I OBJECT to the implementation of all these rules. It is very apparent they are driven by SOS being caught doing things that should NOT have taken place during the Colorado Elections processes. This is a political attempt to CROWN the SOS as though she is above being questioned. This is still America and she should not have all the control she seeks. We need smart, courageous employees to feel empowered and safe to bring forwarded issues needing corrected or reviewed without fear of retaliation like being arrested, having the FBI raid and ransack workers homes.

THESE RULES ARE A RETALIATION AND SHOULD BE STOPPED!!!
