Subject: Permanent Rulemaking Hearing concerning 6 CCR 1011-1, Chapter 2, General Licensure Standards

The Colorado legislature passed House Bill (HB) 22-1401, *Hospital Nurse Staffing Standards*, during the 2022 legislative session. This new law seeks to ensure hospitals are prepared for a public health emergency or staffing shortage, and includes a provision, found at Section 25-3-128(11), C.R.S., allowing the Department to establish regulations regarding infection control and prevention practices in licensed health facilities.

Emergency rules for this particular requirement were adopted by the board in February 2023, and the Department now requests permanent rulemaking. The infection control requirement of the law mirrors a requirement that was previously contained in Public Health Order (PHO) 20-20, which sets forth specific infection control guidance for the following residential care facilities: Assisted Living Residences, Nursing Care Facilities, and Facilities for Persons with Intellectual and Developmental Disabilities. It became clear during the height of the COVID-19 pandemic that these facilities were at-risk for infectious disease outbreaks, due to the congregate living arrangements. The original PHO 20-20 was put into place on March 12, 2020 and was discontinued following the adoption of emergency rules on February 15, 2023.

With the shift from an emergency to a long term response by the Department, the emergency rules adopted mirrored PHO 20-20. The Department is requesting the Board of Health pass permanent rules to ensure the existing infection control requirements in Section 25-3-128(11), C.R.S. do not lapse when the emergency rules expire.

As such, the proposed permanent rules incorporate the requirements of the aforementioned guidance. The new rule language includes the following:

- Facilities will make vaccines for communicable diseases and vaccine information available to staff and residents; and
- Facilities will appoint an Infection Control Officer, responsible for the Facility's Infection Control & Prevention Program, who will be tasked with the following requirements:
 - Complete initial and continuing education; and
 - Maintain and implement supplies, information, training, and policies related to the management of infectious diseases.
- All licensed health facilities will establish and maintain infectious disease mitigation, vaccine, and treatment plan. This plan will address:

- Identification of staff to coordinate vaccine information, and tracking of vaccination status of staff and, if applicable, residents
- Name and location of vaccine and treatment providers to be used by the facility
- How the facility will assess and address the vaccination of new staff, and if applicable, residents

This permanent rulemaking also includes:

- Remediating the accidental removal of a definition reference in Influenza Immunization Documentation. The Division updated this reference during the emergency rulemakings related to COVID-19 vaccination for healthcare workers in licensed facilities. When those emergency regulations ultimately expired in July 2022, the entire regulatory requirement was inadvertently struck from the Chapter 2 regulations.

The Division has engaged stakeholders between January and April 2023, with multiple meetings. These meetings also included stakeholders of the 1294 forum, a standing stakeholder group which comprises all licensed health facilities.

In the attached rule language, all new proposed language changes are in red or stricken. The Division has worked with stakeholders to craft permanent regulations, and is requesting permanent rulemaking for 6 CCR 1011-1 Chapter 2, General Licensure Standards.

Basis and Purpose.

The Colorado legislature passed House Bill (HB) 22-1401, *Hospital Nurse Staffing Standards*, during the 2022 legislative session. This new law seeks to ensure hospitals are prepared for a public health emergency or staffing shortage, and includes a provision, found at Section 25-3-128(11), C.R.S., allowing the Department to establish regulations regarding infection control and prevention practices in licensed health facilities.

Emergency rules for this particular requirement were adopted by the board in February 2023, and the Department now requests permanent rulemaking. The infection control requirement of the law mirrors a requirement that was previously contained in Public Health Order (PHO) 20-20, which sets forth specific infection control guidance for the following residential care facilities: Assisted Living Residences, Nursing Care Facilities, and Facilities for Persons with Intellectual and Developmental Disabilities. It became clear during the height of the COVID-19 pandemic that these facilities were at-risk for infectious disease outbreaks, due to the congregate living arrangements. The original PHO 20-20 was put into place on March 12, 2020, and was taken down after emergency rules were adopted by the Board on February 15, 2023.

