Hello,

In regards to 2023-2024 #106, Title Board Members claimed it was a multiple subject initiative based on the State's alleged lack of definition of unlawful, and thus had no jurisdiction.

We disagree with that decision, and argue that 18-18-404 adequately defines what an unlawful user is at a State level, and federal can remain stricken from our initiative and remain a single subject initiative.

Thanks,
Edgar Antillon

Hi Edgar, thank you for your email. The deadline to file a motion for rehearing is Wednesday, January 10th.

Here is the information you will need in regards to filing a motion for rehearing.

A motion for rehearing must be typewritten and must set forth, with particularity, the grounds for rehearing. Such a motion does not need to be long, but must identify the reasons for rehearing so as to make clear to the Board, the designated representatives, and any interested members of the public why rehearing is sought and what will be argued at the rehearing. For example, if the motion claims that the petition contains more than one subject, the motion must identify the additional subject(s) and include a brief explanation of the reasons the movant believes they constitute additional subjects; if the motion claims that the title is unfair or misleading, the motion must identify the specific wording that is challenged and explain why it is unfair or misleading. The Board may deny, without further consideration, any motion for rehearing that does not set forth the grounds for rehearing with particularity.

Please note both of yourself and Isaac need to be at the rehearing.

Let me know if you have any questions.

Sincerely,

Cheryl
