**Subject:** [EXTERNAL] Maximum time after an election closes that newly received ballots are accepted and counted under newly proposed rules  
**Date:** Thursday, August 10, 2023 3:38:34 PM

---

1. Do the rules being proposed extend the maximum time after an election has closed that a ballot can be received and counted?
2. What is the current maximum time?
3. If it is being extended, what is the new maximum time?
4. Has the office of the SoS considered that this interval is the only time is the best time to determine how many illegal ballots are required to alter the outcome of the election and the longer that interval the more time that is available to alter the paper ballots to support the fictitious tally.

I am using this avenue to present these questions because you do not respond to phone calls or emails.
