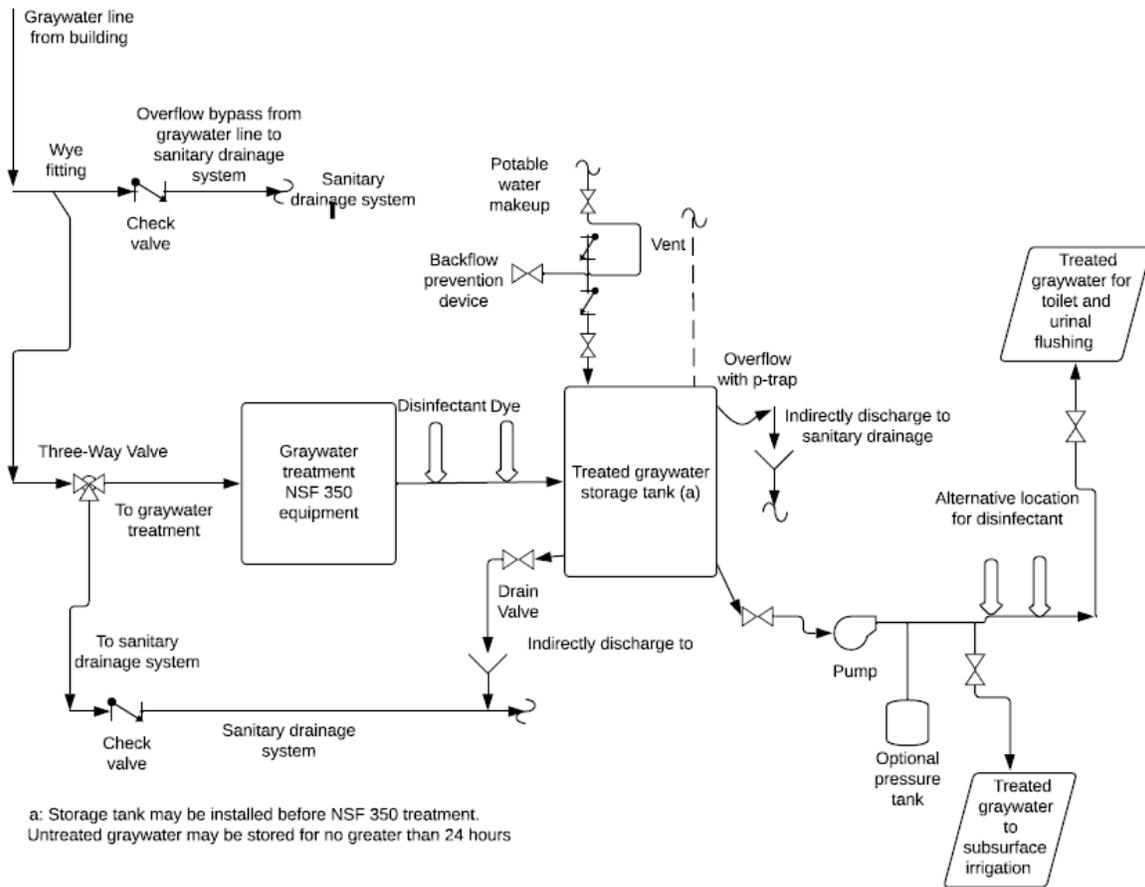

P2910.2.2 Filtration Required. Nonpotable water utilized for water closet and urinal flushing application shall be filtered by a 100-micron or fine filter.

Exception: Reclaimed water sources shall not be required to comply with these requirements. Graywater treatment systems installed in accordance with Section P2911.6.1 do not need to meet additional filtration requirements.

State Plumbing Board

hh. IRC Section P2910 Graywater recycling systems

Add new figure Section 2910.5

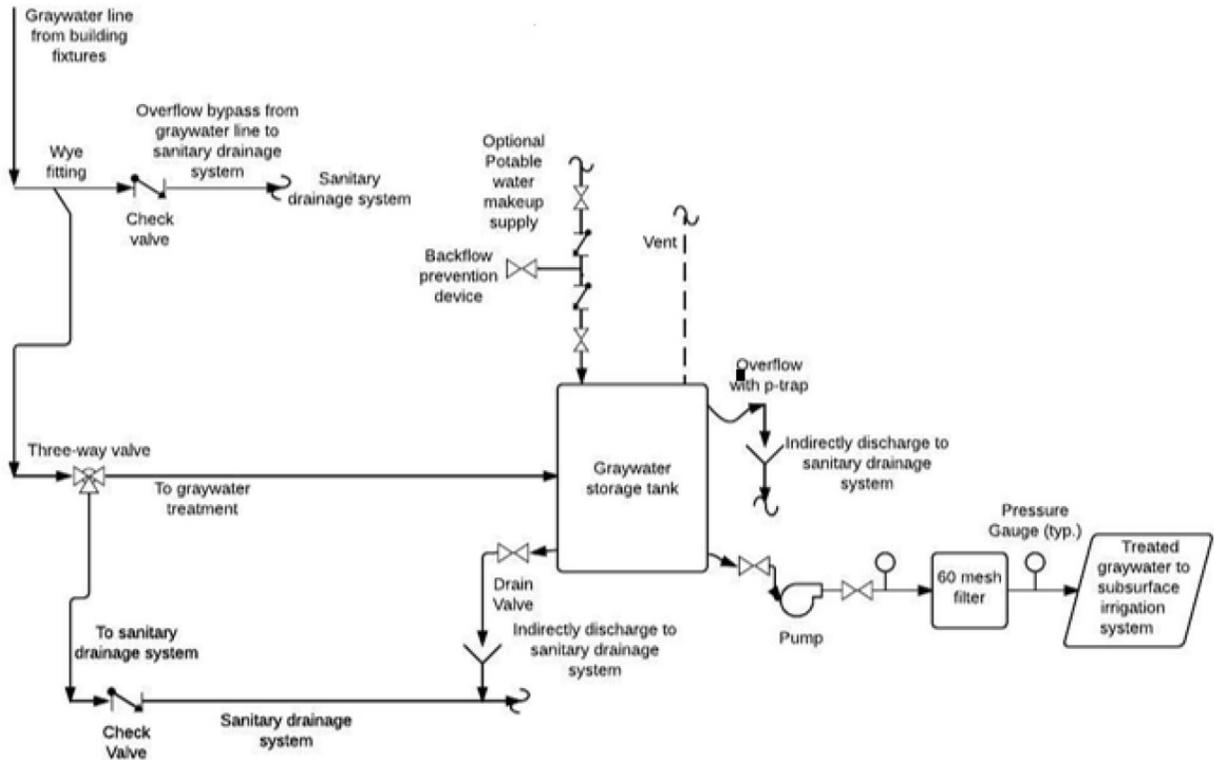

State Plumbing Board

ii. IRC Section P2910 Graywater recycling systems

Add New Figure Section 2910.6

2910.6 Typical graywater system for disbursed subsurface irrigation system

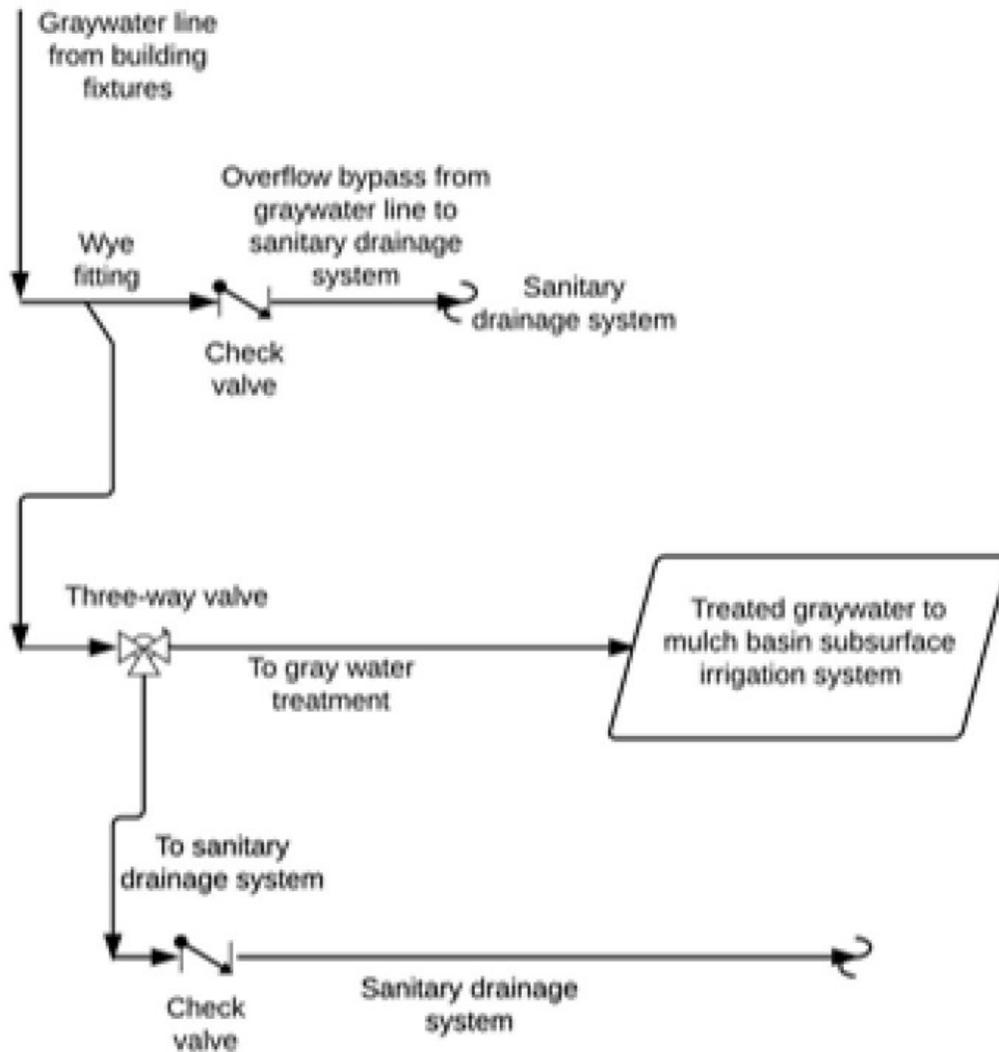

State Plumbing Board

jj. IRC Section P2910 General

Add new figure Section 2910.7

2910.7 Typical graywater system for mulch basin subsurface irrigation

kk. IRC Section 2910.9.3 Materials

Add section Exemption to read:

Exemption. Tanks are not required if the graywater use is comprised of only subsurface irrigation and flows into a mulch basin system, where the mulch basin volume is three times the anticipated average daily flow.

State Plumbing Board

II. IRC Section 2911.5 Filtration

Delete the section in its entirety and replace with:

P2911.5.1 Filtration. Graywater used for dispersed subsurface irrigation system requires a cartridge filter. The cartridge filter must be a minimum of sixty mesh located between the storage tank and the irrigation system. If a pump is being used to pressurize the graywater distribution system the filter must be located after the pump. Filters shall be accessible for inspection and maintenance. Filters shall utilize a pressure gauge or other approved method to provide indication when a filter requires servicing or replacement. Filters shall be installed with shutoff valves immediately upstream and downstream to allow for isolation during maintenance.

Exemption. Filtration is not required for mulch basin subsurface irrigation systems.

mm. IRC Section P2911.7.6 Overflow

Add a new Section P2911.7.6 that reads:

P2911.7.6 Overflow. Storage tank for on-site nonpotable systems must include an overflow line without a shut off valve. The overflow line shall be connected to the sanitary sewer indirectly. The overflow line must be the same or larger diameter line than the tank influent line. The overflow line connected indirectly must be trapped to prevent the escape of gas vapors from the tank.

nn. IRC Section P2911.7.4 Venting

Add a new Section P2911.7.4 that reads:

P2911.7.4 Venting. Storage tank for on-site nonpotable systems must be vented to the atmosphere or connected to the plumbing system vent piping.

oo. IRC Section P2911.7.5 Draining of tanks

Add a new Section P2911.7.5 that reads:

P2911.7.5 Draining of tanks. Storage tank for on-site nonpotable systems must include a valved drain. The drain line shall be connected to the sanitary sewer either directly or indirectly. The tank drain line must be the same or larger diameter line than the tank influent line.

pp. IRC Section P2911.8.1 Bypass valve

Section P2911.8.1 System Bypass

Delete the section verbiage and replace with:

One three-way diverter valve listed and labeled to NSF 50 or other approved device shall be installed on collection piping upstream of any graywater treatment equipment, as applicable, to divert untreated on-site reuse sources to the sanitary sewer to allow servicing and inspection of the system. Bypass valves shall be installed downstream of fixture traps and vent connections. Bypass valves shall be marked to indicate the direction of flow, connection to graywater treatment works, storage tank and graywater subsurface irrigation system.. Bypass valves shall be installed in accessible locations. Two shutoff valves shall not be installed to serve as a bypass valve. In addition to the bypass valve a series of drainage fittings shall be installed in the collection piping upstream of the bypass valve in a configuration that will allow the graywater from the plumbing fixtures to automatically flow directly into the sanitary sewer system in the event the filter or other parts of the collection system become clogged to the point of not allowing the effluent free flow through the system. The overflow line connected to the sanitary sewer shall be equipped with a backwater valve.

qq. IRC Section 3001.1 General

Add exception 1:

Exception 1: Floor drains or trench drains may be allowed to be daylighted or discharged to an approved alternative disposal system when written approval has been provided from the jurisdiction having authority.

rr. IRC Section P3003.9.2 Solvent cementing

Delete wording, "or other approved primer" and delete exception in its entirety.

ss. IRC Table P3005.1 Fittings for changes in direction

tt. IRC Section P3005.2.3 Building drain and building sewer junction.

Add new sentence at the end of the section to read:

When the cleanout is installed at the junction of the building drain and building sewer, It shall be an approved two way fitting with a single riser not to exceed 4 feet in depth or a two riser cleanout using back to back combination fittings of schedule 40 material. Cleanouts shall be installed and tested at underground or rough-in in accordance with Section 312.2.

uu. IRC Section P3008.1 Where required (backwater valves)

State Plumbing Board

Delete section in its entirety and replace with:

Backwater valves shall be installed where waste receptors are located in a crawl space for the purpose of receiving condensate discharge from equipment located in that crawl space. Refer to new exception for 802.4

- vv. IRC Section P3009 Graywater soil absorption systems

Delete in its entirety.

- ww. IRC Section P3103.1.3 Protected vent terminal

Change wording to read 4 inches instead of 2 inches.

Section P3103.1.3 Where an open vent pipe terminates above a sloped roof and is covered by either a roof-mounted panel (such as a solar collector or photovoltaic panel mounted over the vent opening) or a roof element (such as an architectural feature or a decorative shroud), the vent pipe shall terminate not less than 4 inches (102 mm) above the roof surface.

- xx. IRC Section P3103.2 Frost closure

Delete in its entirety.

- yy. IRC Section P3108.1 Horizontal wet vent permitted

Add a new exception to read:

Exception: Fixtures other than those considered to be bathroom group fixtures, of equivalent drainage fixture units, may be included in the wet vented section provided the total number of drainage fixture units does not exceed the total number included in two bathroom groups and the fixtures not considered bathroom fixtures are valued at one drainage fixture unit or less.

3. Revisions and exceptions to the International Fuel Gas Code incorporated as the Colorado Fuel Gas Code

- a. IFGC Section 101.1 Title

Delete in its entirety.

- b. IFGC Section 101.2.2 Piping Systems

Delete the words "and maintenance" from the end of the last sentences.

- c. IFGC Section 101.2.4 Systems, appliances and equipment outside the scope.

Delete 13 from the list.

- d. IFGC Section 303.3. Prohibited locations

State Plumbing Board

Delete the words "toilet rooms" from the section.

- e. IFGC Section 403.10.5 Welded joints

Add new section 403.10.5 to read:

403.10.5 Welded Joints. Welded joints shall be performed by a person holding a valid certificate of competency based on the requirements of the ANSI/ASME Boiler and Pressure Vessel Code, Section IX, Brazing and Welding Qualifications. Welded joints shall comply with ASTM 139.

- f. IFGC Section 404.14.1 Conduit with one end terminating outdoors

Delete in its entirety.

- g. IFGC Section 405.3 Plastic Pipe

New addition to read:

3. The radius of the inner curve of such bends shall be not less than 25 times the inside diameter of the pipe or in accordance with the manufacturer's instructions.

- h. IFGC Section 406.1 Inspection, Testing, and Purging

Add a new sentence to the end of the section reading:

Inspection and pressure testing shall apply to all temporary installations connected to a primary or temporary fuel gas source, natural or LP gas, for the purpose of supplying temporary heat.

- i. IFGC Section 409.5.3 Located at manifold

Delete in its entirety.

- j. IFGC 409.6 Shutoff valve for laboratories

Add new subsection 409.6.1 to read

409.6.1 Electric Solenoid Valve. A remotely located electric solenoid emergency shutoff valve may be used for compliance to Section 409.6, when all the following requirements are met.

- (1) The emergency control shutoff "panic button" shall be readily accessible, located within the laboratory space served, adjacent to the egress door from the space and shall be identified by approved signage stating "Gas Shutoff".
- (2) The gas solenoid valve shall be a "normally closed" type valve with a manual reset.

State Plumbing Board

- k. IFGC Section 411.1.1~~1~~ Connecting appliances

~~Add additional line (10):~~

10. Gas turrets for use in school or laboratory science rooms can be considered an appliance and may be allowed to be connected by an approved appliance connector in accordance with ANSI Z21.24 that is installed downstream of a shutoff valve as approved in Section 409.

- l. IFGC Section 503.4.1 Plastic Piping,

~~Add new sentence to the end of the section saying:~~

Where installed as an exhaust vent for a gas fired water heater, the new plastic pipe shall be tested with 5 psi air pressure or 10 ft. head water column at the time of inspection prior to being connected to the water heater.

Engineered UL-1738 vent systems do not require the pressure test as long as they are properly installed per the manufacturer's instructions.

4. Revisions and exceptions to the International Residential Code Chapter 24 Fuel Gas incorporated as the Colorado Fuel Gas Code

- a. IRC Section G2414.10.5 Welded joints

Add new section G2414.10.5 Welded joints to read:

Welded joints. Welded joints shall be performed by a person holding a valid certificate of competency based on the requirements of the ANSI/ASME Boiler and Pressure Vessel Code, Section IX, Brazing and Welding Qualifications. Welded joints shall comply with ASTM 139.

- b. IRC 2415.14.1 Conduit with one end terminating outdoors

Delete in its entirety.

- c. IRC Section G2420.5.3 (Shutoffs) Located at manifolds

Delete in its entirety.

- d. IRC G2427.4.1 Plastic Piping,

Add new sentence to the end of the section saying:

Where installed as an exhaust vent for a gas fired water heater, the new plastic pipe shall be tested with 5 psi maximum air pressure at the time of inspection prior to being connected to the water heater.

State Plumbing Board

1.3 APPRENTICES REGISTRATION AND RECORDKEEPING

A. Registration

1. The Board may require the supervising plumbing contractor of a plumbing apprentice to provide information verifying the apprentice's record of employment and practical experience, including but not limited to a written attestation from the responsible master plumber verifying that the apprentice has been performing plumbing work during any period the apprentice was not registered. Supervising plumbing contractor of apprentices shall cooperate with any request from the Board pursuant to this Rule and furnish such information or assistance as the Board may request.
2. An individual that holds an active residential plumber's license and is working on a commercial job site must be registered as an apprentice.
3. An employer who fails to timely register an apprentice within 30 days or less of employment as required by section 12-155-108(2)(a), C.R.S., and this Rule shall be subject to disciplinary action pursuant to sections 12-155-113(1) and 12-20-404, C.R.S.
4. An employer who fails to inactivate an apprentice from their company's registration within 30 days of termination of employment shall be subject to the same disciplinary action as Board Rule 1.3(A)(3) above.

B. **Recordkeeping.** ~~Supervising plumbing contractors shall maintain employment records or work reports for their individuals apprentices under their supervision in order to provide experience verification. Such records or reports shall accurately document the number of hours and months the individual apprentice performed plumbing work as defined by section 12-155-103, C.R.S., and should specifically reflect: and shall specifically reflect exact dates of employment. These records shall be provided to the apprentice upon his/her request and termination or resignation of an apprentice.~~

1. Exact dates of employment

2. Number of hours and months of residential plumbing experience; and,

3. Number of hours and months of commercial or industrial plumbing experience

C. Plumbing Contractors shall provide an experience verification form prepared and furnished by the Board within 30 days of their termination or resignation, and upon request indicated in Board Rule 1.3(B).

DE. Exemption for Apprentice Required to Exam. Apprentices seeking exemption to the requirements of section 12-155-124(4), C.R.S., must meet the following criteria established in accordance with section 12-155-124(4)(a)(II), C.R.S., which requires circumstances that justify the exemption.

1. An apprentice deployed to serve in the United States Military in accordance with military orders may be granted exemption to the examination requirements of section 12-155-124(4)~~12-115-115(4)~~, C.R.S.

State Plumbing Board

- a. Apprentice must meet the examination attempt requirements within the statute.
- b. A request, including supporting evidence and documentation for Board consideration, must be submitted at least 15 days prior to deployment.
 - (1) Acceptable evidence of deployment include but may not be limited to the following documentation that must clearly state the date and length of deployment, and be issued by the United States Military.
 - (a) Copy of Deployment Orders;
 - (b) Report or letter from a senior officer; and/or
 - (c) Other military evidence of deployment.
 - (2) Special consideration of timely submission may be given with evidence of short notice deployment.

2. Exemption will be applied:

- a. When calculating the years of apprentice registration that requires an examination per the statute;
- b. For the actual time the apprentice is deployed and actively registered as an apprentice with the Board; and
- c. So that times of deployment that may disadvantage the apprentice may not be counted.

ED. Direct Supervision. Direct Supervision of apprentices is defined within Board Rules, sections 1.2(E)(1)(c) and (2)(c).

1.4 APPLICATIONS AND LICENSING

A. Applications for License or Registrations.

- 1. **Submission.** All applications for licensure or registrations shall be submitted to the Division of Professions and Occupations. Candidates must pass the required examination(s) before submitting an application to the Board with the required experience and education.
- 2. **Incomplete Application.** An application for a license by examination or endorsement or a registration submitted without all required fees and documentation will be considered incomplete. Incomplete applications will be retained for one year from the date originally received, after which applicants shall begin the process again including payment of the application fee.
- 3. **Documentation for Plumbing License.** Any applicant for the residential, journeyman, or master plumber's license shall furnish evidence as to his or her training and experience to qualify for licensure by: Applicants shall provide documented written evidence of all in

State Plumbing Board

~~state and out of state experience on experience verification forms prepared and furnished by the Board which shall include all of the following:~~

- ~~a. A record of employment and/or as an apprentice doing plumbing work, exact dates so employed, and, at time of application, submission of original documented written evidence, verified by the master license holder or registered plumbing contractor.~~
- ~~b. If training and experience were obtained outside the State of Colorado, the applicant shall provide the Board with documented, written evidence verified by the employer of actual work performed.~~
 - ~~a. Exact dates of employment.~~
 - ~~b. Breakdown of plumbing work performed in:
 - ~~(1) Commercial, residential and industrial; and,~~
 - ~~(2) Increments of hours and months.~~~~
 - ~~c. Signature of the master plumber for, or a signatory authority of, the plumbing contractor, or employer.~~
- c. If training and experiences were obtained all or in part from an accredited high school vocational technical training course, community college, or trade school program, a transcript from the accredited high school vocational technical training course, community college or trade school verifying completion of the program shall be submitted with the application. The program length shall be a minimum of two years. Such education may replace actual field experience under a licensed master as follows: one hour of classroom training equals one hour of on the job training up to a maximum of one year, with 2000 hours equaling one year.
- d. If training and experiences were obtained all or in part from military training in plumbing work, detail and submit such for evaluation with the application. Such experience may replace actual field experience under a licensed master as follows: one month for every six months' training or experience up to a maximum of one year.
- e. The hours of practical experience required to qualify for licensure are:
 - (1) Residential Plumber 3,400
 - (2) Journeyworker Plumber 6,800
 - (3) Master Plumber 8,500
- f. Applicants cannot verify their own experience.

State Plumbing Board

4. **Documentation for Water Conditioning Installer, Principal, or Contractor.** Any applicant for registration shall furnish evidence upon request as to his or her training and experience to qualify for registration.
- a. Water Conditioning Installer.
- (1) Any applicant for a water conditioning installer registration shall possess the following qualifications and experience:
- (a) Knowledge of water quality, water quality issues, and problems common to water sources.
 - (b) Knowledge of the analysis and treatment of water for impurities, water softening, drinking water options, reverse osmosis and water filtration.
 - (c) Knowledge of common water treatment system operations, including water softening, reverse osmosis, and water filtration.
 - (d) Knowledge of hydraulics fundamentals including plumbing distribution system operations, pressure loss and cross connections, effects on public safety, flow rates, and code requirements for safe drainage.
 - (e) Knowledge of recommended practices, including legal and ethical considerations in the water treatment industry.
 - (f) Knowledge of disinfection methods, including standard disinfectants and methods, water contamination problems, UV and chemical disinfection systems, disinfection of private water sources, and final barrier water treatment.
 - (g) Knowledge of water analysis fundamentals including selection of tests for analysis, reading and interpreting water analyses, and conducting and interpreting water tests.
 - (h) Experience with water conditioning installation.
 - (i) Knowledge of general installation principles including POE and POU water treatment systems, including related safety considerations.
- (2) Any applicant for a water conditioning installer registration shall possess and maintain an active Certified Installer (CI) certification from the Water Quality Association or an equivalent certification as approved by the Plumbing Board.
- b. Water Conditioning Principal.

State Plumbing Board

- (1) Any applicant for a water conditioning principal registration shall possess the following qualifications and experience:
 - (a) All items listed in the previous subsection 1.4(A)(5)(a)(1) of these Rules.
 - (b) Knowledge of common water problems including: nitrates, bacterial contamination, iron/manganese/hydrogen sulfide, and arsenic.
 - (c) Ability to design water treatment systems to address regional water issues such as Endocrine Disruptors and Pharmaceuticals, Radium/Barium/Radioactive Decay, and Tannins.
 - (d) Knowledge of methods to calculate pressure loss in distribution systems.

 - (2) Principal. Any applicant for a water conditioning principal registration shall possess and maintain an active Certified Installer (CI) certification and an active Certified Water Specialist (CWS) or Master Water Specialist (MWS) certification from the Water Quality Association or an equivalent certification or certifications as approved by the Plumbing Board.
 - c. Water Conditioning Contractor. Any applicant for a water conditioning contractor must be or employ full time a water conditioning principal.
 - d. Water Conditioning Contractor's Loss of Water Conditioning Principal. A water conditioning contractor that, for any reason, loses the services of the water conditioning principal will be allowed twenty days in which to hire another water conditioning principal. If another water conditioning principal has not been hired during that period, the water conditioning contractor registration will be placed into a "Need WC Principal Hire-Cannot Practice" status until such time as a principal has been hired, and the appropriate fee paid.
- B. Licenses and Registration Issuance.
1. Issuance. Residential, journeyworker or master plumber licenses will be issued upon successful passing of the respective examination and meeting the qualifications within Title 12 of Article 155, C.R.S. Water conditioning registrations shall be issued upon application approval based on proper documentation as outlined in 1.4(A)(4) of these Rules.

State Plumbing Board

- a. **By endorsement.** Licensees from another state may be eligible for licensure by endorsement providing that the applicant meets the requirements of section 12-155-116, C.R.S., and all of the following conditions:
 - (1) Completion of a state or federally approved or registered apprenticeship program, or completion of the required years and type of experience for the comparable license.
 - (2) Successful completion of a comparable state plumbing examination based on the current or previous edition of the plumbing code adopted by the Board.
 - (3) Currently holds an active license by the endorsing state.

- C. Disapproval
 - 1. **Reconsideration.** An applicant requesting reconsideration of a Board action concerning a disapproval of an application or license by endorsement or requesting a personal interview before the Board, shall submit the request in writing, accompanied by additional information or documentation. This request shall be submitted within forty-five days of the date on which the Board made the decision. The Board may not consider requests filed thereafter.

- D. [Repealed eff.06/14/2020]

- E. Renewal and Reinstatement (Effective July 1, 2020)
 - 1. **Renewal.**
 - a. A licensee or registrant shall have a sixty-day grace period after the expiration of the license or registration to renew such license or registration without having to submit a reinstatement application. During this grace period a delinquency fee will be charged for late renewals.
 - b. A licensee or registrant who does not renew his or her license or registration shall be ineligible to practice until such license or registration is reinstated. If the licensee or registrant practices with an expired license or registration, the Board may impose disciplinary actions.
 - 2. **Reinstatement.** An expired license or registration may be reinstated by submitting a reinstatement application, paying the current reinstatement fee, and meet the appropriate requirements below.
 - a. Expired for More Than Sixty Days But Less Than ~~Two~~~~Three~~ Years. If the license or registration has expired for more than sixty days but less than ~~two~~~~three~~ years, the applicant must provide evidence of completion of continuing education complaint with requirements of Board Rule 1.4(E)(3), since applicant's most recent licensing event (original; license, renewal, or reinstatement) preceding the

State Plumbing Board

application for reinstatement, of eight hours of continuing education, ~~as defined in complaint with requirements of~~ Board Rule 1.4(E)(3).

- b. Expired for More Than ~~Two~~Three Years. If the license has been expired for more than ~~two~~three years, pursuant to section 12-155-112(2)(b)(II), C.R.S. the applicant must demonstrate competency to practice by ~~any of the following: satisfactorily passing the State plumbing examination. In the case of Water Conditioning Installers and Water Conditioning Principals, registrants shall re-affirm that their certifications per board Rule 1.4(A)(5) are current and active.~~

~~(1) Satisfactorily passing the State plumbing examination;~~

~~(2) Provide a verification of an active, substantially equivalent license in good standing from another state and proof of active practice in that state for the year immediately prior to the date of the reinstatement application;~~

~~(3) Holding an active Colorado plumbing license that is more advanced than the license to be reinstated; or~~

~~(2) By other means that may be approved by the Board.~~

- c. ~~In the case of Water Conditioning Installers and Water Conditioning Principals, registrants shall re-affirm that their certifications per board Rule 1.4(A)(5) are current and active.~~

3. Continuing Education Requirements

- a. Statutory Basis. Pursuant to section 12-155-112(3)(b) C.R.S, the Board shall adopt rules establishing continuing education requirements and standards that a licensee shall demonstrate in order to renew ~~or reinstate~~ a license. ~~on or after May 1, 2021~~. Such requirements and standards must include course work related to the code, including core competencies as determined by the ~~b~~Board.
- b. Basis of Requirements. As established by the Colorado General Assembly, the regulatory authority of the Board is to establish continuing education standards to renew, reinstate, or reactivate a license and the documentation necessary to demonstrate compliance.
- c. Definitions
- (1) Core Competencies: Core Competencies are technical and professional subjects, related to the practice of plumbing work, which the Board deems necessary to safeguard the public.
 - (2) Inactive Status: A licensee is not required to comply with continuing education requirements to renew a license in inactive status. An individual whose license is in inactive status is prohibited by law from practicing as a licensed plumber.

