# ELECTRONIC RECORDING TECHNOLOGY BOARD

## Grant Application

Updated 9-24-21

### Background

In the state of Colorado, a one-dollar per document technology fee was implemented in the early 2000's to aid County offices across the state in funding technological advancements in recording. As a result, Colorado was the first multi-jurisdictional state in the nation to adopt e-Recording across the state.

In the spring of 2014, a working group made up of real estate, lending, legal professionals as well as counties conducted a statewide needs assessment and a request for information to evaluate the state of recording systems in Colorado.

In the spring of 2016, legislation was passed, and this board and a funding structure were created from Senate Bill 16-115.

### Our Vision

To create, support, and maintain a statewide land records environment that promotes accessibility and consistency for the public in an efficient and user-friendly manner.

### Our Mission

To develop, maintain, improve, replace, or preserve land records systems in our state.

### Business Purpose

The business purpose of the board is to develop and modernize electronic filing systems throughout the state as defined in 24-21-402 (2).

Our Core Goals (24-21-403 (1))

- Assure the security, accuracy, and preservation of public records required to be maintained by a Clerk and Recorder.
- Maintain the privacy of personal identifying information, online public access to which is not necessary to the proper functioning of land title records or other public records required to be maintained by a clerk and recorder.
- Assure that the sequence in which documents are received by a clerk and recorder is accurately reflected to the greatest extent practicable.
- Provide for online public access to public documents while maintaining the privacy of personal identifying information when applicable.
- Assure that electronic filing systems used in different counties are similar so as to facilitate the submission and searching of electronic records.

Our Objectives

1. Develop a strategic plan that incorporates the core goals and establish the administration of the Electronic Recording Technology Fund and Board.
2. Determine functionality standards for an electronic filing system that supports the core goals.
3. Issue a Request for Proposal (RFP) for electronic filing system equipment and software that the counties may choose to acquire.
4. Develop best practices for an electronic filing system.
5. Provide training to Clerk and Recorders related to electronic filing systems.
6. Develop a grant program, prepare reports and promulgate any necessary rule-making.
7. Develop subcommittees and project timelines for implementation.

ELECTRONIC  
RECORDING  
TECHNOLOGY  
BOARD

Any project that establishes, maintains, improves, or replaces a County Electronic Filing System, the electronic document management system that enables a county clerk and recorder to accept electronic recording of land records and to provide online access to recorded documents.

Eligible projects may include digitization and indexing of documents received for recording in the office of the county clerk, especially documents that affect rights in real property.

In addition, the ERTB may approve a grant application when a portion of the grant funds will be used to digitize public documents that are not related to real property but that are managed by the county's electronic filing system. See CRS 24-21-404(2)(b)(II), as enacted by HB 21-1225. For further information, see the Board's Policy Governing Grants for Digitization and Indexing.

In addition to projects that establish, maintain, improve, or replace an Electronic Filing System, eligible projects may include improvements to the security of a county's general information technology systems, if the improvement is necessary to improve the security of the county's electronic filing system. (Added by HB 21-1225)

For the purpose of this grant application and as defined in 24-21-401:

- (1) "Board" means the Electronic Recording Technology Board created in Section 24-21-402 (1)
- (2) "Electronic" means relating to technology having electrical, digital, magnetic, wireless, optical, electromagnetic, or similar capabilities.
- (3) "Electronic Filing System" means the document management system used by a Clerk and Recorder to comply with the statutory requirements set forth in part 4 of article 10 of title 30 C.R.S., for:
  - (a) Electronic documents received for recording or filing in the Clerk and Recorder's office; and
  - (b) Paper documents received for recording or filing in the Clerk and Recorder's office that are converted from paper, microfilm, or microfiche into an electronic format.

#### Deadline and Important Application Process Reminders

Grants will be considered on a monthly basis. In order to be considered for a grant, please submit your completed application via the on-line application or downloadable PDF at [www.ertb.org](http://www.ertb.org) by the first business day of the month. PDF applications can be emailed to [ERTB.Grants@Colorado.gov](mailto:ERTB.Grants@Colorado.gov). Counties will be notified by a grant award letter within 60 days and will be asked to sign a grant agreement. Please direct any questions about the application to [ertbexecutivedirector@gmail.com](mailto:ertbexecutivedirector@gmail.com).

Quotes/bids that support the grant-funding amount being requested must be included. Similar detail regarding past expenditures must be provided if reimbursement is being requested.

In order to improve a county's application, the county is encouraged but is not required to submit "letters of support" for the grant. It is recommended that these letters come from various sources, including (but not limited to) county government officials, industry partners or customers, chambers of commerce, or business leaders, etc.

