CHILD CARE FACILITY LICENSING

12 CCR 2509-8

[Editor's Notes follow the text of the rules at the end of this CCR Document.]

7.702 — RULES REGULATING CHILD CARE CENTERS THAT PROVIDE LESS THAN 24-HOUR CARE

All childcare centers must comply with the current “General Rules for Child Care Facilities” 7.701; “Rules Regulating Child Care Centers that provide less than 24-hour care” 7.702; “Rules Regulating Special Activities” 7.719; 6 CCR 1010-7, “The Health and Sanitation Rules and Regulations Governing the Sanitation of Child Care Facilities in the State of Colorado C.R.S.; and the USDA CACFP Part 266.20(1.5).

Drop-in, part day, mobile preschool, teen parent, and other programs operated by public school districts must be in compliance with all rules found in this section. Additional rules or substitution to rules can be found under section 7.702.100.

Hardship waivers

Any applicant or licensee who has applied for or been issued a license to operate a childcare facility has a right to appeal, pursuant to § 26-6-106(3), C.R.S., any rule or standard which, in his or her opinion, poses an undue hardship on the person, facility, or community. An “undue hardship” is defined as a situation where compliance with the rule creates a substantial, unnecessary burden on the applicant or licensee’s business operation or the families or community it serves, which reasonable means cannot remedy. An undue hardship does not include the normal cost of operating the business.

7.702.1 — DEFINITIONS

A. — Childcare centers that provide less than 24-hour care (referred to as “centers”) provide comprehensive care for children when the parents or guardians are employed or otherwise unavailable to care for the children. Childcare centers may operate twenty four (24) hours a day, but the children are cared for at the center fewer than twenty-four (24) hours a day.

B. — Childcare centers that provide less than 24-hour programs of care include the following types of facilities:

1. — A “large childcare center” provides care for 16 or more children between the ages six (6) weeks and eighteen (18) years.
2. — A “small childcare center” provides care for up to fifteen (15) children between the ages of two (2) and eighteen (18) years.
3. — An “infant program” provides care for children between the ages of six (6) weeks and eighteen (18) months.
4. — A “toddler program” provides care for children between the ages of twelve (12) months (when walking independently or with a health care provider’s statement indicating developmental appropriateness of placement in a toddler program) and thirty-six (36) months.

5. — A “preschool” is a childcare program for five (5) or more children between the ages of two and one-half (2 1/2) and seven (7) years.
6. — A “mobile part-day preschool program” is a program with a mobile classroom that uses no permanent building on a regular basis, for children three (3) to seven (7) years of age, with no more than (8) eight children at any given time. Each class session must not exceed five (5) hours.
7. — A “kindergarten program” provides a program for children the year before they enter the first grade. Only private kindergarten programs not regulated by the Colorado Department of Education are required to be licensed.
8. — A “full-day program” enrolls children for five (5) or more hours per day.
9. — A “part-day program” enrolls children for a maximum of up to five (5) hours per day. Individual children shall not attend more than one (1) five (5) hour session per day.
10. — A “drop-in childcare center” provides occasional care for 40 or fewer children between the ages of twelve (12) months and thirteen (13) years of age for short periods of time not to exceed six (6) hours in any 24-hour period of time or fifteen (15) hours in any seven (7) day period of time.
11. — A “teen parent program” provides care for children fourteen (14) days old to thirty-six (36) months and is operated by an accredited public school system on school premises. Infants between seven (7) and thirteen (13) days old may be accepted for care with written approval from a health care provider.
12. — “Staff” all references to staff or staff positions include paid staff, equally qualified volunteers, and substitutes under Section 7.702.45.
- C. — Licensed childcare centers enrolling children five (5) years of age or younger are required to participate in Colorado Shines, the state quality rating and improvement system.

7.702.2 — ADMINISTRATION

(See also “Administration” at section 7.701.5 of the General Rules for Child Care Facilities)

- A. — The governing body must appoint a Director who will be responsible to the governing body and who will be delegated the authority and responsibility for the operation of the center according to its defined purpose and policies.
- B. — The governing body must formulate the purpose and policies to be followed by the center. It must have a regular planned review of such purpose and policies to determine that the center is in compliance with licensing rules.
- C. — The governing body is responsible for providing necessary facilities, adequate financing, qualified personnel, services, and program functions for the safety and well-being of children in accordance with these rules.
- D. — Any center having a Director assigned to a classroom must have qualified and adequate staff, allowing the Director or qualified staff the ability to attend to the duties of a director as they arise.
- E. — The Director of the center is responsible for administering the center in accordance with licensing rules. The Director must plan and supervise the child development program, plan for or participate in selection of staff, plan for orientation and staff development, supervise and coordinate staff activities, evaluate staff performance, and participate in the program activities.

7.702.3 — POLICIES AND PROCEDURES

7.702.31 — Statement of Policies and Procedures

A. ~~At the time of enrollment, and upon amendments to policies and procedures, the center must give the parent(s)/guardian(s) the center's policies and procedures and provide the opportunity to ask questions. Written copies must be available either electronically or in hard copy. The center must obtain a signed document stating that the parent(s)/guardian(s) have received the policies and procedures, and by signing the policies and procedures document, the parent(s)/guardian(s) agree to follow, accept the conditions of, and give authorization and approval for the activities described in the policies and procedures.~~

B. ~~The written policies and procedures must be developed, implemented, and followed, and must include at a minimum the following information:~~

1. ~~The center's purpose and its philosophy on childcare;~~

2. ~~The ages of children accepted;~~

3. ~~The hours the center is open, specific hours during which special programs are offered, and holidays when the center is closed;~~

4. ~~The procedure regarding inclement and excessively hot weather;~~

5. ~~The procedure concerning admission and registration of children including whether non-immunized or under immunized children are enrolled in the program;~~

6. ~~An itemized fee schedule;~~

7. ~~The procedure for identifying where children are at all times including times of transition;~~

8. ~~The center's procedure on positive guidance, behavior expectations, positive instruction, supporting positive behaviors, as well as strategies and techniques for supporting children with challenging behaviors, including how the center will:~~

a. ~~Promote responsive and positive child, staff, and family relationships and interactions;~~

b. ~~Create and maintain a program-wide culture that promotes children's mental health, social, and emotional well-being;~~

c. ~~Implement teaching strategies supporting positive behavior, pro-social peer interaction, and overall social and emotional competence in young children; and,~~

d. ~~Provide individualized social and emotional intervention supports for children who need them, including methods for understanding child behavior; and developing, adopting, and implementing a team-based positive behavior support plan with the intent to reduce challenging behavior and prevent suspensions and expulsions.~~

9. ~~How decisions are made and what steps are taken prior to the suspension, expulsion, or request to parents or guardians to withdraw a child from care due to concerns about the child's behavioral issues. These procedures must be consistent with the center's policy on guidance and positive instruction, and include documentation of the steps taken to understand and respond to challenging behavior including:~~

a. ~~Identify and consult with an early childhood mental health consultant or other specialist as needed.~~

10. ~~The procedure, including notification of parent(s)/guardian(s), for handling children's illnesses, accidents, and injuries;~~

11. ~~The procedures for emergencies and disaster preparedness such as but not limited to lost children, tornadoes, fires, shelter in place, lockdown, active shooter on premises, reunification with~~

families after emergency or disaster, and evacuating children with disabilities as specified in section 7.701.100 of the general rules for child care facilities;

12. — The procedure for transporting children, if applicable, including transportation arrangements and parental permission for excursions and related activities;

13. — The procedure for governing field trips, television and video viewing, and special activities, including staff responsibility for the supervision of children;

14. — Media and internet usage policy outlining screen and media use related to their curriculum. The media plan must have information on ongoing communication with children about online safe practices for children over the age of five (5);

15. — The procedure on children's safety related to riding in a vehicle, seating, supervision, and emergency procedures on the road;

16. — The procedure for releasing children from the center only to persons for whom the center has written authorization and the procedure for picking up the child during an emergency;

17. — The procedures followed when a child is picked up from the center after the center is closed or not picked up at all, and to ensure that all children are picked up before the staff leave for the day;

18. — The procedure for caring for children who arrive late to the center and their class/group is away from the center on a field trip or excursion;

19. — The procedure for storing and administering children's medication and delegation of medication administration in compliance with Section §12-38-132, C.R.S., of the "Nurse Practice Act";

20. — The procedure concerning children's personal belongings and money;

21. — The provision of meals and snacks;

22. — The procedure for diapering, toilet training, and toileting;

23. — The procedure for allowing visitors to the center;

24. — The procedure for conducting parent and staff conferences to partner with the parents(s)/guardian(s) to discuss the child's progress, social, emotional, and physical needs;

25. — The procedure for filing a complaint about childcare (see section 7.701.55 of the General Rules for Child Care Facilities);

26. — The procedure for reporting of child abuse (see section 7.701.53, of the General Rules for Child Care Facilities);

27. — The procedure of the protection of infants from secondhand and thirdhand smoke;

28. — The procedure for establishing safe sleep environments for infants including how staff will supervise and physically check on infants who are sleeping;

29. — The procedure for dressing children appropriately for the weather; and,

30. — Notification when childcare service is withdrawn and when parent(s)/guardian(s) withdraw their children from the center.

C. — Policies and procedures must be reviewed annually. Any changes must be incorporated and must be communicated to the parent(s)/guardian(s).

7.702.32 — Communication, Emergency, and Security Procedures

A. — For security purposes, a sign-in/sign-out sheet or other mechanism for parents/guardians, or staff if children are being transported, must be maintained daily by the center. It must include, for each child in care, the date, the child's name, the time when the child arrived at and left the center, and the parent/guardian or staff member's signature or other unique identifier. For children who are transported, parent(s)/guardian(s) must verify the accuracy of the sign-in/sign-out sheet at least weekly.

B. — The center must have a working telephone with the number available to the public. Emergency telephone numbers of the following must be posted near the telephone: a 911 notice, where 911 is available, or rescue unit if 911 isn't available; a hospital or emergency medical clinic; the local fire, police, and health departments; and Rocky Mountain Poison Control. The telephone must be available to staff at all times that the center is in operation.

C. — The center must be able to provide emergency transportation to a health care facility at all times.

D. — The Director of the center, or the Director's delegated substitute, must have a means for determining at all times who is present at the center.

E. — A written policy regarding visitors to the center must be posted and a record maintained daily by the center that includes at a minimum the date, time, visitor's name, and the purpose of the visit. At least one (1) piece of identification must be inspected for individuals who are unknown to personnel at the center.

F. — The center must release the child only to an individual over the age of sixteen (16) for whom written authorization has been given by the parent(s)/guardian(s) and is maintained in the child's record (see Section 7.702.34). In an emergency, the child may also be released to an individual for whom the child's parent/guardian has given verbal authorization. If the staff member who releases the child does not know the individual, identification must be required to assure that the individual is authorized to pick up the child.

G. — The center must have a procedure for dealing with individuals not authorized by the parent or guardian of a child who attempts to have the child released to them.

H. — The center must have a written procedure for closing the center at the end of the day to ensure that all children are picked up.

7.702.33 — Administrative Records and Reports

A. — The following records must be on file at the center:

1. — Records of enrollment, daily attendance for each child, and daily record of the time the child arrives at and departs from the center;

2. — A list of current staff members, substitutes, and staffing patterns;

3. — Copies of menus; and

4. — A record of visitors to the center.

B. — The center must submit to the Department as soon as possible, but not longer than twenty-four (24) hours, a written report about any child who has been separated from the group outside of the supervision of their assigned staff member or for whom the local authorities have been contacted. Such report must indicate:

1. — The name, birth date, address, and telephone number of the child;

2. — The names of the parent(s)/guardian(s) and their address and telephone number if different from those of the child;

3. — The date when the child was lost;

4. — The location, time, and circumstances when the child was last seen;

5. — Actions taken to locate the child; and,

6. — The name of the staff person supervising the child.

C. — All programs must register their operational status information in the Office of Early Childhood Provider Status Portal every calendar year in the months of April and October.

1. — All programs must update their information any time their operational status changes during a declared state emergency.

D. — All prospective and current staff members in the following roles must register with the Colorado Shines Professional Development Information System:

1. — Large Center Director;

2. — Large Center Assistant Director;

3. — Small Center Director;

4. — Early Childhood Teacher;

5. — Infant Program Supervisor;

6. — Infant Early Childhood Teacher;

7. — Toddler Early Childhood Teacher;

8. — Kindergarten Teacher;

9. — Assistant Early Childhood Teacher; and,

10. — Staff Aide.

7.702.34 — Children's Records

A. — An admission record must be completed for each child prior to or at the time of the child's admission. This record must be updated annually and when changes occur. The admission record must include:

1. — The child's full name, birth date, current address, and date of enrollment;

2. — Parent(s)/guardian(s) names; home and e-mail addresses; telephone numbers, including home, work, and cell numbers; employer name and work address; and, any special instructions as to how the parent(s)/guardian(s) may be reached during the hours that the child is in care at the center;

3. — Names, addresses, and telephone numbers of persons authorized to pick up the child from the center;

4. — Names, addresses, and telephone numbers of persons who can assume responsibility for the child in the event of an emergency if the parent(s)/guardian(s) cannot be reached immediately;

5. ~~Name, address, and telephone numbers of the child's health care provider, dentist, and if applicable, their hospital of choice;~~

6. ~~A health history, including any health care plans, which indicates communicable diseases and chronic illnesses or injuries the individual has had, any known drug reactions and allergies, medications being taken, any necessary health procedures or special diets, and immunization record;~~

7. ~~A dated, written authorization for emergency medical care signed and updated annually by the parent(s)/guardian(s). The authorization must be notarized if required by the local hospital, clinic, or emergency health care facility;~~

8. ~~Written authorization, obtained in advance of the event from a parent/guardian, for a child to participate in field trips or special activities, whether scheduled or unscheduled, whether walking or riding in an approved vehicle; and;~~

9. ~~Written authorization from a parent/guardian for media release.~~

B. ~~The center must maintain and update annually and upon changes, a record on each child that includes:~~

1. ~~A written record of any serious accident, illness, or injury occurring during care must be retained in each child's record, with a copy provided to the parent(s)/guardian(s).~~

2. ~~Observations of the child's development to document the child's progress and challenges to be discussed at parent conferences;~~

3. ~~A record of parent conferences, including dates of conferences, and names of center staff and parent(s)/guardian(s) involved; and;~~

4. ~~A copy of the child's health statement completed by a health care provider.~~

7.702.35 ~~Staff Records~~

A. ~~A record must be maintained, either written or electronic, for each staff member that includes the following:~~

1. ~~Name, address, telephone number, and birth date of the individual;~~

2. ~~Verification of qualifications and training;~~

3. ~~Immunization record or statement, and health history;~~

4. ~~Dates of employment and employment history;~~

5. ~~Names, addresses, and telephone numbers of persons to be notified in the event of an emergency; and;~~

6. ~~All information from background checks as required in the General Rules for Child Care Facilities at Section 7.701.32.~~

7.702.36 ~~Confidentiality and Retention~~

A. ~~The confidentiality of all staff and children's records must be maintained. See Section 7.701.6 of the General Rules for Child Care Facilities.~~

B. ~~Staff and children's records must be available, upon request, to authorized personnel of the Department.~~

C. — If records for organizations having more than one (1) center are kept in a central file, duplicate identifying and emergency information for both staff and children must also be kept on file at the center attended by the child and where the staff member is assigned.

D. — The records of children and staff must be maintained by the center for at least three (3) years after the last date of attendance or employment with the program.

E. — The health and mental health consultation records must be maintained by the center for at least three (3) years from the date of consultation.

F. — Records of enrollment, daily attendance for each child and daily records of the time the child arrives at and departs from the center for the past twelve (12) months must be on file at the center. The previous two (2) years must be on file at either the center or a central location or storage.

G. — Posting of any personal information or photos of children on social media or advertisement without written parental consent is prohibited.

7.702.4 — STAFF

7.702.41 — General Requirements for All Staff

A. — All staff at the center must demonstrate knowledgeable decision making, judgment, and concern for the proper care and well-being of children.

B. — Staff must not consume or be under the influence of any substance that impairs their ability to care for children.

C. — Illegal drugs and drug paraphernalia, must never be present on the premises of the center.

D. — Staff must not use marijuana and marijuana infused products, tobacco products of any kind, or alcohol in the presence of children. To prevent exposure to secondhand smoke, child care centers must prohibit the use of tobacco and marijuana products on all center property, both indoors and outdoors. All marijuana and marijuana infused products, vaping and tobacco products, and alcohol must be kept inaccessible to children at all times.

E. — When caring for children, staff must refrain from the personal use of electronics including, but not limited to, cell phones and portable electronic devices.

F. — Staff members must be current for all immunizations routinely recommended for adults by their health care provider.

G. — All staff members must submit to the center a medical statement, signed and dated by a physician or other health care provider, verifying that they are in good mental, physical, and emotional health appropriate for the position for which they have been hired. This statement must be dated no more than six (6) months prior to employment or within thirty (30) calendar days after the first date of employment. Subsequent self-reported health histories must be submitted annually.

H. — The duties and responsibilities of each staff position and the lines of authority and responsibility within the center must be in writing.

I. — At the time of employment, staff members must be informed of their duties and assigned a supervisor.

J. — Prior to working with children, each staff member must read and be instructed about all policies and procedures of the center. Staff members must sign a statement indicating that they have read and understand the center's policies and procedures.

K. Within thirty (30) calendar days of employment at the center, each staff member must read and be instructed about all licensing rules governing childcare centers. Staff members must sign a statement indicating that they have read and understand the licensing rules.

L. If volunteers are used by the center, there must be a clearly established policy regarding their function, orientation, and supervision. See also Section 7.702.44 A-E.

M. Within thirty (30) calendar days of the last day of employment, staff members must be provided a letter verifying their experience at the center. The letter must contain the center's address, phone number, and license number; the employee's start date and end date; and the total number of hours worked with children. Hours worked with infants and toddlers must be documented separately from hours worked with other age groups. The letter must be signed by a Director, owner, or human resources agent of the center or governing body.

7.702.42 Training

A. All staff must complete a pre-service Building and Physical Premises Safety training prior to working with children. The training must include identification of and protection from hazards that can cause bodily injury such as electrical hazards, bodies of water, vehicular traffic handling and storage of hazardous materials and the appropriate disposal of biological contaminants.

1. This training is developed and facilitated by the program for staff to identify program specific environmental hazards. Staff must be retrained if there are changes to the building and physical premises.

B. All staff must complete a Department approved Standard Precautions training that meets current Occupational Safety and Health Administration (OSHA) requirements prior to working with children. This training must be renewed annually and will be counted towards ongoing professional development.

C. Staff working with infants less than twelve (12) months old must complete a Department approved Safe Sleep training prior to working with infants less than twelve (12) months old. This training must be renewed annually and will be counted towards ongoing professional development.

D. Staff working with children less than three (3) years of age must complete a Department approved Prevention of Shaken Baby/Abusive Head Trauma training prior to working with children less than three (3) years of age. This training must be renewed every two (2) years and will be counted towards ongoing professional development.

E. For every thirty (30) or fewer children in attendance, there must be at least one (1) staff member on duty who holds a current Department approved First Aid and Safety Certificate (including CPR for all ages of children) and is responsible for administering First Aid and CPR to children. Such individuals must be with the children at all times when the center is in operation. If children are at different locations, there must be a First Aid and CPR qualified staff member at each location.

F. Within thirty (30) calendar days of employment, all employees caring for children, not required by rule to be certified in First Aid and CPR, must complete the Department approved Introduction to First Aid and CPR module. The module must be renewed every two (2) years.

G. Within thirty (30) calendar days of employment, all employees and regular volunteers must be trained using a Department approved training about child abuse prevention, which includes common symptoms and signs of child abuse, how to report, where to report, and when to report suspected or known child abuse or neglect. This training must be renewed annually.

H. Within ninety (90) calendar days of employment, all staff required to register with the Colorado Shines Professional Development Information System (listed in Section 7.702.33, d) must complete the Department approved training course: Introduction to the Early Intervention and Preschool Special Education Programs. This course is required once and will be counted towards ongoing professional development.

I. Within ninety (90) calendar days of employment, all staff required to register with the Colorado Shines Professional Development Information System (listed in Section 7.702.33, d) must complete the Department approved Recognizing the Impact of Bias on Early Childhood Professionals training or other Department approved training on implicit bias. This course is required once and will be counted towards ongoing professional development.

J. Within ninety (90) calendar days of employment, all Directors and Assistant Directors must complete the Department approved training: Working with an Early Childhood Mental Health Consultant. This course is required once and will be counted towards ongoing professional development.

K. Within ninety (90) calendar days of employment, all Directors and Assistant Directors must complete the department approved training: Introduction to Child Care Health Consultation. This course is required once and will be counted towards ongoing professional development.

L. All staff who work with children must complete a minimum of fifteen (15) clock hours of ongoing professional development each year, beginning with the start date of the employee. At least three (3) clock hours per year must be in the focus of social emotional development.

1. Ongoing professional development courses must demonstrate a direct connection to one (1) or more of the following competency areas:

- a. Child growth and development, and learning
- b. Child observation and assessment;
- c. Family and community partnerships;
- d. Social emotional health and development promotion;
- e. Health, safety and nutrition;
- f. Professional practice;
- g. Teaching practices

2. Each one (1) semester credit hour course with a direct connection to the competency area listed in Section 7.702.42, L, 1, a-h, taken at an accredited college or university shall count as fifteen (15) clock hours of ongoing professional development.

3. Training hours completed can only be counted during the year taken and cannot be carried over.

4. To be counted for ongoing professional development, the training certificate must have documentation that includes:

- a. The title of the training;
- b. The competency domain or from a nationally approved vendor list;
- c. The date and clock hours of the training;
- d. The name or signature of the trainer, or other approved method of verifying the identity of trainer or entity;
- e. Expiration of training, if applicable; and,
- f. Connection to social emotional focus, if applicable.

5. The trainer must have documentation of the qualifications for each topic of training conducted, which must be available for review by the department.

M. Within thirty (30) calendar days of employment and annually, all staff responsible for the collection, review, and maintenance of the child immunizations records must complete the Colorado Department of Public Health and Environment immunization course.

7.702.43 Director Qualifications – Large Child Care Center

12. — Occupational/Physical Therapist;
13. — School Psychologist;
14. — Family Outreach Worker;
15. — Human Resource Specialist; or,
16. — Transportation Manager.

b. — The program must obtain a Director who meets large center Director qualifications if substantial evidence has been found leading to an adverse licensing action for any of the following:

1. — Lack of supervision;
2. — Operating out of the approved staff member to child ratio;
3. — Operating without sufficient qualified staff.
4. — If the Director of a large center cannot be present sixty percent (60%) of any day, an Assistant Director must be on site acting in the capacity of the Director.
5. — When there is a Director vacancy or absence, an Assistant Director may substitute for the director for a maximum of up to twelve (12) weeks per calendar year. The Assistant Director must be on site at least sixty percent (60%) of any day the center is open. For vacancies exceeding twelve (12) weeks, an individual meeting Director qualification must be on site acting as director until a new Director is appointed. The dates must be documented and kept on file for review.
6. — An Assistant Director must consult with a qualified Director on administering the center in accordance with early childhood principles and practices and licensing rules.
7. — There must be assigned at least one (1) qualified Early Childhood Teacher supervising each group of children unless otherwise specified in rules. A Director may be the assigned teacher for one (1) group of children.
8. — Full day programs may have Assistant Early Childhood Teachers supervise preschool-age and older children during the following periods of operation:
 - a. — Opening hours: an Assistant Early Childhood Teacher may be alone with children for the first two (2) hours of a center's daily operating hours;
 - b. — Nap time: an Assistant Early Childhood Teacher may be alone with children for up to one (1) hour during nap time;
 - c. — Closing hours: an Assistant Early Childhood Teacher may be alone with children for up to the two (2) hours prior to the closing time of a center's daily operations;
 - d. — Taking children to the restroom or diapering; and,
 - e. — When substituting for an Early Childhood Teacher in compliance with Section 7.702.45, F, 2.
9. — At least one (1) staff member with the current Department approved Medication Administration training and delegation must be on duty at all times.

10. — At nap time, the child to staff ratio may be doubled for children two and one half (2 ½) years of age and older in preschool classrooms when the following conditions have been met:

- a. — At least half of the children are sleeping;
- b. — Another staff member is onsite in the center and immediately available;
- c. — Maximum group size and room capacity are not exceeded; and,
- d. — Staff member supervising children is qualified as an Early Childhood Teacher or Assistant Early Childhood Teacher.

11. — Formal kindergarten class sessions must have one (1) staff member for each twenty five (25) or fewer children in attendance. At other parts of the day when children are in attendance, the ratio must be one (1) staff member to each fifteen (15) or fewer children.

12. — Children of the Director or of staff members who attend the center and other children on the premises for supervision and care must be counted against the licensed capacity in the appropriate age groups.

13. — In determining staff child ratios, children who are in attendance for only part of the day are counted only while at the center.

14. — Staff Child Ratios

AGES OF CHILDREN	NUMBER OF STAFF
6 weeks to 18 months (infants)	1 staff member to 5 infants
12 months to 36 months	1 staff member to 5 toddlers
24 months to 36 months	1 staff member to 7 toddlers
2 1/2 years to 3 years	1 staff member to 8 children
3 years to 4 years	1 staff member to 10 children
4 years to 5 years	1 staff member to 12 children
5 years and older	1 staff member to 15 children
Mixed age group 2 1/2 years to 6 years	1 staff member to 10 children

a. — In other preschool age combinations, the staff ratio for the youngest child must be utilized if more than twenty percent (20%) of the group is composed of younger children. This does not apply to infants and toddlers. The ratio for toddler groups is based on the youngest child in the group.

15. — Maximum Group Size for Children

AGES OF CHILDREN	MAXIMUM GROUP SIZE
6 weeks to 18 months	10 infants
12 months to 36 months	10 toddlers
24 months to 36 months	14 toddlers
2 1/2 years to 3 years	16 children
3 years to 4 years	20 children
4 years to 5 years	24 children
5 years and older	30 children
Mixed age group 2 1/2 to 6 years of age	20 children

a. — In other preschool age combinations, the maximum group size for the youngest child must be utilized if more than twenty percent (20%) of the group is composed of younger children. This does not apply to infants and toddlers. The group size for toddler groups is based on the youngest child in the group.

b. — Preschool age and school-age groups of children must be separated into developmentally appropriate activities. Groups are not required to be separated from each other by permanent or portable dividers or walls.

c. — Group size for children in preschool and school-age classrooms may be exceeded for circle time, meal and snack time, special occasions, and activities.

d. — The licensed room capacity must not be exceeded at any time.

e. — Toddler age groups of children must be separated from each other by permanent or portable dividers or other methods as approved by the Department.

f. — When combining age groups, not including individual child transitions, children must be cared for in the room licensed for the youngest child in care, including the outdoor play area.

16. — Emergency Situations

A. — In the case of an emergency situation, including but not limited to illness, death, accident, law enforcement action, road closure, hazardous weather, emergency bodily function, child elopement, or providing emergency attention or care to a child, the child care center may operate under the following guidelines:

(1) — The facility may temporarily use a staff member, who has successfully completed criminal background check requirements, to supervise children for no more than two (2) hours until a qualified staff member is secured. The dates and times must be recorded and made available for review at all times.

(2) — A large child care center or a child care center that operates on the property of a school district, district charter school, or institute charter school, may permit a staff member, who has successfully completed criminal background check requirements but is not a qualified caregiver, to supervise children for an amount of time that is reasonably necessary to address an emergency circumstance.

(3) — During any emergency situation, the facility must be in compliance with the staff-to-child ratio.

B. — Service/Housekeeping Personnel

1. — Service personnel must be available for housekeeping and food preparation as needed for adequate operation and maintenance of the center.

2. — Assignment of housekeeping and maintenance duties to childcare staff must not interfere with their supervisory responsibilities and childcare duties.

C. — Child Care Health Consultant

1. — Center staff must have a monthly consultation with a current Department approved Child Care Health Consultant who must meet one (1) of the following qualifications:

a. — A Licensed Registered Nurse with knowledge and experience in maternal and child health;

b. — A Pediatric Nurse Practitioner;

c. — A Family Nurse Practitioner; or,

d. — A Physician with knowledge and experience in pediatrics or maternal and child health.

2. — The monthly consultation must be specific to the needs of the facility and include some of the following topics: training, delegation and supervision of medication administration and special health-

procedures, health care plans, hygiene, disease prevention, equipment safety, nutrition, interaction between children and adult caregivers, and child growth and development.

3. — The monthly consultation must be conducted on-site at least quarterly or more frequently as required by the Child Care Health Consultant. Teleconsultations are allowed for the remaining months.

4. — The date and content of each consultation must be recorded and maintained in the center's files for three (3) years.

5. — For the Department-approved Child Care Health Consultant, the center must maintain documentation from the Colorado Department of Regulatory Agencies that the Registered Nurse or the Medical Doctor's licensure is in good standing.

6. — For the Department-approved Child Care Health Consultant, the center must maintain documentation of a brief biography highlighting applicable knowledge, experience, and approximate dates worked as a school nurse or Child Care Health Consultant.

7. — All Department-approved Child Care Health Consultants must complete the Department-approved Child Care Health Consultant Introductory training course within six (6) months of hire. Child Care Health Consultants must complete Department-approved ongoing professional development training every three (3) years. The center must obtain and maintain proof of training completion.

8. — All Department-approved Child Care Health Consultants must complete the Department-approved Colorado Department of Public Health and Environment immunization course annually. The center must obtain and maintain proof of course completion.

9. — All Department-approved Child Care Health Consultants must complete the Department-approved training about child abuse prevention, which includes common symptoms and signs of child abuse or neglect. This training must be completed within thirty (30) days of hire and renewed every three (3) years.

7.702.5 — ADMISSION PROCEDURE

A. — The center must accept and care only for children of the ages for which it has been licensed. At no time shall the number of children in attendance exceed the number for which the center has been licensed.

B. — Admission procedures must be completed prior to the child's attendance at the center and must include:

1. — A pre-admission interview with the child's parent(s)/guardian(s) to determine whether the services offered by the center will meet the needs of the child and the parent(s)/guardian(s);

2. — Completion of the registration information required for inclusion in the child's record as required in Section 7.702.34 and;

3. — If applicable, a Department-approved health care plan authorized by the child's health care provider and parent(s)/guardian(s) defining the interventions needed to care for a child who has an identified health or developmental condition or concern including, but not limited to seizures, asthma, diabetes, severe allergies, heart or respiratory conditions, and physical disabilities. Any applicable medications, supplies, and/or medical equipment must be available to the staff prior to the child's first day of care. The staff working with a child with a health care plan must be informed, trained, and delegated responsibility for carrying out the health care plan by the Department-approved Child Care Health Consultant; supervision of the plan and interventions must be documented.

C. — Children with Special Needs

1. — The admission of children who have special health care needs, disabilities, or developmental delays which includes children with social emotional and behavioral needs must be in alignment with the training and ability of staff and in compliance with the Americans with Disabilities Act. Services offered must show that a reasonable effort is made to accommodate the child's needs and to integrate the child with other children. (See Section 7.701.14 of the General Rules for Child Care Facilities)
2. — The center must inform its Department approved Child Care Health Consultant prior to the first day of care of the enrollment of a child with special health care needs, if known, so staff receive training, delegation and supervision by the Department approved Child Care Health Consultant as indicated by the child's individualized health care plan.
3. — For a child with special health care needs requiring intervention and/or medication, the center must obtain written instructions for providing services from the child's parent(s)/guardian(s), and the health care provider. If an existing individualized health care plan is provided for the child, it must be reviewed and followed by the center staff when caring for the child. If the child does not have an existing individualized health care plan, the individualized health care plan must be obtained by the child's first day of care.
4. — For an enrolled child with a newly identified special health care need, the center must obtain written instructions for providing services from the child's parent(s)/guardian(s) and the health care provider. If the child with special health care needs does not have an existing individualized health care plan, the individualized health care plan and all associated medication(s) and/or equipment must be provided within thirty (30) calendar days of the child's identified need.
5. — The individual health care plan must be updated at least every twelve (12) months from the date of the initial plan and as changes occur. The plan must include all information needed to care for the child, must be signed by the health care provider, parent(s)/guardian(s) and must include, but not be limited to, the following:
 - a. — Medication and dosing schedule;
 - b. — Nutrition and feeding instructions;
 - c. — Medical equipment or adaptive devices, including instructions;
 - d. — Medical emergency instructions;
 - e. — Toileting and personal hygiene instructions;
 - f. — Behavioral interventions; and,
 - g. — Medical procedure/intervention orders.
- D. — If the parent(s)/guardian(s) agree(s) that the center should care for a child in the infant program who is eighteen (18) months or older, the center must have on file a written statement from a health care provider confirming that care for the child is appropriate in the infant program.
- E. — If the parent(s)/guardian(s) agree(s) that the center should care for a child in the toddler program who is twelve (12) months old but not walking independently, or is over thirty-six (36) months old, the center must have on file a written statement from a health care provider confirming that care for the child is appropriate in the toddler program.

7.702.51 — Health Care

A. — Statements of Health Status

1. — The center has the right to refuse to admit a child if a statement from a health care provider or documentation of immunization status, or exemption, is not submitted.

2. — At the time of admission, the parent(s)/guardian(s) must provide for each child entering the center:

a. — Documentation of school-required immunization status or Certificate of Medical or Nonmedical Exemption, is required by the Colorado Board of Health. Up-to-date school-required immunizations must be documented as specified on the Colorado Department of Public Health and Environment Certificate of Immunization or on an “approved alternate” Certificate of Immunization. Colorado law requires proof of immunization status or exemption be provided prior to or on the first day of admission.

b. — Within thirty (30) calendar days of admission, and within thirty (30) calendar days following the expiration date of a previous health statement, the parent(s)/guardian(s) of each child must submit a statement of the child’s current health status or written verification of a scheduled appointment with a health care provider. The statement of the child’s current health status must be signed and dated by a health care provider who has seen the child within the last twelve (12) months, or within the last six (6) months for children less than two and one-half (2½) years of age. The statement must include when the next visit is required by the health care provider. All health statements must be kept at the center.

c. — Statements of health status of children less than two (2) years of age must be updated in accordance with the American Academy of Pediatrics recommended schedule for routine health supervision or as required in writing by the health care provider.

d. — Health statements for children over two (2) years of age to seven (7) years of age must be updated in accordance with the American Academy of Pediatrics recommended schedule for routine well-child exams.

e. — For children seven (7) years of age and older or who have completed the first (1st) grade, subsequent statements of health status must be obtained every three (3) years.

B. — Medication

1. — Any unexpired routine medication, prescription or non-prescription (over the counter), must be administered only with a current written order of a health care provider with prescriptive authority and with written parental consent. Home remedies, homeopathic medication, vitamins, and supplements must not be administered to children in childcare.

2. — The written order by the person with prescriptive authority shall include:

a. — Child’s name;

b. — Licensed prescribing practitioner name, telephone number, and signature;

c. — Date authorized;

d. — Name of medication and dosage;

e. — Time of day medication is to be given;

f. — Route of medication;

g. — Length of time the medication is to be given;

h. — Reason for medication (unless this information needs to remain confidential);

i. — Side effects or reactions to watch for; and,

j. — Special instructions.

3. — Medications must be kept in the original labeled bottle or container. Prescription medications must contain the original pharmacy label.
4. — Over the counter medication must be kept in the originally labeled container and be labeled with the child's first and last name.
5. — In the case medication needs to be given on an ongoing, long-term basis, the authorization and consent forms must be reauthorized on an at least annual basis. Any changes in the original medication authorization require a new written order by the prescribing practitioner and a change in the prescription label.
6. — Staff designated by the Director to give medications must complete the Department approved Medication Administration training and have current annual delegation or more often as determined by the Department approved Child Care Health Consultant. Delegation must be from the center's current Department approved Child Care Health Consultant who must observe and document the competency of each staff member involved in medication administration. All staff administering medication must have current CPR and First Aid training prior to administering medication with the following exceptions:
 - a. — Staff determined by the Director, in consultation with the Department approved Child Care Health Consultant, to be responsible for providing emergency medications must complete the Department approved Medication Administration training: Severe Allergy or Asthma. After completing the training, staff must receive delegation from their Department approved Child Care Health Consultant for those medications only. Staff must then provide those medications to children based on the instructions from the child's individualized health care plan.
 - b. — Staff determined by the Director, in consultation with the Department approved Child Care Health Consultant, to be responsible for providing medications not covered in the approved medication administration training shall also be permitted to administer medications and/or medical treatments such as emergency seizure medication, insulin, or oxygen with individualized training and delegation from the Department approved Child Care Health Consultant based on instructions from the child's individualized health care plan.
 - c. — Staff may be trained and delegated in the administration of a single rescue medication or rescue medical intervention by the center's Department approved Child Care Health Consultant. Such training and delegation shall qualify the staff member to provide a rescue medication or treatment for a specific child based on instructions from the child's individualized health care plan.
7. — All medications, except those medications specified in the Department approved medication administration training as emergency medications, must be locked and inaccessible to children, but available to staff trained in administering medication. Controlled medications must be counted and safely secured, and specific policies regarding their handling require special attention in the center's policies. Access to these medications must be limited.
 - a. — Emergency medications are not required to be locked but must be stored in an area inaccessible to children, and easily accessible and identifiable to staff. Emergency medications must be stored in accordance with the Department approved Child Care Health Consultant's recommendation.
 - b. — When away from the classroom, staff assigned to supervise the child must carry the emergency medication.
8. — The center must have a written policy on the storage and access of inhalers and epinephrine carried by school-age children. The policy must include a written contract with the parent(s)/guardian(s) and child acknowledgement assigning levels of responsibility of each individual. This contract includes orders for the medication from a health care provider, along with confirmation from the health care provider and the Department approved Child Care Health Consultant that the student has been instructed and is capable of self administration of the prescribed medications.

9. — Children are not allowed to bring medications to childcare unless accompanied by a responsible adult.

10. — If a medication is out of date or left over, the parent(s)/guardian(s) is responsible for picking up the medication. If the parent(s)/guardian(s) do not respond, the center must dispose of the medications as required by the Colorado Department of Public Health and Environment.

11. — Topical preparations such as petroleum jelly, diaper rash ointments, sunscreen, insect repellent, and other ointments may be administered to children with written authorization from the parent(s)/guardian(s). These preparations may not be applied to open wounds or broken skin unless there is a written order by the prescribing health care provider.

12. — A written medication log must be kept for each child. This log is part of the child's records. The log must contain the following:

a. — Child's name and birthdate;

b. — name of the medication, dosage, and route;

c. — time medication is to be given by written medication authorization;

d. — time medication is administered to child;

e. — Special instructions;

f. — Name and initials of the individuals giving the medication; and,

g. — Notation if the medication was not given and the reason.

C. — Sun Protection

1. — The center must obtain written authorization and instructions from the parent(s)/guardian(s) for the application of sunscreen or the use of another form of parent(s)/guardian(s) approved sun protection with a full-spectrum UVA/UVB rating of SPF thirty (30) or greater to their children's exposed skin prior to outside play year-round. a doctor's permission is not needed to use sunscreen at the center.

2. — The center must apply sunscreen, have the parent(s)/guardian(s) apply sunscreen, or use another form of parent/guardian approved sun protection for children prior to children going outside. Sunscreen must be reapplied as directed by the product label.

a. — When the parent(s)/guardian(s) applies sunscreen, the center must have a mechanism for documenting application times to ensure sunscreen is reapplied as directed by the product label. If documentation of application time is not available, the center must ensure that sunscreen is applied thirty (30) minutes before going outdoors. If the child will be outside for more than one hour, sunscreen must be reapplied every two hours.

3. — When supplied for an individual child, the sunscreen must be labeled with the child's first and last name.

4. — If sunscreen is provided by the center, parent(s)/guardian(s) must be notified in advance, in writing, of the type of sunscreen the center will use.

5. — Children over four (4) years of age may apply sunscreen to themselves under the direct supervision of a staff member.

6. ——— Infants under six (6) months must be kept out of direct sunlight while outdoors.

7.702.6 ——— CHILD CARE SERVICES

7.702.61 ——— Personal Hygiene

A. ——— Diapering

1. ——— All diaper change areas must:

a. ——— Be a minimum of thirty-six (36) by eighteen (18) inches in size and large enough to accommodate the size of the child;

b. ——— Have a place inaccessible to children for storing all diaper change supplies and disinfecting solutions and products;

c. ——— Have a sufficient supply of diapers at all times; and,

d. ——— Be located and arranged to provide privacy for older children in need of diaper changing.

2. ——— Children being diapered must be within arm's reach of the staff member and actively supervised throughout the diapering process.

3. ——— One (1) diaper change area is required in every infant and toddler classroom.

4. ——— One (1) designated diaper change area is required for every twenty-four (24) preschool age children.

b. ——— Toileting

1. ——— There must be no attempt to toilet train children until they are able to communicate or otherwise indicate need, help manage their own clothing, and be able to access toileting facilities.

2. ——— For each child who is learning to use a toilet, the child's individual developmental abilities and needs must be accommodated as stated in the written policies and procedures for the center.

7.702.62 ——— Physical Care and Supervision

A. ——— General

1. ——— All children must be under the direct supervision at all times of a qualified adult who has been assigned the responsibility to supervise.

2. ——— The time a child arrives and leaves the center each day must be recorded. Staff members must complete written attendance verification periodically throughout the day, including during transitions.

3. ——— Staff must be awake, alert, and actively supervising all children.

4. ——— Staff must directly supervise children and maintain staff to child ratio during special activities that occur with an outside vendor or provider and where the vendor uses their expert staff to facilitate the activity.

5. ——— The staff must ensure that children are dressed appropriately for the weather before going outside.

B. ——— Infant and Toddler Programs

1. ——— Outside of mealtimes, children who are awake must not be confined for more than fifteen (15) minutes at a time to cribs, playpens, swings, highchairs, infant seats, or other equipment that confines movement. Children must have the opportunity for freedom of gross motor movement.
2. ——— Throughout the day, each child must have frequent, individual, personal contact, and attention from an adult, such as being held, rocked, taken on walks inside and outside the center, talked to, read to, and sung to.
3. ——— Staff must investigate whenever children cry, scream, or appear to withdraw and must try to verbally or physically soothe the child. When putting infants to sleep, staff may allow for a period of no longer than ten (10) minutes without verbally or physically soothing the child to enable the infant to try to self soothe and fall asleep.
4. ——— Children must be allowed to form and observe their own pattern of sleep and waking periods. Special provision must be made so that children requiring a morning nap time have a separate area for their nap apart from space used for play.
 - a. ——— Children must be allowed to leave their sleeping area immediately upon waking.

C. ——— Safe Sleep Environments for Infants

1. ——— Each infant up to eighteen (18) months of age and enrolled in the infant program must be provided with an individual crib, futon approved for infants, or other approved sleep/rest equipment meeting Consumer Product Safety Commission (CPSC) standards. Individual cribs or futons must provide each infant with sufficient space for the infant's length, size, and movement.
2. ——— In the infant room, soft bedding or materials that could pose a suffocation hazard are not permitted in cribs, futons approved for infants, or other approved sleep/rest equipment. Soft bedding means, but is not limited to, any soft sleep surface like bumper pads, pillows, blankets, quilts, comforters, sleep positioning devices, sheepskins, blankets, flat sheets, cloth diaper bibs, plush toys, pacifiers with stuffed animals attached, and stuffed animals.
 - a. ——— Mattresses for cribs and futons must have a properly fitted, clean sheet.
3. ——— Approved sleeping equipment must be firm and mattresses must fit snugly ensuring no more than two fingers are able to be inserted between the mattress and the side of the approved sleeping equipment.
4. ——— Toys, including mobiles and other types of play equipment that are designed to be attached to any part of sleeping equipment, must be kept away from sleeping infants and out of sleep environments, including hanging toys. Blankets and other items must not be hung from or draped over the sides or any part of sleeping equipment.
5. ——— All sleep/rest equipment must be safe, sturdy, and free from hazards including, but not limited to broken or loose slats, torn mattress, chipping paint or loose screws.
6. ——— Drop side and stacking cribs are prohibited.
7. ——— Bassinets and playpens are prohibited in childcare centers.
8. ——— Other sleep equipment not manufactured for commercial use is prohibited.
9. ——— An infant must be placed on his/her back for sleeping.
10. ——— Alternative sleep positions for infants must only be allowed with a health care plan completed and signed by the child's physician.

11. — Swaddling of infants must only be allowed with a health care plan completed and signed by the child's health care provider.
 12. — Each infant up to twelve (12) months of age who uses a pacifier must have the pacifier offered when being put down to sleep unless the parent(s)/guardian(s) direct(s) otherwise.
 13. — Infant sound monitors must be used in separate sleeping rooms for infants unless qualified staff remain in the room with sleeping infants at all times. When monitors are used, the following conditions must be met:
 - a. — The sound monitoring equipment is able to pick up the sounds of all sleeping infants;
 - b. — The receiver of the sound monitoring equipment is actively monitored by staff at all times;
 - c. — All sleeping infants must be physically observed at least every ten (10) minutes by a staff member;
 - d. — Sound monitoring equipment must be regularly checked to ensure it is working correctly; and,
 - e. — The monitor must be out of reach of children.
 14. — Separate sleep rooms are prohibited in new construction, change of governing body, and change of capacity in childcare centers.
 15. — Infants who fall asleep in a piece of equipment not approved for sleep must immediately be moved to their approved sleep area and placed on their back to sleep.
 16. — Cribs must be used for sleeping, not extended play nor confinement.
 17. — If music is played in the infant sleep area, the music must not be played at a loud volume that would prevent infants from being heard by staff. Music equipment must not be placed under a crib or within three (3) feet of the sleeping infant.
 18. — Supervised tummy time must be offered to infants one (1) month of age or older at least four (4) times per day for full day programs for short periods (3-5 minutes) and increase the amount of time as the infant shows they enjoy the activity. If the infant falls asleep during tummy time, immediately place him/her on their back in approved sleeping equipment.
 19. — When staff place infants in approved sleeping equipment for sleep, they must check to ensure that the temperature in the room is comfortable for a lightly clothed adult, check the infants to ensure that they are comfortably clothed (not overheated or sweaty), and that bibs, necklaces, and garments with ties or hoods are removed.
 - a. — Clothing sacks or other clothing designed for sleep must be worn in lieu of blankets if needed for additional warmth. clothing must not restrict the movement of the child's arms or legs.
 20. — Infants must not be placed to sleep in the same crib or futon as another infant or child at the same time.
- D. — Rest Time and Equipment
1. — Children must not be forced to sleep.
 2. — In rooms used for napping, the lighting must be dim at nap time to promote an atmosphere conducive to sleep but must be bright enough for supervision of children.

3. — When the room provided for rest is used for other program activities, the cots, pads, and linens must be stored in an area that is not included in the required square footage assigned for play space.
4. — In the toddler room, a crib, sleeping cot, or two (2) inch mat must be provided for each child, and there must be a minimum of two (2) feet between each crib or cot. Aisles between cots or cribs must be kept free of all obstructions while cribs are occupied. No child less than the age of two (2) years should use a cot for sleeping without written permission of the parent or guardian.
 - a. — Individual cribs must provide each toddler with sufficient space for the toddler's length, size, and movement, and must meet federal Consumer Product Safety Commission standards. Each crib must be fitted with a firm, comfortable mattress. If individual cribs are used, they must be separated by a sturdy divider from the area used for activities.
 - b. — Sleeping cots and mats must be of firm construction and in good repair.
 - c. — A fitted sheet and a blanket, or suitable covering, must be provided for each child to be used only by that child.
5. — If preschool-age children are in care for longer than five (5) hours, the center must provide at least a thirty (30) minute rest period meeting the following:
 - a. — A firm cot or two (2) inch mat with a sheet and blanket, or other suitable covering, must be provided for each child;
 1. — Cots or pads must be spaced at least two (2) feet apart on all sides during rest time. Children must have a safe area in which to rest that is easily supervised, out of the path of traffic, and free of hazards.
 - b. — Quiet activities must be available for children who do not sleep during the thirty (30) minute period. Older children requiring a rest time must be given one;
 - c. — Children who do not sleep after thirty (30) minutes must be allowed to move to another area and be provided with quiet toys and equipment to play with such as puzzles or books; and,
 - d. — Children who fall asleep must be allowed to leave their napping area within ten (10) minutes of waking.

7.702.63 — Food and Nutrition

- A. — Meals and Snacks provided by the center
 1. — All meals and snacks provided by the center must meet current United States Department of Agriculture (USDA) Child and Adult Care Food Program (CACFP) meal pattern requirements and be offered at suitable intervals not more than three (3) hours apart. Children who are at the center for more than four (4) hours, day or evening, must be offered a meal. Arrangements must be made for feeding children who are in care before 6 a.m. or after 6 p.m.
 2. — If 100% fruit juice, which is not a sugar sweetened beverage, is offered as part of meals and/or snacks, it must be limited to no more than two (2) times per week.
 3. — Centers must not provide sugar sweetened beverages to children. These are beverages that have been sweetened with various forms of sugars that add calories and include, but are not limited to: soda, fruitades, fruit drinks, flavored milks, and sports and energy drinks.
 4. — The size of servings must be suitable for the child's age and sufficient time must be allowed so that meals are unhurried.

5. — Foods offered shall be age appropriate and not pose a choking hazard.
6. — In centers that do not regularly provide a meal, if a child brings a meal from home that does not appear to meet current USDA Child and Adult Care Food Program meal pattern requirements, the center must have foods available to offer as a supplement to that meal.
7. — Staff members must sit with the children and encourage them to try a variety of food served. During meals, children should be encouraged to engage in conversation and to express their independence.
8. — Children must not be given foods that are contrary to the religious beliefs of their families or that are known to cause an allergic reaction or a health hazard.
9. — Food and beverages are not to be used as a reward.
10. — Meal menus must be planned at least one week in advance, dated, and posted in a place visible to parents. After use, menus must be filed and retained for three (3) months.
11. — A table, counter, or shelf, separate from the diaper changing area, must be available for preparing infants' and toddlers' food.

B. — Feeding the Infant

1. — An individualized diet and feeding schedule must be provided according to a written plan submitted by the parent or by the child's physician with the knowledge and consent of the parent. A change of diet and schedule must be noted on each child's daily activity schedule and posted in an area clearly visible to the staff.
2. — All infants less than six (6) months of age must be held for bottle feeding. Bottles must not be propped. Older infants must not be allowed to hold their own bottles when lying flat. Bottles must not be allowed in a crib with the infant.
3. — Older infants must be provided with suitable solid foods that encourage freedom in self-feeding and must be fed in safe chairs such as highchairs or baby feeding tables.
4. — When the infant program provides food other than breast milk or formula, food must be varied and include food from cereal, vegetable, fruit, and protein sources. When the center does not provide solid food, it must supply any additional foods and/or monitor the infant's total nutritional intake.
5. — A staff member may not mix cereal with breast milk or formula and feed it to an infant from a bottle or infant feeder unless there are written instructions from the child's health care provider.
6. — In infant nurseries, an adequate number of highchairs, or other suitable pieces of equipment that meet federal Consumer Product Safety Commission standards, must be provided for infant feeding.
7. — Children who are actively eating may be in a highchair or other approved feeding equipment for longer than fifteen (15) minutes. Children must be moved once feeding is complete.

C. — Feeding the Toddler

1. — Staff members must either feed toddlers or supervise them when they are eating, and children must be encouraged to try a variety of food served.
2. — Toddlers must be sitting when eating or drinking.

3. — Children who are actively eating may be in a highchair or other approved feeding equipment for longer than fifteen (15) minutes. Children must be moved away from the feeding location once feeding is complete.

7.702.64 — Guidance

A. — Guidance used at the center must be appropriate to the development of the child and is used as an opportunity to teach children social-emotional skills, such as self-regulation, problem-solving, and empathy for others.

B. — Children must not be subjected to physical or emotional harm, humiliation, or threats.

C. — The Director must not use, or permit a staff person or child to use, corporal or other harsh punishment.

D. — Guidance must not be associated with food, rest, or toileting. No child should be punished for toileting accidents. Food must not be denied to or forced upon a child as a disciplinary measure.

E. — Physical activity and outdoor time must not be withheld as a disciplinary measure.

F. — Separation, when used for guidance, must not exceed five (5) minutes and must be appropriate for the child's development. The child must be in a safe, lighted, well-ventilated area and be within sight and hearing of an adult. The child must not be isolated in a locked, closed room, or closet.

G. — Verbal abuse and derogatory remarks about the child are not permitted.

H. — Any form of restraint is not permitted.

I. — Physical redirection may be used to keep a child from immediate imminent danger. The child must be immediately released once removed from imminent danger.

7.702.65 — Activities

A. — Activity Schedules

1. — The center must carry out a planned program suitable to the needs of the children. This program must be described in writing and be available for review when requested by the department or by parents or guardians of children in care.

2. — Daily physical gross motor activities, with or without equipment or materials, must be provided outdoors, or indoors during inclement weather, to children toddler age and older for no less than sixty (60) minutes total for full day programs. Activities do not have to occur all at once.

a. — Programs who qualify for an outdoor space hardship per Section 7.702.74, B,1, must provide daily physical gross motor activities indoors or outdoors.

3. — Children's access to outdoor space must be provided daily, except during inclement weather.

4. — Infants must be provided access to outdoor play at least three (3) times per week, weather permitting.

5. — If the center takes children on routine short excursions, such activities and locations must be posted at the center.

6. — Portable first aid kits must be available to staff at all times, including field trips and short excursions, and must be checked and restocked on at least a monthly basis.

7. — If a child participates in activities away from the facility, the center must obtain the parent or guardian's written permission for the child to participate in the activity at a specific location and day. Staff ratios found at Section 7.702.46 must be maintained.

B. — Screen Time and Media Use

1. — Screen time, which includes, television, recorded media, computer, tablet, cell phones, video games, and other media devices, is prohibited for children less than two (2) years of age.

2. — Screen time is prohibited during snack or meal times.

3. — All media that children are exposed to must not contain explicit language or topics.

4. — For children two (2) to five (5) years of age, screen time must be limited to no more than thirty (30) minutes per day.

5. — For children two (2) years of age and older, screen time may only exceed sixty (60) minutes for a special occasion and must not occur more than once every two (2) weeks.

6. — All children must be provided with a developmentally appropriate alternative activity once the child(ren) loses interest in the media activity.

7. — There is no time restriction for children using personal adaptive equipment or assistive technology or participating in mandatory school activities.

C. — Field Trips

1. — The center must notify the children's parents or guardians in advance of any field trip. The staff-child ratio found at Section 7.702.46 must be maintained at all times.

2. — All groups of children must be actively supervised by a qualified Early Childhood Teacher at all times.

3. — Children must be actively supervised at all times.

4. — An accurate itinerary must remain at the center.

5. — When taking children on a field trip, staff must have the following information about each child: name, address, and phone number of the child's physician or other appropriate health care professional and the written authorization from the parent or guardian for emergency medical care.

6. — If children attending the field trip require routine medications be administered during the field trip or have special health needs, a staff member with current medication administration training and delegation must attend on the field trip.

7. — A list of all children and staff on a field trip must be kept at the center.

7.702.66 — Transportation

A. — Transportation Provided by the Center

1. — The center is responsible for any children it transports.

2. — The center must obtain written permission from the parent(s)/guardian(s) for any transportation of their child(ren) while in care.

3. — The number of staff members who accompany children when being transported in the vehicle must meet the childcare staff ratio found at Section 7.702.46. The driver of the vehicle is considered a staff member.
4. — Children must not be permitted to ride in the front seat of a vehicle and must remain seated while the vehicle is in motion. All children must be secured in a child restraint system that is appropriate for the age and development of that child. The child restraint must conform to all applicable Federal Motor Vehicle Safety Standards and Colorado child passenger safety laws.
5. — Children must be loaded and unloaded out of the path of moving vehicles.
6. — Children must not be permitted to stand or sit on the floor of a moving vehicle, and their arms, legs, and heads must remain inside the vehicle at all times.
7. — Children must not be left unattended in the vehicle.
8. — Transportation arrangements for school-age children must be by agreement between the center and the children's parents, i.e., whether the child can walk, ride a bicycle, or travel in a car. The center must monitor the children to be sure they arrive at the center when expected and follow up on their whereabouts if they are late. Written permission from parents or guardians for their children to attend community functions after school hours must include agreements regarding transportation.
9. — Prior to a field trip or other excursion, the center must obtain information on liability insurance from parents and staff who transport children in their own cars and verify that all drivers have valid driver's licenses.
10. — Attendance must be verified as children enter and exit the vehicle to ensure all children are accounted for.

B. — Requirements for Vehicles

1. — Any vehicle used for the transportation of children to and from the center or during center activities must meet the following requirements:
 - a. — The vehicle must be enclosed and have working door locks;
 - b. — The seats of the vehicle must be constructed and installed according to the vehicle manufacturer's specifications;
 - c. — The vehicle must be kept in satisfactory condition to ensure the safety of occupants. Vehicle tires, brakes, and lights must meet safety standards set by the Colorado Department of Revenue, Motor Vehicle Division;
 - d. — Seating must be comfortable with a seat of at least ten (10) inches wide for each child;
 - e. — The provider must not transport more children than any vehicle is able to safely accommodate when child restraint systems and seat belts are properly installed in the vehicle. Two (2) or more children must never be restrained in one (1) seat belt or child restraint system; and,
 - f. — Modifications to vehicles including, but not limited to, the addition of seats and seat belts must be completed by the manufacturer or an authorized representative of the manufacturer. Documentation of such modifications must be available for review.
2. — In passenger vehicles, which include automobiles, station wagons, and vans with a manufacturer's established capacity of sixteen (16) or fewer passengers and less than 10,000 pounds, the following is required:

- a. — Each child must be restrained in an individual seat belt;
 - b. — Two (2) or more children must never be restrained in one (1) seat belt;
 - c. — Lap belts must be secured low and tight across the upper thighs and under the belly; and,
 - d. — Children must be instructed and encouraged to keep the seat belt properly fastened and adjusted.
3. — In vehicles with a manufacturer's established capacity of sixteen (16) or more passengers, seat belts for passengers are not required.

C. — Requirements for Drivers of Vehicles

1. — All drivers of vehicles transporting children must comply with applicable laws of the Colorado Department of Revenue, Motor Vehicle Division, and ordinances of the municipality in which the center operates.
2. — All drivers of vehicles owned or leased by the center in which children are transported must have a current Department approved First Aid and Safety certificate that includes CPR for all ages of children.
3. — In each vehicle used to transport children, drivers must have access to a First Aid kit.
4. — The driver must ensure that all doors are secured at all times when the vehicle is moving.
5. — The driver must make a good faith effort to ensure that each child is properly belted throughout the trip.
6. — The driver must not eat, smoke, or use a cellular device while driving.
7. — The required staff to child ratio must be maintained at all times.
8. — All drivers must be at least twenty (20) years of age.
9. — Drivers must complete a minimum of four (4) hours of Department approved driver training. The Department's approval will be based on the review of a training curriculum that includes at a minimum: behind the wheel training; participant transport attendance procedures including taking attendance at the destination; managing behavioral issues; loading and unloading procedures; daily vehicle inspection procedure; proper tire inflation; emergency equipment and how to use it; accident procedures; passenger illness procedures; procedures for backing up; and vehicle evacuation.

D. — Transporting Infants and Toddlers

1. — Children must be properly fastened into a child restraint system that conforms to all applicable Federal Motor Vehicle Safety Standards pursuant to Colorado law.
2. — There must be at least one (1) adult, in addition to the driver, for each five (5) or fewer infants/toddlers being transported. Each adult must have a current Department approved First Aid and Safety certificate that includes CPR for all ages of children.
3. — An adult must accompany each child to and from the vehicle.
4. — Infants and toddlers must not be transported in the front seat of a vehicle.

7.702.67 — Overnight Care

A. All of the provisions required in Section 7.702 of these rules for childcare centers apply to centers offering overnight care of children which includes care that extends beyond midnight. In addition, centers must observe the following provisions:

1. A nutritious evening meal must be made available to children. If provided by the center, the meal must meet current USDA Child and Adult Care Food Program meal pattern requirements.

2. Quiet activities must immediately precede the children's bedtime.

3. Children's faces and hands must be washed, children's teeth must be brushed according to the child's age, and children must be changed into comfortable clothing for sleeping.

4. Each child must be provided with a comfortable separate bed, crib, or cot suitable for the child's age or a two (2) inch sleeping mat or mattress. Each child must also be provided with sheets and a clean, washable covering. If mats or mattresses are used, the room temperature at floor level must be 68 to 72 degrees. Pads and mattresses must be fitted with a clean, washable, removable covering. Permission of parents/guardians must be obtained for each child who uses a sleeping mat or mattress placed on the floor.

5. Staff must be awake, alert, and actively supervising all children.

6. The staff-child ratio for sleeping children is one (1) adult to every six (6) or fewer children in attendance. Once one (1) child is awake, the staff-child ratio as defined in Section 7.702.46 must be maintained.

7.702.7 CHILD CARE EQUIPMENT AND MATERIALS

7.702.71 General Requirements

A. Durable furniture such as tables and chairs must be child-sized or appropriately adapted for children's use.

B. Window blind cords must be secured out of children's reach to prevent strangulation.

C. Items labeled "keep out of reach of children" must be inaccessible to children.

D. Staples must be inaccessible to children less than three (3) years of age.

E. Thumb tacks must not be used in areas accessible to children less than three (3) years of age.

F. Glitter must not be used with children under three (3) years of age.

G. Loose plastic bags must be stored in areas inaccessible to children.

H. Sharp tools and instruments must be stored in areas inaccessible to children.

I. For every five (5) infants for which the center is licensed, there must be at least one (1) piece of sturdy mobile equipment that is easily accessible to safely and effectively evacuate infants.

J. If using a crib is not designed for emergency evacuation, the crib must be reinforced with a kit manufactured for this purpose.

K. Evacuation equipment must not block exit routes. Nothing may be stored in or under any evacuation equipment.

Evacuation equipment must:

1. — Be located in the room or immediately outside the interior classroom door;

2. — Be labeled for easy identification;

3. — Be ready for use; and,

4. — Fit through doorways.

L. — Toys, toy parts, furnishings, equipment, and any materials accessible to children under than three (3) years of age must not be a choke hazard or able to be inhaled. Any area of the facility accessible to children less than three (3) years of age must be free of any choke or inhalation hazards.

M. — Toys, toy parts, furnishings, equipment, and materials made of brittle, easily breakable plastic or glass are not permitted for children less than five (5) years of age.

N. — The infant program must have an adult rocking chair.

O. — In the infant program, some play equipment from the following list must be provided: rubber-washable toys, rattles, blocks, balls, and music player.

P. — Some sand or equivalent dry material or water play should be offered to children eighteen (18) months of age or older, indoors or outdoors, at least monthly and year-round.

Q. — At least three (3) examples of materials must be available to the children that are developmentally appropriate, culturally sensitive, and represent diversity in ethnicity, race, gender, age, and abilities. Variety must exist in toys, books, and pictures.

R. — The center must have enough play materials and equipment so that at any one time each child for which the center is licensed for can be individually involved. Separate play rooms or separate interest centers must be provided for each category of equipment required for the program. A variety of material and equipment from the following categories must be available:

1. — Art;

2. — Blocks and accessories;

3. — Books and pictures;

4. — Dramatic play;

5. — Gross motor;

6. — Manipulatives;

7. — Music; and,

8. — Science and math.

S. — In the toddler program, some play materials and equipment easily accessible to children must be provided from each of the following categories:

1. — Books and pictures;

2. — Dramatic play;

3. — Gross motor;

4. — Manipulatives; and,

5. — Music.

T. — If the center serves school-age children, it must have some age-appropriate materials and equipment from each of the following categories:

1. — Arts and crafts;

2. — Games;

3. — Sports;

4. — Science and math; and,

5. — Literature.

U. — An appropriate supply of play materials must be readily accessible to children and must be arranged in an orderly manner so that children can select, remove, and replace the play materials either independently or with minimum assistance.

7.702.72 — Indoor/Outdoor Equipment, Materials, and Surfaces

A. — A variety of play equipment and materials appropriate for children's age, size, developmental needs, and activities must be provided for both indoor and outdoor structured and free play.

1. — Programs who qualify for an outdoor space hardship per Section 7.702.74, B, 1 are not required to provide equipment and materials for outdoor play.

B. — Indoor and outdoor equipment, materials, and furnishings must be sturdy, safe, and free of hazards.

C. — All other indoor or outdoor playground facilities, with permanently installed or portable climbing equipment, without an annually certified playground inspection must meet the following requirements:

1. — Resilient Surfacing

a. — All climbing equipment eighteen (18) inches or higher must have resilient surfacing of at least six (6) inches in the use zone surrounding the equipment.

b. — Department-approved resilient surfacing includes loose fill materials such as wood chips, wood mulch, engineered wood fiber, pea gravel, synthetic pea gravel, shredded rubber tires, and sand. Solid unitary materials include poured in place surfacing, approved rubber mats, playground tiles, and AstroTurf with built in resilient pad.

c. — Loose fill resilient surface must be raked regularly to retain its resiliency and to retain a depth of at least six (6) inches.

d. — Any newly installed solid unitary materials used for resilient materials must have written documentation from manufacturer stating the material meet current federal safety standards. The documentation must be available for review at all times.

2. — Maximum Height of Equipment

a. — The maximum height for toddler climbing equipment cannot exceed thirty-two (32) inches.

b. — The maximum height for preschool and school-age climbing equipment must not exceed six (6) feet in height with six (6) inches of Department-approved resilient surfacing.

3. — Use Zone

a. — Toddler climbing equipment must have a three (3) foot use zone surrounding the equipment. Toddler slides require a six (6) foot use zone extending out from the base of the slide.

b. — The use zone for swings used by toddlers is determined by measuring the distance from the top of the swing to the bottom of the bucket seat. This measured distance must extend from both the front and the back of the swing.

c. — Preschool and school-age climbing equipment must have a six (6) foot use zone surrounding the equipment. For slides exceeding six (6) feet in height, the use zone from the base of the slide must be as long as the slide height.

d. — The use zone for swings used by children preschool age and older is determined by measuring the distance from the top of the swing to the ground. This measured distance must extend from both the front and the back of the swing.

4. — Moving equipment must be located toward the edge or corner of a play area or be designed in such a way as to discourage children from running into the path of the moving equipment.

5. — Metal equipment must be placed in the shade.

6. — All pieces of playground equipment must be designed to guard against entrapment and strangulation. Any openings in gross motor equipment above ground must be smaller than three and one-half (3½) inches or greater than nine (9) inches to prevent entrapment.

7. — Swings must have seats made of a flexible material and all "S" hooks must be secured.

8. — All outdoor play areas used for children's activities must be checked daily and kept safe and free from hazardous materials or debris by removal of debris, dilapidated structures, and broken or worn play equipment. The staff must identify hazardous, high-risk areas; those areas must be made inaccessible to children to reduce the possibility of injuries and accidents.

D. — For purposes of a playground facility inspection, the Department shall accept as satisfactory proof of valid certification of the playground facility, certification, or a copy of certification, from an individual who is licensed or certified to perform playground safety inspections through the National Recreation and Park Association, or other nationally recognized playground facility safety organization. The Department shall not require a duplicate inspection if there is a satisfactory inspection report.

1. — All playground facilities who hold a certified playground safety inspection must maintain resilient surfacing in compliance with the certification.

E. — Children must wear helmets when riding scooters, bicycling, skateboarding, or rollerblading. The helmet must be removed after the activity. Motorized riding toys are not permitted.

F. — Trampolines and inflatable bouncers are prohibited.

7.702.73 — Indoor Learning Environment

A. — Indoor Space Requirements

1. — There must be open, indoor play space of at least thirty (30) square feet of floor space per child, including space for movable furniture and equipment. For space to be counted in the square footage calculation, the space must be accessible and used by children.

2. Indoor play areas must be uncluttered, safe, and allow for freedom of movement.
3. Adequate storage space must be provided for indoor and outdoor equipment and supplies.
4. Number of Children Allowed in One (1) Room

AGE OF CHILDREN	MAXIMUM NUMBER OF CHILDREN IN A ROOM
6 weeks to 18 months	10 infants
12 months to 18 months	10 infants
12 months to 36 months	20 toddlers
18 months to 24 months	20 toddlers
24 months to 36 months	28 toddlers
30 months to 36 months	28 toddlers

5. Square Footage Requirement per Child

AGE OF CHILD	SEPARATE FREE PLAY AREA	SEPARATE SLEEP AREA	COMBINED SLEEP AND PLAY AREA
6 weeks to 18 months (infants)	35 square feet	Adequate space to accommodate size of cribs and needs of infant and staff	50 square feet
12 months to 36 months (toddlers)	30 square feet	30 square feet	45 square feet
2 1/2 years to 5 years (preschool)	N/A	N/A	30 square feet
5 years and over (school-age)	N/A	N/A	30 square feet

6. In the infant program, the minimum indoor space per infant for sleep and activities is fifty (50) square feet.

1. In a combination sleep/activity rooms, the sleep area must be separated by a sturdy divider from the area used for activities, and cribs must be arranged so that all infants and cribs are easily accessible to staff members.

7.702.74 Outdoor Learning Environment

A. Outdoor Space Requirements

1. Readily accessible gross motor play space and access to outdoor space must be provided.
2. The outdoor learning environment for preschool age and older must provide a minimum of seventy-five (75) square feet of space per child for a group of children using the total play area at any one time. the total play area must accommodate at least thirty-three percent (33%) of the licensed capacity for children preschool age and older or a minimum of 1500 square feet, whichever is greater.
 - a. Programs who qualify for an outdoor space hardship per Section 7.702.74, B, 1 must meet the minimum outdoor learning environment square footage requirements indoors or through a combination of indoor and outdoor space.
3. The play area must be fenced or have natural barriers, such as hedges or stationary walls at least four (4) feet high, to restrict children from unsafe areas.

a. — Centers licensed to provide care for preschool-age children only may use the centers perimeter fencing if they maintain a ratio of one (1) staff member to eight (8) children.

4. — The play area must be designed so that it is easily supervised.

5. — A minimum of one hundred fifty (150) square feet of shaded area in the fenced play area must be provided to guard children against the hazards of excessive sun and heat. Shaded areas must be provided year-round.

6. — In the infant program, the outdoor play area must be a minimum of four hundred (400) square feet.

7. — In the infant program, the outdoor area can be used by other age groups at the center, but it must not be used by any other group of children while infants are using it.

8. — The total outdoor play area for toddler age groups must be a minimum of seven hundred fifty (750) square feet if licensed for ten (10) toddlers and one thousand fifty (1,050) square feet if licensed for fourteen (14) or more toddlers, or seventy-five (75) square feet per child for the largest group size for which the program is licensed.

9. — In the toddler program, the outdoor play area can be shared by infants, but infants and toddlers must not be allowed to use the play area at the same time.

B. — Outdoor Space Hardship

1. — If an outdoor play space is not directly attached to the facility or accessible via secure access, or the childcare facility cannot meet outdoor space requirements due to a hardship based on the location of the facility, the facility must develop a site-specific plan, which will be submitted to the Department for review and approval, that includes the following:

a. — Identification of an accessible (appropriate for the age group of children served) alternate outdoor space including a description and approximate square footage of the space;

b. — A diagram outlining how children will safely travel to and from this location;

c. — A plan for supervision, including any special staffing requirements, to safely access and utilize the alternate outdoor space that includes:

(1) — Attendance tracking upon arrival to the outdoor space and return to the facility;

(2) — Children's toileting and diapering needs;

(3) — Children's routine and emergency medical needs including the use of first aid kits and accessibility of emergency contact information when not on site at the childcare facility;

(4) — Plans for alternate activities if the outdoor space is unavailable; and,

(5) — If play equipment or climbing structures are present in the outdoor space, a plan for assessing safety of equipment and supervising age-appropriate play;

d. — An emergency evacuation plan including the location of a secondary site for reunification with parents in the case of an emergency while at the offsite location and plans for accessing shelter in the case of emergency; and,

e. — A policy that notifies the parent(s)/guardian(s) of the alternate outdoor space.

2. ~~———— If the outdoor space becomes unusable or the program cannot maintain what was approved in the plan, the program must submit a new plan to the Department within ten (10) calendar days of a change in the usability of such outdoor space.~~

3. ~~———— Childcare facilities licensed prior to December 1, 2021 may not reduce or eliminate existing licensed outdoor space to qualify for the outdoor space hardship.~~

7.702.8 BUILDINGS AND FACILITIES

7.702.81 Building Site

A. General

1. ~~———— Centers can be located in a private residence only when that portion of the residence to which children have access is used exclusively for the care of children during the hours the center is in operation or is separate from the living quarters of the family.~~

2. ~~———— No other business can operate in the rooms used by the center during the hours of childcare.~~

3. ~~———— Rooms licensed for specific ages of children cannot be used for other ages of children without the prior written approval of the licensing authority.~~

4. ~~———— Prior to licensure, if the infant or toddler program is located on a floor above or below the main floor of egress leading directly outside, the childcare facility must develop and submit an alternate location plan for approval by the department that includes following:~~

a. ~~———— Fire department and building department approval per the locally adopted fire and building codes;~~

b. ~~———— An emergency evacuation plan with identified primary and secondary areas of refuge;~~

c. ~~———— Any special equipment necessary to operate in and evacuate safely from the alternate location; and,~~

d. ~~———— Any special staffing and training requirements to ensure the ability to safely evacuate the alternate location.~~

B. Infant Programs

1. ~~———— If the infant program is in the same building as a facility caring for children of other ages, the infant program must be physically separated in different rooms by walls no less than eight (8) feet and full doors.~~

C. Toddler Program

1. ~~———— If the toddler program is in the same building as a facility caring for children of other ages, the toddler program must be physically separated in different rooms by walls no less than eight (8) feet and full doors.~~

2. ~~———— If the toddler program is combined with a large childcare center or an infant program, toddler facilities, both indoor and outdoor, must be completely separate from facilities for other age groups, except as allowed by Section 7.702.74, A, 6 and 8. If the facility wishes to provide opportunities for a toddler to have occasional contact with siblings, plans must be approved by the Department licensing representative.~~

7.702.82 Building Plans and Construction

A. ~~———— The center must comply with applicable state and local building and fire codes.~~

~~B. — Prior to construction, architectural plans for new buildings or for remodeling of existing buildings must be submitted for review and approval by the Department, the local fire department, and the local building department as to appropriateness, adequacy, and suitability for childcare functions.~~

~~7.702.83 — Toilet Facilities~~

~~A. — Toilet facilities for the staff and other adults must be in separate restrooms or be separated by a partition from children's facilities, except in centers licensed for thirty (30) or fewer children and in centers with programs of four (4) hours or less.~~

~~1. — In toilet facilities where the adult and children's facilities are separated by a partition, adults and children must not use the facilities at the same time.~~

~~2. — After January 1, 2022, staff and children toilet facilities must be separate in new construction.~~

~~B. — Toilet facilities for children must be separate from rooms used for other purposes and must be located on the same floor as the inside play area.~~

~~C. — A minimum of one (1) sink and one (1) flush toilet must be provided for each fifteen (15) or fewer children.~~

~~D. — The same toilet facilities must not be used simultaneously by school-age children of all genders, and toilets for school-age children must be separated by partitions to provide privacy.~~

~~1. — School-age children must be allowed the use of toilet facilities that correspond with their gender identity.~~

~~E. — Toilet facilities must be provided for children two (2) years of age and older.~~

~~F. — Toilet facilities for toddlers must be located within their classroom.~~

~~7.702.84 — Office Facilities~~

~~A. — Office space separate from areas used by children must be provided for staff to perform administrative duties.~~

~~1. — If the office space is accessible to children, it must be free of hazards.~~

~~B. — The office must have sufficient space for maintenance and safe storage of children's and staff records and the center's business records.~~

~~7.702.9 — SAFETY REQUIREMENTS~~

~~7.702.91 — General Requirements~~

~~A. — Firearms as defined in § 18-1-901(3)(h), C.R.S., are prohibited on the premises, both indoor and outdoor, and in any vehicle in which children are transported.~~

~~B. — Buildings must be kept in good repair and maintained in a safe condition.~~

~~C. — Major cleaning is prohibited in rooms occupied by children.~~

~~D. — Volatile substances such as gasoline, kerosene, fuel oil, oil based paints, firearms, explosives, and other hazardous items must not be stored in any area of the building used for childcare.~~

~~E. — Combustibles such as cleaning rags, mops, and cleaning compounds must be stored in well-ventilated areas, separated from flammable materials, and stored in areas inaccessible to children.~~

F. — All heating units, gas or electric, must be installed and maintained per the manufacturer's specifications with safety devices to prevent fire, explosions, and other hazards. No open-flame gas or oil stoves, unscreened fireplaces, hot plates, or unvented heaters can be used for heating purposes. All heating elements, including hot water pipes, must be insulated or installed in such a way that children cannot come in contact with them.

G. — Combustible materials must not be stored in hallways, stairways, boiler rooms, mechanical rooms, or electrical equipment rooms.

H. — In rooms used by children, all electrical outlets that are accessible to children must have protective covers, or safety outlets must be installed.

I. — Permanently located battery-powered lights must be provided in locations readily accessible to staff in the event of electric power failure. Batteries must be checked regularly.

J. — Closets, attics, basements, cellars, and furnace rooms must be kept free from accumulation of extraneous materials such as furnishings, newspapers, and magazines.

K. — Kitchens, including all hazardous items, must be inaccessible to children at all times.

7.702.92 — Fire Safety

Centers must comply with the locally adopted fire code, including but not limited to the following:

A. — Every building and structure must have the minimum required number of exits to permit the prompt escape of occupants in case of fire or other emergency. Additional safeguards must be provided for life safety in case any single safeguard is ineffective due to some human or mechanical failure.

B. — Every building or structure must be constructed, arranged, equipped, maintained, and operated as to avoid undue danger to the lives and safety of its occupants from fire, smoke, fumes, or resulting panic during the period of time reasonably necessary for escape from the building or structure in case of fire or other emergency.

C. — In every building or structure, exits must be arranged and maintained so as to provide free and unobstructed egress from all parts of the building or structure at all times when it is occupied. No lock or fastening to prevent free escape from the inside of any building can be installed. Only panic hardware or single-action hardware is permitted on a door or on a pair of doors. All door hardware must be within the reach of children.

D. — No children younger than school age can be cared for in areas above or below the main floor of exit unless in compliance with all Codes and Standards as adopted by the local jurisdiction and approved by the local fire department, or except as provided in the location exception in Section 7.702.81, A, 4.

E. — One (1) exit from each room must be directly to the exterior of the building or to a common hallway leading to the exterior. The exit path must not go through an intervening room such as a bathroom, another classroom, storage room, or kitchen.

F. — All stairways, interior and exterior, that are used by children must be provided with handrails within reach of the children.

G. — Regardless of the number of staff and children, exit doors shall be openable from the inside without the use of a key or any special knowledge or effort. Dead bolts may be installed on the main exit door, but the lock cannot be used during business hours, and there must a sign indicating that "this door must remain unlocked during business hours."

H. — Every exit must be clearly visible, or the route to reach it must be conspicuously indicated. Each path of escape must be clearly marked.

I. — Fire alarm and fire sprinklers must be provided in accordance with the locally adopted fire code. If a fire alarm system is installed, it must be used to warn occupants of the existence of fire or to facilitate the orderly conduct of fire exit drills.

7.702.100 — DROP-IN, PART DAY, MOBILE PART-DAY PRESCHOOL, TEEN PARENT PROGRAMS, AND OTHER PROGRAMS OPERATED BY PUBLIC SCHOOL DISTRICTS

7.702.101 — Drop-In Programs

A. — Director Requirements

1. — The Director or Assistant Director of an extended hour drop-in childcare center operating at least six (6) calendar days per week must be present at the center or involved in director activities at least fifty percent (50%) of the hours of operation of any day the center is in operation.

a. — If the Director is not on-site at the center for a portion of any day that center is in operation, the Director must be available by phone.

b. — The Director must be present in the center at least thirty (30) hours each week.

2. — Whenever the Director of a drop-in childcare center cannot be present fifty percent (50%) of any day the center is in operation, an Assistant Director that meets one (1) of the following qualifications must be present:

a. — At least one (1) year of experience as a qualified Early Childhood Teacher at the drop-in child-care center;

b. — Eighteen (18) months of experience as a qualified Early Childhood Teacher with children less than twelve (12) years of age and at least six (6) months experience at the drop-in child-care center;

c. — A Bachelor's, Master's, or Doctorate degree from an accredited college or university in one (1) of the human services field below:

(1) — Child Development;

(2) — Child Psychology;

(3) — Early Childhood Education;

(4) — Early Childhood Special Education;

(5) — Educational Leadership and Administration;

(6) — Elementary Education;

(7) — Family and Human Development;

(8) — Family Studies;

(9) — Special Education; or,

d. — Qualification as an Early Childhood Teacher and completion of at least half of the required coursework for Director qualifications, including one (1) of the following administration classes:

(1) — Administration Of Early Childhood Care and Education Programs; or,

(2) — Administration Human Relations for Early Childhood Professions or Introduction to Business.