State Plumbing Board

- (3) Code: Code for the safe installation of plumbing installation, plumbing materials, conservation, medical gas, sanitary drainage systems, and solar plumbing.
- (4) Attesting Providers List: A ~~publically~~ publicly available list containing continuing education providers that have attested their courses and instructors meet all the requirements of Board Rule 1.4(E)(3)(d) and 1.4(E)(3)(e). Credit may be earned by a licensee by completing a course from a provider on this list. However, licensee are responsible for ~~ensure~~ ensuring that the providers they choose, meet the ~~continuing education~~ requirements ~~of the CE requirements~~ in Board Rule 1.4(E)(3).

d. Requirements

- (1) ~~Each renewal cycle after May 2021, or upon the completion of the first renewal of a license thereafter, a licensee in active status shall complete eight hours of continuing education for every twelve months that have passed after the later of the last date of renewal or reinstatement in order to renew a license to perform plumbing work in Colorado. After the first renewal or reinstatement, in order to renew or reinstate a plumbing license, an applicant must provide evidence of completion of eight (8) hours of continuing education, as defined in section 1.4(E)(3) herein, for each year since the applicant's most recent licensing event (i.e., original license, renewal, or reinstatement).~~

The continuing education hours must be selected from among the Core Competencies below in any combination, except that, within every twenty-four month period, a minimum of ~~four (4)~~ four (4) continuing education hours must be related to codes as defined in Board Rule 1.2 and a maximum of ~~two (2)~~ two (2) hours can be related to safety training:

- (a) Cross connection and backflow prevention
- (b) Fixtures, Faucets and Fixture Fittings
- (c) Indirect/Special Waste
- (d) Industry Product Training
- (e) Non-potable Water Systems
- (f) Plumbing Administration
- (g) Residential Fire Sprinkler Systems
- (h) Sanitary Drainage
- (i) Special Piping (Medical Gas)

State Plumbing Board

- (j) Storm Drainage
 - (k) System piping and components
 - (l) Traps, Interceptors and Separators
 - (m) Vents - DVM
 - (n) Water Heaters
 - (o) Water Supply and Distribution
 - (p) Safety related to the plumbing industry.
- (2) Colorado Plumbing Code. In addition to the requirements of 1.4(E)(3)(d) (1), licensees must make attestation upon renewal that they have read the current Colorado Plumbing Code in Board Rule 1.2.
- (3) Continuing education credits will only apply to each twelve month period after the later of the last date of renewal or reinstatement
- (4) Licensees shall cooperate with the Board to determine compliance with continuing education requirements.

~~(5) — The requirements stated in Board Rule 1.4(E)(3) shall apply to:~~

~~(a) — All original plumbing licenses granted after July 1, 2021;~~

~~(b) — All plumbing licenses upon completion of the 2021 renewal; and,~~

~~(c) — All plumbers are subject to Board Rule~~

Pursuant to section 12-155-112(2)(c), C.R.S. continuing education requirements within section 12-155-112(3)(a), C.R.S. and Rule 1.4(E)(3) do not apply to water conditioning installers or water conditioning principles,

- e. Attesting Providers. Continuing education providers must be listed with the Board and attest that their courses and instructors meet the continuing education requirements of Board Rule sections 1.4 (E)(3)(d)(1) through (4), The list of Attesting Providers with expire on December 31st of the final year of the current code cycle.
- (1) The Board has sole discretion to accept providers that have attested.
 - (2) Providers. Providers may attest that they meet the CE requirements if their courses and instructors meet all the requirements of Board Rule 1.4(E)(3)(e)(4).

State Plumbing Board

- (a) As proof of course completion, the Board will accept a certificate of completion from the course provider.
 - (b) Certificates of completion shall not be issued to attendees unless the course is successfully completed. Certificates of completion shall include all of the following elements:
 - (i) Name of attendee;
 - (ii) Attendee's Colorado plumber's license number;
 - (iii) Date of course;
 - (iv) Provider name and approval number;
 - (v) Course title;
 - (vi) Instructor name; and
 - (vii) Number hours of continuing education credit earned.
- (3) Courses. Criteria for courses from Attesting Providers shall include the following:
- (a) Each course shall cover a minimum of one core competency, as listed in Board Rule 1.4(E)(3)(d)(1). Course credit will apply to only one core competency per course.
 - (b) All online courses or webinars shall be interactive. Each course must have capabilities in place to ensure active participation and demonstrate comprehension a minimum of once per hour, and fast-forward must be disabled.
- (4) Instructors. Courses must be taught by instructors with the following qualifications:
- (a) Instructors must be sponsored by the Attesting Provider.
 - (b) Instructor's background and experience must meet at least one of the following criteria.
 - (i) Hold a minimum of a Colorado master plumber's license or journeyworker plumber's license (or equivalent) plus a minimum of five years of journeyworker plumber field experience;
 - (ii) Community college or vo-tech instructor as approved by the Board;

State Plumbing Board

- (iii) Plumbing continuing education instructor from other areas as approved by the Board; or,
 - (iv) Instructor shall provide documentation of background and experience as requested by the Board.
 - (5) Once attesting they meet the qualifications as an Attesting Provider, providers will be placed on an Attesting Provider list.
 - (6) The Board has sole discretion to accept or reject any continuing education credit earned by a licensee from a provider that is, or is not, on the list.
 - (7) The Board has discretion to remove providers from the list.
 - (8) It is the responsibility of the licensee to ensure the continuing education obtained meets the requirements of this section 1.4(3)(E).
- f. Recordkeeping
 - (1) The licensee shall track and document completed continuing education in a process approved by the Board.
 - (2) The licensee shall retain documentation for a minimum of six years.
- g. Audits
 - (1) The Board may conduct audits of continuing education for verification of compliance with these requirements at any time. The Board may, at its discretion, disallow any continuing education course completed by a licensee that was offered by a provider on the Attesting Provider list.
 - (2) A licensee shall provide all documentation requested for audit within thirty days of the request.
- h. Multiple Licenses. A licensee holding multiple licenses issued by the Board shall complete continuing education requirements for the most advanced license held. Completion of continuing education requirements for the most advanced license shall satisfy the requirements for all lesser licenses.

4. Inactive License Status and Reactivation

- a. Inactive License. Pursuant to section ~~12-20-20312-70-101~~, C.R.S., any licensee may apply to the Board to transfer his or her license to inactive status. Such application shall be in the form and manner designated by the Board. The holder of an inactive license shall not be required to comply with continuing education requirements for renewal so long the license remains inactive.

State Plumbing Board

- (1) Each holder of an inactive license shall renew once every three years with the Board in the same manner as active license holders and pay a fee pursuant to section 12-155-105(1)(d), C.R.S.
 - (2) During such time as a license remains in an inactive status, the licensee shall not perform any acts restricted to active licensed plumbers. Such practice may be grounds for revocation.
- b. **Reactivation of Inactive License.** An inactive license may be reactivated by submitting the proper application, paying the current reactivation fee, and meeting the appropriate requirements below.
- (1) **Inactive for Less Than Three Years.** To reactivate a license that has been inactive for less than three years, the applicant must provide evidence of completion, within the three years immediately preceding the application for reinstatement, of twenty-four hours of continuing education, as defined in Board Rule 1.4(e)(3)
 - (2) **Inactive for More Than Three Years.** Pursuant to section ~~12-155-112(2)(a)~~~~12-115-110(4)(c)~~, C.R.S., a licensee whose license has been inactive for more than three years must demonstrate **education competency** to practice by any of the following:
 - (a) Satisfactorily pass the state plumbing examination.
 - (b) ~~Provide verification of an active license with a state where a reciprocal agreement for an equivalent license exists. Provide a verification of an active, substantially equivalent license in good standing from another state and proof of active practice in that state for the year immediately prior to the date of the reinstatement application;~~
 - (c) ~~Provide verification of active licensure in a non-reciprocal state as follows: Holding an active Colorado plumbing license that is more advanced than the license to be reactivated; or~~
 - (d) ~~By other means that may be approved by the Board.~~
 - (i) ~~Verify an active residential plumber's license, journeyworker plumber's license, or master plumber's license in non-reciprocal state, respective to the license you are reinstating;~~
 - (ii) ~~Evidence of completing twenty-four continuing education hours pursuant to Board Rule 1.11(C) in the three years immediately preceding the application for reinstatement; and,~~

State Plumbing Board

(iii) — ~~By other means approved by the Board.~~

- (3) Practicing with an Inactive License. Practicing plumbing work with a license in inactive status shall constitute practice without an active license and, therefore, may be grounds for injunctive or disciplinary action, up to and including revocation.

5. Registered Plumbing and Water Conditioning Contractors with expired permits shall not have their contractor registrations renewed until such time as all expired permits are cleared or as otherwise allowed by the Board.

F. Pumping Equipment License

License required. Any individual licensed as a residential plumber, journeyworker plumber, or master plumber under Title 12, Article 155 of the Colorado Revised Statutes who intends to install, alter, or repair “pumping equipment”, as defined by section 37-91-102(13), C.R.S., shall first apply for and obtain licensure with the Water Well Construction and Pump Installation Contractors Board prior to commencing any such activity. Failure to comply with the licensure requirements set forth herein shall be, if proven, a violation of sections 12-155-113(1)(b) and 12-20-404, C.R.S.

(“Pumping equipment” means any pump or related equipment used or intended for use in withdrawing or obtaining groundwater, including, but not limited to, well seals, pitless adapters, and other safeguards to protect the groundwater from contamination and any waterlines up to and including the pressure tank and any coupling appurtenant thereto.)

- G. **Requirement to Carry Documentation.** Any licensed water conditioning registrant working as a plumber, apprentice, or registered individual shall be required to carry on his or her person the appropriate license, temporary work permit, or registration.
- H. **Residential Plumber on Commercial Job.** Residential Plumbers must maintain an apprentice registration when working on commercial jobs and be supervised accordingly.
- I. **Plumbing Contractor's Loss of Responsible Master.** A plumbing contractor that, for any reason, loses the services of the responsible master plumber will be allowed twenty days in which to hire another master plumber. If another master plumber has not been hired during that period, the plumbing contractor registration will be placed into a “Need Master Hire-Cannot Practice” status until such time as a master has been hired, and the appropriate fee paid.
- J. **Termination or Separation of Apprentice.** Plumbing contractors shall notify the Board within thirty days after the termination or separation of a plumbing apprentice.
- K. **Apprentice Information File.** It shall be the responsibility of the apprentice to file and keep current contact information with the Board. Notification by any manner approved by the Board is acceptable but the online registration system is preferred.
- L. Notice of Change of Address

State Plumbing Board

1. A licensee or registrant shall inform the Board in a clear, explicit, and unambiguous written statement or through the Board's secure online system (as available) of any name, address, telephone, or email change within thirty days of the change. The Board will not change the licensee or registrant information without explicit notification from the licensee or registrant. Notification by any manner approved by the Board is acceptable.
 - a. The Division of Professions and Occupations maintains one contact address for each licensee or registrant, regardless of the number of licenses or registrations the licensee or registrant may hold.
 - b. All communications will be sent to the address on record for each licensee or registrant. Address change requests to route specific communications (i.e., confidential communications) to a separate address are not accepted.
 2. The Board requires one of the following forms of documentation to change the name or correct the social security number or individual taxpayer identification number of a licensee or registrant:
 - a. Marriage license;
 - b. Divorce decree;
 - c. Court order;
 - d. Documentation from the Internal Revenue Service verifying the licensee's valid individual taxpayer identification number; or
 - e. A driver's license or social security card with a second form of identification may be acceptable at the discretion of the Division of Professions and Occupations.
- M. **Advertising.** Registered plumbing contractors or water conditioning contractors shall not advertise in any manner by any name, including DBA's, other than the registered company name on record with the Department of Regulatory Agencies.
- N. Requirements for Displaying Registration and License
1. On and after July 1, 2025, plumbing contractors are required to display their plumbing contractor registration number and the license number of their master plumber on their vehicles, billing materials, bid sheets, and website pursuant to section 12-155-125, C.R.S. The purpose of these rules is to ensure transparency and accountability among plumbing contractors by requiring the display of relevant registration and license information wherever public interaction occurs. Compliance with the requirements includes:
 - a. Company Vehicles
 - (1) All company owned vehicles, or any vehicle used for the company's business purposes for any length of time must display the plumbing

State Plumbing Board

- contractor's registration number and the company's master plumber's license number issued by the Board.
- (2) The registration and license numbers must be prominently displayed in at least two locations on the vehicle.
 - (3) The registration and license numbers must be readable, and the lettering and numbering must be least two inches in height.
- b. Bid Sheets
- (1) All bid forms must include the registration and license numbers.
 - (2) For bid forms that are provided to the public by a general contractor, the plumbing contractor must ensure the registration and license numbers are:
 - (a) Entered onto the general contractor's bid form; or,
 - (b) Within a coversheet the plumbing contractor submits to the general contractor to be provided to the public.
 - (3) The registration and license numbers should appear on the cover page or at the top of the first page.
- c. Billing Materials
- (1) Plumbing contractor invoices, receipts, and other billing documents must include the registration and license numbers.
 - (2) The registration and license numbers should be placed near the contractor's contact information.
- d. Websites
- (1) The registration and license numbers must be displayed prominently on the homepage of the company website.
 - (2) The registration and license numbers should also appear on the "Contact Us" and "About Us" pages to ensure visibility.
 - (3) Any plumbing contractor advertising on any website, including social media, shall also display the required registration and license numbers.
- e. Plumbing contractors must ensure all required displays are updated in the event of changes to the company's plumbing contractor number or master plumber's license number within 90 days.

Pursuant to and in compliance with Title 12, Article 10 and Title 24, Article 4, C.R.S., as amended, notice of proposed rulemaking is hereby given, including notice to the Attorney General of the State of Colorado and to all persons who have requested to be advised of the intention of the Colorado Real Estate Commission (the "Commission") to promulgate rules, or to amend, repeal, or repeal and re-enact the present rules of the Commission.

The hearing will be conducted only in a virtual setting. All interested parties are urged to attend this public hearing by registering for the webinar on the Division's website at <https://dre.colorado.gov/> and to submit written comments concerning the proposed amended rules in advance, if possible, for consideration.

To facilitate the review of comments by the Commission, all interested parties are strongly encouraged to submit their written comments to Marcia Waters via email at marcia.waters@state.co.us on or before 5:00 p.m. on November 21, 2025. Any written comments not received by this date may be submitted via public testimony at the hearing on December 2, 2025.

STATEMENT OF BASIS

The statutory basis for the rules titled Rules of the Colorado Real Estate Commission is Parts 1-4 of Title 12, Article 10, Colorado Revised Statutes, as amended.

STATEMENT OF PURPOSE

The purpose of the rules is to effectuate the legislative directive to promulgate the necessary and appropriate rules in conformity with the state statutes of the real estate practice act.

SPECIFIC PURPOSE OF RULEMAKING

The specific purpose of this rulemaking is to modify the administrative rules regarding license portability for servicemembers and their spouses, continuing education requirements, and professional standards related to conflicts of interest. This rulemaking also establishes an additional definition for a client, and professional standards to obtain informed consent from clients. Finally, a specific purpose of this rulemaking is to comply with 50 USC 4025a: Portability of professional licenses of servicemembers and their spouses, which allows for license portability for members of the military and their spouses and was amended in 2025. Please be advised that the proposed amended rules being considered are subject to further changes and modifications after public comment and the formal hearing.

PROPOSED NEW, AMENDED AND REPEALED RULES

Deleted material shown ~~struck through~~; new material is indicated by underline. Rules, or portions of rules, which are unaffected are not reproduced. Readers are advised to obtain a copy of the complete rules of the Commission at www.dre.colorado.gov.

Chapter 1: Definitions

~~1.11~~ Client: A person, persons or entity that has engaged a Broker for the performance of Real Estate Brokerage Services.

~~1.11-12~~ Commercial Real Estate: Any real property other than real property containing one to four residential units, single-family or multi-family residential units including condominiums, townhouses, or homes in a subdivision when such real estate is sold, leased, or otherwise conveyed on a unit-by-unit basis even though the units may be part of a larger building or parcel of real property containing more than four residential units as defined pursuant to section 38-22.5-102(2), C.R.S.

~~1.12-13~~ Commission: The Colorado Real Estate Commission as defined pursuant to section 12-10-201(1), C.R.S.

~~1.13-14~~ Conflict of Interest: When a Broker has a real or apparent competing professional or personal interest which may influence their actions in the performance of their Real Estate Brokerage Services, including, but not limited to, hindering their ability to fulfill duties on behalf of their client.

~~1.14-15~~ Consumer: A member of the public that has sought or is seeking to engage Real Estate Brokerage Services provided by a Broker. A Consumer is a buyer, seller, tenant, or landlord, as applicable.

~~1.15-16~~ Customer: Has the same meaning pursuant to section 12-10-402(2), C.R.S.

~~1.16-17~~ Deemed Complete: An Applicant has submitted a complete and satisfactory application in compliance with sections 12-10-202 and 12-10-203, C.R.S. that includes the Fee and the accompanying required documentation as set forth in Chapters 2 and 3 of these Rules.

~~1.17-18~~ Designated Broker: Has the same meaning pursuant to section 12-10-402(3), C.R.S.

~~1.18-19~~ Director: The Director of the Division as defined pursuant to section 12-10-101(1), C.R.S.

~~1.19-20~~ Distance Learning: Any education process based on the geographical separation of student and instructor. Components of distance education include synchronous, asynchronous, and hybrid.

~~1.20-21~~ Division: The Division of Real Estate as defined pursuant to section 12-10-101(2), C.R.S.

~~1.21-22~~ Duplicate: A legible photocopy, carbon copy, facsimile, or electronic copies which contain a digital or electronic signature as defined pursuant to section 24-71-101(1), C.R.S.

~~1.22-23~~ Electronic Media: The method of communicating information that are in an electronic format rather than a paper format. Electronic Media may include, but is not limited to, websites, electronic mailings, social media such as Twitter and Facebook, banner advertisements, virtual tours, and YouTube.

~~1.23-24~~ Electronic Record: A record generated, communicated, received, or stored by electronic means as defined to pursuant to section 24-71.3-102(7), C.R.S.

~~1.24-25~~ Employing Broker: Has the same meaning pursuant to section 12-10-201(2), C.R.S.

- 1.~~25-26~~. Expired: A License that was not renewed prior to the last day of the license cycle and is no longer valid for a person or entity to perform any Real Estate Brokerage Services. Such persons cannot hold themselves out to the public as Brokers and such entities cannot Advertise as Brokerage Firms.
- 1.~~26-27~~. Fee: The prescribed non-refundable fee as set by the Division.
- 1.~~27-28~~. Initial License or Initial Licensure: The first license granted by the Commission to an Applicant pursuant to sections 12-10-202 and 12-10-203, C.R.S.
- 1.~~28-29~~. Inactive: A Broker who holds a valid License shown in the Commission's records as being Inactive is not permitted to engage in Real Estate Brokerage Services. To maintain licensure on Inactive status, a Broker must continue to renew their License as set forth in Chapter 3 of these Rules.
- 1.~~29-30~~. Independent Broker: A Broker either holding an Independent Broker level license or Employing Broker level license acting as their own Brokerage Firm or sole proprietor and not employing or supervising any Associate Brokers.
- 1.~~30-31~~. Invalid Payment: If the Fees accompanying any application including Fees for the recovery fund, renewals and transfers made to the Division are paid for by check and the check is not immediately paid upon presentation to the bank upon which the check was drawn, or if payment is submitted in any other manner, and payment is denied, rescinded or returned as invalid, the application will be immediately canceled. The application will only be reinstated if the Division has received valid payment of all application Fees together with any fees incurred by the Division including the fee required by state fiscal rules for clerical services necessary for reinstatement.
- 1.~~31-32~~. Jurisdiction: For purposes of Chapter 2 of these Rules, all 50 states, the District of Columbia, Guam, Puerto Rico, and the U.S. Virgin Islands.
- 1.~~32-33~~. License: A Broker's or Brokerage Firm's license issued by the Commission pursuant to section 12-10-203, C.R.S.
- 1.~~33-34~~. Listing Contract: An agreement between a Brokerage Firm and a Consumer in which a Broker licensed with the Brokerage Firm is designated to provide Real Estate Brokerage Services to the Consumer. Listing Agreements include: Exclusive Tenant Contract, Exclusive Right to Sell, Exclusive Right to Lease, Exclusive Right to Buy, and Management Agreements.
- 1.~~34-35~~. Management Agreement: An agreement between a Brokerage Firm and an owner of a property in which a Broker licensed with the Brokerage Firm is designated to provide Property Management Services on behalf of the owner.
- 1.~~35-36~~. Money Belonging to Others: Money Belonging to Others which is accepted by the Broker or Brokerage Firm for deposit in the Broker's or Brokerage Firm's Trust or Escrow Account that includes, but is not limited to, money received in connection with Management Agreements, partnerships, limited liability companies, syndications, lease agreements, advance fee contracts, guest deposits for short term rentals, rental receipts, security deposits, earnest money deposits, or Money Belonging to Others received for any other purpose.
- 1.~~36-37~~. New Associate Broker: An Associate Broker with less than two (2) years of accumulative Active experience.
- 1.~~37-38~~. Office Policy Manual: The Manual required for all Employing Brokers or the Employing Broker's Brokerage Firm, which contains certain policies and procedures.

1. ~~3839~~. Personal Identifying Information: as defined in section 6-1-713(2)(b), C.R.S.: a social security number; a personal identification number; a password; a pass code; an official state or government-issued driver's license or identification card number; a government passport number; biometric data, as defined in section 6-1-716(1)(a), C.R.S.; an employer, student, or military identification number; or a financial transaction device, as defined in section 18-5-701(3), C.R.S.
1. ~~39-40~~. Petitioner: For the purposes of implementing the provisions of Chapter 8 of these Rules, any person who has filed with the Commission a petition or has been granted leave to intervene by the Commission for a declaratory order pursuant to section 24-4-105(11), C.R.S. and as set forth in Chapter 8 of these Rules.
1. ~~40-41~~. Property Management: An on-going relationship between a Brokerage Firm and an owner of a property in which the Brokerage Firm is designated to provide Property Management Services.
1. ~~41-42~~. Property Management Services: The activities performed in leasing and subsequent management of a property on behalf of an owner that are pursuant to section 12-10-201(6), C.R.S. and further described in the Management Agreement.
1. ~~42-43~~. Real Estate Brokerage Services: Any of the activities pursuant to section 12-10-201(6)(a), C.R.S. when performed on behalf of a Consumer.
1. ~~43-44~~. Real Estate Licensing Examination: An examination that consists of two (2) parts; a national part and a Colorado part as set forth in Rule 2.2.
1. ~~44-45~~. Real Estate School: Has the same meaning pursuant to section 23-64-103(20), C.R.S.
1. ~~45-46~~. RESPA – The Real Estate Settlement Procedures Act of 1974, set forth in 12 U.S.C. 2601, et seq. (Act), effective June 1, 2018, incorporated by reference in compliance with section 24-4-103(12.5), C.R.S. and does not include any later amendments or editions to the Act. A certified copy of the Act is readily available for public inspection at the Office of the Colorado Real Estate Commission at 1560 Broadway, Suite 925, Denver, Colorado. The Act may also be examined at the internet website of the Consumer Bureau of Financial Protection (CFPB) at www.consumerfinance.gov. The CFPB may also be contacted at 1700 G. Street, NW, Washington, D.C. 20552 or by telephone at (202) 435-7000.
1. ~~46-47~~. Recognized Depository: Any bank, savings and loan association, or credit union that accepts deposits or shares insured by the Federal Deposit Insurance Corporation (FDIC) or the National Credit Union Administration (NCUA) respectively.
1. ~~47-48~~. Reinstatement or Reinstating or Reinstated: Has the same meaning pursuant to section 12-10-212(4)(a)(III), C.R.S.
1. ~~48-49~~. Safe and Secure Manner: Reasonable measures are taken to minimize the risk of loss, damage, or theft of electronic information and documents, including, but not limited to, Personal Identifying Information.
1. ~~49-50~~. Single Agent: Has the same meaning pursuant to section 12-10-402(6), C.R.S.
1. ~~50-51~~. Standard Form: Has the meaning pursuant to section 12-10-403(4), C.R.S. and also as set forth in Rule 7.1.
1. ~~51-52~~. Supervisory Broker: A Broker, such as a managing broker, team lead, office manager, etc., who has been delegated in writing by an Employing Broker to assume some of the Employing Broker's duties and responsibilities as set forth in Rule 6.3.

1. ~~52-53~~. Team: Two (2) or more Brokers within a Brokerage Firm that cooperate on an on-going basis to conduct a substantial portion of their Real Estate Brokerage Services together.
1. ~~53-54~~. Temporary License: Has the same meaning pursuant to section 12-10-203(6)(c), C.R.S.
1. ~~54-55~~. Things of Value: Monetary considerations as well as the exchange of tangible, non-monetary assets.
1. ~~55-56~~. Trademark: Any logo, service mark, or other identifying mark used in conjunction with a Brokerage Firm's legal name or Trade Name. Trademarks may be registered with the Colorado Secretary of State pursuant to section 7-70-102, C.R.S. As an example, the brokerage "A Better Choice Real Estate" uses a logo bearing the initials "ABC". The logo is used to identify the Brokerage Firm and the Real Estate Brokerage Services that it provides to Consumers; therefore, it would be the trademark for the Brokerage Firm.
1. ~~56-57~~. Trade Name: The name under which a Brokerage Firm does business other than the Brokerage Firm's legal name. Any Trade Name used by a Brokerage Firm must be on file with the Commission and must be filed with the Colorado Secretary of State pursuant to section 7-71-101, C.R.S. For example, a Brokerage Firm is licensed with the Commission under its legal name of "Colorado Real Estate Group LLC". However, the Brokerage is also a franchise of "International Realty" and does business under the Trade Name "International Realty of Colorado".
1. ~~57-58~~. Transaction-Broker: Has the same meaning pursuant to section 12-10-402(8), C.R.S.
1. ~~58-59~~. Transition Period: The two-year licensing period plus a partial year commencing on the anniversary date when a Broker's license expires in the years of 2018, 2019, or 2020 and expiring two (2) years plus the remaining days in the third year to reach December 31. The length of the Transition Period is dependent on the anniversary date and could be as long as three (3) years or as short as two (2) years and one day.
1. ~~59-60~~. Trust or Escrow Account: Any checking, demand, passbook or statement account, which has, at a minimum, the following elements:
- A. The account is separate and contains only Money Belonging to Others;
 - B. The account is custodial and fiduciary;
 - C. All funds are available on demand; and
 - D. The account is held with a Recognized Depository.
1. ~~60-61~~. Trust or Escrow Accounting Equation: The reconciled trust or escrow bank account cash balance must equal the sum total of the individual ledger balance for each owner at any given point in time.
1. ~~61-62~~. Unlicensed On-Site Manager: An unlicensed person who fills in blanks, as a scrivener, on lease forms, shows prospective tenants available units, quotes rental prices established by the owner or Broker, arranges for maintenance, and collects monies, including security deposits and rents. A Brokerage Firm which employs an Unlicensed On-Site Manager must do so either as a regularly salaried employee or as an independent contractor, and pay the Unlicensed On-Site Manager through the Brokerage Firm. The salary may include rent value or other non-commission income.
1. ~~62-63~~. Viewable Page: A page that may or may not scroll beyond the border of the screen and includes the use of frame pages.

Chapter 2: Licensure Requirements

2.11. Portability of Professional Licenses of Servicemembers and their Spouses

When a servicemember or spouse relocates their residency to Colorado because of military orders for military service, and the servicemember or spouse possesses a valid Broker's license, or its equivalent, issued by another Jurisdiction, the Commission will grant the servicemember or spouse the authority to practice in Colorado conditional on the following terms being met:

- A. ~~The Commission must receive a copy of the military orders indicating that the new residency will be in Colorado; The applicant must submit a set of fingerprints to the Colorado Bureau of Investigation as set forth in Rule 2.3;~~
- B. ~~The servicemember or spouse must remain in good standing with the licensing authority that issued the Broker's license, or equivalent; If the applicant is the spouse of a servicemember, the applicant must submit a copy of the marriage certificate;~~
- C. ~~The servicemember or spouse must have been actively licensed during the two years immediately preceding the relocation to Colorado; and The applicant must submit proof of military orders demonstrating relocation to Colorado; and~~
- D. ~~The servicemember or spouse must submit to the authority of the Commission for purposes of standards of practice, disciplinary procedures, and fulfillment of any continuing education requirements. The applicant must attest, under penalty of perjury in the second degree, §18-8-503, C.R.S., that:~~
 - 1. ~~The applicant is the person described and identified in the application;~~
 - 2. ~~All statements made in the application are true, correct, and complete;~~
 - 3. ~~The applicant has read and understands the requirements to receive a license, and the scope of practice, of the Real Estate Commission;~~
 - 4. ~~The applicant certifies that that they meet and shall comply with the application requirements for license portability as a servicemember or spouse; and~~
 - 5. ~~The applicant is in good standing in all states in which the applicant holds or has held a license.~~

~~The ability to practice in Colorado will be at the Associate Broker or Independent Broker license level and is valid only as long as the military orders are in effect.~~

Chapter 4: Continuing Education Requirement

4.2. Methods for Satisfying Continuing Education

- A. Brokers must satisfy the continuing education requirement for a licensing cycle through one (1) of the following options:
 - 1. Brokers may complete the twelve (12) credit hours of continuing education pursuant to section 12-10-213(1)(a), C.R.S. and as set forth in subsection A.1. of this Rule in annual 4-hour increments developed by the Commission, the "Annual Commission Update". The "Annual Commission Update" must be completed by July 1st of each calendar year. Brokers must also complete an additional twelve (12) credit hours of electives to meet the total 24-hour continuing education

requirement during the licensing cycle in subject areas pursuant to section 12-10-213(3), C.R.S. and as set forth in Rule 4.4.B.1. A Broker may not take the same version of the Annual Commission Update more than once.

2. During the Transition Period licensing cycle, Brokers may complete two (2) different versions of the Annual Commission Update for eight (8) credit hours of continuing education pursuant to section 12-10-213(1)(b), C.R.S. Brokers must also complete an additional sixteen (16) credit hours of electives to meet the total 24-hour continuing education requirement during the Transition Period in subject areas pursuant to section 12-10-213(3), C.R.S. and as set forth in Rule 4.4.B.1.
3. Brokers may complete the Commission approved 24-hour "Broker Reactivation Course". This option is only available to Brokers under one (1) of the following conditions:
 - a. The Broker is currently Active and did not use the Broker Reactivation Course to satisfy the continuing education requirement in the previous licensing cycle; or
 - b. The Broker is Inactive or Expired for an accumulative time period of up to thirty-six (36) months prior to activating an Inactive License or Reinstating an Expired License to Active status and unable to comply with the continuing education requirement as set forth in subsections A.1. or A.2. of this Rule.
4. Pass the Colorado portion of the Real Estate Licensing Examination as set forth in Rule 2.2.A.2.
5. Complete seventy-two (72) total hours of the educational requirements as set forth in Rules 2.1.A.2.b. and 2.1.A.2.c.

- B. If a Broker cannot satisfy the continuing education requirement as set forth in subsections A.1. through A.3. of this Rule, the Broker must comply with the continuing education requirement as set forth in subsections A.4. or A.5. of this Rule prior to activating an Inactive License or Reinstating an Expired License to Active status.

4.3. Annual Commission Update Course Standards

- A. Pursuant to section 12-10-213(2), C.R.S. and as set forth in Rule 4.2.A., the Annual Commission Update will be developed, presented by the Division, and furnished only to approved course providers. ~~The course will be presented without any additional content by the course provider and/or instructor. Any deviation from the established curriculum is not permitted. Course materials are to be presented visually as provided and used as a guide to support instruction, not to be delivered verbatim. The course is structured to meet four (4) hours of continuing education credit. Accordingly, instruction must be sufficiently substantive and appropriately paced to ensure the full duration is used effectively. This includes expanding on key concepts, providing relevant context, and incorporating illustrative examples.~~
- B. All course providers must apply annually for approval to offer the Annual Commission Update as set forth in Rule 4.6.B., except that the course outline as set forth in Rule 4.6.B.1. and course exam as set forth in Rule 4.6.B.2. will be furnished by the Commission.

- C. Each Broker must complete the Annual Commission Update by achieving a passing score of seventy percent (70%) on a written or on-line course examination developed by the Commission. The Commission will provide an alternate examination for successive use by Brokers failing the end-of-course examination.

