STATEMENT OF BASIS AND PURPOSE

Summary of the basis and purpose for new rule or rule change.

*Explain why the rule or rule change is necessary and what the program hopes to accomplish through this rule. **1500 Char max***

The Colorado Commission for the Deaf, Hard of Hearing, and DeafBlind's Communications Technology Program (CTP) was established in 2002. Under the Federal "Americans with Disabilities Act," Colorado has a duty to provide the deaf, hard of hearing, and deafblind equivalent access to governmental services. This is accomplished by the dissemination of communications technology in the form of amplified and captioned phones, cellular devices, such as smartphones, flip phones and tablets, ring signalers, and amplified tools, as well as specialized communications technology for deafblind through a federal grant.

The proposed rule changes are necessary to update 27.130 ELIGIBILITY FOR THE COMMUNICATIONS TECHNOLOGY PROGRAM, Section F, for the numbers to reflect the current year's (2024) Federal Poverty Guidelines. The 2024 poverty guidelines were announced on January 12, 2024.

An emergency rule-making (which waives the initial Administrative Procedure Act noticing requirements) is necessary:

- to comply with state/federal law and/or
 to preserve public health, safety and welfare

Justification for emergency:

Federal Poverty Guidelines were announced on January 12, 2024, effective immediately. CDHS regulations contain a reference to the 2023 figures and need to be adjusted to comply with federal law.

Program Authority for Rule: *Give federal and/or state citations and a summary of the language authorizing the rule-making function AND authority.*

(2023)	The commission shall assess the type and amount of equipment needed by deaf, hard-of-hearing, and deafblind persons who qualify under the federal poverty guidelines established in accordance with the "Omnibus Budget Reconciliation Act of 1981", 42 U.S.C. 9902(2). The commission shall establish and coordinate a communications technology program that is consistent with the findings of subsection (1) of this section to obtain and distribute interactive telecommunications and other