With the shift from an emergency to a long term response by the Department, emergency rules were adopted which mirrored PHO 20-20. The Department is requesting the Board of Health pass permanent rules to ensure the existing infection control requirements in Section 25-3-128(11), C.R.S. do not lapse when the emergency rules expire.

The Division updated this reference during the emergency rulemakings related to COVID-19 vaccination for healthcare workers in licensed facilities. When those emergency regulations ultimately expired in July 2022, the entire regulatory requirement was inadvertently struck from the Chapter 2 regulations.

The Division has engaged stakeholders between January and April 2023, with multiple meetings. These meetings also included stakeholders of the 1294 forum, a standing stakeholder group which comprises all licensed health facilities.

REGULATORY ANALYSIS
for Amendments to
6 CCR 1011-1, Chapter 2, General Licensure Standards

1. A description of the classes of persons affected by the proposed rule, including the classes that will bear the costs and the classes that will benefit from the proposed rule.

Group of persons/entities Affected by the Proposed Rule	Size of the Group	Relationship to the Proposed Rule Select category: C/S/B
Licensed Assisted Living Residences	691	C
Licensed Skilled Nursing Facilities	216	C
Licensed Facilities for Persons with Intellectual and Developmental Disabilities	106	C
Residents receiving care at aforementioned licensed facilities	appx 42,000	B
Acute Care Facilities	117	B

While all are stakeholders, groups of persons/entities connect to the rule and the problem being solved by the rule in different ways. To better understand those different relationships, please use this relationship categorization key:

- C = individuals/entities that implement or apply the rule.
- S = individuals/entities that do not implement or apply the rule but are interested in others applying the rule.
- B = the individuals that are ultimately served, including the customers of our customers. These individuals may benefit, be harmed by or be at-risk because of the standard communicated in the rule or the manner in which the rule is implemented.

More than one category may be appropriate for some stakeholders.

2. To the extent practicable, a description of the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

Impact on Customers (C):

Economic: The impact to each facility should be minimal, as these have been in place since 2020 pursuant to Public Health Order (PHO) 20-20. Any administrative costs have already been incurred by facilities.

Non-economic: PHO 20-20 required facilities to maintain infection control and mitigation policies that have been in effect since 2020. This rulemaking maintains the status quo while also simplifying the requirements.

Impact on Beneficiaries (B):

Economic: Possible economic benefits for beneficiaries are decreased care costs, as residents are not transferred as often to an acute setting for isolation, which is typically more expensive than residential setting. There should be no new economic impact from these rules, as this incorporates requirements which have been in effect since 2020.

Non-economic: The intention of the bill is to ensure facilities are prepared for an

outbreak of infectious disease. The non-economic impacts will be greater patient safety, security, and improved care while in the facility which will lead to improved health outcomes for residents. This provision will also reduce patient load on the state’s healthcare systems overall.

3. The probable costs to the agency and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

A. Anticipated CDPHE personal services, operating costs or other expenditures:

The proposed rules may add some administrative and survey costs to the Department, in that facilities which do not comply with the new rules would be subject to revisit and further enforcement as appropriate. However, the Department expects to absorb these costs.

B. Anticipated personal services, operating costs or other expenditures by another state agency:

Anticipated Revenues for another state agency: N/A

4. A comparison of the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

Along with the costs and benefits discussed above, the proposed revisions:

- Comply with a statutory mandate to promulgate rules.
- Comply with federal or state statutory mandates, federal or state regulations, and department funding obligations.
- Maintain alignment with other states or national standards.
- Implement a Regulatory Efficiency Review (rule review) result
- Improve public and environmental health practice.
- Implement stakeholder feedback.

The costs and benefits of the proposed rule will not be incurred if inaction is chosen. Costs and benefits of inaction not previously discussed include:

This particular requirement mirrors a requirement that were contained in PHO 20-20. Because of the shift in pandemic response, these requirements are now being moved to permanent rules through requirements contained in HB 22-1401. Without adoption of these permanent rules, emergency rules adopted by the Board on February 15, 2023 will lapse.