4.4. Standards for Continuing Education Courses

Courses approved for continuing education must meet the following standards:

A. Course Content

1. The course content must have been developed by persons qualified in the subject matter;
2. The content of the course must be current;
3. The course must maintain and improve a Broker's skill, knowledge, and competency in theColorado real estate practice; and
4. The course must be at least one (1) hour increment in length, containing at least fifty (50) instructional minutes per one (1) hour increment. Instruction time is the amount of time devoted to the actual course instruction and does not include acts such as introductions of speakers, breaks, group discussions, activities, quizzes or exams, or question and answer sessions.
5. Division-approved credit for any single course shall not exceed eight (8) hours per calendar day. For courses spanning multiple days, the Division may grant additional credit for eligible material, provided that the daily credit awarded does not exceed eight (8) hours.

B. Topics for Continuing Education Courses

1. Eligible Topics for Continuing Education Courses

All course content must be presented in a manner that reinforces compliance with Colorado laws, rules, and regulations. Instruction should emphasize how these subject areas intersect with regulatory obligations and consumer protection. Pursuant to section 12-10-213(3), C.R.S., courses approved for continuing education must include one (1) or more of the following topics:

- a. Real Estate Law;
- b. Property Exchanges;
- c. Real Estate Contracts;
- d. Real Estate Finance;
- e. Real Estate Appraisal;
- f. Real Estate Closing;
- g. Real Estate Ethics;
- h. Condominiums and Cooperatives;

- i. Real Estate Time-Sharing;
- j. Real Estate Marketing Principles;
- k. Real Estate Construction;
- l. Land Development;
- m. Real Estate Energy Concerns;
- n. Real Estate Geology;
- o. Water and Waste Management;
- p. Commercial Real Estate;
- q. Real Estate Securities and Syndications;
- r. Property Management;
- s. Real Estate Computer Principles;
- t. Brokerage Administration and Management;
- u. Agency; and
- v. Any other subject matter as approved by the Commission.

2. Ineligible Topics for Continuing Education Courses

The following types of courses will not qualify and will not be approved for continuing education:

- a. Sales or marketing meetings conducted in the general course of a real estate brokerage practice;
- b. Orientation, personal growth, self-improvement, self-promotion, or marketing sessions;
- c. Motivational meetings or seminars; or
- d. Examination preparation or exam technique courses.
- e. Instruction focused on prospecting, communication skills, or techniques for marketing, including staging, branding, or social media use, unless directly tied to regulatory compliance;
- f. Property tours or site visits that do not include substantive instruction on an approved topic or regulatory matters; or
- g. Marketing or promotion of a product or service, whether offered by the provider, an instructor, a sponsor, or any other affiliated or unaffiliated party.

C. Course Format

All continuing education courses may be offered and completed by classroom or Distance Learning.

D. Topics for courses that are eligible for Employing Broker Level License education are advanced in scope and specifically designed to enhance professional competency in brokerage administration, legal compliance, and regulatory practice. Course content must address substantive topics such as real estate law, contract negotiation and enforcement, licensing procedures, and risk management. Courses may also focus on specialized areas of brokerage practice, including but not limited to, property management, commercial brokerage, land acquisition and sales, investment analysis, and real estate development.

4.5. Continuing Education Credit Requirements

- A. A maximum of eight (8) hours of credit may be earned per day.
- B. No course may be repeated for credit in the same ~~calendar year license cycle~~.
- C. Hours in excess of twenty-four (24) in a given licensing cycle may not be carried forward to satisfy the continuing education requirements of a subsequent licensing cycle.
- D. Education stipulated to between a Broker and the Commission as part of a disciplinary action or alternative to disciplinary action will not be accepted to fulfill a Broker's continuing education requirement.
- E. All continuing education must be taken from course providers either approved by the Commission or exempt as set forth in Rule 4.6.A.2.
- F. Brokers must complete an entire course to receive any continuing education credit. Brokers will not be awarded partial credit for partial or incomplete attendance.
- G. Instructors may receive continuing education credit for teaching an approved continuing education course; however, credit will be awarded for only one (1) course taught per calendar year. Teaching multiple courses or different course types within the same calendar year will not result in additional credit.
- H. The Commission will award two (2) hours of continuing education credit for Brokers who attend a Commission's public meeting under the following conditions:
 - 1. The meeting must be open to the public and must be a minimum of two (2) hours in length;
 - 2. The Broker must be present for at least a two (2) hour segment of the meeting to be eligible for elective credit; and
 - 3. Elective credit will be awarded for a single Commission meeting per calendar year.
- I. Each Broker is responsible for securing from the course provider proof of course completion in the form of an affidavit, certificate, or official transcript of the course as set forth in Rule 4.7.A.
- J. Brokers must retain proof of continuing education completion certificates for four (4) years from the date of the Broker's most current renewal or, if newly licensed, from Initial Licensure.

- K. The act of submitting an application for renewal, activation, or Reinstatement of a License means that the Broker attests to compliance with the continuing education requirement pursuant to section 12-10-213, C.R.S. However, if a Broker did not comply with the continuing education requirement, the Broker must provide written notification to the Division prior to submitting an application for renewal, activation, or Reinstatement of a License.
- L. Upon written notification from the Commission, Brokers must provide proof of completion of the continuing education requirement in a manner that is acceptable to the Commission. Failure to provide said proof within the prescribed time set by the Commission in its notification will be grounds for disciplinary action unless the Commission has granted an extension.

4.6. Process for Course Approval

A. Course Providers

Continuing education must be taken from course providers either approved by the Commission or course providers which are exempt as set forth in subsection A.2. of this Rule.

1. Approval of Course Providers

All course providers must receive approval from the Commission prior to any course offering except for the course providers specifically exempted as set forth in subsection A.2. of this Rule.

2. Course Providers Exempt from Commission Approval

The following course providers may provide course offerings for elective continuing education credit without Commission pre-approval only if the courses are within the topic areas pursuant to section 12-10-213(3), C.R.S. and as set forth in Rule 4.4.B.1. and comply with all other provisions of Chapter 4 of these Rules.

- a. Courses offered by accredited colleges, universities, community or junior colleges, public or parochial schools, or government agencies.
- b. Courses developed and offered by quasi-governmental agencies.
- c. Courses approved by and taken in satisfaction of another occupational licensing authority's education requirements.
- d. Courses in real property law by a provider approved by the Colorado Board of Continuing Legal and Judicial Education.

B. Course providers must, as set forth in Chapter 4 of these Rules, submit an application form prescribed by the Commission, along with the following information at least thirty (30) days prior to the initial proposed course date(s):

- 1. Detailed course outline or syllabus, including the intended learning outcomes, the course objectives, and the approximate time allocated for each topic.
- 2. A copy of the course exam(s) and instructor answer sheet, if applicable.

3. Copy of the instructor's teaching credential; if none, a resume showing education and experience which evidence a mastery of the material to be presented.
 4. Upon Commission request, a copy of any advertising or promotional material used to announce the offering.
 5. Upon Commission request, a copy of any textbook, manual, audio or videotapes, or other instructional material.
 6. Course providers of continuing education offered through Distance Learning must submit evidence in a form prescribed by the Commission that the method of delivery and course structure is consistent with acceptable educational principles assuring that the desired learning objectives are met. The Commission will approve methods of delivery certified by the Association of Real Estate License Law Officials (ARELLO), or by a substantially equivalent authority and method.
 7. Repealed.
- C. Course approval certification will be for a period of three (3) years, except that an annual, or otherwise periodic, or one-time seminar or conference offering may be approved for a shorter period of time to ensure the content of the course is current, as set forth in Rule 4.4.A.2.
- D. Continuing education credit may only be awarded to eligible students for courses delivered within the Commission-approved period. Course providers are prohibited from issuing credit for courses that are not approved, expired, or otherwise outside of the designated approval window.

4.7. Course Provider Requirements

- A. Course providers must provide to each student who successfully completes an approved course for continuing education credit with an affidavit, certificate, or official transcript, which must include the following information:
1. Name of the course provider;
 2. Course title, which must describe the topical content as approved by the Commission;
 3. Repealed.
 4. Number of Commission-approved continuing education hours/credits;
 5. Course date(s);
 6. Name of the student;
 7. Authentication by the course provider; and
 8. Course approval number as issued by the Division, if applicable.
- B. A course provider may not waive, excuse completion of, or award partial credit for the full number of course hours.

- C. Each course provider must retain copies of course outlines or syllabi and complete records of attendance for a period of four (4) years from the date of the course and provide the records to the Commission upon request.
- D. By offering continuing education, each course provider agrees to comply with relevant Commission statutes and these Rules and to permit Commission audit of said courses at any time and at no cost. Failure to comply with the standards and requirements as set forth in Chapter 4 of these Rules may result in the invalidation of the course provider, instructor, and/or the course.
- E. Course providers must implement and maintain a reliable method for monitoring live student attendance throughout the full duration of each approved continuing education course. Student participation, including start and end times, break periods, and any observable inattentiveness, must be tracked to ensure that students are continuously present and engaged for the entirety of the instructional time.
- F. Course providers must maintain accurate attendance records for each live continuing education course delivered. Records must include student names, the name, date and duration of the course, and verification of full attendance by recording any instances of breaks, departures, or observable inattentiveness that may affect a student's eligibility for credit.
- G. Once the Commission has approved a course, no alterations may be made to the course title, content, delivery method, or any other material component without prior written approval by the Commission.
- H. Course providers must notify the Commission within thirty (30) calendar days or before the next course offering, whichever occurs first, in a manner acceptable to the Commission, of any changes to the provider's name, contact information, or instructor(s).
- I. The Commission may revoke course and/or course provider approval if a course provider does not meet professional and regulatory requirements. This includes, but is not limited to, failure to comply with established course standards; dissemination of inaccurate or misleading information regarding Commission regulations; issuance of course completion certificates containing incorrect or misleading information; and engagement in business practices that result in substantiated complaints filed with the Commission.

Chapter 6: Practice Standards

6.17. Duty to Disclose Conflict of Interest and License Status

- A. Brokerage Firms and Brokers have a continuing duty to disclose, in writing, any known Conflict of Interest that may arise in the course of any real estate transaction.
- B. If a Broker sells, buys, or leases real property on the Broker's own account, such Broker must disclose in the contracting instrument, or in a separate concurrent writing, that they are a licensed Broker.
- C. A Brokerage Firm or Broker engaged in Property Management Services has a duty to disclose, in writing, any known Conflict of Interest that may arise in the selection or use of a business or vendor that provides services applicable to lease transactions, including property maintenance. The Brokerage Firm or Broker is required to disclose any ownership, financial, or familial interest associated with the selection or use of a particular business or vendor.

D. If the Employing Broker supervises the Designated Brokers that represent both sides of the same transaction, and confidential information about one or more of the Clients will be shared with the Employing Broker, the Designated Brokers must disclose this as a conflict of interest to their Clients. The Designated Broker must include a statement about the conflict of interest and supervision in the informed written consent request from their Client.

E. If the Employing Broker supervises the Designated Broker that represents the opposite side of the transaction and the Employing Broker represents the other side of the same transaction, the Employing Broker is prohibited from receiving confidential information about the Designated Broker's client.

6.27 Informed Consent

A Broker representing a buyer, seller, landlord, or tenant, or acting as a transaction broker must obtain the informed consent of a Client before disclosing any of the Client's confidential information for any purpose. The Client's informed consent must be in writing, and it must be voluntary, specific, and made following the Broker's full disclosure of the risks involved and the alternative options available.

Confidential information is defined in the following statutes:

12-10-404(2), C.R.S.: The following information shall not be disclosed by a broker acting as a seller's or landlord's agent without the informed consent of the seller or landlord:

- (a) That a seller or landlord is willing to accept less than the asking price or lease rate for the property;
- (b) What the motivating factors are for the party selling or leasing the property;
- (c) That the seller or landlord will agree to financing terms other than those offered;
- (d) Any material information about the seller or landlord unless disclosure is required by law or failure to disclose the information would constitute fraud or dishonest dealing; or
- (e) Any facts or suspicions regarding circumstances that may psychologically impact or stigmatize any real property pursuant to section 38-35.5-101.

12-10-405(2), C.R.S.: The following information shall not be disclosed by a broker acting as a buyer's or tenant's agent without the informed consent of the buyer or tenant:

- (a) That a buyer or tenant is willing to pay more than the purchase price or least rate for the property;
- (b) What the motivating factors are for the party buying or leasing the property;
- (c) That the buyer or tenant will agree to financing terms other than those offered;
- (d) Any material information about the buyer or tenant unless disclosure is required by law or failure to disclose the information would constitute fraud or dishonest dealing; or
- (e) Any facts or suspicions regarding circumstances that would psychologically impact or stigmatize any real property pursuant to section 38-35.5-101.

12-10-407(3), C.R.S.: The following information shall not be disclosed by a transaction broker without the informed consent of all parties:

- (a) That a buyer or tenant is willing to pay more than the purchase price or lease rate offered for the property;
- (b) That a seller or landlord is willing to accept less than the asking price or lease rate for the property;
- (c) What the motivating factors are for any party buying, selling, or leasing the property;
- (d) That the seller, buyer, landlord, or tenant will agree to financing terms other than those offered;
- (e) Any facts or suspicions regarding circumstances that may psychologically impact or stigmatize any real property pursuant to section 38-35.5-101; or
- (f) Any material information about the other party unless disclosure is required by law or failure to disclose the information would constitute fraud or dishonest dealing.

A hearing is scheduled for December 2, 2025, beginning at 9:00 a.m. and will only be conducted via Zoom Webinar. All interested and affected parties must register to attend the hearing through the link provided below:

https://us06web.zoom.us/webinar/register/WN_C7haOLgAQNebbhq0v2Eb2w

Any interested person may participate in the rule making through submission of written data, views and arguments to the Division of Real Estate. Persons are requested to submit data, views and arguments in writing to the Division of Real Estate by 5:00 p.m. on November 21, 2025. However, all data, views and arguments submitted prior to or at the rulemaking hearing or prior to the closure of the rulemaking record (if different from the date and time of hearing), shall be considered.

Please be advised that the rules being considered are subject to further changes and modifications after public comment and formal hearing.

Subjects and issues involved

The Board of Veterinary Medicine will hold a Permanent Rulemaking Hearing on December 11, 2025, at 9:00 A.M. (MDT), to allow stakeholders a final opportunity to testify before the Board determines on proposed repeal of Rule 1.20 - RULES REGARDING THE USE OF BENZODIAZEPINE. The purpose is to implement Colorado Senate Bill 24-047 (CONCERNING THE PREVENTION OF SUBSTANCE USE DISORDERS, AND, IN CONNECTION THEREWITH, MAKING AN APPROPRIATION) which removes veterinarians from the definition of "prescriber" as used in Section 12-30-109; conforming the existing rule to the requirements of sections 12-30-109(6) and 12-280-404(4)(a.5), C.R.S.

DEPARTMENT OF REGULATORY AGENCIES

State Board of Veterinary Medicine

VETERINARIAN AND VETERINARY TECHNICIAN RULES AND REGULATIONS

4 CCR 727-1

[Editor's Notes follow the text of the rules at the end of this CCR Document.]

...

1.20 — RULES REGARDING THE USE OF BENZODIAZEPINE

~~The basis for the Board's promulgation of these rules and regulations is sections 12-20-204(1), 12-315-106(5)(g) and 12-315-126, C.R.S. The specific statutory authority for the promulgation of this Rule is section 12-30-109(6), C.R.S.~~

~~The purpose for the Board's promulgation of these rules and regulations are to implement rules required by section 12-30-109(6), C.R.S., related to requirements for prescribing benzodiazepines to patients that have not been prescribed benzodiazepines within the last twelve months.~~

~~A. — Licensees must limit any prescription for a benzodiazepine to no more than 30 continuous days, for a patient who has not received a benzodiazepine prescription within the last 12 months.~~

~~Prior to prescribing a benzodiazepine for a condition that is not exempt under section 12-280-404(4)(a.5), C.R.S., a licensee must comply with the requirements of section 12-280-404(4), C.R.S.~~

~~B. — The limitation stated in section (A) of this Rule does not apply to patients for whom licensees prescribe benzodiazepines for the following conditions:~~

~~1) — Epilepsy;~~

~~2) — A seizure or seizure disorder, or suspected seizure disorder;~~

~~3) — Spasticity; or~~

~~4) — A neurological condition, including a posttraumatic brain injury or catatonia.~~

~~C. — These rules do not require or encourage abrupt discontinuation, limitation, or withdrawal of benzodiazepines. Licensees are expected to follow generally accepted standards of veterinary medicine practice, based on an individual patient's needs, in tapering benzodiazepine prescriptions.~~

Subjects and issues involved

The Division of Disease Control and Public Health Response (DCPHR) within the Colorado Department of Public Health and Environment (CDPHE) is requesting a rulemaking hearing to revise 6 Colorado Code of Regulations (CCR) 1009-2, Infant Immunization Program and Immunization of Students Attending School. The passage of House Bill (HB) 25-1027 in the most recent legislative session requires CDPHE to update and revise 6 CCR 1009-2 to align with the current statute. The most significant change in the proposed rules is the incorporation by reference of the 2025 American Academy of Pediatrics (AAP) Recommended Child and Adolescent Immunization Schedule. In addition, CDPHE is proposing changes to better adhere to best practices and provide clarity. The Department has proposed changes that are technical in nature and intended to clarify existing rule language without significant policy change.

COLORADO

Department of Public Health & Environment

1
2 To: Members of the Colorado State Board of Health
3
4 From: Heather Roth, Immunization Branch Chief
5 Through: Diana Herrero, Interim Director of Disease Control and Public Health Response Division
6
7 Date: October 15, 2025
8
9 Subject: 2025 Board of Health Request for Rulemaking: 6 CCR 1009-2: Infant Immunization Program and Immunization of Students Attending School

11 The Division of Disease Control and Public Health Response (DCPHR) within the Colorado Department of Public Health and Environment (CDPHE)
12 is requesting a rulemaking hearing to revise 6 Colorado Code of Regulations (CCR) 1009-2, Infant Immunization Program and Immunization of
13 Students Attending School. Colorado requires students attending school or licensed child care to be immunized against certain diseases unless a
14 Certificate of Medical or Nonmedical Exemption is filed. The purpose of the immunization requirements for school entry is to protect students,
15 staff, and the community against vaccine-preventable diseases.

16 These rules establish immunization requirements for students attending schools, which include Head Start programs, licensed child care facilities,
17 child care centers, preschools, family child care homes, school-age child care centers, and camps, PK-12 schools, and higher education facilities
18 with residence facilities in Colorado. The rules cover:

- 19 ● Minimum immunization requirements to attend school
- 20 ● Exemption processes
- 21 ● Requirements related to denial of attendance
- 22 ● Required recordkeeping and reporting by certain school facilities
- 23 ● And other related rules

24 The passage of [House Bill \(HB\) 25-1027](#) in the most recent legislative session requires CDPHE to update and revise 6 CCR 1009-2 to align with the
25 current statute. The most significant change in the proposed rules is the incorporation by reference of the 2025 American Academy of Pediatrics
26 (AAP) Recommended Child and Adolescent Immunization Schedule.

27 In addition, CDPHE is proposing changes to better adhere to best practices and provide clarity.

- 28 ● As the 2025 AAP immunization schedule only covers children 18 years and younger, additional rule language in Appendix A defines the
29 immunization requirements for students attending public, private, or parochial secondary schools through grade 12 who are aged 19
30 through 21 years.
- 31 ● Adding language in the definition of an “in-process student,” stating that a student is also considered “in-process” if their Certificate of
32 Medical or Nonmedical Exemption has expired and they are in the process of submitting any of the following to their school: 1) a new
33 Certificate of Medical or Nonmedical Exemption, 2) an immunization record documenting that the student is up to date on all school-
34 required vaccines, or 3) has a signed written plan for obtaining the remaining required vaccines, administered according to the
35 medically recommended minimum intervals.
- 36 ● Clarifying valid doses of age-appropriate measles, mumps, and rubella (MMR) vaccine series for college/university students.

32

- Clarifying that students who are eligible for the McKinney-Vento Homeless Assistance Act may be exempt from certain stipulations of the rule.
- Changing the requirement for the timing of the adolescent dose of the tetanus, diphtheria, and pertussis vaccine (Tdap) to be given prior to seventh grade entry (instead of prior to sixth grade entry), in accordance with best practices.
- Updating language for when college and university students who are residing in student housing should receive a dose of meningococcal vaccine (MenACWY).
- Clarifying the definitions of a “college or university student” and a “college or university.”
- Clarifying the timing of medical and nonmedical exemptions.
- Updating rules in accordance with HB 25-1027, including:
 - Clarifying that CDPHE may use the immunization schedule or recommendations published by the Advisory Committee on Immunization Practices (ACIP), American Academy of Family Physicians (AAFP), the American Academy of Pediatrics (AAP), American College of Obstetrics and Gynecologists (ACOG), or the American College of Physicians (ACP).
 - Extending the period from when a school notifies a student’s family of immunization noncompliance to when the student will be excluded from school if updated immunization documentation is not received (the “in process” period) from 14 days to 30 days.
 - Starting in the 2025-2026 school year, extending the deadline for schools and child cares to send the Department’s Annual Parent Letter to the parent/guardian (or self, if student is emancipated) of every enrolled student from Feb. 15 to April 15.
 - For purposes of out-of-state campers attending a licensed children’s residential camp, allowing the camp to maintain an out-of-state immunization record for an out-of-state camper, rather than requiring them to transfer out-of-state records onto the state’s Official Certificate of Immunization.
 - Repealing the requirement for schools to notify the department and the local public health agency when a student is suspended or expelled from school for noncompliance with immunization requirements.

Finally, the Department has proposed changes that are technical in nature and intended to clarify existing rule language without significant policy change.

CDPHE staff carried out a wide-ranging stakeholder process, notifying over 26,000 individuals and organizations about this rulemaking process via email and holding a public meeting with college and university representatives in which the Division requested suggestions, concerns, and questions. The Division also collected written feedback via an online form (Formsite) and email.

After this initial stakeholder process was carried out, CDPHE revised the rules to incorporate the 2025 AAP immunization schedule by reference and include an additional Appendix to cover students ages 19-21 who are not covered in the AAP pediatric schedule. Stakeholder engagement was carried out a second time, and people were able to submit comments, questions, or suggestions via online form (Formsite) or email.

2

STATEMENT OF BASIS AND PURPOSE AND SPECIFIC STATUTORY AUTHORITY

3

for

4

6 CCR 1009-2: Infant Immunization Program and Immunization of Students Attending School

5 **Background**

6

The Division of Disease Control and Public Health Response (DCPHR) within the Colorado Department of Public Health and Environment (CDPHE) is requesting a rulemaking hearing to revise 6 Colorado Code of Regulations (CCR) 1009-2, Infant Immunization Program and Immunization of Students Attending School. Colorado requires students attending school or licensed child care to be immunized against certain diseases unless a Certificate of Medical or Nonmedical Exemption is filed. The purpose of the immunization requirements for school entry is to protect students, staff, and the community against vaccine-preventable diseases.

7

8

9

10

11

These rules establish immunization requirements for students attending schools, which include Head Start programs, licensed child care facilities, child care centers, preschools, family child care homes, school-age child care centers, and camps, PK-12 schools, and higher education facilities with residence facilities in Colorado. The rules cover:

12

13

14

- Minimum immunization requirements to attend school

15

- Exemption processes

16

- Requirements related to denial of attendance

17

- Required recordkeeping and reporting by certain school facilities

18

- And other related rules

19

The passage of [House Bill \(HB\) 25-1027](#) in the most recent legislative session requires CDPHE to update and revise 6 CCR 1009-2 to align with the current statute. In addition, CDPHE is proposing changes to incorporate the AAP schedule, to better adhere to best practices, and to provide clarity.

20

21

22 **Statutory authority**

23

25-4-904, C.R.S. states that the State Board of Health shall establish rules for administering the School Entry Immunization statutes (25-4-901 through 912). According to statute, the State Board of Health shall establish the immunizations required for school and the manner and frequency of their administration, and the rules should conform to “recognized standard medical practices.”

24

25

26 **Summary of significant changes**

27

CDPHE proposes several changes to the rule that are intended to:

28

- Align the rules with the updated statute

29

- Adhere to best practices and evidence-based science

30

- Provide further clarity to the rule

Department of Public Health & Environment

1
1 The proposed changes were the result of an internal review of the existing rule, feedback received from stakeholders, and consideration of best
2 practices.

3 Changes in response to statutory updates

4 The following changes ensure the rules are in alignment with the changes in law from [House Bill \(HB\) 25-1027](#).

6 **The Board may take into consideration recommendations from various medical bodies in establishing school vaccine**
7 **requirements.** These include recommendations published by CDC's Advisory Committee on Immunization Practices (ACIP), American Academy
8 of Family Physicians (AAFP), American Academy of Pediatrics (AAP), American College of Obstetricians and Gynecologists (ACOG), or the American
9 College of Physicians (ACP). The rule has been updated to provide definitions of these medical bodies.

10 **The "in process" period for a student has been extended from 14 days to 30 days.** This period refers to the time between when a
11 school notifies a student's parent or guardian of immunization noncompliance to when the student will be excluded from school if updated
12 immunization documentation is not received.

13 **The deadline for schools and child cares to send the Department's Annual Parent Letter to the parent or guardian of every**
14 **enrolled student has been extended from Feb. 15 to April 15.** This change will take effect in the current 2025-2026 school year. The
15 Department's responsibility to update and post the Annual Parent Letter by Jan. 15 remains unchanged.

16 **Licensed children's residential camps may use out-of-state immunization records for out-of-state campers rather than being**
17 **required to transfer out-of-state immunization records onto Colorado's Official Certificate of Immunization.** Maintaining out-of-state
18 immunization records for out-of-state campers removes unnecessary administrative burden while retaining capacity for vaccine-preventable
19 disease outbreak responses within the camp setting.

20 **Schools are no longer required to notify CDPHE and their local public health agency when a student is suspended or expelled**
21 **from school for noncompliance with immunization requirements.** This requirement is not allowed under the Family Educational Rights and
22 Privacy Act (FERPA) and was not being used in the school setting.

23 Changes in response to best practices

24 The following proposed changes to the rules are guided by current best practices, both in terms of policy and evidence-based science.

26 **The proposed revisions incorporate the 2025 AAP immunization schedule by reference for children 18 years and younger and**
27 **create guidelines for high school students aged 19-21 based on the ACIP immunization schedule published in November 2024.**

28 CDPHE considered pediatric vaccine recommendations from ACIP and AAP and determined the 2025 AAP immunization schedule to have the
29 greatest positive impact on the health of Coloradans. As the AAP immunization schedule only provides guidance through age 18, CDPHE also
30 created Appendix A based on 2024 ACIP guidance.

31 **Certificates of Medical Exemption for temporary conditions will expire after the "temporary until" date has elapsed,** which is
32 determined by the immunizing provider who is signing the form. Schools must monitor the expiration date of any certificates of exemption. While
33 some medical contraindications to one or more school-required vaccines are lifelong, others are temporary, such as pregnancy, recent receipt of
34 antibody-containing blood product, or temporary use of immunosuppressive therapies.

35 **The timing of when the adolescent dose of the tetanus, diphtheria, and pertussis (Tdap) vaccine is required will change from**
36 **before a student's first day of sixth grade to before a student's first day of seventh grade.** Tdap is routinely recommended at age 11-
37 12 years. Most students entering sixth grade are 11 years old, some are 10, and a small number of accelerated students are 9. Most students
38 entering seventh grade are 12 years old, some are 11, and a small number of accelerated students are 10. This change better aligns student age
39 with AAP recommendations, reducing confusion among providers and families.

COLORADO

Department of Public Health & Environment

1 In addition, a change to a seventh grade requirement will align the timing of this adolescent Tdap vaccine requirement with the majority of other
2 states and jurisdictions (~76.5%, according to CDPHE research). To assess whether to make this change, CDPHE staff carried out a survey with
3 324 school nurses, local public health agency staff, and immunization providers. 69% of respondents agreed that the sixth grade Tdap
4 requirement should be changed to seventh grade. (See the section on stakeholder engagement for more details on the survey and results.)

5 Changes to clarify rule

6 The following changes are a result of program experience and stakeholder feedback on areas of the rules needing greater clarification and
7 precision.

8 **Revisions provide added visibility for students eligible for the McKinney-Vento Homeless Assistance Act and how they may be**
9 **exempt from certain stipulations of the rule.** This change clarifies federal law related to who is eligible for exceptions and special
10 consideration under the McKinney-Vento Homeless Assistance Act and defines who these students are in rule. This is in response to community
11 partners and other state agencies expressing concerns that the rule should highlight the needs of these vulnerable students.

12 **Additional details have been added to the definitions of a “college or university student” and a “college or university.”** Details
13 from the definition of a “school” (Section I-O) have been added to the definition of a “college or university student” to provide consistency and
14 clarity. Language was added to the definition of a “school” to clarify that the immunization requirement only pertains to colleges and universities
15 that have residence hall facilities within their systems.

16 **New language adds clarity for when college and university students who are residing in student housing should receive a dose of**
17 **meningococcal vaccine (MenACWY).** The added language aligns with best practice guidelines to clarify that the MenACWY vaccine needs to
18 be given within: 1) the last five years, and 2) on or after the student’s 16th birthday. The added language also specifies that college or university
19 administrators may use either: 1) the student’s move-in date, or 2) the student’s first day of classes as a fixed date to determine whether the
20 MenACWY vaccine was administered within the required time frame. Stakeholders expressed that this added precision would help them enforce
21 the rules.

22 **Language changes provide clarity on the timing for Certificates of Medical Exemption.** Language was removed so that Certificates of
23 Medical Exemption will not expire when a “student’s information or school changes.” Most medical contraindications (i.e., severe allergic reaction
24 after a previous dose or to a vaccine component) are lifelong and would not be useful to revisit. Additional language has been added to the rule to
25 clarify that Certificates of Medical Exemption associated with temporary conditions (such as pregnancy or immune-compromising treatment) may
26 have a “temporary until” date on the form. Schools must monitor the expiration date. For permanent conditions, the Certificate of Medical
27 Exemption is submitted to the school once. (Like other official school immunization records, when a student withdraws, transfers, or promotes to
28 a different school, the school officials either returns the exemption form or transfers it to the new school.)

29 **Additional language provides clarity for higher education about when Certificates of Nonmedical Exemption are required to be**
30 **submitted.** A new Certificate of Nonmedical Exemption is required anytime the student enrolls in a new college or university.

31 **Section XII, the definition of CDPHE’s Online Immunization Education Module, has been revised to more closely match the**
32 **definition included within statute (CRS 25-4-903 2.7).** Standardizing the definition of the education module across rule and statute helps
33 ensure fidelity to the law and gives CDPHE the greatest latitude to design a module that meets the current best practices and needs of
34 Coloradans.

35 **Language was added to better describe the MMR vaccine requirement for college and university students.** This gives college and
36 university administrators guidance on how to assess if doses of MMR vaccine were administered according to best practice guidelines.

37

COLORADO
Department of Public
Health & Environment

1
1 **Specific statutory authority:** 25-4-904, C.R.S

2 **Is this rulemaking due to a change in state statute?**

3 Yes No

4 Rules are authorized required.

5 **Does this rulemaking include proposed rule language that incorporates materials by reference?**

6 Yes URL No

7 **Does this rulemaking include proposed rule language to create or modify fines or fees?**

8 Yes No

9 **Does the proposed rule language create (or increase) a state mandate on local government?**

10 Yes No.

11 The proposed rule does not require a local government to perform or increase a specific activity for which the local government
12 will not be reimbursed;

13 The proposed rule requires a local government to perform or increase a specific activity because the local government has opted
14 to perform an activity, or;

15 The proposed rule reduces or eliminates a state mandate on local government.

COLORADO

REGULATORY ANALYSIS

1
1

2

for

3

6 CCR 1009-2: Infant Immunization Program and Immunization of Students Attending School

4

5

1. A description of the classes of persons affected by the proposed rule, including the classes that will bear the costs and the classes that will benefit from the proposed rule.

