

**MOTION FOR REHEARING ON PROPOSED INITIATIVE 2025-2026 #181**

Lydia McCoy and Paulina Erices-Ocampo, Designated Representatives of the Proponents of Proposed Initiative 2025-2026 #181, through their undersigned counsel, respectfully submit the following limited request for a rehearing regarding two aspects of the title set by the Ballot Title Board for this measure on December 3, 2025:

1. In the third line of the title, reference is made to “a graduated state income tax rate.” Proponents suggest that this phrase would be more appropriately and accurately worded as “a graduated state income tax structure.”

2. Section 4 of the Proposed Initiative contains a detailed requirement of an annual public audit of the amount of excess revenue produced by the newly proposed graduated state income tax structure, together with a specification of the uses to which such revenue has been put. Proponents submit that this public audit is an important component of this proposed measure, and should be reflected in the title. This can be done simply by including the phrase “and requiring a public audit of those amounts and uses” in the last line of the title.

Respectfully submitted
