RE: SOS Correction Tracking Number 2023-00045
Revision to 9 CCR 2503-5, Section 3.510

Dear Ms. Griswold,

I reviewed the correction to the accompanying rule revisions and determined the matter being corrected is a non-substantive typographical error and that the correction is necessary to ensure the published rule and corresponding opinion conform to the adopted rules, pursuant to section 24-4-103(11)(d), C.R.S. (2022).

The correction addresses a typographical error in the rule originally submitted under SOS Tracking Number 2022-00785. The only change is to modify “i snot a citizen of the United States” to “is not a citizen of the United States” in the definition of “Non-citizen” at 3.510. The correction is non-substantive because it corrects an error without changing the meaning of the rule and is consistent with the rule as presented to and passed by the State Board of Human Services.

Sincerely,

FOR THE ATTORNEY GENERAL

/s/ Tanya L. Norris