6

Group of persons/entities affected by the proposed rule	Size of the group	Relationship to the proposed rule Select category: C/S/B
Public and private schools, child cares, colleges/universities, camps	> 5000	C/B
The Colorado Department of Education, the Colorado Department of Human Services, the Colorado Department of Higher Education, the Colorado Office of Early Childhood	~200 staff	C
Students enrolled in Colorado schools (preschool, child care, K-12, and college and university)	~1.2 million	S, B
Parents/legal guardians of school-age children	~2.4 million	S, B
Local public health agencies (LPHAs) and the Department	~57	B
Immunization providers	~100,000	C, B
Population of Colorado	~6 million	

7

8

While all are stakeholders, groups of persons/entities connect to the rule and the problem being solved by the rule in different ways. To better

9

understand those different relationships, use this relationship categorization key:

10

C = Individuals/entities who implement or apply the rule.

2

1
1 S = Individuals/entities who do not implement or apply the rule but are interested in others
2 applying the rule.

3 B = Individuals who are ultimately served, including the customers of our customers. These individuals may benefit, be harmed by, or be
4 at risk because of the standard communicated in the rule or the manner in which the rule is implemented.

5 More than one category may be appropriate for some stakeholders.

6

7 **2. To the extent practicable, a description of the probable quantitative and qualitative impact of the proposed rule, economic or**
8 **otherwise, upon affected classes of persons.**

9 ***Economic outcomes***

10 Individuals/entities who implement or apply the rule (C)

11 ● **Implementers may have to expend minor financial resources to adjust systems and forms:** While most changes do not
12 constitute enough of a shift in the rules, some implementers may need to update forms or processes to align with the new rules. A few
13 examples:

- 14 ○ Schools with seventh grade students will need to send out communications and update processes as the state moves from
15 a sixth to a seventh grade Tdap requirement.
- 16 ○ Schools will need to incorporate new documentation such as the updated Certificate of Medical Exemption.

17 There are no apparent economic outcomes for any other stakeholder group. The proposed changes to this rule will result in clarification for
18 consistent interpretation by end-users of the rule and better alignment with current medical practice, both of which the Department expects will
19 result in improved customer experience.

20 ***Non-economic outcomes***

21 Summarize the anticipated favorable and unfavorable non-economic outcomes (short-term and long-term), and, if known, the likelihood of the
22 outcomes for each affected class of persons by the relationship category.

23 Individuals/entities who implement or apply the rule (C)

24 ● **Increased clarity on proper procedures:** Updates to rule language, grammar changes, and increased precision of key definitions
25 within the proposed rules provide clarity and reduce ambiguity for implementers.

26 ● **Enabling camps to use out-of-state immunization records will decrease their administrative workload:** This rule change
27 enables camps to use out-of-state records to meet Colorado's immunization requirements.

28 ● **Additional time to release the parent letter** gives schools and child cares added flexibility to send information on immunization
29 requirements during the time when they send out other communications for the next school year.

2

1
1 Individuals who are ultimately served (B)

2 ● **The time extension for families to be in compliance with immunization records has the potential to improve education**
3 **and immunization outcomes.** Previously, families had 14 days to get into compliance with immunization requirements before being
4 denied attendance. With a 30-day time period, families are more likely to have time to schedule vaccine appointments and come into
5 compliance.

6 **3. The probable costs to the agency and any other agency of the implementation and enforcement of the proposed rule and any**
7 **anticipated effect on state revenues.**

8 CDPHE does not estimate any costs for implementing and enforcing the rule.

9
10 **Anticipated personal services, operating costs, or other expenditures by another state agency:**

11 **Anticipated revenues for another state agency:**

12 CDPHE does not anticipate any costs or revenue for any other state agency.

14 **4. A comparison of the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.**

15 Costs of these rule changes are almost nonexistent, but there is a potential for significant benefits in providing clarity for everyone engaged in
16 these rules. The proposed changes to this rule will result in clarification for consistent interpretation by end-users of the rule and better alignment
17 with current medical practice, both of which the Department expects will result in improved customer experience.

18 **Along with the costs and benefits discussed above, the proposed revisions:**

19 **Comply with a statutory mandate to promulgate rules.**

20 Comply with federal or state statutory mandates, federal or state regulations, and department funding obligations.

21 **Maintain alignment with other states or national standards.**

22 Implement a Regulatory Efficiency Review (rule review) result

23 **Improve public and environmental health practice.**

24 **Implement stakeholder feedback.**

25 **Advance the following CDPHE Strategic Plan priorities:**

26 Goal 1, Implement public health and environmental priorities

27 Goal 2, Increase Efficiency, Effectiveness and Elegance

28 Goal 3, Improve Employee Engagement

COLORADO
Department of Public Health & Environment

Goal 4, Promote health equity and environmental justice

Goal 5, Prepare and respond to emerging issues, and

Comply with statutory mandates and funding obligations

Strategies to support these goals:

- Substance Abuse (Goal 1)
- Mental Health (Goal 1, 2, 3 and 4)
- Obesity (Goal 1)
- Immunization (Goal 1)**
- Air Quality (Goal 1)
- Water Quality (Goal 1)
- Data collection and dissemination (Goal 1, 2, 3, 4, 5)**
- Implement quality improvement/a quality improvement project (Goal 1, 2, 3, 5)**
- Employee Engagement (Goal 1, 2, 3)
- Decisions incorporate health equity and environmental justice (Goal 1, 3, 4)**
- Detect, prepare, and respond to emerging issues (Goal 1, 2, 3, 4, 5)
- Advance CDPHE Division-level strategic priorities.**

5. A determination of whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

Rulemaking is proposed when it is the least costly method or the only statutorily allowable method for achieving the purpose of the statute. The specific revisions proposed in this rulemaking were developed in conjunction with stakeholders. The benefits, risks, and costs of these proposed revisions were compared to the costs and benefits of other options. The proposed revisions provide the most benefit for the lowest cost, are the minimum necessary, or are the most feasible manner to achieve compliance with statute.

6. Alternative rules or alternatives to rulemaking considered and why rejected.

Few alternative methods for achieving the purpose of the proposed rules were considered because the statute refers to rulemaking.

7. To the extent practicable, a quantification of the data used in the analysis; the analysis must take into account both short-term and long-term consequences.

No quantitative analysis is appropriate.

COLORADO

Department of Public Health & Environment

STAKEHOLDER ENGAGEMENT

for

6 CCR 1009-2: Infant Immunization Program and Immunization of Students Attending School

State law requires agencies to establish a representative group of participants when considering to adopt or modify new and existing rules. This is commonly referred to as a stakeholder group.

These rules affect a broad swath of Coloradans, and our engagement was similarly broad. The engagement occurred in two rounds. Round 1 included most of the proposed changes described in this packet. However, before the Division submitted the request, AAP released an updated 2025 recommended immunization schedule. After considering several options, the Division chose to use this schedule, made the necessary changes to the rules, and re-released the proposed changes for an accelerated feedback round, Round 2.

Round 1 stakeholder engagement included:

- Emails inviting stakeholders to submit written feedback
- Written feedback collected via email or online feedback form throughout the entire process
 - Four emails were received by program staff.
 - Six submissions were received through the online feedback form.
- A survey to school nurses and immunizing providers to specifically assess their opinions on changing the Tdap vaccine requirement from sixth to seventh grade

We also conducted targeted outreach for specific sections that touch on specialized topics.

- For the rules affecting higher education stakeholders, we held a virtual listening session June 11 for approximately two hours to collect feedback. 15 representatives from higher education attended. Many of the changes made in rule are a result of questions that came from this group and their requests for additional clarification and consistency.
- In drafting the language around students who qualify under the McKinney-Vento Act (MVA), we reached out to MVA experts at the Colorado Department of Education to review the language.
- In ensuring that all Head Start programs were appropriately included in our definition, we reached out to the Head Start Collaboration State Director at the Colorado Department of Early Childhood to clarify regulations around Head Start programs.
- Individualized emails sent out to contacts from organizations defined in the rules, specifically asking for feedback regarding those definitions. These organizations included:
 - Colorado Academy of Physician Assistants
 - American Academy of Pediatrics
 - American College of Obstetricians and Gynecologists

COLORADO

Department of Public Health & Environment

1
1 American Academy of Family Physicians

2 American College of Physicians

3 **Round 2 stakeholder engagement** included:

4 Emails inviting stakeholders to submit written feedback

5 Written feedback collected via email or online feedback form

6 9 emails received by program staff.

7 26 submissions were received through the online feedback form.

8 The emails inviting people to submit written feedback went out to a vast number of people, including listservs and multiple agencies. The below
9 table outlines the mailing lists our engagement utilized for both rounds.

	Who owns listserv	Approximate number of people included in listserv
LPHAs		
LPHA directors and staff	CDPHE	411
Schools (K-12)		
School nurses	CDE	2,400
Schools of choice (charter schools and blended learning)	(some are included in the CDE school nurse communication)	Unknown
Child care facilities and licensing		
Child care health consultants (CCHC)	Healthy Child Care Colorado	964 subscribers receive the CCHC Network Newsletter
Department of Early Childhood (CDEC) licensed providers	Colorado Department of Early Childhood (CDEC)	~26,000 (includes all facility license types)
Early Childhood Council Leadership Alliance (ECCLA)	ECCLA director	35 individual councils, ~50 people. Coaches, QI Navigators, and others that local Early Childhood Councils have requested to receive emails. Many also forward it on to the networks of programs and providers.
Early Childhood Education Association of Colorado		
Head Start	CDPHE	150 directly receive communications. They may be shared with CDEC staff, state agency partners, and federal Region 8 staff.

1

Regulators		
School health inspectors	CDPHE's Division of Environmental Health and Sustainability (DEHS)	120. DEHS and environmental health specialists working in LPHAs
Child care licensing specialists	CDEC	70
Camps		
Colorado Camp Association	Colorado Camp Association leadership	All accredited and member camps in Colorado, ~45-50 facilities
Higher education		
Colleges and universities with resident hall facilities in their systems	CDPHE	24 facilities
Immunization contacts		
Colorado Immunization Information System (CIIS) users	CDPHE	24,000
Vaccines for Children providers	CDPHE	3,319
Advocacy organizations and interested individuals	CDPHE	~500

1

2 **Stakeholder feedback**

3 **Out of thousands of stakeholders contacted, only eight expressed concerns about shifting from the ACIP to the AAP immunization**
 4 **schedule.** Statute allows the Board of Health flexibility to use AAP's comprehensive, evidence-based recommendations in determining school
 5 vaccine requirements.

6 Other respondents approved of and supported the change (six individual submissions). For example, one respondent wrote, "Thank you for
 7 following the AAP and following evidence-based medicine and sound science." Another wrote, "I appreciate [the] use of the AAP rather than the
 8 new ACIP rules. Please hold strong. I am the daughter of [a] polio survivor who is 85 years old and has post polio syndrome." Many organizations
 9 wrote to support the change:

- 10 ● American Academy of Pediatrics, Colorado Chapter
- 11 ● Children's Hospital Colorado
- 12 ● Adams County Health Department
- 13 ● Boulder County Public Health
- 14 ● Colorado Nurses Association
- 15 ● Colorado Association of School Nurses

2

COLORADO

Department of Public Health & Environment

- 1 ● Colorado Association of Local Public Health Officials
- 1
- 2 ● Colorado Academy of Family Physicians
- 3 ● Colorado Chapter of the American College of Physicians
- 4 ● Colorado Children's Campaign
- 5 ● Colorado Medical Society
- 6 ● Colorado PTA
- 7 ● Denver Health and Hospital Authority
- 8 ● Metro Denver Public Health Initiative
- 9 ● Public Health Institute at Denver Health
- 10 ● Immunize Colorado
- 11 ● Jefferson County Council PTA
- 12 ● Youth Healthcare Alliance

13 **Both AAP and AAFP requested minor changes to the definitions of their respective organizations, which CDPHE implemented.** ACP
14 also responded to our query and found our proposed definition acceptable.

15 **A few stakeholders expressed concerns that the rules around noncompliance do not fully take into account hardships and**
16 **challenges faced by individual students.** Special considerations related to the exclusion of "indigent" children are already in rule. Adding
17 language for the McKinney-Vento Act clarifies existing federal law, which provides liaisons and additional resources to help children who are in
18 marginalized circumstances. The proposed rule revisions merely clarify who these children are and outline the exceptions to the rule that may
19 apply to these students.

20 **Surveyed stakeholders voted overwhelmingly in support of changing the Tdap requirement from sixth to seventh grade.** Of the
21 324 people who completed the survey, 69% (or 223 respondents) stated they would prefer a change to a seventh grade Tdap requirement. Some
22 respondents enthusiastically expressed support, with one writing, "I've been wanting this for YEARS! If it doesn't change, I'll be heartbroken!"
23 Respondents in favor of the change cited their desires to increase clarity among parents and providers and align Colorado's rules with other
24 states (especially for military families).

25 CDPHE also received feedback from stakeholders who preferred to keep the Tdap requirement at sixth grade entry.

26 ● Five respondents stated concerns that any changes to the timing of required school vaccines may create controversy and increase
27 vaccine hesitancy.

28 ○ While this is understandable given the current discussions around vaccines, CDPHE staff believe the advantages of better
29 alignment of law with the AAP schedule will reduce existing confusion and frustration among parents and providers.

30 ● Eight respondents stated that they believed the Tdap vaccine requirement should be age-based rather than grade-based.

COLORADO

Department of Public Health & Environment

3
4
5
6
7
8
9
10
11

This option was considered by CDPHE staff. However, enforcement of this law was deemed too resource-intensive for school nurses, who would need to regularly assess students' dates of birth, as opposed to a requirement that applies to an entire cohort (i.e., all students entering seventh grade).

Eleven respondents stated that it is better to have this Tdap requirement at sixth grade entry, as there are many other school requirements (such as paperwork to enter middle school) that often occur at this age.

While there may be school-specific documentation requirements to begin middle school, preventative health visits and well-child checks are recommended annually. Moving the Tdap requirement to seventh grade provides better alignment of a student's age with vaccines recommended for adolescents, received during that annual visit. These include:

- Tdap vaccine at age 11-12
- Meningococcal (MenACWY) vaccine at age 11-12
- HPV vaccine at age 9-12 years

1 DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT

2 Disease Control and Public Health Response Division

3 THE INFANT IMMUNIZATION PROGRAM AND IMMUNIZATION OF STUDENTS ATTENDING SCHOOL

4 6 CCR 1009-2

5

6 I. Definitions

- 8 A. ~~Advisory Committee on Immunization Practices (ACIP) – a federal advisory committee group of medical and public health experts that develops recommendations on~~
9 ~~the how to use of vaccines for the public to control diseases in the United States. ACIP was established under Section 222 of the Public Health Service Act (42 U.S.C.~~
10 ~~§217a).~~
- 11 B. ~~Alternate Certificate of Immunization – A Certificate of Immunization created by a school district, college or university, or practitioner’s Electronic Health Record system~~
12 ~~that must meet a minimum criteria set by the Department to be considered equivalent with Colorado’s Official Certificate of Immunization. The Alternate Certificate of~~
13 ~~Immunization must be approved by CDPHE and renewed annually. This includes approved Certificates of Immunization from select states that the Department~~
14 ~~recognizes to be consistent with Colorado’s Official Certificate of Immunization.~~
- 16 C. ~~American Academy of Family Physicians (AAFP) – A national medical association for family physicians, residents, and medical students with a commitment to treating~~
17 ~~the whole person through the specialty of family medicine. The AAFP supports recommendations on the use of vaccines to prevent and control diseases in the United~~
18 ~~States.~~
- 20 D. ~~American Academy of Pediatrics (AAP) – A national medical organization for pediatricians committed to the optimal physical, mental, and social health and well-being~~
21 ~~for all infants, children, adolescents, and young adults. The AAP supports evidence-based recommendations on the use of immunizations to prevent and control~~
22 ~~diseases in the United States.~~
- 24 E. ~~American College of Obstetricians and Gynecologists (ACOG) – A national professional membership organization for obstetricians and gynecologists that is dedicated~~
25 ~~to improving the lives of all people seeking obstetric and gynecologic care, their families, and communities. The ACOG supports recommendations on the use of~~
26 ~~vaccines to control diseases in the United States.~~
- 27 F. ~~American College of Physicians (ACP) – A global medical specialty organization of internal medicine specialists and subspecialists who apply scientific knowledge and~~
28 ~~clinical expertise to the diagnosis, treatment, and compassionate care of adults. The ACP supports recommendations on the use of vaccines to control diseases in the~~
29 ~~United States.~~
- 30 G.B. Child – any student less than 18 years of age.
- 31 H.C. College or university student – any student who is enrolled ~~in~~for one or more classes at a college or university and who is physically present at the institution ~~for~~
32 ~~participation in classes, enrichment, athletics, or other activities.~~
- 33 1. This includes students who are auditing classes, but does not include
- 34 a. ~~Nontraditional adult students as defined by the governing board of the institution; or~~
- 35 b. ~~Persons taking classes online or by correspondence only.~~
- 36 I. ~~Delegated physician assistant – a licensed physician assistant authorized under section 12-240-107 (6), C.R.S., to execute Certificates of Immunization, Certificates of Medical~~
37 ~~exemptions and/or supervise a public health or school nurse, as authorized by part 9 of article 4 of title 25, C.R.S.~~
- 38 I. E. Department (the) – the Colorado Department of Public Health and Environment.
- 39 J.F. Dose – a measured quantity of an immunizing agent; quantity and frequency of administration ~~described in Section II of these rules determined by recognized health-~~
40 ~~authorities and the manufacturer of each agent.~~

- 1 | K.G. Emancipated student – any student who has reached 18 years of age; a lawfully married child of any age; a child 15 years of age or older who is managing their own
2 | financial affairs and who is living separate and apart from their parent.
- 3 | L.H. Immunization information system – a comprehensive immunization tracking system the Department is required to maintain pursuant to section 25-4-2403(2), C.R.S. that
4 | enables the collection of epidemiological information from the sources delineated in section 25-4-2403(2), C.R.S. and the investigation and control of communicable
5 | diseases. Individuals, parents and ~~legal~~ guardians may provide information to the immunization information system; however, pursuant to section 25-4-2403(7), C.R.S.,
6 | they have the option to exclude their or their student's immunization information from the immunization information system at any time.
- 7 | M. ~~Immunization record – a paper or electronic document from the records of a licensed physician, a physician assistant, an advanced practice registered nurse, or a public~~
8 | ~~health official that includes the dates and types of immunizations administered to a student.~~
- 9 | N.I. Indigent child – any child whose parent cannot afford to have the child immunized or, if emancipated, who cannot themselves afford immunization, and who has not been
10 | exempted.
- 11 | O.J. Infant – any child up to twenty-four months of age or any child eligible for vaccination and enrolled under the Colorado Medical Assistance Act, Articles 4, 5, and 6 of
12 | Title 25.5, C.R.S.
- 13 | P.K. In-process student – a student may be considered in-process if:
- 14 | 1. Within ~~thirty fourteen~~ days after receiving direct personal notification that the Official Certificate of Immunization is not up-to-date according to the
15 | requirements of the State Board of Health, the parent, guardian or emancipated student submits documentation that the next required immunization(s)
16 | has/have been given and, if needed, a signed written plan for obtaining the remaining required immunizations. The scheduling of immunizations in the
17 | written plan shall follow medically recommended minimum intervals consistent with the immunization schedule as defined in Section II and Appendix A of
18 | these rules. If the parent, guardian, or emancipated student does not fulfill the plan, the school shall suspend or expel the student ~~shall be suspended or~~
19 | ~~expelled from school~~ for noncompliance per section 25-4-907, C.R.S. If the next dose is not medically indicated within thirty fourteen days, then the
20 | medically approved minimum intervals would apply.
- 21 | 2. Within thirty days after receiving direct personal notification that the Certificate of Medical or Nonmedical Exemption has expired, the parent, guardian or
22 | emancipated student is required to submit a new Certificate of Medical or Nonmedical Exemption, unless they provide an immunization record
23 | documenting that the student is up-to-date or provides a signed written plan for obtaining the remaining required immunizations, administered according to
24 | the medically recommended minimum intervals consistent with the immunization schedule as defined in Section II and Appendix A of these rules. If the
25 | parent, guardian, or emancipated student does not provide documentation to demonstrate compliance, the school shall suspend or expel the student for
26 | noncompliance per section 25-4-907, C.R.S.
- 27 | 3. College or university students, as defined in Section I (C), present to the appropriate school official ~~either (i) a signed written authorization requesting~~
28 | ~~local health officials to administer required immunizations or (ii) a signed, written plan~~ for receipt of the required immunization or the next required
29 | immunization in a series within either 30 days or the medically approved minimum interval. If this does not occur, the college or university student will not
30 | be allowed to enroll, remain enrolled, or audit for the current term or session. ~~Such written authorizations and plans must be signed by one parent or~~
31 | ~~guardian or the emancipated student or the student 18 years of age or older.~~
- 32 | Q. McKinney-Vento District Liaison – required in every school district by 42 USC § 11432(g)(1)(J)(ii): a person designated to be the primary point of contact to ensure
33 | students experiencing homelessness are identified and aware of their rights under the federal law.
- 34 | R. Medical exemption – an immunization exemption available when the physical condition of the student is such that one or more specified immunizations would endanger
35 | their life or health or are medically contraindicated due to other medical conditions.
- 36 | S.L. Nonmedical exemption – an immunization exemption based upon a religious belief whose teachings are opposed to immunizations or a personal belief that is opposed
37 | to immunizations.
- 38 | T. Official Certificate of Immunization – one of the following forms of documentation that includes the dates and types of immunizations administered to a student:
- 39 | 1. Information from an immunization record transferred by a licensed physician, a physician assistant, an advanced practice registered nurse, a public health
40 | official, or a school official onto a paper or electronic version of the Official Certificate of Immunization form created and maintained by the Department of
41 | Public Health and Environment; or
- 42 | 2. An electronic file or a hard copy of an electronic file provided to the school directly from the immunization information system, established pursuant to
43 | section 25-4-2403 C.R.S.

- 1 | U. Online Immunization Education Module – also known as the online education module, the module, or the online education module – is administered by the Department
2 | and offered to the public as one way for the parent, guardian, or emancipated student to obtain a Certificate of Nonmedical Exemption.
- 3 | V. M. Parent or guardian – the person or persons with parental or decision-making responsibilities for a child.
- 4 | W. Physician assistant – a licensed physician assistant (sometimes known as a physician associate) authorized under section 12-240-107 (6), C.R.S.
- 5 | X~~Y~~. Practitioner – a duly licensed physician, advanced practice nurse, or other person who is permitted and otherwise qualified to administer vaccines under Colorado law.
- 6 | Y~~Z~~. School – all child care facilities licensed by the Colorado Department of Early Childhood or the Colorado Department of Human Services including: Cchild care centers;
7 | school-age child care centers; preschools; day camps; resident camps; day treatment centers; family child care homes; foster care homes; and HHead SStart
8 | programs; unlicensed Head Start programs; public, private, or parochial kindergarten; elementary, or secondary schools through grade twelve; or a college or
9 | university. Schools include educational programs where courses are offered online (an online school or program as defined in 1 CCR 301-71) but where enrolled
10 | students are physically present at the institution for participation in enrichment, athletics, or other activities.
- 11 | 1. Schools do not include a public services short-term child care facility as defined in section 26.5-5-303(30), C.R.S., a guest child care facility as defined in
12 | section 26.5-5-303(16), C.R.S., a ski school as defined in section 26.5-5-307(6), C.R.S., a homeless youth shelter as defined in section 26-6-903(13),
13 | C.R.S., or college or university classes which are: Offered off-campus; offered to nontraditional adult students as defined by the governing board of the
14 | institution; offered at colleges or universities which do not have residence hall facilities within their systems; or; a school whose normal course of student
15 | instruction is delivered online only.
- 16 | Z, P. School health authority – an individual working for or on behalf of the child care facility or school who is knowledgeable about child care/school immunizations.
- 17 | AA, Q. School official – the school's chief executive officer or any person designated by them as their representative.
- 18 | BB, R. Student – any person enrolled in a Colorado school as defined in Section I (O), except:
- 19 | 1. A child who attends educational programs where courses are offered online (an online school or program as defined in 1 CCR 301-71) and the child is not
20 | physically present at the institution for participation in enrichment, athletics, or other activities;
- 21 | 2. A child who enrolls and attends a licensed child care center, as defined in section 26.5-5-303(5), C.R.S., which is located at a ski area, for up to fifteen
22 | days or less in a fifteen-consecutive-day period, no more than twice in a calendar year, with each fifteen-consecutive-day period separated by at least
23 | sixty days; and
- 24 | 3. College and university students as defined in Section I (GH).
- 25 | CC. Student identified as eligible for the McKinney-Vento Homeless Assistance Act – as described in 42 U.S.C. §11434a(2); a student attending public school (preK-12th
26 | grade) who lacks a fixed, regular, and adequate nighttime residence, including those who are living in transitional housing, living with others due to economic hardship,
27 | or are living in emergency or transitional shelters. This also includes students with a primary nighttime residence that is a public or private place not designed for or
28 | ordinarily used as a regular sleeping accommodation for people.
- 29 | 1. Unaccompanied students experiencing homelessness as described in 42 U.S.C. 11434a(6) are also eligible for if two conditions are met:
- 30 | a. The student's living arrangement meets the McKinney-Vento Act's definition of homeless; and,
- 31 | b. The student is not in the physical custody of a parent or guardian.
- 32 | DD, S. Titer – a laboratory test that measures the presence and amount of antibodies in blood. An antibody titers can be used to show that a person has a measurable level of
33 | immunity -is-immune-to some a specific diseases.
- 34 | EE, T. Up-to-date – all school-required vaccines have been administered to the student in accordance with Section I and Appendix A of these rules.
- 36 | II. Incorporation by reference
- 37 | A. Throughout these regulations, standards and requirements of an outside organization have been adopted and incorporated by reference. The material incorporated by
38 | reference cited herein includes only those versions that were in effect on August 19, 2025, and no later amendments to the incorporated materials. These regulations
39 | incorporate by reference;

1 | 1. 2025 Recommended Child and Adolescent Immunization Schedule for Ages 18 Years or Younger as approved by the American Academy of Pediatrics,
2 | as published on August 19, 2025. www.aap.org/immunizationSchedule

3 | 2. To align with the list of school-required vaccines in Colorado in Section III.A of these rules, these rules do not incorporate by reference recommendations
4 | for the following vaccines or immunizing agents:

5 | a. [COVID-19 vaccine](#)

6 | b. [Dengue vaccine](#)

7 | c. [Hepatitis A vaccine](#)

8 | d. [Human papillomavirus vaccine](#)

9 | e. [Influenza vaccine](#)

10 | f. [Meningococcal B vaccine](#)

11 | g. [Mpox vaccine](#)

12 | h. [Pneumococcal polysaccharide vaccine](#)

13 | i. [Respiratory syncytial virus monoclonal antibody](#)

14 | j. [Respiratory syncytial virus vaccine](#)

15 | k. [Rotavirus vaccine](#)

16 | 3. Meningococcal vaccine (MenACWY) is not required for school entry by these rules. However, the information requirements stipulated in Section IX(A)2 of
17 | these rules are guided by these referred materials.

18 | B. The Division of Disease Control and Public Health Response shall maintain certified copies of the complete text of the incorporated materials, which shall be available
19 | for public inspection during regular business hours, and shall provide certified copies of the materials at cost upon request. For information regarding how the
20 | incorporated materials may be obtained or examined, contact:

21 | [Division Director](#)
22 | [Division of Disease Control and Public Health Response](#)
23 | [Colorado Department of Public Health and Environment](#)
24 | [4300 Cherry Creek Drive South](#)
25 | [Denver, Colorado 80246-1530](#)

26 | C. The incorporated materials are available at:
27 | <https://cdphe.colorado.gov/immunization/general-information> and www.aap.org/immunizationSchedule

28 | **III. Minimum Immunization Requirements**

29 | A. To attend school, a student must have an up-to-date Official Certificate of Immunization with the dates and types of immunizations administered. Meeting the initial
30 | immunization requirements does not exempt a student from meeting subsequent requirements. This Official Certificate of Immunization must demonstrate
31 | immunization against the following diseases:

32 | 1. Hepatitis B

33 | 2. Pertussis

34 | 3. Tetanus

35 | 4. Diphtheria

- 1 | 5. *Haemophilus influenzae* Type bB (HibB)
- 2 | 6. Pneumococcal disease
- 3 | 7. Polio
- 4 | 8. Measles
- 5 | 9. Mumps
- 6 | 10. Rubella
- 7 | 11. Varicella

8 | B. Except as required in paragraphs (C) and (D) of this Section II, when healthcare providers administer the immunizations identified in Paragraph (A) of this Section II,
 9 | the immunizations will be administered according to the schedule incorporated by reference in Section II and the schedule in Appendix A of these rules, established by-
 10 | the ACIP as authorized in section 25-4-9042(1)(a), C.R.S.

11 | C. Students between the ages of 4 through 6 years are required to receive their final doses of Ddiphtheria, Ttetanus, and Pertussis (DTaP), Inactivated Polio Vaccine
 12 | (IPV), Mmeasles, Mmumps, and Rubella (MMR), and Varicella vaccines prior to kindergarten entry.

13 | D. Students are required to receive a dose of Ttetanus, Ddiphtheria, and Pertussis vaccine (Tdap) prior to 67th grade entry. One dose of Tdap is required for 67th through
 14 | 12th grades.

15 | E. Laboratory confirmation of positive titers is an acceptable alternative to the following vaccine components when submitted to the student's school:

- 16 | 1. For DTaP and Tdap, both the Ddiphtheria and Ttetanus titers must be positive. A titer is never acceptable to demonstrate immunity to Pertussis. The
 17 | Department will accept positive titers for Tetanus and Diphtheria. For Pertussis, the Department will require: (1) vaccination with an age-appropriate
 18 | Pertussis-containing vaccine series in alignment with the schedule incorporated in Section II of these rules and Appendix A ACIP schedule; or (2) a
 19 | eCertificate of mMedical or nNonmedical eExemption for the Pertussis component.
- 20 | 2. For MMR, titers for Mmeasles, Mmumps, and Rubella must all be positive. If any single titer is negative, the Department will require: (1) vaccination with
 21 | an age-appropriate MMR vaccine series in alignment with the schedule in Section II and Appendix A of these rules-ACIP, or (2) a eCertificate of mMedical
 22 | or nNonmedical eExemption for the component(s) for which the titer is negative.
- 23 | 3. For Varicella, the titer for Varicella must be positive. If the titer is negative, the Department will require: (1) vaccination with an age-appropriate
 24 | Varicella vaccine series in alignment with the schedule incorporated by reference in Section II and Appendix A of these rules-in-ACIP-schedule, or (2) a
 25 | eCertificate of mMedical or nNonmedical eExemption for the varicella vaccine.
- 26 | 4. A titer is not an acceptable alternative for Haemophilus influenzae Type bB, Hepatitis B, the Pertussis component of Tdap and DTaP vaccines,
 27 | Pneumococcal, Or Polio Vaccines, or the pertussis component of Tdap and DTaP vaccines.

28 | IV.HH. Exemptions from Immunization

29 | A parent or guardian shall have their student immunized, unless the student is exempted. An emancipated student shall have themselves immunized, unless the student is exempted.
 30 | A student is exempted from receiving the required immunizations when the requirements of either Paragraph A or B of this Section IVH are met.

