Hello,

This isn't necessarily public comment regarding the proposed rules/changes, but I just happened to notice a reference in 7.5.1 to 1.1.43 which actually should be 1.1.45. Perhaps it was originally 1.1.43, but with the new definitions it probably pushed the video security surveillance recording definition down.

Just thought I'd let you know while there was some cleanup going on.

Thanks!
