RE: Corrections to Common Provisions Regulation, 5 CCR 1001-2  
Tracking Number 2015-00534

Dear Ms. Maiolo:

On November 19, 2015, amendments to the Common Revisions Regulation were adopted by the Air Quality Control Commission. Pursuant to C.R.S. § 24-4-103(11)(d)(II), the amended regulation and the Attorney General's opinion were submitted to the Secretary of State under Tracking Numbers 2015-00534. These amendments respond to Environmental Protection Agency's State Implementation Plan (SIP) call to amend provisions applying to excess emissions during periods of startup, shutdown and malfunction.

A review of Common Provisions Regulation, specifically sections II.E.4. and II.J.4., reveals publication errors. In the published version, language the Commission struck from the original version remains in the rule. The published version should be corrected to remove the text to conform to the Commission's decision. Attached documents reflect the changes that should have been made and how the text should actually appear.

Pursuant to C.R.S. § 24-4-103(11)(d)(II), non-substantive errors may be corrected upon submission of a request by the agency. I have reviewed these errors and have determined that they are non-substantive errors that should be corrected to conform the published rules to the adopted rules. An appropriate corrective document has been provided.

Sincerely,

FOR THE ATTORNEY GENERAL

THOMAS A. ROAN  
First Assistant Attorney General  
Air Quality Unit  
Natural Resources and Environment
