

Attach a File to an Online Transaction

Some forms, such as a Statement of Trademark Registration, require an attachment. In other cases, you can select an option that will allow you to add an attachment (if needed).

For example, you might see a statement that says, "This document contains additional information as required by law." Choose "Yes" to tell our system that you want to add an attachment.

If you plan on adding additional information to your filing, first prepare your information or attachment before visiting our website.
