Dear Madam Secretary,

I have two concerns:

First, protect Colorado from a hostile adversary take over. Look at A.G. Barr and how to enforce the Constitution.

Second, removing candidate information from the internet after seven-years, for instance, where the person declined to run. Activists can be harassed on the internet by companies seeking financial gain with personal information.

Thank you, for your hard work, and thank you, for your team's hard work,

Andrea Duran-Carpenter
