## **STATEMENT OF BASIS AND PURPOSE PLUMBING RULES**

The Examining Board of Plumbers is charged with establishing the Colorado Plumbing Code as defined by §12-58-104(1)(d) and (e), of the Colorado Revised Statutes. Such code sets the minimum standards governing the plumbing, drainage, sewerage, and plumbing ventilation of all buildings in this state.

The Examining Board of Plumbers is authorized under §12-58-104(1)(d), and §24-4-103, of the Colorado Revised Statutes to adopt and revise rules and regulations as may be necessary for the orderly conduct of its affairs and for the administration of Article 58 of Title 12, C.R.S.

The purpose of the adoption and revision of these rules is for the general clarification, cleanup, and efficient management of the State Plumbing Board, and for the safeguard of the general public.

### **Section 2 Standards**