31 | A. Medical exemption – A student obtains a medical exemption from one or more immunization requirements through submission of the Department's Certificate of
 32 | Medical eExemption completed and signed by an advanced practice nurse, a delegated physician assistant, or a physician licensed to practice medicine or
 33 | osteopathic medicine in any state or territory of the United States indicating that the physical condition of the student is such that one or more immunizations would
 34 | endanger their life or health or is medically contraindicated due to other medical conditions. This form is to be submitted to the school once for permanent conditions.
 35 | Medical exemptions for temporary conditions will expire after the "temporary until" date has elapsed, which is determined by the authorized immunizing provider who
 36 | signed the form. This expiration date shall be monitored by the school to determine when the student is eligible to receive the required immunization(s), unless the
 37 | student's information or school changes, and must be maintained on file at each new school the student attends.
 38 |

39 | B. Nonmedical exemption – A student obtains a nonmedical exemption from one or more immunization requirements through submission of the Department's Certificate of
 40 | nonmedical eExemption signed by one parent, or legal guardian, an or an emancipated student, or a student eighteen years of age or older.

41 | 1. A completed Certificate of nonmedical eExemption must also include either:

- 1 | a. The signature of a person who is authorized pursuant to Title 12 to administer immunizations within their scope of practice; or
- 2 | b. Confirmation of completion of the Department's eOnline Immunization eEducation mModule described in Section XII of this rule.
- 3 | 2. Frequency of submission by the parent, guardian, or emancipated student:
- 4 | a. Prior to kindergarten entry, the Department's Certificate of nNonmedical EExemption must be submitted each time an immunization is due
- 5 | according to at each interval in the schedule incorporated by reference in Section II, in the ACIP birth-18 years immunization schedule at
- 6 | which immunizations are due. This documentation is required only for those vaccines required to prevent the diseases listed in sSection III-
- 7 | (A). Exemptions will expire at the time the next immunizations are due according to the ACIP birth-18 years immunization schedule
- 8 | of incorporated by reference in Section II of these rules or when the student is enrolled to attend kindergarten.
- 9 | b. From kindergarten through twelfth grade, the Department's Certificate of Nonmedical Exemption must be submitted once per school year.
- 10 | Exemptions will expire annually on June 30th, the last official day of the school year. As long as the student is in compliance for the current
- 11 | school year, the Certificate of Nonmedical Exemption submitted as part of the school's designated early registration process is valid for the
- 12 | upcoming school year and will expire on June 30th of the following year.
- 13 | c. For school-aged children attending children's resident camps or day camps, a Certificate of Nonmedical Exemption must be submitted by
- 14 | the student's parent or guardian upon entry, or, if the student is emancipated, themselves. A Certificate of Nonmedical Exemption is an
- 15 | annual requirement in this age group and is valid if it is dated within the past 12 months.
- 16 | c. In the event of a disease outbreak for which immunization is required, no exemption or exception from immunization shall be recognized, and exempted persons may be
- 17 | subject to exclusion from school and quarantine.
- 18 | d. The following rules pertain to immunization records:
- 19 | 1. Immunization records of each student participating in a nonpublic home-based education program pursuant to sSection 22-33-104.5, C.R.S.; shall be
- 20 | maintained on a permanent basis by the parent in charge and in control of said program; and are required to be submitted:
- 21 | a. When a school district requires compliance with sSection 25-4-902, C.R.S. pursuant to sSection 22-33-104.5 (3)(G), C.R.S.; and
- 22 | b. When requested by a school district, institute charter school, or private school which the student attends for a portion of the school day.
- 23 | 2. A school district that is exercising its authority pursuant to Ssection 22-33-104.5(3)(G), C.R.S. or an independent school organized pursuant to Ssection
- 24 | 22-33-104 (2)(B), C.R.S. where students are enrolled but do not attend is entitled to only:
- 25 | a. A student's immunization records, as provided by the parent or legal guardian; or
- 26 | b. A statement signed by a parent or legal guardian that the student is exempt from immunization.
- 27 | e. All information distributed to parent(s) and guardians by school districts regarding immunizations shall inform them of their rights in Section IVH (A-D).

29 | **IV. Examination and audit of official school immunization records**

- 30 | The Department's representative shall have has the right to audit and verify records to determine compliance with the law. Discrepancies found through audits shall be corrected by
- 31 | school officials, and any student not in full compliance shall be suspended or expelled from school according to the following rules:
- 32 | A. If the parent(s), legal guardian, or emancipated student, or student 18 years of age or older was informed of the deficiencies in the student's official school immunization
- 33 | records pursuant to sSection I (PK) (1) of these rules, the student shall be suspended or expelled pursuant to section 25-4-907, C.R.S.
- 34 | B. If the parent(s), legal guardian or emancipated student, or student 18 years of age or older was not informed by a direct personal notification of the immunizations
- 35 | required and alternatives for compliance with the law, the school shall notify the parent(s), legal guardian or emancipated student within seven calendar days of the
- 36 | finding and the student shall: (a) provide proof of immunization within 30 days; (b) continue as an in-process student, (c) verify that the student is exempt, or (d) the
- 37 | student shall be suspended or expelled pursuant to section 25-4-907, C.R.S.
- 38 |
- 39 |

41 | **V. Denial of attendance**

- 42 | A. A student who is not in-process, not appropriately vaccinated for their age, or not exempt shall be denied attendance in accordance with the law.

1 | 1. No indigent child shall be excluded, suspended, or expelled from school unless the immunizations have been available and readily accessible to the
2 | indigent child at public expense.

3 | 2. No students identified as eligible for the McKinney-Vento Homeless Assistance Act may be denied enrollment due to a lack of immunization records.
4 | These students may participate in a documented interview with the McKinney-Vento District Liaison that may extend the in-process period beyond 30
5 | days.

6 | B. If the student is attending a school that is not subject to the School Attendance Law, section 22-33-101 et seq., C.R.S., school officials shall take appropriate action to
7 | deny attendance to the student in accordance with that school's procedures or contract with the student.

9 | **VI. Official school immunization records**

10 | A. Official school immunization records shall include:

11 | 1. The Department's Official Certificate of Immunization or an Alternate Certificate of Immunization approved by the Department, ~~which includes one of the~~
12 | ~~following forms of documentation:~~

13 | a. ~~A paper or electronic document that includes information transferred from the records of a licensed physician, registered nurse, a~~
14 | ~~delegated physician assistant, or public health official, or~~

15 | b. ~~An electronic file or hard copy of an electronic file provided to the school directly from the immunization information system established~~
16 | ~~pursuant to section 25-4-2403, C.R.S., or from a software program approved by the Department.~~

17 | 2. The Department's Certificate of ~~m~~Medical ~~e~~Exemption, and

18 | 3. The Department's Certificate of ~~n~~Nonmedical ~~E~~Exemption.

19 | B. Any immunization record (original or copy) ~~as defined by this rule provided by a physician licensed to practice medicine or osteopathic medicine in any state or territory~~
20 | ~~of the United States, registered nurse, delegated physician assistant, or public health official~~ may be accepted by a the school official as proof of immunization. ~~If not~~
21 | ~~already documented per paragraph (A)(1) of this Section the information must~~ is to be verified by the school official and transferred to an ~~e~~Official Certificate of
22 | Immunization ~~or Alternate Certificate of Immunization~~, except that the Department may waive transfer requirements for select states' Certificates of immunization the
23 | Department recognizes to be consistent with Colorado's Certificate of Immunization.

25 | 1. In lieu of an Official Certificate of Immunization, a licensed children's resident camp may maintain on file an out-of-state immunization record for an out-of-
26 | state camper attending the resident camp.

27 | C. Except as provided in subsection (B)(1) of this Section, Sschools shall have on file an official school immunization record for every student enrolled. The official school
28 | immunization record will be kept apart from other school records. When a student withdraws, transfers, ~~or~~ is promoted to a new school, or otherwise leaves a school, the
29 | school official shall return the Official Certificate of Immunization to the parent(s) guardian, or ~~or~~ emancipated student upon request, or transfer it with the student's
30 | school records to the new school. Upon a college or university student's request, the Official Certificate of Immunization shall be forwarded by the college or university
31 | as specified by the emancipated student.

32 | D. Schools must verify minimum immunization requirements are met on all submitted immunization records to ensure students are and remain in compliance with this rule.

33 | **VII. Reporting of ~~S~~statistical ~~I~~information**

34 | A. Annually, by January 15 of each year, any child care center, preschool or hHead sStart program that is licensed by the Colorado Department of Early Childhood or the
35 | Colorado Department of Human Services to provide care to ten or more children and are not exempt from reporting pursuant to sSection VII (B); unlicensed Head Start
36 | programs; and; public, private, or parochial schools with kindergarten, elementary or secondary schools through grade twelve, shall send aggregate immunization and
37 | exemption data, by antigen, to the Department.

38 | Required data shall include:

40 | 1. Total number of students and total number of kindergarten students enrolled in the school;

41 | 2. Total number of students and total number of kindergarten students who are up-to-date with immunizations, as required in Ssection II;

42 | 3. Total number of students and total number of kindergarten students who have a medical exemption for all immunizations, as required in sSection II;

- 1 4. Total number of students and total number of kindergarten students who have a medical exemption for one or more but not all immunizations, as required
2 in ~~s~~Section III;
- 3 5. Total number of students and total number of kindergarten students who have a nonmedical exemption for all immunizations, as required in ~~s~~Section III;
- 4 6. Total number of students and total number of kindergarten students who have a nonmedical exemption for one or more but not all immunizations, as
5 required in ~~s~~Section III;
- 6 7. Total number of in-process students and total number of in-process kindergarten students;
- 7 8. Total number of students and total number of kindergarten students not up-to-date for immunizations, as required in ~~s~~Section III, with no exemption on file,
8 and not in-process; and
- 9 9. Total number of students and total number of kindergarten students with no immunization records.
- 10 B. Schools not required to send aggregate immunization and exemption data to the Department include: K-12th grade schools whose normal course of schooling is online
11 only, school-age child care centers, family child care homes, drop-in centers, day treatment centers, foster care homes, day camps, and resident camps.

12 ~~C.~~ All schools required to report immunization data to the Department must make the immunization and exemption rates of their enrolled student population publicly
13 available upon request.

14 **Notification of noncompliance**

15 ~~A. ——— Section 25-4-907, C.R.S. requires that if a student is suspended or expelled from school for failure to comply with the immunization law, the school official shall notify the~~
16 ~~Department, or county, district, or municipal public health agency who shall then contact the parent(s) or emancipated student in an effort to secure compliance so that the student~~
17 ~~may be re-enrolled in school.~~

18 ~~B. ——— Upon receipt of an immunization referral from the school, the Department, or county, district, or municipal public health agency shall contact the parent(s) or legal~~
19 ~~guardian(s) of the referred student, the emancipated student or student 18 years of age and older to offer immunization and secure compliance with the school immunization law.~~

20 **IX. Requirements for college and university students, colleges, and universities:**

21 The provisions below apply only to colleges or universities, or college or university students~~students enrolled in a college or university.~~

22 A. Minimum immunization requirements

23 1. Two valid doses of the MMR vaccine are required for all college or university students, unless ~~they were~~the college or university student was born before
24 1957.
25

26 a. Laboratory confirmation of positive titers are an acceptable alternative to the ~~M~~measles, ~~M~~mumps, and ~~R~~rubella vaccine when submitted to
27 the student's school. Titers for ~~M~~measles, ~~M~~mumps, and ~~R~~rubella must all be positive. If any single titer is negative, the Department will
28 require: (1) vaccination with an age-appropriate MMR vaccine series ~~in alignment with ACIP or~~ (2) a ~~e~~Certificate of ~~m~~Medical or
29 ~~n~~Nonmedical ~~e~~Exemption for the component(s) for which the titer is negative.

30 b. To determine valid doses or age-appropriate MMR vaccine series for students who had doses of MMR or MMRV administered before the
31 age of 19, refer to the schedule incorporated by reference in Section II of these rules.

32 c. Students who are 19 years of age and older are required to have two doses of MMR vaccine, spaced at least 28 days apart.

33 2. Pursuant to section 25-4-901, C.R.S. et. seq., and section 23-5-128 (3), C.R.S., each college and university shall provide information concerning
34 meningococcal disease and meningococcal vaccine to each new college or university student residing in student housing, or if the college or university
35 student is under 18 years, to the college or university student's parent or legal guardian.

36 a. C~~N~~ew college and university students residing in student housing who have not received a meningococcal vaccine assessed from either (1)
37 the move-in date to student housing or (2) the first day of classes, as determined by college or university policy within (1) the last five years,
38 and (2) on or after the student's sixteenth birthday shall review the information concerning meningococcal disease and meningococcal
39 vaccine.

1 | b. If the college or university student does not obtain a vaccine, a signature must be obtained from the college or university student or if the
2 | student is not emancipated, the student's parent or guardian indicating that the information was reviewed and the student or their parent or
3 | guardian has declined the vaccine.

4 | B. Exemptions from immunization

5 | A college or university student is exempted from receiving required immunizations in the following manner:

6 | 1. Medical exemption – A student obtains a medical exemption through the submission of the Department's Certificate of ~~n~~Medical ~~e~~Exemption completed
7 | and signed by an advanced practice nurse, a ~~delegated~~-physician assistant, or physician licensed to practice medicine or osteopathic medicine in any
8 | state or territory of the United States indicating that the physical condition of the college or university student is such that one or more immunizations
9 | would endanger their life or health or are medically contraindicated due to other medical conditions. This form is to be submitted once to the college or
10 | university at enrollment for permanent conditions. Medical exemptions for temporary conditions will expire after the "temporary until" date has elapsed,
11 | which is determined by the authorized immunizing provider who signed the form. This expiration date shall be monitored by the school to determine when
12 | the student is eligible to receive the required immunization(s); unless the student's information or school changes; and must be maintained on file at each
13 | new school the student attends.

14 | 2. Nonmedical exemption – A student obtains a nonmedical exemption through the submission of the Department's Certificate of ~~n~~Nonmedical ~~e~~Exemption
15 | signed by the college or university student or if not emancipated, 18 years of age or older, emancipated the college or university student's, or the parent
16 | or legal guardian if the college or university student is under 18 years of age. TBeginning with college or university entry, the Department's Certificate of
17 | ~~n~~Nonmedical ~~e~~Exemption must be submitted at enrollment. A new Certificate of Nonmedical Exemption is required anytime a student enrolls in a new
18 | college or university. A Certificate of ~~n~~Nonmedical ~~e~~Exemption must also include either:

19 | a. The signature of a person who is authorized pursuant to Title 12 of the Colorado Revised Statutes to administer immunizations within their
20 | scope of practice, or

21 | b. Confirmation of completion of the Department's Online Immunization eEducation ~~n~~Module described in Section XII of this rule.

22 | c. In the event of a disease outbreak for which immunization is required, no exemption or exception from immunization shall be recognized and
23 | exempted persons may be subject to exclusion from school and quarantine.

24 | C. Examination and audit of official school immunization records

25 | 1. The Department's representative has~~shall~~ have the right to audit and verify records to determine compliance with the law. Discrepancies found through
26 | audits shall be corrected by school officials, and any college or university student not in full compliance shall be denied attendance from school according
27 | to the rules in this sSection IX (D).

28 | D. Denial of attendance

29 | 1. A school official shall deny attendance to a college or university student who is: not in-process, not appropriately vaccinated for their age, or not exempt
30 | shall be denied attendance in accordance with the law, section 25-4-903, C.R.S.

31 | 2. A school official shall deny attendance from school, pursuant to the provisions established by the school, any college or university student not in-process,
32 | not appropriately immunized for their age, or not exempt per section 25-4-903, C.R.S. No college or university student shall be denied attendance for
33 | failure to comply unless there has been a direct personal notification of noncompliance by the appropriate school authority. Notification must be made by
34 | the school within seven days of the finding of noncompliance to the college or university student's or if not emancipated, the student's parent or guardian,
35 | the emancipated college or university student or the college or university student 18 years of age or older.

36 | E. Official school immunization records

37 | 1. Official school immunization records shall include:

38 | aA. The Department's Official Certificate of Immunization or an Alternate Certificate of Immunization approved by the Department; which
39 | includes one of the following forms of documentation:

- 1 | a.- ~~A paper or electronic document that includes information transferred from the records of a licensed physician, registered-~~
- 2 | ~~nurse, a delegated physician assistant, or public health official, or~~
- 3 | b.- ~~An electronic file or hard copy of an electronic file provided to the school directly from the immunization information system-~~
- 4 | ~~that the Department is required to maintain pursuant to section 25-4-2403, C.R.S., or from a software program approved by-~~
- 5 | ~~the Department;~~
- 6 | b.B. The Department's Certificate of ~~m~~Medical ~~e~~Exemption, and
- 7 | c.C. The Department's Certificate of ~~n~~Nonmedical ~~e~~Exemption.

8 | 2. Schools shall have on file an official school immunization record for every college or university student enrolled.

9 | F. Reporting of statistical information – Annually, by January 15 of each year, any college or university that constitutes a school as defined by ~~s~~Section I (~~O~~~~Y~~) ~~of these rules~~

10 | shall send aggregate immunization and exemption data, by antigen, to the Department.

11 | Required data shall include:

- 12 | 1. Total number of college or university students enrolled in the school;
- 13 | 2. Total number of college or university students who are up-to-date with immunizations, as required in this ~~s~~Section (IX);
- 14 | 3. Total number of college or university students who have a medical exemption for the MMR vaccine;
- 15 | 4. Total number of college or university students who have a nonmedical exemption for the MMR vaccine;
- 16 | 5. Total number of in-process college or university students;
- 17 | 6. Total number of college or university students who have a signed waiver for the Meningococcal vaccine;
- 18 | 7. Total number of college or university students not up-to-date for the MMR vaccine, with no exemption on file, no ~~M~~eningococcal vaccine waiver on file,
- 19 | and not in-process; and
- 20 | 8. Total number of college or university students with no immunization records.

21 | ~~G.~~ ~~All colleges and universities required to report immunization data to the Department must make the immunization and exemption rates of their enrolled student~~

22 | ~~population publicly available upon request.~~

23 | **X. Contract ~~R~~requirements for ~~P~~roviders, ~~H~~ospitals, and ~~H~~health ~~C~~are ~~C~~linics to be an ~~A~~gent of the Department for the ~~P~~urposes of the ~~I~~mmunization ~~P~~rogram**

24 | A. To be an agent of the Department for the purposes of administering immunizations to infants, children, and students, a provider, hospital, or health care clinic must

25 | provide each patient receiving a vaccine, or the parent or ~~l~~egal-guardian, if the patient is an unemancipated minor, a copy of the currently approved Vaccine Information

26 | Statement, as required by federal law.

27 | B. The Department shall make such requirements as are necessary to assure the confidentiality and security of information in ~~t~~he immunization information system

28 | operated pursuant to section 25-4-2403(3), C.R.S.

29 | **XI. Fee for the ~~a~~Administration, ~~r~~eporting, and ~~T~~racking of ~~V~~vaccine**

30 | This ~~s~~Section applies to ~~v~~accines and ~~i~~mmunizing ~~a~~gents ~~i~~mmunizations provided by the Department ~~t~~hat are recommended by the ACIP and available to Colorado practitioners.

31 | A. Practitioners may charge up to the Centers for Medicare and Medicaid Services maximum regional fee for the administration of ~~a~~ vaccine. These fees apply to all

32 | vaccines provided by the Department.

33 | B. A vaccine recipient may not be denied ~~a~~ vaccine provided by the Department because of inability to pay the administration fee.

1 C. If a practitioner's vaccine administration costs are less than the Centers for Medicare and Medicaid Services maximum regional fee for the administration of vaccine,
2 then they may only charge up to that lesser amount.

4 XII. On-line Immunization eEducational mModule

5 A. Per section 25-4-903 (2.5 and 2.7), C.R.S., the Department shall provide immunization information to the public via an eOnline Immunization eEducation mModule ~~that~~
6 ~~fairly presents both the benefits and risks of immunizations~~. The immunization information and contents of this module shall include, but are not limited to:

7 1. ~~Medical and scientific data that is evidence-based and peer reviewed by credible scientific and public health organizations concerning both the benefits~~
8 ~~and risks of immunizations;~~

9 2. ~~A fair presentation of both the benefits and risks of immunizations; and~~

10 1- ~~Exemption rates in Colorado that are available to the public through the Department;~~

11 2- ~~Evidence-based research;~~

12 3- ~~Resources and information from credible scientific and public health organizations;~~

13 4- ~~Peer-reviewed studies; and~~

14 3.5- ~~Data concerning the risk of immunization injury.~~

15 B. The module shall be interactive such that the viewer of the module must engage with the content successfully to receive a certificate of completion.

16 C. Upon successful completion of the module, a Certificate of ~~n~~Nonmedical ~~e~~Exemption that includes confirmation of completion of the Department's eOnline Immunization
17 eEducation mModule will be electronically generated for downloading and printing.

18 D. The eOnline Immunization Education learning mModule shall not require a parent or legal guardian ~~or~~; emancipated student, ~~or student eighteen years, of age or older~~
19 to sign or indicate agreement with any language regarding immunizations that may be contrary to a religious belief or personal belief that is opposed to immunizations in
20 order to complete the eOnline Immunization Education learning mModule.

21 XIII. Vaccinated Cchildren Sstandard

22 A. Per ~~S~~Section 25-4-911 (1), C.R.S., the goal for every school is for 95% of the enrolled student population to be vaccinated with each vaccine required for school entry in
23 Section III in order to reduce the spread of vaccine-preventable disease and protect the health of all people in the school community, including students who cannot be
24 immunized for medical reasons.

25 XIV. Annual Pparent Lletter

26 A. Per Section 25-4-902 (4), C.R.S., annually, by January 15 of each year, the Department shall develop and provide to the Colorado Departments of Education, Early
27 Childhood, and the Department of Human Services a standardized document regarding immunizations. The standardized document ~~shall be updated annually and~~
28 must include, but not be limited to:

29 1. A list of the immunizations required for enrollment in a school and the age at which the immunization is required;

30 2. A list of immunizations currently recommended for children by ACIP, AAP, AAFP, ACOG, or ACP, as appropriate, ~~the ACIP of these rules~~ and the
31 recommended age at which each immunization should be given;

32 3. A place on the document where a school can include the school's specific immunization and exemption rates for the MMR vaccine and for every other
33 vaccine for the school's enrolled student population from the prior school year compared to the vaccinated children standard described in Section 25-4-
34 911, C.R.S.; and
35

36 4. A statement that the school is required to collect and report the information pursuant to Section 25-4-902 (4)(a), C.R.S., and that the school does not
37 control the school's specific immunization and exemption rates or establish the vaccinated children standard described in Section 25-4-911, C.R.S.

38 B. Annually, by January 31 of each year, the Colorado Departments of Education, Early Childhood, and the Department of Human Services shall post this standardized
39 document on their websites.

1

3
4

5
6

7

- c. Annually, ~~on or before April by February~~ 15 of each year, a school shall directly distribute the document to the parent or ~~legal~~ guardian of each student enrolled in its school, ~~or emancipated students, or students eighteen years of age or older,~~ consistent with Section 25-4-903 (5), C.R.S.
1. The school shall include on the document the school's specific immunization and exemption rates for the measles, mumps, and rubella vaccine for the school's enrolled student population for the prior school year compared to the vaccinated children standard described in Section 25-4-911, C.R.S.
 2. The school may include on the document the school's specific immunization and exemption rates for any other vaccine for the school's enrolled student population for the prior school year.

Appendix A

The below table describes the required number of doses for students attending public, private, or parochial secondary schools through grade twelve who are aged 19 through 21 years.

- Column A specifies the vaccine.
- Column B describes the number of doses a student would have received had they been vaccinated on time, according to Table 1 in the document incorporated by reference in Section II of these rules.
 - To assess validity of vaccines administered behind schedule to a student before they turned 19 years of age, refer to Table 2 in the document incorporated by reference in Section II of these rules, including:
 - DTaP: Dose 5 is not required if Dose 4 was administered on or after the 4th birthday and at least six months after Dose 3.
 - Polio: Dose 4 is not required if Dose 3 was administered on or after the 4th birthday and at least six months after Dose 2.
- Column C describes the number of vaccine doses required for students aged 19 through 21 years who did not complete their vaccinations according to the schedule incorporated by reference in Section II of these rules, before the age of 19.

Students attending public, private, or parochial secondary schools through grade twelve who are aged 19 through 21 years.		
Column A	Column B	Column C
Hepatitis B (HepB)	3	2-, 3-, or 4-dose series: <ul style="list-style-type: none"> ● 2-dose series aged 18+ (2-dose formulation(s), spaced at least 4 weeks apart. ● 3-dose series at 0, 1-2 months, 6 months (minimum intervals of four weeks between Dose 1 and Dose 2, eight weeks between Dose 2 and Dose 3, and 16 weeks between Dose 1 and Dose 3). ● 3-dose series aged 18+ (HepA-HepB) at 0, 1, and 6 months. (Minimum interval of 4 weeks between Dose 1 and Dose 2, and 5 months between Dose 2 and Dose 3). ● 4-dose series aged 18+ (HepA-HepB) accelerated schedule of 3 doses at 0, 7, and 21-30 days, followed by a final dose at 12 months.
Diphtheria, tetanus, pertussis (DTaP)	5	Not applicable - DTaP products are only licensed through 6 years of age.
Tetanus, diphtheria, pertussis (Tdap)	1	1-, 2-, 3-, or 4- dose series: <ul style="list-style-type: none"> ● 1-dose: Completed primary series with either DTaP or Td and did not receive Tdap at age 10 years or older: 1-dose Tdap. ● 1-3 doses for those who are unvaccinated or who have an incomplete primary vaccination series require the remaining doses (1, 2, or 3) to complete a 3-dose primary series. 1-dose Tdap followed by 1-dose Td or Tdap at least 4 weeks later, and a third dose of Td or Tdap 6-12 months later (Tdap is preferred as first dose and can be substituted for any Td dose). ● A 4-dose series is needed if the first DTaP was given before one year of age.
Polio (IPV)	4	1-, 2-, 3-dose series: <ul style="list-style-type: none"> ● 1-3 doses to complete a three-dose series for unvaccinated or incompletely vaccinated individuals. Dose 1 is spaced 4 weeks from dose 2. Dose 3 is spaced 6 months from dose 2.

Measles, mumps, rubella (MMR)	2	<p>2 doses: Four weeks between Dose 1 and Dose 2.</p> <ul style="list-style-type: none"> ● If two live vaccines are not given on the same day, there must be at least a 28-day interval between the two doses.
Varicella (chickenpox)	2	<p>2 doses: Four weeks between Dose 1 and Dose 2.</p> <ul style="list-style-type: none"> ● If two live vaccines are not given on the same day, there must be at least a 28-day interval between the two doses.

COLORADO

Board of Health

Department of Public Health & Environment

Notice of Public Rule-Making Hearing December 17, 2025

NOTICE is hereby given pursuant to the provisions of Section 24-4-103, C.R.S., that the Colorado Board of Health will conduct a public rule-making hearing on December 17, 2025 at 10 a.m. in person at the Colorado Department of Public Health and Environment, 4300 Cherry Creek Drive South, Denver, CO 80246, remotely via [Zoom](#), or via both mediums, to consider amendments to 6 CCR 1009-2: Infant Immunization Program and Immunization of Students Attending School. The amendments are proposed by the Disease Control and Public Health Response (DCPHR) Division of the Colorado Department of Public Health and Environment pursuant to House Bill (HB) 25-1027.

The agenda for the meeting and the proposed amendments will also be available on the Board's website, <https://cdphe.colorado.gov/board-of-health> at least seven (7) days prior to the meeting. The proposed rule, together with the proposed statement of basis and purpose, specific statutory authority and regulatory analysis will be available for inspection at the Colorado Department of Public Health and Environment, 4300 Cherry Creek Drive South EDO-A5, Denver, Colorado 80246-1530 at least five working days prior to the hearing. Copies of the proposed rules may be obtained by contacting the Colorado Department of Public Health and Environment, Division of Disease Control and Public Health Response, 4300 Cherry Creek Drive S., Denver, CO 80246, cdphe.dcdimmunization@state.co.us.

Public Participation

The Board encourages all interested persons to participate in the hearing by providing written data, views, or comments. Written testimony is encouraged; oral testimony will be received only to the extent the Board finds it necessary. Testimony is limited to the scope of the rulemaking hearing.

Oral testimony. Persons who are permitted to provide oral testimony may be limited to 3 minutes or less. Those wishing to give oral testimony remotely must sign up to do so no later than Tuesday, December 16, 2025 on the Board's website, <https://cdphe.colorado.gov/board-of-health>. Persons who wish to provide in person testimony may sign up to do so in the meeting room on the day of the hearing.

Written testimony. Pursuant to 6 CCR 1014-8, §3.02.1, written testimony must be submitted no later than five (5) calendar days prior to the rulemaking hearing. Written testimony must be received by 5:00 p.m., Thursday, December 11, 2025. Persons wishing to submit written comments should submit them by e-mail to cdphe.bohrequests@state.co.us or by mail to:

Colorado Board of Health
ATTN: Board of Health Program Assistant
Colorado Department of Public Health and Environment
4300 Cherry Creek Drive South EDO-A5

Subjects and issues involved

The Department proposes permanent rule revisions for instant runoff voting contests, including requirements for tabulation, reporting, canvassing of results, and risk-limiting audits for local jurisdictions located in more than one county, as required by sections 1-7-118(5) and 1-7-515(4)(b)(l), C.R.S. Additional proposed rule revisions may be necessary to: eliminate obsolete provisions, organize existing rules for clarity; simplify the language of existing rules; and ensure consistency with Department rulemaking standards. The Department may consider additional rule amendments. Please see the Notice of Proposed Rulemaking, including a Draft Statement of Basis and Preliminary Draft Rules for more details.

Preliminary Draft of Proposed Rules

Colorado Department of State

Election Rules

8 CCR 1505-1

October 31, 2025

Disclaimer:

In accordance with the State Administrative Procedure Act, this draft is filed with the Department of State and submitted to the Department of Regulatory Agencies.¹

This is a preliminary draft of the proposed rules that may be revised before the rulemaking hearing on December 5, 2025. If changes are made, a revised copy of the proposed rules will be available to the public and a copy will be posted on the Department of State's website no later than November 30, 2025.²

The proposed amendments in this preliminary draft are shown with track changes. Associated publication instructions/notes are orange and italicized.

1 *Amendments to 8 CCR 1505-1 are as follows:*

2 *Amendments to Rule 1 are as follows:*

3 *New Rule 1.1.47 defines "runoff tabulation entity":*

4 1.1.47 "Runoff tabulation entity" means the election jurisdiction that will conduct
5 the elimination sequences for a ranked voting election. For an election that
6 is wholly within a single county, the county clerk and recorder or
7 designated election official appointed by the municipality holding the
8 ranked voting election is the runoff tabulation entity. For an election that is
9 shared by more than a single county, the controlling county, as defined by
10 Rule 4.2.2, is the runoff tabulation entity.

11 *[Not shown: Current Rules 1.1.47 through 1.1.67 are renumbered to Rules 1.1.48*
12 *through 1.1.68.]*

1 ¹ Sections 24-4-103(2.5) and (3)(a), C.R.S.

2 ² Section 24-4-103(4)(a), C.R.S. "[A]ny proposed rule or revised proposed rule by an agency which is to
3 be considered at the public hearing...shall be made available to any person at least five days prior to said
4 hearing."

1 *Amendments to Rule 7 are as follows:*

2 *Amendments to Rule 7.4.1 remove an internal rule reference:*

3 7.4 Receipt and processing of ballots

4 7.4.1 The county clerk must adequately light all drop box locations and use a
5 video security surveillance recording system ~~as defined in Rule 1.1.62~~ to
6 monitor each location.

