Date: Tuesday, January 23, 2018 7:21:21 PM

25.2.2 (i)

In case there is no state contest the suggested wording should be: "THE SECRETARY OF STATE WILL SELECT at least one statewide contest, **and/or** for each county at least one LOCAL contest."

25.2.3

Can it be clarified that the audit board is not required to observe the pulling of containers? Would like the ability to at least download selected container information, pull out and organize containers, in advance of the audit. Particularly, when there are more than 25 containers to be pulled. Can you clarify if audit board is supposed to verify the seals before opening container or after the ballot has been pulled.

25.2.3 (E)

What is the timeframe in which the SOS "may instruct the county to delay canvass"?