#### Conditions for Receiving Grants

Before applying for any grant funds, please read the following conditions that will be included (but not limited to) as part of your grant agreement:

- Counties will cooperate with the Electronic Recording Technology Executive Director and Board and in their statutory reporting requirements.
- Any vendor contracts must include training on any equipment being purchased.
- Counties agree to participate in recording best practices, as defined in 24-21-403 (3) (d).

- If grant funds are not used in the first year, counties must submit to the Electronic Recording Technology Board a request for approval regarding how and when the funds will be spent. The Electronic Recording Technology Board will respond within 60 days. All funds must be expended by June 30, 2026.

The County must maintain an accounting system and financial records that accurately account for the receipt and disbursement of Grant Funds. For this purpose, the county may use either general ledger fund accounting that tracks Grant Funds separately from other County funds, or use a tracking spreadsheet. All payments and expenditures must be tracked. Each expenditure must be classified by budget category, such as Personnel, Supplies and Operating, Travel, Equipment and Professional Services. All financial records must be supported by source documentation (such as invoices, time sheets, etc.).
- Counties may apply for reimbursement of funds that have already been expended if the expenditure establishes, maintains, improves or replaces a County Electronic Filing System as defined in 24-21404 (2) and meets the core goals listed on Page 2. Additionally, the expenditure of funds must have taken place after the effective date of SB 16-115, June 10, 2016. Counties must provide proof of purchase.

<p><b>Grant Information</b></p>
<p>Why are you applying for grant funds? Jackson County completed our large digitization process in 2020 with support from the ERTB grant program. That project was a huge success for our County, staff and customers. ArcaSearch provided on-site capture of our legacy Land Index &amp; Record books that preserved our historical collection for backup purposes, but also created an on-line, searchable digital Archive. The Jackson County Historical Document Archive allows our customers access to Land Records without having to make the trip to Walden. As one of the smallest Colorado Counties, this grant program will provide us the financial ability to enhance our existing Archive with: the addition of books we over-looked on our original project, improved security and extension of our Archive software support through May of 2026.</p>
<p>Amount of grant request (no funding requests involving expenditures past June 30, 2026). \$20,876.00</p>
<p>What do you want to use the grant money for?  The grant request total cost (\$20,876.00) breaks out as follows and can be validated with the attached project proposal: (\$8,446: On-site digitization of Land Record books, re-classification of Discharge Records to "private" access for security, \$226: Redaction of Social Security Numbers on identified Land Records for security, \$420: 2023 fee increase for addition of new Records to Archive, \$8,403: Archive support from Jan 2024 - May 2026, \$3,381: ECommerce software support from Jan 2024 - May 2026)  Break out the expenses and include bids, invoices, or proposals with your request. What specific equipment and software do you want to purchase?</p>

If you are requesting grant funding for digitization and indexing, please provide a general description of the documents to be digitized and/or indexed, the approximate date ranges, the total number of pages or documents, and an estimate of the percent of documents that are not related to interests in real property. If there are documents not listed in the Board's Policy Governing Grants for Digitization and Indexing, as examples of real property documents but the Clerk believes are related to interests in real property, please provide an explanation of why the documents are related to real property. Attach supporting bids if applicable. Bids should include the number of pages and/or documents to be digitized and/or indexed. For further information, see the Board's Policy Governing Grants for Digitization and Indexing.

The documents to be digitized and estimated page counts are identified in the supporting project proposal and believe that all records included in this project relate to interests in real property.

If you are requesting grant funding to improve the security of your county's general information technology systems, please describe generally the security measures to be undertaken with grant funds and explain why/how the improvement is necessary to improve the security of your electronic filing system.

Three components of this project will improve the Jackson County's security position:

1. Capture of physical books to prevent loss of collection from a disaster or general deterioration of the books.
2. Re-classification of some pages of Discharge Records that were identified in our general Land collection to a "Private" view where only staff will have access. Protecting Veteran's private information.
3. Redaction of Social Security Numbers that have been identified on documents in our existing Historical Document Archive.

If the grant is for temporary staff, what specific project will the staff be working on? (Please attach a Statement of Work). N/A

How do you plan to segregate grant funds from county funds?

The Jackson County budget officer will track all funds through a separate line item within the Jackson County Clerk's central data processing budget.

Will any monies from your technology fund be used for the purpose(s) contained in the grant request? If yes, how much? NO

If no, explain the plans for the use of your technology fund. Building up our technology fund for eventual equipment that may need replacing

BOARD

Will this be (or was this) a competitive bid process (RFP) or an upgrade to an existing system?  
Upgrade to our existing Historical Document Archive hosted by ArcaSearch.

Will the grant award increase your annual maintenance costs? If so, do you have a long-term plan to budget for the increase?  
Yes, \$420.00 annually. Will also use moneys collected through our e-commerce platform and build into our annual budget as needed.

Describe how the funds will be used to achieve the stated business purpose and core goals.

A) To assure the security, accuracy and preservation of public records: Yes, as stated above