7 *[Not shown: no changes to sections (a) through (g).]*

8 *Amendments to Rule 10 are as follows:*

9 *Amendments to Rule 10.6.1 add new sections (e) and (f) which now include the*
10 *requirements for official county abstracts for instant runoff voting contests that take*
11 *place in single counties and in more than one county, and necessary grammatical*
12 *changes:*

13 10.6 Official abstract and reporting to the Secretary of State

14 10.6.1 The official county abstract must include, by precinct or ballot style, where
15 applicable:

16 *[Not shown: no changes to sections (a) and (b).]*

17 (c) The statement of votes counted by race and ballot question or
18 issue; ~~and~~

19 (d) The total number of ballots cast in the election; ~~and~~

20 (e) For instant runoff voting contests conducted by a county clerk
21 which are within a single county, the round-by-round tabulation
22 results of each race; and

23 (f) For instant runoff voting contests conducted by a county clerk
24 which are contained in more than one county, a report detailing the
25 ranking each candidate received in the county.

26 *Amendments to Rule 10.6.2 include new section (c) which requires the Department, for*
27 *the state's portion of the abstract, to include the final, tabulated results of an instant*
28 *runoff voting contest that are contained in more than one county, and necessary*
29 *grammatical changes:*

1 10.6.2 A county must submit the state portion of the abstract and the ENR upload
2 required by Rule 11.9.6 to the Secretary of State in the format approved
3 by the Secretary of State. The state portion of the abstract must include:

4 (a) The summary of votes cast for each state race and each ballot
5 question or issue; ~~and~~

6 (b) The total number of ballots counted in the election; ~~and~~

7 (c) For instant runoff voting contests conducted by a county clerk
8 which are contained in more than one county, final, tabulated
9 results of that race to be used by the combined canvass board
10 appointed in Rule 10.9.

11 *New Rule 10.9 concerns the canvass of instant runoff voting contests that are contained*
12 *in more than one county:*

13 10.9 Canvass of instant runoff voting contests contained in more than one county

14 10.9.1 No later than 15 days before an election which will include an instant
15 runoff voting contest contained in more than one county, the runoff
16 tabulation entity will appoint a combined canvass board to canvass the
17 results of the instant runoff voting contest. The board must consist of:

18 (a) The county clerk, or the county clerk's designee, from each county
19 in which the instant runoff voting contest was conducted; and

20 (b) A representative from the local jurisdiction whose office is up for
21 election in the instant runoff voting contest.

22 10.9.2 The combined canvass board appointed in this Rule will meet on a date
23 noticed by the runoff tabulation entity following the canvassing of results in
24 each county as required by section 1-10-102, C.R.S.

25 10.9.3 The combined canvass board's only duty is to review the final, tabulated
26 results submitted by each county canvass board to certify a winner of the
27 instant runoff voting contest. To certify a winner, the combined canvass
28 board must also review the combined tabulated results generated in
29 accordance with Rule 26.8. The combined canvass board must make its
30 determinations by a majority vote, with the Secretary of State, or their
31 designee, casting a vote only in the event of a tie.

1 | 10.9.4 After meeting, the combined canvass board must submit the certified
2 | results to the local jurisdiction which certified the instant runoff voting
3 | contest to the ballot.

4 | *Amendments to Current Rule 10.9, renumbered to Rule 10.10, include New Rule*
5 | *10.10.6--which pertains to recounts for instant runoff voting contests, update to internal*
6 | *references, and necessary renumbering:*

7 | 10.910 Recount generally

8 | 10.910.1 The purpose of a recount is to re-tabulate the ballots.

9 | 10.910.2 A county that has successfully completed a comparison audit under
10 | Rule 25.2 and reported no discrepancies in the recount contest need not
11 | re-scan ballots during a requested recount, except as provided in Rule
12 | ~~10.9.3~~10.10.3. In all cases, the county must re-adjudicate ballot images for
13 | voter intent in accordance with Rule ~~10.13.3~~10.14.2.

14 | *[Not shown: Current Rules 10.9.3 through 10.9.5 are renumbered to Rules 10.10.3*
15 | *through 10.10.5.]*

16 | 10.10.6 Recounts for instant runoff voting contests. If the smallest margin
17 | between two candidates in an instant runoff voting contest is less than or
18 | equal to one-half of one percent of the votes cast in the contest, then a
19 | recount must be held in accordance with section 1-10.5-103, C.R.S. The
20 | smallest margin will be determined by calculating the minimum number of
21 | votes that would have to be different to change the elimination order such
22 | that the winner in the final round of tabulation would be different.

23 | (a) The county clerk or designated election official appointed by the
24 | municipality holding the ranked voting election must order a recount
25 | of an instant runoff voting contest within a single county, following
26 | the canvass of results by the county canvass board or designated
27 | election official, as applicable.

28 | (b) Each county clerk must order a recount of an instant runoff voting
29 | contest contained in more than one county following canvass of
30 | results by the combined canvass board under Rule 10.9, as
31 | applicable.

32 | *[Not shown: Current Rules 10.10 through 10.14 are renumbered to Rules 10.11 through*
33 | *10.15.]*

1 | *Amendments to Rule 11 are as follows:*

2 | *Amendments to Rule 11.3 include the addition of New Rule 11.3.3, which pertains to*
3 | *logic and accuracy tests for multi-jurisdictional ranked voting elections, and a technical*
4 | *cleanup to the title Rule:*

5 | 11.3 ~~The clerk must perform a h~~Hardware diagnostic test and a logic and accuracy
6 | test.

7 | *[Not shown: no changes to Rules 11.3.1 and 11.3.2.]*

8 | 11.3.3 Logic and accuracy test for multi-jurisdictional ranked voting elections

9 | (a) In addition to the logic and accuracy test conducted pursuant to
10 | Rule 11.3.2, an additional logic and accuracy test described by this
11 | Rule must be performed if two or more county clerks are
12 | conducting an instant runoff voting contest for a single, local
13 | jurisdiction.

14 | (b) In preparation for a logic and accuracy test under this Rule, the
15 | runoff tabulation entity must provide an additional test deck of 25
16 | ballots to each county clerk. The deck must conform to the
17 | requirements of Rule 11.3.2(c).

18 | (c) At each county clerk's logic and accuracy test, the county clerk
19 | must scan the additional test deck and provide the cast vote record
20 | of the test deck to the runoff tabulation entity in the manner
21 | prescribed by the runoff tabulation entity. The test deck must be
22 | preserved as an election record alongside any other logic and
23 | accuracy materials which are preserved as election records for that
24 | election.

25 | (d) At a public meeting which conforms as closely as practicable to the
26 | requirements of section 1-7-509(2)(b), C.R.S., the runoff tabulation
27 | entity must use the cast vote records received from each county
28 | clerk during their logic and accuracy test to tabulate the instant
29 | runoff voting contest or contests which are subject to this Rule. The
30 | contest or contests must be tabulated using the third-party software
31 | which has been certified for use under Rule 21.12. The runoff
32 | tabulation entity must confirm that the round-by-round tabulation
33 | corresponds to the known results of the test decks provided to each
34 | county clerk.

1 | (e) Following the tabulation, the runoff tabulation entity must maintain
2 | the round-by-round results report as an election record.

3 | *Amendments to Rule 20 are as follows:*

4 | *Amendments to Rule 20.4.2 remove internal rule references:*

5 | 20.4.2 Surveillance of secure areas

6 | (a) The county clerk must make video security surveillance recordings
7 | of secure equipment areas, ~~as defined by Rule 1.1.50~~, in
8 | accordance with the requirements of section 1-7-513.5, C.R.S.

9 | (b) The county clerk of a county with 50,000 or more registered voters
10 | must also make video security surveillance recordings of secure
11 | ballot areas, ~~as defined by Rule 1.1.49~~, if those areas do not
12 | contain any components of a voting system, beginning at least 35
13 | days before election day and continuing uninterrupted through at
14 | least 30 days after election day. If a recount or contest occurs, the
15 | recording must continue through the conclusion of all related
16 | activity.

17 | *[Not shown: no changes to sections (c) through (e).]*

18 | *Amendments to Rule 20.4.3 remove an internal rule reference:*

19 | 20.4.3 Access logs to secure areas

20 | *[Not shown: no changes to section (a).]*

21 | (b) The county clerk must otherwise maintain a log of each person who
22 | enters a secure ballot area, ~~as defined by Rule 1.1.49~~, if that area
23 | does not contain any components of a voting system. This does not
24 | include members of the public who access areas of a county clerk's
25 | office that are regularly available to the public outside of an
26 | election.

27 | *[Not shown: no changes to sections (c) and (d).]*

28 | *Amendments to Rule 20.4.4 remove internal rule references:*

29 | 20.4.4 Restrictions on physical access

30 | (a) General restrictions

1 (1) No person may be present in a secure ballot area, ~~as~~
2 defined by Rule 1.1.49, or secure equipment area, ~~as~~
3 defined by Rule 1.1.50, unless:

4 *[Not shown: no changes subsections (A) through (C).]*

5 *[Not shown: no changes to subsection (2).]*

6 *[Not shown: no changes to section (b).]*

7 20.6.3 Security at trusted build

8 *[Not shown: no changes to section (a).]*

9 (b) Video surveillance recording

10 (1) The county clerk must ensure that the trusted build is
11 conducted under video security surveillance recording ~~as~~
12 defined by Rule 1.1.62.

13 *[Not shown: no changes to subsections (2) through (4).]*

14 *Amendments to Rule 20.10.3 remove internal rule references:*

15 20.10.3 Retention of voted ballots

16 *[Not shown: no changes to (a) through (d).]*

17 (e) Any room in which a county clerk conducts the activities described
18 in this Rule is a secure ballot area, ~~as defined by Rule 1.1.49.~~

19 (f) The county clerk must operate video security surveillance
20 recordings ~~as defined by Rule 1.1.62~~ of the activities described in
21 this Rule. Those recordings must be maintained as an election
22 record for 25 months following the conclusion of the ballot removal
23 process.

24 *[Not shown: no changes to (g) and (h).]*

25 *Amendments to Rule 21 are as follows:*

26 *New Rule 21.12 addresses the certification of third-party software only for use with*
27 *instant runoff voting elections contained in more than one county:*

28 21.12 Amendments to certifications for instant runoff voting functionality

1 | 21.12.1 The Department of State may submit a third-party software
2 | component to a federally certified voting system test laboratory for
3 | certification for use with another previously certified voting system or as
4 | part of a system that is under consideration for certification.

5 | (a) Only software components whose purpose is to aggregate and
6 | resolve instant runoff voting elections that take place across more
7 | than a single jurisdiction may be submitted according to this Rule.

8 | (b) A voting system vendor may not prohibit an amendment to the
9 | certification according to this Rule.

10 | (c) A voting system vendor is not responsible for integrating software
11 | that is submitted as an amendment into their voting system.

12 | (d) A voting system vendor is not responsible for the costs associated
13 | with amending a certification.

14 | 21.12.2 Functional requirements of third-party amendment certifications

15 | (a) The software must be able to import results files from all voting
16 | systems that are certified for use for instant runoff voting capability
17 | under Rule 21.11.

18 | (b) The software must allow a user to standardize the names of
19 | contests and choices across jurisdictions.

20 | (c) The software must meet the requirements of Rule 21.11.4, with the
21 | exception of Rule 21.11.4(a).

22 | (d) The software must export data in the formats specified in Rule
23 | 21.11.2(a).

24 | 21.12.3 Upon submission of an amendment under this Rule, the
25 | Department of State will consult with the voting system test laboratory to
26 | determine which security requirements are applicable to the third-party
27 | software.

28 | 21.12.4 Testing

29 | (a) For amendments that are submitted with a voting system currently
30 | under consideration, the test plan must include an appendix
31 | addressing the third-party software amendment. Upon completion

1 of testing, the test report must include an appendix addressing the
2 third-party software amendment.

3 (b) For amendments that are submitted for a voting system that has
4 been previously certified, the Department of State will work with the
5 voting system test laboratory to develop a separate test plan for the
6 amendment. Upon conclusion of testing, the laboratory must
7 produce a test report.

8 (c) If the third-party software meets the requirements in Rule 21.12, the
9 Department of State will certify the third-party software as part of an
10 amendment to a voting system. If the requirements are not met
11 sufficiently for certification of the third-party software with the
12 amendment, it does not preclude the voting system from being
13 certified without the amendment.

14 (d) The Department of State will publish its determination of
15 certification for the amendment on its public website along with the
16 test report and any other appropriate certification artifacts.

17 21.12.5 Once software has been certified as a third-party amendment, the
18 Department of State must hold that software in escrow until such time that
19 it has been decertified.

20 21.12.6 Third-party software components that are certified as amendments
21 must only be installed on a computer workstation that has no wireless
22 connectivity enabled.

23 21.12.7 The Department of State may decertify software that has been
24 certified as an amendment to a certified voting system at any time.

25 (a) When software that is certified using this Rule is decertified, the
26 Department of State must publish the decertification on its public
27 website along with any reasons for decertification.

28 (b) In the event the Department of State decertifies software that has
29 been certified as an amendment to a fully certified voting system,
30 that decertification shall only apply to the amendment and shall not
31 apply to the otherwise fully certified voting system.

32 *Amendments to Rule 25 are as follows:*

1 *Amendments to Rule 25.2.2 include new section (d) which pertains to the sample size*
2 *estimates used for the risk-limiting audit of instant runoff voting contests and necessary*
3 *renumbering:*

4 25.2 Risk limiting audit. The designated election official must conduct a risk-limiting
5 audit in accordance with section 1-7-515, C.R.S., and this Rule.

6 *[Not shown: no changes to Rule 25.2.1.]*

7 25.2.2 Preparing for the audit

8 *[Not shown: no changes to sections (a) through (c).]*

9 (d) Sample size estimates. Upon completion of tabulation on election
10 night, counties are required to export an initial CVR export from
11 their voting system and hash and upload the export and hash value
12 to the RLA tool. Counties are not required to upload a ballot
13 manifest to the RLA tool for the purposes of creating sample size
14 estimates.

15 (1) The Department of State will use the election night CVRs to
16 create sample size estimates to facilitate the selection of
17 target contests.

18 (2) Counties are not required to upload a CVR export again
19 during the same election to the RLA tool unless requested to
20 do so by the Department to facilitate an updated sample size
21 estimate.

22 *[Not shown: sections (d) through (l) are recodified to sections (e) through (m).]*

23 *Amendments to Rule 26 are as follows:*

24 *Amendments to Rule 26.2 specify that if any county in which a local government is*
25 *located does not have a voting system that can conduct a ranked voting election, then*
26 *none of the counties in which that local government is located are required to coordinate*
27 *that election:*

28 26.2 A local government conducting a ranked voting election that is coordinating with
29 the county clerk must give notice to the county clerk no later than 100 days
30 before the election. If the-any county's voting system in which the local
31 government is located is not capable of conducting a ranked voting election, the
32 county clerk is not required to coordinate.

1 *Amendments to Rule 26.5 concern a grammatical update:*

2 | 26.5 Tabulation of instant-run-off elections

3 *Amendments to Rules 26.5.1 through 26.5.3 include the use of the new definition of*
4 *“runoff tabulation entity,” replacing “designated election official:”*

5 26.5.1 In any ranked voting election in which only one candidate will be elected to
6 | office, the ~~designated election official~~ runoff tabulation entity must follow
7 the tabulation procedures described in this rule.

8 26.5.2 During the first round of tabulation, the ~~designated election official~~ runoff
9 tabulation entity must tabulate the first-choice ranks on each ballot.

10 *[Not shown: no changes to section (a).]*

11 (b) If no candidate receives over 50 percent of the first-choice ranks for
12 | a contest across all ballots tabulated, the ~~designated election~~
13 ~~official~~ runoff tabulation entity must continue to the next round of
14 tabulation.

15 26.5.3 At the beginning of the next round of tabulation, the candidate with the
16 | fewest first-choice ranks in the prior round is eliminated and the eliminated
17 candidate’s votes are transferred to each ballot’s next-ranked continuing
18 candidate and tabulated.

19 *[Not shown: no changes to section (a).]*

20 (b) If no candidate has over 50 percent of the votes cast on active
21 | ballots after the second round, the ~~designated election official~~ runoff
22 tabulation entity must repeat additional rounds of tabulation as
23 described in this Rule, until there is a winning candidate.

24 *[Not shown: no changes to Rules 25.5.4.]*

25 *Repeal and replacement of Rule 26.5.5 with New Rule 26.5.5, which concerns the logic*
26 *and accuracy test for any ranked voting election:*

27 ~~26.5.5 At the end of Round one and in any subsequent rounds, if two or more~~
28 ~~candidates tie for the lowest number of votes, the eliminated candidate~~
29 ~~must be chosen by lot, unless the candidates may be eliminated~~
30 ~~simultaneously under Rule 26.5.4.~~

1 26.5.5 Before any logic and accuracy test for any ranked voting election, the
2 designated election official, or their designee, must randomly determine
3 the tie-breaker elimination order for all candidates.

4 (a) The tie-breaker elimination order must consist of a list of all
5 candidates with each candidate assigned a unique ranking.

6 (b) In any round of tabulation, if there is a tie that needs to be resolved
7 to determine which candidate or candidates will be eliminated,
8 including the round that determines the winner, the runoff tabulation
9 entity must eliminate the candidate or candidates according to the
10 tie-breaker elimination order.

11 *Repeal of Rules 26.5.6 and 26.5.7:*

12 ~~26.5.6 If only two continuing candidates remain after a round and they have the~~
13 ~~same number of votes, the winning candidate must be chosen by lot.~~

14 ~~26.5.7 The designated election official need not report election night results~~
15 ~~under Rule 11.9.4, unless directed by the Secretary of State.~~

16 *Amendments to Rule 26.6 use the new definition of “runoff tabulation entity,” replacing*
17 *“designated election official:”*

18 26.6 Tabulation of ranked voting elections using the single transferable vote method

19 *[Not shown: no changes Rule 26.6.1.]*

20 26.6.2 During the first round of tabulation, the ~~designated election official~~runoff
21 tabulation entity must tabulate the first-choice ranks on each ballot.

22 *[Not shown: no changes to sections (a) and (b).]*

23 26.6.3 During the second round of tabulation, the ~~designated election official~~
24 runoff tabulation entity must calculate each winning candidate’s surplus
25 votes, as described in Rule 26.6.4, and transfer those votes
26 proportionately to any continuing candidate.

27 *[Not shown: no changes to section (a).]*

28 (b) After the votes are transferred, if the number of winning candidates
29 is less than the number of seats to be filled, the ~~designated election~~
30 official-runoff tabulation entity must eliminate the continuing
31 candidate with the fewest first-choice votes, surplus votes from

1 winning candidates, and, when applicable, votes transferred from
2 eliminated candidates. The eliminated candidate's votes must then
3 be transferred to each active ballot's next-highest-ranked
4 continuing candidate.

5 *[Not shown: no changes to sections (c) and (d).]*

6 26.6.4 To calculate a winning candidate's surplus votes in any round, the
7 ~~designated election official~~ runoff tabulation entity must:

8 *[Not shown: no changes to sections (a) through (d).]*

9 26.6.5 In any round, if two or more candidates tie for the lowest number of votes,
10 the ~~designated election official~~ runoff tabulation entity must determine the
11 eliminated candidate by lot.

12 *[Not shown: no changes to Rule 26.6.6.]*

13 *Amendments to Rule 26.7 use the new definition of "runoff tabulation entity," replacing*
14 *"designated election official:"*

15 26.7 After determining voter intent in accordance with the Secretary of State's Voter
16 Intent Guide, the ~~designated election official~~ runoff tabulation entity must count
17 improperly marked ballots as follows:

18 *[Not shown: no changes to Rules 26.7.1 through 26.7.4.]*

19 *New Rule 26.8 concerns tabulating multi-jurisdictional ranked voting elections:*

20 26.8 Tabulating multi-jurisdictional ranked voting elections

21 26.8.1 For ranked voting elections contained in more than one county, at least
22 once on election night and once each day where ballots are being
23 tabulated thereafter, each county clerk must transmit results in an
24 approved format to the runoff tabulation entity using a secure data transfer
25 method provided by the Department of State.

26 26.8.2 As part of the data results transfer process, the county clerk must hash the
27 results file using a SHA-256 algorithm. The generated hash value must be
28 emailed to the runoff tabulation entity. The county clerk must not send the
29 hash value to the runoff tabulation entity using the same data transfer
30 method used to send the results file.

1 | 26.8.3 Upon receipt of the results file and associated hash value, the runoff
2 | tabulation entity must transfer the results file to a workstation that contains
3 | software for conducting the elimination stages of tabulation.

4 | (a) The media that the runoff tabulation entity uses to transfer the
5 | results file must conform with Rule 20.5.3(c).

6 | (b) The runoff tabulation entity must verify that the hash value of the
7 | received results file matches the hash value transmitted by the
8 | county clerk on the workstation that contains software for
9 | conducting the elimination stages of tabulation.

10 | (c) The runoff tabulation entity must only use results files that have
11 | been verified by the method in Rule 26.8.3(b) to conduct elimination
12 | stages of tabulation.

13 | *Amendments to Current Rule 26.8, renumbered to Rule 26.9, include using the new*
14 | *definition of “runoff tabulation entity” to replace “designated election official” and New*
15 | *Rules 26.9.1 and 26.9.4, which pertain to the reporting result requirements and*
16 | *exemptions for counties that have ranked voting elections which are contained in more*
17 | *than one county:*

18 | **26.89** Reporting results of a ranked voting election

19 | 26.9.1 For ranked voting elections contained in more than one county, the clerk
20 | and recorder of each participating county may only publicly report first
21 | rankings.

22 | ~~26.8.19.2~~ The ~~designated election official~~ runoff tabulation entity must ensure
23 | anonymity of a voter’s rankings in the ballot image report required by
24 | section 1-7-1003(7)(a)(II), C.R.S. In precincts with ten or fewer voters, the
25 | ballot image reports must be combined with another precinct.

26 | ~~26.8.29.3~~ For any ranked voting election, if the state election night reporting
27 | website in Rule 11.9 lacks functionality to report the results of a ranked
28 | voting election the runoff tabulation entity is responsible for posting results
29 | to a public website. If the website used to report results is not the election
30 | night reporting website in Rule 11.9, the runoff tabulation entity
31 | coordinated with a county clerk, the coordinated election official must
32 | publish preliminary and final result reports of a ranked voting election on a
33 | website. The reports must comply with section 1-7-1003(7)(a)(I) – (III),
34 | C.R.S. The coordinated election official must provide to the Secretary of

1 State the website where results will be posted no later than a week before
2 election day.

3 26.9.4 The schedule to post results on election night for a ranked voting election
4 are exempt from the requirements of Rule 11.9. Instead, the runoff
5 tabulation entity must report results at least once on election night and at
6 least once each day when ballots are tabulated thereafter.

7 *Amendments to Current Rule 26.9, renumbered to Rule 26.10, pertain to auditing a*
8 *ranked voting race:*

9 26.910 Auditing a ranked voting ~~election or race. The designated election-~~
10 ~~official must audit each ranked voting race before the canvass board certifies-~~
11 ~~official election results in a manner which will not interfere with the audit required-~~
12 ~~by section 1-7-515, C.R.S.~~

13 26.10.1 Instant runoff races tabulated according to Rule 26.5 are eligible to
14 be targeted according to Rule 25.2.2(j) in the state-administered risk-
15 limiting audit if the election is covered by section 1-7-515(2)(a), C.R.S.

16 26.10.2 Any jurisdiction that conducts a ranked voting election in a manner
17 other than the instant runoff method in Rule 26.5 must conduct an audit of
18 the race independent of the state-administered risk-limiting audit that does
19 not interfere with the state-administered audit before the canvass board
20 certifies official election results, if the election is covered by section 1-7-
21 515(2)(a), C.R.S.

Notice of Proposed Rulemaking

Colorado Department of State

Election Rules

8 CCR 1505-01

Date of notice: October 31, 2025

Date and time of public hearing: December 5, 2025 at 9:00AM

Location of public hearing: 5th Floor, 1700 Broadway Denver, CO 80290 and [online](#) (Zoom)

I. Hearing Notice

As required by the State Administrative Procedure Act,¹ the Colorado Department of State gives notice of proposed rulemaking. The hearing is scheduled for December 5, 2025 at 9:00AM and will be conducted in person and online. The in-person location is the Red Rocks Conference Room on the fifth floor of 1700 Broadway, Denver, CO 80290. Details regarding how to attend online and testify during the hearing are outlined in section VI of this notice.

II. Subject

The Department is considering amendments to the Election rules to ensure uniform and proper administration, implementation, and enforcement of Colorado election laws.² Specifically, the Department proposes permanent rule revisions for instant runoff voting contests, including requirements for tabulation, reporting, canvassing of results, and risk-limiting audits for local jurisdictions located in more than one county, as required by

¹ Article 4 of Title 24, C.R.S.

² Article VII of the Colorado Constitution and Title 1, C.R.S.

Main Number	(303) 894-2200	TDD/TTY	(303) 869-4867
Administration	(303) 860-6900	Website	www.coloradosos.gov
Fax	(303) 869-4860	E-mail	administration@coloradosos.gov

sections 1-7-118(5) and 1-7-515(4)(b)(I), C.R.S. Additional proposed rule revisions may be necessary to: eliminate obsolete provisions, organize existing rules for clarity; simplify the language of existing rules; and ensure consistency with Department rulemaking standards. The Department may consider additional rule amendments.

A detailed Statement of Basis, Purpose and Statutory Authority follows this notice and is incorporated by reference.

III. Rulemaking Authority

The Department proposes rule revisions and amendments in accordance with the following statutory provisions:

- Section 1-1-107(2)(a), C.R.S., which authorizes the Secretary of State “[t]o promulgate, publish and distribute...such rules as the secretary of state finds necessary for the proper administration and enforcement of the election laws.”
- Section 1-1-110(1), C.R.S., which requires county clerks to, “follow the rules and order promulgated by the secretary of state pursuant to this code.”
- Section 1-5-601.5, C.R.S., which authorizes the Secretary of State to develop "minimum standard and specifications... in accordance with section 1-5-616(1.5) [of the Colorado Revised Statutes]" for a voting system or voting equipment for sale or for lease of use in an instant runoff election contest.
- Section 1-5-601.5(2), C.R.S., which allows the Secretary of State to "...require by rule that a voting system or voting equipment used to conduct an election using instant runoff voting meet [] federal standards, so long as the federal standards meet or exceed those promulgated by the secretary of state."
- Section 1-5-616, C.R.S., which requires the Secretary of State to adopt rules “that establish minimum standards for electronic and electromechanical voting systems.”
- Section 1-5-616(1.5), C.R.S., which requires the Secretary of State to adopt rules establishing, “minimum system requirements and specifications for electronic and electromechanical voting systems used to conduct elections using instant runoff voting.”
- Section 1-5-616(4), C.R.S., which requires the Secretary of State to “adapt the standards for certification of electronic or electromechanical voting systems

established by rule... to ensure that new technologies that meet the requirements for such systems are certified in a timely manner..."

- Section 1-7-118(5), C.R.S., which requires the Secretary of State to promulgate rules, by January 1, 2026, which concern the tabulation, reporting, and canvassing of results for a coordinated election using instant runoff voting conducted by multiple counties.
- Section 1-7-509(6), C.R.S., which requires the Secretary of State to promulgate rules that "must include standards and procedures for conducting logic and accuracy testing on voting equipment to be used in an election using instant runoff voting."
- Section 1-7-515, C.R.S., which requires the Secretary of State to promulgate rules "to conduct risk limiting audits in an election using instant runoff voting."
- Section 1-7-1004, C.R.S., which requires the Secretary of State to adopt rules consistent with section 1-7-1003, C.R.S., "on the conduct of elections using ranked voting methods. The rules shall prescribe the methods and procedures for tabulating, auditing, and reporting results in an election using a ranked voting method."
- Section 1-7.5-104, C.R.S., which requires the county clerk to conduct a "coordinated" election by mail under the supervision of, and "subject to rules promulgated... by, the secretary of state."
- Section 1-7.5-106, C.R.S., which allows the Secretary of State to adopt rules governing procedures and forms necessary to implement mail ballot elections, and allowing the Secretary to appoint, "any county clerk and recorder as an agent of the secretary to carry out the duties prescribed..."
- Section 1-13-708, C.R.S., which gives the Secretary of State the authority to promulgate rules regarding authorization to access, "electronic or electromechanical voting equipment or an election-night reporting system before, during, or after any election provided by law."
- Section 1-13.5-617(1), C.R.S., which allows a local government to use a ranked voting method of election if they follow, "the rules adopted by the secretary of state pursuant to section 1-7-1004 [of the Colorado Revised Statute]."

IV. Copies of Draft Rules

A preliminary draft of the proposed rules is included at the end of this notice. Also, the notice is posted on the Department of State's [rules and notices of rulemaking webpage](#).

You may also contact our office to request an editable electronic copy of the draft of proposed rules.

As required by the State Administrative Procedure Act,³ if changes are made before the rulemaking hearing, a revised draft of the proposed rule amendments will be available to the public and posted on the website by November 30, 2025.

V. Opportunity to Testify and Submit Written Comments

The Department values your feedback in our rulemaking process, and we would very much like to hear your thoughts on the proposed amendments. Please review and consider the proposed changes to Election rules. The preliminary draft is included at the bottom of this notice.

Everyone will have the opportunity to testify and provide written comments concerning the proposed rule amendments. You may submit written comments to SOS.Rulemaking@coloradosos.gov for the Department to consider prior to the conclusion of the written comment period, which is announced during the rulemaking hearing. Written comments will be posted online in the order in which they are received and as soon as possible after receipt. They will be available to view on the Department's [rules and notices of rulemaking webpage](#). The Department will redact apparent personal contact information, including home address, email address, and telephone number(s), from submissions before posting the information online, unless otherwise directed by the contributor. All written comments will be added to the official rulemaking record.

Written comments may also be submitted directly to the hearing panel on the day of the hearing if you attend the hearing in person. Information regarding how to testify during the hearing is provided in section VI of this notice.

VI. Registration and Hearing Recording

Online registration of the hearing

To join the hearing online, you must [register](#) (Zoom).

³ Section 24-4-103(4)(a), C.R.S.

When you register, you must provide your full name, email address, physical address, and telephone number. You may also provide your job title and organization, if desired. Lastly, please indicate how you plan to attend the hearing (in person or online) and whether you plan to testify regarding the proposed amendments. You should receive a confirmation email including details about how to join the hearing online once you submit your registration.

Hearing procedures

After the introduction and a brief summary of the rulemaking, the Department will open the hearing to public testimony. To ensure that the hearing is prompt and efficient, oral testimony is limited to three minutes.

Those who attend the hearing in person will be called upon first to provide their testimony, if desired and indicated on the sign-in sheet. Then, online attendees who indicated their intent to provide oral testimony during their registration will be given their opportunity to provide oral testimony in the order they registered.

Once we have exhausted the list of pre-registered speakers, we will ask whether additional attendees wish to provide testimony. In-person attendees may raise their hands to indicate their intention to testify, and online attendees may raise their virtual hand by clicking the icon in their control panel.

Before the hearing concludes, we will announce an additional opportunity to submit written comments and the associated deadline.

Webinar audio requirements

Please be advised: The Department strongly encourages all attendees to join the webinar through a computer or Zoom app, even if using a telephone to dial in for audio. To testify during the hearing, it is best to use your computer or the Zoom app to be unmuted and to utilize the “raise hand” feature. The raise hand feature is only available to attendees who access the webinar by computer or by the Zoom app. If you access the webinar only by telephone, you may not appear in our webinar attendee list, meaning we may not be able to unmute you to provide testimony. If you choose to testify, it is best to use your computer microphone and speakers, a headset, or headphones. As outlined above, we will receive testimony from online attendees whose registration indicates that they plan to provide testimony before we offer both in-person and online attendees the option to raise their hands.

Audio recording

After the conclusion of the hearing, a recording will be available on the Department's [upcoming events and audio broadcasts webpage](#).