~~B. — Staff to Child Ratios~~

- ~~1. — Drop-in child care centers may follow a ratio of one (1) adult for every eight (8) children for children in a mixed age group of two (2) years of age to twelve (12) years.~~
- ~~2. — One (1) to two (2) children, one (1) year of age to two (2) years of age, may join the preschool age group of children for short periods of time for structured activities.~~

~~C. — Health Care~~

- ~~1. — For children attending a drop-in center, the parent(s)/guardian(s) of each child must submit a statement of the child's current health status or written verification of a scheduled appointment with a health care provider within thirty (30) calendar days or by the second visit, whichever is longer. The statement of the child's current health status must be signed and dated by a health care provider who has seen the child within the last twelve (12) months, or within the last six (6) months for children less than two and one-half (2½) years of age. Subsequent statements are not required if there have been no health changes in the child and the parent(s)/guardian(s) attest in writing to the health status of the child on an annual basis. Children attending drop-in childcare with special medical needs must have the statement from a health care provider as indicated in Section 7.702.51, A, 2, b-e.~~

~~D. — Rest Time Equipment~~

- ~~1. — Drop-in child care centers must provide mats or cots for at least fifty percent (50%) of the licensed capacity of the center.~~

~~E. — Play Equipment and Materials~~

- ~~1. — Drop-in child care centers must provide indoor gross motor equipment, including, but not limited to, an indoor climbing structure, an open area for indoor, and must provide gross activities at least two (2) times during each six (6) hour period of time.~~

~~F. — Building Site-Toddler Program~~

- ~~1. — A toddler program located in a drop-in child care center licensed for five (5) or fewer toddlers may be separated from the rest of the center by a five (5) foot wall.~~
- ~~2. — Drop-in child care centers must provide a minimum of one (1) sink and one (1) toilet for each twenty (20) or fewer children.~~
- ~~3. — Toilet facilities are not required to be located in the toddler classroom for drop-in child care centers licensed for ten (10) or fewer toddlers.~~

7.702.102 — PART-DAY PROGRAMS

~~A. — Safe Sleep Environment~~

- ~~1. — Supervised tummy time must be offered to infants one (1) month of age or older at least two (2) times per day for part day programs for short periods (3-5 minutes) and increase the amount of time as the infant shows they enjoy the activity. If the infant falls asleep during tummy time, immediately place him/her on their back in approved sleeping equipment.~~

~~B. — Gross Motor Activities~~

- ~~1. — Daily gross motor activities, with or without equipment or materials, must be provided outdoors, or indoors during inclement weather. Activities do not have to occur all at once.~~

a. — Programs who qualify for an outdoor space hardship per Section 7.702.74, B, 1 must provide daily physical gross motor activities indoors or outdoors.

2. — Daily physical gross motor activities must be provided for children toddler age and older based on the program's hours of operation:

a. — For programs operating up to three (3) hours per day, fifteen (15) minutes of gross motor activities is required.

b. — For programs operating between three (3) and five (5) hours per day, thirty (30) minutes of gross motor activities is required.

7.702.103 — Mobile Part-Day Preschool Programs

“Varying” means to be at different times or different days; to give variety to activities; to bear no resemblance to a prior activity.

“Verbal abuse” means abusive behavior involving the use of language that is demeaning and is intended to insult, manipulate, ridicule, or offend. Harmful acts and the use of harsh or coarse language often characterize it.

“Volunteer” means a person who performs a service willingly and without pay.

“Written medication order” means a document for a specific medication for a specific child signed by the child’s health care provider. This must be a person with prescriptive authority. The order shall include the child’s name, medication, dose, time, route, and for how long the medicine is to be given. Orders for children over two years of age can only be valid for a period of up to one year, but may only be for a very brief duration of time as well. Children over two may need written medication orders more frequently since the dosage of the medication will change with the child’s weight. Written orders may also include information on the reason the medication is being given, potential side effects and any special instructions for administration.

7.707.22 — Types of Family Child Care Homes

All Family Child Care Home licenses, except infant/toddler, are issued with an age range for children from birth to eighteen (18) years of age. This allows for the care of older children with special needs. Each individual provider will determine the age range of children that he/she will enroll in the provider’s child care home. The providers own birth, adopted, step or foster children twelve (12) years of age and older do not count in the provider’s license capacity.

The capacity for a Family Child Care Home (generally referred to within these rules as “the home”) is determined by the amount of indoor and outdoor space designated for child care, as well as the following factors:

A. — A “Family Child Care Home” (FCCH) is a type of family care home that provides less than twenty-four (24) hour care at any time for two (2) or more children that are unrelated to each other or the provider, and are cared for in the provider’s place of residence.

1. — Licensed family child care homes enrolling children five (5) years of age or younger are required to participate in Colorado Shines, the state quality rating and improvement system.

B. — In a regular (FCCH) home, care may be provided for six (6) children from birth to eighteen (18) years of age with no more than two (2) children under two (2) years of age.

1. — Care also may be provided for no more than two (2) additional children of school age attending full-day school. School age children include children six (6) years of age and older who are enrolled in the first grade or above. A child enrolled in a kindergarten program is not considered a school-age child until the child begins attending kindergarten a year before they enter first grade.

2. — Residents of the home under twelve (12) years of age who are on the premises and all children on the premises for supervision are counted against the approved capacity, except where specifically indicated otherwise. Residents of the home include, but are not limited to, birth, adopted, step or foster children of the provider.

C. — A three (3) under two (2) license is a type of license that allows a provider to care for six (6) children from birth to eighteen (18) years of age with no more than three (3) children under two (2) years of age, with no more than two (2) of the three (3) children under twelve (12) months; the capacity includes

the provider's own children under twelve (12) years of age. This license type may be approved with the following conditions:

1. — The licensee has held a permanent license to operate a family child care home for at least two (2) years in Colorado immediately prior to the issuance of the license that would authorize the care of three (3) children under two (2) years of age;
2. — The licensee has completed the State Department approved Expanding Quality Infant/Toddler course of training;
3. — In the past two years, the licensee has had no substantiated complaints with a severity level of one (1) to three (3), consistent or willful substantiated rule violations of ratio, supervision, safety, or injury to a child observed during any licensing visit, or adverse licensing action;
4. — Care of additional children of school age is not authorized;
5. — Licensees issued a three (3) children under two (2) years of age license are approved for both the three (3) under two (2) and the regular license capacities and may switch between the two (2) capacities without notifying the State Department as long as they are in compliance with all licensing rules.

D. — An infant/toddler license is a type of family care home that provides less than twenty four (24) hour care only for children who are between birth and three (3) years old. This license type may be approved with the following conditions:

1. — If there is one (1) provider, there may be a maximum of four (4) children, with no more than two (2) of the four (4) children under twelve (12) months of age, including the provider's own children. The provider's own children, under the age of twelve (12), count in the capacity of four (4).
2. — If there are two (2) equally qualified providers, as specified in Section 7.707.31, B, 3, caring for children at all times when children are present, there may be a maximum of eight (8) children between birth and three (3) years old, and no more than four (4) of those children can be between birth and one (1) year old, including both providers' own children.
3. — The provider has completed the State Department approved Expanding Quality Infant/Toddler (EQ I/T) course of training; and
4. — A provider that has also been licensed as a regular and three (3) under two (2) provider in the past, and is approved for an infant/toddler license, has the flexibility to provide care on any given day for the ages and capacities of a regular or three under two license without written approval of the State Department, as long as the provider is in compliance with all applicable rules at all times.

E. — A large child care home is a family child care home that provides care for seven (7) to twelve (12) children.

1. — Child care may be provided to children from birth to eighteen (18) years of age. The provider needs an assistant when the ninth child arrives at the facility.
2. — Care may be provided to no more than two (2) children under two (2) years of age.

F. — The Experienced Child Care Provider

1. — An Experienced Child Care Provider (ECCP) home is a licensed child care home where care is approved for no more than nine (9) children of different age combinations depending upon which option the home is operating.
2. — The requirements for an Experienced Child Care Provider are:

- a. — Have been a licensed family child care home provider in Colorado for at least the last six (6) consecutive years; equal experience operating as a licensed military family child care home is acceptable;
- b. — Have completed ninety (90) clock hours of training within the preceding six (6) years, including the State Department approved infant/toddler course. The ninety (90) hours of training does not include licensing training universal precautions, First Aid and CPR, and medication administration training;
- c. — Have had no adverse licensing action;
- d. — Have had no adverse action taken against the provider's license in the preceding two (2) years; and,
- e. — Comply with local zoning restrictions.

3. — Applying for the Experienced Provider License

At least sixty (60) calendar days prior to the proposed date of operation as an experienced provider, the applicant must submit to the State Department a completed and signed experienced provider application form, which:

- a. — Affirms compliance with all the rules for family child care home providers and experienced providers;
- b. — Affirms that the 90 clock hours of training have been completed;
- c. — Includes an agreement to waive the right to appeal rules related to capacity and space requirements; and,
- d. — Affirms the provider understands that the experienced provider's license will immediately revert to a regular license if capacities are exceeded at any time.

4. — ECCP Options Table

The following chart describes the various options available to the experienced family child care home. Providers may change options without notifying the State Department, as long as the home is in compliance with one option at any one time and all licensing rules.

Experienced Child Care Provider License

All options include provider's own children under twelve (12) years of age.

Number of Children	Total Children in Care at a Given Time	Birth Up to School-Age	Additional School-Age	Number of Children Under 2 Allowed	(Of Those Under 2) Number Under 12 Months Allowed
Option 1	9	7	2	2	2
Option 2	9	8	1	2	2
Option 3	9	5	4	2	2
Option 4	9	6	3	3	2
Option 5	4	4	0	4	2

7.707.3 PERSONNEL

All infant/toddler family child care homes and large family child care homes must meet all of the personnel requirements in Section 7.707.31, except where rules specific to infant/toddler homes and large family homes replace other rules.

7.707.31 Requirements for Personnel

A. General Requirements

1. Primary providers must physically reside at the family child care home and must provide the child care.
2. Primary providers and/or substitutes must be at least eighteen (18) years of age. Aides must be at least sixteen (16) years of age. Aides and volunteers shall work under the direct supervision of a primary provider at all times.
3. Providers, employees, substitutes, and volunteers must demonstrate an interest in and knowledge of children and a concern for their proper care and well-being.
4. Children for whom the provider has custody and responsibility must not have been placed in foster care or residential care because the provider or other resident of the home was abusive, neglectful, or a danger to the health, safety, or well-being of those children.
5. Providers must not be under the influence of any substance that impairs their ability to care for children.
6. The primary provider is responsible for ensuring that all employees, substitutes and volunteers are familiar with the children in care, the Rules Regulating Family Child Care Homes rules, the home's policies, and the location of children's files and emergency numbers.
7. The primary provider must plan for the selection, orientation, training and/or staff development of any employee, volunteer, or substitute.
8. The primary provider must plan for and supervise the care and activities of children.
9. All providers and all persons residing in the home must submit to the State Department at time of original application on the form required by the State Department, a health evaluation signed and dated by a licensed physician or other health professional.
10. Subsequent health evaluations for the provider and children residing in the home who are less than twelve (12) years of age must be submitted every two (2) years or as required in a written plan signed by a physician or other health professional. A new family member and/or a new resident of the home must submit to the State Department, within thirty (30) days from the date the individual began living in the home, a State Department approved health evaluation form signed and dated by a licensed physician or other health professional.
11. If, in the opinion of a physician or mental health practitioner, a physical, medical (including side effects of medication), emotional, or psychological condition exists at any time that may jeopardize the health of children or adversely affect the ability of a provider to care for children, an equally qualified substitute provider must be employed, or child care services must cease until the physician or mental health practitioner states in writing that the health risk has been eliminated.

B. Infant/Toddler Home Provider Requirements

1. For an infant/toddler home with one (1) provider, that provider must be at least twenty-one (21) years of age.
2. For an infant/toddler home with two (2) providers, one (1) provider must be at least twenty-one (21) years of age and the second equally qualified provider must be at least eighteen (18) years of age.
3. Each provider must have completed one (1) year of supervised experience caring for children who are younger than three (3) years old. The provider must be able to submit to the State Department official written verification of the required experience. The experience may have been obtained as:

- a. ~~_____ A Colorado licensed family child care home;~~

7.707.32 Training

A. Prior to issuance of the license, the licensee and primary provider must complete:

1. A State Department approved fifteen (15) clock-hour pre-licensing course of training that includes nine (9) core knowledge standards. The content of one of the standards must specifically address appropriate guidance with children and that corporal discipline is never allowed. The clock hours of pre-licensing training do not include certification in First Aid, CPR, and medication administration training;
2. A monitored written test or approved alternate method to verify knowledge and comprehension of the content of the training materials must be administered by the trainer to the trainee at the end of the pre-licensing training course. The trainee must have a passing score of no less than 80%. Part of approval of pre-licensing is that the provider must be able to access and understand the Rules Regulating Family Child Care Homes. The provider must take pre-licensing training for any original application except for change of address; or,
3. Individuals who are currently director qualified or have a two (2) or four (4) year degree in early childhood education from a regionally accredited college or university are exempt from pre-licensing training, except for the one and one-half (1½) hours of universal precautions training, and the section of the pre-licensing training that covers the business requirements for operation of a home; and,
4. A state department approved training in standard precautions that meets current occupational safety and health administration (OSHA) requirements prior to working with children. This training must be renewed annually and may be counted towards ongoing training requirements. This standard precautions training can be included as part of the pre-licensing training, in which case the total number of hours for pre-licensing training required in 7.707.a1 is increased to sixteen (16) clock hours, and standard precautions training may count as no more than one (1) hour of the sixteen (16) clock hours; and,
5. Documentation of this training must include the number of hours of training, completion date, and expiration date. Renewal of standard precautions training can be taken as a part of the first aid training, but must be in addition to the renewal First Aid training;
6. First Aid and CPR training, for all ages of children from infant to twenty-one (21) years of age; and,
7. The State Department approved course of training for medication administration.
8. Effective December 31, 2016 all providers and staff must complete a building and physical premises training prior to working with children. The training must include:
 - a. Identification of and protection from hazards that can cause bodily injury such as electrical hazards, bodies of water, and vehicular traffic; and
 - b. Handling and storage of hazardous materials and the appropriate disposal of bio-contaminants.
9. Effective December 31, 2016 each provider or staff member responsible for the collection, review, and maintenance of the child immunization records must complete the Colorado department of public health and environment (CDPHE) immunization course within thirty (30) calendar days of employment. This training must be renewed annually and may count towards ongoing training requirements.
10. Effective December 31, 2016 each provider, staff member or regular volunteer working with children less than three (3) years of age must complete a department approved prevention of shaken baby/abusive head trauma training prior to working with children less than three (3) years of age. This training must be renewed annually and may count towards ongoing training requirements.

~~11. — Effective 12/31/2016 each provider, staff member or regular volunteer must complete a department approved training about child abuse prevention, including common symptoms and signs of child abuse within thirty (30) calendar days of employment. This training must be renewed annually and may count towards ongoing training requirements.~~

~~B. — Licensees requesting continuation of a permanent license shall:~~

~~1. — Complete fifteen (15) clock hours of training each year. At least three (3) of the fifteen (15) clock hours must be in social-emotional development; and,~~

~~2. — Ongoing training and courses shall demonstrate a direct connection to one or more of the following competency areas:~~

~~a. — Child growth and development and learning courses that align with the competency domains of child growth and development;~~

~~b. — Child observation and assessment;~~

~~c. — Family and community partnership;~~

~~d. — Guidance;~~

~~e. — Health, safety, and nutrition;~~

~~f. — Professional development and leadership;~~

~~g. — Program planning and development; and~~

~~h. — Teaching practices:~~

~~1) — Each one (1) semester hour course with a direct connection to the competency area listed in section 7.707.33, b, 2, a-g, taken at a regionally accredited college or university shall count as fifteen (15) clock hours of ongoing training.~~

~~2) — Training hours completed can only be counted during the year taken and cannot be carried over.~~

~~3) — The fifteen (15) clock hours of training do not include recertification in First Aid and CPR.~~

~~4) — To be counted for ongoing training, a provider must receive for each training, a training certificate that includes:~~

~~a) — The title of the training; and,~~

~~b) — The competency area; and,~~

~~c) — The clock hours of the training; and,~~

~~d) — The name and signature of the trainer or another approved method of verifying the name and qualifications of the trainer.~~

~~e) — The trainer must have documentation of the qualifications for each topic of training conducted, which must be available for review by representatives of the State Department.~~

c. — Documentation of immunization status or exemption, including month and year each immunization was administered. Immunizations must be updated and recorded as specified on the certificate of immunization or alternate certificate of immunization as supplied and approved by the Colorado Department of Public Health and Environment. Colorado law requires that proof of immunization be provided prior to the first day of admission.

2. — Within thirty (30) days after admission, and within thirty (30) days following the expiration date, the parent or guardian of each child must submit a statement of the child's current health status or written verification of a scheduled appointment with a health care practitioner. The statement of the child's current health status must be signed and dated by a health care provider who has seen the child within the last twelve (12) months, or within the last six (6) months for children under two and one-half (2-1/2) years of age. The statement must include when the next visit is required by the health care provider. All health statements must be kept at the licensed child care home.

3. — If the parent or legal guardian of a child wishes an exemption from the requirement for immunizations due to religious or personal beliefs, the child's parent or legal guardian, must complete and sign the current Colorado Department of Public Health and Environment immunization card which states the reason for such an exemption. The home has the right to refuse to admit any child if a completed current immunization card is not submitted.

4. — Parent(s) or guardian(s) must be notified in the written policies if the provider's children are non-immunized, if children attending facility are non-immunized, and if children with personal and religious exemptions to immunization are accepted in care.

5. — Statements of health status of children under two (2) years of age must be updated in accordance with the national pediatric recommended schedule for routine health supervision or as required in writing by health care provider.

6. Health statements for children over two (2) years to seven (7) years of age must be updated annually.

7. For children seven (7) years of age and older, health statements must be updated every three (3) years as long as the children are in care.

B. Emergency Medical Care

1. The provider must obtain written authority to arrange for emergency medical care for each child. Written authorization to obtain emergency medical care must be on file prior to or on the first day of admission and must be re-authorized annually.

2. In the event of injury or illness, the affected child must be separated from the other children in the room or area where child care is being provided and made as comfortable as possible. First Aid care must be provided as required. If additional care, medical attention, or removal from the home is indicated, the child's parent or guardian must be contacted by telephone, if possible, and medical assistance obtained without undue delay.

C. Medication

1. Any routine medication, prescription or non-prescription (over the counter), homeopathic or vitamin, may be administered by the provider only with a current written order of a health care provider with prescriptive authority and with written parental consent. Home remedies may never be given to a child.

a. If the routine medication involves; the administration of unit dose epinephrine, the administration must be accompanied by a written individual health care plan by the prescribing health care provider that identifies the factors for determining the need for the administration of the medication, and is limited to emergency situations.

b. If the routine medication involves the administration of a nebulized inhaled medication, the administration must be accompanied by a written health care plan by the prescribing health care provider that identifies the factors for determining the need for the administration of the medication.

c. Topical preparations used for prevention on unbroken skin including, but not limited to, petroleum jelly, diaper rash ointments, sunscreen, and insect repellent can be administered solely with written parent authorization. Topical preparations used as treatment on open wounds or broken skin must have a written order from a prescribing health care provider in addition to parent authorization.

2. The provider can accept such medicines only in the original container. Prescription medicine containers must bear the original pharmacy label that shows the prescription number, name of medication, date filled, physician's name, child's name, and directions for dosage. When no longer needed, medications must be returned to the parent or guardian or destroyed.

3. Over the counter and homeopathic medication must be labeled with the child's first and last name. The provider can administer medication only to the child whose name appears on the written order from the prescribing health care provider.

4. All providers who administer medication must have daily face to face verbal contact with parents of children needing medication and must be currently trained through the State Department approved medication administration course and must administer medication in compliance with the concepts taught in the course.

5. Medication must be stored in a locked cabinet, cupboard, or locked box so that it is inaccessible to children. If refrigeration is required, it must be stored in a leak proof container in a designated area of the refrigerator separated from food.

6. ——— Medication must be administered, documented and disposed of in accordance with the State Department approved training in medication administration.

7. ——— A written medication log must be kept for each child. This log is a part of the child's record. The log must contain the child's name, time medication was given, name of the medication, dosage and route, special instructions, name or initials of the individual giving the medication, notation if the medication was not given, and the reason.

D. ——— Control of Communicable Illness

1. ——— When a child in care, resident of the home or provider has been diagnosed with a reportable communicable illness, including, but not limited to, chicken pox, hepatitis, measles, mumps, meningitis, diphtheria, rubella, salmonella, giardia, tuberculosis, and shigella, the provider must immediately notify the parents or guardians of all children in care and report to the local county department of health or the Colorado Department of Public Health and Environment.

2. ——— Any individual diagnosed with a reportable communicable illness must be excluded from contact with children in care at the home for a period of time determined by the individual's health care provider or by the local health department.

E. ——— Sun Protection

1. ——— The provider must inform the parent or guardian, through the policies and procedures statement or an authorization form, that sunscreen will be applied to the children's exposed skin prior to outside play. A doctor's permission is not needed to use sunscreen at the home. When a parent or guardian supplies sunscreen for an individual child, the container must be labeled with the child's first and last name. If sunscreen is provided by the provider, parents must be notified in advance, in writing, of the type of sunscreen the provider will use. Parent(s) or guardian(s) must notify the provider if sunscreen has been applied to the child's skin prior to arriving at the home. Sunscreen must never be applied to an infant's skin.

2. ——— Children over four years of age may apply sunscreen to themselves under the direct supervision of the provider.

3. ——— Sunscreen used must be full spectrum UVA/UVB with an SPF of thirty or greater and applied according to manufacturer's instructions.

F. ——— First Aid Supplies

Supplies must be maintained and stored in an area inaccessible to children. Supplies shall include band-aids, tape, gauze, disposable gloves and compression bandages.

7.707.72 ——— Personal Hygiene, Hand Washing and Bathing, Diapering and Toileting, and Cleaning Toys

A. ——— Hand Washing and Bathing

1. ——— All providers must wash their hands thoroughly with soap under warm running water, when available, and dry with an individual use and/or single use disposable towel before preparing, serving, and eating food; before administering medication; after helping a child with toileting or diapering; after provider's own toileting; after wiping a child's nose; whenever possible on field trips, at a park, or at another location away from the home; after handling animals, their toys, or food and water bowls; after contact with bodily fluids or secretions; and, any other time the hands become soiled or contaminated.

2. ——— All children must wash their hands thoroughly with soap under warm running water, when available, and dry with an individual use and/or single use disposable towel; before preparing and eating food; after toileting or diapering; after wiping his/her nose; whenever possible on field trips, at a park, or at

3. — The hand washing area should promote self-help skills to include, but not be limited to, step-stools, soap, and towels accessible to children.

4. — If paper towels are not used, each child shall have an assigned towel that is used consistently, doesn't touch other towels, and is laundered weekly or more often if needed.

5. — Children's towels and drinking cups must not be shared.

6. — Hand washing areas shall be routinely disinfected when visibly dirty or prior to use different from hand washing.

7. — Hand sanitizers and wipes are not acceptable alternatives to hand washing, except on outings where running water may be unavailable. Alcohol based hand sanitizers shall not be used for children under three (3) years of age.

8. — When a child is bathing, the bath water must be between ninety (90) and one hundred (100) degrees. Children under five (5) years of age must not be left unattended while being bathed.

B. — Diapering and Toileting

1. — The home must have a designated diaper change area for all children in need of diaper changing. The diaper change area must:

a. — Have a smooth, durable, nonabsorbent, and easily cleanable surface; and

b. — Be large enough to accommodate the size of the child being changed.

2. — The following procedure must be followed each time a diaper is changed:

a. — Soiled or wet diapers and clothing must be changed promptly and be replaced with clean diapers and clothing whenever necessary;

b. — The child must be placed on a clean, sanitized, dry changing table or mat;

c. — Providers must use single use disposable gloves;

d. — Use closest hand washing sink to the diaper changing area that is not used for food preparation;

e. — Children's hands must be washed with soap and water after diapering;

f. — Providers must clean and disinfect the diaper changing area after each diaper change;

g. — Providers must vigorously clean all parts of their hands with soap and warm running water and dry their hands with individual paper or cloth towels after diapering each child;

h. — During child care hours, clothing soiled by bodily fluids must be placed in a leak proof container. The container must be stored inaccessible to children and sent home on a daily basis;

i. — Parent(s) or provider(s) must provide extra clothing;

j. — For each child who is learning to use a toilet, the provider must accommodate the child's individual developmental abilities and needs, in accordance with nationally recommended procedures, and as contained in the provider's written policies and procedures;

k. — Toilets must be flushed between uses; and

l. — If potty chairs are used, all parts of the potty chair must be disinfected immediately after each use.

C. — Cleaning Toys

1. — Toys that are not mouthed or otherwise contaminated by body fluids shall be cleaned and sanitized at least once a week and whenever visibly soiled.

2. — Toys that are placed in children's mouths or are otherwise contaminated by body fluids shall be cleaned and sanitized prior to use by another child.

7.707.73 — Food and Nutrition

A. — A nutritious snack or meal must be offered during the midmorning and mid-afternoon hours. A mid-day meal must also be provided and must meet at least one-third (1/3) of the child's daily nutritional needs as required by the USDA child and adult care food program meal pattern requirements. Arrangements must be made for feeding children who are in care before 6 a.m. or after 6 p.m.

B. — Food must be offered to children when they are awake at intervals not more than three hours apart.

C. — Food must be wholesome and nutritious and stored in a safe and sanitary manner. A wide variety of foods, including fresh fruits and vegetables and whole grain products must be provided to children to ensure adequate intake of dietary fiber, vitamins, minerals, and other important nutrients.

D. — If the provider does not regularly provide meals, the provider must supplement children's meals that are inadequate with foods to meet the nationally recognized meal pattern requirements.

E. — Provider(s) and parent(s) must have ongoing communication regarding special diet and feeding needs of the child(ren).

F. — Foods offered shall be age appropriate and not pose a choking hazard.

G. — Children are encouraged, but not forced, to eat food or drink fluids.

H. — Children with special needs are included in regular meal areas and routines.

I. — All milk and juice offered to children must be pasteurized.

J. — Juice must be limited to one (1) serving a day. Sweet type foods must be limited to no more than two (2) servings per week.

K. — Water must be offered and available at all times and cannot be a substitute for milk during meals.

L. — Food must be offered to the child from the child's individual dish and utensil(s). If uneaten portion(s) from the child's plate are saved, they must be refrigerated and stored safely and must be served, eaten, or discarded within four hours of being prepared.

M. — Children must not be given foods that are contrary to the religious beliefs of their families or that are known to cause an allergic reaction or a health hazard.

N. — Dishes, cookware, high chair trays and utensils must be washed, sanitized, and stored in a safe and sanitary manner. When used, disposable dishes and utensils must be disposed of after use. Food preparation and service areas including, but not limited to, sinks, faucets, counters, and tables must be sanitary.

~~O. Bottles and Formula~~

- ~~1. Bottles of milk, formula or breast milk must never be warmed or thawed in a microwave oven. Infant formula and breast milk cannot be reused. If a child does not finish the bottle of formula or breast milk within one (1) hour, the contents must be thrown out.~~
- ~~2. If the infant is breast fed, the provider must not offer formula, water, or other liquids without discussing substitutions or supplementation with the infant's parent.~~
- ~~3. The provider must make an area in the home available for a breast feeding mother to breast feed her infant while visiting the home during business hours.~~
- ~~4. All infants unable to hold their own bottles must be held by the provider during bottle feedings and should be held so they can see the face of the provider if it is appropriate for the child.~~
- ~~5. Infants and toddlers must not be allowed to hold their own bottles or sippie cups when lying flat to prevent choking, ear infections, bottle mouth or tooth decay.~~
- ~~6. There must be a sufficient supply of bottles provided for the entire day; or, if bottles are to be reused, they must be washed, rinsed, and sanitized after each use.~~
- ~~7. Commercially prepared formula must be mixed in accordance with the directions of the manufacturer or the child's health care provider.~~
- ~~8. Each bottle must be marked with the child's name when there is more than one (1) child in care that drinks from a bottle.~~

~~P. Solid Foods~~

- ~~1. At a minimum, meals and snacks provided for infants under the age of one (1) year must contain the foods listed in the USDA child and adult care food program meal pattern for infants.~~
- ~~2. Foods must be appropriate for infants' developmental stages as determined by instructions obtained from the infant's parent(s), guardian(s), or health care provider.~~
- ~~3. No new foods shall be introduced to children under twelve (12) months of age without parental permission.~~
- ~~4. Infants who are eating solid foods shall be provided with developmentally appropriate solid foods that encourage freedom in self-feeding.~~
- ~~5. Provider(s) must either feed infants and toddlers or directly supervise them while they are eating.~~
- ~~6. Honey and products containing honey must never be served to infants under twelve (12) months of age.~~

7.707.74 Direct Care of Children

7.707.741 Supervision

- ~~A. The primary provider must supervise and know the location and activity of all children at all times while they are in care.~~
- ~~B. The provider's own children who are age twelve (12) years of age and over may each have one (1) friend over during child care hours if the following conditions are met:~~
 - ~~1. The visiting children are not present for supervision; and,~~

2. — The visiting children can immediately be sent home if needed; and,
 3. — The visiting children must be age twelve (12) years or over; and,
 4. — Visiting children must not compromise or participate in the care and supervision of children.
- C. — The provider may have other children over on occasion if the following conditions have been met:
1. — The visiting children are under the active supervision of their parent or guardian or their own child care provider; and,
 2. — The square footage requirements for the home accommodates all children present.

7.707.742 — Physical Care

- A. — Children must be provided a developmentally appropriate environment.
- B. — Provider(s) must provide for children's appropriate care and well-being, taking into consideration the individual needs of each child.
- C. — Throughout the day, each child must have frequent, individual personal contact and attention from an adult, such as being held, rocked taken on walks inside and outside the home, talked to, and sung to.
- D. — Infants in care who are unable to hold a bottle must be held during bottle feedings.
- E. — Infants must be held frequently while in care.
- F. — Provider(s) must pick up children appropriately around their upper chest and under their arms, and based on the developmental needs of the child.
- G. — Children leaving the family child care home for school or other activities must be dressed appropriately to protect the health and safety of children for the weather.
- H. — Provider(s) must respond to the needs of a child, including, but not limited to: crying, toileting, hunger, and thirst. The timing of the response must not result in physical harm to the child.
- I. — Providers must investigate whenever children cry.
- J. — Providers must develop/provide an environment that minimizes the risk to children from hurting themselves or each other.
- K. — Greetings/Departures
1. — Children should be greeted individually and pleasantly upon arrival and departure.
 2. — Parent(s) or guardian(s) shall be allowed access to their children and all approved and licensed areas at all times.
 3. — When necessary, upon arrival and departure, the parent or guardian and provider shall share information related to the child's health and safety including, but not limited to, special diets, accident reports, specific fears, and family traumas.
- L. — Providers must not use any controlled substance or consume any alcoholic beverage during the operating hours of the facility or be under the influence of a controlled substance or alcoholic beverage during the operating hours of the facility, or use any substance that impairs their ability to care for children.

M. — Providers, substitutes, visitors, volunteers, and residents of the provider's home who consume or are under the influence of alcohol are not permitted to work with children or be in the area used for child care during business hours.

N. — Illegal drugs or paraphernalia must never be present on the premises of the child care home.

7.707.75 — Sleep and Waking Time

A. — Children must be allowed to form and observe their own pattern of sleep and waking periods. Provision must be made so that children requiring a nap time have a separate area for their nap away from other children currently playing.

B. — Children who are awake must not be confined for more than thirty (30) minutes at a time to cribs, high chairs, swings, playpens or other equipment that inhibit freedom of movement, unless they are eating. Confinement must never be used as a form of discipline. They must have an opportunity each day for freedom of movement, such as creeping, crawling, or walking in a safe, clean open, uncluttered area.

C. — The provider must provide a rest period for all preschool-age children remaining in the home for longer than four (4) hours. A rest period and rest equipment must also be provided for older children who require a rest time.

D. — Rest or sleep periods must be scheduled appropriately for the age and development of the child(ren) and not forced. Children who do not sleep after thirty (30) minutes must be provided with developmentally appropriate alternative activities. Infants and toddlers must be placed in their approved sleeping equipment within ten (10) minutes of falling asleep, unless being held by the provider, while being transported on a field trip, or if children are not at the provider's home.

E. — Toddlers, preschoolers, and older children, as necessary, must have a suitable mat not less than two inches thick, cot, bed, or sofa, with a clean washable sheet that has been sanitized between uses by different children. Children must be provided with a clean blanket.

F. — During rest/nap time the provider must remain alert and supervise all children by sight or sound. The atmosphere should be calm and conducive to rest or sleep.

G. — Safe Sleep Training for Family Child Care Staff

All staff who work with infants must complete Department approved safe sleep training prior to working with infants and on an annual basis

H. — Safe Sleep Environments for Infants

1. — Each infant up to twelve (12) months of age must be provided with an individual crib or futon approved for infants or other approved sleep/rest equipment meeting Consumer Product Safety Commission (CPSC) standards.

2. — In the infant room, soft bedding or materials that could pose a suffocation hazard are not permitted in cribs, futons approved for infants or other approved sleep/rest equipment.

Soft bedding means, but is not limited to; any soft sleep surface like bumper pads, pillows, blankets, quilts, comforters, sleep positioning devices, sheepskins, blankets, flat sheets, cloth diapers, bibs, plush toys, and stuffed animals.

3. — Infants must be placed on their back for sleeping.

4. — Alternative sleep positions for infants must only be allowed with a health care plan completed and signed by the child's physician.

5. — Swaddling of infants must only be allowed with a health care plan completed and signed by the child's physician.
6. — Each infant up to twelve (12) months of age who uses a pacifier must have the pacifier offered when being put down to sleep, unless the parent directs otherwise.
7. — All sleep/rest equipment must be safe, sturdy, and free from hazards including, but not limited to: broken or loose slats, torn mattress, chipping paint or loose screws.
8. — Approved sleeping equipment mattresses must be firm and must fit snugly ensuring no more than two adult fingers are able to be inserted between the mattress and the side of the approved sleeping equipment.
9. — Toys, including mobiles and other types of play equipment that are designed to be attached to any part of sleeping equipment must be kept away from sleeping infants and out of sleep environments, including hanging toys. Blankets and other items must not be hung from or draped over the sides or any part of sleeping equipment.
10. — Drop side and stacking cribs are prohibited.
11. — Infant monitors must be used when infants are sleeping in a separate room out of the direct supervision of the primary caregiver. When in use infant monitors must meet the following conditions:
 - a. — The sound monitoring equipment must be able to pick up the sounds of all sleeping infants;
 - b. — The receiver of the sound monitoring equipment must be actively monitored by the primary provider or staff member at all times;
 - c. — All sleeping infants must be physically observed at least every ten (10) minutes by the primary provider or a staff member; and
 - d. — Sound monitoring equipment must be regularly checked to ensure it is working correctly.
12. — Infants who fall asleep in a car safety seat, bean bag chair, bouncy seat, infant seat, swing, jumping chair, play pen or play yard, highchair, chair, sofa, adult futon, adult bed or ANY other piece of equipment not approved for sleep must immediately be moved to their approved sleep area and placed on their back to sleep.
13. — Cribs must be used for sleeping, not extended play or confinement.
14. — Children who are awake must not be confined for more than fifteen (15) minutes at a time to cribs, playpens, swings, high chairs, infant seats, or other equipment that inhibits freedom of movement. Children who are actively eating may be in a high chair or other approved feeding equipment for longer than fifteen (15) minutes. Children must be moved once feeding is complete.
15. — If music is played in the infant sleep area, the music must not be played at a loud volume that would prevent infants from being heard by the caregiver(s). Music equipment must not be placed under a crib or within three (3) feet of the sleeping infant.
16. — Supervised tummy time be offered to infants one month of age or older up to twenty to thirty (20-30) minutes per day. If the infant falls asleep during tummy time, immediately place him/her on their back in approved sleeping equipment.
17. — When the caregiver places infants in approved sleeping equipment for sleep, they must check to ensure that the temperature in the room is comfortable for a lightly clothed adult, check the infants to ensure that they are comfortably clothed (not overheated or sweaty), and that bibs, necklaces, and garments with ties or hoods are removed. Clothing sacks or other clothing designed for sleep must be used in lieu of blankets if needed for additional warmth.

18. — Infants must not be placed to sleep in the same crib or futon as another infant or child, and must never sleep with an adult in a bed, on a couch, or in any other setting or manner.

I. — The facility must have policies, and ensure they are followed for safe sleep environments for infants.

J. — The facility must have a policy, and ensure it is followed on the protection of infants from second-hand smoke.

7.707.76 — Overnight Care

A. — Regular overnight care (care that past midnight) of children is permitted only when licensed to do so.

B. — All children in care must be provided with a comfortable cot, crib, bed, or couch suitable for the child's age, two (2) sheets, and a suitable warm covering. At least forty (40) square feet of floor space must be available for each bed. Beds arranged in parallel must be at least two (2) feet apart.

C. — Sheets must be changed weekly, between use by different persons, and more frequently if needed. No provider shall knowingly allow a child to sleep in a wet bed.

D. — Children's faces and hands must be washed, teeth brushed, and children must change into comfortable clothing for sleeping. Extra sleepwear must be available in the event that a change is necessary.

E. — When the provider goes to sleep, the provider must sleep on the same level of the home where children under eight (8) years of age are sleeping.

F. — Written permission must be obtained from parent(s) or guardian(s) on where the child sleeps, whether the child shares a room with another individual, and the equipment that the child is sleeping on.

7.707.8 GUIDANCE, LEARNING ACTIVITIES, MATERIALS AND MEDIA USE

7.707.81 — Guidance

A. — At the time of admission, the provider shall discuss with the parent or guardian the home's guidance expectations and consequences of a child's behavior.

B. — Guidance must be appropriate to the developmental age of child, constructive or educational in nature, and may include such measures as diversion, separation, talking with the child about the situation, praise for appropriate behavior, and gentle holding.

C. — Children must not be subjected to physical or emotional harm or humiliation. The provider must not use, or permit anyone else to use, corporal or other harsh punishment, including, but not limited to pinching, shaking, spanking, punching, biting, kicking, rough handling, hair pulling, or any humiliating or frightening method of discipline.

D. — Physical, mechanical, and chemical restraint shall never be used.

E. — Guidance must not be associated with food, rest or toileting. Children must not be punished for not resting or sleeping, toileting accidents, failure to eat all or part of meals or snacks, or failure to complete an activity. Food or drink may not be denied or forced upon children as a disciplinary measure.

F. — Meals and snacks can be temporarily postponed or provided individually, but deprivation of meals, snacks and beverages must not be used as punishment.

G. — Separation, when used as guidance, must be brief and appropriate for the child's age and circumstances. The child must be in a safe, lighted, well-ventilated room within hearing and vision of the provider or other qualified adult. Children must never be isolated in a locked room, attic or closet area.

H. — Verbal or emotional abuse and derogatory remarks about any child and/or any child's family and home environment is prohibited.

I. — The provider or approved substitute is responsible for and shall supervise all guidance used within the home. The provider must not allow one child to punish another child.

J. — A child must not be punished for the actions of a parent or guardian. This includes, but is not limited to, failure to pay fees, failure to provide appropriate clothing, failure to provide materials for an activity, or any conflict between the provider and the parent or guardian.

7.707.82 — Learning Activities

A. — Talking with children is generally social and not limited to only custodial or control speech.

B. — Children must be encouraged to relate or to communicate with each other and with adults using developmentally appropriate behavior.

C. — Provider(s) shall respond to children's attempts to communicate, using culturally sensitive eye contact and making an effort to create two-way conversation.

D. — Each child in care must be provided with an opportunity for both group and individual play.

E. — The provider shall encourage individual expression and adult directed projects shall be kept to a minimum, since children's work is varied and individual.

F. — Children shall not be forced to participate in activities; alternate developmentally appropriate activities shall always be available.

G. — Activities must be available to the children that are culturally sensitive and represent diversity in ethnicity, race, gender, and age. Variety shall exist in toys, books, and pictures.

H. — Boys and girls should not be restricted to specific roles in play.

I. — At least one (1) provider initiated language activity shall be offered daily, such as reading, storytelling, flannel boards, or puppetry.

J. — The provider(s) shall initiate at least one (1) interactive musical activity weekly, such as singing, dancing, playing instruments, marching, listening to tapes or recordings, radios, and musical videos.

7.707.83 — Materials

A. — A selection of at least four (4) books must be available for the group of infants/toddlers in care.

B. — A selection of at least ten (10) books must be available for all children over two (2) years of age in care and must be organized and accessible to children most of the day. If children over five (5) years of age are in care, books relevant to that age of child must be included within the ten (10) books.

C. — Materials must be available to the children that are developmentally appropriate, culturally sensitive and represent diversity in ethnicity, race, gender, and age. Variety shall exist in toys, books, and pictures.

D. — At least four (4) language development materials appropriate to age of the children shall be available, such as telephones, puppets, story boards, dolls, and chalk boards.

E. — At least four (4) types of age-appropriate eye-hand materials shall be available for use daily which should include at least some of the following: crayons, paper, scissors, non-chokable small building toys, developmentally appropriate multi-size stringing beads, pegs, sewing cards and puzzles.

F. — Age-appropriate blocks and accessories shall be accessible for free play daily allowing at least two (2) children to play independently, yet simultaneously.

G. — A selection of at least four (4) types of developmentally appropriate nature or science related games, materials, or activities shall be available: natural object collections, plants, gardens, pets, magnets, magnifying glasses, or science props.

H. — At least four (4) types of developmentally appropriate math or number materials shall be available: counting objects, balance scales, rulers, number puzzles, magnetic numbers, and dominoes.

I. — At least four (4) types of art materials shall be available: crayons, pencils, markers, paints, play dough, scissors, and glue. Some art materials must be readily available each day.

J. — At least four (4) types of dramatic play materials shall be accessible for free play daily such as: backpacks, purses, hats, dress up clothing, housekeeping toys, dolls and accessories, toy telephones, play houses, toy animals, cars and trucks, costumes, and safe jewelry.

K. — Outdoor physical free play materials shall consist of at least four (4) age-appropriate toys and equipment including, but not limited to, the following in good repair: push toys, riding toys, tossing toys, climbing equipment, balance boards, stationary swings, slides, balls, toss games, and sports equipment. These must be provided daily except in extreme weather, such as rain, snow, or extreme temperatures when indoor physical play may be substituted.

L. — Materials provided in large homes must be double the requirements for the regular home as listed above.

M. — Some sand or equivalent dry material or water play should be offered indoors or outdoors at least monthly and year round. If used, food and/or organic material must be discarded each week.

7.707.84 — Media Use

A. — Media use including, but not limited to, television, video viewing, music, video games, and computer use should be permitted only with:

1. — The written approval of a child's parent(s) or guardian(s). The authorization may be included in the parent handbook or contract;

2. — Parent approved time limits; and

3. — Activities must not contain violence, profanity, nudity, or sexual content, and must have a rating appropriate for the age of children in care.

B. — All children must be provided with a developmentally appropriate alternative activity once the child(ren) loses interest in the media activity.

7.707.9 FACILITY REQUIREMENTS AND TRANSPORTATION

7.707.91 — General Requirements

A. — The entire premises are subject to inspection for licensing and safety purposes including, but not limited, to the entire residence and where care is to be provided, the grounds surrounding the residence, the basement, the attic (if accessible), the storage shed, garage and/or carport, and any vehicles used for transportation of children in care.

~~E. — All weapons must be locked and inaccessible to children. Ammunition and arrows must be locked and stored separately. This includes, but is not limited to, firearms, air rifles, bb guns, paintball guns, bows, hunting knives, swords, hunting sling shots, and martial arts weapons. Trigger locks are acceptable. Antique and other guns used for decoration must be unloaded, inoperable and have the firing pin removed. An unstrung bow need not be stored in a locked container. Weapons must not be transported in any vehicle in which children are riding unless the weapons are made inoperable and inaccessible. The provider, employees, and substitutes must know the location of any weapons in the home.~~

~~F. — All garbage and other wastes must be stored in a manner that is inaccessible to children and disposed of in a manner that does not constitute a health hazard or nuisance.~~

~~G. — Fire hazards, such as defective electrical or gas appliances and electric cords, dangerous or defective heating or cooking equipment, exposed wiring and flammable material stored in such a manner as to create a risk of fire must be corrected or eliminated.~~

~~H. — All stairways must be free from hazards, and those with more than five (5) steps must be equipped with banisters or handrails within reach of children. The slats on all railings must be no wider than four (4) inches apart or modified to prevent entrapment.~~

~~I. — Drinking and food preparation water from any source other than a regular municipal water supply or commercially bottled water must be tested annually and the results available for review. The water must be in compliance with water quality requirements of the Colorado Department of Public Health and Environment.~~

~~J. — Any provider's, employee's, substitute's, volunteer's, and/or visitor's animal(s) and/or fish that are dangerous, and/or pose a potential threat to a child's safety or health must be confined in a place away from the child care area and inaccessible to children. The provider's animals must be vaccinated as required by state law and local ordinance, and proof of vaccination must be available for review by the licensing specialist.~~

~~K. — Psittacine/hooks beak birds must be in a separate room inaccessible to children in care.~~

~~L. — Children must not be permitted to mistreat animals.~~

~~M. — All play equipment must be designed to guard against entrapment and strangulation. Swing sets and other outdoor play equipment must be correctly assembled, well maintained, and securely stabilized or anchored. All swings for children three (3) years of age and older must have seats made of flexible material.~~

~~N. — All exercise equipment must be inaccessible to children.~~

7.707.92 — Indoor Requirements

7.707.921 — General Indoor Requirements

~~A. — There must be open, indoor play space of at least thirty-five (35) square feet of floor space per child, including space for moveable furniture and equipment exclusive of:~~

1. — Hallways;
2. — Bathrooms;
3. — Stairways;
4. — Closets;
5. — Laundry rooms;
6. — Furnace rooms; and
7. — Space occupied by permanent built-in cabinets and permanent storage shelves.

B. — The large home must provide sufficient floor space in the specific room(s) designated for use for child care that does not include space used by household furniture.

C. — One room or area in the home, within sight or sound of the provider, that contains a bed, cot or sofa must be available for a child in the event of an illness or injury where a child can be separated from other children and comfortably cared for. A crib or playpen with a pad must be provided for children under twelve (12) months of age. A clean, washable sheet and blanket must be provided for each child, and shall be cleaned and changed after each use by a sick or injured child.

D. — All floors must have an easily cleanable finish including, but not limited to: carpets, tile, wood or concrete.

E. — Interior walls must be free of holes and constructed of solid material with a smooth finish that can be easily cleaned. Painted finishes shall be maintained free from peeling, chipping or otherwise deteriorating paint.

F. — The home must be equipped with adequate light, heat, ventilation, and plumbing for safe and comfortable occupancy. The heating facility must be capable of maintaining a draft free temperature of a minimum of sixty eight (68) degrees Fahrenheit at floor level in all rooms used for child care.

G. — All rooms must be kept in a clean and sanitary condition and be free of any evidence of pest or rodent infestation.

H. — Stairways of more than four (4) steps that are accessible to children must have gates that prevent access from the area being used when children under two (2) years old are present. The gate may be taken down as long as the provider is providing direct supervision of the child who is learning climbing skills on the stairs. Because of the risk of serious physical injury to a child, providers, employees, substitutes, volunteers, and visitors must never lift children over the gates while on a stairway.

I. — Because of the risk of serious physical injury to a child, providers, employees, substitutes, volunteers, and visitors must never step over a gate while holding a child or lift a child over a gate.

7.707.922 — Indoor Equipment, Materials and Furnishings

A. — Toys, toy parts and any material accessible to children under three (3) years of age must be large enough that they cannot be swallowed or inhaled, to prevent a choking hazard.

B. — An adequate number of high chairs and other child size suitable equipment that meets nationally recognized standards must be provided when feeding each child under two (2) years of age.

C. — Children's use of walkers with wheels is prohibited unless specifically provided for a child's special needs as ordered in the child's health care plan.

D. — Furnishings and equipment in the area approved for child care must be in good repair.

E. — Furnishings for relaxation and comfort shall include, but not be limited to:

1. — Soft play areas, which may include rugs, carpets, mats, and cushions; and

2. — Clean and soft toys.

7.707.923 — Indoor Safety

A. — All hazardous items and materials must be inaccessible to children including, but not limited to, office supplies, matches, plastic bags, cleaning and laundry materials, medicines, perfumes, curling irons, adult sharp scissors and knives, cosmetics, shaving lotions, hair products, poisonous plants, and all items labeled by manufacturer as “keep out of reach of children.

B. — In rooms accessible to children, all electrical outlets and power strips must have protective covers, or safety outlets must be installed; all exposed light bulbs must have protective covers. Electrical cords must be in good condition and shall not pose a hazard, such as strangulation, falling or tripping.

C. — Window blind cords and coverings must be secured out of children's reach or otherwise made safe to prevent strangulation.

D. — During child care hours, fans that pose a safety hazard to children (such as dangling cords, fans that can be pulled onto the child, and those where the child can stick fingers in the blades) must be inaccessible to children.

E. — Although exterior doors can be locked, they must be maintained so as to permit easy exit; interior doors must be designed to prevent children from becoming trapped.

F. — No locks or fastening devices can be used that would prevent emergency evacuation.

G. — Any level where child care occurs must have two (2) means of escape. A basement exit may include a window large enough for the provider, employees, substitute, volunteers, visitors, and children to individually exit.

H. — If the window sill height is over thirty (30) inches, there must be permanent access to the window. This includes a ladder bolted to the wall or sturdy and easily climbed furniture or steps.

I. — Upper levels where child care occurs, without a second exit, must have escape ladders designed specifically for the purpose of evacuation of children.

J. — All heating units, unvented gas or electric, must be installed and maintained with safety devices to prevent fire, explosions, and other hazards. No open flame gas or oil stoves, unscreened fireplaces, hot plates, or unvented heaters can be used.

K. — Any cooking stoves with controls within reach of a child shall have a safety guard.

L. — Flammable or combustible items must be stored in a locked area remote from the kitchen, at least three (3) feet from the furnace, hot water heater or any other heating device. These items include, but are not limited to, paints, fuels, insecticides, and other hazardous chemicals.

M. — A smoke detector in working condition must be installed on each level of the home.

N. — There must be a carbon monoxide detector installed in the area of the home as recommended by the manufacturer and in the area where children sleep.

O. — The home must contain at least one (1) fire extinguisher in working condition with the minimum weight of five (5) pounds, and minimum rating of 2A-10-BC. The fire extinguisher or identifying sign where the fire extinguisher is located must be highly visible and easily accessible.

P. — The use of indoor and/or climbing equipment indoors is subject to Section 7.707.932.

7.707.93 — Outdoor Requirements

7.707.931 — General Outdoor Requirements

A. — At least seventy-five (75) square feet of useable outdoor play space must be available for each child.

B. — The outdoor play space must be enclosed with at least a forty-two inch (42") fence or natural barrier. If a natural barrier is used, it must begin no higher than three and one-half inches (3-1/2") from the ground. If the home does not have a fenced play space, provisions must be made for outdoor play in an area approved by the State Department.

C. — All parts of the play area must be visible and easily supervised.

D. — Shade must be available.

E. — Decks that are more than twelve (12) inches high must have or be modified to have a protective railing or other barrier with slats no wider than four (4) inches apart. Additionally, for decks installed at ground level with more than a twelve inch (12") gap between flooring and ground, the gap must be inaccessible to children.

F. — Tiered yards that have drop offs of more than twelve inches (12") must have a protective railing or other barrier with slats no wider than four inches (4") apart.

G. — All outdoor areas where children may pass or play shall be kept free of animal contamination. All animal wastes must be promptly removed and placed in a lidded container or otherwise inaccessible to children.

H. — Window wells accessible to children must have covers that are in good condition and will protect children from falling into the window well. Window well covers must not prevent exiting from a basement window designated as the second exit.

I. — Swimming pools, permanent wading pools, and above-ground pools located on the property of the home must be enclosed with a five foot (5') fence and a locked gate.

J. — Water used by children in play areas, including wading pools, must be clean and not left to stand more than one (1) day.

K. — All hot tubs must have bolted and securely locked covers.

L. — Decorative ponds in the designated play area must use childproofing grates to prevent risk of drowning when there is no fence.

M. — The use of a trampoline by children in care is prohibited. If there is a trampoline on the property of the home, it must be stored in a way that makes it totally inaccessible to children.

N. — Tree houses must be inaccessible to children in care.

O. — Walkways must be cleared of snow and ice to provide safe entry and exit from the home.

7.707.932 — Outdoor Equipment, Materials and Surfaces

A. ~~Protective Surfacing Requirements~~

1. ~~All pieces of permanently installed climbing equipment must be surrounded by and have at least four inches (4") of a nationally recognized protective surface underneath the equipment.~~

2. ~~By December 31, 2010, all pieces of permanently installed playground equipment must be surrounded by and have at least six inches (6") of a nationally recognized protective surface underneath the equipment.~~

B. ~~Sand may be used as a protective surfacing when regularly raked, rototilled or replaced to retain its resiliency.~~

C. ~~If during any type of licensing visit the sand has become compacted and lost resiliency or depth, the provider must immediately replace the sand with one of the other approved protective surfacing materials.~~

D. ~~Portable climbing equipment over two feet (2') in height, whether indoor or outdoor, must be on a protective surfacing. No equipment can be placed on cement or grass.~~

E. ~~By December 31, 2010, all swing sets or permanent climbing equipment must ensure a minimum fall zone consistent with the nationally recognized standards.~~

7.707.933 Outdoor Activities

A. ~~The home program must include outdoor play for all ages each day except when the severity of weather, including temperature extremes, makes it a health hazard or when a child must remain indoors as indicated in writing by a health care provider or in a health care plan.~~

B. ~~Developmentally appropriate supervision must be provided during outdoor play in the approved, adjoining fenced play area.~~

C. ~~Children playing in an unfenced area or any other outdoor play area, other than the required, approved fenced play area must be under direct supervision at all times.~~

D. ~~Children must wear helmets, wrist protection, and knee and elbow pads when riding a scooter, bicycle, skateboard, or rollerblades. Motorized riding toys are not permitted.~~

E. ~~All protective surfacing (excluding sand, wood chips, wood mulch, engineered wood fiber, pea gravel, synthetic pea gravel, and shredded rubber tires) and rubber mats must be manufactured for such use consistent with federal guidelines and be approved by the State Department.~~

F. ~~With written permission of the parent(s) or guardian(s), children in care shall be permitted to use the permanent pool in the presence of an adult who holds a current Red Cross basic lifeguarding certificate or equivalent, and is actively responsible for lifeguarding protection.~~

7.707.934 Outdoor Safety

A. ~~Children must be directly and actively supervised near standing water including, but not limited to, fountains, buckets, wading pools, and animal troughs.~~

B. ~~All outdoor play areas shall frequently be surveyed and must be kept safe and free from hazardous materials or debris that could cause harm to children.~~

C. ~~Outdoor play space, including areas under decks must be free from safety hazards including, but not limited to, lawn mowers, tools, propane, gasoline, building scraps, and scrap metal. Gas grills with propane tanks must have a safety on/off knob on it.~~

7.707.94 ——— Transportation

A. ——— The driver of a vehicle used to transport children must follow required state laws, including possession of a current valid Colorado driver's license, automobile insurance, and meet the requirements of Colorado child passenger safety laws.

B. ——— At least one (1) adult in the vehicle transporting children must have a current State Department-approved First Aid and safety certificate that includes CPR for all ages of children. A First Aid kit must be available in the vehicle.

C. ——— Any child transported must be properly restrained in a child restraint system that meets the requirements of the Colorado child passenger safety law that requires:

1. ——— Children must ride in a rear-facing child safety seat until they are at least one (1) year old and weigh at least twenty (20) pounds.

2. ——— Children ages one (1) to four (4) years and who weigh twenty (20) to forty (40) pounds must be restrained in a forward-facing car seat.

3. ——— Children at least four (4) years of age and are less than six (6) years old must continue to ride in a child restraint (unless they are fifty-five inches tall); typically, this is a booster seat; and

4. ——— Children between six (6) and sixteen (16) years old or are fifty-five inches (55") tall must be properly restrained in a seat belt.

D. ——— When any vehicle is used by the home to transport children in care, the following requirements must be met:

1. ——— Each child under four years of age and weighs less than forty pounds must be properly fastened into a child restraint system in a seating position equipped with a safety belt or other means to secure the system according to the manufacturer's instructions;

2. ——— Two or more children must never be restrained in one (1) seat belt or child restraint system;

3. ——— It is the responsibility of the driver transporting children to ensure that such children are provided with and that they properly use a child restraint system or safety belt system;

4. ——— Children between six (6) and sixteen (16) years of age or are fifty inches tall or more must be instructed and monitored to keep the seat belt properly fastened and adjusted;

5. ——— Children, who are appropriately placed in a safety belt system according to state law, must be properly secured by the safety belt system. The shoulder belt must never be placed behind the back or under the arm. The lap belt must be secured low and tight across the upper thighs;

6. ——— Children under thirteen (13) years of age must never be transported in the front seat of a vehicle;

7. ——— Children must never be left alone in a vehicle;

8. ——— Children must be loaded and unloaded safely and out of the path of moving vehicles;

9. ——— The total number of passengers being transported shall never exceed the manufacturer's specifications;

10. ——— The provider cannot transport more children than any vehicle can safely accommodate with child restraint systems and seat belts that are properly installed in the vehicle;

11. — The seats of the vehicle must be constructed and installed according to the manufacturer's specifications;
12. — Modifications to vehicles including, but not limited to, the addition of seats and seat belts must be completed by the manufacturer or an authorized representative of the manufacturer. Documentation of such modifications must be available for review;
13. — The vehicle must be enclosed and have door locks in proper working order;
14. — The vehicle must be kept in satisfactory condition to assure the safety of occupants. Vehicle tires, brakes, and lights must meet safety standards set by the Colorado Department of Revenue, Motor Vehicle Division (Section 42-4-236, C.R.S.) and
15. — At a large home, there must be at least one (1) adult supervisor, in addition to the driver, for nine (9) to twelve (12) children using the vehicle.
- E. — The home must obtain written permission from the parent or guardian for transportation of the child.
- F. — If the child care home provides transportation to and from care, the provider must monitor the child between the vehicle and the child's home or another home authorized by the child's parent or guardian until the child is safely in the care of another adult.
- G. — Transportation arrangements for school-age children must be by agreement between the home and the child's parent or guardian (e.g., whether the child can walk, ride a bicycle, or travel in a car). The home must exercise reasonable precaution to see that the children arrive at the home from school when expected and must follow up on their whereabouts if late. Written permission from a parent or guardian for the child to attend community functions after school hours must include agreements regarding transportation.
- H. — If transportation is provided between the home and school for school-age children, the required adult-to-child ratio and supervision must be maintained for children remaining at the home.

7.711 — RULES REGULATING CHILDREN'S RESIDENT CAMPS

In addition to the General Rules for Child Care Facilities, Children's Resident Camps shall follow the rules specified in this section and the "Rules Regulating Special Activities".

7.711.1 DEFINITIONS

- A. — A "residential camp" means a facility operating for three or more consecutive twenty-four-hour days during one or more seasons of the year for the care of five or more children. The facility shall have as its purpose a group living experience offering education and recreational activities in an outdoor environment. The recreational experiences may occur at the permanent camp premises or on trips off the premises. A children's resident camp shall serve children who have completed kindergarten or are six years of age or older through children younger than nineteen years of age; except that a person nineteen years of age or twenty years of age may attend a children's resident camp if, within six months prior to attending the children's resident camp, he or she has attended or has graduated from high school.
- B. — A residential camp may have a "primitive camp" which is a portion of the permanent camp premises or another site at which the basic needs for camp operation, such as places of abode, water supply systems, and permanent toilet and/or cooking facilities, are not usually provided.
- C. — A "travel-trip camp" shall be known as a camp in which there is no permanent camp site and children move from one site to another. The travel-trip camp either originates in Colorado or moves into and/or through Colorado from another state and operates for three or more consecutive 24-hour days during one or more seasons of the year for the care of five or more children who are at least ten (10)

years old or have completed the fourth grade. The program shall have as its purpose a group learning experience offering educational and recreational activities utilizing an outdoor environment.

7.711.11 Purpose and Goals

Each camp must submit to the department a statement of goals and objectives. This statement must be kept on file, updated periodically, made known to staff, and available for licensing inspection.

7.711.12 Governing Body

The governing body must be identified by its legal name. The names and addresses of individuals who hold primary financial control and officers of the governing body must be disclosed fully to the Colorado Department of Human Services. The governing body is responsible for providing necessary facilities, adequate financing, qualified personnel, services, and program functions for the safety and well-being of children in accordance with these rules. When changes of governing body occur, the new governing body must immediately submit an original application and pay the required fee.

A. If the governing body lets, leases, or rents the licensed facility to any group or organization whose program falls under the definition as found at Section 7.711.1 and verifies in writing to the State Department that the lessee meets the licensing standards, an application is not required of the lessee. If the governing body does not verify that the lessee meets the licensing standards, an application is required of the lessee and the license must be issued to the lessee before the camp opens.

B. When the facility is let, leased, or rented, the governing body must report the following in writing at the request of the State Department: name of the group, number and ages of children, length of time for use of the facility, and the purpose of the camp.

7.711.13 Financial Support

The governing body must satisfy the department upon request that there is sufficient financial support to operate and maintain a camp in accordance with these rules and camp goals and objectives.

7.711.14 Insurances

Every facility must carry public liability insurance. The applicant or licensee must submit the amount of the insurance and the name and the address of the insurance agency providing the insurance to the camp. The camp must maintain information about the insurance at the campsite.

7.711.15 Written Agreements, Reports, and Logs

A. There must be on file at the campsite an annually dated a written or electronic agreement with a licensed physician or nearby health care facility to provide the necessary medical services for campers at the camp and medical help as a backup to the camp staff members responsible for health supervision.

B. A travel trip camp is not required to have a written agreement, but it must have a list of all medical facilities in areas where the travel trip camp will be traveling.

C. The camp must maintain at the campsite a medical record keeping system, listing name of camper, illness or injury, prescribed treatment and date the treatment was administered, and name of person administering care. This record keeping system must be available to licensing personnel.

D. The camp must submit as soon as possible but not longer than 24 hours to the State Department a written report about any camper who has been separated from the group outside of the supervision of their assigned staff member or for whom a report has been made to the local Sheriff's department for search and rescue. Such report must indicate the name, age, and address of the camper; the name of parents/guardians and their address if different; the date when the child was lost; the location, time, and circumstances when the camper was last seen; and circumstances of locating the camper.

7.711.2 PERSONNEL

7.711.21 General Requirements for All Personnel

A. All paid employees at the camp less than 16 years of age must be employed in compliance with Colorado labor laws.

B. All counselors and staff members having a supervisory role with campers must be at least eighteen (18) years of age, or seventeen (17) years of age and graduated high school or completion of GED, and have interest in, respect for, and ability to work with children.

C. There must be a letter of agreement with each volunteer or employed staff member which includes listing of specific responsibilities/job description and referring to information contained in the hiring packet or staff manual. Days or hours of employment/time off, personal conduct, and health history questionnaire must be provided in writing or electronically and may be provided in the hiring packet or the staff manual. The letter of agreement must be signed by both the employer and the volunteer or staff member. In the case of staff members or volunteers who are younger than eighteen (18) years old, the letter of agreement must also be signed by the parents/guardians.

D. There must be at least three references for each staff member of the camp attesting to the individual's character and suitability to work with children. The written references must be in the personnel file or there must be an indication in the personnel file that a reference has been obtained.

E. Each staff member must complete an annual health history. The health history must be maintained in a secured location at the camp.

F. Each staff member must be trained and given written instructions as to camp policy when emergencies occur including but not limited to: lost campers, medical situations, hazardous wildlife and environmental hazards. In the case of travel trip or primitive camps, these plans must accompany the staff and campers.

7.711.22 Camp Personnel

A. Each camp must have an onsite director who must be at least twenty-one (21) years of age. The director must have 12 months (1820 hours) verified leadership experience in an administrative or supervisory position, with groups of children five (5) years of age or older, since he or she attained the age of eighteen (18) years.

B. At each permanent camp there must be one health care worker who is responsible for monitoring the overall health of the campers and staff. A health care worker must be one of the following: a licensed physician, a registered nurse, a licensed practical nurse, a licensed physician's assistant, a certified nursing assistant or an individual who holds current certification in emergency medical services. All health care workers must work within their scope of practice, including the ability to work independently or with required oversight.

1. At least one health care worker must be at the camp twenty-four (24) hours per day that the camp is in session.

2. If the camp health care worker is not a physician or RN, a physician or RN currently licensed in Colorado must specifically delegate the camp staff member the authority to administer medications. The delegating physician or RN must be aware of the specific medical needs of campers, be available for consultation while the camp is in session, and accept responsibility for monitoring the therapeutic effects of medications administered at camp. Respiratory therapists may administer medication within their scope of practice.

3. In order to administer medications all health care workers, except physicians and RNs, must complete the Department approved Medication Administration Training, receive delegation and hold current Department approved First Aid and CPR certification.

C. — At any camps less than thirty (30) minutes from emergency medical services by vehicle, in clear weather, there must be at least one staff member with each group of children qualified with Department-approved First Aid, CPR, and Medication Administration Training and delegation.

D. — All staff members must complete a Department-approved Standard Precautions training prior to working with children. This training must be renewed annually and may count towards ongoing training requirements.

E. — For every thirty (30) or fewer children in attendance, there must be at least one (1) staff member with each group of children who holds current Department-approved First Aid and CPR for all ages of children. At any camp more than thirty (30) minutes away from emergency medical services, there must be at least one (1) staff member with each group of children qualified with a minimum of Wilderness First Aid Training, Department-approved CPR and Medication Administration Training. Staff members with Medication Administration Training must have annual delegation as required at section 7.711.22.b.3.

F. — There must be sufficient camp counselors or staff members who have a supervisory role with children at the camp to meet the staff ratio as indicated in Section 7.711.23. Children under the age of six (6) years who live at camp or are visiting must be directly supervised by a caregiver, who is not included in the staff to camper ratio, at all times when the children are involved in camp activities. Staff members whose children are under six (6) years of age cannot be supervising campers or leading special activities when they are supervising their own children.

G. — If the camp has counselors in training who are not fully qualified, they must be directly accountable to a qualified counselor or specialized staff member and must be directly supervised by those individuals in their role when caring for children. The counselors in training who are less than eighteen (18) years old must not be counted as staff members in the maintenance of the staff ratio for supervision of children as found at Section 7.711.23.

H. — There must be specialized staff members who are responsible for specific portions of the camp program. Requirements for those specialized staff members are found among the requirements for the specialized activity areas at Section 7.719, et seq.

7.711.23 — Supervision

A. — The camp must have an accurate system whereby staff members who are responsible for the supervision of children must know where each child is at all times.

B. — At no time may a camper be left without qualified supervision. Sleeping quarters of the counselors must be within sight or hearing distance of the sleeping quarters of the children whom they supervise. Children may sleep alone for specific program functions such as solos or survival experiences and then only when regularly monitored pursuant to the camp's written program. The camp's written program must include an audible mechanism for a camper to alert a staff member who is able to immediately respond.

C. — Each special activity must be supervised by a staff member currently qualified in Department-approved First Aid and CPR training, and by the experience and training in that special activity as specified in Section 7.719, et seq.

D. — In a residential camp, ratio of one (1) staff member having a supervisory role with children per number of campers must be maintained at all times as follows:

Age of Children	Number of Children	Number of Staff Members
5 through 7 yrs. old	6	1
8 through 10 yrs. old	8	1
11 through 13 yrs. old	10	1
14 yrs. and older	12	1

E. — In a trip away from the residential camp premises or at the primitive camp, the staff ratio given at Section 7.711.23, D, must be maintained, but there must be at least two staff members accompanying each trip, and one staff member must meet the qualifications as defined in 7.711.22.C, E. If the trip exceeds two nights, there must be with the group a staff member who is at least twenty-one (21) years of age, exercises good judgment, the ability to assume leadership independently and has been trained in trip leading procedures.

F. — In a travel trip camp, the staff ratio given at Section 7.711.23.D must be maintained, but there must be at least two (2) staff members at all times with the campers. One (1) of those staff members must be at least twenty-one (21) years old and one (1) staff member must meet qualifications of the health care worker as defined in Section 7.711.22.B.

G. — In the case of trips away from the permanent residential camp, including overnights or travel trip camps, there must be a day to day itinerary prepared prior to departure. The resident camp headquarters must keep a copy of the itinerary. The itinerary must be followed as closely as possible. Camp headquarters must be notified of an itinerary change as soon as possible.

7.711.3 CHILD CARE

7.711.31 — Health Care

A. — The camp health program must be under the supervision of an individual qualified as stated at Section 7.711.22, B.

B. — At least ten (10) calendar days prior to admission, each camper must furnish a health history which indicates communicable diseases and chronic illnesses or injuries the individual has had, any known drug reactions and allergies, medications being taken, and any necessary health procedures or special diets.

C. — The camp must inform its health care worker prior to the first day of care of the enrollment of a child with special health care needs, if known, to ensure staff receives training, delegation and supervision as indicated by the child's individualized health care plan.

D. — The camper must present a statement confirming a physical examination, which has been performed within the preceding twenty-four (24) months from the first day of attendance at camp by a health care provider, which includes any physical problems which would limit the camper's activity, and any special care which the child will need.

E. — The camper must submit documentation of immunization status or exemption as required by Colorado Department of Public Health and Environment (CDPHE). Colorado law requires proof of immunization or exemption be provided prior to or on the first day of admission.

F. — Upon arrival or within twenty-four (24) hours each camper must be observed, by camp staff trained to do so, to identify noticeable evidence of any illness, communicable disease, or signs of abuse. The camp health care worker must meet with campers that have special medications, health procedures, special diet restrictions, known allergic reactions, chronic health conditions or any known physical limitations.

G. — The camp must provide evidence that the exclusion of a child that shows signs of illness or communicable disease is in compliance with the exclusion guidelines of the Colorado Department of Public Health and Environment (CDPHE). If a child needs to be excluded the camp must consult a doctor or medical facility as to the child's treatment.

H. — If a camper requires medical attention away from the camp site, the camper's parents/guardians must be notified and necessary medical care must be sought from a health care provider or medical facility. Written authorization for medical care must be in the child's file pursuant to Section 7.711.61.A.9.

I. ——— In the case of travel trip camps, primitive camps, or tramips away from the camp, a copy of the statement which has been signed by the parent or guardian indicating that the camp staff may obtain emergency medical care must be in the possession of staff members accompanying the campers. The original signed statement must be readily accessible.

J. ——— The camp health care worker must be responsible for administering medication to campers. If the health care worker is not a currently Colorado licensed RN or physician, the health care worker may only administer medication prescribed for individual campers as delegated and supervised by an RN or physician. Respiratory therapists may administer medication within their scope of practice.

1. ——— Medication prescribed for campers must be from a licensed pharmacy; labeled with the name, address, and phone number of the pharmacy; name of the camper; name and strength of the medicine; directions for use; date filled; prescription number; and the name of the practitioner prescribing the medicine. When no longer needed or expired, the medication must be returned to the parent or disposed of properly.

A. ——— When the camp has an on-site RN or physician, and campers are on excursions away from the camp, the RN or physician is responsible for determining a safe process for the administration of routine and emergency medications. This process should include:

i. ——— The transfer of medications and associated documents from their usual storage place to portable storage for the trip.

ii. ——— Labeling which includes camper's name, medication, route, dosage, and time the medication should be administered as indicated on the original medication container.

iii. ——— Secure and temperature appropriate storage during the trip.

iv. ——— Hand hygiene during the trip.

v. ——— Appropriate documentation practices during the trip.

vi. ——— The return of medication and associated documents from portable storage for the field trip to their usual on-site storage.

b. ——— If the camp does not have an on-site RN or physician, medications on trips must be in original labeled pharmacy containers

2. ——— A record of any medications administered must be maintained in a medication administration record pursuant to Section 7.711.15, D.

3. ——— All medication at the permanent camp site must be kept in a clean, locked container, except emergency medication such as epinephrine auto injectors or asthma inhalers. On excursions away from the camp, medication must be under the control of an adult and must be stored inaccessible to children.

4. ——— The camp may, with written parental consent and authorization of the prescribing practitioner, permit children who have asthma to carry their own inhalers and use them as directed. All staff must be aware of which children have asthma and which ones may use their own inhalers as needed.

5. ——— Topical preparations such as petroleum jelly and bug sprays may be administered to children with written parental authorization. These preparations may not be applied to open wounds or broken skin unless there is a written order by the prescribing practitioner.

6. ——— Home remedies, including homeopathic medications, must not be administered at camp without written parental consent, authorization of the prescribing practitioner and delegation as required in section 7.711.22.b.3.

K. — Standing orders for over the counter medications must be updated annually and are only allowed with parental permission and when administered by a physician or RN.

L. — First Aid supplies must be located near food service operations, program areas, maintenance areas, the headquarters of the medical supervisor, and in motor vehicles which are used to transport campers.

M. — There must be an identified headquarters of the health care worker at the campsite.

N. — Transportation must be available at all times in cases of medical emergency according to the written emergency medical evacuation plan of the camp.

O. — To ensure the protection of campers from sun exposure the camp must:

1. — Obtain the parent or guardian's written authorization and instructions for applying sunscreen or use of another form of parent or guardian approved sun protection to their children's exposed skin prior to going outside. A doctor's permission is not needed to use sunscreen at the camp;

2. — Apply sunscreen, have campers apply sunscreen, or use another form of parent or guardian approved sun protection for campers prior to campers going outside. Sunscreen must be reapplied as directed by the product label;

3. — When supplied for an individual camper, the sunscreen must be labeled with the camper's first and last name; and

4. — If sunscreen is provided by the camp, parents must be notified in advance, in writing, of the type of sunscreen the camp will use.

7.711.32 — Guidance

A. — Guidance must be appropriate and constructive or educational in nature and may include such measures as diversion, separation of the child from the situation, talking with the child about the situation, or praise for appropriate behavior.

B. — Children must not be subjected to physical harm, fear, or humiliation.

C. — The program director must not use, or permit a staff member to use corporal or other harsh punishment, including but not limited to pinching, shaking, spanking, punching, biting, kicking, rough handling, hair pulling, or any humiliating or frightening method of guidance.

D. — Guidance must not be associated with food, rest, or toileting. Children should never be punished for toileting accidents. Children must not be denied food or forced to eat as a disciplinary measure.

E. — Separation, when used as guidance, must not exceed five (5) minutes and must be appropriate for the child's age. The child must be in a safe, lighted, well-ventilated area and be within sight and hearing of an adult. The child must not be isolated in a locked or closed area.

F. — Verbal abuse or derogatory remarks about the child are not permitted.

G. — Authority for guidance must not be delegated to other children, and the camp must not sanction one child punishing another child.

7.711.33 — Security Practices

A. — The camp must establish a written security procedure and must train staff members and campers regarding this procedure.

B. — The camp must report to the local law enforcement office or department the dates of the camp sessions and the location of the camp.

C. — When a camper is discharged from camp or when the camp session is over, the child must be returned to the parents/guardians or an adult authorized by the parents/guardians. If the individual is unknown to the staff, identification must be required.

7.711.34 — Food and Nutrition

A. — Each camp must establish a written policy for its nutrition and food service program. This policy must include meal hours, type of food service, staff responsibilities during the time food is served, authorization of special diets, and the administration of the food service program. This policy must be available to all staff members.

B. — Foods provided by the camp must be of sufficient quantity and nutritional quality to provide for the dietary needs of each child. Menus must meet the most recently revised recommended daily allowances of the Food and Nutrition Board, National Academy of Sciences, National Research Council, adjusted for age, sex, religion, and activity. The only exception must be by written parental or medical direction.

C. — Menus must be planned at least a week in advance and must be dated as to the week in use. The current week's menu must be posted in the food preparation area. Food substitutions must be noted on the menus in writing. After use, the menus must be kept on file for the period of the camping season.

D. — In travel trip camps, all menus must be planned prior to leaving and changes noted in writing. Menus must be maintained in file of camp.

7.711.35 — Transportation

A. — Transportation provided by the camp must meet the following requirements:

1. — The camp is responsible for any children it transports;

2. — The camp must obtain written permission from parents or guardians for any transportation of their child during camp hours;

3. — The number of staff members who accompany children when being transported in the vehicle must meet the child care staff ratio found at section 7.711.23. The driver of the vehicle is considered a staff member;

4. — The camp must not permit children under the age of 8 or children under 57" tall to ride in the front seat of a passenger vehicle. Children under 8 must be secured in a child restraint system that is appropriate for the age and development of that child. The child restraint must be safe and free of hazard;

5. — Campers must be loaded and unloaded out of the path of moving vehicles;

6. — Campers must not be left unattended in the vehicle;

7. — For trips away from the camp, a list of individuals on each trip must be readily available either in the vehicle(s) or at the camp office.

B. — Requirements for vehicles

1. — Any vehicle used for the transportation of children to and from the camp or during camp activities must meet the following requirements:

a. — The vehicle must be enclosed and have door locks;

- b. — The seats of the vehicle must be constructed and installed according to the vehicle manufacturer's specifications;
- c. — The vehicle must be kept in satisfactory condition to assure the safety of occupants. Vehicle tires, brakes, and lights must be operational, safe and free of hazard;
- d. — Seating must be comfortable with a seat of at least ten (10) inches wide for each child;
- e. — Vehicles must be loaded only within the passenger seating limit established by the vehicle manufacturer; and
- f. — Each vehicle must have a first aid kit.

2. — In passenger vehicles, with a manufacturer's established capacity of sixteen (16) or fewer passengers and less than 10,000 pounds, the following is required:

- a. — Each camper and staff member must be restrained in an individual seat belt; and
 - b. — Campers and staff must be instructed and required to keep the seat belt properly fastened and adjusted.
3. — In vehicles with a manufacturer's established capacity of sixteen (16) or more passengers, seat belts for passengers are not required.

C. — Requirements for drivers of vehicles

- 1. — All drivers of vehicles transporting children must operate the vehicle in a safe and appropriate manner.
- 2. — The camp must verify that all drivers meet minimum requirements, including:
 - a. — Driving records that have been reviewed within the last four months for seasonally hired drivers or within the last twelve months for year-round drivers to determine driver suitability;
 - b. — Drivers have the appropriate license for the vehicles to be driven;
 - c. — Drivers must have current department-approved first aid and CPR certification;
 - d. — All drivers must be at least twenty (20) years of age;
 - e. — Drivers must complete a minimum of four (4) hours of driver training that includes at a minimum: behind the wheel training; participant transport attendance procedures including taking attendance at the destination; managing behavioral issues; loading and unloading procedures; daily vehicle inspection procedure; proper tire inflation; emergency equipment and how to use it; accident procedures; passenger illness procedures; procedures for backing up; and, if buses are used, evacuation procedures;
- 3. — The driver must ensure that all doors are secured at all times when the vehicle is moving;
- 4. — The driver must make a good faith effort to ensure that each child is properly belted throughout the trip; and
- 5. — The driver must not eat or use a cellular or other mobile device while driving.

