---

Objections to proposed rulemaking:

I disagree and oppose the proposed requirement that a Notary in good standing (i.e., absent any disciplinary inquiry/action) take a class and test as a prerequisite to renew his/her license.

I agree with another commenter: This puts an undue and unnecessary burden on the renewing-notary to find acceptable vendor or course curriculum and testing facility; this change would only be acceptable to me if the Secretary of State provides an on line education and testing site and they shoulder the burden of testing.
