Dear Secretary Gessler:

I am a voter in Jefferson County, and a member of the Jefferson County Republican Party and a founding member of the South JeffCo Tea Party, as well as a PC, Secretary for HD 22, at-large member of the Vacancy Committee for SD 22, and the campaign manager for Tina Francone's bid for RTD in District N. Accurate and honest elections are critical to having citizens being correctly represented in our political process. I and many of my friends are concerned about mandatory mail ballots in Colorado and the resulting lack of meaningful controls on elections. Ballot harvesting is a growing concern that your recently proposed rules 7.2.5 and 7.2.6 attempt to curb by requiring documentation of third party deliverers of ballots.

However, the November, 2014 elections need protection in an urgent manner and I strongly urge you to take the following actions to further protect the integrity of our elections:

1 - Please amend the proposed effective date of the rules to be immediately effective in order to protect the November 2014 election.

2 - Please amend Rule 7.2.6 to require both the name AND address of the third party deliverer, as is currently required in municipal and local government absentee ballot provisions. With 3+ months advance notice, election officials can easily plan to have their ballots printed with this important message for meaningful enforcement of the 10 ballot delivery limitation currently in the law.

3 - Also, please have the information printed on the ballot per Rule 7.2.5 warn against collection of more than 10 ballots, not merely the "drop off" of more than 10 ballots.

Thank you for your consideration of these requests.

Best Regards,

John Ansted

Dear Secretary Gessler,

I am extremely concerned with the vote harvesting that will continue and increase unless some VERY STRICT measures are put into place. Even then it will only be after the fact that lawbreakers will be dealt with.

While your proposed rules 7.2.5 and 7.2.6 attempt to curb this by requiring documentation of third party deliverers of ballots, the upcoming elections this year need more urgent protection.

Please amend the proposed effective date of the rules to be immediately effective in order to protect the November 2014 election. Please amend Rule 7.2.6 to require both the name AND address of the third party deliverer, as is currently required in municipal and local government absentee ballot provisions.

With 3+ months' advance notice, election officials can plan to have their ballots printed with this important message for meaningful enforcement of the 10 ballot delivery limitation currently in the law.

Also, I urge that the information printed on the ballot per Rule 7.2.5 WARN AGAINST COLLECTION OF MORE THAN 10 BALLOTS, not merely the "drop off" of more than 10 ballots.

Further, these regs need real TEETH. If we don't vigorously prosecute voter fraud lawbreakers then how in the world will we ever curb the law breaking?

Thank you for your consideration! Voter fraud reduction was the cornerstone of your candidacy for this office. Please go the extra mile here. Colorado with its all mail in ballots is a festering sore of voter fraud possibilities. Thank you for taking the necessary action to protect our citizens' votes!

Sincerely,

Nancy Wenlock
