~~(D) The provision of adequate staff and other resources to serve charter schools authorized by the local board, which services are provided by the school district at a cost to the charter schools that does not exceed their actual cost to the school district, or, in the case of federally required educational services, the amount specified in section 22-30.5-112 (2) (a.8);~~

~~(d) If the state board denies the exclusive authority of a local board of education to authorize charter schools within the geographic boundaries of the school district, the local board may~~

~~reapply to retain or recover exclusive authority as provided in subsection (4) of this section as soon as the local board determines it has resolved the issue that was the basis for the denial.~~

~~(6) For local boards of education that have no discernable history of considering charter school applications or authorizing charter schools, the state board shall grant exclusive authority if the local board demonstrates its compliance with the provisions of sub-subparagraphs (C) and (D) of subparagraph (I) of paragraph (a) of subsection (5) of this section and presents to the state board a plan to implement a combination of the authorizing practices described in paragraph (a) of subsection (5) of this section.~~

~~(7) A grant of exclusive authority by the state board shall continue so long as a local board of education continues to comply with the provisions of subsection (5) of this section, and the local board need not reapply; except that a local board of education that retains exclusive authority pursuant to paragraph (b) of subsection (5) of this section shall reapply for exclusive authority if the criteria specified in said paragraph (b) no longer apply to the school district.~~

~~(7.5)(a) A charter school, a charter school applicant, or an organization that represents charter schools may request revocation of a local board of education's exclusive authority to authorize charter schools within the geographic boundaries of the school district by filing a request for revocation with the state board. A charter school may request revocation of the exclusive authority only of its chartering local board. A charter applicant may request revocation of the exclusive authority only of a local board of education to which it may apply for a charter.~~

~~(b) A charter school, a charter school applicant, or an organization that represents charter schools may request revocation of a local board of education's exclusive authority only on the grounds that the local board, since the date that the local board received exclusive authority, has demonstrated a pattern of failing to comply with one or more of the provisions of paragraph (a) of subsection (5) of this section. A charter school, a charter school applicant, or an organization that represents charter schools may not request revocation of a local board of education's exclusive authority solely on the basis of:~~

~~(I) The local board's refusal of a charter application; or~~

~~(II) An action by the local board that a charter school or a charter school applicant may appeal to the state board pursuant to section 22-30.5-108, unless the action would otherwise constitute grounds for denial or revocation of exclusive authority.~~

~~(e) To request revocation of a local board of education's exclusive authority, a charter school, a charter school applicant, or an organization that represents charter schools shall file a notice of request for revocation with the state board, accompanied by a specific written description, with supporting documentation, of the basis for the request. The requesting party, at the time of filing the notice with the state board, shall provide a copy of the notice of request for revocation and the basis for the request, with the supporting documentation, to the affected local board of education. The state board shall permit the local board the opportunity to appear at a public~~

hearing and respond in writing to the request for revocation and shall permit the requesting party the opportunity at the public hearing to rebut any arguments made by the local board. If the local board intends to respond to the request for revocation, it shall submit a copy of its response in writing, with supporting documentation, to the requesting party and the state board at least fifteen days prior to the public hearing. The state board shall determine whether to grant or deny the request for revocation, based on the criteria for granting exclusive authority specified in subsections (5) and (6) of this section, within sixty days after receiving the notice. If the state board revokes the local board of education's exclusive authority to authorize charter schools within the geographic boundaries of the school district, it shall provide a written explanation of the basis for the revocation.

(d) If the state board revokes a local board of education's exclusive authority, the local board may apply to recover the grant of exclusive authority as provided in subsection (4) of this section as soon as the local board determines it has resolved the issue that was the basis for the revocation. The state board shall consider the local board of education's application and either grant or deny the local board exclusive authority as provided in subsection (5) of this section.

(8) Notwithstanding any other provision of this section to the contrary, a local board of education may permit the establishment of one or more institute charter schools within the geographic boundaries of the school district by adopting a favorable resolution and submitting the resolution to the state board. An institute charter school that is established with permission granted in a resolution adopted by the local board of the school district in which the institute charter school is located continues to be authorized by and accountable to the institute regardless of later actions by the local board unless the institute charter school voluntarily converts to a district charter school as provided in subsection (10) of this section.

(9) (a) Notwithstanding any other provision of this section to the contrary, the state board shall grant to a local board of education exclusive authority to authorize charter schools within the geographic boundaries of the school district if the school district annually certifies to the state board that the total number of students enrolled in charter schools authorized by the school district, or the maximum number of students allowed to be enrolled pursuant to charter school contracts entered into by the school district, whichever is greater, divided by the district pupil enrollment, as defined in section 22-54-103, for that budget year, reflected as a percentage, exceeds by more than three percentage points the percentage of students enrolled in charter schools statewide.

(b) A school district that retains exclusive authority to authorize charter schools pursuant to paragraph (a) of this subsection (9) shall satisfy the requirements of paragraph (a) of subsection (5) of this section.

(10)(a) An institute charter school that is located within the geographic boundaries of a school district that recovers exclusive authority to authorize charter schools, as provided in subsection (4) of this section, or that permitted the establishment of the institute charter school within its geographic boundaries, as provided in subsection (8) of this section, may apply to the board of

~~education of the school district in which it is located to convert to a district charter school. To convert to a district charter school, the institute charter school shall submit an application to the local board of education as if it were applying for a new charter in accordance with the provisions of part 1 of this article.~~

~~(b) An application to convert an existing institute charter school to a district charter school shall include evidence that an adequate number of parents, teachers, or pupils, or any combination thereof, supports the conversion of the institute charter school to a district charter school.~~

~~(c) A local board of education's approval of an application from an existing institute charter school submitted pursuant to this subsection (10) shall not relieve the institute charter school of any preexisting contractual obligations or relationships, including obligations of the institute charter school to the institute; except that the institute charter school shall no longer be subject to the oversight and control of the institute. The transfer of oversight of an institute charter school from the institute to a school district shall not be deemed a dissolution or other event that empowers or obligates the institute to wind down the institute charter school's affairs or to dispose of the institute charter school's assets.~~

~~(d)(I) If an institute charter school converts to a district charter school, the authorizing school district shall calculate the converted school's funding, including at risk supplemental aid, as it was calculated before the conversion using the formulas specified in section 22-30.5-513; except that this paragraph (d) does not apply if the converted school is authorized by a small rural school district, as described in section 22-54-108 (3)(b)(IV).~~

~~(H) Repealed.~~