5. A determination of whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

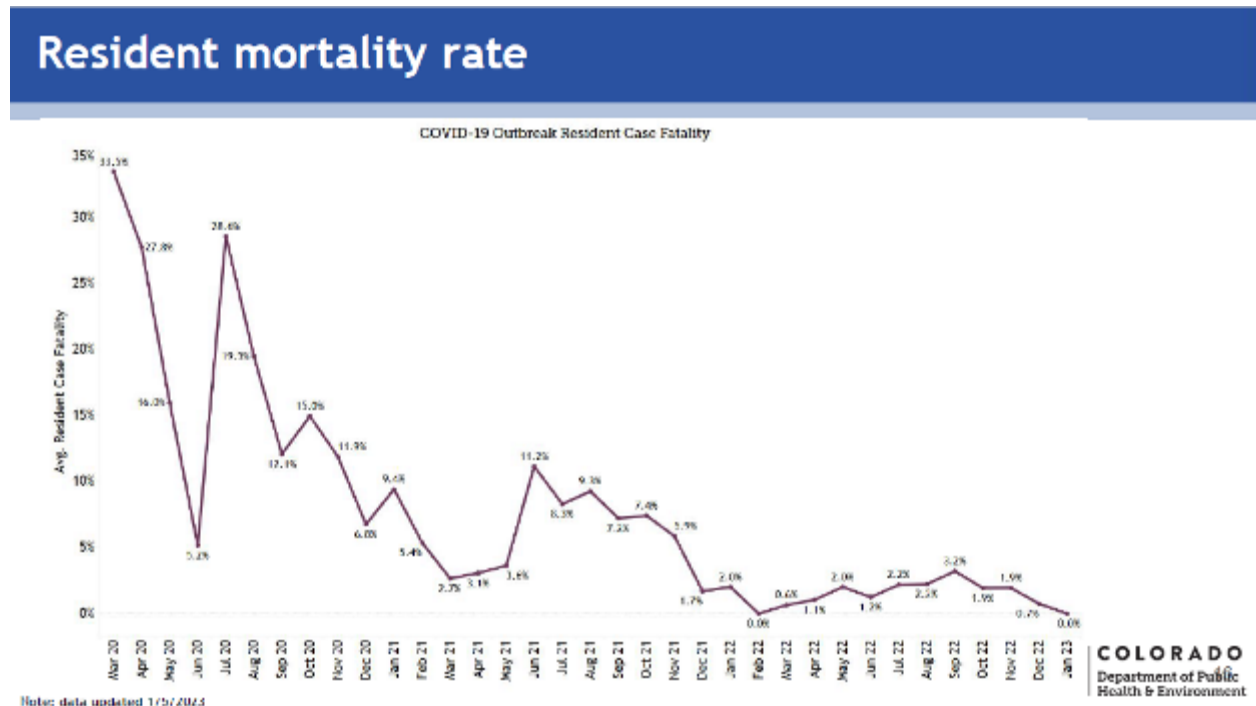

Rulemaking is proposed when it is the least costly method or the only statutorily allowable method for achieving the purpose of the statute. The specific revisions proposed in this emergency rulemaking were developed in alignment with the requirements of PHO 20-20 and in coordination with the Department’s Disease Control and Public Health Response Division (DCPHR). The proposed regulations are the minimum necessary to maintain the comprehensive infection control requirements in residential care settings.

6. Alternative Rules or Alternatives to Rulemaking Considered and Why Rejected.

As the emergency rules adopted on February 15, 2023 were taken nearly directly from PHO 20-20, the Department worked with stakeholders to make as small of changes as necessary for the proposed language for permanent rulemaking.

- To the extent practicable, a quantification of the data used in the analysis; the analysis must take into account both short-term and long-term consequences.

