Good Afternoon,

We have one additional comment/clarification on behalf of the Election Statute Review Committee of the Colorado County Clerks Association.

Rule 11.4.2:

It appears that changes were made to (F) which used to be 'County Test Ballots' which in practice was the test deck that is run under the hardware diagnostic test to prepare for the LAT. The way that (F) is re-worded, it appears to change the structure of how (F) was intended to work. Perhaps, (G) should be move to follow (E) and (F) should be its own section or at the beginning of that rule (in preparation for the LAT) with possible clarifying language to indicate that this is the test deck.

Please let us know if you have questions regarding this comment.
