

Be it Enacted by the People of the State of Colorado:

SECTION 1. Declaration. We, the voters of the state of Colorado, hereby find and declare:

- (a) Because it is a scientific fact that we are living human beings from the moment we are conceived, we have the right to continue living and to be safe in our persons from violence and intentional harm causing premature death;
- (b) We affirm a woman's right to make her own health care decisions and what happens to her body; to be told accurate information about any procedures, risks, alternatives, and potential outcomes of any drugs or surgeries; and to consent to or deny any life-saving treatment for herself, and the right to continue a pregnancy;
- (c) In 1967, Colorado allowed the first legally induced abortions performed on pregnant mothers that have come to include starvation, poison, and dismemberment of children who can see, hear, and feel the pain of being starved, grabbed, cut, dismembered, and forced to suffer heart attack, their only life being taken from them, which have also been found to cause emotional, physical, and spiritual harm to their mothers;
- (d) Prior to 1967, pregnant mothers' lives were saved without deliberately killing children by doctors monitoring the health of mothers and children, providing early delivery, assisting natural childbirth, and delivering living children through C-section; therefore, mothers' lives may continue to be saved without treating a child inhumanely or committing violence against a child to purposefully kill them.