VII. Office Contact Information and Accessibility Accommodations Requests

If you have any questions or would like to submit written comments, please contact the Rulemaking Policy Analyst at SOS.Rulemaking@coloradosos.gov or (303) 894-2200 ext. 6124.

If you require a reasonable accommodation, please email accessibility@coloradosos.gov or call (303) 894-2200. Accommodation requests should be submitted at least one week prior to the rulemaking hearing.

Draft Statement of Basis, Purpose, and Specific Statutory Authority

Colorado Department of State

Election Rules

8 CCR 1505-01

I. Basis and Purpose

This statement explains proposed amendments to the Colorado Department of State Election rules.¹ The amendments are intended to ensure uniform and proper administration, implementation, and enforcement of Colorado election laws.²

Specific changes include:

- Amendments to Rule 1.
 - New Rule 1.1.47 defines “runoff tabulation entity.” This is a new term used throughout the Election rules to clarify which county is responsible for conducting the elimination sequences of a ranked voting election.
 - Current Rules 1.1.47 through 1.1.67 are renumbered to Rules 1.1.48 through 1.1.68 to accommodate the inclusion of New Rule 1.1.47.
- Amendments to Rule 7.
 - Amendments to Rule 7.4.1 remove an internal rule reference to a defined term found in Rule 1. Internal rule references are not needed for defined terms.
- Amendments to Rule 10.

¹ 8 CCR 1505-1.

² Title 1, C.R.S.

- Amendments to Rule 10.6.1 include new sections (e) and (f). The requirements for official county abstracts provided by county canvass boards now include, if applicable: (1) the round-by-round tabulation results of each race of instant runoff voting contests that takes place in a single county and (2) a report detailing the ranking of each candidate received in the county of an instant runoff voting contest that takes place in more than one county.
- Amendments to Rule 10.6.2 include new section (c). The state portion of the abstract that a county provides to the Department of State must now include the final, tabulated results of instant runoff voting contests that take place in more than one county, which are to be used by the combined canvass board created by New Rule 10.9.
- New Rule 10.9, which includes New Rules 10.9.1 through 10.9.5, pertains to the creation of a canvass board for instant runoff voting contests that take place in more than one county and the certification of election results.
- New Rule 10.9.1 states that 15 days before an election that includes an instant runoff voting contest that takes place in more than one county, the runoff tabulation entity will appoint a combined canvass board to canvass the results of that contest. The combined canvass board will include the county clerk, or their designee, from each county in which the instant runoff contest was conducted and a representative from the local jurisdiction whose office is up for election in that contest.
 - New Rule 10.9.2 requires the combined canvass board to meet after the canvassing of results in each county on a date noticed by the runoff tabulation entity.
 - New Rule 10.9.3 states that the combined canvass board's only duty is to review the final, tabulated results submitted by each county canvass board and to certify the winner of the instant runoff contest by majority vote. The combined canvass board must also review the combined tabulated results to certify the winner of the instant runoff contest. The Secretary of State, or their designee, will be the tiebreaker, if necessary.
 - New Rule 10.9.4 requires the combined canvass board to submit the certified results to the local jurisdiction which certified the instant runoff voting contest on the ballot.
- Amendments to Current Rule 10.9 include renumbering to Rule 10.10. Additionally, Current Rule 10.9.1 through 10.9.5 are renumbered to

10.10.1 through 10.10.5. Internal rule references are updated in Current Rule 10.9.2.

- New Rule 10.10.6 clarifies how an instant runoff contest must be recounted. If the smallest margin between two candidates in an instant runoff contest is less than or equal to 0.5% of the votes cast in the contest and a different candidate being eliminated would change the ultimate winner, then a recount must be held. If the instant runoff voting contest takes place within one county, then the county clerk or designated official appointed by the municipality holding the ranked voting election must order a recount of the contest, as applicable, after receiving the canvass of results. If the instant runoff voting contest takes place within multiple counties, then each county clerk must order a recount after receiving the canvass of results from the combined canvass board, as applicable.
- Current Rules 10.10 through 10.14 are renumbered to Rules 10.11 through 10.15.
- Amendments to Rule 11.
 - Amendments to Rule 11.3 update the Rule for consistency with Department rulemaking standards.
 - New Rule 11.3.3 pertains to how to complete a logic and accuracy test for multi-jurisdictional ranked voting elections. If an instant runoff voting contest takes place in multiple counties, then the county clerks conducting that local jurisdiction's instant runoff voting contest must perform an additional logic and accuracy test. To prepare for that additional logic and accuracy test, the runoff tabulation entity must provide a test deck of 25 ballots to each county clerk involved. The county, in turn, must then scan the additional test deck and provide the cast vote record of the test deck to the runoff tabulation entity. Then, at a public meeting, the runoff tabulation entity must use the cast vote records received from each county clerk during their logic and accuracy test to tabulate the contest(s) using the certified third-party software that will be used in the election. The test deck, any other logic and accuracy materials, and the round-by-round results report are election records.
- Amendments to Rule 20.

- Amendments to Rules 20.4.2, 20.4.3, 20.4.4, 20.6.3, 20.10.3 remove internal rule references to defined terms found in Rule 1. Internal rule references are not needed for defined terms.
- Amendments to Rule 21.
 - New Rule 21.12 addresses the certification of third-party software for use in instant runoff voting elections conducted in more than one county.
 - New Rule 21.12.1 states that the Department may submit a third-party software component to a federally certified voting system test laboratory for certification for use along with another previously certified voting system, or as part of that voting system for its initial certification. The software must be able to aggregate and resolve instant runoff voting elections in multiple jurisdictions. Additionally, the voting system vendor is not responsible for integrating the software that is submitted for certification into their voting system, nor is it responsible for the associated costs with amending a certification. However, the voting system vendor may not prohibit an amendment to the certification of the software.
 - New Rule 21.12.2 lists the functional requirements of third-party amendment certifications, including that the software: (1) must be able to import results files from all voting systems that are certified for use for instant runoff voting capability; (2) allow a user to standardize names of contests and choices across jurisdictions; (3) meet the tabulation requirements for instant runoff races that exist in rule; and (4) export data in the formats required by rule.
 - New Rule 21.12.3 provides that the Department will determine the security requirements that must be tested for the third-party software, after consulting with the voting system test laboratories.
 - New Rule 21.12.4 details the general testing requirements that will be followed for this third-party software. This includes the creation of a test plan and test report that is separate from any previously certified equipment. This rule requires the Department to publish the test report and other appropriate certification artifacts after the software is certified for use.
 - New Rule 21.12.5 requires the Department to hold the certified third-party software in escrow until it has been decertified.
 - New Rule 21.12.6 requires that third-party software only be installed on computer workstations with no wireless connectivity enabled.

- New Rule 21.12.7 permits the Department to decertify software that has been certified as an amendment to a certified voting system at any time. Decertifying the software does not otherwise decertify the fully certified voting system. Additionally, the decertification and the reasons for decertification will be posted on the Department’s public website.
- Amendments to Rule 25.
 - Amendments to Rule 25.2 include changes to Rule 25.2.2, which includes a new section (d) and the necessary renumbering of current sections (d) through (l) to sections (e) through (m). The new section (d) provides information to counties for how to prepare for the risk-limiting audit following instant runoff voting contests. Specifically, section (d) pertains to sample size estimates for the audit.
- Amendments to Rule 26.
 - Amendments to Rule 26.2 specify that if any county in which a local government is located does not have a voting system that is capable of conducting a ranked voting election, none of the counties in which the local government is located are required to coordinate that election.
 - Amendments to Rule 26.5
 - Amendments to Rules 26.5.1, 26.5.2, and 26.5.3 replace “designated election official” with the new defined term “runoff tabulation entity” to specify who is responsible for the tabulation of instant runoff elections.
 - Repeal and replacement of Rule 26.5.5 pertains to the tie-breaker elimination order for all candidates in a ranked voting election. The tie-breaker elimination order must be completed before any logic and accuracy testing and randomly determined by the election official, or their designee. The runoff tabulation entity must eliminate candidate(s) according to the tie-breaker order.
 - Repeal of Rules 26.5.6 and 26.5.7 as they are no longer necessary with the proposed amendments to other rules.
 - Amendments to Rule 26.6
 - Amendments to Rules 26.6.2, 26.6.3, 26.6.4, and 26.6.5 replace “designated election official” with the new defined term “runoff tabulation entity” to specify who is responsible for the tabulation of ranked voting elections using the single transferable vote method.

- Amendments to Rule 26.7 replace “designated election official” with the new defined term “runoff tabulation entity” to specify who is responsible for counting improperly marked ballots in an instant runoff voting contest.
- New Rule 26.8 concerns the tabulation of multi-jurisdictional ranked voting elections.
 - New Rule 26.8.1 requires the county clerk to transmit to the runoff tabulation entity the results of a ranked voting election that is in multiple counties at least once on election night and once each day afterward while ballots are being tabulated.
 - New Rule 26.8.2 requires the county clerk to hash the results file by using SHA-256 algorithm. The generated hash value must be emailed to the runoff tabulation entity.
 - New Rule 26.8.3 requires the runoff tabulation entity to transfer the received results file and associated hash value to a workstation that contains certified third-party software for conducting the elimination stages of tabulation.
- Amendments to Current Rule 26.8, renumbered Rule 26.9.
 - New Rule 26.9.1 permits the county clerk to publicly report only the first rankings if their county is conducting a ranked voting election that is shared amongst multiple counties.
 - Amendments to Current Rule 26.8.1, renumbered to Rule 26.9.2, replace “designated election official” with the new defined term “runoff tabulation entity” to specify who is responsible for ensuring anonymity of a voter’s ranking in the ballot image report.
 - Amendments to Current Rule 26.8.2, renumbered to Rule 26.9.3, provides a reporting alternative for the runoff tabulation entity if the state election night reporting website lacks the functionality to report the results of a ranked voting election. It is the responsibility of the runoff tabulation entity to post the results on a public website and to provide the Department with the URL of that website no later than a week before election day.
 - New Rule 26.9.4 exempts ranked voting elections from the election night reporting requirements of Rule 11.9. Alternatively, the runoff tabulation entity must report the results at least once on election night and once each day when ballots are being tabulated.

- Amendments to Current Rule 26.9, renumbered to Rule 26.10, remove language that is no longer needed with the addition of new Rules 26.10.1 and 26.10.2.
 - New Rule 26.10.1 states that instant runoff voting contests are eligible to be selected for additional auditing by the Department, as outlined in Rule 25.2.2(j).
 - New Rule 26.10.2 requires any jurisdiction to conduct an audit of a ranked voting election independent of the state-administered risk-limiting audit if the jurisdiction does not conduct a ranked voting election as prescribed in Rule 26.5. This audit must not interfere with the state-administered audit that is conducted before the canvass board certifies official election results.

Other changes to rules not specifically listed are non-substantive and necessary for consistency with the Department’s rulemaking format and style. Cross-references in rules are also corrected or updated.

II. Rulemaking Authority

The statutory authority is as follows:

- Section 1-1-107(2)(a), C.R.S., which authorizes the Secretary of State “[t]o promulgate, publish and distribute...such rules as the secretary of state finds necessary for the proper administration and enforcement of the election laws.”
- Section 1-1-110(1), C.R.S., which requires county clerks to, “follow the rules and order promulgated by the secretary of state pursuant to this code.”
- Section 1-5-601.5, C.R.S., which authorizes the Secretary of State to develop "minimum standard and specifications... in accordance with section 1-5-616(1.5)" for a voting system or voting equipment for sale or for lease of use in an instant runoff election contest.
- Section 1-5-601.5(2), C.R.S., which allows the Secretary of State to " . . . require by rule that a voting system or voting equipment used to conduct an election using instant runoff voting meet [] federal standards, so long as the federal standards meet or exceed those promulgated by the secretary of state."
- Section 1-5-616, C.R.S., which requires the Secretary of State to adopt rules “that establish minimum standards for electronic and electromechanical voting systems.”
- Section 1-5-616(1.5), C.R.S., which requires the Secretary of State to adopt rules establishing, “minimum system requirements and specifications for electronic and

electromechanical voting systems used to conduct elections using instant runoff voting.”

- Section 1-5-616(4), C.R.S., which requires the Secretary of State to “adapt the standards for certification of electronic or electromechanical voting systems established by rule... to ensure that new technologies that meet the requirements for such systems are certified in a timely manner...”
- Section 1-7-118(5), C.R.S., which requires the Secretary of State to promulgate rules, by January 1, 2026, which concern the tabulation, reporting, and canvassing of results for a coordinated election using instant runoff voting conducted by multiple counties.
- Section 1-7-509(6), C.R.S., which requires the Secretary of State to promulgate rules that "must include standards and procedures for conducting logic and accuracy testing on voting equipment to be used in an election using instant runoff voting."
- Section 1-7-515, C.R.S., which requires the Secretary of State to promulgate rules “to conduct risk limiting audits in an election using instant runoff voting.”
- Section 1-7-1004, C.R.S., which requires the Secretary of State to adopt rules consistent with section 1-7-1003, C.R.S., “on the conduct of elections using ranked voting methods. The rules shall prescribe the methods and procedures for tabulating, auditing, and reporting results in an election using a ranked voting method.”
- Section 1-7.5-104, C.R.S., which requires the county clerk to conduct a “coordinated” election by mail under the supervision of, and “subject to rules promulgated... by, the secretary of state.”
- Section 1-7.5-106, C.R.S., which allows the Secretary of State to adopt rules governing procedures and forms necessary to implement mail ballot elections, and allowing the Secretary to appoint, “any county clerk and recorder as an agent of the secretary to carry out the duties prescribed . . .”
- Section 1-13-708, C.R.S., which gives the Secretary of State the authority to promulgate rules regarding authorization to access, “electronic or electromechanical voting equipment or an election-night reporting system before, during, or after any election provided by law.”
- Section 1-13.5-617(1), C.R.S., which allows a local government to use a ranked voting method of election if they follow, "the rules adopted by the secretary of state pursuant to section 1-7-1004."

Preliminary Draft of Proposed Rules

Colorado Department of State

Election Rules

8 CCR 1505-1

October 31, 2025

Disclaimer:

In accordance with the State Administrative Procedure Act, this draft is filed with the Department of State and submitted to the Department of Regulatory Agencies.¹

This is a preliminary draft of the proposed rules that may be revised before the rulemaking hearing on December 5, 2025. If changes are made, a revised copy of the proposed rules will be available to the public and a copy will be posted on the Department of State's website no later than November 30, 2025.²

The proposed amendments in this preliminary draft are shown with track changes. Associated publication instructions/notes are orange and italicized.

1 *Amendments to 8 CCR 1505-1 are as follows:*

2 *Amendments to Rule 1 are as follows:*

3 *New Rule 1.1.47 defines "runoff tabulation entity":*

4 1.1.47 "Runoff tabulation entity" means the election jurisdiction that will conduct
5 the elimination sequences for a ranked voting election. For an election that
6 is wholly within a single county, the county clerk and recorder or
7 designated election official appointed by the municipality holding the
8 ranked voting election is the runoff tabulation entity. For an election that is
9 shared by more than a single county, the controlling county, as defined by
10 Rule 4.2.2, is the runoff tabulation entity.

11 *[Not shown: Current Rules 1.1.47 through 1.1.67 are renumbered to Rules 1.1.48*
12 *through 1.1.68.]*

¹ Sections 24-4-103(2.5) and (3)(a), C.R.S.

² Section 24-4-103(4)(a), C.R.S. "[A]ny proposed rule or revised proposed rule by an agency which is to be considered at the public hearing...shall be made available to any person at least five days prior to said hearing."

1 *Amendments to Rule 7 are as follows:*

2 *Amendments to Rule 7.4.1 remove an internal rule reference:*

3 7.4 Receipt and processing of ballots

4 7.4.1 The county clerk must adequately light all drop box locations and use a
5 video security surveillance recording system ~~as defined in Rule 1.1.62~~ to
6 monitor each location.

7 *[Not shown: no changes to sections (a) through (g).]*

8 *Amendments to Rule 10 are as follows:*

9 *Amendments to Rule 10.6.1 add new sections (e) and (f) which now include the*
10 *requirements for official county abstracts for instant runoff voting contests that take*
11 *place in single counties and in more than one county, and necessary grammatical*
12 *changes:*

13 10.6 Official abstract and reporting to the Secretary of State

14 10.6.1 The official county abstract must include, by precinct or ballot style, where
15 applicable:

16 *[Not shown: no changes to sections (a) and (b).]*

17 (c) The statement of votes counted by race and ballot question or
18 issue; ~~and~~

19 (d) The total number of ballots cast in the election; ~~and~~

20 (e) For instant runoff voting contests conducted by a county clerk which
21 are within a single county, the round-by-round tabulation results of
22 each race; and

23 (f) For instant runoff voting contests conducted by a county clerk which
24 are contained in more than one county, a report detailing the
25 ranking each candidate received in the county.

26 *Amendments to Rule 10.6.2 include new section (c) which requires the Department, for*
27 *the state's portion of the abstract, to include the final, tabulated results of an instant*
28 *runoff voting contest that are contained in more than one county, and necessary*
29 *grammatical changes:*

1 10.6.2 A county must submit the state portion of the abstract and the ENR upload
2 required by Rule 11.9.6 to the Secretary of State in the format approved
3 by the Secretary of State. The state portion of the abstract must include:

4 (a) The summary of votes cast for each state race and each ballot
5 question or issue; ~~and~~

6 (b) The total number of ballots counted in the election; and

7 (c) For instant runoff voting contests conducted by a county clerk which
8 are contained in more than one county, final, tabulated results of
9 that race to be used by the combined canvass board appointed in
10 Rule 10.9.

11 *New Rule 10.9 concerns the canvass of instant runoff voting contests that are contained*
12 *in more than one county:*

13 10.9 Canvass of instant runoff voting contests contained in more than one county

14 10.9.1 No later than 15 days before an election which will include an instant
15 runoff voting contest contained in more than one county, the runoff
16 tabulation entity will appoint a combined canvass board to canvass the
17 results of the instant runoff voting contest. The board must consist of:

18 (a) The county clerk, or the county clerk's designee, from each county
19 in which the instant runoff voting contest was conducted; and

20 (b) A representative from the local jurisdiction whose office is up for
21 election in the instant runoff voting contest.

22 10.9.2 The combined canvass board appointed in this Rule will meet on a date
23 noticed by the runoff tabulation entity following the canvassing of results in
24 each county as required by section 1-10-102, C.R.S.

25 10.9.3 The combined canvass board's only duty is to review the final, tabulated
26 results submitted by each county canvass board to certify a winner of the
27 instant runoff voting contest. To certify a winner, the combined canvass
28 board must also review the combined tabulated results generated in
29 accordance with Rule 26.8. The combined canvass board must make its
30 determinations by a majority vote, with the Secretary of State, or their
31 designee, casting a vote only in the event of a tie.

1 10.9.4 After meeting, the combined canvass board must submit the certified
2 results to the local jurisdiction which certified the instant runoff voting
3 contest to the ballot.

4 *Amendments to Current Rule 10.9, renumbered to Rule 10.10, include New Rule*
5 *10.10.6--which pertains to recounts for instant runoff voting contests, update to internal*
6 *references, and necessary renumbering:*

7 10.910 Recount generally

8 10.910.1 The purpose of a recount is to re-tabulate the ballots.

9 10.910.2 A county that has successfully completed a comparison audit under
10 Rule 25.2 and reported no discrepancies in the recount contest need not
11 re-scan ballots during a requested recount, except as provided in Rule
12 ~~10.9.3~~10.10.3. In all cases, the county must re-adjudicate ballot images for
13 voter intent in accordance with Rule ~~10.13.3~~10.14.2.

14 *[Not shown: Current Rules 10.9.3 through 10.9.5 are renumbered to Rules 10.10.3*
15 *through 10.10.5.]*

16 10.10.6 Recounts for instant runoff voting contests. If the smallest margin
17 between two candidates in an instant runoff voting contest is less than or
18 equal to one-half of one percent of the votes cast in the contest, then a
19 recount must be held in accordance with section 1-10.5-103, C.R.S. The
20 smallest margin will be determined by calculating the minimum number of
21 votes that would have to be different to change the elimination order such
22 that the winner in the final round of tabulation would be different.

23 (a) The county clerk or designated election official appointed by the
24 municipality holding the ranked voting election must order a recount
25 of an instant runoff voting contest within a single county, following
26 the canvass of results by the county canvass board or designated
27 election official, as applicable.

28 (b) Each county clerk must order a recount of an instant runoff voting
29 contest contained in more than one county following canvass of
30 results by the combined canvass board under Rule 10.9, as
31 applicable.

32 *[Not shown: Current Rules 10.10 through 10.14 are renumbered to Rules 10.11 through*
33 *10.15.]*

1 *Amendments to Rule 11 are as follows:*

2 *Amendments to Rule 11.3 include the addition of New Rule 11.3.3, which pertains to*
3 *logic and accuracy tests for multi-jurisdictional ranked voting elections, and a technical*
4 *cleanup to the title Rule:*

5 11.3 ~~The clerk must perform a h~~Hardware diagnostic ~~test~~ and a logic and accuracy
6 test.

7 *[Not shown: no changes to Rules 11.3.1 and 11.3.2.]*

8 11.3.3 Logic and accuracy test for multi-jurisdictional ranked voting elections

- 9 (a) In addition to the logic and accuracy test conducted pursuant to
10 Rule 11.3.2, an additional logic and accuracy test described by this
11 Rule must be performed if two or more county clerks are
12 conducting an instant runoff voting contest for a single, local
13 jurisdiction.
- 14 (b) In preparation for a logic and accuracy test under this Rule, the
15 runoff tabulation entity must provide an additional test deck of 25
16 ballots to each county clerk. The deck must conform to the
17 requirements of Rule 11.3.2(c).
- 18 (c) At each county clerk's logic and accuracy test, the county clerk
19 must scan the additional test deck and provide the cast vote record
20 of the test deck to the runoff tabulation entity in the manner
21 prescribed by the runoff tabulation entity. The test deck must be
22 preserved as an election record alongside any other logic and
23 accuracy materials which are preserved as election records for that
24 election.
- 25 (d) At a public meeting which conforms as closely as practicable to the
26 requirements of section 1-7-509(2)(b), C.R.S., the runoff tabulation
27 entity must use the cast vote records received from each county
28 clerk during their logic and accuracy test to tabulate the instant
29 runoff voting contest or contests which are subject to this Rule. The
30 contest or contests must be tabulated using the third-party software
31 which has been certified for use under Rule 21.12. The runoff
32 tabulation entity must confirm that the round-by-round tabulation
33 corresponds to the known results of the test decks provided to each
34 county clerk.

1 (e) Following the tabulation, the runoff tabulation entity must maintain
2 the round-by-round results report as an election record.

3 *Amendments to Rule 20 are as follows:*

4 *Amendments to Rule 20.4.2 remove internal rule references:*

5 20.4.2 Surveillance of secure areas

6 (a) The county clerk must make video security surveillance recordings
7 of secure equipment areas, ~~as defined by Rule 1.1.50~~, in
8 accordance with the requirements of section 1-7-513.5, C.R.S.

9 (b) The county clerk of a county with 50,000 or more registered voters
10 must also make video security surveillance recordings of secure
11 ballot areas, ~~as defined by Rule 1.1.49~~, if those areas do not
12 contain any components of a voting system, beginning at least 35
13 days before election day and continuing uninterrupted through at
14 least 30 days after election day. If a recount or contest occurs, the
15 recording must continue through the conclusion of all related
16 activity.

17 *[Not shown: no changes to sections (c) through (e).]*

18 *Amendments to Rule 20.4.3 remove an internal rule reference:*

19 20.4.3 Access logs to secure areas

20 *[Not shown: no changes to section (a).]*

21 (b) The county clerk must otherwise maintain a log of each person who
22 enters a secure ballot area, ~~as defined by Rule 1.1.49~~, if that area
23 does not contain any components of a voting system. This does not
24 include members of the public who access areas of a county clerk's
25 office that are regularly available to the public outside of an
26 election.

27 *[Not shown: no changes to sections (c) and (d).]*

28 *Amendments to Rule 20.4.4 remove internal rule references:*

29 20.4.4 Restrictions on physical access

30 (a) General restrictions

1 (1) No person may be present in a secure ballot area, ~~as~~
2 ~~defined by Rule 1.1.49~~, or secure equipment area, ~~as~~
3 ~~defined by Rule 1.1.50~~, unless:

4 *[Not shown: no changes subsections (A) through (C).]*

5 *[Not shown: no changes to subsection (2).]*

6 *[Not shown: no changes to section (b).]*

7 20.6.3 Security at trusted build

8 *[Not shown: no changes to section (a).]*

9 (b) Video surveillance recording

10 (1) The county clerk must ensure that the trusted build is
11 conducted under video security surveillance recording ~~as~~
12 ~~defined by Rule 1.1.62~~.

13 *[Not shown: no changes to subsections (2) through (4).]*

14 *Amendments to Rule 20.10.3 remove internal rule references:*

15 20.10.3 Retention of voted ballots

16 *[Not shown: no changes to (a) through (d).]*

17 (e) Any room in which a county clerk conducts the activities described
18 in this Rule is a secure ballot area, ~~as defined by Rule 1.1.49~~.

19 (f) The county clerk must operate video security surveillance
20 recordings ~~as defined by Rule 1.1.62~~ of the activities described in
21 this Rule. Those recordings must be maintained as an election
22 record for 25 months following the conclusion of the ballot removal
23 process.

24 *[Not shown: no changes to (g) and (h).]*

25 *Amendments to Rule 21 are as follows:*

26 *New Rule 21.12 addresses the certification of third-party software only for use with*
27 *instant runoff voting elections contained in more than one county:*

28 [21.12 Amendments to certifications for instant runoff voting functionality](#)

1 21.12.1 The Department of State may submit a third-party software
2 component to a federally certified voting system test laboratory for
3 certification for use with another previously certified voting system or as
4 part of a system that is under consideration for certification.

5 (a) Only software components whose purpose is to aggregate and
6 resolve instant runoff voting elections that take place across more
7 than a single jurisdiction may be submitted according to this Rule.

8 (b) A voting system vendor may not prohibit an amendment to the
9 certification according to this Rule.

10 (c) A voting system vendor is not responsible for integrating software
11 that is submitted as an amendment into their voting system.

12 (d) A voting system vendor is not responsible for the costs associated
13 with amending a certification.

14 21.12.2 Functional requirements of third-party amendment certifications

15 (a) The software must be able to import results files from all voting
16 systems that are certified for use for instant runoff voting capability
17 under Rule 21.11.

18 (b) The software must allow a user to standardize the names of
19 contests and choices across jurisdictions.

20 (c) The software must meet the requirements of Rule 21.11.4, with the
21 exception of Rule 21.11.4(a).

22 (d) The software must export data in the formats specified in Rule
23 21.11.2(a).

24 21.12.3 Upon submission of an amendment under this Rule, the
25 Department of State will consult with the voting system test laboratory to
26 determine which security requirements are applicable to the third-party
27 software.

28 21.12.4 Testing

29 (a) For amendments that are submitted with a voting system currently
30 under consideration, the test plan must include an appendix
31 addressing the third-party software amendment. Upon completion

1 of testing, the test report must include an appendix addressing the
2 third-party software amendment.

3 (b) For amendments that are submitted for a voting system that has
4 been previously certified, the Department of State will work with the
5 voting system test laboratory to develop a separate test plan for the
6 amendment. Upon conclusion of testing, the laboratory must
7 produce a test report.

8 (c) If the third-party software meets the requirements in Rule 21.12, the
9 Department of State will certify the third-party software as part of an
10 amendment to a voting system. If the requirements are not met
11 sufficiently for certification of the third-party software with the
12 amendment, it does not preclude the voting system from being
13 certified without the amendment.

14 (d) The Department of State will publish its determination of
15 certification for the amendment on its public website along with the
16 test report and any other appropriate certification artifacts.

17 21.12.5 Once software has been certified as a third-party amendment, the
18 Department of State must hold that software in escrow until such time that
19 it has been decertified.

20 21.12.6 Third-party software components that are certified as amendments
21 must only be installed on a computer workstation that has no wireless
22 connectivity enabled.

23 21.12.7 The Department of State may decertify software that has been
24 certified as an amendment to a certified voting system at any time.

25 (a) When software that is certified using this Rule is decertified, the
26 Department of State must publish the decertification on its public
27 website along with any reasons for decertification.

28 (b) In the event the Department of State decertifies software that has
29 been certified as an amendment to a fully certified voting system,
30 that decertification shall only apply to the amendment and shall not
31 apply to the otherwise fully certified voting system.

32 *Amendments to Rule 25 are as follows:*

1 *Amendments to Rule 25.2.2 include new section (d) which pertains to the sample size*
2 *estimates used for the risk-limiting audit of instant runoff voting contests and necessary*
3 *renumbering:*

4 25.2 Risk limiting audit. The designated election official must conduct a risk-limiting
5 audit in accordance with section 1-7-515, C.R.S., and this Rule.

6 *[Not shown: no changes to Rule 25.2.1.]*

7 25.2.2 Preparing for the audit

8 *[Not shown: no changes to sections (a) through (c).]*

9 (d) Sample size estimates. Upon completion of tabulation on election
10 night, counties are required to export an initial CVR export from
11 their voting system and hash and upload the export and hash value
12 to the RLA tool. Counties are not required to upload a ballot
13 manifest to the RLA tool for the purposes of creating sample size
14 estimates.

15 (1) The Department of State will use the election night CVRs to
16 create sample size estimates to facilitate the selection of
17 target contests.

18 (2) Counties are not required to upload a CVR export again
19 during the same election to the RLA tool unless requested to
20 do so by the Department to facilitate an updated sample size
21 estimate.

22 *[Not shown: sections (d) through (l) are recodified to sections (e) through (m).]*

23 *Amendments to Rule 26 are as follows:*

24 *Amendments to Rule 26.2 specify that if any county in which a local government is*
25 *located does not have a voting system that can conduct a ranked voting election, then*
26 *none of the counties in which that local government is located are required to coordinate*
27 *that election:*

28 26.2 A local government conducting a ranked voting election that is coordinating with
29 the county clerk must give notice to the county clerk no later than 100 days
30 before the election. If ~~the~~ any county's voting system in which the local
31 government is located is not capable of conducting a ranked voting election, the
32 county clerk is not required to coordinate.

1 *Amendments to Rule 26.5 concern a grammatical update:*

2 26.5 Tabulation of instant-run-off elections

3 *Amendments to Rules 26.5.1 through 26.5.3 include the use of the new definition of*
4 *“runoff tabulation entity,” replacing “designated election official.”*

5 26.5.1 In any ranked voting election in which only one candidate will be elected to
6 office, the ~~designated election official~~ runoff tabulation entity must follow
7 the tabulation procedures described in this rule.

8 26.5.2 During the first round of tabulation, the ~~designated election official~~ runoff
9 tabulation entity must tabulate the first-choice ranks on each ballot.

10 *[Not shown: no changes to section (a).]*

11 (b) If no candidate receives over 50 percent of the first-choice ranks for
12 a contest across all ballots tabulated, the ~~designated election~~
13 ~~official~~ runoff tabulation entity must continue to the next round of
14 tabulation.

15 26.5.3 At the beginning of the next round of tabulation, the candidate with the
16 fewest first-choice ranks in the prior round is eliminated and the eliminated
17 candidate’s votes are transferred to each ballot’s next-ranked continuing
18 candidate and tabulated.

19 *[Not shown: no changes to section (a).]*

20 (b) If no candidate has over 50 percent of the votes cast on active
21 ballots after the second round, the ~~designated election official~~ runoff
22 tabulation entity must repeat additional rounds of tabulation as
23 described in this Rule, until there is a winning candidate.