Residents of long term care facilities were impacted greatly by the COVID-19 virus. During the early months of the COVID pandemic some facilities did not have access to routine supplies such as personal protective equipment (e.g. gloves, masks, and gowns) due to supply chain issues. Many facilities did not have protocols or processes in place to respond to an infectious disease outbreak including how to separate sick persons from others, how to properly disinfect surfaces and equipment, and how to use personal protective equipment to prevent staff and resident illness. Deaths among cases have decreased significantly following the implementation of strategies aimed at preventing morbidity and mortality in these settings (see chart below). Important interventions included access to testing, vaccination, treatments, source control, personal protective equipment for staff, and staff education.

The Health Facilities and Emergency Medical Services Division (“Division”) has worked through its stakeholder process and has held two town-hall meetings, as well as presenting the proposed language at three 1294 forum standing meetings between February 2023 and April 2023.

All stakeholder meetings are open to the public, and there has been substantial interest and attendance, as documented in the table above. All licensed health facilities and interested stakeholders are provided notice of meetings and of alternate methods of providing feedback. The Division sends meeting information through its portal messaging system to impacted facilities and directly emails 219 unique stakeholders that signed up to receive such email as “interested parties.” Meeting information and documents are posted to a public Department Google drive in advance of each meeting, including draft rules for discussion.

Stakeholder Group Notification

The stakeholder group was provided notice of the rulemaking hearing and provided a copy of the proposed rules or the internet location where the rules may be viewed. Notice was provided prior to the date the notice of rulemaking and was published in the Colorado Register (typically, the 10th of the month following the Request for Rulemaking).

Not applicable. This is a Request for Rulemaking Packet. Notification will occur if the Board of Health sets this matter for rulemaking.

Yes.

Summarize Major Factual and Policy Issues Encountered and the Stakeholder Feedback Received. If there is a lack of consensus regarding the proposed rule, please also identify the Department’s efforts to address stakeholder feedback or why the Department was unable to accommodate the request.

This rulemaking is permitted in statute, and is important to continue infectious disease mitigation and prevention measures which were introduced three years ago in Public Health Order (PHO) 20-20, and have been effective since their adoption by health facilities.

Please identify the determinants of health or other health equity and environmental justice considerations, values or outcomes related to this rulemaking:

The proposed rule adheres to the distinctions in made in the Public Health Order between different facility setting types, organizational sophistication, and how infectious diseases spread and can be mitigated in different facility types. The rules permit facilities to determine which infectious diseases their mitigation plans need to address.

Overall, after considering the benefits, risks and costs, the proposed rule:

SECTION 2. In Colorado Revised Statutes, 25-1.5-103, amend (1)(a)(I)(C) as follows:

25-1.5-103. Health facilities - powers and duties of department - limitations on rules promulgated by department - definitions. (1) The department has, in addition to all other powers and duties imposed upon it by law, the powers and duties provided in this section as follows:

(a) (I) (C) The department shall extend the survey cycle or conduct a tiered inspection or survey of a health facility licensed for at least three years and against which no enforcement activity has been taken, no patterns of deficient practices exist, as documented in the inspection and survey reports issued by the department, and no substantiated complaint resulting in the discovery of significant deficiencies that may negatively affect the life, health, or safety of consumers of the health facility has been received within the three years prior to the date of the inspection. The department may expand the scope of the inspection or survey to an extended or full survey if the department finds deficient practice during the tiered inspection or survey. The department, by rule, shall establish a schedule for an extended survey cycle or a tiered inspection or survey system designed, at a minimum, to: Reduce the time needed for and costs of licensure inspections for both the department and the licensed health facility; reduce the number, frequency, and duration of on-site inspections; reduce the scope of data and information that health facilities are required to submit or provide to the department in connection with the licensure inspection; reduce the amount and scope of duplicative data, reports, and information required to complete the licensure inspection; and be based on a sample of the facility size. Nothing in this ~~sub-subparagraph (C)~~ SUBSECTION (1)(a)(I)(C) limits the ability of the department to conduct a periodic inspection or survey that is required to meet its obligations as a state survey agency on behalf of the FEDERAL centers for medicare and medicaid services or the department of health care policy and financing to assure that the health facility meets the requirements for participation in the medicare and medicaid programs OR LIMITS THE ABILITY OF THE DEPARTMENT TO ENTER, SURVEY, AND INVESTIGATE HOSPITALS PURSUANT TO SECTION 25-3-128.

