Subject: Comments - working draft election rules

May I suggest that you review the way that laws were interpreted before Chief Justice of the supreme Court, Earl Warren' tenure. To place some kindness and humanity in law as apposed to the present harsh and strict way. The necessity of a law protecting itself by the law is needed but our most important product of the law is human personality. The law must serve itself but perhaps it could be a bit more concerned with the humanity of the people it protects.

R. Mike Wallace
