RE: SOS Correction Tracking Number 2024-00054
Revision to 12 CCR 2509-7, Section 7.601.712

Dear Secretary Griswold,

I reviewed the corrections to the accompanying rule revisions and determined the matters being corrected are non-substantive typographical errors and that the corrections are necessary to ensure the published rule and corresponding opinion conform to the adopted rules, pursuant to section 24-4-103(11)(d), C.R.S. (2023).

The corrections address typographical errors in the rule originally submitted under SOS Tracking Number 2023-00081. The only changes are to capitalize the first letter of each sentence, Child Support Services, and Child Support Services Unit throughout section 7.601.712; modify the capitalization of the section heading to read "Referral to Child Support Services IV-E and Non IV-E Cases"; modify "NOT" to lowercase "not" in section 7.601.712.4; and remove italics from section 7.601.712.3. The corrections are non-substantive because they correct errors without changing the meaning of the rule and are consistent with the rule as presented to and passed by the State Board of Human Services.

Sincerely,

FOR THE ATTORNEY GENERAL

/s/ Tanya L. Norris