7.711.4 RECORDS FOR CHILDREN AND PERSONNEL

7.711.41 — Children's Records

A. ~~_____ Prior to the child's attendance at camp, the following information must be obtained and maintained at the campsite for each camper:~~

1. ~~_____ Child's name, birth date, and address.~~

2. ~~_____ Parent's or guardian's names, home and employment addresses, telephone numbers, and email addresses.~~

3. ~~_____ Name, address and telephone number of emergency contacts.~~

4. ~~_____ Name, address, and telephone number of individuals authorized to take the child from camp if different from the parent or guardian.~~

5. ~~_____ Dates of the camp session which the child will attend.~~

6. ~~_____ Name and telephone number of the child's health care provider.~~

7. ~~_____ Authorization signed by the parents/guardians, giving authority for the camp to obtain emergency medical care.~~

8. ~~_____ Authorization signed by the parents/guardians of the child to participate in all special trips or excursions away from the campsite.~~

9. ~~_____ Indication of any camp activity in which the parents/guardians of the child does not wish the child to participate (see Section 7.719, et seq.).~~

10. ~~_____ Physical examination, health history and immunization as required in Section 7.711.51.C-D.~~

7.711.42 _____ Staff Records

~~There must be maintained at the campsite a record for each staff member, paid or volunteer, which must include the following:~~

A. ~~_____ Name, address, and birth date of the individual.~~

B. ~~_____ Training, education, and experience of the staff member.~~

C. ~~_____ Copies of any required certification or other training confirming qualifications for the responsibilities assigned at the camp.~~

D. ~~_____ Copy of a health history as required in Section 7.711.21.E.~~

E. ~~_____ Name, address, and telephone number of any person(s) to be notified in the event of an emergency.~~

F. ~~_____ Copy of the written references or note of phone references pursuant to Section 7.711.21.D.~~

G. ~~_____ Copy of the signed letter of agreement pursuant to Section 7.711.21.C.~~

H. ~~_____ The dates of employment for each staff member.~~

7.711.43 _____ General Information

A. ~~_____ The camper's file must be retained by the camp for at least three (3) years after the child's last day of attendance at the camp, and must be available without restriction to Department.~~

B. ~~Personnel and children's records must be maintained by the camp for at least three (3) years. If the record reflects an accident, injury, or other unusual circumstance, it is suggested that the record be maintained for a longer period of time.~~

7.711.5 CAMPSITE, PHYSICAL FACILITY, FIRE SAFETY AND SANITATION

7.711.51 ~~Campsites~~

A. ~~Travel trip camps must submit plans for approval by the Colorado Department of Public Health and Environment, thirty (30) days prior to the date the trip camp begins. The travel trip camp must maintain written evidence of Colorado Department of Public Health and Environment approval.~~

B. ~~The camp must conform to fire prevention and protection requirements of local fire departments in the locality of the camp. In the case of a travel trip camp, the fire department approval is not required.~~

C. ~~The camp must identify hazards and high-risk areas and develop policies they follow to prevent unauthorized access to these hazards and high-risk areas.~~

D. ~~Each camp must have a telephone or means of communication to contact emergency services.~~

E. ~~Emergency telephone numbers must be posted the camp health care professional, nearest clinic or hospital, ambulance service, local sheriff's office, national or state forest service office (as appropriate), fire department or lookout station, and poison control center.~~

F. ~~In the case of a primitive camp or travel trip camp, sources of emergency care and methods of communication with such facilities as hospitals, police, and forest service must be identified for each campsite on the itinerary.~~

G. ~~When playground equipment is provided at a residential camp, the equipment and playground area must be free of obstruction and man-made or natural hazards and must be away from natural pathways of traffic.~~

H. ~~Playground equipment must meet the following requirements:~~

1. ~~Be in good repair, of solid and safe construction, free of rough edges, protruding bolts, and the possibility of entrapment of extremities.~~

2. ~~Be securely anchored by suitable footing.~~

3. ~~Swings must have seats made of a flexible material.~~

4. ~~Moving equipment must be located toward the edge or corner of a play area or be designed in such a way as to discourage children from running into the path of the moving equipment.~~

5. ~~Metal equipment must be placed in the shade or a shade structure must be provided.~~

6. ~~The maximum height of any piece of playground equipment is six (6) feet.~~

7. ~~All pieces of playground equipment must be designed to guard against entrapment and strangulation.~~

8. ~~All pieces of permanently installed playground equipment must be surrounded by a resilient surface of a depth of at least six (6) inches. Rubber mats manufactured for such use if safe and free from hazard may be used in place of resilient material.~~

9. ~~Department approved resilient surfacing includes loose fill materials such as wood chips, wood mulch, engineered wood fiber, pea gravel, synthetic pea gravel, shredded rubber tires, and fine loose~~

sand. Solid unitary materials include poured in place surfacing, approved rubber mats, playground tiles, and astro turf with built in resilient pad.

10. — Any permanently installed outdoor climbing equipment or portable climbing equipment eighteen (18) inches or higher must have Department approved resilient surfacing underneath and in the use zone surrounding the equipment, and installed according to manufacturer instructions.

11. — Playground surfaces must be checked prior to use for the presence of dangerous or other foreign materials. Playground equipment must be checked for safety on a monthly basis and written documentation of the safety check must be maintained.

I. — If the residential camp is located on or uses national or state lands, the director must familiarize the staff and campers with rules and ethics governing the use of such property and must be responsible for compliance.

J. — An itinerary must be filed or an arrangement must be made with national or state forest service office if such land is to be used by the travel trip camp. The director must familiarize the staff and campers with rules governing the use of such property. Should the travel trip camp pass onto private land, an agreement must be made with the individual responsible for that land prior to access.

K. — In indoor structures where the program uses any source of coal, wood, charcoal, oil, kerosene, propane, natural gas or any other product that can produce carbon monoxide indoors, an operational carbon monoxide detector must be installed according to the manufacturer's instructions. Carbon monoxide detectors must be tested at least annually with documentation available upon request. Carbon monoxide detectors that are only battery powered must meet the following requirements:

1. — Tested monthly to ensure they are operational.

2. — Batteries changed at least yearly.

7.711.52 — Permanent and Semi-Permanent Shelters and Sleeping Facilities

A. — All structures used by children must be kept in good repair at all times.

B. — At least one-half of the floor area in each living unit, excluding tents, must have a minimum ceiling height of seven (7) feet. No portion of a room having a ceiling height of less than five (5) feet will be considered as usable floor space.

C. — If fabric structures are used they must be constructed of a fire and flame retardant material.

D. — Each camper must be provided with his or her own mat, pad, bed, or cot.

E. — The aisles between rows of cots, beds, or bunks must be kept clear for exiting purposes. There must be at least two (2) feet of clear space separating sides of cots, beds or bunks.

F. — If bunk beds are in use, no bunks may contain more than two tiers of beds. There must be at least twenty-seven (27) inches of clear space separating the tiers of beds and thirty-six (36) inches of clear space between the top tier and the ceiling. Electric lights which are within reach of the top bunk must be protected.

G. — Each permanent sleeping unit, building, or tent must have at least thirty (30) square feet of floor space per person, camper, or counselor for single-tier beds and twenty (20) square feet per person, camper, or counselor for two-tier bunks.

H. — In tent structures which have a platform floor, beds or bunks must be arranged in such a fashion that no camper who might fall from a bed or bunk could fall through the sides of the tent to the ground below.

I. ~~_____ No camper shall sleep in the same room or tent with any person of the opposite gender, except for members of his or her immediate family.~~

J. ~~_____ In a primitive camp or travel trip camp, adequate shelters such as a tent must be available for each child. The shelter occupancy must be in compliance with manufacturers' recommendations.~~

7.711.53 ~~_____ Toilet and Bathing Facilities~~

A. ~~_____ In a resident camp there must be one approved toilet for every twenty (20) or fewer campers for which the camp is licensed. Urinals may be substituted for no more than one third of the required toilets.~~

B. ~~_____ Children must be allowed the use of gender-segregated toilet facilities that are consistent with their gender identity or have individual toilet facilities.~~

C. ~~_____ Hand washing facilities must be provided throughout the camp. There must be one basin or lavatory for per every twenty (20) campers. In new construction completed after April 1, 2018, change of governing body or extensive remodeling the camp must provide hand washing facilities located adjacent to where the camp serves meals.~~

D. ~~_____ Showers or bathtubs must be located within buildings used for sleeping, such as cabins or dormitories, or in a centrally located shower or bathing structure.~~

1. ~~_____ There must be one shower head or bathtub per every twenty (20) campers for which the camp is licensed.~~

2. ~~_____ Hand washing facilities must be available in the shower or bathing area.~~

E. ~~_____ Camps must provide evidence that all sewage disposable systems must meet Colorado Department of Public Health and Environment (CDPHE) requirements.~~

7.711.54 ~~_____ General Building Safety~~

A. ~~_____ Every building, structure, tent, cabin, and camp premises must be kept in good repair, and must be maintained in a safe condition.~~

B. ~~_____ All construction and electrical installations must be safe and free from hazard.~~

C. ~~_____ In permanent structures, exit signs must be posted at every required exit doorway and wherever otherwise required to clearly indicate the directions of egress.~~

D. ~~_____ A building with occupancy of more than twelve (12) persons must be provided with at least two independent means of egress separated by no less than fifty (50) percent of the largest dimension of the building from each other.~~

1. ~~_____ In an existing building, such as a cabin occupied by more than twelve (12) but less than twenty (20) persons, a window may be utilized as an acceptable second exit. The window must be openable and the distance from the window to the ground must not be more than four feet.~~

2. ~~_____ Each exit door must be hung to swing in the direction of exit travel. Exiting through a food preparation area is not permitted.~~

E. ~~_____ If buildings with second stories are used by campers, there must be two independent means of egress separated by no less than fifty (50) percent of the building from each other per floor.~~

F. ~~_____ The camp must provide evidence each fire escape from any upper level of a building is installed in accordance with local fire protection ordinances.~~

G. — In every building or structure, exits must be arranged and maintained so as to provide free and unobstructed egress from all parts of the building or structure at all times when it is occupied. No lock or fastening to prevent free escape from the inside of any building can be installed. Only panic hardware or single-action hardware is permitted on a door or on a pair of doors. All door hardware must be within the reach of children.

H. — Exit doors must be equipped only with panic or single-action hardware.

I. — There must be fifteen (15) square feet per occupant in any room having an occupant load of more than fifty (50) persons where fixed seats are not installed and which is used for classroom, assembly, or similar purposes. The maximum occupancy must be posted in a conspicuous place near the main exit from the room.

J. — Furnaces, fireplaces, heaters, or wood-burning stoves must meet the following regulations:

1. — All heating units must be and maintained with safety devices to prevent fire, explosions, and other hazards. No open-flame gas or oil stoves, unscreened fireplaces, hot plates, or unvented heaters can be used for heating purposes. All heating elements, including hot water pipes, must be insulated or installed in such a way that children cannot come in contact with them.

2. — A heater or wood-burning stove must be located and/or protected in such a manner as to prevent injuries to occupants of the building.

3. — Wood-burning stoves must be regularly cleaned of ashes, which are immediately removed from the building and properly stored.

4. — Space around furnaces, heaters, and wood-burning stoves must not be used for storage.

K. — All firearms must be locked and inaccessible to children. This includes, but is not limited to air rifles, bb guns, and paintball guns. Ammunition must be locked and stored separately.

L. — Power tools, explosives and special equipment involving unusual risk must be stored in a locked place inaccessible to children, and must always be under the custody and direct supervision of authorized personnel when in use.

M. — Volatile substances such as gasoline, kerosene, fuel oil, and oil-based paints, firearms, explosives, and other hazardous items must not be stored in any area of the building used for children unless approved by the local fire department.

N. — Substances which may be toxic to a child if ingested, inhaled, or handled, including, but not limited to, poisons, drugs, medicines, insecticides, herbicides, rodenticides, bleaches, chemicals, and corrosive agents must be stored in a cabinet or enclosure located in an area not used by children, stored in the original container, and properly labeled.

O. — Glass doors, walls, or panels must be clearly marked. Safety glass must be installed when required.

P. — Stairways of a height of more than thirty (30) inches must be equipped with handrails on each side of the stairways. A stairway which is larger than 88 inches wide must have an intermediate handrail equal distance between the two handrails.

Q. — All window wells and outside stairwells that are hazardous to children must be equipped with screens or guards, which must be attached in such a manner that they may either be removed from the inside or broken in from the outside in case of fire.

R. — All areas accessible to children must be maintained in a safe condition by removal of debris, dilapidated structures, and broken or worn equipment or dangerous items.

7.711.55 — Fire Safety Provisions

A. — Any fire extinguisher used at the camp must be of a dry chemical type, hung at a level readily available to staff members, and annually inspected by an approved inspector. Indian pump backpack fire extinguishers and fire extinguishers approved for use by the U.S. Forest Services are also acceptable.

1. — There must be a fire extinguisher located in the camp kitchen.

2. — In each building and/or structure, there must be a fire extinguisher on each floor.

3. — In tent areas, there must be a fire extinguisher located within seventy-five (75) feet of each tent or a plan approved by the department.

B. — In each camp there must be a fire alarm(s) must sounds a separate and distinctly recognizable tone from all other signaling devices used by the camp. The alarm(s) must be audible throughout the occupied camp premises. The alarm device, once activated, must continue to sound automatically.

C. — Within twenty-four (24) hours after arrival at the campsite, all individuals attending the camp must be made familiar with the methods by which the fire alarm may be activated and with procedures to be followed upon notification of fire.

D. — Each separate building used for sleeping campers and each multistory building must be protected by a smoke detector on each floor of the building.

E. — Areas used for campfires must be cleared and must be away from overhanging branches.

F. — Campfires must never be left unattended and must be thoroughly extinguished. Extinguishing equipment must immediately accessible.

G. — Campfires and open flames of any type must be prohibited within 10 feet of any tent or fabric structure.

7.712 — RULES REGULATING SCHOOL-AGE CHILD CARE CENTERS

All school-age child care centers must comply with the “General Rules for Child Care Facilities” as well as the “Rules Regulating School-Age Child Care Centers”

7.712.1 (None)

7.712.2 DEFINITIONS

A. — A “school-age child care center” (hereafter referred to as the “center”) is a child care center that provides care for five (5) or more children who are between five (5) and eighteen (18) years of age. Children four (4) years of age, who will turn five (5) on or before October 15th of the current calendar year may attend the center as part of a “building-based school-age child care program” or “building-based day camp” summer program prior to their kindergarten year. The center operates for more than one week during the year. The term includes facilities commonly known as “day camps,” “summer camps,” “summer playground programs,” “before and after school programs,” and “extended day programs.” This includes centers operating with or without compensation for such care, and with or without stated educational purposes.

B. — A “building-based school-age child care program” is a child care program that provides care for five (5) or more children who are between five (5) and eighteen (18) years of age. The center is located in a building that is regularly used for the care of children.

C. — A “day camp” is a school-age child care program which operates at least four (4) hours a day primarily during one season of the year, and during school vacation periods for children between five (5)

and eighteen (18) years of age, which accepts registrations for finite, not necessarily contiguous sessions. Programs may operate daily between 6:00 a.m. and 10:00 p.m. Day camp programs may offer no more than two overnight stays each camp session.

The types of day camps are as follows:

1. — A “building-based day camp” is a child care program that provides care for five (5) or more children who are between five (5) and eighteen (18) years of age. The day camp is located in a building which, along with the outdoor surroundings, is regularly used by the program.

2. — A “mobile day camp” is a child care program that provides programming for five (5) or more children who are at least seven (7) years of age or who have completed the first grade. Children move from one site to another by means of transportation provided by the governing body of the program. The program uses no permanent building on a regular basis. Mobile day camp programs may operate in multiple sites, in a single county, under one license.

3. — An “outdoor-based day camp” is a child care program that provides care for five (5) or more children who are at least seven (7) years of age or have completed the first grade. The day camp does not use a permanent building on a regular basis and provides programming in a permanent outdoor or park setting.

7.712.3 POLICIES AND PROCEDURES

7.712.31 — Statement of Policies and Procedures

A. — At the time of enrollment, and upon amendments to policies and procedures, the center must give the parent(s)/guardian(s) the center’s policies and procedures, and provide the opportunity to ask questions. Written copies must be available either electronically or in hard copy. The center must obtain a signed document stating that the parent(s)/guardian(s) have received the policies and procedures, and by signing the policies and procedures document, the parent(s)/guardian(s) agree to follow, accept the conditions of, and give authorization and approval for the activities described in the policies and procedures. Policies must include the following:

1. — The center’s purpose and its philosophy on child care;

2. — The ages of children accepted;

3. — Services offered for special needs children in compliance with the Americans with Disabilities Act (see Section 7.701.14, General Rules for Child Care Facilities);

4. — The hours and dates when the center is in operation, specific hours during which special activities are offered, and holidays when the center is closed;

5. — The policy regarding inclement weather;

6. — The procedure concerning admission and enrollment of children;

7. — An itemized fee schedule;

8. — The procedure to ensure the location of children is known at all times, how children are accounted for throughout the day, and that children are supervised at all times by their assigned staff member;

9. — The center’s procedure on guidance, positive instruction, supporting positive behavior, discipline and consequences, including how the center will:

a. — Cultivate positive child, staff and family relationships;

- b. — Create and maintain a socially and emotionally respectful early learning and care environment;
 - c. — Implement teaching strategies supporting positive behavior, pro-social peer interaction, and overall social and emotional competence in young children;
 - d. — Provide individualized social and emotional intervention supports for children who need them, including methods for understanding child behavior; and developing, adopting and implementing a team-based positive behavior support plan with the intent to reduce challenging behavior and prevent suspensions and expulsions; and
 - e. — Access an early childhood mental health consultant or other specialist as needed.
10. — The procedure for handling children's illnesses, accidents, and injuries, including when children will be excluded from care and notification of parents/guardians;
 11. — The procedures followed when it has been identified a child is separated from their group and not under the direct supervision of their assigned staff member.
 12. — The procedure for transporting children, if applicable, including transportation arrangements and parental permission for excursions and related activities;
 13. — The written policy and procedure governing field trips, television and video viewing, and special activities, including the staff's role for the supervision of children;
 14. — The procedure on children's safety related to riding in a vehicle, seating, supervision, and emergency procedures on the road;
 15. — The procedure for releasing children from the center only to persons for whom the center has written authorization;
 16. — The procedures followed when a child is picked up from the center after the closing hours of the center or not picked up at all, and the procedure to ensure that all children are picked up before the staff leave for the day;
 17. — The procedure for caring for children who arrive late to the center and their class/group is away from the center on a field trip or excursion;
 18. — The procedure for storing and administering children's medicines and delegation of medication administration in compliance with Section 12-38-132, C.R.S., of the "Nurse Practice Act.";
 19. — The procedure concerning children's personal belongings and money;
 20. — The policy concerning meals and snacks;
 21. — The policy and procedure regarding visitors;
 22. — The procedure for filing a complaint about child care (see Section 7.701.5. General Rules for Child Care Facilities);
 23. — The procedure regarding the reporting of suspected or known child abuse and/or neglect (see Section 7.701.5 General Rules for Child Care Facilities);
 24. — The policy for notification when child care service is withdrawn by the program, or when parents or guardians withdraw their child(ren) from the center;
 25. — The procedure, if applicable, for transitioning children between school or community sponsored activities; and

26. — The policy on the steps the center will take prior to the suspension, expulsion or request to parents/guardians to withdraw a child from care due to concerns about the child's behavioral issues. These procedures must be consistent with the center's policy on guidance, positive instruction, discipline and consequences, and include documentation of the steps taken to understand and respond to challenging behavior.

7.712.32 — Communication, Emergency, and Security Procedures

A. — The center must notify the parents/guardians in writing of significant changes in its services, policies, or procedures so that they can decide whether the center continues to meet the needs of the child(ren).

B. — For security purposes, a daily sign-in/sign-out sheet or other mechanism for parents/guardians must be maintained by the center it must include, for each child in care, the date, the child's name, the time when the child arrived and left the center, and the parent/guardian's signature or other identifier. With a parent/guardian's approval, a child five (5) years of age or older may sign in and out instead of the parent/guardian. Staff must verify attendance periodically throughout the day.

C. — During the hours the center is in operation, the center must provide an office and/or monitored telephone number known to the public and available to parents/guardians in order to provide immediate access to the center.

D. — If the center has a permanent site, there must be a telephone at the site.

E. — Emergency telephone numbers must be posted at each permanent site and taken on all field trips and during mobile school-age child care programs. The emergency numbers must include, at a minimum, 911, or a rescue unit if 911 isn't available; the clinic or hospital nearest to the activity location; ambulance service; fire, police, and health departments; and Rocky Mountain Poison Control.

F. — Mobile school-age child care programs must have a way to be contacted while in transit.

G. — The center must be able to provide emergency transportation to a health care facility at all times either via program vehicle or the emergency medical services system.

H. — The director of the center or the director's delegated substitute must have a means for determining who is present at the center at all times.

I. — A written policy regarding visitors to the center must be posted and a record maintained daily by the center that includes, at a minimum, the visitor's name and address and the purpose of the visit. At least one piece of identification must be inspected for individuals who are strangers to personnel at the center.

J. — With the exception of children who are allowed to sign themselves in and out, the center must release a child only to the adult(s) for whom written authorization has been given and is maintained in the child's record (see Section 7.712.81). In an emergency, the child(ren) may also be released to an adult for whom the child's parent or guardian has given verbal authorization. If the staff member who releases the child does not know the adult, identification must be required to assure that the adult is authorized to pick up the child.

K. — The center must have a procedure for dealing with individuals not authorized by the parent/guardian of a child who attempts to have the child released to them.

L. — The center must have a written procedure for closing the center at the end of the day to ensure that all children are picked up.

7.712.4 PERSONNEL

7.712.41 — General Requirements for All Personnel

A. — All personnel and volunteers at the center must demonstrate knowledgeable decision-making, judgment, and concern for the proper care and well-being of children.

B. — All personnel and volunteers must not engage in actions that would endanger the health, safety, or well-being of children.

C. — A criminal record check request for all staff must be submitted to the Colorado Bureau of Investigation. The personnel file of staff members of the center must contain clearance report from the Colorado Bureau of Investigation. The requirement for a criminal record check is found in Section 7.701.33 of the General Rules for Child Care Facilities. Seasonal staff that indicates that they will not be returning to the program for employment must be removed from the CBI list for the program.

D. — Each staff member and regular volunteer as defined in section 7.712.44.C must complete an annual health history. The health history must be maintained in a secure location.

E. — The duties and responsibilities of each staff position and the lines of authority and responsibility within the center must be in writing. At the time of employment, staff members must be informed of their duties and assigned a supervisor.

F. — Prior to working with children, the staff member must read and be instructed on the policies and procedures of the center, including those relating to hygiene, sanitation, food preparation practices, proper supervision of children, and reporting of child abuse. Staff members must sign a statement indicating that they have read and understand the center's policies and procedures.

G. — Day camp staff must receive a minimum of fifteen (15) hours of pre-camp training, in addition to Department-approved First Aid and CPR. Pre-camp training must include all training activities that staff members participate in as a whole. Training should include, but not be limited to, familiarizing staff with the camp mission, site emergency policy and procedures, how to supervise and facilitate activities with campers, and health care policies and procedures. Policies and procedures must be in writing. Staff will be supervised and additional training may be provided if needed. Day camps must have a system in place to provide staff the essential training information for late hires.

H. — The center must have a staff development plan that includes a minimum of fifteen (15) clock hours of ongoing training each year for all staff. This requirement does not apply to day camps. At least three (3) clock hours per year must be in the focus of social emotional development. The fifteen (15) clock hours of training does not include recertification in First Aid and CPR. Ongoing training and courses must demonstrate a direct connection to one or more of the following competency areas:

1. — Child growth and development, and learning or courses that align with the competency domains of child growth and development;

2. — Child observation and assessment;

3. — Family and community partnership;

4. — Guidance;

5. — Health, safety and nutrition;

6. — Professional development and leadership;

7. — Program planning and development;

8. — Teaching practices:

a. — Each one (1) semester hour course with a direct connection to the competency area listed in section 7.712.41, j, 1-8, taken at a regionally accredited college or university may count as fifteen (15) clock hours of ongoing training.

- b. Training hours completed can only be counted during the year taken and cannot be carried over.
- I. To be counted for ongoing training, the training certificate must have documentation that includes:
 - 1. The title of the training; and,
 - 2. The competency domain; and,
 - 3. The date and clock hours of the training; and,
 - 4. The name or signature, or other approved method of verifying the identity of trainer or entity; and,
 - 5. Expiration of training if applicable; and,
 - 6. Connection to social-emotional focus if applicable.
- J. All staff members must complete a Department-approved standard precautions training prior to working with children. This training must be renewed annually and may count towards ongoing training requirements.
- K. All staff members must complete a building and physical premises safety training prior to working with children. The training must include:
 - a. Identification of and protection from hazards that can cause bodily injury such as electrical hazards, bodies of water and vehicular traffic; and
 - b. Handling and storage of hazardous materials and the appropriate disposal of biological contaminants.
- L. All staff member responsible for the collection, review and maintenance of the child-immunizations records must show evidence they have completed the Colorado Department of Public Health and Environment (CDPHE) immunization course within (30) calendar days of employment. This training must be renewed annually and may count towards ongoing training requirements.
- M. All staff members and regular volunteers must complete a Department-approved training about child abuse prevention, including common symptoms and signs of child abuse within (30) calendar days of employment. This training must be renewed annually and may count towards ongoing training requirements.

7.712.42 Required Personnel and Qualifications

A. Program Director

Each center must have an on-site program director who must be at least twenty-one (21) years of age. The program director must have demonstrated to the hiring authority maturity of judgment, administrative ability and the skill to appropriately supervise and direct school-age children in an unstructured setting.

- 1. The program director must have verifiable education or training in work with school-age children in such areas as recreation, education, scouting or 4-H; and the program director must have completed at least one of the following qualifications:
 - a. A four (4) year college degree with a major such as recreation, outdoor education, education with a specialty in art, elementary or early childhood education, or a subject in the human service field; or
 - b. Two years of college training and six (6) months (910 hours) of satisfactory and verifiable full-time or equivalent part-time, paid or volunteer, experience, since attaining the age of eighteen (18), in the care and supervision of four (4) or more children; or

c. — Three years (5460 hours) of satisfactory and verifiable full-time or equivalent part-time, paid or volunteer, experience and one of the following qualifications:

1) — Complete six semester hours, or nine quarter hours in course work from a regionally accredited college or university; or

2) — 40 clock hours of training in course work applicable to school-age children and the department-approved courses in injury prevention, and playground safety for School-Aged Child Care Centers within the first nine months of employment.

2. — Satisfactory experience includes experience in the care and supervision of four or more children from the ages of four (4)–eighteen (18) years old, unrelated to the individual, since attaining the age of eighteen (18).

3. — The program director is responsible for planning and implementing the program and supervising the staff.

B. — Program Leaders

Each program leader must be at least 18 years of age, demonstrate ability to work with children, and must meet the following qualifications:

1. — Complete the Department-approved course in injury prevention;

2. — Complete the Department-approved course in playground safety for School-Aged Child Care Centers. This requirement does not apply to day camps that do not regularly use a playground.; and

3. — Must have at least three (3) months (460 hours) of full-time or equivalent part-time satisfactory and verifiable experience with school-age children.

C. — Program Aides

1. — Program aides must be at least sixteen (16) years of age. Program aides must work directly under the supervision of the program director or program leaders and must never be left alone with children.

2. — Program aides can be counted as staff in determining child care staff ratios.

D. — Department-approved Child Care Health Consultant

1. — As required by these rules, staff must consult with a current Department-approved Colorado Child Care Health Consultant. To be approved the Child Care Health Consultant must be one of the following: a licensed registered nurse with knowledge and experience in maternal and child health, a pediatric nurse-practitioner, a family nurse practitioner, or a pediatrician. The consultation must be specific to the needs of the facility and include some of the following topics: training, delegation and supervision of medication administration and special health procedures, health care, hygiene, disease prevention, equipment safety, interaction between children and adult caregivers, and normal growth and development. Consultation must occur as often as the child care health consultant who is delegating medications and/or medical procedures requires.

2. — The date and content of each consultation must be recorded and maintained in the center's files.

3. — The center must maintain documentation including the child care health consultant's (CCHC)-Department of Regulatory Agencies (DORA) proof of RN or MD current licensure in good standing, a brief

biography highlighting applicable knowledge, experience and approximate dates worked as a school nurse or Child Care health Consultant commenced.

4. — Child care health consultants (CCHC) must complete the Department approved child care health consultant (CCHC) training prior to consulting with the center. The center must obtain and maintain proof of course completion.

5. — All Child Care Health Consultants (CCHC) must show evidence they have completed the Colorado Department of Public Health and Environment (CDPHE) immunization course annually.

E. — Employment of maintenance staff, including kitchen service, grounds, and housekeeping employees less than sixteen (16) years of age, must be in compliance with Colorado labor laws.

F. — At least one staff member with current department approved medication administration training and delegation must be on duty at all times.

G. — First Aid and CPR Certified Staff

1. — For every thirty (30) or fewer children in attendance, there must be at least one (1) staff member who holds current Department approved First Aid and CPR certificate for all ages of children. Such individuals must be with the children at all times when the center is in operation. If children are at different locations, there must be a First Aid and CPR qualified staff member at each location.

2. — In a day camp, all staff members who are eighteen (18) years of age and older must have current Department approved First Aid and CPR certificates. Uncertified staff members must work with another certified staff member.

3. — All employees caring for children, not required by rule to be certified in First Aid and CPR, must complete a Department approved basic First Aid and CPR module within thirty (30) calendar days of employment and the module must be renewed every two (2) years.

7.712.43 — Required Staff Supervision

A. — A program director must be present at the center at least 60 percent of any day the center is in operation. An individual who meets one of the following requirements must be present for the remaining 40 percent of the day:

1. — A qualified program leader who is at least twenty one (21) years of age; OR

2. — A qualified program leader who is at least eighteen (18) years of age and has at least one (1) year (1820 hours) full-time or equivalent part-time verifiable experience working with children; or

3. — Two qualified program leaders who are at least nineteen (19) years of age.

B. — If the program director cannot be present 60 percent of any day the center is in operation, an individual who meets program director qualifications must substitute for the director.

C. — There must be at least one (1) program leader providing supervision with each group of thirty (30) or fewer children cared for by the center. When four (4) year olds are in attendance, there must be at least one program leader providing supervision with each group of twenty-four (24) or fewer children cared for by the center.

D. — The maximum group size for children over the age of five (5) is thirty (30) children. When four (4) year olds are in attendance the maximum group size is twenty-four (24). When the center has the capacity to care for multiple groups of children, they must be separated into developmentally and age-appropriate activities. Groups are not required to be separated from each other by permanent or portable dividers or walls.

E. Group size for children in care may be exceeded for attendance time, meal and snack time, special occasions and activities. The room capacity must not be exceeded.

F. There must be one (1) staff member for each fifteen (15) children in attendance. When four (4) year olds are in attendance, there must be at least one staff member for each twelve (12) or fewer children cared for by the center.

Ages of Children	Number of Staff	Maximum Group Size
Mixed age group with 4 year olds	1 staff member to 12 children	24 children
5 years and older	1 staff member to 15 children	30 children

G. At any time when nine (9) or more children are in care at the center, there must be at least one (1) program leader actively supervising children and another responsible person at least sixteen (16) years of age on the premises. When eight (8) or fewer children are present, there must be at least one (1) program leader on duty and a second staff member on call who is immediately available in an emergency.

H. At all times, school age child care personnel must be directly supervising the children.

I. In a mobile day camp program, an outdoor based day camp program, or anytime a building based program is away from the facility, the staff ratio given at Section 7.712.43 must be maintained, but there must be at least two (2) program leaders at all times with the children.

7.712.44 — Volunteers

A. If volunteers are used by the center, there must be a clearly established policy in regard to their function, orientation, and supervision.

B. References must be obtained for volunteers who are counted in the staff to child ratio, consistent with Section 7.701.33B.

C. Volunteers that work more than fourteen (14) calendar days (112 hours) per calendar year who are used to meet staff to child ratio must be equally qualified as a program director, program leader or program aide and must have complete staff records as defined in 7.712.82.

D. Volunteers unless equally qualified must be directly supervised by a program director or program leader.

E. Volunteers must be given instruction as to the center's policies and procedures.

7.712.5 CHILD CARE SERVICES

7.712.51 — Admission Procedure

A. The center can accept children only of the ages and capacity for which it has been licensed.

B. Admission procedures must be completed prior to the child's first day in care at the center and must include:

1. Completion of the registration information for inclusion in the child's record, as required in Section 7.712.81; and

2. Providing the parent(s)/guardian(s) with a copy of the center's policies and procedures.

7.712.52 — Health Care

A. Statements of Health Status

1. ~~At the time of enrollment, the parent(s)/guardian(s) must provide for each child entering the center:~~

a. ~~A complete health history for each child, including any communicable diseases, chronic illnesses or injuries, known drug reactions and allergies, current medications and any special diets needed, the name address and phone number for the child's health care provider and dentist.~~

b. ~~Documentation of immunization status or exemption as required by Colorado Department of Public Health and Environment (CDPHE). Colorado law requires proof of immunization be provided prior to or on the first day of admission.~~

1) ~~Child care centers as defined in section 26-6-102 (1.5), C.R.S., located at a ski area, are exempt from obtaining immunization records for students when all of the following conditions are met:~~

a) ~~Students attend for fifteen (15) days or less in a fifteen consecutive-day period, no more than twice in a calendar year; and~~

b) ~~At least sixty (60) calendar days separate the two sessions within the calendar year; and~~

c) ~~The center notifies parents/guardians that non-immunized children are enrolled on the above-short term basis.~~

2. ~~The center must inform its child care health consultant (CCHC) prior to the first day of care of the enrollment of a child with special health care needs, if known, so staff receives training, delegation and supervision as indicated by the child's individualized health care plan.~~

3. ~~If the center is located at an elementary school and all the children attend that school, the immunization records may be maintained at the school office but, must be accessible to center staff members and licensing specialists during the hours the center is open.~~

B. ~~Emergency Procedures~~

1. ~~Written authorization for emergency medical care must be in the child's file as required in Section 7.712.81.~~

2. ~~When accidents, injuries, or illnesses occur, the program director or responsible adult in charge must notify the child's parent or guardian and, if necessary, seek medical care for the child.~~

3. ~~A responsible staff member must be directly supervising any ill or injured child.~~

4. ~~Portable first aid kits must be available to staff at all times, including field trips, and must be located out of reach of children and maintained in a sanitary condition. First aid kits must be checked and restocked on at least a monthly basis.~~

C. ~~Medication~~

1. ~~Any un-expired routine medication, prescription and non-prescription (over the counter) medications must be administered only with a current written order of a Health Care Provider with prescriptive authority and with written parental consent. Home remedies, including homeopathic medications, must never be given to a child.~~

2. ~~The written order by the prescribing practitioner must include:~~

a. ~~Child's name;~~

b. ~~Licensed prescribing practitioner name, telephone number, and signature;~~

- c. — Date authorized;
 - d. — Name of medication and dosage;
 - e. — Time of day medication is to be given;
 - f. — Route of medication;
 - g. — Length of time the medication is to be given;
 - h. — Reason for medication (unless this information needs to remain confidential);
 - i. — Side effects or reactions to watch for; and
 - j. — Special instructions.
3. — Medications must be kept in the original labeled bottle or container. Prescription medications must contain the original pharmacy label.
4. — Over the counter medication must be kept in the originally labeled container and be labeled with the child's first and last name.
5. — In the case medication needs to be given on an ongoing, long term basis, the authorization and consent forms must be reauthorized on an annual basis. Any changes in the original medication authorization require a new written order by the prescribing practitioner and a change in the prescription label.
6. — Staff designated by the program director to give medications must complete the department approved medication administration training and have current annual delegation or more often as determined by the Child Care Health Consultant. Delegation must be from the center's Current Child Care Health Consultant who must observe and document the competency of each staff member involved in medication administration. All staff administering medication must have current department approved CPR, first aid training prior to administering medication with the following exceptions:
- a. — Staff determined by the program director, in consultation with the Child Care Health Consultant, to be responsible for providing routine emergency medications covered in the approved medication administration training for the treatment of severe allergies or inhaled medications for the treatment of asthma must receive training and delegation from their Child Care Health Consultant for those medications only. Staff must then provide those medications to children based on the instructions from the child's individualized health care plan.
 - b. — Staff determined by the director, in consultation with the Child Care Health Consultant, to be responsible for providing medications not covered in the approved medication administration training must also be permitted to administer medications and/or medical treatments such as emergency seizure medication, insulin or oxygen with individualized training and delegation from the Child Care Health Consultant based on instructions from the child's individualized health care plan.
 - c. — Staff may be trained and delegated in the administration of a single rescue medication or rescue medical intervention by the center's Child Care Health Consultant. Such training and delegation must qualify the staff member to provide a rescue medication or treatment for a specific child based on instructions from the child's individualized health care plan.
7. — All medications, except those medications specified in the department's approved medication administration training as emergency medications, must be kept in an area inaccessible to children, but available to staff trained in administering medication. If refrigeration is required, the medication must be stored in either a separate refrigerator or a leak proof container in a designated area of a food storage refrigerator, separate from food and inaccessible to children. Controlled medications must be counted and

safely secured, and specific policies regarding their handling require special attention in the center's policies. Access to these medications must be limited (see section 12-22-318, C.R.S.).

8. ——— Emergency medications must be stored in accordance with the Child Care Health Consultant's recommendation. Emergency medications are not required to be stored in a locked area. Emergency medications may be stored in an area easily accessible and identifiable to staff but out of reach of children. When away from the classroom, staff must carry emergency medications in a bag on their person.

9. ——— A written medication log must be kept for each child. This log is part of the child's records. The log must contain the following:

a. ——— Child's name;

b. ——— Name of the medication, dosage, and route;

c. ——— Time medication is to be given;

d. ——— Special instructions;

e. ——— Name and initials of the individuals giving the medication; and

f. ——— Notation if the medication was not given and the reason.

10. ——— Topical preparations such as petroleum jelly and bug sprays may be administered to children with written parental authorization. These preparations may not be applied to open wounds or broken skin unless there is a written order by the prescribing practitioner.

11. ——— The center must have a written policy on the storage and access of inhalers and epinephrine auto injectors for all children in care. This policy must be reviewed by the Child Care Health Consultant.

12. ——— The center may, with written parental consent and authorization of the prescribing health care provider, permit children who have asthma to carry their own inhalers or children who are at risk of anaphylaxis to carry their own epinephrine, and use them as directed. The center must have a specific written policy on the storage and access of inhalers and epinephrine for children who are permitted to carry or self-administer these medications. The policy must include a contract with the parent(s)/guardian(s), and child acknowledgement, assigning levels of responsibility of each individual. This contract must accompany orders for the medication from the health care provider, along with confirmation from Child Care Health Consultant that the student has been instructed and is capable of self-administration of the prescribed medications.

13. ——— All staff members and Child Care Health Consultants must be aware of which children have asthma and severe allergies, and which of those may administer their own inhaler or auto injectors.

D. ——— Sun Protection

1. ——— The center must obtain the parent/guardian's written authorization and instructions for applying sunscreen or use of another form of parent/guardian approved sun protection. A health care provider's permission is not needed to use sunscreen at the center.

2. ——— When supplied for an individual child, the sunscreen must be labeled with the child's first and last name.

3. ——— If sunscreen is provided by the center, parents must be notified in advance, in writing, of the type of sunscreen the center will use.

4. ——— Children may apply sunscreen to themselves under the direct supervision of a staff member.

5. — The center must apply sunscreen, have the child apply sunscreen, have the parent or guardian apply sunscreen, or use another form of parent or guardian approved sun protection for children prior to children going outside. Sunscreen must be reapplied as directed by the product label.

E. — Control of Communicable Illness

1. — When children show signs of communicable illness, they must be separated from other children, the parent(s) or guardian(s) notified, and a doctor or medical facility consulted as needed regarding treatment.

2. — Staff members with a communicable illness must not be permitted to work or have contact with children or other staff members if the illness could be readily transmitted during normal working activities.

7.712.53 — Personal Hygiene

A. — Children with specific toileting needs

The center must have one or more designated change areas for all children in need of changing. The change area must:

1. — Meet a child's individual and developmental needs and be large enough to accommodate the size of the child;

2. — Have a place inaccessible to children for storing all change supplies and disinfecting solutions and products; and

3. — Have sufficient supplies.

7.712.54 — Food and Nutrition

A. — The center must show evidence that all meals and snacks provided by the center must meet current USDA child and adult care food program meal pattern requirements and be offered at suitable intervals. Children who are at the center for more than 4 hours, day or evening, must be offered a meal.

B. — Centers must not provide sugar sweetened beverages to children. These are liquids that have been sweetened with various forms of sugars that add calories and include, but are not limited to: soda, fruitades, fruit drinks, flavored milks, and sports and energy drinks.

C. — If 100% fruit juice, which is not a sugar sweetened beverage, is offered as part of meals and/or snacks, it must be limited to no more than twice per week.

D. — In centers that do not regularly provide a meal, if a child brings a meal from home that does not appear to meet current USDA child and adult care food program meal pattern requirements, the center must have foods available to offer as a supplement to that meal.

E. — Meal menus must be planned at least one week in advance, dated, and available to parents. After use, menus must be filed and retained for three (3) months. Records must be available for periodic review and evaluation.

F. — The size of servings must be suitable for the child's age and appetite, and sufficient time must be allowed so that meals are unhurried.

7.712.55 — GUIDANCE

- A. — Guidance must be appropriate and constructive or educational in nature and may include such measures as diversion, separation of the child from situation, talking with the child about the situation, or praise for appropriate behavior
- B. — Children must not be subjected to physical or emotional harm or humiliation
- C. — The director must not use, or permit a staff member or child to use, corporal or other harsh punishment, including but not limited to pinching, shaking, spanking, punching, biting, kicking, rough handling, hair pulling, or any humiliating or frightening method of discipline.
- D. — Guidance must not be associated with food, rest, or toileting. Children should never be punished for toileting accidents. Children must not be denied food or forced to eat as a disciplinary measure.
- E. — Separation, when used as guidance, must not exceed five minutes and must be appropriate for the child's age. The child must be in a safe, lighted, well-ventilated area and be within sight and hearing of an adult. The child must not be isolated in a locked or closed area.
- F. — Verbal abuse and derogatory remarks about the child are not permitted.
- G. — Authority for guidance must not be delegated to other children, and the center must not sanction one child punishing another child.
- H. — Physical exercise must not be used as a form of guidance.

7.712.56 — Transportation

A. — Transportation Provided by the Center

- 1. — The center is responsible for any children it transports.
- 2. — The center must obtain written permission from parents/guardians for any transportation of their child during child care hours.
- 3. — The number of staff members who accompany children when being transported in the vehicle must meet the child care staff ratio found at Section 7.712.43. The driver of the center vehicle is considered a staff member.
- 4. — Children must not be permitted to ride in the front seat of a vehicle unless they are secured in a seat belt that is safe and free from hazard. Children must remain seated while the vehicle is in motion.
- 5. — Children must be loaded and unloaded out of the path of moving vehicles.
- 6. — Children must not be permitted to stand or sit on the floor of a moving vehicle, and their arms, legs, and heads must remain inside the vehicle at all times.
- 7. — Transportation arrangements for school-age children must be by agreement between the center and the children's parents/guardians, i.e., whether the children can walk, ride a bicycle or travel in a car. The center must monitor the children to ensure they arrive at the center when expected and follow up on their whereabouts if they are late. Written permission from parents or guardians for their children to attend community functions after school hours must include agreements regarding transportation.
- 8. — Prior to a field trip or other excursion, the center must obtain information on liability insurance from parents/guardians and staff who transport children in their own cars and verify that all drivers have valid driver's licenses.

B. — Requirements for Vehicles

1. Any vehicle used for transporting children to and from the center or during program activities must meet the following requirements:

a. The vehicle must be enclosed and have door locks;

b. The seats of the vehicle must be constructed and installed according to the vehicle manufacturer's specifications;

c. The vehicle must be kept in satisfactory condition to assure the safety of occupants. Vehicle tires, brakes, and lights must be operational, safe and free of hazard; and

d. Modifications to vehicles including, but not limited to, the addition of seats and seat belts must be completed by the manufacturer or an authorized representative of the manufacturer. Documentation of such modifications must be available for review.

2. In passenger vehicles with a manufacturer's established capacity of sixteen (16) or fewer passengers and less than 10,000 pounds, the following is required:

a. Each child must be restrained in an individual seat belt or child restraint system;

b. The provider must not transport more children than any vehicle is able to safely accommodate when child restraint systems and seat belts are properly installed and used in the vehicle;

c. Lap belts must be secured low and tight across the upper thighs and under the belly; and

d. Children must be instructed and required to keep the seat belt properly fastened and adjusted.

3. In vehicles with a manufacturer's established capacity of sixteen (16) or more passengers, seat belts for passengers are not required, but must be used if provided.

C. Requirements for Drivers of Vehicles

1. All drivers of vehicles transporting children must operate the vehicle in a safe and appropriate manner.

2. All drivers of vehicles owned or leased by the center in which children are transported must have a current Department approved First Aid and safety certificate that includes CPR for all ages of children

3. In each vehicle used to transport children, drivers must have access to a First Aid kit.

4. The driver must ensure that all doors are secured at all times when the vehicle is moving.

5. The driver must make a good faith effort to ensure that each child is properly belted throughout the trip.

6. The driver must not eat or use a cellular or other mobile device while driving.

7. The required staff to child ratio must be maintained at all times.

8. All drivers must be at least 20 years of age.

9. Drivers must complete a minimum of four hours of driver training prior to transporting children. The driver training curriculum may be developed and administered by the center and must include at a minimum: behind the wheel training; participant transport attendance procedures, including taking attendance at the destination; managing behavioral issues; loading and unloading procedures; daily vehicle inspection procedures; proper tire inflation; emergency equipment and how to use it; accident procedures; passenger illness procedures; procedures for backing up; and vehicle evacuation.

7.712.6 PROGRAM ACTIVITIES

7.712.61 Activity Schedules

- A. The center must provide parents/guardians with a list of activities it offers.
- B. Parents or guardians must be given the opportunity to indicate to the staff of the center if they do not want their child to participate in an activity.
- C. Parents/guardians must be notified in advance of all activities that will occur away from the center.
- D. Television viewing, including videos, should not be permitted without the approval of a child's parents/guardians, who must be advised of the center's policy regarding television and video viewing.
- E. A mobile day camp program must establish a daily itinerary and make available a copy to each child's parent or guardian. A copy must also be on file at the program's headquarters. The itinerary should be followed as closely as possible. In case of an emergency or change in the itinerary, the headquarters of the mobile day camp must be notified immediately. Parents/guardians must be instructed to contact the main headquarters to determine the exact location of their child.

7.712.62 Physical Activity

- A. Daily physical gross motor activities, with or without equipment or materials, must be provided outdoors, or indoors during inclement weather, for no less than 60 minutes total for programs operating over five hours per day. Activities do not have to occur all at one time.
- B. Daily physical gross motor activities, with or without equipment or materials, must be provided outdoors or indoors during inclement weather, for no less than 30 minutes total for programs operating from three to five hours per day. Activities do not have to occur all at one time.
- C. Daily physical gross motor activities, with or without equipment or materials, must be provided outdoors or indoors during inclement weather, for no less than 15 minutes total for programs operating less than 3 hours per day. Activities do not have to occur all at one time.

7.712.63 Screen Time and Media Use

- A. All media that children are exposed to must not contain explicit language or topics.
- B. All television, recorded media, computer, tablet, cell phones, video games and other media devices are prohibited during snack or meal times except during a planned special occasion.
- C. The center must develop a media and internet usage plan outlining screen time and media use related to their curriculum. The media plan must have information on ongoing communication with children about safe online practices. The center must obtain a signed document stating that the parents/guardians have received this plan, and agree to the activities described in the plan.
- D. There is no time restriction for children using personal adaptive equipment or assistive technology.

7.712.64 Equipment and Materials

- A. In a building based school-age child care center, rest time and rest equipment must be provided for school-age children who require a rest time.
- B. Children at the center must have access to age-appropriate materials and equipment from at least the following categories:

1. ~~Activity supplies;~~
 2. ~~Manipulatives and games;~~
 3. ~~Recreation equipment;~~
 4. ~~Library items; and~~
 5. ~~Science equipment and materials.~~
- C. ~~Children must wear helmets when riding scooters, bicycling, skateboarding, or rollerblading.~~

7.712.65 ~~Field Trips~~

- A. ~~On a field trip or during a mobile school-age child care program:~~
1. ~~The center must notify the children's parents /guardians in advance of any field trip. The staff-child ratios found at section 7.712.43.C, D, I must be maintained at all times;~~
 2. ~~All groups of children must be directly supervised by a qualified program director or program leader at all times;~~
 3. ~~An accurate itinerary of each field trip must remain at the center;~~
 4. ~~The staff must have the following information about each child: parents/guardians contact information, health care provider's name, address, and phone number, and the written authorization from parent(s)/guardian(s) for emergency medical care.~~
 5. ~~If children attending the field trip require medications to be administered during the field trip or have special health needs, a staff member with current medication administration training and delegation must attend the field trip;~~
 6. ~~A list of all children and staff on a field trip must be kept at the center; and~~
 7. ~~A copy of the emergency disaster plan must accompany staff offsite.~~

7.712.7 BUILDING AND FACILITIES

7.712.71 ~~Facility Requirements~~

- A. ~~The mobile day camp program and the outdoor-based day camp program may use as a gathering place a public park or playground if the program primarily includes field trips away from the gathering place. Such programs must have a contingency plan for facilities to use during inclement weather. The plan must be available to parents/guardians on a daily basis.~~
- B. ~~If a room(s) inside a building are used for indoor care at least thirty (30) square feet of floor space per child is required. Indoor space is exclusive of kitchen, toilet rooms, office, staff rooms, hallways and stairways, closets, laundry rooms, furnace rooms.~~
- C. ~~When a building is being used during the summer months by a center specifically as a gathering place at the beginning and end of the day, the thirty (30) square feet requirement need not apply. The total amount of time during which the number of children present may exceed the thirty (30) square feet requirement must not exceed three (3) hours. This time must be divided evenly between the morning and the evening.~~

~~D. — The building based school-age child care center must provide access to an outdoor play area. The outdoor play area may be a city park or public school ground. The play area must meet the following requirements:~~

- ~~1. — The center must provide a total outside play area of at least seventy-five (75) square feet per child for a minimum of one-third of the licensed capacity of the center or a minimum of 1500 square feet, whichever is greater;~~
- ~~2. — Access to a shaded area, sheltered area, or inside building area must be provided at all times to guard children against the hazards of excessive sun and heat; and~~
- ~~3. — The outdoor play area must be maintained in a safe condition by removing debris, dilapidated structures, and worn and broken play equipment. The center must identify hazardous, high-risk areas. These areas must be monitored to reduce the possibility of injury and accidents.~~
- ~~4. — Outdoor play areas provided by the center must not have equipment that exceeds six (6) feet in height for any surface area intended for children's play unless equipped with a protective barrier to prevent children from falling.~~
- ~~5. — All outdoor climbing equipment over eighteen (18) inches provided by the center must have least six (6) inches resilient surface throughout the use zone.~~

7.712.72 — Toilet Facilities

- ~~A. — Children must be allowed the use of gender-segregated toilet facilities that are consistent with their gender identity, with toilets separated by partitions to provide privacy.~~
- ~~B. — There must be a minimum of one (1) toilet per thirty (30) or fewer children for which the center is licensed. Hand-washing facilities must be available at the ratio of one (1) sink per thirty (30) or fewer children. After April 1, 2018 all new construction must have a minimum of one (1) toilet and one (1) hand-washing sink per every fifteen (15) or fewer children for which the center is licensed.~~

7.712.73 — Fire and Other Safety Requirements

A. — General Requirements

- ~~1. — Buildings must be kept in good repair and maintained in a safe condition.~~
- ~~2. — Major cleaning is prohibited in rooms occupied by children.~~
- ~~3. — Volatile substances, such as gasoline, kerosene, fuel oil, and oil-based paints, firearms, explosives, and other hazardous items, must be stored away from the area used for child care and be inaccessible to children.~~
- ~~4. — Combustibles, such as cleaning rags, mops, and cleaning compounds, must be stored in well-ventilated areas separated from flammable materials and stored in areas inaccessible to children.~~
- ~~5. — Closets, attics, basements, cellars, furnace rooms, and exit routes must be kept free from accumulation of extraneous materials.~~
- ~~6. — All heating units, gas or electric, must be installed and maintained with safety devices to prevent fire, explosions, and other hazards. No open-flame gas or oil stoves, unscreened fireplaces, hot plates, or unvented heaters can be used for heating purposes. All heating elements, including hot water pipes, must be insulated or installed in such a way that children cannot come in contact with them. Nothing flammable or combustible can be stored within three (3) feet of a hot water heater or furnace.~~

7. — Indoor and outdoor equipment, materials, and furnishings must be sturdy, safe and free of hazards.

8. — Equipment, materials, and furnishings, including durable furniture such as tables and chairs, must be stored in a manner that is safe for children.

9. — Extension cords cannot be used in place of permanent wiring.

10. — Corridors, halls, stairs, and porches must be adequately lighted. Operable battery-powered lights must be provided in locations readily accessible to staff in the event of electric power failure.

B. — Fire Safety

1. — Every building and structure must be constructed, arranged, equipped, maintained, and operated so as to avoid undue danger to the lives and safety of its occupants from fire, smoke, fumes, or resulting panic during the period of time reasonably necessary for escape from the building or structure in case of fire or other emergency.

2. — Every building and structure must have at least two (2) approved, alternate means of egress from each floor of the building or to a common hallway leading to the exterior. They must be at different locations.

3. — Every exit must be clearly visible, or the route to reach it must be conspicuously indicated. Each path of escape must be clearly marked.

4. — In every building or structure, exits must be arranged and maintained so as to provide free and unobstructed egress from all parts of the building or structure at all times when it is occupied. Locks or fastening devices to prevent free escape from the inside of any building must not be installed. Only panic hardware or single action hardware is permitted on a door or on a pair of doors. All door hardware must be within the reach of children.

5. — If the building in which the center operates has a security lock on outside exit doors, the center must obtain written permission from the local fire department; and there must be a written sign attached to the door instructing staff that the security lock is not to be utilized when children are present and the center is in operation.

6. — Every building and structure must have an automatic or Department approved manually operated fire alarm system to warn occupants of the existence of fire or to facilitate the orderly conduct of fire exit drills.

7.712.8 RECORDS AND REPORTS

7.712.81 — Children's Records

A. — The center must maintain and update annually a record on each child that includes:

1. — The child's full name, age, current address, and date of enrollment;

2. — Names, home and employment addresses and telephone numbers, which may include cell phone numbers, and e-mail of parents/guardians if available;

3. — Any special instructions as to how the parents/guardians can be reached during the hours the child is at the center;

4. — Names and telephone numbers of persons other than parents/guardians who are authorized to take the child from the center;

5. — Names, addresses, and telephone numbers of persons who can assume responsibility for the child in the event of an emergency if parents/guardians cannot be reached immediately;
6. — Name, address, and telephone number of the child's physician, dentist, and hospital of choice;
7. — A complete health history including communicable diseases, chronic illnesses or injuries, immunization history, known drug reactions or allergies, medication records, special diet needs, and health care plans as required in 7.712.52.A.1;
8. — A dated written authorization for emergency medical care signed and submitted annually by the parent or guardian. The authorization must be notarized if required by the local health care facility;
9. — Written authorization from a parent or guardian for the child to participate in field trips and to participate in program activities, listing all exclusions from authorization;
10. — Written authorization from a parent/guardian for the center to transport the child to and from school, whether by walking or driving; and
11. — Reports of serious injuries and accidents occurring during care that result in medical attention, admission to the hospital, or death of a child.

7.712.82 — Staff Records

A. — The center office must maintain a record for each staff member, paid or volunteer, which includes the following:

1. — Name, address, and birth date of the individual;
2. — The date that the staff member was employed by the center;
3. — Name, address, and phone number of the person(s) to be notified in the event of an emergency;
4. — Verification of the staff member's certifications, qualifications and training requirements;
5. — Copies of written references or notes of phone references, as required by Section 7.712.41.D.1;
7. — Verification that a criminal record check with the Colorado Bureau of Investigation and federal bureau of investigation is in process, or a copy of the results of the staff member's criminal record check; and
8. — Verification that a review of the State Department's automated system for reporting child abuse and neglect has occurred or is in process.

B. — Each staff member's personnel file must contain all required information within thirty (30) working days of the first day of employment.

7.712.83 — Administrative Records and Reports

A. — The following records must be on file at the center:

1. — Records of enrollment, daily attendance for each child, and daily record of time child arrives at and departs from the center;
2. — Current health department child care inspection report issued for the assigned license number within the past two (2) years;
3. — Current fire department inspection report issued within the past two (2) years;

4. — A list of current staff members, substitutes, and staffing patterns.

B. — Each center must submit a report in writing to the Department using the online injury reporting system of any accident or illness occurring at the center that resulted in medical treatment by a physician or other health care professional, hospitalization, or death. This report must be made within twenty-four (24) hours after the accident or illness occurred.

C. — A report about a fatality must include:

1. — The child's name, birth date, address, and telephone number;

2. — The names of the child's parents or guardians and their address and telephone number if different from those of the child;

3. — Date of the fatality;

4. — Brief description of the incident or illness leading to the fatality;

5. — Names and addresses of witnesses or persons who were with the child at the time of death; and

6. — Name and address of police department or authority to which the report was made.

D. — The center must maintain records of reports of communicable illness made to the Colorado Department of Public Health and Environment or local public health agency.

E. — The center must submit to the Department as soon as possible but not longer than twenty-four (24) hours a written report about any child who has been separated from the group outside of the supervision of their assigned staff member or for whom the local authorities have been contacted. Such report must indicate:

1. — The name, birth date, address, and telephone number of the child;

2. — The names of the parents/guardians and their address and telephone number if different from those of the child;

3. — The date when the child was lost;

4. — The location, time, and circumstances when the child was last seen;

5. — Actions taken to locate the child; and

6. — The name of the staff person supervising the child.

7.712.84 — Confidentiality and Retention

A. — The center must maintain complete records of personnel and children as required at Sections 7.712.81, 7.712.82, and 7.712.83.

B. — The confidentiality of all personnel and children's records must be maintained (see Section 7.701.7, General Rules for Child Care Facilities).

C. — Personnel and children's records must be available, upon request, to authorized personnel of the Department.

D. — If records for organizations having more than one center are kept in a central file, duplicate identifying and emergency information for personnel and children must also be kept on file at the center attended by the child.

E. — The records of children must be maintained by the school-age child care center for at least three (3) years.

7.716 — COLORADO SCHOOL READINESS QUALITY IMPROVEMENT PROGRAM

The Colorado School Readiness Quality Improvement Program is part of the Colorado Shines quality rating and improvement system. The purpose of the program is to improve the school readiness of children, five (5) years of age or younger, who are cared for at early childhood education programs pursuant to Section 26-6.5-106, C.R.S.

7.716.1 DEFINITIONS

“Child” means a child five (5) years of age or younger.

“Children with identified risk factors” means children who have risks that affect their overall learning ability and kindergarten readiness, risks include, but are not limited to:

A. — A child with a disability or developmental delay under age five who has an individual family service plan (IFSP), an individualized education program (IEP) or medical care plan;

K. — Either parent of the child was less than eighteen years of age at the time of the birth of the child.

“Colorado Shines quality rating and improvement system” referred to as the “Colorado Shines system” shall measure the level of preparedness of, and quality services provided by, an early childhood education program to prepare children to enter elementary school.

“Early Childhood Council means an early childhood council identified or established locally in communities throughout the state, pursuant to Sections 26-6.5-103 and 26-6.5-106 for the purpose of developing and ultimately implementing a comprehensive system of early childhood services to ensure the school readiness of children five (5) years of age or younger in the community.

“Early childhood education program” means a licensed child care program pursuant to Part 1 of Article 6 of this Title 26 that provides child care and education to children five (5) years of age or younger.

"High quality rating" means a quality rating level of three (3), four (4), or five (5) within the Colorado Shines system.

"Intentional misrepresentation" means a deliberate and willful false representation by submission or omission from an individual or early childhood education program in an attempt to deceive in order to receive a higher Colorado Shines quality rating level. This includes but is not limited to the following:

- A. — A false statement of material fact;
- B. — Knowledge on the part of the individual that the statement and/or submitted document is untrue; or,
- C. — Intent of the applicant to deceive the state and all other agents working on behalf of the state.

"State Department" or "State" means the Colorado Department of Human Services.

7.716.2 APPLICATION FOR FUNDING

A. — An early childhood council seeking school readiness quality improvement program funds must apply directly to the state department through a formal procurement process that ensures an equitable distribution between rural and urban communities.

B. — To be eligible to receive school readiness quality improvement program funds through the Colorado Shines system, an early childhood council must:

- 1. — Apply on behalf of the designated service area it represents.
 - 2. — Prepare and submit to the state department a three (3) year school readiness plan that includes, at minimum:
 - a. — A narrative that demonstrates the need to improve quality and increase the capacity of early childhood education programs in its service area, and,
 - b. — Strategies developed in partnership with community partners to include, at minimum, county departments of human or social services, for how the early childhood council will target and recruit early childhood education programs that are rated in the Colorado Shines system at a level two (2) or higher or that are licensed programs with demonstrated hardship that are actively working toward achieving Colorado Shines system level two (2) rating to:
 - i. — Increase the access and availability of high quality child care for children participating in the Colorado Child Care Assistance Program created in Part 8 of Article 2 of Title 26;
 - ii. — Target quality improvement funding to improve the level of quality at participating early childhood education programs; and,
 - iii. — Promote family involvement as aligned to the family engagement quality indicator within the Colorado Shines quality rating and improvement system framework.
 - 3. — The early childhood council must execute a memorandum of understanding with participating early childhood education programs to secure the program's commitment to engage in the Colorado Shines system and improve quality.
 - 4. — The early childhood council must make provisions to prioritize the distribution of quality improvement funding to early childhood education programs that serve children with identified risk factors.
- C. — The state department shall contract with an existing early childhood council to implement the school readiness quality improvement program:

1. In areas of the state that are not covered by an early childhood council; and,
2. In cases where the early childhood council that covers a particular area of the state did not apply.

7.716.3 EARLY CHILDHOOD EDUCATION PROGRAM ELIGIBILITY CRITERIA

A. Early childhood education programs are eligible for quality improvement funding if participating in the Colorado Shines quality rating and improvement system:

B. Quality improvement funds shall only be awarded to early childhood education programs that meet the following criteria:

1. Rated in the Colorado Shines system at a quality level two (2) or higher and meets the Colorado Shines quality improvement eligibility criteria, as defined within the business rules of the current early childhood council contract with the state; or,
2. Rated in the Colorado Shines system at a quality level one (1) with a demonstrated hardship that requires additional resources in order to reach a quality level two (2); and,
3. Upon award, execute a memorandum of understanding with the early childhood council serving the early childhood education program.

C. Participating early childhood education programs will become ineligible if they are:

1. In receipt of a notice of child care license revocation or suspension;
2. Under review or determined to have committed intentional misrepresentation as defined in Section 7.716.1;
3. Not compliant with memorandum of understanding executed between the early childhood council and the early childhood education program; or,
4. Not compliant with improvement in ratings in Section 7.716.5.

7.716.4 COLORADO SHINES QUALITY RATING AND IMPROVEMENT SYSTEM

A. The Colorado Shines quality rating and improvement system measures the level of preparedness of and quality services provided by an early childhood education program in the following five (5) standard areas:

1. Workforce qualifications and professional development;
2. Family partnership;
3. Leadership, management, and administration;
4. Learning environment; and,
5. Child health.

B. The Colorado Shines system shall:

1. Measure elements of quality at an early childhood education program;
2. Be supported by statistically valid research as a reliable measure of quality of an early childhood education program;

3. ——— Include a quality improvement plan that informs participating early childhood education programs of their strengths and opportunities and provides early childhood education programs with strategies to improve the quality of their services;
4. ——— Demonstrate effectiveness at improving the level of quality of providers in geographically diverse Colorado communities; and,
5. ——— Be variable to inform parents, counties, and other purchasers of early childhood care and education about the level of quality at an early childhood education program in a simple and easy-to-understand manner.

7.716.5 IMPROVEMENT IN RATINGS

- A. ——— To be eligible for quality improvement funds, early childhood education programs are required to participate in the Colorado Shines quality rating system with the goal to earn and/or maintain a high-quality rating.
- B. ——— To maintain eligibility for funding, participating early childhood education programs must demonstrate specific and measurable gains at the conclusion of each consecutive Colorado Shines rating as follows:
 1. ——— Early childhood education programs that complete an onsite Colorado Shines assessment and do not achieve a high quality rating must re-rate within an eighteen (18) month time period.
 2. ——— Early childhood education programs that earn a quality rating level three (3) must meet one of the following criteria to maintain eligibility for funding:
 - a. ——— Increase their average environment rating scale score;
 - b. ——— Increase their total quality points earned; or,
 - c. ——— Earn a quality rating level four (4) or five (5).
 3. ——— Early childhood education programs that earn a quality rating level four (4) or five (5) must maintain either a level four (4) or level five (5).
 4. ——— Early childhood education programs that do not maintain a high quality rating level during a rating cycle, must re-rate within an eighteen (18) month time period in order to remain eligible.

7.716.6 PUBLIC ACCESS TO RATINGS

- A. ——— Once final, the state department publishes the early childhood education program's quality rating information on the Colorado Shines quality rating and improvement system website.
- B. ——— Quality rating information is provided in plain language and includes the child care licensing reports of inspection for each early childhood education program.

7.716.7 DISPUTE RESOLUTION

- A. ——— The state department, through the Division of Early care and Learning, shall provide for an informal dispute resolution process to include a consultation and appeal process, through the Colorado Shines system.
- B. ——— Early childhood education programs shall be notified of the dispute resolution process by the Colorado Shines system rating administrator when participating in the post-rating assessment-consultation, information is additionally located within the online program portal.

- C. — Early childhood education programs must request a post-rating assessment consultation within thirty (30) calendar days of receiving their assessment results and prior to submitting an appeal.
- D. — Early childhood education programs must submit a written formal request for an appeal and all relevant documentation within ten (10) calendar days of receiving its post-rating assessment consultation.
- E. — The formal appeal of the early childhood education program's assessment will be reviewed by the Colorado Shines assessment advisory committee, which determines whether or not errors have occurred and will adjust program scores, if warranted.
- F. — A formal appeal of the early childhood education program's assessment, all calculations will be based on the information gathered during the rating window.
1. — Early childhood education programs are responsible for submitting any relevant data to the Colorado Shines system rating administrator within ten (10) calendar days of the post-rating assessment consultation.
 2. — Changes in the early childhood education program, such as the hiring of new staff that happened after the close of the rating window, will not be considered in the rescoring process.
- G. — The Colorado Shines assessment advisory committee shall notify early childhood education programs of its decisions within ten (10) business days of the meeting at which the request for review was conducted.

7.717 — EARLY CHILDHOOD COUNCILS

Each Early Childhood Council, whether newly established in a community or newly identified to serve as a council, shall work toward consolidating and coordinating funding. Together, the Early Childhood Councils throughout the state shall serve to create a seamless system of early childhood services representing collaboration among various public and private stakeholders for the effective delivery of early childhood services in the areas of early care and education, family support, mental health, and health. These services shall support children eight (8) years of age or younger and their parents in a manner that is responsive to local needs and conditions.

7.717.1 DEFINITIONS

“Children” means children eight (8) years of age or younger.

“County department” means the county Department of Human Services or Social Services.

“Early care and education provider” is a required Early Childhood Council membership stakeholder group that includes, but is not limited to, a licensed and legally exempt child care provider; Head Start grantee; or district preschool program representative.

“Early Childhood Council” means a council identified or established locally in communities throughout the state, either as a community consolidated child care services pilot site agency that existed prior to May 31, 2007 or pursuant to § 26-6.5-103, C.R.S., that represents public and private stakeholders for the purpose of developing and ultimately implementing a comprehensive system of early childhood services for children in the community to ensure school readiness. A council may be an Early Childhood Care and Education Council so long as no more than one council exists in a given service area.

“Early Childhood Council membership” means the members of a voting body of an Early Childhood Council with governing authority over all of the council's duties enumerated in § 7.717.5.

“Family support and parent education services” is a required Early Childhood Council membership stakeholder group that includes, but is not limited to, a representative from a home visitation program; family resource center; or income assistance program.

~~“Resource and referral agency” is a required Early Childhood Council membership stakeholder group that includes, but is not limited to, a representative from a child care resource and referral agency or other agency that provides this support for parents with children eight (8) years of age or younger.~~

~~“State Department” means the Colorado Department of Human Services.~~

7.717.2 CREATION AND RECONFIGURATION PROCESSES

~~A. — To create a new Early Childhood Council or reconfigure an existing Early Childhood Council, the Board(s) of Commissioners in the applicable county or counties must first designate a convening entity. This convening entity may be, but is not limited to, the following agency types:~~

- ~~1. — A local resource and referral agency;~~
- ~~2. — A County Department of Human Services or Social Services;~~
- ~~3. — A local school district;~~
- ~~4. — Department of Public Health; or,~~
- ~~5. — A Colorado Preschool Program Council.~~

~~B. — The convening entity shall convene an Early Childhood Council, either as part of a single county or as part of a multi-county regional network, by submitting an application to the state department under paragraph E.~~

~~C. — The convening entity shall initially approve the Early Childhood Council membership, ensuring the mandatory stakeholders listed in § 7.717.4 are included.~~

~~D. — Existing Early Childhood Councils may apply to merge or reconfigure under § 7.717.2. A reconfigured council replaces the councils named in the application to reconfigure.~~

~~E. — A convening entity’s application for an agency applying to be newly identified as a council or an existing Early Childhood Council(s) applying to be a newly created and reconfigured council shall designate, at minimum, the following information:~~

- ~~1. — An intended service area that complies with § 7.717.3;~~
- ~~2. — The county or counties involved with the council;~~
- ~~3. — The participating Early Childhood Council members that includes stakeholders required by § 7.717.4;~~

4. — The designated fiscal agent; and,

5. — Signatures of the Chair or Chairs of the Board or Boards of County Commissioners of all counties involved in the council, the legal signatory for the counties, and the president of any school district Board of Education involved in the council.

F. — The State Department's approval of an Early Childhood Council's application under § 7.717.6, does not guarantee funds to that council.

7.717.3 SERVICE AREA

A. — To the extent practicable, a service area of an Early Childhood Council shall be representative of the various public and private stakeholders in the local community who serve children.

B. — Early Childhood Council's service area may include more than one county.

C. — No two Early Childhood Councils may cover the same service area.

[Editor's Notes follow the text of the rules at the end of this CCR Document.]

Adopted: 10-2-75, 11-12-92, 12-9-93, 3-6-08

Attorney General Opinion: 11-21-75, 12-15-92, 12-17-93

Statutory Authority: 22-45-101, 22-45-102, 22-45-103, 22-30.5-104, 22-30.5-503, 22-2-107(1)(c), 22-30.5-603, 22-44-206, C.R.S.

2245-R-1.00 Applicability.

The rules stated herein shall apply to Colorado public school districts, the charter school institute, charter schools, charter school collaboratives, and boards of cooperative educational services.

2245-R-2.00 No Tax Authority.

Establishment of a fund under these rules confers no authority to levy a tax for the purpose of the fund, except as otherwise established by statute.

2245-R-3.00 Funds and Accounts Structure.

The local board of education shall establish within the funds and accounts structure stated herein those local school district funds and accounts necessary to meet legal requirements, Colorado Department of Education (CDE) reporting requirements, and generally accepted principles of governmental accounting. In addition to the funds created in statute (Section 22-45-103, C.R.S.), the following funds are available for school district financial accounting and reporting.

- 3.01 Charter school fund. Used to track revenues and expenditures of charter schools. The district is not required to include charter school transactions in its financial database for normal day-to-day operations. However, charter school transactions must be included in the district's database in the financial reporting system pursuant to Section 22-44-105(4)(a), C.R.S. for reporting purposes.
- 3.02 Universal Preschool Program (UPK)/Colorado Preschool Program (CPP) Sub-Fund of the General Fund. An optional fund, if used, this fund allows a district to separate the UPK/CPP accounting and maintain a self-balancing set of records specific to the UPK/CPP requirements for allocations. Used to account for the purposes and limitations specified by Section 22-28-108(5.5), C.R.S. and Section 26.5-4-208, C.R.S.
- 3.03 Special Revenue Funds. The special revenue funds established by the local board of education are used to account for the proceeds of specific revenue sources, other than debt service or

Colorado State Board of Education

capital projects, that are legally restricted or committed to expenditure for specified purposes. Governmental designated-purpose grants may be accounted for in special revenue funds. The general fund portion of blended component units may be accounted for in special revenue funds.

3.03(1) Food Service Funds. A separate fund shall be maintained for the food service program, in order to identify all allowable and reportable expenditures and revenues related to the federal grant program.

3.03(2) The food service fund is a special revenue fund that shall be used to account for all reportable and allowable revenues, expenditures, and other sources and uses of food service transactions funded in part or in whole through the United States Department of Agriculture programs including, but not limited to: School Breakfast Program (CFDA 10.553); National School Lunch Program (CFDA 10.555); Special Milk Program for Children (CFDA 10.556); Summer Food Service Program for Children (CFDA 10.559); and Federal Fresh Fruit and Vegetable Program (CFDA 10.582) as well as food service transactions funded in part or in whole through the State of Colorado including, but not limited to: Healthy School Meals for All, Start Smart Nutrition Program; and Child Nutrition School Lunch Protection Program.

3.03(3) A school food authority must use the food service special revenue fund for all food service transactions. A district that is not a school food authority must not use the food service special revenue fund.

3.03(4) As stated in Section 22-32-120, C.R.S., the food service fund shall be operated as nearly as practicable on a nonprofit basis. Districts are encouraged to consider the appropriate levels of reserves in the food service fund through the budget process in consultation with the district official responsible for the operation of the district's food service program participating in the School Breakfast and/or National School Lunch Program(s).

3.03(5) Food service funds shall not be used to pay salaries or wages for dining room supervision.

3.03(6) For each school year, indirect costs or direct charging of indirect cost items may be recovered from the food service fund, but shall be limited to that amount established by the approved unrestricted indirect cost rate as determined by CDE under the federal indirect cost rate agreement.

3.03(6)(a) School Food Authorities must submit a proposal to CDE for review and approval for the initial year of charging indirect costs to the nonprofit food service account.

3.03(7) Capital equipment purchases must be made based upon the CDE approved equipment list or prior approval process. As stated in Section 22-32-120(2), C.R.S., capital outlay and equipment rental costs shall not be included in computing the cost of reimbursable school meals served.

3.03(8) Net cash resources must be limited to three months average expenditures based upon a nine-month operating year. Net cash resources is defined as current assets less current

Colorado State Board of Education

liabilities, except that current assets shall not include the value of inventories and prepaid expenditures for the purpose of computing net cash resources.

- 3.03(9) As stated in Section 22-32-120(1)(a), C.R.S., food service facilities shall be deemed to be an integral part of the district and shall be maintained, operated and governed in the same manner as the schools of the district. As such, expenditures including but not limited to new kitchens with new equipment related to new school construction and to major renovations of school facilities are the responsibility of the district from other district funding sources.
- 3.03(10) Any unexpended and unencumbered moneys remaining in the fund at the end of a fiscal year must remain in the funds, shall be used for the support of the food service program pursuant to these rules, and shall not be used for any other purpose.
- 3.04 Pupil Activity Funds. The pupil activity funds may be used to account for revenues and expenditures related to school-sponsored pupil activities supported by revenues from pupils, gate receipts, or fund-raising sources. The pupil activity funds are accounted for as special revenue funds or fiduciary (trust and agency) funds, depending on their purpose and source of funding.
- 3.05 Building Fund. The building fund shall be used to account for the proceeds of bond sales, revenues from other sources, and capital expenditures for land or existing buildings, improvements of grounds, or replacement of equipment as authorized by the local board of education. The building fund is accounted for as a capital projects fund.
- 3.05(1) Proceeds from the sale of bonds remaining after the completion of the project for which such bonds were authorized may be transferred to the bond redemption fund or in the event all bonds have been redeemed, to the general fund.
- 3.06 Enterprise Fund. Enterprise funds may be used to account for revenues and expenses for activities that are financed and operated in a manner similar to private business enterprises.
- 3.07 Internal Service Fund. The internal service funds may be used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the school district, or to other school districts, on a cost-recovery basis.
- 3.08 Fiduciary (Trust and Agency) Funds. The trust and agency funds may be used to account for money and property held by the school district in a trustee capacity or as an agent for individuals, private organizations, and/or other governmental units.
- 3.08(1) A private-purpose trust fund may be used to report any trust arrangement under which the principal and/or income benefit individuals or organizations and the funds are not used as part of the operations of the district.
- 3.08(2) An agency fund may be used to account for assets held for other governments, private organizations, or individuals. Agency funds generally serve as clearing accounts.
- 3.09 Permanent fund. The GASB 34 permanent fund is a governmental fund type used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs.

Colorado State Board of Education

- 3.10 Foundations. The district will report foundation activity in fund 85 in the financial reporting system pursuant to Section 22-44-105(4)(a), C.R.S., and will indicate that the audit reflects this activity in a specific fund based on the purpose of the foundation.
- 3.11 Certificate of Participation (COP) Debt Service Fund. A debt service type fund may be established to allow school districts to account for the accumulation of resources and payment of principal, interest, and related expenses on any COP debt.

2245-R-4.00 Statement of Basis and Purpose.

Conforms these regulations to the Accounting and Reporting Law and the School District Budget Law, as amended through the 2007 legislative session. The basis for these rules is found in Article 2 of Title 22, Article 30.5 of Title 22 and Article 45 of Title 22.

- 4.01 Statement of Basis and Purpose. The basis for these rules is found in C.R.S. Article 45 of Title 22, Accounting and Reporting; Article 30.5 of Title 22, Charter Schools, as well as in Section 22-2-107(l)(c) which relates to the duties of the state board of education. The Accounting and Reporting law identifies eight funds to be used by school districts in financial accounting and reporting and specifies conditions and requirements regarding the use of these funds. The funds are: General Fund, Bond Redemption Fund, Capital Reserve Fund, Special Building and Technology Fund, Risk Management Reserves, Transportation Fund, Preschool and Kindergarten Program Fund, and Full-day Kindergarten fund.

Article 45 allows the authorization through regulation of additional funds by the state board of education. These regulations authorize nine additional funds for use by school districts in financial management and reporting. Generally accepted principles of governmental accounting permit the use of these funds.

- 4.02 Statement of Basis and Purpose amendments. The 2010 changes to the rules are due to statutory amendments in HB 08-1388 and SB 10-161, modifications to Governmental Accounting Standards (Statement No. 54), and procedural changes by the U.S. Department of Agriculture (elimination of the separate commodity coding).

The Accounting and Reporting law identifies seven funds to be used by school districts in financial accounting and reporting and specifies conditions and requirements regarding the use of these funds. The funds are: General Fund, Bond Redemption Fund, Capital Reserve Fund, Special Building and Technology Fund, Risk Management Reserves, Transportation Fund, and Full-day Kindergarten Fund.

Article 45 allows the authorization through regulation of additional funds by the state board of education. These regulations authorize ten additional funds for use by school districts in financial management and reporting. Generally accepted principles of governmental accounting permit the use of these funds.

- 4.03 Statement of Basis and Purpose for Amendments. The 2012 amendment to these rules are in response to recommendations from the Financial Policies and Procedures Advisory Committee to designate a Debt Service Type Fund that will allow school districts to account for the accumulation of resources and payment of principal, interest, and related expenses on any non-voter approved debt.

Colorado State Board of Education

- 4.04 Statement of Basis and Purpose for Amendments. The 2015 amendments to these rules are in response to recommendations from the Financial Policies and Procedures Advisory Committee to change the food service fund from an enterprise fund to a special revenue fund. Additionally, the 2015 amendments incorporate rules related to the food service fund which were previously included in 1 CCR 301-3 Food and Nutrition Services into these rules and makes appropriate updates and clarifications to assist school districts in complying with federal and state law and regulations pertaining to food and nutrition service operations and to preserve and protect the fiscal integrity of food and nutrition service operations in school districts.
- 4.05 Statement of Basis and Purpose for Amendments. The 2025 amendments to these rules are based on recent statutory changes including adding references for the Universal Preschool Program and the Healthy School Meals for All Program, removing references for the Breakfast After the Bell Nutrition Program, and providing for a review process for the initial year of charging indirect costs.

RULES FOR THE ADMINISTRATION OF THE PUBLIC SCHOOL TRANSPORTATION FUND

1 CCR 301-14

[Editor's Notes follow the text of the rules at the end of this CCR Document.]

0.0 Statement of Basis and Purpose.

The basis for these rules is found in Article 51 of Title 22, CRS. The state board has the responsibility to establish rules and regulations to implement the provisions of this article.

The purpose of these rules is to:

Establish regulations and procedures for administration of the public school transportation fund.

Establish regulations and procedures regarding the determination of current operating expenditures, mileage count and revenues received by district and institute charter schools for providing pupil transportation.

1.0 Definition of Terms

- 1.1 "Capital Outlay" means an expenditure in excess of \$10,000 and with a useful life of more than one year, for pupil transportation vehicles or facilities.
- 1.2 "Department" means the Colorado Department of Education.
- 1.3 "District" means any public school district organized under the laws of Colorado.
- 1.4 "Local Board of Education" means the board of education of a district or the governing board of an institute charter school.
- 1.5 "Pupil" means a person under age 21 as of the official mileage count date who has not met the graduation requirements of his/her district and institute charter school as of the official mileage count date.
- 1.6 "Pupil Transportation Vehicle" means every motor vehicle that is owned by a school district and institute charter school, charter school, or service provider and operated, rented, or leased for

the transportation of students to and from school, from school to school, or to school- related events, or which is privately owned and operated for compensation provided that such transportation service is sponsored and approved by the local Board of Education or schools governing body and operating within the State of Colorado.

1.7 “State Board” means the Colorado State Board of Education.

1.8 "Legal residence", for purposes of these rules only, means the location at which the pupil dwells within the district and institute charter school claiming reimbursement for that student.

1.8 (a) A pupil for whom legal residence within the district and institute charter school claiming reimbursement cannot be established, may be included if the student is identified as homeless or runaway using guidelines established under the McKinney-Vento Act by the district and institute charter school as of the count day.

