Subject: 10.1.4 now 10.2.3 Disclosure of occupation and employer

My comment is that it serves no purpose to know an individual's occupation. When entering the contribution, there is a limited number of codes for the contributor's occupation (see list below) that must be entered. Many of the codes are related to an industry, not an occupation. How would one enter a Truck Driver? The list of codes would have to be very large to consider most occupations. Then there is the issue of memorizing the codes and TRACER does not accept descriptions. To what purpose does getting an inaccurate description of one's occupation serve? Chuck O'Reilly [REDACTED]
