Our elections are secure and safe as is, this is another MAGA gripe because they believe the entire Trump 2020 US conspiracy that the election was stolen.

This is another “if you can’t beat um, cheat um” strategy that is playing out all over the country by American Republicans more specifically MAGA that can’t take the loss & move on to win an argument with the majority of its citizens.

Montezuma county has secure elections & a county REPUBLICAN recorder that has it all in hand with integrity.

They keep throwing spaghetti and the wall is covered.

Sincerely

Lisa Beams