2.0 General

2.1 The Department shall prepare necessary forms and appropriate directions related thereto, which a district and institute charter school shall use to provide the data required by the Department to meet its responsibilities relating to the administration of the Public School Transportation Fund.

2.01(1) A district and the Colorado Charter School Institute annually shall submit a form CDE-40 no later than September 15 to be eligible to receive reimbursement from the Public School Transportation Fund for prior year’s pupil transportation costs.

3.0 Official Mileage Count Date

3.1 The official mileage count date shall be the same as the pupil enrollment count date, as defined in section 22-54-103 (10.5) (a), C.R.S.

3.2 Determination of the official mileage count date shall not be affected by a district and institute charter school’s decision to not have a school day on the official mileage count date as defined above.

4.0 Current Operating Expenditures

4.1 The term “current operating expenditures” means actual expenditures, not including encumbrances, incurred during the entitlement period by a district and institute charter school in transporting pupils from home to school, school to school, and school to home, both in state and to and from an adjoining state border.

4.01(1) A district and institute charter school shall include employment costs of pupil transportation vehicle drivers including Public Employee's Retirement Association (PERA) and/or other retirement plan costs, and health and other fringe benefits.

4.01(2) A district and institute charter school shall include employment costs of personnel paid exclusively for pupil transportation supervision and support services, including Public Employee's Retirement Association (PERA) and/or other retirement plan costs, and health and other fringe benefits.

4.01(3) A district and institute charter school shall include a percentage of employment costs of personnel with non-pupil transportation responsibilities as well as specific pupil transportation responsibilities, including Public Employee's Retirement Association (PERA) and/or other retirement plan costs, and health and other fringe benefits.

4.01(4) A district and institute charter school shall include expenditures for professional development directly related to pupil transportation.

4.01(4)(a) A district and institute charter school may include expenditures directly related to the cost of attending annual state or national school transportation workshops or conferences, including registration fees and related travel expenses.

4.01(4)(b) A district and institute charter school shall not include expenditures for awards, banquets or ceremonies, or other types of employee recognition.

4.01(4)(c) A district and institute charter school shall not include expenditures for workshops or conferences related to advertising or other non-pupil transportation topics.

4.01(5) A district and institute charter school shall include insurance premiums related to pupil transportation and prorated insurance pool contributions equivalent to commercial insurance premiums. In addition, a district and institute charter school may include the equivalent commercial insurance premium value of a self- insurance program contribution prorated to reflect the pupil transportation insurance costs. A district and institute

charter school may include the net cost of self-insured repairs and self-insured replacement.

4.01(6) If a school district and institute charter school contracts to furnish transportation for another school district and institute charter school, the district and institute charter school furnishing the transportation shall include operation expenses.

4.01(7) A district and institute charter school shall include costs of contracts with independent contractors providing pupil transportation less a calculated amount for capital outlay.

4.01(7)(a) The department shall base its calculation of the capital outlay amount on the contractor's acquisition cost of pupil transportation vehicles less than ten years old and on the percentage of total vehicle use attributable to the district and institute charter school.

4.01(8) A district and institute charter school shall include costs of contracts with commercial transportation carriers subject to the cost of federal regulations, title 49, parts 390 to 397, or successor regulations thereto to provide pupil transportation pursuant to section 22-51-104(c), CRS.

4.01(8)(a) The department shall calculate the portion of this contract to be included in the current operating expenditures pursuant to section 22-51-104(1)(c).

4.01(9) A district and institute charter school shall include reimbursements to pupils who use public transportation services pursuant to section 22-51-102(1)(a), CRS.

4.01(10) A district and institute charter school shall include payments to other school district and institute charter schools for the purpose of furnishing pupil transportation.

4.01(11) A district and institute charter school shall include payments to district and institute charter school-approved persons for providing pupil transportation due to the absence of a district and institute charter school-approved established bus route. The total reimbursement entitlement attributable to district and institute charter school approved persons shall not exceed the amount actually paid to district and institute charter school-approved persons.

4.01(11)(a) A district and institute charter school-approved person shall not be considered an independent contractor if he/she transports only him/herself or members of his/her immediate family to or from school, or between schools.

4.01(12) A district and institute charter school shall include fuel and oil for pupil transportation vehicles.

4.01(13) A district and institute charter school shall include costs of supplies, materials, and other expendable non-capital outlay items utilized by the district and institute charter school in direct support of pupil transportation services.

4.01(14) A district and institute charter school shall include repair and maintenance costs of a pupil transportation vehicle only to the extent of restoration to original condition and/or mandatory condition.

4.01(15) A district and institute charter school shall include repair and maintenance costs of equipment and facilities used for pupil transportation only to the extent of restoration to original condition.

4.01(16) A district and institute charter school shall include the cost of the following types of additions or alterations to pupil transportation vehicles.

1. manual transmission to automatic transmission
2. gas engine to diesel engine or alternative fuel
3. reflective tape on the outside of vehicle
4. state-of-the-art auxiliary braking systems for purposes of supplementing service brake systems of school buses
5. heated mirrors
6. engine compartment noise reduction package (diesel engine in front engine transit only)
7. passenger seatbelts
8. air brake drying system
9. mirror system to provide a seated driver an unobstructed view of the front and front sides of a bus
10. wheelchair lifts and other special modifications which are necessary for a specially equipped school bus designed, equipped, and/or modified to accommodate students with special transportation needs.
11. automatic tire chains
12. video surveillance cameras (internal and/or external to the vehicle)

13. global positioning system (GPS) equipment
14. emergency equipment, including but not limited to fire extinguishers, first aid kits, emergency reflectors, body fluid cleanup kits, and durable webbing cutters.
15. routing software
16. other additions or alterations with prior written approval by the department which increase efficiency and safety or are necessary to meet minimum standards.

4.01(16)(a) A district and institute charter school shall own any pupil transportation vehicle to be added to or altered for a minimum of three years in order for the costs of additions or alterations to be reimbursable.

4.01(16)(b) A district and institute charter school shall request and receive from the department prior written approval of additions or alterations to a pupil transportation vehicle not specifically listed in rule 4.01(16) in order for the cost to be reimbursable. The Department may request necessary information from the district and institute charter school for use in making a determination for approval or disapproval.

4.01(16)(c) The Department shall inform a district and institute charter school in writing of approvals and disapprovals of reimbursable additions and alterations to vehicles.

4.01(16)(d) A district and institute charter school shall retain the written approval provided by the Department for a specific addition or alteration to a pupil transportation vehicle with the other records substantiating the reimbursement claim of the district and institute charter school for five years or until an audit by the department, whichever occurs first.

4.01(17) A district and institute charter school shall not include expenditures, including rent, lease or lease purchase, for all capital outlay items except those additions and alterations to vehicles specifically listed in rule 4.01(16).

4.01(18) A district and institute charter school shall not include expenditures for school field trips, extracurricular trips, or athletic trips.

4.01(19) A district and institute charter school shall not include liability claims incurred and paid by the district and institute charter school associated with providing pupil transportation.

4.01(20) A district and institute charter school shall not include expenditures relating to any district and institute charter school vehicle not used for the specific purpose of pupil transportation.

4.01(20)(a) A district and institute charter school shall not include expenditures relating to elderly transportation services.

4.01(20)(b) A district and institute charter school shall not include expenditures relating to recreational district and institute charter school transportation services.

4.01(20)(c) A district and institute charter school shall not include expenditures relating to advertising.

4.01(21) A district and institute charter school shall not include any other expenditure not specifically identified above in 4.01.

5.0 Revenues Received Through the Operation of the Pupil Transportation Program

5.1 A district and institute charter school shall reduce its reported current operating expenditures by the amount of summer school and pre-school program revenues received for pupil transportation.

5.2 A district and institute charter school shall reduce its reported current operating expenditures by the amount of revenues received from other school district and institute charter schools through contracts to furnish pupil transportation.

5.3 A district and institute charter school shall reduce its reported current operating expenditures by the amount of revenues received from federal sources for pupil transportation.

5.4 Since a district and institute charter school does not include expenditures resulting from non-pupil transportation activities per rule 4.01(20), a district and institute charter school shall not reduce its reported current operating expenditures by the amount of revenues received for non-pupil transportation activities.

5.04(1) A district and institute charter school shall not reduce its reported current operating expenditures by the amount of revenues received from the elderly for transportation services.

5.04(2) A district and institute charter school shall not reduce its reported current operating expenditures by the amount of revenues received from recreational district and institute charter schools for transportation services.

5.04(3) A district and institute charter school shall not reduce its reported current operating expenditures by the amount of revenues received for advertising on any transportation vehicles.

5.5 A district and institute charter school shall not reduce its reported current operating expenditures by the amount of revenues received from the state public school transportation fund.

5.6 A district and institute charter school shall not reduce its reported current operating expenditures by the amount of revenues received from fees imposed and collected for pupil transportation pursuant to a resolution adopted by a local board of education in accordance with the provisions of section 22-32-113(5), CRS.

5.7 A district and institute charter school shall not reduce its reported current operating expenditures by the amount of revenues received from a transportation levy approved at an election for the purpose of recovering excess pupil transportation costs pursuant to 22-40-102(1.7), CRS.

6.0 Mileage Count Reporting

6.1 A district and institute charter school shall report its total mileage scheduled to be traveled by pupil transportation vehicles on the official mileage count date in transporting all pupils enrolled in its schools.

6.01(1) A district and institute charter school shall report scheduled mileage to and from a pupil's legal residence and school in which the pupil is enrolled, both in-state and to and from an adjoining state border.

6.01(2) A district and institute charter school shall report scheduled mileage to and from a pupil's legal residence and school in which the pupil is enrolled, including mileage for loaded and unloaded pupil transportation vehicles.

6.01(3) A district and institute charter school shall report scheduled mileage between two or more schools in which pupils are regularly

enrolled and which pupils are required to attend as a part of their scheduled programs.

6.01(4) A district and institute charter school shall report actual mileage traveled by a district and institute charter school approved person due to the absence of a district and institute charter school-approved established bus route, if the district and institute charter school reimburses said district and institute charter school-approved person for such pupil transportation services.

6.01(5) District and institute charter schools with scheduled routes as of the count day that vary by more than three days from the amount reported in 7.01(3) shall calculate a weighted average (split calendar calculation) of the total scheduled mileage for these routes.

- 6.2 A district and institute charter school shall report its total scheduled miles as defined above if the district and institute charter school operates a year-round school calendar at a school or schools within the district and institute charter school. The mileage count for year-round schools shall include only unique routes that are traveled specifically for the year-round program.
- 6.3 A district and institute charter school paying another district and institute charter school for pupil transportation services shall report miles traveled by the district and institute charter school providing the pupil transportation services.
- 6.4 A district and institute charter school shall not include in its reported scheduled mileage miles traveled for the purpose of providing pupil transportation for the pupils of another district and institute charter school.
- 6.5 A district and institute charter school shall not include in its reported scheduled mileage miles traveled for school field trips, extracurricular trips, or athletic trips.
- 6.6 A district and institute charter school shall not include in its reported scheduled mileage miles traveled in trips which are not for the purpose of transporting pupils from home to school, school to school, or school to home.

6.06(1) A district and institute charter school shall not include in its reported scheduled mileage miles traveled for transportation services for the elderly.

6.06(2) A district and institute charter school shall not include in its reported scheduled mileage miles traveled for transportation services for recreational district and institute charter schools.

- 6.7 A district and institute charter school shall not include in its reported scheduled mileage miles traveled by pupil transportation support and service vehicles.

7.0 Certifications by Local Boards of Education

- 7.1 A district and institute charter school desiring reimbursement under the Public School Transportation Fund for any entitlement period shall report to the department all required information.

7.01(1) A district and institute charter school shall report current operating expenditures as defined in R-4.00 and R-5.00 of these rules.

7.01(2) A district and institute charter school shall report total scheduled mileage as defined in R-6.00 of these rules.

7.01(3) A district and institute charter school shall report the number of days of the school or district and institute charter school calendar that pupils are actually transported.

7.01(4) A district and institute charter school shall report the number of pupils scheduled to be transported on the official mileage count date.

7.01(5) A district and institute charter school shall report the total cost of a contract pursuant to rule 4.01(7) for the purposes of providing pupil transportation.

7.01(6) A district and institute charter school shall report the total cost of a contract with a commercial transportation carrier pursuant to rule 4.01(8) for the purposes of providing pupil transportation.

7.01(6)(a) A district and institute charter school shall report the comparable district and institute charter school cost of providing pupil transportation in the absence of a contract with a commercial transportation carrier.

7.01(7) A district and institute charter school shall report the total actual miles traveled for school field trips, extracurricular trips, and athletic trips by pupil transportation vehicles.

7.01 (7)(a) A district and institute charter school may consider actual miles incurred for the purposes of maintaining a pupil transportation vehicle or training to transport pupils to be attributed to the primary pupil transportation purpose of the vehicle as determined by the mileage incurred.

7.01(8) A district and institute charter school shall report the total actual miles traveled for any purpose by all pupil transportation vehicles.

7.01(9) A district and institute charter school shall report that the data reported is accurate and that the pupil transportation program has been operated in compliance with all applicable rules of the state board.

7.01(10) A district and institute charter school shall report other data as deemed necessary by the department.

8.0 Documentation

8.1 A district and institute charter school shall maintain and retain appropriate records pertaining to its application for reimbursement for five years or until an audit by the Department has been completed, whichever occurs first.

8.2 Documentation shall include appropriate mileage reports and route descriptions as of the official mileage count date which clearly define the routes and show mileage.

8.3 Documentation shall include appropriate financial records of the district and institute charter school.

8.4 Documentation shall support the number of actual miles traveled on the official mileage count date by persons who are reimbursed by the district and institute charter school for furnishing their own district and institute charter school approved transportation.

8.5 Documentation shall include the odometer reading taken at the beginning of the entitlement period and taken at the end of the entitlement

period and total miles traveled for each pupil transportation vehicle operated during the entitlement period.

8.6 Documentation shall include time sheets, work schedules, or other auditable documentation used to support the transportation claim as well as documentation to support allocation methods used to determine the amount of the claim.

8.7 Documentation shall include information from independent contractors showing the acquisition cost of vehicles used for pupil transportation and less than ten years old and showing the total value of such contracts.

8.8 Documentation shall support total expenditures for public transportation contracts.

8.9 Documentation shall support total expenditures for commercial transportation carrier contracts. Documentation shall support the amount of revenues from sources pursuant to 5.00 of these rules, such as election ballot and board resolution.

FINAL REGULATIONS - CHAPTER W-3 - FURBEARERS AND SMALL GAME, EXCEPT MIGRATORY BIRDS

ARTICLE I - GENERAL PROVISIONS

#304 – License Requirements

Except as provided in 33-6-107(9) C.R.S., the following license requirements shall apply:

- A. A small game license authorizes the take of coyotes and those species defined in #300(D) as small game, except wild turkey. A turkey license is required to take wild turkey.
- B. A small game license combined with the purchase of a furbearer harvest permit authorizes the take of those species defined in #300(D) as small game, except wild turkey, and authorizes the take of all species defined in #300(B) as furbearers. An annual furbearer harvest permit can be purchased for \$10.00.
- C. Any small game and fishing combination license combined with the purchase of a furbearer harvest permit authorizes the take of those species defined in #300(D) as small game, except wild turkey, and authorizes the take of all species defined in #300(B) as furbearers.
- D. A furbearer license authorizes the take of all species defined in #300(B) as furbearers.
- E. A youth small game license authorizes the take of all species defined in #300(D) as small game and all species identified in #300(B) as furbearers.
- F. Common snapping turtles may be taken with either a small game license or a fishing license.
- G. Each hunter must register their intent to hunt migratory birds, small game or coyotes by completing a Harvest Information Program (HIP) survey online (www.cpwshop.com) or by calling (1-855-521-3050) prior to their first hunting trip of the season. For the purposes of this regulation, "season" means the period March 1 through March 31 of the following year.
- H. Beginning with the 2025 greater sage-grouse, mountain sharp-tailed grouse and ptarmigan hunting seasons, no hunter shall take any greater sage-grouse, mountain sharp-tailed grouse, or white-tailed ptarmigan unless at the time of such taking they have purchased one (1) greater sage-grouse, mountain sharp-tailed grouse, and white-tailed ptarmigan permit in addition to a small game license. An annual greater sage-grouse, mountain sharp-tailed grouse and white-tailed ptarmigan permit can be purchased for \$5.00.

FINAL REGULATIONS - CHAPTER 17 - DAMAGE CAUSED BY WILDLIFE**ARTICLE XVI – Damage Caused By Gray Wolves****#17162 – Overview of Gray Wolf Damage Claims, \$15,000 Limitations and Filing**

A. Overview

1. Section 33-2-105.8, CRS, requires the Commission to oversee the distribution of state funds that are made available to “[p]ay fair compensation to owners of livestock for any losses of livestock caused by gray wolves....” § 33-2-105.8(2)(e)(2), CRS. This Article XVI implements this requirement through the codification of Base Compensation Claims and two Optional Claims, referred to as Ratio Claims and Itemized Claims.
2. Regardless of what claim or claims agricultural producers rely on to seek compensation for damage caused by gray wolves, eligibility for compensation is limited to the fair market value of the animals at issue in the claim, up to \$15,000 per head of livestock, and up to \$15,000 per livestock guard or herding animal.
3. In addition to damages associated with injury or death, livestock producers are eligible to receive reimbursement for expenses paid to a licensed veterinarian for the treatment of livestock, livestock guard animals and livestock herding animals injured by gray wolves, including professional fees and medical supplies, and hourly labor expenses and medical supply expenses incurred while carrying out a treatment plan prepared by a licensed veterinarian. Such expenses are limited to \$15,000 or the fair market value of the animal, whichever is lower.
4. Base Compensation Claims make owners of livestock eligible to receive state funds for the injury or death of such animals caused by gray wolves. Although not required by statute, such claims also make claimants eligible to receive state funds for livestock guard and herding animals injured or killed by gray wolves. Base Compensation Claims require claimants to, among other things, present physical evidence demonstrating that gray wolves were the actual cause of injury or death to each animal identified in the claim, such as evidence regarding the type and location of wounds on a carcass.
5. These rules also codify two additional, optional claims for claimants to seek compensation for damage caused by gray wolves (Optional Claims). Optional Claims are only available where the claimant experienced a prior Confirmed Wolf Depredation to sheep or domestic cattle. Optional Claims do not require claimants to prove gray wolves were the actual cause of injury or death to each and every animal identified in the claim, and one of the optional claims makes claimants eligible to receive compensation for Indirect Losses.
6. A Ratio Claim under #17169 is an Optional Claim. Ratio Claims enable claimants to seek compensation for multiple missing calves, yearlings or sheep relative to each Confirmed Wolf Depredation experienced by the claimant. Different ratios apply depending on whether the claimant practiced Nonlethal Conflict Minimization prior to the loss. Indirect Losses are not compensable under a Ratio Claim.
7. An Itemized Claim under #17170 is the other Optional Claim. Itemized Claims enable claimants to seek compensation for all missing calves, yearlings or sheep that the claimant reasonably believes were taken by gray wolves, but only to the extent the

number of documented missing calves, yearlings or sheep claimed exceeds the average number of such animals the claimant lost due to causes other than gray wolf depredation in the three years preceding the first Confirmed Wolf Depredation experienced by the claimant. Additionally, Itemized Claims enable claimants to seek compensation for Indirect Losses.

8. Claimants may choose to pursue only Base Compensation Claims. Or claimants may pursue a Base Compensation Claim and, in their discretion, may also pursue either a Ratio Claim or an Itemized Claim, but not both of these Optional Claims.
9. Itemized Claims accrue over the course of a calendar year, require claimants to provide additional paperwork in support of such claims, and require additional analysis by the Division. Therefore, these rules establish the deadline for claimants to file Itemized Claim forms on or before the last day of December of the calendar year when the losses at issue were sustained. Doing so allows Itemized Claims to accrue and enables claimants to gather the documents and information necessary to support such claims. Claimants may only file one Itemized Claim annually. However, claimants may file multiple Base Compensation Claims and Ratio Claims throughout the year and must do so within the ninety (90) day deadline codified in § 33-3-107(2), CRS, *i.e.*, within 90 days of the Division's receipt of claimant's last Notice of Loss. Provided, however, the claimant may elect to delay filing a Proof of Loss form for a base compensation claim or a ratio claim up to and including December 31 for the year when the losses were sustained by signing a Notice of Election to File Annual Claim for Gray Wolf Depredation form provided by the Division.

B. Filing

These rules require claimants to file notices, claim forms, and supporting documents with the Division by providing such documents to the "relevant CPW Area Office" in paper or electronic form. The relevant CPW Area Office means the office having administrative responsibility over some or all of the lands where the damage at issue occurred as shown on the Areas, Districts and Office Locations map on the CPW website, available at <https://cpw.widen.net/s/nwzdcgr8sg>. If the lands where the damage at issue occurred span more than one such area, the claimant should file all papers with the CPW Area Office having authority over the lands where the majority of or the most severe damage occurred. Claimants shall only file papers with one area office.

#17171 – Valuation of Gray Wolf Damage Claims; Supporting Documents

- A. Payment of gray wolf damage claims will be based on sales receipts or sales contracts when copies of such documents are filed with the Proof of Loss for Base Compensation Claims, or with the Ratio or Itemized Claim forms for Optional Claims. Expenses such as transportation, yardage, feed costs at sales yards, and sales commissions are not eligible for payment.
- B. Where such receipts or contracts are not submitted to the Division, the following methods shall be used:
 1. Payment of adult range sheep claims for each age class, other than running age ewes, will be based on the prices in the USDA Agricultural Marketing Service reports from the September preceding the date of the loss or damage. Payment for running-age ewes (ewes between the ages of 2 and 5 years old) will be determined by the following formula: The value shall equal the price received for lambs based on contracts or the average weekly sale price from the USDA Agricultural Marketing Service report from the

last week of September plus 50% of the above value. (Example: Fall lambs at \$90 Plus 50% = \$90 + \$45 or \$135, total value of each running-age ewe.)

2. Payment of lamb claims will be based on the average sale price shown in the weekly USDA Agricultural Marketing Service report for the last week of the September preceding the date of the loss or damage.
 3. Payment of calf claims will be based on the average sale price shown in the monthly update published by the USDA Agricultural Marketing Service for the month of the October preceding the date of the loss.
 4. Payment of claims for decreased weights of sheep or domestic cattle shall be measured by the difference between the average weight of such animals in the claim year at the time of sale versus the average weight of such animals at the time of sale in the three years preceding the confirmed wolf depredation.
 5. Payment of claims for decreased conception rates of sheep shall be measured by the difference between an unbred sheep and a bred sheep based on the average sale price shown in the weekly USDA Agricultural Marketing Service report for the last week of the September preceding the date of the loss.
 6. Payment of claims for decreased conception rates of domestic cattle shall be measured by the difference between an unbred cow and a bred cow based on the average sale price shown in the weekly USDA Agricultural Marketing Service report for the last week of the October preceding the date of the loss.
 7. Payment of all other claims will be based on the fair market value at the time of the loss for the type, age and weight of the animal involved.
- C. For good cause shown, a claimant may establish the value of losses of livestock and, where compensable, livestock guard and herding animals, by reliable means other than those shown above. The claimant shall be required to establish by a preponderance of evidence that the valuation methods listed above are inappropriate for the claim submitted and that the method of valuation requested represents the fair market value of claimant's loss.
- D. In addition to damages associated with injury or death, livestock producers are eligible to receive reimbursement for expenses paid to a licensed veterinarian for the treatment of livestock, livestock guard animals and livestock herding animals injured by gray wolves, including professional fees and medical supplies, and hourly labor expenses and medical supply expenses incurred while carrying out a treatment plan prepared by a licensed veterinarian. Claims for hourly labor expenses and medical supply expenses incurred while carrying out a treatment plan prepared by a licensed veterinarian shall be accompanied by veterinarian directions, documented hours spent complying with the directions, and receipts for medical supplies. Hourly labor expenses are limited to \$20 an hour. Claims for veterinarian expenses shall be accompanied by invoices and/or evidence of payment. Reimbursement authorized by this rule shall not exceed \$15,000 or the fair market value of the animal, whichever is lower.

CONCERNING HEALTH INSURANCE AFFORDABILITY ENTERPRISE ON-EXCHANGE SUBSIDIES

Section 1	Authority
Section 2	Scope and Purpose
Section 3	Applicability
Section 4	Definitions
Section 5	Enhanced Premium Subsidies
Section 6	Payments to Carriers for Enhanced Premium Subsidies
Section 7	Severability
Section 8	Enforcement
Section 9	Effective Date
Section 10	History

Section 1 Authority

This regulation is promulgated and adopted by the Commissioner of Insurance under the authority of §§ 10-1-108(7), 10-1-109(1), 10-16-1207(5), and 10-16-109, C.R.S.

Section 2 Scope and Purpose

The purpose of this regulation is to provide standards for including payments to carriers pursuant to C.R.S. § 10-16-1205(1)(b)(II) in health benefit plans regulated by the Colorado Division of Insurance. The Division is amending regulation 4-2-78 at the recommendation of the Health Insurance Affordability Board and due to federal enhanced premium tax credits expiring after benefit year 2025.

Section 3 Applicability

This regulation applies to all carriers issuing non-grandfathered individual health benefit plans starting in benefit year 2026 and annually thereafter.

Section 4 Definitions

- A. "Benefit year" shall have the same meaning as found at § 10-16-1103(2), C.R.S.
- B. "Carrier" shall have the same meaning as found at § 10-16-102(8), C.R.S.
- C. "Eligible enrollee" means, for the purpose of this regulation, an individual enrolled in a Qualified Health Plan, whose household income is no greater than 400% of the Federal Poverty Level.

- D. "Enhanced Premium Subsidy" means, for the purpose of this regulation, a sum of money from the Health Insurance Affordability Enterprise that is applied directly to an Eligible Enrollee's health insurance premium balance, reducing the amount owed by the enrollee towards the monthly premium.
- E. "Exchange" shall have the same meaning as found at § 10-16-102(26), C.R.S.
- F. "Federal Poverty Level" or "FPL" shall have the same meaning as found at § 10-16-1203(4), C.R.S.
- G. "Health benefit plan" shall have the same meaning as found at § 10-16-102(32), C.R.S.
- H. "Premium tax credit" shall have the same meaning as found at § 10-16-1203(10), C.R.S.
- I. "Rate" means, for the purpose of this regulation, the value in the carrier's Rates Table Template available in SERFF corresponding to the enrollee's age, geographic rating area, and tobacco status.

Section 5 Enhanced Premium Subsidies

For the 2026 benefit year, and annually thereafter, the Health Insurance Affordability Enterprise shall provide an enhanced premium subsidy to all eligible enrollees.

A. Eligibility and Determination

The determination of the enhanced premium subsidies for eligible enrollees shall be predicated upon household income in relation to the Federal Poverty Level (FPL), household size, and the premium balance after federal advance premium tax credits (APTC) have been applied, as specified herein.

B. Subsidy Structure for Households Below 400% FPL

1. For the first enrollee in a household, the enhanced premium subsidy shall be the lesser of \$80 per member per month (PMPM) or the premium balance after federal APTC has been applied.
2. For each additional member in the household who is subject to a premium, the enhanced premium subsidy shall be the lesser of \$29 per member per month (PMPM) or the premium balance after federal APTC has been applied. For households with more than three dependents under age 21, no enhanced premium subsidy will be applied for any subsequent dependents with \$0 premium.

C. Subsidy Implementation

1. As determined by the Exchange, eligible enrollees will be identified based on household income during the health insurance enrollment process.
2. The enhanced premium subsidy shall be applied to eligible enrollees' premium balance after the federal APTC has been applied. As determined by the Exchange, the premium

rate displayed for customers will include federal APTC and the enhanced premium subsidy.

3. Carriers will receive reports during the benefit year listing the enrollees receiving the enhanced premium subsidy and the amounts owed by the Health Insurance Affordability Enterprise for each enrollee.

Section 6 Payments to Carriers for Enhanced Premium Subsidies

Payments to carriers for enhanced premium subsidies shall be calculated as follows:

- A. Pursuant to C.R.S. § 10-16-1205(1)(b)(II), the Colorado Health Insurance Affordability Enterprise created in C.R.S. § 10-16-1204(1)(a), through the Division, will make payments to carriers by June 30, 2027, for the 2026 benefit year, to compensate for the cost of the enhanced premium subsidies.
- B. Total enhanced premium subsidy payment amounts owed to each carrier following the end of the 2026 benefit year will be calculated based on enrollment during the benefit year and the subsidy structure in Section 5.
- C. All funds used to pay for the enhanced premium subsidy for the 2026 benefit year will be state funds from the Colorado Health Insurance Affordability Enterprise.
 1. No federal funds received from Colorado's Affordable Care Act Section 1332 State Innovation Waiver will be used for the enhanced premium subsidy. The subsidy structure, payment amounts, and enrollee eligibility are not contingent on Colorado's Affordable Care Act Section 1332 State Innovation Waiver.
 2. The Division will maintain a separate appropriation unit for the enhanced premium subsidy, and all payments to carriers for the subsidy will be made using this appropriation unit.
 3. The appropriation unit for the enhanced premium subsidy is set up in such a way that only state funds from the Colorado Health Insurance Affordability Enterprise may be utilized to make payments.

Section 7 Severability

If any provision of this regulation or the application of it to any person or circumstance is for any reason held to be invalid, the remainder of the regulation shall not be affected.

Section 8 Enforcement

Noncompliance with this regulation may result in the imposition of any of the sanctions made available in the Colorado statutes pertaining to the business of insurance, or other laws, which include the imposition of civil penalties, issuance of cease and desist orders, and/or suspensions or revocation of license, subject to the requirements of due process

Section 9 Effective Date

This amended regulation shall become effective on November 30, 2025.

Section 10 History

This regulation replaces Emergency Regulation 21-E-08, which became effective on May 9, 2021, in its entirety.

This regulation shall be effective on September 1, 2021.

Amended regulation effective November 14, 2022.

Amended regulation effective September 14, 2023.

Amended regulation effective October 30, 2024.

This regulation was replaced by Emergency Regulation 25-E-03, which became effective June 23, 2025, and expired October 21, 2025.

This regulation shall be effective November 30, 2025.

Section 2	Scope and Purpose
Section 3	Applicability
Section 4	Definitions
Section 5	Rules
Section 6	Severability
Section 7	Enforcement
Section 8	Effective Date
Section 9	History

Section 1 Authority

This regulation is promulgated and adopted by the Commissioner of Insurance under the authority of § 10-1-109(1), 10-3-1117 and 10-4-110.8(10), C.R.S.

Section 2 Scope and Purpose

The purpose of this regulation is to establish rules concerning requests for commercial and personal automobile policy information pursuant to § 10-3-1117, C.R.S. and certified copies of homeowner insurance policies pursuant to § 10-4-110.8 (10), C.R.S.

Section 3 Applicability

The provisions of this regulation shall apply to all insurers that issue commercial and/or personal automobile policies and/or homeowner insurance policies in Colorado.

Section 4 Definitions

- A. "Insurer" shall have the same meaning as found at § 10-1-102(13), C.R.S.
- B. "Claimant" for the purposes of this regulation, and specifically related to automobile claims, shall have the same meaning as found at § 10-3-1117(5), C.R.S.
- C. "Commissioner" shall have the same meaning as found at § 10-1-102(5), C.R.S.
- D. "Homeowner insurance policy", for the purposes of this regulation shall be the insurance policy, which includes the declaration page and endorsements, as found at § 10-4-110.8 (10), C.R.S.

- E. "Policy" for the purposes of this regulation, shall mean personal automobile liability insurance policies as found at § 10-4-601(10), C.R.S., and commercial automobile liability insurance policies, and may or may not include a declaration page or the application submitted to obtain the policy.

Section 5 Rules

Pursuant to §§ 10-3-1117 and 10-4-110.8 (10), C.R.S., Colorado insurers must provide certain policy information upon request received by the insurer's registered agent. A third-party claimant or claimant's attorney's request for personal or commercial automobile liability insurance policies and policy limits and policyholder requests for homeowner insurance policies must be sent to the insurer's registered agent. Therefore, it is necessary that insurers maintain current registered agent information pursuant to § 10-3-107, C.R.S. and Colorado Insurance Regulation 1-1-10.

- A. In regard to commercial and personal automobile insurance policy limits requests:
1. In order to ensure compliance with § 10-3-1117, C.R.S., insurers shall establish a process to respond to written requests for commercial automobile and personal automobile policy liability limit information within the thirty (30) calendar day statutory timeline from the date the registered agent receives a written request pursuant to § 10-3-1117, C.R.S.
 2. If the Commissioner is the named registered agent, the insurer shall provide to the Commissioner an electronic mailing address to facilitate the transfer of policy limits requests directly to the insurer.
 3. For purposes of compliance with § 10-3-1117, C.R.S., insurers shall provide a copy of the commercial or personal automobile policy, which may include, but is not required, the declarations page or the application even if attached to the policy.
 4. In accordance with Colorado Insurance Regulation 1-1-7, Section 5.A., insurers shall retain the requests and responses providing the information required under § 10-3-1117, C.R.S. for the current calendar year plus two prior years.
- B. In regard to a policyholder's request for a certified copy of their homeowner insurance policy:
1. In order to ensure compliance with § 10-4-110.8(10), C.R.S., insurers shall make available a certified copy of a homeowner insurance policy within thirty (30) calendar days of receipt by the registered agent of the policyholder's written request. Such written requests for a certified copy of the homeowner insurance policy shall be sent to the insurer's registered agent, as identified in the Division of Insurance records.
 2. If the Commissioner is the named registered agent, the insurer shall provide to the Commissioner an electronic mailing address to facilitate the transfer of homeowner insurance policy requests directly to the insurer.
 3. In accordance with Colorado Regulation 1-1-7, Section 5.A., insurers shall retain the policyholder requests and documentation confirming the certified policy was made available to the policyholder in compliance with § 10-4-110.8(10), C.R.S. for the current calendar year plus two prior years.

Section 6 Severability

If any provision of this regulation or the application of it to any person or circumstances is for any reason held to be invalid, the remainder of this regulation shall not be affected.

Section 7 Enforcement

Noncompliance with this regulation may result in the imposition of any of the sanctions made available in the Colorado statutes pertaining to the business of insurance, or other laws, which include the imposition of civil penalties, issuance of cease and desist orders, and/or suspensions or revocation of license, subject to the requirements of due process.

Section 8 Effective Date

This regulation shall be effective November 30, 2025.

Part 4 UPPER PAYMENT LIMITS

4.3 Upper Payment Limit for Enbrel (Etanercept)

A. Authority

The statutory authority for this rule is sections 10-16-1403(1)(c), 10-16-1403(5), 10-16-1407(1)(a), and 10-16-1407(5), 10-16-1407(6), C.R.S.

B. Scope and Purpose

The purpose of this rule is to establish an upper payment limit for the prescription drug, Enbrel (Etanercept), pursuant to section 10-16-1407, C.R.S., and part 4.1 of these rules. The Board performed an affordability review of Enbrel and determined it was unaffordable for Colorado consumers pursuant to section 10-16-1406, C.R.S., and part 3 of these rules.

C. Applicability

See section 10-16-1407(5), C.R.S., and Division of Insurance Regulation 3 CCR 702-9, Part 4.2.C.

D. Definitions

“Prescription drug” shall have the same meaning as found at section 10-16-1401(19), C.R.S.

“Upper payment limit” shall have the same meaning as found at section 10-16-1401(23), C.R.S.

E. Upper Payment Limit

The upper payment limit for Enbrel (Etanercept) is set at \$600.00 per 50 milligram/milliliter unit. This price per unit will apply to all formulations of Enbrel. The price per unit will be reviewed annually.

F. Severability

If any portion of these rules is found to be invalid, the remaining portion of the rules shall remain in force and effect.

G. Effective Date

This regulation shall become effective on January 1, 2027.

H. History

3.00.80 Definition for Return or Exchange of Medicine, Prescriptions, Medical Devices, and Medical Supplies for Dispensing or Donation.

The following definition applies to donors or donation recipients of medicine, medical supplies, or medical devices pursuant to Section 12-280-135, C.R.S.

“Traditional dispensing system” means a drug package system in which individual doses are not packaged in unit dose packages or unit of issue packages.

3.00.81 General Provisions

- a. Rules 3.00.81 through 3.00.83 apply to donors or donation recipients of medicine pursuant to Section 12-280-135.5, C.R.S.

3.00.82 Donation Records of Medicine .

- a. The donation recipient shall retain written or electronic donation records for at least two years that contain the following information:
 - 1) For each accepted or transferred drug, the name, strength, and quantity. Lot number may be recorded, however, inclusion of lot number is not required. ;
 - 2) The name, address and phone number of the donor, individual donor, or transferring entity;

3.00.83 Dispensing of Donated Medicine.

- a. Except as otherwise specified in Section 12-280-135.5, C.R.S., when administering or redispensing donated medicine, a donation recipient shall:
 - 1) Ensure proper labeling in accordance with 3 CCR 719-1 3 3.00.30;
 - 2) Maintain eligible patient-specific written or electronic records in accordance with 3 CCR 719-1-2-00-00, 3.00.00, and 11.00.00.

3.00.84 Record Retention

...

3.00.85 Prescriptions Dispensed but Not Delivered. When a drug has been dispensed pursuant to a prescription or LTCF chart order but has not been delivered to the ultimate consumer, the drug may be returned to stock for subsequent redispensing provided that:

...

3.00.86 Prescriptions dispensed by prescription drug outlets for delivery to consumers in other other outlet settings. When a drug has been dispensed pursuant to prescription order at a prescription drug outlet but has not been delivered to the ultimate consumer at an other outlet, the drug may be returned to stock only at the originating Prescription Drug Outlet, for subsequent redispensing provided that:

...

3.00.87 A prescription drug that has been dispensed by an automated cassette device may be returned to a pharmacy cassette or any automated dispensing device receptacle for redispensing as long as the integrity of the medication has not been altered, bar code scanning technology is used for returning the drug, qualifications for returning the drug are maintained, and the expiration date of the drug has not passed. A pharmacy technician may carry out the process of prepackaging the drug into an automated cassette.

3.01.00 Packaging.

...

5.00.00 OUTLETS.

...

5.01.50 Security. In every prescription drug outlet, all compounding/dispensing areas shall comply with this regulation.

- a. When any compounding/dispensing area of a prescription drug outlet is occupied by any employee, a pharmacist must be physically present within the same building of the prescription drug outlet, unless the prescription drug outlet is defined as a Rural Independent Pharmacy in 12-280-118(3)(d) and 12-280-103(46.7) C.R.S. This Rule shall not apply if the prescription drug outlet does not possess prescription drug or controlled substance stocks or patient information within the first 120 calendar days after the prescription drug outlet has been registered by the Board.
- b. In the event a pharmacist is within the building but absent from a compounding/dispensing area, it is the responsibility of the pharmacist to ensure the proper safeguard of all drugs.
- c. If a compounding/dispensing area is continually attended by a pharmacist when other people are in the building, the compounding/dispensing area need not be enclosed. However, if other people are in the building when there is not a pharmacist present, every compounding/dispensing area must be enclosed by a barrier as specified in paragraph e below unless the prescription drug outlet qualifies for the exemption provided under Rule 5.01.50(a).
- d. If more than one prescription drug outlet is located within the same building, a pharmacist shall not operate more than one outlet at the same time. If a pharmacist physically leaves

one outlet for the purpose of entering into another outlet within the same building, any outlet not being physically attended to by a pharmacist shall be enclosed by a barrier as specified in paragraph e below and a non-pharmacist shall not remain inside the enclosed outlet during that time unless the prescription drug outlet qualifies for the exemption provided under Rule 5.01.50(a).

- e. A prescription drug outlet constituting part of a large establishment may be closed while the balance of the establishment is open for business, provided every compounding/dispensing area is enclosed with a secure floor-to-ceiling physical barrier, which shall be a divider or secure total enclosure, in which any openings shall not be large enough to permit removal of items from the compounding/dispensing area. The barrier must be of weight and strength sufficient to prevent it from being readily lifted, removed, penetrated or bent.
- f. Unless the prescription drug outlet is defined as a Rural Independent Pharmacy in 12-280-118(3)(d) and 12-280-103(46.7) CRS, all entrances to every compounding/dispensing area shall be secured from unauthorized entry when the pharmacist leaves the building except as provided in Rule 5,01.50(a). No one other than a pharmacist shall be permitted to enter any compounding/dispensing area containing drugs, devices or patient information except in extreme emergencies, which shall be defined as a threat to property, public disaster or other catastrophe whereby the public is better served by overlooking the security restrictions of drugs and devices. If any compounding/dispensing area containing drugs, devices or patient information is opened in the absence of a pharmacist or left unsecured from unauthorized entry when the pharmacist leaves the building, the pharmacist manager shall notify the Board in writing within ten days of the discovery of the occurrence. This written notice shall state:
 - (1) The name of the person authorizing the opening of the compounding/dispensing area if known, or the name of the pharmacist responsible for securing the compounding/dispensing area from unauthorized entry;
 - (2) The name of the person opening the compounding/dispensing area if known; and
 - (3) A description of the situation requiring opening of the compounding/dispensing area including the date and time of the opening.
- g. While the compounding/dispensing area is closed and the rest of the establishment is open, a person on duty in the establishment shall be able to contact a pharmacist in case of emergency.
- h. The hours of business of the compounding/dispensing area shall be submitted to the Board in writing.
- i. No prescription drug outlet shall avail itself of the privileges of this Rule until the barrier system and other requirements have been acknowledged, subject to final approval by the Board.
- j. This paragraph applies only to the compounding/dispensing areas of a hospital which operates a prescription drug outlet pursuant to a certificate of compliance; or which operates a registered prescription drug outlet on the premises of the hospital for the primary purpose of providing pharmaceutical services to the hospital's in-patients; or permits a registered prescription drug outlet to be operated on the premises of the hospital by another business entity for the primary purpose of providing pharmaceutical service to the hospital's in-patients.

- (1) In an emergency situation and when a pharmacist is not on the premises of the hospital and administration of a drug to, or use of a device by or on, an in-patient is necessary pursuant to a chart order, and such drug or device is only available from a locked compounding/dispensing area, an authorized registered nurse may enter a locked compounding/dispensing area to obtain the drug or device. In the case of a drug, only pre-labeled packages, such as unit dose or unit-of-use packages, or a pre-labeled container, may be removed from the compounding/dispensing area.
- (2) The following information regarding the removal of such drug or device shall be consistently recorded and maintained in a retrievable document: date; time; name, strength and dosage form of drug, and/or name, and size, if applicable, of device; total quantity of drug or device removed; name and location of patient for whose use the drug or device is necessary; name of the practitioner ordering the drug or device; and the initials or signature of the nursing obtaining the drug or device. This document shall be available for inspection by the Board for a period of two years. Additionally, the original, duplicate or electronic or mechanical facsimile of the chart order shall be left with the above document by the nurse at the time of obtaining the drug or device.
- (3) Any unused portion of a drug or device so removed shall be returned to the compounding/dispensing area when a pharmacist is again on the premises. Additional quantities of the drug or device shall be supplied by a pharmacist and properly recorded as required by sections 12-280-120(4) and 12-280-123(1), C.R.S., and Rule 11.05.20.

...

8.00.00 ADVERTISING.

8.00.10 Labels. At least one address shall appear on a prescription label and that shall include the address of the prescription drug outlet from which the prescription was dispensed. In the case of a central fill prescription processing contract, the label shall contain at least the name and address of the originating and/or fulfillment pharmacy.

8.00.30 Multiple Names. A prescription drug outlet shall only use, operate or advertise under the name that appears on the current registration issued by the Board.

8.00.40 Truth in Advertising. No pharmacist or prescription drug outlet shall advertise or allow advertisement that is untrue or misleading in any manner regarding prescription drugs.

...

11.00.00 RECORDS AND RECORDKEEPING.

...

11.04.10 Filing of prescription orders and chart orders.

- a. A hard copy of every prescription order shall be readily retrievable, legible, and available for inspection for a period of two years from the date of any transaction relating to such prescription order unless the prescription drug outlet can comply with all conditions as outlined in Board Rule 11.11.00 in order to not retain the original prescription order for non-controlled substance prescription drugs and Schedule II, III, IV, and V controlled substances. Prescription orders will be deemed to be readily retrievable, legible, and

available if they are filed by date of entry or according to the numerical sequence of the serial numbers assigned pursuant to Rule 2.01.10, and are easily readable without the aid of any special device. In addition to being filed by date of entry or in numerical sequence, three different prescription files shall be maintained: one file shall consist only of Schedule II controlled substance prescription orders; the second file shall consist only of Schedule III, IV and V controlled substance prescription orders; and the third file shall consist of all non-controlled substance prescription drug prescription orders. Filing of prescription orders in any manner other than by date of entry or numerical sequence will result in such prescription orders being deemed not readily retrievable and available.

- b. Prescription drug outlets electronically maintaining prescription orders shall maintain all hard copy controlled substance prescription orders that are not e-prescribed in accordance with section 12-280-134(1)(a), C.R.S., Rules 11.01.11 and 11.02.00(a)(3) and (4), and Title 21 CFR 1304.04 and file the affected hard copy orders by the date of entry.
- c. A hard copy of every LTCF chart order shall be readily retrievable and available for inspection for a period of two years from the date of any transaction relating to such order. The LTCF chart orders will be deemed to be readily retrievable and available if they are filed according to the date of dispensing. LTCF chart orders for Schedule III, IV, and V controlled substances shall be readily identifiable from non-controlled substance prescription drug LTCF chart orders. Schedule II controlled substance LTCF chart orders shall be retained separately from all other LTCF chart orders.
- d. If a prescription drug outlet utilizes both prescription orders and chart orders, assigning serial numbers to both with the same computer system, the orders must be filed sequentially by date of entry.

...

15.00.00 WHOLESALEERS.

...

15.01.14 Change of name, location, or ownership, or designated representative.

- a. Any change in the name or location of the wholesaler shall be reported to the Board on an application provided by the Board within thirty (30) days of such change.
- b. Any change in ownership shall be reported on an application provided by the Board within thirty (30) days after the change, with a notice of the ownership change reported to the Board within five (5) business days of such change. The new owner(s) shall pay the appropriate fee. A change of ownership shall be deemed to have occurred:
 - (1) In the event the owner is a corporation, upon sale or transfer of twenty percent or more of the shares of the corporation to a single individual or entity;
 - (2) In the event the outlet is owned by a partnership, upon sale or transfer of twenty percent or more of any ownership interest.
 - (3) In the event the outlet is owned by a limited liability company (LLC), upon sale or transfer of twenty percent or more of the membership interests.
 - (4) Upon incorporation of an existing wholesaler.

- c. Any change in the designated representative of a wholesaler shall be reported to the Board on a form supplied by the Board within thirty calendar days of such change. The incoming designated representative must undergo the required background check.

32.00.00 CONCERNING HEALTH CARE PROVIDER DISCLOSURES TO CONSUMERS ABOUT THE POTENTIAL EFFECTS OF RECEIVING EMERGENCY OR NONEMERGENCY SERVICES FROM AN OUT-OF-NETWORK PROVIDER

This rule is promulgated pursuant to sections 12-20-204, 12-30-112, and 12-280-107(1) C.R.S., in consultation with the Commissioner of Insurance and the State Board of Health. The purpose of this rule is to establish requirements for health care providers to provide disclosures to covered persons who are utilizing a health benefit plan about the potential of balance billing when receiving post-stabilization services or covered non-emergency services from an out-of-network provider at an in-network facility. This rule applies to health care providers. Balance billing by a health care provider is only permitted when the criteria established in Colorado law, including but not limited to sections 12-30-112 and 12-30-113, C.R.S., are met.

A. Definitions, for purposes of this rule, are as follows:

1. "Ancillary Services" as defined in section 12-30-112(1)(a), C.R.S.
2. "Balance Bill" and "Balance Billing" as defined in section 10-16-704(19)(c), C.R.S.
3. "Covered Non-emergency Services" means services that are not emergency services as defined in section 10-16-704(19)(e), C.R.S., are services covered by a covered person's health benefit plan, and are not ancillary services as defined in section 12-30-112(1)(a), C.R.S.
4. "Covered Person" as defined by section 10-16-102(15), C.R.S.
5. "Health Benefit Plan" as defined by section 10-16-102(32), C.R.S.
6. "Health Care Provider" means "provider," as defined in section 10-16-102(56), C.R.S.
7. "In-Network Facility" means a facility, either within or outside of Colorado, that, under a contract with a carrier or with its contractor or subcontractor, has agreed to provide health-care services to covered persons with an expectation of receiving payment, other than coinsurance, copayments, or deductibles, directly or indirectly, from the carrier.
8. "Out-of-Network Provider" means a Health Care Provider who is not a "Participating Provider."
9. "Participating Provider" as defined in section 10-16-102(46), C.R.S.
10. "Post-Stabilization Services" means covered services related to an emergency medical condition, as defined in section 10-16-704(19)(d), C.R.S., that are provided once the criteria set forth in section 10-16-704(19)(e)(III) are met.

B. Disclosure requirements.

1. An Out-of-Network Provider may balance bill a Covered Person for (a) Post-Stabilization Services in accordance with section 10-16-704, C.R.S., and (b) Covered Non-Emergency Services provided in an In-Network Facility that are not Ancillary Services, but only if the

- Out-of-Network Provider meets the requirements set forth in section 12-30-112(3.5), C.R.S.
2. If a Covered Person may incur a claim for Post-Stabilization Services or Covered Non-Emergency Services from an Out-of-Network Provider, the Out-of-Network Provider shall complete and provide the notice contained in Appendix F of these rules or a similar disclosure which complies with the requirements set forth in section 12-30-112(3.5), C.R.S.
 3. Such notice must be provided in the 15 most common languages in Colorado, which, for purposes of this regulation, are English, Spanish, Vietnamese, Chinese, Korean, Russian, Amharic, Arabic, German, French, Nepali, Tagalog, Japanese, Cushite, Persian.
- C. If applicable and in addition to their responsibilities under this Rule, Health Care Providers shall also comply with the “No Surprises Act,” 42 U.S.C.A. § 300gg-111, Pub.L 116-260, as amended.
- D. Noncompliance with this Rule may result in the imposition of any of discipline made available by section 12-280-126(1)(c) C.R.S.

BALANCE BILLING NOTICE

PATIENT RIGHTS INFORMATION

Check the appropriate box:

- Your provider is proposing to use an out-of-network care provider in delivering your health care service(s). This facility is in-network with your insurance but there may be care providers involved in your care that are out-of-network.
- Your provider is proposing to deliver post-stabilization care at an out-of-network facility. You have received emergency services at the out-of-network facility and are now stabilized, but you may require additional health care services.

You are not required to consent to receive these services from the out-of-network care provider or continue to receive post-stabilization care at an out-of-network facility. If you choose to proceed with the proposed out-of-network care provider or facility you may be billed for costs detailed in the Good Faith Estimate below. The additional costs you pay may not accrue toward insurance cost sharing or deductibles.

You may choose to use an in-network provider from the list below or you may choose to transfer your care to an in-network facility for post-stabilization services. If you choose to proceed with an in-network provider or transfer to an in-network facility, the cost will not exceed the amount allowed by your insurance plan.

You chose to receive this Notice electronically or in paper form.

This notice must have been provided to you, either in paper or electronically, per your preference within the following timeframes:

1. At least seventy-two hours in advance of the date of services, if the appointment was scheduled at least seventy-two hours in advance;
2. At least three hours before the scheduled appointment, if the appointment was made less than seventy-two hours in advance.

This is not a contract for services. Your provider is required to retain this form for seven years.

This form must be available to you in the 15 languages most common to the geographic region where your provider is located, which include English, Spanish, Vietnamese, Chinese, Korean, Russian, Amharic, Arabic, German, French, Nepali, Tagalog, Japanese, Cushite, and Persian.

PART 7

RULES REGULATING RAILROADS, RAIL FIXED GUIDEWAYS, TRANSPORTATION BY RAIL, AND RAIL CROSSINGS

BASIS, PURPOSE, AND STATUTORY AUTHORITY

The basis for and purpose of these rules is to describe the manner of regulation over railroads, railroad corporations, rail fixed guideways, rail fixed guideway systems, transit agencies, persons holding a certificate of public convenience and necessity to operate by rail, any other person operating by rail, governmental or quasi-governmental entities that own and/or maintain public highways at rail crossings, railroad peace officers, and to Commission proceedings concerning such entities. These rules address a wide variety of subject areas including, but not limited to, applications, petitions, annual reporting, civil penalties, formal and informal complaints, operating authority, transfers of operating authority, mergers, tariffs, crossings and warning devices, cost allocation for grade separations, crossing construction and maintenance, railroad clearances, system safety program standard for rail fixed guideway systems, and employment of railroad peace officers.

The statutory authority for the promulgation of these rules can be found at §§ 40-2-108, 40-2-119, 40-3-101(1), 40-3-102, 40-3-103, 40-3-110, 40-4-101(1), 40-4-101(2), 40-4-106, 40-5-105, 40-6-108(2), 40-6-111(3), 40-9-108(2), 40-18-101, 40-18-102, 40-18-103, 40-18-104, 40-20-302, 40-20-303, 40-20-308, 40-29-110, and 40-32-108, C.R.S.

CIVIL PENALTIES

7009. Definitions.

The following definitions apply to rules 7009 through 7011 unless a specific statute or rule provides otherwise. In the event of a conflict between these definitions and a statutory definition, the statutory definition shall apply.

- (a) “Civil penalty” means a monetary penalty imposed by the Commission against a railroad, railroad corporation, rail fixed guideway, owner of the track, or transit agency that is not a political subdivision of the State of Colorado for failure to comply with the Colorado Constitution, a provision of articles 1 to 7 of title 40, C.R.S., or a Commission order or rule,
- (b) “Civil penalty assessment” means the act by the Commission of imposing a civil penalty.

- (c) “Civil penalty assessment notice” means the written document by which the Commission gives initial notice to a railroad, railroad corporation, rail fixed guideway, owner of the track, or transit agency that is not a political subdivision of the State of Colorado of an alleged failure to comply with the Colorado Constitution, a provision of articles 1 to 7 of title 40, C.R.S., or a Commission order or rule and sets forth the proposed civil penalty amount.

7010. Civil Penalties.

- (a) The Commission may impose a civil penalty against a railroad, railroad corporation, rail fixed guideway, transit agency, or owner of the track for failure to comply with the Colorado Constitution, a provision of articles 1 to 7 of title 40, C.R.S., a Commission order or rule, except for an order requiring payment of money, as authorized in §§ 40-4-106(1)(b) and 40-7-105, C.R.S. The Commission may impose a civil penalty against a railroad, as defined in § 40-20-302(20), C.R.S., if the railroad or any officer, agent, or employee of the railroad violates § 40-20-303, C.R.S. Before issuing a civil penalty assessment notice, the entity alleged to have failed to comply with the Colorado Constitution, a provision of articles 1 to 7 of title 40, C.R.S., § 40-20-303, C.R.S., or a Commission order or rule, must be provided written notice of the alleged violation(s), and an opportunity to cure the alleged violation(s) within a minimum of 14 calendar days. The Commission, in its discretion, may provide additional time to cure the alleged violation(s).
- (b) Civil penalty assessment notice.
- (I) The Director of the Commission or his or her designee has the authority to issue a civil penalty assessment notice for an alleged failure to comply with or violation(s) of the Colorado Constitution, a provision of articles 1 to 7 of title 40, C.R.S., § 40-20-303, C.R.S., or a Commission order or rule.
- (II) The civil penalty assessment notice must be served in person, by certified mail or by personal service and shall contain:
- (A) the name and address of the entity cited for the violation;
- (B) a citation to the specific constitutional provision, rule, statute or Commission order alleged to have been violated;
- (C) a brief description of each alleged violation, and the date and approximate location (as applicable) of the alleged violation;
- (D) the maximum penalty amount for each alleged violation and the maximum amount of the penalty surcharge imposed pursuant to § 24-34-108(2), C.R.S., if any. The penalty surcharge shall be equal to the percentage set by the Department of Regulatory Agencies on an annual basis;
- (E) a statement allowing for a reduced penalty of 50 percent of the maximum penalty amount and surcharge if paid within ten calendar days of the railroad, railroad corporation, rail fixed guideway, transit agency, or owner of the track’s receipt of the civil penalty assessment notice;

- (F) a place for the railroad, railroad corporation, rail fixed guideway, transit agency, or owner of the track to execute a signed acknowledgment of receipt of the civil penalty assessment notice;
 - (G) a place for the railroad, railroad corporation, rail fixed guideway, transit agency, or owner of the track to execute a signed acknowledgement of liability for the violation;
 - (H) a statement that if the prescribed penalty is not paid within ten calendar days of the railroad, railroad corporation, rail fixed guideway, transit agency or owner of the track's receipt of the civil penalty assessment notice, that the civil penalty assessment notice becomes a notice of complaint to appear before the Commission; and
 - (I) for alleged violations of § 40-20-303, C.R.S., the civil penalty assessment notice shall include a place for the railroad, as defined in § 40-20-302(20), C.R.S., to execute a signed acknowledgement of: (1) receipt of the civil penalty assessment notice, and (2) liability for the violation.
- (III) A civil penalty assessment notice may not be considered defective so as to provide cause for dismissal solely because of a defect in its content. Any defect in the content of a civil penalty assessment notice may be cured by a motion to amend the same filed with the Commission prior to a hearing on the merits. No such amendment may be permitted if the substantial rights of the cited entity are prejudiced.
- (c) Adjudication.
- (I) The railroad, railroad corporation, rail fixed guideway, transit agency, or owner of the track cited with alleged violation(s) or the railroad, as defined in § 40-20-302(20), C.R.S., cited with alleged violation(s) of § 40-20-303, C.R.S. may either admit liability for the violation(s) by executing the acknowledgement of liability and paying the penalty prescribed in the civil penalty assessment notice or contest the alleged violation(s) as set forth below. When the cited entity admits liability, it must pay the civil penalty specified for the violation(s) in person at the Commission's office or by depositing payment postage prepaid in the United States mail within ten days after the citation is issued.
 - (II) The railroad, railroad corporation, rail fixed guideway, transit agency, or owner of the track cited with alleged violation(s), or the railroad, as defined in § 40-20-302(20), C.R.S., cited with alleged violations of § 40-20-303, C.R.S. may contest the violation(s) identified in the civil penalty assessment notice and request a hearing before the Commission. If the cited entity does not pay the prescribed penalty within ten calendar days after the civil penalty assessment notice is issued, the notice constitutes a complaint to appear before the Commission. The cited entity must contact the Commission on or before the time and date specified in the civil penalty assessment notice to set the complaint for a hearing on the merits. If the cited entity fails to contact the Commission as required, the Commission will set the complaint for a hearing. At the hearing, Commission trial staff shall have the burden of demonstrating the violation(s) by a preponderance of the evidence.

- (d) Civil penalty assessment.
 - (I) The Commission shall assess a civil penalty only after a railroad, railroad corporation, rail fixed guideway, transit agency, or owner of the track, or the railroad, as defined in § 40-20-302(20), C.R.S., either admits liability or is adjudicated to have committed the violation.
 - (II) In any written decision entered by the Commission assessing a final civil penalty, the Commission may impose a civil penalty of not more than \$2,000.00 for each offense, pursuant to § 40-7-105(1), C.R.S., unless the civil penalty is assessed for a violation of § 40-20-303, C.R.S., in which case the Commission may impose a civil penalty of not less than \$10,000.00 but not more than \$25,000.00 on the railroad for each offense, pursuant to § 40-20-308(1), C.R.S., or not more than \$100,000.00 for each offense where authorized by § 40-20-308(2)(a) or (b), C.R.S. In determining the civil penalty amount, the Commission shall consider the factors set forth in paragraph 1302(b) of the Commission’s Rules of Practice and Procedure, 4 Code of Colorado Regulations 723-1.
 - (III) In accordance with § 40-7-105(2), C.R.S. and § 40-20-308(1), C.R.S., every violation is considered a separate and distinct offense, and, in the case of a continuing violation, each day’s continuance thereof shall be deemed a separate and distinct offense.
- (e) Nothing in these rules shall affect the Commission’s ability to pursue other remedies in lieu of imposing a civil penalty.

7011. Regulated Railroad, Railroad Corporation, Rail Fixed Guideway, or Transit Agency Rule Violations, Civil Enforcement, and Civil Penalties.

- (a) Violation of the Colorado Constitution, a provision of articles 1 to 7 of title 40, C.R.S., a Commission order, and the following rules may result in the assessment of a civil penalty of up to \$2,000.00 per offense. The total amount of civil penalties assessed against any one railroad, railroad corporation, rail fixed guideway, transit agency, and owner of track may not exceed \$150,000.00 in any consecutive 12-month period.

1.8 CONCERNING HEALTH CARE PROVIDER DISCLOSURES TO CONSUMERS ABOUT THE POTENTIAL EFFECTS OF RECEIVING EMERGENCY OR NONEMERGENCY SERVICES FROM AN OUT-OF-NETWORK PROVIDER

This rule is promulgated pursuant to sections 12-20-204, 12-30-112, and 12-285-106(2)(b), C.R.S., in consultation with the Commissioner of Insurance and the State Board of Health. The purpose of this rule is to establish requirements for health care providers to provide disclosures to covered persons who are utilizing a health benefit plan about the potential of balance billing when receiving post-stabilization services or covered non-emergency services from an out-of-network provider at an in-network facility. This rule applies to health care providers. Balance billing by a health care provider is only permitted when the criteria established in Colorado law, including but not limited to sections 12-30-112 and 12-30-113, C.R.S., are met.

A. Definitions, for purposes of this rule, are as follows:

1. "Ancillary Services" as defined in section 12-30-112(1)(a), C.R.S.
2. "Balance Bill" and "Balance Billing" as defined in section 10-16-704(19)(c), C.R.S.
3. "Covered Non-emergency Services" means services that are not emergency services as defined in section 10-16-704(19)(e), C.R.S., are services covered by a covered person's health benefit plan, and are not ancillary services as defined in section 12-30-112(1)(a), C.R.S.
4. "Covered Person" as defined by section 10-16-102(15), C.R.S.
5. "Health Benefit Plan" as defined by section 10-16-102(32), C.R.S.
6. "Health Care Provider" means "provider," as defined in section 10-16-102(56), C.R.S.
7. "In-Network Facility" means a facility, either within or outside of Colorado, that, under a contract with a carrier or with its contractor or subcontractor, has agreed to provide health-care services to covered persons with an expectation of receiving payment, other than coinsurance, copayments, or deductibles, directly or indirectly, from the carrier.
8. "Out-of-Network Provider" means a Health Care Provider who is not a "Participating Provider."
9. "Participating Provider" as defined in section 10-16-102(46), C.R.S.

10. "Post-Stabilization Services" means covered services related to an emergency medical condition, as defined in section 10-16-704(19)(d), C.R.S., that are provided once the criteria set forth in section 10-16-704(19)(e)(III) are met.
- B. Disclosure requirements.
1. An Out-of-Network Provider may balance bill a Covered Person for (a) Post-Stabilization Services in accordance with section 10-16-704, C.R.S., and (b) Covered Non-Emergency Services provided in an In-Network Facility that are not Ancillary Services, but only if the Out-of-Network Provider meets the requirements set forth in section 12-30-112(3.5), C.R.S.
 2. If a Covered Person may incur a claim for Post-Stabilization Services or Covered Non-Emergency Services from an Out-of-Network Provider, the Out-of-Network Provider shall complete and provide the notice contained in Appendix "B" to these rules or a similar disclosure which complies with the requirements set forth in section 12-30-112(3.5), C.R.S.
 3. Such notice must be provided in the 15 most common languages in Colorado, which, for purposes of this regulation, are English, Spanish, Vietnamese, Chinese, Korean, Russian, Amharic, Arabic, German, French, Nepali, Tagalog, Japanese, Cushite, Persian.
- C. If applicable and in addition to their responsibilities under this Rule, Health Care Providers shall also comply with the "No Surprises Act," 42 U.S.C.A. § 300gg-111, Pub.L 116-260, as amended.
- D. Noncompliance with this Rule may result in the imposition of any of discipline made available by section 12-285-211(1)(l), C.R.S.

APPENDIX B

BALANCE BILLING NOTICE

PATIENT RIGHTS INFORMATION

Check the appropriate box:

- Your provider is proposing to use an out-of-network care provider in delivering your health care service(s). This facility is in-network with your insurance but there may be care providers involved in your care that are out-of-network.
- Your provider is proposing to deliver post-stabilization care at an out-of-network facility. You have received emergency services at the out-of-network facility and are now stabilized, but you may require additional health care services.

You are not required to consent to receive these services from the out-of-network care provider or continue to receive post-stabilization care at an out-of-network facility. If you choose to proceed with the proposed out-of-network care provider or facility you may be billed for costs detailed in the Good Faith Estimate below. The additional costs you pay may not accrue toward insurance cost sharing or deductibles.

You may choose to use an in-network provider from the list below or you may choose to transfer your care to an in-network facility for post-stabilization services. If you choose to proceed with an in-network provider or transfer to an in-network facility, the cost will not exceed the amount allowed by your insurance plan.

You chose to receive this Notice electronically or in paper form.

This notice must have been provided to you, either in paper or electronically, per your preference within the following timeframes:

1. At least seventy-two hours in advance of the date of services, if the appointment was scheduled at least seventy-two hours in advance;
2. At least three hours before the scheduled appointment, if the appointment was made less than seventy-two hours in advance.

This is not a contract for services. Your provider is required to retain this form for seven years.

This form must be available to you in the 15 languages most common to the geographic region where your provider is located, which include English, Spanish, Vietnamese, Chinese, Korean, Russian, Amharic, Arabic, German, French, Nepali, Tagalog, Japanese, Cushite, and Persian.

PART 2 DEFINITIONS

Rule 2.02 DEFINED TERMS

“Biometric Data” is defined as set forth in C.R.S. § 6-1-1303(2.4) and means one or more biometric identifiers that are used or intended to be used, singly or in combination with each other or with other personal data, for identification purposes. Biometric Data does not include the following unless the Biometric Data is used for identification purposes: a digital or physical photograph; an audio or voice recording; or any data generated from a digital or physical photograph or an audio or video recording.

“Biometric Identifier” is defined as set forth in C.R.S. § 6-1-1303(2.5), and means data generated by the technological processing, measurement, or analysis of an individual’s biological, physical, or behavioral characteristics, which data can be Processed for the purpose of uniquely identifying an individual. Biometric Identifier includes a fingerprint; a voiceprint; a scan or record of eye retina or iris; a facial map, facial geometry, or facial template; or other unique biological, physical, or behavioral patterns or characteristics.

“Media” means text, audio, an image, or a video.

“Revealing” as referred to in C.R.S. § 6-1-1303(24)(a) includes Sensitive Data Inferences. For example:

1. While web browsing data at a high level may not be considered Sensitive Data, web browsing data which, alone or in combination with other Personal Data, infers an individual’s sexual orientation is considered Sensitive Data under C.R.S. § 6-1- 1303(24)(a).

PART 6 DUTIES OF CONTROLLERS

Rule 6.13 DUTY REGARDING MINOR DATA - KNOWLEDGE STANDARD

- A. The following factors may be considered when determining if a Controller willfully disregards that a Consumer is a Minor as contemplated in C.R.S. § 6-1-1308.5:
1. If the Controller has directly received credible information from a parent or Consumer indicating that the Consumer is a Minor.
 - a. Example: A Controller requires or allows Consumers to provide their date of birth at sign up and the Consumer indicates they are a Minor.
 - b. Example: A Controller requires Consumers to provide their date of birth at sign up, which can be edited once registration is completed. A Consumer uses a fake birthdate to sign up and subsequently revises their birthdate after registration to indicate that they are a Minor.
 - c. Example: A Controller directly receives a credible report from a parent about a Minor using the service.
 - d. Example: A Consumer provides their age in the bio section of the profile on a Consumer's service indicating that they are a Minor.
 - e. Example: A Consumer provides relevant indicia that they are a Minor, such as year of birth, in the profile or account set up of a service.
 2. If the Controller has intentionally directed the website or service to Minors, considering different factors such as marketing or promotional materials that refer to the intended audience as "minors" or "teens", hosting or displaying advertisements that are directed to Minors, or empirical evidence demonstrating that the intended or actual audience is largely composed of Minors.
 - a. Example: A Controller creates and distributes marketing and promotional materials related to the website or service that specifically appeal to Minors.

2. Whether the system design feature has been shown by competent and reliable empirical evidence to cause harm due to increased use of or engagement with an online service, product, or feature;
 3. Whether the system design feature has the substantial effect of subverting or impairing Minor autonomy, decision making or choice, or unfairly, fraudulently, or deceptively manipulating or coercing a Minor.
- B. A system design feature will likely not be found to significantly increase, sustain, or extend a Minor's use of an online service, product, or feature:
1. If the Minor expressly and unambiguously requested specific media or category of media, the Minor subscribed to specific media by the author, creator, or poster, or the Minor has subscribed to a page or group featuring specific media, provided that the media is not recommended, selected, or prioritized for display based, in whole or in part, on other information associated with the Minor or the Minor's device;
 2. If media are recommended, selected, or prioritized only in response to a specific search inquiry by the Minor, or is exclusively next in a pre-existing sequence from the same author, creator, poster, or source;
 3. If the system design feature is one that is necessary to the core functionality of an online service, product, or feature;
 4. If the system design feature is based on Personal Data that is not persistently associated with the Minor or the Minor's device;
 5. If the system design feature does not consider the Minor's previous interactions with media generated or shared by other Consumers;
 6. If the online service, product, or feature contains countervailing measures that could mitigate the harm or other negative effects of the system design feature, such as default time of day or time use limits, or required parental controls;
 7. If the system design feature's primary function is to enhance the safety of the platform for Minors, remove spam, or filter out age-inappropriate content.
- C. The fact that a system design feature is commonly used is not, alone, enough to demonstrate that any particular feature does not significantly increase, sustain, or extend a Minor's use of an online service, product, or feature.

- D. In addition to the factors included in this part 4 CCR 904-3, Rule 6.13, Controllers may consider statutes, administrative rules, and administrative guidance concerning system design features from other jurisdictions when evaluating the likelihood that a system design feature significantly increases, sustains, or extends a Minor's use of an online service, product, or feature as contemplated in C.R.S. § 6-1-1308.5.
- E. The factors included in this part 4 CCR 904-3, Rule 6.14 are not exhaustive, and no one factor is dispositive when determining if a system design feature significantly increases, sustains, or extends a Minor's use of an online service, product, or feature. The Attorney General shall consider a totality of the circumstances when evaluating if a system design feature significantly increases, sustains, or extends a Minor's use of an online service, product, or feature as contemplated in C.R.S. § 6-1-1308.5.
- F. Consistent with C.R.S. § 6-1-1304(g), this Rule does not impose any obligation on a Controller or Processor that adversely affects the rights of any person to freedom of speech or the freedom of the press guaranteed by the First Amendment to the United States Constitution.

PART 7 CONSENT

Rule 7.03 REQUIREMENTS FOR VALID CONSENT

- B. Consent must be obtained through the Consumer's clear, affirmative action. For purposes of obtaining valid Consent:

- 3. If a system design feature that significantly increases, sustains, or extends a Minor's use of an online service, product, or feature is turned off by default or by the Minor, and the Minor turns on or enables the feature, such an act will be considered an affirmative action for the purpose of valid Consent as contemplated by C.R.S. § 6-1-1308.5.

38.110 STATEMENT OF BASIS, SPECIFIC STATUTORY AUTHORITY AND PURPOSE; JUNE 9, 2025 RULEMAKING; FINAL ACTION OCTOBER 14, 2025; EFFECTIVE DATE DECEMBER 31, 2025

The provisions of C.R.S. 25-8-202(1)(a), (b) and (2); 25-8-203; 25-8-204; 25-8-402; and 25-8-207 provide the specific statutory authority for adoption of these regulatory amendments. The commission also adopted in compliance with 24-4-103(4) C.R.S. the following statement of basis and purpose.

BASIS AND PURPOSE

A. Arsenic Temporary Modifications

In April 2013 (38.85) and subsequent rulemaking hearings (38.90, 38.94, 38.95, 38.97, 38.101, 38.107, and 38.109), the commission has adopted and extended temporary modifications for arsenic of “As(ch)=hybrid” (expiration date of 12/31/2029) on many segments with the 0.02 µg/L Water + Fish numeric arsenic standard. The arsenic temporary modification recognizes existing and predicted compliance issues, instream nonattainment, and the uncertainty regarding the water quality standard necessary to protect current and/or future uses and the extent to which ambient concentrations of arsenic are natural or irreversible (31.7(3)). The division submitted an updated plan to resolve uncertainty and revised permit terms and conditions in June 2024 (38.109(A)).

In 2020 (38.101(D)), the commission adopted the Water Supply use and standards with a delayed effective date of 12/31/2025 on Cache La Poudre River segments 11 and 12a (COSPCP11 and 12a). In the current rulemaking, the commission resegmented Segment 11 into segments 11a and 11b, and removed the Water Supply use and standards from Segment 11b. For segments 11a and 12a, when the Water Supply use and standards become effective on 12/31/2025, the arsenic standard on both segments will change to 0.02 µg/L and the segments will qualify for arsenic temporary modifications. Therefore, the commission adopted arsenic temporary modifications on the following segments:

Cache La Poudre River: 11a (COSPCP11a) and 12a (COSPCP12a)

Where evidence indicated the requirements to qualify for a temporary modification were not met, temporary modifications were deleted. The commission deleted the chronic arsenic temporary modification (expiring 12/31/2029) on one segment. The temporary modification was adopted on this segment in error, as this segment has an arsenic standard of 0.02-10 µg/L. The arsenic temporary modification only applies to segments with an arsenic standard of 0.02 µg/L. The temporary modification for arsenic was deleted from the following segment:

St. Vrain Creek: 6b (COSPSV06b)

B. Discharger-specific Variances (DSVs)

There is one discharger-specific variance (DSV) in Regulation No. 38, which the commission adopted in June 2022 (38.105(B)). Because this DSV for the Town of Crook expires December 31, 2025, it was necessary to revisit this DSV in this rulemaking hearing. Therefore, the commission reviewed the basis, available information, and progress toward achieving the alternative effluent limits (AELs) and implementing the pollutant minimization program (PMP) for this DSV.

Lower South Platte River Segment 2 (COSPLS02): The commission adopted a subsequent DSV for the Town of Crook (COG591015) for acute and chronic ammonia that represents the highest degree of protection of the classified use that is economically feasible for the Town of Crook. This subsequent DSV replaces the remaining term of the Town of Crook 's original DSV (38.105(B); adopted 6/13/2022 and expires 12/31/2025).

The initial AEL for ammonia shall not be more restrictive than 4 lbs/day. The final AEL for ammonia shall not be more restrictive than 3.4 lbs/day prior to the expiration of the DSV on 12/31/2031. The commission ensures that the discharge will not contribute to any lowering of the currently attained ambient water quality by adopting an initial AEL that, at minimum, represents the level currently achieved, as stated by its rule at 31.7(4)(b)(i)(C).

The commission adopted a subsequent PMP with this DSV (WQCD Rebuttal Exhibit J-5), which describes activities the Town of Crook will complete during the term of this variance to reduce ammonia effluent concentrations. The PMP includes efforts to secure funding, collect water quality samples, submit annual reports to the division, conduct public outreach to inform the community about the importance of wastewater treatment and to encourage homeowners to replace private laterals contributing to inflow and infiltration (I&I), and further investigate treatment alternatives. During Rebuttal, language was added to emphasize Crook's commitment and responsibility to protect downstream wells through proactive monitoring of affected and potentially affected wells, and communication with well owners when necessary. Additionally, several key PMP activities are contingent on the Town of Crook obtaining funding through grants and loans. These funding-dependent activities include construction of lagoon improvements, such as sludge removal and relining of lagoon cells #1 and #2. Delays in securing funding could affect project timelines and delay implementation of improvements. These improvements will help provide the necessary conditions to potentially reduce ammonia concentrations in the discharge. These actions will also help establish a path forward to implementing additional ammonia removal technologies in the future, if necessary.

A comprehensive alternatives analysis (WQCD Prehearing Statement Exhibit F-3) and a comprehensive economic analysis (WQCD Prehearing Statement Exhibit F-4) demonstrated that there are currently no economically feasible alternatives that would allow the Town of Crook to meet its ammonia water quality-based effluent limits (WQBELs) and compliance with these WQBELs could cause substantial and widespread adverse social and economic impacts to the community. Due to limited number of ratepayers, the community's low median household income, high costs of wastewater treatment and clean water control measures per household, and high poverty rates, it is not feasible for the Town of Crook to make the capital investments that would be required to meet the ammonia WQBELs at this time. The Town of Crook is actively pursuing funding opportunities to support incremental system improvements, including those outlined in the PMP.

The commission adopted a DSV with an initial AEL to protect the ambient water quality in the receiving stream and a final AEL that are based upon the expected ammonia effluent quality that will be achieved through feasible improvements to the lagoon treatment system and potential improvements collection system, specifically related to private laterals. Because there is uncertainty in the final effluent quality that will be achieved, the Town of Crook will collect additional data to characterize the effectiveness of the improvements, which the commission will review upon reevaluation of the DSV. The commission expects that the Town of Crook will submit annual reports to the division describing the progress made on PMP implementation in November of each year until the end of the DSV. If, at the end of the DSV, it remains infeasible for the Town of Crook to achieve ammonia WQBELs and the Town of Crook substantially complied with all conditions of this variance, a subsequent DSV may be appropriate.

C. Waterbody Segmentation

Some segments were renumbered, combined, or new segments were created to facilitate appropriate organization of water bodies in this regulation. Renumbering and/or creation of new segments was made based on information that showed: a) the original reason for segmentation no longer applied; b) significant differences in uses, water quality and/or physical characteristics warrant a change in standards on only a portion of the existing segment; and/or c) certain segments could be merged into one segment because they had similar water quality and uses. The following changes were made:

Cache la Poudre River segments 11a and 11b (COSPCP11a and COSPCP11b): Segment 11 was split into segments 11a and 11b to facilitate removing the Water Supply use from the portion of the

Cache la Poudre River from the Timnath Reservoir Inlet (40.577031, -105.047436) to Prospect Road. Segment 11a was defined as “Mainstem of the Cache La Poudre River from Shields Street in Ft. Collins to immediately below the Timnath Reservoir Inlet (40.577031, -105.047436).” Segment 11b was defined as “Mainstem of the Cache La Poudre River from immediately below the Timnath Reservoir Inlet (40.577031, -105.047436) to Prospect Road.”

D. Water Supply Use

The commission reviewed certain Water Supply use classifications and standards pursuant to C.R.S. 25-8-207 and found certain use classifications and standards inconsistent with C.R.S. 25-8-207(1) because they were adopted based upon material assumptions that were in error or no longer apply. As such, such use classifications and standards are void ab initio, and the commission simultaneously established appropriate classifications and standards, per C.R.S. 25-8-207(2). More specifically, the commission removed the Water Supply use classification and standards where the evidence demonstrated that a Water Supply use does not currently exist due to flow or other conditions, and that such a use is not reasonably expected in the future due to water rights, source water options, or other conditions. The Water Supply standard for chloride was retained for this segment, given concerns regarding the protection of aquatic life by the existing Water Supply standards. The Water Supply use classification and standards, except for chloride, was removed from the following segment:

Cache la Poudre River: 11b

Cache la Poudre River segments 11 and 12a (COSPCP11 and COSPCP12a): In 2020, the commission adopted the Water Supply use classification and standards on Cache la Poudre River segments 11 and 12a with a five-year delayed effective date of 12/31/2025 (38.101(D)). In this rulemaking hearing, the commission resegmented Segment 11 into segments 11a and 11b, and retained the Water Supply use and standards on Cache la Poudre River Segment 11a (COSPCP11a) based on evidence of a likely future use. Specifically, the Northern Integrated Supply Project intake is planned to be in Segment 11a.

For Cache la Poudre River Segment 11b (COSPCP11b), the commission removed the Water Supply use and standards. Front Range Energy and the City of Fort Collins provided evidence that existing potentially hydrologically-connected alluvial wells for domestic household purposes are not in use on this segment. Additionally, the entities provided evidence that future use of Segment 11b as a Water Supply is unlikely because land adjacent to Segment 11b is in water service area boundaries (so installation of domestic wells withdrawing hydrologically-connected groundwater will not occur) and installation of new water supply diversions is not currently planned. The division did not oppose the removal of the Water Supply use and standards for Segment 11b.

The commission declined to adopt Front Range Energy and the City of Fort Collins' proposal to revise the Water Supply use and standards from Cache la Poudre River Segment 12a because of the uncertainty regarding the potential hydrologic connection of alluvial wells used for drinking water on this segment. There are a number of wells located in the Segment 12a alluvium that are potentially hydrologically connected to Segment 12a and are known to be in use for domestic household and drinking water purposes; approximately 20 additional wells may also be in use, but the usage status could not be confirmed. There is also the potential for new uses in the future, particularly in areas outside of water service area boundaries.

