I have read the proposed rules that are to be changed. I would like to say that I DO NOT AGREE. This seems like an illegal act. One person should not have authority of changing the rules. This is dangerous slope we are on and we must not keep going in this direction. If this is truly something that needs to be changed, it needs to be changed by voters. Not one person. We are not a dictatorship country, please stop trying to make it one.

Thank you.
