---

We would like to ask again for a form put out by SOS and available at the counties that allows U voters to opt out of receiving a primary ballot for both state / local and as well Presidential elections.

If this is something people can do on their own and of their own free will; we dont understand why this is not possible. People have the right to vote or not to vote and if people are telling you; they are not going to vote; it further saves the state / county from sending out a ballot that is not going to be used.

We are a U voter by choice and we know we are not going to be voting as 305 forces you to tell all and sundry which primary party ballot we asked for and or turned in. That to us is a violation of the secret ballot provision in the CO Constitution so we have no intention of voting in the primary.

Thank you for your time.

JM Fay