In 2020, the commission adopted the Water Supply use and standards with a delayed effective date of 12/31/2025 to allow Front Range Energy and the City of Fort Collins additional time to gather information regarding the use of existing domestic water supply wells, as well as future uses (38.101(D)).

Since 2020, Front Range Energy and the City of Fort Collins conducted investigations of alluvial wells near Segment 12a and also developed a hydrological model to characterize the potential for a hydrologic connection between the river and alluvial wells used for domestic purposes. Front Range Energy and the City of Fort Collins confirmed that several domestic alluvial wells are currently in use for drinking water.

However, the entities proposed to remove the Water Supply use and standards from Segment 12a based on the model results, which the entities argued showed that the Cache la Poudre River is generally a gaining stream and thus is not expected to impact water quality in the wells. However, the commission recognized the uncertainty in the modeling results and determined that the model was insufficient evidence to demonstrate no reasonable potential exists for a hydrologic connection between Segment 12a and alluvial wells that currently exist or may be installed in the future. The commission also recognized the potential for transport of contaminants between surface water and groundwater. Therefore, the commission retained the Water Supply use to ensure protection of public health for Coloradans relying on domestic wells in the Segment 12a alluvium for drinking water and other household purposes. The commission acknowledges the work of Front Range Energy and the City of Fort Collins put into the hydrological model and water supply investigation. If evidence becomes available to demonstrate that existing wells are no longer in use and that future uses will not occur, the need for the Water Supply use and standards can be reevaluated at that time.

REGULATION NO. 61 - COLORADO DISCHARGE PERMIT SYSTEM REGULATIONS

5 CCR 1002-61

[Editor's Notes follow the text of the rules at the end of this CCR Document.]

61.0 COLORADO DISCHARGE PERMIT SYSTEM

61.2 DEFINITIONS

NOTE: Several terms used in this regulation that are not defined below are defined in the Colorado Water Quality Control Act, 25-8-103, C.R.S.

- (1) "ACT" means the Colorado Water Quality Control Act as from time to time amended, section 25-8-101 et seq., C.R.S.
- (2) "AGRONOMIC RATE OF APPLICATION" means the rate of application of nutrients to plants that is necessary to satisfy the plants' nutritional requirements while strictly minimizing the amount of nutrients that run off to surface waters or which pass below the root zone of the plants. For purposes of use under Section 61.13 (Housed Commercial Swine Feeding Operations) the agronomic rate of application shall be as specified by the most current published fertilizer suggestions of Colorado State University Cooperative Extension for the plants, or the most closely related plant type, to which the nutrients are to be applied.
- (3) "AGRONOMIC ROOT ZONE" means the soil zone of land application sites that is sampled and analyzed for required constituents for monitoring purposes and for calculating the agronomic rate of application. The depth of the agronomic root zone is as specified by the most current published fertilizer suggestions of Colorado State University Cooperative Extension for the plants, or the most closely related plant type, to which plant nutrients are to be applied.
- (4) "ANIMAL FEEDING OPERATION" (AFO) means a lot or facility (other than an aquatic animal production facility) where the following conditions are met:
 - (a) Animals (other than aquatic animals) have been, are, or will be stabled or confined and fed or maintained for a total of 45 days or more in any 12-month period, and
 - (b) Crops, vegetation, forage growth, or post-harvest residues are not sustained in the normal growing season over any portion of the lot or facility.

Water Quality Control Commission

- (5) "AQUIFER" means a formation, group of formations, or part of a formation containing sufficient saturated permeable material that could yield a sufficient quantity of water that may be extracted and applied to a beneficial use.
- (6) "BASIC STANDARDS" means the regulation entitled Basic Standards and Methodologies for Surface Waters, adopted by the Commission and published as 5 CCR 1002-31, Regulation No. 31.
- (7) "BEST AVAILABLE TECHNOLOGY" (BAT) means Best Available Technology Economically Achievable (BATEA) pursuant to sections 301(b)(2)(A) and 304(b)(2) of the Federal Clean Water Act (CWA).
- (8) "BEST CONVENTIONAL TECHNOLOGY" (BCT) means Best Conventional Pollutant Control Technology (BCPCT) pursuant to sections 301(b)(2)(E) and 304(b)(4) of the Federal Clean Water Act (CWA).
- (9) "BEST MANAGEMENT PRACTICES" (BMPs) means schedules of activities, prohibitions of practices, maintenance procedures, and other management practices to prevent or reduce the pollution of "state waters". BMPs also include treatment requirements, operating procedures and practices to control plant site runoff, spillage or leaks, sludge or waste disposal, or drainage from raw material storage.
- (10) "BEST PRACTICAL TECHNOLOGY" means the Best Practical Control Technology currently available pursuant to sections 301(b)(1)(A) and 304(b)(4) of the Federal Clean Water Act (CWA).
- (11) "BIOSOLIDS" means the accumulated treated residual product resulting from a domestic wastewater treatment works. Biosolids does not include grit or screenings from a wastewater treatment works, commercial or industrial sludges (regardless of whether the sludges are combined with domestic sewage), sludge generated during treatment of drinking water, or domestic or industrial septage.
- (12) "BYPASS" means the intentional diversion of waste streams from any portion of a treatment facility.
- (13) "COMMENCE CONSTRUCTION" includes execution of, and commencement of work under contracts for engineering design, plans and specifications for erection, building, alteration, remodeling, improvement or extension of treatment works and commitment to the completion of construction of such treatment works prior to exceeding permit effluent limitations based upon facility design and capacity, or execution of a contract for the construction thereof defined by section 25-8-501(5)(e), C.R.S. as amended.
- (14) "COMPLETE APPLICATION" means application for point source discharge permits which have been determined by the Division to be complete in accordance with section 61.5(1).
- (15) "CO-PERMITTEE" means a permittee to a permit that is only responsible for permit conditions relating to the discharge for which it is operator.

Water Quality Control Commission

- (16) “COMPLIANCE WELL” means a well which is placed at a point of compliance. The results of analyses of samples from compliance wells shall be used to establish compliance with permit limitations established for protection of state waters.
- (17) “CONCENTRATED ANIMAL FEEDING OPERATION” (CAFO) means an animal feeding operation that is defined as a Large or Medium CAFO, or that is designated by the Division as a CAFO. Two or more animal feeding operations under common ownership are deemed to be a single AFO for the purposes of whether they qualify as a Large or Medium CAFO, if they are adjacent to each other or if they use a common area or system for land application of manure or process wastewater.
- (18) “CONTAMINATION” means, for purposes of section 61.13 of this regulation, the addition of pollutants to soil or ground water that results in the impairment of water quality classifications or exceedance of water quality standards for any waters of the state, or a reasonable potential for any such impairment or exceedance.
- (19) “CONTINUOUS DISCHARGE” means a “discharge” which occurs without interruption throughout the operating hours of the facility, except for infrequent shutdowns for maintenance, process changes, or other similar activities.
- (20) “DESIGN FLOW” means the hydraulic component of the design capacity as defined in Regulation 22. Design flow may be portioned among multiple outfalls.
- (21) “DETECTION WELL” means a monitoring well which is installed between a point of compliance and the point of discharge.
- (22) “DISCHARGE” means the discharge of pollutants as defined in section 25-8-103(3) C.R.S., and also includes land application.
- (23) “DIVISION” means the Water Quality Control Division of the Department of Public Health and Environment.
- (24) “DRAFT PERMIT” means a document prepared under these regulations indicating the Division's decision to issue or deny, modify, revoke and reissue, terminate, or reissue a permit and includes the “Division's preliminary analysis.” A notice of intent to terminate a permit, and a notice of intent to deny a permit, are types of draft permits. A denial of a request for modification, revocation and reissuance, or termination is not a draft permit. A preliminary draft and preliminary draft rationale developed in accordance with 61.5(1.5) are not draft permits.
- (25) “DRY LOT FOR DUCKS” means a facility for growing ducks in confinement with a dry litter floor cover and no access to swimming areas.
- (26) “EFFLUENT LIMITATION” means any restriction or prohibition established under this article or Federal law on quantities, rates, and concentrations of chemical, physical, biological, and other constituents which are discharged from point sources into state waters, including, but not limited to, standards of performance for new sources, toxic effluent standards and schedules of compliance.
- (27) “EPA” means the United States Environmental Protection Agency.

Water Quality Control Commission

- (28) “EXISTING HOUSED COMMERCIAL SWINE FEEDING OPERATION” means a housed commercial swine feeding operation for which physical construction was commenced prior to March 30, 1999.
- (29) “EXISTING IMPOUNDMENT” means any impoundment whose plans and specifications have been approved by the Division or for which construction has been commenced or completed, prior to July 1, 1993.
- (30) “FECAL COLIFORM” means the bacterial count (Parameter 1) at 40 CFR 136.3 in Table 1A, which also cites the approved methods of analysis.
- (31) “FEDERAL ACT” means the Federal Water Pollution Control Act, 33 U.S.C. section 1251 et seq., commonly referred to as the “Clean Water Act”, and any of its subsequent amendments.
- (32) “FEEDLOT” means a concentrated animal feeding operation as established in 40 C.F.R. 412.11.
- (33) “FORMS” means permits, applications, letters and reporting forms which shall be those established by the Division, but additional information may be required by the U.S. Environmental Protection Agency.
- (34) “FREEBOARD” means the vertical distance measured from the liquid surface level (elevation) in an impoundment or tank to the top elevation of the impoundment or tank (for example, berm or wall).
- (35) “GENERAL PERMITS” means a permit authorizing a category of discharges under the Clean Water Act designated category of activities within a geographical area, issued under section 61.9(2).
- (36) “GENERAL PERMIT PROGRAM AREA” (hereinafter referred to as GPPA) means any area designated by the State Department of Public Health and Environment, Water Quality Control Division, in which owners and operators of a designated category of activities are subject to the same general permit, other than owners and operators to whom individual permits have been or will be issued.
- (37) “GROUND WATER” means subsurface waters in a zone of saturation which are or can be brought to the surface of the ground or to surface waters through wells, springs, seeps, or other discharge areas.
- (38) “GROUND WATER RECHARGE” means the entry into the saturated zone of water made available at the water table surface, together with the associated flow away from the water table within the saturated zone.
- (39) “GROUND WATER STANDARD” means any standard promulgated in or pursuant to “The Basic Standards for Ground Water, Regulation No. 41 (5 CCR 1002-41)”.
- (40) “HOUSED COMMERCIAL SWINE FEEDING OPERATION” means a housed swine feeding operation that is capable of housing eight hundred thousand pounds or more of live animal weight of swine at any one time or is deemed a commercial operation under local zoning or land use regulations. “Capable of housing” means the combined maximum capacities of the individual

housing units that are included in the operation. Unless the owner of the operation provides information about the specific operation to the Division which demonstrates that an alternative capacity calculation is appropriate for that operation, operations will be presumed capable of housing 800,000 pounds or more of live animal weight if they have the capacity to house:

- (a) 11,500 weaned swine (70 pounds or less); or
- (b) 3,020 feeder swine (more than 70 pounds, up to finish weight); or
- (c) 2,000 breeding sows and/or boars.

Where more than one of the above-listed size categories of swine are present, operations will be deemed capable of housing 800,000 pounds or more of live animal weight if, by dividing the capacity for the number of each type of swine by the respective limit from (a), (b), and/or (c), above, the sum of the resulting numbers is one or greater.

Two or more housed swine feeding operations shall be considered to comprise a single housed commercial swine feeding operation if they are both:

- (a) under common or affiliated ownership or management, and
- (b)
 - (i) are adjacent to or utilize a common area or system for swine feeding process wastewater or residual solids disposal, or
 - (ii) are integrated in any way, or
 - (iii) are located or discharge within the same watershed or into watersheds that are hydrologically connected, or
 - (iv) are located on or discharge onto land overlying the same ground water aquifer.

For the purposes of this definition, the term “common or affiliated ownership or management” shall mean:

- (a) operations owned by the same entity; or
- (b) operations owned by entities related through majority ownership; or
- (c) operations with structural, organizational, or contractual relationships that evidence actual or effective control of the management of the aspects of a housed commercial swine feeding operation related to swine production or swine feeding process wastewater conveyance, storage, treatment, or land application systems.

“Integrated in any way” shall mean separate operations that are related in a manner that creates a reasonable potential for the operations to result in a measurable negative cumulative impact on water quality or air quality at any one location.

Water Quality Control Commission

“Watershed” shall mean a hydrologic unit no larger than an eight-digit unit as displayed on the USGS 1974 Hydrologic Unit Map for the State of Colorado. The phrase “watersheds that are hydrologically connected” shall mean watersheds that are contiguous and tributary to the same four-digit unit. Provided, that two or more housed swine feeding operations shall not be considered to be located in the same watershed or in watersheds that are hydrologically connected if the owner demonstrates that there is no reasonable potential for the operations to result in a measurable negative cumulative impact on water quality at any one location.

- (41) **“HOUSED SWINE FEEDING OPERATION”** means the practice of raising swine in buildings, or other enclosed structures wherein swine of any size are fed for forty-five days or longer in any twelve-month period, and crop or forage growth or production is not sustained in the area of confinement
- (42) **“ILLCIT DISCHARGE”** means any discharge to a municipal separate storm sewer that is not composed entirely of stormwater except the following: discharges specifically authorized by a CDPS permit, and discharges resulting from fire fighting activities.
- (43) **“IMPOUNDMENT”** means a facility or part of a facility which is a natural topographic depression, man-made excavation, or diked area formed primarily of earthen materials (although it may be lined with man-made materials), which is used for the storage, treatment, evaporation or discharge of pollutant-containing waters, sludge or associated sediment.
- (44) **“INCORPORATED PLACE”** means a city, town, township, or village that is incorporated under the laws of the State of Colorado.
- (45) **“INTERCEPTOR SEWER”** a sewer line will be considered as an interceptor sewer if it performs one or more of the following functions as its primary purpose:
- (a) It intercepts wastes from a final point in a collection system and conveys such waste directly to a treatment plant;
 - (b) It serves in place of a treatment plant and transports the collected wastes to an adjoining collection system or interceptor sewer for treatment;
 - (c) It transports the wastes from one or more municipal collection systems to another municipality or to a regional treatment plant; or
 - (d) It intercepts an existing major discharge of raw or inadequately treated wastewater for transport directly to another interceptor or to a treatment plant.

A sewer with a minor number of building or lateral connections may be considered an Interceptor sewer if it performs one or more of the functions listed above.

- (46) **“IRRIGATION RETURN FLOW”** means tailwater, tile drainage, or surfaced groundwater flow from irrigated land.

Water Quality Control Commission

- (47) "ISSUE OR ISSUANCE" means the mailing to all parties of any order, permit, determination, or notice other than notice by publication, by certified mail to the last address furnished to the agency by the person subject thereto or personal service on such person, and the date of issuance of such order, permit, determination, or notice shall be the date of such mailing or service or such later date as is stated in the order, permit, determination, or notice.
- (48) "LAND APPLICATION" is any discharge being applied directly to the land for land disposal or land treatment and does not include a discharge to surface waters even if such waters are subsequently diverted and applied to the land.
- (49) "LAND DISPOSAL" is any discharge or pollutant-containing waters being applied to land for which no further treatment is intended.
- (50) "LAND TREATMENT" is any discharge of pollutant-containing waters being applied to the land for the purpose of treatment.
- (51) "LARGE CONCENTRATED ANIMAL FEEDING OPERATION" (Large CAFO) means an AFO that stables or confines as many as or more than the numbers of animals specified in any of the following categories:
- (a) 700 mature dairy cows, whether milked or dry;
 - (b) 1,000 veal calves
 - (c) 1,000 cattle other than mature dairy cows or veal calves. Cattle includes but is not limited to heifers, steers, bulls, and cow/calf pairs;
 - (d) 2,500 swine each weighing 55 pounds or more;
 - (e) 10,000 swine each weighing less than 55 pounds;
 - (f) 500 horses;
 - (g) 10,000 sheep or lambs;
 - (h) 55,000 turkeys;
 - (i) 30,000 laying hens or broilers, if the AFO uses a liquid manure handling system;
 - (j) 125,000 chickens (other than laying hens), if the AFO uses other than a liquid manure handling system;
 - (k) 82,000 laying hens, if the AFO uses other than a liquid manure handling system;
 - (l) 30,000 ducks (if the AFO uses other than a liquid manure handling system); or
 - (m) 5,000 ducks (if the AFO uses a liquid manure handling system).
- (52) "LARGE MUNICIPAL SEPARATE STORM SEWER SYSTEM" means all municipal separate storm sewers that are either:

Water Quality Control Commission

- (a) located in the City and County of Denver; or
 - (b) located in a municipality other than that described in (a) and meets the criteria of either (b)(i) or (b)(ii) below:
 - (i) in an incorporated place, other than that described in (a), and other than the City of Colorado Springs, with a population of 250,000 or more as determined by the 1990 Decennial Census by the Bureau of Census; or
 - (ii) in the unincorporated portions of a county that has areas designated as urbanized areas by the 1990 Decennial Census by the Bureau of Census and where the population of the urbanized areas exceeds 250,000 after the population in the incorporated places within the urbanized areas is excluded, except municipal separate storm sewer systems that are located in the incorporated places within such counties; or
 - (c) owned or operated by a municipality other than those described in paragraphs (a) or (b) and that are designated by the Division as part of the large or medium municipal separate storm sewer system due to the interrelationship between the discharges of the designated storm sewer and the discharges from municipal separate storm sewers described under paragraphs (a) or (b). In making this determination the Division may consider the following factors:
 - (i) physical interconnections between the municipal separate storm sewers;
 - (ii) the location of discharges from the designated municipal separate storm sewer relative to discharges from municipal separate storm sewers described in subparagraph (a);
 - (iii) the quantity and nature of pollutants discharged to state waters;
 - (iv) the nature of the receiving waters; and
 - (v) other relevant factors; or
 - (d) The Division may, upon petition, designate as a large municipal separate storm sewer system, municipal separate storm sewers located within the boundaries of a region defined by a stormwater management regional authority based on a jurisdictional, watershed, or other appropriate basis that includes one or more of the systems described in paragraphs (a), (b) or (c).
- (53) **“LOAD ALLOCATION”** means the portion of a receiving waters assimilative capacity that is attributed to either one of its existing or future nonpoint sources of pollution or to natural background sources.
- (54) **“MAJOR MUNICIPAL SEPARATE STORM SEWER OUTFALL”** (or **“MAJOR OUTFALL”**) means a municipal separate storm sewer outfall that discharges from a single pipe with an inside diameter of 36 inches or more or its equivalent (discharge from a single conveyance other than circular pipe which is associated with a drainage area of more than 50 acres); or for municipal

Water Quality Control Commission

separate storm sewers that receive stormwater from lands zoned for industrial activity (based on comprehensive zoning plans or the equivalent), an outfall that discharges from a single pipe with an inside diameter of 12 inches or more or from its equivalent (discharge from other than a circular pipe associated with a drainage area of 2 acres or more).

- (55) “MANURE” means feces, litter, and/or urine and materials, such as bedding, sludge, compost, feed waste, dry harvested forage, and any raw material used in or resulting from operation of an animal feeding operation, that have been commingled with feces, litter, and/or urine.
- (56) “MASS BALANCE ANALYSIS” means the determination of mass limitations expressed in pounds of a pollutant.
- (57) “MEDIUM CONCENTRATED ANIMAL FEEDING OPERATION” (Medium CAFO) means an AFO with the type and number of animals that fall within any of the ranges listed in (a) below and which has been defined or designated as a CAFO. An AFO is defined as a Medium CAFO if:
- (a) The type and number of animals that it stables or confines falls within any of the following ranges:
- (I) 200 to 699 mature dairy cows, whether milked or dry;
 - (II) 300 to 999 veal calves;
 - (III) 300 to 999 cattle other than mature dairy cows or veal calves. Cattle includes but is not limited to heifers, steers, bulls, and cow/calf pairs.
 - (IV) 750 to 2,499 swine each weighing 55 pounds or more;
 - (V) 3,000 to 9,999 swine each weighing less than 55 pounds;
 - (VI) 150 to 499 horses;
 - (VII) 3,000 to 9,999 sheep or lambs;
 - (VIII) 16,500 to 54,999 turkeys;
 - (IX) 9,000 to 29,999 laying hens or broilers, if the AFO uses a liquid manure handling system;
 - (X) 37,500 to 124,999 chickens (other than laying hens), if the AFO uses other than a liquid manure handling system;
 - (XI) 25,000 to 81,999 laying hens, if the AFO uses other than a liquid manure handling system;
 - (XII) 10,000 to 29,999 ducks (if the AFO uses other than a liquid manure handling system; or
 - (XIII) 1,500 to 4,999 ducks (if the AFO uses a liquid manure handling system; and

Water Quality Control Commission

- (b) Either one of the following conditions are met:
 - (I) Pollutants from the animal feeding operation are discharged into surface water through a man-made drainage system; or
 - (II) Pollutants are discharged directly into surface water which originate outside of and pass over, across, or through the facility or otherwise come into direct contact with the animals confined in the operation.

- (58) "MEDIUM MUNICIPAL SEPARATE STORM SEWER SYSTEM" means all municipal separate storm sewers that are either:
 - (a) located in the City of Aurora, City of Lakewood, or the City of Colorado Springs; or
 - (b) located in a municipality other than that described in (a) and meets the criteria of either (b)(i) or (b)(ii) below:
 - (i) in an incorporated place, other than that described in (a), with a population of 100,000 or more but less than 250,000, as determined by the 1990 Decennial Census by the Bureau of Census; or
 - (ii) in the unincorporated portions of a county that has areas designated as urbanized areas by the 1990 Decennial Census by the Bureau of Census and where the population of the urbanized areas exceeds 100,000 but less than 250,000, after the population in the incorporated places within the urbanized areas is excluded, except municipal separate storm sewer systems that are located in the incorporated places within such counties; or
 - (c) owned or operated by a municipality other than those described in paragraphs (a) or (b) and that are designated by the Division as part of the large or medium municipal separate storm sewer system due to the interrelationship between the discharges of the designated storm sewer and the discharges from municipal separate storm sewers described under paragraphs (a) or (b). In making this determination the Division may consider the following factors:
 - (i) physical interconnections between the municipal separate storm sewers;
 - (ii) the location of discharges from the designated municipal separate storm sewer relative to discharges from municipal separate storm sewers described in subparagraph (a);
 - (iii) the quantity and nature of pollutants discharged to state waters;
 - (iv) the nature of the receiving waters; or
 - (v) other relevant factors; or
 - (d) the Division may, upon petition, designate as a medium municipal separate storm sewer system, municipal separate storm sewers located within the boundaries of a region

Water Quality Control Commission

defined by a stormwater management regional authority based on a jurisdictional, watershed, or other appropriate basis that includes one or more of the systems described in paragraphs (a), (b) or (c).

- (59) "MS4" means a municipal separate storm sewer system.
- (60) "MONITORING ZONE" means the soil zone of land application sites that is sampled and analyzed for required constituents for monitoring purposes. The depth of the monitoring zone is:
- (a) Between four and six feet below the land surface for shallow-rooted crops, unless rooting depth restrictions exist at a shallower depth, as defined in (d) below.
 - (b) Between four and eight feet below the land surface for deep-rooted crops, unless rooting depth restrictions exist at a shallower depth, as defined in (d) below.
 - (c) Between four and eight feet below the land surface for land application sites that have been found to be predominantly composed of soils that are classified as sandy, sandy loam, or loamy sand in texture throughout the entire soil profile, unless rooting depth restrictions exist at a shallower depth, as defined in (d) below,
 - (d) The presence and depth of, or absence of, a root growth restrictive layer in the soil profile will be determined by a site-specific pedological soil analysis performed by a qualified soil scientist (i.e., Natural Resources Conservation Service soil scientist or equivalently trained individual).
- (61) "MULTI-YEAR PHOSPHORUS APPLICATION" means phosphorus applied to a field in excess of the crop needs for that year. In multi-year phosphorus applications, no additional manure, residual solids, process wastewater, or swine feeding process wastewater is applied to the same land in subsequent years until the applied phosphorus has been removed from the field via harvest and crop removal.
- (62) "MUNICIPAL SEPARATE STORM SEWER" means a conveyance or system of conveyances (including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, man-made channels, or storm drains):
- (a) owned or operated by a State, city, town, county, district, association, or other public body (created by or pursuant to State law) having jurisdiction over disposal of sewage, industrial wastes, stormwater, or other wastes, including special districts under State law such as a sewer district, flood control district or drainage district, or similar entity, or a designated and approved management agency under section 208 of the CWA that discharges to state waters;
 - (b) designed or used for collecting or conveying stormwater;
 - (c) which is not a combined sewer; and
 - (d) which is not part of a Publicly Owned Treatment Works (POTW).

Water Quality Control Commission

- (63) “MUNICIPALITY” means a city, town, county, district, association, or other public body created by or under State law and having jurisdiction over disposal of sewage, industrial wastes, or other wastes, or a designated and approved management agency under section 208 of CWA(1987).
- (64) “MUNICIPAL STORMWATER OUTFALL” means a “point source”, as defined in this section, at the point where a municipal separate storm sewer discharges to state waters and does not include open conveyances connecting two municipal separate storm sewers, or pipes, tunnels or other conveyances which connect segments of the same stream or other state waters and are used to convey state waters.
- (65) “NEW DISCHARGER” means any building, structure, facility, or installation from which there is or may be a discharge of pollutants that did not commence at the particular site before August 13, 1979, that is not a new source, and that has never received a final effective permit for discharges at the site.
- (66) “NEW HOUSED COMMERCIAL SWINE FEEDING OPERATION” means a housed commercial swine feeding operation for which physical construction was commenced on or after March 30, 1999.
- (67) “NEW SOURCE” means any building, structure, facility, or installation from which there is or may be a discharge of pollutants, the construction of which commenced after the promulgation of standards of performance for the particular source, pursuant to section 306 of the Clean Water Act. The term also applies where a standard of performance has been proposed, provided that the standard is promulgated within 120 days of its proposal. Except as otherwise provided in an applicable new source performance standard, a source is a “new source” if it meets this definition of “new source”, and:
- (a) It is constructed at a site at which no other source is located; or
 - (b) It totally replaces the process or production equipment that causes the discharge of pollutants at an existing source; or
 - (c) Its processes are substantially independent of an existing source at the same site. In determining whether these processes are substantially independent, the Division shall consider such factors as the extent to which the new facility is integrated with the existing plant; and the extent to which the new facility is engaged in the same general type of activity as the existing source.
- (68) “NON-LAND-APPLICATION FACILITY” means, for purposes of section 61.13 of this regulation, a housed commercial swine feeding operation that is capable of continuous operation without land application of swine feeding process wastewater or residual solids at any on-site or off-site location or the discharge of swine feeding process wastewater to surface waters.
- (69) “NUMERICAL PROTECTION LEVELS” means ground water quality levels established on a site-specific basis by the Division pursuant to section 61.8(2)(b) of this regulation, which will be binding with respect to the activity in question unless and until site-specific ground water quality standards have been adopted by the Commission.

Water Quality Control Commission

- (70) “100-YEAR, 24-HOUR STORM” means a storm of a 24-hour duration which yields a total rainfall of a magnitude which has a probability of recurring once every one hundred years.
- (71) “OVERBURDEN” means any material of any nature, consolidated or unconsolidated, that overlies a mineral deposit, excluding topsoil or similar naturally-occurring surface materials that are not disturbed by mining operations.
- (72) “PERMIT” means a permit issued pursuant to these regulations and therefore includes Colorado Discharge Elimination System permits, including new permits, renewals, general permits, GPPA permits and temporary permits.
- (73) “PERSON” means an individual, corporation, partnership, association, state or political subdivision thereof, federal agency, state agency, municipality, Commission, or interstate body.
- (74) “POINT OF COMPLIANCE” means a vertical surface that is located at some specified distance hydrologically downgradient of the activity being monitored for compliance; provided that the Commission may establish a point of compliance other than a vertical surface on a site specific basis pursuant to section 41.6 of the “Basic Standards for Ground Water”.
- (75) “POINT SOURCE” means any discernible, confined, and discrete conveyance, including, but not limited to, any pipe, ditch, channel, tunnel, conduit, well, discrete fissure, container, rolling stock, concentrated animal feeding operation, or vessel or other floating craft, from which pollutants are or may be discharged. “Point Source” does not include irrigation return flow.
- (76) “POLLUTANT” means dredged spoil, dirt, slurry, solid waste, incinerator residue, sewage, sewage sludge, garbage, trash, chemical waste, biological nutrient, biological material, radioactive material, heat, wrecked or discarded equipment, rock, sand, or any industrial, municipal or agricultural waste.
- (77) “POLLUTION” means man-made or man-induced, or natural alteration of the physical, chemical, biological, and radiological integrity of water.
- (78) “PRACTICAL QUANTITATION LIMIT” (PQL) means the minimum concentration of an analyte (substance) that can be measured with a high degree of confidence that the analyte is present at or above that concentration.
- (79) “PRELIMINARY DRAFT” means a document developed in accordance with section 61.5(1.5) and issued by the Division prior to giving public notice of a complete permit application for an individual permit and the Division’s preliminary analysis of that application. The preliminary draft is not a draft permit.
- (80) “PRETREATMENT REGULATIONS” means the regulations adopted by the Commission and published as 5 CCR 1002-63, Regulation No. 63.
- (81) “PRIVATELY OWNED TREATMENT WORKS” means any device or system which is used to treat wastes of a liquid nature from other facilities and which is not a publicly owned treatment works.

Water Quality Control Commission

- (82) "PROCEDURAL REGULATIONS" means regulations entitled "Procedural Rules", adopted by the Commission and published as 5 CCR 1002-21, Regulation No. 21.
- (83) "PROCESS WASTEWATER" means, for the purposes of all but sections 61.13 and 61.17 of this regulation, any water which, during manufacturing or processing, comes into direct contact with or results from the production or use of any raw material, intermediate product, finished product, byproduct, or waste product. For the purposes of sections 61.13 and 61.17 of this regulation, process wastewater means water directly or indirectly used in the operation of the housed commercial swine feeding operation or CAFO for any or all of the following: spillage or overflow from animal or poultry watering systems; washing, cleaning, or flushing pens, barns, manure pits, or other CAFO facilities; direct contact swimming, washing, or spray cooling of animals; or dust control. Process wastewater also includes any water which comes into contact with any raw materials, products, or byproducts including manure, litter, feed, milk, eggs or bedding.
- (84) "PRODUCTION AREA" means that part of an animal feeding operation that includes the animal confinement area, the manure and residual solids storage area, the raw materials storage area, and the waste containment areas. The animal confinement area includes but is not limited to open lots, housed lots, feedlots, confinement houses, stall barns, free stall barns, milkrooms, milking centers, cowyards, barnyards, medication pens, walkers, animal walkways, and stables. The manure and residual solids storage area includes but is not limited to lagoons, runoff ponds, storage sheds, stockpiles, under house or pit storages, liquid impoundments and tanks, static piles, and composting piles. The raw materials storage area includes but is not limited to feed silos, silage bunkers, and bedding materials. The waste containment area includes but is not limited to settling basins, and areas within berms and diversions which separate uncontaminated storm water. Also included in the definition of production area is any egg washing or egg processing facility, and any area used in the storage, handling, treatment, or disposal of mortalities.
- (85) "PROMULGATE" means and includes authority to adopt, and from time to time amend, repeal, modify, publish and put into effect.
- (86) "PROPOSED PERMIT" means a permit prepared after the close of the public comment period which is sent to EPA for review before final issuance. A proposed permit is not a draft permit.
- (87) "PUBLIC DRINKING WATER SYSTEM" means a system for the provision to the public of piped water for human consumption, if such system has at least fifteen (15) service connections or serves an average of at least 25 persons daily at least 60 days out of the year. A public drinking water system includes both community and non-community systems.

Water Quality Control Commission

- (88) "PUBLICLY OWNED TREATMENT WORKS" ("POTW") means a publicly owned domestic wastewater treatment facility. This includes any publicly owned devices and systems used in the storage, treatment, recycling or reclamation of municipal sewage or treatment of industrial wastes of a liquid nature. It also includes sewers, pipes and other conveyances if they are publicly owned or if they convey wastewater to a POTW treatment plant. The term also means the municipality, as defined in section 502(4) of the Clean Water Act, which has jurisdiction over the indirect discharges to and the discharge from such treatment works.
- (89) "RECOMMENCING DISCHARGER" means a source which recommences discharge after terminating operations. Temporary shut down of operations for repair or maintenance does not constitute a termination of operations for purpose of this paragraph.
- (90) "REGIONAL ADMINISTRATOR" means the Region VIII Administrator of the Federal Environmental Protection Agency.
- (91) "REGULATED SMALL MUNICIPAL SEPARATE STORM SEWER SYSTEM" means:
- (a) a small MS4 located in an urban area with a population of 50,000 or more people as determined by the latest Decennial Census by the Bureau of the Census. (If the small MS4 is not located entirely within an urban area with a population of 50,000 or more people, only the portion that is within this urban area is regulated); or
 - (b) a small MS4 designated by the Division, including where the designation is pursuant to 61.3(2)(f)(v)(A)(III), or based upon a petition under 61.3(2)(g)(iv).
- (92) "RENEWAL PERMIT APPLICATION" means an application for a point source activity for which a permit has previously been issued by the Division.
- (93) "RESIDUAL SOLIDS" means for purposes of section 61.13 of this regulation, manure, solids separated from swine feeding process wastewater, sludges derived from impoundments or tanks used to store or treat swine feeding process wastewater, solids derived from treatment of swine feeding process wastewater by means of other than impoundments or tanks, and composted solids.
- (94) "RUNOFF COEFFICIENT" means the fraction of total rainfall that will appear at a conveyance as runoff.
- (95) "SCHEDULE OF COMPLIANCE" means a schedule of remedial measures and times including an enforceable sequence of actions or operations leading to compliance with a control regulation or effluent limitation.
- (96) "SECONDARY TREATMENT" means that level of wastewater treatment in domestic wastewater treatment works which obtains the effluent quality needed to achieve the effluent limitations specified in Regulation No. 62, section 2 of "Regulations for Effluent Limitations."
- (97) "SETBACK" means a specified distance from surface waters, or potential conduits to surface waters, where manure, residual solids, process wastewater, and swine feeding process wastewater may not be land applied. Examples of conduits to surface waters include but are not limited to: open tile line intake structures, sinkholes, and agricultural well heads.

Water Quality Control Commission

- (98) "SIGNIFICANT MATERIALS" includes, but is not limited to raw materials; fuels; materials such as solvents, detergents, and plastic pellets; finished materials such as metallic products; raw materials used in food processing or production; hazardous substances designated under Section 101(14) of CERCLA as amended by SARA (1986); any chemical the facility is required to report pursuant to Section 313 of Title III of SARA (1986); fertilizers; pesticides; and waste products such as ashes, slag and sludge that have the potential to be released with stormwater discharges.
- (99) "SITE" means the land or water area where any facility or activity subject to this regulation is physically located or conducted, including adjacent land used in connection with the facility or activity.
- (100) "SMALL CONCENTRATED ANIMAL FEEDING OPERATION" (Small CAFO) means an AFO that is designated by the Division as a CAFO, and is not a Medium CAFO.
- (101) "SMALL MUNICIPAL SEPARATE STORM SEWER SYSTEM" (small MS4) means any municipal separate storm sewer that is not defined as a "large" or "medium" municipal separate storm sewer system pursuant to paragraphs 42 and 45 of this section. This term includes publicly-owned systems similar to separate storm sewer systems in municipalities (i.e., non-standard MS4s), including, but not limited to, systems at military bases and large education, hospital or prison complexes, if they are designed for a maximum daily user population (residents and individuals who come there to work or use the MS4's facilities) of at least 1000.
- (102) STANDARD INDUSTRIAL CLASSIFICATION ("SIC") CODE means the statistical classification standard for industrial establishments developed by the Office of Management and Budget and published in the Standard Industrial Classification Manual, Executive Office of the President, Office of Management and Budget (1987).
- (103) "STATE WATERS" means any and all surface and subsurface waters which are contained in or flow in or through this State, but does not include waters in sewage systems, waters in treatment works of disposal systems, waters in potable water distribution systems, and all water withdrawn for use until use and treatment have been completed.
- (104) "STORMWATER" means stormwater runoff, snow melt runoff, and surface runoff and drainage.
- (105) "SURFACE WATER" means, for the purposes of sections 61.13 and 61.17, all waters of the state that are also waters of the U.S.
- (106) "SWINE FEEDING PROCESS WASTEWATER" means any process wastewater directly or indirectly used in the operation of a housed commercial swine feeding operation, including that wastewater resulting from feeding, flushing, or washing operations; spillage or overflow from animal watering systems, direct contact swimming, washing, or spray cooling of swine; or dust control; and any water or precipitation that comes into contact with any residual solids, urine, raw materials, feed, bedding, or any other animal feeding by-product resulting from the production of swine.
- (107) "TANK" means a stationary device, designed to contain an accumulation of pollutant-containing water, which is constructed primarily of non-earthen materials (e.g., wood, concrete, steel, plastic) which provide structural support.

Water Quality Control Commission

- (108) “THROUGHPUT” means the hydraulic and organic loading being measured prior to treatment at a domestic wastewater treatment works during a specified period of time (usually a 30-day period).
- (109) “TOTAL COLIFORM” means all coliform bacteria.
- (110) “TOTAL MAXIMUM DAILY LOAD” means the sum of the individual wasteload allocations for point sources and load allocations for nonpoint sources and natural background.
- (111) “TOXIC POLLUTANT” means any pollutant listed as toxic under section 307(A)(1) of the Federal Clean Water Act.
- (112) “25-YEAR, 24-HOUR STORM” means a storm of a 24-hour duration which yields a total rainfall of a magnitude which has a probability of recurring once every twenty-five years.
- (113) “UNCONTROLLED SANITARY LANDFILL” means a landfill or open dump, whether in operation or closed, that does not meet the requirements for run-on or run-off controls established pursuant to subtitle D of the Solid Waste Disposal Act as amended by HSWA (1984).
- (114) “UPSET” means an exceptional incident in which there is unintentional and temporary noncompliance with permit effluent limitations because of factors beyond the reasonable control of the permittee. An upset does not include noncompliance to the extent caused by operational error, improperly designed treatment facilities, inadequate treatment facilities, lack of preventive maintenance, or careless or improper operation.
- (115) “VADOSE ZONE” means the zone between the land surface and the water table. It includes the root zone, intermediate zone, and capillary fringe. Saturated bodies, such as perched ground water, may exist in the vadose zone, also called zone of aeration and unsaturated zone.
- (116) “VEGETATED BUFFER” means a narrow, permanent strip of dense perennial vegetation established parallel to the contours of and perpendicular to the dominant slope of the field for the purposes of slowing water runoff, enhancing water infiltration, and minimizing the risk of any potential nutrients or pollutants from leaving the field and reaching surface waters.
- (117) “WASTELOAD ALLOCATION” means the portion of the receiving water's assimilative capacity that is allocated to one of its existing or future point sources of pollution. Wasteload allocations constitute a type of water quality-based effluent limitation.
- (118) “WATER QUALITY IMPACTS” means the effect of a discharge upon state waters, including, but not limited to the exceedance of permit limitations and/or stream standards or ground water standards; the occurrence of fish or other aquatic organism kills; excessive growth of organisms that affects the taste and odor of a potable water supply source and/or aesthetic quality of a recreational area; and/or the occurrence of conditions resulting in detrimental public health affects.
- (119) “WATER QUALITY STANDARD” means any standard promulgated pursuant to section 25-8-204 C.R.S.

Water Quality Control Commission

- (120) “WET LOT FOR DUCKS” means a confinement facility for raising ducks which is open to the environment, has a small number of sheltered areas, and with open water runs and swimming areas to which ducks have free access.
- (121) “WHOLE EFFLUENT TOXICITY” Whole effluent toxicity (WET) is a biological activity effect by which effluents exhibit antagonism to the aquatic organisms used in biomonitoring tests in the form of acute or chronic toxicity. WET may be caused by a variety of specific compounds or by synergistic interaction among compounds.

61.5 REVIEW, DETERMINATION, NOTICE and PUBLIC PARTICIPATION**61.5(1) REVIEW OF AN APPLICATION**

- (a) These regulations apply to all permit applications and renewals regardless of the date of receipt by the Division.
- (b) Applicants for a permit to discharge are strongly encouraged to schedule a pre-application conference and site inspection with the Division in order for the Division to evaluate the proposed discharges for which an application is required or to determine the applicability of these regulations. The Division's site visit in conjunction with the pre-application conference will be used to identify needed background information required for a complete application.
- (c) The Division shall begin the review of an application within forty-five days after the receipt of the application and shall notify the applicant within ninety days after receipt of the application whether the application is complete. If the Division determines the application is incomplete, the Division may request that the applicant submit additional information. If additional information is requested by the Division and submitted by the applicant, the Division shall have fifteen days after the date additional information is submitted to determine whether the additional information satisfies the request and to advise the applicant if, and in what respects, the additional information does not satisfy the request. A final decision that an application is not complete shall be considered a final agency action upon issuance of such decision to the applicant and shall be subject to judicial review. The Division shall not issue a permit until the application is deemed complete. The one hundred eighty day deadline for the Division to issue the permit shall be extended by the number of days that an applicant takes to submit additional information requested by the Division, plus the fifteen days provided to the Division to evaluate such additional information.
- (d) The Division shall evaluate complete permit applications to determine whether the proposed discharge will comply with all applicable federal and state statutory and regulatory requirements.
- (e) When the Division determines that a site visit(s) is necessary to evaluate the discharge to which an application pertains, the Division shall specify the date of notification by which time the applicant shall make arrangements for the date of the site visit. In the event that satisfactory response is not received, the permit application shall be denied by the Division and the applicant so notified.

Water Quality Control Commission

61.5(1.5) NOTICE AND COMMENT FOR PRELIMINARY DRAFTS

- (a) For permit issuance and reissuance (but not for denial, modification, or termination), the Division shall prepare a preliminary analysis and tentative determination of its intent to issue or reissue the permit and advise the applicant of that analysis.
- (b) Where the Division has made a tentative determination to issue or reissue a permit, the Division shall develop a preliminary draft with permit terms and conditions. Preliminary notice of the preliminary draft and preliminary draft rationale shall be transmitted to the applicant and posted on the Division's website prior to the public notice outlined under section 61.5(2)(e). Upon consent by the applicant, the Division may waive the development of the preliminary draft and the preliminary notice.
- (c) The applicant may submit written comments to the Division on the preliminary draft to identify errors in the preliminary draft, such as technical mistakes and typographical errors. Comments regarding interpretation of law, policy, or guidance, and comments advocating changes to permitting policy, may not be submitted at this stage and must wait for public notice and comment under section 61.5(2). Comments must be submitted using a form provided by the Division. The period for applicant comment will be fourteen (14) calendar days from the date of preliminary notice of the preliminary draft.
- (d) Following the close of the preliminary notice applicant comment period under paragraph (c), the Division may make such modifications in the terms and conditions of the preliminary draft as may be appropriate, for development of the draft permit pursuant to section 61.5(2).
- (e) The Division will inform interested person(s), other than the applicant, who submit written comments on the preliminary draft that they must submit comments pursuant to the public comment provisions in section 61.5(2) instead. The Division will also notify such person(s) when the public notice and comment period under section 61.5(2) commences.
- (f) The contents of the preliminary notice required by paragraph (b) of this section shall include at least the following:
 - (i) Name, address, and phone number of the Division;
 - (ii) Name and address of each applicant and, if different, of the facility or activity regulated by the permit;
 - (iii) Brief description of each applicant's activities or operations which result in the discharge described in the permit application or the preliminary draft (e.g., municipal waste treatment plant, steel manufacturing, drainage from mining activities);
 - (iv) Name of waterway to which each discharge is made and a short description of the location of each discharge on the waterway indicating whether such discharge is a new or an existing discharge;
 - (v) A brief description of the procedures for the formulation of the final permit;

Water Quality Control Commission

- (vi) Address and phone number of State or interstate agency premises at which interested persons may obtain further information, request a copy of the application, the preliminary analyses and the preliminary draft, and inspect and copy permit forms and related documents;
- (vii) A description of the comments procedures provided in section 61.5(1.5); and
- (viii) The water quality and flow data, effluent data, and an identification of the methodology used in developing numeric and narrative effluent limits included in the preliminary draft.
- (ix) A copy, as it exists at the time the preliminary draft is transmitted, of the Division's permit builder tool and other calculation tools, if used to develop the preliminary draft. For tools that are spreadsheets, the spreadsheets shall be either populated with data, formulas and calculations used to develop the preliminary draft. For tools that are not spreadsheets, the Division shall provide the input data file spreadsheet for the tool, as it exists at the time the preliminary draft is transmitted. In either case, the tools shall be in a format that allows calculation from inputs to outputs.

61.5(2) PUBLIC NOTICE AND COMMENT - DRAFT PERMITS

- (a) The Division shall prepare a preliminary analysis and tentative determination to issue or deny the permit and advise the applicant of that analysis if not otherwise completed under section 61.5(1.5).
- (b) If the analysis in section 61.5(1.5)(a) or 61.5(2)(a) is to issue a permit, the Division shall prepare a draft permit with terms and conditions. Public notice of the Division's draft permit shall be given as provided in paragraph (e) of this section. Such draft permit and permit rationale shall be available to the public for inspection and copying and shall include at least the following:
 - (i) Proposed effluent limitations for each discharge point for those pollutants proposed to be limited;
 - (ii) Delineation of the service area based on population and design flow of the treatment and sewer system for domestic permits and delineation of the maximum expected production rate for industrial permits;
 - (iii) A proposed schedule of compliance, including interim dates and requirements, for meeting the proposed effluent limitations if the permittee is not presently doing so;
 - (iv) All monitoring requirements under section 61.8(4);
 - (v) All terms and conditions under sections 61.8 through 61.8(10) of these regulations; and all applicable terms and conditions under sections 61.8(11) and 61.8(12) of these regulations; and
 - (vi) For major facilities, any additional information which may be required pursuant to 40 C.F.R. 124.8 or 40 C.F.R. 124.56.

Water Quality Control Commission

- (c) If the Division proposes to deny the permit, the Division shall inform the applicant of the reasons for the proposed denial. The decision to deny a permit shall be given by notice as provided in paragraph (e) of this section.

- (d) Interested persons may submit written comments to the Division on the permit application and draft permit, and may request a public meeting pursuant to section 61.5(3). The period for public comment will typically close thirty (30) days from the date of notice of the permit application and the draft permit, unless extended in section 61.5(2)(d)(i) or if a public meeting is held on the permit application and draft permit. If a public meeting is held on the application and draft permit, the period for public comment shall close sixty (60) days from the date of notice for the draft permit.
 - (i) Discretionary public comment periods.
 - (A) Extension of comment period. A comment period longer than thirty (30) days may be necessary to give commenters a reasonable opportunity to comply with the requirements of sections 61.5 and 61.7. Additional time shall be granted to the extent that a commenter who requests additional time demonstrates the need for such time and the extension does not unreasonably delay permit issuance.
 - (B) Responsive comment period. The Division may also establish a responsive period of public comment in which any person may file a written response to the material filed by any other person during the comment period. A responsive comment period may be granted in addition to time granted pursuant to a request for public hearing under section 61.5(2)(d) and/or an extension of the public comment period pursuant to section 61.5(2)(d)(i)(A).
 - (I) A request for a responsive comment period must be made within fifteen (15) calendar days of the close of the public comment period.
 - (II) The Division must respond to a request for a responsive comment period within five (5) days of receipt of the request.
 - (III) The Division will establish a schedule of deadlines for filing responsive comments and rebuttal comments and will inform the person(s) requesting a responsive comment period and all previous commenters of this schedule when it grants the request.
 - (a) The responsive comment period schedule will establish a deadline to file responsive comments. Interested persons will have at least ten (10) days to file responsive comments.
 - (b) The responsive comment period schedule will establish a deadline to file rebuttal comments. Interested persons will have at least ten (10) days to file rebuttal comments immediately following the close of the deadline for responsive comments. Filing of rebuttal comments is optional.

Water Quality Control Commission

- (IV) Any allegation that the Division has erred in failing to grant a responsive comment period or in establishing the deadlines for the responsive comment period must be made in writing to the Division no more than forty-five (45) days after the close of the initial public comment period.
 - (C) Reopening of comment period. In some cases, the Division may reopen the public comment period for limited purposes to expedite the decision-making process. Comments filed during the reopened comment period shall be limited to the substantial new questions, issues, data, information, or arguments that caused the reopening. The public notice under section 61.5(2)(e) shall define the scope of the reopening. If the comment period is reopened, it will be for a minimum of thirty (30) days from the date of the notice of reopening. A commenter may request an extension of the reopened comment period, as necessary, pursuant to section 61.5(2)(d)(i)(A).
- (e) Public Notice of every draft permit and, where applicable, of the Division's preliminary antidegradation determination pursuant to the Procedural Rules, Regulation No. 21, section 16, shall be transmitted to the applicant and circulated in a manner designed to inform interested and potentially interested persons of the proposed discharge and of the draft permit. Procedures for the circulation of public notice shall include at least the following:
 - i) Notice shall be circulated in a newspaper which is distributed within the geographic area of the proposed discharge. The Division may also circulate a press release that is accessible to media throughout the state;
 - (ii) The Division shall transmit notice to any other state whose waters may be affected by the issuance of the proposed permit, with the request that the State submit recommendations to the Division concerning the proposed permit within a specified time period. The Division shall either adopt the recommendations or respond in writing and explain why the recommendations are not accepted;
 - (iii) The Division shall transmit notice to any interstate agency which may have an official interest in such permit, with request for comment within a specified time period. The Division shall either adopt the recommendations or respond in writing and explain why the recommendations are not accepted;
 - (iv) The Division shall transmit a notice to all other appropriate government agencies and shall provide such agencies an opportunity to submit their views and recommendations. Such agencies shall include, among others, any agency responsible for the preparation of any approved water management plan under Section 208(b) of the Federal Act and appropriate public health agencies;
 - (v) The Division shall add the name of any person or group upon request to the mailing list to receive copies of notices for all discharge applications within the State or within a certain geographical area, and shall charge for such service;
 - (vi) The Division shall also, during the period from the date of the initial public notice of the application and draft permit to the close of the public comment period, maintain in the office of the county clerk and recorder of the county in which the proposed discharge, or

Water Quality Control Commission

a part thereof, is to occur a copy of its draft permit and a copy of the permit application and, where applicable, a copy of the Division's preliminary antidegradation determination with all accompanying data for public inspection.

- (f) The contents of the public notice required by paragraph (e) of this section shall include at least the following:
- (i) Name, address, and phone number of the Division;
 - (ii) Name and address of each applicant and, if different, of the facility or activity regulated by the permit;
 - (iii) Brief description of each applicant's activities or operations which result in the discharge described in the permit application or the draft permit (e.g., municipal waste treatment plant, steel manufacturing, drainage from mining activities);
 - (iv) Name of waterway to which each discharge is made and a short description of the location of each discharge on the waterway indicating whether such discharge is a new or an existing discharge;
 - (v) A statement of intent to issue or deny a permit;
 - (vi) A brief description of the procedures for the formulation of the final permit, including the thirty (30) day period during which public and official comments are invited;
 - (vii) Address and phone number of State or interstate agency premises at which interested persons may obtain further information, request a copy of the application, the preliminary analyses and the draft permit, and inspect and copy permit forms and related documents;
 - (viii) Name, address, and telephone number of the Water Quality Control District Engineer of the Division, in whose area the discharge is located;
 - (ix) A description of the comments and hearing request procedures provided in sections 61.5(2) and (3);
 - (x) The water quality and flow data, effluent data, and an identification of the methodology used in developing numeric and narrative effluent limits included in the draft permit; and
 - (xi) A copy, as it exists at the time the draft permit is issued, of the Division's permit builder tool and other calculation tools, if used to develop the draft permit. For tools that are spreadsheets, the spreadsheets shall be populated with data formulas and calculations used to develop the draft permit. For tools that are not spreadsheets, the Division shall provide the input data file for the tool, as it exists at the time the draft permit is issued. In either case, the tool shall be in a format that allows calculation from inputs to outputs.
 - (xii) If a preliminary draft is required by section 61.5(1.5),
 - (A) changes made since the preliminary draft; and

Water Quality Control Commission

- (B) comment(s) provided by the applicant that the Division has determined do not identify an error(s).
- (g) If the Division proposes to grant a variance to a permit during the public notice period or prior to issuing the final permit, the Division must re-submit the permit to public notice in draft form with a clear statement of the proposed variance. The time period for public comment cited in subsection (d) of this section shall apply to the variance review.
- (h) If the Division grants a variance after the final permit is issued, the variance must be published as a permit modification and is subject to public notice. The period of time for public comment cited in subsection (d) of this section shall apply to the permit modification review.

61.5(3) PUBLIC MEETINGS ON DRAFT PERMITS

- (a) The Division shall provide an opportunity for the applicant, any affected State, any affected interstate agency, the Regional Administrator, or any interested agency, person, or group of persons to request or petition for a public meeting with respect to the draft permit. Any such request or petition for public meeting shall be filed within thirty (30) days of the public notice provided under section 61.5(2), and shall indicate the interest of the party filing such request and the reasons why a meeting is warranted. The Division shall hold a meeting if there is a significant degree of public interest. Instances of doubt should be resolved in favor of holding a meeting. Any such meeting shall be held no more than sixty (60) days after the public notice provided under section 61.5(2), in the geographical area of the proposed discharge or other appropriate area at the discretion of the Division. If appropriate, related groups of permit applications may be considered in one public meeting.
- (b) Public notice of any meeting shall be circulated at least as widely as was the original public notice of the application. Procedures for circulation of public notice of a public meeting shall conform to the procedures contained in section 61.5(2) of these regulations. As a minimum, such notice shall be provided to at least one newspaper of general circulation within the geographical area of the discharge. Notice shall be given at least thirty (30) days in advance of the meeting.
- (c) The contents of public notice of any meeting shall include the following:
 - (i) Name, address, and phone number of the agency holding the public meeting;
 - (ii) Name and address of each applicant whose application will be considered at the meeting;
 - (iii) Name of waterway to which each discharge is made and a short description of the location of each discharge on the waterway;
 - (iv) A brief reference to the public notice issued for each tentative permit determination, including identification number and date of issuance;
 - (v) Information regarding the time and location for the meeting;
 - (vi) The purpose of the meeting;

Water Quality Control Commission

- (vii) A concise statement of the issues raised by the persons requesting the meeting;
 - (viii) Address and phone number of premises at which interested persons may obtain further information, and inspect and copy permit forms and related documents; and
 - (ix) A brief description of the nature of the meeting, including the rules and procedures to be followed.
- (d) Whether or not the applicant requests a public meeting, he or she has not waived his or her right to an adjudicatory hearing upon final determination by the Division to issue the permit, with conditions therein, or to deny the permit.
 - (e) Any person shall be permitted to submit oral or written statements and data concerning the proposed permit. The person conducting the meeting shall have discretion to fix reasonable limits upon the time allowed for oral statements, and may require the submission of statements in writing.

61.5(4) PUBLIC ACCESS TO INFORMATION

- (a) In general, permit applications, preliminary drafts, draft permits, correspondence between the Division and the applicant, the Regional Administrator, and the District Engineer of the Corps of Engineers are public information and shall be available to the public for inspection and copying.
- (b) Any information relating to any secret process, method of manufacture or production, or sales or marketing data, which may be acquired, ascertained, or discovered, whether in any sampling investigation, emergency investigation, or otherwise, shall not be publicly disclosed by any member, officer, or employee of the Commission or the Division, but shall be kept confidential. Any person seeking to invoke the protection of this subsection (b) shall bear the burden of proving its applicability. This section shall never be interpreted as preventing full disclosure of the name and address of any permit applicant or permittee, permit applications, permits, or effluent data.
- (c) The Division shall provide facilities for the inspection of information relating to discharge permits and their applications and shall ensure to the best of its ability that State employees act on a request for such inspection promptly without undue requirements or restrictions.
- (d) The Division shall either ensure that a machine or device for copying of papers and documents is available for a reasonable fee or otherwise provide for coordination with copying facilities or services such that the request for copies of non-confidential documents may be honored within a reasonable period of time.

61.74 STATEMENT OF BASIS, SPECIFIC STATUTORY AUTHORITY, AND PURPOSE – OCTOBER 15, 2024 RULEMAKING HEARING; EFFECTIVE DATE DECEMBER 15, 2024

The provisions of 25-8-202(1)(d) and (2), 25-8-401, 25-8-501, 25-8-501.1, and 25-8-502, C.R.S., provide the specific statutory authority for the amendments to this regulation adopted by the Water Quality Control

Water Quality Control Commission

Commission (Commission). The Commission has also adopted, in compliance with 24-4-103(4) C.R.S., the following statement of basis and purpose.

BASIS AND PURPOSE**A. Urbanized Area Change**

The definition of Regulated Small MS4 in section 61.2(90(a) and designation criteria for MS4s throughout sections 61.2 and 61.3 refer to “urbanized areas” as based on either the 1990 Census or the latest Decennial Census. This terminology and designation criteria stem from EPA Phase II stormwater rule. On June 7, 2023 EPA signed the final rule clarifying Phase II stormwater regulations regarding Census Bureau eliminating the definition of “urbanized area.” Changes to EPA’s regulations are limited to clarifying that the designation threshold criteria of population criteria of 50,000 people for small MS4s will remain the same. Specifically, the final rule replaces the term “urbanized area” in the Phase II regulations with the phrase “urban areas with a population of at least 50,000.” This has been the Census Bureau’s longstanding definition of the term urbanized areas since 1999. The Commission is replacing the term “urbanized area” in Regulation 61 throughout with “urban areas with a population of at least 50,000” for consistency with EPA and Census Bureau’s terminology.

MS4 designation criteria were established in 1999. At that time and previously the Census Bureau definition of “urbanized area” was “one or more cities of 50,000 or more and all the nearby closely settled suburban territory, or urban fringes.” Therefore, replacing of the term “urbanized area” with “urban area with a population of at least 50,000 people does not change the scope of the designation criteria.

In order to distinguish Phase II designation criteria from the static requirements under Phase I, the division has added, where appropriate, clarifying text that urban areas with a population of 50,000 or more people is to be based on the latest Decennial Census by the Bureau of Census. The static requirements under Phase 1 continue to refer to the 1990 Census.

B. Extend Time Period to Request Responsive and Rebuttal Comment Periods

Historically a request for a responsive comment period must be made within ten (10) calendar days of the close of the public comment period. Stakeholders have commented that it takes time for the division to post the public comments which limits the period for one to review and decide whether to request a responsive and rebuttal comment period. The Commission division is changing Regulation 61.5(2)(d)(i)(B) (I) to extend the time period from ten (10) to fifteen (15) calendar days. It is anticipated that the Division will seek to post received comments within the first five (5) days allowing the public ten (10) days to review and decide whether to request a responsive comment period.

C. Correction from 2020 Rulemaking (61.73)

This action reinstates section 61.8(2)(m) which was inadvertently removed after the 2020 Rulemaking. The 2020 Rulemaking’s statement of basis and purpose in 61.73 does not discuss removing 61.8(2)(m) as this was not an indicated change in the draft final action. It was an editorial error in updating Regulation 61 post the rulemaking hearing as other sections still refer to it (e.g., see 61.8(4)).

Water Quality Control Commission

61.75 STATEMENT OF BASIS, SPECIFIC STATUTORY AUTHORITY, AND PURPOSE – OCTOBER 14, 2025 RULEMAKING HEARING; EFFECTIVE: December 31, 2025

The provisions of 25-8-202(1)(d) and (2), 25-8-401, 25-8-501, 25-8-501.1, and 25-8-502, C.R.S., provide the specific statutory authority for the amendments to this regulation adopted by the Water Quality Control Commission (Commission). The Commission has also adopted, in compliance with 24-4-103(4) C.R.S., the following statement of basis and purpose.

BASIS AND PURPOSE

The Commission has added a new section 61.5(1.5) to require the Division to develop a preliminary draft and conduct preliminary notice for new and renewal individual permits.

During the 2025 legislative session, the General Assembly passed Senate Bill 25-305 (SB25-305), Water Quality Permitting Efficiency. This bill contains efficiency and transparency-related items and requirements for the division for permitting actions. The commission has included language in this Regulation No. 61 to fulfill one of the SB25-305 statutory requirements (section 25-8-502(7)(a), C.R.S.), which directs the commission to establish a process for individual permit applicants to review a preliminary draft of their permit by December 31, 2026. The proposed language adds a new step in the individual permitting process, allowing applicants to review the preliminary draft before the draft permit goes to public notice. A preliminary draft will take the same form as a draft permit, including terms and conditions, and a preliminary draft rationale will take the same form as a permit rationale. Essentially, the preliminary draft will have all of the same materials as a draft permit that the division would have issued if it were issued as part of the public notice, including a preliminary version of the fact sheet. A fact sheet is the division's "permit rationale" and that fact sheet may incorporate a water quality assessment if an assessment was conducted for that permit.

Unless waived under 61.5(1.5)(b), the preliminary drafts will be developed and issued to the applicant before publicly issuing a draft permit and conducting public notice as required by 61.5(2). The Commission has also excluded the "preliminary draft" from the definition of a "draft permit" in section 61.2(24) and added a definition of a "preliminary draft" in section 61.2(79) to differentiate between the two documents and their associated requirements. The intent of the preliminary draft is to allow for an efficient and focused review by the permit applicant to identify errors and will allow the Division to correct any such errors before public notice of the draft permit. An applicant's choice to comment (or not) during preliminary notice does not preclude its ability to participate in public notice under sections 61.5(2) or 61.7. Preliminary notice does not limit the scope of issues of law or fact that may be raised during the public comment period and that may be subsequently included in a request for adjudicatory hearing under section 61.7(c).

To meet the intent of a focused and efficient process, the Commission interprets the word "errors" in section 25-8-502(7) to mean errors that are objective in nature, such as technical mistakes or typographic errors. Examples of these types of errors that have been identified previously in draft permits that the new preliminary notice process could capture include, but are not limited to: misidentifying a stream segment; relying on incorrect or out-of-date listing status or standards; incorrect permit cross-references; incorrect regulatory citations; incorrect or out-of-date facility information; errors in calculations, data, or formulas; typo in the monitoring frequency; and date inconsistency between the compliance schedule and effluent limit parts of the permit. This process is not intended to serve as an avenue for identification of subjective concerns in the preliminary draft, including but not limited to perceived flaws of law, legal interpretation, or policy, about which the Division or other stakeholders may reasonably disagree. This process is also not

Water Quality Control Commission

intended to serve as an avenue for applicants to advocate for the establishment of new permitting policy or changes to existing implementation of permitting practices. Those types of subjective comments can instead be raised during public notice and comment under section 61.5(2), at which point other stakeholders will have the opportunity to voice any disagreement with the applicant's comments. When there is potential disagreement as to whether a preliminary notice comment is objective or subjective, the Division should treat the comment as subjective in the interests of public participation and transparency, and address it instead during the public notice process. The preliminary draft and documents associated with the preliminary notice are public information in accordance with section 61.5(4), and the new section 61.5(1.5) clarifies that the Division will document the changes made in the preliminary draft as a result of any comments received and make that information public. Interested parties will, therefore, be made aware of any changes and will still be afforded the ability to effectively engage in the permitting process by providing comments during the public notice, as well as the ability to request additional public engagement opportunities identified in section 61.5(2) such as requesting public meetings and responsive comment periods.

The Commission has also limited the period of time for this preliminary notice to fourteen (14) calendar days, consistent with the language adopted by the General Assembly in SB25-305. The General Assembly has determined this is an appropriate time period given the focused scope of the review and the ability for additional review and comments to be provided during the public notice required by section 61.5(2). The Commission expects that the Division will communicate with applicants prior to scheduling this preliminary notice period to attempt to identify if reasonable revisions in the start date of the preliminary notice period can be made to try to accommodate scheduling conflicts, such as planned vacations of key applicant staff, without significantly delaying public notice.

To assist applicants in completing a timely review, the Commission has included in the required content of the preliminary notice in section 61.5(1.5)(f)(viii) and (ix) a report on the water quality and flow data, effluent data, and the methodology used in developing numeric and narrative effluent limits included in the preliminary draft, as well as a copy, as it exists at the time the preliminary draft is transmitted, of the permit builder tool and other calculation tools used by the Division to develop the preliminary draft. When applicable, the Division may provide calculation tools, such as EPA-developed mathematical models such as the Ammonia Toxicity Model (AMMTOX) or DFLOW models, by making them publicly available on the Division's website and providing the data spreadsheet the Division used. The Commission expects the Division to provide dynamic calculation tools, including an "unlocked" version of the permit builder tool that allow the applicant and other stakeholders to run calculations using these tools. The Commission also expects the Division to provide viewing access to the formulas and calculations embedded in the permit builder tool if the permit builder tool is used. The Commission has also determined that these additional requirements are appropriate for the public notice required by 61.5(2) and has also added analogous requirements to section 61.5(2)(f)(x) and (xi).

The Commission has not included a requirement for preliminary drafts in the required processes for other permit actions identified separately in section 61.8(8), including the modification of permits. The scope of permit modifications is typically much less than permit issuance or reissuance, and the overall timeline for the Division to complete the action is typically significantly shorter. Preliminary draft requirements for modifications could delay the timely completion of permit modifications. The Commission has not applied the preliminary draft requirements for modifications at this time. The Commission has also not included a requirement for preliminary drafts at this time in the required processes for either general permits or authorization to discharge under general permits identified separately in section 61.9(2). Authorizations under general permits are issued in accordance with the general permits and are not included in the

Water Quality Control Commission

requirements in 61.5(2) for the development of draft permits or public notice. Additionally, the Commission understands that current Division practice allows dischargers who are authorized to discharge under a general permit to request a modification of the terms and conditions of their authorization, and that through this process, errors could be corrected.

The Division will prepare a preliminary analysis and tentative determination to issue or reissue a permit under section 61.5(1.5), so section 61.5(2) was changed to avoid confusion and redundancy by clarifying that the Division will also prepare this preliminary analysis and tentative determination for actions not subject to section 61.5(1.5), including but not limited to issuances where preliminary notice is waived in accordance with section 61.5(1.5)(b) and permit modifications (except for minor modifications which do not require public notice).

REGULATION NO. 102 - WATER QUALITY CONTROL DIVISION CASH FEES

5 CCR 1002-102

[Editor's Notes follow the text of the rules at the end of this CCR Document.]

102.1 AUTHORITY

These regulations are promulgated pursuant to the Colorado Water Quality Control Act, section 25-8-205, C.R.S., and section 25-8-210, C.R.S.

102.2 PURPOSE

The purpose of this regulation is to set fees associated with the drinking water cash fund and the clean water cash fund. The drinking water cash fees cover a portion of the division's direct and indirect costs associated with implementing the federal "Safe Drinking Water Act," 42 U.S.C., sec 300f et seq. and Section 25-1-114.1, Part 2 of Article 1.5, C.R.S. The clean water cash fees cover a portion of the division's direct and indirect costs associated with implementing the "Clean Water Act," 33 U.S.C. sec 1251 et seq. and the "Water Quality Control Act" (C.R.S. Title 25, Art. 8).

102.3 DEFINITIONS

- (1) "Colorado Water Quality Control Act" or "Act" means the Colorado Water Quality Control Act as from time to time amended, section 25-8-101, C.R.S., 1973, et seq.
- (2) "Commission" means the water quality control commission created by section 25-8-201, C.R.S.
- (3) "Division" means the Colorado Department of Public Health and Environment, Water Quality Control Division.

102.4 DRINKING WATER CASH FEES

(1) INTRODUCTION

The cash fees generated from this section shall be used to implement the division's drinking water program. These fees cover a portion of the division's direct and indirect costs associated with administering the federal "Safe Drinking Water Act," 42 U.S.C. sec. 300f et seq. as delegated by the U.S. Environmental Protection Agency, section 25-1-114.1, C.R.S., and C.R.S. Title 25, Art. 1.5, Pt. 2. All fees shall be credited to the drinking water cash fund per section 25-1.5-209(2)(a), C.R.S.

(2) DRINKING WATER ANNUAL CASH FEE SCHEDULE

The following 102.4(2) Table A contains the drinking water cash fee schedule. The division may assess an annual fee upon public water systems, and all such fees shall be in accordance with 102.4(2) Table A. When the division determines that a groundwater source is under the direct influence of surface water, the system is reclassified as a surface water system per Colorado Primary Drinking Water Regulations Section 11.8(1)(b)(iv).

102.5 CLEAN WATER CASH FEES

(1) INTRODUCTION

The cash fees generated from this section shall be used to implement the division's clean water program. These fees cover a portion of the division's direct and indirect costs associated with administering the federal "Clean Water Act," 33 U.S.C. sec. 1251 et seq. as delegated by the U.S. Environmental Protection Agency, "Water Quality Control Act" (C.R.S. Title 25, Art. 8), and "On-Site Wastewater Treatment Systems Act" (C.R.S. Title 25, Art. 10). C.R.S. All fees shall be credited to the clean water cash fund per section 25-8-210(4), C.R.S. This section includes clean water cash annual fee schedules and clean water cash fees for regulatory requirements.

(2) CLEAN WATER ANNUAL CASH FEE SCHEDULES

This section includes the clean water annual cash fee schedules for the following fee payor types: biosolids, commerce and industry, construction, municipal separate storm sewer systems, pesticides, and public and private utilities.

(a) Biosolids Annual Cash Fees

- (i) Biosolids generators that generate thirty-one and one-quarter of dry tons or greater of biosolids used for beneficial purposes, in accordance with Regulation 64, are billed annually. This is based on the actual amount of biosolids (dry weight basis) generated and used for beneficial purposes in the previous reporting period covered in the annual report.
- (ii) The annual cash fee schedule for biosolids fee payors shall be in accordance with the following 102.5(2) Table A.

0504	Industrial - single municipal industrial - stormwater only	\$384
0505	Active mineral mines less than ten acres - stormwater only	\$259
0506	Active mineral mines - ten acres or more - stormwater only	\$778
0507	Inactive mineral mines - stormwater only	\$156
0508	Minimal discharge of industrial or commercial waste waters - general permit	\$812
Category 6 Power plants		
0601	Cooling water only, no discharge	\$2,364
0602	Process water from 0 up to 49,999 gallons per day	\$4,460
0603	Process water from 50,000 up to 999,999 gallons per day	\$6,803
0604	Process water from 1,000,000 up to 4,999,999 gallons per day	\$20,491
0605	Process water from 5,000,000 gallons per day or more	\$20,491
Category 7 Sugar Processing		
0701	Process water from 1,000,000 up to 4,999,999 gallons per day	\$20,491
0702	Process water, 5,000,000 gallons per day or more	\$20,491
Category 8 Petroleum refining		
0801	Process water from 1,000,000 up to 4,999,999 gallons per day	\$20,491
Category 9 Fish Hatcheries		
0901	Fish hatcheries	\$1,700

Category 10 Manufacturing and other industries:		
1001	Cooling water only	\$2,364
1002	Process water from 0 up to 49,999 gallons per day	\$4,460
1003	Process water from 50,000 up to 999,999 gallons per day	\$6,803
1004	Process water from 1,000,000 up to 4,999,999 gallons per day	\$20,491
1005	Process water from 5,000,000 up to 19,999,999 gallons per day	\$25,178
1006	Process water from 20,000,000 gallons per day or more	\$40,983
1007	Amusement and recreation services	\$3,070
Category 11 Individual industrial stormwater permits:		
1101	Individual industrial - less than ten acres	\$612
1102	Individual industrial - ten acres or more	\$778
1103	Individual industrial - stormwater only - international airports	\$12,900

(c) Construction Stormwater Annual Cash Fees

- (i) The construction stormwater fee payor type includes annual fee schedules for regulated activities associated with construction activities.
- (ii) The annual cash fee schedule for construction stormwater fee payors shall be in accordance with the following 102.5(2) Table C.
- (iii) The division shall use the construction cash fee revenue collected pursuant to this section to continue to fund the administration and oversight of the construction sector, including services provided under the alternative compliance assurance model. The division shall not use the revenue to fund additional enforcement staff unless such funding is included in a commission fee-setting rule. An alternative compliance assurance model includes:
 - (A) Increasing inspections of the construction sector to meet compliance objectives identified by the federal Environmental Protection Agency;
 - (B) Implementing a compliance strategy that relies on increased assistance and follow-up to obtain an overall increase in compliance instead of increased reliance on enforcement;
 - (C) Targeting additional compliance assistance towards permittees to seek increased compliance, including: streamlined site visits that provide initial assistance consultations and increased assistance resources such as guidance documents, presentations, and online resources; review and response to the inspected entity's written response to the inspection; follow-up inspections and additional inspections for owners and operators with systemic violations; and increased overall inspection frequency;
 - (D) Maintaining and increasing current service levels of administration and oversight for the division's stormwater management system administrator program; and

- (E) Targeting enforcement towards operators that show chronic violations, significant violations, or recalcitrant response actions.

(3) CLEAN WATER NON-ANNUAL CASH FEES

This section includes the clean water cash fee schedules for the following regulatory requirements: permit application, permit modification, preliminary effluent limits, on-site wastewater treatment system, site application and design review, and water quality certifications.

(a) Permit Application Fee

The division may assess a nonrefundable permit application fee for new permits and new general permit certifications equal to fifty percent of the annual permit fee in Section 102.5(2).

(b) Permit Modification Fee

The division may assess a fee for an amendment or modification to permits and general permit certifications. For minor modifications, the fee must be in an amount equal to twenty-five percent of the annual permit fee in Section 102.5(2) for the permit or general permit certification being amended, not to exceed \$2,810. For major modifications, the fee must be in an amount equal to fifty-five percent of the annual permit fee in Section 102.5(2) for the permit or general permit certification being amended, not to exceed \$5,950.

(c) Preliminary Effluent Limits

- (i) The division may assess a fee for the determination of preliminary effluent limitations for domestic wastewater treatment works as set forth in the fee schedule in 102.5(3) Table A. All such fees shall be paid in advance of any work done.
- (ii) At the request of an entity that is not a domestic wastewater treatment works, and upon payment of the appropriate fee as set forth in the schedules in Table 102.5(3) Table A, the division may determine preliminary effluent limits for a proposed discharge as described by the requester.
- (iii) Fees set forth in the schedules established in Table 102.5(3) Table A are increased by an amount equal to seventy-five percent of the applicable fee for each set of preliminary effluent limitations requested by domestic wastewater treatment works for discharges to a second or additional receiving water bodies.
- (iv) The division may, where an entity requests modification of existing division-approved preliminary effluent limitations, complete the modification for a fee equal to twenty-five percent of the applicable fee as set forth in the schedules in 102.5(3) Table A.

3202	Major facilities: 1,000,000 gallons per day or more	\$4,381

(d) On-site Wastewater Treatment Systems Fee

For on-site wastewater treatment system permits issued at the county level, the division may assess a fee of \$23 for each permit authorized for a new, repaired, or upgraded on-site wastewater treatment system. Of that fee, the county in which the on-site wastewater treatment system is or will be located shall retain \$3 to cover the county's administrative costs and shall transmit \$20 to the Colorado Department of Public Health and Environment for use in funding the

state's on-site wastewater treatment program. That sum shall be transmitted to the clean water cash fund pursuant to section 25-8-210(4), C.R.S.

(e) Wastewater Site Application and Design Reviews

The division may assess a fee for wastewater site application and design review as set forth in the fee schedule in 102.5(3) Table B. All such fees shall be paid in advance of any work done.

(f) Water Quality Certifications

For the activities listed in this subsection 102.5(3)(f) associated with reviewing requests for certifications under section 401 of the federal act (33 U.S.C. sec. 1251 et seq.) and section 25-8-302(1)(f), C.R.S., the division may assess a fee for the review. All such fees must be in accordance with the following tier schedules in this subsection. The division will determine whether the project to be certified is a tier 1, tier 2, or tier 3 project at the time of the pre-filing meeting request. For tier 1 and 2 projects, fees are due at the time of the certification request to the division. For tier 3 projects, the division will meet with the applicants before certifications are submitted to develop a draft billing agreement.

- (i) The fee for a tier 1 project is \$1,122, which must be submitted with the certification application. Tier 1 projects are projects that involve minimal costs for division review and minimal potential water quality impacts. Tier 1 includes certifications of channel stabilization projects and single drainage improvement projects. Tier 1 projects are projects that the division expects, at the time the certification application is submitted, to have some or all of the following characteristics:
 - (A) The potential for no more than minimal impacts to water quality;
 - (B) A low level of public participation;
 - (C) No more than standard coordination with federal, state, or local agencies;
 - (D) Limited technical assistance.
- (ii) The fee for a tier 2 project is \$3,876, which must be submitted with the certification application. Tier 2 projects are projects that involve moderate costs for division review and minimal potential water quality impacts. Tier 2 includes certifications of projects that affect multiple drainages. Tier 2 projects are projects that the division expects, at the time the certification application is submitted, to have some or all of the following characteristics:

- (A) The potential for no more than minimal impacts to water quality;
 - (B) A basic to high level of public participation, with potential for participation in public meetings or hearings held by outside parties;
 - (C) More than the standard level of coordination with multiple federal, state, or local agencies, including one or more meetings or pre-application site visits;
 - (D) A moderate and ongoing level of technical assistance;
 - (E) Compensatory mitigation review;
 - (F) Review of a full evaluation and findings report, if needed; or
 - (G) If the certification is appealed, addressing an appeal of the division's water quality certification to the commission pursuant to sections 25-8-202(1)(k), 25-8-302(1)(f), and 25-8-401, C.R.S.
- (iv) The fee for a tier 3 project is calculated on an hourly rate based on the actual costs of division staff and contractor time. Tier 3 projects are projects that involve multiple or large watershed areas, a very high degree of complexity, a potential for greater water quality impacts, or a high level of public participation. Tier 3 includes transmountain water supply projects, certifications of federal energy regulatory commission relicensing projects, or projects involving more long-term water quality impacts. Typical characteristics of tier 3 projects may include all or some of the following:
- (A) The potential for greater water quality impacts, including when the water body is identified as not attaining water quality standards or multiple stream or lake segments, as established pursuant to section 25-8-203, C.R.S., are affected;
 - (B) A high level of public participation, including extensive public comments and the potential for one or more public meetings or hearings conducted by the division or outside parties;
 - (C) Substantially more coordination than is standard with multiple federal, state, or local agencies, including one or more meetings;
 - (D) A high level of iterative technical assistance or substantive project revisions;
 - (E) Complex compensatory mitigation review;
 - (F) A site visit to understand impacts and advise on potential alternatives;
 - (G) Coordination with the governor's office in conjunction with other state agencies, tribal nations, and the federal government;
 - (H) To the extent pertinent, review of additional documents, such as federal "National Environmental Policy Act" resource reports, environmental assessments, and environmental impact statements;
 - (I) If needed, to the extent not addressed in the documents addressed in subparagraph (H) of this subsection (iv) and consistent with the requirements of,

and rules promulgated pursuant to, the Colorado Water Quality Control Act, review and use of a full evaluation and findings report; or

- (J) If the certification is appealed, addressing an appeal of the division water quality certification to the commission pursuant to sections 25-8-202(1)(k), 25-8-302(1)(f), and 25-8-401, C.R.S.
- (v) For tier 3 projects, the division may also assess fees for services provided by the division before the applicant formally submits a water quality certification application. Such fees must reflect the actual cost of division staff and contractor time.
- (vi) For tier 3 projects, the division may also assess fees for services provided by the division to monitor projects that are certified with conditions. Such fees must reflect the actual cost of division staff and contractor time. All tier 3 projects with conditions, or projects with conditions that were classified as tier 4 under section 25-8-502(1.2)(a)(IV), C.R.S., prior to that provision's repeal, may be assessed fees under this subsection (vi) regardless of the date the certification was issued.

(h) Phase-in of Fees

Pursuant to section 25-8-210(1)(c)(I), C.R.S., the division may begin assessing the fee amounts as set forth in this section 102.5(3) on January 1, 2026, or, if the effective date on this regulation is after January 1, 2026, then on the effective date of this regulation.

102.6 INFLATIONARY FEE ADJUSTMENTS

The commission may, by rule, annually adjust the fee amounts in sections 102.4 and 102.5 based on the percentage change in the United States Department of Labor's Bureau of Labor Statistics Consumer Price Index for Denver-Aurora-Lakewood for all items and all urban consumers or its successor index. The inflationary increase shall not exceed four percent per year without additional engagement. On or before January 1, 2027, and on or before January 1 of each year thereafter, the division shall hold at least one meeting with stakeholders to discuss any inflationary adjustment proposals of up to four percent per year and plans for more stakeholder engagement if additional fee adjustments are needed.

102.7 DIVISION COMMITMENT TO PERFORMANCE IMPROVEMENT AND REPORTING

(1) TIMEFRAMES FOR PERMITTING ACTIONS

The division shall propose rules to the commission that establish a timeframe for each permit action pursuant to section 25-8-502(7)(a) and as these terms are defined in the Colorado Discharge Permit Regulations, 5 CCR 1002-61, or Regulation 61. This will include establishing timeframes for issuing new and renewal certifications under general permits. Pursuant to section 25-8-502(7)(a), by June 30, 2028, the commission shall adopt rules for such timeframes based on the division's proposal. In addition to section 25-8-502(7)(a) requirements, the proposal will consider existing 180-day requirements for modifications and issuing new permits. Additionally, the proposal shall include rules regarding sanctions, such as a fee refund by the division, if timeframes are not met.