24 *[Not shown: no changes to Rules 25.5.4.]*

25 *Repeal and replacement of Rule 26.5.5 with New Rule 26.5.5, which concerns the logic*
26 *and accuracy test for any ranked voting election:*

27 ~~26.5.5 At the end of Round one and in any subsequent rounds, if two or more~~
28 ~~candidates tie for the lowest number of votes, the eliminated candidate~~
29 ~~must be chosen by lot, unless the candidates may be eliminated~~
30 ~~simultaneously under Rule 26.5.4.~~

1 26.5.5 Before any logic and accuracy test for any ranked voting election, the
2 designated election official, or their designee, must randomly determine
3 the tie-breaker elimination order for all candidates.

4 (a) The tie-breaker elimination order must consist of a list of all
5 candidates with each candidate assigned a unique ranking.

6 (b) In any round of tabulation, if there is a tie that needs to be resolved
7 to determine which candidate or candidates will be eliminated,
8 including the round that determines the winner, the runoff tabulation
9 entity must eliminate the candidate or candidates according to the
10 tie-breaker elimination order.

11 *Repeal of Rules 26.5.6 and 26.5.7:*

12 ~~26.5.6 If only two continuing candidates remain after a round and they have the~~
13 ~~same number of votes, the winning candidate must be chosen by lot.~~

14 ~~26.5.7 The designated election official need not report election night results~~
15 ~~under Rule 11.9.4, unless directed by the Secretary of State.~~

16 *Amendments to Rule 26.6 use the new definition of “runoff tabulation entity,” replacing*
17 *“designated election official.”*

18 26.6 Tabulation of ranked voting elections using the single transferable vote method

19 *[Not shown: no changes Rule 26.6.1.]*

20 26.6.2 During the first round of tabulation, the ~~designated election official~~runoff
21 tabulation entity must tabulate the first-choice ranks on each ballot.

22 *[Not shown: no changes to sections (a) and (b).]*

23 26.6.3 During the second round of tabulation, the ~~designated election official~~
24 runoff tabulation entity must calculate each winning candidate’s surplus
25 votes, as described in Rule 26.6.4, and transfer those votes
26 proportionately to any continuing candidate.

27 *[Not shown: no changes to section (a).]*

28 (b) After the votes are transferred, if the number of winning candidates
29 is less than the number of seats to be filled, the ~~designated election~~
30 ~~official~~runoff tabulation entity must eliminate the continuing
31 candidate with the fewest first-choice votes, surplus votes from

1 winning candidates, and, when applicable, votes transferred from
2 eliminated candidates. The eliminated candidate's votes must then
3 be transferred to each active ballot's next-highest-ranked continuing
4 candidate.

5 *[Not shown: no changes to sections (c) and (d).]*

6 26.6.4 To calculate a winning candidate's surplus votes in any round, the
7 ~~designated election official~~ runoff tabulation entity must:

8 *[Not shown: no changes to sections (a) through (d).]*

9 26.6.5 In any round, if two or more candidates tie for the lowest number of votes,
10 the ~~designated election official~~ runoff tabulation entity must determine the
11 eliminated candidate by lot.

12 *[Not shown: no changes to Rule 26.6.6.]*

13 *Amendments to Rule 26.7 use the new definition of "runoff tabulation entity," replacing*
14 *"designated election official:"*

15 26.7 After determining voter intent in accordance with the Secretary of State's Voter
16 Intent Guide, the ~~designated election official~~ runoff tabulation entity must count
17 improperly marked ballots as follows:

18 *[Not shown: no changes to Rules 26.7.1 through 26.7.4.]*

19 *New Rule 26.8 concerns tabulating multi-jurisdictional ranked voting elections:*

20 26.8 Tabulating multi-jurisdictional ranked voting elections

21 26.8.1 For ranked voting elections contained in more than one county, at least
22 once on election night and once each day where ballots are being
23 tabulated thereafter, each county clerk must transmit results in an
24 approved format to the runoff tabulation entity using a secure data transfer
25 method provided by the Department of State.

26 26.8.2 As part of the data results transfer process, the county clerk must hash the
27 results file using a SHA-256 algorithm. The generated hash value must be
28 emailed to the runoff tabulation entity. The county clerk must not send the
29 hash value to the runoff tabulation entity using the same data transfer
30 method used to send the results file.

1 26.8.3 Upon receipt of the results file and associated hash value, the runoff
2 tabulation entity must transfer the results file to a workstation that contains
3 software for conducting the elimination stages of tabulation.

4 (a) The media that the runoff tabulation entity uses to transfer the
5 results file must conform with Rule 20.5.3(c).

6 (b) The runoff tabulation entity must verify that the hash value of the
7 received results file matches the hash value transmitted by the
8 county clerk on the workstation that contains software for
9 conducting the elimination stages of tabulation.

10 (c) The runoff tabulation entity must only use results files that have
11 been verified by the method in Rule 26.8.3(b) to conduct elimination
12 stages of tabulation.

13 *Amendments to Current Rule 26.8, renumbered to Rule 26.9, include using the new*
14 *definition of “runoff tabulation entity” to replace “designated election official” and New*
15 *Rules 26.9.1 and 26.9.4, which pertain to the reporting result requirements and*
16 *exemptions for counties that have ranked voting elections which are contained in more*
17 *than one county:*

18 26.89 Reporting results of a ranked voting election

19 26.9.1 For ranked voting elections contained in more than one county, the clerk
20 and recorder of each participating county may only publicly report first
21 rankings.

22 ~~26.8.19.2~~ The ~~designated election official~~ runoff tabulation entity must ensure
23 anonymity of a voter’s rankings in the ballot image report required by
24 section 1-7-1003(7)(a)(II), C.R.S. In precincts with ten or fewer voters, the
25 ballot image reports must be combined with another precinct.

26 ~~26.8.29.3~~ For any ranked voting election, if the state election night reporting
27 website in Rule 11.9 lacks functionality to report the results of a ranked
28 voting election the runoff tabulation entity is responsible for posting results
29 to a public website. If the website used to report results is not the election
30 night reporting website in Rule 11.9, the runoff tabulation entity
31 ~~coordinated with a county clerk, the coordinated election official must~~
32 ~~publish preliminary and final result reports of a ranked voting election on a~~
33 ~~website. The reports must comply with section 1-7-1003(7)(a)(I) – (III),~~
34 ~~C.R.S. The coordinated election official~~ must provide to the Secretary of

1 State the website where results will be posted no later than a week before
2 election day.

3 26.9.4 The schedule to post results on election night for a ranked voting election
4 are exempt from the requirements of Rule 11.9. Instead, the runoff
5 tabulation entity must report results at least once on election night and at
6 least once each day when ballots are tabulated thereafter.

7 *Amendments to Current Rule 26.9, renumbered to Rule 26.10, pertain to auditing a*
8 *ranked voting race:*

9 ~~26.9.10 Auditing a ranked voting election or race. The designated election~~
10 ~~official must audit each ranked voting race before the canvass board certifies~~
11 ~~official election results in a manner which will not interfere with the audit required~~
12 ~~by section 1-7-515, C.R.S.~~

13 26.10.1 Instant runoff races tabulated according to Rule 26.5 are eligible to
14 be targeted according to Rule 25.2.2(j) in the state-administered risk-
15 limiting audit if the election is covered by section 1-7-515(2)(a), C.R.S.

16 26.10.2 Any jurisdiction that conducts a ranked voting election in a manner
17 other than the instant runoff method in Rule 26.5 must conduct an audit of
18 the race independent of the state-administered risk-limiting audit that does
19 not interfere with the state-administered audit before the canvass board
20 certifies official election results, if the election is covered by section 1-7-
21 515(2)(a), C.R.S.

Department of Health Care Policy & Financing

Medical Services Board

NOTICE OF PROPOSED RULES

The Medical Services Board of the Colorado Department of Health Care Policy and Financing will hold a public meeting on Friday, December 12, 2025, beginning at 9:00 a.m., at 303 E. 17th Ave, Suite 1100. Denver, CO 80203. Reasonable accommodations will be provided upon request for persons with disabilities. Please notify the Board Coordinator at 303- 866-4416 or chris.sykes@state.co.us or the 504/ADA Coordinator hcpf504ada@state.co.us at least one week before the meeting.

A copy of the full text of these proposed rule changes is available for review from the Medical Services Board Office, 303 E. 17th Ave, Ste 1100, Denver, Colorado 80203, (303) 866-2993, fax (303) 866-4411. Written comments may be submitted to the Medical Services Board Office on or before the close of business on Wednesday before the meeting. Additionally, the full text of all proposed changes will be available approximately one week prior to the meeting on the Department's website at www.colorado.gov/hcpf/medical-services-board.

This notice is submitted pursuant to § 24-4-103(3)(a) and (11)(a), C.R.S.

MSB 25-10-13-B, Creation Medical Assistance Act Rule concerning the Provider Stabilization Fund Program, Section 8.970

Medical Assistance. Create the Provider Stabilization Fund Program as mandated by SB 25-290. The Provider Stabilization Fund program was established to make payments to safety net providers throughout the state that are providing care to low-income uninsured individuals.

The authority for this rule is contained in Sections 25.5-3-601 through 25.5-3-606, 2-3-1203, and 38-13-801 C.R.S. (2025) and Sections 25.5-1-301 through 25.5-1-303, C.R.S. (2025).

MSB 25-10-13-A, Revision to the Medical Assistance Act Rule concerning Definitive Drug Testing, Section 8.660

Medical Assistance. This proposed rule revision affects Section 8.660 Laboratory and X-Ray. Specifically, this revision will add a limit of 16 units of services per state fiscal year for definitive drug testing for adult Health First Colorado members. Definitive drug tests use highly specific, quantitative laboratory methods, including but not limited to liquid chromatography–tandem mass spectrometry (LC-MS/MS) and gas chromatography–mass spectrometry (GC-MS), to identify and measure the concentration of individual drugs and drug metabolites in a patient specimen. Definitive testing is distinguished from presumptive drug testing in that definitive testing confirms the presence or absence of a substance, provides specific analyte identification, and reports exact concentrations, whereas presumptive testing only confirms the presence or absence of a substance. This proposed limit is a result of uncontrolled, inappropriate utilization of this specific service.

The authority for this rule is contained in 42 C.F.R. § 440.30 & C.R.S. §§ 25.5-1-301 to -303 (2025).

MSB 25-08-14-A, Revision to the Medical Assistance Act Rule Concerning Adult and Child Respite, Sections 8.7545 & 8.7546

Medical Assistance. The Department of Health Care Policy & Financing (HCPF) is proposing updates to existing Child and Adult respite rules. These changes are intended to clarify policy, improve service access, and ensure alignment with waiver requirements effective January 1, 2026.

The authority for this rule is contained in C.R.S. §§ 25.5-1-301 to -303 (2025).

HB22-1295 Department Early Childhood and Universal Preschool Program was signed into law on April 25, 2022, which created the Colorado Department of Early Childhood (CDEC). Pursuant to HB 22-1295, the child care licensing functions for less-than 24 hours care facilities under the Departments former Office of Early Childhood (OEC) transferred to CDEC. When CDEC separated from the Colorado Department of Human Services (CDHS) on July 1, 2022, CDEC worked to migrate the CDEC facility-specific regulations to their own CCR series. Prior to the separation of Departments, CDEC regulations lived in 12 CCR 2509-8. CDEC has since promulgated their new regulations into 8 CCR 1402-1 Child Care Facility Licensing Rules and Regulations, and the 24-hour child care regulations stayed in 12 CCR 2509-8. CDEC regulations in 8 CCR 1402-1 were effective 12/15/23 but duplicative regulations were not removed from 12 CCR 2509-8 when their CCR series was created. This rule packet seeks to remove relevant rules from CDHS's rule sets.

STATEMENT OF BASIS AND PURPOSE

Summary of the basis and purpose for new rule or rule change.

*Explain why the rule or rule change is necessary and what the program hopes to accomplish through this rule. **1500 Char max***

HB22-1295 "Department Early Childhood and Universal Preschool Program" was signed into law on April 25, 2022, which created the Colorado Department of Early Childhood (CDEC). Pursuant to HB 22-1295, the child care licensing functions for less-than 24 hours care facilities under the Department's former "Office of Early Childhood" (OEC) transferred to CDEC. When CDEC separated from the Colorado Department of Human Services (CDHS) on July 1, 2022, CDEC worked to migrate the CDEC facility-specific regulations to their own CCR series. Prior to the separation of Departments, CDEC regulations lived in 12 CCR 2509-8. CDEC has since promulgated their new regulations into 8 CCR 1402-1 "Child Care Facility Licensing Rules and Regulations", and the 24-hour child care regulations stayed in 12 CCR 2509-8. CDEC regulations in 8 CCR 1402-1 were effective 12/15/23 but duplicative regulations were not removed from 12 CCR 2509-8 when their CCR series was created.

Because of this, there are 178 pages of 12 CCR 2509-8 that are currently CDEC-specific, duplicative of their current regulations in 8 CCR 1402-1, and do not need to live in their old CCR series any longer. Having old regulations in 12 CCR 2509-8 causes confusion among applicants and licensees as well as for the licensed providers who are seeing appeals as to which regulations apply to their license. The repeal is necessary to ensure consistency of regulation application, clarity for providers, and reduce administrative burden. The sections in 12 CCR 2509-8 that are proposed for repeal are CDEC-specific sections only and include: Section 7.702, 7.707, 7.711, 7.712, 7.716, 7.717, 7.720, and 7.730.

An emergency rule-making (which waives the initial Administrative Procedure Act noticing requirements) is necessary:

- to comply with state/federal law and/or
- to preserve public health, safety and welfare

Justification for emergency:

N/A

State Board Authority for Rule:

Code	Description
26-1-107(5)(b), (6)(a), C.R.S. (2025)	Authorizes the State Board to promulgate rules for programs administered under Title 26 and Title 27 and states the State Board shall adopt board rules.

Program Authority for Rule: Give federal and/or state citations and a summary of the language authorizing the rule-making function AND authority.

Code	Description
26-6-909(1), (2), C.R.S. (2025)	The Department shall promulgate licensing standards for all facility types described in Part 9 or Article 6 of Title 26. The standards are enumerated in subsection 2.

Does the rule incorporate material by reference? Yes

No

Does this rule repeat language found in statute? Yes

REGULATORY ANALYSIS

1. List of groups impacted by this rule.

Which groups of persons will benefit, bear the burdens or be adversely impacted by this rule?

Groups impacted by this rule primarily include the Colorado Department of Early Childhood (CDEC), the Colorado Department of Human Services (CDHS), and the applicants and licensees through both CDEC and CDHS.

2. Describe the qualitative and quantitative impact.

How will this rule-making impact those groups listed above? How many people will be impacted? What are the short-term and long-term consequences of this rule?

CDEC will be impacted as it will reduce duplication of their regulations in 8 CCR 1402-1, thus providing more clarity to CDEC applicants and licensees as to which regulations apply to less-than 24-hour child care under CDEC. CDHS will be impacted as it will reduce administrative burden with a CCR series that is 525 pages long and 178 of those pages not pertaining to CDHS-licensed providers, as CDHS also receives inquiries and confusion around which regulations apply to 24-hour providers. Applicants and licensees will be impacted in a positive way because once these are repealed, it will provide more clarity as to which regulations pertain to each specific license type across both Departments and not cause confusion for licensing or appeal purposes. The appeal panels in each respective Department often see appeal submissions with incorrect regulations cited as well due to the confusion. The Department does not see any adverse impact as a result of this repeal.

3. Fiscal Impact

*For each of the categories listed below explain the distribution of dollars; please identify the costs, revenues, matches or any changes in the distribution of funds even if such change has a total zero effect for any entity that falls within the category. If this rule-making requires one of the categories listed below to devote resources without receiving additional funding, please explain why the rule-making is required and what consultation has occurred with those who will need to devote resources. **Answer should NEVER be just "no impact" answer should include "no impact because...."***

State Fiscal Impact (Identify all state agencies with a fiscal impact, including any Colorado Benefits Management System (CBMS) change request costs required to implement this rule change)

The Department identifies indirect cost savings as a result of this repeal, as it will free up CDEC and CDHS Department staff time when administrative burden is reduced due to regulations not being duplicative across CCR series, cutting down on time spent clarifying for applicants and licensees which regulations apply to them.

County Fiscal Impact

There will be no fiscal impact to counties, as these regulations do not pertain to county departments of human/social services at all. They are only CDEC and CDHS-licensed facility regulations.

Federal Fiscal Impact

There will be no federal fiscal impact as a result of these regulations being repealed.

Other Fiscal Impact (such as providers, local governments, etc.)

Title of Proposed Rule: 12 CCR 2509-8 - CDEC Repeal Proposed Rules Draft

CDHS Tracking #: 25-06-17-01

Office, Division, & Program: Rule Author: Logan Ellett

Phone: 720.245.1195

E-Mail: logan.ellett@state.co.us

The Department has not identified any other fiscal impact outside of some indirect cost savings due to reduced administrative burden on State Department staff, as this repeal will remove duplicate regulations that already exist in another CCR series and does not create any requirement or fiscal responsibility for anyone.

4. Data Description

List and explain any data, such as studies, federal announcements, or questionnaires, which were relied upon when developing this rule?

The only data that was relied on when developing this proposed rule packet was the knowledge that CDEC promulgated their regulations into a new CCR series when their Department was created, CDEC's confirmation that the regulations need to be removed, and Provider Services Unit (PSU) staff within the Division of Child Welfare (DCW) confirming that these regulation sections are only pertaining to CDEC and must be removed.

5. Alternatives to this Rule-making

Describe any alternatives that were seriously considered. Are there any less costly or less intrusive ways to accomplish the purpose(s) of this rule? Explain why the program chose this rule-making rather than taking no action or using another alternative. Answer should NEVER be just "no alternative" answer should include "no alternative because..."

There are no other alternatives to this rule making aside from not passing the repeal of the regulations. That would result in continued administrative burden and confusion for applicants and licensees due to having duplicative regulations for the same Department listed in two separate CCR series.

<p>7.702.1 - Definitions</p>	<p>REPEAL</p>	<p>7.702.1 DEFINITIONS A. Childcare centers that provide less than 24-hour care (referred to as “centers”) provide comprehensive care for children when the parents or guardians are employed or otherwise unavailable to care for the children. Childcare centers may operate twenty-four (24) hours a day, but the children are cared for at the center fewer than twenty-four (24) hours a day. B. Childcare centers that provide less than 24-hour programs of care include the following types of facilities: 1. A “large childcare center” provides care for 16 or more children between the ages six (6) weeks and eighteen (18) years. 2. A “small childcare center” provides care for up to fifteen (15) children between the ages of two (2) and eighteen (18) years. 3. An “infant program” provides care for children between the ages of six (6) weeks and eighteen (18) months. 4. A “toddler program” provides care for children between the ages of twelve (12) months (when walking independently or with a health care provider’s statement indicating developmental appropriateness of placement in a toddler program) and thirty-six (36) months. 5. A “preschool” is a childcare program for five (5) or more children between the ages of two and one-half (2 1/2) and seven (7) years. 6. A “mobile part-day preschool program” is a program with a mobile classroom that uses no permanent building on a regular basis, for children three (3) to seven (7) years of age, with no more than (8) eight children at any given time. Each class session must not exceed five (5) hours. 7. A “kindergarten program” provides a program for children the year before they enter the first grade. Only private kindergarten programs not regulated by the Colorado Department of Education are required to be licensed.</p>	<p>7.702.1 DEFINITIONS A. For every thirty (30) or fewer children in attendance, there must be at least one (1) staff member on duty who holds a current Department-approved First Aid and Safety Certificate (including CPR for all ages of children) and is responsible for administering First Aid and CPR to children. Such individuals must be with the children at all times when the center is in operation. If children are at different locations, there must be a First Aid and CPR qualified staff member at each location.</p> <p>F. Within thirty (30) calendar days of employment, all employees caring for children, not required by rule to be certified in First Aid and CPR, must complete the Department-approved Introduction to First Aid and CPR module. The module must be renewed every two (2) years.</p> <p>G. Within thirty (30) calendar days of employment, all employees and regular volunteers must be trained using a Department-approved training about child abuse prevention, which includes common symptoms and signs of child abuse, how to report, where to report, and when to report suspected or known child abuse or neglect. This training must be renewed annually.</p> <p>H. Within ninety (90) calendar days of employment, all staff required to register with the Colorado Shines Professional Development Information System (listed in Section 7.702.33, d) must complete the Department-approved training course: Introduction to the Early Intervention and Preschool Special Education Programs. This course is required once and will be counted towards ongoing professional development.</p>

7.702.51 Health Care	REPEAL	<p>7.702.51 Health Care A. Statements of Health Status 1. The center has the right to refuse to admit a child if a statement from a health care provider or documentation of immunization status, or exemption, is not submitted. 2. At the time of admission, the parent(s)/guardian(s) must provide for each child entering the center: a. Documentation of school-required immunization status or Certificate of Medical or Nonmedical Exemption, is required by the Colorado Board of Health. Up-to-date school-required immunizations must be documented as specified on the Colorado Department of Public Health and Environment Certificate of Immunization or on an “approved alternate” Certificate of Immunization. Colorado law requires proof of immunization status or exemption be provided prior to or on the first day of admission. b. Within thirty (30) calendar days of admission, and within thirty (30) calendar days following the expiration date of a previous health statement, the parent(s)/guardian(s) of each child must submit a statement of the child’s current health status or written verification of a scheduled appointment with</p>	<p>7.702.51 Health Care A. Toddler slides require a six (6) foot use zone extending out from the base of the slide.</p>	<p>hardship per Section 7.702.74, B, 1 are not required to provide equipment and materials for outdoor play.</p> <p>B. Indoor and outdoor equipment, materials, and furnishings must be sturdy, safe, and free of hazards.</p> <p>C. All other indoor or outdoor playground facilities, with permanently installed or portable climbing equipment, without an annually certified playground inspection must meet the following requirements:</p> <p>1. Resilient Surfacing</p> <p>a. All climbing equipment eighteen (18) inches or higher must have resilient surfacing of at least six (6) inches in the use zone surrounding the equipment.</p> <p>b. Department-approved resilient surfacing includes loose fill materials such as wood chips, wood mulch, engineered wood fiber, pea gravel, synthetic pea gravel, shredded rubber tires, and sand. Solid unitary materials include poured in place surfacing, approved rubber mats, playground tiles, and Astroturf with built in resilient pad.</p> <p>c. Loose fill resilient surface must be raked regularly to retain its resiliency and to retain a depth of at least six (6) inches.</p> <p>d. Any newly installed solid unitary materials used for resilient materials must have written documentation from manufacturer stating the material meet current federal safety standards. The documentation must be available for review at all times.</p> <p>2. Maximum Height of Equipment</p> <p>a. The maximum height for toddler climbing equipment cannot exceed thirty two (32) inches.</p> <p>b. The maximum height for preschool and school-age climbing equipment must not exceed six (6) feet in height with six (6) inches of Department-approved resilient surfacing.</p> <p>3. Use Zone</p> <p>a. Toddler climbing equipment must have a three (3) foot use zone surrounding the equipment. Toddler slides require a six (6) foot use zone extending out from the base of the slide.</p>	<p>duplicate regulations that must be repealed.</p>

	<p>step or foster child(ren) of a provider whose age ranges from birth to twelve years of age. "Aide or staff aide" means an individual who assists the provider or substitute provider in the care of children at a family child care home. An aide or staff aide must never be allowed to supervise a child(ren) alone. The provider or substitute provider must always be present at all times when the aide or staff aide is providing care for a child(ren). "Approved sleeping equipment" means equipment that is appropriate for the age of the child, is intended for sleep or rest, and allows the child freedom of movement in a safe and sanitary manner. "Available" means materials or equipment that is not immediately accessible to children, but which may be introduced with adult aid. "Blocked telephone" means a telephone that will not accept telephone calls when caller ID says "unavailable". This does not include telephones that require the caller to enter a ten digit telephone number from the telephone that is being called from or require the provider to have their name listed in a telephone directory. "Choking hazard" means an item that presents the possibility of restriction or elimination of airflow into the lungs. "CPR training" means cardiopulmonary resuscitation for adult, infant, and child. "Clean" means to be free of visible dirt and debris or to remove dirt and debris by vacuuming or scrubbing and washing with soap and water. "Complaint severity level" means the level of seriousness (zero to five) the State Department assigns to a complaint reported against a family child care home based on the severity of the allegation(s). The severity level assigned determines the timeframe in which the allegation(s) must be investigated by the licensing specialist. "Compromise" means to expose to possible loss or danger. "Culturally sensitive" means to encourage, share</p>	<p>step or foster child(ren) of a provider whose age ranges from birth to twelve years of age. <p>7.707.22 Types of Family Child Care Homes</p>	<p>REPEAL</p>	<p>7.707.22 Types of Family Child Care Homes All Family Child Care Home licenses, except infant/toddler, are issued with an age range for children from birth to eighteen (18) years of age. This allows for the care of older children with special needs. Each individual provider will determine the age range of children that he/she will enroll in the provider's child care home. The providers own birth, adopted, step or foster children twelve (12) years of age and older do not count in the provider's license capacity. The capacity for a Family Child Care Home (generally referred to within these rules as "the home") is determined by the amount of indoor and outdoor space designated for child care, as well as the following factors. A. A "Family Child Care Home" (FCCH) is a type of family care home that provides less than twenty-four (24) hour care at any time for two (2) or more children that are unrelated to each other or the provider, and are cared for in the provider's place of residence. 1. Licensed family child care homes enrolling children five (5) years of age or younger are required to participate in Colorado Shines, the state quality rating and improvement system. B. In a regular (FCCH) home, care may be provided for six (6) children from birth to eighteen (18) years of age with no more than two (2) children under two (2) years of age. 1. Care also may be provided for no more than two (2) additional children of school age attending full-day school. <p>Outdoor Activities</p>		<p>A. The home program must include outdoor play for all ages each day except when the severity of weather, including temperature extremes, makes it a health hazard or when a child must remain indoors as indicated in writing by a health care provider or in a health care plan. B. Developmentally appropriate supervision must be provided during outdoor play in the approved, adjoining fenced play area. C. Children playing in an unfenced area or any other outdoor play area, other than the required, approved fenced play area must be under direct supervision at all times. D. Children must wear helmets, wrist protection, and knee and elbow pads when riding a scooter, bicycle, skateboard, or rollerblades. Motorized riding toys are not permitted. E. All protective surfacing (excluding sand, wood chips, wood mulch, engineered wood fiber, pea gravel, synthetic pea gravel, and shredded rubber tires) and rubber mats must be manufactured for such use consistent with federal guidelines and be approved by the State Department. F. With written permission of the parent(s) or guardian(s), children in care shall be permitted to use the permanent pool in the presence of an adult who holds a current Red Cross basic lifeguarding certificate or equivalent, and is actively responsible for lifeguarding protection.</p>	<p>A. <p>7.707.94 Transportation</p>	<p>REPEAL</p>	<p>propane tanks must have a safety on/off knob on it.</p> <p>7.707.94 Transportation A. The driver of a vehicle used to transport children must follow required state laws, including possession of a current valid Colorado driver's license, automobile insurance, and meet the requirements of Colorado child passenger safety laws. B. At least one (1) adult in the vehicle transporting children must have a current State Department-approved First Aid and safety certificate that includes CPR for all ages of children. A First Aid kit must be available in the vehicle. C. Any child transported must be properly restrained in a child restraint system that meets the requirements of the Colorado child passenger safety law that requires: 1. Children must ride in a rear-facing child safety seat until they are at least one (1) year old and weigh at least twenty (20) pounds. 2. Children ages one (1) to four (4) years and who weigh twenty (20) to forty (40) pounds must be restrained in a forward-facing car seat. 3. Children at least four (4) years of age and are less than six (6) years old must continue to ride in a child restraint (unless they are fifty-five inches tall); typically, this is a booster seat; and 4. Children between six (6) and sixteen (16) years old or are fifty-five inches (55") tall must be properly restrained in a seat belt. D. When any vehicle is used by the home to transport children in care, the following requirements must be met: 1. Each child under four years of age and weighs less than forty pounds must be properly fastened into a child restraint system in a seating position equipped with a safety belt or other means to secure the system according to the manufacturer's instructions; 2. Two or more children must never be restrained in one (1) seat belt or child restraint system; 3. It is the responsibility of the driver transporting</p>	<p>propane tanks must have a safety on/off knob on it.</p> <p>7.707.94 Transportation A. 				into law 4/25/22, creating CDEC on July 1, 2022. CDEC removed rules from 12 CCR 2509-8 and moved them into 8 CCR 1402-1. These are duplicate regulations that must be repealed.
7.712.2 DEFINITIONS	REPEAL	<p>7.712.2 DEFINITIONS</p> <p>A. A “school-age child care center” (hereafter referred to as the “center”) is a child care center that provides care for five (5) or more children who are between five (5) and eighteen (18) years of age. Children four (4) years of age, who will turn five (5) on or before October 15th of the current calendar year may attend the center as part of a “building-based school-age child care program” or “building-based day camp” summer program prior to their kindergarten year. The center operates for more than one week during the year. The term includes facilities commonly known as “day camps,” “summer camps,” “summer playground programs,” “before and after school programs,” and “extended day programs.” This includes centers operating with or without compensation for such care, and with or without stated educational purposes.</p> <p>B. A “building-based school-age child care program” is a child care program that provides care for five (5) or more children who are between five (5) and eighteen (18) years of age. The center is located in a building that is regularly used for the care of children.</p> <p>C. A “day camp” is a school-age child care program which operates at least four (4) hours a day primarily during one season of the year, and during school vacation periods for children between five (5) and eighteen (18) years of age, which accepts registrations for finite, not necessarily contiguous sessions. Programs may operate daily between 6:00 a.m. and 10:00 p.m. Day camp programs may offer no more than two overnight stays each camp session.</p>	<p>7.712.2 DEFINITIONS</p> <p>A. At the time of enrollment, and upon amendments to policies and procedures, the center must give the parent(s)/guardian(s) the center’s policies and procedures, and provide the opportunity to ask questions. Written copies must be available either electronically or in hard copy. The center must obtain a signed document stating that the parent(s)/guardian(s) have received the policies and procedures, and by signing the policies and	HB22-1295 was codified into law 4/25/22, creating CDEC on July 1, 2022. CDEC removed rules from 12 CCR 2509-8 and moved them into 8 CCR 1402-1. These are duplicate regulations that must be repealed.	

Title of Proposed Rule: 12 CCR 2509-8 - CDEC Repeal Proposed Rules Draft

	<p>procedures document, the parent(s)/guardian(s) agree to follow, accept the conditions of, and give authorization and approval for the activities described in the policies and procedures. Policies must include the following:</p> <ol style="list-style-type: none"> 1. The center's purpose and its philosophy on child care; 2. The ages of children accepted; 3. Services offered for special needs children in compliance with the Americans with Disabilities Act (see Section 7.701.14, General Rules for Child Care Facilities); 4. The hours and dates when the center is in operation, specific hours during which special activities are offered, and holidays when the center is closed; 5. The policy regarding inclement weather; 6. The procedure concerning admission and enrollment of children; 7. An itemized fee schedule; 8. The procedure to ensure the location of children is known at all times, how children are accounted for throughout the day, and that children are supervised at all times by their assigned staff member; 9. The center's procedure on guidance, positive instruction, supporting positive behavior, discipline and consequences, including how the center will: <ol style="list-style-type: none"> a. Cultivate positive child, staff and family relationships; b. Create and maintain a socially and emotionally respectful early learning and care environment; c. Implement teaching strategies supporting positive behavior, pro-social peer interaction, and overall social and emotional competence in young children; d. Provide individualized social and emotional intervention supports for children who need them, including methods for understanding child behavior; and developing, adopting and implementing a team-based positive behavior support plan with the intent to reduce challenging behavior and prevent suspensions and expulsions; and e. Access an early childhood mental health 	<p>procedures document, the parent(s)/guardian(s) agree to follow, accept the conditions of, and give authorization and approval for the activities described in the policies and procedures.
