Dear Ms. Gyger,

I applaud your efforts to allow only big corporations and big organizations the right to free speech. They should have the right to terrorize individuals with lawsuits and threats. Individuals should not have the right to free speech. It gets in the way of corporate and big organization interests. So I applaud your efforts to maintain the communist state of Colorado.

Obviously, I do not believe any of the above. With regards to free speech, everyone should have the right to free speech and not be terrorized by lawyers and their lawsuits seeking to destroy free speech. I am writing to you to comment about Colorado's campaign laws and ask you to preserve free speech.

With regard to Colorado's campaign laws, you have to ask what is your goal? Are you merrily trying to track large amounts of money that are affecting Colorado? Are you trying to stop the large amounts of money? What is your purpose? In the meantime, don't destroy free speech by allowing unaffordable regulations the ability to stop free speech because of the cost and complexity, or we will really have a communist state of Colorado.

Sincerely yours,

Alan Guillaudeu, CPA
