Subject: Canvass Board Proposed Rule Changes

Dear Secretary of State Gessler,

It is my understanding that proposed new rules would allow the county clerk to pick canvass board members for the minor political parties, effectively "rubber stamping" the clerk's agenda. America has suffered and continues to suffer from the 'two sides of one coin' stranglehold the Democrats and Republicans have had for far too long. As a minor party member and American who believes in freedom, choice and fairness, I strongly disagree with the proposed rule changes. As I work during the week, I cannot attend the meeting on July 23 from 2-5pm, so I am expressing my concern in this format. America needs a diversity of voices and viable political parties, and I believe Colorado needs to set a positive example by promoting a pluralistic electoral system, not a negative and regressive one.

Thank you for considering my views.

Sincerely,

Alexander Clayton
Denver, CO
