RE: Corrections to Regulation Number 6, 5 CCR 1001-8
Tracking Number 2014-01198

Corrections to Regulation Number 8, 5 CCR 1001-10
Tracking Number 2014-01199

Dear Ms. Maiolo:

On February 19, 2015 amendments to Regulation No. 6 and No. 8 were adopted by the Air Quality Control Commission, and pursuant to § 24-4-103(11)(d), C.R.S., the amended regulation, together with the Attorney General's opinion, was submitted to the Secretary of State under Tracking Numbers 2014-001198 and 2014-01199. These amendments incorporate by reference standards adopted by the United States Environmental Protection Agency.

A review of Regulation Number 6, specifically Part A, has revealed typographical errors the Commission did not intend to adopt. In Part A, the Commission's February amendment erroneously refers to the July 2012 version of the federal standard instead of the July 2013 version the Commission intended to adopt. These typographical errors should be corrected to conform the published rule to the adopted rule.

Likewise, a review of Regulation Number 8, specifically Part E, has revealed typographical errors the Commission did not intend to adopt. In Parts E.I and E.III, the Commission's February amendment erroneously refers to the July 2012 version of the federal standard instead of the July 2013 version the Commission intended to adopt. These typographical errors should be corrected to conform the published rule to the adopted rule.

Pursuant to the rulemaking provisions of the Colorado Administrative Procedures Act, typographical errors may be corrected upon submission of a request by the agency. C.R.S. § 24-4-103(11)(d)(II).

I have reviewed these errors and have determined that they are nonsubstantive errors that should be corrected to conform the published rules to the adopted rules. An appropriate corrective document has been provided.

Sincerely,

FOR THE ATTORNEY GENERAL
