

**STATEMENT OF BASIS AND PURPOSE  
AND SPECIFIC STATUTORY AUTHORITY FOR**

Rules Pertaining to the Standards for Hospitals and Health Facilities  
6 CCR 1011-1  
Chapter XXIV, Medication Administration Regulations  
February 22, 2011

**Basis and Purpose:**

There are two reasons for the proposed amendments. The first is to correct a typographical error in a statutory reference. The second is to reiterate the statutory requirement that only certain types of licensed health facilities may use qualified medication administration persons or QMAPS.

**These rules are promulgated pursuant to the following statutes:**

Section 25-1.5-103, C.R.S. (2010).  
Section 25-1.5-301, *et seq.*, C.R.S. (2010).

**Major Factual and Policy Issues Encountered:**

There are no major policy issues concerning these rules as we are merely correcting the typographical error to a statutory reference that is correct elsewhere in the rule, and inserting another statutory requirement so that the rule will have greater clarity and consistency with its enabling statute.

**Alternative rules considered:**

No other alternatives were deemed appropriate.
