2.0 Definition of Bingo and Raffle Terms

A. Bingo Game: A bingo game starts when the first numbered object, ball or number is selected at random or randomly generated by machine, and called, WHETHER BY A HUMAN OR BY AN ELECTRONICALLY SYNTHESIZED VOICE, and continues until all the objects or balls have been returned to the receptacle or the machine THAT GENERATES RANDOM NUMBERS has been cleared. A game may have two or more parts with different winning patterns for each part, if the total amount of prizes offered or given for all parts of one game does not exceed, in amount or value, the maximum prize that may be offered or given in a single game of bingo.