By October 31, 2026, the division shall also inform the Commission at an informational hearing of the Division's draft proposed detailed methodology and rationale for establishing permitting timeframes for all categories of permits; and provide a list of viable, effective options, informed by stakeholder input, for sanctions if timeframes are not met.

(2) BACKLOG-REDUCTION SCHEDULE

By December 31, 2026, the division will evaluate and develop a backlog-reduction schedule to include in each subsequent annual report that is submitted to the Commission pursuant to section 25-8-305, C.R.S. The division will use the following format for the backlog-reduction schedule:

(a) General Permits

- (i) By October 1, 2027: X% permits backlogged
- (ii) By October 1, 2028: X% permits backlogged
- (iii) By October 1, 2029: X% permits backlogged
- (iv) By October 1, 2030: X% permits backlogged

(b) General Permit Certifications

- (i) By October 1, 2027: X% permits backlogged
- (ii) By October 1, 2028: X% permits backlogged
- (iii) By October 1, 2029: X% permits backlogged
- (iv) By October 1, 2030: X% permits backlogged

(c) Individual Permits

- (i) By October 1, 2027: X% permits backlogged
- (ii) By October 1, 2028: X% permits backlogged
- (iii) By October 1, 2029: X% permits backlogged
- (iv) By October 1, 2030: X% permits backlogged

By October 31, 2026, the division shall inform the Commission at an informational hearing of the division's draft detailed methodology and rationale for identifying a backlog reduction schedule.

(3) REPORT OUT ON PROGRESS TOWARDS IMPROVEMENTS ON PERMITS PROCESSING

Twice per year, the division shall make available information for the public on its progress towards permits efficiencies, communications, transparency, and accountability. One of these report-outs will include reporting-out to the Water Quality Control Commission through an informational hearing.

(a) Updates to include in report out:

- (i) Data or other information utilized for the annual report that can be reported out through an automated process and, as appropriate, notice of significant information that is anticipated to be included in the final report;
- (ii) Status of the development of performance metrics and work plan review with stakeholders;

- (iii) Any identified process improvements for permitting;
- (iv) The status of improving the permit application and other document systems to modernize the state's permit system to increase efficiency;
- (v) The status of the permit dashboard to provide transparency;
- (vi) The status of, and progress made, using coaches for small, rural systems;
- (vii) Updates on efforts from the Colorado Water Quality Forum's Water Quality Roadmap workgroup, including improvements to current regulatory tools to address situations where compliance with permit requirements present feasibility and implementation challenges;
- (viii) Progress on the implementation of the notice for preliminary draft process outlined in Reg. 61;
- (ix) Progress made on the use of independent, qualified contractors starting May 1, 2026 pursuant to section 25-8-503.7(1) C.R.S.;
- (x) Progress on conducting site visits;
- (xi) Progress on developing timeframes per section 102.7(1);
- (xii) Progress on backlog-reduction schedule per section 102.7(2);
- (xiii) Any feedback collected through stakeholder engagement processes if appropriate.
- (xiv) Provide updates on how the division is considering current debt service on existing local government water infrastructure when developing schedules of compliance for new effluent limits in local government permits, pursuant to 25-8-503(10)(a).

102.8 STATEMENT OF BASIS, SPECIFIC STATUTORY AUTHORITY, AND PURPOSE: MAY 13, 2024 RULEMAKING HEARING; FINAL ACTION MAY 13, 2024 EFFECTIVE JULY 15, 2024

The provisions of Colorado Revised Statutes section 25-8-210 provides the specific statutory authority for setting fees by regulation. In compliance with Colorado Revised Statutes Section 24-4-103(4), the Commission has adopted the following Statement of Basis and Purpose.

BASIS AND PURPOSE

Section 25-8-210, C.R.S., directs the Commission that "on or before October 31, 2025, the Commission shall establish the following fees by rule:

- (1) Drinking water fees assessed on public water systems pursuant to section 25-1.5-209 (1), as that section existed prior to its repeal on July 1, 2026.
- (2) Commerce and industry sector permitting fees assessed pursuant to section 25-8-502 (1.1)(b), as that section existed prior to its repeal on July 1, 2026."

The Commission and Division have fulfilled the requirements of Section 25-8-210(1)(c)(II), C.R.S., as all permit holders and public water systems have been notified of the fee setting by rule stakeholder process.

In addition, the Division's stakeholder process for this effort is well documented on its website. In addition, the fee increases for this rulemaking will not be phased in over time.

The Commission has determined that the fees for the drinking water cash fund and the clean water cash fund's commerce and industry fee payor type should be established in the rule as soon as practicable. Both funds generate significantly less than the revenue required to sustain the staffing and support necessary to provide the required services. These services are necessary to administer the Safe Drinking Water Act and Clean Water Act in Colorado. The legislature establishes the spending authority for these funds. The spending authority reflects the cost to operate the Division and increases through time to account for inflation in the cost of drinking water and clean water staff support and maintenance of the Division's general and administrative services for staff and the public. The Commission found that fee increases are necessary as a component of the funding needed to maintain existing Division services for the drinking water program and commerce and industry fee payors. In addition, the Commission understands that the projected revenue for other Division cash funds is sufficient for state fiscal year 24-25 and that those funds do not require an increase during this rulemaking.

The drinking water fee increase resulted in fee increases ranging from \$10 to \$2,812 per year, or a 13 percent increase. The commerce and industry fee increase resulted in fee increases ranging from \$16 to \$4,136 per year, or a 13 percent increase. The Commission understands that this is the first step that these fee increases are not the total amount needed for the Division to maintain existing services and that the Division is exploring options to fill the gap so that the Division can maintain existing services as well as to address environmental justice needs. In addition, the Commission and Division understand that fee payors would like to have advance notice of fee increases for budget planning purposes and will strive to provide timely information that helps fee payors with budget planning.

The Commission recognizes that the Division has conducted outreach to obtain stakeholder input regarding the total funding for the Division, including federal money, money from the General Fund, and all cash fees, and that those efforts are ongoing per Section 25-8-210(2)(a). In addition, the Commission anticipates that the May 2025 fee-setting rulemaking will revisit decisions made as part of this rulemaking and will be more expansive to cover all of the Division's cash fees and meet the requirements outlined in Section 25-8-210, C.R.S.

102.9 STATEMENT OF BASIS, SPECIFIC STATUTORY AUTHORITY, AND PURPOSE: OCTOBER 14, 2025 RULEMAKING HEARING; FINAL ACTION OCTOBER 14, 2025 EFFECTIVE: DECEMBER 31, 2026

The provisions of Colorado Revised Statutes section 25-8-210 provide the specific statutory authority for setting fees by regulation. In compliance with Colorado Revised Statutes Section 24-4-103(4), the Commission has adopted the following Statement of Basis and Purpose.

BASIS AND PURPOSE

(a) Colorado Revised Statutes provisions

Section 25-8-210, C.R.S., directs the Commission that "on or before October 31, 2025, the Commission shall establish the following fees by rule:

- (i) Drinking water fees assessed on public water systems pursuant to section 25-1.5-209(1), as that section existed prior to its repeal on July 1, 2026.

- (ii) Commerce and industry sector permitting fees assessed pursuant to section 25-8-502(1.1)(b), as that section existed prior to its repeal on July 1, 2026.”
- (iii) Construction sector permitting fees assessed pursuant to section 25-8-502(1.1)(c), as that section existed prior to its repeal on July 1, 2026;
- (iv) Pesticide sector permitting fees assessed pursuant to Section 25-8-502(1.1)(d), as that section existed prior to its repeal on July 1, 2026;
- (v) Public and private utilities sector permitting fees pursuant to section 25-8-502(1.1)(e), as that section existed prior to its repeal on July 1, 2026;
- (vi) Municipal separate storm sewers system sector permitting fees pursuant to section 25-8-502(1.1)(f), as that section existed prior to its repeal on July 1, 2026;
- (vii) Review fees assessed pursuant to section 25-8-502(1.2) for requests for certification under section 401 of the federal act, as that section existed prior to its repeal on July 1, 2026;
- (viii) Preliminary effluent limitation determination fees assessed pursuant to section 25-8-502(1.3)(b), as that section existed prior to its repeal on July 1, 2026;
- (ix) Wastewater site application and design review fees assessed pursuant to section 25-8-502(1.3)(c), as that section existed prior to its repeal on July 1, 2026;
- (x) On-site wastewater treatment system fees assessed pursuant to section 25-10-107(3), including rules establishing the percentage of the on-site wastewater treatment system fees collected that a county may retain to cover the county's administrative costs, as that section existed prior to its repeal on July 1, 2026; and
- (xi) Biosolids management program fees assessed pursuant to section 30-20-110.5(1), as that section existed prior to its repeal on July 1, 2026.

(b) Senate Bill 23-274: Water Quality Control Fee-setting By Rule

Establishing the fees by rule is a result of Senate Bill 23-274, which directs the Water Quality Control Commission to set these fees by rule by Oct. 31, 2025. The fees listed above will be repealed from statute July 1, 2026. Additionally, Senate Bill 23-274 creates the clean water cash fund and the fees collected under section 102.5 will be credited to that new cash fund. The Commission acknowledges that the division develops an annual report pursuant to 25-8-305, C.R.S., but that one section, 25-8-305(3), C.R.S., directing the division to track direct and indirect costs will be repealed. Even though this section will be repealed as of July 1, 2026, the division will continue tracking revenue and direct and indirect costs for those fees now in sections 102.5(2) and 102.5(3) of this regulation: commerce and industry, construction, pesticide, public and private utilities, municipal separate storm sewer, water quality certifications, preliminary effluent limitation, and wastewater site applications and design reviews. Drinking water fees collected under section 102.4 will continue to be credited to the existing drinking water cash fund.

The Commission and division have fulfilled the requirements of sections 25-8-210(1)(c)(II) and 25-8-210(2)(a), C.R.S., as all permit holders and public water systems have been notified of the fee setting by rule stakeholder process, and this effort is well documented on the division's website. Additionally, the division conducted outreach to county representatives, representatives of local governments, conservation groups, environmental justice groups, and community members, including members of disproportionately impacted communities. The division obtained stakeholder input regarding the total

funding for the division, including federal money, money from the General Fund, and all cash fees. The division also identified the revenue needed for the evaluation of the feasibility of treatment methods, variances, improving permit issuance processes, renewing permits, permit modifications, reducing permit backlog, and cost-benefit analysis preparation. Lastly, the division also conducted outreach on the fee structure and caps on the amount of fee increases.

(c) Fee structure adjustments

The Commission maintained the same structure for drinking water fees and made slight adjustments to the clean water fee structure. The Commission also revised the category numbering from what was previously used to reflect the fee structure adjustments and to align department accounting codes with the regulation to help streamline accounting processes. The Commission eliminated 35 fee categories that have not been used and are not anticipated to be used in the future (see Table 1 at the end of section 102.9). Additionally, the Commission added two fees to the commerce and industry sector, and the coal mining and hardrock subsectors, specifically subcategories 0303 and 0407 in section 102.5(2)(b). These added subcategories reflect the existing practice of charging an additional fee for stormwater discharges added to an individual permit that otherwise addresses wastewater or process water discharges. Additionally, the Commission aligned the fee for commerce and industry subcategory 0401 in section 102.5(2)(b) to be the same as commerce and industry subcategories 0602 and 1002 in section 102.5(2)(b), which has the same gallon per day rate of 0 to 49,999 gallons per day. Additionally, the Commission aligned the fee for commerce and industry subcategory 0402 in section 102.5(2)(b) to be the same as the commerce and industry subcategories 0603 and 1003 in section 102.5(2)(b), which has the same gallon per day rate of 50,000 to 999,999 gallons per day.

The Commission changed the fee structure for 401 water quality certifications. The regulatory language adopted by the Commission considers only three tiers for 401 water quality certifications and combines tier 3 and tier 4, both in statute previously, into one tier, tier 3. These two tiers functioned the same regarding how fees are calculated, and therefore the regulation simplifies the tier structure. The Commission also added the following statement: "All tier 3 projects with conditions, or projects with conditions that were classified as tier 4 under section 25-8-502(1.2)(a)(IV), C.R.S., prior to that provision's repeal, may be assessed fees under this subsection (vi) regardless of the date the certification was issued," to clarify that all existing certifications may be assessed fees for the monitoring of conditions.

(d) Fee adjustments

The drinking water annual fee changes resulted in increases ranging from \$11 to \$3,177 per year, or a 13 percent increase. The commerce and industry annual fee changes resulted in increases ranging from \$19 to \$5,033 per year, or a 14 percent increase. The municipal separate storm sewer annual fee changes resulted in increases ranging from \$65 to \$1,926 per year, or a 14 percent increase. The public and private utilities annual fee changes resulted in increases ranging from \$13 to \$4,287 per year, or a 14 percent increase. The preliminary effluent fee changes resulted in increases ranging from \$179 to \$1,435 for service. The wastewater site application and design review fee changes resulted in increases ranging from \$51 to \$5,287.

The Commission acknowledges that the division evaluated with stakeholders the possibility of applying discounts to systems and facilities that serve disproportionately impacted communities while still generating sufficient revenue. The division developed a pilot model for drinking water systems as an example of how discounts could be offset by increased fees for systems that don't serve disproportionately impacted communities. However, the division has insufficient data and geographic information to quantify how much of each system's population is disproportionately impacted. This creates a risk that the division could assess increased fees on systems that would otherwise qualify for a discount if the division had sufficient data. The Commission acknowledges the division would require additional resources in order to collect and analyze sufficient data, and the increase in fees proposed in this rulemaking do not support those additional resource needs. While the division could accept attestation documentation for any system able to submit additional data to demonstrate they meet disproportionately

impacted criteria, this would take additional time to manage. The costs to administer these discounts may outweigh the desired impact. For example, for a system that serves 5000 and meets the disproportionately impacted criteria, a savings of \$125 in annual fees would result in only \$0.025 reduction in cost per community member. Instead, the Commission acknowledges that the division may better serve fee-payers by continuing to focus on dedicating time to feasibility efforts, process improvements, and other areas to enhance transparency, efficiency, communications, and accountability.

In addition, the Commission and division understand that fee payors would like to have advance notice of fee increases for budget planning purposes and will strive to provide timely information that helps fee payors with budget planning. While the Commission has the authority to assess fees beginning January 1, 2026, it would create confusion for many fee-payers if the division issued a second billing after January 1 for fiscal year 2025-2026. Instead, the division will assess annual fees in sections 102.4 and 102.5(2) beginning in the fiscal year 2026-2027 billing cycle to streamline communications with fee-payers. As such, the fee increase impact on fee-payers is delayed about half a year. As provided for in section 102.5(3)(h), the division will begin assessing all the fees in section 102.5(3) beginning January 1, 2026, or, if the effective date on this regulation is after January 1, 2026, then on the effective date of this regulation, pursuant to section 25-8-210(1)(c)(I), C.R.S.

(e) Funding availability and service delivery

The fees included in this regulation were set based on consideration of all of the division's funding sources, which includes General Fund and federal funds. The fees, in combination with current state and federal sources, are sufficient to cover the division's current indirect and direct expenses associated with administering and implementing the federal Clean Water Act, 33 U.S.C. sec. 1251 et seq.; the federal "Safe Drinking Water Act," 42 U.S.C. sec. 300f et seq.; section 25-1-114.1; part 2 of article 1.5 of title 25; article 8 of title 25; and the "On-site Wastewater Treatment Systems Act," article 10 of title 25.

The Commission understands that these fee increases do not cover the total revenue the division believes is needed to provide additional or enhanced services for the following clean water program activities: to evaluate the feasibility of treatment methods, support the development of variances, improve permit issuance processes, reduce permit backlogs, and prepare cost-benefit and regulatory analyses. Through the stakeholder engagement process, the division identified it would require an additional 32.4 FTE and \$4.9M ongoing to support these activities. The division also identified it would require an additional 21 FTE and \$3.4M ongoing to support the drinking water program implementing new federal rules. These resources are in addition to the 22 FTE that the General Assembly granted to help address permit backlogs and drinking water inspection backlogs for FY23-24 and FY24-25 only using general funds. The Commission acknowledges the division received input from stakeholders on these estimates and that stakeholders expressed concerns that the division should conduct activities that focus on efficiencies and accountability which may reduce the total resource needs the division identified. Recognizing the general fund support for the 22 FTE ended after FY24-25, the Commission acknowledges that the Colorado Department of Public Health and Environment submitted a budget request for the division for the state fiscal year 2025-2026 and beyond to secure resources to continue the division's work in addressing permit backlogs and drinking water inspection backlogs. Due to state budget constraints, the department requested only to maintain the 22 FTE, but given the General Fund budget deficit, the 22 FTE would instead be funded with a mixture of cash funds, including the 13% increase for drinking water fees and 14% increase for clean water fees proposed in this rulemaking.

(f) Division permit performance improvements and reporting

The Commission acknowledges the division has made progress in reducing the permit backlog, reducing the permit backlog for all permits from 75% to 50% between FY23-24 and FY24-25 due to the FY23-24 General Assembly's investment, but when comparing the backlog between general permits and individual permits, more work needs to be done. As of November 1, 2024, the backlog for general permits that count towards EPA's goal is 41% while individual permits are 81% backlog. The division focused on reducing

the general permit backlog because general permits are a good training opportunity for new staff and the use of general permits to address backlog is an efficiency best practice.

The division uses the same definition as EPA for backlog. EPA considers existing permits (both individual and general) backlogged if the permit is in need of reissuance but the permitting authority does not reissue the permit by or before 180 days after the expiration date. When EPA sets the 75% permit current goal, they do not consider master general permits — only the facilities covered under master general permits called certifications. Additionally, as of October 2023, EPA excludes construction stormwater certifications in the 75% permit current target. Backlog is calculated by dividing the number of permits backlogged within a certain category by the total number of permits in that category. For example, to generate the 41% general permit backlog as of November 1, 2024, the division divided 1,059 general permit certifications considered backlogged out of the total general permit certification universe of 2,596. This universe however did not include master general permits or stormwater construction certifications.

During the 2025 legislative session, the General Assembly approved maintaining the division's current resource levels by passing Senate Bill 25-305, Water Quality Permitting Efficiency. With this funding level, the division anticipates it will be able to continue to make progress in reducing general and individual permit backlog and is exploring options to increase efficiencies, communications, accountability, and transparency for permits. Senate Bill 25-305 also has efficiency and transparency-related items and requirements for the division that are integrated into section 102.7 such as a requirement to propose timeframes for permitting actions.

The division contracted with a third-party consultant to evaluate the individual domestic wastewater permit processes. The Commission understands that individual domestic wastewater permitting includes similar process steps plus a few additional steps as compared to other individual permits and that this evaluation will inform how to streamline other individual permit processes. The division will continue to engage with stakeholders and evaluate if additional changes to regulations, such as Regulation 61, would be appropriate to facilitate the implementation of the recommendations from this process.

The division also drafted an additional step in the permitting process to notify the permittee of a preliminary draft prior to posting for public notice — herein referred to as “preliminary notice.” This draft language is included in Regulation 61 which the commission reviewed during the same October 14, 2025, hearing as Regulation 102. The commission understands stakeholders want additional communications during the permit drafting process and that the division is committed to evaluating and implementing additional ways to engage and effectively communicate with permittees during the process. The Commission acknowledges the division meets with stakeholders through a permit performance improvement and reporting stakeholder effort that is focused on discussing actionable items for improved communications and other goals set in section 102.7.

The commission also acknowledges the division has committed to stakeholders to evaluate and develop a timeframe model to put into future regulation which sets timeframes for the division to either grant or deny applications for permitting actions and dictates consequences if the division does not meet such timeframes. This requirement in this regulation is in alignment with Senate Bill 25-305. Based on stakeholder input, the regulation expands the permitting actions covered in the bill to include the issuance of general permit certifications and also to consider the 180-day requirement for modifications and new permits. Additionally, the division must propose sanction provisions if the established timeframes are not met. In developing the model, the commission acknowledges the division will need time to develop a model based on division resources, the number of permittees, any adjustments to current permit processes, and information gathered through division activities such as the permit performance and reporting stakeholder effort and other process improvement activities. Additionally, there may be states that have models to consider that can help inform Colorado's model. The division has already started this process as of June 1, 2025, and per section 102.7, the commission will adopt a timeframe regulation no later than June 30, 2028.

Additionally, the division has developed improved performance metrics via stakeholder input to enhance transparency, communications, and accountability regarding the division's permit production. These performance metrics will be integrated into the division's annual reports to the commission. The division will engage with permittee stakeholders on an annual basis to review the goals associated with the performance metrics as well as a permit work plan to show what permits the division plans to work on, at a minimum, for the upcoming year. Section 102.7 includes one performance metric the division must develop by December 31, 2026 (a backlog-reduction schedule), which will be informed by process improvement activities, efforts to evaluate and improve communications with permittees, and timeframes also outlined in Section 102.7. The commission acknowledges the division has started a permit performance improvement and reporting stakeholder effort to focus on these items. This effort will evaluate communications between division and permittees and will inform the permit process for both individual and general permits. In developing timeframes, a backlog-reduction schedule, and evaluating communications, the division will work to engage both general permittees and individual permittees to inform how to accomplish all activities. Additionally, the division will engage with permittees on progress made on any feasible process improvement recommendations that are a result of the third-party evaluation and how those process improvement activities may contribute to performance metric outcomes.

The division will be required to report out twice per year on progress made on improving communications, efficiencies, transparency, and accountability, as well as other activities that are described in section 102.7. This includes updates on Senate Bill 25-305 requirements including progress made on the use of independent, qualified contractors starting May 1, 2026 (section 25-8-503.7(1), C.R.S.), and on evaluating current debt service obligations (section 25-8-503(10)(a), C.R.S.). The reporting-out requirements in section 102.7 will be reevaluated when the fee regulation is revised.

(g) Inflationary increases

The Commission acknowledges that historically the division's revenue has not kept up with inflation. The cost of division staff and operations continues to increase, but fees have not increased to reflect those inflationary increases. Before the May 2023 rulemaking, which included a 13% increase for drinking water and commerce and industry fees, the last time the clean water fees were increased was in 2017 through House Bill 17-1285. That fee increase was only to maintain existing services and resources, not additional resources to help address the backlog. Drinking water fees were first introduced in statute in 2003, but those fees sunsetted in 2005. The fees then dropped down 38% of the 2003 fee service levels in 2007 fees for drinking water. The Commission intends to annually review this regulation and consider an adjustment based on the percentage change in the consumer price index noted in section 102.6. The division will engage with stakeholders prior to the rulemaking. To implement the inflationary adjustments in accordance with section 102.6, the Commission intends that the inflationary fee adjustments will be calculated using a process consistent with that used to calculate inflationary adjustments to the maximum water quality civil penalty in regulation 5 CCR 1002-101. Regulation 5 CCR 1002-101 uses the percentage change in the United States Department of Labor's Bureau of Labor Statistics Consumer Price Index for Denver-Aurora. For example, the July 2023 Consumer Price Index was 323.298. The July 2024 Consumer Price Index was 329.418. This represented a 1.89% change, so the Commission would have proposed a 1.89% increase to the fees. The Commission is setting a cap of four percent for inflationary increases unless there is additional stakeholder engagement because the index for the past ten years has been less than four percent except for in the years 2022 and 2023.

STATEMENT OF BASIS AND PURPOSE

1. Summary of the basis and purpose for the rule or rule change. (State what the rule says or does and explain why the rule or rule change is necessary).

The proposed rule change will amend 10 CCR 2505-3 Section 50 & 170 to update requirements to identify and allow qualified hospital presumptive eligibility sites to complete an initial screening of patients to determine presumptive eligibility for children under 19 and pregnant women. These requirements are to expand coverage according to 42 C.F.R. §435.1110 and 1902(a)(47)(B) of the Social Security Act (the Act).

The updates to amend the requirements for presumptive eligibility will define qualified hospital presumptive eligibility sites as those eligible to make presumptive eligibility determinations. Qualified Hospitals are hospitals who have voluntarily elected to serve as Presumptive Eligibility sites. Qualified Hospitals Presumptive Eligibility sites agree to make determinations in accordance with State policies and assist individuals with completing Medical Assistance applications and understanding documentation requirements. In addition, correction to the presumptive eligibility site recertification period will be made from every 2 years to every year. The inclusion of references to citizenship exceptions for pregnant women and children under 19 will be added to the eligibility criteria.

Updates to add language regarding Medical Assistance applicants' choice to appeal to a county department's failure to act on an application or denial. Additional language will be added to provide clarification regarding presumptive eligibility to include applicants cannot already be in receipt of another medical assistance program and the length of presumptive eligibility which is once every 12 months except for pregnant applicants who may receive presumptive eligibility for pregnant women once every pregnancy. Lastly, the Department will update the Colorado Benefits Management System (CBMS) to reflect and align these changes with these proposed rule updates.

REGULATORY ANALYSIS

1. Describe the classes of persons who will be affected by the proposed rule, including classes that will bear the costs of the proposed rule and classes that will benefit from the proposed rule.

Eligible children under 19 and pregnant women are currently only able to apply for presumptive eligibility at presumptive eligibility sites. Allowing qualified hospital presumptive eligibility sites to make presumptive eligibility determinations will provide more locations to apply for presumptive eligibility. These proposed rule changes have no projected negative impacts on any class of persons.

2. To the extent practicable, describe the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

DO NOT PUBLISH THIS PAGE

The proposed rule change is to provide presumptive eligibility to eligible applicants providing a streamlined, expedited path to coverage for individuals.

3. Discuss the probable costs to the Department and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

The probable cost to the Department or any other agency for the implementation and enforcement of the proposed rule is zero. There is no anticipated effect on state revenues. The inclusion of hospitals as new presumptive eligibility (PE) sites is unlikely to have any measurable impact on the cost of providing PE to CHP+ members, given that this population has had access to PE for several years and that fact is not changing as a result of this rule.

The ability for this population to access PE at a new site (hospitals) is unlikely to increase caseload or utilization in any measurable way, because this population has had access to PE since 2012. Any changes in enrollment driven by PE availability in the CHP+ population have likely already been realized and are factored into the CHP+ caseload forecast as anticipated fluctuations.

4. Compare the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

DO NOT PUBLISH THIS PAGE

The cost to the CHP+ program of implementing the proposed rule is zero. The ability for this population to access PE at a new site (hospitals) is unlikely to increase caseload or utilization in any measurable way, because this population has had access to PE since 2012. Any changes in enrollment driven by PE availability have likely already been realized and are factored into the CHP+ caseload forecast as anticipated fluctuations. Determine whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

There are no less costly or intrusive methods for achieving the purpose of the proposed rule.

5. Describe any alternative methods for achieving the purpose for the proposed rule that were seriously considered by the Department and the reasons why they were rejected in favor of the proposed rule.

There are no alternative methods for achieving the purpose for the proposed rule.

STATEMENT OF BASIS AND PURPOSE

- 1. Summary of the basis and purpose for the rule or rule change. (State what the rule says or does and explain why the rule or rule change is necessary).

To encourage an adequate level of market participation among infusion pharmacies, Senate Bill 25-084 directs the Department to create an enhanced dispensing fee for parenteral nutrition products. Parenteral nutrition is a method of feeding people that bypasses the gastrointestinal tract, delivering essential nutrients for individuals who cannot digest foods through their stomachs and/or intestines, via an intravenous (IV) line. This rule change establishes the enhanced dispensing fee of \$70.76 and defines Parenteral Nutrition.

HB24-1045 directs the Department to cover medications for individuals nearing release from designated correctional facilities. To support this implementation, the proposed rule clarifies that correctional facilities are not considered Government Pharmacies, entities which are currently ineligible to receive a dispensing fee. This clarification allows eligible correctional facilities to be reimbursed a dispensing fee based on their total annual prescription volume. The rule also defines Correctional Facility.

- 2. An emergency rule-making is imperatively necessary

- to comply with state or federal law or federal regulation and/or
- for the preservation of public health, safety and welfare.

Explain: N/A

- 3. Federal authority for the Rule, if any:

Social Security Act, Section 1115(a) (42 U.S.C. § 1315(a)) (2025)

- 4. State Authority for the Rule:

Section 25.5-5-519; Section 25.5-4-505.5; Sections 25.5-1-301 through 25.5-1-303, C.R.S.

Title of Rule: Revision to the Medical Assistance Act Rule concerning SB25-084 Medicaid Access to Parenteral Nutrition Implementation, Sections 8.800.A and 8.800.13.

Rule Number: MSB 25-06-04-A

Division / Contact / Phone: Pharmacy / Korri Conilogue /

REGULATORY ANALYSIS

1. Describe the classes of persons who will be affected by the proposed rule, including classes that will bear the costs of the proposed rule and classes that will benefit from the proposed rule.

The proposed rule will increase reimbursement for infusion pharmacies dispensing parenteral nutrition. Increased reimbursement to encourage adequate market participation supports access for members who require parenteral nutrition. The Department will pay the enhanced dispensing fee.

The proposed rule clarifies that correctional facilities are not considered Government Pharmacies, entities which are currently ineligible to receive a dispensing fee. This clarification allows eligible correctional facilities to be reimbursed with a dispensing fee based on their total annual prescription volume. The Department will bear the costs, but through the availability of matching federal dollars, the state will have net savings.

2. To the extent practicable, describe the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

Infusion pharmacies will receive higher reimbursement for the dispensing of parenteral nutrition. Members requiring parenteral nutrition will benefit from adequate market participation of infusion pharmacies.

Through a Section 1115 Waiver and House Bill 24-1045, the state has the opportunity to draw down federal dollars to re-invest in programs to support incarcerated members. Paying for dispensing fees for correctional facilities which do not meet the definition of a government pharmacy supports the larger 1115 Waiver initiatives.

3. Discuss the probable costs to the Department and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

The annual aggregate increase in expenditures for both parts of this proposed change (including state funds and federal funds) is \$32,693

DO NOT PUBLISH THIS PAGE

(state share \$8,579; federal share \$24,114) in FFY 2025 and \$295,267 (state share \$116,562; federal share \$178,705) in FFY 2026.

4. Compare the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

There are very few infusion pharmacies offering parenteral nutrition for Health First Colorado members. Without increasing the reimbursement for this critical product, it is possible these pharmacies will not continue to serve Health First Colorado members requiring parenteral nutrition, which would create access issues. Inaction would also mean noncompliance with state statute.

The clarification to allow correctional facilities to receive a dispensing fee will allow the Department to draw down additional federal funding to support the health of incarcerated members.. Inaction would mean less funding to re-invest to support the health of incarcerated members.

5. Determine whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

There are no less costly or less intrusive methods for achieving the purposes of the proposed rule.

6. Describe any alternative methods for achieving the purpose for the proposed rule that were seriously considered by the Department and the reasons why they were rejected in favor of the proposed rule.

No alternative methods were seriously considered because no other methods would achieve the goals of this proposed change.

8.800 PHARMACEUTICALS

8.800.A DEFINITIONS

1. 340B Pharmacy means any pharmacy that participates in the Federal Public Health Service Act section 340B Drug Pricing Program as described in 42 U.S.C. § 256b (2023).
2. Average Acquisition Cost (AAC) means the average acquisition cost for like drugs grouped by Generic Sequence Number (GSN). For GSNs with both generic and brand drugs, the Department shall determine two separate AAC rates for the GSN. One AAC rate shall be based on the average acquisition cost for all generic drugs while the other shall be based on the average acquisition cost for all brand drugs.
3. Clotting Factor Maximum Allowable Cost (CFMAC) means the rate for a clotting factor drug for which no Average Acquisition Cost (AAC) rate is established. The CFMAC rate is determined based on available acquisition cost data and publicly available data unique to each clotting factor drug.
4. Conflict of Interest means having conflicting professional or personal obligations or personal or financial interests that would make it difficult, or appear to make it difficult to fulfill duties in an unbiased manner.
5. Correctional Facility means any facility under the supervision of the Colorado Department of Corrections or Colorado county jail in which persons are or may be lawfully held in custody as a result of conviction of a crime.
6. Department means the Colorado Department of Health Care Policy and Financing.
7. Dispensing Fee means the reimbursement amount for costs associated with filling a prescription. Costs include salary costs, pharmacy department costs, facility costs, and other costs.
8. Dispensing Prescriber means a health care professional who, as licensed by Colorado state law, prepares, dispenses, and instructs members to self-administer medication.
9. Drug Class means drugs that are grouped together due to a common mechanism of action, or to treat a particular disease, symptom, or indication.
10. Emergency Situation means any condition that is life threatening or requires immediate medical intervention as determined in good faith by the pharmacist.
11. E-prescription means the transmission of a prescription through an electronic application.
12. Fiscal agent means a contractor that supports and operates the pharmacy benefit management system on behalf of the Medical Assistance Program.
13. Federal Upper Limit (FUL) means the upper limit for multiple source drugs as set by the Centers for Medicare and Medicaid Services pursuant to 42 C.F.R. § 447.512-515 (2023), which is hereby incorporated by reference into this rule. Such incorporation, however, excludes later amendments to or editions of the referenced material. This statute is available for public inspection at the Department of Health Care Policy and Financing, 303 E. 17th Avenue, Denver, CO 80203. Pursuant to C.R.S. § 24-4-103(12.5)(a)(V)(b), the agency shall provide certified copies of the material incorporated at cost upon request or shall provide the requestor with information on how to obtain a certified copy of the material incorporated by reference from the agency of the United

States, this state, another state, or the organization or association originally issuing the code, standard, guideline or rule.

14. Generic Sequence Number (GSN) means a standard number to group together drugs that have the same ingredients, route of administration, drug strength, and dosage form.
15. Good Cause for purposes of terminating the appointment of any P&T Committee member means failing to disclose a Conflict of Interest; participating in wrongdoing or misconduct in the case of serving as a member of a committee or other advisory body for the Department; failing to perform required duties; or missing two scheduled meetings per calendar year.
16. Government Pharmacy means any pharmacy whose primary function is to provide drugs and services to members of a facility whose operating funds are appropriated directly from the State of Colorado or the federal government excluding pharmacies funded through Indian Health Services and Correctional Facilities.
17. Institutional Pharmacy means any pharmacy whose primary function is to provide drugs and services to hospitalized patients and others receiving health care provided by the facility with which the pharmacy is associated.
18. Mail Order Pharmacy means any pharmacy that delivers drugs primarily by mail.
19. Maintenance Medication means any drug, as determined by the Department, which is used to treat a chronic illness or symptoms of a chronic illness.
20. Maximum Allowable Cost (MAC) means the rate for a covered drug for which no Average Acquisition Cost (AAC) nor National Average Drug Acquisition Cost (NADAC) rates apply. This rate is calculated using an adjustment of the national pricing benchmark Wholesale Acquisition Cost (WAC).
21. Medical Assistance Program is a program of Medical Assistance as defined in § 25.5-1-103(5), C.R.S. (2023).
22. Medical Assistance Program Allowable Charge means the allowed ingredient cost plus a dispensing fee or the provider's Usual and Customary Charge, whichever is less, minus the member's copayment as determined according to Section 8.754.
23. Medical Director means the physician or physicians who are employed by the Department to provide medical direction.
24. Medicare Part D means the prescription drug benefit provided to Part D-eligible individuals pursuant to the Medicare Prescription Drug, Improvement and Modernization Act of 2003, as codified at 42 U.S.C. § 1395w-101, et seq.
25. Medicare Part D Drugs means drugs defined at 42 U.S.C. § 1395w-102(e) (2023) and 42 C.F.R. § 423.100 (2023), which are hereby incorporated by reference into this rule. Such incorporation, however, excludes later amendments to or editions of the referenced material. This statute is available for public inspection at the Department of Health Care Policy and Financing, 303 E. 17th Avenue, Denver, CO 80203. Pursuant to C.R.S. § 24-4-103(12.5)(a)(V)(b), the agency shall provide certified copies of the material incorporated at cost upon request or shall provide the requestor with information on how to obtain a certified copy of the material incorporated by reference from the agency of the United States, this state, another state, or the organization or association originally issuing the code, standard, guideline or rule.

26. National Average Drug Acquisition Cost (NADAC) is a Centers for Medicare and Medicaid Services published rate which represents the national average of the drug acquisition costs submitted by retail community pharmacies.
27. Non-preferred Drug means a drug that is designated as non-preferred by the Medical Director pursuant to Section 8.800.16.A and which requires prior authorization to be payable by the Medical Assistance Program.
28. Old Age Pension Health Care Program and Old Age Pension Health Care Supplemental Program (OAP State Only) means the program established pursuant to C.R.S. § 25.5-2-101 to provide necessary medical care for clients that qualify for Old Age Pension but do not qualify for the Medical Assistance Program pursuant to Title XIX of the Social Security Act and Colorado statutes.
29. Over-the-Counter (OTC) means a drug that is appropriate for use without the supervision of a health care professional such as a physician, and which can be purchased by a consumer without a prescription.
30. Parenteral Nutrition means a form of nutritional support that provides a patient with needed nutrients, including, at a minimum, carbohydrates, amino acids, and lipids, through an intravenous infusion.
31. Part D eligible individual has the same meaning as defined in Section 8.1000.1.
32. Pharmacy and Therapeutics Committee (P&T Committee) means an advisory board that shall perform reviews and make recommendations which facilitate the development and maintenance of the Preferred Drug List as described in Section 8.800.17.
33. Preferred Drug means a drug that is designated preferred by the Medical Director pursuant to Section 8.800.16.A, that is payable by the Medical Assistance Program without first obtaining a prior authorization unless otherwise required to protect the health and safety of specific members.
34. Preferred Drug List (PDL) means a list which identifies the Preferred Drugs and Non-preferred Drugs within a drug class that is applicable only to fee-for-service and primary care physician Medical Assistance Program members.
35. Prescriber means a healthcare professional licensed pursuant to Colorado state law who may prescribe and authorize the use of medicine or treatment to a member. Prescribers must be enrolled in the Medical Assistance Program to receive reimbursement.
36. Provider Bulletin means a document published and distributed by the Department program and policy staff to communicate information to providers related to the Medical Assistance Program.
37. Retail Pharmacy means any pharmacy that is not a 340B Pharmacy, Government Pharmacy, Institutional Pharmacy, Mail Order Pharmacy, or Rural Pharmacy.
38. Rural Pharmacy means any pharmacy that is the only pharmacy within a twenty-mile radius.
39. Serious Mental Illness means the following psychiatric illnesses: bipolar disorders (hypomanic, manic, depressive, and mixed), depression in childhood and adolescence, major depressive disorders (single episode or recurrent), obsessive-compulsive disorders (single or recurrent), paranoid and other psychotic disorders, schizoaffective disorders (bipolar or depressive), and schizophrenia.

40. Serious or Complex Medical Condition is defined as one of the following medical conditions: Serious Mental Illness, cancer, epilepsy, multiple sclerosis, or HIV/AIDS, or a condition requiring medical treatment to avoid death, hospitalization, or a worsening or advancing of disease progression resulting in significant harm or disability.
41. Step Therapy means a protocol that requires a member to use a prescription drug or sequence of prescription drugs, other than the drug that the member's Prescriber recommends for the member's treatment, before the Department provides coverage for the recommended prescription drug.
42. Submitted Ingredient Cost means a pharmacy's calculated ingredient cost. For drugs purchased through the Federal Public Health Service's 340B Drug Pricing Program, the Submitted Ingredient Cost means the 340B purchase price.
43. Total Prescription Volume means all new and refill prescriptions dispensed for all payer types. Payer types include but are not limited to Medicaid, Medicare, commercial, third-party, and uninsured.
44. Usual and Customary Charge means the reimbursement amount the provider charges the general public to pay for a drug.
45. Wholesale Acquisition Cost (WAC) means with respect to a drug or biological, the manufacturer's list price for the drug or biological to wholesalers or direct purchasers in the United States, not including prompt pay or other discounts, rebates, or reductions in price, for the most recent month for which the information is available, as reported in wholesale price guides or other publications of drug or biological pricing data.

8.800.13 REIMBURSEMENT CALCULATION

- 8.800.13.A. Covered drugs for all members except for OAP State Only clients shall be reimbursed the lesser of:
1. The Usual and Customary Charge minus the member's copayment, as determined according to Section 8.754; or
 2. The allowed ingredient cost plus a Dispensing Fee minus the member's copayment, as determined according to Section 8.754.
 3. Covered drugs for the OAP State Only Program shall be reimbursed according to Section 8.941.9.
- 8.800.13.B. The allowed ingredient cost for Retail Pharmacies, Rural Pharmacies, 340B Pharmacies, Institutional Pharmacies, Government Pharmacies, Correctional Facilities, and Mail Order Pharmacies shall be the lesser of AAC, NADAC or Submitted Ingredient Cost. If AAC and NADAC are not available, the allowed ingredient cost shall be the lesser of MAC or Submitted Ingredient Cost.
1. The Department shall grant an exception to the allowed ingredient cost for clotting factor which shall be the lesser of AAC or Submitted Ingredient Cost. If AAC is not available, the allowed ingredient cost shall be the lesser of Clotting Factor Maximum Allowable Cost (CFMAC) or Submitted Ingredient Cost.

8.800.13.C. MAC rates shall be calculated as follows:

1. The generic drug MAC rate shall be WAC minus 10 percent.
2. The brand name drug MAC rate shall be WAC minus 3 percent.

8.800.13.D. AAC rates shall be rebased monthly using invoices and/or purchase records provided to the Department through a representative group of pharmacies. If the Department cannot establish a process to obtain invoices and/or purchase records on a monthly basis, the Department shall survey one-fourth (1/4) of all Medicaid enrolled pharmacies every quarter to rebase AAC rates.

1. Notwithstanding Section 8.800.13.D, AAC rates for clotting factor drugs shall be rebased at least biannually.

8.800.13.E. A pharmacy wanting to inquire about a listed AAC rate shall complete the Average Acquisition Cost Inquiry Worksheet posted on the Department's website. The pharmacy shall email the completed worksheet with a copy of the receipt invoice to the Department or designated vendor as indicated on the Average Acquisition Cost Inquiry Worksheet. The Department shall have five (5) days to provide an inquiry response to the pharmacy. If the AAC rate requires revision, the Department shall then have 5 additional days to update the AAC rate.

8.800.13.F. To address weekly fluctuations in drug prices, the Department shall apply a percent adjustment to existing AAC rates for drugs experiencing significant changes in price. The percent adjustment shall be determined using weekly changes in price based on national pricing benchmarks. Every week, the Department shall post an updated AAC price list, with the adjusted AAC rates, on the Department's website (www.colorado.gov/hcpf). A percent adjustment shall only be applied to an AAC rate until the Department can rebase the rate through the process discussed in Section 8.800.13.D.

8.800.13.G. Any pharmacy, except a Mail Order Pharmacy, that is the only pharmacy within a twenty-mile radius may submit a letter to the Department requesting the designation as a Rural Pharmacy.

8.800.13.H. Dispensing Fees shall be determined based upon reported dispensing costs provided through a Cost of Dispensing (COD) survey. The Dispensing Fees for Retail Pharmacies, 340B Pharmacies, Institutional Pharmacies, Correctional Facilities, and Mail Order Pharmacies shall be tiered based upon annual Total Prescription Volume. The Dispensing Fees shall be tiered at:

1. Less than 60,000 total prescriptions filled per year = \$13.40
2. Between 60,000 and 90,000 total prescriptions filled per year = \$11.49
3. Between 90,000 and 110,000 total prescriptions filled per year = \$10.25
4. Greater than 110,000 total prescriptions filled per year = \$9.31

8.800.13.I. The designation of a pharmacy's Dispensing Fee shall be updated annually. Every October, the Department shall contact a pharmacy requesting the completion of an attestation letter stating the pharmacy's Total Prescription Volume for the period September 1 to August 31. A pharmacy shall have until October 31 to provide the completed attestation letter to the Department. Using the attestation letter, the Department shall update a pharmacy's Dispensing Fee effective January 1. A pharmacy failing to provide the Department an attestation letter on or before October 31, regardless of their previous Dispensing Fee, shall be reimbursed the \$9.31 Dispensing Fee.

8.800.13.J. The Department shall determine the Dispensing Fee for a pharmacy enrolling as a Medicaid provider based on the pharmacy's Total Prescription Volume. During the enrollment process, a pharmacy shall provide the Department an attestation letter stating their Total Prescription Volume for the previous twelve (12) months. Using the attestation letter, the Department shall determine the pharmacy's Dispensing Fee effective upon approval of enrollment. A pharmacy failing to provide the Department an attestation letter during the enrollment process shall be reimbursed the \$9.31 Dispensing Fee. The Dispensing Fee shall be used until it can be updated the following year in accordance with Section 8.800.13.I.

1. If a pharmacy has been open for less than 12 months, the Department shall annualize the Total Prescription Volume to determine the pharmacy's Dispensing Fee.
2. If a pharmacy is new and possesses no Total Prescription Volume history to annualize, then the pharmacy shall provide a good faith estimate of their expected Total Prescription Volume.

8.800.13.K. In November of each year, the Department shall compare a pharmacy's Total Prescription Volume and Medicaid percent provided with the attestation letter to their Medicaid claims data. If the Department identifies any inconsistencies, the Department shall request a pharmacy to provide documentation that substantiates their Total Prescription Volume for the period September 1 to August 31 within thirty (30) days. If the Department determines that the pharmacy incorrectly reported their Total Prescription Volume, the pharmacy shall be reimbursed at the correct tier based on their actual Total Prescription Volume. If a pharmacy does not provide the documentation to the Department within the 30 days, the pharmacy shall be reimbursed the \$9.31 Dispensing Fee.

8.800.13.L. The tiered Dispensing Fee shall not apply to Government Pharmacies which shall instead be reimbursed a \$0.00 Dispensing Fee.

8.800.13.M. The tiered Dispensing Fee shall not apply to Rural Pharmacies which shall instead be reimbursed a \$14.14 Dispensing Fee.

8.800.13.N. Dispensing Prescribers who dispense medications that are reimbursed as a pharmacy benefit pursuant to Section 8.800 shall be reimbursed a \$1.89 Dispensing Fee.

8.800.13.O. Reimbursement for clotting factor drugs that are reimbursed at AAC or Submitted Ingredient Cost shall include an enhanced professional dispensing fee, in addition to the usual professional dispensing fee as defined in Section 8.800.13.H.

1. The enhanced professional dispensing fee for clotting factor drugs shall be \$0.03 per drug unit.

8.800.13.P. Effective January 1, 2026, reimbursement for Parenteral Nutrition that is reimbursed at the allowed ingredient cost as described in 8.800.13.B must include an enhanced professional dispensing fee, in addition to the usual professional dispensing fee as defined in Section 8.800.13.H

1. The enhanced professional dispensing fee for parenteral nutrition is \$70.76 per claim.

REGULATORY ANALYSIS

1. Describe the classes of persons who will be affected by the proposed rule, including classes that will bear the costs of the proposed rule and classes that will benefit from the proposed rule.

The rule revisions affect PACE organizations, providing clarity on State requirements for new providers, service expansions, and aligning state requirements with federal requirements.

2. To the extent practicable, describe the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

By aligning State regulations with Federal regulations PACE providers will experience a decrease in administrative burden as there will no longer be differentiated requirements between Federal and State requirements, for example Federal and State requirements previously had different timelines for re-evaluation of participants following a hospitalization, by

DO NOT PUBLISH THIS PAGE

aligning these requirements PACE providers will no longer have to meet varying standards of follow-up visits.

3. Discuss the probable costs to the Department and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

This change is not anticipated to have any budget impact to the Department or to any other agency because the rule change is technical in nature and is not changing services or benefits.

4. Compare the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

Aligning these rules with federal standards will decrease confusion and enable PACE providers or prospective providers to better comply with both. The changes to enrollment and expansion criteria will help ensure that providers are financially stable and capable of maintaining adequate staffing levels to provide care to Medicaid members who participate in PACE. The current lack of specific standards related to provider enrollment for PACE creates a risk of financial instability for possible programs. Because this program requires members to receive their health

coverage through a PACE provider, financial instability can result in lower-quality care. There is no benefit of inaction.

5. Determine whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

There are no less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

6. Describe any alternative methods for achieving the purpose for the proposed rule that were seriously considered by the Department and the reasons why they were rejected in favor of the proposed rule.

The Department considered moratoriums on new provider enrollment or a Request for Proposal process. The current path still allows for new enrollment with heightened review of potential providers, which the Department views as the better option.

8.497 PROGRAMS OF ALL-INCLUSIVE CARE FOR THE ELDERLY (PACE)

8.497.1 STATUTORY AUTHORITY AND APPLICABILITY

8.497.1.A. The statutory authority for these rules is set forth in § 25.5-5-412, C.R.S.

8.497.1.B. A PACE organization, as defined herein, must comply with all applicable federal, state, and local statutes, regulations, and laws including but not limited to the following:

1. Code of Federal Regulations (CFR), Title 42 – Public Health, Chapter IV – Centers for Medicare & Medicaid Services, Department of Health and Human Services, Subchapter E Programs of All-Inclusive Care for the Elderly (PACE), Part 460 – Programs of All-Inclusive Care for the Elderly (PACE). This will be referred to in this regulation as 42 CFR 460. 42 CFR Part 460 (2024) is hereby incorporated by reference. The incorporation of 42 CFR Part 460 (2024) excludes later amendments to, or editions of the referenced material. Pursuant to § 24-4-103(12.5), C.R.S., the Department maintains copies of this incorporated text in its entirety, available for public inspection during regular business hours at 303 E. 17th Ave., Denver, CO, 80203. Certified copies of incorporated materials are provided at cost upon request.
2. Section 25.5-5-412, C.R.S.

8.497.1.C. A PACE organization must have an agreement with the CMS and the Department, as defined herein, for the operation of a PACE program.

8.497.2 SCOPE AND PURPOSE

8.497.2.A. The purpose of these rules is to implement § 25.5-5-412, C.R.S. which require the Department to establish, administer, and enforce minimum regulatory standards and rules for the PACE program, including for contracted entities of the PACE program, to ensure the health, safety and welfare of PACE participants.

8.497.2.B. Scope and purpose.

1. General. This regulation sets forth the following:

- a. The requirements that an entity must meet to be approved as a PACE organization that operates a PACE program under Medicaid in the State of Colorado;

 - b. How individuals may qualify to enroll in a PACE program;
 - c.. How Medicaid payments will be made for PACE services;
 - d. Provisions for State monitoring of PACE programs;

 - e. Procedures for sanctions, enforcement actions, and terminations.
2. Program purpose. PACE provides, prepaid, capitated, comprehensive health care services designed to meet the following objectives:
- a. Enhance the quality of life and autonomy for older adults who require the level of care provided in a nursing facility;
 - b. Maximize dignity of, and respect for, older adults;
 - c. Enable older adults to live in the community as long as medically and socially feasible; and
 - d. Preserve and support the older adult's family unit by relieving the family of the sole responsibility of coordinating and providing care and services.

8.497.3 DEFINITIONS

As used in this regulation, unless the context indicates otherwise, the following definitions apply:

- A. CMS means Centers for Medicare and Medicaid Services.
- B. Dementia diseases and related disabilities means a condition where mental ability declines and is severe enough to interfere with an individual's ability to perform everyday tasks. Dementia diseases and related disabilities include Alzheimer's disease, mixed dementia, Lewy Body Dementia, vascular dementia, frontotemporal dementia, and other types of dementia.
- C. Department means the Colorado Department of Health Care Policy and Financing.
- D. Designated Representative means a representative who is designated by the participant to act on the participant's behalf.
- E. Medicaid participant means an individual determined eligible for Medicaid who is enrolled in a PACE program.
- F. PACE stands for the programs of all-inclusive care for the elderly.
- G. PACE center is a facility which includes a primary care clinic, and areas for therapeutic recreation, restorative therapies, socialization, personal care, and dining, and which serves as the focal point for coordination and provision of most PACE services.
- H. PACE contract means the contract between the Department and a PACE organization.
- I. PACE organization means an entity that has in effect a PACE program agreement to operate a PACE program under this regulation.
- J. PACE program means a program of all-inclusive care for the elderly that is operated by an approved PACE organization and that provides comprehensive healthcare services to PACE enrollees in accordance with a PACE program agreement.
- K. PACE program agreement means an agreement between a PACE organization, CMS, and the Department.
- L. Participant means an individual who is enrolled in a PACE program.
- M. Service means all services that could be required under Section 8.497.8.B., including items and drugs.
- N. State administering agency means the Department.
- O. Survey Agency means either the Colorado Department of Public Health and Environment or any contractor the Department engages to conduct onsite inspections of a PACE center.
- P. Subcontractor means a third party contracted with a PACE organization to aid in performance of the PACE contract work.
- Q. Telehealth means a mode of delivery of health care services through HIPAA-compliant telecommunications systems, including information, electronic, and communication technologies, remote monitoring technologies and store-and-forward transfers, to facilitate the assessment, diagnosis, consultation, treatment, education, care management, or self-management of a covered person's health care while the covered person is located at an originating site and the provider is located at a distant site.
- R. Trial period means the first 3 contract years in which a PACE organization operates under a PACE program agreement, including any contract year during which the entity operated under a PACE demonstration waiver program.

8.497.4 PACE ORGANIZATION APPLICATION AND WAIVER PROCESS

- 8.497.4.A. Purpose.

1. Applications. This section sets forth the application procedures for the following:
 - a. An entity that seeks approval from the Department as a PACE organization.
 - b. A PACE organization that seeks to expand its service area or to add a new PACE center.
 - c. A PACE organization that seeks to expand its service area and to add a new PACE center.

2. Waiver. This section sets forth the process by which a PACE organization may request waiver of certain regulatory requirements. The purpose of the waivers is to provide for reasonable flexibility in adapting the PACE model to the needs of particular organizations (such as those in rural areas).

8.497.4.B. Application requirements.

1. In addition to the application requirements set forth in 42 CFR § 460.10 and 42 CFR § 460.12, an entity that seeks to become a PACE organization or a PACE organization that seeks to expand its service area or add a PACE center, must comply with the following requirements:
 - a. Letter of intent. Submit a letter of intent in the form and manner specified by the Department at least 90 days prior to submitting an application to the Department. The letter must contain, at least, the following information:
 - i. The name and contact information of the person submitting the letter of intent;
 - ii. The name of the entity or PACE organization including the state-approved trade name, also known as “doing business as” name, if different;
 - iii. The proposed service area, including counties, zip codes, and any zip codes that overlap another PACE organization’s service area, if applicable; and
 - iv. The proposed location of the PACE center, if applicable.
 - b. Market feasibility study. All entities and PACE organizations must submit a market feasibility study of the proposed service area with the letter of intent. The study must include, but is not limited to at least, the following:
 - i. Estimate of the number of individuals eligible for PACE;
 - ii. Methodology for calculating potential participants;
 - iii. Projected market penetration, including assumptions made to support the rate of projected market penetration, and justification that the entity or PACE organization can reasonably serve the potential participants in the proposed service area;
 - iv. Demonstration of an unmet need for PACE in the proposed service area;
 - v. Evidence the new PACE center, if applicable, has the capacity to adequately serve the potential participants who reside in the proposed service area;
 - vi. Evidence, conducted by a qualified actuary, that the applicant will either be cost neutral or save the Department money;
 - vii. Identification of all competitors and collaborators in the proposed service area;
 - viii. Mean travel time from the farthest points of the service area to the PACE center;
 - ix. Demographics of the proposed service area such as age, race, language, and household income; and
 - x. Health outcomes of the proposed service area such as quality of life, social and economic factors, and physical environment.

- c. Department-specific application requirements.
 - i. Submission of application. An individual authorized to act for an entity or a PACE organization that seeks to expand its service area or add a PACE center site must submit to the Department a complete application in the form and manner, including timeframes for submission, specified by the Department, that describes how the entity or PACE organization meets all requirements in this part.
 - ii. Submission timeframe. An entity or a PACE organization must submit an application to the Department at least 90 calendar days prior to its anticipated CMS application date.
 - iii. Contents of application. An application to the Department must contain information to demonstrate financial and operational stability, as specified in the Department's application. The application must include, but is not limited to, the following:

1. Financial assets;
2. Additional owners and/or financially invested organizations;
3. Risk reserve;
4. Reinsurance;
5. Staff recruitment and retention program.

2. The Department may allow more than one PACE organization per zip code.

8.497.4.C. Department evaluation of applications. The Department evaluates an application in accordance with the requirements of 42 CFR § 460.18 and Department-specific requirements, including the following information.

1. Information contained in the application;
2. Information obtained by the Department or a Survey Agency through on-site visits or any other means;
3. Use of information from a current or prior PACE program agreement or State of Colorado Contract;
4. Department and/or state of Colorado budgetary considerations and constraints; and
54. Financial and operational stability of the applicant.

8.497.4.D. Notice of the Department's determination.

1. Time limit for notification of determination. Within 90 days, or 45 days for applications set forth in 8.497.4.A.1.b., after an entity submits a complete application to the Department, the Department takes one of the following actions in the form and manner specified by the Department:
 - a. Approves the application.
 - b. Denies the application and notifies the entity in writing of the basis for the denial and the process for requesting reconsideration of the denial.
2. Complete application. An application is only considered complete when the Department receives all information necessary to make a determination regarding approval or denial.
3. Additional information requested. If the Department determines that an application is not complete because it does not include sufficient information to make a determination, the Department will request additional information within 90 days, or 45 days for applications set forth in 8.497.4.A.1.b., after the date of submission of the application.
 - a. The time limits in 8.497.4.D.1. do not begin until the Department receives all requested information and the application is complete.
 - b. If more than 12 months elapse between the date of initial submission of the application and the entity's response to the Department's request for additional information, the entity must update the application to provide the most current information and materials related to the application.
4. Date of submission. For purposes of the time limits described in this section, the date that an application is submitted to the Department is the date on which the application is delivered to the address designated by the Department.

8.497.4.E. Submission and evaluation of waiver requests. A PACE organization, or an entity submitting an application to become a PACE organization, must submit its waiver request in accordance with 42 CFR § 460.26. In addition to the requirements set forth in 42 CFR § 460.26, an entity or PACE organization must submit the request to the Department at least 90 calendar days prior to its anticipated CMS application or waiver submission date.

8.497.5 PACE PROGRAM AGREEMENT

- 8.497.5.A. A PACE program agreement must meet the requirements set forth at 42 CFR § 460.30.
- 8.497.5.B. Content and terms of PACE program agreement. The PACE program agreement must include all content required by 42 CFR § 460.32.

8.497.5.C. The duration of the PACE program agreement shall be in accordance with 42 CFR § 460.34.

8.497.5.D. The PACE organization must comply with all requirements of the PACE program agreement. If the PACE program agreement is amended or modified in any way, the amendment or modification must be automatically incorporated herein as of the effective date of the amendment or modification, and the PACE organization must comply with all requirements of the amendment or modification as of that date.

8.497.6 SANCTIONS, ENFORCEMENT ACTIONS, AND TERMINATION

8.497.6.A. Violations for which the Department may impose sanctions.

1. In addition to other remedies authorized by law or contract, the Department may impose any of the sanctions specified in Section 8.497.6.B., if the Department or a Survey Agency determines that a PACE organization commits any of the violations specified in 42 CFR § 460.40(a) or the following violations:
 - a. Makes payment to or employs or contracts with any individual or organization that has a criminal conviction as defined in 42 § CFR 460.68(a); or
 - b. Makes payment to individuals and entities excluded by the Office of Inspector General or included on the preclusion list as pursuant to 42 § CFR 460.86.

2. If the Department or a Survey Agency makes a determination that could lead to termination of a PACE program agreement under Section 8.497.6.C., the Department may impose any of the sanctions specified in Section 8.497.6.B. If the Department determines that the circumstances in Section 8.497.6.C.2.a. exist, the Department does not have to determine that the circumstances in Section 8.497.6.C.2.b. exist prior to imposing an enrollment and/or payment suspension.

8.497.6.B. Suspension of enrollment or payment by the Department.

1. Enrollment Suspension. If a PACE organization commits one or more violations specified in 42 CFR § 460.40(a), the Department may suspend enrollment of Medicaid beneficiaries or place a limit on enrollments after the date the Department notifies the organization of the violation.
2. Payment Suspension. If a PACE organization commits one or more violations specified in 42 CFR § 460.40(a), for participants enrolled after the date the Department notifies the PACE organization of the violation, the Department may suspend Medicaid payment to the PACE organization.
3. Term of suspension. A suspension or denial of payment remains in effect until the Department is satisfied that the following conditions are met:
 - a. The PACE organization has corrected the cause of the violation; and
 - b. The violation is not likely to recur.
4. Restrictions and Conditions. The Department may impose restrictions or conditions on a PACE organization, which may include at least one of the following:
 - a. Retaining a consultant to monitor the effectiveness of corrective measures for a specific period determined by the Department;
 - b. Monitoring the effectiveness of corrective measures by the Department for a specific period; or
 - c. Requiring additional training for personnel, owners, or operators of the PACE organization.

5. Notification and Plan Requirements.

- a. If the Department imposes any restriction or condition that is not the result of a serious and immediate threat to the health, safety, or welfare of a PACE participant, the Department shall notify the PACE organization of the restriction or condition in writing.
- b. If the Department imposes any restriction or condition that is the result of a serious and immediate threat to the health, safety, or welfare of a PACE participant, the Department shall notify the PACE organization of the restriction or condition in writing, by telephone, or in person during an on-site visit.
 - i. The PACE organization must remedy the circumstances creating the harm or likelihood of harm immediately upon receiving notice of the restriction or condition.
- c. If the Department initially provides notice of a restriction or condition by telephone or in person, the Department shall send written confirmation of the restriction or condition to the PACE organization.
- d. A PACE organization must complete corrective action as specified in Section 8.497.13.C.1.

8.497.6.C. Termination of a PACE program agreement. The Department may terminate a PACE program agreement for cause, pursuant to 42 CFR § 460.50.

8.497.6.D. Transitional care during termination. The PACE organization must meet the transitional care requirements set forth in 42 CFR § 460.52.

8.497.6.E. Termination procedures.

1. Except as provided in Section 8.497.6.E.2., if the Department terminates a PACE program agreement with a PACE organization, it will furnish the PACE organization with a reasonable opportunity to develop and implement a corrective action plan to correct the deficiencies that were the basis of the Department's determination that cause exists for termination:
2. The Department may terminate a PACE program agreement and PACE contact without invoking the procedures in Section 8.497.6.E.1. if the Department determines that a delay in termination, resulting from compliance with these procedures before termination, would pose an imminent and serious risk to the health of participants enrolled with the organization..

8.497.7 PACE ADMINISTRATIVE REQUIREMENTS

- 8.497.7.A. PACE organizational structure. The PACE organizational structure must comply with the requirements set forth in 42 CFR § 460.60.
- 8.497.7.B. Governing body. The governing body of the PACE organization must comply with the requirements set forth in 42 CFR § 460.62
- 8.497.7.C. Compliance oversight requirements. The PACE organization must adopt and implement compliance oversight requirements in accordance with 42 CFR § 460.63.
- 8.497.7.D. Personnel qualifications for staff with direct participant contact. The PACE organization must comply with the personnel qualifications set forth in 42 CFR § 460.64.
- 8.497.7.E. Training. The PACE organization must comply with the training requirements set forth in 42 CFR § 460.66.

1. In addition to the general qualification requirements specified in 42 CFR § 460.66, all PACE organization personnel having direct participant contact must complete the following trainings annually. Newly hired personnel must complete the training before working independently:
 - a. Mandatory reporting of adult mistreatment. Staff members must complete training that includes reporting requirements as specified in C.R.S. § 18-6.5-108;
 - b. The service determination process as specified in Section 8.497.9.G; and
 - c. Dementia diseases and related disabilities. The training must be culturally competent and include at least the following content:

- i. Activities of daily living.
- ii. Care planning.
- iii. Dementia diseases and related disabilities.
- iv. Dementia-related behaviors and communication.
- v. Person-centered care.

3. All orientation, training, competency, and personnel action documentation must be retained in the personnel files.

- 8.497.7.F. Program integrity. The PACE organization must comply with the program integrity requirements set forth in 42 CFR § 460.68.
- 8.497.7.G. Contracted services. The PACE organization must comply with the contracted service requirements set forth in 42 CFR § 460.70.
- 8.497.7.H. Oversight of direct participant care. The PACE organization must oversee direct participant care in accordance with the requirements set forth in 42 CFR § 460.71.
- 8.497.7.I. Physical environment. The PACE center must meet the physical environment requirements set forth in 42 CFR § 460.72.
- 8.497.7.J. Infection control. The PACE organization must comply with the infection control requirements set forth in 42 CFR § 460.74.
- 8.497.7.K. Transportation services.

1. Safety, accessibility, and equipment. A PACE organization's transportation services must be safe, in good working order, accessible, and equipped to meet the needs of the participant population and meet the transportation services requirements set forth in 42 CFR § 460.76.
2. Maintenance of vehicles. In addition to the requirements set forth in 42 CFR § 460.76(b), PACE organizations must ensure safety inspections include the inspection of items as described in Rules Regulating Transportation by Motor Vehicle, 4 CCR 723-6; § 6103 and § 6104. 4 CCR 723-6; § 6103-6104 (2024) is hereby incorporated by reference. The incorporation of 4 CCR 723-6; § 6103-6104 (2024) excludes later amendments to, or editions of the referenced material. Pursuant to § 24-4-103(12.5), C.R.S., the Department maintains copies of this incorporated text in its entirety, available for public inspection during regular business hours at 303 E. 17th Ave., Denver, CO, 80203. Certified copies of incorporated materials are provided at cost upon request.

3. Drivers.

a. PACE organizations must ensure that each driver meets the following requirements:

- i. Drivers must be 18 years of age or older;
- ii. Have at least one year of driving experience;
- iii. Possess a valid Colorado driver's license.
- iv. Provide a copy of their current Colorado motor driving vehicle record, with the previous seven years of driving history; and
- v. Complete a Colorado or National-based criminal history record check.

b. Drivers must be disqualified from serving as drivers for any program participants for any of the following reasons:

- i. A conviction of substance abuse occurring within the seven (7) years preceding the date the criminal history record check is completed;
- ii. A conviction in Colorado, at any time, of any Class 1 or 2 felony under Title 18, C.R.S.;
- iii. A conviction in Colorado, within seven (7) years preceding the date the criminal history record check is completed, of a crime of violence, as defined in C.R.S. § 18-1.3-406(2);
- iv. A conviction in Colorado, within four (4) years preceding the date the criminal history record check is completed, of any Class 4 felony under Title 18, Articles 2, 3, 3.5, 4, 5, 6, 6.5, 8, 9, 12, or 15, C.R.S.;
- v. A conviction of an offense in any other state that is comparable to any offense listed in subparagraphs (f)(II)(A) through (D) within the same time periods as listed in subparagraphs (f)(II)(A) through (D) of Rules Regulating Transportation by Motor Vehicle, 4 C.C.R. 723-6; § 6114. 4

- viii. A conviction within two (2) years preceding the date the criminal history record check is completed of an offense comparable to those included in subparagraph (f)(III)(B), 4 C.C.R. 723-6; § 6114 in any other state in the United States; and
- ix. For purposes of 4 C.C.R. 723-6; § 6114(f)(IV), a deferred judgment and sentence pursuant to § 18-1.3-102, C.R.S., shall be deemed to be a conviction during the period of the deferred judgment and sentence.

8.497.7.L. Dietary services. The PACE organization must comply with the dietary services requirements set forth in 42 CFR § 460.78.

8.497.7.M. Fiscal Soundness. The PACE organization must comply with the fiscal soundness requirements set forth in 42 CFR § 460.80.

8.497.7.N. Marketing.

1. The PACE organization must comply with the marketing requirements set forth in 42 CFR § 460.82.
2. Marketing information must be free of material inaccuracies, misleading information, or misrepresentations on all platforms.
3. The Department retains the right to disapprove previously approved marketing materials if they are subsequently found to be inaccurate, altered, or otherwise non-compliant.

8.497.7.O. Emergency preparedness. The PACE organization must comply with all applicable federal, state, and local emergency preparedness requirements and must establish and maintain an emergency preparedness program that meets the requirements set forth in 42 CFR § 460.84.

8.497.8 PACE SERVICES

8.497.8.A. PACE benefits under Medicare and Medicaid. The PACE organization must comply with the requirements set forth in 42 CFR § 460.90.

8.497.8.B. Required services. The PACE organization must comply with the requirements set forth in 42 CFR § 460.92.

8.497.8.C. Excluded services. The services set forth in 42 CFR § 460.96 are excluded from coverage under PACE.

8.497.8.D. Service delivery.

1. Access to services. The PACE organization is responsible for providing care that meets the needs of each participant across all care settings, 24 hours a day, every day of the year, and must establish and implement a written plan to ensure that care is appropriately furnished.
2. Provision of services.
 - a. The PACE organization must provide services in accordance with 42 CFR § 460.98(b).
 - b. The PACE organization must visit each participant in-person or via telehealth across all care settings as often as the participant's condition requires, but no less than once each calendar month.

- i. If a participant does not receive a visit during a calendar month, the PACE organization must notify the Department, in writing, within 15 calendar days of the following calendar month. The notice must explain the reason(s) why the participant did not receive a visit.
- ii. For the purposes of this requirement, a visit must be provided directly by PACE staff or a contracted specialist. The delivery of items or medications and services routinely provided by a contracted residential care provider are not considered a visit.
- iii. If the PACE organization provides these visits via telehealth, the PACE organization must ensure the telehealth delivery option meets the following requirements:

- 1) Participants must have an informed choice between in-person and telehealth services;
- 2) The use of the telehealth delivery option will not prohibit or discourage the use of in-person services;
- 3) Telehealth will not be used for the provider's convenience; and
- 4) Telehealth must be provided using technology compliant with Health Insurance Portability and Accountability Act of 1996 (HIPAA) Privacy, Security and Breach Notification Rules.

- iv. The telehealth permissions in this section do not apply to the in-person assessment and reassessment requirements as described in 8.497.8.G.

3. Timeframes for arranging and providing services. The PACE organization must comply with the requirements set forth in 42 CFR § 460.98(c).
4. Minimum services furnished at each PACE center. At a minimum, the PACE organization must provide the services set forth in 42 CFR § 460.98(d) at each PACE center.
5. PACE center operation. The PACE organization must operate its center(s) in accordance with 42 CFR § 460.98(e).

- a. Services at the PACE center must be provided consistent with any applicable standards of practice for that service, and, when applicable, by staff with the requisite qualifications to perform the service.

- 6. Center attendance. The frequency of a participant's attendance at a center is determined by the interdisciplinary team, based on the needs and preferences of each participant.

8.497.8.E. Emergency care. The PACE organization must comply with the emergency care requirements set forth in 42 CFR § 460.100.

8.497.8.F. Interdisciplinary team. The PACE organization must comply with the interdisciplinary team requirements set forth in 42 CFR § 460.102.

8.497.8.G. Participant assessment. The PACE organization must comply with the assessment and plan of care requirements set forth in 42 CFR § 460.104.

8.497.8.H. Plan of care.

- 1. The PACE organization must comply with the plan of care requirements set forth in 42 CFR § 460.106.
- 2. Residential care provider involvement in plan of care. For participants receiving residential care, the PACE organization must seek input from residential care providers in the evaluation of the plan of care and share the plan of care with residential care providers.

8.497.9 PARTICIPANT RIGHTS

- 8.497.9.A. Bill of rights. The PACE organization must comply with the requirements set forth in 42 CFR § 460.110.
- 8.497.9.B. Specific rights to which a participant is entitled. The PACE organization must comply with the requirements set forth in 42 CFR § 460.112.

1. Information disclosure. In addition to the requirements set forth in 42 CFR § 460.112(c), the participant has the following rights:

- a. To receive a current list of the employees of the PACE organization who furnish direct care to the participant upon enrollment and upon request. At a minimum, the list must include each discipline of the interdisciplinary team as set forth in 42 CFR § 460.102(b).
- b. To have an equal opportunity to receive meaningful communication and to participate fully in discussions involving the PACE program, services, activities, eligibility, enrollment and other benefit information, in the language preferred by the participant.

8.497.9.C. Restraints. The PACE organization must comply with the requirements set forth in 42 CFR § 460.114.

8.497.9.D. Explanation of rights. The PACE organization must comply with the requirements set forth in 42 CFR § 460.116 and must display the contact information for the Colorado PACE Ombudsman in a prominent place in the PACE center.

8.497.9.E. Violation of rights. The PACE organization must have established documented procedures to respond to and rectify a violation of a participant's rights.

8.497.9.F. Grievance process. The PACE organization must comply with the requirements set forth in 42 CFR § 460.120.

8.497.9.G. Service determination process.

1. The PACE organization must comply with the requirements set forth in 42 CFR § 460.121.

2. PACE organization decisions to reduce or terminate services.
 - a. If the PACE organization reduces or terminates a service, without the participant requesting the reduction or termination, the PACE organization must provide written notice to the participant of the right to file a service determination request to continue the service.
 - b. This requirement does not apply to services with a specified end date.

8.497.9.H. PACE organization's appeals process.

1. The PACE organization must comply with the requirements set forth in 42 CFR § 460.122.
2. A PACE participant must exhaust the internal appeals process described in this part prior to requesting a State Fair Hearing as described in Sections 8.497.9.I. and 8.057.

8.497.9.I. Additional Appeal Rights Under Medicare or Medicaid.

1. A PACE organization must comply with the requirements set forth in 42 CFR § 460.124.
2. Medicaid participants have the right to a state fair hearing under Section 8.057. Appeals must be filed within 60 calendar days of the date of the notice of action.

8.497.10 QUALITY IMPROVEMENT

- 8.497.10.A. Quality improvement program and plan. A PACE organization must establish, implement, maintain, and evaluate an effective data-driven quality improvement program and plan, pursuant to 42 CFR § 460.130 and 460.132, that contains all requirements set forth in 42 CFR § 460.134.
- 8.497.10.B. Internal quality improvement activities. A PACE organization must comply with the requirements set forth in 42 CFR § 460.136.

8.497.10.C. Committees with community input. A PACE organization must comply with the requirements set forth in 42 CFR § 460.138.

8.497.11 PARTICIPANT ENROLLMENT AND DISENROLLMENT

8.497.11.A. Eligibility to enroll in a PACE program. A PACE organization must comply with the requirements set forth in 42 CFR § 460.150.

8.497.11.B. Enrollment process.

1. A PACE organization must comply with the requirements set forth in 42 CFR § 460.152.
2. Additional intake process requirements.

- a. At least one member of an interdisciplinary team must assess the individual in person in the individual's place of residence prior to enrollment. This assessment must be completed by one of the following disciplines:
 - i. Registered Nurse.
 - ii. Physical Therapist.
 - iii. Occupational Therapist.
 - iv. Home Care Coordinator.
 - v. Other appropriate members of an interdisciplinary team as identified by an interdisciplinary team.
- b. The appropriate members of an interdisciplinary team, as identified by an interdisciplinary team, must review and discuss each potential participant and decide to approve or deny the individual's enrollment based on that review.

- 8.497.11.C. Enrollment agreement. If the potential participant meets the eligibility requirements and wants to enroll, he or she must sign an enrollment agreement which contains, at a minimum, the information required by 42 CFR § 460.154.
- 8.497.11.D. Other enrollment procedures. The PACE organization must comply with the requirements set forth in 42 CFR § 460.156.
- 8.497.11.E. Effective date of enrollment. A participant's enrollment in the program is effective on the first day of the calendar month following the date the PACE organization receives the signed enrollment agreement.
- 8.497.11.F. Continuation of enrollment.

1. The PACE organization must comply with the requirements set forth in 42 CFR § 460.160.
2. In addition to the waiver of annual requirement regulations set forth in 42 CFR § 460.160(b)(1), a participant who continues to meet nursing facility level of care during their first annual recertification, is permanently waived from the annual recertification requirement.
3. In addition to the deemed continued eligibility regulations set forth in 42 CFR § 460.160(b)(2), the following apply:
 - a. If the PACE organization believes the participant would be expected to meet the nursing facility level of care within the next 6 months, the organization must submit a request for deemed continued eligibility to the Department in the form and manner specified by the Department.
 - b. Upon receipt of all requested information, the Department will make a determination.
 - c. The Department will notify the PACE organization of the Department's decision in writing in a timely manner.
 - d. If the Department determines the participant does not qualify for deemed continuous eligibility, the PACE organization must follow involuntary disenrollment procedures as described in Section 8.497.11.H., unless the participant chooses to voluntarily disenroll.

- 8.497.11.G. Voluntary disenrollment. The PACE organization must comply with the voluntary disenrollment requirements set forth in 42 CFR § 460.162.
- 8.497.11.H. Involuntary disenrollment.

1. The PACE organization must comply with the involuntary disenrollment requirements set forth in 42 CFR § 460.164.
2. In addition to the reasons for involuntary disenrollment regulations set forth in 42 CFR § 460.164(b), the following applies for involuntary disenrollment:

- a. As it relates to 42 CFR § 460.164(b)(1) and 460.164(b)(2), the PACE organization must provide written notice to the participant, designated representative, or both explaining the amount due.

3. Involuntary disenrollment request requirements.

- a. A PACE organization must submit an involuntary disenrollment request to the Department in a timely manner and in the form and manner specified by the Department.
- b. Before an involuntary disenrollment is effective, the Department must review it and determine in a timely manner that the PACE organization has adequately documented acceptable grounds for disenrollment.

8.497.11.I. Disenrollment responsibilities. The PACE organization must comply with the disenrollment responsibilities requirements set forth in 42 CFR § 460.166.

8.497.11.J. Reinstatement in Medicaid programs. The PACE organization must comply with the reinstatement in other Medicaid program requirements set forth in 42 CFR § 460.168.

8.497.11.K. Reinstatement in PACE. The PACE organization must comply with the reinstatement in PACE requirements set forth in 42 CFR § 460.170.

8.497.11.L. Documentation of disenrollment. The PACE organization must comply with the documentation of disenrollment requirements set forth in 42 CFR § 460.172.

8.497.12 PAYMENT

8.497.12.A. Medicaid payment.

1. The PACE organization shall receive Medicaid payments in accordance with 42 CFR § 460.182.

2. The Department may also recover, at the Department's discretion, payments made to the PACE organization in error for any reason, including, but not limited to, overpayments, improper payments, and excess funds received by the PACE organization by deduction from subsequent payments as specified in the PACE contract, deduction from any payment due under any other contracts, grants or agreements between Colorado and the PACE organization, or by any other appropriate method for collecting debts owed to the Department.
3. Payment Reconciliations. A PACE organization must adhere to the terms related to the participant-specific amount reconciliation, participant-specific reconciliation payments, and annual reconciliation as specified in the PACE contract.

8.497.12.B. Post-eligibility treatment of income.

1. The Department may provide for post-eligibility treatment of income for PACE participants as set forth in Sections 8.482.33 and 8.7202.BB.
2. Post-eligibility treatment of income is applied, as specified in 42 CFR § 460.184(b).

8.497.12.C. PACE premiums. The PACE organization must comply with the PACE premiums requirements set forth in 42 CFR § 460.186.

8.497.13 STATE MONITORING

- 8.497.13.A. Monitoring during trial period. During the trial period, the Department conducts comprehensive annual reviews of the operation of a PACE organization, in accordance with the requirements and scope set forth in 42 CFR § 460.190.
- 8.497.13.B. Ongoing monitoring after trial period. At the conclusion of the trial period, the Department continues to conduct review of a PACE organization, as appropriate, in accordance with the requirements set forth in 42 CFR § 460.192.

8.497.13.C. Corrective action. The PACE organization must comply with the requirements set forth in 42 CFR § 460.194. In addition, as it relates to a corrective action plan, a PACE organization must:

1. Submit an acceptable corrective action plan in the form, manner and timeframe specified by the Department, when corrective action is deemed necessary by the Department. An acceptable plan must include but is not limited to:
 - a. The corrective action the PACE organization will take on behalf of the participants affected by the deficient practice;
 - b. How the PACE organization will identify other participants who could be affected by the same deficient practice;
 - c. The measures or systemic changes the PACE organization has or will implement to ensure the deficient practice will not recur, including the responsible staff;
 - d. How the PACE organization will monitor the corrective action to ensure the deficient practice is corrected and the solution is sustained, including the responsible staff; and
 - e. The date each plan was or will be completed.

8.497.13.D. Disclosure of review results. The PACE organization and the Department must comply with the requirements set forth in 42 CFR § 460.196.

8.497.13.E Disclosure of compliance deficiencies. The Department may require a PACE organization to disclose to its PACE participants or potential PACE participants the PACE organization's performance and contract compliance deficiencies in a manner specified by the Department.

8.497.14 DATA COLLECTION, RECORD MAINTENANCE, AND REPORTING

8.497.14.A. Maintenance of records and reporting of data. The PACE organization must collect data, maintain records, and submit reports as required by the Department and in accordance with 42 CFR § 460.200.

8.497.14.B. Participant health outcomes data. The PACE organization must comply with the requirements set forth in 42 CFR § 460.202.

