Hi Steven,

I went through this process a couple years ago and made an assumption about the process. Only now -- after reading the e-mail you sent out Friday -- do I realize the law has changed and the other proponent needs to be present at the hearing. This is not possible as he's out of town. The situation doesn't seem to be curable on our end. As such, please withdraw initiatives 79 and 80, or at least pass along to the board that we won't be at the meeting tomorrow. I apologize for the inconvenience.
