Subject: Proposed Amendments to Proposed Election Rules
Date: Saturday, September 30, 2017 8:28:51 AM

Hello:

The following are my comments and suggestions regarding the proposed draft of election rules.

Comments Regarding Rule 2.14.4

The way this is worded it appears that SCORE reports and exported SCORE data can be run and scheduled outside regular business hours. The intent of this rule appears to make such reports and information unavailable 22 days prior to election.

If there is an operational reason to print or export outside of normal business hours, so state that as an exclusive reason and rationale.

Recommended Changes

Recommend deleting word “during” from Page 1 line 14 and the words “regular business hours” from Page 1 line 15.

As changed this section would read as follows;

2.14.4 Without written authorization from the Secretary of State, the county clerk may not run or schedule to run SCORE reports or exports that include voter or election detail ~~during regular business hours~~ beginning 22 days before election day and from 7:00 am to 7:00pm on election day. A COUNTY THAT USES AN AUTOMATED SIGNATURE VERIFICATION 2 DEVICE MAY RUN THE EXP-004 REPORT DURING THIS TIME.