8.497.14.C. Financial recordkeeping and reporting requirements. The PACE organization must comply with the requirements set forth in 42 CFR § 460.204.

8.497.14.D. Financial statements.

1. The PACE organization must comply with the financial statement reporting requirements set forth in 42 CFR § 460.208.
2. Annual financial report. A PACE organization must submit the financial data as specified in the PACE contract.

8.497.14.E. Medical records.

1. A PACE organization must maintain a single, comprehensive medical record for each participant in accordance with the requirement set forth in 42 CFR § 460.210.
2. Additional content of medical records. In addition to the medical record content requirements set forth in 42 CFR § 460.210(b), the PACE organization must document whether a service or visit was provided in person or via telehealth.

8.497.14.F. Encounter data submission requirements.

1. Encounter data submission report. A PACE organization must submit encounter data, as directed by the Department, directly to the Department or its designee.
 - a. The PACE organization must use the Healthcare Common Procedure Coding System (HCPCS), ICD-10 Procedure Coding System (ICD-10 PCS), and Current Procedural Terminology (CPT) for provided services in each submission of encounter data.
 - b. A PACE organization must prepare and submit all pharmacy and non-pharmacy encounter data monthly, as specified by the Department, to the Department through its Fiscal Agent. Unless otherwise directed by the Department, encounter

data must not be submitted to the Department, or its designated Fiscal Agent, more than 30 days from the final day of the previous month.

- i. Submissions must be comprised of encounter records or adjustments to previously submitted records from provider encounter or claim records of any contracted or directly provided services rendered to the participant in the current or any prior months.

 - ii. Submission of encounter records of services rendered from all providers, including PACE organizations and their respective subcontractors, must have a valid, enrolled National Provider Identifier (NPI) with the Department. Subcontractors who submit encounter records to the Department must be enrolled and approved through the Department.
 - 1) If a PACE organization's encounter is not established in the HCPCS, ICD-10 PCS, or CPT, the PACE organization must document the encounter and submit an Encounter Data Submission Report to the Department for review and for coding consideration through a process defined by the Department in collaboration with the PACE organization.
2. Encounter data submission to the Pharmacy Benefit Management (PBM) vendor. A PACE organization must ensure pharmacy encounters are submitted to the PACE organization's PBM vendor.

- a. If a business need is identified by the Department, or non-compliance is identified, the Department or the Department's PBM vendor will notify the PACE organization 90 days in advance of any requirement changes that are deemed necessary to ensure compliance, as set forth in the Colorado Pharmacy Benefit Management System Batch Pharmacy Encounters Companion Guide, unless there are unforeseen circumstances that require immediate system changes, in which case the PACE organization will be notified as soon as possible.
-
- 3. Annual signed encounter data certification. The PACE organization must submit an Annual Signed Encounter Data Certification to show that the encounter data submitted through the designated Fiscal Agent is accurate to the best of the PACE organization's information, knowledge and belief.
 - a. The encounter data submission must comply with the format prescribed by the Department or its designated Fiscal Agent. The encounter data submission must include:
 - i. The name and provider ID of any ordering, referring, prescribing, or attending provider and information on the rendering, operating, or other professional.
 - 1) Generic provider IDs shall be used only when specific Provider IDs remain unknown after reasonable inquiry.
 - 2) NPI numbers of providers not enrolled in Medicaid must be reported.
 - 3) If the NPI is not available, the PACE organization must report the tax payer ID.

ii. The PACE organization must require subcontractors and non-contracting providers to provide encounter data to the PACE organization.

- b. The PACE organization must obtain an Annual Signed Encounter Data Certification from either the Chief Executive Officer or the Chief Financial Officer, or an individual who has delegated authority to sign for, and who reports directly to, the Chief Executive Officer or Chief Financial Officer.
- c. The PACE organization must provide an Annual Signed Encounter Data Certification to the Department or its designees covering all of the submissions for the preceding year of Encounter Data as specified in the PACE contract.

Rule Number: MSB 25-04-02-B

Division / Contact / Phone: Benefits and Services Management / Danielle Krause / 6576

STATEMENT OF BASIS AND PURPOSE

1. Summary of the basis and purpose for the rule or rule change. (State what the rule says or does and explain why the rule or rule change is necessary).

This action seeks to repeal Section 8.552, which defines In-Home Support Services, and Section 8.553, which defines Transition Services; Life Skills Training, Home Delivered Meals, Peer Mentorship, Transition Setup Services, and Home Delivered Meals Post-Hospital Discharge. These rules are now redundant since the regulations have been moved to Sections 8.7526 Home Delivered Meals, 8.7528 In-Home Support Services (IHSS), 8.7530 Life Skills Training, 8.7537 Peer Mentorship, and 8.7553 Transition Setup. Board members will see in the proposed rules attached hereto that Sections 8.552 and 8.553 have been stricken through in their entirety.

2. An emergency rule-making is imperatively necessary

- to comply with state or federal law or federal regulation and/or
- for the preservation of public health, safety and welfare.

Title of Rule: Repeal of In-Home Support Services Section 8.552 and Transition Services, Sections 8.552 & 8.553

Rule Number: MSB 25-04-02-B

Division / Contact / Phone: Benefits and Services Management / Danielle Krause / 6576

REGULATORY ANALYSIS

1. Describe the classes of persons who will be affected by the proposed rule, including classes that will bear the costs of the proposed rule and classes that will benefit from the proposed rule.

Repealing this rule does not affect any persons, nor create a cost to members or others, as these regulations have been moved to Section 8.7000, with no changes to the services. The rules within Sections 8.552 and 8.553 need to be repealed, as they are now redundant and may become inconsistent with the rules in 8.7000 if changes are made to that section.

2. To the extent practicable, describe the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

Repeal of this rule will have no impact as there are no changes to the services or any reduction of access, oversight, agency requirements or reimbursements.

3. Discuss the probable costs to the Department and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

Repealing this rule will have no impact or costs to the Department or any other agency. Additionally, state revenues will not be affected.

4. Compare the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

There are no costs associated with the repeal of this rule. However, inaction may result in confusion and/or costs being incurred due to the inclusion of conflicting rules.

5. Determine whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

DO NOT PUBLISH THIS PAGE

Due to zero costs associated with repeal of this rule, utilization of other methods to repeal will have no impact.

6. Describe any alternative methods for achieving the purpose for the proposed rule that were seriously considered by the Department and the reasons why they were rejected in favor of the proposed rule.

No alternative methods for achieving the purpose for the proposed rule change were considered.

STATEMENT OF BASIS AND PURPOSE

- 1. Summary of the basis and purpose for the rule or rule change. (State what the rule says or does and explain why the rule or rule change is necessary).

During the 2024 session, the Colorado General Assembly passed Senate Bill (SB) 24-116 which made changes to Hospital Discounted Care, enacted under House Bill (HB) 24-1198. SB 24-116 allows hospitals to set payment plans at 6% of the patient’s calculated household gross monthly income if the hospital bills for their employed or contracted health care professionals, adds definitions for Inpatient and Outpatient Hospital Services, excludes primary care services provided in clinics located in rural or frontier counties which have a sliding fee scale approved by the Department, requires licensed health care professionals to submit their own Hospital Discounted Care data to the Department, and allows for hospitals to disqualify patients from eligibility for Hospital Discounted Care if they determine the patient presumptively eligible for Health First Colorado (Colorado’s Medicaid Program) or the Child Health Plan Plus (CHP+).

This rule includes only the last-mentioned change, allowing hospitals to disqualify patients from eligibility for Hospital Discounted Care if the patient is determined to be presumptively eligible for Health First Colorado or CHP+. The other changes were included in a rule change that was passed by the Medical Services Board in January 2025. The change to PE had to be separated from the others due to multiple system changes to incorporate the new populations covered under PE through SB 24-116.

- 2. An emergency rule-making is imperatively necessary

- to comply with state or federal law or federal regulation and/or
- for the preservation of public health, safety and welfare.

REGULATORY ANALYSIS

1. Describe the classes of persons who will be affected by the proposed rule, including classes that will bear the costs of the proposed rule and classes that will benefit from the proposed rule.

Hospitals that choose to become Certified Application Assistance Sites (CAAS) and Presumptive Eligibility (PE) sites due to the changes contained within this rule will have new responsibilities related to being Certified Application Assistance Sites and Presumptive Eligibility sites but will benefit by being capable of helping patients apply for Health First Colorado and CHP+ coverage. Patients who choose to apply for PE will benefit from having a more direct avenue to apply for Health First Colorado and CHP+ coverage and will further benefit if they are found to be eligible for those coverages rather than continue to be uninsured or underinsured.

2. To the extent practicable, describe the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

This rule change will indirectly result in an increase in the number of hospitals that apply to be Certified Application Assistance Sites and Presumptive Eligibility sites, which increases the number of locations that patients will have access to that can help them apply for Health First Colorado and/or CHP+.

3. Discuss the probable costs to the Department and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

There is no fiscal impact to the Department of Health Care Policy and Financing with this rule change. Funds for administering these requirements were appropriated by the General Assembly to the Department and funding for hospitals will continue in accordance with rule 8.3000.

4. Compare the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

DO NOT PUBLISH THIS PAGE

The Department must implement these rules in accordance with the passage of Senate Bill 24-116. These rules will indirectly encourage more hospitals to apply to be Certified Application Assistance Sites and Presumptive Eligibility sites, which will benefit both the hospital and the patients that will receive services at the hospital who may be eligible for coverage under Presumptive Eligibility, Health First Colorado, and/or CHP+.

5. Determine whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

There are no less costly methods to achieve the purpose of the proposed rule. The Department of Health Care Policy and Financing must comply with the provisions of Senate Bill 24-116 and has been appropriated funds to do so.

6. Describe any alternative methods for achieving the purpose for the proposed rule that were seriously considered by the Department and the reasons why they were rejected in favor of the proposed rule.

No other alternative methods were considered because these changes are required by Senate Bill 24-116.

8.920 Hospital Discounted Care

The Health Care Billing for Indigent Patients Act of 2021, C.R.S. § 25.5-3-501, et. seq., referred to as Hospital Discounted Care, establishes the maximum rate a Health Care Facility and Licensed Health Care Professional may bill low-income patients for Discounted Care provided in the hospital, requires written description of patient's rights, establishes patient appeals and complaint processes, and imposes requirements on hospitals before assigning or selling patient debt to a medical creditor or before pursuing collection action. Senate Bill 24-116 added an increase in payment plan amounts for Health Care Facilities who bill for their own professionals, requires professionals who bill separately from the Health Care Facility to report their own data to the Department, and excludes primary care provided at rural or frontier clinics who have an approved sliding fee scale.

8.921 DEFINITIONS

- A. Billing Statement means any patient-facing communication, whether electronic or in writing, that specifies an amount due for services and instructions for making payment.
- B. Children's Basic Health Plan or the Child Health Plan Plus (CHP+) means the Children's Basic Health Plan as defined in Title 25.5, Article 8, C.R.S.

8.922 SCREENING AND APPLICATION

A. Screening, Application, and Determination Notice

1. Beginning September 1, 2022, using the single uniform application developed and distributed by the Department, a Health Care Facility shall screen each uninsured patient and any insured patients who request to be screened for:
 - a. Public health insurance programs including but not limited to Medicare, Medicaid, Emergency Medicaid, and the Children's Basic Health Plan.
 - b. Discounted Care, as described in section 25.5-3-503, C.R.S.

2. Uninsured Patients
 - a. Health Care Facilities must complete the screening process using the uniform application within 45 days from the uninsured patient's date of service or date of discharge, whichever is later.
 - b. The screening process consists of completing the first page of the uniform application using self-attested information provided by the patient or their guardian.
 - c. If the self-attested screening process results in a determination that the patient may be eligible for Discounted Care, then, at the time of the screening, the Health Care Facility must provide the patient or their guardian with a list of information and documents required to complete the application process. The patient is permitted 45 days to provide the documentation required to complete the application. When all necessary documentation has been received from the patient, the Health Care Facility must determine the patient's eligibility for Discounted Care and send written notice of the determination to the patient or guardian within 21 days.
 - d. If the self-attested screening process results in a determination that a patient likely is ineligible for Discounted Care, the patient must be informed that the screening results are not an official determination and that they have the right to complete the application and receive an official determination of eligibility for Discounted Care if they choose. If the patient requests to complete the application process for Discounted Care, the Health Care Facility must complete

DO NOT PUBLISH THIS PAGE

the application process and provide an official determination of eligibility for Discounted Care.

- e. If the self-attested screening process results in a determination that the patient may be eligible for one or more public health coverage options, the Health Care Facility must inform the patient of those options and provide information on how the patient may apply for them, including any application deadlines the patient should be aware of.

3. Insured Patients

- a. If the insured patient or their guardian requests to be screened for public health insurance programs and Discounted Care, Health Care Facilities must screen insured patients within 45 days of their date of service or date of discharge, or within 45 days of the date of their first bill after their insurance adjustment, whichever is later.
- b. The request to be screened may be made in person, by telephone, email, or by using the portal, if available. Health Care Facilities must contact the insured patient or their guardian to schedule the screening within three business days after receiving the insured patient's request.
- c. Patients believed to have health insurance coverage when services were rendered and who are subsequently determined to be uninsured on their date of service are considered Uninsured. Within 45 days from the date of the notification that the patient was not insured on the date of service, the Health Care Facility must complete the screening.

4. Presumptive Eligibility for State Medical Assistance Program

- a. Hospitals may not complete a presumptive eligibility screening for a patient in lieu of completing a screening as required in this section.
- b. A hospital that is not a Qualified Hospital Presumptive Eligibility Site as defined in 10 CCR 2505-10 Section 8.100.1 may not use presumptive eligibility to deny discounted care to any patient.

5. Health Care Facility Determination Notice

- a. The Health Care Facility must provide the patient written notice of the determination within 21 days of receiving all required documentation to complete the patient's application for Discounted Care. A copy of the determination must be sent to any and all applicable Licensed Health Care Professionals.
- b. The determination shall be written in plain language and in the patient or their guardian's preferred language.
- c. If a Health Care Facility fails to issue written notice of the determination to the patient within 21 days of receiving all required documentation to complete the patient's application, the patient may file an appeal. If the appeal is filed within 60 calendar days of the patient submitting all required documentation, the Health Care Facility must review the appeal and respond to the patient or their guardian and the Department within 15 calendar days of the date of the appeal.
- d. For patients determined to be eligible for Discounted Care, the determination notice must include but is not limited to:

1. The programs and discounts for which the patient was determined likely eligible for, including but not limited to Medicaid, Emergency Medicaid, CHP+, Medicare, and Hospital Discounted Care, and the availability of subsidies through Connect for Health Colorado. This must also include where to find additional information and how to apply for each program the patient was determined potentially eligible for.

- i. If the patient appears likely eligible for a program, and there is a deadline by which the patient must apply for that program for their services to be covered, that date must be included in the determination notice.

2. The dates for which the Discounted Care determination is valid.
3. The household size and income used to determine eligibility and the household calculated FPG.

DO NOT PUBLISH THIS PAGE

4. The patient's monthly installment amounts calculated on their gross household income pursuant to Section 8.923.A.2.
 5. Information on how to file a complaint and how to file an appeal with the Health Care Facility and the Department.
- e. The determination notice for patients determined not eligible for Discounted Care must include but is not limited to:
1. The basis for denial of Discounted Care.
 2. The programs and discounts for which the patient was determined likely eligible for, including but not limited to Medicaid, Emergency Medicaid, CHP+, Medicare, and the availability of subsidies through Connect for Health Colorado. This must also include where to find additional information and how to apply for each program the patient was determined potentially eligible for.
 - i. If the patient appears likely eligible for a program, and there is a deadline by which the patient must apply to that program for their services to be covered, that date must be included in the determination notice.
 3. The service date the Discounted Care denial covers and an explanation that the household may qualify for coverage of future services if there is a change in household size or income.
 4. The household size and income used to determine eligibility and the household calculated FPG.
 5. Information on how to file a complaint and how to file an appeal with the Health Care Facility and the Department.

DO NOT PUBLISH THIS PAGE

6. A Health Care Facility is no longer obligated to screen an uninsured patient for past dates of service if the patient or their guardian signs the decline screening form developed by the Department that notes those specific dates of service or a past date range that includes those specific dates of service except when a patient or guardian who opted out of screening subsequently requests to complete the screening, if the subsequent request is made prior to starting Permissible Extraordinary Collections Actions.
 - a. The Health Care Facility must keep on file a decline screening form signed by the patient, or their guardian until June 30 of the seventh state fiscal year after the patient's date of service or date of discharge, whichever is later.

7. For patients who are discharged without being screened or signing the decline screening form, the Health Care Facility must attempt to contact the patient by at least one method of contact that the patient indicates is their preferred method, which can include phone call, SMS message, email, and portal message at least once a month for six months after the patient's date of discharge with the first contact sent prior to the expiration of 45 days after screening. The Health Care Facility may commence billing 46 days after the patient's date of service or date of discharge, whichever is later. If the patient requests that the Health Care Facility cease contacting them by phone, SMS message, or email, the provider may consider those requirements as fulfilled. The Health Care Facility must document the patient's request and maintain the request as part of the patient record.
8. If a Health Care Facility has attempted to contact the patient in accordance with Patient Contact Best Efforts, and the patient does not respond within 182 days of their date of service or date of discharge, whichever is later, the Facility may conclude that the patient has made an informed decision to decline screening. Patient Contact Best Efforts, at a minimum, must include:
 - a. Notice that the failure to respond may result in the loss of their right to be screened for cost saving options.
 - b. Calling any phone numbers provided by the patient and leaving voice messages with allowable information under the Health Insurance Portability and Accountability Act as defined at 45 C.F.R. sec. 164.502 and the Telephone Consumer Protection Act as defined at 47 U.S.C. sec. 227 if the calls are unanswered,

1. 45 C.F.R. § 164.502 (2024) is hereby incorporated by reference into this rule. Such incorporation, however, excludes later amendments to or editions of the referenced material. This regulation is available for public inspection at the Department of Health Care Policy and Financing, 303 E. 17th Ave, Denver, CO 80203. Pursuant to C.R.S § 24-4-410(12.5)(V) (b), the Department shall provide certified copies of the material incorporated at cost upon request or shall provide the requestor with information on how to obtain a certified copy of the material incorporated by reference from the agency of the United States, this state, another state, or the organization or association originally issuing the code, standard, guideline or rule.
 - c. SMS messages to any of the patient's phone numbers identified by the patient as a mobile number if the Health Care Facility has the ability to send SMS messages,
 - d. Sending emails to any email address provided by the patient, and
 - e. Sending messages through any appropriate patient portal.

 9. If a patient does not indicate their preferred method of contact, the Provider shall contact patients in accordance with their internal patient communication policies. Documentation of the communication attempts for patients must be kept in their patient records and the communication policy must be kept on file until the June 30 of the seventh state fiscal year past the patient's date of service.
 10. Documentation of the attempts to contact the patient or guardian to complete the screening must be maintained as part of the patient record. This may include call logs, message logs, copies of sent emails, portal messages sent, and copies of bills.
 11. Providers shall maintain all Discounted Care-related records, including but not limited to, documentation to support screenings and determinations, service data including dates of service for Qualified Patients and services provided to them on those dates, and expenditures until June 30 of the seventh state fiscal year following the creation of the documentation.
- B. Patients

DO NOT PUBLISH THIS PAGE

1. Any patient or patient's guardian aged 18 and older may apply to receive Discounted Care.
2. The decision regarding eligibility for Discounted Care applies to both the patient and the members of the patient's household.
3. If a patient is deceased, the personal representative of the estate or a family member may complete the screening and application on behalf of the patient.
4. The application to receive Discounted Care shall include the names, birth dates, and relationship to the patient of all members of the patient's household who are included on the application.
 - a. A patient must include their spouse or civil union partner in their household for the application.
 - b. Any additional person living at the same address as the patient may also be included in the household.
 - c. A patient may include household members who live in other states or countries if the patient attests to the fact that they provide at least 50% of the household member's support.
5. A minor shall not be screened separately from his or her parents or guardians unless they are emancipated or there exists a special circumstance. A minor is an individual under the age of 18.

C. Household Income

1. Using the information submitted by a patient or patient's guardian, the Health Care Facility shall determine whether the patient meets all requirements to receive Discounted Care. Health Care Facilities must follow the income counting methodology determined by the Department. Health Care Facilities shall determine Qualified Patient financial eligibility based on income from each household member 18 and older and household size. The Health Care Facility may not consider assets in determining eligibility.
2. Eligibility shall be determined at the time of application, unless required documentation is not available, in which case the patient or patient's guardian will be notified of the missing

DO NOT PUBLISH THIS PAGE

documentation within three business days after receipt of the application. An eligibility determination shall be made within 21 calendar days after the application is complete.

3. Patients may establish household income by providing documents that satisfy documentation guidelines established by the Department. Acceptable forms of documentation may include but is not limited to pay stubs, employer letter, tax returns, and business financial statements. The Health Care Facility may not require more than the minimum amount of documentation to substantiate declared income.

- a. Patients who are experiencing homelessness are exempt from the documentation requirements related to establishing income and may self-attest to their household income.

8.923 HEALTH CARE SERVICE DISCOUNTS

- A. Beginning September 1, 2022, if a patient screened pursuant to Section 8.922 is determined to be a Qualified Patient, a Health Care Facility and a Licensed Health Care Professional shall for Emergency Hospital and other Health Care Services:

1. Limit the amounts billed for Health Care Services to no more than the rate established in Department rule pursuant to Section 8.928.
2. Enter into a payment plan with the Qualified Patient in which the Qualified Patient pays for care in monthly installments. For services provided by a Health Care Facility, monthly installments shall not exceed four percent of the patient's gross monthly household income on a bill from a Health Care Facility that contains only facility charges and shall not exceed six percent of the patient's gross monthly household income on a bill from a Health Care Facility containing both facility and Licensed Health Care Professional charges. For services provided by each Licensed Health Care Professional who bills separately from the Health Care Facility, monthly installments shall not exceed two percent of the patient's gross monthly household income; and
3. After a cumulative thirty-six months of payments, the Health Care Facility shall treat the Qualified Patient's bill as paid in full and must permanently cease collection activities on any balance that remains unpaid.
4. Providers shall not suggest or require that patients obtain loans that include fees, interest, or payment plans that exceed 36 payments to pay for services in lieu of setting up a payment plan directly with the Health Care Facility or Licensed Health Care Professional.

DO NOT PUBLISH THIS PAGE

- a. If a patient defaults on a loan from the Provider, the same rules apply related to any collection actions taken by the Provider as apply for payment plans under this section. If a patient defaults on a loan from the Provider, the same rules apply related to any collection actions taken by the Provider as apply for payment plans under this section.

B. A Health Care Facility shall not:

1. Deny Discounted Care on the basis that the patient has not applied for any public benefits program, unless during the initial screening the patient is determined to be presumptively eligible for the state medical assistance program; or
2. Adopt or maintain any policies that result in the denial of admission or treatment of a patient because the patient may qualify for Discounted Care.

8.924 PATIENT RIGHTS

A. Beginning September 1, 2022, a Health Care Facility shall make available to the public and to each patient information developed by the Department about patient's rights pursuant to Part 5 of Article 3 of Title 25.5 C.R.S. (2021) and the uniform application developed by the Department pursuant to section 25.5-3-505(2)(i), C.R.S.

B. At a minimum, the Health Care Facility shall:

1. Post the information in all languages spoken by ten percent or more of the population in any Colorado county conspicuously on the Health Care Facility's website, including a link to the information on the Health Care Facility's main landing page;
2. Make the information available in patient waiting areas;
3. Make the information available to each patient, or the patient's legal guardian, before the patient is discharged from the Health Care Facility, verbally or in writing in the patient's or legal guardian's preferred language, which may include using professional interpretation and/or translation services; and
4. Inform each patient on the patient's Billing Statement of the patient's rights pursuant to Part 5 of Article 3 of Title 25.5, C.R.S. (2021) including the right to apply for Discounted Care, and provide the website, email address, and telephone number where the information may be obtained in the patient's preferred language.

DO NOT PUBLISH THIS PAGE

- C. Providers shall not present the patient's rights in a format that differs from the format in which the material is distributed by the Department without Department approval.
 - 1. Providers may not make any part of the patient's rights information part of a footnote or use any other format that may minimize its importance.

8.925 REPORTING REQUIREMENTS

- A. Beginning September 1, 2023 for Health Care Facilities and beginning September 1, 2025 for Licensed Health Care Professionals, and each September 1 thereafter, each Health Care Facility and Licensed Health Care Professional shall report to the Department data that the Department determines is necessary to evaluate compliance across race, ethnicity, age, and primary-language-spoken patient groups with the screening, Discounted Care, payment plan, and collections practices required by Title 25.5, Article 3, Part 5, C.R.S. . The Department shall distribute a compliance data reporting template to each Health Care Facility.
 - 1. If a Health Care Facility or Licensed Health Care Professional is not capable of disaggregating the required data by race, ethnicity, age, and primary language spoken, the Health Care Facility or Licensed Health Care Professional shall report to the Department the steps the Health Care Facility or Licensed Health Care Professional is taking to improve race, ethnicity, age, and primary language spoken data collection and the date by which the facility or Licensed Health Care Professional will be able to disaggregate the reported data.
- B. Beginning September 1, 2023 for Health Care Facilities and beginning September 1, 2025 for Licensed Health Care Professionals, and each September 1 thereafter, each Health Care Facility and Licensed Health Care Professional shall submit Discounted Care utilization and charge data in a format and timeline determined by the Department.

8.926 COLLECTIONS

- A. Beginning September 1, 2022, before assigning or selling patient debt to a collection agency or a debt buyer, or before pursuing, either directly or indirectly, any Permissible Extraordinary Collection Action:

DO NOT PUBLISH THIS PAGE

1. A Health Care Facility shall meet the screening requirements in Section 8.922;
 2. A Provider shall provide Discounted Care to a Qualified Patient pursuant to Section 8.920;
 3. A Provider shall provide a plain language explanation of the health care services and fees and notify the patient or their guardian of potential collection actions in their preferred language on the timeline developed by the Department; and
 4. A Provider shall bill any third-party payer that is responsible for providing health care coverage to the patient. If a Licensed Health Care Professional is an out-of-network provider under a Qualified Patient's health insurance plan, the Licensed Health Care Professional and health insurance carrier shall comply with the out-of-network billing requirements described in sections 10-16-704 (3) and 12-30-113, C.R.S.
- B. A Health Care Facility must complete the Patient Contact Best Efforts in their attempts to contact a patient who has not signed a Decline Screening Form or who has not been screened as described in Section 8.922 prior to starting Permissible Extraordinary Collections Actions.
- C. Documentation of Patient Contact Best Efforts communication attempts with the patient as outlined in Section 8.922 satisfies the screening requirements for Health Care Facilities.
- D. For a Qualified Patient with an established payment plan, Permissible Extraordinary Collections Actions may not be started until the patient has failed to remit three consecutive payments and has not communicated with the Provider asking for a deferment or to be redetermined prior to or during those three months of missed payments. Providers must notify Qualified Patients with established payment plans at least 30 days prior to the commencement of Permissible Extraordinary Collections Actions.
- E. Providers shall not commence collection proceedings against a patient for any amount in excess of the rates established at Section 8.923.A.2, and must reduce the amount owed by the amount of any payments received from the patient or a third-party payer.

8.927 APPEALS AND COMPLAINTS

- A. If a patient is determined ineligible for Discounted Care after the uniform application has been completed, the patient may appeal the decision as follows:
1. No later than 30 calendar days from the date on the Health Care Facility's eligibility determination letter, the patient or their guardian may submit an appeal in writing via U.S. Mail, email, or patient portal message if available to the Health Care Facility that made the determination.
 2. Within 15 calendar days from the date of the appeal, the Health Care Facility shall complete a redetermination of eligibility and respond to the patient or guardian and the Department.
 3. If the Health Care Facility upholds its initial eligibility determination, the patient or guardian may proceed to the next step of the appeals process as described in Section 8.927.A.4.

DO NOT PUBLISH THIS PAGE

4. No later than 15 calendar days from the date of the Health Care Facility's initial appeal decision, the patient shall submit a written appeal to the Department. Email submissions must be addressed to hcpf_HospDiscountCare@state.co.us. Letters must be mailed to:

Department of Health Care Policy and Financing
Attention: State Programs Unit, Special Financing Division
c/o Hospital Discounted Care
303 E. 17th Avenue Suite 1100
Denver, CO 80203

5. Within 15 calendar days from date of receipt of the appeal, the Department shall issue a final determination letter to both the patient and the Health Care Facility. If the Department deems that the redetermination was inaccurate, the Health Care Facility must resend a determination letter to the patient and the Department stating the patient is/was eligible for Discounted Care on the date of service.
-
- B. A patient or guardian who believes a Health Care Facility has improperly calculated a payment plan based on inaccurate income information may appeal the payment plan offered by the Facility to the Department using the process described in Section 8.927.A.
 - C. The Department shall maintain records of all appeals and its final determinations for each Health Care Facility. If the Department determines a Health Care Facility has a repeated pattern of errors in patient eligibility determinations, the Department will require the Health Care Facility to attend training with the Department. The Health Care Facility may be subject to random application checks for 12 months following the training to ensure that the errors have been corrected.
 - D. Patients and their guardians may file complaints against Providers directly with the Department. Patients are not required to file a complaint with the Provider prior to filing a complaint with the Department.
-
1. Patients may submit complaints via U.S. Mail, email, or phone as follows:

8.928.1 REVIEW OF PROVIDERS FOR NONCOMPLIANCE

- A. The Department will periodically review Providers to ensure compliance with Part 5 of Article 3 of Title 25.5, C.R.S. (2024) and these rules. If the Department finds that a Provider is not in compliance with these rules, the Department will notify the Provider.
- B. The Provider will have 90 days to file a corrective action plan with the Department that must include measures to inform impacted patients about the noncompliance and provide financial corrections consistent with these rules.
 1. At the Department's discretion, a Provider may be permitted up to 120 days to submit a corrective action plan upon request.
 2. The Department may require a Provider that is not in compliance with Title 25.5, Article 3, Part 5, C.R.S. or these rules to develop and operate under a corrective action plan until the Department determines the Provider is in compliance.

- C. If a Provider's noncompliance with these rules is determined by the Department to be knowing or willful or there is a repeated pattern of noncompliance, the Department may fine the Provider no more than \$5,000. If the Provider fails to take corrective action or fails to file a corrective action plan with the Department pursuant to this section, the Department may fine the Provider no more than \$5,000 per week until the Provider takes corrective action. The Department will consider the size of the Health Care Facility and the seriousness of the violation in setting the fine amount.
- D. The Department will make the information reported pursuant to this section and any corrective action plans for which fines were imposed pursuant to this section available to the public and shall annually report the information as part of its presentation to its committees of reference at a hearing held pursuant to section 2-7-203(2)(a), C.R.S. of the "State Measurement for Accountable, Responsive, and Transparent (SMART) Government Act."
- E. For audit purposes, Providers shall maintain all Discounted Care related records, including but not limited to, documentation to support screenings and determinations, service data including dates of service for Qualified Patients and services provided to them on those dates, and expenditures until June 30 of the seventh state fiscal year following the screening or determination.

8.928.2 RATES

The Department will annually establish rates for Discounted Care. The rates will approximate and not be less than one hundred percent of the Medicare rate or one hundred percent of the Medicaid rate, whichever is greater. The Department will publicly post the established rates on the Department's website pursuant to section 25.5-3-505(2)(j), C.R.S.

8.928.3 ADVISORY COMMITTEE

- A. Committee Makeup. The Department will create a Hospital Discounted Care Advisory Committee, effective July 1, 2025. The Executive Director of the Department will appoint 11 members to the Hospital Discounted Care Advisory Committee. Committee members will include:
 - 1. A member representing the Department;
 - 2. Three members who are health care consumers, of whom no more than two members may be employed by a health care consumer advocacy organization;
 - 3. A member who is a representative of a safety net hospital for which the percent of Medicaid-eligible inpatient days relative to the hospital's total inpatient days is equal to or greater than one standard deviation above the mean;
 - 4. A member who is a representative of a hospital in a rural area;
 - 5. A member who is a representative of a hospital in an urban area;
 - 6. A member who is a representative of a statewide organization of hospitals;
 - 7. A member who is a representative of licensed health care professionals who provide services to patients in a hospital setting;
 - 8. A member who is a representative of an organization of Colorado community health centers or a representative of a Colorado community health center, as defined in 42 U.S.C. § 254b;
 - 9. A member who is a representative of an organization of safety net health providers or a safety net health provider that is not a community health center.

Members shall serve without compensation or reimbursement of expenses. The Executive Director of the Department will designate a member to serve as chair of the committee and the appointment will be valid until the seat is vacated, the chair steps down, or a new chair is selected by the Executive Director. The council shall convene at least twice every state fiscal year according to a schedule set by the chair. Members of the council shall serve three-year terms. Of the members initially appointed to the advisory committee, the Executive Director will appoint six members for two-year terms and five members for three-year terms. In the event of a vacancy on the advisory committee, the Executive Director will appoint a successor to fill the unexpired portion of the term for the member.

B. Committee Duties. The advisory committee shall:

1. Advise the Department on the operations and policies for Hospital Discounted Care, and
2. Make recommendations to the Medical Services Board regarding rules for Hospital Discounted Care.

STATEMENT OF BASIS AND PURPOSE

1. Summary of the basis and purpose for the rule or rule change. (State what the rule says or does and explain why the rule or rule change is necessary).

The proposed rule change will amend 10 CCR 2505-10, Section 8.100.3.Q.2. The amendment aims to update the requirements for the continuous eligibility (CE) for children and youth under the age of 19 in Medicaid. These revised requirements will allow Colorado to maintain compliance with Section 5112 of the Consolidated Appropriations Act, 2023 (CAA, 2023), which amended titles XIX and XXI of the Social Security Act (the Act). These updates will remove the disenrollment process for both the Working Adults with Disabilities (WAWD) and Children with Disabilities (CBWD) buy-in programs due to failure to pay monthly premiums while members are in a CE period. Even though the member retains their CE period for non-payment, they will still receive bills for both current and overdue premiums during this CE period. The Colorado Benefits Management System (CBMS) will be updated to reflect these proposed changes.

Title of Rule: Revision to the Medical Assistance Act Rule Concerning Updates to the Continuous Eligibility Medical Assistance Programs for Children under the age of 19 for Sections 8.100.3.Q.2.d

Rule Number: MSB 25-05-30-A

Division / Contact / Phone: Eligibility Policy / Melissa Escamilla / 303-866-5052

REGULATORY ANALYSIS

1. Describe the classes of persons who will be affected by the proposed rule, including classes that will bear the costs of the proposed rule and classes that will benefit from the proposed rule.

The rule update will benefit children and youth under the age of 19 who are found eligible and enrolled in the Medicaid Buy-in programs. By updating these rules and requirements, we can ensure continuous eligibility coverage for children and youth who fail to pay their premiums timely. These proposed rule changes are expected to have no negative impacts on any class of persons.

2. To the extent practicable, describe the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

The proposed rule to provide continuous Medical Assistance to eligible members, regardless of changes in their circumstances, such as non-payment of buy-in premiums, aims to ensure that children and youth remain enrolled in medical assistance. This will allow them to continue receiving essential healthcare, ultimately resulting in healthier Medicaid-eligible members.

3. Discuss the probable costs to the Department and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

The Department does not anticipate significant cost impact associated with the implementation or enforcement of this rule nor any effect on state revenues. Any potential cost impact would arise from individuals ages 16-18 failing to pay their premiums during their period of continuous eligibility. The Department is unable to accurately predict member behavior in terms of premium payment or failure to pay. Furthermore, the revenue garnered from the members in this specific age range is minimal

DO NOT PUBLISH THIS PAGE

given the monthly premium payment range (\$25-\$200), therefore if some number of members failed to pay premiums during their period of continuous enrollment, the budget impact would be very small. If member behavior changes radically, the Department will account for it through the regular budget process.

4. Compare the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

The cost of the proposed rule is effectively zero. The benefit of the proposed rule is administrative ease and continuous eligibility for members. The cost of inaction is falling out of compliance with CE requirements from CMS. There is no benefit to inaction.

5. Determine whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

There are no less costly or less intrusive methods for achieving the purpose of the proposed rule

6. Describe any alternative methods for achieving the purpose for the proposed rule that were seriously considered by the Department and the reasons why they were rejected in favor of the proposed rule.

There were no alternative methods considered for the proposed rule.

8.100 MEDICAL ASSISTANCE ELIGIBILITY

8.100.3. Medical Assistance General Eligibility Requirements

8.100.3.Q. Continuous Eligibility (CE) for Medical Assistance programs

1. Continuous eligibility applies to children under age 19, who through an eligibility determination, reassessment or redetermination, are found eligible for a Medical Assistance program. The continuous eligibility period may last for up to 12 months.
 - a. The continuous eligibility period applies without regard to changes in income or other factors that would otherwise cause the child to be ineligible.
 - b. Exception: A child's continuous eligibility period will end effective the earliest possible month if any of the following occur:
 - i) Child is deceased;
 - ii) Becomes an inmate of a public institution;
 1. Incarcerated children receiving a full medical assistance program will move to a limited Incarceration benefit. If the child is released within the initial 12 months of the CE period, full coverage will be reinstated for the remaining 12-month CE period, unless any of the other exceptions apply;
 - iii) The child is no longer part of the Medical Assistance required household;
 - iv) Is no longer a Colorado resident;
 - v) Is unable to be located; based on evidence or reasonable assumption;
 - vi) Requests to be withdrawn from continuous eligibility;
 - vii) Fails to provide documentation during a reasonable opportunity period as specified in section 8.100.3.G.3 and 8.100.3.H.9; or
 - viii) Eligibility was erroneously granted at the most recent determination, redetermination, or renewal of eligibility because of agency error, or a finding of fraud or perjury attributed to the child or the child's responsible party.
2. The continuous eligibility period will begin on the first day of the month the application is received, or from the date all criteria are met. For a child transitioning from CHP+ to the MAGI Medical Assistance program specified in section 8.100.4.G.2, a new 12-month continuous eligibility period will begin on the first day of the month of the transition. Continuous eligibility applies to children enrolled in the following Medical Assistance programs:
 - a. MAGI-Medical Assistance, program as specified in section 8.100.4.G.2;
 - b. SSI Mandatory, as specified in section 8.100.6.C

- i.) When a child is no longer eligible for SSI Mandatory they will be categorized as eligible within the MAGI-Child category for the remainder of the eligibility period;
 - c. Long- Term Care services
 - i.) When a child is no longer eligible for Long-Term Care services they will be categorized as eligible within the MAGI- Child category for the remainder of the eligibility period;
 - d. Medicaid Buy-In program specified in sections 8.100.6.P (for children under the age of 19) and 8.100.6.Q
 - i) Enrollment will not be discontinued if there is a failure to pay premiums, although the member will continue to receive their monthly statements of any balances due;
 - e. Pickle (Title II COLA/Pickle Amendment of 1977);
 - f. Disabled Adult Child (DAC); and
 - g. Limited Family Planning Medical Assistance.
- 3. Children, under the age of 19, no longer enrolled in Foster Care Medicaid will be eligible for the MAGI-Medical Assistance program. The continuous eligibility period will begin the month the child is no longer enrolled in Foster Care Medicaid as long as they meet one of the following conditions:
 - a. Begin living with other Relatives;
 - b. Are reunited with Parents; or
 - c. Have received guardianship.

STATEMENT OF BASIS AND PURPOSE

1. Summary of the basis and purpose for the rule or rule change. (State what the rule says or does and explain why the rule or rule change is necessary).

The proposed rule change will amend 10 CCR 2505-10 Section 8.100.1 & 8.100.4.F and create a new Section 8.100.3.R to update requirements to identify and allow qualified hospitals presumptive eligibility sites to complete an initial screening of patients to determine presumptive eligibility and to expand presumptive eligibility coverage. These requirements are to expand coverage according to 42 C.F.R. §435.1110, 42 C.F.R. §435.1103, and 1902(a)(47)(B) of the Social Security Act (the Act).

A new section will be created to outline Presumptive Eligibility by Qualified Hospitals. The updates to amend the requirements for presumptive eligibility will define qualified hospital presumptive eligibility sites as those eligible to make presumptive eligibility determinations. Qualified Hospitals are hospitals who have voluntarily elected to serve as Presumptive Eligibility sites. Qualified Hospitals Presumptive Eligibility sites agree to make determinations in accordance with State policies and assist individuals with completing Medical Assistance applications and understanding documentation requirements. Updates will be made to existing presumptive eligibility rule to include qualified hospital presumptive eligibility sites as sites also eligible to make presumptive eligibility determinations for pregnant women, children under 19, and limited family

planning. Qualified hospital presumptive eligibility sites will also be able to make determinations based on expanded categories for presumptive eligibility to include parents and caretaker relatives, adults aged 19 to 65, and working adults with disabilities aged 16 and older. This rule change is necessary to offer a streamlined, expedited path to coverage for individuals.

In addition, a correction will be made to include references to citizenship exceptions for pregnant women and children under 19. Correction to the presumptive eligibility site recertification period will be made from every 2 years to every year.

Updates to add language regarding Medical Assistance applicants' choice to appeal to a county department's failure to act on an application or denial. Additional language will be added to provide clarification regarding presumptive eligibility to include applicants cannot already be in receipt of another medical assistance program and the length of presumptive eligibility which is once every 12 months except for pregnant applicants who may receive presumptive eligibility for pregnant women once every pregnancy. Lastly, the Department will update the Colorado Benefits Management System (CBMS) to reflect and align these changes with these proposed rule updates.

REGULATORY ANALYSIS

1. Describe the classes of persons who will be affected by the proposed rule, including classes that will bear the costs of the proposed rule and classes that will benefit from the proposed rule.

Qualified hospital presumptive eligibility sites will solely make presumptive eligibility determinations for newly expanded presumptive eligibility populations to include eligible adults 19-65, parents and caretakers of a dependent child(ren), and working adults with disabilities age 16 and over. In addition, qualified hospital presumptive eligibility sites will make presumptive eligibility determinations for current presumptive eligibility populations to include pregnant women, children under 19, and applicants of all ages for limited family planning. These proposed rule changes have no projected negative impacts on any class of persons.

2. To the extent practicable, describe the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

DO NOT PUBLISH THIS PAGE

The proposed rule change aims to grant presumptive eligibility to qualifying applicants, creating a streamlined and expedited process for obtaining coverage. As a result, applicants will receive more immediate health care coverage after undergoing inpatient or outpatient services at a qualified hospital. Reducing the financial burden of health care for low-income individuals.

3. Discuss the probable costs to the Department and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

The probable costs to the Department include administrative full time employees (FTE) and systems change costs, as well as service costs to account for changes in presumptive eligibility requirements. This rule change requires 5.0 FTE to account for additional workload, one time system update costs in fiscal year (FY) 2025-2026 for both CBMS and Medicaid Management Information System, as well as additional service costs beginning in FY2026-2027 that will account for an estimated 37% of newly eligible members who will be determined presumptively eligible. Therefore the probable costs to the Department include \$376,588 total funds in FY2024-2025, \$1,568,498 total funds in FY2025-2026 and \$9,475,090 total funds in FY2026-2027.

The ability for this population to access PE at a new site (hospitals) is unlikely to increase caseload or utilization in any measurable way, because this population has had access to PE since 2012. Any changes in enrollment driven by PE availability in the CHP+ population have likely already been realized and are factored into the CHP+ caseload forecast as anticipated fluctuations.

DO NOT PUBLISH THIS PAGE

4. Compare the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

The probable costs of inaction include being out of alignment with legislative mandate, as SB24-116 requires presumptive eligibility determinations to be expanded to additional Medicaid populations. In addition, inaction would make us out of compliance with the long-standing state plan amendment (SPA) regarding presumptive eligibility by hospitals.

The ability for this population to access PE at a new site (hospitals) is unlikely to increase caseload or utilization in any measurable way, because this population has had access to PE since 2012. Any changes in enrollment driven by PE availability have likely already been realized and are factored into the CHP+ caseload forecast as anticipated fluctuations.

5. Determine whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

There are no less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

7.000.2 DEFINITIONS [Rev. eff. 1/1/16]

A: The following are definitions of commonly used terms used in these rules:

“Abuse” or “child abuse and/or neglect” is defined in Section 19-1-103(1) and 19-3-102(1), C.R.S.

“Actual knowledge” means direct and clear awareness of something, such as a fact or condition.

“Affected by alcohol or substance exposure.” A child is born affected by alcohol or substance exposure when it impacts the child’s physical, developmental, and/or behavioral response.

“Authorized caregiver” means an individual or agency who is authorized by a parent, guardian or custodian to provide care to a child and who agrees to provide such care. The authorization may be temporary and need not be in writing unless otherwise required by law.

“Background check” means a set of required records that are obtained and analyzed to determine whether the history of a prospective foster parent, kinship foster parent, or non-certified kin meets legal and safety criteria when considering the placement or continued placement of children and youth in the care of the person(s). The checks include all adults residing in the home. The following individual checks are required pursuant to Sections 19-3-406, and 26-6-910, C.R.S.:

1. CBI and FBI fingerprint-based criminal history record information checks;
2. State Judicial Department court case management system checks;
3. State automated case management system and child abuse and/or neglect registry checks in all states that adults living in the home have resided in the five years preceding the date of application; and,
4. The CBI sex offender registry checks and national sex offender public website, publicly operated by the United States Department of Justice using the following minimum criteria:
 - a. Known names and addresses of each adult residing in the home; and,
 - b. Address only of the residence.

“Caregiver” means a child’s parent, stepparent, guardian, legal custodian, relative, or any other person who resides in the child’s home or who is regularly in the child’s home for the purpose of exercising care over the child. It also includes the spousal equivalent or domestic partner of a parent or legal guardian. A “caregiver” shall not include a person who is regularly in the child’s home for the purpose of rendering care for the child if such person is paid for rendering care and is not related to the child.

“Certificate” means a legal document granting permission to operate a foster care home or a kinship foster care home.

“Child” means any person from birth to eighteen (18) years of age.

“Concurrent planning” means the simultaneous preparation of plans to:

- 1) Assist the child's parents or caregivers in completing a treatment plan that, when completed successfully will allow the child to return home safely; and,
- 2) Place the child in a setting that will become the child's permanent home if the parents or caregivers are unable to successfully complete their treatment plan.

“Continuously available” means the assignment of a person to be near an operable telephone, pager system, cellular telephone, or to have such arrangements made through agreements with the local law enforcement agencies.

“Convicted”, for the purposes of the criminal history record information check, means a plea of guilty accepted by the court, including a plea of guilty entered pursuant to a deferred sentence under section 18-1.3-102, C.R.S., a verdict of guilty by a judge or jury, or a plea of no contest accepted by the court, or having received a disposition as a juvenile or having been adjudicated a juvenile delinquent based on the commission of any act that constitutes sexual assault, as defined in subsection (96.5) of section 19-1-103, C.R.S.

1. For non-certified kinship care and kinship foster care, a conviction does not include juvenile delinquency history, which includes deferred judgment or adjudication agreements, adjudications, diversion, deferral, or plea agreements.

“Counsel for youth” means an attorney-at-law who provides specialized client directed legal representation for a child or youth and who owes the same duties, including undivided loyalty, confidentiality, and competent representation, to the child or youth as is due an adults client. Counsel for youth may be appointed by a court to represent a child or youth in a proceeding pursuant to articles 1, 3, or 7 of title 19, C.R.S. or may be assigned by the office of the child’s representative pursuant to article 7 of title 19, C.R.S. Counsel for youth does not mean defense counsel for a juvenile pursuant to article 2.5 of title 19, C.R.S.

“Foster care” means the placement of a child into the legal custody or legal authority of a county department for physical placement of the child in foster family care homes, certified and noncertified kinship family care homes, or licensed facility.

“Foster care home” means a home that is certified by a county department or a child placement agency pursuant to Section 26-6-910, or a federally recognized tribe pursuant to applicable federal law, for child care in a place of residence of a family or person for the purpose of providing twenty-four-hour family foster care for a child/youth less than twenty-one years of age who is unrelated to the head of the home.

1. The term includes any foster care home receiving a child/youth for regular twenty four (24) hour care and any home receiving a child/youth from any state-operated institution for child care or from any child placement agency. Foster care home also includes those homes licensed by the Colorado Department of Human Services pursuant to Section 26-6-104, C.R.S., that receive neither moneys from the counties, nor children/youth placed by the counties.

“Founded” means that the abuse and/or neglect assessment established by a preponderance of the evidence that an incident(s) of abuse and/or neglect occurred.

“Founded” can also be utilized in a referral when there is a law enforcement fatality investigation with no surviving child sibling, or a law enforcement investigation of a third party incident of abuse and/or neglect. “Founded” and “confirmed,” as used in sections 19-3-308 - 308.5, C.R.S., are interchangeable in these rules.

“Inconclusive” means that the abuse and/or neglect assessment established that there was some likelihood that an incident(s) of abuse and/or neglect occurred but assessment could not obtain the evidence necessary to make a founded finding.

“Independent Living Assessment” means an evaluation of the youth’s daily living skills. This assessment will document the youth’s strengths and needs, as well as capacity and motivation to learn the appropriate skills.

“Initial criminal history record check” means a Colorado Crime Information Center or National Crime Information Center check.

“Inquiry” means a request for information or for specific services.

“Kin” for purposes of a kinship foster care home or non-certified kinship care home, means a relative of the child and/or youth, a person ascribed by the family as having a family-like relationship with the child and/or youth, or a person that has a prior significant relationship with the child and/or youth. These relationships take into account cultural values and continuity of significant relationships with the child and/or youth.

“Kinship foster care home” means a kinship foster care home that has been certified pursuant to Section 26-6-910 to care for a relative or kin only. A kinship foster care home provides twenty-four-hour kinship foster care for a child or youth who is a relative or kin, who is less than twenty-one years of age, and who is eligible for the same foster care reimbursement, assistance, and other supports as foster care homes pursuant to Section 26-6-904.5. “kinship foster care home” does not include non-certified kinship care as that term is defined in Subsection (21.5) of this section.

A “known” incident of abuse and/or neglect exists when a child has been observed being subjected to circumstances or conditions that would reasonably result in abuse and/or neglect.

“Living in the home” for purposes of kinship care including non-certified kinship reimbursement means regularly lives, shares common areas, and sleeps in the non-certified kinship home. An individual who is living, sharing common areas, and sleeping in the non-certified kinship home temporarily for more than two consecutive weeks is considered a household member.

“Local educational agency” means the local public school district, charter institute, Colorado school for the deaf and the blind, and/or board of cooperative education services (BOCES). Individual schools are part of their respective LEAs; for purposes of these regulations, communication with school-level staff is sufficient to satisfy requirements to communicate with the LEA.

“Near fatality” means a case in which a physician determines that a child is in serious, critical, or life-threatening condition as the result of sickness or injury caused by suspected abuse and/or neglect.

“Non-certified kinship care” means a child/youth who is less than twenty-one years of age is being cared for by a relative or kin, who has a significant relationship with the child/youth, in circumstances when there is a safety concern by a county department in the home of the parent or legal guardian and the relative or kin has not met the foster care certification requirements for a kinship foster care home or has chosen not to pursue certification.

“Parent who is incarcerated” means a parent confined in a department of corrections facility, a private correctional facility under contract with The Department of Corrections, or a jail.

“Pattern of misdemeanors” for the purposes of the criminal history record information check shall be defined as:

- A) Three (3) or more convictions of 3rd degree assault as described in section 18-3- 204, C.R.S., and/or any misdemeanor, the underlying factual basis of which has been found by any court on the record to include an act of domestic violence as defined in Section 18-6-800.3(1), C.R.S. ; OR,
- B) Five (5) misdemeanor convictions of any type, with at least two (2) convictions of 3rd degree assault as described in Section 18- 3-204, C.R.S., and/or any misdemeanor, the underlying factual basis of which has been found by any court on the record to include an act of domestic violence as defined in Section 18-6- 800.3(1), C.R.S.; or,
- C) Seven (7) misdemeanor convictions of any type.
- D) For non-certified kinship care and kinship foster care, a pattern of misdemeanor convictions means two or more convictions of domestic violence within the preceding five years pursuant to Section 19-3-406 (5)(i), C.R.S. and shall not include A-C of this definition.

Title of Rule: Revision to the Medical Assistance Act Rule concerning Definitive Drug Testing, Section 8.660

Rule Number: MSB 25-08-26-A

Division / Contact / Phone: Health Policy Office / Jessica Farmen / jessica.farmen@state.co.us

STATEMENT OF BASIS AND PURPOSE

- 1. Summary of the basis and purpose for the rule or rule change. (State what the rule says or does and explain why the rule or rule change is necessary).

This proposed rule revision affects Section 8.660 Laboratory and X-Ray. Specifically, this revision will add a limit of 16 units of services per state fiscal year for definitive drug testing for adult Health First Colorado members. Definitive drug tests use highly specific, quantitative laboratory methods, including but not limited to liquid chromatography-tandem mass spectrometry (LC-MS/MS) and gas chromatography-mass spectrometry (GC-MS), to identify and measure the concentration of individual drugs and drug metabolites in a patient specimen. Definitive testing is distinguished from presumptive drug testing in that definitive testing confirms the presence or absence of a substance, provides specific analyte identification, and reports exact concentrations, whereas presumptive testing only confirms the presence or absence of a substance.

This proposed limit is a result of uncontrolled, inappropriate utilization of this specific service.

- 2. An emergency rule-making is imperatively necessary

to comply with state or federal law or federal regulation and/or for the preservation of public health, safety and welfare.

Explain:

The Department has seen a significant and continued expenditure increase for definitive drug tests over the past several years. These tests are being used more often than medically necessary, sometimes with large panels being ordered routinely for members. This drives up Medicaid costs and risks waste or abuse. Health First Colorado and the Department are being harmed financially by this inappropriate billing for definitive drug testing services. By limiting these tests to no more than 16 units per state fiscal year for adult members, the Department aims to ensure drug testing is appropriate, evidence-based, and cost-effective. This will protect program integrity and sustainability. Given the current budget crisis and to preserve the integrity of Health First Colorado, it is critical that funds only be used for medically necessary services. Therefore, to preserve public

REGULATORY ANALYSIS

1. Describe the classes of persons who will be affected by the proposed rule, including classes that will bear the costs of the proposed rule and classes that will benefit from the proposed rule.

Adult Health First Colorado members will be affected by this proposed rule revision. They will be limited to 16 definitive drug tests per state fiscal year, whereas before there was no limit. Members will benefit when receiving the most appropriate, medically necessary lab tests.

2. To the extent practicable, describe the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

Qualitatively, this rule revision will result in members receiving the most appropriate, medically necessary drug testing and related labs. Definitive drug tests are highly specific labs that produce detailed reports including the exact drugs and their quantities that are present in a sample. These tests are only appropriate for purposes of medical treatment—not for purposes of confirming the presence of a drug.

Quantitatively, adult members will be limited to 16 definitive drug tests per state fiscal year. The Department has seen a significant and continued expenditure increase for these tests over the past several years. These tests are important in some cases, but they are being used more often than medically necessary, sometimes with large panels ordered routinely. This drives up Medicaid costs and risks waste or abuse. By limiting these tests to no more than 16 per state fiscal year for adult members, the Department aims to ensure drug testing is appropriate, evidence-based, and cost-effective. This will protect program integrity and sustainability.

3. Discuss the probable costs to the Department and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

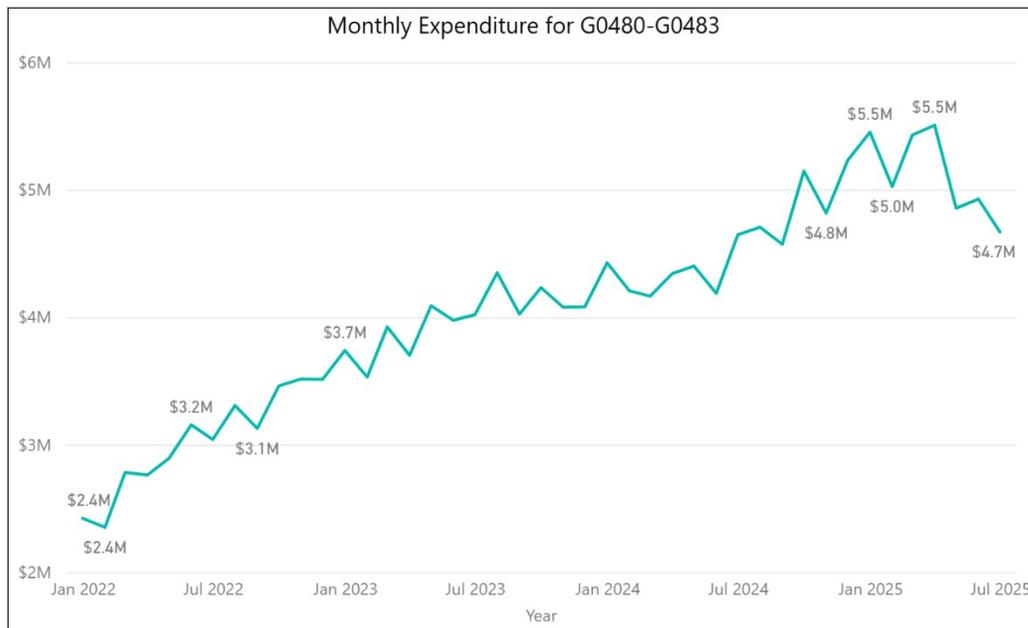

There are no costs to the Department or any other agency to implement or enforce this proposed rule revision. There are savings associated with

DO NOT PUBLISH THIS PAGE

this policy change. The estimated savings are \$12.9m Total Funds in FY 2025-26.

- 4. Compare the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

Based on the expenditure trend for G0480-G0483, continuing without intervention will result in costs remaining above \$5M per month, or approximately \$62M annually, nearly double 2022 levels. By implementing a utilization limit on definitive drug testing, expenditures could be stabilized closer to \$3.5-\$4.0M per month, generating estimated annual savings of \$14M-\$20M, with the potential for even greater reductions if spending is brought back toward 2022 levels.

- 5. Determine whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

There are no less costly methods or less intrusive methods for achieving the purpose of this proposed rule revision.

- 6. Describe any alternative methods for achieving the purpose for the proposed rule that were seriously considered by the Department and the reasons why they were rejected in favor of the proposed rule.

The Department considered setting a soft limit of 16 definitive drug test per adult member per state fiscal year. After which, if an adult member needed more tests, a prior authorization request (PAR) would be required.

DO NOT PUBLISH THIS PAGE

However, after working with our utilization management vendor, the Department learned that we are unable to implement a PAR for this service due to current budget constraints.

The Department reviewed other states' limits on definitive drug testing and found wide variation, ranging from limits of six tests per year in New York to 24 per year in North Carolina. Minnesota, Washington, and Oregon also have restrictions in place. Based on this research, the Department proposed a unit limit of 16 tests per fiscal year as a balanced approach that controls costs, ensures medical necessity, and maintains appropriate access.

8.660 LABORATORY AND X-RAY

8.660.1 DEFINITIONS

- 8.660.1.A. Anatomical Laboratory Services mean examinations of tissues derived from the human body for the purpose of providing information for the diagnosis, prevention or treatment of any disease or the assessment of a medical condition.
- 8.660.1.B. Certified Clinical Laboratory means a provider who possesses a certificate of waiver or a certificate of registration from the Centers for Medicare and Medicaid Services or its designated agency as meeting Centers for Medicare and Medicaid Services guidelines and whose personnel and director are qualified to perform laboratory services.
- 8.660.1.C. Clinical Laboratory Services mean microbiological, serological, chemical, hematological, radioassay, cytological, immunohematological, pathological or other examinations of fluids derived from the human body for the purpose of providing information for the diagnosis, prevention or treatment of any disease or the assessment of a medical condition.
- 8.660.1.D. Definitive Drug Testing means the use of highly specific, quantitative laboratory methods, including but not limited to liquid chromatography–tandem mass spectrometry (LC-MS/MS) and gas chromatography–mass spectrometry (GC-MS), to identify and measure the concentration of individual drugs and drug metabolites in a patient specimen. Definitive Drug Testing confirms the presence or absence of a substance, provides specific analyte identification, and reports exact concentrations of the substances.
- 8.660.1.E. Independent Certified Laboratory means a certified laboratory that performs diagnostic tests and is independent both of the attending or consulting physician's office and of a hospital except where a hospital laboratory has obtained Medicare certification as an independent laboratory and is billing for recipients who are not admitted as patients in the hospital.
- 8.660.1.F. X-Ray Services mean services performed by a provider whose x-ray equipment has been certified by the Colorado Department of Public Health and Environment as meeting Medicare guidelines and whose personnel and director are qualified to operate said equipment.

8.660.2 CONDITIONS OF PARTICIPATION

- 8.660.2. A Certified Clinical Laboratories and providers of X-Ray Services shall enroll as providers in the Medical Assistance Program.
- 8.660.2.B. All participating laboratories, including out-of-state independent clinical laboratories, must be certified by the state agency to participate under Health First Colorado. All laboratories must provide proof of certification status through the provision of the CLIA (Clinical Laboratory Improvement Amendments of 1988) number to the Department.
- 8.660.2.C. Providers of X-Ray Services shall be certified by the Colorado Department of Public Health and Environment and must provide proof of Medicare certification on the Health First Colorado provider enrollment forms.

8.660.3 LIMITATIONS AND BENEFITS

- 8.660.3.A. Laboratory and X-Ray Services are a benefit under all of the following conditions:
1. The services have been authorized by a licensed physician.

2. The services are performed to diagnose conditions and illnesses with specific symptoms.
 3. The services are performed to prevent or treat conditions that are benefits under the Medical Assistance Program.
 4. The services are not routine diagnostic tests performed without apparent relationship to treatment or diagnosis for a specific illness, symptom, complaint or injury.
 5. The laboratory services are performed by a certified laboratory in accordance with the Clinical Laboratory Improvement Amendments of 1988 (CLIA).
 6. The X-Ray Services are performed by a provider certified by the Colorado Department of Public Health and Environment and enrolled as a Health First Colorado provider.
- 8.660.3.B. Collection, handling and/or conveyance of specimens for transfer from physicians' offices to a Certified Clinical Laboratory is reimbursable to the physician.
- 8.660.3.C. Transfer of a specimen from one Certified Clinical Laboratory to another is a benefit and is reimbursable to the first certified laboratory if the laboratory's equipment is not functioning or the laboratory is not certified to perform the tests ordered by the physician.
- 8.660.3.D. Adult members aged 21 and over are limited to 16 units of service per state fiscal year for Definitive Drug Testing.

8.660.4 BILLING PROCEDURES

- 8.660.4.A. Certified providers of clinical laboratory and X-Ray Services must bill the Department directly using the designated billing method, the correct Current Procedural Terminology and Healthcare Common Procedure Coding System procedure codes and modifiers as required. Providers must bill the amount of their usual and customary charges to the general public.
- 8.660.4.B. Laboratory tests and x-rays performed under the personal supervision of the authorizing physician must be billed directly on the physician's services claim form.
- 8.660.4.C. Laboratory tests and x-rays not performed by the authorizing physician or under his/her direct personal supervision cannot be billed by the physician except for physicians in a Certified Clinical Laboratory group practice. A Certified Clinical Laboratory group practice may only bill for those laboratory and X-Ray Services actually performed or supervised by a physician member of the group or performed by a qualified employee of the group. Payment must be made to the authorizing physician or the group practice.
- 8.660.4.D. Laboratory and X-Ray Services performed by a hospital-based or independent laboratory or x-ray provider and submitted to an unrelated physician for interpretation may only be billed by the laboratory or x-ray provider for the technical component.
- 8.660.4.E. Practitioner and clinic providers rendering professional interpretation and not direct laboratory or X-Ray Services may only bill the professional component.

8.660.5 REIMBURSEMENT

- 8.660.5.A. Reimbursement for certified laboratory and X-Ray Services must be the lowest of the following:
1. Submitted charges.

2. Fee schedule as determined by the Department.
- 8.660.5.B. Services rendered by a hospital-based laboratory during an inpatient stay are included in the hospital Diagnosis Related Group or inpatient rate and must not be billed or reimbursed separately.
 - 8.660.5.C. Each certified laboratory provider must be reimbursed for only those tests performed in the specialties or sub-specialties for which it is certified.
 - 8.660.5.D. Reimbursement for out-of-state certified independent clinical laboratory or X-Ray Services must be subject to Department reimbursement rates.
 - 8.660.5.E. The reimbursement methodology at 8.660.5.A - 8.660.5.D does not apply to payments for those services/procedures that are reimbursed under a capitated or contracted agreement accomplished through competitive bid or other arrangement.

STATEMENT OF BASIS AND PURPOSE

1. Summary of the basis and purpose for the rule or rule change. (State what the rule says or does and explain why the rule or rule change is necessary).

Create the Provider Stabilization Fund Program as mandated by SB 25-290. The Provider Stabilization Fund program was established to make payments to safety net providers throughout the state that are providing care to low-income uninsured individuals.

2. An emergency rule-making is imperatively necessary

- to comply with state or federal law or federal regulation and/or
- for the preservation of public health, safety and welfare.

Explain:

Funds to make these payments with were transferred to the Department on August 1, 2025 and the Department has been tasked with making payments to providers as soon as possible. The bill dictates that the Department will consult with the advisory board on the implementation of the Provider Stabilization Fund and board approval on the rules was not reached with the board meeting that occurred on September 24, 2025. This is the earliest medical services board meeting the rules could be brought to after the board approved the rules.

REGULATORY ANALYSIS

1. Describe the classes of persons who will be affected by the proposed rule, including classes that will bear the costs of the proposed rule and classes that will benefit from the proposed rule.

This rule will impact low-income individuals that are at or below 200% of the federal poverty level as well as comprehensive community behavioral health providers, rural health clinics, federally qualified health centers, and primary care providers. Low-income individuals will benefit from this rule as it will financially strengthen the providers that they are receiving care from. Eligible providers as listed earlier will benefit by receiving supplemental payments based on their care provided to low-income uninsured individuals.

2. To the extent practicable, describe the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

This rule is intended to help providers that are providing care to low-income uninsured individuals by awarding payments based on their proportion of low-income uninsured patients compared to low-income uninsured individuals served by all eligible providers. These payments will help ensure that low-income, uninsured individuals have providers to receive care from.

3. Discuss the probable costs to the Department and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

The Department was appropriated funds to hire two full time employees (FTE) to complete various aspects of the new law, the appropriation for general administration and operating expenses was \$154,405 for state fiscal year 2025-26. Other than those new FTE the department does not foresee any fiscal impact and is streamlining to keep the costs as effective as possible.

4. Compare the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

DO NOT PUBLISH THIS PAGE

The Department must implement these rules in accordance with the passing of SB 25-290. The rules created here will ensure that providers have clear guidelines on what they must do to be eligible to receive a payment.

5. Determine whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

The Department does not see any less costly methods to complete the work associated with the proposed rule. The 2 new full-time employees will be completing work associated with the new rules and the department is streamlining to keep the work as cost effective as possible.

6. Describe any alternative methods for achieving the purpose for the proposed rule that were seriously considered by the Department and the reasons why they were rejected in favor of the proposed rule.

There are no alternatives to creating these new rules.

8.970 PROVIDER STABILIZATION FUND

8.970.1 GENERAL DESCRIPTION

8.970.1.A In accordance with Colorado Senate Bill (SB) 25-290 Stabilization Payments for Safety Net Providers, the Provider Stabilization Fund was created to make stabilization payments to eligible safety net providers. The bill directed the state treasury to establish a Provider Stabilization Fund to collect the monies to be used for payments and set forth how the funds will be allocated and designated the Department of Health Care Policy & Financing (the Department) as the administrator of the payments.

8.970.1.B The Provider Stabilization Fund provides an allocation of monies to safety net providers that serve individuals who are considered low-income and uninsured. Monies shall be allocated based on the number of eligible patients in an amount proportional to the total number of eligible patients served by all safety net providers who qualify for monies from this fund.

8.970.2 DEFINITIONS

8.970.2.A Advisory Board means The Provider stabilization fund advisory board created pursuant to C.R.S. § 25.5-3-605,

8.970.2.B. Children's Basic Health Plan also known as Child Health Plan Plus (CHP+) means the program as specified in Article 8 of Title 25.5, C.R.S.

8.970.2.C. Comprehensive Behavioral Health Provider has the same meaning as defined at C.R.S. § 27-50-101(11).

8.970.2.D. Eligible Patient means a low-income, uninsured individual who is a patient receiving medical services from a Qualified Provider:

1. Whose annual household income is at or below two hundred percent (200%) of the Federal Poverty Guideline (FPG);
2. Who is not enrolled in the Medical Assistance Program, the Children's Basic Health Plan, Medicare or any other governmental health care coverage such as through Social Security, the Veterans Administration, Military Dependency (TRICARE or CHAMPUS), or the United States Public Health Service; and
3. For whom there is no Third Party Payer paying or reimbursing the safety net provider for all or a portion of the amount charged for the services provided to the individual.

8.970.2.E. Eligible Safety Net Provider - A Safety Net Provider who is identified by the Department to receive funding from the Provider Stabilization Fund.

8.970.2.G. Monies means funds appropriated, transferred, or credited to the Provider Stabilization Fund created in the State Treasury consisting of:

1. Money credited to the fund as a loan from the unclaimed property trust fund pursuant to C.R.S. § 38-13-801(6) ;
2. Money appropriated, transferred, or credited to the fund by the general assembly;
3. Gifts, grants, or donations the Department may receive from public or private sources for the fund.

8.970.2.H. Outside Entity means a business or professional that is not classified as an employee of the provider or the Department and does not have a direct or indirect financial interest with the provider, but has auditing experience or experience working directly with the Medical Assistance Program or similar services or grants for Eligible Patients.

8.970.2.I. Primary Care means health services that cover a range of prevention, wellness, and treatment for common illnesses. Primary care providers include doctors, nurses, nurse practitioners, and physician assistants. They often maintain long-term relationships with patients and treat a range of health-related issues. These providers may also coordinate a patient's care with specialists and may include other services based on a patient's needs including dental, comprehensive behavioral health, and vision.

1. 8.970.2.J. Safety Net Provider means a provider as defined at C.R.S. § 25.5-3-602(8). A comprehensive Community Behavioral Health provider as defined at C.R.S. § 27-50-101(11);
2. A Rural Health Clinic as defined at 42 U.S.C § 1395x(aa)(2);
3. A Federally Qualified Health Center as defined at 42 U.S.C. § 1395x(aa)(4); or
4. A health-care provider that is delivering primary care services and at least 50% of whose client caseload is individuals who are enrolled in Medicaid, Medicare, or the Children's Basic Health Plan or who are Low-Income, Uninsured Individuals.

8.970.2.K. Sliding Fee Schedule means a tiered co-payment system that determines the level of a patient's financial participation and guarantees that the patient financial participation is below usual and customary charges. Factors considered in establishing the tiered co-payment system are limited to financial status and the number of members in the patient's family unit.

8.970.2.L. Third Party Payments or Third Party Payer means any individual, entity or program with a legal obligation to pay for some or all health-related services rendered to a patient. Examples include the Medical Assistance Program; the Children's Basic Health Plan; Medicare; commercial, individual or employment-related health insurance; court-ordered health insurance (such as that required by non-custodial parents); workers' compensation; automobile insurance; and long-term care insurance.

8.970.2.M. Unduplicated User/Patient Count means the sum of patients who have had at least one Visit/Encounter with an eligible safety net provider during the applicable calendar year, but does not include the same patient more than once. The sum shall be calculated on a specific point-in-time occurring between the end of the applicable calendar year and prior to the submission of the application. Each patient shall be counted once under only one payment source designation (Third Party Payer or Eligible Patient). The patient's payment source designation shall be the payment source designation listed for the patient at the specific point-in-time in which the calculation is made. The sum shall not include:

1. Counting a patient more than once if the same patient returns for additional services (e.g., medical or dental) and/or products (e.g., pharmaceuticals) during the applicable calendar year;
2. Counting a patient more than once if the payment source designation changed during the applicable calendar year;
3. Persons who have only received services through an outreach event, community education program, nurse hotline, or other types of community-based events or programs and services were not recorded on an individual basis;

4. Persons who have only received services from large-scale efforts such as mass immunization programs, screening programs, and health fairs; or
5. Persons whose only contact with the provider is to receive Special Supplemental Nutrition Program for Women, Infants, and Children (WIC Program) counseling and vouchers are not users and the contact does not generate an encounter.

8.970.2.N. Visit/Encounter means an appointment with medical personnel (physicians, physician assistants, nurse practitioners, dentists, behavioral health workers, etc.) in which the patient received health related services and/or products (e.g., pharmaceuticals or radiology) and the appointment included primary care that is customarily billable by a safety net provider..

8.970.3 PROVIDER ELIGIBILITY

8.970.3.A. Safety Net Providers who provide Primary Care to Eligible Patients and who meet all the requirements established for the Provider Stabilization Fund as of the date the application form is submitted to the Department shall receive monies appropriated to the Provider Stabilization Fund. Specifically, the provider shall:

1. Meet one of the conditions of a Safety Net Provider as specified in Section 8.970.2.K.; and
2. Submit a completed application form according to stated guidelines as specified under Section 8.970.4.

8.970.4 APPLICATION

8.970.4.A. The application form shall be available to providers annually and posted for public access on the Department's website at least 30 calendar days prior to the application due date.

8.970.4.B. At a minimum, the application form shall require responses that:

1. Demonstrate how the provider meets the criteria of a Safety Net Provider as defined in Section 8.970.2.K.;
2. Provide an Unduplicated User/Patient Count covering the applicable calendar year which, at a minimum, includes the number of patients enrolled in the Medical Assistance Program and the Children's Basic Health Plan and the number of patients considered to be Eligible Patients; and
3. Provide certification that the Unduplicated User/Patient Count identified in Section 8.970.4.B.2 has been verified by an Outside Entity.

8.970.4.C. Providers must complete and provide an application annually. The application must be made in compliance with all specifications in the application form, including format, data and documentation. Applications must be submitted directly to the Department by the required deadline.

8.970.4.D. All providers who submit an application will be notified within 45 days of the application deadline if the provider has met or did not meet the requirements to be a Eligible Qualified Provider.

8.970.4.E. Safety Net Providers who are eligible for the Primary Care Fund are able to use their Primary Care Fund application for the Provider Stabilization Fund. Such providers must submit the Provider Stabilization Fund Attestation Form to the Department. The attestation form shall:

1. Be available to providers annually and posted for public access on the Department's website at least 30 calendar days prior to the application due date;
2. Provide attestation that the Safety Net Provider wishes to use the data from their Primary Care Fund application for the Provider Stabilization Fund application;
3. Provide Safety Net Provider contact information and be signed by a representative of the Safety Net Provider.

8.970.5 DISBURSEMENT

8.970.5.A. Eligible Safety Net Providers are determined on a state fiscal year basis and shall receive only those monies received by the Provider Stabilization Fund during that same state fiscal year. Monies disbursed shall include all monies defined in 8.970.2.G.

8.970.5.B. Payments shall be based on the number of Eligible Patients in each Eligible Safety Net Provider's Unduplicated User/Patient Count in an amount proportionate to the total number of Eligible Patients from all Eligible Safety Net Providers' Unduplicated User/Patient Counts.

8.970.5.C. The schedule for the disbursement of monies to all Eligible Safety Net Providers shall be dependent on the source and when the funds are available to the Department, with a schedule as follows:

1. Money received by the Department as a loan from the unclaimed property trust or money appropriated, credited, or transferred by the general assembly shall be distributed to eligible providers no later than March 31 in State Fiscal Year 2025-26 and by September 30 in following State Fiscal Years.
2. Money received as a gift, grant, or donation shall be distributed in the first month of the quarter following the quarter the money was received. (Example: Money gifted, granted, or donated between July 1 and September 30 would be distributed by October 3. Money received as a gift, grant, or donation during State Fiscal Year 2025-26 Quarters One and Two (July 1, 2025 - December 31, 2025) would be distributed no later than March 31, 2026.

8.970.6 ADVISORY BOARD

8.970.6.A. Advisory Board function and duties

1. Collaborate with the Department to seek, accept and expend gifts, grants or donations from private or public sources.
2. Collaborate with the Department to annually allocate money appropriated by the general assembly to the Provider Stabilization Fund.
3. Assist the Department with the annual Provider Stabilization Fund report as defined in C.R.S. § 25.5-3-606.
4. Act as consultation to the Department on obtaining federal matching money to the funds in the Provider Stabilization fund.
5. Support the Department with the implementation of the Safety Net Stabilization fund program.

8.970.6.B. Advisory Board appointment details. The advisory board was created by 25.5-3-605 to support the Department with the implementation of the Provider Stabilization Fund. Board members shall be appointed by the Governor with initial appointments being made no later than August 1, 2025. The Advisory Board shall elect a Chair and Vice-Chair from the provider and consumer members.

8.970.6.C. Advisory Board Membership Tenure, Compensation and Frequency of meetings shall be the following:

1. Advisory Board members shall serve a three-year term.
2. Advisory Board members shall serve without compensation or expense reimbursement.
3. Advisory board meetings shall be held quarterly or as determined necessary by the Chair.

8.970.6.D. Sunset Provisions. The Provider Stabilization Fund Advisory Board will be repealed, effective September 1, 2031, subject to review under the Colorado "Sunset" law.

OCTOBER 2025 EMERGENCY JUSTIFICATION FOR MEDICAL ASSISTANCE RULES ADOPTED AT THE OCTOBER 10, 2025 EMERGENCY MEDICAL SERVICES BOARD MEETING

MSB 25-08-26-A, Revision to the Medical Assistance Act Rule concerning Definitive Drug Testing, Section 8.660. For the preservation of public health, safety and welfare

Emergency rule-making is imperatively necessary. The Department has seen a significant and continued expenditure increase for definitive drug tests over the past several years. These tests are being used more often than medically necessary, sometimes with large panels being ordered routinely for members. This drives up Medicaid costs and risks waste or abuse. Health First Colorado and the Department are being harmed financially by this inappropriate billing for definitive drug testing services. By limiting these tests to no more than 16 units per state fiscal year for adult members, the Department aims to ensure drug testing is appropriate, evidence-based, and cost-effective. This will protect program integrity and sustainability. Given the current budget crisis and to preserve the integrity of Health First Colorado, it is critical that funds only be used for medically necessary services. Therefore, to preserve public health, safety and welfare for Health First Colorado members by protecting the Department's budget, it is imperatively necessary to bring this proposed rule revision as an emergency to stop the inappropriate spending within the laboratory benefit. Emergency rulemaking is imperatively necessary for the preservation of public health safety, and welfare.

MSB 25-07-24-A, Creation Medical Assistance Act Rule concerning the Provider Stabilization Fund Program, Section 8.900. For the preservation of public health, safety and welfare

Emergency rule-making is imperatively necessary. Funds to make these payments with were transferred to the Department on August 1, 2025 and the Department has been tasked with making payments to providers as soon as possible. The bill dictates that the Department will consult with the advisory board on the implementation of the Provider Stabilization Fund and board approval on the rules was not reached with the board meeting that occurred on September 24, 2025. This is the earliest medical services board meeting the rules could be brought to after the board approved the rules. Emergency rulemaking is imperatively necessary for the preservation of public health safety, and welfare.

4.407.1 Standard Deduction

A standard deduction of 8.31% of the federal poverty income guidelines for the household size as described in Section 4.401.2 will be used to calculate the amount that is allowed to all households. The established standard amount will be adjusted annually as announced by FNS, USDA. The calculation of 8.31% of the federal poverty income guidelines for eligible members will be used for all households up to the household size of six (6). All households with six (6) or more eligible members will use the six (6) person standard deduction.

Household Size	Standard Deduction Amount			
	1-3	4	5	6+
Effective October 1, 2025	\$209	\$223	\$261	\$299

4.407.3 Excess Shelter Deduction

B. A shelter deduction cap, as specified below, applies to households that do not contain a person who is aged sixty (60) and older or a person with a disability as defined in Section 4.000.1. Those households containing a person who is aged sixty (60) and older and/or a person with a disability shall receive an excess shelter deduction for the monthly cost of shelter that exceeds fifty percent (50%) of the household's monthly income after all other applicable deductions.

Shelter Deduction Cap

Effective October 1, 2025 \$744

C. Households in which all individuals are experiencing homelessness and are not receiving free shelter throughout the calendar month shall be entitled to use a standard estimate of shelter expenses.

The FNS, USDA, provides an update of this estimated figure annually when the shelter cap for other households is adjusted. The Homeless Shelter Deduction is as follows:

Homeless Shelter Deduction

Effective October 1, 2025 \$198.99

4.407.31 Four-Tiered Mandatory Standard Utility Allowance

Effective October 1, 2008, a four-tiered mandatory standard utility allowance deduction was implemented in determining a household's excess shelter deduction. Households cannot claim actual utility expenses and are only entitled to one (1) of the four (4) utility allowances. The four (4) utility allowances shall be reviewed annually and adjusted each year, based on federal approval, to reflect Colorado's cost of utilities. No utility expenses can be allowed as an income exclusion for self-employed households when a mandatory utility allowance is given to the household.

