

## **Minutes\***

Business Intelligence Center Advisory Board Meeting

April 4, 2017

By phone

1. **Call to order**

Chair Davis called the meeting to order at 10:30am and acknowledged that the board lacked a quorum for an official meeting, so no official action would be taken, but that staff would proceed with the update on the Go Code Colorado challenge.

2. **Attendees**

The following board members were present: Board Chair DJ Davis (Department of State), and Catherine Kunst (SIPA), by phone.

3. **Go Code Colorado update**

Staff provided an update on the Go Code Colorado challenge. Challenge Weekend is this coming weekend, hosted in five cities across the state (Colorado Springs, Denver, Durango, Fort Collins, and Grand Junction). Participant registration numbers are currently 230 across all five locations, which would be a substantial increase over last year. The program has added a new element by inviting data providers to the weekend to present about the data they manage and answer questions. There will be representatives from three state agencies, the National Renewable Energy Laboratory and the regional office of the U.S. Patent and Trademark Office.

4. **Adjournment**

Board Chair Davis adjourned the meeting at 10:40am.

\* Because this was not an official meeting of the advisory board, these are not official meeting minutes and will not be approved by the board.