SECTION 3. In Colorado Revised Statutes, 25-3-102.1, **amend** (1)(b)(II) as follows:

25-3-102.1. Deemed status for certain facilities. (1) (b) (II) If the standards for national accreditation are less stringent than the state's licensure standards for a particular health facility, the department of public health and environment may conduct a survey that focuses on the more stringent state standards. Beginning one year after the department first grants deemed status to a health facility pursuant to this ~~paragraph (b)~~ SUBSECTION (1)(b), the department may conduct validation surveys, based on a valid sample methodology, of up to ten percent of the total number of accredited health facilities in the industry, ~~excluding hospitals~~. If the department conducts a validation survey of a health facility, the validation survey is in lieu of a licensing renewal survey that the health facility would have undergone if the health facility did not have deemed status pursuant to this ~~paragraph (b)~~ SUBSECTION (1)(b). NOTWITHSTANDING ANY OTHER LAW TO THE CONTRARY, THE DEPARTMENT MAY ENTER, SURVEY, AND INVESTIGATE HOSPITALS PURSUANT TO SECTION 25-3-128.

SECTION 4. In Colorado Revised Statutes, 25-3-105, **amend** (1)(a)(I)(B) and (1)(a)(I)(C) as follows:

25-3-105. License - fee - rules - penalty - repeal. (1) (a) (I) (B) On or after June 4, 2012, the state board of health may increase the amount of any fee on the schedule of fees established pursuant to subsection (1)(a)(I)(A) of this section that is in effect on June 4, 2012, by an amount not to exceed the annual percentage change in the United States department of labor, bureau of labor statistics, consumer price index for Denver-Aurora-Lakewood for all urban consumers and all goods, or its applicable predecessor or successor index. Nothing in this subsection (1)(a)(I)(B) limits the ability of the state board of health to reduce the amount of any fee on the schedule of fees in effect on such date or to modify fees as necessary to comply with section 24-75-402. NOTWITHSTANDING THE REQUIREMENTS OF THIS SUBSECTION (1)(a)(I)(B), THE STATE BOARD OF HEALTH MAY ASSESS FEES NECESSARY TO COVER THE COSTS ASSOCIATED WITH THE SURVEYS CONDUCTED PURSUANT TO SECTION 25-3-128.

(C) The department of public health and environment shall institute, by rule, a performance incentive system for licensed health facilities under

which a licensed health facility would be eligible for a reduction in its license renewal fee if: The department's on-site relicensure inspection demonstrates that the health facility has no significant deficiencies that have negatively affected the life, safety, or health of its consumers; the licensed health facility has fully and timely cooperated with the department during the on-site inspection; the department has found no documented actual or potential harm to consumers; and, in the case where any significant deficiencies are found that do not negatively affect the life, safety, or health of consumers, the licensed health facility has submitted, and the department has accepted, a plan of correction and the health facility has corrected the deficient practice, as verified by the department, within the period required by the department. NOTWITHSTANDING THE REQUIREMENTS OF THIS SUBSECTION (1)(a)(I)(C), ANY FEES ASSOCIATED WITH THE SURVEYS AND INVESTIGATIONS OF HOSPITALS AUTHORIZED BY SECTION 25-3-128 ARE NOT SUBJECT TO A REDUCTION BASED ON THE PERFORMANCE INCENTIVE SYSTEM.

SECTION 5. In Colorado Revised Statutes, **repeal** 25-3-702.