When determining expedited eligibility, the appropriate utility allowance shall be applied when establishing the household's shelter costs.

The four (4) allowances are as follows:

A. Heating and Cooling Utility Allowance (HCUA)

1. "Cooling costs" are defined as utility costs relating to the operation of air conditioning systems, room air conditioners, swamp coolers, or evaporative coolers. Fans are not an allowable cooling cost. A heating and cooling utility allowance (HCUA) is available only to households that:
 - a. Incur or anticipate heating or cooling costs separate and apart from their rent or mortgage;
 - b. Received a Low-Income Energy Assistance Program (LEAP) or an Energy Electronic Benefit Transfer (E-EBT) payment within the previous twelve (12) month period, regardless of whether the individual is still residing at the address for which they received the LEAP or E-EBT payment;
 - c. Live in private rental housing and are billed by their landlords on the basis of individual usage or charged a flat rate separately from their rent for heating and cooling;
 - d. Share a residence and incur at least a portion of the heating or cooling cost, in which case each household will be entitled to the full HCUA; or,
 - e. Live in public housing and are responsible for excess heating and/or cooling costs.
2. A SNAP household, which incurs or anticipates heating or cooling costs on an irregular basis, may continue to receive the HCUA between billing periods.
3. The operation of a space heater, electric blanket, heat lamp, cooking stove, and similar appliances, as a supplemental heating source, are allowable costs when

determining eligibility for the basic utility allowance (BUA), but do not qualify a household for the HCUA.

4. The HCUA standard is as follows:

HCUA Standard

Effective October 1, 2025 \$594

B. Basic Utility Allowance (BUA)

1. The Basic Utility Allowance (BUA) is mandated for any households that are not entitled to the HCUA and that incur at least two (2) non-heating or non-cooling utility costs, such as electricity, water, sewer, trash, cooking fuel, or telephone.
2. If more than one SNAP household shares in paying non-heating or non-cooling utility costs of the dwelling, the full BUA will be allowed for each SNAP household sharing in the utility costs.
3. The BUA standard is as follows:

BUA Standard

Effective October 1, 2025 \$377

C. One Utility Allowance (OUA)

1. The OUA is mandated for any household that is not entitled to the HCUA or BUA but is responsible for only one (1) non-heating or one (1) non-cooling utility expense. The OUA is not allowed if the household's only utility expense is a telephone.
2. If more than one (1) SNAP household shares in paying one (1) non-heating or one (1) non-cooling utility cost of the dwelling, the full OUA will be allowed for each SNAP household sharing in the utility cost.
3. The OUA standard is as follows:

OUA Standard

Effective October 1, 2025 \$71

D. Telephone allowance

1. The telephone allowance is available to households whose only utility cost is for a telephone. If more than one SNAP household shares in paying the telephone costs, and that is the only utility cost of the dwelling, the full phone standard will be allowed for each SNAP household sharing in the telephone costs.
2. The telephone allowance is as follows:

Telephone Standard

Effective October 1, 2025 \$97

STATEMENT OF BASIS AND PURPOSE

Summary of the basis and purpose for new rule or rule change.

*Explain why the rule or rule change is necessary and what the program hopes to accomplish through this rule. **1500 Char max***

The Supplemental Nutrition Assistance Program (SNAP) is a federal food assistance program actively administered in Colorado. SNAP provides food assistance benefits to help low-income households purchase food. The United States Department of Agriculture, Food and Nutrition Service (FNS) annually evaluates federal income poverty guidelines and cost-of-living increases to determine appropriate adjustments to income eligibility standards, benefit allotments, and deductions for the upcoming federal fiscal year (FFY). The modified figures are typically made available to states during August immediately prior to the next fiscal year. The cost-of-living adjustments (COLA) in this regulation package are required to become effective 10/2025.

An emergency rule-making (which waives the initial Administrative Procedure Act noticing requirements) is necessary:

- | | |
|-------------------------------------|---|
| <input checked="" type="checkbox"/> | to comply with state/federal law and/or |
| <input checked="" type="checkbox"/> | to preserve public health, safety and welfare |

Justification for emergency:

Each year, FNS disseminates the new standards to states for use in the upcoming FFY. The COLA adjustments are mandated to be implemented at the beginning of FFY26 (October 1, 2025) by the Food and Nutrition Act of 2008. Noncompliance with federal SNAP regulations also conflicts with public interest.

REGULATORY ANALYSIS

1. List of groups impacted by this rule.

Which groups of persons will benefit, bear the burdens or be adversely impacted by this rule?

The annual COLA to the core financial figures of the program benefit all SNAP applicants and participants by keeping the program in line with inflation and general increases in the cost-of-living. There are no adverse impacts with the adoption of these changes in rules. The state is responsible for updating regulations, training documents, and the Colorado Benefits Management System (CBMS) associated with this change and thus bears the burden.

2. Describe the qualitative and quantitative impact.

How will this rule-making impact those groups listed above? How many people will be impacted? What are the short-term and long-term consequences of this rule?

Annual adjustments to the four-tiered mandatory standard utility allowances, standard deduction, homeless shelter deduction, maximum allotments, and income threshold guidelines have the potential to increase current benefit amounts for participants and increase program accessibility for future applicants.

3. Fiscal Impact

*For each of the categories listed below explain the distribution of dollars; please identify the costs, revenues, matches or any changes in the distribution of funds even if such change has a total zero effect for any entity that falls within the category. If this rule-making requires one of the categories listed below to devote resources without receiving additional funding, please explain why the rule-making is required and what consultation has occurred with those who will need to devote resources. **Answer should NEVER be just "no impact" answer should include "no impact because...."***

State Fiscal Impact (Identify all state agencies with a fiscal impact, including any Colorado Benefits Management System (CBMS) change request costs required to implement this rule change)

There is no impact because the costs associated with the Colorado Benefits Management System to incorporate these changes have already been allocated in the system maintenance budget.

County Fiscal Impact

This rule change may increase county government expenditures for administering SNAP to clients. This is due to increased benefit amounts that are paid to households.

Federal Fiscal Impact

There are no federal fiscal impacts with this rule change as no federal agency is impacted by the regulation changes proposed with this packet.

Other Fiscal Impact (such as providers, local governments, etc.)

There are no other fiscal impacts associated with this rule change.

4. Data Description

List and explain any data, such as studies, federal announcements, or questionnaires, which were relied upon when developing this rule?

Federal memorandums from FNS, as well as data from the Consumer Price Index for all Urban Consumers, were used in the development of this rule.

5. Alternatives to this Rule-making

Describe any alternatives that were seriously considered. Are there any less costly or less intrusive ways to accomplish the purpose(s) of this rule? Explain why the program chose this rule-making rather than taking no action or using another alternative. Answer should NEVER be just “no alternative” answer should include “no alternative because...”

As these annual Cost of Living Adjustments are mandated by SNAP’s federal oversight agency to be incorporated into regulation before or alongside implementation, there are no available alternatives that exist to incorporate these changes statewide.

4.407.1 Standard Deduction

A standard deduction of 8.31% of the federal poverty income guidelines for the household size as described in Section 4.401.2 will be used to calculate the amount that is allowed to all households. The established standard amount will be adjusted annually as announced by FNS, USDA. The calculation of 8.31% of the federal poverty income guidelines for eligible members will be used for all households up to the household size of six (6). All households with six (6) or more eligible members will use the six (6) person standard deduction.

Standard Deduction Amount				
Household Size	1-3	4	5	6+
Effective October 1, 2024 2025	\$204 209	\$217 223	\$254 261	\$291 299

4.407.3 Excess Shelter Deduction

- B. A shelter deduction cap, as specified below, applies to households that do not contain a person who is aged sixty (60) and older or a person with a disability as defined in Section 4.000.1. Those households containing a person who is aged sixty (60) and older and/or a person with a disability shall receive an excess shelter deduction for the monthly cost of shelter that exceeds fifty percent (50%) of the household's monthly income after all other applicable deductions.

Shelter Deduction Cap	
Effective October 1, 2024 2025	\$712 744

- C. Households in which all individuals are experiencing homelessness and are not receiving free shelter throughout the calendar month shall be entitled to use a standard estimate of shelter expenses.

The FNS, USDA, provides an update of this estimated figure annually when the shelter cap for other households is adjusted. The Homeless Shelter Deduction is as follows:

Homeless Shelter Deduction		
Effective October 1, 2024	2025	\$198.99

4.407.31 Four-Tiered Mandatory Standard Utility Allowance

Effective October 1, 2008, a four-tiered mandatory standard utility allowance deduction was implemented in determining a household's excess shelter deduction. Households cannot claim actual utility expenses and are only entitled to one (1) of the four (4) utility allowances. The four (4) utility allowances shall be reviewed annually and adjusted each year, based on federal approval, to reflect Colorado's cost of utilities. No utility expenses can be allowed as an income exclusion for self-employed households when a mandatory utility allowance is given to the household.

When determining expedited eligibility, the appropriate utility allowance shall be applied when establishing the household's shelter costs.

The four (4) allowances are as follows:

A. Heating and Cooling Utility Allowance (HCUA)

1. "Cooling costs" are defined as utility costs relating to the operation of air conditioning systems, room air conditioners, swamp coolers, or evaporative coolers. Fans are not an allowable cooling cost. A heating and cooling utility allowance (HCUA) is available only to households ~~THAT~~ ~~which~~:
 - a. Incur or anticipate heating or cooling costs separate and apart from their rent or mortgage;
 - b. Received a Low-Income Energy Assistance Program (LEAP) or an Energy Electronic Benefit Transfer (E-EBT) payment within the previous twelve (12) month period, regardless of whether the individual is still residing at the address for which they received the LEAP or E-EBT payment;
 - c. Live in private rental housing and are billed by their landlords on the basis of individual usage or charged a flat rate separately from their rent for heating and cooling;
 - d. Share a residence and incur at least a portion of the heating or cooling cost, in which case each household will be entitled to the full HCUA; or,
 - e. Live in public housing and are responsible for excess heating and/or cooling costs.
2. A SNAP household, which incurs or anticipates heating or cooling costs on an irregular basis, may continue to receive the HCUA between billing periods.
3. ~~THE O~~peration of a space heater, electric blanket, heat lamp, cooking stove, and ~~SIMILAR APPLIANCES, the like when used~~ as a supplemental heating source, are allowable costs when determining eligibility for the basic utility allowance (BUA), but do not qualify a household for the HCUA.

4. The HCUA standard is as follows:

HCUA Standard	
Effective October 1, 2024-2025	\$578 594

B. Basic Utility Allowance (BUA)

1. The Basic Utility Allowance (BUA) is mandated for any households that are not entitled to the HCUA and that incur at least two (2) non-heating or non-cooling utility costs, such as electricity, water, sewer, trash, cooking fuel, or telephone.
2. If more than one SNAP household shares in paying non-heating or non-cooling utility costs of the dwelling, the full BUA will be allowed for each **SNAP HOUSEHOLD** ~~assistance group~~ sharing in the utility costs.
3. The BUA standard is as follows:

BUA Standard	
Effective October 1, 2024-2025	\$367 377

C. One Utility Allowance (OUA)

1. The OUA is mandated for any household that is not entitled to the HCUA or BUA but is responsible for only one (1) non-heating or one (1) non-cooling utility expense. The OUA is not allowed if the household's only utility expense is a telephone.
2. If more than one (1) SNAP household shares in paying one (1) non-heating or one (1) non-cooling utility cost of the dwelling, the full OUA will be allowed for each **SNAP HOUSEHOLD** ~~assistance group~~ sharing in the utility cost.
3. The OUA standard is as follows:

OUA Standard	
Effective October 1, 2024-2025	\$69 71

D. Telephone allowance

1. The telephone allowance is available to households whose only utility cost is for a telephone. If more than one SNAP household shares in paying the telephone costs and that is the only utility costs of the dwelling, the full phone standard will be allowed for each **SNAP HOUSEHOLD** ~~assistance group~~ sharing in the telephone costs.
2. The telephone allowance is as follows:

Telephone Standard	
Effective October 1, 2024-2025	\$94 97

PUBLIC NOTICE

November 10, 2025

The Department of Health Care Policy and Financing (the Department) intends to make the following Medicaid reimbursement rate changes:

Pharmacy Reimbursement

The proposed changes revise the reimbursement methodology for pharmaceutical services under Colorado's Medicaid program. The change incorporates the Maximum Allowable Cost (MAC) into the "lesser of" reimbursement calculation, which will now be the lesser of the Average Acquisition Cost (AAC), National Average Drug Acquisition Cost (NADAC), MAC, or Submitted Ingredient Cost (SIC). Previously, the MAC rate applied only when AAC or NADAC were unavailable. Including MAC in the "lesser of" methodology ensures more consistent and cost-effective reimbursement. The MAC is designed to function as a NADAC equivalency rate where applicable. In addition, based on the Department's most recent Cost of Dispensing Survey, the dispensing fees for the two lowest tiers (pharmacies with the highest annual prescription volumes) will be reduced from \$10.25 to \$9.93 and from \$9.31 to \$8.72.

The annual aggregate decrease in Pharmacy expenditures (including state funds and federal funds) is \$0 in FFY 2024-25 and (\$6,561,314) in FFY 2025-26.

Home and Community-Based Services (HCBS) Waiver Amendments

The Department of Health Care Policy and Financing (HCPF) intends to submit amendments for the following Home and Community-Based Services (HCBS) waivers:

- Brain Injury (BI)
- Children’s Extensive Supports (CES)
- Children’s Home and Community Based Services (CHCBS)
- Children’s Habilitation Residential Program (CHRP)
- Complementary and Integrative Health (CIH)
- Community Mental Health Supports (CMHS)
- Elderly, Blind, and Disabled (EBD)
- Supported Living Services (SLS)

HCPF intends to submit amendments to the Centers for Medicare and Medicaid Services (CMS) on December 12, 2025. HCPF will request an effective date of April 1, 2026, for the amendments.

HCPF will post the drafts of the waiver amendment applications for public notice from November 7, 2025, through December 6, 2025. HCPF will ask for an effective date of April 1, 2026, for the amendments.

The proposed waiver amendments give HCPF the ability to include the following changes:

- Community Connector Rate Reduction (CES, CHRP)
- Implement New Service Unit Limitations for Community Connector (CES, CHRP)
- Community Connector Guidelines (CES, CHRP)
- Annual Service Unit Limitation Cap (BI, CIH, CMHS, EBD, SLS, CES, CHCBS)

Department of Personnel & Administration

Overview

The Colorado Department of Personnel & Administration submits the following 2026 Regulatory Agenda (DRA) in fulfillment of the statutory requirements set forth in Colo. Rev. Stat. §2-7-203(4). Pursuant to state law, executive-branch agencies must file a Departmental Regulatory Agenda (DRA) containing:

- A list of new rules or amendments that the department or its divisions expect to propose in the next calendar year;
- The statutory or other basis for adoption of the proposed rules;
- The purpose of the proposed rules;
- The contemplated schedule for adoption of the rules;
- An identification and listing of persons or parties that may be affected positively or negatively by the rules; and
- A list and brief summary of all permanent and temporary rules adopted since the previous DRA was filed.

The Regulatory Agenda also includes, pursuant to Colo. Rev. Stat. §24-4-103.3, this statement that all of the department's rules will be reviewed as part of the Department's "Regulatory Efficiencies Reviews" during 2026. The DRA is to be filed with Legislative Council staff for distribution to committee(s) of reference, posted on the department's web site, and submitted to the Secretary of State for publication in the Colorado Register. Each department must also present its DRA as part of its "SMART Act" hearing and presentation pursuant to Colo. Rev. Stat. §2-7-203(2)(a)(II).

The following constitutes the Department of Personnel & Administration's Regulatory Agenda for 2026 and is provided in accordance with Colo. Rev. Stat. §2-7-203(4):

Department of Health Care
Policy & Financing

Overview

The Colorado Department of Health Care Policy and Financing submits the following 2026 Regulatory Agenda in fulfillment of the statutory requirements set forth in Colo. Rev. Stat. §2-7-203(4). Pursuant to state law, annually on November 1 executive-branch agencies must file a Departmental Regulatory Agenda (DRA) containing:

- A list of new rules or amendments that the department or its divisions expect to propose in the next calendar year;
- The statutory or other basis for adoption of the proposed rules;
- The purpose of the proposed rules;
- The contemplated schedule for adoption of the rules;
- An identification and listing of persons or parties that may be affected positively or negatively by the rules; and
- A list and brief summary of all permanent and temporary rules adopted since the previous Department Regulatory Agenda was filed.

The Regulatory Agenda also includes, pursuant to Colo. Rev. Stat. §24-4-103.3, rules to be reviewed as part of the Department’s “Regulatory Efficiencies Reviews” during 2025 (which are denoted as such in the “purpose” column). The DRA is to be filed with Legislative Council staff for distribution to committee(s) of reference, posted on the department’s web site, and submitted to the Secretary of State for publication in the Colorado Register. Each department must also present its DRA as part of its “SMART Act” hearing and presentation pursuant to Colo. Rev. Stat. §2-7-203(2)(a)(III)(A).

Passage of the new federal law, H.R. 1, will require state rule adjustments as federal guidance is issued over the coming months and years. Those changes will be included in future regulatory agendas. The following constitutes Department of Health Care Policy and Financing’s DRA for 2025-2026 and is provided in accordance with Colo. Rev. Stat. §24-7-203(2)(a)(IV):

2025 Regulatory Agenda Report

Date: November 1, 2025

Submitted to: Members of the Colorado General Assembly and Department of State

Overview

Pursuant to Colo. Rev. Stat. §2-7-203(4), the Department of Health Care Policy and Financing submits the following 2025 Regulatory Agenda Report. Pursuant to statutory requirements concerning the Department’s Regulatory Agenda, this Regulatory Agenda Report details the results of the past year’s rules review activity, including the results of mandatory rule reviews conducted under Colo. Rev. Stat. §24-4-103.3(4) as part of the Department’s “Regulatory Efficiencies Reviews.”

This report includes the following items:

1. “Rulemaking included in 2025 Regulatory Agenda,” providing an update of rules included in the Department’s 2025 Regulatory Agenda (filed on November 1, 2024).
2. “Results of Mandatory Rules Review,” providing a summary of the activities and outcomes associated with the Department’s mandatory rule reviews conducted under Colo. Rev. Stat. §24-4-103.3(4).
3. “Unplanned Rulemaking”, summarizing rule activity that was not neither part of mandatory regulatory efficiency review nor part of the Regulatory Agenda.

These rules include previously established provider types that are outlined in other sections of Department rules that have been adopted by the Medical Services Board (MSB). The proposed rule revisions in § 8.125 add the previously established provider types to the appropriate moderate or high categorical risk sections of the rule as established by the Centers for Medicare and Medicaid Services (CMS). Section 8.126 of the proposed rule revisions add definitions for the previously established provider types. Some services are being stricken from the rules due to programs ending or being renamed, or due to billing restructuring.</p>	Medicaid members and providers	Adopted December 2024

MSB 24-09-05-A	Medicaid Operations Office	Revision	42 C.F.R. § 435.926 & C.R.S. 25.5-5-204.5	<p>The proposed rule change will amend requirements to expand the 12 months of continuous eligibility (CE) for children under the age of 19 in Medicaid and Child Health Plan Plus (CHP+). These requirements are to expand coverage according to Section 5112 of the Consolidated Appropriations Act, 2023 (CAA, 2023), which amended titles XIX and XXI of the Social Security Act (the Act). The updates to amend the requirements for continuous eligibility for children under the age of 19 will allow continuous coverage for children enrolled in the limited Family Planning Medical Assistance programs, as well as ensure that children who become incarcerated and who are later released will still be eligible for the remainder of their CE period if they have any of their 12 months of coverage left. These changes will also eliminate the 14-day no-fault period that applied at the initial application and eliminate the termination of children under 19 years of age for not meeting the reasonable compatibility income check after the child’s initial eligibility determination has been made. In addition, a child who moves to a higher benefit category during the CE period when changes are reported will start a new 12-month CE period (such as moving from CHP+ to Medicaid if the income decreases within Medicaid income levels). Changes will also allow a child’s eligibility to be terminated during a CE period for the allowable exception of when the Department determines that eligibility was erroneously granted at the most recent determination,</p>	Medicaid members and providers	Adopted January 2025

MSB 24-07-11-C	Office of Community Living	Revision	42 U.S.C. 1396n	This rule amends existing CLLI eligibility criteria to reflect the new eligibility criteria for the CwCHN waiver, places the new CwCHN waiver requirements and regulations in rule, and changes the name of the CLLI waiver throughout rule to reflect the new name.	Medicaid members and providers	Adopted May 2025
MSB 24-07-11-A	Office of Community Living	Revision	1915 (k) & Sections 25.5-6-1901 through 25.5-6-1905, C.R.S.	This rule expands and streamlines existing legal authority, member rights, case management agency responsibilities, and provider agency requirements that exist within other Long-Term Services and Supports programs (LTSS), such as HCBS waivers, to include CFC. Changing eligibility from HCBS waivers to CFC, and makes necessary changes to services and provider requirements due to CFC. Finally, this rule creates a new section that outlines general provisions and eligibility for the CFC program.	Medicaid members and providers	Adopted May 2025

2026 Regulatory Agenda and 2025 Regulatory Report

This document contains information for the following:

- 2026 Regulatory Agenda: January 1, 2025-December 31, 2026
- 2025 Regulatory Report: January 1, 2024-December 31, 2025

Overview

The Colorado Department of Agriculture submits the following 2026 Regulatory Agenda in fulfillment of the statutory requirements set forth in Colo. Rev. Stat.

§2-7-203(4). Pursuant to state law, annually on November 1 executive-branch agencies must file a Departmental Regulatory Agenda (DRA) containing:

- A list of new rules or amendments that the department or its divisions expect to propose in the next calendar year;
- The statutory or other basis for adoption of the proposed rules;
- The purpose of the proposed rules;
- The contemplated schedule for adoption of the rules;

- An identification and listing of persons or parties that may be affected positively or negatively by the rules; and
- A list and brief summary of all permanent and temporary rules adopted since the previous DRA was filed.

The Regulatory Agenda also includes, pursuant to Colo. Rev. Stat. §24-4-103.3, rules to be reviewed as part of the Department's "Regulatory Efficiencies Reviews" during 2025 (which are denoted as such in the "purpose" column). The DRA is to be filed with Legislative Council staff for distribution to committee(s) of reference, posted on the department's website, and submitted to the Secretary of State for publication in the Colorado Register. Each department must also present its DRA as part of its "SMART Act" hearing and presentation pursuant to Colo. Rev. Stat. §2-7-203(2)(a)(II).

The following constitutes the Department of Agriculture's Regulatory Agenda for 2026 and is provided in accordance with Colo. Rev. Stat. §2-7-203(2)(a)(IV).

The Colorado Department of Agriculture also submits the following 2025 Regulatory Agenda Report in fulfillment of the statutory requirements set forth in Colo. Rev. Stat. §2-7-203(4), detailing the results of the past year's rules review activity.

Regulatory Agenda Report

COLORADO
Department of Corrections

Overview

The Colorado Department of Corrections submits the following 2025-26 Regulatory Agenda in fulfillment of the statutory requirements set forth in Colorado Revised Statute 2-7-203(4). Pursuant to state law, annually on November 1, executive branch agencies must file a Departmental Regulatory Agenda containing:

- A list of new rules or amendments that the department or its divisions expect to propose in the next calendar year;
- The statutory or other basis for adoption of the proposed rules;
- The purpose of the proposed rules;
- The contemplated schedule for adoption of the rules;
- An identification and listing of persons or parties that may be affected positively or negatively by the rules; and
- A list and brief summary of all permanent and temporary rules adopted since the previous Departmental Regulatory Agenda was filed.

The Departmental Regulatory Agenda also includes, pursuant to Colorado Revised Statute 24-4-103.3, rules to be reviewed as part of the Department “Regulatory Efficiency Reviews” during 2024-25 (which are denoted in the “purpose” column). The Departmental Regulatory Agenda is to be filed with the Legislative Council staff for distribution to Committee(s) of reference, posted on the department’s website, and submitted to the Secretary of State for publication in the Colorado Register. Each department must also present its Departmental Regulatory Agenda as a part of its “Smart Act” hearing and presentation pursuant to the Colorado Revised Statute 2-7-203(2)(a)(III)(A).

The following constitutes Colorado Department of Corrections Departmental Regulatory Agenda for 2025-26 and is provided in accordance with Colorado Revised Statute 24-7-203(2)(a)(IV):

- *The term “ARs” are the Departmental Administrative Regulations.*

Regulatory Agenda

COLORADO
Department of Transportation

Overview of Regulatory Agenda Requirements

The Colorado Department of Transportation submits the following 2026 Regulatory Agenda in fulfillment of the statutory requirements set forth in Colo. Rev. Stat. section 2-7-203(4). Pursuant to state law, annually on November 1 executive-branch agencies must file a Departmental Regulatory Agenda (DRA) containing:

- A list of new rules or amendments that the department or its divisions expect to propose in the next calendar year;
- The statutory or other basis for adoption of the proposed rules;
- The purpose of the proposed rules;
- The contemplated schedule for adoption of the rules;
- An identification and listing of persons or parties that may be affected positively or negatively by the rules; and
- A list and brief summary of all permanent and temporary rules adopted since the previous DRA was filed.

The Regulatory Agenda also includes, pursuant to Colo. Rev. Stat. section 24-4-103.3, rules to be reviewed as part of the Department's "Regulatory Efficiencies Reviews" during 2026. The DRA is to be filed with Legislative Council staff for distribution to committee(s) of reference, posted on the department's web site, and submitted to the Secretary of State for publication in the Colorado Register. Each department must also present its DRA as part of its "SMART Act" hearing and presentation pursuant to Colo. Rev. Stat. section 2-7-203(2)(a)(II).

The following constitutes Colorado Department of Transportation's Regulatory Agenda for 2026 and is provided in accordance with Colo. Rev. Stat. section 24-7-203(4).

Schedule (month)	Rule Number and Title (or Description)	New rule, revision, or repeal?	Statutory or other basis for adoption of rule	Part of Mandatory Rule Review? X if yes	Purpose	Stakeholders	Anticipated Hearing Date

Colorado Energy Office 2026 Regulatory Agenda and 2025 Regulatory Report

October 27, 2025

Attention: Colorado Secretary of State

Pursuant to § 2-7-203, C.R.S., the Building Decarbonization Enterprise (the “Enterprise”) and the Community Access Enterprise (“CAE”), both housed within the Colorado Energy Office (“CEO”) submit this letter as their departmental regulatory agenda.

The Enterprise’s enabling statute required that the Enterprise begin collecting the fee on or before November 1, 2025. The Enterprise Board undertook an emergency rulemaking to ensure compliance with the November 1st deadline. On September 24, 2025, the Enterprise board of directors unanimously voted to establish an annual \$400 Building Decarbonization Enterprise Fee (the “fee”) through an emergency rulemaking hearing as permitted by § 24-4-103(6)(a), C.R.S. House Bill 25-1269 established that the fee will apply to all covered building owners subject to Air Quality Control Commission Regulation 28, commonly referred to as the Colorado Building Performance Standards program. Buildings subject to this regulation are 50,000 square feet or larger, but this fee does not apply to publicly owned covered buildings. The Board will hold a permanent rulemaking within 120 days as required by § 24-4-103(6)(a), C.R.S.

The Department of Revenue continues to aggregate the CAE, the Nonattainment Air Pollution Mitigation Enterprise, Clean Fleet Enterprise, Statewide Bridge and Tunnel Enterprise, and Clean Transit Enterprise’s individual retail delivery fees as one line item on consumer receipts, pursuant to § 43-4-218(4), C.R.S. The aggregated fee is a line item on each receipt described as “retail delivery fees” and the Department of Revenue ensures the appropriate portion of the aggregated fee is credited to CAE. CAE, with assistance from the Department of Revenue, annually adjusts the fee for inflation. This annual inflationary adjustment does not require any subsequent rulemaking. With the Department of Revenue’s input, the CAE Board passed a Resolution on March 13, 2025 to lower the CAE fee to five and sixty seven-hundredths cents (\$0.0567). The CAE Board has no plans to hold subsequent rulemakings and any future retail delivery fee adjustments will continue to occur through the Department of Revenue’s processes.

Overview

The Governor’s Office of Information Technology (OIT) presents the following 2026 Regulatory Agenda, containing planned rulemaking activities for the coming year and 2025 Regulatory Report, a summary of the past year’s rulemaking. OIT does not meet the standard establishing a requirement to submit an annual regulatory agenda in Colorado Revised Statutes §24-4-103.3(4) and §2-7-203(4) because OIT is not a principal department. In a commitment to transparency and open government, however, OIT shares the following agenda for the coming year and report of the past year’s rulemaking activity.

2026 OIT Regulatory Agenda

Rule Number	Rule Title	Action	Timing
8 CCR 1501-5	Rules in Support of the Colorado Information Security Act	Revise	Winter 2025 to Spring 2026
8 CCR 1501-6	Rules in Support of the Office of Information Technology	Repeal	Spring 2026

8 CCR 1501-9	Colorado Rules Regarding Electronic Transactions by Colorado Governmental Agencies	Revise	Spring 2026
--------------	--	--------	-------------

8 CCR 1501-5, Rules in Support of the Colorado Information Security Act

New Rule, Revision, or Repeal:

Revision

Statutory or Other Basis for Adoption or Change to Rule:

- §24-37.5-403(2)(b), C.R.S.

Purpose of Proposed Amendments:

The rules govern the process around the development and review of cybersecurity plans for state agencies. Revisions will clarify roles and expectations in order to focus on effective and actionable cybersecurity.

Stakeholders Who May Be Positively or Negatively Affected:

State executive and judicial branch agencies implement and bear the cost of the rule's requirements. State agencies, partners, and people living in the state and interacting with state services benefit by having secure and reliable information technology.

Anticipated Schedule:

Engage with stakeholders in rule development through the winter of 2025-26.
Tentative public hearing and adoption in spring 2026.

8 CCR 1501-6, Rules in Support of the Office of Information Technology

New Rule, Revision, or Repeal:

Repeal

Statutory or Other Basis for Adoption or Change to Rule:

- §24-37.5-105(8), C.R.S. (repealed)
- §24-37.5-106(4), C.R.S.

Purpose of Proposed Rule:

The rules were developed to govern the purchase of information technology related goods and services in emergency situations. Since their adoption, the Department of Personnel and Administration has amended the procurement code, procurement rules, and fiscal rules to incorporate the principles from these rules. These rules can be repealed because they are duplicative and no longer necessary.

Stakeholders Who May Be Positively or Negatively Affected:

The processes and requirements established by these rules are now addressed in the centralized purchasing and fiscal rules. Repealing these duplicative rules will result in no procedural change for stakeholders. State employees will benefit from a reduced potential for confusion by eliminating these outdated, duplicative rules.

Anticipated Schedule:

Anticipated rule repeal activities in spring 2026.

8 CCR 1501-9, Colorado Rules Regarding Electronic Transactions by Colorado Governmental Agencies

New Rule, Revision, or Repeal:

Revision

Statutory or Other Basis for Adoption or Change to Rule:

- §24-37.5-106(4), C.R.S.
- §§24-71.3-117, 24-71.3-118, 24-71.3-119, C.R.S.

Purpose of Proposed Rule:

The purpose of these rules is to promote the development and use of electronic records and electronic signatures by Colorado governmental agencies. These rules establish the criteria and process to identify authorized technologies for collecting electronic signatures. Electronic records and signatures created by an authorized technology are presumed valid. Revisions will clarify the rules and reflect statutory adjustments since the prior revisions.

Stakeholders Who May Be Positively or Negatively Affected:

State executive branch agencies bear the cost of compliance, but in return they gain the convenience and efficiency of electronic signatures and records. People working with state agencies also benefit from that convenience and efficiency.

Anticipated Schedule:

Anticipated rule revision activities in spring 2026.

2026 OIT Regulatory Review

During 2026 OIT will conduct a review of the following rules to assess the continuing need for and the appropriateness and cost-effectiveness of the rules to determine if

they should be continued in their current form, modified, or repealed.

- 8 CCR 1501-7, Rules in Support of Centralized IT Management and Creation of Enterprise Architecture Office and Data Management Program
- 8 CCR 1501-11, Rules Establishing Technology Accessibility Standards
- 8 CCR 1501-12, Information Technology Lifecycle Planning

2025 OIT Summary of Rules Adopted after November 1, 2024

Rule Number	Rule Title	Action	Adoption Date
8 CCR 1501-11	Rules Establishing Technology Accessibility Standards	Revised	May 9, 2025
8 CCR 1501-12	Information Technology Lifecycle Planning	New	November 21, 2024

8 CCR 1501-11, Rules Establishing Technology Accessibility Standards

New Rule, Revision, or Repeal:

Revision

Statutory or Other Basis for Adoption or Change to Rule:

- §24-37.5-106(4), C.R.S.
- §24-85-103, C.R.S.
- SB23-244

Purpose of Rule:

These rules establish the accessibility standards for individuals with a disability for information technology systems. The reason for the rules is to improve the

accessibility and usability of government information technology products and services in Colorado. The rule amendments emphasize progress over strict technical conformance for technology accessibility and more clearly align with federal laws.

Stakeholders Who May Be Positively or Negatively Affected:

Units of state and local government bear the costs. Individuals with disabilities and all users of Colorado government services, programs, and activities benefit.

Adoption Date:

May 9, 2025

8 CCR 1501-12, Information Technology Lifecycle Planning

New Rule, Revision, or Repeal:

New

Statutory or Other Basis for Adoption or Change to Rule:

- §24-37.5-106(4), C.R.S.
- §24-37.5-126, C.R.S.
- SB24-224

Purpose of Rule:

These rules ensure that the State of Colorado's information technology assets and systems are inventoried, categorized, and managed. This will allow the State to make well-informed decisions and develop effective strategies for growth, scalability, cost optimization, privacy, security, consistent workflows, stability, reliability, and customer experience.

COLORADO

**Governor's Office of
Information Technology**

These rules enable the State to plan for the orderly and predictable funding, acquisition, deployment, operation, maintenance, and decommissioning of IT assets.

Stakeholders Who May Be Positively or Negatively Affected:

State agencies bear the costs associated with complying with these rules. The State of Colorado and its residents and employees will benefit from improved government services resulting from better management of IT assets and systems. Specifically, the rules are intended to result in cost optimization, improved security and privacy, more consistent workflows, increased stability and reliability, and improved customer experience.

2025 Regulatory Report

Overview

Pursuant to Section 2-7-203(4) of the Colorado Revised Statutes (C.R.S.), the Department of Public Safety (CDPS) submits the following 2025 Regulatory Report in accordance with Section 2-7-203(4) of the Colorado Revised Statutes. This Regulatory Report details the results of the past year's planned rulemaking as noted in the 2025 CDPS Regulatory Agenda, unplanned rulemaking, routine informal rule reviews (if any), and planned mandatory rule reviews conducted pursuant to the Administrative Procedure Act (§24-4-101 et seq., C.R.S.) and Section 24-4-103.3(4), C.R.S. in compliance with the Department's regulatory efficiency reviews.

Because this report is due November 1st, it includes the status of activities completed through October 31, 2025. Regulatory activities completed or scheduled between October 31, 2025, and December 31, 2025, will be reported, if planned, in the Department's 2026 Regulatory Agenda and in the year-end Department's 2026 Regulatory Report.

This report includes three sections:

1. Results of rulemaking activity included in the 2025 CDPS Regulatory Agenda
2. A more detailed look at outcomes of mandatory rules efficiency reviews
3. Results of unplanned rulemaking

Note: Several rules appear in both the planned agenda and mandatory rules efficiency reviews table; these rules were specifically added to the 2025 Regulatory Agenda with the knowledge that they were required to undergo a mandatory rules efficiency review in 2025.

The OLLS found that the Division added a provision of “primary residence” to this definition that is not provided in statute, thereby adding limitation to the definition that in turn, affects the eligibility for grant requestors. The Division requested that the OLLS put forward to the COLS review hearing a request to not extend the rule with the Division taking a no contest position on the OLLS request.</p> <p>On November 13, 2024, the COLS hearing determined that the definition of “homeowner” in the adopted rules would not be extended in SB 25-125 Rule Review Bill, Section (1)(o), and this rule definition was expired in the adopted rules as scheduled in the State Administrative Procedure Act on May 15, 2025. The Administration Change by the Secretary of State was inserted into CCR and adopted on June 2, 2025.</p>

2026 Regulatory Agenda

Overview

The Colorado Department of Public Safety submits the following 2026 Regulatory Agenda in accordance with Section 2-7-203(4) of the Colorado Revised Statutes (C.R.S.). This Regulatory Agenda contains:

- A list of new rules or amendments that the department or its divisions expect to propose in the next calendar year;
- The statutory or other basis for adoption of the proposed rules;
- The purpose of the proposed rules;
- A list of stakeholders that may be affected by the rules; and
- The schedule for adoption of the rules, if known.

The Regulatory Agenda also includes rules to be reviewed as part of the Department's regulatory efficiencies reviews during 2026, pursuant to the provisions in the Administrative Procedure Act Section 24-4-103.3, C.R.S. These efficiency reviews are scheduled on a regular cycle between one (1) and four (4) years depending on the statutory provisions, stakeholder and department/divisional needs, and state and federal regulations and requirements informing the rule.

This agenda is filed with Legislative Council staff for distribution to committee(s) of reference and submitted to the Secretary of State for publication in the Colorado Register. Each department must also present its Regulatory Agenda as part of its SMART Act hearing and presentation pursuant to Section 2-7-203(2)(a)(II), C.R.S.

The Regulatory Agenda is due on November 1st each calendar year; therefore, this 2026 CDPS Regulatory Agenda includes regulatory activity that has been planned for November and December 2025 that may not have been included in the 2025 CDPS Regulatory Agenda.

The Department publishes the annual upcoming year's Regulatory Agenda, the annual concluding year's Regulatory Report, and the Rules Review Schedule on its public website. Colorado Department of Public Safety Divisions and the Offices administered within those divisions included in this agenda:

Colorado Bureau of Investigation (CBI)

- Forensic Services
- Investigative Services

Regulatory **Agenda**

January 1, 2026 - December 31, 2026

COLORADO
Department of Human Services

Overview

The Colorado Department of Human Services (CDHS) submits the following 2026 Regulatory Agenda in fulfillment of the statutory requirements set forth in Colo. Rev. Stat. § 2-7-203(4). Pursuant to state law, annually by November 1, executive-branch agencies must file a Departmental Regulatory Agenda (DRA) containing:

- A list of new rules or amendments that the department or its divisions expect to propose in the next calendar year;
- The statutory or other basis for adoption of the proposed rules;
- The purpose of the proposed rules;
- The contemplated schedule for adoption of the rules; and
- An identification and listing of persons or parties that may be affected positively or negatively by the rules.

The DRA is to be filed with Legislative Council staff for distribution to committee(s) of reference, posted on the department’s web site, and submitted to the Secretary of State for publication in the Colorado Register. Each department must also present its DRA as part of its “SMART Act” hearing and presentation pursuant to Colo. Rev. Stat. § 2-7-203(2)(a)(III)(A).

The following constitutes the Department of Human Services’ DRA for 2025 and is provided in accordance with Colo. Rev. Stat. § 24-7-203(2)(a)(IV):

Department of Regulatory Agencies

November 1, 2025

The Honorable Members of the General Assembly c/o
the Staff of the Legislative Council
State Capitol Building
200 East Colfax Denver, CO 80203

Dear Members of the General Assembly:

I am pleased to submit the Department of Regulatory Agencies (DORA) 2026 Regulatory Agenda and the 2025 Regulatory Report, in compliance with §2-7-203, C.R.S. The Department's Regulatory Agenda has also been submitted to the Colorado Secretary of State for publication in the Colorado Register. The Regulatory Agenda and Regulatory Report are posted on our website at <https://dora.colorado.gov/legislative-services>.

The Agenda provides a summary of rules under consideration for review, revision, repeal, or creation in the upcoming calendar year. The Report summarizes all permanent, temporary, and emergency rules that were or are being revised, created, or repealed and the results of the mandatory review of regulations per the Department's Rule Review Schedule in the current calendar year. As reflected in the Report, all permanent regulations adopted by the Department involved early stakeholder engagement, as outlined on the Department's website.

According to §2-7-203(2)(a)(II), C.R.S., the Department will be prepared to discuss the Agenda and Report with the Department's Joint Committee of Reference during our upcoming SMART Act presentation.

Sincerely,

A handwritten signature in cursive script that reads 'Patty Salazar'.

The Colorado Department of Regulatory Agencies submits the following 2026 Regulatory Agenda in fulfillment of the statutory requirements set forth in Colo. Rev. Stat. §2-7-203(4). Pursuant to state law, annually on November 1 executive-branch agencies must file a Departmental Regulatory

Agenda (DRA) containing:

- A list of new rules or amendments that the department or its divisions expect to propose in the next calendar year;
- The statutory or other basis for adoption of the proposed rules;
- The purpose of the proposed rules;
- The contemplated schedule for adoption of the rules;
- An identification and listing of persons or parties that may be affected positively or negatively by the rules; and
- A list and brief summary of all permanent and temporary rules adopted since the previous DRA was filed.

The Regulatory Agenda also includes, pursuant to Colo. Rev. Stat. §24-4-103.3, rules to be reviewed as part of the Department's "Regulatory Efficiencies Reviews" (which are denoted as such in the "purpose" column). The DRA is to be filed with the Legislative Council staff for distribution to the committee(s) of reference, posted on the department's web site, and submitted to the Secretary of State for publication in the Colorado Register. Each department must also present its DRA as part of its "SMART Act" hearing and presentation pursuant to Colo. Rev. Stat. §2-7-203(2)(a)(II).

2025 Regulatory Report

REF #	Division	Adoption Date	Board/Program & Rule Number	Rule Title	New rule, revision, or repeal?	Statutory or other basis for adoption or change to rule	Part of mandatory rule review	Purpose of proposed rule	Stakeholders
1	Banking	October 17, 2024	3 CCR 701-6 TC1	Definitions	New	The 2023 Banking Sunset Review contained a recommendation to enact a new Section within Title 11, Article 109 - Section 11-109-908, C.R.S. Fiduciary accounts - duties of trust companies. Section 11-109-908(4), C.R.S. requires the Banking Board to promulgate a new to define what "assets are appropriate" as the term pertains to fiduciary accounts for which a trust company has investment discretion.	Yes	The purpose of the rule is to define what "assets are appropriate" as the term pertains to fiduciary accounts for which a trust company has investment discretion.	Colorado State-Chartered Trust Companies and Sunshine List Recipients
2	Banking	October 17, 2024	3 CCR 701-6 TC6	Collateralization of Deposits	Repeal	The rule is a restatement of Sections 11-109-201(1)(d) and 11-109-204(1) of the Colorado Revised Statutes and a separate rule is unnecessary.	Yes	The purpose of this rule is to reiterate the restriction of certain deposit and transaction deposit accounts as written in Colorado State Statute.	Colorado State-Chartered Trust Companies and Sunshine List Recipients
3	Banking	October 17, 2024	3 CCR 701-6 TC7	Generally Accepted Accounting Principles	Revision	Include standards issued by the Financial Accounting Standards Board (FASB) as part of the definition of GAAP. Clarify the Accounting Principles Board (APB) was the precursor to the FASB. Update the organizational structure of the Financial Accounting Foundation as well as indicate the APB is no longer in existence. Remove reference verbiage as GAAP changes routinely and trust companies should prepare financial statements and reports in conformance with current GAAP requirements, not those that were in effect as of the date of the Rule.	Yes	The purpose of this rule is to allow trust companies to deviate on an exception basis from Generally Accepted Accounting Principles (GAAP) when filing certain supervisory and regulatory documents with state and federal agencies.	Colorado State-Chartered Trust Companies and Sunshine List Recipients
4	Banking	October 17, 2024	3 CCR 701-6 TC8	Dividends	Revision	The current Rule TC8 is silent on capital limitations on the payment of dividends. Including such capital limitations is necessary to help ensure State-Chartered Trust Companies maintain sufficient capital. Under Rule TC8(C), Earnings Limitation on Payment of Dividends, the current Rule does not provide clarification regarding the source of dividend payments, nor is there a definition of undivided profits in the Rule. These additions are necessary to provide clarity regarding the source of dividend payments. Include the Prompt Corrective Action "undercapitalized" definition through the incorporation by reference the following applicable code of federal regulation: Code of Federal Regulations Title 12 - Banks and Banking Chapter III - Federal Deposit Insurance Corporation Subchapter B - Regulations and Statements of General Policy.	Yes	The purpose of this rule is to apply restrictions to the declaration and payment of dividends by a State-Chartered Trust Company. 5	Banking	April 17, 2025	3 CCR 701-6 TC9	Investment Limitations	Revision	To better align investment limitations with federal investment limitations, the following updates are needed: Clarify that Type II and III securities are limited to 10 percent of capital and surplus; Clarify that Type IV securities have no investment limitation; o Add that Type V securities are limited to 25 percent of capital and surplus; Add that when applying the limitation for Type II, III, and V securities, the trust company is to take account of the security type the trust company is legally committed to purchase in addition to its existing holdings; Add requirements pertaining to the calculation of Type III and V securities holdings; Add requirement pertaining to certain credit information to be maintained in the trust company's investment files; and, add information and a requirement pertaining to the treatment of nonconforming investments. Clarify rule applicability to the divestiture of a nonconforming investment. Update the current incorporation by reference of Code of Federal Regulations Title 12 - Banks and Banking Chapter I - Comptroller of the Currency, Department of the Treasury Part 1 Investment Securities. The incorporated material is available at https://banking.colorado.gov/banking-home/rules-statutes .	Yes	The purpose of this rule is to provide information and requirements pertaining to limitations of a Trust Company's investments.	Colorado State-Chartered Trust Companies and Sunshine List Recipients
6	Banking	October 17, 2024	3 CCR 701-6 TC10	Reports of New Executive Officers, Directors, and Persons in Control and Related Late Filing Penalty	Revision	The 2023 Banking Sunset Review contained a recommendation that the penalty for the late filing of these notifications should be modernized as the amount to be assessed was not meaningful and does not deter a trust company from failing to submit the notifications to the Colorado State Banking Board. The passage of HB24-1351, which included the aforementioned 2023 Banking Sunset Review recommendation, amended the late filing penalty to \$100 per day. In order to reflect the new late filing penalty, Banking Board Rule TC10 must be amended to change the late filing penalty from \$25 per day to \$100 per day.	Yes	The purpose of this rule is to provide information and requirements pertaining to notification to the Colorado Division of Banking of new or changes in executive officers, directors, persons in control and outlines penalties for late filing of said notices. 8	Banking	October 17, 2024	3 CCR 701-6 TC13	Minimum Capital Ratios for Depository Trust Companies	Revision	Due to the proposed repeal of Rule 3 CCR 701-6 TC14, the purpose of the rule should be revised to reflect that both leverage and risk-based capital ratios are addressed in the rule as well as capital adequacy standards. The initial capital required to charter a depository trust company should be increased from \$1,000,000 to \$1,500,000 and the minimum should not be less than \$1,000,000, an increase from \$750,000. This proposed increase is in alignment with the proposed increase in 3 CCR 701-6 TC13.5. Revise definitions and minimum capital ratios to include the capital adequacy standards and the calculation of said capital ratios through the incorporation by reference the following applicable code of federal regulations: o Code of Federal Regulations Title 12 - Banks and Banking Chapter III - Federal Deposit Insurance Corporation Subchapter B	Yes	The purpose of this rule is to establish minimum capital requirements for depository trust companies.	Colorado State-Chartered Trust Companies and Sunshine List Recipients
9	Banking	October 17, 2024	3 CCR 701-6 TC13.5	Minimum Capital for Non-Depository Trust Companies	Revision	The initial capital required to charter a trust company should be increased from \$1Mil to \$1.5Mil. Minimum total capital requirement should be increased from \$.75Mil to \$1Mil. Increases are necessary to adjust the minimum level from the 1997 level to equivalent 2024 dollar levels. The amendment proposes a 36 month phase-in period for existing trust companies to comply with the proposed minimum total capital requirement. Give the State Bank Commissioner discretion to restrict a trust company's capital distributions, certain activities, & payment of excessive compensation & bonus. Revise definitions & minimum capital ratios to include the capital adequacy standards & the calculation of said capital ratios through the incorporation by reference the following applicable code of federal regulations: Code of Federal Regulations Title 12 - Banks and Banking Chapter III - FDIC Subchapter B	Yes	The purpose of this rule is to establish minimum capital requirements for non-depository trust companies. 11	Banking	October 17, 2024	3 CCR 701-6 TC16	Insurance	Revision	Remove the term surety bond and replace it with fidelity bond as a fidelity bond is more appropriate for a trust company. Adjust the minimum bond amount from the initial 1993 amount, \$1,000,000, to equivalent dollar levels in 2024, \$2,000,000. Require that the trust company must conduct a risk analysis when determining the amount of the fidelity bond and errors and omissions insurance. Require that the corporate insurance or bonding company must be authorized to do business in Colorado. Add a one year phase-in period to allow trust companies time to comply with the new minimum fidelity bond requirement. 40	Banking	April 17, 2025	3 CCR 701-1 CB101.53	Loan Production Office	Revision	Allow loan approvals to occur at the LPO instead of the main office or bank branch or its subsidiary. According to OCC Interpretive Letter #902 "credit underwriting is essentially a back office function and has become even more so as modern technology has made it possible for loan "approval" functions to be performed virtually anywhere . . . Therefore, the physical location where loan "approval" may take place may have little significance in today's world." It follows that loan approval may take place at any location, including an LPO, without making that location a branch under the McFadden Act. In order to maintain parity with national banks operating LPOs in Colorado, loan approvals should be permissible at state chartered LPOs. Require an application be filed for a change in location of a LPO. Remove the application requirement from paragraph (D) as it is required in paragraph (B). 42	Banking	April 17, 2025	3 CCR 701-1 CB101.55	Contractual Acceptance of Deposits	Repeal	Section 11-105-604, C.R.S. does not mandate a deposit contract review or approval process by a financial institution's board, nor does it require filing a deposit contract with the State Bank Commissioner. Additionally, the statute lacks provisions that specify terms or notifications related to contract extensions, amendments, or termination. The statement in Section D of the current rule that deposit contracts do not constitute a branch is already addressed in Section 11-105-604(1) C.R.S., making this section redundant. Therefore, the Division finds this rule to be unnecessary.	Yes	The purpose of this rule is to ensure that financial institutions adequately review and document deposit contracts through their board of directors, ensure the contract contains specific provisions, and file a copy with the Division. Yes	The purpose of this regulation is to ensure that property and casualty insurance rates are not excessive, inadequate or unfairly discriminatory by establishing the requirements for rate and rule filings. This regulation contains annual rate filing requirements for homeowners and private passenger automobile insurance. These lines of business are specifically included in this regulation because these products are widely purchased by consumers. Annual rate filings, rather than other methods the Division of Insurance (Division) may use, are preferred because of the prospective nature of the information contained in rate filings. Since a company's rates filed with the Division must be used until replaced by another rate filing, the Commissioner of Insurance cannot determine if rates included in prior rate filings continue to be appropriate for current or future economic conditions, or adequately reflect recent Colorado loss experience. Rate filings are reasonable and necessary means to ensure that current rates are appropriate and compliant with Colorado statutes and regulations.	Property and casualty insurers

When the Occupational Credential Portability Program was implemented, the board conducted rulemaking to specify the equivalency in terms of the degrees and experience, but it did not address the current demonstration of competency. For example, someone who has an active license in another state who has not practiced for the last consecutive 12 months, could meet the requirements. The NHA applications, however, provide contradictory information and required the demonstration of competency. The rules need to reflect the expectation of current clinical competency addressed in the applications.	Licensees, professional associations, relevant state agencies, and other key stakeholders

The Colorado Department of Revenue (CDOR) submits the following 2025 Departmental Regulatory Agenda Report (Report) in fulfillment of the statutory requirements set forth in §2-7-202(6), 2-7-203, and 24-4-103.3(4), C.R.S. Pursuant to state law, annually on November 1 executive-branch agencies must file the Report in order to provide results of the past year's rulemaking activity.

Pursuant to §2-7-202(6), C.R.S., the Report must contain:

(f) Commencing with departmental regulatory agendas submitted on and after November 1, 2013, a list and brief summary of all permanent and temporary rules actually adopted since the previous departmental regulatory agenda was filed.

Pursuant to §24-4-103.3(4), C.R.S., the Report must contain:

(4) Each principal department shall include a report on the results of its mandatory review of rules as part of its departmental regulatory agenda that it submits to the staff of the legislative council for distribution to the applicable committee of reference of the general assembly as outlined in section 2-7-203, C.R.S.

The Agenda is to be filed with Legislative Council Staff for distribution to committee(s) of reference, posted on CDOR's website, and submitted to the State Library, the Colorado Department of Regulatory Agencies, and the Secretary of State for publication in the Colorado Register.

CDOR must also present its Report as part of its "SMART Act" presentation pursuant to §2-7-203(2)(a), C.R.S.

CDOR works with several boards and commissions that promulgate rules; for ease of use for the consumer, those rules are included in CDOR's Report.

The Report covers Calendar Year 2025 (CY25). Rules that will be completed after November 1, 2025, are marked as "ongoing" or "in progress".

Marijuana Enforcement Division 2025 Regulatory Agenda Report

The Colorado Department of Revenue (CDOR) submits the following 2025 Departmental Regulatory Agenda Report (Report) in fulfillment of the statutory requirements set forth in §2-7-202(6), 2-7-203, and 24-4-103.3(4), C.R.S. Pursuant to state law, annually on November 1 executive-branch agencies must file the Report in order to provide results of the past year's rulemaking activity.

Pursuant to §2-7-202(6), C.R.S., the Report must contain:

(f) Commencing with departmental regulatory agendas submitted on and after November 1, 2013, a list and brief summary of all permanent and temporary rules actually adopted since the previous departmental regulatory agenda was filed.

Pursuant to §24-4-103.3(4), C.R.S., the Report must contain:

(4) Each principal department shall include a report on the results of its mandatory review of rules as part of its departmental regulatory agenda that it submits to the staff of the legislative council for distribution to the applicable committee of reference of the general assembly as outlined in section 2-7-203, C.R.S.

The Agenda is to be filed with Legislative Council Staff for distribution to committee(s) of reference, posted on CDOR's website, and submitted to the State Library, the Colorado Department of Regulatory Agencies, and the Secretary of State for publication in the Colorado Register.

CDOR must also present its Report as part of its "SMART Act" presentation pursuant to §2-7-203(2)(a), C.R.S.

CDOR works with several boards and commissions that promulgate rules; for ease of use for the consumer, those rules are included in CDOR's Report.

The Report covers Calendar Year 2025 (CY25). Rules that will be completed after November 1, 2025, are marked as "ongoing" or "in progress".

Division of Natural Medicine 2025 Regulatory Agenda Report

The Colorado Department of Revenue (CDOR) submits the following 2025 Departmental Regulatory Agenda Report (Report) in fulfillment of the statutory requirements set forth in §2-7-202(6), 2-7-203, and 24-4-103.3(4), C.R.S. Pursuant to state law, annually on November 1 executive-branch agencies must file the Report in order to provide results of the past year's rulemaking activity.

Pursuant to §2-7-202(6), C.R.S., the Report must contain:

(f) Commencing with departmental regulatory agendas submitted on and after November 1, 2013, a list and brief summary of all permanent and temporary rules actually adopted since the previous departmental regulatory agenda was filed.

Pursuant to §24-4-103.3(4), C.R.S., the Report must contain:

(4) Each principal department shall include a report on the results of its mandatory review of rules as part of its departmental regulatory agenda that it submits to the staff of the legislative council for distribution to the applicable committee of reference of the general assembly as outlined in section 2-7-203, C.R.S.

The Agenda is to be filed with Legislative Council Staff for distribution to committee(s) of reference, posted on CDOR's website, and submitted to the State Library, the Colorado Department of Regulatory Agencies, and the Secretary of State for publication in the Colorado Register.

CDOR must also present its Report as part of its "SMART Act" presentation pursuant to §2-7-203(2)(a), C.R.S.

CDOR works with several boards and commissions that promulgate rules; for ease of use for the consumer, those rules are included in CDOR's Report.

The Report covers Calendar Year 2025 (CY25). Rules that will be completed after November 1, 2025, are marked as "ongoing" or "in progress".

Division of Natural Medicine 2025 Regulatory Agenda Report

The Colorado Department of Revenue (CDOR) submits the following 2025 Departmental Regulatory Agenda Report (Report) in fulfillment of the statutory requirements set forth in §2-7-202(6), 2-7-203, and 24-4-103.3(4), C.R.S. Pursuant to state law, annually on November 1 executive-branch agencies must file the Report in order to provide results of the past year's rulemaking activity.

Pursuant to §2-7-202(6), C.R.S., the Report must contain:

(f) Commencing with departmental regulatory agendas submitted on and after November 1, 2013, a list and brief summary of all permanent and temporary rules actually adopted since the previous departmental regulatory agenda was filed.

Pursuant to §24-4-103.3(4), C.R.S., the Report must contain:

(4) Each principal department shall include a report on the results of its mandatory review of rules as part of its departmental regulatory agenda that it submits to the staff of the legislative council for distribution to the applicable committee of reference of the general assembly as outlined in section 2-7-203, C.R.S.

The Agenda is to be filed with Legislative Council Staff for distribution to committee(s) of reference, posted on CDOR's website, and submitted to the State Library, the Colorado Department of Regulatory Agencies, and the Secretary of State for publication in the Colorado Register.

CDOR must also present its Report as part of its "SMART Act" presentation pursuant to §2-7-203(2)(a), C.R.S.

CDOR works with several boards and commissions that promulgate rules; for ease of use for the consumer, those rules are included in CDOR's Report.

The Report covers Calendar Year 2025 (CY25). Rules that will be completed after November 1, 2025, are marked as "ongoing" or "in progress".

Regulatory Agenda

COLORADO

Department of Local Affairs

Overview

The Colorado Department of Local Affairs (DOLA) submits the following 2026 Regulatory Agenda in fulfillment of the statutory requirements set forth in Colo. Rev. Stat. §2-7-203(4). Pursuant to state law, annually on November 1 executive-branch agencies must file a Departmental Regulatory Agenda (DRA) containing:

- A list of new rules or amendments that the department or its divisions expect to propose in the next calendar year;
- The statutory or other basis for adoption of the proposed rules;
- The purpose of the proposed rules;
- The contemplated schedule for adoption of the rules;
- An identification and listing of persons or parties that may be affected positively or negatively by the rules; and
- A list and brief summary of all permanent and temporary rules adopted since the previous DRA was filed.

The Regulatory Agenda also includes, pursuant to Colo. Rev. Stat. §24-4-103.3, rules to be reviewed as part of the Department’s “Regulatory Efficiencies Reviews” during 2026 (which are denoted as such in the “purpose” column). The DRA is to be filed with Legislative Council staff for distribution to committee(s) of reference, posted on the department’s web site, and submitted to the Secretary of State for publication in the Colorado Register. Each department must also present its Department Regulatory Agenda as part of its “SMART Act” hearing and presentation pursuant to Colo. Rev. Stat. §2-7-203(2)(a)(II).

The following constitutes DOLA’s Regulatory Agenda for 2026 and is provided in accordance with Colo. Rev. Stat. §2-7-203(4):

Denver, CO 80203

Dear Members of the General Assembly:

I am pleased to submit the Department of Treasury's 2025 Agenda Report and the 2026 Regulatory Agenda, in compliance with § 2-7-203, C.R.S. The Department's Regulatory Agenda has been submitted to the Colorado Secretary of State for publication in the Colorado Register and will be posted to our website.

This letter serves as the Department's 2025 Regulatory Agenda Report, as the Department neither adopted nor reviewed any rules since the report was filed on November 1, 2024. The Department adopted no rules in the past calendar year.

Pursuant to § 2-7-203(2)(a), C.R.S., we will be prepared to discuss our 2025 Regulatory Agenda Report and 2026 Regulatory Agenda with the Department's Joint Committee of Reference during our upcoming SMART Act hearing.

Sincerely,

A handwritten signature in blue ink, appearing to read "Dave Young".

Regulatory Agenda Overview

The Colorado Department of Treasury submits the following 2026 Regulatory Agenda in fulfillment of the statutory requirements set forth in §2-7-203(4), C.R.S. Pursuant to state law, annually on November 1 executive-branch agencies must file a Departmental Regulatory Agenda (DRA) containing:

- A list of new rules or amendments that the department or its divisions expect to propose in the next calendar year;
- The statutory or other basis for adoption of the proposed rules;
- The purpose of the proposed rules;
- The contemplated schedule for adoption of the rules;
- An identification and listing of persons or parties that may be affected positively or negatively by the rules; and
- A list and brief summary of all permanent and temporary rules adopted since the previous DRA was filed.

The Regulatory Agenda also includes, pursuant to §24-4-103.3, C.R.S., rules to be reviewed as part of the Department's "Regulatory Efficiencies Reviews" during 2026 (which are denoted as such in the "purpose" column). The DRA is to be filed with the Legislative Council staff for distribution to committee(s) of reference, posted on the department's web site, and submitted to the Secretary of State for publication in the Colorado Register. Each department must also present its DRA as part of its "SMART Act" hearing and presentation pursuant to §2-7-203(2)(a)(II), C.R.S.

2026 Regulatory Agenda - Colorado Department of Natural Resources

January 1, 2026 - December 31, 2026

Overview

The Colorado Department of Natural Resources submits the following 2026 Regulatory Agenda in fulfillment of the statutory requirements set forth in Colo. Rev. Stat. §2-7-203(4). Pursuant to state law, annually on November 1 executive-branch agencies must file a Departmental Regulatory Agenda (DRA) containing:

- A list of new rules or amendments that the department or its divisions expect to propose in the next calendar year;
- The statutory or other basis for adoption of the proposed rules;
- The purpose of the proposed rules;
- The contemplated schedule for adoption of the rules;
- An identification and listing of persons or parties that may be affected positively or negatively by the rules; and
- A list and brief summary of all permanent and temporary rules adopted since the previous DRA was filed.

The Regulatory Agenda also includes, pursuant to Colo. Rev. Stat. §24-4-103.3, rules to be reviewed as part of the Department's "Regulatory Efficiencies Reviews" during 2026. The DRA is to be filed with the Legislative Council staff for distribution to committee(s) of reference, posted on the department's web site, and submitted to the Secretary of State for publication in the Colorado Register. Each department must also present its DRA as part of its "SMART Act" hearing and presentation pursuant to Colo. Rev. Stat. §2-7-203(2)(a)(III). The following constitutes the Department's Regulatory Agenda for 2026 and is provided in accordance with Colo. Rev. Stat. §24-7-203(2)(a)(IV):

Colorado Department of Higher Education
Transfer Credit Enforcement Rules

1.00 AUTHORITY

These rules are adopted pursuant to section 23-1-108.5, C.R.S., and grants the Department of Higher Education exclusive enforcement authority for the statewide guaranteed transfer pathway matrix under subsection (8). These rules are promulgated in accordance with the State Administrative Procedure Act, section 24-4-101 et seq., C.R.S.

2.00 PURPOSE AND SCOPE

The purpose of these rules is to:

- A. Establish obligations of public institutions of higher education with respect to guaranteed transfer pathway matrix (GT Pathways) courses;
- B. Set forth procedures for identifying, investigating, and remedying violations;
- C. Provide for Final Agency Decisions (FADs) and appeals under the Administrative Procedure Act;
- D. Clarify the Department's authority to overturn institutional transfer credit decisions made in violation of law;
- E. Provide a clear process for student appeals; and
- F. Ensure transparency and accountability in Colorado's statewide transfer and articulation framework.

While not subject to enforcement through C.R.S. 23-1-108.5, the Student Bill of Rights within C.R.S. 23-1-125 and C.R.S. 23-5-150 on transfer credit review processes require that:

- A. Institutions shall publish on their website a description of their transfer credit evaluation process and timeline.
- B. Institutions must issue a decision on transfer credit acceptance and applicability or denial within thirty (30) calendar days of admission and submission of all official documentation required by the institution.
- C. Institutions must update their published policies within thirty (30) days of any change.

3.00 DEFINITIONS

For purposes of these rules:

- A. **Commission** means the Colorado Commission on Higher Education.
- B. **Council** or **General Education Council (GE Council)** means the body convened under C.R.S. 23-1-108.5(3) to review courses and advise on GT Pathways.
- C. **Department** means the Colorado Department of Higher Education.
- D. **Enforcement Action** means any formal action taken by the Department to compel compliance, including corrective orders, issuance of a Final Agency Decision.

- E. **General Education Course** has the meaning set forth in section 23-1-108.5(2)(c), C.R.S.
- F. **Guaranteed Transfer Pathway Matrix (GT Pathways)** means the statewide set of general education courses defined in section 23-1-108.5(2)(e), C.R.S.
- G. **Institution** means a public institution of higher education non-exempt from participation GT Pathways by the Commission as defined in section 23-4.5-102, C.R.S. Colorado School of Mines degree programs are not subject to GT Pathways.
- H. **Lower-Division Course** means a freshman or sophomore-level course numbered from one hundred to two hundred ninety-nine or one thousand to two thousand nine hundred ninety-nine.
- I. **Notice of Violation** means a formal written notice issued by the Department under Rule 5.02.
- J. **Remediation Plan** means a written proposal submitted by an institution to cure identified violations.
- K. **Student Appeal** means a written request filed by a student seeking review of an institution's denial of credit transfer under GT Pathways.
- L. **Upper-Division Course** generally means a junior or senior-level course numbered from three hundred to four hundred ninety-nine or three thousand to four thousand nine hundred ninety-nine.
- M. **Violation** means any failure by an institution to comply with statutory or regulatory requirements related to GT Pathways.

4.00 INSTITUTIONAL REQUIREMENTS SUBJECT TO ENFORCEMENT

4.01 Course Submission and Alignment

Institutions shall submit their list of GT Pathways courses, including course descriptions and, upon request, course syllabi, to the Commission and Department on March 1 of each odd-numbered year and at such other times as requested.

4.02 Disclosure of Course Offerings

Institutions shall clearly identify within published course catalogs and descriptions the assigned GT Pathways course category as applicable.

4.03 Automatic Transferability

- A. All credits earned with a C- or better in GT Pathways courses are automatically accepted in transfer and applied to the required and unfulfilled core course or major course components within a student's chosen program of study.
- B. If completed as part of an associate degree with designation, all GT Pathways credits earned through prior learning, including credits by exam (e.g., AP, IB, CLEP, DSST, DLPT) are automatically accepted in transfer and applied to the required and unfulfilled core course or major course components within a student's chosen program of study.
- C. If GT Pathways course credits cannot be applied to major requirements, they must fulfill remaining free elective requirements if space exists within the degree program. If no free electives remain within the degree program, the credits must be considered acceptable for transfer and may be calculated in credit hour totals. Credits accepted but not applied may not be included on a student's transcript.
- D. Receiving institutions shall not require students to repeat the same or substantially similar courses without clear academic rationale.
- E. Institutions must re-evaluate applicability of transfer credits within 30 days of a student's official declaration of major change.

4.04 Compliance Checklist

To remain in compliance with C.R.S. 23-1-108.5, institutions must:

1. Use approved course category codes, titles, and descriptions in alignment with GT Pathways;
2. Accept and apply transfer credits for all GT Pathways courses in which a grade of C- or better is earned first to the relevant unfulfilled core course requirement, followed by unfulfilled but applicable major course requirements, and lastly applied to any remaining free electives where possible, unless there is a valid academic rationale which is recommended to be documented;
3. Provide students with a formal institutional appeal process prior to referral to the Department;
4. Disclose accurate information regarding transferability;
5. Participate in the GE Council and statewide review of GT Pathways courses;
6. Maintain documentation of compliance and respond promptly to Department audits or inquiries.

4.05 SMART Act Reporting

Institutions shall provide all data required for annual reporting under section 23-1-108.5(6.5), C.R.S., including enrollment, credit acceptance, credit application, and time-to-degree comparisons in a format provided by the Department.

5.00 STUDENT APPEALS

5.01 Right to Appeal

Students denied appropriate acceptance and/or application of transfer credit a GT Pathways course may appeal to the Department under section 23-1-108.5(8)(d), C.R.S.

5.02 Exhaustion of Remedies

Students must first exhaust their respective institution's internal appeal process before filing with the Department.

5.03 Filing Requirements

Appeals must be filed within 10 years of completion of the course, and within sixty (60) days of a student's final institutional denial via electronic form hosted on the Department's website and include:

1. Student's name and contact information;
2. Institution(s) involved;
3. Course(s) in dispute;
4. Documentation of denial;
5. Documentation that the institutional appeal process was completed.

5.04 Department Investigations of Student Appeals

- A. Upon receipt of a student appeal, Department staff shall conduct a preliminary investigation to determine whether the appeal can be resolved without convening a Student Appeal Review Panel.
- B. The investigation may include:
 - a. Reviewing institutional documentation and prior appeal records;

- b. Requesting additional information from the student and the institution; and
- c. Facilitating voluntary resolution between the student and institution, if feasible.
- C. If Department staff determine that the matter lacks sufficient basis for further consideration, the Department shall issue notification to the student complainant.
- D. If Department staff determine a clear violation has taken place and grants the appeal, Enforcement Procedures will initiate with Informal Notification issued to the institution.
- E. If Department staff determine that the matter is complex, unresolved, or raises systemic concerns regarding compliance with section 23-1-108.5, C.R.S., the appeal shall be referred to the Appeals Review Panel under Rule 5.05.
- F. Department staff shall notify both the student and institution in writing of the outcome of the investigation and whether the appeal will proceed to panel review.

5.05 Appeals Review Panel

The Department shall convene an Appeals Review Panel consisting of one General Education Council member, one Academic Council member, and one Registrar Council member [\[BG1\]](#) to review appeals, institutional responses, and applicable statutory requirements. The panel shall issue a recommendation to the Department to grant, deny, or modify relief. The Department may consider the decision of the appeals review panel; however, such decision is not binding. The Department retains ultimate authority and responsibility for the final decision.

5.06 Effect of Decision

If the Department grants a student appeal, Enforcement Procedures will initiate with Informal Notification to the institution.

6.00 ENFORCEMENT PROCEDURES

6.01 Informal Notification

The Department may, but is not required to, issue an informal notification describing a potential violation, citing statutory or regulatory requirements, and requesting an institutional response within thirty (30) days indicating agreement, partial agreement, or rejection of recommended remediation. As a result of informal notification, the Department will consider the issue resolved to satisfaction, modify its recommended remediation in coordination with the institution, rescind the informal notification if the institution's original decision is found to be compliant, or proceed to a formal Notice of Violation if the issue is not resolved.

6.02 Notice of Violation

The Department may issue a Notice of Violation identifying any Violation, required corrective action, and a three-month cure period.

6.03 Notice of Enforcement Action

- A. If the Violation is not remedied, the Department may issue a Notice of Enforcement Action.
- B. A Notice of Enforcement Action constitutes a Final Agency Decision (FAD) unless appealed.
- C. A Notice of Enforcement Action may include:
 - a. An order directing corrective action;
 - b. Any other remedial measure authorized by law.

6.04 Institutional Appeals

Institutions may appeal a Notice of Enforcement Action through a hearing before an Appeals Review Panel, which will issue an initial decision, which may be adopted or modified by the Department in the form of a Final Agency Decision.

6.05 Judicial Review

An institution may seek judicial review of a FAD in Denver District Court under section 24-4-106, C.R.S. The court may affirm, reverse, or remand the FAD.

6.06 Enforcement Through Court Order

- A. If affirmed, the court's order is binding and enforceable.
- B. If an institution fails to comply, the Department may request the court to enforce its order.
- C. If overturned by the court, the Department will consult with the court regarding consequences which may include that the Notice of Enforcement Action is vacated.

7.00 TRANSPARENCY AND REPORTING

- A. The Department may publish an annual summary of enforcement actions, including anonymized data and outcomes.
- B. Institutions shall provide information as requested to support enforcement, appeals, and reporting obligations.

8.00 SEVERABILITY

If any provision of these rules is held invalid, the remaining provisions shall remain in full force and effect.

Verification is needed to determine whether individuals external to CDHE can serve in this capacity.

Regulatory Agenda

January 1, 2026-December 31, 2026

COLORADO
Department of
Labor and Employment

Overview

The Colorado Department of Labor and Employment submits the following 2026 Regulatory Agenda in fulfillment of the statutory requirements set forth in Colo. Rev. Stat. §2-7-203(4). Pursuant to state law, annually on November 1, executive-branch agencies must file a Departmental Regulatory Agenda (DRA) containing:

- A list of new rules or amendments that the department or its divisions expect to propose in the next calendar year;
- The statutory or other basis for adoption of the proposed rules;
- The purpose of the proposed rules;
- The contemplated schedule for adoption of the rules;
- An identification and listing of persons or parties that may be affected positively or negatively by the rules; and
- A list and brief summary of all permanent and temporary rules adopted since the previous DRA was filed.

The Regulatory Agenda also includes, pursuant to Colo. Rev. Stat. §24-4-103.3, rules to be reviewed as part of the Department’s “Regulatory Efficiencies Reviews” during 2026 (which are denoted as such in the “purpose” column). The DRA is to be filed with Legislative Council staff for distribution to committee(s) of reference, posted on the department’s web site, and submitted to the Secretary of State for publication in the Colorado Register. Each department must also present its DRA as part of its “SMART Act” hearing and presentation pursuant to Colo. Rev. Stat. §2-7-203(2)(a)(III)(A).

The following constitutes the Department of Labor and Employment’s Regulatory Agenda for 2026 and is provided in accordance with Colo. Rev. Stat. §24-7-203(2)(a)(IV):

CY 2026 REGULATORY AGENDA

Pursuant to § 2-7-203(2)(a)(IV), C.R.S., this document contains the Colorado Department of Law regulatory agenda for calendar year (“CY”) 2025 and details new rules or revisions to existing rules expected to be proposed in CY 2026.

PEACE OFFICERS STANDARDS AND TRAINING (P.O.S.T.)

The following rules are promulgated pursuant to § 24-31-303(1)(g), C.R.S., which authorizes POST to promulgate rules and regulations deemed necessary by the POST Board for the certification of applicants to serve as peace officers or reserve peace officers; § 24-31-303(1)(l), C.R.S., which authorizes POST to promulgate rules deemed necessary by the Board concerning annual in-service training requirements for certified peace officers, including but not limited to, evaluation of the training program and processes to ensure substantial compliance by law enforcement agencies, departments, and individual peace officers; § 24-31-303(1)(m), C.R.S., which grants the Board the power and duty to adopt and promulgate, under the provisions of § 24-4-103, C.R.S. rules as the Board may deem necessary or proper to carry out the provisions and purposes of this article; § 24-31-304(4)(b), C.R.S. which requires POST to promulgate rules deemed necessary by the Board concerning the procedures for the granting of permission to enroll in a training academy; and § 24-31-305(2.7)(4), C.R.S., which requires POST to promulgate rules regarding the procedure for applying for and granting variances pursuant to this subsection.

HB 25-1136 requires POST to create and maintain a public-facing peace officer database and specifies criteria for inclusion in the database, reporting procedures for law enforcement agencies, processes for the appeal of a database entry, and removal from the database. The statute also requires the Board to consider a peace officer’s whistleblower status in an appeal of a database entry. These rules carry out the statutory directives of § 24-31-321, C.R.S., and the Board is authorized to promulgate them under § 24-31-303(1)(m), C.R.S. because they are necessary and proper to carry out the provisions and purposes of the article.

CONSUMER PROTECTION

Colorado Privacy Act Rulemaking 2025

Proposed Rule and Purpose:

The Colorado Privacy Act ("CPA") authorizes the Attorney General to "promulgate Rules for the purpose of carrying out" the CPA, C.R.S. § 6-1-1313(1). Senate Bill 24-041 and 25-276 added

provisions that strengthened personal data protections for minors and for sensitive data, respectively.

Senate Bill 24-041 amends the CPA to add §§ 6-1-1305.5, 6-1-1308.5, and 6-1-1309.5, C.R.S. For the purposes of these sections, Minors means a person under the age of eighteen (18). Section 6-1-1305.5 sets forth certain obligations of processors related to the data of minors. Section 6-1-1308.5 requires controllers that offer any online service, product, or feature to a consumer whom the controller actually knows or willfully disregards is a minor to use reasonable care to avoid any heightened risk of harm to minors caused by the online service, product, or feature. Controllers who meet specific obligations, including obtaining consent before engaging in targeted advertising to a minor, selling the minor's data, profiling the minor, or using any system design feature to significantly increase, sustain, or extend a minor's use of the online service, product, or feature receive a rebuttable presumption that they have used reasonable care. Section 6-1-1309.5, C.R.S. requires that controllers that offer any online service, product, or feature to a consumer whom such controller actually knows or willfully disregards is a minor to conduct certain data protection assessments if there is a heightened risk of harm to minors.

Senate Bill 25-276 amends the CPA to add Precise Geolocation Data to the defined categories of sensitive data and clarifies the controller duty to obtain consent prior to the processing or sale of sensitive data.

The Attorney General will adopt amendments to the Colorado Privacy Act Rules (“the CPA Rules”) are for the purpose of carrying out the CPA, specifically modifying the CPA Rules to be consistent with the CPA as amended by Senate Bill 24-041 and 25-276. Specifically, rules that seek to clarify how to determine if a Controller willfully disregards that a consumer is a minor as contemplated in § 6-1-1308.5, C.R.S. and considerations for determining what is a system design feature that significantly increases, sustains, or extends a minor's use of an online service, product, or feature and is subject to the consent requirement as contemplated in C.R.S. § 6-1-1308.5. Additionally, revisions to the rules to remove language that is no longer relevant given this statutory change.

The Attorney General will seek input from individual Coloradans, stakeholders, experts, advocacy groups, and other members of the public during the rulemaking process.

Statutory Basis:

§ 6-1-1313(1), C.R.S.

Contemplated Schedule for Adoption:

Rules are anticipated to be adopted in the second half of 2025.

Listing of Persons and Parties Affected:

Private and public entities subject to the Colorado Privacy Act; Colorado residents and consumers.

Online Dating Safety Rulemaking 2025

Proposed Rule and Purpose:

Senate Bill 24-011 pertains to the safety of online dating services and apps. It adds § 6-1-731.5, C.R.S. which requires, in part, that covered online dating services have and submit to the Attorney General's Office a public safety policy and an annual report concerning member safety and

compliance with statute's safety policy requirements. This report must include information required by any rules from the Attorney General. Section 6-1-731.5(4.5), C.R.S. requires the Attorney General to promulgate rules to carry out the bill's requirements.

The Attorney General will adopt rules for the purpose of carrying out S.B. 24-011, specifically rules which outline the requirement elements of the required annual report, the process for submitting the report, and they process for submitting a safety policy URL.

Statutory Basis:

§ 6-1-731.5(4.5), C.R.S.

Contemplated Schedule for Adoption:

Rules are anticipated to be adopted in the second half of 2025.

Listing of Persons and Parties Affected:

Online dating services operating in Colorado; Colorado users of those services.

Training Repayment Agreement Provision Rulemaking 2025

Proposed Rule and Purpose:

The Colorado Restrictive Employment Agreements Act ("REAA") authorizes the Attorney General to "promulgate rules necessary to implement and enforce subsection (3)(a) of this section." § 8-2-113(9)(b), C.R.S. Section (3)(a) provides that a provision is not a prohibited covenant if that provision is "providing for an employer's recovery of the expense of educating and training a worker where the training is distinct from normal, on-the-job training and satisfies any other requirements established by the attorney general, by rule, regarding the transferability of the training or credentialing that is available to the employee as a result of the training." § 8-2-113(3)(a), C.R.S..

Statutory Basis:

§ 8-2-113(3)(a), C.R.S.

§ 8-2-113(9)(b), C.R.S

Contemplated Schedule for Adoption:

Rules are anticipated to be adopted in the second half of 2025.

Listing of Persons and Parties Affected:

Employers who use provisions covered by Colo. Rev. Stat. Ann. § 8-2-113(3)(a) and employees subject to those provisions.

Deceptive or Misleading Pricing Practices 2026 Rulemaking

Proposed Rule and Purpose:

House Bill 25-1090 amended the Colorado Consumer Protection Act to prohibit deceptive or misleading pricing practices and require sellers to clearly disclose the total price of goods, services, or properties inclusive of all mandatory fees. The bill also restricts the types of fees landlords may charge tenants and identifies violations as deceptive trade practices subject to enforcement under the CCPA.

The Attorney General may adopt rules to clarify the scope and application of these requirements, including definitions, disclosure standards, and potential exemptions for certain business practices or sectors, consistent with statutory authority.

Statutory Basis:

§ 6-1-737(7), C.R.S.

Contemplated Schedule for Adoption:

Rules are anticipated to be proposed in the second half of 2026.

Listing of Persons and Parties Affected:

Sellers and service providers operating in Colorado, including landlords, property managers, and food service establishments; and Colorado consumers.
