Subject: [EXTERNAL] Notary Rulemaking Webinar Hearing 11/16

Hello!

I am hopeful I can make this meeting. I have been a Notary Public for the wonderful state of Colorado for nearly 11 years now. My notary commission is a sense of pride for me.

For these remote rules, I personally believe that the requirement to keep a video file of the notarization to be absolutely unrealistic and ridiculous. Keep that file where, exactly? Who is paying for that data?? Can notaries charge the state or seek reimbursement for it? That rule should be reconsidered because it seems unachievable and burdensome, honestly.

Perhaps, too, there's a refresher to Colorado businesses on what actually needs to be notarized these days. I think that could be helpful as well.

If I think of anything else, I'll write back.

Thanks so much for the work you do!! Take care!

In this together,

Jaculin