SECTION 6. In Colorado Revised Statutes, 25-3-703, **amend** (1) as follows:

25-3-703. Hospital report card - rules - exemption. (1) (a) The executive director shall approve a Colorado hospital report card consisting of public disclosure of data assembled pursuant to this part 7. At a minimum, the data shall be made available on an internet website in a manner that allows consumers to conduct an interactive search that allows them to view and compare the information for specific hospitals. The website ~~shall~~ **MUST** include:

(I) CLINICAL OUTCOMES MEASURES FROM GENERAL AND PUBLIC HOSPITALS LICENSED PURSUANT TO SECTION 25-1.5-103; AND

(II) Such additional information as is determined necessary to ensure that the website enhances informed decision making among consumers and health-care purchasers, which ~~shall~~ **MUST** include, at a minimum, appropriate guidance on how to use the data and an explanation of why the data may vary from hospital to hospital. ~~The data specified in this subsection (1) shall be released on or before November 30, 2007.~~

(b) WHEN MAKING A DETERMINATION AS TO WHAT DATA TO REPORT

AS REQUIRED BY SUBSECTION (1)(a) OF THIS SECTION, EACH EXECUTIVE DIRECTOR SHALL CONSIDER:

(I) INCLUSION OF DATA ON ALL PATIENTS REGARDLESS OF THE PAYER SOURCE FOR COLORADO HOSPITALS AND OTHER INFORMATION THAT MAY BE REQUIRED FOR EITHER INDIVIDUAL OR GROUP PURCHASERS TO ASSESS THE VALUE OF THE PRODUCT;

(II) USE OF STANDARDIZED CLINICAL OUTCOMES MEASURES RECOGNIZED BY NATIONAL ORGANIZATIONS THAT ESTABLISH STANDARDS TO MEASURE THE PERFORMANCE OF HEALTH-CARE PROVIDERS;

(III) DATA THAT IS SEVERITY AND ACUITY ADJUSTED USING STATISTICAL METHODS THAT SHOW VARIATION IN REPORTED OUTCOMES, WHERE APPLICABLE, AND DATA THAT HAS PASSED STANDARD EDITS;

(IV) REPORTING THE RESULTS WITH SEPARATE DOCUMENTS CONTAINING THE TECHNICAL SPECIFICATION AND MEASURES;

(V) STANDARDIZATION IN REPORTING; AND

(VI) DISCLOSURE OF THE METHODOLOGY OF REPORTING.

SECTION 7. In Colorado Revised Statutes, 25-3-703, add (3) and (4) as follows:

25-3-703. Hospital report card - rules - exemption. (3) THE STATE BOARD OF HEALTH SHALL PROMULGATE RULES THAT ESTABLISH NURSING-SENSITIVE QUALITY MEASURES BASED UPON A NATIONALLY RECOGNIZED STANDARD AND REVISE THE RULES AS NECESSARY EVERY THREE YEARS TO BE INCLUDED IN THE HOSPITAL REPORT CARD. THE NURSING-SENSITIVE QUALITY MEASURES MUST INCLUDE AT A MINIMUM:

- (a) SKILL MIX;
- (b) THE NURSING HOURS PER PATIENT PER DAY;
- (c) VOLUNTARY TURNOVER;
- (d) PATIENT FALLS PREVALENCE RATE;

(e) PATIENT FALLS WITH INJURY; AND

(f) RECORDED INCIDENCES OF VIOLENCE AGAINST STAFF AND CONTRACTED STAFF.

(4) HOSPITALS WITH FEWER THAN ONE HUNDRED BEDS ARE EXEMPT FROM THE REQUIREMENTS OF THIS SECTION.

SECTION 8. In Colorado Revised Statutes, 25-3-705, **amend** (1) as follows:

25-3-705. Health-care charge transparency - hospital charge report. (1) The commissioner of insurance shall work with the duly constituted association of hospitals selected by the executive director pursuant to ~~section 25-3-702~~ for assistance in carrying out the purposes of this section.

SECTION 9. Appropriation. (1) For the 2022-23 state fiscal year, \$645,340 is appropriated to the department of public health and environment for use by the health facilities and emergency management services division. This appropriation is from the general fund and is based on an assumption that the division will require an additional 6.2 FTE. To implement this act, the division may use this appropriation for the nursing and acute care facility survey.

(2) For the 2022-23 state fiscal year, \$139,939 is appropriated to the office of the governor.
